QUEBEC AND NEW BRUNSWICK.

The spruce lumber market has been
much strengthened by the early appear-
ance of spring, which has induced a brisk
demand. Manufacturers are receiving
numerous inquiries for stock for immediate
shipment to the United States, while there
is also more activity and a better tone in
respect to British trade. As in some dis-
tricts the cut of logs was less than antici-
pated on account of unfavorable operating
conditions, there is little fear of a decline
in prices. On the St. John and Salmon
rivers several operators have been unable
to get all their logs to the streams.

Spruce laths are disposed to strengthen,
most sales being made around \$3.15 for 1 $\frac{1}{2}$
inch. Extra cedar shingles from a reliable
manufacturer at less than \$3.50 on Boston
rate of freight are now considered a bar-
gain. Smaller manufacturers are selling
as low as \$3.40, but this can scarcely be
taken as the market price.

MANITOBA AND BRITISH COLUMBIA.

The lumber trade continues active and the
market firm. Within the week there have
been no price changes excepting in respect to
British Columbia shingles, which, accord-
ing to report, have been advanced
ten cents per thousand. The new price is
intended to apply to territory east of the
Rocky Mountains, making the price in
Manitoba and the Territories \$2.75. At
British Columbia points the figure remains
at \$2.25. Shingle manufacturers claim
that the cost of production has increased
much more than the selling price and that
the new list will not give more than a fair
margin of profit.

While the lumber business in British
Columbia is in a prosperous condition, the
trade is somewhat unsettled on account of a
new regulation in respect to timber licenses
which has been put into effect by the
Provincial Legislature. This regulation
provides that in future no special license
to cut timber on Crown lands will be
granted or renewed until after the applica-
nts have had the limit surveyed by a
provincial land surveyor. Loggers con-
tend that the expense of making surveys
will be exceedingly large.

UNITED STATES.

The lumber situation in the United States,
as a whole, is most satisfactory. Retail
dealers are placing orders quite freely,
which is taken as an evidence that their
stocks are low. As the demand through-
out the winter was heavier than usual, it
is surmised that retailers will be heavy
purchasers of lumber this spring. North-
ern pine is exceptionally strong, the de-
mand being reported in excess of the sup-

ply. This is exceptionally true with respect to low grade stock. Box makers are experiencing difficulty in securing the necessary lumber for their factories and are picking up mill culls and scots wherever they can be located. Within the past month low grade stock has come into prominence, whereas the call for the upper grades has declined and stocks have accumulated. This is explained, no doubt, by the high price asked for the best grades.

In the Buffalo market inch uppers have been held at \$86, certainly a fancy figure, and as a result users of that grade of lumber have employed substitutes wherever it was possible to do so. The export trade is more active than for several years, 12-inch barn and box being in good demand for that purpose. Eastern wholesale dealers report that there is no talk of advancing prices, as it is felt that such action would curtail the eastern demand. If, however, there should be a further advance at producing points, it will be necessary for wholesale dealers to fall into line.

Hemlock and hardwoods continue strong. The demand for hemlock is in excess of the facilities for supplying it. In Michigan as high as \$12 at the mill is asked.

There has been a flurry in the shingle market, caused by the situation in respect to red cedars. Prices of these shingles are somewhat weak, and it is reported that the Washington manufacturers are considering the closing down of the mills for a time.

GREAT BRITAIN.

British importers are still resisting the increased prices asked for lumber by White Sea and Swedish shippers. It is reported that the latter have reduced their asking prices five shillings per standard, and that as a result some contracts have been closed. Earlier in the season importers exhibited a similar attitude in respect to Canadian lumber, but as the opening of navigation approached they gradually met the views of shippers and a considerable quantity of pine and spruce deals has been bought. The price of New Brunswick spruce deals is now firmly established at £7 10s per standard c.i.f. London and Liverpool for the usual specification of 60 to 65 per cent. 7 and 8 inch. This is equal to \$19 per thousand feet. The consumption in Great Britain is not all that could be desired, but the opinion is advanced that a better tone will prevail from now on. Prices realized at recent public sales have been somewhat heavy, due probably to the indisposition of buyers to increase their stock of lumber very largely at a time when new stock is about to arrive. Reports from Ireland are not encouraging, the high prices asked for Quebec pine and spruce having induced some importers to purchase more heavily of pitch pine.

NEW BRUNSWICK CEDAR SHINGLES.

The market for New Brunswick shingles has recently stiffened slightly, and the production of well known mills is bringing \$3.50 for extras. Less known and doubtful brands are selling at 10 to 15 cents less. The weather now is such that more shingles are being used, and as the winter mill production has been nearly cleaned

out the indications are that the yards will be ready to buy freely by the time the summer mills start sawing. It is also likely that many of the strikes now on in building lines will be settled by May 15th, so that the season should open with a fairly brisk demand. General indications are, therefore, that prices will be held at present figures or higher. Quotations for standard shingles on Boston rates are as follows:

Extras, \$3.40 to \$3.50; Clears, \$2.95 to \$3.00; 2nd Clear, \$2.40; Clear White, \$2.30; Extra No. 1, \$1.75.

STOCKS AND PRICES.

The Tracadie Lumber Company, of Sheila, N.B., took out about 13,000,000 feet of logs during the past winter.

Timothy Lynch, operating on the Miramichi River in New Brunswick, succeeded in getting all his logs to driving waters.

The O'Neill Lumber Company, of St. Martins, N.B., will have a smaller stock of logs than anticipated, as operators were obliged to cease work in the woods earlier than usual.

By the breaking of a boom at St. Romain, Que., 15,000 logs belonging to E. Atkinson were set adrift. Most of the logs have been recovered, but at considerable expense.

Since January the Canadian Northern Railway has transported over 2,000,000 feet of saw logs from Whitefish and other points to Port Arthur for the Pigeon River Lumber Company.

It is reported that about 7,000,000 feet of logs cut on the Tobique river, in New Brunswick, have been left in the woods on account of the mild weather, also 20,000-000 feet cut on the Salmon river.

The Department of Railways and Canals at Ottawa is asking for tenders up to April 30th for the supply of about 155,000 feet b.m. of British Columbia fir dimension timber. The timber is required for the Rideau canal.

The Eastern States is said to be willing to buy heavily of No. 1 lath. The Merrill-Ring Company, of Duluth, Minn., have sold their entire cut for the coming season. Prices are \$3 to \$3.25 for No. 1, and \$2.50 to \$2.75 for No. 2.

In the Saginaw valley white pine shingles are quoted at \$4.35 and \$3.25. XXXX cedar are worth \$4 and clear butts \$2.75. Demand for lath is good. No. 1 pine are worth \$3.75, No. 2 \$3.25, No. 1 hemlock \$3.35, and No. 2 hemlock \$2.80.

The Huntsville Lumber Company, of Huntsville, Ont., are reported to have recently placed under contract almost the entire season's cut of their two mills, estimated in the neighborhood of 15,000,000 feet, and including lumber, lath and shingles.

The following tenders were received by the City of Ottawa for the supply of plank and cedar: W. H. McAuliffe, \$6,710; W. C. Edwards & Company, \$6,722; P. Burns, \$6,872.50; Ottawa Lumber Company, \$5,960. The contract has been given to W. H. McAuliffe.

A report from Sydney, Cape Breton, states that the retail price of lumber is the

highest ever quoted in that town, and that the demand is exceptionally brisk. Spruce scantling is selling at \$14 per thousand, an advance of \$1 over the figure of last year. Hemlock boards are quoted at \$12, as against \$11 one year ago. The most important advance, however, has taken place in the price of laths, which are particularly scarce and quoted at \$3.50 in comparison with \$2.25 last year.

It is reported that the shipments of lumber from Grindstone Island, Que., and Hopewell Cape, N. B., this season will exceed by a large amount the shipments of any previous year. It is said the total will be 28,000,000 or 30,000,000 feet. A number of vessels have already been chartered to load at these places. The ship Honolulu is due at Grindstone Island and the P. G. Blanchard is expected there on May 1st.

Of hemlock the American Lumberman says: Hemlock occupies a rather unusual position. The wood has come into great prominence during the last few months, due to the wide substitution that has of late been a feature of the market. It is now an important factor and the present demand is in excess of the facilities for supplying it. The situation in this wood is a good indication of the general market condition, or rather of a peculiar phase of it. The consumption of lumber has been so heavy that woods other than those ordinarily used have been brought into play and the result has been a large increase in the demand for a wood that formerly was used to only a limited extent.

NEW LUMBER RATES.

A circular was issued on April 7th by the Grand Trunk Railway regarding lumber and lath rates from points in the Georgian Bay district to New York. The route will be by rail to Rouse's Point, Albany and Williams line along the Hudson river. The new rates are as follows:

From Trenton, pine or basswood lumber, per 1,000 feet, \$3.75; laths per 1,000 pieces, 75 cents. From Peterboro, Campbellford, Lakefield, Lindsay, Fenelon Falls, Kinmount, Haliburton, Coboconk, Jackson Point, Orillia, Uthoff, Coldwater, Fesserton, Waubaushene, Sturgeon Bay, Victoria Harbour, Midland, Minessing, Hendrie, Phelps, Elmvale, Wyevale, Penetang, Collingwood, Thornbury, Meaford, Longford, Washago, Severn, Gravenhurst, Muskoka Wharf, hardwood lumber, \$5.85 per 1,000 feet; \$4 per 1,000 feet for pine or basswood lumber, and 80 cents per 1,000 pieces for laths. MARKET FOR WOODEN BLOCKS.

The Eastern Trading Company, of Shanghai, China, has written to the British Columbia Department of Agriculture in reference to obtaining a supply of wooden blocks. The particulars are given in the following extract from their letter:

"Our council have decided on laying down a system of tramways, and we hear privately that in the course of about two or three months tenders for wooden blocks 8 in. x 3 in. x 5 in. will be required, the wood to resemble "Bilbo" as much as possible. This wood being so well known you will not require any explanation, but most of the supplies for this market now come from North Borneo."

"We are unable to give you any exact amount that will be wanted, but our informant told the writer that it would run into several shipments. Seeing that rails 26 miles in length will be laid, you will see that the contract will be worth securing."

"It will be advisable also to have quotations in bulk, because it is just possible that the company who have the contract will be able to cut blocks in this country owing to the cheapness of labour."

"We should like quotations c.i.f. Shanghai, either at per ton or per 1,000 blocks, at the same time if you quote per thousand it will be advisable to know the weight of 1,000 blocks."

Kindly give us full particulars as to the time that you can deliver the goods provided we can place the contract.

"We shall be required to give, say, from 30 to 60 days' credit to the contractors on this side, and if business results, we shall be prepared to accept your bills drawn upon us at 60 to 90 days sight. If necessary, we could arrange for you to draw upon the contractors direct, you to simply pay us a commission of say two and a half per cent. for the trouble; we should then act as your agents."

The saw mill of F. E. Sayre and J. W. Holly at St. John, N.B., was destroyed by

fire last week. The loss of \$4,000 is covered by insurance.
