ARREST FOR PERJURY IN PETERBORO COUNSEL ARGUE ON LEARY CHARGES

Robt. Sheppard Taken Into Custody on Charge Preferred by Two of Conservatives Named in His Evidence.

LEARY TAKES THE STAND WITH EMPHATIC DENIALS

PETERBORO, Oct. 1.—(Special).—At six o'clock to-night a sensation was sprung in connection with the West Peterboro trial, when Robert H. Sheppard was arrested for perjury at the instance of James Kendry, John G. M. Wilson and William Arthur Brundette.

Argument Begun. Early this afternoon E. A. DuVeret, K.C., began to address the court in support of the so-called heavy charges.

Justice MacMahon: "I have already an example of one who said he would not hesitate to do anything."

Mr. DuVeret, however, went on to say that the charges were pressing.

Mr. DuVeret scored the practice of Mr. Hall, Mr. Davidson and Mr. Glover in getting evidence.

Mr. DuVeret made a final plea for the consideration of the court.

With regard to still, he argued that it made no difference as to whether or not the case rested upon evidence.

Mr. Watson's Compliments. "From what we have just heard, we would be inclined to think that we have been kept here for a week to listen to this long tirade of abuse and slander by my learned friend, against the prominent and respected citizens in this community."

DR. MILLIGAN RETURNS. Rev. Dr. Milligan, pastor of St. Andrew's Church, returned yesterday from a three months' sojourn in the Orkney Islands.

Young Geologist Discovered Cobalt 40 Years Ago.

OTTAWA, Oct. 1.—(Special).—The Dominion Geological Survey can claim the honor of first discovering Cobalt in the valley of the Upper Ottawa. As far back as 1872, Walter McQuay, a young geologist, was sent on a geological survey trip to James Bay, by way of the Upper Ottawa and Lake Abitibi.

GIRL'S PITIFUL DEATH TRYING TO HIDE SHAME

Susan Clark, From Toronto, Dies in St. Catharines Following an Operation—Inquest Opened.

ST. CATHARINES, Oct. 1.—(Special).—An inquest was begun to-night into the death of Susan Clark, aged 18, of Toronto, who died last night at the hospital.

Only two witnesses were examined outside of the doctors, who performed the post-mortem, and who it is believed a criminal operation was performed, yet the memories of Mr. and Mrs. Henry Willford, with whom the deceased stopped while in the city, were so uncertain in regard to names and dates that adjournment was made for three weeks.

Justice MacMahon: "I have already an example of one who said he would not hesitate to do anything."

GEORGE J. FOY DIES IN STREET

Well-Known Wholesale Liquor Merchant Expires From Apoplexy Near His Balmby Beach Home.

While taking a stroll last night about nine o'clock near his summer home at Balmby Beach, George J. Foy, wholesale liquor dealer at 2 East Front-street, dropped in the street and died within a few minutes, apparently from apoplexy.

The officer was walking slowly along the north side of Queen opposite the entrance to the Beach Park when his attention was drawn by Mr. Foy himself who touched him on the back and said, "Help me home."

Mr. Foy was ill, and was trying to help him along towards his home, on Beechavenue, when the sick man collapsed, sinking to his knees and falling in the policeman's arms.

LAST CALL FOR AMERICA'S CUP

Sir Thomas Lipton Coming to America This Month, But His Terms Seem Prohibitive.

NEW YORK, Oct. 1.—Joseph Garretson, managing editor of The Cincinnati Times-Star, who was among the passengers to arrive on the steamship Mauretania, brought word from Sir Thomas Lipton that he would sail for New York on Oct. 8, to make a tour of the country and to issue a challenge to the New York Yacht Club.

Referring to his plans, Sir Thomas has said: "I will race for the cup if I am permitted to do so on even terms. But I will not engage to sail a marine, against a skimming dish. When the Shamrock crossed the ocean she came within an ace of sinking with all hands, and I shall never ask another man to subject his life to such useless risks."

Sir Thomas further said that he hoped the New York Yacht Club would permit a race under conditions that would safeguard the cup.

More than that, said Mr. Garretson, "King Edward himself is deeply interested in yachting and has been working to restore to Cowes its premier position as a yachting centre, just as the Kaiser is working to make Kiel a great yachting port."

It is evident here that if the New York Yacht Club should accept a challenge from Sir Thomas on the conditions he names, it would be a direct violation of the deed of gift by which George L. Schuyler gave the America's Cup to the club.

This provision, Sir Thomas told Mr. Garretson, protects the cup from ever being taken from the club. It allows the defender to be designated along the lines of speed only, while the challenger must be a seaworthy craft, fit to cross the ocean under her own sail, and when she arrives here must compete with a racing freak which could hold together 24 hours in mid-Atlantic.

Interest Will Die. "It should be understood that the English yachtsmen are with Lipton in his demand that the race should be fair. If Lipton is kept out of the race, it is doubtful if any other yachtsman will ever challenge for the cup," Mr. Garretson concluded.

Stricken With Apoplexy. Death came with remarkable suddenness last night at about 8:30 Henry Hutchison of 317 Sherbourne-street, a member of the firm of R. B. NURSE PROVES DEAD BABY'S IDENTITY

Story of N.Y.C. Flagman Who Found Body of Authers Infant, and of Negotiations for Its Adoption.

With the positive identification of the tag found upon the body of the infant picked up beside the New York Central tracks by the nurse who wrote it at the General Hospital here and by the nurse who attached it to the child's back at the time of its birth, all doubt as to the identity of the body of the infant found by the New York Central railway tracks was done away at the inquest into the death of the child at the morgue last night.

Then, also, was told the finding of the body by the flagman and the story of the negotiations of the prisoner with Mrs. Authers for the adoption of the infant and the story of the arrest.

Finding the Body. Frank Fleming of Leviston, flagman of the N.Y.C. railroad, said that while he was at his post watching the cliffs along which the tracks run, he saw a parcel which he afterwards found to contain the body of an infant come tumbling down the bank at a culvert, just as the train passed that culvert. He called Coroner Scott.

On cross examination, Mr. Robinson tried to shake Conductor Parrish's identification by asking if this season, but the flagman said that he had heard that there were very few people on that train.

Miss Mary Walker, daughter of Mrs. Ann Walker, Peter-street, afterwards on the Cayuga, said that she had travelled to Lewiston on the Chippewa on Thursday, September 15, with her mother and two Taylor boys. They met the prisoner at the dock. Her mother introduced her as Mrs. Miller. She was carrying a parcel like a sash box, only longer. She had it on the boat and said that she would pass it thru the customs as lunch, she said it was mostly coal for lunch. The witness rode on the Chippewa to Buffalo, and Mrs. Miller got off at the Falls. She had the parcel in the train. She had had the parcel in a case because she had left the hotel. "Cecel Taylor, who was with the party, corroborated Mrs. Walker's story."

Identification Tag. Dr. John Mitchell of the General Hospital told Mrs. Authers' admission to the hospital. He had seen the prisoner there on the day she took the infant. He had left the hospital and how she would feed it. This was Saturday, Sept. 11, the day the child was born.

The doctor said that the child was perfectly healthy at birth. Nurse Wainwright was on duty when the child was born. She had written the identification tag. Nurse Cummings had attached to the child's back after bathing it. Nurse Cummings confirmed this evidence, and both identified the tag positively.

Nurse Gamble said that the prisoner had come to the hospital Saturday morning and had returned Saturday afternoon between 3 and 4 o'clock and took the infant away in a baby carriage, in which there was already another baby.

Mrs. Louisa Madeaux, 128 Booth-street, with whom Mrs. Authers lived, told of her coming from England April 24. She was asked as counsel pointed to the prisoner of Baby.

"Yes, I think it was in July." She told how Mrs. Authers had answered an advertisement in an evening paper in which a red-headed man offered to adopt a child with \$100. The prisoner, under the name of Mrs. Turner, answered the advertisement, and the bargain was made that she should adopt the Authers' child at its birth.

She called at the house several times before the birth and was given money. She said she was going to Niagara Falls, N.Y., where she lived with her husband, who was a traveler.

At one juncture she was asked what Mrs. Turner said she was going to do with the child. The witness said she was greatly agitated thruout the evening of her evidence, said in a voice fraught with tears and indignation, "She said that she hoped that God would deal with her."

#### WOUN'D ASK CATARACT TO BRING FRIENDLY SUIT

#### Instead, Power Committee Instructs Solicitor to Draw Up Formal Application to Send Commission.

HAMILTON, Oct. 1.—(Special).—The special power committee this evening passed the following resolution: "That the city solicitor be instructed to draw up a suitable resolution applying for a 1000 horsepower electric energy from the hydro-electric commission, safeguarding the city in all points as the committee has suggested as advisable, and report back to the committee at the earliest possible moment."

It was agreed that the committee should meet again Tuesday afternoon and have the application in shape to go before council on Oct. 11. A new stipulation that the committee wants, in addition to not being bound to take more than 1000 horsepower from the commission, is that it shall be free to sell to any person it sees fit, providing that it does not sell below cost.

Ald. Cooper and Anderson thought the application should be made at once, in view of the fact that the ratepayers had so voted.

Knowing that the Cataract Power Company was going to try to hold the city to last year's contract, Ald. Percival suggested that a committee should be sent to the Cataract Power Company to ask it to bring a friendly suit to test the liability of the city under the Cataract contract, but not one member of the committee would consent to act on the committee, and the motion that City Solicitor Woodell be instructed to wait upon the company with that end in view was voted down.

Dr. Husband Dies Suddenly.

Dr. George E. Husband, 129 West Main-street, 70 years of age, who had practiced medicine in the city for many years, died suddenly from apoplexy this afternoon while driving with Warden Geese near Waterdown. He fell out of the rig and when picked up he was dead.

Arthur Solvitsburg, King William-st., was arrested this afternoon on a charge of assaulting Constables James Clark and Campaign, jr., at 3 o'clock this morning. Solvitsburg was standing in a doorway at home and he fell out of the rig and when picked up he was dead.

Christopher King, James and Barton streets, was struck on the head to-night during a drunken row at James and Merrick-streets. His assailant escaped. King's condition is not serious. The police are after operators outside the racetrack who are making books on the races.

Sold Liquor Without License.

The magistrate this morning found George Shugan guilty of a second offence of selling liquor without a license, but deferred sentence until several questions can be submitted to the attorney-general's department. The defence is that the liquor was sold without the knowledge of Shugan. Wm. Daniels was fined \$20 for exceeding the speed limit in his auto.

Dr. Colquhoun, deputy minister of education, formally opened the Normal School, for the season this afternoon. He said the government had done all in its power to get an increase of pay for teachers, but they would have to make many sacrifices in the cause of education.

Population Increasing Slowly.

Ed. Bedwell, owner of a string of race horses at the Jockey Club, and Arthur Dade, the starter, had a fistie encounter this evening. Bedwell harbors the notion that his horses have been getting the worst of it on the starts, and was talking to Judge Murphy this evening when Dade happened on the scene. Some remarks were passed and blows were exchanged by Dade and Bedwell, but they were parted before much harm was done.

The assessment returns given out today came as a great shock to those who believed that the city was going ahead by leaps and bounds. An increase of only 301 in population in 1908, as compared with 1907, shows an increase of only \$967,428, as compared with nearly \$3,000,000 last year. The increase assessed at present taxation will add only about \$20,000 to revenue. Wards two and five dropped off in population, but ward seven showed an increase of 481, and ward one added 244. There is a decrease of 133 in the number of children between 5 and 16 years. The total assessment amounts to \$41,166,758, the figures for the wards being:

Ward	Assessment	Population
Ward 1	\$3,942,644	6,453
Ward 2	8,498,210	6,186
Ward 3	5,473,719	10,442
Ward 4	4,300,085	9,813
Ward 5	6,573,390	6,828
Ward 6	5,339,950	11,535
Ward 7	7,088,769	16,011
Total	\$41,166,758	67,268

Street Railway Repairs.

The street railway has intimated that it will do little towards reconstructing its system next year. A formal announcement will be made to the railway committee next Monday.

W. C. Beckenkroge has purchased the John Patterson property at the corner of King and Hess-streets, and will divide it into building lots.

It is rumored that the G. T. R. will build a new station at James and Stuart-streets, using some of the iron work from the present Toronto Union station.

In order to spur the county constables to get after automobiles who break the speed limit, the county council notified the constables that they would be given half the fines imposed on offenders. Magistrate Jelfs says that is illegal, and he will not allow the divisions. The fact that they would get credit their evidence in his mind.

### The BELL Playerpiano

### The New Autonola

The "Autonola" is a remarkable instrument. It provides music for those who are unable to play for themselves, and it is also an exquisitely beautiful instrument for playing by hand in the usual way.

This is the ideal piano for every home, for it makes music possible whether there be any present able to play or not.

It is TWO PIANOS IN ONE. We will accept your present instrument in part payment and arrange convenient terms for the balance. Come to our warehouses and play this wonderful instrument for yourself—not the slightest knowledge of music necessary.

### 22 Children in 27 Years

Skowhegan, Maine.—Mr. and Mrs. Charles Dickey, of Canada, announce the birth of a daughter, their twenty-second child in twenty-seven years. Mrs. Dickey was married when fourteen years of age and Mr. Dickey was only a few years her senior. During these trying times, not one has ever suffered from a serious illness.

Here is health and strength, and bodily vigor personified. The parents are well—therefore, there have been no weak, puny, peevish children.

The health of the child depends much on the health of the parents. There is the necessity of expectant mothers especially paying great attention to their general health.

"Fruit-a-tives" is a vegetable remedy for "fruit-a-tives" tablet before meals and at bedtime will regulate the bowels and kidneys, keep the stomach sweet, sharpen the appetite, assist digestion, strengthen the vital organs and invigorate the entire system.

"Fruit-a-tives" are sold by all dealers. 50c a box, or \$2.50, or trial box, 25c. Direct from Fruit-a-tives Limited, Ottawa.

### Best Investment of the Year

FOR THE MAN WHO IS ENDEAVORING TO LOCATE A HEALTHY SPOT UPON WHICH TO BUILD A HOME, OR FOR THE INVESTOR, "OAKWOOD" MUST HAVE A HEAVY TEMPTATION.

There isn't in Toronto to-day such a location at the price. "Oakwood" is situated on the crest of the hill overlooking the city from its northern environs. A Dovercourt-street car brings you within four minutes' walk of it. For eighty-eight years it has been held as a gentleman's estate. "Oakwood" is thickly wooded with oak and pine, and has now been surveyed into picturesque roads and crescents.

The Toronto Board of Education have completed plans for the erection of a modern Collegiate Institute on the block marked upon the plan. This ensures an immediate installation of city conveniences, such as water, sewerage and light.

CHARLIE EASTMAN THIRD THE UPSET AT HAMILTON

Public Also Get Dumped on Injury—Howard and Burns Each on Two Winners.

It was cold and cloudy with threatening rains for the fourth day of the Hamilton Jockey Club races. But the attendance was once more very good with the usual crowd from Toronto. The track was fast. The first disqualification of the meeting occurred in the first race when Bonnie Bee, after leading all the way, was set back for crowding Omicron at the finish.

The upset of the day was Charlie Eastman in the third race at 6 furlongs. He got away slowly and was cut several times during the race, but made up a lot of ground in the stretch and was a close up third. With fair racing luck he would have won. Injury was another hot favorite that put a crimp into the talent, being badly beaten in the sixth race by Chilla, Gold Dust and Ovirine. English Esther from the Valley Farm stable was out to the last ounce to win the fifth event from Edwin. It was only Burns' superior ride that landed the filly by a nose. And again in the seventh race Burns had to do his best to win with John Carroll. The old horse looked to be out of it at the head of the stretch, but under Burns' hustling ride got up to win by a short head.

Dr. Pillow, at odds on, was much the best in the steeplechase, being in front all the way. Jockeys Howard and Burns had two winners each. Favorites still continue to take a majority of the events with the second and third choices either winning or running in the money.

There are seven races on the card again for to-day with the Autumn Handicap at one mile and a quarter, as the feature. It will bring together the winner of the Ontario Jockey Club Cup Azo and Cave Adam, who ran second.

TORONTO BOWLING CLUB Officers Re-elected at Annual Meeting Season to Start Oct. 11.

A general meeting of the Toronto Bowling Club League was held at the club rooms last night. On account of illness of President Sam McBride, E. Phelan, vice-president, was in the chair...

Shamrocks and Montreal are clashing to-day in an effort to break the tie in the N.L.C., but that's only an incident to the doing of the afternoon Bradford v. Galt for the intermediate championship of the C.I.A.A. and Campbell v. Campbell, the fiskest man on the Rosedale field.

Charlie Eastman dumped the talent in the third race at Hamilton yesterday and in the fourth the public was bumped again, for it was only a trivial injury.

After Peary and Cook, then Jeffries, who also dumped the talent, he is to land on these shores Oct. 16.

Billy Pakke, the well-known middle-weight fighter, was in town yesterday en route to Peabury, where, on Oct. 12, he boxed Willie Lewis, and held the middleweight championship for a short time between his victory and defeat over Stanley Ketchel.

George Washington Moore, founder of Moore & Burgess' English Minstrel, and in the city, died yesterday in London. He was Charlie Mitchell's father-in-law, the two visiting Toronto in the early '90's.

A syndicate of eastern sporting men has been formed to place a heavy stake on Stanley for McGilvray to meet Jack Johnson at Colma on Oct. 12, a week from next Tuesday. Already a \$200,000 commission has been placed on the coast to be placed on Ketchel at the opening of the junior O.R.F.U. league.

I am going to root hard for Ketchel, says John L. Sullivan. "He's a name you know in every town, and how to fight. It is the duty of every white man who has red blood in his veins to pull for Stanley for McGilvray, the nerve and courage to tackle the best negro pugilist the world has ever seen, the budding Peter Jackson, or Ketchel, I hope he will draw the correct line. He will fight me, but I think he'll never be the same man again."

RYAN WAS NOT REINSTATED Peace Conference Between Interprovincial and O.R.F.U. Falls.

Rufus Ryan, the Ottawa Rugby player, will play no Rugby in the Interprovincial this year, so decided the board of governors at a meeting held at the King Edward last night. It was a somewhat lengthy session, and, judging from reports, somewhat stormy, but the board of governors could not overlook Ryan's offence in playing in the professional hockey league, after being once pardoned for the same thing. The case of Ernie Hamilton, the Montreal lacrosse player, was only mentioned, but not discussed. R. S. Steele occurred in the case of McGilvray, who represented Ottawa; G. Herbert Brown, Montreal; and T. E. Galt, Argonauts. The peace meeting between the Interprovincial and O.R.F.U. saw many arguments on the subject of amalgamation and otherwise brought up, it being finally left to the I.P.F.U. to draw up their terms of agreement and submit them to the Interprovincial, who will discuss them and then meet delegates from the O.R.F.U. The O.R.F.U. representatives were not in favor of the four clubs in the Big Four being always confined to the senior series, and wanted it amended so the winner of the Big Four would be the winner of the low team in the Big Four. In other words, it was a case where the O.R.F.U. had to submit to the senior series. This point brought about considerable discussion, and where Joe Wright of the Argonauts and Doc Woods of the T.A.A.C. had their little say, both being invited to play a test game to decide which was the better team to represent Toronto in the Big Four. However, nothing definite was arranged, other than the drafting of terms by the O.R.F.U.

Chicago Protest Paying Toronto That \$500 Fine

CHICAGO, Oct. 1.—Chas. W. Murphy, president of the Chicago National League Baseball Club, who was recently censured for trying to entice Jeff Pfeffer, the Toronto pitcher, to-day entered a demand that the National Commission reopen the case. He declared that he had no chance to defend himself. The Chicago Club was fined \$500 as damages to Toronto.

Brooklyn's Request Refused.

CINCINNATI, Oct. 1.—The National Baseball Commission to-day refused the request of the Brooklyn Club for the retention of \$250 of the draft money for Pitcher Fletcher to reimburse the Brooklyn club for that amount paid the Uniontown club for Player Kruger, who was afterward returned to the Uniontown club. The commission states that it is in agreement with the request for the reason that by so doing it would be sanctioning the farming game of the players. The commission, however, declares the claim against the Uniontown club a just one, and that the Brooklyn should be reimbursed by that club.

British United Boxers.

The British United Athletic Club boxers have better facilities than ever for training this fall, and they are preparing one of the best teams for each of the eight classes of the city tournament, that opens three weeks from tonight in the Mutual-street rink. The prize for each of the eight classes is gold and silver watches first and second and boxing gloves third.

The Pursuit Race will be the greatest event ever ridden in Canada.

AVE, SIR JAMES.

Talk about discovering the north pole! Ontario has succeeded where Diogenes with his lantern failed. It took a long time, just as it took a long time to reach the pole, but the province under the guidance of the Liberal-Conservative party finally discovered a good, honest man. For five years past Sir James Whitney has given the greatest exhibition of reform statesmanship the province has ever seen. Reform in principle, reform in practice, reform in law, in finance, in education, in taxation, in corporate organization, in public control of utilities essentially monopolistic in character; reform in the methods and procedure of elections; reform in the administration of the public services; Sir James in all these things has set a new standard for Ontario. His communications have been yea, yea, and nay, nay. He has been blamed as too blunt and outspoken. His simplicity is a byword in quarters where cynicism is a compliment.

Sir James celebrates his sixtieth birthday. He lacks four of the three-score years and ten, which a pessimistic realist thought sufficient for the ways and days of earth. The climate of Ontario engenders a more hopeful spirit. Sir James' capable shoulders and sturdy limbs and unfaded head are good for many a long year yet, and it is with the most assured optimism and the heartiest good-will that we wish him on behalf of his native land, "Many Happy Returns of the Day."

MR. BALFOUR AND TARIFF REFORM.

Mr. Balfour in his speech at Birmingham made a strong frontal attack on the British free trade system following upon his declaration in question form of his tariff reform. "Are you," he asked his audience, "going to begin what, at all events, I think, is the upward, the hopeful and the forward movement of the tariff reform, or are you going to take the first, but yet not short, step on that downward track which leads you to bottomless confusion of socialistic legislation?" In the ex-premier's view the issue is between tariff reform and Socialism. Mr. Chamberlain in his letter read at the Birmingham meeting was more precise. After pointing out that Mr. Asquith admitted that tariff reform was the only alternative, he proceeded: "It is therefore between the budget and tariff reform which assists trade, increases employment and secures a fair contribution to our revenue from foreigners using our market for the sale of their goods, and the budget, which exempts the foreigner from all contribution, while casting fresh burdens on our own trade, hampering our industries, and taxing the commonest comforts of our people."

Mr. Balfour's criticism of the budget proposals of the government was couched in very general terms and was more conspicuous for what it lacked than for what it contained. Particularly in regard to the new land taxes were his remarks more than usually vague. This is not surprising, since the proposition to tax unoccupied urban land at its real value is perfectly fair and indeed is now in force in many countries without detriment to trade and industry, but indeed very much to their advantage. The other day The London Spectator deprecated a general election over the issue because it considered the issue would be complicated by other questions likely to interfere with the specific judgment of the electorate. But the ministerial party cannot justly be blamed for making the budget the occasion for pressing other vital points in the Liberal program. Mr. Balfour thinks he will help his case by calling the budget a socialistic experiment and makes the issue tariff reform or Socialism. The Liberals retort by making the issue lie between the budget and food taxation. Both parties are playing the political game, and at present popular sentiment appears to lean distinctly towards the budget. As The World has indicated already, tariff reform in its view is not an alternative but supplementary to tax revision.

CONCERNING GOOD ROADS.

Those who decry the movement for good roads and attempt to create a prejudice against it in rural districts on the ground that the automobile interests are at the back of it are not real friends of the farmer. He of all men has most need of good roads and will derive the greatest profit from them. Agitation for country road improvement is not confined to Canada. It is even more marked and earnest in the United States, where the value of cheap and easy means of transportation by wheeled vehicles is far more highly appreciated and the government exert themselves more energetically in aid of the local reformers. The World recently called attention to the part played by the postoffice in connection with its rural mail service. If amendment is not made after warning, the postal facilities are curtailed pending execution of the necessary repairs. According to a recent estimate the U. S. railroads during the year ending June 30, 1909, handled more than 200,000,000 tons of farm produce delivered at a cost, owing to poor road construction and repair, conservatively calculated at 20 cents per ton per mile. Easy transportation on good roads would not have cost more than 8 cents per mile.

ISN'T IT FUNNY?

That thousands of gentlemen who previously thought it impossible to get a good suit to measure at \$5.14 are now permanent customers of ours! Thousands of satisfied customers; thousands of grateful customers. Right through the Dominion we have gained friends by our sterling, honest and straightforward business methods. When you order a "Custom" made outfit, be it suit, overcoat, or anything else, you are able to count on receiving absolute, unqualified satisfaction. This is the basis of all our contracts between ourselves and our customers. Then our strong point is attention to detail. It may be ever such a trifle over which you are fastidious, but we know it is the trifle that counts. It is this Distinction of Tailoring Perfection and a care of the details that gained us the Gold Medal Prize at the Franco-British Exhibition last year.

Fill in a post card and address same to us as below, asking for our latest assortment of materials. Together with patterns, we send you fashion-plates and complete instructions for accurate self-measurements. We measure, all sent free and carriage paid. We dispatch your order within seven days, and if you do not approve, return the goods, and we will refund the money.

Commenting on this quite unnecessary tax The New York Times makes the following comments: "Draw concrete circles on the map about each railroad station that is surrounded by bad roads. It will be seen that only in the nearest zone is it profitable to haul all kinds of farm produce, milk and perishable vegetables, and fruits must be omitted from the profitable cartage away from the second zone; the cost is too much for hauling many of the products of the third zone, while in the fourth the land must remain uncultivated, since no crop can be transported to market."

More especially in the neighborhood of large centres of population is it desirable in the interests of the farmer that the roads should be of the best class. Yet it is the farmer that appears to be most apathetic and indifferent in securing their provision. This should not be the attitude of the agriculturist, especially when it is remembered that the government is ready to give material assistance in road improvement, and that were the funds properly and systematically applied the expense would be little, if indeed, any more than it is under the present irregular and unsatisfactory methods. Greater ease and cheapness of road transportation would not only benefit the farmer, but the city consumer, and it would certainly be to general advantage were a serious effort made to improve the roads in Ontario and particularly in York County. No investment of money would ultimately yield a better return to both the farmers and the citizens.

STOP THE CARS.

Editor World: Manager Fleming of the Toronto Railway Co. in a general way conferred a benefit on the citizens of Toronto in the re-arrangement of the stops on the various streets of the city. In some places, however, I think an improvement could be made. On King, between Niagara-street and Strachan-avenue, there is, as Mr. Fleming knows, a very long stretch. At and between these two points there are fully 100 young girls who go to work, that use the cars night and morning, and have to board the cars at either of these two points. Nearly all the young women, and many men, would like a stop to be arranged for at Stafford-street, between the other points mentioned. Stafford-street, and I am sure Mr. Fleming will agree with me, is a much preferable place for the girls, as well as many men, especially the latter, to use as a stopping point in going to and from work.

Charles Zeigman, sr., 47 Stafford-street.

EATON'S DAILY STORE NEWS

Our Second Formal Millinery Opening Takes Place Monday

IT'S left to this occasion to really decide the most authentic millinery modes for fall and winter, and while many of the fashions shown earlier are noticeable, several innovations have since appeared. Most prominent, perhaps, is the tendency for "effect distingue" rather than any proximity to extravagance which has characterized previous modes. This is demonstrated in the simple, yet elegant, trimming, and the richness of the soft, furry beaver, or furs, or the beautiful velvets and moires, so noticeable amongst the materials.

No period predominates; wherever art could glean a suggestion it has found an inspiration, such as headgear of Henri de Navarre, Charles VII. and Henry VIII.—the styles taken from the hats men wore, not women.

The "tricorn" or Napoleonic hat is most apparent, and the reign of osprey trimming is emphasized by this style. One specially beautiful hat is white fox fur, with long, quivering osprey of truly regal beauty. A lovely black tricorn has soft willow plume, set in large jet claw. Some of the larger beaver styles have decided roll at back, and coque feathers that "used to be seen chiefly on tailored styles, are now used in large, soft clusters, giving "paradise" effect.

We extend to you a cordial invitation to join us on Monday.

300 Model Hats at \$10.00 Each. Fur hats, beaver hats, and velvet hats, trimmed with ostrich plumes, flowers, wings, ribbon, beaver cloth, moire silk, ottoman silk, metal cloth, and new ospreys. Each hat displays some unique Parisian touch, each hat is exclusive and a perfect model. \$10.00

The October Pre-winter Display of Women's Furs Monday

on display in our well-lighted Fur section—Fur styles as beautiful and distinctive as long experience in high grade designing and fur manufacture can produce. It's a showing embracing furs for the economic buyer who seeks warmth and service, as well as furs for those who desire rare beauty and exclusiveness, and amongst these are classed Russian Sable, Hudson Bay Sable, Russian Ermine, genuine Arctic Fox, real Pointed Fox, and fine Fisher Furs—a showing to delight those to whom quality and distinctiveness are the first considerations.

A regal-looking fur piece of most artistic design, elegant Canadian Mink and Ermine stole, is the output of our own fur artists and tailors; has the broad shoulder effect, and long stole fronts, and very long tab back, with muff to match.

In our smaller garments we specially emphasize our Persian Lamb Empire Muff, large block, wrist cord, down bed, brown satin lining, this muff is made from whole skins, both medium and large curl. Monday \$8.50

WHAT KIND OF A NOISE ANNOYS YOU MOST?

A Grand Carnival of Noisiness to Be Held at Excelsior Rink—Elsie Janis There.

Miss Elsie Janis and her entire company held a private skating party, and an after dinner, at the Excelsior Rink Wednesday evening, after the performance, and they sure had a glorious time.

On Tuesday night, Oct. 5, the Excelsior will hold a Great Joy Carnival, modeled after those held on Broadway, New York.

The carnival being featured by a large number of varied and novel games, which have been specially imported. This is something decidedly new for Canadians, and judging from the enthusiasm of the American carnival lovers, should be the greatest success.

Mr. Butler suggests that those who have poor nerves and cannot enjoy lots of noise had better stay at home, as there'll be noise without and noise within, and a genuine whirlwind all around. Remember, Tuesday, Oct. 5, the great joy carnival.

AFTER SIX YEARS OF INDIGESTION

Dr. Williams' Pink Pills Made a Permanent Cure.

There are many medicines that will relieve indigestion for a time—there are few that will make a permanent cure. But there is one medicine that cures—Dr. Williams' Pink Pills.

There are many medicines that have been tried and found worthless. Mr. Seal says: "For nearly six years I suffered with indigestion. During all that time I was constantly taking medicine for the trouble, but never got more than temporary relief. Finally I decided to try Dr. Williams' Pink Pills and after using them for some time the trouble disappeared and I am now able to eat heartily without the least trace of the suffering I formerly endured. I can, from my own experience, strongly recommend Dr. Williams' Pink Pills as a permanent cure for indigestion."

Dr. Williams' Pink Pills for Pale People are good for every disease that good blood is good for, simply because they make good blood—that is why they cure rheumatism, heart palpitation, indigestion, neuralgia, St. Vitus' dance and the ailments of girlhood and womanhood. Dr. Williams' Pink Pills for Pale People are sold by all medicine dealers or direct by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

UNIVERSITY PROFESSOR FINDS ABORIGINAL WALL

Structure of Uniform Height and Thickness Made by Mound Builders in Manitoba.

Professor Montgomery, returned yesterday from the west, having spent the summer collecting archaeological specimens for the university museum. For many years he has been carrying on field work in the prairie states, and provinces, making special study of the mounds and other remains of a prehistoric people, who once dwelt there.

Dr. Montgomery, assisted by a number of men, conducted the excavation of several mounds. Nearly two weeks were taken up in excavating one large mound which contained many interesting relics of the past. Besides human skulls and skeletons, Professor Montgomery discovered some articles made from bone and shell, which are altogether new to science. But, the most important of all, in his opinion, is the discovery of additional evidence in relation to the way in which the mounds were built, and goes to prove that required a long time for the erection of each, and especially in the case of the larger.

Professor Montgomery was present at the British Science Association Winnipeg meetings, and delivered an illustrated address upon the Archaeology of Ontario and Manitoba, before the members of the section of anthropology.

FIGHT ASSESSMENT

Yonge Street Merchants Organizing for Court of Revision.

An organized fight against the assessment levied against their properties, will be waged by the owners along Yonge between Wilton-avenue and College-street. A real estate expert has been secured to handle the case and meetings of both owners and holders will be held shortly to prepare evidence. An appeal will be taken to the court of revision and to the county court if necessary.

The owners claim that prices have been boosted by real estate agents beyond all reason. Some owners are caught with long leases outstanding based on the old valuation and with the new assessment in force, nearly all the revenue would be eaten up in taxes.

BANK ROBBER IS IN JAIL

One of the Rainy River Bandits Was Vagued at Pittsburgh.

PITTSBURGH, Pa., Oct. 1.—After a month's confinement in the Cambria County Jail at Ebensburg, a prisoner, who was arrested for holding a "blind baggage" on Pennsylvania Railroad train No. 23, gave his name as John Drummond, confessed that his real name is William Sweeney, and that he is one of the trio of young foreigners who on July 2 held up J. A. Templeton, manager of the branch Bank of Nova Scotia at Rainy River, Ontario, and escaped with nearly ten thousand dollars.

WOMAN COMMITS SUICIDE BAITING LOVER'S LIONS.

PARIS, Oct. 1.—A young woman committed suicide in a frightful manner to-night. Having had a quarrel with her lover, who is a lion tamer in a theatre in which three lions are introduced during the course of a melodrama, the woman went behind the scenes and thrust her arm into the cage. The animal, mistaking her for a lion, and with a few blows of their claws tore her head and breast to pieces.

New Bill of Lading. The new bill of lading, which was designed by the Canadian Manufacturers' Association and adopted by the railway commission, the feature of which is greater protection for the shipper and more responsibility for the carrier, went into effect yesterday. Under the old bill of lading, railways and other carriers shouldered very little responsibility for the goods in their possession and shippers and consignees were obliged often to collect for damaged goods through the courts. The owner of the goods was formerly obliged to prove the carrier's negligence, whereas goods were lost or damaged in transit, but under the present rules the onus of proof is on the carriers.

Bloated Stomach And Belching

Of Gas is Prevented By Using Charcoal, Which Absorbs and Removes Stomach Gases.

The accumulation of gas in the stomach is caused in the following ways: 1. It may be swallowed in large quantities during certain abnormal conditions of the stomach and food-tract. 2. It may be produced by decomposition of food in the alimentary system. 3. It is often evolved from changes in the mucous secretions themselves. 4. Transuded from the blood. 5. Regurgitated from the duodenum or first portion of the small intestine, and in some cases from a serious communication with the large intestine. 6. Gas of an extremely offensive kind is produced by the decomposition of food in the stomach, such as cancer, ulcer, tumor, etc. 7. Some forms of food are more prone than others to cause stomach gas, including sugar, starch, beans, peas, etc.

To relieve the distressing symptoms of gaseous distension of the stomach, no matter what the cause may be, they are removed by numerous experiments that the most reliable and valuable remedy is charcoal, which directly absorbs all gaseous substances in the alimentary system, besides oxidizing and destroying foul odors and antiseptically cleaning the stomach and intestinal system from one end to the other as thoroughly as soap and water cleanses the skin.

The late Dr. Leared of England strongly advocated the use of willow charcoal in the form of lozenges for the alleviation of such stomach symptoms as indigestion, fermentation, decomposition and belching. It has also been found extremely serviceable in relieving secondary fermentative changes in the large intestine, when administered in the form of lozenges for the alleviation of such stomach symptoms as indigestion, fermentation, decomposition and belching. ELECTION TRIAL SAW-OFF DOESN'T PLEASE JUDGES

Recommend Further Enquiry—Liberal Petitioners Had Called Halt to the Trial.

CHARLOTTETOWN, P.E.I., Oct. 1.—The counsel for the petitioner in the trial of J. J. Hughes, Premier's opponent, Fraser, M.P., Conservative for Kings, announced that they had decided not to take further evidence. Admitted evidence in the market and in the street, the difficulty was to establish agency. The dismissal of the petition was, therefore, asked for, the judges stated that they could not dismiss the case, but after three hours' consideration of the evidence they found that the evidence of the expert witness of liquor and trading was admitted, but agency had not been established, this might have been done had the evidence been carried further. They confirmed Mr. Fraser in his seat, but said they would report to the speaker that there should be further enquiry.

The proceedings stopped as the result of an agreement between the parties, whereby the counter-petition against J. J. Hughes, Premier's opponent, is to be withdrawn; also the case against Hughes for violation of the independence of Parliament Act. Fraser A. is to be dropped.

ALPINE CLIMBING WORSE THAN POLAR EXPEDITIONS

GENEVA, Switzerland, Oct. 1.—The annual death toll of the Alps, this year 15 killed and 27 injured, has aroused widespread public opinion thru out Switzerland, and the strongest pressure possible is being brought to bear in favor of the enactment of strict government regulations to control mountain climbing.

Deepening of Welland Canal. JUDGE CURRAN DEAD

Former Cabinet Minister Under Two Premiers.

MONTREAL, Oct. 1.—Hon. J. J. Curran, justice of the supreme court of Quebec, died suddenly here today. He was solicitor-general under Sir John Thompson and under Sir Mackenzie Bowell. Judge Curran went to Europe for a three months' trip for the benefit of his health during the past summer, and returned about two weeks ago. He leaves one son and two daughters.

Business is Good. Our great difficulty now is in getting first-class workmen, said C. F. Curran, managing director of the Semi-ready Corporation. "Business is good and orders are increasing from every province. We could very readily use 20 more coat finishers in the one department alone, while the foremen in every department are asking for more help. In the coat finishing department the work is light, and expert tailors, male or female are assured of steady work and high wages all the year round. Their skill cannot but improve under our system of working."

Burglar Caught in Act. GUELPH, Oct. 1.—William Hendricks, from Detroit, was caught in the act of robbing the house of J. W. Lyon at 1 o'clock this morning. He had only obtained a few trinkets when he was discovered by the police. He pulled a knife and showed fight, but soon gave up.

RICHARD TEW, Assignee. Dated at Toronto this 1st October, 1909.

# Land Syndicate

We are now engaged in Syndicating a farm, having a frontage on Yonge Street of 1320 feet. This farm is the nearest property of any size to the large block of 350 acres recently sold.

The Don River runs through the farm and the view of the valley is one of the most picturesque surrounding the city.

The property lends itself admirably for sub-division into larger plots than can usually be obtained, and will therefore appeal to those looking for from three to ten acres for country residence purposes, having beautiful scenery surrounding.

For full particulars as to Syndicate agreement, plans, etc., apply

#### C. F. OF L. OFFICERS

President Patterson Re-Elected—Next Meeting at Brantford.

OTTAWA, Oct. 1.—The Canadian Federation of Labor will meet next year at Brantford. These officers were elected: President, B. W. Patterson, Ottawa, re-elected; vice-president, S. Berube, Quebec; secretary-treasurer, George Mercure, Ottawa; executive board, J. G. Tapp, Ottawa; T. C. Tresham, Brantford, and Tom Brunette, Quebec.

A resolution to forbid the discussion of religious, political, racial or denominational questions at the annual convention was submitted by Delegates Boldin and Gregoire of Quebec, but was strongly opposed, and was left for report next year.

Ottawa Leather Workers May Strike. OTTAWA, Oct. 1.—Local leather workers have organized and will at once ask for an all-round increase of ten per cent. in wages, and if it is not granted by Oct. 9 there will be a strike. They will also co-operate in the Toronto movement to "ask the Dominion Government to manufacture its own leather horse goods instead of patronizing firms that discriminate against the United Brotherhood of Leather Workers on horse goods."

Suicides in Sight of Thousands. NEW YORK, Oct. 1.—In sight of several thousand persons assembled to view the Hudson-Fulton naval parade to-day, John H. Bell killed himself by leaping from the top of the Riverside Drive Viaduct, one hundred feet high. Bell was 45 years old. A short time ago nervous trouble caused him to resign his place as manager of a local dairy company and retire to a farm.

Farmer Fined for Abusing Children. LINDSAY, Oct. 1.—This morning before Magistrate Moore, Stokes, a Mariposa farmer, was fined \$10 and costs, which will probably amount in all to \$25, for ill-treatment of two Barnardo Home boys, Albert E. Carter, aged 15, and John W. Young, eight years.

Marquis of Graham in Canada. MONTREAL, Oct. 1.—The Marquis of Graham, eldest son and heir of Duke of Montrose, is in Montreal. His localities, who is 31 years of age, is the Unionist candidate in one of the Suffolk divisions for the British House of Commons.

#### INCREASED GERMAN GARRISON IN ALSACE-LORRAINE ALARMS

PARIS, Oct. 1.—The foreign office is alarmed by the attitude of the German Government toward Alsace and Lorraine, where the German garrisons were to-day increased from 81,000 to 85,000 men.

When the Franco-Prussian war closed, Germany left only 32,250 men in Alsace-Lorraine, but in 1890 the number had increased to 67,250, and in 1905 it rose to 81,000.

Cheese Factory Burned. HASTINGS, Ont., Oct. 1.—This morning fire completely destroyed the Ormiston cheese factory just outside this town. The building and fixtures were valued at \$4000, with \$2000 insurance. The output of cheese for September, valued at \$3200 and insured for \$2500, was almost all burned. J. Valeau of Hastings is the owner. The fire started around the smoke stack.

Head Cut by Brick. Joseph Payne, 43 Melville street, was hit on the head by a brick which fell from the Whaley & Royce building at Yonge and Richmond, now in process of demolition. The wound was stitched at St. Michael's Hospital.

Leaving the Sentinel. On leaving the employ of The Sentinel, where he has been in charge of the composing-room for a number of years, E. S. Jackson was presented yesterday with a fountain pen. J. T. Edworthy and N. H. Bucher expressed the regret of the staff at the departure of Mr. Jackson, who leaves to go into business for himself.

Autoists Fined. W. A. Kemp paid \$5 in police court yesterday for driving his auto too fast. Andrew Martin and Waldo Luckins each paid \$10 for similar offences.

F. W. Stalr drove on the wrong side of the street and was fined \$10 and costs.

S. Solway was fined \$10 for running a woollen mill without a permit. If the wood is not moved by Wednesday he will have to pay \$20 more.

Dedication Festival. The annual dedication festival will be held at St. Matthias' Church, Bellwoods-avenue, on Sunday. The rector, Rev. F. H. Hartley, will preach in the morning, and Rev. Professor Jenks in the evening.

The St. Kilmuir chief of police says there are 100 Russian Anarchists there. The Jipping Boos of Peterboro were yesterday committed for trial on a charge of manslaughter.

Alphonse Bandin, a workman of Paris, France, accused of killing his wife, said he did it at her request, to end her suffering. The doctors acquitted the story, but the court acquitted him.

# BEDFORD PARK

# ESTATE GUESSING CONTEST

The success of the Bedford Park subdivision has been sufficiently emphatic to warrant something out of the ordinary by way of a climax. We have only a limited number of lots left out of the 1500 we started to sell, and in order to dispose of the balance quickly and round out the entire transaction with flying colors, we have planned a unique Guessing Contest that will focus immediate attention on Bedford Park property. Our idea in this is to appeal largely to young people, and encourage with them the spirit of saving and thrift, which is the basis of all permanent success. To the first hundred persons guessing correctly the exact number of dots in the adjoining illustration we will give prizes as follows:

**1st Prize, One Bedford Park Lot; 2nd Prize, One \$50 Coupon; 3rd Prize, One \$25 Coupon; 4th Prize, One \$10 Coupon; balance One \$5 Coupon Each**

Contest Opens 9 a.m. Monday Next, Oct. 4th

and all letters will be filed in rotation as received, the earliest correct answer to receive first prize, and all guesses to be in our hands not later than Friday, Oct. 15th, 1909. The Coupons represent so much cash to apply on the purchase of Bedford Park Lots, and are good up to the last day of this month. The balance of the purchase price may be paid in instalments of 50 cents per week. In this we are doing precisely as the dry goods stores in making it worth your while to buy just when we say, and offering a sufficient inducement to command immediate interest. We want to finish up the entire Bedford Park property at once and clear the way for something bigger. And incidentally the more enthusiasm we can create for Bedford Park in general the better it will be for the hundreds of lot owners who have helped make this subdivision most successful.

## Speculation Dwindles Down But Prices Continue Steady

### Movement in Mining Stocks Flattens Out and Market Experiences a Dull, Draggish Session.

World Office, Friday Evening, Oct. 1. Speculation in mining securities dwindled down considerably at the local exchanges to-day, but while buying orders were few and far between, it was quite apparent that selling orders were about as scarce and little change from the tone of the last few days occurred.

The only issues which figured at all in the day's transactions were Peterson Lake, and Silver Leaf, but it was understood that the bulk of these deals were only saw-offs between traders. The movement in Peterson Lake, however, was of a different character. Considerable profit-taking was indulged in at times, and in no case did the shares reach the high level made yesterday. Quotations at the close were as follows:

Silver Leaf was down a point and 1/2, sales ranging between this point and 1 1/2. The shares were more largely dealt in than for some days, but little response was forthcoming to the efforts of insiders to boost the stock. Silver Leaf was up some five points and closed at the best figure reached.

The other Cobalts were decidedly inactive, and in some cases easier. Nova Scotia advanced over a point to 5, but no particular reason was assigned for this strength.

The higher priced stocks remained firm at ex-dividend prices about equal to former levels.

The market at the close was listless, but comparatively firm. The fact that prices held their own when the buying was of such a poor nature clearly demonstrates that at the present time, Cobalts in general have too firm an undertone to sag on any lack of speculative interest.

**La Rose and Nip Again**  
Dow Jones & Co., brokers, New York, say the question of a consolidation of the Nipissing Co. with its 1,000,000 shares of stock and 15,000 stockholders, and the La Rose Consolidated Co. with 1,500,000 shares of stock and 7,000 stockholders has progressed to a stage where some announcement will shortly be presented to shareholders of each company.

**Lawson Silver Sidewalk**  
Commenting on the La Rose properties in their regular weekly market letter, Greylite & Co. say: The silver sidewalk discovered on the Lawson consists of nearly 20 inches of high grade ore, and if it continues, as it probably does, with depth, several million dollars can be expected from the vein alone. The silver sidewalk proper should produce even more.

**Rich Strike at Gowganda**  
The world has been advised of an important strike at Gowganda of ore that will average 8000 ounces to the ton. At present the name of the property cannot be divulged.

**Inspect Properties**  
George Weaver, president of the Gowganda Mining Silver Mines, Ltd., leaves this week to inspect the company's properties in Lawson Township, accompanied by O. F. Parker, M. E., of the firm of Laidley & Parker, who will advise as to the course of development work on same. A second party of men was sent up last week to augment the force already at work on the claims.

## THE KERR LAKE MINES MAKE IMMENSE PROFITS

### Kerr Lake Earns 37 Per Cent., and Crown Reserve Earning Not Less Than 80 Per Cent.

The Kerr Lake Mining Co. has issued its annual report for the fiscal year ending Aug. 31, 1909. It shows that total net profits for the year were \$1,129,000, as compared with \$484,500 in the previous year, or an increase of \$644,500. As this showing of net profits was made on the shipment of development ore it is a remarkable one. Earnings on the stock were equal to 37 per cent. on the issued capital of three million, or of course if now blocked out and untouched in the stores.

The showings that are being made by the Crown Reserve, which adjoins the Kerr Lake, are almost astounding. Within a year and a half Crown Reserve has advanced from 50c to over \$5, and its dividends have been gradually increased until it is now paying at the rate of 60 per cent. per annum and earning, probably, not less than 80 per cent. per annum.

The next big dividend payer in the Kerr Lake district will no doubt be Hargrave. It adjoins the Kerr Lake Mine on the east and is now working in very rich ore in the East Hargrave and will soon tap the bonanza ore values of the Kerr Lake's No. 3 vein at the 375-foot level. The main workings reached that depth about two weeks ago, and rapid progress is now being made toward the Kerr Lake vein at the 375-foot level.

**TRADE WITH ITALY**  
Commissioners Making Tour of Investigation of Canada

Prof. Bernardo Attilio, Italian expert on emigration in the United States, had an interview with the minister and deputy minister of agriculture and the director of colonization yesterday. Prof. Attilio is making a tour of Canada, investigating the suitability of the country for settlement and especially with respect to fruit culture. The investigation is the outcome of the establishment of a direct steamship line between Naples and Montreal. A new boat has just been launched, the Torton, 9000 tons, which is expected to make its first trip in time to make the return trip for Christmas. There will be several vessels on the service.

**CONDITIONS ARE FAVORABLE**  
To Activity and Strength in the Mining Securities.

Heron & Co. in their weekly letter say: Trading in Cobalt stocks during the week has been fairly heavy volume and well distributed. Prices have moved irregularly, but on the average values show improvement. In the best informed quarters it is concluded that the bull movement in the big market is at an end in a broad sense, for the time at least, and more attention will necessarily be paid to mining shares. Conditions are highly favorable to activity and strength during the coming months and commitments at this time, if made with discretion, cannot fail to result profitably. Many low priced issues are available now at "bargain" figures and good investment opportunities are numerous.

**MAP OF COBALT AREA**  
Showing location of WALDMAN SILVER MINES, LIMITED

The above map shows the excellent location of the Waldman properties, these 192 acres being in a direct line with the Crown Reserve, Jacobs, Lawson and Foster to the west, and to the north the Coniagas, Buffalo and Nipissing. In fact the claims lie in a direct line with all the big shipping mines of the camp. The high value attached to the properties adjacent to the Waldman is clearly shown by the announcement that the M. J. O'Brien claim has definitely been taken over by Montreal financiers and mining experts at \$400,000.

On the main shaft of the Waldman property the most strenuous work is going on and during the past week a new vein of high-grade ore was blown out at the 55-foot level in the shaft. This ore was practically solid silver at the 10-foot level, the vein was a stringer of calcite. At the 50-foot level the vein widened to eight inches, and five feet lower into good pay ore. At the 65-foot level above mentioned, the vein shows in its richest condition and is regarded as a most important strike.

It shows that total net profits for the year were \$1,129,000, as compared with \$484,500 in the previous year, or an increase of \$644,500. As this showing of net profits was made on the shipment of development ore it is a remarkable one. Earnings on the stock were equal to 37 per cent. on the issued capital of three million, or of course if now blocked out and untouched in the stores.

The showings that are being made by the Crown Reserve, which adjoins the Kerr Lake, are almost astounding. Within a year and a half Crown Reserve has advanced from 50c to over \$5, and its dividends have been gradually increased until it is now paying at the rate of 60 per cent. per annum and earning, probably, not less than 80 per cent. per annum.

The next big dividend payer in the Kerr Lake district will no doubt be Hargrave. It adjoins the Kerr Lake Mine on the east and is now working in very rich ore in the East Hargrave and will soon tap the bonanza ore values of the Kerr Lake's No. 3 vein at the 375-foot level. The main workings reached that depth about two weeks ago, and rapid progress is now being made toward the Kerr Lake vein at the 375-foot level.

Prof. Bernardo Attilio, Italian expert on emigration in the United States, had an interview with the minister and deputy minister of agriculture and the director of colonization yesterday. Prof. Attilio is making a tour of Canada, investigating the suitability of the country for settlement and especially with respect to fruit culture. The investigation is the outcome of the establishment of a direct steamship line between Naples and Montreal. A new boat has just been launched, the Torton, 9000 tons, which is expected to make its first trip in time to make the return trip for Christmas. There will be several vessels on the service.

Heron & Co. in their weekly letter say: Trading in Cobalt stocks during the week has been fairly heavy volume and well distributed. Prices have moved irregularly, but on the average values show improvement. In the best informed quarters it is concluded that the bull movement in the big market is at an end in a broad sense, for the time at least, and more attention will necessarily be paid to mining shares. Conditions are highly favorable to activity and strength during the coming months and commitments at this time, if made with discretion, cannot fail to result profitably. Many low priced issues are available now at "bargain" figures and good investment opportunities are numerous.

The above map shows the excellent location of the Waldman properties, these 192 acres being in a direct line with the Crown Reserve, Jacobs, Lawson and Foster to the west, and to the north the Coniagas, Buffalo and Nipissing. In fact the claims lie in a direct line with all the big shipping mines of the camp. The high value attached to the properties adjacent to the Waldman is clearly shown by the announcement that the M. J. O'Brien claim has definitely been taken over by Montreal financiers and mining experts at \$400,000.

On the main shaft of the Waldman property the most strenuous work is going on and during the past week a new vein of high-grade ore was blown out at the 55-foot level in the shaft. This ore was practically solid silver at the 10-foot level, the vein was a stringer of calcite. At the 50-foot level the vein widened to eight inches, and five feet lower into good pay ore. At the 65-foot level above mentioned, the vein shows in its richest condition and is regarded as a most important strike.

## TIMISKAMING LOOKS GOOD SAYS TORONTO BROKER

New Concentrator is Fast Nearing  
Completion—Other Proper-  
ties Inspected.

Mr. J. A. McIlwain of McIlwain & Co., mining brokers, has just returned from Cobalt, where he attended the annual meeting of the Timiskaming and Hudson Bay Mining Co.

Mr. McIlwain says that the old company has reduced the directorate from eleven to seven, and that the election of the officers of the new company, representing the \$3,500,000 capitalization, will take place next week, and the company will then take early steps to place the stock of the new company on the market.

When in the mining camp, Mr. McIlwain spent two hours at the Timiskaming mine inspecting the present workings. In conversation with The World, he stated that he found fourteen drills at work in various parts of the property between the 200 and 340 foot levels. It is Mr. McIlwain's opinion that there is ample room to put in some fourteen more.

He brought a sample of ore from vein No. 3 on the drift at the 200 foot level, where the vein is from four to five feet in width, with native silver the full width. This was not considered of sufficient importance to even test more drills working at once. As regards the new concentrator, this is about 117 feet by 80 feet, and is nearly completed. The machinery is already in. A thirty-stamp mill—it should have been fifty stamps—capable of turning out 100 to 125 tons of ore a day instead of from 200 to 300 tons—will be installed.

Mr. McIlwain is very bullish on Timiskaming stock and stated that in his opinion the next movement would carry the shares to two or three dollars.

In addition to looking over the Timiskaming, Mr. McIlwain visited the Beaver, Nova Scotia, Foster, Chambers-Ferland, Cobalt Lake, Hargrave, Red Jacket and York and O'Brien properties. He says that Beaver, Cobalt Lake, Silver Leaf and some others are nodding away and will do very well, and that the camp as a whole is booming as it never did before.

### PUSHING DEVELOPMENT

Aganics Working Both Day and Night Shifts—Drift and Cross-Cut at 200 Feet Level.

**COBALT, Oct. 1.**—(Special.)—The Aganico Mine, located on the shore of Lake Temiskaming, is now attracting considerable attention. Many persons have visited the property since the plant has been completed and is in full working operation. The management is prosecuting development work with all possible speed, working both day and night shifts.

The present shaft on the big small vein is being sunk to the 200 foot level. It has been newly timbered down 150 feet. Here a massive vein is exposed on the wall of the shaft fully 34 inches wide. A station will be cut at the 200 foot level and drifting continued on the vein at that depth. It is the intention to continue sinking the shaft and to cut stations at each additional 100 feet of depth to thoroughly develop this vein.

It is confidently believed it will run into good silver values as greater depth is reached and that it will be one of the biggest strikes ever made in this camp of famous strikes. The proven fact that all Cobalt veins containing nickel run to good silver values, and that seventy per cent of the ore production of the camp is from small veins, is sufficiently convincing that the massive small vein of the Aganico will yet be one of the bonanza veins of the district. For this reason the eyes of mining men and investors are centred on the Aganico, and big results are looked for within the next sixty days.

At the 200 foot level a cross cut will also be driven east about 200 feet to cut a vein, which on the surface has been traced almost a mile, the full length of the property. Another cross cut will be driven west to cut another vein nearly parallel with the big Cobalt vein.

The company now has a splendid equipment that compares favorably with the plants of the big producers.

The buildings erected have been substantially built with a view looking to permanency and the operation of the property on a large scale. The Nipissing Central spur track from Port Cobalt station to the shore of Lake Temiskaming will run right along the north line of their property and will place shipping facilities right at their door.

The management is pleased at the bright outlook and with the rapid progress now being made in underground development. Many who have visited the mine are emphatic in their declaration that the Aganico is going to duplicate the success of other rich Cobalt properties.

Work Progressing on Union Pacific Cobalt Company's Properties at Cobalt.

Several properties of the Union Pacific Cobalt Co. are being systematically developed this season. This company own about 1100 acres of claims, and hold a lease on Peterson Lake opposite the Little Nipissing on which a complete plant was recently installed and their shaft is down 100 feet, with day and night shifts working.

The company also have 160 acres adjoining the sensational find recently made by the No. 1 Cobalt Company, and have placed a force of men at work here, where they propose erecting another plant equipped with proper machinery and will systematically develop this location.

A. P. MacLaren is president of the Union Pacific Cobalt Co., but it is stated that Boston and Montreal mining interests have recently secured control and will invest a large sum, besides placing the stock on the principal markets.

**POWER FOR PORT ARTHUR**  
Hydro Electric Commission to Supply It for \$20 M.P.

One of the most troublesome knots in the province has been unraveled by the arrangement made by the hydro-electric power commission to supply cheap power to Port Arthur. F. H. Keefe, K.C., has had the matter in hand for some years, and the complications arising out of the power franchises on the Kamistiquia. All these matters have now been adjusted and the commission has contracted for 10,000 horsepower from the Kamistiquia Power Co. To secure this the storage dams at Dog Lake were arranged for some time ago. Fort William is 444 up to the power company for several years and therefore cannot deal at present with the hydro commission.

The terms arranged for Port Arthur are: For the first 2000 horsepower, \$17 per horsepower. Between 2000 and 4000, \$16 per horsepower. Over 4000, \$15 per horsepower.

In addition, the city must pay its share of a small transmission line, the stepping-down station and the operating expenses, on a basis of 4 per cent interest. This will bring the cost to about \$20 per horsepower for the minimum amount. As the consumption increases the cost will gradually fall, the city will take 500 horsepower to begin with, and the distributing plant is already installed.

**CHINESE S.S. SUPERINTENDENT**  
Won't Allow Individual Instruction and Trouble Enues

**PITTSBURG, Pa., Oct. 1.**—The placing of a full-blood Chinaman as superintendent of a Presbyterian Sunday school has disrupted the school.

Yee Tang, a Christianized Chinaman, succeeded Edwin Gray as superintendent, a position the latter had held for twenty-six years. Yee Tang created consternation by announcing that he would not permit the Chinese to be taught individually by young women, as had been the case for years. He grouped the Chinese in lots of six or eight, with elderly women or men teachers. The Chinese students then dropped out, there being only two in the Sunday school now, and many young women teachers, resenting the new ruling as a reflection on them, have left the church.

WHY leave your money at 3%? Why not make 50%? Follow our advice, you can't lose. Send us your orders.

**Beaver Consolidated**  
Last week we advertised that we considered Beaver one of the best purchases on the market. It has not made any movement, but when it does make a movement it will be too late to act. We are therefore advising you to purchase before the rise, and you will make money by following our advice. We carry this on 15c per share deposit, or for cash.

Company or to the Nipissing Mining Company. If you will look at the map you will see that it must be a very valuable property. By the actions of the stock we consider that Chambers-Ferland is ready for a quick upward movement, and that good profits will be made during the next sixty days by getting into this. We carry this on 15c per share deposit, or for cash.

other companies are being worked with good results. Peterson Lake has advanced in the last two days three cents per share—don't wait for it to advance ten cents more, but buy it now, for cash or by posting 15c per share.

They have a wonderfully rich property and have paid 37 per cent. in dividends this year. You can buy Right-of-Way stock to-day at about \$2 per share. This would be about 86c per share for the new stock. The new stock looks cheap to us at \$1.50 per share. Dividends of 2 per cent. quarterly will be paid on the new stock in addition to bonuses from time to time. They have acquired the properties lying immediately south and adjoining the Hargrave property and comprising ninety-two acres. A large gang of men will be put at work on Monday to develop this property. The management is of the highest, and the stock will go away up. This is as good as the Crown Reserve.

FRUIT MARKET. Receipts of fruit at the local wholesale market are getting easier now that the season is passing. All basket fruit is dwindling gradually, and trading is getting slackier day by day. Grapes are now the specialty, the apple crop being generally better than the bulk of shipments daily. The demand, however, continues good, and supplies are generally disposed of at steady prices. Peas and plums are getting scarcer. Yesterday's prices for baskets of the former were up, and very little of the latter appeared to be on the market. Receipts of cantaloupes are falling off. Other commodities were about steady. Potatoes are in good demand around 75c per bag, and many carloads are disposed of daily. Following prices were current: Apples, basket, \$3.15 to \$3.25. Beans, basket, 60c to 65c. Cauliflower, dozen, 1.00 to 1.25. Celery, dozen, 0.30 to 0.35. Corn, green, dozen, 0.60 to 0.65. Peas, basket, 60c to 65c. Plum, basket, 0.15 to 0.20. Potatoes, bag, 75c to 80c. Turnips, basket, 0.50 to 0.60. Tomatoes, basket, 0.10 to 0.15. Lemons, dozen, 2.00 to 2.25. Oranges, dozen, 2.25 to 2.50. Peppers, green, dozen, 0.25 to 0.30. Red, dozen, 0.20 to 0.25. Cranberries, per barrel, 9.00 to 10.00. Local grain dealers' quotations are as follows: Ontario, New cases, 25c to 26c, at points of shipment. HARRIMAN'S DAUGHTER TO MANAGE ARDEN FARM

Educated and Beautiful, This Young Woman Prefers to Manage Farm of 26,000 Acres.

Under an arrangement now being effected for the management of the E. H. Harriman estate, Miss Mary Harriman, the dead magnate's eldest unmarried child, will become the greatest woman farmer in the United States, if not in the world.

She has control of Arden Farm, consisting of twenty-six thousand acres, of which she has inherited several thousand acres.

Her father died in 1889, and she inherited the farm at that time. She has since spent her life in the study of agriculture, and has become an expert in the management of the farm.
