The copy filmed here has been reproduced thanks to the generosity of:

Library of Congress

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Library of Congress
Photoduplication Service

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

PREFACE.

To give a thorough understanding of this Cipher Code a few words of explanation are necessary.

To secure the best results a careful study is recommended, for in a short time you will know to what particular subject any word used in a telegram that you may receive relates. We believe the system will be found sufficiently flexible and voluminous to convey all information concerning any of the ordinary transactions of your office relating to the apprehension of criminals. It has been compiled with great care, involving patient study, is the result of practical experience, and has been tested by hundreds of telegrams actually sent and received concerning criminals, and embraces suggestions of Peace Officers from the Pacific to the Atlantic.

As far as practicable, it is self indexed. As an illustration, any word beginning with the letters "Ar," means "Arrest, hold and notify me by wire if caught. Individual described as" (subsequently shown in the Cipher).

To convey the information that "He is named," "She is named," "They are named," or "He goes by the name of," etc., *proper names* are used; such as Nash, Napton, Naylor, etc. This is done chiefly for the purpose of confounding any one who is not possessed of the Code.

Any word beginning with "O" relates to the offense for which the individual is wanted. Any word beginning with "Hi," relates to height. Any word beginning with "Ag," relates to Age. Any word beginning with "We," relates to weight. Any word beginning with "Ha," relates to hair. Any word beginning with "E," relates to eyes, ears, eyebrows, etc. Any word beginning with "Be," relates to beard, mustache, etc. Any word beginning with "Comp," relates to complexion, and "Lo," to location, and so on throughout the system.

In the selection of the words used to convey information, much care has been exercised to eliminate any word that would likely be "bullied" by the telegraph operator. The neglect of this feature is a fruitful source of trouble in many other Telegraph Codes. As the compiler of this work has spent many years as a telegraph operator, it is believed that we are enabled to render such errors quite improbable.

At the end of each subject we have left a number of words with corresponding blank spaces where sentences can be added, which, however, we believe will be chiefly useful between officers and their deputies or assistants.

T OF CONGRESS, IN THE YEAR
& Co., ST. LOUIS, MO.,
MARX OF CONGRESS, AT
ON, D. C.
RESERVED.

If for any good reason it is deemed desirable to alter this Code between any certain number of individuals by a previous agreement with your correspondent, the word telegraphed may be taken and held to mean a specific number of words from the one really used. To illustrate: Suppose the third word above the one really intended to be conveyed is sent, by a previous understanding, the true meaning will be known. If it is necessary to use the first three sentences, other words would then be necessary to indicate their meaning.

We expect to make our shipment of these Codes in June, 1885, and monthly thereafter for one year, without additional cost, we will supply full and complete lists of subscribers or users. Each book is numbered, and as far as lies within our power we will keep a record of it.

It is our expectation and intention to sell these books only to such officers as we have indicated, and if their deputies or assistants desire to be supplied, the order must come through the principal. We will spare neither time, labor nor expense to place these Ciphers in the hands of every responsible peace officer in the United States and Canada, and we ask that you realize the magnitude of our undertaking, and the further fact of the increased value to all who have purchased it, by its widest use and that each officer can most likely more easily prevail upon a brother official to provide this Code than we; and we ask as a special favor that each possessor of this book write to at least one brother officer and urge him to procure it.

Trusting you will appreciate our labors in this matter, we are,

Respectfully,

GEO. D. BARNARD & CO.

If desirable, in sending a telegram, omit either of the first three sentences below, as they are not necessary to make sense.

In case they are omitted, the word "named" is implied by the preceding word beginning with "ar."

NAME—Continued.

Nast, He claims to be.....
 Navy orthy, " " employed by.....
 Nathan, For prudential reasons I do not give his (or
 her) name.
 Naughton, You can ascertain name by inquiry of or at.....
 Naylor, For prudential reasons I spell the name out in
 the following cipher:

When necessary to transmit *secretly* the name of party wanted,
 the following arrangement of the alphabet will be found
 useful:

A	B	C	D	E	F	G	H	I	J	K	L	M	N	O
W	X	Y	Z	a	b	c	d	e	f	g	h	i	j	k
P	Q	R	S	T	U	V	W	X	Y	Z				
l	m	n	o	p	q	r	s	t	u	v				

The first line represents the true alphabet. The letters
 below them are the letters to be used in transmitting the
 name. Thus, should you wish to send the name

John W. Baker,
 you would write it thus:

F K D J, S X W G A N.

But as the Telegraph Companies will charge as one word,
 each letter, it will be expensive, and need not be used except
 where necessity requires it.
