RUSSIANS BREAK FOE FRONT IN DRIVE ON KIMPOLUNG ROAD

Czar's Men Smash German Positions on Two Mile Sector Across Pass Leading South From Bukovina to Transylvania.

Petrograd, Jan. 28, via London, 4.45 p.m.—(British Admiralty, per Wireless Press.)—Russian forces, after artillery preparation, assumed the offensive yesterday against the Austro-German fortified positions on both sides of the Kimpolung-Jacobent road, near the northwestern frontier of Moldavia, and after subterranean fighting, broke thru the Teuton lines along a front of nearly two miles, says the official statement issued today by the Russian war department. Prisoners and booty were taken by the Russians, the extent of which has not yet been ascertained. Southwest of Luga three successive German attacks were repulsed by the Russians.

The Russians had come down this road a considerable distance in an offensive to relieve the pressure on Rumania, but they found that the enemy had massed heavy artillery and large forces in this area, making progress slow. Operations then totally ceased owing to the coming of extremely cold weather.

The fighting southwest of Riga continues with sharp intensity, although local insignificance, and the Russians are maintaining their positions. Cold interludes.

Severe cold and heavy snows have been interfering with military operations all along the Rumanian front, says a Ruxter despatch from Jassy today.

"The enemy's efforts," says the correspondent, "have now directed chiefly in the region of Naves and the confluence of the Rivers Putna and Sereth, where an alternation of advances and retreats has been going on."

WAR SUMMARY THE DAY'S EVENTS REVIEWED

AFTER the recent spell of dullness news has suddenly become full of action from the British, French and Russian fronts. No fewer than three important, if partial, actions, fought on as many fronts, have given the allies gains more important than they look on paper, for they show the enemy that after due preparation the allies can advance where they choose. This fighting, of course, will be nothing compared to the fighting to come in a few weeks or months, for the allies have pretty nearly guns enough and shells enough to outfight the enemy everywhere, even on the Rumanian front. In that region the reorganization of the Rumanian Army is rapidly proceeding.

In a smart and sharp local action English troops in the west captured a commanding position near Le Transloy on Saturday morning, and they made 350 Germans prisoner. For several days before the actual suspension of the Somme campaign, the British had striven to secure the low ridge of heights and high ground before Le Transloy and thus to gain a

BRITISH ADVANCE AGAIN BEFORE KUT-EL-AMARA

Retake Positions Occupied By Turks—Find Many Dead in Recovered Trenches—Lose Few Men Themselves.

London, Jan. 29.—British troops last Friday resumed their offensive against the Turkish positions near Kut-el-Amara, on the Irak front, and recaptured trenches which the Ottoman troops had occupied on the previous day, says an official statement issued tonight by the British press bureau. Four hundred Turkish corpses were found in the positions. Two violent Turkish counter-attacks broke down under British fire. The text of the statement reads: "During Thursday night the enemy renewed attempts to recapture lost ground, but was repulsed with severe losses. Early Friday we resumed the offensive of the war. We assaulted and recaptured the trenches which the Turks had occupied by Thursday's counter-attack.

"On Friday afternoon the enemy launched two violent counter-attacks. Both were completely broken by our artillery and machine gun fire with the severest losses.

"In the trenches captured by one of our brigades, which suffered only 200 casualties, we found 400 Turkish corpses. We are now consolidating our gains."

PARLIAMENT TO VOTE HALF BILLION DOLLARS

By a Staff Reporter. Ottawa, Ont., Jan. 28.—Canada's war appropriation for the ensuing year, which will end on March 31, 1918, will be the immense sum of half a billion dollars. Sir Robert Borden has given notice of a resolution "which he will move in the house, probably at the end of this week, that this sum be granted for the necessities of the war. At the same time he will also move a resolution that the government be authorized to borrow the sum of one million dollars a day, but it is expected that this will be greatly exceeded next year, and for all purposes in connection with the war, the amount to be borrowed will be about one and a half million a day. Sir Thomas White has also given notice of a resolution regarding the borrowing bill. The sum is one hundred millions. The premier's resolution reads: "That it is expedient to provide that a sum not exceeding five hundred million dollars be granted to his majesty towards defraying any expenses that may be incurred by or under the authority of the governor-in-council during the year ending the 31st day of March, 1918, for: The defence and security of Canada; the conduct of naval or military operations in and beyond Canada; promoting the continuance of trade, industry and business communications, whether by means of insurance or indemnity against war risk or otherwise; the carrying out of any measures deemed necessary or advisable by the governor-in-council in consequence of the existence of a state of war; and payments made for the said purposes during the fiscal year ending the thirty-first day of March, 1917, in excess of the amounts authorized by the War Appropriation Act, 1916.

By Loan Or Otherwise "That the governor-in-council be empowered to raise by way of loan, temporary or otherwise, such sums of money as are required for the purpose of making any payment authorized by any act founded on these resolutions. "That the principal raised by way of loan under this act and the interest thereon shall be chargeable on the consolidated revenue funds."

White's Resolution Sir Thomas White's resolution reads: "That it is expedient to authorize the governor-in-council to raise by way of loan in addition to the sums now remaining unborrowed and negotiable of the loans authorized by parliament by any act heretofore passed, such sum or sums of money, not to exceed in the whole the sum of one hundred million dollars (\$100,000,000) as may be required for paying maturing loans and obligations of Canada, carrying on of public works authorized by parliament and meeting expenditures for general purposes authorized by parliament. It is anticipated that the sums necessary can be raised in Canada.

New Minister Has Substantial Majority Over Cannon After Hard Fight.

SAYS TRICKERY FAILED

Warning of "Conscription Within Two Weeks" Attributed to Liberals.

Quebec, Jan. 28.—After one of the fiercest political contests ever witnessed in a Dominion by-election, Hon. Albert Sevigny, the new minister of inland revenue in the Borden cabinet, was elected on Saturday in Dorchester County by a majority of 244 votes over his Liberal opponent, Lucien Cannon. Sevigny's majority in 1911 was 332. Mr. Sevigny was given a public demonstration in the different parishes of the county on his way to Quebec after the election. On his arrival at Quebec, he was met by a large number of the ordinary constituency fire of the

GALLANT ATTACK BY BRITISH OVER FIELDS OF SOLID ICE

Strong German Point on the Somme is Captured With Three Officers and 350 Men in Advance Following Terrific Drum Fire Which Tears Enemy Trenches to Pieces.

Fields of Solid Ice

The barbed wire before the German positions was cut as the by shears. Following the curtain of fire, the English troops went briskly out into Min's Land. The breath of the men looked like a smoke cloud as they went across the field of hummocky snow and shell craters filled with solid ice. The British troops had been cold, but fresh with the heat of battle, they moved forward like a machine and carried out the operations with precision and self-control. The Germans were trapped in their dugout. The English boys were over and around the position before the Germans could get up to bomb them or

Counter-Attack Was Weak

Meanwhile the German gunners had seen signals of distress and presently they became aware of the fact that the strong point had been captured. They came out of their dugouts and began firing at the captured position, but the visibility was bad owing to the whitish fog, and the German drum fire was not so intense as in former days on the Somme front. The British troops had taken possession of the deep underground rooms within the German position. In this way the officers, laughingly said they celebrated the German Emperor's birthday.

Official Statement

In a successful operation on the Somme front in the neighborhood of Le Transloy today, says the official communication issued from British headquarters tonight, a commanding portion of a German position was captured by British troops, more than 350 prisoners were taken in the operation. The statement follows: "A successful operation was carried out by our troops on the Somme front early this morning in the neighborhood of Le Transloy. All the objectives attacked were gained and a commanding portion of the enemy's position was captured. We have taken over 350 prisoners, including six officers. "Vigorous counter-attacks were made by the enemy during the day to regain the lost ground. These were all driven back by our fire with heavy losses. Our total casualties were very slight. "The enemy's positions were raided by us at daylight this morning northeast of Neuville-St. Vaast. Prisoners were secured and dugouts containing stores of food and ammunition were destroyed. We had no casualties. Bombs were also entered last night by one of our patrols northeast of Verneuil, and a number of casualties inflicted on the hostile garrison. "Defences Damaged. "We bombarded the enemy's positions today in the neighborhood of Somme (Somme front) and greatly damaged the defences northeast of Arras. Hostile working parties were dispersed by our fire and north of Hilluch a body of enemy infantry was caught by our artillery in the open and suffered many casualties. There was considerable artillery activity on both sides in the neighborhood of Armentieres and Ypres. "Hostile aircraft showed less enterprise yesterday. Much useful work was done by our aeroplanes and two enemy machines were destroyed. Another enemy machine was forced to land in damaged condition. One of our machines are missing. Of the enemy's machines destroyed since the 23rd, six fell on our side of the line."

FRENCH SMASH GERMAN LINE ON EASTERN BANK OF MEUSE

Ally Makes Successful Stroke Between Les Eparges and Colonne Trench—Enemy Leaves Many Dead and Much Booty on Field.

Special Cable to The Toronto World. Paris, Jan. 28.—French troops, advancing after careful artillery preparation, Saturday evening carried out one stroke German positions between Les Eparges and the Colonne trench on the right bank of the Meuse, north of Verdun, and they captured important booty, the French war office announced this afternoon.

It has been evident that important preparations for an advance in this region have been under preparation for many days, from the heavy artillery bombardment which has been proceeding from the heights of the Meuse. The French found numerous dead in the captured positions. Details of the operation are being withheld by the military authorities, probably because they have not completed it, for tonight's official report says that the usual cannonade occurred along the whole front, being particularly lively in the Verdun and Meuse regions. The French official statement reads: "On the left bank of the River Meuse there was grenade fighting in the vicinity of the eastern slope of Hill 304. "On the right bank of the river we effected a coup de main last evening between Les Eparges and the Colonne trench which was completely successful. We found numerous corpses in the enemy trenches and seized important booty. "In Lorraine there were artillery duels in the sector of the forest of Bezaune. "In the region of Meudunville a German plane was brought to earth by the fire of our anti-aircraft guns. "The official statement from headquarters tonight reads: "The usual cannonade occurred along the whole front, particularly lively in the region of Verdun and Alsace." Belgian communication: "Splendid artillery actions took place, especially in the direction of Ranscapelle, Dixmude and Het Sas. In the sector of Het Sas there was violent bomb fighting. "The official communication issued by the French war office last night, reads: "Quite spirited artillery actions have taken place on the left bank of the Meuse in the region of Hill 304 and Le Mort Homme and on the right bank in the sectors of Louvemont and Bois Caurettes. "In Lorraine our batteries destructively shelled the German organizations in the Parroy Forest. There is nothing to report on the rest of the front." Belgian communication: "There has been great artillery activity in the region of Dixmude during the night and today."

BRITISH CRUISER SUNK FEW OF CREW SAVED

Twelve Officers and One Hundred and Nine Men Survivors of Auxiliary Craft Lost off the Irish Coast.

London, Jan. 28.—The British auxiliary cruiser Laurentic, of 14,832 tons gross, has been sunk by a submarine, as a result of striking a mine, according to an official statement issued tonight by the British admiralty. Twelve officers and 109 men were saved. The Laurentic, before entering the British navy, service, was in the service of the Ocean Steam Navigation Co. of Liverpool. She was 550 feet long and was launched at Belfast in 1908. The admiralty statement adds that the vessel went down off the Irish coast last Thursday. The commander of the Laurentic, Captain Reginald Norton, is among the survivors. He was appointed about six months ago to the command of the steamer, which was commissioned for patrol service in November, 1914. In Canadian Service. Before being taken over by the British admiralty for auxiliary cruiser duty the Laurentic was in the Canadian service of the White Star-Dominion Line. The vessel was owned by the Ocean Steam Navigation Co. of Liverpool. In the first two years of the war the Laurentic was engaged in doing patrol duty in the far east, but several months ago returned to European waters. The launching of the Laurentic at Belfast in 1908 marked the entry of the White Star Line into the Canadian trade in conjunction with the Dominion Line. The vessel was said to be the first passenger steamer to be fitted with a combination of reciprocating engines with a low pressure turbine. At that time the Laurentic was the largest vessel in the Canadian trade. She was 555 feet long, with a beam of 67 feet 4 inches, in addition to accommodations for 150

DEAL SEVERE BLOW TO LIQUOR STORES

"Land Office Business" Is Stopped by License Commission at Montreal.

SUPPLYING TO ONTARIO

Many Refused Licenses to Carry on, and Only Two Are Renewed.

Montreal, Jan. 27.—The board of license commissioners this morning dealt a severe blow to the local stores which have been doing "a land office business" supplying liquor to Ontario. Eleven such firms were opposed by J. H. Roberts, of the Dominion Alliance, yesterday, and in their decision this morning the board cut off nine of them. Those granted licenses are L. G. George, and the Consumers' Export Co., C. H. Michie, D. Rothschild.

Those refused licenses are: E. T. Stoddard, Woods Ltd., H. Corby Ltd., A. H. Herbert, Montreal Export Co., E. R. Barnfield, H. L. Brown. The decision, however, does not mean that Ontario will be deprived of liquor. Other stores will supply the demand, and a number of those cut off do not secure licenses by buying out some of the present holders. A number of the firms losing their licenses came here from Ontario cities when the province went dry.

The commissioners found that some of the licensees had premises in office buildings, which were not considered as being the granting of grocers' licenses. One dealer was told he had no stock. He claimed he had and when the license came here from Ontario cities when the province went dry.

The license which were cancelled will not be cut off until the first of May. Woods Limited, who did business in Toronto for 50 years before going to Montreal, will carry on a retail business until May, and will then take out a wholesale license, as was their intention.

James Stewart Admits Shooting Inspector Jackson Near Windsor.

WAS HIDING IN BARN

Craving for Food and Drugs Drove Him Into the City.

Windsor, Ont., Jan. 27.—After a spectacular two-day man-hunt, James Stewart, safe blow and slayer of Immigration Inspector Jackson of Windsor, was captured on the outskirts of Windsor on Thursday, and captured this morning at the Essex House, Sandwich street. Since the murder the man had been hiding in a barn within a mile of the scene of the shooting. Hunger and a craving for drugs to which he is addicted drove him from his hiding place shortly before daylight.

He walked from this barn, the exact location of which has not yet been determined by the police, to Sandwich street, and on to the hotel. He met a number of people but was not recognized. After registering as "James Emmerson" he went to the dining room and afterwards to the bed room assigned to him. County Councillor Lew Smith of Leamington saw the man in the hotel and immediately recognized him. He informed Inspector Mort Wigle, who dispatched Detective William Reid and William Broderick and Constable Rose to the scene.

They entered his room and before Steward could reach for his revolver he was overpowered and handcuffed. He admitted the shooting, but said he did not intend to kill Inspector Jackson. The gun had a hair trigger and it went off unexpectedly. I guess I

WHY OFFER PEACE BELIEVING IN WAR

Major Rev. C. W. Gordon Delivers Stinging Sermon in Convocation Hall.

SOLDIERS KNOW GOD

Is Real Personality to Men Fighting in the Trenches.

Early victory for the allies depends upon fresh, vigorous and trained troops from Britain's dominions to reinforce existing lines and dislodge the Germanic forces, according to Major Rev. C. W. Gordon of Winnipeg, Internationally known as "Ralph Gordon," who delivered an impressive sermon yesterday morning in Convocation Hall.

The greater part of his address was an appeal for further sacrifice by Canada in money and materials. He said, it hurt to criticize, he called Canada to task for failure to appreciate the war in the spirit evidenced by England and Scotland.

Hundreds of people were attracted to the hall with the announcement that Major Gordon would deliver the sermon, and long before the services opened every seat in the immense auditorium was occupied. Many people arriving at the usual hour for service were turned away in disappointment.

Student officers of the college attended the services. Many people arriving at the usual hour for service were turned away in disappointment.

The speaker referred to the latest "Peace Without Victory" address by that executive before the United States Senate. He said that the man who offered his services as mediator had not yet realized that the allies were fighting for the cause of righteousness, not extension of territory or for any other material reason.

Germany, he said, was spurning because the man who offered peace still believed in swords.

The deepest thing among the armies today is blood, said Major Gordon, "and there's blood of the dearest thing to God is blood. The sword cuts, but the cross heals. The sword supports, but the cross supports. The sword is not for God. He is a real personality to the soldiers in the trenches. He is a real personality to the man who is fighting for the cause of righteousness, not extension of territory or for any other material reason.

MANY FORESTRY RECRUITS USELESS

Men Enrolled Because They Liked the Work, But Were Not Experienced.

FROM BOSTON TO JOHN

New Member of Battalion Makes Long Journey to Enlist.

A special order received in Toronto from the Ottawa recruiting agent declares that a considerable proportion of recruits enrolled for the forestry battalions had turned out to be "practically useless" owing to their inexperience in that class of work.

Recruiting officers are asked in future to only enroll men who are qualified for forestry work.

A proof that the C.E.F. in Canada is rapidly reaching a point where every member of it will be an "efficient" soldier is shown by the fact that since November last the total of troops in Toronto directed to be "useless" has been reduced from about 100 to 25.

It is said the "casualties" list still contains the names of two lieutenant-colonels and one major. Their units are shown to have been in the trenches for several months, but they are still drawing pay.

Nearly four hundred recruits offered for service at the Toronto Recruiting Depot last week, but these the good total of 135 were accepted. On Saturday 22 volunteers for the C.E.F. were examined. Fifteen of them were found to be "practically useless" and were discharged.

They were distributed as follows: 25th Battalion, seven; 25th Batt, three; artillery, two; and Special Service Company, Shillington Railwaymen, Army Dental Corps, each one.

From Boston to John 25th. The 25th Battalion Construction Battalion, which came all the way from Boston, Mass., to join the Canadian expeditionary forces. When asked why he came to this city to enlist instead of going to a nearer Canadian point, he said, "Oh, I heard so much about Toronto in Boston." His name is Joseph Woods. He is a very bright-looking fellow and keeps on saying that he will be in the line in the coming day.

A recruiting depot is being opened today in West Toronto by the 25th Battalion. It is the first of its kind in the city. The depot is located at the corner of Dundas street and St. George street. It is a large, well-lighted building and is equipped with all the necessary facilities for the enlistment of recruits.

ONLY TWO ANSWER APPEALS FOR NAVY

Men Apathetic at Recruiting Meeting in Loew's Theatre.

WHAT ARE YOU DOING?

Hartley Dewart, K.C., Puts Question Up to Large Audience.

Despite the earnest appeals of Hartley H. Dewart, K.C., and Capt. Ward Wright at Loew's Theatre last evening for recruits for the R.N.C.V.R., only two responded, and their appearance on the platform was greeted with ringing cheers.

The chair was taken by Mr. Justice Masten, who, in his introductory remarks, said that following the wonderful response of Toronto citizens to the Red Cross and patriotic fund last week, the whole of the people of Toronto must be heart and soul for this war, and many a man who might have good reasons for not going in the trenches might yet go in the navy.

"The British navy is the oldest and most distinguished branch of the service," he said.

COL. P. A. GUTHRIE CALLS FOR ACTION

People of Canada, He Declares, Favorable to Conscription.

AT MACLEAN LUNCHEON

Tells Audience Quebec Would Welcome Compulsory Service.

At the luncheon of the Maclean Club, Saturday afternoon, at the St. Charles Hotel, Col. P. A. Guthrie, O.C., made a stirring address to the large audience and was cheered when he advocated that the Militia Act be enforced.

Force the Parties. "In the meantime it is the work of the act, but I do not believe we shall do so until an organized campaign has been made from coast to coast to force the hands of the two parties. It has been suggested that the Dominion is opposed to it. Of course that one part is Quebec, but speaking as one who has been there I believe that something along these lines of conscription would be welcomed."

Two Great Nations. Col. Malone said that there were in the British Empire today two young nations who are extremely sensitive and who do not want to be known as colonies but as nations. "They are Canada and Australia," he said. "Between them they are holding one-eighth of the whole globe, and they are anxious to be regarded as men and not as boys, and they are the only two that are not getting their full share of the world's resources. We are astounded by the paralytic at Ottawa, but it is no greater in Ottawa than it is here in Toronto."

He maintained that the volunteer system was not British. "It is not democratic, but the opposite. Let me tell you that there is nothing so encouraging to the spirit of the citizen as to know that there are some at home who are thinking of the soldiers and are trying to help them," he said. The chair was taken by W. A. Maclean, and addresses were also given by Duncan Cowan, Rev. J. Russell Maclean, J. M. Godfrey, K.C., and Lieut. W. B. Livett.

ASSAULTS PLAN TO HOUSE WOUNDED MEN IN JAILS

Mayor Urges City to Ask Government-Constructed Hospital in Toronto.

Mayor Church denounced the housing of sick and disabled soldiers in jails and asylums Saturday morning. He thought the city should urge upon the government the necessity of having military hospitals for this military district located in Toronto. Plenty of accommodation could be found here, he said, without going into old buildings and fire traps. On account of the convenience to the relatives of the patients the Base Hospital, he contended, should be left in Toronto, as well as on account of its accessibility to the splendid city hospitals which would be available for medical and surgical purposes.

PHONE OPERATORS HOLD BAZAAR TO RAISE FUND

The girls of the Bell Telephone held a bazaar and tea at the Bell Telephone Exchange, Saturday afternoon, in aid of the interests of the Patriotic and Red Cross Funds. As usual with anything undertaken by these active workers, the affair proved among the interesting events of the week.

The hall was prettily decorated and the various booths were filled with a display of fancy and useful articles, candies and flowers.

Mr. Pitts, president of the Toronto Telephone Exchange, presided at the opening and in a short address wished the undertaking every success. K. J. Dunstan, president of the Toronto Telephone Exchange, spoke, pointing out to the many ways in which the young women and the employees of the Bell Telephone generally had helped the nation, their last effort being their donation of \$300 to the patriotic and Red Cross campaign.

WINTER BATHING AT ATLANTIC CITY

Famous Resort Having One of Busiest Seasons in Years.

HOTELS NOW OPEN

Every Attraction Offered Those Who Seek Relief From Winter Weather.

Preparations for the busy winter season and the rush of the assured big spring season are going on apace in Atlantic City. All of the prominent big hotels and most of the less pretentious houses on side avenues have been open all winter; now others are opening in anticipation of the Lenten demand for seashore quarters.

Atlantic City hotels, long famous for their superiority as summer homes, have of late years made even greater strides toward popularity in the winter and spring. From end to end of the boardwalk and stretching along beautiful paved avenues, are houses large and small, each the acme of comfort in its class. Great individual heating systems assure against the least discomfort, even in chilly weather, while splendid sun parlors and solariums are supplemented by scores of open air decks commanding beautiful and unobstructed views of the ocean and the boardwalk.

Bathing is not neglected even in winter time in Atlantic City. Along the boardwalk are big indoor pools kept at equable temperature and filled continually with sea water. Among the greatest winter seasons in its history of success. Thousands from New York, New England and Canada come to the shore to escape the rigors of northern climate and to rest up after strenuous business or social duties.

Almost Total Collapse Of the Nervous System

Could Not Lift Cup of Tea to Lips—Rest or Sleep Was Impossible—Attributes Cure to Dr. Chase's Nerve Food

Kingston, Ont., Jan. 27, 1917.—I have to report today an extreme case of nervous exhaustion. This is not the day of miracles, and no miracles are claimed for Dr. Chase's Nerve Food, but so many times has it been used with such a miracle the way his worn-out nerves have been fed back to health and strength.

W. E. Moore, No. 4 Lower Quebec St., Kingston, writes: "About five years ago I was suffering from nervous trouble, pains in my back and general run-down condition, and was next door to dying a couple of times. It seems as if I had a cup of tea to my lips. Some times I would never close my eyes during the whole night, and I did get to sleep but would wake with a jump. Through seeing the effect of Dr. Chase's Nerve Food on a friend of mine I was induced to try it. After taking a treatment I found a great improvement; could sleep well and

am enjoying good health at present. At times I am not feeling up to the mark I use some Nerve Food. I wish to recommend the use of Dr. Chase's Nerve Food to persons who suffer from nervousness, sleeplessness and run-down condition."

This is nature's way of effecting cure, and this is why Dr. Chase's Nerve Food has made such a reputation for itself as a cure for diseases of the nerves. It is gentle in action, but wonderfully potent in restoring to the run-down system the vigor and energy which make life worth living. Nervous headaches, indigestion, sleeplessness, irritability soon leave once the nervous energy is restored by the use of Dr. Chase's Nerve Food, and the benefits obtained are lasting. 50 cents a box, a full treatment of 6 boxes for \$2.50, at all dealers, or Edman, Bates & Co., Limited, Toronto. Do not be talked into accepting a substitute. Imitations disappoint.

The Toronto World

FOUNDED 1886. A morning newspaper published every day in the year by The Toronto News Company of Toronto, Limited, 21, J. Maclean, Managing Director.

MONDAY MORNING, JAN. 29.

A War Government Needed. Canada, along with the British Empire and her allies, is engaged in the greatest struggle ever known to history.

In such a supreme situation it is absolutely necessary that the government of Canada should be efficient and effective up to the highest possible point.

We have been carrying on this stupendous war, this struggle for our very existence, for over two years; and at the same time our public men have been carrying on their political work, involving all the things above set out, as more than a distraction; and as a consequence their entire and best energies are bent on politics as well as on war.

The two parties, while they have cried a truce, have been marching and counter-marching, organizing for an election, making moves in parliament for exposures and counter-exposures to be used in elections; some of our newspapers are hot-beds of faction of the lowest kind; meetings more or less secret are being held all over with party advantage in view; the two parties have lined up in parliament with politics more than war in their eye.

Both parties are sparing over consideration; both parties are watching the labor vote; both parties would outvote the soldier vote; both parties created a soldier franchise and assisted in passing legislation for "recording the soldiers' vote abroad in a war election; both parties would play on the question of nationalizing our railways as they saw party advantage in it.

The government and supporters are full of politics at this moment; so the leaders and followers of the opposition. And all this factional disquiet and prospective discord is growing day by day.

If we are not neglecting we are more or less side-stepping great issues like enlistment and possible conscription; we are afraid to intern men who should be interned; we have fed disloyal communities with munitions contracts to keep them quiet; the more they get the hungrier they become; a long procession of politicians and individuals have swooped down on Ottawa for war contracts in order, so they said, that constituencies could be kept or made friendly; thousands of requests for military preference have been based on political consideration; discontent under this head has found its way into the English newspapers. All these things have more largely in the political consciousness of Canada than the crucial vital question of winning the war.

Ottawa politicians appear to think, judging from their actions, that the democracy of Canada desires no such self-abnegation on the part of the political parties or of the political leaders. We believe from the temper of the people of Canada, west, centre, and east, that there is nothing they would so cordially respond to as the summons of a Canadian Lloyd George to abandon the hesitating, shuffling, inefficient war policy of the government and, calling together the wisest and

most unselfish of all the men in politics or in public political life, to form a government which would drive the military program of the government forward as it requires to be driven, in a war in which all we have and all we are is at stake.

In the whole situation nothing is so disheartening and discouraging as the fact that all proposals for reform or suggestions for improvements are regarded by the politicians as attacks on their own preserves, perfectly unwarrantable as they seem to think, as leveled against an unimpeachable and flawless administration. This blindness to the possibilities of improvement, with its consequent doubt of the good faith of critics, and suspicion of all who do not bring flattery and approval, is the most fatal weakness in all political organizations, but in a war government it is deadly indeed, and its lethal influence is evident in the stagnation of Canadian military preparations.

Canada is not without thinking men and women, and these are making the needs of the situation known, and impressing it on the minds of the less thoughtful. A public opinion is growing, however slowly, and if action in the desired direction be not taken speedily, election or no election, the new spirit will find a way to give Canada as active and effective a war administration as the obligations of the country require.

Thrift After Charity

Now that the people of Toronto and the surrounding district have done so nobly by the Patriotic and Red Cross Funds, an opportunity is afforded them to assist the cause of the nation and the empire in supporting the war and at the same time doing themselves a good turn.

UNION STATION FATALITIES.

Editor World: Re accident at Union Station. The justice of the British Empire and the apparent injustice to the workingmen in some parts of it, we have now three men in jail who were performing their duties right and honestly, namely, Engineer Ross, Fireman Turner and Signman Hickey.

Those who find work abundant and remunerative at present should take thought of the time to come when other conditions may supervene. The habit of thrift, the possession of these war certificates, the confidence which comes of a certain amount of financial independence, all add to the public and national mind and make for the prosperity of the country.

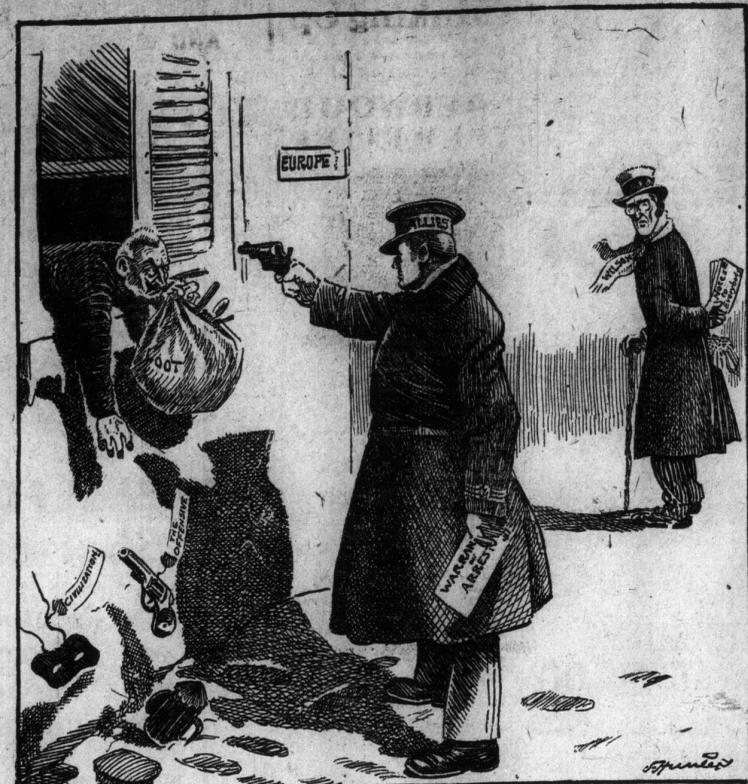

Generosity by Agency

One of the interesting facts of the war has been the lavish generosity of Great Britain and France to tortured and desolated Belgium. The nine millions of the Belgian nation have suffered every horror that a barbarian enemy could inflict. Unable to assist Belgium directly, France and Britain welcomed the assistance of the neutral United States in distributing their bounty and for more than two years it has flowed unceasingly.

FARMERS' WASTE PAPER.

Editor World: For some time I have been wondering if it would be possible when spring opens up for someone in the city to send out motor trucks to the country to gather the waste paper. If the daily papers would ask the farmers to save it all up till spring they would be able to get tons of it, as nearly every farmer takes two or three papers. We have been saving ours for some time. Honoring this suggestion may help out a little.

MISJUDGING THE SITUATION

ELDERLY GENTLEMAN (quite deaf and rather short-sighted): Tut, Tut! Let there be no violence. Shake hands, and let us have PEACE.

CO-OPERATION AND COAL.

Editor World: Being a reader of The World, I notice that, something new for a newspaper, you are advocating co-operation. Being a disciple of Owens, I am interested to the extent of wishing you luck, Peg away. Start something. You have a hard row to hoe. First you will need a new government. Being a native of Lancashire, where co-operative stores were first made successful, when a boy in the early 80's my people were in business, and when a co-operative store opened up close to, father soon felt the effect of its competition, gave up and bought shares in it.

WOMEN'S SUFFRAGE CAMPAIGN.

To Editor World: With your kind permission, I should like to make a statement regarding the woman suffrage movement as I find it in Ontario. Coming as I have from British Columbia, where we have so recently conducted a very successful campaign for woman suffrage, and having acted in the capacity of secretary for the W. S. Referendum Association, I feel keenly interested in the campaign being carried on here.

COLLECTIVISM.

Editor World: Collectivism boasts of a greater number of adherents today than ever it did before. The war has brought to light its hidden merits, and what hidden merits it has emerged pure as gold. It is not Britain, in order to win this war, been forced to adopt this method?

It is clear, therefore, that what is needed among the newspapers is a national and sane journal that will fearlessly proclaim this altruism. Your paper, fortunately, is to hand, and I am sure that you are doing admirable work. I trust that it may be sustained to continue.

The cost of the war would come out of the national profits, and so reduce the income of every one equally. Everyone would thus bear an equal share of the cost of the war. Would not this be better than the chaos in which we are living today. Here we are, asking men to die for us for less than they are getting for their military work, and are doling out such miserable pittances to their dependents that they have to be supplemented by the aid of their friends and neighbors. Our newspapers contain whole page advertisements asking for a square deal for our fighters. Mean-

WARRIOR! ALEXANDER!

time, how much are these advertisements costing? And how much is being spent in collecting and administering this fund? Why this waste? Simply because the government will not do its duty.

WARRIOR! ALEXANDER!

These advertisements tell us in large, bold type that the soldiers' wives and mothers are living from hand to mouth, and that their children are insufficiently clothed. If this is true, it is a public scandal. If such a scandalous ill-treatment exists today, what will it be at the end of the war? All cadging appeals to spasmodic charity ought to be completely wiped out of our national records. We must give the lives while their mothers, wives and children are offered—the shameful alternative of charity or starvation. It will not do. It would be a shameful thing if the wealthiest empire that the world has ever seen, called upon her sons to risk their lives for her, while she begrudged a share of the wealth to the women and children who are dependent on the men who have to fight. These men are prepared to give their lives. All they ask is that out of the abundance of the wealth of this country, their dependents shall not be chased to keep them from want and charity.

Merton P. O. Fair Play.

In British Columbia, both the citizen and the soldier voted strongly in favor of the woman suffrage referendum. The soldier evidently realized that in this time of preparation it was necessary for his wife, mother, daughter or sister to have a voice in the affairs of the nation.

Since coming to Toronto, I have heard a rumor to the effect that the Canadian will have to take her share of the responsibility of the reconstruction of our nation is evident to all, and it stands to reason that she must be trained with power possible intelligently do her duty as a true citizen. Thanking you for this valuable space, I am,

Anna M. McIntyre.

CANADIAN FILMS HERE NEXT MONTH

Toronto Will Soon Have Opportunity of Seeing Our Men in Action.

SUCCESS IN LONDON

Pictures Were Shown There and Acclaimed as Most Vivid Yet Taken.

The recent cabled announcements that the Canadian Courcelle films have been released in England followed now by the announcement of their release in Canada. The films will be presented early next month simultaneously in Toronto, Montreal and Ottawa and later throughout the Dominion by Messrs. Jule and J. J. Allen of the Famous Players Film Service, Limited, the Mona or Film Company and other well known theatrical enterprises under the auspices of the leading newspapers of the country from coast to coast.

Better Than Somme Pictures. The new Canadian film is said to be a greater piece of war photography than the Somme picture taken in July. Its exposures were made in September last by Lieut. G. H. Mains, the same fearless operator of the topical committee's staff who made the Somme pictures, and who works greater risk than those of the soldiers themselves. The film deals principally with the action at Courcelle, Sept. 16th last, when the Canadians made their victorious advance in conjunction with the first appearance of the now celebrated "battleships on land," which the soldiers have dubbed "the tanks."

A Canadian Associated Press cable, referring to these pictures as the most vivid war pictures yet secured, reads: "The Canadian war memorials fund stands to benefit appreciably through the sale of the latest moving pictures of Canadian soldiers at the front, taken for Sir Max Aitken's staff. These will be shown in Canada almost immediately, and are claimed to be the first movies of Canadians actually taken in France.

"They comprise depictions of almost all the most vivid phases of what the men of the Empire leaf achieve and endure. Canadians are seen fixing bayonets, nonchalantly 'chewing' manhandle or taking last puffs at cigarettes, then scrambling up ramps, and over the top and racing at the German lines. Big guns belch their terrible missiles in the Somme direction, and crawling over rock, stone, ditch and shell fissures, seemingly with the ease of a lawn mower over a tennis court.

"Some pictures are almost poignant to realism, notably the burial of a Canadian officer, and Germans lying still just where they were covered by a rain of explosive."

A METHOD FOR RECRUITING.

Editor World: Last June you very kindly published a letter from the writer with some suggestions regarding methods of recruiting. At that time a number of military men and other expressed hearty approval of the methods proposed.

I call up immediately for training all men of military age and Canadian citizenship. This can be done under the Militia Act. Call them up in three batches for one month each. The healthful life in the tented field, the initiation to the mysteries of drill, the formation of new comradeships and the whole influence of life in a military camp would prepare for the second step.

HOTEL ASSESSMENT IS AGAIN REDUCED

But Board Declines It and Other Hotels Liable for Business Tax. According to the decision of the Ontario Railway Board, the King Edward and other hotels of Toronto that appealed against business assessment for the year 1917 are not exempt. The appeal of the King Edward in this case was dismissed, but the assessment reduction on the building, made by the court of revision, was confirmed. The court of revision reduced the assessment from \$1,000,000 to \$800,000, and the county judge increased this to \$600,000 again.

PLAYS, PICTURES AND MUSIC

"FLORA BELLA." "Flora Bella" with its wonderful wealth of music, which opens a week's engagement at the Alexandra, beginning tonight, is the one musical comedy that had a run to capacity business at the Casino Theatre, New York, for five solid months.

"INTOLERANCE." For the different backgrounds and reproductions of historic places, such as Babylon, Jerusalem, Paris and a modern city with its complex environment, D. W. Griffith, in his new epic spectacle, "Intolerance," now playing at the Grand Opera House, used one million feet of lumber, five miles of steel girders, thousands of cement and 124 tons of steel.

"HIS HEART'S DESIRE." Fiske O'Hara opens an engagement at the Grand Opera House on Monday night, Feb. 5, for one week, in his latest success, "His Heart's Desire."

Juarez Race Track Closed for Season

After Forty-Five Days of Racing and Losing Tens of Thousands of Dollars.

El Paso, Tex., Jan. 28.—After forty-five days of racing, and fighting against great odds, the Juarez race track has been closed for the season. The track, which was opened on Dec. 14, has lost tens of thousands of dollars during its brief existence.

The track was opened on Dec. 14, and has since then been a scene of constant losses. The owners, who had invested a large sum of money in the track, have been unable to recoup their losses.

PLAY CUP TIE IN SNOW AT NEW YORK

Bethlehem Steel Won Third Round Game in American F. A. Competition.

Special to The Toronto World.

New York, Jan. 28.—The visit of the famous Bethlehem steel holders to the American Cup and National Challenge Cup, here to tackle New York in the third round of the American Football Association Cup competition, proved a splendid attraction, 3000 people turning out at Harlem Oval. Despite the heavy fall of snow last night, an enthusiastic band of New Yorkers got together this morning and cleared the ground, which made play possible. The game, which was of the regular cup tie order, was a hummer throughout the entire ninety minutes. New York opened with a great rush and had matters all their own way for some time. A three-point lead was made by Dun-
ton kick against Van Dowege just under the crossbar. Van Dowege just under the crossbar. Van Dowege just under the crossbar. Van Dowege just under the crossbar.

New York (1)—Porter, goal; Garzido, right back; Williams, left back; Bob-

Failed to Finish This League Game

Billy Evans tells this interesting story of a game that never was officially finished in the records:
The game was played between the St. Louis Browns and the New York Yankees at St. Louis on Jan. 27. The game was a high-scoring affair, with the Browns leading 10-0 at the end of the first inning. The Yankees, however, were unable to finish the game due to a snowstorm that hit the city during the second inning.

GREAT RECRUITING

THE 257th Railway Construction Battalion is surprising everyone. Active recruiting began Jan. 11. On Jan. 24 the 257th had 454 men. If the battalion keeps up this pace it will have half its men by February 1—in three weeks of recruiting. It is a live, popular, get there battalion.

257th has two or three special attractions. It goes straight to France. No delay in Canada. No delay in England. No break up into Drafts. The physical test is easier. Friends joining will stay together.

Are you in on this?
Get in while the getting's good.

WALTER JOHNSON'S CONTRACT EXPIRED

Washington, D.C., Jan. 27.—Manager Clark Griffith is expected to have trouble getting Walter Johnson, his star pitcher, to sign a new contract. Johnson's contract, which expired last night, was for \$12,500 in salary and a bonus of \$25,000. Griffith has offered Johnson a new contract for \$15,000 in salary and a bonus of \$30,000. Johnson, however, has refused to sign the new contract.

TEN YEARS AGO FOUND STARS IN THE MINORS

Were there many of the prominent pastimes in the minor leagues ten years ago? These show that in the Eastern League Dick Rudolph was pitching for Toronto. Oscar Stargace was catching for Newark, and Bill Carrigan was catching for Toronto.

Joe Alexander Fohl, now the Indians' catcher, was in the American Association, catching for Columbus.

Out on the Pacific Slope, George Hildebrand, one of E. B. Johnson's un-
lucky pastimes with San Francisco; Bobby Groom was pitching for Portland; Gavy Cravath was saving out hours for Los Angeles and Charles E. VanLan-
gan was recording these homers, while Rolfe Zedler, the Boston King, was a team-
mate at Prisco of Hildebrand, after put-
ting in the front part of the year at
Winnipeg with Fred Lindner.

In the no-longer-existent Tri-State League Harry Salter, who recently had
been playing for the Philadelphia Phil-
ladelphia, was playing for the Philadel-
phia Phillies. The next was Act

WHOLESALE FRUIT MARKET ACTIVE

Receipts Continue Fairly Large, While Business Generally Keeps Brisk.
VEGETABLES ARRIVING
Several Car-Lots on the Market and Demand for Staples Good.

Receipts were fairly heavy and trade active on the wholesale fruit market at the North Toronto market Saturday, and a greater crowd than usual in this season of the year at the St. Lawrence market, especially in the basket section.

New-laid eggs firmed slightly, and the price did not reach the high of a week ago, it did not get nearly so low, ranging from 75c per dozen for small quail, down to 50c for the bulk selling at 50c to 70c per dozen.

Butter was an extremely low sale, selling the way from 40c to 50c per lb., the bulk selling at 45c per lb. Fowl was brought in quite heavily and there was a fair demand for the same. There were a few heavy and druggery. There were a few heavy and druggery.

WHEAT MARKET SAGGED ON FURTHER SELLING

Lack of Export Demand Bearish Factor—Longs' Confidence Shaken.
Special Cable to The Toronto World.
Chicago, Jan. 27.—Selling of wheat continued this morning, and further losses occurred. Pronounced weakness was noted at Winnipeg. Confidence in the long side seemed to have been shaken by the revision upward of last year's yield in Canada, and difficulties in moving grain to market, as well as nervousness over the political situation. Absence of export demand also was a bearish factor. Private cables from Liverpool reported the tone easier, with selling at \$1.17 3/4, July at the outset was quoted at \$1.50 7/8 to \$1.50, compared with \$1.51 1/2 to the close yesterday, and dropped to \$1.47, against \$1.33 yesterday's last price. The receipts at Minneapolis and Duluth today were 274 cars, against 264 cars last year; at Winnipeg 287 cars, compared with 67 cars; at Chicago 20 cars, contrasted with 189 cars.

Chicago, Jan. 28.—The movement of grain from the farms and country elevators last week was fair. Severe weather prevailed over the entire area, but the situation was such as to greatly curtail shipments toward the larger distributing centres.

Prices appeared acceptable to growers, and deliveries on grain at the line houses were fair and many are now filled owing to poor transportation facilities. In the northwest receipts exhibited some shrinkage, but receipts at the leading terminals compared more favorably with those of a year ago. Marketing of wheat in the northwest has been only moderate, but the arrivals at the principal terminals compared favorably with the movement a year ago.

Corn was marketed on a fairly liberal scale and receipts at the line houses were fair and many are now filled owing to rough weather most of the week. Reports from west and southwest indicate moderate increase in the spring wheat. There was little change in advices from the spring wheat country.

DEALINGS ARE QUIET ON LONDON 'CHANGE'

Japanese Bonds Respond to News of Settlement With China.
Special Cable to The Toronto World.
London, Jan. 28.—There was no feature to the stock exchange markets, on Saturday. While steady they were slow, and the usual week-end character.

The gilt-edged section was dull and unchanged. Foreigners were idle, but firm. Brazilian, Argentine, Chilean and Chinese securities are expected to be requisitioned first by the treasury.

These descriptions were cheerful and some of them were stronger, dealers being desirous to make quotations as well as nervousness over the political situation. Absence of export demand also was a bearish factor. Private cables from Liverpool reported the tone easier, with selling at \$1.17 3/4, July at the outset was quoted at \$1.50 7/8 to \$1.50, compared with \$1.51 1/2 to the close yesterday, and dropped to \$1.47, against \$1.33 yesterday's last price. In the northwest receipts exhibited some shrinkage, but receipts at the leading terminals compared more favorably with those of a year ago. Marketing of wheat in the northwest has been only moderate, but the arrivals at the principal terminals compared favorably with the movement a year ago.

Corn was marketed on a fairly liberal scale and receipts at the line houses were fair and many are now filled owing to rough weather most of the week. Reports from west and southwest indicate moderate increase in the spring wheat. There was little change in advices from the spring wheat country.

Special to The Toronto World.
Chicago, Jan. 28.—The movement of grain from the farms and country elevators last week was fair. Severe weather prevailed over the entire area, but the situation was such as to greatly curtail shipments toward the larger distributing centres.

FINANCE DEPARTMENT OTTAWA

SALES WERE SHORT CAUSING A DECLINE

Rumors of New Peace Proposals Gave Encouragement to Bears.

Special to The Toronto World. New York, Jan. 27.—Trading in today's stock market was almost entirely influenced by the published statements in regard to the expectation that the German emperor will make some announcement at his birthday celebration that would be accepted as a peace proposition and make the approach of the cessation of hostilities seem close at hand. Stocks were up at the opening in fairly large volume, but specialists in nearly all the important issues like U.S. Steel common said that the supply came almost wholly from the operators persistently committed to the bear side.

BOSTON CREEK STRONG MAKES NEW HIGH

Hargrave's Also Displayed Firmer Tone—McIntyre Made Partial Recovery.

Fairly active trading, with a stronger tendency in several of the market leaders, characterized the proceedings at the Standard Stock Exchange on Saturday. A feature of the market was the establishment by Boston Creek of a new high record price at 132. The steady upward movement of this stock, with no reaction worth mentioning, has been one of the outstanding incidents in the mining market. Since the beginning of the year a gain of over 25 points has been made, and the stock went up a point further to 195. The short interest was undoubtedly increased by the high degree of confidence which was shown by those who were committed to the short side generally held to the view that some development might occur over Sunday that would permit covering next week at lower levels. The U.S. Steel market was held on Tuesday was looking forward to with a high degree of confidence, but no authoritative statement has been made by anyone of the management of dividend intentions of those who were concerned on long side could do was to hope that recent predictions might come true.

ESTIMATION LOWERED ON DOME LAKE ORE

Hamilton B. Wills stated yesterday in his weekly market dispatch that he had received no information for about four weeks regarding the mine conditions at Dome Lake, but was endeavoring to obtain a statement from the officials of the company.

Hamilton B. Wills stated yesterday in his weekly market dispatch that he had received no information for about four weeks regarding the mine conditions at Dome Lake, but was endeavoring to obtain a statement from the officials of the company. In his daily market letter today Mr. Wills quotes Superintendent Darling's preliminary report which diminishes somewhat the value of broken ore from that of the previous manager, George G. Thomas, M.E.'s estimate, but he has not yet reported on the unbroken ore.

STOCKS MORE ACTIVE WITH LITTLE CHANGE

Porto Rico Advanced Two Points, But Otherwise the Fluctuations Were Narrow.

Without any special news or change in sentiment, trading on the Toronto market on Saturday morning was more active. The transactions were made with minor fluctuations—the only advance of consequence being in Porto Rico, which sold up two points from Friday, to 42. Quebec Power was steady at 24, the selling movement having exhausted itself. The steel stocks were unusually quiet, not a transaction being recorded in any of these stocks. McIntyre was easier in the unlisted department, but Hollinger was steadily firm at 47.

LONDON STOCK EXCHANGE

London, Jan. 27.—Money was in fair demand and discount rates were steady today. Dealings on the stock exchange have been affected by the latest mobilization order, and much uncertainty exists pending the publication of the list of securities the government intends commanding during the trading Central Argentine rails hardened, Consols recovered a fraction, and Russian mines and oils improved sharply on good buying, but otherwise listless prevailed. American securities were neglected.
