Demand That Borden Strike Off The Duties

Strong Case Presented by Farmers and Grain Growers Of The West

Free Food Stuffs, Agricultural Implements, Animal Products, Lumber and Cement—Fifty Per Cent British Preference and Free Trade Within Five Years

(Canadian Press.) Ottawa, Ont., Dec. 16.—Revision of the tariff downward was demanded this morning by a delegation of twelve representing the farmers of Saskatchewan, Alberta, Manitoba and Ontario.

That food stuffs be put on the free list as well as agricultural implements, lumber and cement. They asked that the ocean freight be investigated by a commission. They also asked that the responsibility of railways for Here are the resolutions as presented to the government:—

"Whereas the progress and development of the agricultural industry is of vital importance to the general welfare of the state, all other industries being largely dependent on its success, and as the government has the interest and is desirous of improving conditions, and

"Whereas the cost of the production of all farm products is materially enhanced, and the development of our agricultural resources retarded by the excessive cost of agricultural implements, and other commodities, due to customs duties, and

"Whereas an import tax on food stuffs increases the cost of living to the extent of the tax imposed, and makes with the cost of agricultural implements, and other commodities, due to customs duties, and

"Whereas the best interests of the people of Canada, and our loyalty to the British crown, demand that the tariff barriers of trade with the Motherland be removed, and thus cheapen the cost of Canadian consumers of goods manufactured in Great Britain, and

"Whereas the free interchange of all trade products between Canada and the United States would tend to reduce the cost of living, to towns and country alike, and

"Whereas the United States Congress has passed an act which is still in force, offering free interchange of natural products between the two countries; Therefore be it Resolved:—

"That we urge the government to recommend to parliament at its next session, a reduction in the tariff on imports from Great Britain, to one-half the general tariff, and to provide for a further gradual reduction until there is free trade with Great Britain in five years.

"That parliament accept the offer of the United States of free interchange of all agricultural and animal products between the two countries.

"That all food stuffs not provided for in the above referred to offer of the United States, be transferred to the free list.

Empress Rumor Persistent

In Many Places Today Said That C. P. R. Liners Are Coming Back To St. John

Are the C. P. R. Empress steamers, coming to St. John this winter, in all? It was previously intimated that these steamers were discontinued over the Halifax experiment. During the last few days rumor has spread and has gained support by state ments made by men who are in a position to know.

Figuring on the time taken from Halifax to Montreal the Chronicle finds it necessary, in order to shorten their time, to take the route from Halifax to St. John and thence by C. P. R. to Montreal. This route is never taken by trains carrying mails landed at Halifax, which always go by the I. C. R. via the North Shore, which takes three hours longer.

The statement is made that contracts have been signed in connection with the arrangements for docking the Empresses at this port for the balance of the winter season but those who should know the details of such arrangements refuse to say anything. The further that any of those connected with the business will go was the statement that they would not be surprised if the change was made.

In an effort to discredit St. John as a small port the Halifax Chronicle has devoted considerable space to misdeeds and incorrect statements regarding the time taken to handle mails through the two ports. Without entering into such advantages as Halifax may possess it is only fair to St. John to correct some of these statements.

To prove the difference in the ocean voyage from Halifax to Montreal the record voyage of the Royal Edward to Montreal is compared with the excellent time of five days and twenty hours. This is compared with the first voyage of the Royal George of St. John which took seven days and seven hours. The Chronicle neglects to say that the Royal Edward, which is mentioned, travelled at the rate of 17 1/2 knots an hour while the St. John trip was at the rate of 14 1/2 knots an hour.

Broker to Prison Montreal, Dec. 16.—Two years was the sentence meted out by Judge Basin today to J. A. Boyd, a broker convicted of the theft of stock committed in the case of the Dominion of Canada. The man's counsel had declared that the money involved had been paid back, it was necessary that a sentence be imposed in the case.

Buried as Thomas Spiers; He was George Matthews Case of Mistaken Identity in Connection With Recent Lake Disaster Collingwood, Ont., Dec. 16.—A curious case of mistaken identity has cropped up in connection with an Englishman who, under the name of Thomas Spiers, was buried here by the local lodge of the Odd Fellows Society and the corporation authorities. The body was one of those which floated from the water after the great storm of November 8. The man was described in the papers as an Englishman of the name of Thomas Spiers, whose parents reside in Cowley Road, Oxford, England.

Great Xmas Tree Set Up in Madison Square New York, Dec. 16.—The municipal Christmas tree for the five millions of New Yorkers has been set up in Madison Square. The idea of a large municipal Christmas tree in the open air was tried for the first time last year and met with such success that it is not only to be repeated here, but to be adopted this Christmas in many cities throughout the country.

(Canadian Press.) Cincinnati, Ohio, Dec. 16.—Six men were reported dead today, one man fatally injured and a woman and two children supposed to have perished in flames which destroyed the Salvation Army Home for Men, with a loss of \$100,000, and filled with smoke and flames a thickly populated tenement block in the centre of which the home was situated.

NOVEMBER FIGHT TOLD OF IN POLICE COURT

The case against Robert Burns and John Maloney, charged with fighting in the street on Saturday, November 23, was before Magistrate Ritchie in police court this morning. Policeman McNamee, who made the arrest, said he saw Maloney attempt to strike Burns twice, but did not see him strike. Maloney had a cut on his wrist and it was bleeding profusely. He also had a bad cut over his left eye. The policeman said he found the glass broken in the door of Lanman's saloon and this had evidently been done from the inside. He thought it was done by a man's hand. Maloney said he had gone into the bar with a friend and had eight or nine drinks before the bar closed at five o'clock. He then reached behind the counter to get a parcel which he had left there, when he was struck by Burns. He hit him back in self-defence. Burns had then pushed him against the door. They then went out in the street and kept up the fight until they were arrested. When Maloney was brought to the jail he was attended to by Dr. Lumley, who sent him to the hospital, where he had been ever since.

NEWCASTLE WIRELESS STATION

Chatham World. An inspecting engineer, who recently visited the wireless station at Newcastle, has reported that the station is building at Newcastle, expressed the opinion that it was too near the town and would endanger the electric light works when it got into operation. It will be an inconvenience to move either the station or the town.

Very Rev. Dean Evans, of the Church of England, favored the suggestion of Rev. Dr. Johnston, of the American Presbyterian church, declined to discuss it as he was not at the meeting where it was broached; Rev. Patterson Smyth, of St. George's Church, thought Rev. Mr. McMannus, in mentioning the church parlors at the Women's National Immigration Society on Wednesday, had done so more as a passing remark than as a suggestion.

It is thought the idea would be a good one, said Dean Evans to the Daily Mail. "Certainly it should produce better results than the church's present not going deeply enough into this phase of city life. There are a great number of young girls who frequent moving picture shows with men of whom they know very little because they have little opportunity to meet niter men. These dancing parlors would be a strong attraction to them and should enable them to meet more desirable young men. More than that - and what is, I think, an important consideration - the girls thus brought so close to the church could more readily be interested in religious work."

### EMPRESS FIVE HOURS LATE IN HER SAILING OUT OF HALIFAX PORT

Excuse of Newspaper is That Delay Was Caused on Intercolonial

(Halifax Echo)

Owing to the combination of an accident and alleged mismanagement on the part of the I. C. R., the Empress of Ireland, carrying the Royal mails, passengers and cargo, did not get away from Halifax until 5 o'clock on the morning, five hours after the time the big liner was expected to sail.

The mails arrived by the I. C. R. on the Maritime during the afternoon and although in a huge quantity the exact amount of which is not yet known, but much exceeding the corresponding mail of last year, was put aboard very speedily, and the line awaited the arrival of the passenger trains from Montreal over the I. C. R. from St. John.

The large amount of mail out of Montreal compelled the C. P. R. to put on three trains from that city to St. John, these trains carrying many passengers for steamers bound out from the New Brunswick port. The trains arrived at St. John at the following hours Saturday morning, 4:20, 4:45, 5:00. Two of them conveying first and second class passengers, were consolidated, making one train which left St. John station at 7:10 a. m. This train became derailed while passing from the siding to the main line, and did not get away from St. John until 9:10 a. m.

In the meantime the second, colonial train, conveying the third class passengers, pulled out of the station at 8:20, arriving at Halifax at 11:15.

Made Slow Time.

The derailed train with the first and second class passengers having been already delayed two hours was given an I. C. R. engine of small dimensions and entirely incapable of making time with a train of fourteen cars. The running time between St. John and Halifax is nine hours and ten minutes, whereas under the lack of proper rolling stock on Saturday, this particular train occupied fourteen hours and twenty minutes, a loss of five hours and ten minutes, arriving at Halifax at 11:30, when it should have arrived at 6:20. Had this train been given the proper locomotive it could have arrived at Halifax in proper time and enabled the Empress to sail if not on the minute, very close to the hour of eight o'clock. There was nothing to be done but the transfer of the passengers and baggage.

### JAMES E. WHITE DIED TODAY

City Loses One of Best Known Citizens—Prominent in Business Circles—Was More Than Ninety Years of Age

James E. White, one of this city's oldest citizens, and one widely known and respected, died at his residence, 88 Garden street, early this morning.

Mr. White was born at Robertson's Point, Grand Lake. He was one of a family of ten children, eight sons and two daughters. His father, Vincent White, was a successful farmer and lumberman, for many years resident at Belleisle. It was Vincent White who brought to St. John the first raft of logs ever sawn here and shipped to England. These logs were all saw by hand. From that small beginning has grown the large lumber manufacturing and shipping business now carried on at this port.

Mr. White in early life formed a partnership with his brother, the late William H. White, of Sussex. The firm began business in small way, at several merchants at Belleisle Corner. The business was very successful, and branch stores were soon established at several other points in King's and Queen's counties, including Sussex.

About 1857 Mr. White came to this city to reside, and established here for his firm a wholesale business as general and commission merchants, and dealers in dry goods, groceries and hardware. Although it is now more than thirty years since Mr. White retired from active business, older residents of the city will recollect the firm of White Bros., as one of the most enterprising and successful business houses of the sixties and early seventies.

Mr. White was a grandson of William White, a loyalist who with three brothers fought in the Revolutionary war, and on the granting of independence to the United States came to this province to live under the flag he loved. William White and his wife, both attained the great age of nearly 100 years, and the number of their descendants now living in the river counties of this province is very large.

James E. White in coming to this city at first attended Esmouth street Methodist church, of which for many years he was one of the stewards. Later he joined the Centenary church. He took an active interest in the work of the church, and was a liberal contributor towards its finances and those of kindred institutions, such as the Y. M. C. A., the Salvation Army, Mount Allison University, and various charitable organizations.

About three years ago he wrote and published a history of the White family from the time, about 1647, when William White, his ancestor, came from Deal, England, and settled in New Jersey. Although Mr. White was over eighty-eight years old when he wrote this book, and although its preparation must have involved great labor and research in the collection and examination of historical documents and family records, he succeeded in making the volume one of great interest and value to those interested in the history of the settlement of this province. He presented a copy of this book to every descendant of William White within the province, who applied to him, and the fact that over 300 copies were thus disposed of, in addition to a considerable number sent on application to various public libraries, and private persons in the United States, testifies how much his work was appreciated.

He leaves four children surviving him. These are Mrs. G. Ernest Fairweather, Mr. Justice White, Mrs. Edwin Morris, and Oscar B. White, of Souris, Manitoba. Of his brothers, four, viz: Gilbert, Vincent S., William H., and Dr. Jacob D. White, predeceased him, while Hiram B. White of this city; Simeon H. White, Sr., at present of Halifax, and Charles T. White, of Sussex, survive him. His two sisters, Mrs. Gillies, of Belleisle, and Mrs. John Gunter, died some years ago.

The Evening Times and Star

ST. JOHN, N. B., DECEMBER 16, 1913
The St. John Evening Times is printed at 27 and 29 Canterbury Street every evening (Sunday excepted) by the St. John Times Printing and Publishing Co., Ltd., a company incorporated under the Joint Stock Companies Act.

KEEP TO THE TRUTH

It is much to be regretted that any Halifax newspaper or other publication should indulge in falsehoods in making a comparison of the relative merits of Halifax and St. John as mail ports.

The expeditions transportation of the mails between Europe and Canada across the North-Atlantic is a matter in which the whole of Canada is vitally interested.

This is exactly what St. John contends, and in the general interests of Canada it has been demanding a fair test of St. John as a mail port.

No fair test has yet been made, and no Halifax newspaper has a right to attempt comparisons until a fair comparison may be made.

The Times yesterday announced the death of Mr. Jonas Howe and today announces that of Mr. James S. White.

Mr. Howe was much the younger man, and yet he had attained the age of 74 years, and could look back upon a life of useful citizenship.

Mr. White, who had attained the great age of 91 years, was in his prime of life connected with important business enterprises in the city and province, and in his later life he also contributed, in the history of the White family, something of permanent value to the historical records of New Brunswick.

Mr. White's death has been busy among well-known citizens during the last two weeks. Besides Mr. Howe and Mr. White the city has lost Mr. H. H. Pickett, Mr. W. Tremaine Gard and Mr. D. Russell Jack, all of whom were familiar figures in the life of the community.

Mr. Winston Churchill is to spend his Christmas vacation in Germany, making a call of two or three days in Paris en route. The Christmas season should be a favorable one for a further discussion of the question of the holiday in naval armament.

The Mexican congress has placed executive power in the hands of President Huerta, and has effaced itself until April next. The difficulty about the president's power is that so many people in Mexico snap their fingers at him, and go on destroying life and property.

The Times prints today the Montreal Telegraph's report of the speech delivered by Sir Wilfrid Laurier at the Fielding banquet in Montreal. It will be of great interest to all readers, and especially to those who are giving serious thought to the conditions which exist as a result of the rapidly increasing cost of living and the larger percentage of unemployment, and therefore a lower aggregate wage-roll than formerly.

DAWN OF A TOMORROW STRONG PLAY WELL GIVEN

Thompson-Woods Company Make Another Success—Three Days Dark Next Week

Dawn of Tomorrow. A play that is different will perhaps best summarize one's impressions on seeing The Dawn of a Tomorrow.

The play was given its first presentation here in the Opera House last evening, before a very appreciative audience.

The story takes one from the wealthy precincts of Grosvenor Square into the squalid slums of the East End of London and then for two interesting acts Miss Brandt in the character of Glad, dominates as, indeed, she does from her first appearance.

Mr. Meharry's part was an all important one, though not making so much demand upon him as some others. Needless to say he did it well.

The company scored a success and won the applause of all, this rising to a high call after the second and third acts.

EATING RELIEVES STOMACH TROUBLE

A Prominent Physician's Advice

"Eat good foods and plenty of them. Dieting, in many cases, is almost criminal. Get back to normal. To do so you must have the proper quantity of nourishment. You need it for brain or physical work. Probably there is nothing the matter with your stomach except acidity. That is merely an abnormal secretion of acid in the stomach. Neutralize that acid and your stomach trouble will end at once. Neglect may mean ulcers if not cancer of the stomach. Do not take patented medicines or painful tablets for dyspepsia. Simply take a neutralizer of acid. Decidedly the best neutralizer is ordinary druggists' bicarbonate of soda. You can get it at any drug store for a few cents. Take a teaspoonful in a quarter glass of water after each meal. The relief will be immediate."

REDUCE HIGH COST OF LIVING Text of Sir Wilfrid Laurier's Timely and Telling Speech at the Montreal Banquet in Honor of Hon. W. S. Fielding

The following is the Montreal Telegraph's report of Sir Wilfrid Laurier's stirring speech at the Fielding banquet in Montreal on Tuesday night. It is well worth reading:—

When Sir Wilfrid Laurier rose to respond to the toast, "Our Cause," every eye in the great hall rose and as always happens when the Liberal Chief is in question, the enthusiasm of the cheering and the energy of the applause was so long continued that he had some minutes to spare before those who welcomed him quieted down to hear what he had to say.

"The toast which you have just honored and to which you have done me the honor to ask me to respond," said Sir Wilfrid, "seems to me to derive special significance from the circumstances which have gathered around this hospitable banquet. The toast is to our cause, and perhaps you will all agree with me that it is a good augury for our cause that today we regain the services of one who, I am sure, and you are sure, as in the past, will do yeoman service for it, bringing his vigorous pen to its aid as in times past, he has on the floor of parliament defended it with his even more vigorous voice in the place that he has so long adorned with his brilliant qualities."

"We are assembled to express to Mr. Fielding the deep sense of our admiration and confidence, admiration for the brilliant mental gifts, for the high character, for the pure disinterestedness for the unflinching courage for the unwavering fidelity to principle and our confidence that in the position which he has just accepted he will defend and advance our cause."

Liberal Cause Was Never More Glorious

Sir Wilfrid then quoted the saying of Cato that the virtuous cause has the favor of the gods, but that to the defeated cause Cato ever remained true and faithful. "So with us," he said, answering applause greeted the remark, "I and you, we have remained faithful. With your full approval I can say that our cause was never more glorious, and I can say that we are almost at the point where we can say that it was never more triumphant."

"What is our cause? In our cause I do not at all make any difficulty in saying that there are sentiments which appeal to the best instincts of the human heart. It is the cause of Liberalism. It is the cause of that strong British Liberalism which made England in the words of Tennyson—

"A land of settled government. A land of old and new. Where freedom slowly broadens down From precedent to precedent. Where factions seldom gather heads, But by degrees to fulness wrought. The strength of some diffusive thought Had time and place to work and spread."

"It is the liberalism which has striven to extend to the struggling masses the rights and privileges, the abundance and comfort which at one time were the exclusive property of the few. It is the liberalism which has attacked monopoly, which has proclaimed that men are equal before the law, which has cared for the poor, which endeavored to take away the sorrow from the door of the destitute ones, which has striven and which at last has forced right from the teeth of Toryism, in the words of Sir Robert Peel, "the recognition that the common man's bread should be eaten without the curse of taxation upon it. It is the liberalism which has endeavored to correct the mistakes of the past, and to correct in the most noble manner, September, 1911, the Canadian people, forgetting recent history, chose to do away with and to remove the best government that they ever had, and I dare to say that without fear of contradiction, even though I was the man who was at the head of it. If, sir, I recall that fact it is not with any intention of recriminating. It would be beneath our dignity to indulge in vain recriminations or complaints. We boast that we are a free people, and it is the privilege of a free people to go wrong, to make mistakes (laughter), and to have to pay for it not long afterwards. (Laughter.) The First Bad Year

For Workers Since 1896.

"Our cause was defeated, but our cause is not dead. Our cause is living. It is triumphant, and it seems to me that the time is not far distant when

it will be the time when we can say that our cause was never more glorious, and I can say that we are almost at the point where we can say that it was never more triumphant."

The Canadian people will repair the mistake that they have made and which they are now paying for. In the course of human events a country such as Canada is, blessed with representative institutions new conditions always arise, and new problems spring up. A new condition has arisen at the present time for the first time since the year 1896 men are seeking work and are not finding work. For the first time since 1896 there is such a thing as unemployment in this country. The Mayor of Winnipeg stated yesterday according to press reports, that there were three thousand unemployed in the city of Winnipeg. He also said that three years ago he would have passed heaven that there was not a single unemployed person in the city. Today, as we know, in Montreal, in Toronto, in all of the large cities of Canada men are seeking employment and not finding it. The most powerful industries, those the longest established and the best known for their strength, are decreasing the number of men in their employ or the number of days employment that is given to them. Some just as strong are decreasing both the number of men and the hours of work.

Work Decreasing as Food Gets Dearer.

"Sir, that is not all, though that is bad enough. At the same time that work is decreasing the cost of living is increasing. There is less work on the one side and a higher cost of living on the other side. That is the situation which should engage the attention of our government, and what is the government doing at the present moment about it? Do they allow any sign that it is their intention to deal with the problem? If we are to trust the remarks of the Minister of Labor, Hon. Mr. Crothers, pronounced in Halifax at the business men's luncheon of that city, they believe that there is nothing to do, that there is nothing to be done, that nothing is wrong, and that everything is for the best. Will you believe me when I say that I could not credit my own eyes this morning when I read that the Hon. Mr. Crothers, Minister of Labor, in the course of an address on "The Conditions of the Country," at the business men's luncheon in the Queen's Hotel today?

Hard Times Do Not Bring Cheap Food.

"If that is his opinion, that the country is prosperous because of the high cost of living, if that is his opinion, speaking for the government, that he is a member, that it is a sign of prosperity in a country, there is no reason for me to say that I am not in agreement with you. If you want cheap living, let us have a few years of hard times." (Laughter.) We have known hard times, more virtuous than my fellow men. I know that power, office, and success have been attracted to the men who are entering me, but entering as an officer, power and success, there is something else entering me and you and to every Liberal and it is to earn the gratitude of the wives of the mothers of the children, and even of the able-bodied men who, with their strong muscles, cannot give today to their families the comforts that they were wont to give them in the past. (Great applause.) This is the first of the duties which devolve today upon His Majesty's loyal opposition. Many other duties we have to perform, many other duties we have to face.

"But all these other duties must be set aside to meet this duty. We must engage in battle and never give up until we have brought to the people of Canada the property they and their government were entitled to. To this, fellow Liberals, I invite your attention and co-operation. We must tackle this subject with firmness and courage, and one thing more, enthusiasm. We will never have a better cause to fight for than this one.

Government Intends To Do Nothing

This is the condition in which we are. Are we to remain idle? Are we to do nothing? Is it the policy of the government to do nothing?

How to Have the Best Cough Syrup and Save \$2, by Making it at Home.

Cough medicines, as a rule, contain a large quantity of plain syrup. If you take two cups of granulated sugar, add one cup of warm water and stir about 15 minutes you have as good syrup as money could buy.

If you will then put 2 1/2 ounces of Pinex (50 cents) in a sterilized bottle and fill it up with the sugar syrup, you will have a much cough syrup as you could buy ready made for \$2.50. It keeps perfectly. You can use it as easily as you can buy it in five minutes.

And you will find it the best cough syrup ever used—even in whooping cough. You can feel it take hold—usually stops the most severe cough in 24 hours. It is just laxative enough, has a good tonic effect, and taste is pleasant. Take a spoonful every one, two, or three hours.

It is a splendid remedy, too, for whooping cough, croup, hoarseness, asthma, chest pains, etc.

Pinex is the most valuable concentration of Norway white pine extract, rich in galuacal and all the healing elements. No other preparation will work in this formula.

A guarantee of absolute satisfaction or money promptly refunded goes with each bottle. If the genuine Pinex is used, four druggists has Pinex, and get for you, if you ask him. If not, send to The Pinex Co., Toronto, Ont.

"I HAVE GAINED FIFTEEN POUNDS

Since Taking 'Fruit-a-lives' And Feel Like a New Person"

Drysdale, Ont., June 16th, 1913. "I am a general stovekeeper at the above address and, on account of the great good I have experienced from using 'Fruit-a-lives,' I recommend them strongly to my customers. They were a great boon to me, I can tell you, for about two years ago I was laid up in bed with vomiting and a most terrific pain at the base of my skull. This pain nearly drove me mad. Doctors feared it would turn to inflammation of the brain, but I took 'Fruit-a-lives' steadily until I was cured. I have gained fifteen pounds since taking 'Fruit-a-lives' and I believe they saved me from a disastrous illness."

I. C. R. SPUR TO COURTNEY BAY

Plans Filed For Right of Way From Present Line Across Marsh and Westmorland Roads and Cotton Factory Wharf to Foot of Union Street

Plans for the intercolony spur from a point on the main line beyond the One Mile House, out the Marsh road from the city, to Courtney Bay, were filed with the registry office yesterday morning at 11:30 o'clock by W. B. MacKenzie, right of way and lease agent for the railway. The right of way for the spur is 100 feet wide, with the exception of a strip between the junction with the main line and the point where the spur is to cross the road near the One Mile House, which is only seventy feet wide. The spur to come out on Courtney Bay at the foot of Robert street.

The government secured options on most of the property through which the spur is to pass and any land needed under the spur will be expropriated. It is understood that the expenditure for the properties which will be taken under the spur will amount to between \$150,000 and \$200,000. Practically all the land was placed under the spur by the railway company, Bruce conducting the negotiations.

The spur is to leave the main line some distance beyond the One Mile House and will pass through land owned by R. G. Murray, and cross the road just outside of the One Mile House, passing through the Westmorland road and along the edge of the old Jardine property, through all the lots of D'Almeida Place facing on Russell street, or what was formerly known as the Old Marsh road, across the street, cutting off the corner at Kane's Corner, then across the road through the land of Brunswick Realty Company's property, through the Grand Trunk Pacific Development Company's property to the head of Courtney Bay at Robert street. From there the spur will cross the mud flats on treadwork and stone to the old wharf in front of the York Cotton mill, joining the present spur, which now runs from Haymarket Square to the Ballast wharf, a point about opposite the foot of Union street. From the point where it is to cross the Marsh road, across the road, the spur will be perfectly straight. It then turns and continues in a straight line to the cotton mill.

The Westmorland Terrace was purchased some time ago by Armstrong & Bruce and sold by them to a syndicate of eight or nine men represented by Richard Armstrong & Murray Oliver. The old Jardine property, called the Woodside, was formerly owned by John McDonald, Jr., and was taken over from him by the Harris Abattoir Co., who in turn sold it to a local syndicate composed of Armstrong & Bruce, The G. T. P. Development Co., and a Toronto syndicate. Tisdale Place is owned by H. E. Bruce of Saskatoon. Several of the lots facing on Russell street, which are being taken over by the railway, were in the real estate developed by the present period through Armstrong & Bruce to individual investors, who will be taken over by the railway's decision to acquire the lots for its spur.

At Kane's corner it is planned to shift the street car tracks and have political problems it would be legitimate. But I say more, we have not only a political problem, but we are fighting even for the cause of humanity. (Cheers.) We are fighting for the wives, for the mothers, for the children, we are fighting even for those able-bodied men who with their reduced wages have to face the coming winter. (Cheers.) He Never Felt More Confident Than Now

"Trust my experience. I never felt more confident than I do at the present time. (Cheers.) I am not as young as I was at one time, but for this cause I will find enthusiasm and we are fighting even as I have before. And let me assure you, and believe me, it is true, that justice always prevails in the end. It is in this case it will not be later but sooner. It is said in the Book that death will come like a thief in the night. (Laughter.) Let it be today or later, at any moment we are ready to meet them. (Cheers.)

Will Go into the Fight with Courage

"May I say that today we will go into the fight with more courage than we did when the day after the last election, we set into the conflict anew. The day after the elections the ranks were rather thin in the Liberal party. But my friend to the left (Hon. Mr. Graham) after being away for a while, is again in his accustomed place. My friend, Mr. Fielding, takes a good pen, and in the Daily Telegraph he will drive it in such a way as to make the enemy squeak. This is not enough for me. I want also to have him in his accustomed place on the floor of parliament. (Cheers.) However, if the people of Nova Scotia will not have him any longer, I make no boast, when I say that the people of Montreal will know how to appreciate him and to carry him back into the house of which he has been so conspicuous a member."

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one cure for deafness, and that is by constitutional treatment. Deafness is caused by an inflammation of the mucous membrane of the ear. It is just laxative enough, has a good tonic effect, and taste is pleasant. Take a spoonful every one, two, or three hours.

The loss of Eugene Mullock, a seaman, aged 21 years of La Havre, France, when 20 days out from Barbados on Dec. 4, was reported by the three-masted British steamer Hazel Treby, which put in to Machiasport Saturday on her way to Charlottetown. P. K. L. Mullock was attempting to set the side lights when he fell overboard.

The Recent Milwaukee Bout

(FROM T. S. ANDREWS)

Milwaukee, Wis., Dec. 16.—As a general rule, when two really clever boxers are matched, the result from a fighting standpoint is not very satisfactory, but promoters are compelled sometimes to make these kind of matches to satisfy the demands of the followers of the game. This was the case with the fight between Packey and Jack Britton, in their 10-round contest before the Queensbury Athletic Club in Milwaukee. Drying the sweat from his eyes, that is, the great majority of them, agreed that Packey had won the contest by a fair margin of points, but there were few who considered even the reputations of McFarland and Britton. They had met twice before and from the accounts of the contests, there were more action in them than in the last one. That, too, is usually the case where men are rematched, for they are more familiar with each other's style and naturally do not seek to take too many chances.

There is no doubt that McFarland is one of the cleverest men in the world today, but he seems to be off form in the contest with Britton, who is a much better fighter than he is. Britton more than held the Chicago marl even, but after that Packey began to show his real power. He was able to make a man like McFarland bleed, to guard his eyes and to give him a good man to give away weight to an inferior one, but it is a hard proposition for a good man to give away weight to one who is considered even better. The fight itself was not as interesting as it might have been, and of the 8,000 people present, many were of the opinion that Packey did not extend himself to the limit.

I do not believe that McFarland tried to hold back in any way, but he fought a very cautious battle until the seventh round, when he cut loose and took more chances, knowing that Britton was tiring at that time. The trouble is that the fans have been led to believe that McFarland is in a class by himself and naturally expect more from him than an ordinary boxer. Britton deserves praise for the excellent showing he made against the odds, and pitied against a boy of his own weight he will put up a much better battle.

It was demonstrated that Packey is not a lightweight and will never be able to make the light weight limit. Under these conditions he should enter the welter weight division for that is where he belongs. There are half a dozen good welterweights in this country who are ready to battle against him at 142 pounds, and it is up to Packey to take them on if he wants to remain in the class where he really belongs. There is only one man for whom he will make a light weight limit. That is Willie Ritchie, and the best he will do for the champion is 135 pounds at three o'clock.

It might be well to mention, too, that there should be some checking up on the protection for the public in such affairs. When the fans pay to see two high class men in action, they expect something more than a boxing match. There is no reason why two high class men should not put up an exciting match, for they are there for the purpose and paid their money for some action—not to pose for the fans. If some close managers would pay more attention to their boxers and see that they do more fighting and less wrangling, they would be more successful and please the fans more, at the same time help the boxing game.

Thought Nothing But Death Would End Her Misery.

WAS TROUBLED WITH Heart Disease.

Mrs. J. D. Talbot, Owen Sound, Ont., writes:—"I have been a great sufferer from heart disease, and leaking valves. I have had recourse to every kind of treatment I could think might help me, including the skill of several doctors. I suffered so for years that at times I have felt that nothing but death could end my misery. I was advised by a friend, who had suffered untold pain and misery, just as I had, and had been cured by Milburn's Heart and Nerve Pills, to give them a trial, so I decided to do so. I am delighted with the result, as I am now completely cured, and can eat and sleep as I have not done for years.

You are at liberty to use my name at any time as I am convinced they are the best pills on the market for any form of heart disease."

Milburn's Heart and Nerve Pills are 50 cents per box, or 3 boxes for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

SAYS RECIPROcity WITH CANADA NOT PROFITABLE
The West India Committee Circular quotes a correspondent from St. Kitts to the effect that this West Indian island is not profiting from reciprocity with Canada. He writes: "As a result of some remarks by the governor to the legislative council in Antigua on the 14th ult., drawing attention to a marked decrease in the imports and customs for the year since the advent of the Canadian reciprocity agreement, it was disquieting to find that the customs receipts of the presidency to August 31 last showed a deficit of \$2,918 compared with 1912. The finances being in a healthy condition, however, there did not appear to be any reason for panic or talk of additional taxation so far as St. Kitts was concerned, and in course of time matters might right themselves. It was unfortunate, however, that this was the only tangible result for Canadian reciprocity to the present, and it was on the debit side."

The Milk Supply
A meeting of the milk dealers of the city was held last evening. It was reported that the effort to secure an independent supply has been successful so far, and that the consumers had heartily co-operated with them by reducing their consumption. Many of the farmers send their supply to the "combine" and but for the organization of the other milk dealers against the combine, it would have been necessary to procure some of their supply from them, but this has so far not been the case and the dealers are getting their supplies from new sources and steadily increasing the supply to a normal condition. The price still remains the same. The dealers will hold another meeting in the near future to further discuss the situation.

PAY TRIBUTE TO MEMORY OF THE LATE D. RUSSELL JACK

IN MEMORIAM David Russell Jack From the N. B. Loyalist Society.

Our careful comrade bending studios To trace the annals of illustrious dead To build a tale for those of after years A tale of steadfast courage, toil and tears

Was no less brave than they!

For when the far, imperious call was heard He calmly rose to greet the summoning word,

To bid his friends a cheerful last goodbye To leave unfinished task without a sigh

His name shall be recorded on our roll As one who labored heart and mind and soul

To do his duty well!

And those who come to aid us in our task Shall learn his value when they come to ask

What we shall have to tell!

The Loyalist Society, one of whose members contributes the above memorial poem, met yesterday afternoon and adopted the following resolutions:

Whereas it has pleased God in His divine providence to remove from our midst the late D. Russell Jack, one of the best members of this society, and for some years its painstaking historian, therefore

Resolved, that the New Brunswick Loyalist Society now desires to place on record its sense of the great loss which it has sustained in the untimely and sudden call from the scene of his earthly labors of one of its most active and energetic members.

No individual connected with the society has labored more industriously in its behalf, and the very extensive and valuable records which were gathered and compiled by him will prove a splendid foundation for a work dealing adequately with the Loyalist founders of our city and province.

Thirty years ago the late Mr. Jack at that time a very young man took an active part in the commemoration of the one hundredth anniversary of the landing of the Loyalists. From that day to the present his interest in our Loyalist ancestors continued to deepen. At most the last object that engaged his attention was the preservation of their memorial headstones in the old Burial Ground. His appeal to the governing board of the city to protect their resting places from injury and delinquency we hope will not be forgotten.

The members of the society feel that by his removal a place is left vacant that it will indeed be very difficult to fill and it is with a sense of personal loss that they desire respectfully

to convey to the relatives of the late Mr. Jack their very sincere sympathy and to them in the time of their bereavement.

The Commissioners of the Free Public Library have adopted the following resolutions concerning the late D. Russell Jack:

Whereas it has pleased Almighty God to remove from among us the late D. Russell Jack, one of the commissioners of the St. John Free Public Library, and for some time past their very efficient secretary, therefore

Resolved, that the commissioners desire now to place on record their appreciation of the services rendered by the late D. Russell Jack and of the loss they have sustained by his death. Always an earnest and diligent worker in the promotion of any cause in which he was interested, Mr. Jack's business training and systematic habits made him a very valuable member of the Library Commission. It may truly be said that few men have given so ungrudgingly of their time and ability in the public interest.

From his childhood a lover of books, Mr. Jack became in later years a writer, and at least three volumes from his pen will serve as his memory and help to perpetuate his name. That the interest of the St. John Free Public Library was dear to him is shown by the information that his large private library has been left to this institution, and will ever long be placed upon its shelves. It is with a sense of personal loss that the board of commissioners desire to convey to the relatives of the late Mr. Jack their sincere sympathy with them in the loss they have sustained.

The following resolutions have been adopted by the Historical Society:

Whereas it has pleased our Heavenly Father to remove from our midst the late D. Russell Jack, so long associated with us in the work of the Historical Society, and for some years its very active and efficient corresponding secretary,

Resolved, that the members of the society hereby place on record their deep appreciation of the services so faithfully rendered, Mr. Jack gave without stint his best efforts to preserve the records of such historic events as are worthy of being held in remembrance. His patient industry, his admirable system of keeping the records, his ability as editor of the well known magazine Acadiaensis will always claim the gratitude of students of New Brunswick history. The members of the society will long feel the loss of his enthusiasm and earnest efforts to advance its interests. They beg to convey to the bereaved relatives of the deceased a very sincere token of their sympathy and esteem.

As in former years, however, the customs postal parcel branch, located in the post office building will be kept open until six p. m. from Dec. 18 to Dec. 31, according to a circular received yesterday. For the purpose of liberating duty free mail matter, the circular says, the customs officers will be in attendance until this hour.

GUARD AGAINST FIRE. The necessity for spark arresters or some other means for the prevention of fire on the stacks on the boiler sheds which supply heat for the sheds at West St. John, was shown one morning this week. A considerable amount of soot had become lodged in one of the flues and took fire and the sparks scattered over the sheds and wharves in the vicinity. Had one of them become lodged in a crack, a serious fire might have been the result, especially as there was quite a high wind blowing at the time.
