CANADIANS REPEL SEVERAL DROWNING ATTACKS AT ST. ELOI

BRITISH TAKE TURK ADVANCED LINES IN MESOPOTAMIA DRIVE

Gen. Hughes Will Reply to Charges in the House Tomorrow

HUGHES GREETED AT OTTAWA

BY BAND AND CHEERING CROWD

Mon. Robert Rogers Only
Cabinet Colleague at Sta-
tion, However—Hughes,
Who Had Long Confer-
ence With Premier, Will
Make Statement in House
Tomorrow.

By a Staff Reporter.
OTTAWA, Ont., April 16.—Major-
General Sir Sam Hughes arrived in
Ottawa shortly after 2 o'clock this
afternoon, and had a good reception.
A large number of local military offi-
cers and many of the rank and file of
the 7th and 20th Battalions were at
the station, as well as many civilians.
He had been expected a couple of
hours earlier, and a much larger crowd
at the station then, but in spite of
the disappointment about a thousand
people gathered in the afternoon to
welcome the minister of militia
back to the capital.

Council With Him.
General Hughes traveled on one of
the government cars and was accom-
panied by two of his counsel, Eugene
Lafleur, K.C., of Montreal, and J. S.
Ewart, K.C., of Ottawa. Wallace Nes-
mitt, K.C., of Toronto, who has been
retained by General Hughes, traveled
with the minister as far as Montreal
and went on to Toronto. Mr. Lafleur
and Mr. Ewart met him in New York,
but Mr. Nesmitt did not see him until
he reached Montreal.

General Macdonald and Honorary
Col. McLean also met the minister at
Montreal. His staff who went to Eng-
land with him are Capt. John Bassett,
his aide-de-camp; Miss McAdam and
Miss Croghan, his private secretaries.
Rogers Only Minister.
On his arrival on the platform at
Ottawa the band of the Governor-Gen-
eral's Foot Guards struck up "Home,
Sweet Home," and played a number of
other familiar airs, such as "Robin
Adair," while the general shook hands
with many of those who had come to
greet him. The only cabinet minister
there was Hon. Robert Rogers. Thirty
militia officers lined up on the plat-
form and the minister shook hands
with each of them. Some of them he
did not know personally, and he en-
quired of them their names and where
they came from.

All the leading officers of the head-
quarters staff were present as well as
the following members of parliament:
Deputy Speaker E. N. Rhodes, Major
Dugald Stewart, Col. H. B. Treiman,
F. Scott, George Elliott, William
Gray, S. F. Glass, Donald Nicholson,
Capt. Tom Wallace, J. A. Sessmith
and Senator Rufus Foye.

Conferred With Premier.
A cheer was raised by those on the
platform when General Hughes stop-
ped off the train, and when he reached
the outside he was given a really

KING CONFERRED HONORS

ON CANADIAN OFFICERS

Gen. Van Straubenz and Gen. Seely Received Order of Bath at Buck- ingham Palace.

Canadian Associated Press Cable.
LONDON, April 16.—At Buckingham Palace on Saturday King George
conferred honors on the following Canadian officers: General Van
Straubenz and General Seely received the Order of the Bath; Major
Sutherland Brown, Royal Canadian, and Capt. Kenneth Taylor,
25th Battalion, the Distinguished Service Order; and Capt. Hertzberg,
Engineers, and Capt. Papineau, P. P. C. L. I., the Military Cross.

CANADIANS REPEL ATTACKS

BY Foe's BOMBING PARTIES

Craters at St. Eloi Still Subject to Assaults From
Germans—Much Mining Activity on
British Front.

Canadian Associated Press Cable.
LONDON, April 16.—The Canadians,
who are still holding the craters at
St. Eloi, were attacked several times
by bombing parties Friday night, but
the enemy was repulsed every time.
Five mines were blown up opposite
Hulluch by the Germans, and very
slight damage to the British trenches
resulted, the war office announced to-
night.
Much mining activity was conduct-
ed by both sides about the Cabaret
Rouge, Mametz and Fricourt. The
British last night exploded two mines
in the neighborhood of the Bethune-La
Bassée Canal, and they immediately
raided the German trenches south of
the Bethune-La Bassée road, with ex-
cellent results.

Much artillery activity prevailed Sat-
urday and Sunday about Arras, Neu-
ville St. Vaast, Grenay, Loos, Thietval,
Monchy-au-Bois, Souchez, Wytschaete
and St. Eloi.
The British bombarded Anny and
the German trenches just north of the
River Douve, with good results.

The socks you are so kindly sending
me will be put to good use and be ac-
knowledged on receipt.
For the information of those interested
I believe that the men can exchange
their socks for dry ones if they wish
to be washed and mended, and
even when too badly worn they are then
sent to the Salvage Company, and
sent back probably for whatever value
they may bring at the auction.

These will be most acceptable when
sent in the form of socks. No doubt
many things are sent over that
may give pleasure, but I have always
impressed upon my men that
in sending socks and I know that many

haps for hours in cold water, and
blood feels that the sense of relief
is almost unbearable. These articles

your thoughts and for your kindness in
sending them socks, I am,
I am yours very truly,

Dear Sirs—I beg to acknowledge re-
ceipt of your letter of the 22nd inst.,
advising shipment of 100 pairs of socks.
These will be of the utmost use to the
men of this battalion, and I beg to thank
you for your very kind donation.
Yours faithfully,

FRONT LETTERS

FROM OFFICERS

THANKING WOMEN

Commanders of Battalions
Grateful for Sox Sent
Thru The World.
NO PRESENT SO USEFUL
Some Poor Fellows Are Only
Able to Wear One
Sock.

Following closely the first communi-
cation from Lt.-Col. W. J. Brown, offi-
cer commanding the 4th Artillery Brigade
in Flanders, which was published in The
Sunday World, additional letters in re-
sponse to the shipment of 5000 pairs of
socks to the soldiers in the trenches, were
received at The World Office yesterday.
Each of the three most recent letters
contains an expression of hearty appre-
ciation of the commanding officers, who
ask that their grateful thanks be made known
publicly thru the World.

The writers of the letters are Lt.-Col.
John H. McLaren, commanding the 10th
Canadian Battalion; Lt.-Col. G. D. Farn-
ham, officer commanding the 5th Field
Ambulance, Expeditionary Force, and
Lieut. Acting Adjutant Philip Mackay
of the Princess Patricia's Canadian
Light Infantry.

Each of the letters indicates the need
of the socks, and the gratitude of the
soldiers. Col. Farmer's letter contains a
passionate appeal to the women, and
is as follows: "Sometimes—poor beggars—
they can only have one sock put on but
someone always has to go for the other."

ROBERT HAZELTON IS MOBBED

POLICE AND SOLDIERS CALLED

Mr. Hincks' Statement
The following statement was made at Trinity Methodist
Church by Dr. Hincks at the morning service on Sunday:
The last edition of last night's papers tell us that a Tommorden
mob assailed the home and person of the unfortunate man who
wrote the letter used in the Canadian Senate. I refer to the letter
reflecting on the English-born, who have offered themselves for
military service, and, in some cases, were rejected.
I cannot but deeply regret that any of our Toronto fellow-
citizens, deeply injured that they were by the senatorial use of
that letter, should attempt to get justice by mob violence. I trust
that all who, like myself, come from England, will be patient
under this senatorial outrage. British law protects us all, both at
Ottawa and in Toronto.

If this senatorial slander of brave English-born citizens is to
be noticed at all, it is our duty to get justice by mob violence. I trust
that all who, like myself, come from England, will be patient
under this senatorial outrage. British law protects us all, both at
Ottawa and in Toronto.

We English-born, who are at home, owe it to the memory of
the brave men who have died in such large numbers already, to
defend their family honor, to defend the good name of the
mothers who bore them, by setting the law in motion and not to
seek redress by mob violence.

I have no doubt that as the publication of the letters and
interview were calculated to, and did, cause a serious breach
of the peace, the criminal law should be brought into action.

Author of Letter Read by
Senator Choquette is
Dragged from His Home,
Beaten, Thrown in Pool
of Water, and Finally
Taken to Police Station
for Protection.

With Robert Hazelton and his family
interred in their home, Beech street and
Loega avenue, guarded by a squad
of Highlanders, under the command
of Capt. Young, comparative quietude
yesterday had succeeded the high state
of excitement during Saturday night's
uprising, when a mob dragged Hazel-
ton from his home after partially
wrecking it and subjected him to a
severe beating.

Accompanied by Police Sgt. Johnson,
Hazelton early Sunday morning left
No. 8 Police Station, where he had
been confined for the night, to prevent
further bodily harm, and returned to
his home. His wounds, consisting of
bruises and lacerations on his face and
shoulders and upper part of his body,
but sustained no serious injuries.

His return to his home was unevent-
ful. Few persons were seen when he
made the walk at 4:10 o'clock yester-
day morning, and no one offered to
molest him. He had slept fitfully dur-
ing the night. Attendance to his
home yesterday was denied every-
one who sought to enter. A cordon
of soldiers was thrown around the place
Saturday night after Hazelton had
been taken into custody, and the mili-
tary picket will continue to patrol the
grounds until all possibility of a re-
currence of the trouble has been eli-
minated. Capt. Young, with a larger
squad, established headquarters for the
day at the Tommorden Hotel.

That investigation will be institut-
ed with a view of arresting the ring-
leaders and those who assisted in the
course of the trouble has been elimi-
nated. Capt. Young, with a larger
squad, established headquarters for the
day at the Tommorden Hotel.

sulted.

LONDON, April 16.—News of the
sinking of four more craft was re-
ceived today.
Lloyd's announces that the Norwe-
gian steamship Pusanstaff, of Christ-
iansand, was sunk today. She going
from Newcastle to Boulogne. The
crew was saved.
The British steamship Fairport is
reported to have been sunk. She was
unarmed.
The Pusanstaff is not mentioned in
maritime records. The Fairport, 2825
tons gross, was built in 1906, and
owned in Newcastle. She sailed from
Rio Janeiro on March 10 for an un-
named port.
A despatch from Ymuiden, Nether-
lands, says:
"The Danish schooner Proven, while
bound from Setubal, Portugal, for
Gothenburg, Sweden, was sunk by a
German submarine. The crew has
been landed here. Before being picked
up the sailors were adrift in an open
boat for 56 hours."

Another victim
LONDON, Monday, April 17, 1:26
a.m.—The British ship Cardonia, 2655
tons net, was sunk by a torpedo. The crew was
saved.

RUSSIANS DRIVE BACK

FOE NEAR TREBIZOND

Turks Dislodged From Kara Dere
River After Desperate
Fight.

STRONG POSITION TAKEN

Victory Won Only Seventeen
Miles East of Important
Seaport.

PETROGRAD, via London, April
16, 8:56 p.m.—Announcement was
made by the war office today that
Turkish forces in the Caucasus had
been ejected from a position about 17
miles east of the important port of
Trebizond, the capture of which has
been the objective of recent Russian
operations along this front. The
statement follows:
"Caucasus front: In the coastal
region and to the south, after a des-
perate fight, our troops, supported by
guns on land and sea, dislodged the
Turks from a powerfully organized
position on the left bank of Kara
Dere, 25 versts east of Trebizond. We
are pursuing the enemy energetically.
"Repeated attacks by the enemy in
the direction of Bayburt were re-
pulsed with heavy losses to the as-
sailants."

TURKS BEATEN

IN ADVANCE BY BRITISH FORCE

Foe's Forward Lines Driven in
and Occupied at
Sannaiyat.

ENEMY LOST HEAVILY

Gradual and Steady Progress
Made by Army on
March.

LONDON, April 16, 5:05 p.m.—Further
progress in the efforts of the
British army advancing up the Tigris
to the relief of forces besieged at
Kut-el-Amara was reported today in
the following official statement:
"Lieut. Gen. Sir Percy Lake re-
ports that on April 14 a heavy gale
blew all day. On April 15 gradual
and steady progress was made on the
right bank, and the enemy's advanced
lines were driven in and occupied.
The enemy left many dead and a con-
siderable number of prisoners in the
captured trenches.
A heavy rain fell on the night of
April 14-15. On April 15 the weather
was fine, but hazy."

WAR SUMMARY

THE DAY'S EVENTS REVIEWED

CONTINUING its march on Kut-el-Amara, the British supporting
column to Gen. Townshend's force, Sir Percy Lake reported
yesterday, drove in the advanced lines of the Turks at the San-
naiyat position, on the right bank of the Tigris, and occupied the
vacated premises, taking many soldiers of the enemy prisoner, and
killing many others, whose bodies were found in the trenches. Wea-
ther conditions keep uncertain and unsatisfactory. It blew a heavy
rain Friday night; it rained Friday night; and it was fine in continuation
today, when the fighting was resumed. This advance is in continuation
of the success won last Thursday. Taking here a little ground, and
there a little ground, the British army can hope soon to expel the
Turks from their defensive works.

Fighting for the craters at St. Eloi was continued this week-end,
with the Germans making several bombing attacks, and being re-
pulsed by the Canadians. Five mines were exploded near Hulluch
by the Germans, doing slight damage. Two mines were exploded
south of the Bethune-La Bassée road, by the British, who immedi-
ately raided the German trenches. Much artillery activity has prevailed
about Arras, Neuville St. Vaast, Grenay, Loos, Thietval, Monchy-au-
Bois, Bovigny, Wytschaete and St. Eloi. British casualty lists pub-
lished in London continue to show that heavy losses have been sus-
tained on the front, Saturday's and Sunday's lists giving the names
of 38 officers killed, 118 wounded and 29 missing. The losses to
the rank and file have been correspondingly heavy.

Round Verdun the Germans violently bombarded the French
positions yesterday in the Avocourt wood and on Hill 304, west of
the Meuse, and batteries on both sides were active in the Douaumont
region of the Moulainville, Haudumont and Les Esparges sectors of
the Woivre. If the Germans intend to attack the Verdun sector
again they evidently are planning to make their assault as powerful
as possible, and are collecting large and fresh masses of troops to

TURKISH ATTEMPT TO RECAPTURE ERZERUM COLLAPSES

Russians Win Success a Short Distance From Trebizond

VILLA IS DEAD BELIEF GROWS ALONG BORDER

U.S. Expedition to Be Withdrawn at Once if News Proves True.

BODY WAS EXHUMED

Carranza Forces Said to Be in Possession of Bandit's Remains.

WASHINGTON, April 16.—American troops will be withdrawn from Mexico immediately if Francisco Villa is dead. Administration officials made this unqualified statement tonight, commenting on reports from Mexican sources that the bandit's body had been discovered and was being taken from Cusi to Chihuahua city by special train. Neither the state nor the war department had any confirmation on the subject from American sources. Reports reaching El Paso and other border points were forwarded for information, but neither American consuls nor military authorities in Mexico were heard from. Officials would not discuss what proof they would deem necessary to establish the fact that the body mentioned in these reports is that of Villa. It is certain, however, that every effort will be made to obtain so complete an identification as to make sure beyond reasonable doubt that the man who waged war with a few hundred bandits against the United States, and the de facto government of Mexico simultaneously has paid the penalty. Consul Letcher at Chihuahua should be able to make the identification.

Reports Are Circumstantial. EL PASO, Texas, April 16.—Francisco Villa is dead, and his body, discovered some days after his burial, is in possession of the Carranza troops, according to a series of telegraphic messages received in Juarez today by the Mexican officials. For more than a week reports that Villa had died from wounds have been current both here and in Juarez. Today's accounts were the most circumstantial and apparently reliable yet received. They were accepted with reserve by American officials, including Gen. George Bell, but the Mexican officials expressed confidence in their reliability. It is known that Villa has been suffering from a virulent form of blood poisoning. He was treated for this disease while the Mexican officials were in El Paso, who states that the condition of the bandit was such that even a minor wound would be fatal in ten days, unless treated promptly with the best medical skill and care.

The above Electric Fixtures for a whole house, installed and including the inspection fees, require \$150.00. The drawing-room fixture will be supplied with hand-painted or other selected shades, instead of the ribbed shades, as shown. The dining-room fixture is an amber semi-indirect bowl, with 8 outside amber shades. This fixture alone is worth \$25.00, but included in the set. Let us also quote you a price on wiring your occupied residence for electric light, connecting all wires, and without breaking the plaster, or marking the decorations. The method that is employed is absolutely safe, and much safer than if it were done when the building was in the course of construction. All our work is done according to the rules, and inspected by the Government Electrical Inspection Department. Have your electrical work installed by expert electricians. The handy-man may be cheaper, but a fire might be the result. Why buy fine fixtures, brass-plated, and made to sell at a so-called bargain, when solid brass fixtures can be had at the above prices. Terms may be arranged.

MORE THAN MILLION ARMENIANS MURDERED

One Hundred Thousand Catholics, Including Four Bishops, Among Victims.

AMSTERDAM, April 16.—Telegraphing from Cologne, the correspondent of The Tilt says: "Catholic ecclesiastical authorities in Germany have received from an authoritative source in the Catholic mission trustworthy information that more than 1,000,000 Armenians have been murdered by Turks thru starvation or ill-treatment. About 100,000 Catholics were among them, including four bishops. The message concludes: "Popular feeling among the Armenians was roused against the Turks by the British."

AUSTRALIANS DEFEAT TURK FORCE IN EGYPT

Sharp Brush Report Near Jijfafa During Reconnaissance.

FOE'S CAMP CAPTURED

Austrian Lieutenant Taken Prisoner With Forty-three Moslem Soldiers.

SPECIAL CABLE TO THE TORONTO WORLD. LONDON, April 16.—A sharp brush with the Turks in the Egyptian theatre on Thursday is described in a statement issued by the war office last night, among the prisoners captured by an Australian detachment was an Austrian lieutenant of engineers, who was serving with the Turks. The statement follows: "The commander-in-chief in Egypt reports that on April 8 a successful reconnaissance was made by a column of Australian troops at Jijfafa. The column moved out on the night of April 12-13 and reached hill No. 1025, three miles southwest of Jijfafa, at 5.30 o'clock in the morning. The enemy's camp was attacked at 7 o'clock in the morning and occupied after a brief fight. The enemy's known casualties were six killed and five wounded. One Austrian lieutenant of engineers and 43 Turks, of whom four were wounded, were made prisoners. Our only casualty was one non-commissioned officer killed. Only two un-wounded mounted men of the enemy escaped. Our troops destroyed all water plants. The Katia oasis has been occupied by our troops."

WANTS \$10,000 FROM OTTAWA.

OTTAWA, April 16.—W. M. German, M.P. for Welland, has issued a writ against the City of Ottawa for \$10,000 damages. The writ was issued on Saturday and the claim is for injuries he received from a fall on February last on Bessner street. He had his arm broken and is claiming damages for the suffering, loss of time and medical expenses, making a total of \$10,000. The writ claims that the sidewalk was in a very bad condition, due to the negligence of the city.

FOE TO ATTACK VERDUN AGAIN

Glorious Day for French Arms, Says Order Praising Troops.

KAISER CHEERS MEN

Present War Must End There, He Tells Division He Reviewed.

PARIS, April 16.—A semi-official note, issued today, reviews the recent operations around Verdun and gives an order to the army, praising the resistance of the French troops to the recent offensive of the Germans. The note concludes: "The emperor some days ago reviewed one of the divisions engaged in the region between Douaumont and Vaux, and it was there that he said: "The war of 1870 was decided at Verdun. The present war must end at Verdun." Gen. Petain's order is as follows: "The 9th of April is a glorious day for our arms. The furious assaults of the soldiers of the crown front have been everywhere broken. Infantrymen, artillerymen, sappers and aviators of the 15th army were rivals in heroism. Honor to all. "The Germans, without doubt, will attack again. Let everyone work and watch to obtain the same success as yesterday. Have courage. We will get them."

FOE'S DOUBLE EFFORT.

Discussing the movement, the semi-official note says: "During the period from April 8 to 15 the German army made a double effort in the region north of Verdun on both banks of the Meuse. Following the operations begun on March 19, the enemy, master of Malancourt since March 30, and of Bethincourt, evacuated voluntarily by us on the night of April 8-9, held points of Meuse passage on Forges Brook and was able to debouch therefrom. "On April 9 he began a general offensive along the entire front between Faucourt and Cumieres. At the same time he attacked west and north of the right bank of the Meuse, near the wood and farm of Haudromont. The German troops were repulsed everywhere except at Bethincourt, where they succeeded in gaining an advance work destroyed by heavy artillery on Cote du Poivre they obtained a foothold in a trench east of Vacherauville. "The fighting continued on the 10th in the region of Bethincourt and toward La Mort Homme. On the 11th the adversary made a local attack on Caurettes wood, east of Cumieres. Large forces were used. Between Haudcourt and the Meuse alone we identified, thru prisoners, 12 regiments belonging to the five different divisions, two of which were engaged for the first time."

THREE BRITISH PLANES RAIDED TURKS' CAPITAL

Bombs Were Dropped on Powder Factory and Aeroplane Hangars.

VISIT TO ADRIANOPLE

Railway Station Attacked—Three Hundred Mile Journey Safely Made.

SPECIAL CABLE TO THE TORONTO WORLD.

LONDON, April 16, 6.30 p.m.—Three British naval aeroplanes executed a spectacular raid on a powder factory and aeroplane hangars at Constantinople on Friday evening, while a fourth bombed the railway station at Adrianople. The aircraft returned safely after flying 300 miles and battling with adverse weather on the backward journey. The statement by the British admiralty reads as follows: "On Friday evening three of our naval aeroplanes carried out a raid on Constantinople. Bombs were dropped on the Zaitunlik powder factory and aeroplane hangars. Another naval aeroplane visited Adrianople and dropped bombs on the railway station. All returned safely. "The flight to Constantinople and back measured 300 miles. Although the weather prevailed at the start, an adverse condition supervened, with wind, rain and thunderstorms." Turkey's Version. An official statement from Constantinople mentions only two hostile aeroplanes. It says they ascended off the Dardanelles and flew over the Turkish capital at a considerable height and dropped incendiary bombs on two villages nearby, without results. The statement concludes: "Owing to the fire of our anti-aircraft guns the hostile aircraft lost sight of their object and retired." The British aeroplane raid on Constantinople on Friday last is the longest flight in the course of the war, the previous record having been held by a French airman, who flew from Nancy to Stuttgart and back, a distance of 240 miles. Flight Commander J. R. W. Smyth-Piggott, who led the Constantinople raiders, already has received the D. S. O. for an exploit last September, when he attacked the railway bridge of the Orient Railway at Kuleli-Bergas in Bulgaria. This is the second time that the Zaitunlik powder mills have been attacked, they having been bombed by a submarine, which visited Constantinople.

BOMBARDMENT HEAVY IN REGION OF VERDUN

Germans Hammer With Big Guns on West Bank of the Meuse.

NO INFANTRY FIGHTING

Lively Gun Firing Reported From Sectors of the Woivre.

SPECIAL CABLE TO THE TORONTO WORLD.

LONDON, April 16.—The artillery bombardment of hill 304 and Avocourt wood, west of the Meuse, and nine to twelve miles from Verdun, was continued by the Germans today. Artillery was also active in the Douaumont region and in the Moulinville, Haudromont and Les Eparges sectors of the Woivre. Nothing of importance occurred Sunday on the rest of the front. The Belgians reported that north of Steenstraete they fought a spirited artillery action with the Germans, and that east of Ramecapelle they destroyed an enemy observation post and enemy concrete shelters. The bombardment was also heavy in the Caurettes wood, near La Mort Homme, and in the region of Enez.

TURK MOVE TO STOP RUSSIANS WHOLLY FAILS

Czar's Victory in Six Days' Battle Prevents Retaking of Erzerum.

FOUGHT STUBBORNLY

After Foe's Debacle, Muscovites Resume Advance Into Interior.

PETROGRAD, April 16, via London, 10.25 p.m.—The supreme effort of the Turkish forces to oppose further westward progress of the Russian central armies operating beyond Erzerum recently culminated in a stubborn six days' battle, the importance of which is scarcely suggested by the brief mention in the official communications. The Turks not only made a determined stand along the whole front from the Black Sea coast to Bitlis, but organized an offensive campaign, the evident intention of which was to recapture Erzerum.

The first step in carrying out the Turkish plan was by sudden pressure on the Russian right flank to cause the removal of Russian troops from the centre to the Black Sea coast. Relying upon the consequent weakening of the Russian centre, the Turks then hurled their main force west of Erzerum, hoping to break thru and compel the coast group of Russian forces to retreat for fear of being surrounded and cut off from their communications.

TURKS FINALLY BROKEN.

But the Russian forces were able to meet the series of Turkish assaults without giving way, and after six days of the most severe fighting since the fall of Erzerum the Turks fell back, and the Russians, after taking prisoners a considerable number of Turkish troops, who, confident of the success of their attacks, ventured too far into the Russian lines, resumed the advance.

TURKEY'S VERSION.

An official statement from Constantinople mentions only two hostile aeroplanes. It says they ascended off the Dardanelles and flew over the Turkish capital at a considerable height and dropped incendiary bombs on two villages nearby, without results. The statement concludes: "Owing to the fire of our anti-aircraft guns the hostile aircraft lost sight of their object and retired." The British aeroplane raid on Constantinople on Friday last is the longest flight in the course of the war, the previous record having been held by a French airman, who flew from Nancy to Stuttgart and back, a distance of 240 miles. Flight Commander J. R. W. Smyth-Piggott, who led the Constantinople raiders, already has received the D. S. O. for an exploit last September, when he attacked the railway bridge of the Orient Railway at Kuleli-Bergas in Bulgaria. This is the second time that the Zaitunlik powder mills have been attacked, they having been bombed by a submarine, which visited Constantinople.

WAR SUMMARY

THE DAY'S EVENTS REVIEWED

(Continued from Page 1).

do it by replacing their units on the Russian front with the units which were so badly depleted at Verdun.

If the evidence contained in all accounts which filter thru from Germany can be relied on, Prussia badly needs a victory to restore her prestige in the southern states of the empire. Her leadership has been roughly condemned in the diet of Saxony, and Bavaria is also chafing at her hegemony. The great general staff has sacrificed non-Prussians and spared Prussians as much as possible in the war. The south, moreover, did not war in the beginning. It was the North German who wanted it, and, in this case, as Prof. Morgan, who has made an exhaustive investigation into the atrocities of the German soldiery, says, it is possible to indict a whole people. The enormous increase of juvenile crime of the past ten years, as seen from a study of the German statistical records, would be such as to make one expect such conduct as was actually the case from the German army in Belgium and northern France. The Saxons, on the contrary, has been a generous foe and a gentlemanly fighter, and if it were possible, the allies, it is said, would welcome the making of a separate peace with Saxony.

Trebizond comes closer as a prospective Russian seaport, as a result of a Russian success 17 miles east of it, when the Turks were routed from a powerfully organized position on the left bank of the Kara Dere River after a desperate fight. The Turks are being energetically pursued. Trebizond was the point which Xenophon and the 10,000 Greeks made for over 2,000 years ago, and the conditions of the country have a little changed since that retreat from Mesopotamia, although all traces of the tribes and people encountered by those Greeks have vanished in the dim and silent centuries which have since intervened.

The Turkish plan, which broke down after a six days' battle west of Erzerum, was more ambitious than the brief official Russian communications would indicate, being no less than the piercing of the Russian centre, the forcing of the Russian right wing, which was operating along the coast, to retreat, and the recapture of Erzerum. As soon as the Russian resistance aimed the Turkish centre, which failed after many heroic counter-attacks to stop the progress of the Russians across the Pontic range, the other wings of the grand duke's army have resumed their advance on the Bagdad railway, in the east, and on Trebizond and Erzinian, in the west and south. The fresh Turkish troops were thrown against the Russians at the most difficult stage of their march while they were crossing a mountain range 10,000 to 12,000 feet above the sea. It looks now as if the Russians would have plain sailing after this for a considerable time.

In the course of their operations, the Italians have compelled the Austrians to evacuate their position at Monte Carbonile, in the Sugana Valley, which they are keeping under a curtain of fire, and they captured new advance positions by a wild advance of their infant battalions of Sels and Monfalcone, in the Carso zone, taking 20 prisoners, ammunition, guns and caissons.

Roumania has apparently made a pact with the central powers whereby she is to ship some of her wheat to them. The reaching of this unexpected standing is not so surprising after all. The Kaiser told her what would happen to her in the way of frightfulness, so eagerly drunk in by the hungry German, and Belgium's fate was held up as a horrible example to her. The Russians have now got on the move and are getting in shape for the making of a further advance in Bukowina. It may be necessary for them to fight a political battle before they are fully prepared, in order to impress Bucharest.

Constantinople and Adrianople were treated to air raids by the British admiralty, three machines visiting the Turkish capital Friday night and dropping bombs on the Zaitunlik powder factory and aeroplane hangars, while the other machine visited Adrianople and dropped bombs on the railway station. All the machines returned from their flight of 300 miles. Allied naval activity along the coast of Turkey-in-Asia may preface the landing of another expeditionary force acting from Saloniki as a base.

Some of the New Styles Featured in the Easter Showing of Footwear for Boys

COMFORT IS THE WATCHWORD HERE when purchasing his footwear, for unless he is fitted with boots that are properly made to give his active growing feet ease and freedom, he is liable to inherit foot trouble that will stay with him all through life.

And the "Educator" Boot is particularly noted for comfort and fit, for they are scientifically made to exactly conform with the natural shape of the foot; also combining a smart style that appeals to the boy. One particularly attractive line in "Educator" Boots is made of black or tan calfskin or in patent leather. They are Goodyear welted, which means perfectly smooth inside—no seams, no lumps. Prices are: Sizes 11 to 2, 8.00; 2 1/2 to 5 1/2 4.50

BUILDING AIR SHIPS IN TORONTO

A Plea in Parliament for More Encouragement of the Industry and of Aviation Schools in Canada.

There was an important discussion in the house of commons at Ottawa Friday evening last in connection with the estimates of the department of militia and defence, including the Canadian naval service, in which the question of aviation came up, handled by Mr. W. F. Maclean...

of their certificates, 176 went across the water and are employed there as aviators at the present time. But the number was always limited. We were not asked to examine an unlimited number...

The weak point of the Hon. Mr. Maclean's statement was that he seemed to be leaning on the department of militia to take up the question of building airships and that the department of militia pointed out later on that use of flying machines and aviators. It is believed, however, that Premier Maclean had a long conference last week on this very matter, and it is expected that he may have something to say...

Mr. W. F. Maclean: I desire to bring to the attention of the minister of the naval service and of this house the fact that Canada can play in the building of airships the most important part...

While he says that a flying machine is a simple matter, it is well known that the use of a flying machine is not a simple matter. It is well known that the use of a flying machine is not a simple matter. It is well known that the use of a flying machine is not a simple matter.

WARSHIPS OF ALLIES TO NORTH OF CRETE. No Troops Have Been Landed as Yet, Says Athens Dispatch.

LONDON, April 16.—11.45 p.m.—Entente allied warships have anchored in Suda Bay, on the north coast of the island of Crete, says Reuters' Athens correspondent. No troops have been landed from the warships, the correspondent adds.

With regard to the gentlemen in Toronto referred to by my hon. friend from South York, and amongst whom Mr. Hamilton Merritt is very active, I think their efforts are worthy of all praise, and that all we can do to assist them, if good results are to be achieved, is to encourage them in every way possible.

Mr. W. F. Maclean: I appreciate very much the statement made by my hon. friend the minister of marine and fisheries in regard to aviation; but I wish to point out that in this matter, as in the matter of the navy, and that as such it was brought before the house of commons last night.

around the back door completed the extent of the wreckage. Hazelton spent the night at her son's home nearby, was practically recovered from her nervous breakdown, and on Saturday morning when her husband was dragged from her home, she and her grandchild sought refuge upstairs.

The near-riot, which held sway in the suburb Saturday night, was the first of its kind in Todmorden since the intense excitement which reigned three hours was only subdued when Hazelton was rescued from his angry captors by Constable Tom McCann.

His futile efforts to escape from the clutches of those who held him only weakened him. He was almost inert as he faced the mob standing in the coffin box into which the men had tried to lay him, but which had proven too small for his size.

Official Statements. The following official statements were obtained from the chief constable and were given to the Exhibition camp by Gen. Legie Sunday afternoon: P. C. McCann, 52 Elkhorn avenue.

I am a county constable. My beat is Todmorden. At 7.30 o'clock tonight Hazelton was taken to the station by Constable McCann.

Statement of Inspector Pogue. I met Constable McCann with Hazelton on Tuesday evening at the corner of Browning, at about 8 p.m. A large crowd was following composed of men, women and children.

Then things began to happen. Two or three men in a crowd shouldered against the front door in an ineffectual attempt to break it in. Suddenly, ping! bricks were thrown and a window was followed by the crash of shattered glass.

Could Not Escape. He struggled futilely to escape, but his captors held him as in a vice. Surrounded by a mob of people which good-naturally jostled and pushed, Hazelton received a blow now and then, administered by the hands of some of the resentful women, and was dragged on to the lawn and backed up against a wall.

Individuals from the crowd came up and asked such questions as, "Was my mother a prostitute?" from Miss Highlander. "I have four sons in khaki and another was rejected, do any of you know any of them?" from a man of nearly sixty.

At this time County Constable Tom McCann, who had been called to the scene, arrived. He had examined over 200 men since August, 1914, a large proportion of whom were British-born and not 1 per cent. of these showed any marks of blood taint.

Statement of Fred Hazelton. I did not know what was in the letter from the doctor. I knew he was writing, but did not know what was in it at the time. I did not suspect trouble till this afternoon.

MONDAY MORNING, APRIL 17.

"Fill the Gap"

There is evidently needless alarm in some quarters over the proposed intervention of the attorney-general in an effort to "fill the gap" on Yonge street for those who have to trudge several times a day over the furling which separates the street railway tracks from those of the Metropolitan Railway.

We recognize the litigation that is in process over the claim of franchise rights, but the attorney-general, being aware of the situation, should be able to protect the rights of both sides to the argument, and at the same time relieve the citizens of their burden without prejudice to either party.

It appears obvious to us that the simple method of solving the difficulty would be the extension of the present street railway tracks to a point near Farham avenue. There need not be a junction of the city and the Metropolitan tracks to complicate matters.

The deputation, which is to wait on the government at 12.45 today, will be of highly representative character, composed of residents of Yonge street northwards to Newmarket.

To Lengthen Our Days

Nothing has been said recently in this country in favor of the daylight extension scheme, which is being adopted in some countries, among others by our progressive enemies the Germans.

By those who are merely prejudiced against the idea of change, it should be remembered that our measurement of time is arbitrary and artificial at present, and that it is so purely from motives of convenience.

interference with any private rights. The scientific men would continue to do as they do at present, and make their calculations quite independently of the municipal clocks or the private clocks or the private watches.

It has been a surprise to Russia, and will doubtless also surprise Canadians to know that the people of the little father previous to the war were obtaining more than half of their imports from Germany.

German trade in Russia has gradually been taking a foremost place, until 63 per cent. of all Russian imports were taken from their Teutonic neighbors.

Copper industries, dye works, trade in zinc, in building materials, were taken from Germany. Eighty-five per cent. of the electro-technical works were in German hands.

TO PERMIT NO HALT IN MUNITIONS WORK

Industrial Disputes Investigation Act is to Be Extended. OBJECTIONS ARE MADE. Minister of Labor is Receiving Some Complaints From Both Sides.

By a Staff Reporter. OTTAWA, April 15.—The official notice which appears in The Canada Gazette of today of the extension of the Industrial Disputes Investigation Act to apply specifically in the case of disputes between employers and employees engaged in the manufacture of munitions of war, shows that it will apply also to the manufacture of munitions in Canada.

The notice reads: "To apply in the case of any dispute between employers and employees engaged in the production, construction, repairing, manufacture, transportation or delivery of ships, vessels, works, buildings, munitions, ordnance, guns, explosives and materials and supplies of every nature and description whatsoever intended for the use of his majesty's military or naval forces or militia, or for the forces of the nations allied with the United Kingdom in the present war."

It is understood that the minister of labor has received a number of objections from both labor and operator interests to the broadening of the act. Many of the employer and employee classes have always been opposed to the establishment of boards of conciliation and investigation in labor disputes.

ATHLETIC ACTIVITY IN MONTREAL

The campaign for funds for the struggling Shamrock A.A.A. just about calls what they are doing in Montreal for the big game going on in the annual tournament of the Shamrock Athletic Union. Shamrock has canvassed for soliciting the public for money to tide them over until the summer when they will perform a real service holding for the benefit of the Shamrock A.A.A. a real swim on its own account. Of course the Shamrock Athletic Union has had to rely on the few soldiers they have in Montreal.

N. Y. BROKERAGE FIRM ISSUES CIRCULAR ON NEW SILVER MINE

The following circular has been issued by J. J. Carew & Co., 44 Broad Street, New York.

Forward—This firm, during the course of each day's business, has had submitted to it various propositions which are in the embryo state and which are usually in need of additional financing. These were composed of both industrial and mines, and while some of them are worthy efforts by sincere men, we have nevertheless adopted the policy of watchful waiting, reserving to ourselves the opportunity of accepting one which, in our opinion, combines the best of all possible chances with the greatest possibilities of success.

A few weeks ago there was submitted to us a proposition which showed sincere efforts on the part of the gentleman behind it, backed by their own money, which had been expended in an economical way to obtain the object sought. After careful investigation by both Mr. Carew and Mr. Deary of our firm, we decided that we could associate ourselves with it, being assured of the earnestness of the developer and the great possibilities of the property. It is respectfully submitted to you the following facts regarding the Adanao Silver Mine, Limited, Cobalt, Ontario.

Adanao Silver Mine—The property of the Adanao Silver Mine, Limited, consists of 20 acres immediately adjoining the Timiskaming mine in the west and southwest. The formation here is the Keewatin underlaid by the diabase or the silver-causing rock. The strike of the veins in this property is about 28 degrees east of north, from which it is made plain that practically all of the ore-bearing veins of the Timiskaming property, where the strike is the same, continue on the Adanao.

The surface of this property has been comprehensively prospected and many veins have been located, which have a strike and dip similar to that of the veins of the Timiskaming mine. Reference to their relation to each other and to the underlying formation is given in the accompanying map.

Development Work—Underground development work is now being carried on practically on a line between the north and south claims with a depth of 300 feet of the Timiskaming level. Here a shaft has been sunk to a depth of 300 feet and crosscut run east and west from the shaft at this level. In the east crosscut, about 75 feet from the shaft, a winze has been sunk to a depth of 120 feet, and a crosscut continued to reach the 400-foot level, where a crosscut will be run to connect with the shaft. In the meantime, the crosscut will be run to that depth. In this winze, at a depth of 64 feet, or silver values were encountered in a calcite vein about 2 1/2 inches in width in a form of ruby and native silver deposited in the calcite.

We believe that the Adanao will unquestionably develop into a great silver mine and will be on a self-sustaining basis before four months have passed, as they are now bagging ore. Realizing the speculative possibilities of this property and the excellent chances of it developing into a dividend payer, we have underwritten 250,000 shares of the capital stock, and are offering it at fifty cents per share. This sum, when taken into conjunction with the money already expended, will be more than sufficient to develop the Adanao property into one of the "meritorious" mines of Cobalt.

The Adanao will be listed on the New York Curb and also on the Standard Stock Exchange in Toronto. Elsewhere in this issue will be found a printed subscription form, which may be filled out, forwarded to J. J. Carew & Co., with offers of 44 Broad Street, New York, or Dominion Business Building, Montreal, or J. P. Bickell & Co., Standard Bank Building, Toronto; Kieley, Smith & Amos, Cobalt; and Porcupine, Ont., or they may be handed to your own broker.

LONDON BARE OF SILVER SUPPLIES

LONDON, April 15.—Bar silver improved further on a continuance of buying orders on a market bare of stock.

The above despatch on Saturday confirms the opinion already expressed that London is badly in need of silver. The price of the metal advanced 1/40 an ounce on Saturday to 85 1/2. There are many developments taking place which point to a revival in Cobalt, a silver camp and which will put it in the limelight of public appreciation about the days of 1905-6. With silver at the present price many properties will be able to reopen and work at a profit, but the conviction that the white metal will command very much higher prices will also bring about a development of many new properties. The Trothewey has already started its machinery up and a bigger development is to start on the Adanao, the most property to share ore values and which adjoins the Timiskaming. A new and cheaper process of reduction has already made its appearance and dumps hitherto neglected will now receive treatment. Then again experts have come to the conclusion that ore values will be obtained at a much greater depth than was first believed. The Beavers is testing out the question of depth and penetrating the diabase sill to 1700 feet, at which depth the contact is thought to hold values equal to those in the higher levels. It begins to look as though the camp is running into a mild boom. Silver stocks were strong on Saturday, with Timiskaming up to 82 1/2, Beaver 41 and Peterson Lake 29 1/2. The new confidence in Cobalt is also being carried into the Porcupine Camp and the gold stocks are giving promise of receiving increased attention.

MARKET BUOYANCY IS WELL MAINTAINED

Mid-Week Reaction Effaced by Later Rally and Stocks Closed Strong on Saturday.

The buoyant conditions of the Canadian exchanges were well maintained on Saturday and the mid-week reaction was more than wiped out in the later rally. For a half-day session the Toronto Exchange was more than ordinarily active, and the new high records were again established in Steamships and Cement, the former crossing 37, and Cement selling above 84. The steels were again in favor, with Steel of Canada still in the lead, with a rise of 3 points, to 61 1/2. Dominion Steel advanced a point, and Nova Scotia was firmly bid and stock offerings were light. Sentiment around the market is enthusiastically bullish, with rumors of big earnings sufficient to excite speculative interest. The market is getting valuable assistance from the financial institutions, which have more free money than at any time in some years. Conditions are strongly in favor of the bulls, and they may be counted upon to take full advantage of the opportunities offered.

STOCKS IMPROVED ON LIMITED TRADE

New York Regarded Foreign Situations With More Com- placency.

FAVORITES STILL LED

Recovery Noted Also in French Exchange on Wall Street.

NEW YORK, April 16.—Wall street chose to regard the foreign situation with more complacency Saturday, and prices of most important stocks hardened slightly after an early period of hesitancy. Trading was too light and circumscribed to justify detailed or specific comment, aside from a fair demand for rails, notably the national group. New York Central led that division, probably in consequence of the remarkable statement of earnings for the past year.

The bulk of the trading, which included the usual week-end settlement of outstanding contracts, was made up of such speculative favorites as Crucible and United States Steel, Mexican Petroleum, Mercantile Marine and a few equipment issues like American and Baldwin Locomotives. Mexicans improved generally and a few obscure specialties showed irregular gains. Total sales amounted to 185,000 shares.

In the broader field of finance the outstanding feature was the substantial recovery in exchange on Paris, the demand rate falling back to 5.00 from yesterday's record quotation of 5.08. The change was naturally attributed to the statement of the French financial agent in this country, which bore promise of early relief from recent anomalous conditions.

Contrary to last week's statement, today's returns of the clearing-house institutions showed a marked contraction. While reserves increased by about \$2,000,000, once more bringing the excess reserves to a figure well over \$100,000,000, which heavy sales were made at \$5. Total sales of bonds (par value), \$2,145,000.

PROPERTY.

This company owns 60 acres in Coleman Township, immediately adjoining the Timiskaming Mining Co., Limited, on the south west.

DEVELOPMENT.

Work is now being carried on between the North and South claims and within 300 feet of the Timiskaming line. Here a shaft has been sunk 300 feet and crosscut run east and west at this level. In the east crosscut, about 75 feet from the shaft, a winze has been sunk 120 feet, and is being continued to reach the 400-foot level, where a crosscut will be run to connect with the shaft, which will, in the meantime be continued on to that depth. In this winze, at a depth of 64 feet, or about 2 1/2 inches in width, in the form of ruby and native silver deposited in the calcite and Cobalt. These values were something over four thousand ounces in silver to the ton of ore bearing rock.

EQUIPMENT.

Equipment consists of all necessary mining machinery, such as hoists, drills, blacksmith shop, houses, stables, horses, wagons, manager's office, etc.

Over four hundred thousand dollars has already been spent in bringing the property from the prospective stage to the producing one. Due to their faith in the property, all of this was expended by the largest shareholders at no cost to the treasury of the company.

OFFICERS AND DIRECTORS.

President, Burr E. Cartwright, of Toronto, Ontario.—Mine operator of many years' experience in Cobalt.

Treasurer, J. P. Bickell, of J. P. Bickell & Co., Toronto, Ontario.—President of the Superintending Mining Company of Arizona; director of McIntyre Porcupine Mines, Limited, of Ontario.

Secretary, D. McArthur, Barrister, Toronto, Ontario, of the firm of Fasken, Cowen, Chadwick & Rose.

C. M. Bushnell, Lawyer, of Buffalo, New York.

C. C. Cavin, Excelsior Life Building, Toronto, Ont.

MINE MANAGEMENT.

The mine management is in charge of Mr. Charles Spearman, M.I.M.A.M.E.—A graduate of the Columbia School of Mines, who is well known as an eminent geologist.

IN CONCLUSION.

The Cobalt Camp since 1904 has produced over \$100,000,000 worth of silver and paid, in dividends over \$55,000,000, and is still producing at its normal rate. It can be truthfully said of Cobalt that for every dollar expended in development work and scientific mining, at least five has been returned by mother earth.

Applications will be made to list the stock on the New York Curb, as well as on the Standard Stock Exchange, of Toronto, Ontario.

HATS HIGH AND CHIC FOR SUNNY EASTERTIDE

Fashion Parade Will Be Distinguished by Chapeaux of Every Shape.

TALL CROWNED MODELS

Every Variety of Stovepipe Family Is Enthusiastically Welcomed.

Easter will soon be here, and with it the annual gay fashion pageant, announcing the formal opening of a season already heralded as an unusually interesting one. There have been so many style influences tried out, so many periods emphasized and so many tendencies toward the "style" moderne expressed, that the fashion is in full readiness for the festive season, minus shocks, and plus a host of pleasing, fascinating novelties.

Because of the traditional importance attached to the "Easter bonnet," all eyes are turning in the direction of the millinery sections in the shops, where thousands of exquisite pieces of headgear are being deftly put together by experts working under the guidance of designers whose names alone are the guarantee of every model placed upon the fashion market. As has already been observed many times, both large hats and small hats are to be fashionable throughout the season; but one rule holds firm, all hats are high. Even the graceful broad-brimmed model of the earlier variety has been almost entirely abandoned, and is replaced by a square-cut crown, and, as for small toque-like shapes, every variety of the stove pipe family is enthusiastically welcomed, especially if it is all tussled up with several yards of beautiful ribbon standing saucily erect. The Vogue of ribbons has been more general—every hat for every occasion encourages its use—with or without a touch of stretch material or novel feather ornament. When the shepherdess model is donned its height is adjusted by the insertion of the coiffure, massed effectively on the crown of the head, and when a simple hat as far as line is worn, there is usually a little bird or two with wings outspread, placed at a picturesque angle to give the required effect.

MASONIC DIRECTORATE NAMES NEW OFFICERS

Temple to Be Erected Will Cost About Hundred, and Seventy-Five Thousand.

Organization meeting of the new directors of the Masonic Temple Corporation was held on Saturday, April 16, in Scottish Rite Hall. The election of officers resulted as follows: President, George H. Smith; first vice-president, John O'Connor; second vice-president, A. C. McMaster; treasurer, John McKnight.

The directors in executive session met last night, and the plan was set into the matter of revised plans, which were brought forward for consideration. The new plans call for a less expensive temple than was formerly contemplated, about \$100,000 being the estimated cost of the structure now proposed.

The directors' committee is to be congratulated upon the development of a set of plans and specifications that will meet the requirements of the temple, and it is expected that half the expenditure previously contemplated.

The new structure, which will contain a large assembly hall capable of accommodating about 1200 persons, will be a very handsome one.

PRIVATE "PAT" STATHAM ON LIST OF WOUNDED

St. Simon's Lacrosse and Hockey Player in Hospital in France.

Private William Percival Stratham of 686 Ontario street, whose name appears in Sunday's casualties lists, is suffering from his wounds in the leg, received on March 27. His mother, Mrs. William Stratham, received official notification on Saturday afternoon last of her son's return from four letters from her son, from whom she had not heard for a month. In the letter under most recent date, Pte. Stratham, writing from hospital in France, said his wound was not serious.

"Pat" Stratham, as he is familiarly known, has been for years a member of St. Simon's lacrosse and hockey teams and is highly popular. He joined the crack 24th Battalion, which subsequently lost its identity, going overseas early last fall.

RETURNED OFFICER IS GIVEN WARM GREETING

Special to The Toronto World. CAMPBELLFORD, Ont., April 15.—Lieut. A. B. Colville was given an enthusiastic reception upon his return home from the front. After being in a London hospital since Christmas, he has been given three months' sick leave.

Lieut. Colville was vice-president and solicitor of the Electric Power Co., which was recently taken over by the Hydro-Electric Commission, and previous to his connection with this company, practised law in Campbellford, Ont. He went overseas with the 39th Battalion, and in England was transferred to the 20th and served in the Fourth Ontario Infantry Brigade for three months. He will report for duty on June 7.

SPANISH-AMERICAN SERVICE.

MADRID, April 16, via Paris, April 16, 1:40 p.m.—The Imperial asserts it has learned from official sources that the project for a new transatlantic line between Vigo and New York is soon to be consummated. The line will be subsidized to the amount of \$100,000 by the Spanish Government, which will invite bids for the contract.

PLAYS, PICTURES AND MUSIC

COMMENCING tonight, Edward H. Sothorn, who has announced his permanent retirement from the stage at the end of his present tour, will inaugurate his Toronto engagement. Mr. Sothorn will bid adieu to the local theatre-going public at the Royal Alexandra Theatre on Saturday, April 22. The distinguished star will, in fact, be saying good-bye to one audience after another through the week. This long-liked and deservedly admired actor has chosen a modest comedy as the vehicle for his parting with his admirers across the footlights. "The Two Virtues" is essentially high comedy of witty conversation, diversified and interesting personages and amusing episodes and action. It is written by one of the masters of modern English play writing, Alfred Sutro, and brings the spectator into the world of well-bred and aristocratic society. Mr. Sothorn is felicitous in his feminine associates this season. Miss Alexandra Carlisle may be expected to give a most remarkable psychological study of Mrs. Gulliford, and Blanche Turka, Pauline Whiston, and Haidee Wright are also prominent in a cast that is declared to be ideal. In addition to the regular matinees on Wednesday and Saturday, a special matinee will be given on Good Friday.

"A Pair of Queens"

Word was received Saturday night by Lawrence Bolman, manager of the Alexandra Theatre, to the effect that the comedy, "A Pair of Silk Stockings," would not be seen in Toronto next week. In its stead, the management has been fortunate in securing a new H. H. Frasse farce, entitled, "A Pair of Queens." It is claimed that "A Pair of Queens" is the funniest farce-comedy yet produced by Mr. Frasse, and in Toronto is assumed of a real comedy treat. Seats will be placed on sale Thursday at the box office for all performances.

Shea's Theatre

For this week the Shea management announces as the headline attraction Sam Chip and Mary Marble, presenting their musical fantasy, "The Clock Shop." The novel sketch serves to introduce a company of eight clever people in song, dance and musical numbers. "The Dare Devils of War" is a thrilling two-act extravaganza, photographed on the Italian front and from the deck of Italy's largest cruisers. Frank Milton and the clever De Long sisters will present their latest rural comedy sketch, "The Diamond Palace." Al Herman, "The Assassin of War," has a large following in Toronto. Lady Sen Mei, a dainty Chinese prima donna, sings the latest melody in both English and Chinese. "Big Burlesque Carnival"

This week's attraction at the Gayety will be Joe Hurlig's "Big Burlesque Carnival" presenting a program of modernized burlesque, vaudeville and modernized burlesque. This season the management has endeavored to give the burlesque into a plane which bears favorable comparison with Broadway burlesque. In "High Society," with Leo Wrothe, will be found the most pretentious offering ever seen with an attraction of similar class. This gingerly musical farce is divided into two big

ALEXANDRA CARLISLE

with E. H. Sothorn in "The Two Virtues."

sections, the first of which transpires at the Belmont Racetrack, New York, and the second at the patent office at Washington, in which Miss Carlisle plays the part of a "Flying Dutchman," the chief examiner. There are over 20 big musical numbers and special surprises offered throughout the big double program, including a bevy of 24 pretty girls.

"Rolling Stones"

Beginning this evening at the Grand Opera House, Edgar Selwyn's most recent success, "Rolling Stones," will open a week's engagement, which includes the usual Wednesday and Saturday matinees and a holiday matinee on Good Friday. The cast includes nearly all the members who were so largely instrumental in adding to its success during its long Broadway engagement. The play is presented under the management of Selwyn and Company, and as an endorsement this means much to Toronto theatregoers, who now come to look upon a Selwyn attraction as always worthy and of the first-class. The engagement has more than a double interest for theatregoers, as its author, Edgar Selwyn, is a native son, and his success as a playwright has been closely followed and admired by every theatregoer of Toronto. "Rolling Stones," which is described as a comedy of adventure, is said to be Mr. Selwyn's best play, and this is saying much for his previous successes, "Pierre of the Plains," "The Country Boy," "Nearly Married," and "The Arab," have all been considered dramatic works of more than ordinary merit.

"Jardin de Paris Girls"

Hilarious comedy, exceptional vocal features and songs and dances for the chorus, one that goes with ginger and snap, are some of the characteristics of the style of entertainment to be offered by "Queens of the Jardin de Paris," the attraction at the Star Theatre. This is the show that is burning up the big city time burlesque circuit, where it is one of the main attractions and is creating a big noise because it has been doing better than any other burlesque show in many of the faces are now in burlesque, and that the equipment, including many changes of stunning wardrobe, is also new, has added greatly to the interest.

The Madison

The cast embraces the names of some exceptionally clever performers, and the chorus is one of the best in burlesque.

Big American Cabaret

Saxophone music, the latest New York fad for modern dancing, will be introduced at the Arena next Thursday night when the officers of the American Legion put on the Big American Cabaret to raise funds for the battalion. All dancers will wear blue and red, and Mrs. Mosher, who will direct the floor, have arranged to supplement their big orchestra of 20 pieces with the addition of the Saxophone. Toronto's only theatrical district, the big program will be announced tomorrow. Every cent of the proceeds will be given to the American Legion. Tickets are also on sale at the Carle-rite, the theatre of Valerie St. Cyr, a notorious beauty, and her deserted daughter, Joan.

Strand Theatre

The feature at the Strand Theatre today (Monday) is "The White Sister," by F. Marion Crawford, and with Viola Allen in the title role. The photo-play, which is in six fine acts, is a consummate triumph of genius. There is the genius of Viola Allen, who made her greatest success in this part on speaking stage; there is the genius of Marion Crawford, whose masterpiece of ingenious tragedy, and there is the genius of superb artistry in the manner in which it is produced. It should do tremendous business at the Strand.

Contest Correspondence.

CONTEST CORRESPONDENCE. Motion Picture Editor: Toronto. Please find three votes in favor of Miss Grace Cunard. I was very much disappointed when I read in The Toronto World this morning about Miss Cunard being displaced by Mary Pickford, but I don't think her acting is equal to that of Miss Cunard. I frankly hope that this accomplished actress (Grace Cunard) will regain her standing of head of the contest.

WHY IS IT ANYWAY? 600 Church street, Toronto. Motion Picture Editor: I am enclosing two votes for Theda Bara, who, I think, is worth many more than she has received. How an actress of her class can have so few votes is a mystery to me; however, I hope to see her do better in the closing weeks of the contest.

GLAD FOR RUTH. 64 and 66 Louisa St., St. Catharines. Dear Sir: We are two girls who are admirers of Ruth Roland, and we were quite surprised to see that she had only 12 votes, as far as we are concerned. We enclose a few coupons in her favor, and also wishing her every success.

HARD-WORKING HOBART. Toronto. Motion Picture Editor: Enclosed find my vote for Hobart Henley. I can't understand why he is not further up in the motion picture contest. He is one of the hardest-working actors that ever acted before the camera, and he plays the part of a gentleman and play the part of a ruffian the best I have ever seen. He ought to get the votes because he works for them. Half of these other actors are almost white as they come on the stage, but when it comes to getting their coat off and working they are not in it with Hobart Henley. He can act next. Hoping to see this in your next edition, as I think it will influence others.

WORSE THAN THAT. Brampton, Ont. Motion Picture Editor: My favorite in the movies is Helen Holmes and it is a perfect shame the small amount of votes she has received. I wish her luck and hope she will get more votes. I have seen many of her plays, and wish to see more.

HE MAY DO IT. Toronto. Motion Picture Editor: Find enclosed six more votes for the queen of the screen, Mary Pickford. I was quite surprised to me to see the lead Miss Pickford has over our favorite. I am seriously thinking of giving a day's vacation to canvassing for enough votes to put Miss Pickford at the head of the list with a few hundred votes to spare, so here's hoping to see Little Mary away ahead next week.

ADVICE FOR MANAGERS. Bloor street. Dear Sir: It gives me much pleasure to enclose four coupons for the queen of all moving picture stars, Ella Hall. It seems a pity that some of the leading Bloor street houses do not give us once in a while an Ella Hall film. My advice to the said houses is to mix them up once in a while, and it is due the regular film bugs a glimpse of that little lady who has been absent so long from West Bloor street.

Neurasthenia or Exhaustion of the Nervous System.

It is quite possible for the nervous system to be considerably exhausted before you realize the seriousness of your condition. You do not feel up to the mark, are easily tired out, worry over little things, and get cross and irritable, but do not consider yourself sick.

For this reason we shall give an outline of the symptoms so that you may be warned in time and use preventive treatment at a time when it will do the most good.

1. General discomfort—excitement and depression alternating.
2. Headache and sometimes dizziness, and deafness.
3. Disturbed, restless, unrefreshing sleep, interrupted by dreams.
4. Weakness of memory, particularly of recent events.
5. Blurring sight, noises and ringing in the ears.
6. Disturbance of sensibility or feeling, as in hands, or, with women, in the breasts.
7. Coldness of parts of body or flushing and sweats.
8. Lack of tone, easily fatigued, dyspepsia.
9. Fear to be alone, or in a crowd, fear of things falling, fear of travelling, etc.

These symptoms indicate that the nerves are being starved for lack of rich, red blood. Certain elements are lacking which can best be supplied by Dr. Chase's Nerve Food.

This cure is easily available and awaits along your action in applying it. There is no question of the merits of this food cure. Enquiry among your friends will prove to you that many thousands of women, and men, too, are being restored to health and vigor by use of Dr. Chase's Nerve Food.
