GREATS ENLARGE PLANNED FOR ENVOYS

200 DELEGATES FROM ST. JOHN AIM OF COMMITTEE

Hour For Cabinet Hearing of Port Case Is Set By Premier King For Thursday Morning at 11.30

LABOR INTERESTED IN MOVEMENT Arrangements For Presentation of Claims of Maritimes to House Of Commons and Senate Are Made At Meeting Here Today

Delegates Attention!

THE transportation committee wishes especially to impress on those intending traveling via C. P. R., the necessity of promptly applying to the Canadian Pacific Railway for sleeping car space.

All requests should be received at the Canadian Pacific Railway by noon Tuesday, if at all possible, in order that sufficient accommodation be provided.

Those who have already applied can obtain tickets covering space allotted at any time, and early application should be made in order to avoid last minute congestion.

THURSDAY morning of this week at 11.30 o'clock, Rt. Hon. W. L. Mackenzie King and members of the Federal Cabinet will receive the Maritime deputation, which is to plead the case of an all-Canadian transportation policy.

Today plans moved rapidly for a second session during Thursday, with the Parliament of Canada. It is confidently hoped that definite arrangements for this second conference will be settled before the delegation leaves for Ottawa. Such a meeting would enable the delegation to place the case of the Maritime Provinces before every member of the House of Commons and Senate, and thus impress upon the representatives of all Canada the means by which the national prosperity of the Dominion can be promoted, through the adoption of a policy that will guarantee the routing of Canadian trade through Canadian ports.

Significant Event.

At a meeting this morning members of the local committee in charge of the arrangements, the plan of procedure at Ottawa were discussed. The Halifax interests were communicated with and both cities are co-ordinating in lining-up the respective delegations.

The significance of this march to Ottawa has reached the largest newspapers of the Dominion and representatives of these journals have been requested to cover in detail the preparations for the departure to the Federal capital. The movie news weeklies have also instructed their camera men here to 'shoot' the scenes at the Union Depot when the C. P. R. special parting for Ottawa. In this way will the activities of the Maritime delegation be brought to the attention of people throughout the country, the Pathé News reels being shown in all the important theatres of the Dominion.

Send-Off Planned.

Plans are now under way to give the delegation a characteristic St. John send-off. The citizens showed their enthusiasm during the hectic days of the Great War when they bid good-bye to the soldier boys; they gave vent to their feeling in no uncertain manner when a St. John girl returned from the front. From various parts of the province delegates have wired here asking that reservations be made for them, and this morning Col. Robert Innes, general manager of the Maritime Development Association sent word that he would go to Ottawa as representative of this organization.

Maybe 200 From Here.

In the meantime the list of local delegates continues to grow rapidly and there is every reason to believe that the objective of 200 will be reached.

That labor is interested in the Ottawa mission is demonstrated by the fact that the International Longshoremen's Association, Local No. 373, will meet tonight at 8 o'clock to select a delegate to accompany the deputation to the Federal capital.

G. L. Warwick, chairman of the Transportation Committee, said this morning that delegates should lose no time in getting their reservations for the trip. From various parts of the province delegates have wired here asking that reservations be made for them, and this morning Col. Robert Innes, general manager of the Maritime Development Association sent word that he would go to Ottawa as representative of this organization.

Miss Masie, the housekeeper, was awakened to find the building in flames. Here endeavors to reach the sleeping children were cut off by the flames. Firemen were unable to rescue the children.

LONDON, Feb. 23.—Although it is known through the medical bulletins issued from Buckingham Palace, that King George's condition is not serious, the fact that his physicians have ordered him to the Mediterranean for the remainder of the winter, has caused quite a stir. King George has not been to southern European health resorts since his accession to the throne in 1910, his only foreign visits having been to France during the war, and a state visit to Italy in 1923. ## CATHOLICS MAY MAKE JUBILEE IN OWN DIOCESE

**Bishop Le Blanc, in Lenten Pastoral, Speaks of Holy Year**

### REQUIREMENTS IN ST. JOHN SET FORTH

**His Lordship Will Sail From New York on April 27.**

In the Catholic churches of the Diocese of St. John yesterday was read a pastoral letter of His Lordship Bishop LeBlanc, devoted to the Holy Year and the great Jubilee at Rome. This, as has been told of from time to time, is to be participated in by both clergy and lay people from New Brunswick, who will make the journey to the Eternal City—some already are on their way there. The spiritual benefits are not confined to those who can go to Rome, it was set forth in the Bishop's letter, and there were announced in the pastoral the requirements for those who remain at home and yet may participate in the jubilee.

**Bishop Sails on April 27.**  
At the close of the letter His Lordship announced that he and other of the clergy and it was hoped, of the laity as well, would sail from New York on the way to Rome on April 27.

**Pope's Intentions.**  
The Sovereign Pontiff has declared that, during the jubilee, he has three special intentions, in addition to his general intentions, for which he asks the prayers of the faithful: (1) the pacification of peoples, peace, not so much the peace written in treaties as that impressed on souls; (2) the conversion of non-Catholics; (3) that conditions in Palestine may be ordered and arranged in the way required by the rights of the Catholic religion.

**In This Diocese.**  
"Apart from confession and communion the acts of religion to be performed instead of the visits to the four principal basilicas of Rome are left to the discretion of the bishops. We therefore prescribe for the gaining of the jubilee indulgence, in our diocese, ten visits to the Blessed Sacrament in one's parish church or chapel, either on successive days or interrupted days. These visits will last about 15 minutes during which five Our Fathers and five Hail Marys will be recited for the special intentions of Our Holy Father. Those who are unable to go to church may replace the visits to the Blessed Sacrament by as many recitations of the beads. Confession and communion are, of course, necessary for the gaining of the indulgence." His Lordship also quoted the Pope's desire for a great multitude of pilgrims to Rome and his prayer that churches that had been held apart from the Church of Rome might unite with it. The pastoral letter was concluded with an exhortation to the people to spend Lent in a spirit of penance and self-denial, and to endeavor, by their prayers and devotions, to make the holy season a time of sanctification and salvation.

## Liquor Sale By Government Opposed In Methodist Pulpit

**Rev. H. A. Goodwin Says Only Change Wanted Is Enforcement.**

Preaching in the Portland Methodist church last night on "Why the Methodist Church is Opposed To Government Sale of Liquor," Rev. H. A. Goodwin made special reference to the temperance situation in St. John, which he described as alarming. He charged the Government with not being in sympathy with the prohibitory law or its enforcement and with deliberately trying to break down the people's confidence in this law in order to obtain a change. The only change that was wanted, Mr. Goodwin held, was the enforcement of the act by the Government.

Mr. Goodwin said a plea was that when the city got half of the fines the policemen were not doing it.

He wanted to know why the city wished the liquor fines and said that if the law was enforced to the limit and the liquor traffic was done away with there would be no fines.

**Closing of Stores.**  
He recalled efforts made to have all the stores closed on Sunday in St. John and said that the council had reported to the Attorney-General the case of some poor woman or some small shop where a loaf of bread or a bottle of milk had been sold, but it was not the small shop that the welfare workers were complaining of. Speaking of government sale of liquor, Mr. Goodwin said the Methodist church was opposed to it on the ground that it was wrong. The Government was the people and as men and women of the province the people had no right to go into this business, which he declared evil. He declared that under government control the liquor business increased by leaps and bounds. He urged all to see that there was no government sale of liquor.

**Declares There Could Be Clean Up Made in Two Months.**

Rev. A. L. Tedford, preaching in the Tabernacle Baptist church last night made plain statements regarding conditions of vice in St. John and called upon the citizens and the commission-ers to put these things to rights. He said there were houses of ill repute running, and believed there were about a score of these dives. He spoke of some of the city dance halls as being infested by women who practised leading young girls astray and said also that taxis in the city were being used for immoral purposes.

With reference to non-enforcement of the Prohibition Act in St. John and the matter of city receipt of half the fines he said the city had the authority to go after offenders under the Prohibitory Act if it had the will to do so.

**Clean Up in Two Months.**  
Mr. Tedford declared emphatically that the city could be cleaned up and rid of all the grosser immoralities within two months if the Commissioner of Public Safety was willing to exercise his prerogative, if he was willing to say that the members of the police force must either clean up these dives or, if they were not willing, to see that the force was manned by those who were willing to do the work. Mr. Tedford said that the situation had been discussed with the Commissioner of Public Safety and the Mayor. Better parents were also needed Mr.

Tedford declared if the city was going to be cleaned up. The parents must give their children knowledge and inculcate deep moral convictions. The parents must also make a point of knowing where their boys and girls spent their time. Then Mr. Tedford turned to speak of the church's work in cleaning up the city, saying that church people must live Christian lives and must frown upon evil and by so doing create such strong moral sentiment that it would outlaw the wrong doer and create a better atmosphere for the children.

### United Baptist Picnic Discussed

The Baptist Sunday school superintendents met in Charlottetown street church on Saturday evening to consider a summer picnic for the united Sunday schools. A. E. Jenner was chairman and said the committee investigating the transportation end of the project were not ready as yet with their report. An invitation to hold the next joint meeting in March at the Edith avenue church was accepted. Rev. E. R. MacWilliam of the Waterloo street church, and Miss C. M. Haslam, who is here in the interest of the Canadian Bible Society, addressed the meeting. Other speakers were Rev. Dr. Hutchinson, Willard Hamilton, mayor of the Boys' Council of Moose Jaw, Sask., and D. C. Clark. A turkey supper was provided for the superintendents by C. B. Lockhart, superintendent of the Charlotte street Sunday school.

ST. JOHN, N. B., FEBRUARY 23, 1925.

CLOSING UP THE RANKS.

A wonderful chain of interest and of co-operation has been stretched across Canada within the last few weeks. Formed up with the other Canadian divisions. To-day an entirely new situation has been created. The people of the various provinces have established a new acquaintance, have begun to understand one another's problems, have focused their attention sharply upon what national transportation can do for them all, and have awakened to the importance of common action.

The Maritime Provinces, only a few weeks ago, were misunderstood by much of the population living west of the Quebec line, and, to some extent, the Maritime Provinces on their part misunderstood the rest of Canada. Through the Maritime mission, which has not only given information and understanding to the West, but which has also brought information and understanding to the East, there has been established common ground for action and also a common determination to act.

The carrying of the torch from the Maritimes to the Pacific Coast has been greatly facilitated by the fact that all along the line there are great numbers of sons and daughters of the Maritimes who have established themselves in the other provinces, to the great benefit of those districts, and who not only understand Maritime problems but who have, naturally, a deep interest in the territory in which they were born.

To-day Canadians all along this new chain of interest which spans the country have come to see that the people in the Maritimes, while they seek greater benefits from their membership in Confederation, are not only asking but are willing to give in turn. It has been demonstrated that the Maritimes have constructive ideas of national application, and these constructive ideas have been seized upon eagerly by Western Canadians, who realize how essential to-day are national policies regarding transportation and immigration, policies designed to give Canadians in every province the full fruit of national industry and of national effort.

Thus a movement which at first was probably regarded in the West as but selfishly Maritime is to-day hailed and approved as truly national in aim and in scope. As for the Maritime Provinces themselves, the penetrating discussion of our problems, followed by organization to insist upon definite remedies, constitutes a movement which is bound to exert the most beneficial influence upon the future of the whole country.

It is to be seen that on the eve of the departure of the great delegation for Ottawa a great part of the Canadian population is speaking with one voice in demanding that Canadian traffic be kept in Canadian channels, that bold policies regarding transportation by sea and land, the giving of exports and imports to all-Canadian channels, the equipment of the national ports and the more equal distribution of the benefits of all federal enterprises, be carried into effect by Parliament.

ANOTHER ARMS CONFERENCE.

It now seems probable that the disarmament conference which was to be held at Geneva next summer under the auspices of the League of Nations will fall through because of the situation created by the failure of some of the leading Powers to ratify the Geneva protocol. At all events, the Geneva conference, already clouded by uncertainty, is the more likely not to be held because another conference on disarmament at Washington now seems practically assured.

The American President was committed to the calling of another conference on disarmament even before the League of Nations decided upon such a meeting, and when recently it became unlikely that the Geneva meeting would be held, the American Government through its ambassadors took soundings in various foreign capitals to ascertain whether the chief nations would be favorable to another conference in Washington. It is said now that Great Britain, Japan, Italy and Belgium have informally signified that they favor a conference at Washington, and that while France hesitates at present, requiring further information as to the matters to be dealt with, it is expected that the French will ultimately fall into line.

While too many people despair of

the establishment of permanent peace through national agreement, and while the path toward that universally desired objective is difficult and thorny, the leading countries of the world still feel that gradual disarmament by agreement is the first step necessary in seeking world peace. They see that while Germany and Russia remain hostile or troubled, the European situation must continue difficult. Yet they feel that in all countries peace sentiment would be greatly augmented if it were known that the United States and the Allied nations had come to an agreement under which they would stop the race for supremacy in the air and would cease building cruisers, submarines and destroyers just as they ceased expanding their number of battleships.

Without such an agreement the race in armament goes steadily forward, while in the matter of land forces, Europe to-day maintains greater standing armies than it did prior to 1914. The governments of the chief nations are seldom moved by idle fears, and the movement towards another disarmament conference is due in a great measure to the realization that competitive construction, even though it is described as for defensive purposes alone, would be bound to become a terrific financial burden and that such a race, augmenting national fears and jealousies, might lead to war.

Great Britain, which together with the United States was largely instrumental in limiting the number of battleships, and which sacrificed more in that direction than any other nation because sea power is vitally essential to the maintenance of the British Empire under existing conditions, is evidently willing to go to any reasonable length to make a second arms conference successful. The British view is that if France and the United States join sincerely in the plan for the cessation of competitive building, Japan, Italy and Belgium would give their complete support, and there might then be perfected an agreement whereby several nations would share with France the task of preventing any warlike ambition on the part of Germany from becoming a real menace.

It is assumed in the premises that if there is another conference at Washington it will have to deal with armies as well as with sea and air craft, and as France has thought it necessary to maintain the most powerful army in Europe, in addition to establishing its supremacy in the air, fear has been expressed in some quarters that the French might decline to join in the proposed conference. Thus far, at least, French hesitation does not imply ultimate refusal. French finances are in a state of reduced expenditure which constitute a national crisis. The French nation has reduced expenditure through guarantees of peace. In no other way can the French avoid a financial debacle. Without France no arms conference could be a success. France may get pledges of international safeguards against Germany if she is willing to keep step with the other nations in the matter of disarmament.

It has been said that people read less in these days of automobiles, moving pictures, radio and other attractions. The contrary appears to be true, according to the annual report of the Toronto Public Library. Last year the calls for books numbered 2,122,464—an increase of 200,000 over the previous year. Of the total calls 600,000 were from boys and girls. Fifteen years ago the calls numbered only 400,000. At that time the Library was buying 8,000 books yearly; last year it bought 40,200. Less than half of the books called for were fiction.

There was talk of an expenditure of \$100,000 by Congress for a parade and a ball in Washington on Inauguration Day. The proposed appropriation has been cut from \$100,000 to \$450, and President Coolidge gets the credit for the reduction. What is to be done with the \$450 does not appear. The President has displeased Washington social and business circles, which expected an enjoyable and profitable show, but apparently he has pleased the nation by what is called an example of "democratic simplicity."

This is the day of the small investor. Recent figures show that while before the war there were in the United States only about 200,000 people who bought bonds, there are now some 25,000,000 people who own securities of one kind or another. Recently when a foreign loan was floated in New York it was found that investors of \$1,000 or less accounted for half the total. The war brought about a similar change in Canada, multiplying the number of investors. Nearly all the Victory and other Dominion bonds, not to speak of an immense proportion of the provincial, municipal and other issues, were sold to Canadians; and the little fellow bought his share.

Odds and Ends

"You never know what you'll find among the odds and ends."—From "Notes by a Wayfarer."

England.

(Ott) Kahn before the Ottawa Canadian Club. It would be idle to blink the fact that the people of England are not clear of vicissitudes and intricacies. Unemployment in large measure still exists. Her trade with the European continent is hampered by impediments, both those naturally arising from the faultiness of the peace treaties, and those created by the policies adopted by most of the European nations since the war. Paying her national creditors promptly while receiving nothing from her national debtors, she is bearing a burden of taxation such as no other people has had the courage to impose upon itself.

During and since the war, under whatever government, in the stress of all her trials and tribulations, and confronted with manifold and formidable problems, England has shown nothing less than economic heroism in her unflinching adherence to sound and tested principles, to the highest standards of national financial integrity, and to those fine old traditions of commercial honor and economic righteousness which are among the principal pillars of the edifice of her greatness. She has thus proved anew her incontestable title to an asset which, though innumerable, is of incalculable value, and the returns from which are bound to be large and lasting.

No appraisal or forecast as to the position of England is well-grounded that fails to take adequate account of the racial qualities and traditional ways of her people. Inhabiting a country little favored with natural resources, they have long been used to meeting difficulties and obstacles, and have steeled their character and trained their will to overcome them. They have stood four-square to all the winds that blow, and they stand no less resolute to-day. They are, perhaps, but facing the realities with clear and fearless vision and bravely bending to the task.

The advance of the young sterling to within a fraction of its par value is an expression of the world's unquestioning confidence in Great Britain's economic ways, her wisdom and character, and of its estimate of what the future has in store for her.

The Rain.

(Bishop Creighton.) The rain it raineth every day, But chiefly on the Just because The Unjust has the Just's Umbrella.

The British in India.

(Washington Post.) There has been no greater service rendered by man to man since the invention of the alphabet than the heroic attempt on the part of the British government to make India a healthier land. Every conceivable difficulty has confronted it there in plague, drought, famine, ignorance and superstition, embracing a population of 319,000,000. Into this age-old country which would change not England has poured billions of dollars for drainage, sanitation, medical attention and education—a worthy record of a great empire.

A Prodigy at Five.

(London Express.) Although he does not know a note of music, Hubert Whitbread, aged five, whose home is at Clydach Vale, Rhondda Valley, finds it easy to play the piano. He often hears musical tunes "in his head" before he falls asleep at night, he says. After hearing orchestral compositions once, he reproduces them faithfully by ear, adding embellishments of his own. Neither his father, a miner, nor his mother is able to play. Hubert put on an almost grown-up air of seriousness when he is talking about music. He condemns "noisy" music, and has quite an academic contempt for "jazz."

A BAD COLD DEVELOPED INTO BRONCHITIS

Mrs. Levi Ogden, Amherst Shore, N. S., writes: "My baby girl had a very bad cold which turned to bronchitis, and she could not sleep at night for the coughing. I gave her everything I could think of to relieve her, but nothing seemed to do her any good, and she was not getting any better. I was advised by a friend to try

DR. WOOD'S NORWAY PINE SYRUP

I did so, and after giving her a few doses I saw good effects so I kept on with it. I gave her two bottles, and her cough soon left her, and now she is well as can be. I cannot praise Dr. Wood's enough; it is certainly a wonderful medicine."

This preparation has been on the market for the last 35 years; manufactured only by The T. Millburn Co., Limited, Toronto, Ont.

Letters to The Editor

An Appeal.

To the Editor of The Times-Star:—Sir, I read in today's issue of The Times-Star of the Chinese woman and baby who were stranded here. As it is very unusual for the hard-working, thrifty Chinese to want in Canada, I began to inquire into it and found that it was his long illness and death that caused it. He was in the G. P. Hospital here last summer. He had been taught at a Chinese Sunday school class since 1916, regularly, and knew a little of the generosity of the Chinese. From missionaries, too, they are spoken of as the best hearted people in the world. I feel sure that if they were not feeling the business depression in our city, as others are, that they would soon make up the amount to send her back to her parents.

The writer is willing to do her share. Picture herself in her position. A widow, alone, penniless, in a strange land, not even able to speak the language of the place. No approval or forecast as to the position of England is well-grounded that fails to take adequate account of the racial qualities and traditional ways of her people. Inhabiting a country little favored with natural resources, they have long been used to meeting difficulties and obstacles, and have steeled their character and trained their will to overcome them. They have stood four-square to all the winds that blow, and they stand no less resolute to-day. They are, perhaps, but facing the realities with clear and fearless vision and bravely bending to the task.

The advance of the young sterling to within a fraction of its par value is an expression of the world's unquestioning confidence in Great Britain's economic ways, her wisdom and character, and of its estimate of what the future has in store for her.

The Longshoremen.

To the Editor of The Times-Star:—Sir, Please allow me through your newspaper to draw the attention of citizens to a loss sustained by some of the longshoremen of the winter port through the carelessness of our City Fathers in installing a top wharfage of fifteen cents on bag grains through this port. It caused the Elder Dempster Co. to refuse a shipment of bag grain to South Africa on the steamer Benueza owing to the high cost of top wharfage. It meant a big loss to the laboring class, as it would have returned about \$2,000 to the longshoremen which would have been spent through the tradespeople of the city. Now I trust that this will open the eyes of the citizens of our city. This little item is doing a lot of harm.

LONGSHOREMAN.

St. John, Feb. 21, 1925.

A Sunday School Lesson.

To the Editor of The Times-Star:—Sir, I am enclosing a Sunday school lesson that my little girl of eight years had to learn for today. It appeals for itself. Surely our Sunday schools can get their boys and cards printed in this country. Are there not Canadians or Englishmen great enough to be object lessons for our boys and girls, without having recourse to the American nation? What spirit of patriotism do the superintendents and rectors of our Sunday schools and churches expect to instill into the minds of our children?

Grimy Skipper Has Tough Time In Prison

LONDON, Feb. 23.—"I have been in this cell for a week now, on two pieces of black bread and a basin of rice per day. Although I am a bit hard, I don't think any man can live ten years in this prison."

This is a characteristic passage from a letter written in Reykjavik prison, Iceland, by William Loftus, a Grimsey skipper, who has been fined 20,000 kronen or ten years' imprisonment on charges of fishing in Icelandic territorial waters, which date back two years when he was skipper of the Tribune and another trawler, Our Alf.

LONDON, Feb. 23.—The will of Admiral Sir Percy Scott, British naval gunnery expert, leaves his estate of about \$600,000 to his two children, with a direction to the executors that they try to "keep their heads straight."

UNDERSTANDING  
BETWEEN EAST  
AND WEST GROWS

Big Cities Are Supporting  
Maritime Stand on Preference Issue

FAVOR ALL-CANADA  
MEET ON PROBLEMS

See Necessity of Solution in  
Best Interests of Entire  
Dominion.

By A. M. BELDING,  
Special Representative of The Telegraph-Journal and Times-Star, now touring Western Canada in interests of the Maritime Provinces.

CALGARY, Feb. 22—The West and East are getting together.

Vancouver, Victoria, Calgary and Edmonton will support the Maritimes' request to confine the British preference to goods imported through Canadian ports.

I am expecting a similar message from the Saskatchewan Board of Trade.

In reply to an inquiry today, P. Burns, Ltd., the great packing house, said they exported 125 carloads of their products through St. John last year and only seven cars through American ports, the latter to ports not directly reached through St. John.

W. R. Brock, Ltd., large importers, received practically all their imports through Canadian ports.

Sample of Difficulties. I was given an illustration today of freight rate difficulties the merchants here have to meet.

For Better Understanding. "It is felt here the time is opportune for bringing about closer relations between the widely separated parts of this country, and that with good result from such a conference as is suggested."

Trade Board President. "There must be a better understanding and a broader acquaintance on the part of the people of Canada, if we are to overcome our difficulties and develop a national spirit and build up a national unity and build up a greater Canadian nation."

Crow's Nest Pass. Regarding the Crow's Nest Pass, business men here say they have not protested against a general rate adjustment for Canada, but insist that it must be general, and that if the Crow's Nest rates are changed it must be by agreement between the two parties to the compact and not arbitrarily on request of one of them.

Think Wrong Idea Here. They think Eastern people have got a wrong conception of this matter and are perhaps doing them an injustice.

Favor Conference. "Arising out of the discussion comes the suggestion that a conference of representatives of Boards of Trade of the various provinces should be held at the most convenient place to discuss matters with a view to establishing confidence and good will and a better understanding of the problems and difficulties in the different provinces, and to discover ways and means by which they can best be solved."

**WHAT'S NEW IN FASHION**  
THE FASHION STORE

Fashion is not so fleeting as is generally supposed. It comes in suddenly, perhaps, but it takes its hold cautiously. Fashion-right women are averse to fads, and because they choose carefully, the frock or wrap is not discarded after a few appearances. They are wearing what is good and they keep on wearing it until something which is better takes its place.

These are showing here in newest sport shades as well as a variety of quieter colors.

Many buttons are also used as decoration and shades of rust, wood brown and navy blue predominate.

**As a Final Word Let Your Hosiery Be Right**  
In a season so wealthy in fair colors, of course one must take care to choose the ideal shades in hosiery. Sample of Difficulties. I was given an illustration today of freight rate difficulties the merchants here have to meet. The bottles are also offered cheaper, duty paid, than those from Hamilton. That is, both cost and freight are less, and the American house gets the business.

SERVICES ARE HELD BY C. G. I. T. GROUPS

Special Corporate Attendances in Several Churches—Addresses by Pastor.

Several of the C. G. I. T. groups of the city made special corporate attendance at church services yesterday and the pastors gave addresses more particularly for the members of the C. G. I. T.

In Main street Baptist church the C. G. I. T. members attended in a body and were seated in the front of the church at both services. Rev. Dr. Davis, the Hutchinson in the morning spoke of the life abundant for the girl of today. In the evening his sermon was addressed to the young people. The hymns chosen were appropriate to the observance of the C. G. I. T. demonstration week and when the offertory was taken the C. G. I. T. members sang a hymn.

In the Carmarthen street Methodist church there were 30 of the members of the C. G. I. T. groups in the choir leading the congregational singing. A special solo, "Teach Me to Do Thy Will," was sung by Miss Audrie Hunter. Rev. A. D. McLeod, the pastor, spoke of the abundant life of the girl of today, taking as his text "It is come that they might have life and might have it more abundantly." Mr. McLeod told of the phases of the four-fold life of the C. G. I. T. programme.

The lovely, filmy things you love so—you select them now with never a worry about their care. They'll give good service and keep their freshness, you know, because you'll see to it that they are never washed with anything but Lux. Triple voile, satin and other silks won't pull, or lose their sheen—dainty colours will not fade—laces will not thicken—if washed in Lux. Lux won't harm any fabric that water alone will not injure. Wash your silk underthings this way: Whisk one tablespoonful of Lux into a thick lather in a washbowl half full of hot water. Add cold water until suds are lukewarm. Press the suds repeatedly through soiled spots. Rinse in three lukewarm waters. Squeeze water out—do not wring. Roll in a towel—when nearly dry, press with a warm iron—never a hot one. Upward Movement Marks Opening Hours On Exchange Today

NO BUSINESS IN WALL STREET TODAY

New York Markets Closed for Observance of George Washington's Birthday.

MONTREAL, Feb. 23.—A decided upward tendency was in evidence during the early trading on the local stock market this morning, some good advances being recorded. Atlantic Sugar, the most active issue, was up one-half to 35 1/2, a new high. Twin City, also in good demand, advanced 1/2 to 67, as did also Winnipeg Rails to 44 1/2. Other changes included a quarter point decline in Steamships Preferred to 45 1/2, and a half point gain to 80 1/2 by Sugar preferred. The balance of the list was neglected.

The New York stock market is closed today, as Washington's birthday is being observed.

**KEENLY DEBATE MARITIME UNION**

Y. M. C. I. Speakers Give Judges Difficult Task—Maritime Mission is Commended.

Maritime Union was debated with skill before an interested gathering in the Y. M. C. I. yesterday afternoon under the auspices of the literary and dramatic committee of the Institute. Cyril Moore, chairman of that committee, was in the chair. The resolution debated was that union would be beneficial to the maritime provinces. Fred D. McGuire and Charles Campbell upheld the affirmative and the negative was in care of Albani Robichaud and Harold LeClair. The judges were Rev. W. M. Duke, Richard Sullivan and Frank I. McCafferty. They decided that the issue had been evenly developed in matter but that the negative had the better in delivery of the arguments. It was a very close decision and the judges complimented the debaters on their good work.

The Times and Telegraph-Journal campaign for the Maritimes was referred to prominently in the debate on both sides of the question and the enterprise of the mission to the west was warmly commended.

**HAMILTON LOSES TO THE CANADIENS**

St. Pats Vanquish Montreal and Ottawa Wins From Boston Bruins.

HAMILTON, Feb. 23.—Hamilton's hopes of finishing at the head of the list in the National Hockey League received another crimp here on Saturday night, when Canadiens put a powerful punch into the dying moments of the game, ran in the odd goal that shattered a one-all tie and kept the flying Frenchmen on ever tenuous ice. The Canadiens, the most brilliant hockey of the season was crowded into the game, every player on either club, down to the subs, fairly scintillating in both individual and combined work and working a capacity work into a frenzied and terrific pace that never diminished.

**ST. PATS TRIM MONTREAL**

MONTREAL, Feb. 22.—Toronto-St. Pats hurred an important jump in their race for a National Hockey League play-off berth, when they defeated the Montreal team, 2 to 1, here Saturday night and kept pace with Canadiens in second place in the standing.

The collection in the Cathedral on the third Sunday of this month in aid of the fund for removing the burning and placing a new altar amounted to \$756.20. This, said Bishop LeBlanc, in making the announcement, was considerably larger than the collection in January, when the sum was a little over \$600. He congratulated the people on the interest they were taking in the work and thanked the donors for their generosity. The fund now totals \$2,308 at the end of three months.

**IN TWO CHURCHES.**

Rev. George Smith, secretary for North America of the Evangelical Union of South America, was the preacher yesterday morning in the Prince Edward street church. In the evening service he spoke of the "Baptist Church" when he took as his text John 10:11, "I am the Good Shepherd." His son J. Stewart Smith, sang a solo pleasingly.

**Baseball Players Are Born, Not Made**

ST. LOUIS, Feb. 23.—Baseball players are born and not made, and they learn "virtually nothing" at the spring training camps, in the opinion of George Sisler, playing manager of the St. Louis Browns.

"A training camp is merely a place where the men can acquire physical condition to prepare them for the pennant race," Sisler said. "A player can't learn anything from a coach. Of course, a pitcher may learn grips, but even there the knowledge he acquires is negligible. After you're born a ball player you have to play steadily to develop your skill. The greatest school is the daily game."

**PRAISE FOR SKATER**

Y. M. C. I. Committee Commends O'Connor on Showing First Time on Circuit.

At a meeting of the Y. M. C. I. yesterday afternoon the boxing committee reported the satisfactory carrying out of the recent boxing tournament and the entertainment committee, that the play was well under way for presentation on St. Patrick's Day and that the ticket sale would begin next week.

Members of the sports committee spoke very highly of the showing made by Bernard O'Connor at the recent skating meet in Lake Placid. They said that, although he had not been placed fourth in the 220 and 440 yards, which, in view of the fact that it was his first appearance in the American meets, they considered very creditable. In the semi-final of the 220 yards O'Connor skated a dead heat with O'Neill Farrell, in 19 2/5 seconds, which was faster than that made at the Diamond meet. They expected O'Connor to be well up among the point winners in another year.

**TRADE ROUTES MUST HAVE PROTECTION**

Major General Lessard Gives Address in Support of Naval Training.

In his vigorous plea for support of the Navy League, and for Canada to take her part in responsibility for naval defence, Major General F. L. Lessard speaking in the Imperial Theatre yesterday afternoon pointed out that Great Britain today has only 612 men in the navy, while the United States, and 212 of Japan. Great Britain's total being only about one-half of the number which she had before the war.

He spoke impressively of the great volume of export and import trade of Canada, and asked his audience to remember that it was as necessary to police the seas with navies as it was to police the streets of the cities in order to safeguard property.

R. E. Armstrong, president of the New Brunswick branch of the Navy League, was chairman, and with him on the platform besides Major-General Lessard were Navy League representatives C. B. Allan, Captain A. J. Mulachy and Col. E. T. Sturdee, S.S.D., past president; Col. W. B. Anderson, D.S.O., O.C. M.D. No. 7; Lieutenant H. Morrison, commander of the St. John Company R. C. N. V. Walthour has ridden in three grinds this winter and has performed brilliantly in all three. He won the November race in Chicago, paired with Harry Moran; in the December race he finished second with Franco Georgetti, and in the recent Chicago race, riding with Reggie McNamara, he again finished in first place.

**IRISH EVENING IS GREATLY ENJOYED**

M. E. Ager is Speaker at St. Vincent's Auditorium Under C. W. L. Auspices.

"Ireland in song and story" was the order of the excellent entertainment presented in St. Vincent's Auditorium last evening under the auspices of the Catholic Women's League. The songs of Erin's Isle were interpreted by several local singers and recitantes, while M. E. Ager, in an eloquent address dealing with the history of Ireland since 1800 up until the present, contributed to the story portion of the programme.

The large audience was crowded to capacity last night with an audience which showed its appreciation of the different numbers by their hearty applause. Owing to the length of the programme there were no encores. Among those taking part were: The Moore Quartette, Miss Constance Lewis, Halifax; Miss Jerry Wilson, J. J. Hogan, Miss Dorothy McDonald, Mrs. C. O. Morris, Harold Gillis, Miss Margaret Flood, Miss Maud Dowling, Cyril Moore and Mrs. A. C. D. Wilson. **ICE RUNNING OUT**

Lower River Starts to Break up—Mild Weather May Cause Freshet.

Ice was running along the lower reach of the St. John River by Indiantown and towards the falls yesterday and the big alders were quite plentiful enough to make it look as though the spring freshet was soon to arrive. D. L. Hutchinson, of the meteorological observatory in Douglas Avenue, said yesterday that the mild weather which had held for the last two weeks was quite abnormal for this time of the year. At 2 o'clock on Sunday morning the mercury had reached 41, the highest point of the week-end and throughout yesterday it grew steadily colder until by 9 o'clock at night the reading was 26 degrees. During Saturday night and Sunday morning there was a slight rain storm but the total precipitation was only .03 of an inch. The temperatures on Saturday varied from 34 to 19 degrees.

**In High Spirits**

When the thermometer drops, Grandpa's spirits go shooting higher than ever. Bubbling over with life, he takes to skiing as naturally as a bird takes to flying. His steady nerve and tireless energy are the envy of the younger generations. Grandpa is 60 odd years old, but no one would ever believe it. What is his secret? It's the little daily dimful of Kruschen that does it. Tasteless in his morning cup of coffee, the magic powder makes all the difference between glowing health and debility.

In winter-time especially, many people allow their systems to become run down. They fall easy victims to coughs, colds, bronchitis, sore throats and other more serious troubles. But a constitution like Grandpa's is a veritable armour which laughs at cold weather and the attacks of disease germs.

Regular elimination of the body's waste matter is a vital necessity, otherwise poisons get into the blood and make us feel tired and depressed, besides lowering our resistance to disease.

We seem to lack the strength and inclination to accomplish anything. The muddled brain and the coppery tongue are all too familiar symptoms of an impure blood stream.

Kruschen, taken daily in the tiny dose gives you a clear eye and a steady nerve. — It fills you with lively optimism. It drives out all impurities from the body, gently stimulates the liver and kidneys to normal activity and purifies the blood.

And "that Kruschen feeling" costs less than half a cent a day. Grandpa has it — you can get in the very same way. Buy a bottle of Kruschen today and start taking your daily dimful tomorrow morning.

Tasteless in Coffee or Tea

Put as much in your breakfast cup as will fill on a 10 cent piece. It's the little daily dimful that does it.

Good Health for Half a Cent a Day

A 70c bottle of Kruschen salts contains 180 doses—nearly enough for six months— which means bending health for less than half a cent a day. The dose prescribed for

daily use for adults is "as much as will fill on a 10 cent piece," taken in your breakfast cup of coffee or tea. Every drug-gist sells Kruschen. Get a 70c bottle to-day.

CHANGES IN MAJOR LEAGUE TEAMS AS BASEBALL SEASON STARTS

MCGRAW SAYS PITTSBURGH WILL GIVE HIM FIGHT

Shifts In Washington Line-up Should Make Team Stronger

NEW YORK, Feb. 23.—(United Press).—John McGraw was one of the very few major league managers who thought enough of his last year's team to stick to it for another campaign.

McGraw says that Pittsburgh will give him his hardest fight. He thinks that the Pirates will be improved as a result of the trade with the Chicago Cubs.

Washington made the most line-up changes among the American League teams, and the team should be greatly improved for the race.

As the Giants finished the season last year they were one of the youngest and most versatile teams in the major leagues.

THE GULF STREAM must have changed its course this year, for although it is February boys are, and have been, playing marbles on the streets and baseball fans are daily seeking information about the prospects for the professional game here next summer.

BOXING FANS may be interested to learn that "Gunboat" Smith, who fought Jack Dempsey, Georges Carpentier and other prominent heavyweights in his day, is now employed by Tex Rickard in Madison Square Garden.

IF THE MILD WEATHER continues the hockey season is slowly but surely drawing to a close. While there is yet time the management of the St. Johns should get busy and bring some visiting teams here for exhibition games.

JACK DUNN of Baltimore is one of the most successful managers in baseball. He led his team to six consecutive International League pennants and through the development and sale of players amassed a fortune of \$350,000.

Jack Dempsey Considers "Kid" McCoy Is Mentally Deficient

LOS ANGELES, Feb. 23.—(United Press).—Jack Dempsey believes that "Kid" McCoy, former welterweight champion, is "a little bit off."

The heavyweight champion so expressed himself a few days ago from the winner's stand, testifying for McCoy, who is being tried on assault and robbery charges.

As the Giants finished the season last year they were one of the youngest and most versatile teams in the major leagues.

OLD QUESTION RE MAGISTRATE IS UP ONCE MORE

Payment of Salary by City; Appointment by Government

COMMISSIONERS TAKE NO ACTION

Matter of Hydro Bond Issue Goes to Comptroller for Report.

The members of the City Council discussed this morning the right of the city to pay the salary of the police magistrate without having the power to define his duties. The question as to whether a bond issue should be made for the legal expenses in connection with the injunction proceedings against the city re the civic distribution system also was talked over. The report of the Civic Power Commission for seven months, July 1924 to January 31 1925 was filed.

Injunction Bills. The Civic Power Commission referred to the Common Council bills of \$1,741.31 for legal expenses in connection with the injunction proceedings and the expropriation of land for the city sub-station with a request that authority for a bond issue to settle these accounts be made.

Mayor Potts said that while the amount in connection with the expropriation of land might be a proper subject for a bond issue he did not think the legal expenses in connection with the injunction proceedings were and this amount should be paid from operating account. He thought more accounts of this nature would be coming along and he was against paying bills of this kind with bonds. He suggested that the matter be referred to the city solicitor for his opinion.

Commissioner Frink asked if a man was severely hurt or killed and damages were recovered from the city would the bill be paid for by bond issue or not.

The matter was laid on the table to secure an opinion from the city comptroller on the matter of bond issue. Somerset Street. A letter from Hon. J. R. Armstrong the material being dumped in the fill pointing out that the city was dumping rock on a lot of his in Somerset street and offering to sell the lot for \$400 was read. He stated that the purchase of this lot would do away with the necessity of an expensive retaining wall. The lot was formerly under lease to Michael Harley and was sold in 1923. He also enclosed a bill for four years ground rent at \$24 a total of \$96.

Commissioner Frink said some of the north end of Somerset street was falling over on the adjacent lot. The matter was left with the commissioner to bring in a report and plan of the street.

Check on Gasoline Tanks. Commissioner Harding reported that he believed it unwise to allow any more installations of gasoline tanks in the city at the present time and moved that an application of O. S. Dykeman for permission to install three gasoline tanks in his premises, Rothesay avenue, be refused. Carried.

Magistrate's Position. Commissioner Harding said there was a matter on which he would like some information, particularly in view of the activities of certain parties in connection with temperance matters. He would like to know how it was that the police magistrate was on the pay roll of the Safety Department and if he came under the jurisdiction of the Commissioner of Safety. If he had no control over the magistrate he would like to know if he could refuse to pay his salary.

Commissioner Frink remarked that the Police Court Act of St. John would answer the questions of the commissioner. Mayor Potts said the commissioner had no control over the magistrate, who was appointed by the government. All the city had to do was pay the salary.

Commissioner Harding said the Government were reaping the benefit from the violations of the prohibitory law and they should pay the magistrate. Mayor Potts said the Government asserted the police should do certain things and then refused to let them carry out the law.

Commissioner Harding wanted to know what would happen if the council should deduct the amount of the magistrate's salary from his estimates when they were under consideration.

Commissioner Frink said this would place the city in the position of flouting the Government of the country. Commissioner Bullock expressed the opinion that a matter of revenue should not interfere with the carrying out of the law.

No action was taken.

TELLS OF THE INCAS

Court Again Points Out Danger From Autos If Laws Broken

Police Magistrate Says Safety of Public Must Be Conserved.

"The by-laws of the city respecting automobiles must be observed and the safety of the public conserved," Magistrate Henderson declared this morning following a hearing given in two cases where motor cars had been driven past standing street cars while passengers were alighting or getting on. A fine of \$10 was imposed in each case. William Puddington was reported by Traffic Officer Young for driving his car, No. 4189, past a street car on Feb. 21. Policeman Young said there were about 12 people waiting at the time. "There is too much carelessness here and too much danger to the public," His Honor remarked. "How many seconds do you think you saved by that operation?" Mr. Puddington said he was in no particular hurry then and had seen the officer's signal to stop he would have done so.

A \$10 fine was imposed. The second case of this nature was against Howard Gould, reported for driving truck No. X275 on the wrong side of main street on Saturday evening at 8.35 o'clock, and also driving at a greater speed than required by the law. Policeman Howard, giving evidence, said Mr. Gould drove his truck past a standing street car on the wrong side of the street. The penalty in each case was \$10, but the magistrate said he would cut it in half, at the same time uttering a warning.

LIKES RADIO IDEA. Mayor Potts this morning received a letter from James B. Power, 51 Regent street, Roxbury, Mass., endorsing the suggestion of a broadcasting station in connection with the Admiral Beatty hotel. Mr. Power thought this would not only be a means of publicity for the city, it would keep St. John people living in other places in touch with home. He suggested that instead of building another station here the city link up with the C. N. R. station at Moncton.

FERRY REPORT. G. H. Waring, ferry superintendent, this morning reported to Commissioner Bullock that on Saturday afternoon H. S. McCleery, mate of the Ludlow, had reported to him that J. D. FIRE CHIEFS MOURN LATE C. H. JACKSON

Maritime Association Sends Resolution of Condolence to Bereaved Ones Here.

The Maritime Fire Chiefs' Association, representing the cities and towns of the three lower provinces, have addressed a formal note of condolence to the widow and household of the late Chief C. H. Jackson of this city. The communication is signed by the president, Chief J. W. Churchill of Halifax, and Secretary-Treasurer J. P. DeVan of Yarmouth. It is as follows:

A Sincere Appreciation. "On behalf of the Maritime Fire Chiefs' Association, we wish to convey our expressions of extreme regret at the untimely death of Mr. Jackson, who was a veteran in fire fighting circles in the Maritime Provinces, with an enviable reputation, which made him an outstanding figure in such. His services both as a fireman and as an Assistant-Chief, an important department, will always serve as an incentive to others to carry on in the great work of preservation of life and property.

"The Maritime Fire Chiefs' Association desire to express their fullest appreciation of all the services so faithfully and conscientiously rendered by the departed veteran fire fighter and director, and herewith offer to you such condolence as these, their expressions may convey.

"They desire to add their fullest sympathy for you, in the irreparable loss you have sustained, while they are conscious as well of the difficulty which will be experienced in filling such a great and responsible position of public trust, he so long and so efficiently held with pride and honor himself and the city he served."

Tenderly, with deepest sympathy, MARITIME FIRE CHIEFS' ASSOCIATION. J. W. CHURCHILL, President. J. P. DEVAN, Sec.-Treasurer.

From His Immediate Crew.

Through an inadvertence in publishing the list of floral remembrances which accompanied the late Chief Jackson to his final resting place, the large wreath on pedestal from his old friends and immediate mates from Hook and Ladder Co., King street East, was omitted. This was the largest of the 60 or more pieces received. It was a tribute from the men who had fought fires under Mr. Jackson's command for many years, the company over which he was captain before promotion took him to the office of assistant chief. Gerald McAuliffe is the present captain. The last place Mr. Jackson visited before being suddenly stricken was the historic old ladder house, King street East.

INDUSTRIAL HOME SCOUTS PASS TEST

Scout Pace and Cooking to be Followed by First Aid and Kim's Games.

Six boys from East St. John Sunrise Troop No. 4, of the Boys Industrial Home, went on a hike in care of their scoutmaster, O. J. Lawson, and F. Foley on last Saturday afternoon to pass their scout pace cooking tests, a part of the second class scout badge. In doing the scout pace a scout must go a mile in 12 minutes. Cooking. In the cooking test a scout must lay and light a wood fire in the open, using not more than two matches, no paper or birch bark to be used, cook a quarter of a pound of meat and two potatoes without cooking utensils other than the regulation billy. Four passed this also. These boys have also passed their compass tests which is to know the 16 principal points of the compass; they also have passed their signalling test which is to know the sign for every letter in the alphabet and for the numerals in the semaphore. These boys have to their first aid and Kim's game before they can get their second class badges. They will be ready for this at their next meetings on Wednesday evening.

First Aid. To pass the first aid test they must have a knowledge gained by practice of elementary first aid and bandaging, covering the following: The triangular bandage; fastening the bandage; to make a large arm sling; fractured arm bone; to carry a patient; fracture of the forearm; fractured jaw; fractured collar bone; fracture of the leg; arterial bleeding.

For Kim's game, they must remember 16 of 24 well assorted small articles after one minute of observation.

POTATO CAR AFIRE

C. N. R. Men and No. 4 Firemen Fight Blaze Near Round House.

A potato car near the C. N. R. round house caught fire last evening soon after 6 o'clock, presumably from a heater, and a telephone call was sent to No. 4 fire station. The hose cart responded. When the firemen arrived they found two streams from the C. N. R.'s own system with the employees in charge were already checking the flames. The firemen aided in the work by cutting through the car roof to get better to reach the fire. The blaze was extinguished in about three-quarters of an hour. The car and the potatoes were both badly damaged.
