 Store closed all day to-morrow—Thanksgiving!

The Focus For All Eyes!

There are big businesses everywhere that stand head and shoulders above the rest, and whenever dry goods men and manufacturers think of Toronto or Canada they immediately think of this store. That fact is important for two reasons:—It brings goods here to sell at prices below the market, and it brings shoppers here to take advantage of special buying chances. With plenty of goods and plenty of customers we need no argument for trade. The business is its own argument.

Whenever proof is needed we like nothing better than to point to the second floor and its Housefurnishings. Such variety in new goods and such prices for worthy goods are interesting enough to bring us trade from all over. We've a small army of salespeople up there and none of them are ever idle. We keep them all busy anticipating such wants as these:

NIAGARA FALLS POWER IN BUFFALO.
 Buffalo street cars are now being moved by electric energy transmitted from Niagara Falls. In a short time its streets will be lighted by Niagara Falls current, and all its machinery will be turned by the same energy. At Niagara Falls itself industries of all kinds are springing into existence under the magic influence of this wonderful power. One of the latest proposals is the construction of an immense hotel, or rather palace, on the ground where the Cataract House and other buildings now stand. This hotel is to be the greatest thing of the kind in the world. If the design is carried out as proposed Niagara Falls will have a veritable electrical palace. The tourist traffic to the Falls is exceedingly large as it is. A palace of the kind suggested would in itself prove an attraction that would largely augment the number of visitors. While all these improvements are under way and in contemplation on the American side nothing is being done to give the Canadian side its share of the power. The company that produces the electric power that is the basis of these enterprises on the American side is the same one that controls the electric franchise in Canada. It has applied for an extension or modification of its franchise under which it enjoys an exclusive right to the power that is available on this side of the river. The company desire to tie up the power in Canada while they prosecute their enterprises on the other side. Against any such policy as this the Ontario Government should strongly protest.

TORONTO CONSERVATIVES.
 Mr. W. R. Brock Elected Honorary President and Mr. W. D. McPherson President.
 —A Presentation to Come.
 The adjourned annual meeting of the Conservative Association of Toronto was held last night at the Albany Club. There was a large attendance. The officers were all elected unanimously. Mr. W. R. Brock, president; W. D. McPherson, vice-president; Edmund Brantford, James Saunders, the new Executive Committee, secretary; and Mr. Brock, secretary to the association. The retiring president, Mr. Brock, presented a report on the work of the association during the past year. The report was a very interesting one, and was well received. The association has done much good work during the past year, and has been successful in many of its enterprises. The report was followed by a discussion of the state of the Conservative cause in Toronto. The discussion was a very interesting one, and was well attended. The meeting closed at a late hour.

HAMILTON CIVIC MATTERS.
 A Long War of Words Over the Radial Railway Tracks—Disposal of the Carriers.
 Hamilton, Nov. 24.—(Special.)—At the Board of Works to-night the long-disputed question as to whether the Radial Railway should be permitted to remain on the side of the roadway on Sherman-street was brought up for consideration. The company contended it had authority of the late Mayor to place the tracks along the Avenue claim that they are greatly damaged thereby, and that the City Council should be asked to purchase the tracks. The discussion which followed was participated in by the Chairman, all the aldermen, the City Attorney and several of the aggrieved property-owners, the upshot of all being that the Board should refer the matter to a committee of aldermen to confer with all the interested parties in an effort to effect a compromise of the situation.

A BROKEN AXLE
 Caused a Considerable Delay to Traffic Between Owen Sound and Toronto.
 Owen Sound, Nov. 24.—(Special.)—This coming in over the C.P.R. was particularly wrecked while coming down the road. The three hind cars were thrown from the rails by an axle of one of the cars giving way, and were considerably damaged. The accident has blocked the road between here and Toronto, this afternoon's express being unable to leave on that account, and will probably be cancelled. A wrecking train left here shortly after the accident occurred, and will no doubt have the road opened to allow the early morning train to leave as usual. No one was injured by the mishap.

TALMUD RITE REVIVED.
 Brownsville Jews Follow an Ancient Custom in Celebrating the Feast of Purim.
 New York, Nov. 24.—The orthodox Jews of Brownsville, Brooklyn, revived a custom last week that had been in disuse since the destruction of Jerusalem by Titus. This ancient custom is called Purim, and is celebrated in commemoration of the deliverance of the Jews from the clutches of Haman, the wicked vizier of the Persian king, Ahasuerus, who had plotted to annihilate them. The Jews of Brownsville, who have a synagogue on Thurlow-street, observed the festival with much solemnity. The services were held in the synagogue, and were attended by a large number of the community. The Jews of Brownsville are very devout, and their observance of the festival is a proof of their faith and loyalty to their religion.

NOT A GRIEVANCE OF CONSCIENCE.
 Archbishop Langevin denounces the failure of the Government to give the Catholics of Manitoba Separate Schools as an outrage against religion, as an insult to French-Canadian nationality and as a denial of the rights of the Catholic community. Looked at in a practical way, the grievance involves nothing of the kind. The grievance does not affect the conscience at all. It is a grievance affecting the pocket merely. The Catholics are not compelled to send their children to the Catholic schools, or even to secular schools. The state provides such schools for the children of any parent who chooses to make use of them. The Catholics are free to use them or not, just as they please. If these schools are not sent to the Catholic children, it is not a matter of conscience at all. It is purely one of expense. And it is a matter of no great expense either if we confine the issue to Manitoba alone. If the people of Quebec feel so intensely for the spiritual welfare of the Catholic minority, why should they not contribute towards a fund for the establishment of parochial Catholic schools in that province? It is purely a question of money. Besides, it is a grievance affecting but an infinitesimal part of the population of Canada as a whole. It is surprising that so small a question should be allowed to create so much wrangling and mischief. The minority in Manitoba and their sympathizers in Quebec may as well make up their minds once for all that the judgment of the people as announced last election will stand. It is final. There will be no new trial.

THE POSTOFFICE AND EXPRESS COM.
 The Montreal Witness is of the same opinion as the World in regard to the necessity of reduced rates for the transmission of small parcels by express. It agrees with us, too, that the most feasible way to make the express companies reduce their rates is for the Government to extend and cheapen the parcels service of the Postoffice Department. In England the postoffice is an active competitor with the express companies in the delivery of parcels. The former has compelled the latter to reduce their rates to one-half of what they are in this country, as far as the parcels are concerned. The rate on parcels in Great Britain is six cents for the first pound, and three cents for each additional pound. A parcel

 A Prominent Physician of Farnham, Quebec, is in a Heap of Trouble and Admits His Guilt.
 Montreal, Nov. 24.—(Special.)—There was a sad sight in the Montreal Police Court to-day, when Dr. George Slack, of Farnham, and one of the best known practitioners in the province, appeared before Judge Desnoyers and pleaded guilty to the charge of forgery and embezzlement to the extent of \$12,000. Dr. Slack was with his sister, Mrs. Montgomery, executor in his late brother-in-law's estate, and having forged that lady's power of attorney, he secured a large amount of Bank of Montreal stock, sold the same and appropriated it to his own use, hence his arrest by Detective Carpenter and a plea of guilty before the judge. Mr. George Slack was a most eloquent appeal. Dr. Slack made a most eloquent appeal for clemency, and presented a petition bearing over two thousand names. It is also learned that restitution to a very large amount has been made. Judge Desnoyers will sentence the unfortunate man on Friday morning. Dr. Slack was the Conservative candidate in Missisquoi at the general election for the House of Commons.

THE OUTWARD MOVEMENT OF GRAIN AND PROVISIONS FROM MONTREAL THIS SEASON IN ALMOST EVERY IMPORTANT ARTICLE SHOWS A GRAFIFYING INCREASE, WITH THE EXCEPTION OF FLOUR, PORK AND SMOKED MEATS.
 These three show a decrease as compared with the season of 1895, flour being 330,061 barrels less; pork, 1742 barrels less; and smoked meats, 2,500,000 lbs. less. The increase in wheat is 2,500,000 bushels, in corn, 3,000,000 bushels, in peas, 2,500,000 bushels, in oats, 2,500,000 bushels, in apples, 500,000 bushels.

PRETTY ROUGH AM BRYAN Lord Farrer Thought McKinley the Worst UNTIL BILLY WAS PUT UP.

Now He Considers the Canton Man the Lesser of Two Evils.

The Golden Club Discusses Trade Matters—Lord Playfair Thinks an Earnest Commercial Party Would Have Followed the Election of the Silver Standard.

London, Nov. 24.—A meeting of the Golden Club was held at the rooms of the National Liberal Club to-day, among the speakers was Lord Farrer of Abinger, formerly Sir Thomas Henry Farrer, the author of "Free Trade versus Fair Trade," and other economic works. Lord Farrer expressed his satisfaction that Mr. Chamberlain's proposals for an Imperial Zollverein had fallen flat, both at home and in the colonies, as he was opposed to free trade that meant only free trade against foreign countries. He was gratified at the election of McKinley, who was merely the lesser evil. If Bryan had not appeared as a candidate he would have thought McKinley the worst possible man for President.

Lord Playfair said that in the recent American presidential election involved questions of constitutional government, and also the question of our faith in the democracy. If Bryan had been elected that faith would have been shattered, and the commercial panic which would have ensued would have been enormous. But far more serious than commercial panic would have been our loss of faith in the democracy of the world. Speaking of his personal observations in the United States during the presidential campaign, Lord Playfair said he felt required to say that the silverites were not dishonest, but that they were not to be trusted on any issue in the contest with the exception that it was mentioned in the name of McKinley. In view of the fact that the pivot of the election was sound money, it would be a long time, he predicted, before the ardent protectionists of the United States would seek to change the existing tariff. The sound politicians of the United States had made up their minds to solve, and he had no doubt that they would take advantage of the opportunity to amend the question of the currency; but they were not likely to attempt to bring about a revival of high protection.

LADY SCOTT'S TRIAL. Earl Russell Narrates the Story of the Marriage of His Yacht. London, Nov. 24.—The trial of Lady Scott and the other defendants, Cockerton, Kast and Aylott, charged with having criminally libelled Earl Russell, was resumed in the Central Criminal Court, Old Bailey, this morning. Earl Russell was called to the stand and narrated the circumstances of his purchasing and manning his yacht. He had on board a cabin boy named W. H. Parker, and a cabin boy named W. H. Parker, who left his employ to go into the Royal Navy. He was aware that W. H. Parker had been subpoenaed as a witness in the Kast case in June, 1887. Among the guests on board the yacht at that time were Len Tyne, Cecil Fane and Lane Fox. Earl Russell then proceeded to describe the arrangements on board the yacht for the accommodation of his guests and himself.

EARLY PREPARATIONS. Troop A of the 6th National Guard Will Do the Honors at McKinley's Inauguration. Chicago, Nov. 24.—A special from Cleveland, O., says it is officially announced that Troop A, 6th National Guard, of this city, will act as the military escort of President-elect McKinley at the inauguration ceremonies in Washington. Troop A is one of the finest military bodies in the country, and probably embodies the most perfect in the membership of the United States. Early next week National Chairman A. Hanna will go to Washington to make arrangements for the ceremonies in connection with the inauguration. It is the intention to make the occasion, so far as numbers are concerned, one of the greatest events of the kind that has ever taken place. The attendance from Ohio alone will be nearly double that of any previous inauguration.

McKINLEY'S CABINET. Mr. Hanna Does Not Want Office—Booming Cushman K. Davis of Minnesota for Secretary of State. Canton, O., Nov. 24.—The latest advices from Cleveland are to the effect that Mr. Hanna is still opposed to the idea of accepting official position in the Cabinet. There is talk about Senator Cushman K. Davis of Minnesota for Secretary of State. Davis is a prominent member of the House Committee on Foreign Affairs in the last Congress, and is an ideal man for the place. He has uncommon qualifications for the position of Secretary of State. Not only is he a man of great learning, experience and scholarship, but he is a very able lawyer and is thoroughly familiar with all questions concerning our foreign relations.

LOCAL IMPROVEMENTS. A Committee Endeavoring to Improve the Present System—Cheaper Pavements Wanted—General Municipal News.

Ald. Boustead's sub-committee on Local Improvements met yesterday afternoon and discussed the local improvement system, its application and defects. The Chairman submitted a schedule prepared by the City Treasurer showing that the local improvement rates, payable on account of the cedar block roadways, amount to \$200,000 annually. A return by the City Engineer placed the number of cedar block pavements which are in bad condition at 168, of which number the pavements on 100 have expired. Ald. Boustead submitted that the question could be disposed of by three different methods, viz: to retain the present system, to equalize the application of the present system by the city assuming one-third of the cost of all roadway pavements, instead of only those streets upon which the city has a right of way, as at present, and to abolish the local improvement system, the entire cost of roadway pavements being charged to the general fund.

THE NEW CITY HALL. The sub-committee was appointed to prepare a statement for the information of the electors respecting the cost of the new civic building met in Architect Lennox's office yesterday. Mr. Lennox informed the committee that the cost of completing the Elliott & Neilson contract in excess of the contract figure would be \$188,000, and the committee requested him to furnish a detailed statement showing how the extra cost was incurred. The committee will also consider the proposal to provide a clock on the tower, and a system of electric clocks throughout the building. The Art Society have made a proposition to decorate the building in order to display specimens of their skill, and the architect advised that the decorations should, if the offer is accepted, be confined to the main entrance for the present.

BARCELONA BOMB THROWERS. The Attorney-General Warns 25 of Them Sentenced to Death.

Barcelona, Nov. 24.—The Attorney-General, who is personally conducting the prosecution, says that 25 of the prisoners who are under arrest for connection with the throwing of a bomb in a crowded street while a religious procession was passing on June 7 last, has announced that he will ask the court that 25 of the prisoners be sentenced to death and 56 condemned to penal servitude for life. Great precautions will be taken against disorder when the sentences are published. The court will sit in the vault of the fortress of Mont Juich, and only military officers will be admitted to its proceedings. The crime for which the prisoners are to answer to a military court was one of the most heinous of the many similar outrages committed by anarchists with- in the last few years. The usual religious observances of the feast of Corpus Christi were being observed, and thousands of people lined the streets to witness the procession on its way to the Ancient Church of Santa Maria Del Mar, just as the procession was entering the church, a bomb was exploded in the crowd, killing a dozen outright and wounding about 60 others, some of whom died from their injuries.

Salisbury Accepts Stewarts. Berlin, Nov. 24.—The Fremdenblatt, discussing the question of the Venezuelan question, says: Lord Salisbury stated cleverly in so directing his policy that Great Britain is again friendly with the United States. His consent to always submit disputes to arbitration emphasizes this sentiment of kinship. Therein lies the serenity of the British action. Great Britain does not wish to have an enemy in the United States, and the price she pays is not small.
