### PEACE CONGRESS OPENED AT PARIS

League of Nations First Subject of Consideration, Next Responsibility for War and Crimes During War and International Labor Legislation

PARIS, Jan. 19. (Assoc. Press)—The peace congress, destined to be historic and on which the destinies of the world are now centred, was opened on Saturday afternoon in the great Salle de La Paix, the proceedings, which were confined to the election of Georges Clemenceau, the French premier, as permanent chairman of the conference, an address of welcome by the president of the French republic, and the speeches by President Wilson, Premier Lloyd George and the Italian premier, were characteristic of the nations to come to an understanding, respecting the problems to be decided. When President Poincaré spoke, the entire delegation stood up, and, according to custom, there was no applause. Premier Clemenceau's acceptance of the chairmanship was expressed by feelings of personal gratitude and a definite outline of the great questions immediately ahead.

Three of these larger general subjects he defined as responsibility for the war, responsibility for crimes during the war, and international labor legislation. The league of nations, he declared, was at the head of the program for the next full session.

### United States Bone-Dry After June 30.

WASHINGTON, Jan. 16. — Ratification today of the federal constitutional prohibition amendment made the United States the first great power to take legislative action to permanently stop the liquor traffic.

Nebraska's vote gave the affirmative three-fourths majority of the states to make effective the amendment submitted by congress in December 1917. It was followed by similar action in the legislatures of Missouri and Wyoming, making 38 states in all which have approved of a "Dry" America. Affirmative action by some of the ten state legislatures yet to act is predicted by prohibition advocates.

Under the terms of the amendment the manufacture, sale, and importation of intoxicating liquors must cease one year after ratification, but prohibition will be a fact in every state much earlier because of the war measure forbidding the manufacture and sale of alcoholic beverages after June 30 until the demobilization of the military forces is completed.

Under the war time measure, exportation of liquor is permitted, but the great stocks now held in bonded warehouses will have to be disposed of before the federal amendment becomes effective.

New problems of government are raised by prospective stoppage of the manufacture and sale of intoxicating liquors, as hundreds of millions of dollars derived from international revenue will have to be obtained from other sources. Laws for enforcement of the amendment will also have to be passed by congress.

Only a minimum of unemployment is expected as a result, as the cumulative severity of successive restrictive measures adopted since the war began already has caused many distillers and brewers to seek other uses for their plants. Hundreds of millions of dollars are invested in distilleries and breweries. More than half of the territory of the United States already is dry, through state action or local option. Until recently the movement of limited quantities of liquor for personal use was permitted but the supreme court ruled several days

ago that the Reed "Bone Dry" amendment made such traffic illegal.

Western and southern states took the lead in prohibition. In the west, only California and Wyoming still license the sale of intoxicants, and in the south only Louisiana. The remaining wet states form a belt through the Mississippi and Ohio river valleys to New England, the states including Missouri, Illinois, Wisconsin, Kentucky, Ohio, Pennsylvania, Maryland, Delaware, New Jersey, New York, Rhode Island, Connecticut, Massachusetts, Vermont and New Hampshire.

As the delegations arrived they were met by fanfares of trumpets and accorded military honors by the troops. The Japanese were among the earlier arrivals and were followed by the Siamese and East Indians, in picturesque turbans.

### Albert Arnold Acquitted on Murder Charge

ACT OF SHOOTING BOND SALESMAN WAS JUSTIFIED.

CALGARY, Alta., Jan. 20. — Albert Arnold, an ex-lieutenant of the German army, and now a naturalized Canadian and a farmer near Drumheller, Alta., charged with the murder of Tip Blaine, a barber and a Victory bond salesman of Drumheller, on the night of November 11, 1918, was acquitted today by the jury, the trial only lasting for the day.

Not half the witnesses that were subpoenaed were called, when Mr. Justice Stuart, on the request of A. A. McGillivray, interrupted the case and stated that enough evidence had been heard to prove that Arnold had been justified in his act. He thereupon charged the jury to this effect, pointing out that the men had already committed an indictable offense by entering the house, and, as Arnold had every reason to believe that the assailants meant to do him bodily harm, he was justified in shooting to protect his own life. He said: "The crown's evidence adduces that these men were rioters and were destroying property. If anyone breaks into another's house, and that man believes that that person means to injure him, he can use any force, even to shooting, to keep him out. There are so many circumstances in this case that are

so obvious that I need not refer to them. There are many good things in this world that become very bad when they are exaggerated. I refer to that of nationality, self-respect and love of one's country are good things to have, but exaggerated self-respect may turn into insufferable egotism. These men went out to Arnold's house, feeling very patriotic, but it is noticeable that they did their fighting in Drumheller and not in France."

The jury, after conferring for less than a minute, returned a verdict of "Not guilty," and Arnold was pronounced a free man.

### Terrible Disaster at Milestone

THREE LIVES LOST WHEN FARM HOME BURNS TO GROUND.

Three lives were lost as the result of a fire which destroyed the home of Mr. and Mrs. Frank Kime, at Milestone, Sask., Saturday morning, when Nurse Jean Parrish perished in the flames and Mrs. Kime and her two-year-old son died as a result of the injuries they received.

### SAVED WIFE AND CHILD.

Mr. Kime had gotten up and gone to the barn and shortly after looking toward the house discovered that it was in flames. Upon reaching it he was unable to enter the house. His wife was at the door with the baby in her arms and after rescuing her and rolling her in the snow, Mr. Kime hastened back to save the nurse but she had already fallen in the flames and when neighbors and help arrived her body was a charred mass. The house was a small frame structure of one story. The exact origin of the fire can hardly be determined but the belief is that the lamp ex-

## SASKATCHEWAN LEGISLATURE

A reduction in the increased tax to be levied against trust companies under a bill which was considered before the Christmas vacation was made by the Saskatchewan legislature Tuesday afternoon. In committee of the whole it was decided to retain the provision for increasing the tax on trust companies to 1 1/2 per cent. of the gross income derived from all sources, but it was decided to reduce the tax to one-half of one per cent. on monies handed to the companies for investment as trust funds.

A quiet session marked the deliberations of the assembly on Tuesday. The greater part of a couple of hours was spent during the afternoon considering a number of bills in committee and there was no night session.

### PROPERTY EXEMPT FROM SEIZURE.

At the suggestion of Lieut.-Col. Cross, representing the soldiers in England, an amendment was made to the bill exempting certain property from seizure and sale under execution proceedings and as a result in future the home property of an execution debtor to the extent of \$3,000 will be exempt from seizure, instead of \$1,500 as heretofore.

It is noticeable that I need not refer to them. There are many good things in this world that become very bad when they are exaggerated. I refer to that of nationality, self-respect and love of one's country are good things to have, but exaggerated self-respect may turn into insufferable egotism. These men went out to Arnold's house, feeling very patriotic, but it is noticeable that they did their fighting in Drumheller and not in France."

The jury, after conferring for less than a minute, returned a verdict of "Not guilty," and Arnold was pronounced a free man.

On the night of November 11, 1918, Tip Blaine, in company with about twenty others, went out to the farm of Arnold with the intention of selling him Victory bonds. After breaking nearly all the windows in the house they forced their way into Arnold's bedroom and here the shot was fired, that stretched Blaine lifeless on the floor.

Evidence given by neighbors testified to the high regard and esteem in which Arnold was held. One witness, Nichol, a near neighbor and a returned soldier, said that even when he was in khaki, Arnold never showed by word or deed any unfriendly feeling.

### Youngest Son of King George Died

LONDON, Jan. 19. — Prince John, youngest son of King George, died at Sandringham last night. He had been ill for some time. The prince was the prime favorite of all classes and the idol of the servants and tenants at Windsor. It was said he was the favorite brother of Princess Mary. The prince was born at Sandringham July 1, 1905.

An official bulletin issued this evening says: "Prince John, who since infancy had suffered epileptic fits, which lately had become more frequent and severe, passed away in his sleep following an attack at 5.30 p.m. Saturday."

The funeral of Prince John will be held at Sandringham on Tuesday and will be strictly private.

It is understood that his death will not affect plans for the marriage of Princess Patricia of Connaught, which is fixed for February 27.

ploded, and that the nurse had rushed into the flames to assist Mrs. Kime.

### Mrs. Schulman Guilty of Murder of Her Husband

Graama Schulman was on Friday found guilty of the murder of her husband, Alex. Schulman, on Sept. 28, 1918, and sentenced by Mr. Justice McDonald, at the Yorkton sittings of the court of King's Bench, to hang on April 22 next. Mrs. Schulman is the first woman to have been convicted of murder and the first woman sentenced to hang in the Province of Saskatchewan. The crime occurred at Calder last September, when Schulman was murdered by a shot from a rifle while he slept. Frank Rutka, the hired man, is to be charged with the murder, also, but it was learned yesterday that his counsel, Mr. Patrick, would ask that his case be sent over to the next sittings of the court because it might be possible that the jury which tried Mrs. Schulman might be prejudiced against the accused.

One of the most damaging admissions was made in the witness-stand by Mrs. Schulman when she stated that she had arranged with Rutka to commit the deed some time previous to the murder.

### Karl Liebknecht and Rosa Luxemburg Shot

WERE THE MAIN AGITATORS IN THE SPARTACAN UPRISING IN GERMANY

Conditions May Now Improve in Much Troubled Fatherland.

BERLIN, Jan. 17. — Dr. Karl Liebknecht and Rosa Luxemburg have been killed.

When it became known yesterday that Dr. Liebknecht and Rosa Luxemburg were at the Hotel Eden in the western part of the city, a crowd rapidly congregated and stormed the hotel lobby to lay hands on them. Both were spirited to a side entrance, but the mob forestalled the attempt of the troops to save Fraulein Luxemburg. She was beaten into insensibility and then thrown into an automobile by the crowd which was intended to take her to prison.

A few blocks down the street the machine was halted by a second mob and when the presence of Rosa Luxemburg became known a man jumped on the running board of the car and shot her through the head. The body was dragged from the automobile and carried off.

It is supposed that it was thrown into the canal, but it has not been found.

TROOPS SHOT LIEBKNECHT. In the meantime Dr. Liebknecht was hurried into another automobile by officers and troops, and the car was headed for the Moabit prison. While going through the Tiergarten the machine was halted by a punctured tire. Dr. Liebknecht was asked to get out by the officers, who intended to haul another automobile and continue toward the prison. While waiting, Dr. Liebknecht made an attempt

to escape and was shot dead by the soldiers who had anticipated such an effort on his part.

When Liebknecht was arrested at the home of a relative on Mannheimer Strasse yesterday morning he stoutly denied his identity. After being escorted to the Eden hotel he was searched and his monogram, K. L., was discovered on his shirt.

Bolshevism Wiped Out. BERLIN, Jan. 14. — Berlin's long week of Bolshevism is finally ended. Here and there, scattered desperadoes, mostly youths, still fire occasionally from some houseposts, and during the nights attempts are made by small bands of the followers of Karl Liebknecht to revive the reign of terror. They are insignificant, however, compared with what has passed.

Losses inflicted on each side during the past week are as yet estimated only roughly, but it is believed that they will greatly exceed 200 dead and a thousand wounded. The overwhelming majority of these are Bolshevists.

The reinstatement and arming of the police gives the government a new force of trained men who know the criminal world and whose absence during the first days of the revolution gave the disorderly element a free hand.

Property losses during the past week of terror amount to tens of millions of marks, in addition to the damage to newspaper plants and government buildings.

### IRISH MEMBERS INVITED TO ASSEMBLY OF IRISH REPUBLIC

DUBLIN, Jan. 16. — The Sinn Feiners have fixed upon next Tuesday for the assembly of an Irish Republican parliament. Only urgent matters will be dealt with in the absence of imprisoned members of the organization.

The Sinn Fein intends to summon its own parliament and has already held two preliminary meetings. They treat the last election as an act of self determination and look upon all persons elected, regardless of party, as members of the Irish republic assembly. Accordingly they have issued invitations to their own members as well as the Carsonites and Nationalists, but no one of the other party members is taking any notice of it.

Thirty-four of the Sinn Feiners elected are imprisoned in England and Ireland, while Patrick McCarten, Liam Mellows and Diarmid Lynch are in the United States. The situation has delayed the calling of the national assembly.

When the assembly is called the question is whether the government

will ignore it or suppress it. Two influences are operating on the judgment of the lord lieutenant Viscount French, who is the real ruler. One side declares that the Sinn Feiners have an impractical policy and will wear themselves out if let alone, while if they are harassed, they will retain the support of the country. Viscount French is said to lean to the former view. It is said that he is a home ruler, but will insist on the obedience of the law.

Want Peace Delegates. The Sinn Feiners intend that if the national assembly meets to nominate Professor De Valera, Arthur Griffiths and Count Plunkett as delegates to the peace conference, they will claim representation as if Ireland were a separate state like Belgium or Serbia. They do not expect that their claim will be granted, but are doing all they can to get President Wilson to recommend the Irish question for consideration.

### German Armistice Extended For One Month

PARIS, Jan. 17. — The German armistice has been extended one month by the commissioners, who have concluded their session at Trier (Trier). The clauses offered by the allies concerning agricultural implements, Russian prisoners of war, naval conditions and the restitution of material taken by the Germans from occupied countries was signed by the enemy delegates.

Erzberger Appeals. AMSTERDAM, Jan. 17. — The meeting between Marshal Foch and the German delegates was featured by protests by Mathias Erzberger, representing the Germans, against the status in which Germany was left during the period of the armistice. The "financial and economic dictatorship of the Entente" was the theme of his main protest.

"When will you raise the blockade," Herr Erzberger asked. "The food conditions in Germany are daily growing worse, and hunger will produce a mental state which the allies cannot desire. Your people themselves are not proof against a world revolution."

"Will the Entente," he continued, "undertake binding obligations respecting the return of the German prisoners of war? When will you be in a position to conclude a preliminary peace? Germany has asked six times for negotiations for a preliminary peace, but has received no reply."

BERLIN, Jan. 16. — Under the terms of the prolongation of the armistice, Germany must deliver by February 17 some 58,000 agricultural (Continued on page 5.)

### BOLSHEVIKI PLOT TO MURDER ALLIED STATESMEN

GENEVA, Jan. 19. — Several German and Russian Bolsheviki have been arrested by the Lausanne police. It is said that the men in custody were bearing false passports and were on their way to Paris.

The Gazette of Lausanne says: "The Bolshevists under arrest plotted against the lives of Premier Clemenceau, President Wilson and Premier Lloyd George, the plot was backed by German gold."

### PURCHASES OF CATTLE UNDER PROVINCIAL ACT SHOW INCREASED COST

The purchases of livestock under the Livestock Purchase and Sale Act have been considerably more extensive this past year than the year before, especially as regards the amount of money invested by the farmers. Unfortunately the number of animals purchased has not increased quite in the same proportion, owing to the rise in prices. Cattle have gone up steadily in price, while sheep have advanced \$7 to \$10 per head as compared with a year ago, but nevertheless the increase is a substantial one.

The amount of money spent under the act, in procuring animals for the farmers on December 1 of 1917, was approximately \$122,000, and on the same date last year the figure was \$165,000. The total amount spent in operations under the act during the fiscal year ended April 30 last, was \$196,720.39. While not a large number of cattle are usually placed during the winter months, there will be a good number of sheep disposed of, and in the spring there is always a brisk demand for bulls, so that there is every prospect of a substantial increase, both in the number of animals placed and in the amount invested under the act in livestock, by the end of the present fiscal year. Up to December 1 last, there were purchased 111 bulls and 1,292 female cattle, about 4,000 ewes, 119 rams and 35 swine.

Most of the cattle sold last year went to the northern part of the province, owing to the more abundant feed in that part of the country.

### PARLIAMENT OF FARMERS FEBR. 18-21

Tuesday, February 18, to Friday, February 21, inclusive, are the dates set for the monster parliament of farmers constituting the Saskatchewan Grain Growers' association, to be held in Regina this winter. This was definitely decided at a meeting of the executive of the association held at the central offices.

Details in connection with the big convention were discussed and some strong features of the program suggested. It was decided that one-half day during the holding of the convention would be given over to the holding of the sixteen district meetings.

Officials of the association anticipate that the attendance this year will be fully up to last year's high water mark and arrangements are being made for accommodating at least 2,000 delegates.

### SITTING OF YORKTON ASSIZES

YORKTON, Sask. — John Gilebuk, of Calder, accused of the theft of a load of grain from a Canadian Northern railway car at the loading platform was discharged from custody at Yorkton, the jury considering the evidence insufficient to convict.

The case of John Brodenink, charged with incest was adjourned to the next sittings at Yorkton. The principal witness of the crown, his fourteen year old sister, refused to give evidence against him and corroborative evidence will be required.

A. Toplitsky, of Canora, was sentenced to two years' imprisonment in Regina jail. He was charged with both arson and theft, but was found guilty on the latter count only. Evidence of the crown showed that Plaxton Bros' garage at Buchanan, valued at \$6,000, had been burned last July and \$250 worth of auto tires stolen. These were found in Toplitsky's possession and were not satisfactorily accounted for.

Hymie Goldstein, of Canora, Sask., the accomplice of A. Toplitsky in the firing of Plaxton Bros' Garage at Buchanan, Sask., and stealing automobile tires therefrom, was found guilty of arson and theft and sentenced to one year at hard labor in Regina jail.

### FOUND ILLICIT STILL AT GRAVELBOURG

GRAVELBOURG, Sask. — Constable Molyneux, provincial police constable at Gravelbourg, made a good haul on January 3, in the house of N. E. Bernier, when he found a still and worm for distilling liquor, three jars and seven bottles of "gopher" whiskey and about 40 gallons of liquid under preparation. Bernier and a hired man, named Brasseur, were arrested and later released on \$500 bail each.

Constable Molyneux had suspicions as to what Bernier was doing in his house and secured a search warrant. On entering he found the equipment and booze named above and arrested the two men who were in the house.

Previous to this he had sent a decoy with marked bills who had secured one bottle of the stuff for which \$7 was paid in the marked bills. This marked money was found in possession of Bernier.

### C. P. R. IS TO INVADE NORTH OF PROVINCE

PRINCE ALBERT. — The rumors that the Canadian Pacific railway proposes entering Prince Albert at an early date have been given realistic color by a visit to the city of C. E. McPherson, assistant passenger traffic manager, and N. W. Buchanan, travelling passenger agent of Regina, who spent a day in the city. They made a close inspection of the business of the city, but would make no statement as to the object of their visit. It is understood, however, that the Canadian Pacific has plans under consideration for invasion of Northern Saskatchewan.

### HOG CHOLERA CALLS FOR EMBARGO

WINNIPEG. — An embargo on shipments of hogs to the United States was announced by Dr. S. H. Lowe, veterinary inspector of the Union stockyards, because of an alleged outbreak of hog cholera in Manitoba. Dr. Still, Dominion veterinary in charge of the health of animals branch, stated he was communicating with Ottawa in the matter. He said there was no outbreak of cholera in Western Canada which at all justified such action on the part of the United States authorities, that there has been no serious outbreak of hog cholera during the past year and that the only recent case was one about 133 miles from Winnipeg, where a few infected hogs were found and that the infected animals had been destroyed.

The shipment of hogs to the United States during 1918 was very small, being only 3,967 head; in fact there has been no heavy shipment since 1915, when 21,655 head were shipped.

### CHILD DEATH RATE LESS

WINNIPEG. — Despite the influenza less children died in Winnipeg in 1918 than in 1917, according to the report of officials issued. During last year the number of deaths among children under one year of age was 509, or 91 per thousand births. In 1917 the total was 545. In 1912, when the department took over the work, the rate was 212 deaths per thousand births.

Steps are now being taken to have a large petition presented to the house, praying that the desired amendments or new enactments, as the case may be, be undertaken, the paper adds.

## POLICE MAKE LIQUOR SEIZURE

EDMONTON. — Following the raid by the city police on Monday afternoon on an alleged whiskey drive, at which John Greenberg and Abraham Month were arrested, another big raid was made in the early morning of the following day on the premises of Albert Kalz, who runs a shoe repairing shop at 10505 Namayo avenue. The raid took place at 7 o'clock in the morning and before noon the man stood convicted in the city police court before Magistrate Primrose, on the charge of keeping liquor for sale contrary to the provisions of the Alberta Liquor Act. He was fined \$125 and costs notwithstanding his plea that he had the stuff there for Russian Christmas cheer.

William Danking was fined \$175 and the costs of the court, being found guilty of illegally selling intoxicating liquor. The police caught him through a marked \$10 bill with which the bottle was purchased from the accused at his place of business on First street. The bottle was labelled "pep" and the contents was of local manufacture. Jacob Layold pleaded guilty to the charge of being intoxicated while in a public place, contrary to the provisions of the Liquor act, and was fined \$10 and costs.

Hugo Nieman was given preliminary hearing of the charge of the theft of a typewriter from Ingelbert Mohelbus, and sufficient evidence adduced to connect him with the charge to justify Magistrate Primrose to commit him to stand his trial at the next court having criminal jurisdiction in the city of Edmonton.

John Iwasznak, who it was alleged, stole a fur coat and sold it to a second-hand dealer for the sum of \$8, was also committed to stand trial.

## ALBERTA LIBERALS IN CONVENTION AT CALGARY

CALGARY, Jan. 15. — Liberal leaders from all parts of Alberta are gathering in Calgary for the convention which opens tomorrow. Already Hon. Charles Mitchell, provincial treasurer; Hon. A. G. McKay, minister of municipalities and health; Hon. Geo. P. Smith, minister of education; and Hon. Duncan Marshall have arrived. Premier Stewart, Hon. J. Boyle, attorney-general, and Hon. Jean Cote will be here tomorrow morning. Hon. A. McLean is absent in the east. Not one of the Liberal-Unionist members of the federal house will be present.

The indications are that attendance will be large. No one has authority to state just what will be dealt with, but it is generally understood that resolutions calling for abolition of the tariff on all agricultural implements will be the program.

## GRAIN FUTURE DEALINGS ILEGAL

## Sask. Legislature

(Continued from Page 1.) ment to the Volstead Act; a bill respecting an act to amend the Secondary Education Act. They will be up for a second reading on Monday.

At the evening session several bills were considered in committee of the whole house and two or three were given third readings and finally passed with the exception of the royal assent. A couple of bills were discharged on second reading and a second reading was given to two or three other new measures.

The following bills were considered in committee of the whole and given a third reading: An act to amend the Saskatchewan Loans Act, giving the government power to limit the time of redemption of future issues of consolidated stock of the provinces, and an act respecting public printing, which provides for the establishment of a department of king's printer.

The bill to provide for the cancellation of agreements of sale was considered and reported and will be given a third reading at the next sitting. A similar disposition was made of the bill to amend the Deserted Wives Maintenance Act.

The following bills were discharged on the second reading. The bill to amend the Legislative Assembly Act and the bill to amend the Chartered Mortgage Act.

Two bills were given a second reading and will be considered in committee at the next sitting. A bill respecting infants and a bill respecting lunatics and their estates.

Scenes of unprecedented enthusiasm greeted the appearance of ex-Premier Hon. Walter Scott on the floor of the Saskatchewan Assembly, which he visited in the capacity of a guest Thursday evening. The Assembly and visitors in the gallery rose on mass and received him with a rousing rendering of "He's a Jolly Good Fellow."

G. B. Johnston of Melfort was speaking at the time of Mr. Scott's entrance but was obliged to halt when the ovation rent the air. Before he resumed the thread of his argument, Mr. Johnston paid a warm tribute to his former chief in behalf of the entire assembly. "I am very pleased," he said, "to see our former premier, the Hon. Walter Scott, again with us. He is a man whom we all honor and for whom we have every respect. I am glad to see that he is restored to health and I am sure that I am echoing the feelings of every member of this assembly when I assure him that we hope that he will continue to enjoy his restored health and that we wish him all prosperity in the future."

During the evening sitting R. A. Magee, Mississin, and G. B. Johnston, Melfort, contributed to the debate on the resolution introduced the previous day by G. Spence, Nulken, calling upon the federal government to declare its policy in connection with the railroads of this country. A. J. Hindle of Willow Bunch also spoke, but after his opening remarks adjourned the debate and he will resume his address probably at the next sitting.

In seconding Mr. Spence's resolution, Mr. Magee opened his remarks by pointing out that the question of railway facilities for the people of this province was of importance to every member of the assembly, for the progress of the country was inseparably bound up with transportation accommodation.

After a period of unprecedented railway development a halt had been called as the result of financial conditions brought about by the war, and at the present time there was much uncertainty as to what steps were going to be taken to provide facilities for thousands of settlers who were badly in need of branch lines. The C.P.R. was under federal control. The G.T.P. might go ahead and construct more lines but would not do so until the

federal government had announced its policy. The era of reconstruction had dawned and the country was bound to go ahead, but the development would be seriously impeded if railway construction were not immediately taken in hand.

Mr. Magee went on to show that social and economic progress, in fact, the making of good citizens was bound up and was to a large extent dependent upon railway development. These prairies should develop the highest type of citizens and their boundless prairies should develop broad ideals.

Something would have to be done to keep faith with the pioneer settlers who had borne the burden of building a new country and had waited long for the necessary railroad facilities. There should be an comprehensive scheme of railway development that would prevent the duplication of lines and ensure feeders where there are now none. Mr. Magee pointed out that in several sections of the province lines were closely paralleling one another and referred to the fact that in his district for a distance of 75 miles the C.N.R. and C.P.R. run almost side by side. This was a condition which a concrete policy would prevent. Instead of permitting lines to parallel in close proximity running rights should have been given to two companies over one line and the duplicated trackage used elsewhere.

As an instance of long deferred facilities which had induced settlers to take up land and produce to the utmost of their ability the speaker cited the charter granted for the Kaiser-Swift Current line, which was given in 1908-09 and the greater portion of which has not yet been built.

"Someone has broken faith with some of our pioneer settlers or they would not have been without such needed accommodation for so long a time," declared Mr. Magee.

G. B. Johnston, Melfort, as a pioneer, was able to speak with sympathy and experience to the subject under debate and during his remarks related several incidents of the trials attendant upon farming long distances from a railway from the wealth of his own experience. Moreover, he pointed out, these conditions were by no means a thing of the past, the hardships caused by lack of railway facilities being acutely felt at the present day by thousands of settlers in his section of the country, the northeast of the province.

While Mr. Spence had stated that people were leaving for the southwest in considerable numbers the reverse was true of the northeast where people were moving in. He stated that there were large tracts of land with people settled on every parcel without railway facilities. He cited more particularly the districts of Melkman, Ethelton and Flotts Springs.

While he was unable to quote statistics to show the amount of land under cultivation or the amount of grain produced annually in his constituency, he assured the assembly that the country was well settled and produced several million bushels of grain. The soil was fertile and responded abundantly to the efforts of the farmer and in some of the districts he had mentioned a crop failure was yet unknown, but there was a big drawback to substantial progress and that was the lack of railway facilities.

The speaker said that up in that country farmers had to haul grain to an elevator for distances ranging from 30 to 50 miles and it was not an uncommon thing to contract for delivery at 25 to 30 cents a bushel.

Referring to the nationalization of the C.N.R., the speaker said that at Melfort the service which had been given since the line had been taken over by the government had been very bad and that at Melfort and Lipset there had been a grain blockade since October 1. Resolutions and telegrams had been of no avail and no amount of protest resulted in cars being provided to move the grain. Similar conditions prevailed at Star City, Valparaiso, Tisdale and other points on the line.

"Something must be done and done quickly," he said in conclusion, "so that the men who grow the food that has been so eagerly sought, the men that are making our province, may not much longer have to endure the hardships of the pioneer."

A. J. Hindle, Willow Bunch, continuing the debate, opened his remarks with a plea on behalf of the residents of the Willow Bunch, Hart Butte and Poplar Valley rural municipalities, for the construction of the extension of the Canadian National railway from B-

# WARNING!

The death of a munition worker was recently reported as a result of blood-poisoning from a slight cut.

Now we are all more or less liable to accidents, both at home and at work, but we can protect ourselves against serious consequences by applying Zam-Buk immediately an injury to the skin is sustained.

Zam-Buk contains very unusual qualities. It is a strong antiseptic, and at the same time is very soothing and healing. It is, therefore, capable of ending the pain and destroying the poison in a wound before healing. Zam-Buk not only destroys all germs in a wound, but by protecting it from the germ-laden air keeps other diseases out. At the same time the healing essences of Zam-Buk grow new skin, which gradually covers the sore place and a complete cure is the result.

There is nothing else known to science which will perform the healing miracles done by Zam-Buk. This is because of the secret herbal composition of this ointment. Be prepared for any emergency by keeping a box of Zam-Buk on hand. 50c box, 3 for \$1.25. All dealers or Zam-Buk Co., Toronto. Send 1c stamp (for postage) and FREE trial box will be sent you.

ough to the Alberta boundary. He quoted figures to show that in this area there are 655,313 acres of cultivable land of which 184,996 are under cultivation at the present time.

It was estimated that out of a total of 455,000 bushels of wheat marketed at the five elevators at Verwood in 1917, 341,250 bushels were hauled in by farmers residing in the country south and southeast of the town. That meant, said the speaker, that 6,825 loads were brought in, taking two days to haul each load. Of this number it was estimated at least 5,000 loads passed through the hamlet of Willow Bunch because there are no railway facilities at that point.

## LAURIER ASKS THAT PAST BE FORGOTTEN

OTTAWA, Jan. 14. — Addressing the delegates to the Eastern Ontario Laurier Liberal association in Ottawa tonight, Sir Wilfrid Laurier sketched the main lines of his policy. He spoke vigorously, being enthusiastically applauded as he made each point.

"If the Unionist press wants no opposition in parliament," he declared, "the Union government goes farther and wants no parliament at all. They have proceeded to make and amend statutes by order-in-council, commanding the military authorities to disobey the rulings of the courts when such rulings were at variance with their orders."

He dealt chiefly with four points: Treatment of returned soldiers, franchise, tariff and relations between capital and labor.

Sir Wilfrid declared that returned men were creditless of the nation and the debt should be discharged in full. He strongly criticized the government for its reported intention to bring in a bill regulating the system of electoral enumerators as established by the War Times Elections Act.

## TARIFF FOR REVENUE ONLY

On the tariff issue, Sir Wilfrid declared that the policy of his party had been and still was that of tariff for revenue only. The fact that the government had placed wheat, potatoes and tractors on the free list was a confusion on their part that they had acted stupidly in opposing reciprocity in 1911.

Finally, in regard to labor, Sir Wilfrid urged that labor should be admitted to the councils of the employer. He referred in closing to the break in the old Liberal party over conscription and to his leadership. "If we have differed in the recent past upon a question that is not to rise again," he declared, "then let the past be forgotten. As to leadership, he had been willing and was still willing to resign in favor of a younger man."

The time had come, Sir Wilfrid added, when he thought every day he was getting nearer Heaven. He would gladly have resigned the leadership of the party to younger hands and would do so readily today. But so long as God gave him health, he would fight, and he believed that he still had a kick left in him. "I will do my share," Sir Wilfrid went on, "in any position, whether as general, captain, lieutenant or private."

## GERMANS WHO WILL SIGN PEACE PACT

ZURICH, Jan. 17. — The Munich newspapers state that the German delegates to the peace conference will be Count Von Brockendorff-Rantzau, the foreign minister; Prince Lichnowsky, former ambassador at London; Count George Aro, and the Socialist, Carl Kautsky, former under-secretary of foreign affairs in the Ebert government.

## GERMANY CONTINUES CONSTRUCTION OF GREAT AIRPLANES

PARIS, Jan. 15. — In allied aviation circles here it is felt that the allies should assume definite control of Germany's aircraft production as soon as possible with a view to preserving the peace of the world. It is admitted that it will be difficult to establish such control. There is no clear solution of the method to be employed through the peace terms, but it is appreciated that it is incumbent upon the allies to prevent Germany from subsidizing and encouraging the construction and use of the newest type of huge weight-carrying airplanes.

There is much dissatisfaction concerning the terms of the armistice among the senior and junior officers in the air services of the allied armies which in the past two months have been receiving reports in increasing number of the high activity in the aircraft factories of Germany and in the reorganization of the flying corps of that country. These reports have raised a feeling of the point of belief that the enemy's enterprise constitutes a real menace and the grave possibilities resulting from Bolshevik power and the reorganization of the German army or a combination of both are seriously discussed. Although there is no imminent danger from these sources one point is generally agreed upon. That is that any time within the next few years, 1,000 bombing planes could simultaneously attack the great cities of France, Belgium, Holland and England, causing unprecedented death and damage and that there is no means of preventing it.

## Fears of Future

The enemy undoubtedly will suffer some losses but the magnitude of the onslaught would guarantee its purpose. It is argued that the allies would be able to retaliate, but that would not undo the damage. Rather it would lead to a continuation of the air bombing warfare on an enormous scale. The consequences would be all the more horrible because the homes of civilians, commerce and the very life of the cities would bear the brunt. Experience during the past years has shown that it was impossible to police the frontiers and prevent air raids effectively. At the same time the effectiveness of aerial bombardments has been doubled by the building of bombing machines of a size, speed and weight-carrying capacity never before known. These machines have developed until they can carry 1,500 pounds of bombs which can be directed by sighting devices, making accurate hits from 20,000 feet possible.

These new and deadly weapons had been barely prepared for use before the armistice was signed. Some of them were used a few times while others were never employed, but they are now ready in both Germany and the allied countries. To prevent Germany, through apparently peaceful methods, from building an aerial fleet which could, at short notice, be converted into bombers and in a few days work destruction of extraordinary importance, is according to many of the most practical authorities, one of the most difficult problems faced by the peace commissioners.

## BRITISH DELEGATES TOO MANY FOR US

LONDON, Jan. 15. — A telegram from Paris states that Premier Lloyd George brilliantly fought the case for separate representation for the Dominions; India and the native states. He urged that the principal basis of representation should be the actual war efforts of the countries effected, and that some ratio in connection therewith should be observed.

The American representatives in friendly, but most firm manner, unremotely opposed the proposal, President Wilson saying that he objected to the British Empire having so many delegates. When the council adjourned on Monday the question was delicately poised but Tuesday a full agreement was reached though America did not withdraw resistance. France sturdily supported the British claim as did Italy, but not so eagerly. Japan readily assented.

Lloyd George failed to secure separate representation for Newfoundland. Although it is true that representatives of small nations which include the British dominions will only be called in when directly affected, by the question under discussion, in actual practice, they will attend the great majority of the sittings. Indeed it is difficult to see what question does not affect them.

## RUSSIA MAKES OFFER TO STOP PROPAGANDA

COPENHAGEN, Jan. 17. — Maxim Litvinoff, former Bolshevik ambassador to London, has sent a note to President Wilson declaring that the Bolshevik government of Russia is prepared to cease its world propaganda if the allies will agree to enter into peace negotiations with it, according to the Social Demokrat.

## GERMAN NATIONAL ASSEMBLY

LONDON, Jan. 16. — A German government wireless says that the first separate national assembly in Germany met Wednesday at Karlsruhe. The people's ministers formally surrendered their mandate to the assembly which requested them to continue their administration. The German troops evacuated Mitau on January 13, the message adds.

## BRITAIN TO AUCTION HER STORES OF WAR MATERIAL

LONDON, Jan. 14. — Among the most convincing end of the war signs are advertisements of government auction sales of enormous assemblages of military property including several factories as they stand, airplanes, nearly two hundred war vessels, enormous quantities of miscellaneous war goods, such as tents, textile products and boots.

The Canadian government is in the first run with the clearance of Ashford Camp stores on Jan. 28, when among the lots offered are thousands of pairs of rubber boots and shoes, oilskins, three thousand bell tents, one thousand beds, ten thousand handkerchiefs, lumber, saddlery, tools and wire netting.

## 500 DROWNED WHEN STEAMER STRUCK MINE

ROME, Jan. 17. — The French steamer Chaprol has struck a floating mine in the Straits of Messina, sinking in a few minutes. 500 passengers, mostly Greeks, Serbians and Russians, have been drowned. Another steamer saved 150 of those on board.

## RIGA IN HANDS OF RUSSIAN RED ARMIES

BERLIN, Jan. 13. — Riga is now completely in the hands of the Russian Red Army, according to a Mitau despatch to the Vossische Zeitung. Bolshevik forces have advanced from Dvinsk and occupied the station at Neugut, thirty-one miles from Mitau.

Mitau is overflowing with refugees. German soldiers, the last persons leaving Riga, report that the city is burning in several places and that the Russians and Letts are murdering and plundering.

## GERMANS TAKING ENORMOUS NUMBER DOCUMENTS TO PEACE CONFERENCE

LONDON, Eng. — Preparations for the peace conference are being concluded by the German ministers. An enormous number of documents have been made ready, according to the Amsterdam correspondent of the Daily Express. These will be taken to Paris by the German peace delegates and their staff, which, including secretaries and assistants, number about one hundred.

It has been arranged, says the correspondent, that every ministry shall be represented by at least one official of first rank. The foreign office will be in full force, with Count von Brockendorff-Rantzau, the foreign minister, at the head, and possibly with Carl Kautsky and Dr. Eduard David, Socialist, and Eduard Bernstein, Independent Socialist, as first advisor.

Among the colonial experts who are to be sent to Paris the names of Dr. Solf and Dr. Dernburg are mentioned, while the ministry of mercantile marine will be represented by the late Herr Ballin's successor, Herr Heineken; the ministry of commerce by Dr. Rathenau, president of the General Electric Co.

Nikolai Lenin, the Bolshevik premier of Russia, was among Russians who landed at Barcelona recently according to newspaper reports.

Polish troops, with artillery, are advancing toward Thorn, north of the Polish-Prussian border, according to despatches received from German sources. In eastern Brandeburg the population, it is added, is fleeing westward, owing to the advance of the Poles, who

## A PICTURE FROM GERMANY OF TODAY

OTTAWA, Jan. 15. — The following despatch has been received from Fred James, official correspondent with the Canadian Corps, dated from Bonn, Germany:

"The Canadian front line east of the Rhine is threaded through a section of remarkably beautiful country, so peaceful and prosperous in appearance that it is hard to reconcile it with war, and yet in a semi-circular belt measuring approximately 30 kilometres from the Hohenzollern bridge-head at Cologne, a state of war does exist and much of the machinery for waging war is distributed over the area.

"The territory that borders on the neutral belt which extends for about six miles in width, is held by sentry posts and by armed patrols, whose passage of duty takes them up hill and down dale, through woods and open farm land. At strategic points machine-guns cover all approaches and behind them batteries of field guns and howitzers lurk, ready for immediate action if need be.

"A policy of watchfulness is maintained day and night, and, as in the old days of actual fighting, battalions in the line are supported in their rear by sister units.

"The troops are billeted in the villages scattered across the country, some in humble homes, others in pretentious establishments. Some of the privates tell of having canned beds to sleep in, with real linen sheets and all-wool blankets to cover them, so naturally, after a long period of life in vermin and rat-infested dug-outs, too often ankle deep in mud, with water oozing through the roof; they say it is not such a bad war now.

"In contrast with Bonn there seems to be no lack of food in the settlements where I visited. Geese, fowl and ducks are plentiful at every farmhouse, and I saw good horses everywhere and herds of cattle grazing in the pasture land."

The Turks who have been holding out in Medina, holy city of the Mohammedan faith, have capitulated to the King of the Hedjaz, it was officially announced. The capitulation was under the terms of

SEE STILL GREAT DANGER

LONDON, Jan. 15. — The Central News agency declares as a result of the Allied discussions in Paris the whole aspect of demobilization has undergone a sudden and vital change, this being shown in the drastic conditions demanded of Germany for a renewal of the armistice.

"On authority of an unimpeachable character," says the Central News, "it can be stated that a situation exists in Europe under which war may break out again at any moment. The Allied war council has arrived at a decision which means the British people have mistaken the appearance of peace for reality. This decision means that the new British ministry must revise the whole scheme of demobilization."

"The decision is that Great Britain, in proportion to its military strength, must maintain an army of occupation on the Rhine front for many months. If the rapid increase in demobilization recently announced were continued there would, in a few months, be no army in France to undertake the obligations which by common decision of the Allies have been placed upon British shoulders."

CLAIMS OF ITALY

ROME, Jan. 16. — The recent speech of Leonida-Bissolati, in Milan, in which the former cabinet minister expressed the opinion that Italy should not claim the Brenner Pass in the Tyrol or Dalmatia, has caused an outburst of indignation in virtually the entire Italian press.

Among other things the utterance has drawn out the publication of a document setting forth the claims Italy should make at the peace conference, which was drafted in April, 1917, by Senator Leopoldo Franchetti, and signed by 3,000 persons, senators and deputies of all the parties, including followers of Signor Bassolati, Socialists, Clericals, Radicals, etc., which was presented to the premier. Only three copies of these documents are in existence. In it, the Italian claims are set forth as follows:

In Europe, the annexation of the Adriatic lands, namely the upper Eridre, the Trentino, Gorizia, Trieste, Istria and Dalmatia, possession of the natural boundaries with a strong strategic frontier on the Austro-Hungarian side, in the Adriatic, exclusive of Italian domination, with freedom of navigation for all commercial purposes and with the cession to the peoples east of the Adriatic of the outlets to the sea necessary to their commerce.

UKRAINIANS KILL TWO THOUSAND IN PRZEMYSL

GENEVA, Jan. 14. — Two thousand persons have been killed at Przemysl, Galicia, by the Ukrainians, according to a despatch to the Neue Freie Presse, of Vienna, a copy of which has been received here.

The Ukrainians have been bombarding Przemysl for several days, and conditions in the town are described as terrible. The gas and electric plants have been destroyed and there is no light in the town. Water and food also are lacking.

Pogrom in Jewish City

WARSAW, Jan. 14. — A pogrom is reported to have taken place at Breditschew, popularly known as the Jewish capital of the Ukraine, the place deriving its title because of its all-Jewish population. The trouble is reported to have occurred as a result of an attempt by peasants to disarm militia which the Jews were organizing for their protection in all countries.

Bolshevik Forces Move on Warsaw

WARSAW, Jan. 14. — Bolshevik forces are converging on Warsaw over three lines of railroads. They are advancing from Vilna and have passed Zudario and Orani. Southwest of Lida, they have reached Mosty, which is situated on the eastern bank of the Niemen river. Other columns are reported near Brest-Litovsk. The German evacuation of Bialystok is holding up the Bolshevik advance in that region. The number of the enemy is unknown, the Poles not having sent aviators as yet to investigate. It is estimated, however, that the Bolsheviks have 30,000 men. It is feared that Warsaw is in danger of meeting the fate of Vilna. The Poles have a certain number of soldiers in Posen, which may be thrown against the Bolsheviks.

It is officially computed that 41,000 persons died in Egypt outside of Cairo and Alexandria, as a result of the recent influenza epidemic.

GERMAN ARMISTICE EXTENDED ONE MONTH

(Continued from Page 1.) tural machines of various kinds. As a guarantee for the fulfillment of the demands, the Entente also reserves the right of occupying the sector of the fortress of Strasbourg formed by the fortifications on the right bank of the Rhine, together with a strip of territory from five to ten kilometers in front of it.

Paris, Jan. 17. — The Haas agency announces the signature of the new clauses of the armistice as they stood concerning the surrender of German submarines ready for sea and the destruction of the submarines in the course of construction, which the Allied commissioners discovered in German ports in December. The clause placing the German merchant fleet at the disposal of the Allies also was signed.

NEW GERMAN GOVERNMENT

AMSTERDAM, Jan. 17. — The Ebert government has under advisement a draft of a constitution for Germany prepared by Prof. Preuss, according to the Acht Uhr Abendblatt of Berlin and has agreed to the fundamentals of the proposed constitution. The federal character of Germany will be maintained and the country will be composed of a number of free states.

At the head of the government will be a president elected for 10 years with a government composed of a chancellor and ministers. There will be a national chamber, "volkshaus" elected by all the people and a federal chamber, "staatenhaus" elected by the national representatives and the federal states.

MAY CHECK EXCESSIVE ISSUING OF PRESCRIPTIONS IN OTTAWA

TORONTO, Ont. — Sir William Hearst re-affirmed the statement he made to a deputation of the provincial executive of the Dominion Trades congress recently that the Ontario government had under consideration amendments to the Ontario Temperance act, having to do with the alleged excessive issuing of prescriptions for liquor by doctors.

The prime minister's attention was drawn to a case which is being heard in Windsor, where, it is alleged, one doctor issued 150 prescriptions a day for ten days, charging \$1 for each prescription.

BRITISH SOLDIERS CONVOY FOOD ON VIENNA STREETS

VIENNA, Jan. 14. — A small body of British troops arrived here today as the convoy of a train-load of foodstuffs, a present from the British army in Italy to the women and children of Vienna. Great crowds followed the convoy through the streets.

BRITAIN TO RELEASE REQUISITIONED SHIPS

LONDON, Jan. 15. — The shipping controller announces that British ships completing voyages on and after March 1, at ports for delivery to United Kingdom or in exceptional cases, ports abroad, will be released from requisition except insofar as they are required for government purposes or are ships to which special conditions apply.

Shipowners are now free to make arrangements for employment of their ships from the time indicated, subject to the employment and charters being approved by the controller and the necessary licenses for the proposed voyages being obtained.

Ignace Jan Paderewski, the Polish leader, and General Joseph Pilsudski, the military dictator of Poland, have reached an agreement, according to a statement given out at the Polish national committee headquarters.

BOLSHEVIKS THREAT TO MASSACRE SWISS

GENEVA, Jan. 14. — The Bolsheviks in Petrograd has telegraphed an ultimatum to the Swiss federal authorities, saying that unless thirty Bolsheviks, who were arrested and imprisoned in the fortress of Sanktanton, in the canton of Valais are released, Swiss citizens in Petrograd will be shot without trial. There is great indignation here over the situation.

The Bolshevik movement seems to be spreading in the Rhine towns and in North Switzerland, where Madame Balanova, a Russian who recently was expelled, has returned secretly with several million rubles for the carrying out of Bolshevik propaganda. The police are searching for her.

Railway Employees Treachery

VLADIVOSTOK, Jan. 14. — The evacuation of Ufa, the centre of non-Bolshevik activities, west of the Urals, by Russian and Czechoslovak, was hampered by the treachery of railway employees who allowed the railway engines to freeze when the city was surrounded by 11,000 Bolsheviks. There was much fighting in the streets of Ufa on December 30, and it was attended by heavy losses on both sides.

On the afternoon of December 30, after bombarding the city, the Bolsheviks advanced on all sides and were joined by the railway men. The retiring forces, however, managed to make good their retreat and blew up a bridge across the river to prevent the Bolshevik from following them.

Bolshevik spies who were captured by the Czechs reported that every member of the Bolshevik army has been promised 1,000 rubles for the capture of the city.

Anti-Bolshevik Armies Are Big

LONDON, Jan. 14. — Large anti-Bolshevik armies are in the field in South Russia, according to the Constantinople correspondent of the Times. He says 180,000 men, 80 per cent of them Kuban Cossacks and the remainder former officers of the Russian army, are operating under General Denikin.

North of this command, is another army of Don Cossacks, under General Kraenoff of 250,000 to 300,000 men. The two armies have practically cleared South Russia of Bolsheviks. Their main purpose is to establish communication with the anti-Bolshevik forces in Siberia.

BRITAIN TO RELEASE REQUISITIONED SHIPS

LONDON, Jan. 15. — The shipping controller announces that British ships completing voyages on and after March 1, at ports for delivery to United Kingdom or in exceptional cases, ports abroad, will be released from requisition except insofar as they are required for government purposes or are ships to which special conditions apply.

Shipowners are now free to make arrangements for employment of their ships from the time indicated, subject to the employment and charters being approved by the controller and the necessary licenses for the proposed voyages being obtained.

Ignace Jan Paderewski, the Polish leader, and General Joseph Pilsudski, the military dictator of Poland, have reached an agreement, according to a statement given out at the Polish national committee headquarters.

WANT TRIAL OF KAISER

BERNE, Jan. 15. — A German commission appointed to determine the former kaiser's responsibility for the war has officially recommended that he be brought to trial, according to information received from Berlin today. The recommendation was presented by Herr Krautzsky, who was appointed by the present German government to direct examination of documents in the archives of the foreign office.

GERMAN BOLSHEVIKISTS HAD POOR SHOWING IN BALLOT BOXES

BERLIN, Jan. 15. — The numerical unimportance of the Bolshevik elements outside of Berlin has again been demonstrated by the city elections. At Chemnitz, in a total vote of more than 117,000, the combined Spartacan and Independent polled 6,269 and the majority Socialists 64,534.

A comparison of the Wartenberg results with the Reichstag election of 1912 shows the enormous growth of the democratic vote. Whereas the Progressives polled only 18 per cent, of the total vote in 1912, they received nearly a third of the whole vote Sunday last.

ARMISTICE TERMS HAVE BEEN AMENDED UPON 'RETRIBUTION'

LONDON, Jan. 15. — The new armistice terms to be presented to Germany by Marshal Foch are officially stated here to include the following: First—Retribution upon the Germans for the murder and ill-treatment of allied prisoners.

Second—The machinery and goods taken by Germany from France and Belgium to be at once given up. It is pointed out that France alone has 500,000 men who will be out of work until this machinery is returned.

Third—German gold, amounting to more than \$500,000,000 to be moved from Berlin to a safe place, probably Frankfurt, and protected from Bolshevism in Germany en route. Certain other property to be surrendered.

Fourth—Germany to give over her shipping of which she is believed to have 4,000,000 tons, to carry food supplies to countries in Europe in need of them.

Fifth—Any U-boats on the stocks to be handed to the allies for their disposal or to be destroyed, and no more submarines should be built.

German Gold Reserve

PARIS, Jan. 15.—German gold reserves which the allies propose to transfer to Frankfurt from the Berlin Reichsbank totalled 2,262,626,000 marks on December 31, according to the last official report of the Reichsbank. Complications made here from German official reports relative to paper in circulation give a total of 31,792,313,000 marks. Besides this there are great quantities of paper which various municipalities have issued.

WAR RESTRICTION WILL CRASH THIS MONTH SAYS GOVT.

It is probable that before the end of the present month most of the war restrictions upon trade and business will have been removed, says an Ottawa dispatch. It is the policy of the government to remove them just as rapidly as conditions will permit. Some have to be maintained by reason of restrictions still in force in the United States and Great Britain, or by reason of the necessity of co-operation of Canadian officials with officials of these countries. It is thought that the operations of the Canadian food board and the war trade board will cease within the next two or three weeks.

WALTER SCOTT DOES NOT APPROVE OF SCHOOL ACT AMENDMENTS

Next spring Hon. Walter Scott is coming back to Regina to live among his old friends again. From here he will write editorials for the Moose Jaw Times, of which company he is the president. Regarding his political plans he had nothing to say when asked, but regarding the political situation in Canada he had decided opinions. Mr. Scott was not optimistic regarding the reconstruction period in Western Canada under the tariff barrier 'is let down. With the tariff removed, the west needs no other stimulant to development he said. The country was rich; it should attract a large immigration but it was being held back.

Fears Peace Conference Outcome

He was even less optimistic concerning the future of Canada which, in his opinion, is going to be barred by an economic agreement at the peace conference which, in his opinion, will saddle the country with high protection for the next fifty years, and which from its nature will be a contract in which the honor of the empire will be at stake and cannot be easily abrogated.

On the language question in Saskatchewan, Mr. Scott said he was sorry that the government had touched the matter. Coming so soon after the War Time Elections act it was apt to make bad feeling worse. The hour a day allowed for foreign tongues had been used to but a trifling extent and was not worth legislating against. He was afraid that a difficult situation in relation to the foreign born had been made more acute.

Speaking of the proposal of Hon. W. R. Motherwell to transfer the purely educational work of the department of education to the university of Saskatchewan, Mr. Scott said the idea was worthy of serious consideration. If it revivified friction it would be a charge for the better as friction made for trouble. On the whole he thought the advantages outweighed the disadvantages and the suggestion of Mr. Motherwell was worthy of consideration and probably of application.

Mr. Scott is the guest of J. F. Bole, and will be in the city until Sunday, when he will leave for Vancouver Island.

A GRATEFUL OLD COUPLE

Mr. Ove T. Lee of Canora, Sask., writes: "For our part we are very thankful that we have such an excellent medicine as Forni's Alpenkrauter in our home. We are getting old in years; I am seventy-one years old and my wife is seventy-three years. The Alpenkrauter is doing good services and has saved us many a doctor bill." This well-known herb remedy is quite a favorite with old people; it is an excellent tonic, because it keeps up the digestion, regulates the stomach and invigorates the whole system. This remedy can not be had in drugstores, it is supplied to the people by specially appointed local agents, or direct from the laboratory. If you are interested in this good tonic, write to Dr. Peter Fahrney & Sons Co., Chicago, Ill.

LITTLE GIRL ANXIOUSLY SOUGHT

A little brown-haired eight-year-old girl, named Annie Tkack, from Sandy Lake, Man., strayed from her home last April and has never been seen or heard of since. The parents have been in hopes that they would hear of the missing child, but neither the neighbors or anyone appear to be able to furnish a clue to the mysterious disappearance. A reward of \$50 has been promised to anyone who can furnish her aged grandfather, Tom Bubay, of Gypsumville, Man., with information of her whereabouts, dead or alive. At the time of leaving home on April 4, 1918, the child was wearing a check dress. Her description is grey eyes, brown hair and medium height.

A deputation of interested persons representing cities, towns and municipalities in the eastern and southern parts of the province is in the city to take up with officials of the provincial government the question of a proposed railway to run from Estevan north to The Pas, passing through Stoughton, Kipling, Broadview, Melville and Yorkton.

OCEAN PASSENGER RATES TO BE REDUCED

What looks to S. M. Greene, city passenger agent of the Grand Trunk Pacific, like a reduction in the cost of ocean passenger fares is shown in a telegram he received last night from the Cunard line offices which stated that S.S. Aquitania sails from Halifax to Liverpool on February 1. The message also said that the minimum fares were as follows: First cabin, \$130; second cabin, \$85; third cabin, \$36.25.

Mr. Greene says that the present minimum fares for second cabin are \$90 and for third, \$56.25, so that the rates quoted in the telegram must mean that a reduction in ocean transportation is becoming effective.

HEAVY SENTENCE FOR SELLING LIQUOR

"I agree entirely with what Mr. Turnbull has just said, the sale of liquor in Regina by druggists, through doctors' prescriptions, has degenerated into nothing short of a public scandal," said Magistrate Heffernan, just before he sentenced Fiesel and Krauss the other day in the police court after hearing the evidence which convicted them of the illegal sale of liquor. The magistrate added a few words of castigation along general lines, and then fined Fiesel \$200 and costs, and sentenced him to three months in jail. From Krauss he exacted a fine of \$100 and costs and passed a sentence of two months in jail. The evidence, he stated, was as clear as could be, and he was fully warranted in finding the accused guilty of the charges against them.

Easy to Get Whiskey

"It seems remarkably easy to get whiskey in the city," were the opening words of Frank W. Turnbull, counsel for Messrs. Fiesel and Krauss, in his statement, which was a sad revelation concerning the conditions attendant on the sale of liquor in the city. A fair, short, interpretation of the condition as pictured by Mr. Turnbull was given by a city official after the court had closed, when he said that some doctors and druggists were driving the bootleggers out of business.

"I have caused an examination to be made," said Mr. Turnbull, "in a certain drug store in the city."

"The records in that store show that in three consecutive days 21 prescriptions for intoxicating liquor were filled. There are seventeen drug stores in the city, and if they are doing even approximately the same amount of business along that line it is apparent there is a tremendous traffic in liquor in Regina.

"The spirit of the law, at least, is being broken by certain doctors and druggists. If the letter of the law is being broken, in my opinion,

### 1500 MORE CANADIANS ALIVE

OTTAWA, Ont. — Fifteen hundred Canadian soldiers who were reported as missing and presumably dead have been located in Germany since the armistice was signed, says the Ottawa Journal. Many of these soldiers have been missing since the battle of Ypres and have long since been given up as dead. The German authorities have never reported them and their mail was never received.

While the discovery of these 1,500 missing soldiers, long since given up as dead, has brought joy to many homes, it has resulted in tragic complications in a number of cases. Reports have been received at Ottawa already that a number of cases where wives of these soldiers, who were reported missing and later dead, have remarried.
