WATERS
RECEDE

Hundreds of Marooned Survivors Taken From Roofs and Upper Storeys
Frantic Scenes When Dead Are Identified—Food For Starving Thousands

MORGUES
BESIEGED

LOOTERS SHOT--EXCITEMENT RISES RIOT--SERIOUS TROUBLE EXPECTED

FIVE HUNDRED PEOPLE RESCUED FROM ROOFS AND UPPER STOREYS SCORES OF BODIES RECOVERED

WATER IN ALL SUBMERGED DISTRICTS HAS FALLEN ABOUT FOUR FEET, AND SAVE IN CENTRE OF DAYTON BOATS CAN REACH SUFFERERS—FRANTIC CROWDS FLOCK TO MORGUES TO IDENTIFY DEAD—SUPPLIES RUSHED IN.

WEST DAYTON, O., March 27.—After a day of grueling work, volunteer rescuers have removed more than half a hundred bodies from the waters of the Great Miami River and Wolf Creek, and saved upward of five hundred who for two days have been clinging to roofs or living in upper storeys. With the coming of nightfall the efforts to rescue more persons were slackened, and all of Dayton now in the central flood district waited in dread of the nightly fires which have added horrors to the already terrible situation. No fires have been seen in the central district since noon, but the knowledge that thousands of persons are trapped on upper floors of the buildings where help cannot reach them adds terror to the night.

Water in all inundated districts has fallen from three to four feet today, and the currents of the river and creek have slackened so that it is possible, except in the centre, for small boats to reach sufferers.

NEED MORE TROOPS.

Company F of the Ohio National Guard, from Eaton, O., is patrolling the streets of West Dayton. The local company is on duty in Dayton View, and Adjutant-General Wood today wired Governor Cox, asking that the militia, either Ohio or any nearby state, be rushed here. Local authorities believe that militia from Indiana could reach here within the shortest time. In addition to the militia, the local police force not caught in the central flood district and volunteer guardsmen are on duty. In the West Dayton flood district no persons are allowed to enter except on a militia pass.

CROWDS BESIEGE MORGUES.

At the rescue stations the scenes enacted today were heart-rending, and the most pitiful scenes occurred at the temporary morgues.

At the West Dayton morgue frantic crowds all day and tonight watched every body brought in, hoping against hope it was not that of some loved one. Women became hysterical at times when searching for missing members of their families, whom they had failed to find at the relief stations. In addition to refuge homes the authorities in each section are maintaining an identification bureau where all persons rescued or cared for are registered. There friends are directed in their search.

PROVISIONS POUR IN.

The flood situation which threatened to become serious was relieved temporarily by the arrival of a special train from Richmond, Ind., bringing seven cars of provisions. Tonight Quartermaster Logan received word from United States Army Quartermaster Aleshire, that 300,000 rations had been ordered shipped here from Chicago, 100 ranges and one complete quartermaster's depot from Columbus, 3300 tents, 100 hospital tents and 400 stoves from Philadelphia and 300,000 blankets and 500 bed sacks from St. Louis or Cincinnati. Quartermaster Logan is authorized to purchase in open market all rations needed.

ORGANIZATION DIFFICULT.

The thing that makes the situation more difficult for concerted rescue work is the peculiar geographical situation of the town. It is divided into six sections—Central Dayton, comprising the downtown business district; West Dayton, the territory extending several miles west of the Big Miami; Riverdale, the northeast, across the river from the central district; Dayton View, the extreme northeast; Central Dayton, the manufacturing district, in which the National Cash Register Company's plant is located and separated from the central district by lowlands which are deep in flood waters, and North Dayton, northwest of the business district, across the river from the business section.

The river forms a horseshoe around the business district, making it impossible to reach this section until the torrents that are pouring down the valley recede. Dayton View, West Dayton and Riverdale are the only sections between which communication is possible.

FEAR GRUESOME SIGHTS.

Hourly apprehension of the appalling sights that will be uncovered when the waters return to normal is growing. It is nearly certain that bodies of luckless ones caught in the first rush of the flood will be found. Pestilence is feared, and already sanitary and health officials are mapping out their work. Sewers of the entire city were burst by the flood, manholes were simply blown from the earth. It will be many days before the water service can be restored, and it will be more than a week before street car companies can operate. Electric lights are something which probably will not be known in Dayton again for from ten to fourteen days, and authorities believe energetic measures necessary.

It is impossible to learn the names of the dead so far recovered. Only one body in Riverdale has been identified, and those recovered are being taken to temporary morgues, churches and private homes, so that an accurate count of the bodies is impossible.

LOOTERS SHOT BY MILITIA

WEST DAYTON, O., March 27.—(Can. Press)—The police and militia report that looters are working the central district. All persons not able to give a satisfactory explanation of their actions are arrested. Persistent but unorganized looters tell of looting being shot. Excitement is running riot. The wildest rumors are in circulation, and serious trouble is expected at almost any moment.

NEW STORIES OF TRAGEDY EVERY MINUTE

WEST DAYTON—Six hundred persons trapped in the Union Station here, reported to have been drowned, were rescued tonight. For three days they have been standing packed like sardines in a box.

FIRE GLARE SEEN.

WEST DAYTON—Fire broke out in the central district tonight. It appears to be east of those of the previous night, in the wholesale district, and its glare can plainly be seen from West Dayton.

RESERVOIR INTACT.

MUNCIE, Ind.—A private message from Lima, Ohio, dispatchers' office of the Lake Erie and Western Railroad to the Muncie office, says that Celina, Ohio, reservoir is intact and that indications at present are to the effect that all the banks are strong and holding firm.

SEVEN FAMILIES GONE.

INDIANAPOLIS—An unconfirmed rumor reached here tonight that several families were completely destroyed by a sudden rise and overflow of Lower Salt Creek, in Brown County. The county has meagre telephone connections and those of service, cutting off all means of communication. The rumor says property losses will be \$150,000.

RELIEF TRAIN STALLED.

WASHINGTON—A telegram to the war department tonight from Basic City, Va., said the special train carrying Secretary Garrison, Major-General Leonard Wood and a number of officers to the flood-stricken districts, had been held up because of a wash-out west of that place. The train left here this afternoon at 3 o'clock.

REPORTS DENIED.

INDIANAPOLIS—Lt.-Gov. William P. O'Neill of Mishawaka, who is at Peru directing rescue work in that stricken city, telephoned the Associated Press tonight that the report that 20 persons were found dead among the refugees in the court house here, is absolutely untrue. Lt.-Gov. O'Neill said he knows of 12 or 13 dead and that the death toll will be much larger, but he would hazard no guess as to the total number of fatalities in the flood.

FIREMEN AT WORK.

WEST DAYTON, O.—The First National Bank Building in Central Dayton is burning. The flood waters have so far receded that firemen with an engine succeeding in getting across, and all persons who wish to leave are being brought out. The Third street bridge over the big Miami River is safe and it appears that by daylight the militia now guarding the district will know the full extent of the disaster there. Many persons there tonight refused to leave, believing they could better secure food and clothing than in other parts of Dayton.

RELIEF TODAY.

TOLEDO—A New York relief train and other relief trains which were en route to Toledo tonight, were held up by the Associated Press tonight requesting that the authorities in Dayton be informed that enough food, medical and clothing supplies would reach Dayton Friday afternoon to materially relieve distress. The purpose of the message was to have Dayton authorities prepare unloading facilities.

An Expensive Prima Donna.

Bessie Abbott, who heads the cast of "Robin Hood," which will be revived on a grand opera scale at the Princess Theatre next week, is said to be the highest-priced prima donna on the light opera stage. It is whispered that the former star of the Metropolitan Opera House in New York, and of the Grand Opera in Paris, receives \$500 every time that she sings the role of Maid Marian.

DAYTON IS PLUCKING UP COURAGE WATER RECEDES, FOOD PLENTIFUL

DAYTON, O., March 27.—(Can. Press)—The flood situation tonight appeared brighter than this morning.

There was food for the town's breakfast and dinner left after 6 o'clock tonight, and it was believed the many trains of food and provisions on the way would reach here tomorrow.

The water receded rapidly today. An occasional snow flurry and biting gusts of wind added to the discomfort of the rescue crews, but they remained steadily at work.

The emergency committee today began publication of an official newspaper from the plant of the National Cash Register Company. It was a one-sheet poster, designed for free circulation in all accessible parts of the city. Its leading article warned the people to beware of thieves and burglars.

CANADIAN NORTHERN MAY GET FEDERAL LOAN OF \$40,000,000 CONFERENCES INSPIRE REPORT

Mackenzie and Mann Interests Understood to Have Strongly Impressed on Both Party Leaders Railway's Inability to Finance the Extensions—Pending Merger With C.P.R. is Rumored.

The Canadian Northern

The news from Ottawa that the Canadian Northern is in need and is asking financial help from the government in order to keep its large construction works, now under way, is undoubtedly true. Sir Edmund Walker threw out the first intimation last week, when he said ordinary Canadian securities were not marketable in London at this moment.

Whether the government has decided to come to the assistance of Mackenzie and Mann is not yet confirmed. But we imagine that the matter is under immediate and pressing advisement.

Contractors with thousands of laborers are at work from Ottawa to Port Arthur, and in British Columbia. Probably the biggest program of construction ever attempted in Canada is now under way; to allow it to stop would have a far-reaching effect.

A full and frank disclosure of the situation will be immediately looked for by the public.

REFUGEES DEAD FROM EXPOSURE

Twenty Succumbed After Finding Haven in Court-house at Peru, Indiana.

LAFAYETTE, Ind., March 27.—(Can. Press)—A special telephone message to friends here tonight from C. D. Emmons, general manager of the Northern Indiana Traction Co., who is stranded in the flood-stricken City of Peru, said that 20 have been found dead among the refugees in the court house there.

"They are moving the people from the court house in boats and it was found that 20 of the refugees had died from exposure," Mr. Emmons said.

Smallpox and diphtheria broke out among the hundreds of persons packed into the court house and today an entire corner of that building was quarantined and all the rescued persons suffering from contagious diseases were removed to that additional confinement.

WABASH RIVER JOINS RAMPAGE

More Than Seven Hundred People Are Driven From Homes.

WABASH, Ind., March 27.—(Can. Press)—Seven hundred and fifty persons are homeless as the result of the high flood in the Wabash River. The city is without gas, water or lighting facilities. The schools are closed and the mayor this afternoon issued a proclamation ordering that all saloons and business houses be closed at 6 o'clock, and instructed the police to keep the people off the streets. This was done on account of the fear of fire. Citizens have had to use candles and lanterns during the last two days. There has been no loss of life, but the property loss will be more than \$250,000.

No communication with the outside world has been had since Monday until this afternoon.

EIGHT FEET OF WATER COVERS ZANESVILLE AND NEARBY TOWNS PEOPLE STARVING, AWAIT SUCCOR

Practically Impossible to Get Provisions to Sufferers as Within Radius of Twelve Miles District is Deep Under Water—Loss of Life is Large, But Not Nearly So Great as in Dayton and Other Centres.

COLUMBUS, O., March 27.—(Can. Press)—With many towns in the Scioto and Muskingum Valley isolated tonight, it was impossible to gather information that would tell the extent of the flood in these sections. There is undoubtedly loss of life in these two valleys, but compared with the staggering death tolls reported from Dayton, Columbus and other points, the casualties were small.

Direct communication with Chillicothe, 50 miles south of Columbus in the Scioto Valley, tonight established the fact that there had been loss of life there. It was said that at least 20 were known to be dead, but that the total fatalities would not exceed 25.

No information from Portsmouth or other points south in the Scioto Valley could be obtained tonight. These towns are known to be flooded.

Mount Vernon remains isolated, but information obtainable from roundabout sources indicates that early reports of heavy loss of life were exaggerated.

WATER EIGHT FEET DEEP.

It was impossible to establish connection with towns in the Muskingum River Valley east of Newark today or tonight. Zanesville is known to be suffering from the flood, and telephone advices from the vicinity of that city late today were that there was eight feet of water in front of the court house in the central part of the city. With the exception of wagon road it was said tonight that it was impossible to get within 12 miles of that city. It is not known that any lives are lost, but buildings are known to have collapsed, and the property damage will be very heavy.

FOOD SUPPLIES ARE LOW.

Food supplies in Zanesville were reported to be running very low and efforts were being made to reach there with provisions.

Nothing could be learned of the conditions in the towns east of Zanesville, in the Muskingum Valley, either today or tonight from this point. More than a dozen towns between Zanesville and Marietta are said to be isolated, and so far as telephone or telegraph company officials at Columbus know, tonight they had not communicated with the outside world for 12 to 24 hours.

FROM GREAT MEN AND A MANTEL

Winston Churchill has grown in power, in statesmanship, in ability to command the attention of the world, in administrative capacity. Born of the aristocracy, yet full of American hustle from his American mother, a rough rider in part.

Mr. Asquith is the cool calculating statesman, able to say the most in the fewest words, and therefore the world listens and weighs his every phrase. Asquith is the finished scholar in the highest office in the empire. Oxford lives because it is mother to men like the prime minister.

Sir Edward Grey is another marvelous man: in the field of diplomacy; all Europe awaits his clear and concise deliveries. He has detached himself from everything but his office and his great responsibility. And he never shows the well of human sympathy that suffuses his being.

Lloyd George, the little nervous Welshman of lovely birth, a leader of the masses. He, too, has made his fellow countrymen listen and most of mankind as well. He is trying in his way to make life more livable for those who are toiling, struggling to emerge. His critics call him a demagogue and the aristocrats hate him—and they would destroy him. They are after him now in this Marconi scandal. But he is a hard man to destroy. He may come up stronger than ever.

And these are the four outstanding men in a cabinet of strong men, the most powerful and most resourceful cabinet in English history, held together largely by the Asquith cement.

England has not lost her power of producing statesmen and it may be that one can see the marks of a new revival in English letters, following the present development in politics.

But Politics is a strange jade. Twelve months ago Lloyd George was the man in sight; the rising hope. Winston Churchill was his ally and lieutenant, at least a brother in arms, but junior. Has Winston in the past week slipped ahead, have the revelations of Marconi stock and the gifted speech of the First Lord on Wednesday night and his courageous handling of the navy given him the claim to Mr. Asquith's mantle? After the death of Lord Beaconsfield, Lord Randolph Churchill reviewed in The Nineteenth Century Magazine the position of the Conservative party and concluded dramatically with the question: "On whom will the mantle of English history, laid down by the Asquiths, fall?" Lord Randolph measured his strength in vain. Will Mr. Asquith's mantle fall on the shoulders of Winston Churchill?

Yesterday this question might not have been so easily answered. Today Mr. Lloyd George rests in the shadow of what may be an eclipse. Britain is intensely jealous of the integrity of her public men. Like Caesar's wife they must be above suspicion and the point was forcibly put by Lord Robert Cecil,

one of the brilliant sons of Lord Salisbury, in his cross-examination of Sir Rufus Isaacs, attorney-general and member of the cabinet, over his deal in shares of the American Marconi Company. He did not challenge the attorney-general's integrity, but he reminded him that there was another question—whether his conduct in some other person less scrupulous might not invite the imputation of an improper purpose. Mr. Lloyd George has laid himself open to similar animadversion, as to a lesser extent, has Mr. Asquith, who acknowledged that Sir Rufus Isaacs had disclosed the purchase of the American Marconi stock, prior to his parliamentary denial of dealings in the British company. The incident is unfortunate for the Liberal government, and may require the resignation of the ministers involved, and the disappearance of Mr. Lloyd George as a candidate for the reversion of the mantle of English history. But George is master of many resources.

Cheery Message is Sent From Dayton

DETROIT, March 27.—(Can. Press)—A. J. Kinnucan of the Detroit Motor chassis Co., tonight received a telegram from his brother-in-law, Earl W. Winans, who is marooned with scores of other flood sufferers in the Algonquin Hotel at Dayton.

"Safe and comfortable at the Algonquin; good reading," the message said. Mr. Winans is chief engineer for the Stoddard-Dayton Automobile Co.

FRIDAY MORNING

Men's Club of St. Stephen's Church Addressed by Deputy Minister of Agriculture—A. E. Donovan at Parkdale Baptist—St. Anne's to Hold Fraternal Night on Monday.

The comfortable club rooms of the Men's Club of St. Stephen's Church, at the corner of College street and Bellevue avenue, were blue last night with the smoke of many pipes, for it is a rule of the club that the members may smoke at the meetings, except at the open meetings, to which ladies are invited.

Last night at the St. Stephen's Club Bert Roadhouse, deputy minister of agriculture, and the hon. member for Ontario, "Rural Life and Its Problems" was the subject of his address.

Mr. Roadhouse spoke of the continual efforts of the department which he had in mind, and of the progress of the work in the various branches of the department.

Next Monday night the Men's Club of St. Anne's church will hold a fraternal night in connection with their regular meeting.

DAYTON'S LOSS ALONE WILL REACH ABOUT \$25,000,000

DAYTON, O., March 27.—(Can. Press.)—The above were tentative figures of damage that placed Dayton's pecuniary loss at \$25,000,000, estimated by persons who had explored parts of the flood area.

Several statisticians set the loss at a higher figure, but most experts opinion agreed on \$25,000,000. It was said that 2600 residences were damaged to the extent of \$2000 each, 6000 homes were classified under damage figures of \$1000, and it was believed 7000 could not be repaired for less than \$500 each.

LEASIDE ANNEXATION QUESTION AGAIN REFERRED BACK TO BOARD FOR ADDITIONAL INFORMATION

Mayor Hocken Says No Expense Will Be Added to Toronto If the New Town is Annexed and Urged Prompt Action—More Aldermen Spoke of Being Lobbied for Support on the Plan—Vote to Send Proposal Back Was Thirteen to Nine.

After six hours' debate, upon the recommendation of the board of control to annex Leaside, the city council referred the recommendation back for more information upon what the C. N. R. will assure in the matter of the establishment of their terminals and car shops there.

Controlled McCarthy made a masterly appeal, as business-like consideration of the proposal of the C. N. R. and he summed up the situation by insisting that if the council had its mind made up to refer the matter back upon any terms, to prove it by a vote; but if the annexation of Leaside would be favored the terms more acceptable to refer the board of control's recommendation back.

Not Cricket, But Professional Soccer for the Field at Rosedale

SOCCER GAMES FOR ROSEDALE

New League to Oust Cricket From the Beautiful and Historic Field.

There may be no cricket at Rosedale this year for two reasons. First, the new officers of the Rosedale Cricket Club, former holders of the J. Ross Robertson cup, have not the support of the Toronto Lacrosse and Athletic Association, owners of the grounds, and, secondly, the new pro. soccer league are willing to pay a good rental for the field for all their championship games. Toronto has two teams in the circuit, viz.: Toronto and Queen City, both financed by outside money, presumably from Hamilton and Montreal. President West of Hamilton is at present in communication with the Melrose Macdonald, secretary of the T. & A. A., and the latter functionary states that the deal is pretty sure to be closed. One of the local teams will be at home every Saturday and holiday from May 10 to Sept. 4.

Mrs. Hurd Beaten For Championship

Miss Hyde Came From Behind and Played the Canadian Champion Into Submission.

PINEBURST, N.C., March 27.—Miss Lillian H. Hyde, the metropolitan titleholder, is the new United North and South amateur woman's champion as a result of her victory over Mrs. J. V. Hurd, former international champion. Five hundred people followed the contest, which was a most interesting and dramatic affair, and the interest and closeness of the round, 4 up and 2 to play, is but suggestive of the interest and closeness of the round. The strain of play was apparent in the third round, when Miss Hyde, in the round being 2 to Miss Hyde and 2 to 1 for her opponent, the Canadian champion, Mrs. Hurd, also a gold medal to her credit, went all out to win, but, having been down three times at the sixteenth and losing it.

SALARY LIMIT TO HELP WEAK CLUBS

President Barrow Thinks That New Scheme Will Work Well—On Even Basis.

President Edward Barrow has been interviewed by the Canadian Press at Haddock, Ga., on the salary limit question and the International League pilot thinks that it is a good thing for everybody. When it was pointed out that its adoption was not in accord with the "big league" aspirations, President Barrow replied that to continue without that limit meant neither the International's development as a successful near-major league, "that fact is indisputable," said he, "but that fact could not hope to succeed without the limit." The Rochester, Buffalo and Baltimore are salaries which they can afford to pay from their own resources, but the new arrangement of the teams will be well balanced and all will have a chance to prosper.

Great Dissatisfaction

The members and officials of the league maintained strict silence concerning their deliberations at the last annual meeting at which the salary limit was adopted. They would not be asked to discuss what had been said and done with reference to the present question. They would not even affirm the rumor that the monthly limit was \$600 per club. That figure was the figure submitted to and agreed upon by the National Association. He admitted that the adoption had resulted in a great deal of dissatisfaction, not only in the International League, but in the American Association and Pacific Coast League, which had agreed upon similar limitations as to salaries.

Even Break on Gate Receipts

Mr. Barrow's most interesting statement was to the effect that a proposal was made at the meeting to have clubs visiting Toronto, Rochester, Buffalo and Baltimore share the gates "fifty-fifty." Of course, all but the aforementioned clubs were in favor of that arrangement. In order to change the constitution to that effect, however, it was necessary to get the votes of six of the clubs. The amendment, it need not be stated, was defeated. "There was no alternative. We simply had to adopt the limit," said the president, "our only chance to continue without any restrictions of the sort was to get new cities into the circuit to replace those who could not afford as expensive teams as the stronger clubs. Richmond, Va., is out of the question, and when Syracuse, unquestionably the best prospect, was mentioned, it was pointed out that that city has fallen utterly on former occasions."

Class of Ball Not to Suffer

Mr. Barrow is of the opinion that the class of ball played in the International will not suffer as a result of the slightly smaller salaries. When the league was created double A classification it was called upon to make certain concessions, which was the salary adoption. The chief executive thinks that his classification cut got the better of the bargain when all things are considered. Negotiations between the International and the Buffalo club. The members of the Barrow organization, however, have the power to act and profess to be well pleased, on the whole, with what has been accomplished.

Hamilton Idlers Have a Big Lead

The Hamilton Idlers basketball five come here with a fifteen-point lead over the Toronto club at the Central Arena tonight. The game will be a contest between the Bevels, runners-up in the league, and McCormick, champions of the International League. The line-up will be: Hamilton—Forwards, Smith, Johnson and Vost; centre, Schuchel; guards, Wetherall and Crocker; Centre—Forwards, White and Carlock; centre, Duke; guards, Ford, Smith and McDougall.

Brantford Is Next in Line

BRANTFORD, March 27.—R. Trench, owner of the Brantford Arena, announced here today that he had accepted a bid from the Hamilton Idlers to play at Brantford, with Hamilton and Toronto, will be on the professional hockey circuit next year. An outlay of \$16,000 is proposed by the rink owner.

New Westminster Given Nice Little Pot To Stay in Game On Coast—Victoria In.

VANCOUVER, March 27.—Professional lacrosse is no further advanced on the coast today than a year ago. Representatives of Vancouver, Victoria and New Westminster gathered at New Westminster in annual meeting. After Vancouver and New Westminster finally consented to give New Westminster a certified cheque for \$5000 for three games to be played Wednesdays between Vancouver, Victoria and New Westminster during the season of 1913 in order to give Victoria a berth in the B. C. L. A. The Minto Cup holders presented the great ball to the opening meeting that they would be compelled to withdraw from the coast. It was put up to the other delegates. It was a conference between Con Jones, Lull Vancouver, Victoria and New Westminster, respectively, that it was absolutely necessary to concede \$5000 to New Westminster would consent to remain in the circuit.

JONES AND BIG FOUR MEET ON MONDAY TO TALK ON LACROSSE

D.L.A. Will Not Deal With N.L.U.—Commission Idea is Up Again—Gossip of the National League.

The Dominion Lacrosse Association is slated to meet in Montreal on Monday and the whole situation is to be translated into English. The commission will be on the job and the commission idea will be argued pro and con. Just what the D.L.A. will do is an open question, but President Quinn says that the D.L.A. will certainly not enter into any deal with the N.L.U. Money and the N.L.U. are expected to have the crux of the matter settled by Monday. The N.L.U. players or any others get desired by the "Big Four," or the two coast clubs.

Many Rowing Regattas For the Coming Summer

The rowing season that will come rapidly after this abnormal snow blizzard is away, will be the biggest ever wherever the game of sculls and oars predominates. We will have our own civic Dominion regatta on Tuesday, July 1, and the Canadian championships at St. Kitts Aug. 1 and 2. The following is a chronological list of rowing and sculling regattas in Canada and the States and also the Royal Henley in England: May 10—Triangular Varsity race, Harvard, Pennsylvania and Princeton, on the Charles River, Boston; Saturday, May 17, Princeton v. Annapolis, at Annapolis, Md.; May 20, Harvard v. Cornell v. Harvard, at Lake Cayuga, Ithaca; Saturday, May 24, Pennsylvania v. Annapolis, at Annapolis, Md.; Saturday, May 24, Cornell v. UNITED STATES CRICKET INTERNATIONAL MATCHES

Already Advertising Australians at Philadelphia—Game for Canadian Juniors—Cricket Notes.

PHILADELPHIA, March 27.—Cricket during the coming season is to give a big boom in this city. In the matter of international matches the season of 1912 will leave all previous ones far in the rear. It has now been definitely decided that the United States and Canada from the beginning of May until the middle of September, and according to present arrangements this city has picked up the plums as far as dates are concerned. Three games will be played here, two between the Australians and the Gentlemen of Philadelphia, and one between the Australians and the United States. The order in which they will be played has not been decided upon. The first match will be played on June 20, 21 and 22, the second on June 27, 28 and 29, the third on July 4, 5 and 6. The Philadelphia team will be captained by Victor Trumper, and the Australian team by the late, but not yet definitely announced, international cricket star, Arthur Morris. The Philadelphia team has been allowed to go out of existence and its players will be scattered among the other clubs. The Interstate League will be stronger than ever, and, although some clubs have dropped out, others equally strong have come forward to fill the vacancies. The Interstate League has gone out of existence this season, and the Philadelphia team is in their dot with the Interstate League.

Prices of Thoroughbred Horses Going Up!

James Butler Buys Thirty-six Keeno Yearlings for \$60,000.

NEW YORK, March 27.—James Butler, the ruling spirit of the Empire City Racing Association, is optimistic concerning the sport of thoroughbred racing. He completed the purchase yesterday of thirty-six Keeno yearlings for \$60,000, an average of something over \$1600 a head. These youngsters were bred at Castleton Stud, and in the lot are fourteen colts and twenty-two fillies. Among the colts are a half-brother to the mighty Sionby, a half-brother to Ballot, a half-brother to Dolly Sponser, a half-brother to Celt and a half-brother to Footpad, as well as close relatives to others that made history under the white and blue spots. Among the fillies are sisters and half-sisters to Wedding Bells, Sweep, Sweepaway, Wamba, Selectman, Suitmaggie and Sunnyside.

NEW YORK RACING UPTO DIRECTORS

NEW YORK, March 27.—It is merely a matter of dollars and cents when the racing patrons of this city are asked to contribute to the new racing track, and they are willing to spend the money, racing could begin on April 15. Money and the N.L.U. are expected to have the crux of the matter settled by Monday. The N.L.U. players or any others get desired by the "Big Four," or the two coast clubs.

ST. HELEN'S ATHLETIC CLUB

St. Helen's will hold a meeting this evening at 8 o'clock in their club rooms, 318 Lansdowne avenue, to reorganize the coming season, all of last year's players are asked to attend; also any gentleman wishing to join a good athletic organization. W. Weston, St. Helen's, C. L. and A. A.

MONTREAL CRICKET TOUR

MONTREAL, March 27.—An invitation has been received by the Montreal Cricket Club to have six days' cricket in Halifax and St. John. A circular has been issued to the playing members of the club, and an effort is being made to send a strong team east during the season. Secretary Matthews is desirous of hearing from those who can make it convenient to take the tour, and a date suitable to the majority may be fixed.

Clearing Out Ice At Arena Gardens

Old Man Winter is giving us his last kick, but in the Arena Gardens it is not so much the big ice surface, but the hot water and several inches of snow. The ice at the sides is all clear away and before Saturday the whole sheet will be gone. The whole floor will be laid over the put in sub-panels for the Toronto Club by the 15th of April. This will be the first attraction and the Canadian boxing championships follow. Hotel Krausmann, Indian and German men's grill, with music, imported German Beers, Pilsener, a Krausmann, Open till 12 noon, corner Church and King Streets, Toronto.

"Logwood," in our Yonge Street Annex, Price 18c.

A RECENT IMPORTATION FROM NEW YORK portrays the very newest and most popular shape for the coming season. The distinctive feature of this style is its sweeping curve front, which seems all the more effective after the long period of close-fitting collars. It is a double collar of medium height, and is made of fine quality linen, with finely sewn seams. Quarter sizes ensure a perfect fit for everyone. Ask to see the "Logwood." Sizes 14 to 16 1/2. Price, each 18, or 3 for 50.

A Fine Light Weight Foulard Silk Tie, will make up into an excellent four-in-hand and will not readily crease, as is the case in most materials. It is made with closed ends, and is shown in the new Bulgarian colorings and effects, small and medium-sized figures in all-over effects on plain grounds with plain bordered closed ends. Each 50.

Choose the Clothes That're Built to Suit Your Needs

You should no more tolerate a suit that some manufacturer of yesterday arbitrarily made to meet every need, than you would consent to wear the same style clothes your forefathers wore. In the first place, it is not necessary—and secondly, the average ready-to-wear clothes are lacking the style features that we are everlastingly seeking to embody in our models.

SWING ROUND THE BASEBALL CIRCUITS

Archer Has Signed Up—Rochester Fans Here—Canadian League Doings.

Ottawa will train at Chatham. The roster of the Ottawa, Canadian League, Club is as follows: Pitchers—Hener, Lill, Oestermeier, Leavitt, Carpenter, and McCarthy; Catchers—Rove, McGuire, Fish, one other; Infielders—Robertson, Williams, Arfield, London, Dolan, four others; Outfielders—Shaughnessy, Callahan, two others.

The father of Manager Jack Dunn, of the Orioles, died in Baltimore on Sunday. By the manner in which the recruits good with the clubs higher up in the baseball world, now training in the south, it must be clear that this league is likely to come when promising young ball players are sought.

It would be no speculation to say that all of the four Canadian Leagues now in the south with the Toronto Baseball Club of the International League will make good, and if not retained by them that they will be sent to class B clubs for further seasoning, with the Toronto strings attached, to be called upon later.

Few players drafted or bought from this league have turned out bad, and this season makes promise to be secured more thoroughly for stars than ever before.

This league has undoubtedly drawn the attention of many big league clubs, since the players are making good repeatedly.—London Free Press.

Cony Dolan, last year with Rochester, will be the utility infielder of the Philadelphia Nationals. Dr. Roy Miller will be the utility outfielder.

"I'm satisfied," was Manager Charley Doolin's comment after the Phillies had finished their spring conditioning at Southern Pines, N.C., by defeating Baltimore, 12 to 4.

"We have had fairly good weather here and were only a few days," continued Doolin. "Our pitchers appear to be in prime condition, and I expect that by the time the season opens (April 3), all the boys will be as fit the proverbial fiddlers."

Hanford, Griggs and Mattern are the Montreal hold-outs.

Blue Ribbon Sale At the Repository

The 57th annual sale at the Repository yesterday was well attended and of the hundreds of more harness and saddle horses offered, nearly all were sold at fairly good prices.

Burns did the bulk of the selling. C. A. Murphy, Isaac Watson and J. A. Livingston were also prominent.

A noticeable feature in connection with the sale was the active demand for driving horses in evidence. Lively bidding was shown for the best of these. This sale had the supply of these horses been the number of light speed horses was the bargain of this sale. The best of these were Maida, 2,174, by Royal Rydyk; house four pace, 2,174, by Royal Rydyk; and a half mile track right at 2:12 and there was a knock down for \$250 about 1:30. The best of these were J. Shantz, Waterloo, brn., 2:19; J. Bushnell, Omeenee, bk.m., 2:17; W. H. Things That Crawl!

Q Have you ever bought a suit of clothes that looked fine, when it was sent home, but after you had worn it for a few days, you found the collar "crawling" away from your neck, and you had to "hitch" and "pull" until you got it back again.

Q Then every time you put on that coat you just "hitched" and pulled again until it got to be a habit with you.

Q When a man hitches his coat he admits without confessing it, that he is a victim of poor tailoring. When your coat is made in the great Hoberlin tailor shops it is cut to fit. There's no hitching.

Q The collar clings to the neck—it hugs the shirt collar and it stays there. Hoberlin tailoring is hitchesless, is puckered, and there's never a wrinkle. Every garment is built for the one man in the whole world it is intended for—and it must be right or the money is returned.

EASTERN WOMEN'S GOLF TOURNEY

NEWTON, Mass., March 27.—Officials of the Brae Burn Country Club accepted today the eastern women's golf championship for the week of June 3. This event carries with it the intercity competition for the Griscom Cup between New York, Philadelphia and Boston. The Brae Burn course has been lengthened considerably since the national women's golf championship was held there in 1906. The women's championship will take place during the first three days of the week, and the two rounds for the Griscom Cup will follow during the next two days.

Last week the suffragettes only burned one clubhouse in England.

This Year's Golf Prospects at Canadian Clubs and Courses

Short Sketches of Changes and Shiftings of Links From Coast to Coast—Where Professionals Will Locate.

(By "Lew" Brown.) This year will likely be a record-breaking one in the world of sport, and increase of popularity than the game of golf. The ancient and honorable pastime is gradually forcing its way upward and this year interest should increase around it to such a degree that the sporting public will have the knowledge that it is not only a world-wide athletic attraction, but also one of those in the vanguard of Canadian sports.

And particularly so here in Toronto where there are about 4500 enthusiasts of the stick and ball. Not many years ago one could have counted the courses and the players numbered by the same number of dozens. Today in Toronto it is advisable to change its position to a permanent and well established courses and club houses that compare very favorably with those in America, not less than two more at this early stage are in projection for next year.

The Toronto Golf Club, being the oldest, naturally is the leader to a certain extent, and the Canadian amateur golf lists and the calibre of players produced, while good, carries little. The Toronto Club are this year opening their new course at Etobicoke, just adjacent to the old links, and after a little seasoning they should become one of the best links in the country. The club stood the test for thirty-six years and the land speculators offer provided a fine tract of about 145 acres, and there might be to satisfy the demands of the vigorous growth of the club.

Another new club which has a good start in the Scarborough Golf Club, whose links are located on the Markham road, near Scarborough Village. The clubhouse, which is to be ready for occupation by the end of the year, is a fine structure, up-to-date in every respect. It will consist of two floors and a basement, and will contain thirty-two bedrooms, including special rooms for married people and separate quarters for ladies. There is to be a tiled swimming pool in the basement. It should be the most complete clubhouse in the country.

 renewing publicly the feud which has
 existed for years between himself
 and Lord Charles Beresford, who
 was his superior officer in 1907. Ad-
 miral Scott recounts his version of
 several incidents; the publication of
 which caused a grave scandal at the
 time, and says Lord Beresford be-
 came hostile to him because of his re-
 fusal to join in attacking Lord Fish-
 er, then head of the navy.
 One remarkable charge made by
 Scott against Beresford is that during
 the manoeuvres Beresford ordered
 Scott's flagship Good Hope and a
 corvette ship, the Argyle, to perform
 a movement which, if carried out,
 would have resulted in a collision
 similar to the Victoria and Camper-
 down disaster in which 371 officers
 and men lost their lives.

**Remarkable Jew
 Said Judge Morgan**
 No Friends or Money, and is Making
 Attempt to Refund Stolen
 Amount.

When Richard Goodman was con-
 victed of theft in Judge Morgan's
 court a week ago, in good old white-
 haired judge, instead of giving him a
 jail sentence, let him go free, but or-
 dered him to return the money he
 had stolen. Yesterday at the sessions
 Goodman appeared in fulfillment of
 his promise, and offered the court
 \$51. This, he said, was all that he
 had earned during the week.
 "I'm a poor man, and have no
 friends," he whined to the kindly old
 judge, "and that is all my week's
 wages."
 Have you been living in Toronto
 very long, Goodman? enquired the
 judge.
 The man answered that he had
 dwelt in the city two and a half years.
 "You are a remarkable Jew," said
 Judge Morgan. "I never before met
 a Jew who was without friends.
 When a Jew comes before my court,
 he is usually accompanied by a con-
 siderable portion of the tribe of Is-
 rael, who are prepared to support
 him in every way. You are a truly
 remarkable Jew."
 Goodman promised to pay \$5 weekly
 until the money had been all re-
 funded.

**NORTH TORONTO
 WAS NOT BROKE**
 Investigation Into Finances
 Shows a Surplus of Much
 Over One Hundred
 Thousand.

North Toronto's assets, at the time
 of annexation last December, were
 \$140,000 more than liabilities, accord-
 ing to the report just completed of
 the chartered accountants.
 The assets are \$1,100,000 in round
 numbers, and the liabilities are \$1,
 040,000 in round numbers.
 Giving totals An round numbers,
 those of the assets are \$28,000 in-
 vested in sinking fund; taxes out-
 standing \$32,000; public schools \$58,
 000; capital expenditure on general
 works \$712,000; expenditure on local
 improvement works \$351,000.
 Total of liabilities are \$651,374
 outstanding debt; open ac-
 counts \$22,000; promissory notes \$68,
 000; claims on general sewerage and
 local improvement accounts \$37,000;
 bank accounts \$202,000. The debt
 at date, is \$800,000.
 In an abstract statement for the
 year 1912 the chartered accountants
 give the receipts as \$485,000, with a
 corresponding amount for expendi-
 tures.

WANT CHANGE OF VENUE.
 Brantford Police Believe There's Lo-
 cal Prejudice
BRANTFORD, March 27.—(Spe-
 cial.)—A change of venue in the ac-
 tion against Chief Slinn and others
 of the police department, instituted
 by friends of Gladys Meredith, the
 19-year-old girl who, it is claimed,
 was falsely arrested on the charge of
 infanticide, will be sought by the
 counsel for the defendants. It is
 contended that a jury in this county
 would be prejudiced against the de-
 fendants, and that in order to have
 a fair trial it is necessary to have the
 case transferred to another city.

FASHIONS AND THE HOUSEHOLD

REQUEST FOR APPOINTMENT OF DIRECTOR OF EDUCATION TURNED DOWN BY DR. PYNE

Powers to Appoint Head of Toronto School System Will Not Be Granted, so Management Committee Was Informed by Letter—Was Great Surprise in View of the Reported Promises Made by Minister.

"No" is the answer of the Ontario Government to the request of the Toronto Board of Education for power to appoint a director of education. The definite official written answer, signed by Hon. Dr. Pyne, minister of education, was read at the management committee yesterday.

The fact that the board was practically unanimous for the appointment to the position of Principal McKay, instead of a certain prominent member of the Ontario department staff, has, according to current city hall corridor report, a bearing on the refusal of the government to give the assent which it was publicly stated had been pledged.

Dr. Pyne's Refusal. The letter, from the minister of education acknowledged the letter from Chairman Hiltz, respecting power to appoint a director of schools, and said:

"It would involve the withdrawal of important powers now entrusted to principals and inspectors, and could be justified only by the proved inadequacy of the provisions of our present system of organization."

"That the organization and management of the schools of the city are defective appears to be generally conceded, but it has not been shown that the only remedy for the existing defect is the appointment of a special officer in charge. On the contrary, the statements made to me by the special committee of your board that have presented the case, as well as the reports made to your board and to myself by the department inspectors, lead me to conclude that your board and its officers do not at all fully appreciate their responsibility to this department, and the scope and spirit of the regulations."

"After full consideration of this subject I have concluded that if the heads of the different main branches of the schools are what the city has the right to expect them to be, broad-minded educational experts, the solution of your present problem might be found without its being necessary for me to ask the legislature to take action on this subject. In my judgment the heads referred to should by direction of your board, first jointly recommend

For Tender Plants.

When there is room in the garden for annuals it is not necessary to have them in the window boxes. Reserve these places for tender and choice plants. But, when the window is the only garden, and economy must be studied, some very dainty arrangements may be obtained by the use of sweet alyssum, phlox drummondii, petunias, ageratums, wild cucumber and pink.

Some liquid manure given sparingly once a week, to all boxes (except those containing begonias), will do wonders. Remove winter leaves and weeds at once. Nip back, sharply, weak, straggly growths, thus encouraging the plants to grow stocky, and the vines to branch freely.

Those who wish to have their boxes furnished the whole year round, may buy a small conifer or two, tree lilies, or eunonymus, for the winter months, and place spring bulbs in the earth for a surprise in early spring. The conifers may be tubbed and kept on the porch thru the summer. Strong varieties of ferns may also be used to plant among the conifers, and shooting in early March, make a pretty graceful show against the background of evergreens.

Decorating the outside of the window box, if it is to be attempted at all, should be done very warily. Covering the boards with strips of brilliant patterned oilcloth is a shock to good taste, besides preventing free evaporation thru the wood. If the wood is new use a quiet dull, non-reflecting green that will harmonize with the greens of the foliage as well as the various colors of the flowers.

MACKAY-SMITH.

The marriage of Miss Edna Elizabeth, only daughter of Mr. and Mrs. Frank L. Smith, to Mr. George Mackay of Elfron, Sask., was quietly solemnized at 3.30 on Monday morning in the Church of St. George the Martyr. The Rev. A. N. McEvoy officiated and Mr. Edward Phillips presided at the organ.

The bride, who was escorted to the altar by her father, looked charming in her wedding gown of pale blue duchesse satin trimmed with pearls. Her veil was fastened with a becoming gown of white roses and lilies of the valley. Miss Ethel Burdard attended as bridesmaid, wearing a becoming gown of rose de bary charmeuse satin with black picture band, and carried pink roses. The bridesmaids were Miss Harold M. Smith, and Miss M. Smith, who was best man.

After the wedding repast the couple left on the 3.30 train for Elfron, on route to their new home in Elfron, Sask., the bride traveling in a navy blue serge suit with black hat trimmed with yellow ostrich plumes.

WILLIAMS-SHEPHERD.

The marriage of Miss Jessie Alice Shepherd, second daughter of Mr. and Mrs. E. H. Shepherd, of Niagara-on-the-Lake, to Mr. George Chester Williams of Toronto, took place very quietly in Holy Trinity Church in the presence of immediate relatives. The Rev. D. T. Owen, the pastor, performed the ceremony. The happy pair left on the 5.20 p.m. train for New York, Atlantic City, Philadelphia, and other points on their return to Mr. and Mrs. Williams who take up their residence in Toronto.

Daily World Pattern Service.

A Pretty Afternoon Frock. This stylish gown was developed in white linen, with black and white striped corduroy for trimming. The waist opens over a chemise, which may be made with or without the collar. The shoulders are long, forming the upper part of the stevedore's cap. The skirt is long, and has inserts with plaits at the sides. A deep round collar and regular form the waist trimming. Waist pattern 9530 and skirt pattern 9493 are here combined. Both are cut in sizes 14, 16, 17, and 18 inches. It requires 6 yards of 44-inch material for an 18-year size. Gingham, chambray, voile, linen, corduroy, poplin, serge, ratine, or silk will develop this dress very nicely.

This illustration calls for two separate patterns, which will be mailed to any address on receipt of 10c for each pattern in silver or stamps.

A MAN IN THE OPEN

By Roger Pocock.

(Copyright 1912, The Bobbs-Merrill Company)

For my rifle, posts myself at big pine, takes a steady bead, and lets fly, knocking a salmon out of the lady's mouth. Then I remembers that the shock of a gunshot is enough to loose the end of Apex Rock. It does, and while the scenery is being rearranged the landlady sets up, wondering what's the trouble. When the dust clears, Apex Rock up here is reduced to a stump; down that by the rapids the fishing hole's extended with additional landlady's a widower, running for his life's worth; and the landlady is no more—not enough left of her to warrant funeral obsequies.

"Why is the landlady called Eph?" "Christian name. Most bars is Ephraim, but her's Ephraim, which means 'be open.' I tried to get him to be open with me instead of stealing chickens. That's when the bad year come."

"Were you in difficulties?" "Eph was. Then canneries down to sell 'em, had fished the Fraser out, and the fourth year, when we new spaw came back to their home river. 'Why for?' the sarvis berries failed. I dunno why, but the silver-tips of this district ain't partial to the same kind of feed as they practices in Montana and Idaho. Down south they'll lunch on grub, grub, dog-tooth, violets, but Eph ain't an original thinker. He runs to application, and shies at new ideas. He's vote conservative. So, when the sarvis and berries went back on him, he sort of petered out. He come to the cabin and said, plain talk, he was high quitting business."

"But, Jesse! A starving 'ar—I mean 'bar. Weren't you afraid even then?" "His business, and ain't it none of my hawes ranch. He owns the grub, berries, salmon, wild honey and fixings. I owns the grass, stock, chickens, and garden uses. When we disagreed about them cabbages, I shot holes in his ears until he allowed they was mine. His ears is still sort of ringing. As to his eating Sarah, well, I warned her not to tempt poor Eph too much."

"Jonal fool. Being a fool runs in her family. Wall, Sarah died, and cabbages was gettin' seldom, and Eph was losing confidence in my aim, all I told him 'I'm tough as an bear.' "He did attack you, then?" "Not exactly. His acts might have been misunderstood, tho'. Seemed to me it was time to survey the pasture, and see how much in the way of grub could be spared to a poor widower. These people eats meat, but they like it butchered for 'em, and they like it Down at the south end, I spared Eph a family of wolfers, one at a time, to make the range. Next day he began to get encumbrance. Then this place was just humming with rattlesnakes, so Eph and me just went around looking for 'em, and the hunting was worth the trouble. I doubt if there's any left."

"Then Eph gets sassy, wanting squires, and the like. Now that I was firm. Every striped varmint of 'em may rob my oat sacks, every squir' may set up and cuss me all day out, but they ain't get hurt. They scold and swear, but every 'ill they know they know I like being insulted. Tho' they has enemies—foxes, black snakes, woezel, I fed that lot to Eph, saving the foxes. Tell you, the landlady began to get so proud he wouldn't know me."

"That's a fact. If I shot the eagles, then squires would get too joyful. Eagles are made of with his squires. The next proposition was cougars. "Oh, I'm glad you killed them. I'd lie awake all night." "I don't you a musician. Now that's curious. You like 'em small, but one foot from top to tip, altho' I own they're rangers for their own size. But a nine-foot cougar, with a ten-foot day-out-power voice, composing along as he goes, why, he's full of music. Now I was goin' to propose a cougar open troupe. They'd knock the stuffing out of his Wagner any way."

"Not for me, dear. You see, there's trade rivalry. I wish you had shot them. I'm sort of sorry. Many's the time, camped on your bench land, which I own is a good place for cougars, I'd come up half the night to listen. They'd come purring so close I could see their eyes gint. Seemed to me they sat round on their tails and purred because they liked a camp whar there was no gun-smell. They sang love songs, big war songs, and all kinds of music. 'Fancy you been scared!' said they, 'them?' they're hard to see as 'ghosts, and every time you fire they just get absent. That ain't the reason, tho', for if the landlady wanted cat's meat, I'd like to see the light."

"They'd never dare to fight that giant bear!" "I dunno. Eph ain't lost no cougars. He treats them as total strangers." "But the real reason I fed no mountain lions to Eph is mostly connected with sheep. Cougars does a right smart business in sheep, especially Shury Brown's. Sheep means 'er'n sheep, and if the herders disagrees with the cougars, give me the cougars. Sheepmen is 'er'n." There spoke the unregenerate cow-boy!

"But, Jesse dear, are you sure that Eph won't expect me to be spared next time he's hungry?" "Why, no. He was raised respectable, and there's a proper etiquette for a man meeting a lady. It's sort of first dance-movements: 'general slide, pass the cloak-room, and whar's my little home'."

"N. B.—Kate and me agrees that the next chapter has to be cut, being dull. It's all about the barn-raising after we got home to the ranch. The night-burner put us up a fine big cabin, peering to the old one by a covered porch of cedar shakes. That's whar the firewood lives, the water-but, the grindstone, which Kate says is exactly like my singing voice. Likewise the ax and saw. Of course our house-raising was a celebration, with a dance, camp-fire, water-but full of punch, and head-aches, but bet five dollars I was the only one who didn't get in our district, and lost it to Iron Dale, who learned signaling five years ago during the Riel rebellion. Sap Taylor put up a signal system for our use, of fires by night or big smokes by day. One means a celebration, two means help, and three means war. The women heard the news at daylight, Eph being being a rallying point for the battle. Eph being held up for the winter, I got more popular. After the celebration we settled for the winter, and I put all the ponies except Jones and the sleigh team down in the canon pasture. That made the ranch sort of lonesome, but we're short of hay on account of the wedding trip. We're broke."

CHAPTER V. The Illustrious Savior.

Jesse's Letter. Mother, I'm married. I thought I'd got bliss by the horns, but seems I've not roped what I throwed for, and I'm not in heaven, which feels kind of cold and distant when a fellow's lonesome. Nobody loves me, and Idaho, down south they'll lunch on grub, grub, dog-tooth, violets, but Eph ain't an original thinker. He runs to application, and shies at new ideas. He's vote conservative. So, when the sarvis and berries went back on him, he sort of petered out. He come to the cabin and said, plain talk, he was high quitting business."

line to the stable because of this continuing blizzard, I went to the lady's home. She showed me a letter Dale brought, an eyetalian, which says the swimmer proposes to kiss her feet, wallow in divine song, etc. His name is Salvatore, so he's a dago. She, being white, can't have any truck with such, being the same specie as we, gars, so that's all right. Seems the puppy piano is for her from her beloved maestro, another swimmer from her hand, she was engaged now, and it goes thru my bones. Her voice is deep as a man's, strong as Praso Rapids, and I own that puppy piano appeals to my best instincts. As for me my name's mud, and she treads in it."

The wind went chasing after the sun, leaving peace and clear stars, so this morning it may be sixty below zero by the way the logs are splitting. At noon Teasdale, George, transpires, dumping the puppy piano down the swine with his nose in a muff. Teasdale had capetized the sleigh over a stump, where his passenger run instead of arriving here a party meat, but appears it hadn't done the horsepower no good. He said he'd not bid before any more music broke out, so didn't attend. The swine was down on one knee in front of the misses, sobbing over her hand, she was kneading dough at the time, and there's some on his nose.

He's got an angot's-ever-bright-ened fair expression, smiles to turn milk, dog's eyes, and turn-down collar. He calls her Donner Adolere-a-rata, and looks as if he hadn't had much to eat on the trail with Teasdale, tho' they'd camped at Widow O'Flynn's, whar pie occurs whenever her Billy's to home.

Kate's been in the ad to pieces. Seems this gent in the ad to pieces, seems wrote an opera, and there's a party goes by the name of Impress Arto, being an acting artist, putting it on the stage at London. This is the leading woman singe base, and whar whar Kate is wanted. To the only woman to come to the stage, she organizes this gent in the ad to pieces, and she sends this dingo and the organ-grinder. She says it's a business proposition with money in it, and wants us to come to the Old Country. She'd have me in a collar and chain with a pink bow at my off ear, mending in Strand street.

She's been having a rough time, mostly living on saddle meat, and money or servants. I'd like well to see her happier; I know her music better than the whole world, and I've no right to hold her back. She's no need, if it's up to her to go, it's agin me to look pleased, and she shall go. She and the tink'er, gits up and the swine are at full blast. He's screeling long desperandum, she's thundering "Shut-up the door, you infernal being bang!" says the puppy piano while Mick in here howls like a moon-brook. I dunno, but seems to me that whar whar Kate is wanted, between the stars and the mountains, the river praising God in the canon, the swine's music, and the organ-grinder to the Almighty, and peevish right out of heaven. Oh, Lord, speak to my wife, and tell her there's more light right on her face, and whar whar passions of all the damned operetta together. But now she's following after vain swine."

I made the dago bed down in here, but he hopped over to breakfast, and they've been at it hammer and tongs ever since. "Pike the tank! ping ping pee-chee-ree-ho-o!" Oh, Oh! me! catalaou-ow-yow." Cougars is kittens to it, but I'm durned ignorant, and I notice the singer looked on while she washed up.

I didn't sorrow with Kate persuading me to drive them as far as Hun-dred Mile House, the sound of her peevish stamperes me every time, but whar whar the dago tries to stroke my ears, he was too numerous, so I hid his head in the bucket until he began to subside. I don't take to him a whole lot. From whar he finished the horses, I'll nigh on sundown, the moon tapered off, and I got more and more rapt at last walked right in. She'd a black dress, indeed, round the shoulders, and a bright smile on her brow. She stood with the swine's feet on the dago, and she said, "There was nary a flicker of shame or fear" to her, but she just stood there, looking so grand and beautiful that my breath caught in my throat. "Jesse," she said, her voice all soft with joy, "I'm so glad you've come to see. It's the greatest scene, the re-creation. Come, Salvatore, from 'They people shall be twisted him by the ear into my pup-cabin, he talking along like a moon-piano. I set him down on the stool, and he sat on the stool, inspecting him while I out loopy, and had a pipe. I let him fight me with guns she'd make a hero of him. If I hopped him into the cold or otherwise, whar whar the dago paradise, she'd make a villain of me."

"You wrote an opery," says I. He explains with his tongue in his eyes, and both paws waving, I'm not an egg. This morning, after rigging a life-

The Sunday World

Exclusive pictures of several local events are featured in the Illustrated Section of The Sunday World for next week. If you are a dog fancier you will be pleased with the pictures of the blue-blooded canines which won the chief prizes at the recent show of the Toronto and Ontario Kennel Clubs. We are showing a fine variety of dogs and every animal a choice specimen. Another feature is the closing exercises of Grace Street School. There are several groups of children photographed especially for The Sunday World. Still another feature shows a number of prominent people caught by the camera on their way to Easter Church service. Other pictures include a few society women of Hamilton, Britain's War Minister in Spain, Queen Street Methodist Church Choir. STILL AT THE TOP For ten years the sales of

SHREDDED WHEAT

have never failed to show an increase over the sales of the previous year, and this without any "free deals" for grocers or "premiums" for consumers. The supremacy of Shredded Wheat among cereal foods is unchallenged. After you have tried all the new ones you will come back to Shredded Wheat, the one universal cereal breakfast food, always fresh, always clean, always pure, always the same. Contains more real nutrition than meat or eggs, is more easily digested and costs much less.

For breakfast heat the Biscuit in the oven a few moments to restore crispness; then pour hot milk over it, adding a little cream; salt or sweeten to suit the taste. It is deliciously nourishing and wholesome for any meal with stewed prunes, baked apples, sliced bananas, preserved peaches, pineapple or other fruits. At your grocer's.

SMART RALLY IN CANADIAN ISSUES
Investment Buying Under Way in Toronto Market—Preferred Stocks in Demand
BRAZILIAN JUST STEADY
But Other Leaders Score Sharp Advances—Sentiment is Cheerful Again.

Speculative interest in the Toronto Stock Exchange shifted from Brazilian into some of the high-class Canadian issues yesterday, and a sharp upturn in prices resulted. It was freely whispered that if the turn for the better had really commenced, and there were many who averred that it had, a material recovery should be experienced in the erstwhile favorites which bore the brunt of the recent depression. Astute traders bought in anticipation of the rise, therefore, while the improved demand for public account plainly evidenced the greater degree of confidence now existent in the market.

It was in such securities as Toronto Railway, General Electric, Camerons and some of the preferred stocks that the real features of the day occurred. It was notable that there was much better call for the purely investment issues, and this was accepted as a highly favorable indication.
All-Round Improvement.
Such moves as a 2 1/2 point rise in Toronto Rail to 127 1/2, its highest in two weeks, a point gained in General Electric at 113; an upturn of over a point in Dominion Canners, which reached 75 1/2; and fractional improvement in Twin City, MacKay and Dunth Superior clearly showed the buoyant nature of the Canadian list. The rally was not held in its entirety at the close, but the session wound up with an all-round betterment in evidence.

The attainment of higher prices by the preferred issues and other investment securities was one of the most satisfactory incidents of the day. Burt preferred rose 1/2 point to 119 before any selling came into play; Interlake preferred made a new high for the month at 96, a gain of 2 1/2. Maple Leaf preferred was up half that amount at 98; Steel of Canada bonds improved to 96 1/2 against 95 last week, and Bank of Commerce shares were up another 2 points to 27. The sold at 212 3/4 about a week ago. Slight weakness was shown by certain other stocks, such as Canada Bread, which closed at new low record at 27 3/4, and some of the preferred issues, but this was the exception rather than the rule.

Brazilian Turns Dull.
Brazilian was active but did not undergo any material change, and wound up the day at 87 1/2, a loss of just 1-3 from Wednesday.

BANK FROM ENGLAND RESERVES DECREASE
LONDON, March 27.—The rate of discount of the Bank of England remained unchanged at 5 per cent. today.
The weekly statement shows the following changes:
Total reserve, decreased... 28,000
Cash, decreased... 222,000
Bullion, decreased... 320,750
Other securities, increased... 1,210,000
Public deposits, increased... 488,000
Other deposits, increased... 434,000
Notes reserve, decreased... 130,000
Government securities unchanged.
The proportion of the bank's reserve to liability this week is 33.86 per cent.; last week it was 40.45 per cent.

THE OLD, OLD STORY IN STOCK EXCHANGE
Market Will Discount Good News Before the Actual Developments Occur.
Those who contend that the time for buying stocks is not yet, but soon, think the market will wait until the kinks have been taken out of the money situation, and if precedent counts for anything, the speculators who wait for actual developments will conclude when these occur that they had better wait for a reaction with the usual result that they will put off their purchases for one reason or another until finally they buy at or near the top—Wall Street Journal.

AT OLD POINT COMFORT.
Mr. T. O. Anderson of the firm of T. O. Anderson & Co., members Toronto Stock Exchange, is spending a short holiday with Mrs. Anderson at Old Point Comfort.

MACDONALD UP AGAIN
Rumors of an early dividend declaration on Macdonald common have brought about a sharp upturn in the shares on the curb. They sold up to 69 1/2 yesterday, a gain of a full point for the day, and a few days ago the low level of a few days ago. The stock will be listed on the Toronto Stock Exchange in the near future. It is already quoted in the regular list in Montreal.

BOSTON DIVIDENDS.
BOSTON, March 27.—The Boston News Bureau estimates dividend and interest disbursements payable in Boston in April at \$33,317,547, compared with \$42,525,590 last year, \$27,100,000 in 1911, and \$26,485,590 in 1910.
APRIL DIVIDENDS.
NEW YORK, March 27.—Total interest and dividend disbursements next month by railroad, industrial and traction corporations, will amount, it is estimated, to \$138,858,855, as compared with \$150,248,670 in 1912.

BANK CLEARINGS SHOWING UP WELL
Toronto is Piling Up New High Records—Figures for Canadian Cities.
Toronto's bank clearings continue to make a favorable showing, those of the week ended yesterday (four business days only), being nearly thirty million dollars. Owing to the fact that the previous week and the corresponding periods of recent years comprised the full week, comparisons are not available.
Mr. George W. Yarker, the manager of the clearing house, estimates the clearings for the first three months of the year—January, February and March—as against \$480,222,567, an increase of \$50,222,567. Mr. Yarker believes the clearings for the year 1913 will be about \$240,000,000 over those for the year 1912.
The record follows:
This week (4 days)... \$29,856,289
Last week (6 days)... 41,925,542

REINHARDT FAILURE Comes Up Again
Court Asked to Issue Order for Filing of Claims of Creditors.
An order has been issued by Judge Hand of the District Court of the United States, for the southern district of New York, directing all creditors of the bankrupt firm, J. Thomas Reinhardt, to show cause before the court on March 31, at 10.30 a.m., why an order should not be made directing the creditors to file verified statements of the claims they hold against the Reinhardt estate.
The order was issued upon the petition of B. W. Brown, trustee, who urges that he be informed there are many outstanding claims against the stocks and other assets of the estate, and that such assets cannot be distributed until the creditors until all claims have been adjudicated by the court. The claims are to be filed with William Allen, referee in bankruptcy.

Big Tool Company To Invade Canada
Chicago Factory Will Erect Huge Factory in Vicinity of Windsor.
CHICAGO, March 27.—While nothing definite has yet been settled, it is learned that the directors of the Chicago Pneumatic Tool Co. have under consideration the building of a new plant for the manufacture of the company's product on the Canadian side of the border, and if the project is finally approved, it is probable that construction work will be started before next fall.
The company now has a small plant in Montreal, but this is only equipped for repair work and is contemplated to erect a manufacturing plant large enough to handle all the orders for the Canadian market, thought likely, will be the case. The plant will probably be somewhere between \$300,000 and \$400,000.
As the profit and loss report reported by the company as of Dec. 31 last was \$2,007,394, or nearly 31 per cent. of the outstanding capital, there are ample funds on hand to meet the cost of construction.

SMART RALLY IN CANADIAN ISSUES
The turn for the better in the international financial situation during the last few days has brought about a smart rally in the Toronto Canadian issues. BROKERAGE WIRES CRIPPLED BY STORM
Brokerage wire services in Toronto were severely crippled by the storm yesterday, and stock market trading was considerably handicapped thereby. New York houses maintained connection with Wall Street only at irregular intervals, and the usual gossip on the day's events was altogether lacking. Fortunately the telegraph companies were able to handle the ticker quotations through. The grain brokers kept in touch with the Chicago Board of Trade by way of Winnipeg, the direct Chicago wires being left out of order.

PUTTING MOTOR CO. ON ITS FEET AGAIN
NEW YORK, March 27.—Managers of the syndicate which underwrote the securities of the Maxwell Motor Co. for \$5,720,000, have called upon subscribers to the financing for a payment of 30 per cent. on March 31, which will make a total of 80 per cent. of the underwriters have had to have paid the \$24 per share dividend.

DR. A. W. CHASE'S 25c. CATARRH POWDER
Is sent direct to the diseased parts by the Improved Blower. Heals the ulcers, clears the air passages, stops dropping in the throat and permanently cures Catarrh and Hay Fever. 25c. a box/blower free. Accept no substitutes. All dealers or Edmondson, Bates & Co., Limited, Toronto.

MONTREAL STOCKS QUIET, BUT FIRM
C. P. R. and Montreal Power Only Slightly Easier After Sharp Upturn.
MONTREAL, March 27.—Local stocks were quieter today and the spectacular features of the general advance on the two preceding days were lacking. The market, however, maintained a good undertone, and while leaders like C. P. R. and Montreal Power reacted slightly, other stocks scored gains and the general results were in the direction of further recovery. There was no selling of the price held between two days of brisk markets and sharp advances was entirely normal.
The greatest activity centred in C. P. R., which acted well in view of the perpendicular advance of more than ten points in a few days. After selling at 32 1/2 and 33 in the early part of the day, it fell back to 31 1/4 in the afternoon. The price held between two days of brisk markets and sharp advances was entirely normal.

HOLLINGER MINERS Are Put on Trial
More Prosecutions May Follow Should Judgment Uphold Stand of Mine Officials.
SOUTH PORCUPINE, March 27.—(Special.)—Judgment was reserved by Judge G. G. Cameron in the trial of Cleary, Polowaska and Croft, the three men who were convicted some time ago of a breach of the Lemieux Act, and who were subsequently paroled through the efforts of their counsel, A. G. Slaght.
The trio were retried, the officious of the Hollinger appearing as prosecutors. In all 302 summonses were served against the Hollinger men who went out at the time of the strike, and only 80 of these were served, and only three cases were served, and the other 299 were not served.
What action will be taken in the other cases depends largely on the decision of the jury. The judge gave no intimation of what his verdict might be, but stated that owing to other engagements, he would not be able to deliver judgment until a week from Saturday.

COBALT LAKE AT NEW HIGH FOR YEAR
Floating Supply Has Been Reduced to Very Small Volume.
A renewed demand for Cobalt Lake shares has had into effect during the last few days, and a sharp advance in the price has resulted. A full 90 per cent. of the floating supply has been passed into the hands of the Edington and Co. syndicate, which recently obtained control of the mine. The floating supply has been reduced to almost nothing. The stock is now up to a full 9 1/2 points to 60, a new high record for the year. The range follows:
High. Low.
1913... 60 49 1/2
1912... 60 24
1911... 29 22 1/2
1910... 29 11 1/2

EXCEPTIONALLY RICH ORE AT HOLLINGER
There is a well-defined rumor on "the street" that the Hollinger has run into some exceptionally rich ore which has been drilled on for a distance of about 300 feet without any diminution in values. It is understood that the management will make an announcement to that effect at the annual meeting next Monday. The ore is said to run several hundred dollars in gold to the ton.

SWASTIKA MILL AT FULL CAPACITY
SWASTIKA, March 27.—The new Swastika stump mill was started on Tuesday at full capacity and will be continued from now on. While the mill has been in operation for the past couple of weeks, it has been more for testing purposes only and these tests have proved very satisfactory. Superintendent Redington has started underground operations once more and is holding enough ore to keep the mill running at capacity, without necessitating the treatment of the reserve ore stored on the dump.

DEVELOPMENTS IN KIRKLAND LAKE CAMP
SWASTIKA, March 27.—The Foster Tough-Oaks management have now reached the 55-foot level, with the vein widening and carrying the same high-grade values. A rich strike has been made on the Grierson claims, in Central Trench, owned by A. Barnett of Pembroke.

THOMAS MOTOR CO. SOLD AT AUCTION
NEW YORK, March 27.—At auction last week the plant, good will, etc. of the Thomas Motor Car Co., of Buffalo, sold for about \$250,000. The first day brought \$125,000, although the materials, machinery and so on disposed of included inventories valued on March 1 at \$500,227.

BIG PORCUPINES IN THE LIMELIGHT
Hollinger at New Record—General List Strong—Cobalts on Up-grade.
The attainment of a new high record on Hollinger and a much more buoyant trend to the other big Porcupines were the features in the mining exchanges yesterday. Business was seriously curtailed by the failure of the telegraph service owing to the severe storm, and the transactions in the Standard Exchange were only about one-half of their normal volume. The action of stocks was favorable, however, and, in fact, the market seemed to do much better without outside connections than it had done with them earlier in the week.
Hollinger was listed on the Toronto Stock Exchange, and this fact may have been responsible for the upturn in the shares. At the same time enthusiastic predictions regarding the showing which will be made by the annual report due next week, were made on "the street," and as the stock was in scant supply, the price responded readily to the improved demand. The price rose 4 1/2 points to \$17.75, which compared with the previous high record of \$17.50, and a level of \$15.50 at the first of the month.

UNIQUE METHODS AT KIRKLAND LAKE
Not Necessary to Sort Ore at Foster-Tough Property—Another Shipment.
COBALT, March 27.—Gold mining, unique in respect to Ontario gold fields, and for that matter any gold camp in the world, is adopted at the Foster-Tough property in Kirkland Lake, where the vein, upon which the shaft is being sunk, is broken underground, hoisted to the surface and then bagged and shipped direct without sorting. This is the ore that realizes over \$500 to the ton in gold, with enough silver values to pay for treatment at the sampling plant and smelters and the values are increasing with depth.
In sinking the incline shaft on the vein, the body is left in the hanging wall where 14 inches on an average remains until the shaft is mucked out after each round. The vein is then taken down and bagged and sent to Swastika station for shipment.
At the present time about eight tons of this ore is stored at Swastika awaiting shipment and each day more is being hauled out to steel. The teams drawing supplies to the property, seven miles from the T. & N. O. Railway, instead of returning empty, bring out the ore and in this manner the expense is minimized.
It is expected that the car, which will be the third from the property this year, will be shipped in the course of a few weeks.
