DEFEAT OF RED ARMY COMPLETE

Disaster That Led Bela Kun to Go to Entente Details Smuggled Through Show Wild Flight on Fifth Day of Conflict With Rumanians

Berlin, July 31.—(By the Associated Press)—The Tugendhat's Budapest correspondent was able to smuggle through the censorship of Bela Kun what he says are the details of the defeat and spontaneous flight of the Hungarian Red army, a defeat which, he asserts, led Bela Kun to hasten to Vienna to treat with the Entente regarding a retirement. The Red offensive against Rumania, the correspondent declared, was inspired by Bela Kun. He hoped to deflect the attention of the troops from the miserable food conditions in Budapest and its vicinity by sending them against Rumania in a last vague hope that they would succeed and, by victory, find themselves in a more prosperous country. There had been countless desertions, however, the correspondent continues. The commander of the army, General Bela Kun, was placed in the hands of General Staff Colonel Jullio, who declared that he was so Bolshewist, but was taking command because he was forced to do so. The situation therefore was unfavorable. At the start the Rumanians were caught by surprise and forced back over the Theis river, but they soon recovered and came back with such strength that the Red Army simply melted away and fled back over the Theis, leaving behind a trail of destruction. "Bela Kun," the correspondent declares, "sent the army against the Rumanians to avoid a crisis which is now the worse because in their defeat the troops have melted and deserted to such an extent that the army consists only of four divisions and fourteen batteries, most of the guns having been lost in the retreat."

MATTERS BEFORE THE CITY CO. COMMISSIONERS THIS MORNING

Authority for the extension of the sewerage system along Park street as far as the residence of N. E. Moore was recommended at a committee meeting of the common council today. Commissioner Jones explained that this work would be paid for out of maintenance funds and would eventually become necessary in making the connection with the new sewerage system from Hawthorne avenue.

Urban J. Sweeney made application on behalf of a client for a five year lease of the stores on the southern side of the Charlotte street entrance to the city market, commencing May 1 next year. The matter was referred to Commissioner Thornton.

Commissioner Fisher said that if the new tenants were willing to take the lease at an increase he was in favor of it, but the old tenants should be given an opportunity to meet the higher figures. The erection of two electric light posts at the Germain street entrance to the store of M. R. A. Ltd., was recommended.

On motion of Commissioner Bullock the department of harbors was authorized to purchase from G. S. Maye a quantity of timber for harbor work at \$96.

The matter of the payment of \$450 for a year's rental of the offices occupied by the returned soldiers' employment service was taken up. The mayor said that during the time a representative of the department, Major Johnston, was in the city, the premier had asked the city to contribute to the service by paying for the rent of an office, as was done in other cities in Canada. The council was to receive more particulars about the matter, but the first intimation they had received was a bill for \$450 referred to them by the employment service.

Commissioner Fisher said that he was not in favor of paying the bill without first knowing what the province was contributing to it.

In view of the fact that the office was assisting local returned soldiers to find employment Commissioner Thornton thought that the bill should be paid this year and further information requested before further liability was assumed.

On motion of Commissioner Jones, a payment of the first year's rent was recommended, with only Commissioner Fisher dissenting.

TRAVELERS HAVE THEIR PART OF CELEBRATION WELL ADVANCED

The enthusiastic manner with which the commercial travelers have taken a hold of their share of the entertainment to be provided for the returned men on the 14th, commends itself to all public spirited citizens.

It is assumed that the travelers will entertain pleasantly and well. Their committee are working to give the boys entertainment that will not soon be forgotten. They will soon be in a position to take the public into their confidence regarding the programme to be offered.

The Belgian government today prohibited temporarily the exportation of Belgian coal to any country.

The Austrian Cabinet Falls

Renner's Government Decides To Resign

ITALIAN RELATIONS BETTER

Tittoni Wards Off the Dangerous Subject of Fiume — Japanese Statesmen's Demand — Wilson Fails to Convince Quartette of Opponents

Vienna, July 31.—(Via Bern)—The Austrian cabinet headed by Dr. Karl Renner has decided to resign.

Austrian governmental affairs have recently been in a rather unsettled state. Last week Dr. Otto Bauer, the foreign minister, resigned his post, largely, it was said, because of dissatisfaction at his failure to obtain important advantages for Austria in the negotiations leading up to the formulation of the peace treaty. Chancellor Renner, however, alleged the gap caused by Dr. Bauer's resignation by taking over the duties of the foreign office himself in addition to those of the chancellery.

Italian Relations Better. Paris, July 31.—(By the Associated Press)—That Signor Tittoni, Italian foreign minister and a member of the Italian peace delegation, has brought about a much better feeling among the great powers toward Italy and Italy's aspirations seems apparent from discussions heard in peace conference circles, and articles appearing in the French newspapers.

It is said that Signor Tittoni has studiously refrained from discussing the Adriatic problems and has confined his efforts to looking after Italian interests elsewhere, with the result that much of the irritation created by the long controversy over Fiume is disappearing and the way apparently is being paved for a more amicable consideration of Italian claims in the Adriatic, notwithstanding the split which recently took place between Italian and French soldiers.

SIX TRANSPORTS ON THE WAY HOME WITH OUR MEN

Six steamers are now on their way to Canada bringing more of our boys from the other side and it is expected that another few days will see some more families face about the city, for some of the boats will undoubtedly have some St. John lads aboard. There are not so very many yet to come from this city but some homes are still waiting for the return of one in khaki and hoping that one of these ships will have him aboard.

Three of the steamships are due at Halifax—the Cedric and Celtic on Saturday, August 1, and the Adriatic on August 2, the other three at Quebec, the Saturnia on Saturday, the Scotian on Sunday and the Canada on August 7. The Empress of Russia has reached anchor but it is not thought that she had any troops aboard for this district.

NEW BUREAU IS ESTABLISHED; SHOWING ITS WORTH EARLY

A Soldiers' Housing Bureau has been installed in the Imperial Theatre building, with Miss M. H. McCloskey in charge. The object is to have one central place where those who wish to accommodate soldiers during Soldiers' Day can make the necessary application, stating how many they can take and what meals they can serve them. It is requested only that they give the men food and breakfast, as the Commercial Travellers are arranging to feed them at the other two meals. Rest rooms will be installed throughout the city, and signs stretched across the streets showing where to go, making the men feel that they are the guests of the city. Some of the people who live out of the city for the summer, and whose homes here are closed, have offered to pay the expense of the lodging of men they could accommodate at any place where the committee wish to send them. The office hours at this bureau are from 9.30 to 12 a. m., and from 2 to 5 p. m., and those wishing to make application to entertain soldiers may call M. 4098. From the number of applications taken this morning, the committee are very much encouraged.

BRITISH NAVAL FORCE TO BE SENT TO RUSSIA

London, July 31.—The British government is arranging to send a naval force to Russia to cover the evacuation of the Archangel district by the troops there. A contingent of regular army troops also is being held in readiness to assist where necessary.

The Bank of England rate remains at five per cent.

CANADA MAY HAVE NEW MINISTER OF FINANCE THIS WEEK

Sir Henry Drayton The Man it He Will Accept WILL BE IN OTTAWA FRIDAY

either Dr. Tolmie or Dr. Rutherford For New Minister of Agriculture — No More Cabinet Changes For The Present

(Special to Times). Ottawa, July 31.—Sir Henry Drayton will return to Ottawa tomorrow. While there is nothing official and Sir Robert Borden is giving away no secrets and is not to be trusted, the general belief is that Sir Thomas White is the man who will be named to succeed Sir Henry Drayton as minister of finance.

One thing is certain, the new finance minister will have to be on the job soon in order to make arrangements for the new loan which will have to be floated in the fall. Sir Thomas White is assisting in the organization and has called together the national committee to meet tomorrow to discuss details.

However, to give driving power it is necessary to have a minister on the job by the end of this week. The new minister of agriculture may also be appointed in a few days. It seems to have narrowed down to a choice between Dr. Tolmie of Victoria, B. C., and Dr. Rutherford of the railway commission. Both men are outstanding live stock authorities. Dr. Tolmie looks like the favorite.

Outside of these two appointments the cabinet re-organization will not extend far. Reconstruction will take place piecemeal, although there will likely be a general shake-up before parliament meets.

LOCKOUT AT BOTH OREST AND HAVRE

From July 31.—The Associated Press—The lockout at Orest and Havre has been declared a strike because of the demands of the dockers' union.

Paris, July 31.—The lockout on the docks of Havre has become effective. 3,500 men being out. The union of employers is required to carry on the work for the French quartermaster's department.

Clavelle, minister of public works, has called a meeting of the men in Paris today.

Men from Havre on July 29 were to the effect that the union of employers of the port and city, considering the port workers' union, had decided to stop all work in the port from July 30.

JAPS IN CLASH IN MANCHURIA AND SIXTEEN KILLED

Tokio, Monday, July 29.—(By the Associated Press)—A second official statement on the incident at Kwang Chai places the Japanese losses at sixteen officers and men killed and eighteen others wounded.

The previous report of the incident referred to has been received. The place mentioned probably is Kwang Chai, Ten, about 100 miles west of Kirin in Manchuria.

The communists allege that four Japanese, including an officer, were tortured before death. It is understood that the foreign office has instructed the Japanese minister at Peking to investigate the circumstances and take steps to obtain satisfaction.

The Washington news yesterday passed a bill to deport undesirable aliens. Under it the government may send home enemy aliens now interned in the United States.

WHAT SOME OF THE TAX BILLS SHOW

Some of the citizens are today proposing of brand new tax bills, and others are waiting for the blow to fall. It can hardly be said that those who are already in possession of their birthright are overjoyed at what the little slip of paper means to them. The property owner in Union street, who was called upon to contribute \$294.71 last year has received a bill for \$475.58, an increase of more than 60 per cent. Other people have received bills which are in the vicinity of \$200 more than 1918.

The owner of the \$60 increase said that he did not feel increased at the extra amount, but he certainly did object to another bill which was attached, which called for a payment of \$26.20, this year's total for \$475.58, an increase of more than 100 per cent. The contribution for the pavement of Union street. He said that he was taxed for the paving and up-keep of other streets in the city and he did not see any reason why he and the abutters in Union street should be also obliged to pay for the pavement in that street.

BOYS SMOKING CAUSE BIG FIRE

Hotels, Stores and Other Buildings in Casselein, Ont. Destroyed

Ottawa, July 31.—Fire yesterday afternoon did damage approximating \$160,000 in the village of Casselein, Russell county. Two hotels, four stores, a livery, a garage and a saw mill were destroyed. The blaze was caused by young boys smoking in or near a livery stable which was destroyed.

FORCE REDUCED

The strength of the Canadian military police corps in Military District No. 7 was reduced today to ten men and the A. P. M., Captain Goodbody, the only one required to carry on the work of the military police in this district.

BANK CLEARINGS

St. John bank clearings this week were \$2,888,518; in 1918, \$2,293,851; in 1917, \$2,115,018. Halifax bank clearings for the week were—\$4,000,965; last year, \$3,300,390. Halifax clearing for June 1919, \$2,977,989; last year, \$1,938,602.

NOVELTY SHOWER

A shower was tendered Mrs. Leney C. Porter in honor of her recent marriage at the home of Mrs. George Jenkins, 297 The Avenue, by the friends of the bride. Games, music and dancing were enjoyed. Refreshments were served. The shower was a very enjoyable evening was spent.

PAVING KING STREET

Work on the semi-paved pavement was started in King street this morning, commencing with the lower end of the street near the Bank of Montreal. This pavement when completed will be the same as is now laid in Charlotte street between King and Union.

SCHOOL TEACHERS ATTENTION

Dr. A. F. Emery is calling a meeting of the school teachers on Monday afternoon at three o'clock. The object is to secure their interest and co-operation in the school children's demonstration on the morning of August 14.

FAIR VALE SPORTS

The programme of sports arranged for Saturday next at Fair Vale include a baseball match between the Customs House Stars and a nine from Fair Vale. Other events are announced by Frank Belyea as manager to include a quilt match, mile canoe race, boat race, swimming race, running race, three-legged race and tug-of-war.

WEATHER REPORT

Issued by authority of the Department of Marine and Fisheries, R. F. Stupart, director of meteorological service.

Synopsis—Pressure is high over the western provinces, while a shallow trough of low pressure is moving eastward across the Great Lakes. Except for a few light showers in southwestern and northern Ontario, the weather has been fine over the Dominion.

Fine; Then Unsettled. Maritime—Moderate southwest winds, light today and on Friday early, then becoming unsettled. Keweenaw, Gulf and North Shore—Moderate westerly winds, fine today; local showers on Friday. New England—Showers probably to-night and Friday; warmer in Connecticut and western Massachusetts tonight; moderate variable winds.

TERMS OF PEACE WORSE THAN THOSE OF WAR, SAYS MARSHALL FOCH

London, July 31.—Marshal Foch, submitting to interviewers at his hotel here yesterday, said to a reporter of the Mirror: "For me the terms of peace are worse than those of war. I hate all this posing."

Major General Maxime Weygand, who is accompanying Marshal Foch, said it was for Great Britain to decide what should be done with the former German Emperor. "He is covered with shame and ignominy and branded as a coward," the general declared. "The French people think that is enough punishment."

HAVE ARMENIANS IN SAD PLIGHT

Turks and Tartars Surrounding Them and Relief Supplies Are Cut Off

Paris, July 31.—(By the Associated Press)—Turks and Tartars are moving upon the Armenians from three sides. They have cut off the American relief supplies and threaten all the remaining Armenians with extermination unless additional military protection is afforded, according to dispatches from Major Joseph C. Green of Cincinnati, who is directing the American relief administration's work from Tiflis.

BACK TO OLD HOME FROM STATES BY AUTO ON SUMMER VISIT

Grant Keirstead, of Hartford, Connecticut, and his brother, Ernest Keirstead, of New York City, are registered at the Hotel St. John River in Hartford and New York by automobile, by way of Woodstock. They say that the scenery down St. John River is incomparable with that in the White Mountains. They say that there is nothing that will attract the people like good roads and knowledge of what the country is like. Both men are natives of Kings County, born at Cornhill, but have not been down here for some years. They left this morning for their old home where they expect to spend some time visiting friends and relatives.

Grant Keirstead is treasurer and manager of the City Coal Company of Hartford, also treasurer of The Hartford Cement Company and also of the City Auto Company, while Ernest Keirstead is the general manager of the Fairbanks Baking Powder and the Valley Bakers Incorporated of New York City. Rev. Dr. W. C. Keirstead, of Fredericton, is a brother and was in the city this morning meeting his brothers.

LONG DROUGHT IN THE WEST BROKEN

Calgary, July 30.—General rains throughout the southern section of the province yesterday and last night indicated that the long drought has been broken and the situation as regards feed shortage for cattle is rapidly improving.

UNEMPLOYED IN WINNIPEG PLACED AT 10,000 TO 12,000

Winnipeg, July 31.—According to a statement by officials of the Dominion Employment Bureau here between 10,000 and 12,000 persons are unemployed in the city of Winnipeg at the present time.

HON. MR. BELAND AT HEAD OF COMMITTEE

Toronto, July 31.—A despatch from Ottawa to the Globe says: "Hon. H. G. Beland, four years a prisoner of war in Germany, has been appointed head of the Liberal committee to frame a policy for the recognition and reinstatement of returned soldiers, the care and education of the wounded and the aid of the widows and orphans of the fallen."

CLASH OVER THE USE OF NAME OF LABOR MINISTER

Spirited Incident at Hearing of Labor Leaders on Charge of Seditious Conspiracy

Winnipeg, July 31.—A clash between opposing counsel which, for a time threatened to become serious, featured the preliminary trial of the eight labor leaders for seditious conspiracy yesterday afternoon. E. J. Murray, counsel for the defence, cross-examined Alderman J. K. Sparkling, asked in reference to the appointment of Major H. B. Lyle as head of the special police: "Would it be wrong if I suggested that Major Lyle was brought here by Senator G. D. Robertson?"

A. J. Andrews, crown prosecutor, sprang from his chair and said: "That is not a fact, I know very well that it is not a fact." He thought it distinctly improper for the defence to make suggestions not known to be correct. "Nothing could be more ungentlemanly, more cowardly," he said, "than to make a suggestion that reflects upon a minister of the crown when he is not present. Even counsel for the defence can be a gentleman."

Magistrate Noble said if the object of the question was to throw mud on the minister of labor, it should be objected to. The minister should not be made the subject of insinuations by counsel. The incident ended after some further discussion with the statement by Mr. McMurray that Senator Robertson was a warm personal friend of his and that he had no intention of throwing discredit on him.

NORMAL SCHOOL INCREASES IN SALARY PASS

Board of Education Approves of Committee's Report—School Inspector Resigns; Another Resumes

(Special to Times). Fredericton, N. B., July 31.—The committee of the board of education which was appointed to consider the matter of salaries paid members of the staff of the provincial normal school and which was composed of Premier Foster, Hon. W. J. Roberts and Dr. W. S. Carter, chief superintendent of education, has reported to the board in favor of making the following increases to date from July 1. The report was approved by the board of education on July 29:

Dr. H. V. B. Bridges, principal, \$2,100 to \$2,500.
H. Hagerman, \$1,700 to \$2,000.
A. S. MacFarlane, \$1,700 to \$2,000.
G. A. Inch, \$1,600 to \$2,000.
Margaret R. Lynds, \$1,100 to \$1,500.
W. J. Smith, \$500 to \$700.
Alpharet Belliveau, \$1,600 to \$2,000.
F. A. Good, \$1,600 to \$2,000.
Ira Baxter, \$1,000 to \$1,200.
B. B. Barnes, \$1,500 to \$1,600.

In regard to Mr. Barnes, the recommendation was that the initial salary be \$1,600 until the maximum of \$2,000 is reached.

Ex-Aid, and Mrs. Dennis J. Shea announced the engagement of their daughter, Mary Marguerite, to J. P. Gallagher of St. John.

Col. C. W. Peck, V.C. M.P., arrived here by steamer last night and this morning left by C. N. R. for the North Shore.

H. H. Pitts of Ottawa, a former resident of Fredericton and member of the New Brunswick legislature, arrived here today.

E. F. Bradt, deputy minister of agriculture, left this morning for Chatham to go over the district of District Representative Bremner.

Lieut.-Col. G. W. Messerum of Donkton, who went overseas as officer commanding the 182nd battalion, has resigned as school inspector for District No. 1. P. G. McFarlane, M.A., who resigned the principality of St. Stephen High School to become acting inspector in place of Col. Messerum, has been appointed inspector in his place. There were no other appointments.

Major A. J. Brooks, who went overseas with the 104th battalion, has returned and will resume his duties as school inspector of District No. 5. S. A. Worrell, who was acting inspector, will become principal of schools.

W. E. ROSCOE K. C. DEAD

Digby, N. S., July 31.—One of the best known lawyers in the province, W. E. Roscoe, K. C., of Kentville, died suddenly at Westport this morning. He had not been well for some time and he went to Westport a week ago in the hope that the change of climate would benefit him, but the complication of diseases from which he was suffering proved too much for him. He was sixty-nine years old. He leaves two daughters, Misses Ethel and Lulu at Kentville, and two sons, Col. H. W. Roscoe, D. S. O., and Major Murray Roscoe, now in Siberia.

IN BRIDES HONOR

A handkerchief shower was last evening tendered Miss Jean Alexander by several of her friends at the home of Miss Genevieve Killen, St. James street. She received many pleasing souvenirs in honor of her marriage, to take place in Montreal, soon.

Foch Pays Eloquent Tribute to The British

OUR OWN TROOPS INCLUDED

Speaks in London on Smashing Drives After August 1918—Eulogistic Reference to Field Marshal Haig—Freedom of London to Allied Commander

London, July 31.—(Reuter's)—Acknowledging the freedom of the city and the presentation of a sword of honor yesterday Marshal Foch paid eloquent tribute to the magnificent qualities of the British and dominion armies in the great counter-attacks after August, 1918, and said that after their dash and bravery were unsurpassable. He said they never stopped smashing the German war machine and would have gone through to the Meuse or the Rhine but for the armistice. (Local closure.)

As Ypres. Marshal Foch's tributes to the British and dominion war efforts were couched in the most glowing terms. For example, referring to the early days of the war, he said: "At Ypres in 1914 did I not see the first British corps resist victoriously the enemy's violent attacks, despite the heaviest of losses? On the Somme in 1918 your armies gave proof of their incurable ardor, and this gallantry was shared in by the dominion contingents. As for material, guns, ammunition, gas, airplanes, tanks of what magnitude, the volume of production did your country not show itself capable?"

After describing how France, bleeding sorely and tired, struggled, with similar courage, he said: "After that who could doubt the outcome of the war? Once again the justice of history was to give its ever unquestionable judgment, namely that nations are clearly invincible when, having sufficiently advanced on the road to civilization, they concentrate without reserve their moral and material resources to all their energies in the struggle for liberty against peoples fighting for domination."

Tribute to Haig. Referring to Field Marshal Haig, Marshal Foch said: "He spared more than any other the lives of his men. What interview we had during those last six months, he from the north and I from the south, despite great distances and fatigue sought each other like two big brothers in order to live in closest intimacy and insure by absolute community of ideas the more and more rapid march of our armies. He had to do so to force events. On November 9th I sent Field Marshal Haig the following telegram, feeling certain I should be joyfully followed by him and his army: "The disorganized enemy, owing to repeated attacks, is giving way along the whole front. It is essential to maintain and accelerate our operations. I call upon the energy and initiative of the commander-in-chief and their armies in order to secure and render decisive the results obtained."

Marshal Foch concluded: "Let us select the glorious dead who sleep in France. Faithfully, piously and jealously, we shall guard them and keep their memory alive, to us they are a testimony and a pledge."

GOOD THINGS COMING TO THEATRES OF ST. JOHN

Mary Pickford as "Judy" in "Daddy Long Legs"

Quaint Humor Injected into Screen Version of Famous Story And Play by Director Marshall Neilan

One of the funniest of all the humorous things with which Mary Pickford's new and best feature, "Daddy Long Legs" which will be seen at the Imperial, starting next Monday, is loaded in a series of scenes in which Mary, as Judy Abbott, takes too much hard cider. The funny childless little "drunk" orphan child Miss Pickford plays, with a very freckled face have just lead a "prune strike" in which they have sought to obtain better food for the children of the asylum, who are fed on this soup and prunes. A thief who has been stealing from a passing wagon throws over the fence a jug of hard cider, and some sandwiches. Judy and the boy have been praying for food. They think this drop of Heaven, and proceeded to eat and drink without inquiring into the nature of the donation. So it happens that in the most innocent way both children become "happy." Miss Pickford's portrayal of the surprised Judy, who punishes her enemies, gives joy to all the children and defies the urge of a matron is wonderfully done.

BERT LYTELL AGAIN AT THE IMPERIAL

Favorite New Star in Another of The Red Book Fictions—Compelling Personality

Possibly no movie star has gained popularity more rapidly than Bert Lytell, whom St. John people will be interested to know is a son of the well known W. H. Lytell, famed in local dramatic circles in those good old by-gone days. Following closely upon his stage triumphs Mr. Lytell becomes a cinematograph favorite. In the picture which is to grace the Imperial Theatre certain for the remainder of the week, "Boston Blackie's Redemption," the good-looking actor presents one of his outstanding successes. In "Boston Blackie's Redemption," the good-looking actor presents one of his outstanding successes. BLOODSHED TODAY IN QUEBEC STRIKE

Quebec, July 31—There was bloodshed this morning among the textile strikers at Montmorency Falls early today. About sixty strike-breakers arrived on a train at seven forty-five this morning, but were not permitted to disembark. Three hundred strikers preventing them from landing. A picket of twenty special constables rushed the strikers and rescued the workers, but had to club some of the strikers and a constable had pressed, had to fire in the air. Three or four strikers were slightly injured. The strike at the Davis shipbuilding plants, both in Quebec and Lévis is still on, but everything is quiet.

BACK TO CUSTOMS. Lieut. "Bud" Tippett has again laid aside the king's uniform and will return to his position with the customs service tomorrow. He was the first returned soldier to be appointed to the service in St. John and served with the customs until the formation of the depot battalion, when he was given a commission. He will be welcomed again by his friends in the civil service tomorrow.

No Reduced Fares on Special Trains for Soldiers' Day

Citizens' Committee Makes Public Telegram From Railway War Board—Committee Decides not to Accept \$20,000 or upward Offered by Local Government to Help Defray Soldiers' Fares—Their Reasons

At a meeting in the Mayor's office this morning, members of the committee in charge of arrangements for the celebration on August 14 and 15, a telegram was read from the Canadian Pacific Railway War Board which reveals very serious difficulties in regard to transportation for the soldiers in all part of New Brunswick who might desire to come to St. John for the two days' celebration. On July 29 the St. John committee wired to the president of the C. P. R. and the chairman of the Canadian National Railways, asking that reduced fares be granted and special trains provided in order to bring thousands of returned soldiers to St. John on August 14 and 15 and urging that the most favorable possible concessions be made in these matters.

As the railways are under the jurisdiction of the Canadian Railway War Board, the St. John committee's request was referred to the War Board, and at today's meeting the following telegram from the War Board, was read by Mayor Hayes:

"Your telegram of 29th to the presidents of the Canadian Pacific and Canadian National Railways has received careful consideration, and in view of the extended itinerary of the Prince through the dominion, and the number of soldiers requests likely to be received from other sections, and the pressure upon the railways for the equipment required to handle returned soldiers, it is not thought wise to grant reduced rates at this time and thereby add to the numbers to be handled."

"THE CANADIAN RAILWAY WAR BOARD" This telegram was followed by a discussion in which Mayor Hayes, Premier Foster, A. O. Skinner, S. H. Hayes, Major Vassie, Major M. P. McLeod, E. S. Carter, W. H. Golding and others took part.

Premier Foster, on behalf of the local government, had on Wednesday told the Citizens' Committee that the government would contribute to the committee \$20,000 or upward towards defraying the railway fares of soldiers coming to St. John from various points in the province for August 14 and 15. In view of the telegram containing the decision of the Canadian Railway War Board, members of the committee this morning expressed the view that passenger accommodation on the train to facilitate matters in connection with bringing the soldiers here, but that it would be unwise for the citizens to accept the government's contribution inasmuch as the train accommodation to handle thousands of soldiers could not be had. The committee felt that responsibility for this situation must rest upon the Canadian Railway War Board, and that the board's statement that the necessary railway equipment cannot be had must be accepted as final.

As it now stands the outlook is that the number of visitors, soldiers and civilians, will be greatly limited from lack of train accommodation, though it is expected that the regular train on August 14 and 15, and probably on the preceding day and the day after, will be crowded to capacity. The Citizens' Committee is making every endeavor to arrange for the housing and entertainment of the soldiers and civilians here under these conditions, but at this morning's meeting it was thought wise to make public all the facts of the situation just as they are.

SCHOOL CHILDREN WANTED To attend the rehearsals being held in the High School building on Union street. There was a large and enthusiastic gathering yesterday, but the number wants to be doubled or quadrupled. Will the parents kindly instruct their children of school age to put in an appearance. Some of the older boys are greatly needed. All school children of the immediate locality outside the city are welcome. There were more than fifty from Fairville present today.

The Fairville firemen met last night to decide what part they would play in the celebration on Soldiers' Day. It was unanimously decided that they should attend the parade in a body and help out in any other way in their power.

A FURTHER DISCUSSION ON THE HARBOR

More Definite Word of Terms From Ottawa Before Action Taken

The question of putting the harbor into the hands of a commission was discussed in committee by the common council this morning and after some consideration was given the subject it was decided to defer further action until more definite particulars of the terms under which the new scheme will be arranged are received from Ottawa. It was also decided that in the meantime a conference of the city commissioners with our representatives at Ottawa would be arranged and it was suggested that representatives of the board of trade harbor committee and a member of the board of railway commission should be asked to attend. The mayor presided and all the commissioners and Recorder Baxter were present.

Commissioner Bullock asked the mayor if anything official had been received from Ottawa regarding what the agreement set forth and under what conditions the harbor would be handed over. Until this was received he did not think that anything could be done. If, however, it was decided to abstain without receiving word from Ottawa, it would be necessary to have the acceptance of the price offered by the government agreed to by a three-quarters majority of the council. A survey should be made of the harbor revenue and the sources of the harbor revenue and a report submitted to the government. Then would it be in order to put the matter before the people for a plebiscite.

Mayor's Statement. Mayor Hayes informed the council that he had already written the government asking for the particulars of the terms of the scheme. He said that there was a great difference of opinion amongst the public with regard to the harbor, and he suggested that the council confer with our representatives at Ottawa, and the public official expressed the belief that the use of five regiments of state troops has effectively quelled the race riots which resulted in thirty deaths and the injury of more than 1,000 persons.

Commissioner Fisher suggested that a representative of the board of railway commissioners might also be asked to attend the conference. Commissioner Jones said that before he was in favor of discussing the matter, but that he had changed his opinion. He said that he had had a long talk with the House of Commons somebody representing the city might attend, but this had not been done.

Commissioner Jones said that before he was in favor of discussing the matter, but that he had changed his opinion. He said that he had had a long talk with the House of Commons somebody representing the city might attend, but this had not been done.

Comparing the revenues of Montreal and St. John harbors, Commissioner Bullock said that last year Montreal's revenue was \$2,100,000, while St. John had earnings amounting to \$189,000, but Montreal had not received any of the business that St. John had. Of the amount collected in Montreal, \$887,000 was for the same charges as the revenue had in St. John, namely, top, and side wharves, warehousing, etc. He said he was in favor of holding out for a price of \$2,200,000.

The mayor said that the feeling was put into commission and it was suggested that the council pass a resolution to this effect. This was done in Ottawa, July 1915, the price set then being \$2,500,000, and the resolution included provision for the operation of the ferry by the city. The price was later reduced to \$2,200,000. The mayor thought that St. John should have offered this figure, but the opposition of the western members had brought it down to \$2,000,000. The harbors of Portland and Boston were in competition with St. John and they were carrying on a campaign to attract business, being assisted by the war.

On motion, it was decided to postpone further discussion until more definite information had been received from Ottawa, but the mayor's suggestion as to holding a conference on the matter was agreed upon.

WEEKLY REPORT ON CROP CONDITIONS IN NEW BRUNSWICK

(Department of Agriculture.) Fredericton, N. B., July 30—Haying operations have been held up by recent average. Rains are coming at a time that will result in the heads filling well, resulting in good quality grain. Some damage is expected to the more advanced grain from blight as a result of the storms; when it took place the yield will be reduced to some extent. The potato crop is growing well and gives promise of being a good crop. The blight has been reported to be plentiful and the late blight. This blight is both controlled by spraying with the bordeaux mixture.

Recent rains will prolong the growth of pastures which have been good up to the present. Live stock generally are reported in good condition, one report stating that cattle were never in better shape. Lambs are also growing well. There will be some high-class lambs to market from the province this year. The apple crop is growing well. Most orchards will yield a good crop. The peach has developed quite an extent under the present conditions. Raspberries will be benefited greatly by recent rains. There appears to be a good crop. Corn coming on the market quite freely at the present time and selling at from thirty cents to thirty-five cents a box.

THE AUSTRIAN CABINET FALLS (Continued from page 1)

Through the gaining of advantages elsewhere, it is said that Simon Titton is planning to resign. The cabinet question can be compromised in a manner that will save the conference from the prospect of a threatened break over Fiume.

The German Warships. Paris, July 31—Division of the German and Austrian warships among the Allies was discussed at length yesterday by the supreme council but no decision was reached.

The council approved a report of Marshal Foch recommending the immediate expulsion of the German army from Latvia, where General Von Der Goltz and other German officers are endeavoring to become insolent and are declaring to prevent the Letts from establishing a firm government.

The council approved a clause in the Bulgarian treaty guaranteeing the rights of minorities and also the ports and waterways clause, subject to final boundary decisions, which have been delayed through failure to agree on the question of Thrace.

WASHINGTON FALLS TO CONVERT THEM. Washington, July 30—The peace treaty with Germany was discussed by President Wilson today with four more Republican senators, all of them understood to be unwilling to accept the League of Nations in its present form.

The question of including reservations in the senate's ratification of the treaty understood to have been the chief topic of discussion, some of the president's critics telling him that unrestricted ratification was impossible, and Mr. Wilson reiterating his aversion to any change or qualification of the treaty.

Each of the senators indicated afterwards that his views had not been changed.

Strong Japanese Denial. Tokyo, Saturday, July 18—(By the Associated Press)—I declare once more with a clear conscience that Japan never acted to break her pledged faith to her Allies and associates in the war. This statement was made by Viscount Yasuya Uchida, foreign minister, with regard to reports that Germany and Japan had entered into secret negotiations for an alliance during the war.

The Peace Date. Paris, July 31—The French cabinet today approved the proposal that peace should be considered to exist officially from the date of publication in the Official Journal, of ratification of the German treaty by the chamber of deputies, when completed. It was decided that the ratification of the German treaty should be considered to exist from the date without awaiting the completion of treaties with other powers still at war with France.

Paris, July 31—The members of the supreme economic council left today for London where the council will meet tomorrow to discuss plans for the continuance of inter-Allied control of supplies.

BOY TRIES TO PUT DOG INTO WATER; THEY BOTH DROWN

Quebec, July 31—The nine year old son of Paul Alain, a city fireman, was drowned by falling from the car ferry wharf in the harbor yesterday afternoon. He was urging his dog into the water when both fell over the side of the wharf. The lad seized the dog's collar and both were drowned before help could reach them.

ALLEGED CONSPIRACY TO STEAL FROM C. P. R.

Montreal, July 31—With the arrest of Donat Sauve, M. Joly, station agent at Ste. Scholastique, and two special C. P. R. constables, what is thought to have been an organized conspiracy to steal and dispose of thousands of dollars worth of articles from the Angus shops during the last six months is uncovered. All the men pleaded not guilty. According to the C. P. R. counsel, there was a regular clearing house for stolen goods.

Shooting In New York Follows
Quarrel — Hotel Watchman
Kills Detective and Fellow-Em-
ployee

New York, July 30.—Something snapped in the brain of John E. Rodgers, an elderly, faithful and trusted night watchman at a 7th street hotel, and he suddenly went mad, killing two men and then committing suicide.

So far as the police could learn there was absolutely no apparent motive for the strange crime. One of the slain men was a police detective the slayer had never seen before; the other was a fellow employe at the hotel, with whom the watchman had squabbled over petty differences.

The only plausible explanation of the murders and suicide was that Rodgers' weak brain broke under the strain of repeated quarrels with the other employe. The man killed was John McGoldrick, thirty years old, a porter in the hotel, and Detective James Maher of the West 86th street police station.

Rodgers went to the basement of the hotel some time after midnight and resumed a quarrel he had had with the porter earlier in the day. Only the two were present, so nothing is known of what passed between them until a shot was fired. The porter was shot through the heart and instantly killed.

Rodgers disappeared. Other employes telephoned to Edmund Brennan, proprietor of the hotel, who sent word to the West 86th street police station. Detective Maher went to the hotel and questioned Mr. Brennan and the employes, who all agreed that the watchman must have escaped from the hotel.

Two hours passed in the investigation. Maher reported what he had learned, and the police proceeded to search for the watchman. A few minutes later Brennan and the detective walked from the apartment in the corridor. Behind both was Brennan's brother-in-law, Lieut. John J. Ledwith, Ordnance Department, U. S. A.

Then came a dramatic scene. As the three men walked down the hall a figure leaped from a closet in the corridor, fired a shot from his revolver as he leaped. Brennan thinks the shot was meant for him, because he had taken the port.

The bullet entered the detective's temple and he dropped dead. Maher closely resembled Brennan in appearance. The bullet entered the detective's temple and he dropped dead.

The man in the closet was the murderer. Maher still intent upon the murderous

work he had begun two hours before. Dashing past the two other men and the body of the detective he ran up to the fourth floor, threw himself into a chair in the corridor and put a bullet into his own brain.

FINANCING FOR
WHALEN COMPANY.

Royal Securities Corporation Offers Un-
sold Balance \$1,500,000 Whalen Bonds.

As has been forecasted in the daily and financial press, public issue is now being made by Royal Securities Corporation of the unsold balance of \$1,500,000 of 6 per cent first mortgage bonds of Whalen Pulp and Paper Mills, Limited.

Judging by the reception already accorded the bonds by investors, the remainder of the securities will be quickly absorbed, for more than two-thirds of the total issue has already been placed by private sale during the past ten days or two weeks.

More than usual significance attaches to the securities of the big British Columbia pulp and paper mill, because of the purpose of the new financing is to provide funds not only for working capital but for the expansion of the Whalen Company's activities.

The difficulties confronting Sir Robert are due to the fact that it is Liberal-Unionists whom he is mainly seeking; he has a surplus of the other kind; and Liberal-Unionists who believe so strongly in the necessity of the continuance of Union government that they are willing to link their fate with it in a cabinet, are very rare individuals.

There are still Liberal-Unionists in the ranks of the Liberal-Unionist party to resolve itself into its original elements has not yet come; but there are not many of prominence who feel that way strongly enough to lend their names to what looks like a finished government.

The present effort at cabinet reconstruction may end—and many expect it will end—with very little change effected in the meantime; because Sir Robert cannot afford to throw out—let us say, stale water, before he gets in fresh. It may result in Sir Robert Borden recognizing that another man might succeed where he failed; or it may be that the disintegration of the government will come more suddenly than expected, and that even before the house meets in the autumn the beginning of the end will be apparent.

If Sir Robert can come back from the wilderness with his reconstruction effected, and the names of Liberals of real weight in his government, the situation will be altogether different; but no one now expects that he can do so.

As the time of the liberal convention draws near, interest in it increases. Up to the present, we seem to have been hearing more about those who will not be present at the convention than those who will; but the Liberals, particularly the Quebec Liberals, are very busy with their preparations for a record number of delegates. OTTAWA LETTER

Ottawa, July 29.—At this writing, Sir Robert Borden is still in the throes of cabinet making in Quebec and the capital is wondering whether he will return from that province with any trophies of his political bow and spear.

It is generally supposed that he is after big game—no less, in fact, than Sir Lomer Gouin, to whom Calder is said to have gone as an emissary some time ago, but from whom he did not bring back a very favorable report.

There is a great deal of doubt being expressed as to whether much success will finally attend Sir Robert's efforts to form a really representative union cabinet. As mentioned in this correspondence while the house was still in session, there are many in the Unionist ranks in the house and in the cabinet also, who would prefer to serve under the banner of the Liberal-Unionist party.

He would certainly carry more weight and support in the province of Quebec and, as a great many believe, in every part of Canada, than the present premier. It is not impossible that Sir Thomas will still be in the government when this is the only place in which there is sufficient inducement for him to remain.

Financial considerations are weighty, but there are few men who would not make sacrifices to have their name enrolled on the list of premiers of Canada.

The difficulties confronting Sir Robert are due to the fact that it is Liberal-Unionists whom he is mainly seeking; he has a surplus of the other kind; and Liberal-Unionists who believe so strongly in the necessity of the continuance of Union government that they are willing to link their fate with it in a cabinet, are very rare individuals.

There are still Liberal-Unionists in the ranks of the Liberal-Unionist party to resolve itself into its original elements has not yet come; but there are not many of prominence who feel that way strongly enough to lend their names to what looks like a finished government.

The present effort at cabinet reconstruction may end—and many expect it will end—with very little change effected in the meantime; because Sir Robert cannot afford to throw out—let us say, stale water, before he gets in fresh. It may result in Sir Robert Borden recognizing that another man might succeed where he failed; or it may be that the disintegration of the government will come more suddenly than expected, and that even before the house meets in the autumn the beginning of the end will be apparent.

If Sir Robert can come back from the wilderness with his reconstruction effected, and the names of Liberals of real weight in his government, the situation will be altogether different; but no one now expects that he can do so.

Up to the present, we seem to have been hearing more about those who will not be present at the convention than those who will; but the Liberals, particularly the Quebec Liberals, are very busy with their preparations for a record number of delegates. QUEBEC WILL AT LEAST BE ON HAND IN CASE THE HANDS BE SHOWN BY SEEKING THEM OUT; BUT THE CHOICE IS NARROWING ITSELF DOWN PRETTY WELL NOW, AND THE LIGHT SEEMS TO BE BETWEEN TWO MEN FROM NOVA SCOTIA, WITH MR. FIELDING A STRONG FAVORITE.

There is a bare possibility that Martin may develop unexpected strength when he is heard at the convention; but there is nothing in his past history to warrant the probability of that occurring.

Meanwhile the farmers of Alberta and Saskatchewan have swung squarely about face on the subject of their connection with politics. J. B. Musselman, who has always been a discontented spirit in the Grain Growers, and been looked on as a more or less dangerous man to occupy the prominent and well paid position of secretary, has been on the rock upon which every farmer's organization has split eventually; and for some time there has been a conservative element in the Grain Growers which has been afraid of Musselman, and would have been glad to get rid of him, but he has quite a way with a cooperation. His present effort is to form a national farmers' party, which he believes will be strong enough to dominate

the situation in Canada. His efforts are worth watching. It is not likely that he will accomplish the political ends he is seeking; but he may very well succeed in breaking up the Grain Growers' organization before he is through.

RALLY TO MEETING.

It is beyond question that St. John must house many visitors on August 14, and 15 for there will be a large number coming here to help honor our returned soldiers and to give joyous welcome to the Prince of Wales. It must be remembered that either one of these events would call for the best that the city and her people could do, and with the two joined there is the greater reason why nothing must be left undone that will make for a proper carrying out of our duties as hosts. Committees have the general celebration preparations well in hand, but the housing and feeding question must be given more thought and taken up with more patriotic interest by the people. To this end His Worship the Mayor has called a mass meeting of citizens, men and women—everyone who can attend—in the Imperial for eleven o'clock tomorrow morning. It is desired to make thoroughly known how large a problem is faced, so that the public will be aroused to realization of the part they must play. It is a duty for all who can go to the meeting, and it is hoped His Worship's call will be honored by a very large gathering.

COMMUNITY CLUBS.

In the July issue of the Canadian Municipal Journal Mr. Fred C. Middleton, secretary of Community Clubs of Manitoba, describes that movement and dwells at length upon the benefit derived from the development of the community spirit. He asserts that, if Canada is to succeed as a democracy, "individualism, sectionalism and selfishness must be replaced by altruism, co-operation and unselfish service." The people must learn to think together, work together, and play together. The community spirit must be developed. In the west, he says, a community conscience has been developing for the past three or four years, and in some cases has found expression in the formation of community clubs. In some instances the rural ministers have taken the initiative, and in others the Grain Growers' Association. Differing from organizations formed to promote the interests of one section of the community, the community club aims to bring all the people together to share in common tasks for the benefit of all. Mr. Middleton quotes a suggested constitution for a community club, as follows:—"The object of this club shall be to develop in the members of this community the art of living together in the spirit of the Golden Rule, and to so apply the principles of human brotherhood and co-operation in our relationships with each other that this community shall be a better place in which to live. "In the carrying out of this object we pledge ourselves to the support of and co-operation with every person who is filling a useful place in the life of the community. "Hence, we will each seek to get the other's point of view, believing that before there can be co-operation there must be mutual confidence and understanding. "We pledge our support to the doing of community tasks as they may from time to time be presented. "Especially do we pledge ourselves to support any movement for the improvement of community health, community recreation, and will seek to co-operate with every agency toward this end." In a word, the members are to think together, work together and play together for better social, educational, physical, moral, business and recreational conditions. Consider, for example, the question of health alone. Mr. Middleton says:—"Community health is another task facing most communities, especially as it is related to child welfare. Canada holds the unenviable record of losing 14 per cent of her babies under one year of age, and it is well to remind residents of rural centres that the percentage is higher in the country than it is in the city. Winnipeg's infant death rate, for instance, is 10 per cent. When we realize that we lost only 21.2 per cent per year of our Canadian soldiers on the battlefields of Europe, the abnormal death rate of our babies is apparent. Paced with these facts, the building of a district hospital, or the securing of a district nurse—or both—are tasks which ought to be undertaken. For there is more or less of a direct connection between infant mortality and the presence or absence of a nurse or hospital. In two adjacent rural districts, where figures were secured by the writer, the community with a hospital had a death rate of 7 per cent, while in the one without a hospital the figure stood at 14.5 per cent, just double the number of babies lost." In reply to a question as to what are the results of a movement which is still in its infancy in Canada, Mr. Middleton cites an instance from the United States, where some community clubs have been in operation five years or more. We quote again:—"This is a record of what was accomplished by a community club in a village of 1,200 population as revealed in the report of the fifth annual meeting. Membership fees ranging from \$1 to \$200 were secured, and \$8,800 spent in community betterment. In co-operation with the county council, six roads running into the village were macadamized; producer and consumer, merchant and farmer, were brought together and community

business boosted; and in co-operation with the school board, kindergarten, sewing and cooking classes and manual training classes were established. The village was situated in swampy country, and previous to the organization of the club as high as seventy-five cases of malarial fever would be reported in one year. At the instigation of the club the marshes were drained or oiled, the breeding ground of the mosquitoes destroyed, and cases of malarial fever reduced from seventy-five to three. Similar good work was done through the neighborhood house, the moving picture show, the fire department and the district nurse, all of which had either come into being or had been revived through the community club. And last, but not least, a splendidly efficient community church was in operation.

If so much could be done in a village, what might be done in a town or city? In whatever form united community effort may manifest itself, it is essential to a successful solution of the problems of democracy. Where there is apathy on the part of the citizens at large and the tasks to be performed are thrown upon a few earnest people the result must always fall short of the need. That need did not cease with the war, but is as urgent now as when contending armies clashed.

GERMANY AND FRANCE.

The British and American delegations to the peace conference agreed to a compact under which if necessary their countries would go to the aid of France in the event of German aggression. In a review of the agreement Bradstreet says:—"The treaties recite three articles of the peace treaty with Germany prohibiting the maintenance or construction of fortifications or the maintenance and assembly of armed forces either on the left bank of the Rhine or within fifty kilometers of the right bank of that river, and in case those stipulations should not assure immediately to France appropriate security and protection, the United States and Great Britain shall become bound to come immediately to her aid in case of any unprovoked act of aggression directed against her by Germany." Each treaty provides that it shall not be in force until the other is ratified, and that it must be submitted to the ratifying body, in the United States the Senate, at the same time as the peace treaty with Germany. It is further provided that each treaty must be submitted to the Council of the League of Nations and must be recognized by that body, deciding, if occasion arise, by majority, as an engagement, in conformity with the covenant of the League, and that it will remain in force until, upon demand of one of the parties to the treaty, the Council finds that the League itself assures sufficient protection. The treaty between Great Britain and France contains the special proviso that it imposes no obligations upon any of the dominions of the British Empire unless and until it be approved by the parliament of each dominion interested. This agreement is necessary because Germany, though stripped of some of her territory in the formation of the new independent nations, will still have a greater population than France, and the latter should not be left open to attack. Germany must be made to understand that aggression on her part will not be tolerated, and that the sooner she gives up all thought of revenge or of a continuance of militarism the better for herself.

DAYLIGHT SAVING.

(Buffalo News.) These things have been proved for the law: It adds 10 per cent to the efficiency of workers and the output of factories; it saves at least 1,500,000 tons of coal a year and curtails the cost of artificial power and light to an extent approximating \$60,000,000 a year; that it conserves and improves the health not only of mechanical workers, but of office forces in all lines of business; that it stimulates an increased production of foodstuffs in home gardens; that it encourages a healthy interest in all forms of outdoor diversions. These facts we have from the high-tension days of the war. And if the law was considered a good thing as a war measure, why not a good thing in normal times?

LIGHTER VEIN.
Jimmy, an office boy in a downtown office, approached his boss one morning. "If you please, sir?"
"Well, Jimmy?"
"My grandmother, sir."
"Aha, your grandmother; go on, Jimmy."
"Mr. grandmother and my mother—"
"What? And your mother too. Both very ill, eh?"
"No sir. My grandmother and my mother are going to the baseball game this afternoon and they want me to stay home and mind my little kid brother." Jimmy got the afternoon off.

Brown is a brave man, and when one night he heard a noise downstairs he promptly arose, took a poker, and proceeded to investigate the cause.
On reaching the hall, the light of the candle he carried revealed a burglar in the act of leaving the house.
"Hi!" cried Brown. "Come back!"

The burglar turned and gazed in surprise at Brown.
"What's the matter?" he inquired. "Have I forgotten anything? Ah, of course. The silver candlestick you are carrying. Thank you so much."
Then, before the astonished Brown could realize what had happened, the burglar seized the candlestick and vanished into the night.

GERMAN STATE TRIBUNAL TO INQUIRE INTO AND FIX RESPONSIBILITY FOR WAR

Berlin, July 31—(By the Associated Press)—A state tribunal is to inquire into and fix the responsibility for the war. It will be composed of the supreme court of the empire, whose president will be chairman. He will be assisted by the president of the military court and the judges of the Prussian, Bavarian and Hanseatic high courts. In addition, ten assistant judges will be elected, five by the National Assembly and five by a committee of the German states. The tribunal will be empowered to pronounce only upon the question of guilt. It will not impose punishment.

RUSSIA READY TO GIVE SPITZBERGEN ISLANDS TO NORWAY

Paris, July 31—(By the Associated Press)—The Russian political commission in Paris has advised the peace conference commission which is considering the disposition of the Spitzbergen archipelago which lies in the Arctic ocean between Franz Josefland and Greenland. The Russians are willing to have Spitzbergen given to Norway. The belief is expressed by the Russians, however, that it will be necessary to have an international convention to protect the rights of persons of various nations having property in Spitzbergen.

RECENT DEATHS

Miss Mary Florence McGill.

The many friends of Miss Florence McGill will regret to learn of her death which occurred yesterday at the residence of her parents, Mr. and Mrs. Frederick McGill, 327 Charlotte street. She has been in failing health for some time. She is survived by her parents and by two sisters, Rose and Alice.

The funeral will be held on Friday morning at 8:45 o'clock, old time, to the church of St. John the Baptist. Requiem high mass.

STATESMEN SUE LONDON PAPER

London Daily News Apologizes to Chamberlain, Long, Sir Eric and Sir Auckland Geddes

London, July 31—Writs were issued yesterday against the London Daily News on behalf of J. August Chamberlain, chancellor of the exchequer; Walter H. Long, first lord of the admiralty; Sir Eric Geddes, minister without portfolio, and Sir Auckland Geddes, minister for national service and reconstruction, for alleged libel.

The specifications of the alleged libel concern comments on charges made by the Weekly Nation that the statesmen possessed shares in various Russian mining and development companies, some of which were purchased since the armistice with the Teutonic allies was concluded and therefore while Great Britain was hostile to Russia.

The Daily News today prints an apology to those suing and says that its investigation has proven its imputations to be baseless.

REPORTS TO SOVEREIGN GRAND ORANGE LODGE

Initiations and Reinstations 10,058; Deaths During the Year 2,069

Ottawa, July 31—At yesterday afternoon's session of the Sovereign Grand Orange Lodge reports from various grand officers were received, the most important being that of Wm. Lee of Toronto, grand secretary. During the year thirty-one new primary lodges, two district lodges, and one county lodge were installed. No fewer than 1,001 new members were initiated and 1,181 reinstated. During the year 2,069 deaths were recorded.

The grand treasurer, Isaac Crawley, reported \$96,948 had been paid to widows and orphans and other beneficiaries; since 1881, \$1,240,000. The reserve fund is \$147,386 and the loss through the war was \$84,400.

An address of welcome was presented by the five worshipful mistresses of the L. O. B. A. The grand lodge gave them a royal welcome.

FORMER CHANCELLOR MCKENNA GIVES UP THE POLITICAL LIFE

SECRET MOVEMENT IN BRITISH HOUSE TO HOLD LIQUOR REGULATIONS

London, July 31—The Daily Mail says that in connection with the prohibition campaign in England the members of parliament who sympathize with it will conduct an energetic secret movement in parliament to maintain the existing liquor control regulations established during the war and especially the restricted hours of sale.

The paper asserts that these members are trying to persuade Premier Lloyd George to receive a secret deputation.

FAMOUS FINANCIER DRA

Had a Very Bad Attack

Bowel Complaint

IT WAS CURED BY DR. FOWLER'S EXTRACT OF WILD STRAWBERRY

Any one suffering from bowel complaints such as diarrhoea, dysentery, colic, cramps and pains in the stomach, summer complaints, etc., will find that Dr. Fowler's Extract of Wild Strawberry will give quicker and more permanent relief than any other remedy on the market today.

This old tried and proven medicine has been on the market for the past seventy-four years. You don't experiment when you buy it. Surely the test of time proves this.

Mrs. Daniel Hartwick, Mountain Grove, Ont., writes: "I used Dr. Fowler's Extract of Wild Strawberry and have found that it is a good remedy. When my little girl was 2-3 years old she had a very bad attack of bowel complaint. Nothing prescribed by the doctor seemed to do her any good. She got worse, until we thought we would lose her. I got a bottle of Dr. Fowler's, and she soon found relief. Every one who has children should not be without it in their house."

Price 25 cents a bottle; put up only by The T. Milburn Co., Limited, Toronto, Ont.

WANT 28 CENTS FOR CHEESE

Ottawa, July 31.—With a view to having the fixed price of cheese raised from twenty-five cents to twenty-eight cents a pound, farmers from all parts of Central Canada will hold a mass meeting here on next Tuesday afternoon. After discussing the situation delegates will draft a memorial to Sir Robert Borden.

It was Monday afternoon. A woman rushed excitedly down an alley in a certain quarter of Manchester and stopped at a house. She knocked once very nervously; no reply. A second knock, but still no answer.

Presently the window above was hastily flung open and a woman, whose general disarray betrayed signs of a nervous evening, leaned out.

"The woman below looked up and exclaimed hurriedly: "Mrs. Skinner, yer 'usband got ten days."

"Oh, dearie me, Mrs. Jones," replied the other. "Ow you did frighten me. Ah thought it was that wretch after the rent agin."

FINDING OF SKULL
RECALLS OLD MURDER

Discovered in Pond at Woonsocket
—May Be of Angele Parmen-
tier, Who Was Killed Seven
Years Ago

Woonsocket, July 31.—The finding of a human skull in Social Pond has led the police to seek to determine whether it is that of a man or woman, and particularly whether it may be the missing head of Angele Parmentier-Deleorle, whose headless body, weighted with stone, was found seven years ago in the Blackstone River and for whose murder Henri Deslovers, now a fugitive from justice, was twice tried in the Superior Court.

State Prison to await a third trial and while awaiting this, escaped on Sept. 21 last, with Wilfred Carpenter, who was serving a seventeen-year sentence. Carpenter was killed in Philadelphia a few months ago while participating in a robbery. Deslovers is still at liberty.

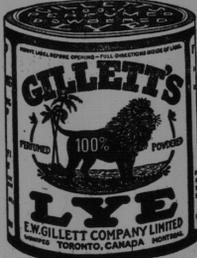

MILLION AND QUARTER BUT
SHE MUST REMAIN WOOD

Elizabeth N. J., July 31.—Under the will of James H. Alexander, a native of Toronto, one of the pioneer oil men of the country, and an associate of John D. Rockefeller and Henry M. Flagler, who

died here in February, the income of an estate valued at \$1,968,700 is left to his widow on the condition that she does not marry. In the event of her marrying again, the estate is to be divided among three sons, Howard T. James Leon and Earle. The estate consists chiefly in holdings of oil companies subsidiary to the Standard Oil Company.

Ludendorff Puts Decision to Retain Control of Belgium Up to Kaiser.

Berlin, July 29.—(By the Associated Press)—Responsibility for the crown council's decision in 1917 that Belgian territory must be held was placed upon the former German emperor by General Ludendorff in a communication, published today by the Deutsche Tageszeitung.

General Ludendorff's letter said that great headquarters merely sketched the military situation and stated that measures they believed necessary to protect Germany's west frontier in an economic way. The former German emperor, General Ludendorff said, decided the question and his decision was binding upon military headquarters.

My milk problem
solved with powdered separated milk.

KLIM is a dry powder.
Change it into liquid by dissolving in water.

PURE—CONVENIENT—ECONOMICAL
Klim is all of these and solves your milk problem for this summer.

PURITY: New pasteurized separated milk received in the cool of each morning is used for producing Klim. The instantaneous change by the "spray process" from liquid to snow-white Klim makes it safe. It is packed in clean tins without being touched by human hands. Government bulletins prove our separated milk powder pure and genuine.

CONVENIENCE: Have a tin of Klim in the house and you can bake or cook anything requiring milk without thinking about your milk supply. Use it regularly. Have it handy to use just as you use sugar and flour. It is a staple food for every home.

ECONOMY: There is no waste when you use Klim for baking and cooking and other purposes. No sour milk accumulates to be thrown away. No ice is needed. Klim keeps indefinitely in the original tin until all used up.

Order a one pound tin from your grocer with your next order. You will then soon be using the ten pound tin.

HEADS COMMITTEE
TO FEED SOLDIERS

General Committee Goes Into
Various Matters in Preparation
for the Celebration Here

The general committee, having in mind the arrangements for the entertainment of the returned soldiers in St. John on August 14, met yesterday afternoon in the board of trade rooms from the point of view of attendance at the meeting was not a grand success and when the housing and feeding problem came up for general discussion there was an outburst of expressions from several present that the citizens, general speaking, were dead and not alive to any gigantic undertaking they had on hand. However, there were others who expressed confidence in the citizens of St. John and added that when the people were aroused to the real issue and realized what was wanted, they would really be the best people in Canada. After the storm had passed there was a motion that a general mass meeting of citizens be held in the Imperial Theatre Friday morning at 11 o'clock. It was clearly brought out that every public spirited citizen should come to this meeting when the problem of handling the returned men who will be here for the Soldiers' Day celebration will be thoroughly gone into and see just where the city stands in this very important feature of the two days' activities.

Harry Ervin, also of the band and parade committee, spoke at length. He referred to the enthusiasm of the labor men. They have already asked for a grant to carry out their feature of the parade. The price for bands would be quite high, he said. The letter carriers had met Tuesday evening and were willing to turn out to fourteen outside fire departments to come and take part and bring any possible features. The Chatham department would come and bring their own brass band. They have made inquiries about rates on the railroad. The Halifax chief had written that he was calling a meeting and it was expected that a delegation would come from the sister city.

Speaking of the matter of bands, Mr. Ervin said that there were four brass bands, one juvenile band, one fire drum band, with a possibility of securing bands in Moncton, Fredericton, Chatham, St. Stephen and places in Maine. Some inducement, he thought, would have to be made to get the outside bands to come here. The railroad fare was the question that was stopping a number of the bands and others interested from coming. This, he added, should be looked into.

A. O. Skinner remarked that he thought there was a band committee already appointed. Commissioner Baillock asked if it were not possible to get the band that was accompanying the ship, bringing the prince, to give the people of St. John a concert. To this Mr. Ervin said that the band would likely be dispatched to Rothesay, and it would be impossible. The matter, however, will be looked into, and the expression came from W. H. Golding that an official effort should be made to have the band stay in St. John instead of being taken away outside the county entirely.

R. S. Sime on behalf of the commercial travelers reported that their work was proceeding well and a similar report was given by R. J. Wilkins of the parade committee.

Mr. Kubring reported concerning the work of her committee on the matter of accommodation for visiting soldiers. An office has been opened in the lobby of the Imperial Theatre, Main 4098, and any person having available rooms should phone there. The hospitality committee, he made a central body to attend to sleeping and feeding the soldiers, with auxiliary committees, and a motion to this effect carried.

Different speakers expressed themselves strongly about the small attendance and the apparent indifference of citizens in general. A. O. Skinner suggested that a special meeting of citizens be held at some central place to let them know how urgent the matter really was. W. H. Golding followed in similar vein and offered the Imperial Theatre as a place of meeting. This offer was gratefully accepted. Mr. Sime considered it a disgrace the way people had kept out of participation in the preparations for

the celebration, but Mrs. Kubring expressed confidence in St. John and said the people would help if the matter were put in their hands. Mr. Skinner said he was sure they would become more active if they had a better understanding of what was required.

On motion of Mr. Mayes, E. A. Schofield was appointed chairman of the feeding committee with the Rotary Club as his committee.

Mr. Schofield—"Well, what do you want me to do?"
Mr. Mayes—"Feed the men."
Mr. Schofield—"I'll do that. There is no great difficulty in it."
Mr. Schofield added that the transportation companies would have to be interviewed at once as it would be very necessary to have cars for the transportation of the soldiers and others. The trains, he said, were overcrowded under ordinary circumstances and for an occasion like this, special efforts for additional cars would have to be made.

Mr. Mayes replied that Premier Foster had this matter well in hand and that there was a meeting of the War Board yesterday to consider the transportation of soldiers into St. John on August 14.

The matter of building the stand at Reed's Point for the children was left with Commissioner Baillock.

The sum of \$100, was voted to Mrs. Kubring to be used in connection with the carrying on of the information bureau in the Imperial, the keeping of a lady clerk there and the securing of five large directing signs; \$700 was voted to Commissioner Thornton as the decoration committee for the decoration of King Square; \$2,000 to the band and parade committee in connection with the parade which is really the most comprehensive scheme of the day's program.

The members of the fire department and salvage corps met with Commissioner Thornton last evening to discuss arrangements. Chief Blake presided. The men asked the commissioner to obtain a grant of \$1,200 for erecting one post per company, but the commissioner said he was not in favor of asking the council to grant such a large amount. It was decided to ask the general committee to obtain this amount or as much as possible. It was definitely agreed upon that the department take part in the celebration but action was deferred until the common council was heard from. Chief Blake offered a list of \$50 for the best decorated piece of fire apparatus in the parade. A committee consisting of K. J. MacKie, A. N. Cunningham, C. R. Clark and F. W. Ring was appointed to confer with the general committee.

Mathborough Lodge, Sons of England, at a meeting last evening decided to take part in the parade and are preparing a float for the occasion.

SAYS ROADS GOOD
IN NEW BRUNSWICK

Bangor Automobile Club Bulletin
Direct Motorists For Tours

Recent roads bulletins issued by the Bangor Automobile Club contain information of interest to motorists, particularly those planning on trips into New Brunswick, as will be seen by the following paragraphs:

Road Conditions in New Brunswick

Almost all the interior roads of New Brunswick radiating from St. John, are in good condition.

Between the border and St. John there are some stretches of highway that are still somewhat rough, but these are being smoothed as quickly as possible.

Between St. Stephen and St. Andrews and for nine miles east of St. Andrews the road is in excellent order.

The bridge crossing Diddageash river will be completed in about three weeks. Until then a detour will be necessary. About three miles of this detour are rough.

Between the Diddageash bridge and St. George the road is good. East of St. George, as far as Fenfield Ridge the road is good. There are some rutty spots between that point and Lepraux.

As this area is a difficult one to keep in condition a detour which will bring the road closer to the shore is planned for next season. From Lepraux to St. John with the exception of my fourth and fifth narrow highway at Spruce Lake, the traveling is good.

There are many delightful side trips from St. John. The run to Grand Point along the shore of the beautiful Kennebec has no equal in contentment. A ferry carries the autoist to cross the river and enjoy another run westward toward the St. John river, from which there is an excellent road back to the city.

The run to Loch Lomond and further on to St. Martin's-by-the-Sea, is a very attractive one.

Another charming trip is along the banks of the St. John river to Westfield or beyond to Fredericton and Woodstock. The country from St. John is rough and narrow and there are some jumpy spots on the road, but the river scenery is so beautiful that these little discomforts are forgotten.

HALIFAX WOMAN
SPEDS HUNDREDS

Mrs. Francis Bentley Suffered
for Twenty Years—Finds
Relief by Taking Tanlac.

Remarkable, indeed, was the statement made by Mrs. Francis Bentley, of 38 Brunswick avenue, Halifax, in an interview recently. Mrs. Bentley declared that three bottles of Tanlac have done her more good than other treatments and medicines that have cost her hundreds of dollars, which she has paid out during the past twenty years in her efforts to find relief from stomach trouble and nervousness.

Mrs. Bentley has resided in Halifax all her life and her many friends will be glad to learn of the wonderful improvement in her health. Following is her complete statement:

"During the past twenty years I have suffered beyond words to tell from stomach trouble and nervousness, and while it may sound unreasonable it's the truth, three bottles of Tanlac have done me more real good than all the other treatments and medicines I have ever taken combined, and besides my husband I have dozens of friends who can tell you the same thing. My stomach was all out of order and I would have nervous attacks when I would tremble all over just like leaf and sometimes I would have to hold on to something to keep from falling to the floor. I also had frequent dizzy spells and at times would feel as if I was going to faint. I couldn't sleep and I would have nervous headaches. Many a night I never slept more than two hours. I was so nervous and unmanageable and my appetite so poor that I would sometimes go all day without eating a good meal. At all times I had to confine myself to the very lightest of foods and even when I would suffer terribly with indigestion and sour stomach, for four and five days at a time I couldn't turn my hands to a thing in the way of my food, really, I hardly had strength to raise my head off the pillow. Sometimes there were such awful pains across my stomach that I could hardly get up and straighten up without just suffering agony. I didn't want to go completely and helplessly stayed up many a day when I should have been in bed, and while I spent hundreds of dollars for medicine nothing did me any good to speak of."

"But some wonderful things happen to this world and the way Tanlac has helped me is one of them. A few weeks ago I noticed Tanlac being recommended by very high and there was something about those testimonials that sounded so sincere and convincing, and everyone praised the medicine so much that I told myself I would believe it would help me and that I was going to try one bottle any way. Well, the first bottle gave me good results that I got another, then another and I just kept on improving. I have just now finished my third bottle and am starting on my fourth and I can say without hesitation that I am feeling better than I have in twenty years. I haven't had one of those bad nervous spells since I began taking Tanlac. My appetite is splendid and my nerves are quiet and I am never troubled more with indigestion and sour stomach. I sleep every night just like a baby and I have gained weight and feel just like a new person. When I look back over those twenty years of suffering and pain, I am sure that a wonderful change Tanlac has made in me in so short a time I can't help praising it."

"Tanlac is sold in St. John by the Drug Company and F. W. Munro under the personal direction of a special Tanlac representative.—(Adv.)"

"America." For the fourth and final lecture of this course, Dr. James J. Walsh of New York will be the speaker and will discuss the topic "Why I Am Opposed to Socialism."

SPECIAL TAX OF \$1,000
HITS NEAR-BEER MEN
(Bangor Commercial.)
Bangor dealers in near beers were the recipients of letters from the United States internal revenue office at Portsmouth, N. H., Monday, that looks like a knockout blow at their business. They were notified to pay to the United States government before July 31, \$1,000 as a special tax required annually from every dealer carrying on a business in malt liquor. This matter came as a complete shock to the dealers as most of them had no idea of the tax. For failure to pay the tax by the last of the month an additional 25 per cent is levied after which failure to pay makes the person liable to a warrant of restraint in which case their property is seized.

There are about forty dealers in near beers in the vicinity of Bangor who are very much interested in this new turn of affairs. If such a tax must be paid it is clearly evident that the greater number of them must go out of business. Some of the larger dealers could pay the tax, it is believed, but many of the dealers have such a small business that this tax would quickly close up their places of business.

"Look at that girl! I never saw such a décolleté blouse as such a short skirt, and such transparent stockings. I'm shocked beyond words, for I always thought her a very quiet creature."
"Perhaps," laughed the Senator, "she's one of those who believe and practice the good old saying that young girls should be seen and not heard."

DOWN TO WORK IN
PREPARATION FOR THE
LIBERAL CONVENTION

Ottawa, Ont., July 30—Thursday morning in connection with the Liberal convention the national advisory committee will meet to prepare the agenda. The committee will continue its sittings on Friday or Saturday and, as the agenda has to be approved a caucus on Monday, it is possible that it will not be made public until Monday evening. The convention itself will be formally called to order on Tuesday next by D. D. McKenzie, leader of the party in the House of Commons.

The first duty of each sub-committee will be to get familiar with all the information gathered on each subject so that in later meetings of the committee and the convention members can give authoritative information on each subject. Resolutions passed by former conventions as well as those sent in for consideration at next week's convention have been mentioned so that the committee first and delegates later can know the whole history of Liberal opinion on the subjects considered.

How best to care for the dependents of soldiers killed or disabled in the war will give special consideration. Other sub-committees will deal with party organization, resolutions passed by many strict conventions asking for reform of the tariff downwards and with various other subjects of outstanding national importance on which the Liberal party declare themselves. It is certain that one small sub-committee will have for its duty the drafting of an appropriate resolution expressing the party's appreciation of the matchless services Canada owes Sir Wilfrid Laurier and the deep regret of every Liberal that death had deprived the country of his services. In the convention eloquent reference is bound to be made to the movement now progressing under the guidance of Hon. Sydney Fisher for a national monument or memorial to Sir Wilfrid Laurier. A warm reception to the idea is assured.

The convention has three duties, first, to adopt a platform; second, to decide on party organization, and third, most interesting at the moment, to elect a new leader.

GOVERNMENT POLICY
RE THE WHEAT CROP

Ottawa, July 30—The government this afternoon finally determined its policy to this year's wheat crop. The main features of a plan are:

- 1. A board to buy and market the crop of 1919.
- 2. Cash payment on account to be made to the farmer at the time he sells his wheat.
- 3. The wheat crop of Canada to be sold by the board at the prevailing world prices, and the surplus proceeds, after expenses are deducted to be distributed to the original sellers of the wheat in proportion to grade and quantity.
- 4. No speculation on exchanges or profiteering by handlers to be allowed in disposing of the wheat crop of 1919 to the disadvantage of the producer or consumer.
- 5. A direct and immediate cash sale by the farmer, and a speedy movement of the crop along the usual channels of transportation.
- 6. The personnel of the board will be known very soon as also on the initial cash payment to be made on account to the farmer at the time of the sale of his wheat.

Do You Remember
The Old Corn Doctor?

He stood on the street, in the olden days, and offered a "magic corn cure." The same ingredients, harsh and inefficient, are sold in countless forms today.

But they did not end corns, and they do not now. Nor does padding, nor does paring—methods older still.

The One Right Way
Modern scientists in the
Bauer & Black laboratories
have evolved a perfect
method and embodied it
in Blue-jay.

In 48 hours, while the corn is forgotten, Blue-jay completely ends it, and forever. Hardly one corn in ten needs a second application.

The way is sure. It is easy, pleasant, scientific. Quit old-fashioned methods. Try Blue-jay on one corn—tonight.

How to Become a Nurse

Any woman with intelligence and "motherly" instinct can learn to be a practical nurse and earn from \$15 to \$25 per week. If you cannot spend the required time in a hospital or are past hospital age, study a common-sense book on "Nursing in the Home," by Lee H. Smith, M. D. This book is written in a way that is easy to comprehend. It will teach you how to recognize different diseases; how to take temperature; how to take care of fever patients; how to give baths; all about the sick-room. It treats of burns and scalds, broken limbs, bleeding from wounds (bandaging), drowning, fainting—almost every contingency is covered.

FORUM MEETINGS
ON BOSTON COMMON

Boston, July 31—Open Forum meetings on Boston Common, which were so successful last summer, are to be held on the first four Sundays of August. They will come at 6.30 p. m. Just at the close of the two-hour band concert, the audience for the most part will be comfortably seated. In case of rain, the speaker will give a message from the pulpit of the Old South Meeting House, the historic edifice from which has gone out in the past so much of the inspiration of America. George W. Colman, organizer of the Ford Hall forums and president of the New England Congress of Forums, and people.

"Why Americans Should Support the League of Nations" is to be the first topic of this Boston Common course, and will be presented Aug. 3 by Louis F. Post, assistant secretary of labor of the United States. "The Policy of Unrestrained Violence for the Political and Industrial Development of America" is the topic on which the Rev. John Haynes Holmes of New York will speak on Aug. 10. Mrs. Beatrice Forbes-Robertson Hale, to whom the government granted a passport, at the request of the British bureau of information, in order that she might study conditions in England from first-hand facts this summer with a view to lecturing in America, during the season of 1919-20, will make her initial address after her return to this country on the Common on the afternoon of Aug. 17. Her subject will be "Reconstruction in England and

THIN, NERVOUS PEOPLE
NEED BITRO-PHOSPHATE

What It Is and How It Increases Weight, Strength
and Nerve Force in Many Instances

SHOULD BE PRESCRIBED BY EVERY DOCTOR AND
USED IN EVERY HOSPITAL

Says Editor of "Physicians Who's Who"

Take plain bitro-phosphate is the advice of these physicians to thin delicate nervous people who lack vim, energy and nerve force, and there seems to be ample proof of the efficacy of this preparation to warrant the recommendation. Moreover, if we judge from the countless testimonials and the fact that it is continually being advertised for the purpose of making thin people heavy, and replacing ugly hollows and angles by the soft curved lines of health and beauty, it is a guarantee of satisfaction of men and women who keenly feel their excessive thinness.

Thinness and weakness are often due to starved nerves. Our bodies need more phosphate than is contained in modern foods. Physicians claim there is nothing that will supply this deficiency so well as bitro-phosphate. It is now recognized by every doctor in ever increasing quantities. Frederick Kolbe, M. D., editor of New York Physicians, "Who's Who" says: "Bitro-phosphate should be prescribed by every doctor and used in every hospital to increase strength and nerve force, and to enrich the blood."

Joseph D. Harrigan, Former Visiting Specialist to North Eastern Dispensary, says: "Let those who are weak, thin, nervous, anemic, or run-down, take a natural, undiluted substance such as bitro-phosphate and you will soon see some astonishing results in the increase of nerve energy, strength of body and mind and power of endurance." Bitro-phosphate is made entirely of the organic phosphate compound referred to in the National Standard Dispensary as being an excellent tonic and nerve and a preparation which has recently acquired considerable reputation in the treatment of neurasthenia. The standard of excellence, strength and purity of its substance is beyond question, for every Bitro-phosphate tablet is manufactured in strict accordance with the U. S. Pharmacopoeia test requirements. Bitro-phosphate is therefore not a patent medicine and should not be confused with any of the secret nostrums, so-called tonics or widely advertised "cure-alls."

CAUTION:—Although Bitro-phosphate is unsurpassed for relieving nervousness, sleeplessness and general weakness, owing to its tendency to increase weight it should not be used by anyone who does not desire to put on flesh.

LOYAL ORANGE ORDER

St. John Represented on Committees of Grand Lodge of British America

Ottawa, July 30—Plans calling for the extension of Orangism throughout British America that will have for their object the assistance of the general work of reconstruction now that peace has come, will be considered and acted upon by the ninetieth annual convention of the grand lodge of the Loyal Orange Order of British America which opened here today.

The announcement that such plans would be submitted for consideration of the delegates was made by Grand Master H. C. Hocken, M.P., in his opening address. He said that the Orange Order must build for much bigger things than has been the case in the past so that better success to the country and the cause of Protestantism can be rendered. "Whatever the future may hold for

Ireland," said Mr. Hocken in referring to the Irish question, "the people of Ulster may depend upon the Orangemen of Canada giving them all the support within their power. Sinn Finn rebels should not rule Ulster. The war has torn the mask from the face of nationalism and revealed the nationalists as the implacable foes of the British empire, as the allies of the most ruthless despotism that ever threatened to subjugate the world and an dangerous opponents of human freedom."

The sessions are being held in St. George's parish hall and will continue until Friday. About 600 delegates are in attendance from all parts of Canada, Newfoundland and neighboring British possessions.

Grand Master Hocken is presiding, assisted by Deputy Grand Master George D. Wright, of Charlottetown (P. E. I.). During the session the following standing committees were appointed, as far as the maritime provinces and Quebec are concerned:

Finance—J. W. Penny, P. G. treasurer, St. John. Petitions and appeals—G. F. Walsh, P. H. G. M. (P. E. I.)

Credentials—N. A. Palmer, P. G. M. (N. B.); J. C. Gosling, provincial G. M., Quebec. Correspondence—M. W. Bros, Rev. Rural Dean Sanders, D. G. chaplain, B. A., Quebec; Rev. T. C. Wardlaw, grand chaplain, Nova Scotia; T. A. Kidd, G. M., O. Y. B.; F. Kerr, county master, St. John county (N. B.). Suspensions and expulsions—Rev. J. F. McFarlane, county master, Pontiac county, Quebec.

CARDINAL MERCIER TO SEE COUNTRY WHERE UNCLE WAS MISSIONARY LONG AGO

When Cardinal Mercier visits the United States he is looking forward to visiting the great northwest, to satisfy a life-long wish to travel over the country from which his uncle returned bringing such "wild and woolly" stories that the cardinal, then a boy, used to delight

in sitting up until he was summarily ordered off to bed. The story was told by Rev. Dr. Peter Joseph Stryckes, the cardinal's secretary, who arrived at New York on the steamship Lorraine. They come over to make arrangements for the visit of the Belgian prelate who will arrive in New York between Sept. 15 and 20.

Dr. Stryckes is vice rector of the American College University of Louvain. The cardinal's uncle was Mgr. Croquet, a missionary in the northwest when that country was real wild and when the principal inhabitants were Indians. He had some thrilling experiences and more than once he looked death in the face. When he became old he returned to Belgium.

TALK OF TORONTO

GETTING WASHINGTON FRANCHISE AGAIN REVIVED

New York, July 27—The remaining of the baseball map this fall, so far as it pertains to the major leagues, seems a certainty. Even this early, those baseball leaders who look to the future consider the issue a most vital one, and the prediction is made that a real reconstruction period for baseball is ahead.

A return to normal conditions has occasioned some weakening of the baseball fabric and already plans are on foot to strengthen where changes would be of benefit. Washington, with its war prosperity at an end, has, even with Sunday baseball been a disappointment in the matter of attendance, and the talk of substituting Toronto for the nation's capital

has been revived, with the chance of the switch being made much better than in the past.

In the National League two changes are contemplated. St. Louis and Philadelphia have failed to come up to expectations, and Minneapolis and Baltimore are the cities that are being considered for berths in their stead.

Judgment Regarding "Parasite" Quashed

Toronto, Ont., July 30—Judge Morson this morning quashed the recent conviction by Magistrate Kingsford against Rev. B. H. Spence, secretary of the Dominion Alliance, in connection with the famous "Parasite" banned by the censor.

The judge took this action because no attempt had been made to circulate the "Parasite" after it was published.

The conviction carried with it a fine of \$2,500 or four months' imprisonment. On other points the magistrate was justified in his decision said the judge, and Spence was accordingly not given his costs.

FIRE THREATENED SERIOUS DAMAGE AT FREDERICTON

Several Wooden Buildings in Queen Street, West, Destroyed With a Loss of Several Thousand Dollars.

Fredericton, July 30—Damage to the extent of several thousand dollars was done here by a fire which broke out at 9:30 o'clock tonight in the stable of the Victoria Hotel, Queen street West. That building was destroyed as was also the stable of the City Hotel, adjoining, a building used by A. F. Randolph & Son, used as a stable and warehouse, and the stable of the Belvoir Hotel, and building occupied by Abe Levine and containing a large quantity of wool which was damaged with its contents. All of these structures were of wood and some had shingled roofs, the embers from which were carried a long distance. Fortunately there was little wind and the fire did not spread. This section of the town contains a great many wooden buildings and fire once well started would wipe out the whole city.

The structures destroyed or seriously damaged are the Victoria Hotel stable, occupied by A. Ferris, and owned by Frank McCafferty, the City Hotel stable, occupied and owned by W. B. Lintie, the well known horseman, a building occupied by A. F. Randolph & Son, and owned by Mrs. Beiford Phillips, the Belvoir Hotel stable, occupied and owned by Fred Kelley, and the building owned and occupied by Abe Levine. Mr. Kelley carried no insurance but it is believed that the other properties were well covered. The origin of the fire is unknown, but the blaze made considerable headway before it was discovered and the quick response of the fire department was all that saved the situation.

Fredericton, N. B., July 30—Reports from Perth state that the water in the river there has risen about three feet and the water in the river at this city is also high. The St. John River Logging Company's drive which was abandoned at Perth a few weeks ago will be resumed and John A. Macdonald, inspector for the company, left this evening for Perth to superintend operations.

Fredericton, N. B., July 30—Considerable damage has been done by the electrical and wind storm which swept over New Brunswick and reached the properties of a tornado. In Carleton county between Florenceville and Centreville, eleven barns were raised by the tornado while at East Florenceville the warehouse of B. F. Smith & Co., Ltd., a building about 100 feet in length, was smashed and blown to bits. Fifteen or twenty trees in its path in East Florenceville were uprooted, and telegraph, telephone and electric light poles were bowled over by the tornado which swept over a territory about quarter of a mile in width and carried everything before it.

MARITIME BRANCH OF THE C. M. A. MEET IN MONCTON

Hope to See Maritime Trade Conference and Tour Next Year Such as is Being Held At Calgary.

Moncton, N. B., July 30—Some important matters were under discussion at a meeting of the executive of the Maritime branch of the Canadian Manufacturers' Association held here today, with President Angus McLean, of Halifax, in the chair.

Delegates from the maritime branch will be appointed later to attend the industrial conference at Ottawa. H. R. Thompson, secretary, was appointed to attend the big trade conference in Calgary next month.

It was decided to take up with the provincial governments the question of having next year a maritime trade conference and tour similar to that being held in Calgary.

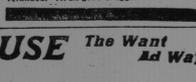

The trade and commerce department at Ottawa will be requested to arrange for visiting British journalists and other British delegations coming to Canada to visit the commercial centres in the maritime provinces.

The Spark Plugs Tell the Tale of Motor Power

However good your motor, it cannot produce its highest power without efficient spark plugs.

The spark plug, in turn, depends on the insulator which must withstand the same hammering blows of gas explosions and the same rapid expansion as the steel cylinder in which it is placed. That is where 3450 insulators in

Champion Dependable Spark Plugs prove their superiority. 3450 separate experiments have produced in Champion insulators a material so much like steel in its ability to withstand the hardest punishment that it is practically indestructible.

There's a Champion Spark Plug that will make every engine, no matter what its purpose may be, produce its highest power.

You'll find Champion Spark Plugs in our

TELL STORY OF REVOLVER SHOTS

Firing in Room of Queen Hotel Last Night Caused Bit of Commotion

In the police court this morning one man, charged with drunkenness, was remanded.

Thomas Whittle was charged with being drunk in Princess street, but pleaded not guilty. Harry York was charged with being drunk and also charged with discharging a revolver in a room in the Queen Hotel, Princess street. Policeman Linton, who was doing duty in Charlotte street at the time, gave evidence that, about 11.15 o'clock last night, he heard four or five revolver shots. He found three men in the window drinking and found two bottles and a glass broken under the window. The officer said the bottles had contained liquor and were also obtained on prescription, having come from a vendor there.

The policeman said he went into the hotel and telephoned for help. Policemen Leah, Thomas, Spinnay and Detective Saunders arrived. The proprietress, Mrs. Frances Holden, asked that the men be ejected from the house. One man, Sergeant Frank O'Leary, escaped. The two dependants were put out in the street and the policemen arrested them. The policeman then went to the room to investigate. They found bureau drawers on the floor, and in one drawer a .38-calibre revolver, said to be owned by York. It had five empty shells in it, and the barrel was broken. The window in the room had been broken. The proprietress of the hotel said that her husband told her not to go up to the room alone, as he heard shots fired. When asked if she requested the police to arrest the offenders, she said no. She told the court that at first the noise sounded like a fire blow out across the street, but no attention was paid to it till she heard the glass fall. The policeman then came in and said he heard three shots in the house, but she said she told him there was none.

Sergeant Frank O'Leary, who was summoned to court, gave evidence that he met two men in the street a short time before and they seemed to be under the influence of liquor. They went up to York's room and were having a chat and smoke, when York took a revolver out of the bureau and began to flourish it. As a matter of precaution, the witness said he took the gun and gave it to Whittle, who fired the shots out of the window into the yard below, after which he put it back into the bureau drawer. He said the glass was broken when York threw something at it and both he and Whittle told her to be careful. After this, he said, he went downstairs as he knew the police would soon be up, but the second thought went back to the room and later went home. The case was postponed, until this afternoon at two o'clock.

Roy Whelpy was charged with assaulting Clara Smith at the Dufferin Hotel this morning at eight o'clock. Miss Whipple gave evidence that she was in the employes dining room serving them at breakfast, and asked the defendant what he would have but he called her abusive names, she called him a coward and says he then grabbed her by the wrists and threw her to the floor. The defendant asked her if she did not throw a cup at him and she said: "Yes, after you let me up off the floor."

The defendant said that he was in the dining room waiting for his breakfast and this woman was asking him something, but he did not understand her as she was very disagreeable with him. She told him she would take no fooling from him and called him a coward at the same time saying she would "punch him in the face." He said that in attempting to stop her he grabbed her by the wrist, and releasing her, she got up, picked up a knife and started at him again; this time she slipped and fell on the floor. Three other witnesses corroborated the defendant's statements. A fine of \$20 was imposed on the defendant but allowed to stand provided he would pay any necessary doctor's expenses occasioned by the incident.

The service was performed by Rev. G. Pringle. The bride was given in marriage by her father, wore gown which she had covered with georgette crepe, and carried a bouquet of pink roses. The bride was attended by the bridesmaids, Miss Marion McPherson, who wore a gown of pink voile and carried a bouquet of sweet peas. The groom was escorted by the brother of the bride, Alfred McConnell. The groom's gift to the bride was a pendant set with sapphires and pearls; to the bridesmaid a pendant set with amethyst and pearls. After the ceremony a sumptuous wedding supper was served, after which Mr. and Mrs. David McPherson motored to St. John, where they will spend a few weeks before going to the United States, where they will reside. They received many presents, including money, cut glass and silver.
