THE STORY OF A DON

The Little River Did in Two Hours What It Would Take Fifty Thousand Teams a Day To Do.

Our Noble Rivers Have Turned Into Forest Freshets - We Will Yet Pay Dearly for Our Forest Destruction and Drainage of Swamps.

The Young Man had taken a rather extended course in education, he had traveled a good deal, had been on an exploratory work all over the continent and had dipped into the national conservation work in connection with nature's gifts to us as a people. And, as he knew the Don River intimately, he was able to talk interestingly of it after the freshet of Friday and Saturday.

There were twenty-five miles of ice went out of the two branches and main stem of that river on the two days—in two main lots. This ice was all anchored down to the river bed; in the most sudden way it started to rise, then split in the middle, then broke into floes, shift, jam, and as the snow-water from the hill slides came rushing all about it, over it, under it, raising it higher and higher; the grand climax of the breakaway and the flood, and it all went roaring, swirling down the stream, over the dams, stranded for a time in the flats, turned upward down; and again rushing onward at

ten miles an hour, it was soon down in the lake. The other half remained stranded in the flats.

In this twenty-five miles of river at least fifty thousand tons of ice, was moved, mainly in two short hours, and delivered, on the average, ten miles away—the work of fifty thousand teams of horses and that many drivers and wagons for a day. And nature did it so easily but so irresistibly. It had to go and it went.

What else did it do every year and what does the River Don do every year when she has plenty of ice? Moved hundreds and hundreds of tons of boulders and gravel from the upper river to points further down. How does she do this? This year the ice in many places was three feet thick and frozen right down to the rocky or earthy bottom; where the ice was raised by the flood "it raised all the soil, gravel, boulders that were frozen in, and a ton boulder in the bottom of a twenty ton cask of ice was as easy to carry as a cork on

REV. THOMAS GRIFFITH IS DEAD

One of the Most Prominent Figures at Methodist General Conferences and Best Known Ministers in Ontario and Quebec Passed Away After Long Illness.

Rev. Dr. Thomas Griffith, M.A., Ph.D., famous for his successful championship of the Fox Bay settlers, died on Saturday evening at his late residence, 188 Dowling-avenue.

Dr. Griffith was for many years one of the most prominent figures at the Methodist General Conferences. His health broke down six years ago during the first year of his pastorate at the First Church, St. Thomas. On retiring from the ministry he came to Toronto to reside. He was in his 83rd year.

Among the pastorates held by Dr. Griffith were: Russell-avenue, Carlton-

street and Broadway Tabernacle, Toronto; Douglas Church, Montreal; Methodist Church, Quebec; and Sydenham-street, Kingston.

Since retiring to Toronto Dr. Griffith has been a member of Parkdale Methodist Church. He is survived by his son, Dr. R. C. Griffith of 212 James-street, and two daughters, Mrs. Kennedy, St. Thomas, and Mrs. McConnell of Montreal.

The funeral service will be conducted at the residence of his son, Dr. Griffith, to-morrow afternoon, by Rev. W. B. Caswell. The funeral will be to the Necropolis.

FIRE AT NEW TORONTO FACTORY CAUSED DAMAGE OF \$150,000

J. F. Brown's Copper and Brass Works Completely Destroyed, While Hundreds of Workmen and Residents Were Unable to Check the Flames Because of Poor Water Pressure.

Several sections of blackened walls are all that remain of the modern plant of the Brown Copper and Brass Milling Company at New Toronto, as a result of a fire which broke out in the building at 5.15 yesterday morning and did \$150,000 damage, while a large crowd of helpless people stood by. A small stream of water, with hardly any pressure behind it, was the only equipment which the men had to fight the fire.

The efforts of a bucket brigade served to create more steam, and the fire covered the building from one end to the other.

When Captain Dunning, one of the night watchmen, made his round he noticed that the electric wire coils in the northwest corner of the new wing were in flames. Vainly he tried to quench the blaze with water from the fire buckets, but this method failing, the other watchman was summoned and the fire hose used. Despite this stream of water the fire spread, and the captain turned on the whistle valve for the distress signal.

The workmen, who live in the surrounding houses, turned out and formed a brigade, but the intense heat seemed to almost dry the water before it struck the fire. The whistles on the neighboring factories, and on the Grand Trunk round house were also blown, and also hundreds of residents responded, willing to help, nothing could be done owing to the lack of water. A tank containing eight feet of water was all that was obtainable. When this supply was exhausted the flames were left to do their worst.

For some time past the Ritchie & Lemay Wall Paper Co. has been pumping water for several of the other factories, including the Snow-road. These pumps were closed down, and by the time they began to work the steam made no impression on the burning mass. Some of the other companies were afraid to run a risk of turning their hose on the blaze, fearing that it would leave their plants in ruins. The Lake Shore-road was impassable, and it was out of the question to summon the city reels, as sometimes done in case of a large conflagration. The Pease Stone Store Factory was in danger, a stiff wind from the southwest blowing the flames in the direction of the foundry, which is on the left.

THOUSANDS LOST WHEN CREDIT FLOODED

River Overflowed Its Banks, Carrying Away Boathouses and Shacks and Causing Heavy Damage - Erindale Power Dam Dynamited to Let Debris Get to Lake.

When the Credit River received its annual "flushing out" yesterday the Village of Port Credit received the biggest scare of its life. It was no ordinary spring flood; it was a history maker, and for a long time it was feared that it would still more overflow its banks and wash Port Credit off the map.

Shacks, boats, dams, trees and bridges were torn away and swept down the river into Lake Ontario. Somewhere near the river's source, 40 miles back, the turbulent waters started Saturday night on their course of devastation. At noon yesterday things looked serious around the dam of the Erindale Power Co. It was feared that the vast accumulation of trees, ice, bridges and smaller dams would keep it over. A government inspector feared that the whole dam, 40 feet high and 200 yards wide, would yield to the enormous weight and sweep several villages into the lake. He ordered that a chunk of it be dynamited to let the jam thru.

This was done. Then there was a roar. About 1.30 a villager of Port Credit heralded its coming. And shortly after it came with a mighty momentum with hundreds of wild-eyed inhabitants looking on. It was a terrible sight for the lake; the long winter's ice and crashing water, with trees, bridges and everything imaginable, even to a hay-rack, in its arms, surged southward with terrific velocity. The villagers stood aghast. It was the worst, it was the grandest, that memory could recall. The oldest inhabitant rummaged his memory, but he could not remember that he had ever seen a par with the speed

WESTERN ONTARIO FLOODS WORK HAVOC, IMPERIL LIFE

GUELPH AND GALT HARD HIT

Known Damage Runs Into Several Hundred Thousand Dollars - Streets of Cities and Towns Flooded and Rescues Effected by Boats - Dams and Bridges Swept Away.

LONDON, April 7.—(Can. Press.)—Reports from all over Western Ontario to-night tell of floods that have huddled in hundreds of thousands of dollars loss. At Walkerton there is three feet of water in the main street and the Canadian Pacific bridge has been swept away. Trux lumber mills have had a large part of their stock swept away.

At Brantford the city officials are watching to-night in fear of the dyke breaking, when there would be 1500 people in West Brantford flooded out. At Galt there was a bad state of affairs to-night, the damage being estimated at \$100,000. This morning early a number of homes were flooded out and several invalids had to be taken out in boats. Water-street to-night is a river for over three-quarters of a mile, and in some places near Galt the river is half a mile wide. The water level is dropping, however.

The Thames at London is high on the south branch to-night, but there is no immediate danger. At Chatham the water is rising to-night, but is two feet below the highest level at the end of the week. There has been a lot of low land flooded in Kent, but most of the farmers there

are prepared for an annual washout and rather look for it.

At Paris there is four feet of water in the Penman mills, which are close to the river. The damage here is particularly heavy.

GALT, April 7.—(Special.)—All day the Grand River has been rising, until it has exceeded the record of the past 25 years. With the bursting of the Elora dam a rush of water was precipitated.

As it rose it spread wide over areas on all sides, submerging back gardens and the low lying streets, invading cellars and lower floors, sweeping away buildings, walls and fences, forcing a passage thru drains in quarters far

MURDERER AFTER ROSENTHAL FOR THREE DAYS

Men Visited Lonely Spot on Thursday Night, But Supposed Deal Was Not Ready, and Final Appointment Was Made for Friday - Dunkelmann is Still Unconscious.

Largely upon the recovery of Eli Dunkelmann, now lying in the General Hospital from the effects of the beating he received near the hydro-electric transformer station on Strachan-avenue Friday night last, when Joseph Rosenthal was murdered by the same assailants, depends the detection of these men. The clues thus far in the hands of the police bear little promise of providing a solution of the mystery.

Nevertheless, a few circumstances became clear yesterday which had heretofore been unascertained or uncertain.

It now becomes known that the men who lured Rosenthal and Dunkelmann to this lonely spot at a late hour upon the pretext of selling them scrap iron knew Rosenthal and sought to find him for several days before the crime. It was also learned yesterday from Dunkelmann family that the two men had visited the scene of the murder

Thursday night but had taken no money with them, and had been told that those who were to sell the scrap iron were not ready, but if they returned the following night at 9 o'clock the deal could be put thru.

Several people have told the police of a call, slight man about twenty years of age, who from Tuesday to Thursday appeared to be prosecuting a diligent search for Rosenthal. A number of these are quite sure that they would recognize this man were they to see him again, but none of the descriptions thus far given are sufficiently distinctive to be of material assistance.

Wanted Rosenthal, Bernstein, proprietor of the Temperance Hotel at Adelaide and York-sts., says that the man enquired of him where he could find Rosenthal. Mrs. Caplin, also of York-st., gives a like description of a young man who made similar enquiries of her. The young daughter of Mr. Dunkelmann says that a man like this came to her home, 181 West Richmond-st. on Wednesday, and asked for her father. Mr. Dunkelmann went to the door and brought the stranger into the house and shortly afterwards asked for a piece of paper so that the man might write a note for Mr. Rosenthal. At the house, it is said, that this stranger was particularly anxious to see Rosenthal and would talk to no one else. The note asked him to go to the hydro-electric on Strachan-ave., Thursday night.

Must Have Money. When Dunkelmann left his home at 6 o'clock Friday night he said that he and Rosenthal had to go to the same place where they had done so on Thursday. He said that the other parties had not been ready to deliver the goods the night before, but that he must have the money to put it thru that night as there was a good deal and there was considerable money to be made out of it.

He was later at his shop in Richmond-st. waiting for Rosenthal, and at 8.30 the police are informed, Rosenthal and Dunkelmann were seen at Strachan-avenue and King-street south. It now appears that the time set for the appointment for Friday night was 9 o'clock, when it would be quite dark.

The police are of the opinion that when the two men reached the spot they were taken over and shown a quantity of iron wire, which those who were to sell tried to palm off as copper wire, and that when the old man discovered the fraud they refused to buy the wire, the others decided to get the money even at the cost of murder. It appears that they were led about the ground at the rear of the hydro-electric station, as a number of kegs, near which there was a considerable quantity of wire, and which stood almost against the station, were displaced during the night.

Put Up a Fight. In the assault upon the two men, only Dunkelmann put up a struggle, as Rosenthal was found lying upon his face, and no blood appeared near the body, save at the exact spot where he lay. In the case of Dunkelmann, blood was splashed all along a pile of crates fully a dozen feet in length and at various spots near this on the ground.

It is said that Rosenthal had been in the habit of dealing with employes at the hydro station, but that lately they had not been friendly and had nothing to do with each other.

Had Not Arrived. To one man it is said that Dunkelmann, after he and Rosenthal had been

NO LOCAL OPTION CAMPAIGN IN TORONTO

Committees Appointed After Broadway Hall Convention, at Next Meeting on April 23, Against Holding a Contest This Year, Fearing Defeat Thru Three-Fifths Clause.

It is now regarded as probable by some leading Toronto temperance men that the local option campaign in the city ordered last Tuesday, will be called off.

In accordance with the instructions of the Broadway Hall convention, the new executive has begun preparations for the contest. The general executive has been divided into two departments, financial and campaign.

The two committees will investigate the situation and report on April 23. There is good reason to expect that both committees will report adversely with respect to a Toronto local option vote.

The leaders are convinced that the feat of securing a majority of 3000 votes in a total of about 45,000, is an impossibility. This proportion is required by the three-fifths clause in the Hour license laws.

If the next convention is open to argument, the leaders will advise a reconsideration of the local option decision and as an alternate policy the organization of the "dry" vote in the electoral districts in accordance with the policy and platform adopted by the Ontario convention at the Massey Hall.

It is also expected that in view of the crisis which the action of last week's convention precipitated, the personnel of the next meeting will be tempered by the presence of more of the heavy weights of the Toronto temperance societies.

FATHER AND SON DEAD; GAS LEFT TURNED ON

Three Italians Came to Toronto on Saturday Night, and One, Who Was Revived at Hospital, Says He Turned the Jet Several Times in Order to Make Sure It Was Turned Off, But He Left It Open and Man and Son Were Suffocated.

The number of those who have met death by gas suffocation in Toronto since the beginning of the year was brought up to eighteen by the suffocation of two Italians at a York-street rooming house early Sunday morning.

Another Italian who was found with them later was revived at St. Michael's Hospital.

The two Italians suffocated are Pietro Rossi, aged 45, and his son Narciso Rossi, aged 10. Rossi Rossi, aged 25, a son-in-law of Pietro Rossi, was the Italian who was revived.

The three Italians who had just come in from Milton, Ont., went to the rooming house of Chas. A. Risk, at 18 York-street, and were given a room over the store below, which is a grocery. They retired about 9.30 Saturday night, and Giovanni, as he now states, was the one to turn off the gas. It was the first experience he had had with gas and in order, as he thought, to make sure it was off, he turned the gas cock on and off several times. In this way he unintentionally left the gas turned on full.

The discovery was made by David Scott, who had a room across the hall. Awakening between twelve and one o'clock on Sunday morning, he noticed a strong smell of gas. He immediately got up and went into the hallway from where he found the gas was coming from the room occupied by the Italians.

On the door being forced open the father and son were discovered lying dead on the bed nearest the gas jet, and on another bed Giovanni was lying unconscious. The transom over the door and the two windows of the room were all tightly closed.

Luckily Dr. L. J. Solway of 30 St. Patrick-street happened to be passing just after the discovery was made, and he was taken to the men by P. C. Dickenson (34), who had been summoned by the people of the rooming house. When he went in Dr. Solway found the father and son to be dead, but Giovanni was still breathing. The doctor had the police ambulance summoned, and Giovanni removed to St. Michael's Hospital.

Giovanni regained consciousness about an hour after his arrival at the hospital and was able to leave there yesterday morning. He went to the home of Mr. P. Barolo, 719 Clarendon-avenue, who was a friend of his before he left Italy.

The bodies of the father and son were removed to the morgue. The two men and the boy had come to Canada from Italy about 3 years ago, and have since that time been employed at a stone quarry near Milton. Giovanni was unmarried.

The Italians were on a visit to Toronto over Easter, intending to have returned to Milton to-day. The return halves of their railway tickets were found in their clothes.

The chief coroner has been notified and an inquest will be opened at the morgue to-night.

NEAR MURDER ON ADELAIDE

Macedonians Quarreled, and Quick Action of One Prevented Knife Wound in His Chest.

A quarrel between two Russians at 498 West Adelaide-street about seven o'clock last night came close to ending in a murder. The men had been drinking. Archang Borevich, aged 25, of the above address, attempted to go into a certain room at which Alex. A. Baray, aged 30, of 24 Terault-street, objected. He struck Borevich a blow behind the ear. At this the latter pulled out a knife and made a lunge with it at Baray's heart. Baray had just time to put his hand up to ward off the blow and received a nasty wound in the wrist.

Adding-Detective Jarvis was detailed on the case. He rendered first aid to Baray, who was then removed to his home. Both men have been but a short time from Russia.

Borevich has been arrested and he will appear before Magistrate Denton in the police court this morning charged with a wound.

FREIGHT MEN MAY STRIKE

Another strike in railway circles is pending in Toronto. The freight handlers are becoming more and more anxious as the days pass on with no settlement of their grievances in sight.

There are about 400 freight handlers and checkers at the Simcoe-street sheds, and they have made a demand on the company for 17 cents per hour for the handlers and \$55 per month for the checkers.

Should a strike occur in such an important branch of the railway service at this time of the year great inconvenience would be caused to the wholesalers and other large manufacturers who depend so much on the railway service for the imported goods.

HAS A. B. MORINE RESIGNED JOB?

OTTAWA April 7.—(Special.)—It is understood that Hon. A. B. Morine, chairman of the public service commission, has tendered his resignation to the government. Mr. Morine feels that the charges which have been made against him are entirely groundless.

The resignation has not yet been accepted, as there are certain matters pending upon which the reports of accountants and other experts are to be received within a few days.

Mr. Morine will submit the commission to the government after the commission has considered them. The reports will be submitted to the government some time this week.

CITIES SHOULD CONTROL LIQUOR

W. R. Shier Says High License or Abolition is Not the Best Solution.

In regard to the big liquor issue that is now confronting Toronto, most Socialists contend that the best solution of the problem is not high license, local option or prohibition, but municipal bar rooms, in which the incentive of profit being absent, treating would not be allowed or the "four dogs" of the liquor industry installed to induce the dispirited, said William R. Shier, speaking on "The Right to Live" at the Labor Temple yesterday afternoon. To go about doing good and do things to create happiness for other people was one of the things that were well worth while in life and that he thought that the doctrine of contentment was the perversion of the doctrine of cheerfulness. It was quite possible to be cheerful without being contented and the more cheerful a person was the more likely he was to be an active, wide-awake citizen. To the doctrine of contentment the socialist opposes the doctrine of expression. Socialism could be defined as universal public ownership plus a working class administration of the government.

MANY JEWISH CONVERTS

Church of England Mission Does Good Work in Toronto.

According to the monthly report of the Church of England Mission to the Jews recently established in Edward street, the institution is proving phenomenally effective.

Rev. P. L. Berman, the missionary, in his report says: "Quite an unusually large number of Jews have called at the mission, men young and old, and amongst them of orthodox and fanatic type.

One Jew about 29 years of age told the missionary that he was studying the New Testament with the aid of commentaries at the public library reference room, as his parents are too orthodox for him to do so at his home.

Among the converts the report announces that of "wonder Rabbi" who claimed to be able to work miracles.

Called to London.

UP THE HUMBUR IN HIS CANOE

Thomas Cox Was First Man to Reach the Old Mill by Water This Year.

Rowing against a current which frequently dashed his small craft against the icebound banks of the river, Thomas Cox, a resident of Humbur Bay, succeeded in being the first one to reach the Old Mill by water this spring when he went up the Humbur River in a boat late Saturday afternoon.

It took Mr. Cox three hours to cover the distance which is made in the summer in one hour. He was caught in the ice flow at the second bend and for a few moments was in grave danger but succeeded in getting to shore. To be the first one to the Old Mill is an honor which Cox has held for many years. Last year George Horwood made the initial trip and was after it again this year but was beaten out.

Athletic Training Rule Now Becoming Obsolete.

The rule that athletes should not smoke nor drink any spirituous liquors shows indications of becoming obsolete. Many of our professional ball players smoke cigars and even cigarettes and a "wee nip" once a day or just before retiring is not frowned upon if it is not made too strong. The usual way is to take a pint of some absolutely pure and sparkling water, generally "Radnor" with the spirit, but spirits need to be used very moderately. Lime juice or milk with Radnor is popular with most of the younger athletes.

STORY OF A DON FRESHET

Continued From Page 1.

a muskrat's back. And so the rocks were carried down till the ice was broken or stranded; if stranded the rocks and gravel and soil will be found released on the flats in a few days of melting. Other big boulders will be dropped in the river, to be moved again a mile or two further down next year by the same incessant process. And that is how Farmer Brown's stepping stones disappear every year or two!

Great Deposits Left.

But it is true that ton boulders were seen floating down the river on the tops of ice cakes? Yes. When the big flows with imprisoned rocks underneath went over the dams, they turned bottom side up and left the big stones gradually falling down the river on top; and if he once got fairly into the lake, he might float with a favorable wind to the mouth of the Credit before his host would drop him; and strange as it may seem, in many cases, for this surprising way at times. And every farmer who owns a flat on the Don, if not one year, then another, has great deposits of gravel and building sand left on his place that he can team off and sell. Some of the fallen trees are floated off and other trees from those above are stranded on his place in the way of compensation.

Thousands of Tons.

But if thousands of tons of ice went out, still many times that amount of snow water went down the river from the fields that make up its drainage basin. And in this flood there were thousands of tons of the best soil in the fields. The Don takes down an enormous tribute in this way every year. A sloping plowed field covered with snow followed by a rushing train of driftwood, and the poor crops. A sloping field should be kept

in grass says the modern professor of conservation.

Greater Rivers.

In the old days—before settlement there were none of these present day spring freshets with the ice rushing out in a few hours. The rivers were greater and wider because of the forests and the water and ice and snow all held back by fallen timber, vegetation, dams, and intervening swamps. There was a steady flow of water for weeks and no low water till midsummer. The Don will go to a ribbon in a few days. In years gone by it floated down great spars for the lumbermen for long weeks in the spring.

But once man began to cut the forests and to open up the beds of the rivers, to remove the dead trees for firewood in low water late in the summer to make it more easy to float his logs, he wrenched the whole course of nature and in place of a gradual rising flow of water over months there came these spring freshets limited to a week or less, and its destructive work along the river banks. Washes of all kinds came with the freshets. The greatest rivers, like the Mississippi notably, as well as the Don, have changed in the most surprising way. And to our great loss.

Still worse, the drainage of the swamps, and the country where the head waters of our rivers are, forces the snow water out to the lakes often in less than a week when formerly it took years for the same water to get to the sea.

It would pay us one hundred per cent on the money if we could put the swamps back, the forests back, and do away with those modern developments of unnecessary freshets.

What is the Cause?

Read the report of the conservation commission which discusses that growing scarcity of water owing to this unnecessary but fatal disturbance of nature caused by man in his blindness, in his wastefulness, in his reckless disregard of succeeding generations.

Pages 2-5 general introduction. "Water powers of Canada." Conservation Commission Report, 1911. Only one-sixth of the annual rainfall actually gets into the earth to replenish what is called the ground water which is this ground water that helps to nourish agriculture and supplies the domestic water for the great bulk of our people, and industries in many cases, for the most of our animals to drink. The level of this ground water—into which all the wells are sunk, and from which irrigation water is steadily receding—is level is lowering—and this is caused by deforestation and reckless drainage of the stores of water in the higher swamps. Freshets are a most expensive business.

Some day we may lose our showers of rain and their fruitfulness that follows these.

BIG DRYDOCK FOR SOO.

OTTAWA, April 6.—F. H. Clergue, Alex. Simpson of Ottawa and D. D. Porter of London, Eng., are behind a proposal to construct a two million dollar drydock at Saint Ste. Marie.

They will approach the government for a subsidy under the terms of the Drydock Subsidies Act, and it is expected will get it if the terms of the act in respect to specifications are complied with.

The Store Across the Street

HOW often have you noticed that people at night kept to the north or the west side of the street? Seidon, if ever, do you find the crowds on the east or south side.

Why?

BECAUSE no one wants to walk in the dark when they can have the light. No one wants to shop in dingy, dismal, half-lighted stores when those that glow and radiate with cheerful, brilliant light invite them.

THERE is a south side grocer down Queen East who has taken notice of the universal trait of human nature, and is daily profiting by it.

HIS store used to be as gloomy as his competitors. Until one day he realized that if his business was to go ahead and be bigger, it would first have to be better.

HE didn't start a series of bargain days, nor whomp up "Selling Out At Cost," "Renovating," "Rejuvenating" or "Semi-Annual" Sales. He didn't lower prices with a notch or two in quality at the same time. He didn't offer "premiums" as bait for new business. No! He didn't do any of these things.

THE fact is what he actually did do was so extremely simple, and perhaps so obvious that you'll smile. He simply put in a new system of lighting—Tungsten Lamps at that.

BUT you ought to see the difference it has made, both in the appearance of his store and in the amount of his business.

PEOPLE, of course, don't always speak of his place as "The Store Across the Street." But when they do refer to it in that way to their friends, nearly everybody seems to know the one they mean.

TUNGSTEN lighting will not make every store stand out like a lit match in a dark pantry, because every store is not on the east or the south side of the street. But it will increase your illumination by nearly a third without any increase in your lighting bills.

THE Tungsten gives a softer light—whiter light—and a brighter light. It is easy on the eyes and shows articles in their natural colors. You have vastly fewer breakages with the Tungsten, and far better satisfaction all round.

I SNT an economy lamp with a hundred point efficiency in illumination worth your serious consideration?

WOULDN'T it be to your advantage, then, to use the Tungsten, when it gives you all these benefits at no greater cost? Wouldn't it be a good idea, first of all, to call us up and have one of our illuminating engineers go into your lighting problem with you? Even though you are likely to find the information helpful, valuable, his services will cost you nothing. And you're under no obligation to accept his suggestions in any event.

Adelaide 404 Will Put You in Touch With the Service Department at Once

THE TORONTO ELECTRIC LIGHT CO., Ltd.

12 ADELAIDE STREET EAST.

"SAY, George, these cigarettes are a pretty fine line; what do you call them?"

"Club Virginias—Tuckett's, you know. Do you like them?"

"Rather. I've been over all the hurdles in cigarette sampling, but none I've ever tried can touch these for a really gilt-edged smoke. I thought I had reached what you might call the ultimate in cigarettes, but these Tuckett's have put me one notch higher. Just as an evidence of good faith, I'm going to call the waiter and order another box."

"All right, old man, I'm with you."

Tuckett's Cigarettes

As an accompaniment to a grill lunch, Tuckett's Special Turkish or Tuckett's Club Virginias—according to your taste—contribute a definite enjoyment. The fine, mellow flavor of the pure leaf tobacco blends delightfully with the coffee and adds a pleasurable finality to the meal.

Three Varieties:
Tuckett's Club Virginias, 15c. for 10
Tuckett's Special Turkish, 15c. for 10
Tuckett's T. & B., 10c. for 10

Sold most everywhere, including your favorite club or grill-room.

TUCKETT LIMITED, HAMILTON, CANADA

FIVE FIREMEN OVERCOME AT FRONT STREET BLAZE

John J. Fee's Warehouse Guttled With a Loss of \$30,000 on Saturday Afternoon.

When a fire broke out in John J. Fee's wholesale produce warehouse at 44 East Front street, about 4:35 Saturday afternoon, thousands of spectators were thrilled even more than had been a blood-curdling melodrama. Five firemen were overcome by the dense smoke on the ladders leaning up against the burning building. They were rescued by brother "smoke-eaters," and carried to earth by means of ropes, which were wrapped around the waists of the limp bodies.

All the excitement happened within twenty minutes. But the blaze carried on its destructive work for two hours, completely gutting the building and playing havoc to the extent of about \$30,000. The building was owned by the Manning estate. Both building and contents were insured.

The blaze centred in a large pile of packing cases on the second floor, near the rear. About the firemen were in the building trying to smother it, but were driven back by the thick smoke several times to the front street window.

Those who fainted were Oliver Poole, John Best, William Shelts and George Sinclair, all of whom were at the Fire Station, and Lieut. Hughes of Queen-street Hall.

Collapsed on Ladder.

Poole was the first man to keel over. He climbed out of a second-storey window, closely followed by Sinclair, gained his footing on a ladder, and commenced to descend. About half-way down he collapsed against the fire rung.

"Grab Poole; he's fainted!" yelled Sinclair. A fireman rushed to a wagon, secured a rope, and then ran up the ladder to his fallen comrade, and in the meantime Sinclair was holding him by the scruff of the neck for dear life. No sooner had the rope been placed around Poole's waist and held there by a hook than Sinclair showed signs of weakening.

"Catch Sinclair!" shouted Chief Thomson, who was hanging on the other ladder nearby. Sinclair started to slip down. He was dead to the world. About six feet from the pavement his ears all descent was checked by a confere. A number of spectators had rushed to the foot of the ladder and caught him in their arms after a drop of about six feet.

Shortly after it was observed from below that Shelts was again in by the smoke and he was assisted to safety by two men. Then John Best peeped his smut-smear face out of a second-storey window, and tried to inhale a breath of spring atmosphere. Presently he collapsed on the window sill. He was carried down by a squad of firemen, who by this time had organized themselves into a Red Cross brigade. When Best was safely on terra firma, Lieut. Hughes of Queen-

street hall clambered aboard the ladder from a third storey window and started down, step by step. About half way from the bottom he stopped and could go no farther, but rested his body against the rungs of the ladder. Like Sinclair, he commenced a downward slide, which looked something similar to a ride on a coal chute. He was rescued from serious injury by a fellow fireman.

Resuscitated.

All the suffocated men were carried into the warehouse of Rutherford, Marshall & Co. and resuscitated in a few moments. But they were unable to again tackle the blaze, which was gradually being brought under control.

The fire originated behind an elevator on the second floor, presumably from a defective wire. No other cause can be determined. When the alarm was rung in it had got off to a fair start, because no one was working in the building except in the front-street office on the ground floor. Nine sections from all the stations in the downtown district were soon upon the scene. Four streams were played on the blaze from Front-street and two lines of hose were used in a lane in the rear.

The warehouse was well stocked up with lard, eggs, butter and honey, which did not fall a very willing prey to the flames, but instead, kicked up

When your order comes from the grocer's see that he has sent you WINDSOR TABLE SALT. Why should you bother with salt that "cakes" as hard as rock, when you can get WINDSOR SALT?

WEBSTER'S NEW ILLUSTRATED DICTIONARY COUPON

APRIL 8th, 1912.

SIX COUPONS OF CONSECUTIVE DATES CONSTITUTE A SET.

Cut out the above coupon, with five others of consecutive dates, and present them at this office, with the expense bonus amount herein set opposite any style of Dictionary selected (which covers the items of the cost of packing, express and receive your choice of these three books).

The \$4.00 (Like illustration in advertisement elsewhere in this issue) WEBSTER'S is bound in full Limp Leather, flexible, stamped in gold on back and sides, printed on Bible paper, with red edges and corners rounded, beautiful, strong, durable. Besides the general contents as described elsewhere there are over 600 subjects beautifully illustrated by three-color plates, numerous subjects by monotone, 16 pages of valuable charts in two colors, and the latest Census. Present at this office SIX Consecutive Dictionary Coupons and the Expense Bonus of \$98c.

The \$3.00 It is exactly the same as the \$4.00 book, except in the style of binding which is in half leather. Illustrated DICTIONARY with olive edged corners. SIX Consecutive Coupons and the Expense Bonus of \$81c.

The \$2.00 Is in plain cloth binding, stamped in gold and black; has same paper, same illustrations, but all colored plates and charts are omitted. SIX Consecutive Coupons and the Expense Bonus of \$48c.

Any Book by Mail, 22c Extra for Postage

Distribution hours from 9 a.m. to 5 p.m. daily; Saturday, 9 a.m. to 2 p.m. at The World Office, 40 Richmond Street West.

a large amount of smoke. This made it such heavy going for the firemen. Much damage was done to the stock by water, for the place was virtually flooded. All the books were saved. A cold storage located on the third floor in the rear was filled with perishable goods, but it remained intact from the flames. The interior of the building was burnt considerably, but most of the damage was done to stock.

Seven Boys Arrested For Shooting Gulls

Seven boys were arrested on Saturday afternoon for shooting gulls in the Rosedale ravine, close to the Don River. They will appear in court on Monday. During the past two months gulls and ducks have flocked about the outlet of the Rosedale sewer into the Don, and men and boys have found it easy picking with rifles.

Gulls are protected on account of their scavenging propensities.

MONDAY MORNING, APRIL 8, 1912

SIR JAMES SHOULD ACT. Whenever the Laurier Government was friendly to an anti-public deal like damming the St. Lawrence River for the benefit of an American trust, it took refuge behind the parliamentary custom which assumes that a committee which favorably reports a private bill has done so honestly and after due consideration.

Teh undisputed facts in this case are so astounding as to challenge belief. They are in short as follows: The City of Ottawa is afflicted with a pest house on Porter's Island in the heart of a thickly congested district. The island is overrun with rats, being used as a garbage heap as well as a hospital. Smallpox patients in Ottawa are secluded by their friends to prevent their being taken to this place.

That committee said to the city, and to its representatives in the legislature, that no such authority would be given unless Ottawa at the same time took in addition authority to raise, and did raise \$22,000 with which to pay off a certain disputed claim against it now in the courts. May we ask Chairman Lucas and the members of the private bills committee who it is that controls this claim and is to get the \$22,000? Why is this person or firm unable to collect the money thru the courts? Is there a nigger in the wood pile, and what is the name of the colored gentleman? Upon what meat does he feed that he is able to turn the Ontario Legislature into a debt-collecting agency.

Sir James Whitney should take action in this matter in his usual bold, straightforward way without waiting for J. A. Ellis and Napoleon Champagne, the Conservative members for Ottawa, to carry the appeal to the people.

NATIONALIZATION OF PUBLIC SERVICES.

Labor conditions in Britain, particularly those connected with the transportation services and the coal industry, have greatly stimulated the movement to have these basic factors in the national economy placed under state ownership and control. To this the railroad companies have also contributed by their abandonment of the old competitive system and the extensive series of working agreements into which they have entered.

Very significant in this connection was his estimate of the present state of public sentiment regarding state ownership. In former days, he remarked, the great mass of middle-class opinion would have been strongly opposed to this. The feeling among manufacturers and merchants was, he thought, now quite different. An enormous majority of railway workers would undoubtedly welcome the step and at least two of the most prominent members of the cabinet had declared in its favor.

ready, under strong government pressure, relinquished the right to settle the hours, wages and conditions of service of their men, subject to certain limitations. Fundamental differences in matters of principle between private practice and control might compel the companies to call on the state to take over the railroads. Practically the same questions have been raised in the coal industry during the recent general strike, and previous labor disturbances. The state has already interfered between employers and workmen in the matter of hours and conditions of service in the mines and another important advance has now been made by parliamentary acceptance of the principle of a minimum wage. Recognition of the possibility rather probable consequences of forcing a universal minimum wage, altho the rates asked per day were admitted by Mr. Asquith to be reasonable in themselves, no doubt accounted for the premier's refusal to incorporate them in the act, which, as passed, leaves it to the various district boards to fix the minimum wage within their respective areas.

REWARD SHOULD BE OFFERED. Toronto is attaining an unenviable notoriety in Canada for undiscovered and unpunished crimes. About a month ago an office at the foot of John-street was entered and a violent assault committed, resulting in the abstraction of a considerable sum of money. Two weeks ago a murder was committed in the crowded ward, the criminal being seen by several persons, and the previous disturbance having also attracted attention. Only the other night another man was murdered in a lonely part of Strachan-avenue, escape from which, however, could only be effected thru a populated district.

What is still more extraordinary the companion of the victim, also the recipient of serious and possibly fatal injuries and covered with blood, made his way alone to his home on Richmond-street without notice being taken of his condition by those he met on the streets along which he passed. In this last case the suspects are believed to be identical with those of other individuals, who have been attempting to make arrangements with various junk dealers, under pretences corresponding to those inducing Mr. Rosenthal to keep the appointment, which led directly to his murder and the assault on Mr. Dunkelmann. It may be taken as highly probable that there are people who could give valuable information to the authorities, but who from some reason or another have not come forward to assist the course of justice.

STEAM AND ELECTRIC POWER. Ontario's hydro-electric system has now got beyond the experimental stage and its success reflects the highest possible credit on Mr. Beck, and his colleagues in the commission, and their expert advisers. The sound judgment displayed in the making of estimates and the refusal to submit offers which might be justified by the results are well calculated to create and sustain

A TIME-TRIED INVESTMENT

This is not only one of the largest and strongest, but also one of the oldest of the Canadian financial institutions. It has a record of considerably more than half a century of steadily increasing success, stability and strength. In this time, its capital, fully paid, and Surplus, exceed NINE and THIRTY QUARTERS MILLION DOLLARS.

WE shall be glad to send you a specimen Doherty, a copy of our last Annual Report, and full particulars, on receipt of your address. Write for them to-day, or call and see us, if convenient.

A MILITARY CAREER

COLONEL THE HONORABLE SAM: If they won't let you join the navy, why, we'll just have to make a sojer of you, Johnny.

public confidence. This was clearly revealed by the readiness with which the large extensions of power asked for by the commission received legislative assent. It is now evident that the great and progressive departure inaugurated by the provincial government has thereby established itself and that Ontario is forever protected against the exploiters of her waterpower resources.

To have done this alone would be enough to give Sir James Whitney's administration a high place in provincial history. Dependent as Ontario is directly from a public electricity supply is enormous and may in the future become still more marked. If Mr. Dunham, who Popular Mechanics observes, has been for years president of the Harford (Conn.) Electric Light Company, is correct, the wonderful strides made in reducing the cost of steam-generated power will give if the advantage over hydraulic power. Mr. Dunham states that many of the best engineers have arrived at the conclusion that, on the whole, in any new installation steam power can be employed with much greater chances of profit than almost any waterpower in any part of the United States, except where coal is very high in cost.

Really the doctrine of the resurrection of the dead has been repudiated by all denominations, not willingly, not intentionally, but by force. As it were, an apostate theory received and entrenched in the minds gives no place for the doctrine of the resurrection as the Bible presents it. Consequently, we have twisted the doctrine of the resurrection and recite, "I believe in the resurrection of the body."

A CHANCE FOR THE SCHOOL BOYS.

The third annual Arts and Crafts exhibition, which is to take place at the West End Y. M. C. A., on Friday and Saturday, April 12-13, promises to eclipse all former exhibitions, judging from the number of enquiries being made by the youngsters who are interested in the various classes of exhibits, which include: Scout craft, art, photography, industrial crafts, applied arts, manual training, natural history collections, miscellaneous collections, penmanship, essay competition, domestic science and aerostatics. Besides these exhibits there will be a scout demonstration, an entertainer's contest and a spelling match. For the school boys, the writing, essay competition and spelling match are creating considerable talk. The subjects chosen for the essay competition are: For boys not yet 15 years, the subject is "Canadian Citizenship," and for the boys not yet 15 years old, the subject chosen is "Courtesy." The essays are limited to 200 words. In the spelling competition one boy from each of the city schools who is not in a higher grade than the junior fourth will be eligible to compete. The spelling match takes place on Saturday afternoon at 4 o'clock.

Pastor Russell's Sermon

BROOKLYN, N.Y., April 7.—Pastor Russell of the Brooklyn Tabernacle preached in the Academy of Music to-day nearly 200 hearers. His topic was, "Why Christ Arose From the Dead." His text was: "If Christ be not risen, then is our preaching vain and your faith also vain; yea, and we are then false witnesses of God."

But the moment the sloughing off of this dying matter ceases, we have death; and as soon as the body dies the soul ceases to be. There can be no thinking without a brain, no breathing without lungs, no maintenance of life in any sense of taking in this evidence, that it may be put in before judgment is given. If this course is productive of any additional expense at the trial, the trial judge will have ample jurisdiction to deal with it. Subject to these conditions the order will be affirmed. Costs in the cause unless otherwise ordered by the trial judge.

FATAL QUARREL AT THE FALLS.

NAGAR, FALLS, N.Y., April 6.—(Special).—Following an argument over while slave alleged to have been imported from Canada, Joseph Scizzo shot and mortally wounded Robert Makin in East Falls-street late to-day. Makin died at 7.30 to-night. A score of people hurrying home from work witnessed the shooting in the busy thoroughfare. Immediately after the shooting Scizzo dodged thru the crowd and was captured after a mile chase by the police.

At Osgoode Hall

ANNOUNCEMENTS. Monday, 8th Inst. (Easter Monday), is a dies non at Osgoode Hall. MICHIE'S GLENERNAN SCOTCH WHISKY A Blend of Pure Highland Malts BOTTLED IN SCOTLAND EXCLUSIVELY FOR Michie & Co., Ltd., 7 King St. W. TORONTO

The Big Four

and their daring conception of the Mount Royal Tunnel and Model City.

The first thing to know about any Real Estate proposition is who stands back of it.

SIR DONALD MANN

"One of the Greatest Living Railway Builders."
—J. J. Hill.
1st Vice-President, C. N. R.

"A big man who gets things done. A prodigious observer, who has a rare and never-ending power of projecting great enterprises." Such is an estimate of the man who conceived the great Mount Royal tunnel project in Montreal. Thirteen years ago he came out of the far West, where he had been busy, and found the Lake Manitoba Railway and Canal Co. a bargain. He bought it. He formed a partnership with a shrewd financier, and the railway is going to be a transcontinental. He justifies his partner's financial ability by construction, and has financial ability of his own.

COL. ANDREW D. DAVIDSON

"The Man who 'Discovered' the Great Saskatchewan Valley."

Land Commissioner, C. N. R.

He is looked upon as the greatest living land man, whose advice regarding the C.N.R.'s great land purchase and Model City at Montreal was a big factor in developing the tunnel project. A good many years ago, this man saw that Chicago was developing only the bottom half of the wheat circle; of which she was centre. He "discovered" the great thousand-mile-long Saskatchewan valley, believed in its future, infected the farmers of the Western States with his enthusiasm, and was instrumental in moving thousands of families into Canada. He is known as "the father of the American invasion" into Western Canada. Nearly a million have followed his trail and prospered. Saskatchewan is now the banner wheat province of Canada, just as the Model City is the banner real estate opportunity of to-day.

FOUR FAMOUS MEN whose far-seeing vision and magnificent constructive ability have enabled them unaided to project a ribbon of steel nearly across a continent within thirteen years; four men who blazed the way for multitudes who peopled vast new regions of the great West, whose influence in Canada quickens the pulse of the nation—these are the men whose conception has made possible what is acknowledged to be the greatest real estate opportunity in Canada to-day.

A mountain stood in the path of the C. N. R.'s progress into crowded Montreal, Canada's largest city. It was not feasible to go around as other railways had done. Straight to the heart of the congested city, under and through the barrier was the daring conception. Already preparations have commenced. But the feature of greatest interest to-day, made possible by the "Big Four," is the creation of the Model City, capable of housing 40,000 people, situated at the nether side of Mount Royal, bringing a beautiful residential section within eight minutes of the centre of the City of Montreal.

Story of MacKenzie & Mann's Famous Project

Squeezed by Mount Royal, the barrier at its back, Montreal has extended many miles along the river, until the distances have become a distressing problem, especially in Winter, to its teeming population housed largely in tenements, flat houses and apartments. In this, one of the most crowded cities in America, it was found there was no feasible right-of-way, or suitable sites for freight yards and station. It was freely predicted that MacKenzie and Mann and their lieutenants could not find a way into Montreal with the same advantages as the C. P. R. and G. T. R.

But men who could blaze a transcontinental could find a way. They combined Montreal's pressing need for expansion towards the direction of the mountain barrier with their own problem. They purchased 5,000 acres back of the mountain and drew the plans of the tunnel that is going to let Montreal expand only eight minutes' ride from her congested centre of population.

MODEL CITY LAID OUT.

As work on the tunnel progresses to completion the value of the lands bought by the Big Four as part of the project will become more valuable day by day. A Model City in these properties has been laid out by a landscape artist and the plans have been approved by the railway's sales agent. Various banks have already secured their sites. You cannot do better than to follow their example and secure a lot or two.

Instead of being a barrier, Mount Royal will stand between the residents of the Model City and the smoke of the old congested areas. There will not be any car shops or factories. This beautiful residential district, with its fresh air, wide streets, and parks, will be more accessible than Rosedale is to Toronto. Instead of 20 to 50 minutes, this ideal residential location will be about 8 minutes from the centre of Montreal. What a tremendous advantage for the thousands who will prefer it to the 40 to 60 minutes consumed, in reaching the centre from Montreal's present outskirts.

And there will be no snow or traffic inconveniences. Eight minutes without possibility of blockades. Trains will run at express speed, and there will be the best of service.

MUST FIND OUTLET.

The men who have twenty-five millions in this gigantic project can be depended upon to rush the tunnel to completion. The Big Four are too deeply concerned in their share of business in Canada's greatest commercial port to not know the tremendous value of a concrete realization of the project at the earliest possible date.

The Model City conceived by the C. N. R. as part of their great plans for Montreal could be filled by but one year's increase of population.

The Model City will have 40,000 population. Montreal adds to her population an Ottawa or a Hamilton every two years.

The New City will have its C. N. R. terminal at its centre, from which will radiate four diagonal boulevards, ensuring easy access from every point. The great circular drive around the city will be lined with small parks. Lots will be 100 to 120 feet deep, and 30 to 50 feet frontage, the latter for residences. And they will cost early purchasers less than half that of properties in Rosedale, Toronto, which is far less accessible to the centre than is this Model City to Montreal. You see, there is a wide margin of profit possibilities—from 100 to 300 per cent.—in Model City real estate secured at to-day's prices.

The Model City will be quickly built up. It is the conception of four men whom Canada believes in. It is a wonderful opportunity—a real estate opportunity the like of which has never occurred in Canada before and will not happen again. We have been in close touch with the Big Four ever since the birth of their project. Our lots are first choices, and you will find it pleasant as well as profitable to do business with us. Ask us for further information. The sale of lots is now in full swing. The earlier you act the wider your selection of locations. Fill in, cut out and mail the coupon to-day.

SIR WILLIAM MACKENZIE

"The Master of Finance."

President of the C. N. R.

In 1896, the beginning, to-day 6,500 miles of railway in operation, 3,500 miles under construction or surveyed—a monument to the financial genius of one man. From the farm, school teaching, store-keeping, and building trestles and snow sheds for the C. P. R., he came to control street railways in Toronto, Winnipeg, Birmingham, Mexico, Brazil, etc.

It was said the C. P. R.'s feat could not be duplicated in the West. Sir Wm. MacKenzie is a man who never lets go. Now he is chief of nearly half the railroads west of Lake Superior. "A man who looks right into the centre of a problem, knows its vital spark and discovers a way to kindle it into a blaze." A man who made a successful deal for a railroad 250 miles long in five hours' time has turned his talents to a magnificent feat in pushing the C. N. R. into Montreal, and at the same time providing an outlet for Montreal's increasing population.

MR. D. B. HANNA

The Man who carries the Enormous Burden of day-by-day Management.

Third Vice-President, C. N. R.

A genial, much-liked Scotchman, who began railroading in the Old Land at 6 shillings a week, thirty years ago. He rose from the auditing departments of the G. T. R. to be land commissioner of the Manitoba and Western Railway. At the inception of the C. N. R., in 1896, he became its first general superintendent, and third vice-president in 1902. Big affairs are his forte. His advice is much sought for on the boards of financial institutions. He is intimately associated with every big move on the C. N. R., and his judgment behind a scheme is considered a surety of its worth.

When such a man is associated with the C.N.R. Model City project you can bank on its being a success.

ESTABLISHED 1864.
JOHN GATTO & SON
The Spring Season

Has been one of phenomenal activity in our Ladies' Tailoring and Dressmaking Departments and to some we have had to deny further deliveries owing to late placing of orders. Now, however, that the end of the Easter rush is in sight, we would say we are prepared to give unusually speed deliveries, for a time at least.

LADIES' TAILORED SUITS, GOWNS, DRESSES, ETC.

MILLINERY

The success of this season's millinery is a compliment to the good judgment and taste of our designers and decorators, and while the most elaborate of fashion confections are on display in our showrooms, yet in many instances the quieter designs of our own artists appeal more strongly to the Canadian lady.

Every requirement of Taste, Suitability, Material or Price can be met in our choice millinery stock.

READY WEAR SUITS

Every season appears to produce smarter models in Ladies' Readywear Suits. All the novelty materials, trimmings, effects and suit models are shown in this splendid assortment from \$15.00, \$15.00, \$22.00 to \$45.00 each.

CAMBRIC AND LAWN DRESSES

Ready to wear in a full range of sizes and styles of dainty and serviceable models and materials from \$2.75, \$3.50, \$4.25, \$5.00 up.

LADIES' COATS

In full range of fashionable materials including Tweeds, Serges, Homespuns, Winstons, Face cloths, etc., in all the spring shades from \$14.00 each; also a striking display of single-breasted garments for special wear in Fine Cloths, Silks, Satins, etc., etc., from \$25.00 to \$150.00 each.

WASH FABRICS

Our display embraces all the season's favorites along the regular wash line, such as Gingham, Chambray, Zephyr, Gaieties, Linens, Crepes, etc.; also the present and coming fabric known as "Batiste," the popular crash towel finished, wash dress fabric for 1912.

LADIES' GLOVES

In a full range of sizes and qualities for spring wear.

HANDKERCHIEFS

Of every description and for every use of lady or gentleman, from the plainest of ordinary utility makes up to the finest in the world. Latest Handkerchiefs always a strong feature of our stock.

MAIL ORDERS CAREFULLY FILLED.

JOHN GATTO & SON
 65 TO 61 KING STREET EAST, TORONTO.

With the School Ma'ams

CHICAGO, April 7.—(Special).—It has been a big sunny Easter Sunday, with just enough snap in the air to please all who have not invested in spring millinery.

The teachers are a scattered bunch to-day. Some hired autos to see the city, many visited Field's Museum and the art gallery, and several others spent the day wandering up and down past the large stores, contemplating an early shopping tour.

Of course coming from Toronto it is natural to suppose that nearly every one attended church. Dr. Gunsulius attracted many to the Auditorium, and the Thomas Orchestra, which assisted at one of the large churches, drew a crowd there. At Orchestra Hall this afternoon, J. H. Morgan gave a concert to which many would have gone but for their good Canadian ideas of what should or should not be. Ringling Brothers attracted a few to the Coliseum.

Saturday was spent shopping and attending the different theatres, and all these who yearn for the gay life of early morning cafes found abundant attraction. Mr. Hughes addressed the Chicago City Club yesterday afternoon and he left the party to their own devices for a few days to give an address in Winnipeg. Every one is happy and Chicago is making a wonderful hit with all the school ma'ams. M.B.

Blaze in Montreal Chinatown

MONTREAL, April 6.—Fire shortly after 7 o'clock this morning did damage to the extent of \$30,000 to premises on Lagrange-street, occupied by R. C. Miller, mill supply agent; Canadian Coconut Company, W. J. Kearns, printer; John Fee, machinist, and the Dominion Lithographing Company. The blaze was in the heart of Chinatown and caused some excitement among the Celestials.

Premature Old Age

Wilson's Inwards' Port
 (à la Quina de Pérou)

is THE vitalizing tonic "par excellence".

It is a true tonic—not a stimulant. Hence, it restores the virile and physical powers.

Big Bottle. Ask YOUR Doctor.

Two American Citizens Heavily Bailed at Bow Street, London.

LONDON, April 6.—Release on bail of \$30,000 each was granted to-day to Alfred H. Motley and Clark A. Miller, formerly of New York, who were arrested on Wednesday in London at the request of the New York police, on a charge of larceny.

At the first hearing on Thursday the police magistrate at the Bow-street court said that he was inclined to accept bail but could not do so until he had received further information from America. He was now able to give them their liberty pending the arrival of the necessary papers for the prosecution from New York.

THE WEATHER

OBSERVATORY, Toronto, April 7.—An area of low pressure, which passed across the great lakes Saturday night, has caused a fairly heavy rainfall in Ontario and Quebec. The weather is now cool from Manitoba to the Maritime Provinces, but milder again in Saskatchewan and Alberta.

Asciendum and maximum temperatures: Victoria, 46-48; Calgary, 30-44; Edmonton, 28-32; Regina, 28-32; Winnipeg, 27-31; Fort Arthur, 25-31; Parry Sound, 23-26; Toronto, 30-49; Kamloops, 22-46; Ottawa, 23-31; Montreal, 28-36; Quebec, 24-32; Halifax, 27-30.

—Probabilities—
Lower Lakes and Georgian Bay— Fair and cool.
Ottawa and Upper St. Lawrence— Fair and cool.
St. Lawrence— Strong northwesterly wind; clearing and cool.
Gulf— Strong southwesterly to northwesterly winds; showery and turning cooler.
Maritime— Strong northwesterly winds; showery and turning cooler.
Superior— Fair and cool.
Manitoba and Saskatchewan— Local showers; no decided change in temperature.
Alberta— A little cooler and mostly fair with some light showers.

Street Car Delays.

Saturday, April 6, 1912.
 8.20 a.m.—Held by train, G. T. R. crossing; 5 minutes delay to King cars, both ways.
 8.25—Wagon stuck on track, Kingston-road and King; 10 minutes delay to westbound King cars.
 8.25—Big broken down on track, College and Yonge; 5 minutes delay to all cars on Yonge-st. northbound.
 11.37—Wagon wheel stuck in switch, Bloor and Yonge; 5 minutes delay to eastbound Avenue-road, Dupont and Bell Line cars.
 8.45—Front and John, held by train; 4 minutes delay to Bathurst cars, both ways.

DEATHS.

CHESEBORTH—At his late residence, 22 Markham street, Toronto, John William Chesworth, in his 44th year.
 Funeral from above address on Monday, April 8, at 2.30 p.m., to St. James' Cemetery.

COOPER—At Passadena, Cal., on Feb. 24, 1912, Missed only beloved daughter of Walter and the late Alice Cooper, in her 29th year.
 Funeral on Monday, April 8th, at 6 p.m., from Craig & Son's undertaking parlors, 187 Queen-street West, to Prospect Cemetery.

GRIFFITH—On Saturday evening, April 6, 1912, at his late residence, 138 Dowling avenue, Toronto, Rev. Thomas Griffith, M.A., Ph.D., in his 69th year.
 Funeral Tuesday, April 9, at 2.30 p.m., from the residence of his son, Dr. R. C. Griffith, 212 Jameson avenue, to the Necropolis.

O'LOANE—At her son-in-law's, 631 Dovercourt road, on Sunday morning, April 7, 1912, Mrs. Ellen O'Loane, widow of the late James O'Loane.
 Funeral Tuesday at 9 o'clock from St. Anthony's Church.
 Gospel papers please copy.

PEARSON—On Saturday, April 6, 1912, Mary A. Pearson, wife of George Pearson, aged 69 years.
 Funeral Monday, April 8th, at 2 p.m., from 74 Ossington avenue, to Prospect Cemetery.

SMART—At her late residence, 28 Simpson avenue, Toronto, on Sunday, April 7th, 1912, Mary Cain, widow of the late Thomas Smart.
 Funeral Tuesday, 2.30 p.m., to St. James' Cemetery.

Harper, Customs Broker, McKinnon Building, 10 Jordan St., Toronto. ed

SOCIETY

The festival of the lilies takes place at Massey Hall this evening.

The marriage of Miss Otville Walker to Mr. Allen Macdonald takes place very quietly in St. George's Church at 8.15 this afternoon.

Mrs. Allan Keefer entertained at a luncheon at the Ottawa Golf Club in honor of Miss Marjorie Macdonald of Toronto, who is the guest of Mrs. Tom Keefer. The guests included Miss Ethel Perley, Miss Katie Hazen, Miss Roby Hughes, Miss Madeline Ramsey, Miss Marjorie Monk, Miss Marion McDougall, Mrs. Tom Keefer and Miss Macdonald.

Mr. and Mrs. W. K. George are at Pinehurst, N.C.

Mrs. Arthur Murray is the guest of her father, Captain Walker, for her sister's wedding to-day.

The marriage of Miss Alice Burnham to Dr. Norman MacLaurin takes place to-day at Port Perry.

Miss Maud Arthur Weir leaves Chicago this week to visit in Cincinnati.

Mrs. Rouseau Kleiser has left to join her husband in New York.

Miss Maud Kirkpatrick has returned from Atlantic City to spend a few days before visiting Mrs. Egbert at Niagara Falls, N.Y.

Miss Ida Caldwell spent Easter with her brother, Major Clyde Caldwell, Beverley-street.

Mrs. Ernest Dickson is returning to Porcupine on Wednesday.

Mr. Charlie Murray is in New York.

Miss Ruby Ramsey, Montreal, is the guest of Mrs. Gordon Oster.

Capt. Sutherland Brown returns to Kingston this evening.

Mr. R. Barns is in New York.

Mr. Lyle Crossen, Winnipeg, is in Cobourg to spend Easter with his parents, Mr. and Mrs. W. J. Crossen.

Mr. and Mrs. Denis Murphy, who were in Toronto visiting their son-in-law, Mr. George Warwick, have left for Ottawa, accompanied by Mr. Warwick and his children, who spent Easter with them.

Mr. and Mrs. James Coulter, Warroad, are spending Easter in New York.

The Daily Hint From Paris

Elvira Murray

Home Helps

There is nothing that gives pentry shelves a greater appearance of tidiness than having them covered with white enamel paint, and this is economy in the long run. First scrub them well and then apply a coat of ordinary white paint; after it dries apply a coat of the enamel paint. They are easier to keep clean than when papers or other self coverings are used, and the effect is very attractive.

To brighten dull furniture and yet not injure the highest polish, dampen a clean dusting cloth with equal parts of turpentine and coal oil—be sure and have the proportions equal, turpentine alone would cut the varnish.

Eran is an excellent cleaner. Try it on some light colored cloth. Apply it by simply rubbing on the soiled material in a dry condition, rubbing the spots a little harder than the rest, and then brush it off.

If one has time it could be well spent in getting the verandah furniture in condition for the warmer days, which is as follows: Beat the yolk smooth, then fold in the whipped whites. Allow a tablespoonful of milk to each egg used and heat to the boiling point in a granite frying-pan. Add a scant teaspoonful of butter for each egg, and stir until melted. Pour in from the bottom until a creamy mixture of mingled flakes and yellow is formed. Serve at once.

Pluffy Omelet.
 Make the ordinary plain omelet, a large one, with the yolks of two eggs only. Beat for five minutes. Add a pinch of salt, a little pepper and two tablespoonfuls of milk and cream. Stir gently with a spoon and pour into a large buttered frying-pan. Watch carefully, cook to a golden brown. In a separate bowl beat the whites, and when the omelet is ready to fold, fill in the whites and stir most carefully on a hot platter. Add squares of butter the length of the omelet, with a little powdered sugar, if you like it, and serve, cutting across, beginning with the centre. There is no finer omelet than this if you are careful in its preparation.

Bread Souffle.
 When the usual fried, boiled and scrambled eggs have become tiresome try this for a simple breakfast or luncheon dish. Put a small piece of butter on a little earthenware ramekin; allow it to melt, then add the crumbs from a slice of either fresh or stale bread well moistened with a couple of tablespoonfuls of milk, and either one or two eggs slightly beaten. Stir all the ingredients for a moment, season well and cook either on top of the stove or in a slow oven. As soon as the mixture begins to puff up and slightly brown, remove from the fire and serve in the ramekin.

Strike Over in Hoquaim.
HOQUAIM, Wash., April 6.—The strike situation in Hoquaim has greatly cleared up. A decision of the saw mill presidents and managers to sign an agreement that \$2.25 a day shall be given the laborer here was paid to the common laborer here with effect. The mill gave the so-called white labor, and that an employment bureau, maintained by the mill, was to furnish the men. The mill men declare that while they were not to treat with the industrial workers of the world they had no quarrel with union labor and would not discriminate against union men.

The industrial workers with cards have tagged themselves "Against the shotgun brigade."

The Nursery

Baby's Weight.

Baby should be weighed once a week until he is about six months old. No doubt you have heard this idea laughed at by those who are considered nonsensical. Nevertheless, continue to weigh your baby every week; it is the surest method of watching his progress in growth and development. It is wise to keep a record of his weight from week to week, then you can compare him with the average weight, which is about 7 1/2 pounds at birth; 8 pounds at 1 month; 12 to 13 at 2 months; 16 to 17 at 4 months, and 20 to 22 at 1 year.

If your baby gains steadily after the first week, it is a sign of health. Of course, he may go back a little once or twice; this need cause no anxiety for a change of food or extremely hot weather or some slight ailment is sure to be noticeable in his weight.

Some babies gain very slowly, they are well and happy, sleep well, and are supplied with a good supply of food given them, and usually at the end of the year come up to the average weight. If your baby cries with hunger, sleeps in the long run, is always restless, and the same time shows no gain in weight, then you may know he is insufficiently nourished.

Printed Challis Dress.

The challis used for this dress has a tan colored ground with a small design in dark red, and a net top lace is used in the form of a sailor collar. A plain silk, tan colored, like the challis, is used as a trimming. The check velvet loops pass thru openings similar to buttonholes.

Preston Springs, Mrs. Gabriel Elmsey is with her mother, Mrs. Lawson.

Mr. Louis Cory of Toronto University is spending Easter with his parents, Mr. and Mrs. W. W. Cory, in Ottawa.

Mrs. Knowland of Winnipeg is visiting her son, Mr. F. S. Knowland, 191 Howard-avenue, and leaves for Philadelphia on Tuesday.

Receptions To-Day.

Mrs. Benson, 378 Markham-street, and not again.

Mrs. Robert Green, 2 Indian Grove, her daughters, Mrs. Lloyd Smith (formerly Mary E. Green), with her.

FROCKS AND FRILLS.

White serge or flannel suits frequently have buttonholes or embroidery done in cream-colored silk.

Metal ribbons with silk fringes are used for trimmings.

Rosette made of narrow fancy ribbon edged with Val. lace, with tiny silk flower buds nestled at the centre, are the latest hatpins for lingerie hats.

China silk petticoats are in great demand.

Blue linen suits for little boys have a little embroidery in white about the neck, sleeves and down the front.

A suit of grey ratine with revers of white is made up severely plain.

The large buttons are of the grey, with edging of the white, and constantly up.

China silk petticoats are in great demand.

Bow knots of black velvet are used to give a touch of fancy to a summer frock. They are worn at the neck as well as at the waist line.

Cardinal red is almost as much in evidence this spring as emerald green. It is used for linings a great deal, as well as for trimming gowns, hats and kinds.

Changeable tafetas which are two-toned, and the so-called camolette tafetas woven of three or more colors, are used for gowns and wraps of all kinds.

The new envelope bags of leather have long leather handles. Brown, blue and black are the favorite colors.

Big Blaze at Salem, N. J.

SALEM, N. J., April 6.—Fire which started here early to-day in the knitting mill of J. F. Sheppard destroyed about \$100,000 worth of property, and for a time threatened to wipe the town out of existence. The fire badly damaged the Salem opera house, the residence and marble works of Thomas T. Jacquette, the Friends school, the furniture store of Ramsey and Donnelly, the Ramsay dance hall and the livery stable of John W. Foster.

Joe Patchen II, and the other McKenzie horses that Havis James has wintered at Pleasanton, Cal., will be shipped east this week. The stable will get its preparative work over the Libertyville, Ill., track.

"SALADA" means purity, healthfulness, satisfaction.

BLACK, GREEN OR MIXED

Fashion Parade on Fifth Ave. Sadly Marred by Rainfall

NEW YORK, April 7.—(Can. Press).—Fashion's great Easter parade was rudely interrupted by the elements to-day, but not before the advance guard had displayed its gorgeous display on Gotham's famous Fifth-avenue. The turnout for the church services in the forenoon was even greater than in years past, and the styles shown by the paraders while more chastened than last year, were still such as to delight the hearts of those who delight in the riot of colors and combinations of splendid plumes and graceful costumes with myriads of fragrant blooms.

All the churches had special musical programs, and the floral displays surpassed anything previously attempted.

While all the churches were well filled, St. Patrick's Cathedral was crowded to overflowing, and the police in charge of traffic on the avenue had to form a line to keep out the thousands who sought admission until the ticketholders had secured their seats.

Cardinal Purley officiated, and the Rev. Father Bernard Vaughan, the distinguished English Jesuit preacher, in introducing his final conference on socialism, referred to the presence of his "brethren from the north who live under my own flag" and in summing up he exhorted them to combat socialism "for the greater benefit of our empire."

Thousands of Canadians from various cities, among whom were members of the Canadian parliament and ex-members prominent lawyers from Montreal and Toronto, and other people well known throughout the Dominion, were to be seen among the throngs in the parade of the forenoon on Fifth-avenue.

Death in the light of the resurrection was changed; the sorrow of separation was lessened; the death had no longer its horrors and the immortality of life was definitely established.

RESURRECTION CHANGED DEATH

Sorrow of Separation is Lessened, and Immortality of Life Definitely Established.

ST. LAWRENCE OPEN

Brockville, Morrisstown Ferry, Makes Channel Thru Ice

BROCKVILLE, Ont., April 6.—(Special).—Navigation on this portion of the St. Lawrence was opened this afternoon by the arrival of the ferry steamer Bigelow, which ploughed her way thru the ice from Morrisstown, directly across the stream.

The ice bridge has held solid until the past few days. Now it is fast breaking up.

Vancouver Denounces Fire Chief.

VANCOUVER, April 6.—The fire underwriters are out with a hot denunciation of the methods of the fire chief yesterday's blaze, which cost \$150,000. They demand it as a wonder the whole city square did not burn, with \$1,000,000 loss.

The One Perfect Food

The whole wheat grain is the one perfect, complete food given to man. This is affirmed by dietetic experience. It contains all the chemical elements that are found in the human body and in about the same proportion. If it is a complete, perfect food, why mix it with other grains?

Nothing could be purer, more wholesome or more nutritious than

SUREBREAD WHEAT

It is the whole wheat, nothing added, nothing taken away—no yeast, no baking powder, no grease and no chemicals of any kind—just pure whole wheat made digestible by steam cooking, shredding, and baking.

For breakfast, heat the Biscuit in the oven a few moments to restore crispness; then pour hot milk over it and add sweet to suit the taste. It is delicious for any meal with stewed prunes, baked apples, sliced pineapple, berries or other fruits. At your grocer's.

**IG FLURRY OVER
A SCHOOL SITE**

North Toronto Council and
School Board Don't See Eye
to Eye—Heavy Loss in
County to Mill Owners.

NORTH TORONTO, April 7.—(Spe-
cial)—Saturday afternoon's session of
the town council was fraught with
even more than ordinary interest, in
presence of a large deputation from
the Davisville district protesting
against the action of the school board
in their location of a school site, caus-
ing a lively time.

At last Wednesday night's meeting
of the finance committee Chairman
Palmer, representing the public school
board, preferred a request for \$40,000,
stating that that amount was neces-
sary and would buy a site and erect a
school building. He further stated
that the school board had chosen a site
on Davisville-avenue. In this he was
supported by the rest of the members.

At the time Councillor Howe pointed
out the unavailability of the location,
charging that it was too far south, on
the same street as the present school
and in every way unsuited. He met
with little support, however, and it
was recommended to withdraw.

In the meantime the people living in
the district affected learned of the site
chosen by the board, and a vigorous
protest was instituted, some fourteen
ratepayers coming before council and
demanding that the location chosen by
the board be abandoned. They claimed
that Davisville-avenue was too far
south, and that an immense area to
the north would be discriminated
against if the deal went thru. They
suggested Glenwood-avenue as a bet-
ter site and this met with general ap-
proval. Councillor Palmer, who warmly
espoused their cause and secured the
school board, as did the mayor and
Councillor Lawrence. He favored
Centre-road or Glenwood.

Councillor Ball, who was on Wednes-
day one of those who favored sending
the board's request to council, de-
fined his position. He said that the
onus properly belonged to the school
board, that they ought to have taken
the people interested into their con-
sideration and that his only reason for
sending it on to council was the matter
should be fully discussed. This was
the view likewise taken by Councillor
Baker, and was satisfactory.

Chairman Palmer, for the school
board, attempted to justify the action
of that body, but made little headway.
He said that the site chosen would
cost for a lot 298 by 166 feet only \$15-
00, as against a larger site for \$20-
00 for half the acreage from the
Devercourt Land Company. Mr. Cook,
Mr. Leslie and Mr. Deane, members of
the board came to the rescue, but the
temper of the council and citizens was so
manifestly against the proposition
that they were advised to withdraw
that site and look for another.

During the week one North Toronto
man charged that the school board
were manifestly not dealing for their
own financial preferment, but this
called forth such a storm of protest
from the front but the townsmen
present, that he made haste to
withdraw it. It is likely that a
joint meeting will be held at once to
adjust differences and secure a large
lot of land mutually satisfactory.

In this done a bylaw will be prepared
and submitted for the approval
of the high school board, represented
and others also asked for \$40,000 for
the purchase of land and the building
of a high school. The amount looked
small to council, and Councillor Howe
and others advised that it was done
\$40,000 instead. This will be done and
a vote taken probably at the same time
as the public school and probably the
pumping plant.

There was a long talk over Yonge-
st. again and Councillor Ball submit-
ted a resolution requesting council to
order a plebiscite or referendum to see
what kind of approval they want, the
choice limited to two kinds. The police
chief was asked to take the vote.
The motion carried. In the meantime,
\$5000 to \$6000 will be spent in fixing up
Yonge-st.

They sat on Councillor Reid's action
in making an agreement with Mrs.

MILK PRODUCERS MEET.
Little Change in Prices, But City
Officials Are Scared.

The semi-annual meeting of the To-
ronto Milk and Cream Producers' As-
sociation was held in the Labor Temple
Saturday afternoon, to fix the prices
which they would ask for their milk
for the next six months and to discuss
questions of interest to the associa-
tion. About 100 members were pres-
ent. J. G. Cornell, the president, was
in the chair.

The gathering was a large one,
York, Peel and Ontario Counties being
well represented.

Reports were given from the differ-
ent sub-organizations, all of which in-
dicated that the organization was
strongly entrenched in all the districts
of the city. The conditions
and prospective prices were discussed
by the speakers from these districts.

The question as to what should be
asked for milk was a lengthy discus-
sion. It was claimed that the prospective
shortage in feed should be taken into
consideration for fixing the price.
May and June, it was said, were de-
pended to be bad months in the milk
business, and in spite of the fact that
small reduction in the price should be
made. The spirit of the meeting was
that the members of the organization
needed a fair price, but to the dealers
and not take advantage of their
numbers to ask too large a price.

"Milk is selling at 10 cents a quart
to-day in Toronto and I don't think
we should lower our price more than
that," declared one of the speakers.
The dealers will not make a great
reduction than one cent a quart in
Toronto," said Anthony Forester or-
ganist Hill.

It was decided that the matter of
fixing the price of milk be left in the
hands of the executive.

R. Reid moved that the average price
be \$1.40 a can for the next five months.
Motions followed this putting the price
at \$1.25 and \$1.30. Mr. Forester's mo-
tion was put to a vote and unanimously
carried by the meeting. This made
the motions regarding price out of
order, but it was agreed to receive them
as recommendations.

The question of the inspection of
stables, cows and milk was brought
up. It was suggested that a
producer should have a test taker of
the milk before it was delivered to its
destination.

It was claimed that it was not fair
to bring a milk producer into court be-
cause his milk had been found deficient
at its destination since this milk might
have been tampered with on the way.
One gentleman claimed that the in-
spectors and chemists in the health de-
partment in the city did not know their
business. It was suggested that the
association should engage its own labo-
ratory to fight the case.

A motion was made that the medi-
cal health officer take samples of the
milk at the point where it was deliv-
ered, from, and that a duplicate
sample be submitted to the producer.
The motion carried.

Later at a private meeting on Satur-
day, with the executive of the To-
ronto Milk and Cream Producers' As-
sociation conferred with representa-
tives from the Toronto Milk Dealers'
Association. It was decided that the
average price for the five months be-
ginning May 1 for eight-gallon cans,
delivered to the dealer's door, should
be \$1.25.

The prices paid over the correspond-
ing period last year were from \$1.15 to
\$1.30, the smaller size the price is
slightly higher. At the present time
the milk producers are receiving \$1.70,

White's solicitor, whereby \$50 has been
or will be handed over or charity. "You
had no right to enter into any such
agreement," said the mayor yesterday.
"I suggest that her solicitor be
notified that we will not be responsible
for Councillor Reid's action." They did
not.

One thing that Councillor Reid
did get thru, and for which he has
infinite credit, is the appropriation of
\$250 for the purchase of 500 shade trees.
These will be planted on the side
streets starting east and west from
Yonge-st. and all will be served alike.
They will not go half-way round, but as
Councillor Reid said, "it's a start in the
right direction."

R. J. Pennick gets the job of drilling
in the Bedford Park district for water,
a 4 inch bore, not to exceed 75 feet in
depth, and the cost will be \$250.
The Moxon proposition was to
turnish 20,000 gallons a day at a cost
of \$1000, no water, no east.

C. Murphy & Son submitted a bill of
costs incurred by water backing up in
cellar of his hardware store amount-
ing altogether to \$230. A good deal
of this was for nails, and while not ad-
mitting any liability, the town may
buy the nails at cost price for imme-
diate use.

R. W. E. Burnaby got thru his plan
of putting Snowden-ave. in the brick
limit, with the exception of six houses
and lots on the south side. In this
connection Councillor Baker took ex-
ception to the World's statement of a
fortnight ago, in which he was reported
to have favored making the brick
limit street. As a matter of fact,
Councillor Baker asserted at the time
that the rights of the men already re-
lated there must be respected and this
has been done.

The local volunteer firemen from No. 1
station had a fast run to W. C. Nor-
man's house on Glenwood-ave. yester-
day forenoon, sparks from the chimney
having caught under the eaves and
started a brisk blaze. The damage
done is mostly from water, and will not
be more than \$25.

In all the local churches to-day ser-
vices were in keeping with the occasion
and, largely choral. Beautiful
floral offerings were much in evidence,
and the attendances, especially in the
evening, were large.

The Assumption Memorial Church to-day
special music was given under the direction
of W. G. Lawrence, the choirmaster,
and at the evening service the sacred ad-
vice was thronged to the doors.

Acceptably, "I Know That Tomorrow
Lives" from the "Messiah" by Handel,
and "The Light of the World" by
Hayley.

The four selections—"Oh,
Grave, Where Thy Victory is," "Re-
surrection Morn," by Rodney;
"As I Lay Dying," by Roddy;
"Awake, Thou That Sleepest," by
Roddy.

The outdoor concert by the North To-
ronto People's Band during the summer
concerts in all will be given, five in Davie-
ville, five in Eglington and the same num-
ber in Bedford Park. Splendid progress
is being made, and at the present time
the view likewise taken by Councillor
Baker, and was satisfactory.

**Liquid Cough Mixtures
Can't Cure Bronchitis**

But the Healing Fumes of Catarrh-
ozone, Which Are Breathed to the
Furthest recesses of the Bronchial
Tubes, Being Quick Relief and Sure
Cure.

Every sufferer from coughs, colds,
bronchitis and all throat and chest
ailments needs a soothing healing
medicine which goes direct to the
breathing organs in the chest and
lungs, attacks the trouble at the
source, dispenses the germs of disease,
and cures the ailments thoroughly.
And this medicine is "Catarrh-ozone."
The germ-killing balsamic vapor
mixes with the breath, descends thru
the throat, down the bronchial tubes,
and finally reaches the deepest air cells
in the lungs. All parts are soothed
with the rich, pure, medicinal essences,
whereas with a syrup the affected
parts could not be reached, and harm
would result through numbing the
stomach with drugs.

It has been a chronic sufferer from
Catarrh in the nose and throat for
over eight years. I think I have spent
four hundred dollars trying to get
relief. I have spent but six dollars on
Catarrh-ozone, and have been com-
pletely cured, and, in fact, have been
well for some time. Catarrh-ozone is
the only medicine I have been able
to find that would not only give tem-
porary relief, but will always cure.
Sincerely, Yours sincerely (Signed)
WILLIAM RAGAN, Brockville, Ont.

For absolute, permanent cure use
Catarrh-ozone. Two months' outfit
only \$1.50. Smaller size \$1.00. All dealers,
or the Catarrh-ozone Company, Buffalo,
N.Y., and Kingston, Canada.

All Together for a Greater Toronto

"A million population—a thousand more industries."—TORONTO AD. CLUB

Toronto's Live Wire Organization

Less than a year ago, a small group of Toronto ad-
vertising men got together and formed the Toronto Ad.
Club. The object was self-improvement, improvement
in advertising and advertising methods and the promotion
of the commercial and civic interests of Toronto.

This organization soon attracted to itself a large
number of other advertising and business men. To-day
it numbers 250 active members, all working in harmony
for a common purpose.

There are over a hundred other clubs situated all over
the Continent and in Great Britain, most of them
affiliated with the Associated Advertising Clubs of
America. The Toronto Ad. Club is admitted to be the
fourth strongest club numerically in the Association and
second to none in its spirit and record of achievement.

The Objects of this Club

The Ad. Club has several important aims and objects.
An educational course has been undertaken, and every
Tuesday the Club meets at its permanent home, 177-179
Yonge St., to study some particular phase of advertising
and methods for building business. Many prominent
business men attend these meetings regularly, as the Ad.
Club idea is rapidly spreading in business circles.

Amongst other things, the Club has started a cam-
paign against all unclean, fraudulent and misleading
advertising. Excellent results have already been
secured. The men of the Toronto Ad. Club are deter-
mined to make all advertising clean and reliable because,
by so doing, they will better conditions for the public
and for themselves as well.

Building a Greater Toronto

"A million population—a thousand more industries."
is the aim of the Toronto Ad. Club in advertising
Toronto.

That aim is feasible on practical business grounds.
The Club has plans already laid whereby, as an
organization, it will act in conjunction with the Board
of Trade and City Council, in giving special attention
to the upbuilding of Toronto commercially. The Club
is composed of active young business men. They
represent collectively most of the important commercial
and financial institutions in Toronto. They are in a
position, by reason of their training and affiliations and
their harmonious Club organization, to exert influences
beyond that of any other Toronto organization.

This is the chief object and aim of the Ad. Club.

What is Going to be Done

Recently the Club appointed various committees of
its members to actively engage in the formation of a
definite plan for the advertising of Toronto. There are
committees covering every phase of the project com-
posed of active young men who know Toronto and are
alive to her needs. The result of their investigations
and their plan of campaign, as it will be approved by
the Club, will be published at a later date.

For the present there is one big movement in view
in this connection that demands public attention.

Toronto Ad. Club, 177-179 Yonge Street

WEST TORONTO
Two New Houses Collapsed Yesterday
Causing Big Loss.

WEST TORONTO, April 7.—(Special.)—
Running water was the cause of the col-
lapse of a pair of semi-detached six-
roomed brick dwellings at 1553-1557 Daven-
port road, near Perth avenue, shortly be-
fore noon this morning. The houses were
erected this spring by John Larkin, a
contractor, living at 181 Perth avenue.
They were left on Saturday ready for
plastering, but the workmen in departing
did not see that the water tap and the
water pipe had become disconnected and
water was running down the side of the
house and under it, allowing it to sink
and fall, dragging the floors on either
side partly with it. W. Dalton, who
resides across the street, saved a total
collapse by propping up the leaning one
with a wall. Another factor which aug-
mented the weakening of the foundation
was the fact of the frost leaving the
walls, temporarily setting them. It
is estimated that the damage will amount
to \$1000.

An abundance of excellent Easter music
was provided in all West Toronto
churches to-day. At St. Cecilia's the
choir rendered Peter's Mass
and the morning service and Rosal-
Cante Amerto in the evening, with Mr.
Burke taking the tenor solo and the
Messrs. E. Middleton and A. McManney
the principal soprano and contralto
respectively. At the Victoria Presby-
terian Church the choir, under the leader-
ship of Mr. Donald C. MacGregor, sang
special anthems at both services and at
St. John's Anglican church, Mrs. Marie
McCall's choir rendered, Mrs. Marie
Lush Clorus' from Handel's "Messiah"
this morning, with James Te Deum
and F. and Sir John Stainers' "I Know
That My Redeemer Lives." A soprano
solo by Mrs. McGill. At the evening
service Stainer's "Fling Wide the Gates"

"On to Dallas"

During the last two weeks in May, 1912, there will be
held in Dallas, Texas, the Annual Convention of the
Associated Advertising Clubs of America. In Dallas it
will be decided where the Convention will meet in 1913.
The place selected should certainly be Toronto.

One hundred members—a chosen band—of the
Toronto Ad. Club are going to Dallas to secure this
Convention for Toronto in 1913.

Baltimore and San Francisco are contending for the
honor, but so far, after an extended canvass of many
clubs in other cities by the representative of the Toronto
Ad. Club, the chances seem to favor Toronto above all
others.

The Men Who Will Come

Having this Convention here in 1913 will bring to
Toronto 5,000 of the most important business men in
all America and Great Britain—men representing and
governing great newspapers, magazines, manufacturing
businesses and other commercial institutions and giving
them a first hand glimpse of Toronto as a commercial
centre.

Such a Business Men's Convention has never been
held in Toronto.

Boston had the Convention in 1911 and received free
advertising worth millions of dollars. Toronto will do
even better than either Boston or Dallas because of her
more central and accessible location. Almost two-thirds
of the membership live within 24 hours of Toronto. No
other city is so convenient to the majority.

Bringing these men here will be to take advantage of
their desire for further trade opportunities and to awaken
their already keen interest in Canada and Toronto from
a business point of view.

While the Convention is here the delegates will pro-
bably spend half a million dollars in Toronto. This
alone would be worth offering the Association every
inducement to convene here in 1913.

You Can Co-operate

The Toronto Ad. Club is planning to spend about
\$17,000 of its own and its members' money to secure
this Convention.

It is estimated that about \$25,000, or \$8,000 more,
will be required to meet every expense. There is good
use for every dollar of this money.

Many business men have offered to contribute liber-
ally. Official assistance for part of the sum has also
been promised. Yet more is needed.

Will you co-operate with the Club in this matter for
Toronto's sake?

Any of the officials and members of the Club men-
tioned below will be glad to give you specific information
regarding the Dallas Convention and the Club's work in
general. Remittances should be sent to the Hon. Sec-
retary. A full accounting of the money as expended will
be rendered to each contributor after the Dallas Con-
vention.

AGINCOURT, April 6.—(Special.)—The
Agricultural branch of the Women's In-
stitute will hold their April meeting at Mrs.
George Paterson's, Agincourt, on Tues-
day, April 9, at 2:30 p.m. Members are
expected to come prepared to discuss
"Periodicals in the Home," Margaret
Scott, secretary.

CAN HANDLE GRAIN CROPS

Sir William Whyte Says Three Rail-
ways Can Serve West Well.

MONTREAL, April 7.—(Can. Press.)—
"Transportation is the greatest problem
we have to solve in the west, but if the
railways and the government handle mat-
ters well, fifteen years, or at the most
twenty, will see more people west of
Lake Superior than you have in the east."

Such was the remark of Sir William
Whyte at the Windsor to-day when he
reviewed, after a tour of inspection of
the Pacific Railway, he still is a member
of the directors and takes great interest
in the development of the western pro-
vinces.

He declared that with the Canadian
Northern Railway and Grand Trunk Pa-
cific completed he had no doubt as to
the capacity of the railways to handle
the crops for many years to come and
there would be no large quantity of grain
damaged owing to the lack of time in
which to handle it, as there has been this
year.

**OTTAWA MOTORISTS SOUGHT BY
POLICE**

OTTAWA, April 7.—(Can. Press.)—
An old lady of 77, Mrs. Huron of Pen-
nington, was knocked down and seri-
ously injured by an automobile Satur-
day night. She is now in the hospital.
The automobile carried no lights and
saved no warning, knocking the victim
on to the car tracks close to an ap-
proaching street car and dashed on
Pasereby dragged her from under
the wheels of the street car and called
an ambulance.

The victim was on the way to the
hospital to see her daughter, who fell
downstairs the same day and broke
some of her ribs.

The automobilists are being sought
by the police.

**The Chances
Against You**

"Oh, I will be all right in a few
days," says the person who is tired out
and has to drag himself to his daily
work because the nervous system is
exhausted.

Unfortunately nervous diseases do
not right themselves, and the waiting
process which has brought you to this
condition keeps right on until there is a
complete breakdown.

You must get the building-up pro-
cess started, so that instead of being a
little weaker at the end of each day,
you will find the balance on the other
side and know that you are gradually
getting strong and well.

Dr. Chase's Nerve Food will help
you wonderfully if you only give it a
reasonable chance. As the system is
built up you will find such symptoms
as headache, sleeplessness and indig-
estation leaving you. You will find the
old energy coming back. The mind
and body will better serve you, and
you will see a new pleasure in life.

HEAVY WINDSTORM IN CHICAGO

CHICAGO, April 6.—Eighteen persons
were injured, many greenhouses were
wrecked, and a dwelling containing seven
persons was blown two hundred feet by
a windstorm which swept across Niles'
Center, north of Chicago, yesterday.
Peter Hines and his wife and their
three daughters and two sons were in the
house, which was carried nearly a block
by the wind. All were severely bruised,
but none was seriously injured.

**DISAGREEMENT IN VERMILYA
CABE**

CHICAGO, April 6.—The jury in the
case of Mrs. Louise Vermilya, charged
with murdering Richard T. Smith, a rail-
road man, was discharged by Judge Sul-
livan to-night, after members of the jury
informed the court that they could not
agree upon a verdict.

The jury had been out eight hours,
members of the jury, from the time the
first ballot was taken, stood 2 to 2 for
conviction. It was said, Not a man wavered
in his opinion as to the guilt or in-
nocence of the woman, who was accused
of having poisoned Smith with arsenic.

**Piles Not Taken
Seriously**

"Annoying, but not dangerous,"
seems to be the way many think of
piles for the early stages. But grad-
ually they become worse, until they
prevent sleep, undermine the nervous
system and make a wreck of life. You
may feel that you are cured, but you
are not. When the doctor is finally consulted
he considers the case so serious that
he recommends the surgeon's knife as
the only means of cure. It may cure
it, but it may kill. The risk is yours.
But there is an easier and surer way
to relieve and cure piles. That is by
applying Dr. Chase's Ointment. The
earlier you begin the use of this oint-
ment the quicker the cure. It may cure
cases that have been cured by Dr.
Chase's Ointment. Relief comes at
once and a cure is just as certain if
you persist in the use of this great
ointment.

Commercial News and Reports---Porcupine Developments

CORN SOARING AGAIN NEW RECORDS REACHED

Grave Situation Inspires Frenzied Short Covering Movement—Stamped in the Pit—Wheat and Oats Higher Also—Provisions Irregular.

CHICAGO, April 7.—Nervousness regarding alleged crop damage forced the wheat market to-day towards a higher level. Many Illinois counties sent details of winter killing, and conceded that a large acreage was likely to be plowed up. The closing figures ranged from the same as last night to 1/2c up. Corn made a net gain of 1/2c to 1c to 1 1/2c and oats 1/2c to 3/4c to 1c. Latest trading left provisions varying from 1/2c decline to 1 1/2c advance.

Unfavorable reports concerning the condition of growing wheat came mainly from soft winter sections east of the Missouri River. There were quite a number of similar advices, however, referring to poorly drained land in Kansas. Messages were also at hand asserting that increased had been come in the Ohio Valley.

Runaway Market in Corn.

Corn repeated the daily exploit of overtopping the high price record for the season. The reason was confident buying on the part of former leasing sons as a result of unsettled weather. No sign could be discerned of an increase in receipts from the interior. On the contrary, the week's arrivals were the smallest of this season. Southwest markets continued to lead the advance.

Belief that July will see an old crop month transferred the bulk of the oats trade to-day to the September option. The market was active and firm through sympathy with other grain and because of renewed fear of delay to seeding.

Provisions recovered some of yesterday's losses. The principal change was in pork, which showed for the day a rise of 10c to 12c.

Northwest Receipts.

Receipts of wheat in cars at primary centres were as follows:

Week	To day	Wk. ago	Yr. ago
Chicago	14	24	189
Duluth	10	10	10
Minneapolis	22	162	129
Winnipeg	570	283	118

Holiday in Europe.

The Liverpool and most of the continental grain exchanges were closed all day Saturday over the Easter holiday. At Budapest wheat closed the higher than on Thursday. The Winnipeg Grain Exchange observed the holiday.

Primaries.

To-day, Wk. ago, Yr. ago.

Wheat	To-day	Wk. ago	Yr. ago
Receipts	366,000	331,000	232,000
Shipments	280,000	352,000	200,000

ST. LAWRENCE MARKET.

Receipts of farm produce were 200 bushels of grain, 10 loads of hay, a few wagon loads of mixed produce in the north building, with a plentiful supply of butter and eggs and a few lots of poultry.

Market Notes.

John Barron bought 13 spring chickens at 30c per pound, the first of the season, at 30c per pound.

Wheat.

Open. High. Low. Close.

Wheat	Open	High	Low	Close
July	107 1/2	108 1/2	107 1/2	107 3/4
Sept.	97 1/2	98 1/2	97 1/2	97 3/4

Chicago Live Stock.

CHICAGO, April 6.—Cattle—Receipts, 200; market, generally steady; prices, \$5.20 to \$5.45; Texas steers, \$5.10 to \$5.30; west-fed, \$5.10 to \$5.30; calves, \$5.10 to \$5.30.

Montreal Grain and Produce.

MONTREAL, April 6.—Prices to-day on the Montreal Exchange:

Item	Price
Wheat	107 1/2
Sept.	97 1/2

Fruits and Vegetables.

Apex	1.00	1.10	1.20

CAPITAL ALL POURED INTO THE PORCUPINE

Actual Gold Production Will Attract Large Sums for Development Work—Gradual Growth Promised From Now On—Wildcatting Propositions Must Be Guarded Against.

MINNEAPOLIS, April 6.—(From Our Man Up North).—Most cordially were the public received and entertained at the Hollinger Mines last week by Manager Robins and his able assistants. The underground workings were thrown open to the 200-foot level, and the visitors freely admitted. Every opportunity was given them to see what the underground in a rich mine was like. And the trip through the underground passageways, with now and then the entering of a widened station, like caverns in subterranean entrances through mountain tunnels, was a thrice treat quite different from what they had found in the Dome's underground.

Buffalo Grain Market.

BUFFALO, April 6.—Spring wheat, no offerings; winter wheat firm.

Duluth Grain Market.

DULUTH, April 6.—Wheat—No. 1 hard, \$1.05; No. 1 northern, \$1.05; No. 2 northern, \$1.04; No. 3 wheat, \$1.03.

New York Dairy Market.

NEW YORK, April 6.—Butter—Strong. Receipts, 4,000 tubs; creamery, 2,000 to 3,000 state dairy, 2,000 to 3,000 factory, current market, 2,000 to 3,000.

Winnipeg Grain Market.

WINNIPEG, April 6.—Wheat—No. 1 hard, \$1.05; No. 1 northern, \$1.05; No. 2 northern, \$1.04; No. 3 wheat, \$1.03.

Winnipeg Live Stock.

WINNIPEG, April 6.—Cattle—Receipts, 200; market, generally steady; prices, \$5.20 to \$5.45; Texas steers, \$5.10 to \$5.30; west-fed, \$5.10 to \$5.30; calves, \$5.10 to \$5.30.

Chicago Live Stock.

CHICAGO, April 6.—Cattle—Receipts, 200; market, generally steady; prices, \$5.20 to \$5.45; Texas steers, \$5.10 to \$5.30; west-fed, \$5.10 to \$5.30; calves, \$5.10 to \$5.30.

Move Carried Further in N.Y. Market--C.F.R. at 248

WALL STREET IS NOT A WHIT ABATED

Stocks Resume Progressive March and Soar to New High Records for the Movement Under Leadership of Steel—Stampepe of Shorls.

NEW YORK, April 6.—The only effect of the Easter holiday on the local stock market was to increase rather than diminish the demand. The buying movement, which was in full swing at Thursday's closing, was resumed at today's opening and for the brief two hours trading was large and broad, with many stocks at a 1/2 per cent. advance. The market was without its usual foreign influence, as all the European exchanges remained closed, but this fact, it was said, did not prevent the buying here for London and Paris accounts. The demand centered largely around United States Steel, the Copper and Union Pacific purchases of these stocks for London account being estimated at fully \$2,000,000.

Steel retained its leadership, opening with sales of large blocks, the first 7000 shares at a 1/2 per cent. advance, which it improved. It was assumed the Steel derived part of its impetus from the adverse majority report of the finance committee of the U.S. Senate, which declared the steel bill ill-considered and unfortunate, and calculated to destroy one of the country's best industries. Other favorable influences from the market were the inclusion of the buying of equipment by the railways, another large increase in the price of steel, and the encouraging tenor of the reports for the week issued by the commercial associations of finance companies.

Strong at the Close.

Various issues, chiefly Steel, improved their position in the final hours of the day. The price for steel being the highest since last August. Trading in the two hours aggregated \$2,000,000 shares, of which was totalled over 100,000 shares. Of all the speculative issues Amalgamated Copper and American Smelting, called to attention in the rise to-day, but their phenomenal gains in the past few days are already striking features of market history.

An actual cash loss of \$5,700,000 was disclosed by the bank statement, but this was offset by a loan increase of \$28,500,000, with an increase in reserves of about \$2,000,000, as compared with last week. Excess cash balances now are about \$2,000,000, and it is probably will be strengthened during the coming week by the further increase in the amount of interest and dividend payments.

NEW YORK BROKERS PREDICT BULL MARKET

But Progress is Not Without Its Pitfalls—Favorable and Unfavorable Factors.

Henry Clews, the New York broker, comments as follows on the financial situation: "The technical position of the stock market is good. There is still a moderate short interest which is an element of strength, and while stocks are still largely concentrated in strong hands, there is a considerable widening of activity during the last two weeks.

The advances in railroad shares have been moderate—about 1/2 or 3/4 points—as a rule, while the industrials have shown a still greater advance on the presumption that they will first feel the effects of the larger trade and higher prices. The railroads are also experiencing a larger volume of traffic, but are not the liberty of range of rates that is enjoyed by the industrials. Current earnings of net and gross are much more favorable than in the last two months, but until the necessary before the railroads can afford to make any concessions to the demands of engineers.

It is to be hoped that the Brotherhood of Engineers will take the awkward position of the railroads into consideration, and defer their demands until a more appropriate season.

American railroads at present are passing through an unusual strain. They have heavy orders before them for improvements which have been long deferred and which will tax every resource. To defer the burden upon them in the matter of wages at a time when their obligations are increasing and when they are unable to recoup themselves by advance rates, is imprudent as a matter of policy, and quite unlikely to meet the support of public opinion, which is becoming more and more a factor of importance in all wage disputes.

Unfavorable Factors.

The chief drawback in the situation is the universal unrest of labor. In many cases concessions are being made and wages advanced wherever the increased cost can be passed on to the poor consumer, who, of course, must ultimately pay the bills. These concessions are likely to add to rather than decrease the high cost of living; but repetition of the process of first advancing wages and then advancing prices—a sort of herculean effort—must apparently go on until this movement exhausts itself.

Another element of a not entirely favorable character is the speculation in copper and copper stocks, which, unless restrained may go to extremes. The general market is not without its pitfalls and liabilities to reaction, particularly in case of unfavorable political developments, either at home or abroad. Primary conditions, however, are sound, and better sentiment should soon be followed by letter business. For such reasons, and in spite of occasional fluctuations, we expect ultimately higher prices.

FOREIGN EXCHANGE

Glazebrook & Cronyn, James Building (11th, Main 207), to-day report exchange rates as follows:

IMPERIAL BANK OF CANADA

Notice is hereby given that a dividend at the rate of twelve per cent. (12 per cent.) per annum upon the Paid-up Capital Stock of this institution has been declared for the three months ending 30th April, 1912, and that the same will be payable at the Head Office and Branches on and after Wednesday, the 11th day of May next.

Winnipeg Makes Power Settlement

WINNIPEG, April 6.—(Can. Press.)—With customary ceremony, Lieut.-Gov. D. C. Cameron prorogued the legislature this afternoon, the speech from the throne congratulating the province on the satisfactory settlement of the boundary question and on the legislation for control of a certain class of public utilities.

A settlement was reached at the eleventh hour between the two disputants who have taken up so much of the time of the legislature, viz., the City of Winnipeg and the Reese syndicate. The basis of to-day's agreement is that the city, in return for the withdrawal of the obnoxious Manitoba power bill and the emancipation of the radial railway bill, agrees to purchase all poles in the city at valuation and rent space to the Winnipeg Electric Co. or its successors. This saves the city from an awkward legal tangle following on the action of its engineers in felling poles and wires right over and even between the poles and wires of the company.

City officials express themselves as satisfied with the agreement, the consent of Sir Wm. Mackenzie has yet to be obtained.

ALLIS-CHALMERS IS REORGANIZED

NEW CAPITAL OF \$5,192,000 SECURED—CANADIAN COMPANY TO BENEFIT BY NEW FINANCING AT MILWAUKEE.

MILWAUKEE, April 6.—Receivers to-day were appointed for the Allis-Chalmers Company by Judge A. T. Sanborn of the United States District Court. The receivers are: D. W. Call, president of the company, and General Otto H. Paik of this city, president of the Merchants' and Manufacturers' Association. The appointments were made on the application of the First National and Wisconsin National Banks of this city, and W. W. Nichols of New York, secretary of the Allis-Chalmers Co., a bondholder and stockholder.

The receivership for the Allis-Chalmers Co. of Milwaukee is of a friendly character, and forms part of the plan of reorganization which has been going on for the past three months. The personnel of the receivership shows that the plan has proved satisfactory to all interested, and has been accepted by them. By this plan the bondholders, preferred and common shareholders, gave up their holdings and accepted instead preferred and common stock in the reorganized company. In this way all the heavy fixed costs of the old company were eliminated, and by assessment new capital amounting to \$5,192,000 was placed at the disposal of the new company.

The equipment of the Allis-Chalmers Co. at West Allis, Milwaukee, is among the finest in the world, and with this new capital, Allis-Chalmers Company will be in a better position than ever before to take advantage of its opportunities.

and from British Columbia, so that the projected construction program of the road can be carried out with greater certainty and despatch than has marked the prosecution of the work since last summer.

ON WALL STREET, Erickson Perkins & Co. had the following: With United States Steel the leader, stocks rose to-day to new high levels. Trade in steel was enormous, and its sharp rise had a distinct sentimental effect on the market. The metal issues were the only backward ones, but they had a sharp rise first, and there is perhaps sufficient reason why they should rise until the remainder of the list catches up. There was heavy short covering all along the list, this being most apparent in Steel. The market is moving forward perhaps too rapidly, and it would not be wise to buy on strong spots. Wait for setbacks. The coalers were steady to firm, but reflected some doubt about next week's conference. The eastern railroad shares as a whole ignored the panic reaction from London, and tape appears to say that they will be soon adjusted. The bank statement was better than expected. Barring the unexpected, some stocks bid fair to reach new high records Monday.

Charles Head & Co. to J. E. Osborn: Osborn had no indication from London to guide it this morning, but it amply proved its ability to go it alone. Opening with a rush of business at quotations 1-4 to 1-2 up, the activity continued without intermission during the morning, and closing was practically at highest point with gains recorded of 1/4 to 1/2 points. Union Pacific shorts as well as shorts in Reading and Steel sought the tall timbers, and the effect of their running was seen in the tracks of their flight. Foreign orders, notwithstanding the close of the London market, were large on the buying side.

C. P. R. Prospects Behind the Advance

NEW YORK, April 6.—Back of the renewed activity and strength shown by Canadian Pacific yesterday, when it soared to 248, are the excellent earnings of the road so far this year. According to latest figures Canadian Pacific since July 1, last, and to the end of the third week in March, has earned gross revenue of \$24,084,807, a figure which is \$11,236,048 ahead of last year's corresponding total. Net earnings for eight months ending yesterday were \$2,519,438 ahead, amounting to \$27,926,970. The heavy gain contributed at the head of the great lakes lake market relieved 150 cars daily are being shipped eastward from Fort William over the system proper, while about 100 cars are being shipped over the Soo Line division by way of Port Huron.

Land requisitions are showing heavier this year than last and with settlers going into Canada at the present rate the total land sold for the year should be considerably greater, both in area and prices realized, than in any previous year. The shortage of labor, particularly through the western division of the system, has in a great measure been relieved by assignments of men sent from the border states.

DOMINION OIL COMPANY

(Incorporated Under the Laws of Arizona) Authorized Capital \$1,000,000

Divided into 1,000,000 Shares of the par value of \$1.00 each, 500,000 Shares of which are Treasury Shares, and all of which are fully paid and non-assessable.

DIRECTORS: President.....WM. GRAY, London and Toronto, Ont. Vice-President.....GEO. D. FORBES, Hespeler, Ont. Secretary.....ROBT. G. LIND, Toronto, Ont. REV. JAMES REED, Montreal, Que. T. E. BRADBURN, M.P.P., Peterboro, Ont. F. FRED SHURLEY, Galt, Ont. JAMES LOVE, Toronto, Ont.

BANKERS: MOLSONS BANK, TORONTO. OFFICES: 73 Front Street East, Toronto. Proven Oil Lands Consisting of 240 Acres, King's County, Coalinga, California, U.S.A.

"Gold was King" in California, A.D. 1849. "Oil is King" in California, A.D. 1912. The Above Statement is Becoming More Apparent Every Day.

The use of liquid fuel as a steam-raiser, both on land and sea, is rapidly making headway. The Southern Pacific Railroad burns as fuel annually over 15,000,000 barrels, and the Santa Fe over 6,000,000. The information is published that the new Cunarder, to cost about \$2,000,000, will be equipped to burn oil, and have an average speed of 23 knots per hour, against the 25 knots of the "Lusitania" and the "Mauretania," and now right here in Canada the RICHELIEU & ONTARIO NAVIGATION COMPANY are equipping their steamers, the "Rapids Prince" and the "Rapids Queen" to burn oil as fuel.

THE DOMINION OIL COMPANY OWNS 240 ACRES OF PROVEN OIL LANDS SITUATED IN COALINGA, CALIFORNIA, WHICH ARE VALUED AT \$2,000,000 PER ACRE, OR, IN FIGURES, \$480,000,000. Their well is now drilled to a depth of over 2500 feet. At 2200 feet they encountered their first oil, which is 33 gravity, and from the following letter, just received from the Superintendent, under date of March 28, it would seem that the big flow which the Canadian Coalinga has struck would be shortly encountered. The letter is as follows:

"Received your letter of March 20th to-day, and as I have not been in to town for several days, hence delay in answering. The well is going along very nicely. We have the hole in excellent condition and have made 15 feet in the last two days. Encountered a very hard shell and have gone out of that into a hard, close sand, showing more gas and oil daily, but cannot expect the pay sand until we get through this hard formation we are now in." (Signed) W. W. WARNER.

NOW, MR. INVESTOR, WHAT DOES THIS LOOK LIKE TO YOU? There is nothing that pays like a good producing oil well, and it is confidently expected that the DOMINION OIL COMPANY will shortly have a well, equally as good as anything in the country. YOU CAN PURCHASE SHARES IN THE COMPANY TO-DAY AT 50c PER SHARE. When the big flow comes in, they will be at once worth many times their present selling price. Twenty dollars per share is being bid for the Canadian Coalinga Company's a few weeks ago these same shares could have been purchased under \$1.00. FORTUNES HAVE BEEN MADE IN OIL. YOU CANNOT AFFORD TO MISS THIS OPPORTUNITY.

The oil industry has made more wealth for investors than any other industry in America. Millionaires have been made over night by fortunate investments in oil. Thousands of conservative investors are deriving big incomes from their dividends from oil securities. Many have oil investments which are independent fortunes. There can be no more desirable investment than a good, clean, conservative oil security, possessing assets of unquestioned productive and prospective value. THE DOMINION OIL COMPANY, WITH ITS 240 ACRES, REPRESENTS THE IDEAL OIL INVESTMENT.

The Directors of THE DOMINION OIL COMPANY are all well-known, successful, Canadian business men, and it is doubtful if there ever was another concern seeking public investment that presented such an array of capable, energetic, honest men as its officers. The records of these men speak for themselves. Each and every one of them has been successful; they have been leaders among men; their records have been clean; their business associates honor them, and their competitors respect them. Be sensible. Would men of this standing, with the records they have shown you, be officers of an organization that was not legitimate or was not sound and did not have large dividend-paying possibilities?

If you have not written for an Illustrated Prospectus and full particulars of this Company, DO SO AT ONCE. A purchase of the stock in THE DOMINION OIL COMPANY offers a rare opportunity for a safe and profitable investment. YOU CANNOT AFFORD TO OVERLOOK IT. INVESTIGATE!

We court the fullest and strictest investigation possible. We have nothing to hide or keep under cover in this proposition. This transaction is open and above board. WRITE US AT ONCE. BROKERS: J. A. MORDEN & Co., 239 Confederation Life Chambers, - - Toronto, Ont.

THE BANK STATEMENT

NEW YORK, April 6.—The statement of the clearing house banks for the week shows that the banks hold \$282,200 reserve in excess of legal requirements. This is a decrease of \$7,646,800 in the proportionate cash reserve as compared with last week. The statement follows: Daily average: Loans, decrease \$2,910,000; specie, decrease \$9,150,000; legal tenders, decrease \$2,202,000; net deposits, decrease \$12,614,000; circulation, decrease \$55,000; excess lawful reserve, decrease \$7,646,800. Actual condition: Loans, decrease \$20,210,000; specie, decrease \$2,862,000; legal tenders, decrease \$2,178,000; circulation, decrease \$547,000; excess lawful reserve, increase \$1,448,000. Summary of state banks and trust companies in Greater New York not reporting to the New York clearing house:
