Some Intense Artillery and Infantry Engagements on Bainsizza Plateau.

ne, via London. Oct. 9. - The official statement was issued

"On the evening of Sunday, after an bombardment, the enemy reewed his attacks on our advanced po-tions on the Massif Costabella. He stopped by our garrison and shellour artillery and forced to with.

"Testerday, on the whole of the Bainsizza Plateau front there was artillery activity of rather considerable proportions. At some points there were local infantry engagements during which we captured about 1600 prisoners and five machine guns.

"On the Carso Plateau there have been violent artillery duels, reaching their greatest intensity frequently in the Castagnavizza region."

"My Four Years in Germany"

Mr. James W. Gerard's New Book, Specially Reviewed For Us by "Katharine Hale."

When the American Ambassador to Germany, Mr. James W. Gerard, made his first official appearance in Berlin in 1913, the officer assigned to introduce the people of the army to him happened to possess the extraordinary name of der Pfortzer von der Hoelle-which means the "porter of Hell." "I have often wondered," adds Mr. Gerard, "by what prophetic instinct he was sent to introduce me to the two years and a half of world war which I experienced in Berlin."

A drama more stupendous than that in which he became so vitally involved has never been played on the world's stage, and it is safe to say that "My Four Years in Germany" is the one clear-cut and comprehensive statement of conditions previous to the war and the climax which determined Germany to thrust a conflagration upon the world.

but this is a searchlight which finds out hidden places and illumines sources mysterious to most people.

The American Ambassador knows the value of those apparently unimportant personal incidents which surround diplomatic movements, and he makes use of them with delightful humor. Yet the story is never crowded with detail, and each word is significant. Heretofore it has been difficult for the Anglo-Saxon mind to comprehend the Teutonic. This book is written in a spirit so just that one feels on every page the influence of a cleer and seifless mind dealing truly and humanly with the great crisis. Mr. Gerard is nrged by a message of immediate import. His hand knocking on the door of the United States of America sounds an alarm from coast to coast, for this cool and friendly American diplomat offers a vital presentment of actuality. He arouses the heartment of united the conscience of every reader. He urges each one of us to think, more determinedly than ever, towards the salvation of our world. "As a man thinketh in his heart;" if ever a document bore out this ancient truth for nations as for individuals, it is this one. To win world peace the nations opposed to Germany must learn to think in a military way. Mr. Gerard tells America that her entrance into the war means nothing unless backed by military power. He reminds us that as yet the morale of the German Army is unbroken, that the Government has still at its disposal 9,000,000 effectives, who have no thought of defeat, that with regard to food supply the Entente Allies are in greater danger than the Central Empires, that there is as yet on financial stringency in Germany, and, finally, that there can be no peace until the free nations of the earth comprehend the gravity of the situation and acquire the power to exact justice by the exercise of "ruthless realism."

He leaves us with a vivid picture of the desolation of war—broken peasants, sta "It is because in the dark, cold northern plains of Germany there exists an autocracy, deceiving a great people, poisoning their minds and preaching the virtue and necessity of war; and until that autocracy is either wiped out or made powerth." erless, there can be no peace on earth On sale in the Book Department, \$2.00.

Dressing Gowns From Far Japan

HRYSANTHEMUMS, cherry blossoms, iris, wistaria—a veritable wealth of flowery loveliness has come across the Pacific to you on these gowns from the land of the Mikado. Embroidery in such beauty of color and stitchery is not often seen beyond the shores of Japan.

Our buyers went out to the Orient to make personal selection of the gowns. And behold a superb showing of kimonos, wadded dressing gowns, wadded sacques, and little wadded jackets for wear underneath the outdoor coat. The choice runs from utter simplicity to sumptuous elegance. The kimonos are all of the true Japanese variety, with box sleeves and sashes. The gowns and sacques are wadded in characteristic fashion, and finished with cord girdles. As for prices:

A kimono in Habutai silk-pale blue, Copenhagen, red, pink, navy blue and rose—is embroidered in roses or chrysanthemums, and priced \$7.50.

Also in Habutai silk-pink, blue and purple-is a kimono embroidered with chrysanthemums and butterflies. Price, \$10.00.

A satin kimono-rose or Copenhagen blue-embroidered in self-tone chrysanthemums, is \$13.00.

A kimono in Japanese crepe-pink, blue, rose and purple embroidered in pale mauve tiger lilies, is \$16.50.

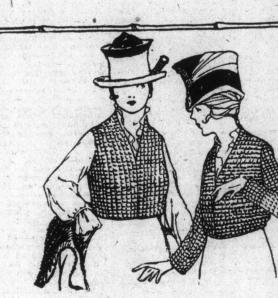

A padded gown in Habutai silk-red, navy, blue, Copenhagen, rose and black—the neck, sleeves and fronts edged with cord, is \$5.50.

A similar gown embroidered with cherry blossoms may be had in lavender, Copenhagen, red, navy blue, rose and black. Price, \$7.00.

A padded gown in satin, in pale blue, pink or lavender, charmingly embroidered in unique formal design of white and gold, is \$10.00.

Also in satin, navy and black, is another padded gown with conventional design, embroidered in yellow. Price, \$12.00.

Under the big motor coat, the street coat, even the coat of your suit, for that matter, you'll be wanting some sort of a little close-fitting extra wrap for extra chilly days. And here in the sketch above you see the very thing for the purpose-a vest in Habutai silk, wadded in Japanese fashion. Without sleeves, you may have it in rose, red. black or Copenhagen blue-priced \$1.50. And with sleeves-in black, red, navy blus or Copenhagen-priced \$1.98.

Again Submit Proposal to Mayor Without Changing Original Demands.

Late yesterday afternoon a deputation of the striking street cleaners, consisting of W. D. Kennedy and

stated by a member of the council that 150 men would have returned to work yesterday morning had it not been for the statement that the mayor had a proposition to put to them at a meeting in Victoria Hall which he felt would be acceptable.

The proposition which was made by the mayor was that they should re-

the mayor was that they should re-turn to work, and pending the finding of a board of conciliation he should have supervision over the department. This the men refused, and at a sub-sequent meeting of the board of con-trol and chairmen of the standing committees it was decided to take no further action.

The mayor explained that in tak ing over the supervision of the de-partment he would be acting under sections 214 and 215 of the Municipal Advertising Agency, Toronto and Montreal received a cable yesterday saying that his son. Flight Sub-Lieut. Men Stand Their Ground.

At the board of control the follow-ing letter was read from the chairman of the men's committee in regard to the council's resolution offering them a board of conciliation:
"I am in receipt of your letter dated Oct. 6. In reply I beg to state that at a meeting of the men, held in Victoria Hall today, it was unanimously decided to stand by the original reso lution, viz., that they refuse to return to work until Commissioner Wilson is

removed."

The men themselves remain as obdurate as they were last week. At the same time Mr. Kennedy informed The World that the scavengers realize they owe much to the generosity of the ratepayers, and that with this sense of obligation in mind the committee offered certain proposals to Mayor Church at Tuesday morning's committee meeting. A complete set of scenery was transferred from place to place by motor truck so that the company played under normal conditions as much as was possible on such small stages as the hospitals boasted. At the Base Hospital the amphitheatre was crowded to capacity, even the boys in the wheel chairs having difficulty in finding room. From there to the Spadina Military Hospital the company hurried, grease paint and all, and there repeated the performance to another interested crowd. At the Central Convalescent Hospital on College street the company were not able to Charles Mitchell, called upon Mayor street the company were not able to church, stating that the men were give a performance on account of the willing to accept slightly modified terms. WEDNESDAY MORNING, OCT. 10.

Mr. O'Connor Should Get His Fiat.

With a possible overlapping of authority in the several controlling departments presided over by Hon. W. J. Hanna, Mr. W. F. O'Connor, K.C., and others appointed to investigate or to control the distribution and sale of our food and other staples, there is the risk of the real culprits among the profiteers slipping thru the fingers of a well-meaning government and getting away with their impositions on the public. This must be guarded against, and any investigator or controller who shows a disposition to take the part of the public should be strongly supported.

We are coming to a point where strong action is necessary. The British authorities have not hesitated; and in the United States, with characteristic decision and directness, the necessary steps against freebooting have been put in force in the most drastic way. This is what is needed in Canada.

The arrogance of the corporations knows no bounds. They challenge the sovereign power of the people and usurp prerogatives which would not be permitted to the throne itself. The recent defiance of the sovereign authority, when Mr. O'Connor in his investigation of the Davies Co. was refused information by the manager, is a case in point. The principle may be as well fought on this issue as on any other, and Mr. O'Connor has done well to make the issue

He has been refused information by the corporation which he has a right to have. When there is so much talk about Prussianism and the junkers it is playing the part under democratic governments taken liberties of the world, and until Germany renounces Realm Act in England, or of the various by the junkers in autocratic Germany. They defy the people and subvert the popular power. In the the people and subvert the popular power. In the

We urge upon the attorney-general the necessity for speedy action in this matter, and the right of the people to have their affairs expedited under such crucial circumstances. We have no desire to do injustice to anyone, but there is greater danger of harm to the people from the concealment of facts which a public official believes to be necessary for the public weal than there can be danger to an honest business concern from a frank statement of the truth about its business.

The Point of Mutual Advantage.

Hon. Mr. Hanna is still intent upon maintaining the fiction that food prices cannot be controlled. He is not apparently frank enough to admit the fallacy

the fiction that food prices cannot be controlled. He is not apparently frank enough to admit the fallacy upon which the contention rests, and the "law of supply and demand" is worked to death to enable the profiteers to fleece the people. The fact is that we are having prices controlled in every direction. The corporations, trusts and combines control them for the worse in a skyward flight; the governments and their officials in some instances have seen the necessity of hauling down the soaring kites. Wheat has been fixed at \$2.21. The price of coal has been fixed. The plants to the other side of the time of the province of the province of ontario limiting the export of electrical energy from the Niagara power plants to the other side of the time of the province of ontario limiting the export of electrical energy from the Niagara power plants to the other side of the time of the province of ontario limiting the export of electrical energy from the Niagara power plants to the other side of the time of the province of ontario limiting that the export of electrical energy from the Niagara power plants to the other side of the time of the province of ontario limiting the export of electrical energy from the Niagara power plants to the other side of the time of the province of ontario limiting the export of electrical energy from the Niagara power plants to the other side of the time of the province of ontario limiting the export of electrical energy from the Niagara power plants to the other side of the time of the province of ontario limiting the export of electrical energy from the Niagara power plants to the other side of the time of the province of ontario limiting the export of electrical energy from the Niagara power plants to the other side of the time to the province of ontario limiting the power of the province of ontario limiting the export of electrical energy from the Niagara power plants to the other time to the power to pay the payer to pay the payer to pay the payer to pay the payer to pay the payer

for profits surpasses utterly the legitimate gain aris- taining. ing from economic methods of management and operation, and encroaches on the helpless consumer, who is stripped of all his surplus and left in a state of economic dependence which is ruinous to the state as well as to himself.

When Mr. Hanna says he cannot interfere with the law of supply and demand he ignores this fallacious factor of the corporation control, which is the first to a week ago, which reads as follows: interfere with the normal operations of supply and demand. There is such a thing as a legitimate profit; and it is in the denial of this that Mr. Hanna makes his gigantic blunder, because he thereby endorses the illegitimate profit which the corporations exact. It is no wonder that he is taunted with having this very object in view, and with acting for the

corporations rather than for the people. The fixing of prices would be at such a rate as would afford the producer a legitimate stimulus for his energies, and yet would not deprive the consumer

of the possibility of patronizing the producer. The corporation steps in, however, and declares that no producer can deal with a consumer. The producer must deal with the incorporated middleman and

with all his bogus workers, whose labor consists in HOW THE CIVILIANS HAVE drawing dividends. The result is that the producer gets imadequate payment from the middleman corporation, which turns round and sells its cheaply purchased goods at outrageous prices to the consumer.

Co-operative dealing is the only remedy, unless the government interferes and brings the corporations down to a reasonable basis of dealing both with producer and consumer. The government will not do this till the people show that they understand the sit- taken by hate on one side and que uation, and refuse to be fleeced or to support a government which is willing that they should be fleeced. There is a price that represents a mutual advantage to both producer and consumer, but the corporations the opposite has been true. Togethe have entirely lost sight of this fact,

The papermakers have been so rampantly outrageous that the United States has about decided not only to control prices, but to take over the whole plant involved in paper manufacture. The corporations are driving the governments of the world to state socialism faster than any agitator ever dared to dream.

There is a point in trade where it becomes worth while for the producer to strive for profit and the consumer to pay for value received. In days of honest commerce before the multiplication of the bogus middleman, the corporation shareholder with his watered stock, this point was readily arrived at by honest traders. Under corporation methods the greed for profits surpasses utterly the legitimate gain aris-

In view of the fact that Ontario has so far received considerably more coal—both hard and soft—than in any previous year, the statement of the despatch that "this country (the United States) is bound to see that its requirements are forthcoming before outsiders are allowed to obtain supplies from the States of a commodity that is limited," is an outrageous unbruth. That Washington and Ottawa are working together with the idea of a square deal all around is apparent from a circular sent out by Dr. Garfield, the American fuel administrator, a week ago, which reads as follows:

"Tentative plans have been absolutely fair and to constitutionally unable to see the war."

"Tentative plans have been formulated, after consultations with representatives of the Canadian Government, by which it is expected to maintain a flow of coal to Canada, in amounts sufficient for Canadian needs, and without interruption in the operation of the information called for, and in co-operation with the priority board, the anterstate commence commission, and the shipping board, it is hoped that the supply of coal available for the northwest, Canada and New England may be so conserved and shipment so made, as to meet not only the normal demands of all these sections, but the extra industrial demands ocasioned by the war."

UNION MINISTRY SEEMS IN SIGHT

(Continued from Page 1). other hand, the friends of Mr. Meighen claim that he has loyally supported the prime minister in the present ne

Many reports as to the matters in dispute between the prime minister and the western Liberals were evidently the merest guesswork. There is reason to believe that there was little or no haggling about. political ratronage. The one point the westerners stond out for was a solemn public pledge by the prime minister that the parliament to be elected should be dissolved as soon as the var was over. They do not agree with the Borden government upon the fiscal question, and they are unvilling to have the country tied up another five years to what they consider an unreasonably high protective tariff. They also insist upon certain sweeping reforms being made

in certain matters of administration. As to the party issue at stake, one of the negotiators said last night that the western Liberals would gain nothing by staying out of a union government. It would be an easy matter, he said, for the government, however constituted, to carry the west under the Wartime Elections Act. Personally he regarded the disfranchising of the aliens as most unfortunate, becaus he said, it would undo the work that had been done in the way of Canadian-izing the newly arrived immigrants. But as to its political effect, he had no doubt whatever. He did believe, nowever, that the low tariff sentiment in the west should be reflected by appointing a certain number of Liberals to the senate and by having the union government select a certain number of parliamentary candidates from the He said the western were willing to postpone the tariff question until after the war, but should the war be over in three or four months they would be unwilling to have the tariff question sidetracked for another five years. The westerners therefore insist upon a fair share of conscription Liberals being returned to the next parliament and also

to bring on another election as soon as the war is over. The parties to the negotiations for government are now waiting to hear from Hon. George H. Murray, premier of Nova Scotia. If he is ready to join the government the reconstructed cabinet may be announced almost immediately. The negotiations will be resumed tomorrow, and it is rumored that the western Liberals would like have Mr. Rowell included in the cabinet.

She is capable of undertaking very vigorous local offensives. But her resources are diminishing at the very moment when the military situation demands that they should increase. "On the other hand British and French armies have reached their full strength in men and material, and are capable, with the help of America, of maintaining the enormous strength which they gained, to the end of the war. World Series Fight Held Up by Rain at New York

DON-T BE SURPRISED IF GIANTS REVIVE

Zimmerman and Kauff May Deliver on the Home Lot Today.

By a Staff Reporter. New York, Oct. 9.-Fair and warme weather is promised for the third game of the world's series tomorrow. The it

of the world's series tomorrow. Tho it rained a drizzle all day, the umpires did not postpone the game til 12.30, and by that time 15.000 were in the rolo Grounds reading the war loan signs that have just been plastered over the fences like tins:

"Be a 300 Hitter and Buy a war Loan.

Make the Hit That will Break Up the Game and Help the War Loan."

"Help Knock the Kaiser Out of the Box, and Buy a War Loan."

Of course, the seats are all sold, the 20,000 rush being taken by the all-nighters and others in line all Sunday night. Many New Yorkers are sore on the Giants for not living up to reputation at Chicago, while loyal tans make themseives believe that Benny Kauff let a bail slide between his legs and lost the Saturday game, and that Schupp failed to field a Dail Dack to the plate in that bad innings on Sunday, that not only put himself up in the air, but tacked the jinx onto the whole McGraw outfit.

but tacked the jinx onto the whole McGraw outfit.

Benton and Cicotte were announced to pitch the third game, but no one knows who will work. It really looks like Schupp and Cicotte, for New York must win tomorrow or the series is practically over. The loyal fans point out that Sallee and Perritt are still at their best, both performing meritoriously at Chicago under difficulty. There was no Sox money, or very little, to be had at Chicago, and now many Gothamites are betting against their own club, so tonight it is 13 to 5 and 3 to 1 on the Sox for the title, and 6 to 5 against the Giants for the third game. No one need be surprised to see the Giants redeem thempelses on their own lot, win on Wednesday and Thursday. Two of them have gone hitless so far—Kauff and Zimmerman—who are both away above the .500 mark.

The games here are just moved back to Wednesday and Thursday. Friday's, at Chicago, is to be played on Saturday, and the sixth game, if necessary, will not be changed, but take place here next Monday.

BASEBALL PROFITS

New York, Sept. 29.—The Giants a strong team. Several well-k makers this year, not figuring their in their lot with the Caps, and a strong owners' shale of the world's series spoils. The Red Sox may break better than even financially and the Cicvelands and Dotroits will show a halance on the right side of the same place. An effort will be made to clare a dividend, and the Cincinnan Reds will declare a dividend, and the Cincinnan Reds will finish ahead of the game. The Yankees, with tremendous expenses, probably will break even while the Phillies ought to be profitable. But the owners of the Braves, Clubs, Pirates, Brooklyns, Browns, Athletics and Washingtons probably will sustain losses. The top-heavy pennant races and the unfavorable weather during the curly part of the game for at least half of the sixteen major for at least half of the sixteen owners' share of the world's series team should be rounded out. Hamilton Tigers have decided to enter the intermediate series of the O.R.F.U. This will make a compact group with two clubs in Toronto and a like number in Hamilton. The season will likely be opened on Oct. 20. The teams are: Parkdale and Capitals, Toronto and Technical School and Tigers of Hamil-

The easy victory, 52 to 0, of Guelph Collegiate over Galt Collegiate, in the opening game of the Interscholastic Rugby League, which forms a section of the O.R.F.U. junior series, indicates that the Royal City fourteen have a strong outfit this season, and have a splendid chance of again holding the Hamilton Cup.

Galt Collegiate plays at Brantford against the collegiate team of that town in the Interscholastic Rugby League next Saturday.

Woodstock College, Woodstock Collegiate and Stratford Collegiate have been grouped together in the O.R.F.U. junior series. The schedule will be arranged today (Wednesday), when the representatives will meet at Woodstock.

Austin Carroll, captain of the team, and Nunan, were the stars for Guelph Collegiate in their O.R.F.U. junior game with Galt Collegiate.

The Galt Collegiate team are possessed of a strong wing line, but their back livision is very weak.

Rugby is very popular in Guelph, and the players are very enthusiastic. Large crowds turn out for the games in the Interscholastic League. Sarnia Collegiate, last year's champions of section A of the junior series of the O.R.F.U., have been grouped with Petrolea. The first game will take place on Saturday at Petrolea.

The recent series between the Toronto The recent series between the Toronto club, as pennant winners of the league, and Indianapolis, title holders of the American Association, came in for a great deal of censure. The opinion of those present was unanimous that it was a great mistake to have allowed the games to be billed as exhibition ones, and it was suggested that in future rules of the league should be strictly adhered to, and such series administered so that the National Commission could control them. The result of the series and the apparent lack of management, as upholding the prestige of the International League, they felt was very poor.

RAIN STOPPED THIRD GAME CICOTTE VS. SALLEE TODAY

Delay is Figured as a Help to the Giants---Twirlers Who Worked First Game Will Likely Pitch Today.

New York, Oct. 9.—Heavy rain, which began shortly before noon, caused a postponement until tomorrow, of the third world's series game, scheduled for today between the Chicago White Sox and the New York Giants. Rain fell during the night and early morning, but there was every prospect that the game would be played, until the beginning of the heavy downpour which lasted all afternoon. The forecast for tomorrow is fair

were heavy before the groundkeeper and his helpers could spread the waterproof mats. Tonight there was every indication that the opening game here would be played under much the same surface conditions as prevailed last Saturday at hicago. Under the ruling of the National Com

Under the ruling of the National Commission, the teams must remain in this city until two legal games have been played. If the cluos are able to resume their struggle here tomorrow and the Giants win one or both contests, the combinations will return to Chicago for a single game there next Saturday, instead of Friday, as originally scheduled. If a sixth game is necessary to decide the series, the teams will leave Chicago Saturday night and take up the play again at the Polo Grounds the following hionday.

Will Help Giants. Will Help Glants.

Many close followers of basebail, and the Giants' adherents in particular, expressed the opinion that the delay of a lay or two would improve the chances of the National League represeitatives. It was figured that the White Sox, because of their double victory, had got the jump on the Giants and that a break in the schedule of games would afford the New York players a chance to steady down and show to better advantage. The New York fans are pulling hard for their favorites to win two straight on the home grounds. Many of them contend that if this does happen, the Nationals will go to the front and win the series.

will go to the front and win the series.

The postponement proved a severe disappointment to thousands of fans who had come from distant points to witness the battle. Almost every city and town thruout the New England and middle Atlantic states was represented by delegations, large and small. Many had arranged to be absent from their business for but one day, and there was an ish of telegrams and long distance telephone calls as soon as it was definitely known that the National Commission had decided to delay the opening game here until tomorrow.

There was quiet rejoicing among the hotel proprietors and theatre managements, however, for the postponement means an additional harvest of currency from the fans who were obliged to add another day to their stay in this city if they wished to see the contest.

Speculators Gain Again.

Rooms at all the hotels thruout the central belt of Manhattan Island were at a premium long before nightfall, and many fans tramped miles in the rain, bags in hand, before they were able to get accommodation. There was also a rush for theatre tickets and the box offices soon were sold out, leaving the visitors to the mercy of the ticket speculators, who quickly raised the price of their pasteboards, forcing the more economical of the fans to the more economical of t

their pasteboards, forcing the more economical of the fans to the moving picture places.

The postponement also furnished a new topic of discussion for all those directly and indirectly interested in the world's series. Weather reports were in great demand, and there were many allusions to the famous 1911 series between the New York Nationals and the Philadelphia Americans. Close followers of baseball and world's series play in general, recalled that during the contest of that year there was a lapse of a full six days between the third and fourth games. Heavy and continuous rain caused the commission to repeatedly call off the scheduled game until many fans, tired of delay, sold their tickets to the speculators for a fraction of their face value and returned to their home towns. Since that date the series has been played each year without a postponement or break, except where a Sunday intervened, until today. The consensus of opinion tonight was that Cicotte would pitch for Chicago tomorrow and that he would be opposed by Saliee for New York.

The Stopum.

Many players have asked me whether that there are hundreds of little refine-Many players have asked me whether the stopum should be added to the upto-date golfer's bag. I consider it an absolutely necessary club for the modern game, and it did not take me long to decide to add one to my own golfing outfit. The stopum has a peculiarly corrugated face, and the intention of the corrugations is to impart backspin to the ball, and at the present time, when balls are so fast, backspin is indispensable. Of course, I could impart backspin to my mashie and my niblick, but it is a much harder and more uncertain job. course, I could impart backspin to my mashie and my niblick, but it is a much harder and more uncertain job.

I think that everyone should own a stopum, but he should bear in mind its difficulties and limitations. I had one made for myself about a year or two ago. It was shaped like my niblick with a loft between that of my niblick and my mashie. It is undoubtedly the most difficult club of all to play accurately. I find it pretty hard to change directions with the new club, and I also discovered that I could get no backspin on shots under fifty yards, and that it was foolish to force the club for any greater length than 150 yards. Then, too, it should never be played in a bunker, for sand will get into the corrugations, and a clean impact is impossible.

I am particularly careful not to get this club in the palm of my hands, for the stroke is a very sensitive one, and should be felt thru the fingers. I really press down on the club with my fingers in order to make the feeling more pronounced.

I have a great many golden rules for the playing of this club, as befits its difficulting, and they will be given later on. Learn, first, to hit the ball right—after

Conducted by Society --- Mrs. Edmund Phillips

An international dance took place in the historic court house at Niagara-on-the-Lake on Monday evening, when the grand military ball in aid of the camp hospital achieved all the success which was hoped for by the energetic committee who organized the entertainment. The large hall was appropriately decorated with the flags of the allies, and the delicately shaded electric lights most becoming to the many beautiful gowns and different uniforms worn, and an orchestra played all the latest music responding to numerous encores. In, the interval supper was served in an adjoining room from a long table brilliant with room from a long table brilliant with salvia and marigolds, and before dancing was resumed the guests were delighted by the wonderful whistling of one of the Polish student soldiers, who is a graduate of Oxford, and who

DEAD LIE EVERYWHERE

Some Shell-Holes Filled With Bodies of Enemy Soldiers.

British front in France and Belgium, Monday, Oct. 8.—A prosperous farm-ing country before the war, the region east of Ypres is now a desolate waste of large and deep shell craters. It has been the scene of much bitter and sanguinary fighting, and the artillery

fire has done its work.

Few sectors of the western front have been laid waste as has this one. Farm buildings and villages have been swept away by the shells. But a few pieces of wall mark where buildings once stood. Grass and other green things have disappeared in the turning up of the earth by the innumerable exploding shells.

From Ypres out across the Westhock bridge and over the site of what

once was Zonnebeke, from which the Germans were pushed last Thursday, the scenes of demolition recall the days of the battle of the Somme. Live Stock Market

Coupied with yesterday's receipts, amounting in all to about 200 cattle, were about 1200 head of left-overs, and, altogether, these had a rather depressing effect on the market, causing a leaction in some grades of cattle; out, taken on the whole, the market, considering the quality of the stuff offered, held fairly well. There were instances in held-over its where 15c less was bid and taken than on Monday, one load especially of big, rawboned butchers selling off from 25c to 30c per cwt.

The easier feeling did not apply to the stockers and feeders, which held steady, as did the mikers, high-water mark being reached for the present at least.

One miker sold for \$165, as shown in the sales of a local house, and two others went at a good deal higher figure than this, even. All things considered, there was a pretty good clean-up.

Calves were steady and lambs showed a decline of 25c per cwt., while sheep held fairly steady.

Trade Topics.

The week opened with an improved tone in all lines in the retail trade, owing to the seasonable weather, and local wholesalers report a fair volume of business, with prices firm.

In dry goods stocks are heavy, with crders for future dating coming in British textiles are being received and the Canadian mills are making fair delivery. Orders for spring goods are fair delivery. Orders for spring goods are coming in freely. Prices have an upward tendency.

The grocery trade is only fair, with sugars unchanged. Cereals are in good demand. Canned goods are firmly held; and some lines scarce. In hardware there is a fair business, with activity in paints and oils. The building trade demands are quietly improved.

There is a strong turn in the ten market, with stocks of Chinas and agricultural circles.

The immediate outlook is encouraging, and there is general confidences in the future, consequent upon the prompt marketing of the crops.

Both country and city collections of the future consequent upon the prompt marketing of the crops.

MAY ENLARGE MILL

Ore reserves at the McIntyre mine at Porgupine, says The Canadian Mining Journal, are gradually increasing in spite of the fact that the millinger was firm at \$1.50 and McIntyre of the fact that the millinger was firm at \$1.50 and McIntyre or separately for the bast ten months and many adverse conditions have been contended with it is generally considered likely that the McIntyre management will soon ask the directors for the addition of another four hundred tons to the capacity up to approximately 1000 tons per day. The average grade of ore through the mill which will bring the capacity up to approximately 1000 tons per day. The average grade of ore through the mill select that all ore over \$2 per ton, which comes from development work, is being treated, the mill heads for the next few months are expected to run around \$10 per month, as no effort is being made to regulate the mill leads to the leads. A decision to increase the met earnings contractive to be over \$1.000,000 or about 20 per cent. On the issued capital of 3,600,000 shares.

As the recent selling movement in the stock was ostensibly because of the possibility of closing down the mill now that it has been decided to keep going there should be a sharp rally in the stock, aided by the covering of the admittedly large short interest.

LONDON STOCK MARKET.

London, Oct. 9.—The war news and chear money continue the chief factors on the stock exchange. The market today was generally firm, with a large business in Eritish funds, home rails and copper and Marconi shares the principal features. Rubber stocks were irregular, and foreign issues were inclined to dulness, but Cuban ports were firm and dearer. Money was in smaller supply owing to increased applications for the owing to increased applications for the new war bonds. Discount rates were steadier,

PORK AND LARD DROP IN CHICAGO

Possibilities of Control of Hog Prices Have Bearish Effect.

Chicago, Oct 9.—Possibilities of government action to curtail prices of corn and hogs in line with measures already taken to cheapen cottonseed oil and other food products had a bearish effect today on grain and provisions, especially pork and land. Corn closed unsettled, 1¼c to 1¾c net lower at \$1.18½ to \$1.18%, December, and \$1.14½. May. Oats finished ¼c to ¼c to %c off. Latest quotations on park, lard and ribs ranged from 12c to 17c down, as compared with 24 hours before.

Seaboard demand prevented any radical decline in oats. Announcements that the cottonseed oil market had been closed to the public led to considerable unloading of provisions, and in the absence of any free buying pork and lard books shornly

GOVERNMENT CROP REPORT. Following is a summary of weekly crop reports made by district representatives to the Ontario Department

of Agriculture:
Recent rains have helped to put
some of the dry, hard clay soil in con-

some of the dry, hard clay soil in condition for fall plowing, and this work has been pushed along as fast as honses and machinery can draw the plows. There is still a steady and strong demand for the use of government tractors for this purpose.

Fall wheat sowing is at an end, with a large area to its credit, but the putting in of more winter rye will still be risked if the weather permits.

Corn is being hurried into the silo. Much of it was caught by frost about the 10th and 16th of September, but the quality has been but little affected taken as a whole.

taken as a whole.

Potatoes are being dug later than usual this year. Some rot on heavy clay fields is complained of, but on loamy and sandy soils there has been and the crop

Evening Gowns for Young Women

The straight line, an adorable simplicity, and satin, seems to be the last word from the French coutouriers regarding what this season's evening gown for the young women will be.

Exclusive models, straight from New York designers, and displaying these charming features, are now in our Misses' Department. An inspection of these frocks will convince you of their exquisite and at the same time practical loveliness. The following descriptions allude to a few of the many delightful gowns:

One of these gowns is fashioned of sunset satin of exquisite beauty that just seems to drape itself about the girlish figure. The moderately narrow skirt is caught at the sides in graceful panniers of satin and silver lace. The softly crushed girdle is so broad as to become a bodice, which is finished with jumper effect and petal-like shoulder caps of embroidered net. And such French touch is given by the large midnight blue This gown may also be had in turquoise girdle. This gown may also be had in turquoise blue. Price 39.75

Misses' Satin Gown

It's just yards and yards of lustrous soft satin draped in a most bewitching manner in the favor-ite tunic effect over a skirt of rich gold lace. But it is the way it is done that gives this frock the entrancingly lovely effect it has. Distinctive features are the jumper with its long knotted sash that falls to the hem and loses itself in a bunch of tiny rosebuds. Also the tiny sleevelets of dull gold net. Colors bisque, Nile, pink. Price 45.00

A Charming Frock

The very essence of girlish charm lies in this extremely modish barrel-frock of satin lined with tulle. Designed in Empire effect, the lower part of the bodice is of lovely gold lace, while the draped in a most bewitching manner in the favor-fect is given by the gold lace that extends over one shoulder. The most interesting and youthfu feature of this interesting gown is the loose panel of tulle that falls from the back of the girdle. It is banded with gold lace and sewn with tiny French flowers. Colors pink, blue, bisque. Price.. 32.50

Of Daintiest Simplicity

Youthful simplicity finds expression in this lovely satin frock. The skirt is softly draped and eaught to an under-flounce of silk shadow lace of elaborate design. The dainty full bodice of Georgette over tulle is given the modish jumper effect by unique satin streamers falling from the shoulders, and finished with old gold and bead tassels. Colors bisque, pink, blue. Price 35.00
