Ranks of the Fourth Contingent Complete and Recruiting Stopped.

Expected Parliament Will Conclude its Labors by May Seventeenth - There Will be no Home Rule Bill

OTTAWA, April 27 .- The ranks of the fourth contingent are complete, and recruiting was stopped yesterday by instructions from headquarters. The western quotas are as follows: British Columbia, 228; Manitoba, 197;

Northwest Territories, 180. Parliament will conclude its labors by May 17th. This is the general opin-ion amongst parliamentary men. The cabinet was in session until a late hour last evening considering the sup-plementary estimates, which will be presented not later than Wednesday. railway subsidies this session. There been elected to the chamber of depu-It is said there will be few if any

SOUTH AFRICA.

The executive of the national league had a meeting this afternoon, at which it was decided to ask Hon. John Costigan not to submit any resolution on the question this year. The ostensish sible reason given is that the session is too far advanced and it is not desired to delay prorogation. The real reason is that Sir Wilfrid to be consistent would have to accept the resolution if submitted, and this would discredit him with the home authorities on the occasion of his approaching visit to England.

#### A CIGARETTE YOUTH

KINGSTON, Ont., April 28.—Beatrice kingston, Ont., April 28.—Beatrice Holland, the fourteen years old daughter of the sight is somewhat impaired.

Hugo is from Rossland and was reported dangerously wounded at Hart's River. Williamson, of London, was wounded in the same action. Tennant enlisted at Moncton and is a son of James Tennant of Fredericton. He was wounded in the head at Hart's River.

KINGSTON, Ont., April 28.—Beatrice Holland, the fourteen years old daughter of the fourteen years old daughter on the Kingston and Pembroke rallroad, is dead in her home, and Eric Sharp, the fifteen years old son of Henry Sharp, a Princess street grocer, is locked up in the police station on a charge of James Tennant of Fredericton. He was wounded in the head at Hart's River. told by schoolmates, the girl was in the habit of bothering the boy. Today in the cloak room she tipped his hat off several times, and finally Sharp told her if she did it again he would school in company with companions, Sharp was waiting outside. approached he drew a revolver and fired. The bullet lodged in the girl's Young Sharp ran away, but delivered himself up to the police about sever o'clock. He declares that the shooting was accidental. He admitted havclares he had no intention of doing so. When he pointed the revolver at her it went off. An inquest will be held tomorrow. Both families are griefstricken over the horrible affair. Young Sharp is a rather fast young man, be ng addicted to cigarettes and novels.

long and an Inch wide. Would say the man had been dead at least six or (Isaac's) second wife was Ruth Oulton, eight hours. Would have been possecond daughter of the late William eight hours. Would have been possible for him to have been dead more nesday night that the abdomen was greatly distended. Was a post mortem condition. Did not then form any opinion as to cause of death. Then decided to hold an autopsy. It was a question of

ELIMINATING CAUSES OF DEATH. An offhand impression would be that the man had been in a fight. Made the post morten examination at 9 Fort Cumberland. The Oulton family o'clock Thursday morning. Found comprised Isaac, the eldest; Bramford, several slight bruises on the right Charles and Edward, all dead; Busby, burned portion. Showed it to be post to, N. B., now dead; and one other sismortem. Examined the head first and dissected both flaps of the scalp. Under the abrasion on the left side found a clot. Next removed the skull cas. An examination of the skull cas. An examination of the skull failed to show any fracture. Under the tongue there was a wound. The man had cally one tooth. Examined all the oronly one tooth. Examined all the organs of the body, but found no signs ease. No sign of liquor in the stomach nor hemorrhage in the brain

Thought death was due to CONCUSSION OF THE BRAIN, lue to external violence. Did not

think the bruises on left arm, nose and head could have been caused by a Coroner Do you think there was foul play ?

Witness-It points very strongly to Conner Do you think there was

foul play?

Witness—Yes, I do.

To Mr. Trueman—Witness said he believed the injuries could not have been received by a fall from the situation and extent of the wounds. The height and landing on the top of his head. It would be possible to receive such injuries by falling down stairs. A man attacked from the front would receive injuries on the arm similar to R., who was tried by court martial on those described. The wound under the a charge of intoxication, was acquittongue might have been produced by ted on Saturday afternoon and has the tooth. The wound on the forehead been reinstated. looked like the result of a blow. There was nothing to indicate that head had der and heavy rain passed over the come in contact with dirt or any forcome in contact with direct w eign substance, and nothing to indicate that the man might have had per St. John regarding the drives. cate that the man might have nad fainting spells. The wounds were so severe that he could not have locomotion after receiving them. The breakton of Little Tobique with his drive, ing of the nose could have caused concussion. The bruises were not caused by one stroke; that was impossible. The blow on the left side could not have been caused by a fist. The blows on the nose and left side of the progress with another half million on head would be sufficient to

KNOCK A MAN DOWN.

Had he fallen down stairs, Oulton would probably have had a hemorrhage of the brain. There was nothing in the room he could have fallen against to have caused the injuries unless he had climbed high up and fallen directly on top of the stove. Had Oulton tallen down stairs in his own house and received the blows he did, it would have been impossible for him to have reached the room where the body was found. The injuries could not have occurred at different times. It being after 12 o'clock, an adjournment was agreed to until 7.30 o'clock Monday night. There are five or six more witnesses to be examined. INTERESTING DOCUMENTS.

After again searching Oulton's house esterday afternoon the police brought to the North End station and exam ined a second box of business docu-ments. Its contents were found to be similar to that of the other. Dusty bundles of deeds and mortgages, bills, receipts and promissory notes, formed the bulk of the papers, which also included large numbers of unpaid bills hotel, and was taken ill in the night. for ground rents and insistent lawyers.

A physician pronounced the cause diphtheria, and had the patient repayment. Among the interesting moved to Victoria Hospital. scraps was a promissory note for \$4.50, dated Aug. 1st, 1888, payable one day after date and signed by Samuel Torry, the man who shortly afterwards was stabbed to death by Watts, who subsequently was convicted of the crime and sentenced to thirty days in jail.

THE BODY INTERRED.

The Body interres.

Through the drizzling rain of Saturday afternoon the scarred body of Isaac Oulton was taken from Chamberlain's undertaking rooms to Fernhill and buried. Bev. R. P. McKim read the beautiful ritual of the Church of England burial service over the grave, at which the only mourners were W. B. Wallace, who had been the legal adviser of the dead man, and Mrs. John Carrigan of 104 Prince William street, who claims to be his niece.

Oulton and Phoebe, his wife, of Westmorland county. Hiram and Rufus Oulton, two of the most flourishing farmers of Bale Verte, and Captain S B. Oulton, of Brooklyn, N. Y., retired

are her brothers.

Isaac G. Outlon's old home was on the Amherst shore. He was the eldest of a family of seven. His mother's name before marriage was Eunice. Goodwin, whose father had come to Nova Scotia as an Imperial officer to temple, the skin being slightly broken.

Might have been the result of a fall Shore; Elizabeth, later Mrs. N. H. or a blow. Made an incision in the Smith, of Jollicure, Westmorland coun-

#### OTTAWA LETTER.

Discussing Whether the Territories Shall Receive Provincial Rights.

Mr. Chariton Rapidly Becoming the Chief Protectionist in the House.

Time Has Come When Canada Should Take Efficient Measures to Get the Full Benefit of Her Great Nickel Wealth.

OTTAWA, April 19.-Nobody seems to remember of having seen a count out in the house of commons. Twenty members constitute a quorum, which is less than one-tenth of the whole number. But small as it is, this quorum was not on hand during a good part of yesterday's discussion on th important question whether the territories should receive provincial rights. Premier Haultain of the Northwest has demanded such an establishment and his council and assembly support him in it. Rev. Dr. Douglas, one of the four members from the territories, declares that the country is not yet ready for this change. Mr. Sifton entertains the same opinion, and holds that the population is too small and too scattered for such an organization. As a matter of fact the population is larger by far than that of Manitobs at the time that it was made a pro vince, and larger than that of British Columbia during its history as a province of Canada. The people are scattered over a large extent of country it is true, but they are largely grouped in communities and a consider proportion are village population.

The substance of Mr. Sifton's objection appears to be that the people in the west are divided on the question whether they should be grouped into one province or two, and that the immense amount of land and other re sources in the country would be an incentive to extravagance and the ac-cumulation of a large debt. Mr. Borden, the opposition leader, does not share the apprehensions. The people of the territories must some day be entrusted with these great responsibilities, and there is no reason to suppose that the folk now in the country will be more wasteful and reckless than those who shall be there a few years hence. The present government at Ottawa does not itself appear to be afraid of incurring debt, and it is quite probable that the western men would not mortgage their own future any more than the government at Ottawa is mortgaging it for them.

The real objection at Ottawa to western autonomy is probably a desire to control western expenditure and western resources. There is no end of money made by people who have a "pull" in the Northwest, and the importance from a party point of view of the patronage of the department of the interior would be greatly dimin-ished if the business which Mr. Sifton vere handed over rather independent and would not be likely to have a government like those Scotia, willing to play second fiddle to the Laurier administration here.

It is an interesting circumstance that while the subject was under discussion the government interest in it was so small that there were never more than three ministers present, of whom two were engaged in writing letters or asleep, until they went out and left the minister of the interior to wrestle with the question alone. Mr. Sifton was disposed to improve the opportunity to go on and pass various other estimates. He was restrained by the suggestion of the opposition whip that there was no quorum. To use a bull, it was found that the only way to keep the house sitting was to adjourn

Mr. Charlton is developing rapidly into the chief protectionist of the Yesterday the nickel interests and the binder twine industry received his attention. On both subjects he stands out for better protection than our present system affords. The statement made by Mr. Charlton in regard to nickel is quite interesting. have in this country the chief supply of nickel for the world. The United States people cannot get on without our nickel, and they buy the whole of it in the form of matte, which is slightly refined ore, and is admitted to the United States without duty. This mineral has become one of the most important elements in industrial operations. It is absolutely essential the manufacture of armor plate and is used in the best steel rails and structural iron for various purposes, and of course in many articles of the ware in common use. Canada might control this manufacturing industry if we did not choose to allow nickel to be sent

ore into their country and manufacture it, and do not allow nickel products in an advanced condition to admitted except under very high duties. The result is that the manufacture of nickel products in this country is impossible, and we are giving to a foreign country the control of an industry wherein we have a natural monopoly. Mr. Charlton goes on to state that a nickel trust has been organized in the United States with a capital of \$34.000.000, of which \$18.000. 000 will be issued at once to buy up the nickel properties of the world. the trust has purchased the Canadian properties and will obtain them all. It is closely allied to the steel trust, and will thus place the British empire at the mercy of the foreign corporation for all nickel products. Mr. Chariton reminds the government that it has power al-

The United States people take care

of their own interests. They get the

away in a crude form.

the world's supply of nickel, the United States, by the ownership of the Philippine Islands, controls the world's supply of manila hemp. Our friends across the border do not follow the Canadian example. There was always an export duty on manila, collected for the benefit of the Philippine ad-ministration, but it was applicable to all countries. It still remains against all countries but the United States, amounts to \$7.50 a ton. This manila is used in the manufacture of cordage and of binder twine. Of course the United States under absolute free trade and equal conditions would have a good chance to control the Canadian market, but with the advantage of nearly half a cent a pound and free trade besides, there can be no chance for the Canadian manufacturer. This was pointed out in a previous letter in a statement of the case obtained from John Connor, but was not brought up in the house until yesterday. It will be seen that while we give the United States their raw maferial in nickel free of charge, that country shuts out the refined product from Canada by a prohibitive duty. The United States cuts off our raw material in hemp by a high export duty, and we invite them to send the manila product into this country duty free. Thus we are generous in regard to both commodities, while the United States is protected in both. Mr. Charlton makes a strong case against the present Canadian tariff on binder twine and cordage, and though Mr. Fielding will not commit himself to anything, it is pretty certain that before the session is over he wil have to

do something about it. When Mr. Gourley offered the suggestion that the opposition should pay ess attention to small government peculation and more to larger speculation, he may have had in mind the comparatively small steal achieved in the Grosse Isle expenditure. It is small enough compared with the Intercolonial jobs or with the operations in the Yukon. But after all when it comes to paying \$1.45 a foot for pipe that is sold in the market at 85 cents, making a total charge of \$4,700, it is perhaps worth looking into. Mr. Kemp, who knows what pipe ought to be worth, is trying to find out why the chief architect purchased from one of the favorites in Quebec this pipe and other articles amounting to \$10,000 at prices 80 per cent. over the market value. Mr. Ewart's explanations are rather vague. The chief architect the air and manner of a canny Scotchman. There is an impression that he would not buy pipe for his own louse and properties on the same basis that he buys it for the Grosse Isle quarantine station, but if he were buying for himself he would not be obliged to buy from Mr . Tarte's

OTTAWA, April 21.-When Mr. Brock declared his conviction that Mr. Tarte was not master of the administration, he said he was sorry for the fact, because if Mr. Tarte was master we would have a better tariff and more dignified relations with the United States. I suspect that the mastery of the administration waries from time to time, and that occasionally there is in the cabinet something resembling They discussed somewhat fully the anarchy. It is understood that not long ago Mr. Fielding informed the premier in a formal manner that he vould no longer be responsible for the financial administration if Mr. Tarte was allowed to go about the country condemning the tariff and setting forth the changes that ought to be made. There may be evidence against Mr. Tarte's mastery in the fact that the minister of public works has not since made a tariff speech and did not even improve the opportunity by taking part in the budget debate.

Yet I venture to think that though the budget was delivered a month ago, and though Mr. Fielding then declared that there would be no tariff changes until next year, the session will not conclude without at least one important amendment. The binder twine situation is the same as it was on budget day, but Mr. Charlton's speech and the general enlightenment of the public in regard to the matter have brought things to a crisis. It will be rather a surprising thing to have a finance minister within six weeks after declaring his intention to keep the tariff as it is for a year, make an important change by taking binder twine from the free list. Yet this is the thing that is likely to happen. Nothing else can save the binder twine industry in Canada so long as the United States retains the advantage in the Philippine Islands export

duty. Moreover, when once a duty is imposed upon binder twine it will stay there, no matter what change is made about manilla, for the government realizes what the opposition announced long ago, that this concession to the United States was an atrocious blunder, and as Mr. Charlton pointed out, all the more idiotic when made on the eve of negotiations with the United States. This concession and the exemption of corn were two things which could have been used in making a bargain with the United States. Our delegates went to Washington after having announced to the government there and to the world that we required the free importation of corn and binder twine in our own interests, and therefore that there was no concession to the United States in the matter. Yet there is no free trade in corn or in binder twine, only the free admission of those articles into Canada from the United States. If the goods travel the other way the duties are high enough.

Mr. Sifton has been obliged to beat a retreat. The Treadgold deal in the Yukon may still be bad, but at least it is changed so far as to satisfy the delegates who came here pledged to fight the government on the subject. Whether there is anything left in it for the original dealers is not known. fir is no earthly good for railway ties, ready to impose export duties on nickel It may be remarked that the original as Mr. Pottinger himself swore the matte, and he recommends that that dealers are not to any considerable other day. It is also reported by the

one or two or three mi large interests in the which did not cost them much money, which take place in regard to then they stand to profit on the principle of "heads I win, tails you lose."

But if Mr. Sifton has not succeede in completing the transaction as originally made he need not be despondent He is quite prosperous in this world's goods, and this will temper an ad ministrative disappointment. The lates bank statement shows that he holds two hundred shares recently acquired of Bank of Ottawa stock, which is good in the market for about \$40,000 or also good for \$1,800 a year dividends. For a minister who came here six years ago in rather straitened circumstances and who has since bought and rebuilt a house which is now one of the finest residences in the canital who keeps up the best set of driving eams that are found here, with pos-sibly two exceptions, and has gone through the most expensive election campaign on record, this is not a bad showing. It may be observed that Mr. Fielding and Sir Richard Cartweeks bought houses in the city, bu they are comparatively modest in their establishments, costing in one case about ten thousand and in the other eleven thousand. Mr. Sifton's house has cost a good deal more than both the others.

To go back to Mr. Tarte. It will b remembered that a few days befor the session Mr. Mulock's organ in Toronto opened up a discussion government ownership of telegraph lines. The writer in the Toronto Star and also one in the Toronto Globe suggested that the government telegraph ine, and those which should be established under the Marconi system, ought to become a part of the post of fice service. At present the govern ment lines are controlled by Mr. Tarte, and we have seen through the transactions of the public accounts committee how beautifully they are organized in the interest of contract tors who are now in and out of the government employ. Mr. Tarte's Patrie vigorously opened fire on the Toronto suggestion and furiously protested against the idea that any part of the telegraph control should taken from Mr. Tarte and given Mr. Mulock. It did not take La Patrie long to get on the usual argumen that this change would be an al and an insult to the French-Canadian people. The argument was that Mr. Tarte was a French-Canadian, and was minister of public works, and the telegraphs were in the department of public works. Mr. Mulock is English and therefore a transfer to him of a telegraph is robbing the French peo-

But somehow Mr. Fielding got ahead of Mr. Tarte with Marconi. As Mr Marconi is neither English nor French, but Italian, his nationality was a neutral element in the case. Mr. Fi was first on the ground and made the Marconi bargain, and however much Mr. Tarte may have resented it, he did not get here in time to interpose a veto. But the other day was Mr. Tarte's turn. The Prince Edward Island members made complaints of the Anglo-American cable and of telegraph matters in that province generally. procured is good for double that applications of the Marconi system to their requirements. There was some interest in the question whether Mr. Mulock or Mr. Fielding or Mr. Tarte would reply. But the little minister of public works was ready, and the moment the ministerial utterance was due he was at it. Some other minister had had no instructions from the governbeen discussing the question of the Anglo-American Company, but Mr. Tarte ignored that. He also ignored Mr. Fielding and the Marconi arrange ment, and informed the house that for his part he meant to go to Engla this summer and to have a short and interesting conversation with Anglo-American Company. If they would hear reason, well and good; if not, something else would be done, and Mr. Tarte would be the man to do it. So now if Mr. Fielding makes his arrangements with Marconi, and if the Marconi system is adopted in Prince Edward Island, Mr. Fielding will be obliged to stand and deliver the control to Mr. Tarte.

S. D. S. OTTAWA, April 22.-Members of the accounts committee who undertake to get the truth concerning Intercolonial railway management have a retty hard contract. In the first place if there is a witness desired whose information is supposed to be accurate and important and may be damaging to the government, the motion to call him is voted down by a majority of the committee at the request of the minister, and a majority in the house supports the action. Then when ar enquiry leads up to proceedings more than a year old all these are ruled out. This happens now for the first time in the history of enquiries at Ottawa And yesterday it was discovered that when witnesses called by the governmust have memoranda from ministers which it is deemed expedient to keep out of sight, these written papers may abstracted from the owners' desk and retained by government supporters in the house. When a witness is and appears with the anno that he cannot find his own documents and it is afterwards discovered that a government supporter in the com-mittee has secretly acquired them, and is keeping them until it may or may not suit his purpose to have them pro-duced, one begins to ascertain how difficult it is to learn the exact state of facts to this extraordinary Intercolonial management.

Mr. McManus appeared in the committee yesterday as Mr. Blair's witness. He has been inspector of ties on the Intercolonial, but was displaced from those duties nearly a year ago, when complaint was made that he was accepting bad ties. A reinspection was ordered last May, and has not yet not know and that the matter should been completed. Less than one third be concealed from the committee of the ties have been re-examined in the eleven months, and the examiner says that 23,000 of these are fir. Now

points. Mr. McManus cannot that the latest inspection is believe correct. He thinks that Mr. Williams, who was sent by Manager Russell to go over his work, made a mistake, and that the ties which Mr. Williams said were fir were really white spruce. In his examination a short time ago General Manager Pottinger stated that Williams had knowledge of ties and of railway stores generally. It may be assumed that Mr. Russell knew his capacity when he selected him. If Mr. Williams cannot tell white spruce from fir his appointment as judge of Mr. McManus' inspection was a ridicu lous blunder. For surely there cannot be many men who know anything about timber unable to distinguish be tween these two woods. Both kinds are about as bad as they can be for railway ties, but according to Mr. Pottinger's testimony fir is a little worse, since fir will last only three years and white spruce is good for

Just here I will insert the evidence given by Mr. Pottinger as to the relative value of ties. Mr. Pottinger was asked on the first day of his examination and declined to answer, but he undertook to get the information, and a week or two later he appeared with a memorandum on the subject from his engineer. The examination was by Mr. Haggart.

Q. I asked you about the life of diferent qualities of ties. What do you put down for cedar?

A. Six to ten years. And spruce? A. Black spruce six years, white o vellow spruce four years.

Q. What about popuar.
A. It is worthless or worth very little. Q. You would never think of putting in a poplar tie?

Q. I suppose the cost of putting

A. No. Q. What about fir? Fir is down here for three years

down and taking it up again makes almost worthless too? A. Well, we prefer not to have it a

What about hemlock? Six to seven years. Q. What about princess pine?

Eight years.

A. Nine years.

This evidence is interesting in the light of the prices paid and of the qualities of the wood accepted. It appears that Mr. Culligan and Mr. Ultican were paid 20 cents per tie for spruce and cedar, the same for one as the other, and that white spruce was accepted from both. Inspector liams finds that 23,000 fir were also taken from these or other contractors Mr. Curran got 25 9-10 cents for spruce but it is not known what proportion was white spruce. These purchases were made in election year, and the stock procured, exclusive of spruce, was double the number required or used. So large a supply is on hand that the government is buying scarcely anything now that the elections are over. Those which are bought cost 20 ents apiece for cedar and princess pine, and 173-4 for hemlock. This is less than was paid for white spruce or election year, while white spruce last four years, and the cheapest wood now

To return to Mr. McManus. Closely examined by Mr. Blair he stated that he was authorized to pass certain ties d that he made his examination thout favor to anybody. He gave special favors to Mr. Curran and ment to slight the inspection. He admitted he did not insist on full size stating that his instructions were to use his own judgment, and that it was usual to allow a 6 in. to 61-2 in. tie to go in under a 7 in. specification. Mr. Blair put on a considerable appearance of severity, as if he were anxious to get all the facts. But there was no suggestion from him that Mr. Mc-Manus and he had any communication concerning the inspection at the time the ties were accepted. The whole drift of the examination was to show that Mr. McManus was guided by his instructions from Moncton. No ene would have supposed from the minis-ter's method that he had himself adsed a note to Mr. McManus order ing him to accept Mr. Culligan's white

This leads us back to the first day of the inquiry, when under the "intense" examination of Mr. Blair, Pottinger was made to say that minister did not interfere in any matter of purchasing supplies. Mr. Blair pressed this question very insistently, and no one could reach any other conclusion from Mr. Pottinger's answers than that Mr. Blair had kept out of it altogether and gave Mr. Pottinger leave to carry out the general manager's own policy. Mr. Pottinger's not contradicted, for it does not appear that he knew anything about the communications which passed through Mr. Blair and the tie inspector. Mr. Pottinger, indeed, swore to this in spite of Mr. Blair's vigorous examina-tion and repeated questioning whether subject with the minister on the railway train. Mr. Pottinger has no re collection of any such interview.

So Mr. Blair's examination of Mr. McManus came to an end, and if Mr. Barker had not by some means learned of the private communication given by the minister to Mr. McManus, the whole subject would have been left there. Mr. McManus had not destroyed Mr. Blair's letter, but it had been taken from his desk, and Mr. McManus did not know where it was. Mr. Em merson knew, for he had the letter Mr. Blair knew, for Mr. Emmerson called him out of the committee room and told him. But it was evidently the intention that the public should

Mr. Barker had heard something, so after obtaining from Mr. McManus an explanation of the charges made Mr. McManus explained that complaint power be exercised. Mr. Fielding says extent Yukon people. They are sup- latest inspector that a large number of about the ties had been made, that

Mr. Burpee, who had charge of the matter, sent for him, took him away from the inspection, gave him something else to do, and sent another man to go over his work. But it was some time before this that Mr. Burpee and Mr. McManus first came into collision. During the inspection somebody told Mr. Burpee that Mr. McManus was accepting white spruce ties. Mr. Burpes knew that white spruce ties were no good and did not want any four years' ties put into his road. So he summoned Mr. McManus and asked him what he did it for. It was then that Mr. McManus told him he did it by in-

It took Mr. Barker a good while to find out where these instructions came from. Mr. McManus was very reluctant to testify on this point. Witness said he rejected certain ties and afterwards accepted them. Why did you reject them? he was

He rejected them because they were white spruce, and his instructions were to accept only black spruce.

Why did you accept them at last? Because I was instructed to do so. Who instructed you? Well, I accepted them.

And so the question and answe went until Mr. Barker appealed to the chair to compel the witness to answer. Brought to a point, Mr. Mc-Manus said that he had instruction from the minister. Finally he stated that the instructions were written, and at last the fact was elicited that the written communication to Mr. Mc-Manus had been given to Contractor Culligan by Mr. Blair and handed by the contractor to Mr. McManus. Mr. Culligan had told Mr. McManus when he rejected the ties at first that he would get authority for accepting them and he kept his word.

It was after this that Mr. Burpee attacked the inspector for accepting these white spruce, and the inspector told Mr. Burpee what authority he had for doing so. It seems that Mr. Bur-pee could hardly believe that this in-terference had occurred. It was necessary for Mr. McManus to produce the letter, which he had not then about him. Mr. Burpee subsequently got the letter, kept it for a time, returned it to Mr. McManus, who finally put it in his desk. Thence it mysteriously disappeared, and when the inspector came to Ottawa after he had received Mr. Blair to be found.

Mr. Burpee was thus suppressed, the white spruce was accepted and paid for at very good prices, and the railway has on hand a considerable stock of useless ties. To begin with, there was no need of taking spruce at all. The way from cedar to spruce was easy, and that led down to white spruce, and according to the recent government inspection still further down to fir and poplar. If there is any worse wood known to lumbermen probably it will be heard from next.

Mr. Blair next took the witness in hand and obtained from him a statement that previous to this note he had accepted white spruce from Mr. Ultican. It is not yet ascertained how this acceptance of white spruce began. It could never have been authorized by Mr. Burpee, who evidently despised this kind of wood. It was not authorized by Mr. Pottinger, and certainly not by Mr. Russell. Mr. McManus wears that the memorandum that he had when he went to examine Mr. Culigan's ties was that he should take no other spruce but black spruce. Mr. Blair got him to the point of stating what was evidently a fact, that the note from the minister was an instruction to treat Mr. Culligan the same as Mr. Ultican. There is clearly another note somewhere, or some other in-struction which led to the acceptance of this worthless wood from Mr. Ultican.

Mr. Emmerson, who thinks it is quite to the point to show that some contractor, who seems to have favored, is a conservative, asked Mr. McManus whether Mr. Ultican was not a liberal and Mr. Culligan a conservative. Mr. McManus gave it as his opinion that this was so. The matter is of no importance in connection with the business transaction, but as a matter of fact it is believed that Mr. Culligan supported the government candidate in Restigouche at the elec tion that was going on when he had his contract. What happened was that Mr. McManus, in spite of his own judgment, and of the judgment and orders of the engineer of maintenance required to accept these almost worthless white spruce ties from Mr. Ultican, that Mr. Culligan wanted the same privileges and after an interview

#### A KIDNEY SPECIALIST

South American Kidney Cure is compounded to cure Kidney diseases, and nothing else-it relieves in six hours.

South American Kidney Cure touches the weak spot firmly, but gently; gives the best results in the shortest time; cleanses the ki nevs results in the shortest time; cleanses the ki neys which in return cleanse and purify the blood, for blood, can become impure only by passing through weak and ailing kidneys. Let us live up to the light of the 20th century. Employ the means, and enjoy robust and vigorous health.

with Mr. Blair obtained from him a note of instruction to that effect addressed to Mr. McManus. Mr. Pottinger could not have been present at the transaction or he would have remembered it. There is another and stronger reason for saying that he was not present, for if he had been the order would have been given by him and not by Mr. Blair. Mr. Blair always puts one of the officers in the gap in a case of this kind if the officer is accessible.

And so while the deal with Ultican is not yet explained, facts in regard to Mr. Blair's interference were brought out. After that there was nothing to be gained by a further concealment of the letter, and something to be gained by producing it. So Mr. Emmerson, having called Mr. Blair out and consulted him, produced the identical document, which is identified by the witness and by the minister. This was after a long and wearisome questioning and explanation of the wintess about the loss of the letter, with speculation on his part and on the part of his examiner as to what had tecome of it and a promise from the witness that he would endeavor to find it. It is fair to Inspector McManus to say that while under Mr. Blair's examination about this letter he was a very unwilling witness and he appeared to be anxious not to tell anything that was untrue. It was difficult to get from him the whole truth, which is to be expected, but there was no reason to suppose that he told anything but the truth.

Mr. Emmerson's statement was heard with amazement. He seemed to be rather merry at first over his achievement, but afterwards the seriousness of the position appeared to impress itself upon him as it certainly did upon others. Mr. Emmerson's story was that before the Easter vacation he attended this enquiry and became anxious about the instructions which Mr. McManus had received from the minister. Now there was no mention in the committee about these instructions. The olny evidence given was calculated to produce the impression that Mr. Blair never gave instructions. Mr. Emmerson's anxiety was therefore due to information received elsewhere. What purpose he may have had in desiring to control the document that would connect Mr. Flair in an awkward way with the tie transaction can only be guessed. all events Mr. Emmerson says that when he went to Westmorland he set about an enquiry on his own account. As Mr. McManus was to be a witness he did not speak to him, presumably because he thought It would not be proper to do so. He therefore went to Mr. McManus' brother, who undertook to procure for him the letter which was the property of Inspector McManus, and which it was the inspector's duty to bring with him to the committee. The delicate sensibility which prevents a man from talking over the evidence with the witness before he comes into court, and which permits him to obtain through another person from that witness' private drawer a part of the testimony which he is to furnish is too fine to analyse here. The result was that from Easter until yesterday Mr. Emmerson carried around Mr. McManus' letter, while Mr. McManus was searching for it to bring to the committee, the unfortunate owner never dreaming that the

There is no reason to suppose that this paper would ever have been heard from again by the public if the facts had not been previously brought out at the examination. Perhaps it would have been heard from by Mr. Blair, because it might be convenient for Mr. Emmerson to mention it privately. Between Mr. Emmerson and Mr. Blair we are none of us wise enough to know what use may be made of information procured from other people's desks when the owner is away. as between the public which wants to know how public business is done, and the administration of railways, this affair is shabby enough.

### BOSTON LETTER

The High Price of Meats a Serious Problem.

Pilgrimage to St. John in June by the Knights Templar of Biddeford and Saco.

A Former Inmate of Dorchester Penitentiary Now Charged With Killing an Everett Policeman-Deaths of Former Provincialists -The Lumber and Fish Markets.

(From our own correspondent.) BOSTON, April 24.—The great beef quiet. The salt mackerel season has question continues to be a live issue the country over. The extortionate prices now prevailing for nearly all large dry bank, \$4.75 to 5.25; and large kinds of meats have resulted in a pickled bank, \$4.25 to 4.75 Pickled hermarked falling off in the demand, many ring are in small supply, with the market unchanged at \$6 to 6.50 for N. S. people preferring to use the commodity large split, and \$5.25 to 5.50 for me as little as possible. The beef issue has been brought before congress in various forms, but it is not likely that wholesale at \$2.50 to 2.60. Live lobanything will be done, as the five cor- sters are in liberal supply at 14c., and porations controlling the supply are boiled are plentiful at 12 cents. too wise to violate the laws governing combinations. These laws, it may be remarked, are so peculiar and often times so confusing that they are little better than none. The high price of meats is a serious problem for the com mon people, and so ominous has the become that the press, legislators and even the pulpit are direct ing their batteries against the "beef barons." In sympathy, nearly all other kinds of provisions are advancing.

The conduct of certain American military authorities in the Philippines is still causing indignation everywhere. Such a long chapter of torture and inhuman treatment of Filipinos has been revealed in testimony given at Washington and Manila that the American people would not now be surprised at anything. Since the admissions by officers themselves under oath concerning acts which transpired in conformwith the "fire and sword" policy inaugurated by superiors, the press has contained a long list of statements from former soldiers, which, if true, show that Weyler, "the butcher, have to look to his laurels. The official testimony cannot well be disputed, and that in itself is quite revolting enough to show that someone will have to be punished. Practically every newspaper in the country, irrespective of po lities, has denounced the atrocity, and the American Philippine policy continues to receive some hard raps in congress. It is generally believed that ent Roosevelt will shield no one, and that all found guilty of violating the laws of war will be harshly dealt

If all goes well St. John will be the objective point of a pilgrimage to be undertaken by the Knights Templar of Biddeford and Saco, Me., in June. tremity of the eastern end a shorter The members of Bradford commandery line, marked on the diagram 159 feet, ng arrangements to start for runs in a southerly direction towards St. John by rail June 23, arriving there on June 24, St. John's day. #### Hobbled Six Years Cured in Six Weeks of Chronic

Rheumatism by Ferrozone.

Hundreds, aye thousands of cure have been put on the market for Rheu matism during the past few years, but remedy with power to cure Chronic Rheumatism, Ferrozone excepted, in the estimation of Mr. Cullen of Stur-

geon Bay, does not exist. Mr. Cullen says: "As everyone know I have been simply tortured for years with Muscular Rheumatism, not the ordinary kind that bothers most people, but the kind that ties one up so

that they can't move.
"For six years I hobbled about like cripple, unable to move without crutches and canes. I used quantities of medicines; special baths and so forth, but they didn't help me very much.

"On the advice of a Presbyterian minister I used Ferrozone, gave it a good trial at first, and when I saw it was helping, I bought six boxes and took one tablet at the close of each meal. I am perfectly cured and am to day as spry as a youngster of ten. I am convinced that my recovery is entirely due to the marvellous action of

Mr. Cullen's case is a fair example of the kind of cures that Ferrozone is effecting every day. In severe cases of Neuralgia, Sciatica, Rheumatism and Lumbago, it acts with surprising alacrity, and no case is recorded where

alacrity, and no case is recorded where it falled.

Ferrozone cures these diseases because it is a solvent for urlo acid in the blood. It removes all traces of it and other poisons from the blood in from two to ten days. Then it builds up and invigorates the system, and makes weak, sickly people strong and well enough to resist and ward off disease.

The best Rheumatism remedy that one can buy is Ferrozone. It relieves quickly and cures so perfectly that the disease never again returns. After all other remedies fall, it cures, and that is the sort of medicine you want. Ferrozone price 50c. per box, or three boxes for \$1.25. Sent to your address by mail if price is forwarded to N. C. Polson & Co., Kingston, Ont. Sold and recommended by A. Chipman Smith & attraction of the polson of the peddling business and he after his return he lived on Strait Shore, but shortly afterward married a Mrs. Bishop and moved to Turn On THE LIGHT.

TURN ON THE LIGHT. Advice to Hon. Mr. Blair Not to Burk Enquiries.

(Montreal Star.) It is a mistake for a government refuse a motion of enquiry, A government of angels could not af-

ford to do it. A government of politicians invites the suspicion of the whole country when it does it.

It is better for a government to permit an enquiry and have considerable found out than to refuse one and have much more believed. The liberal party gained much of its

popularity in the country by demanding light on every suspected scandal People will think things if now, when the liberals are in office, they appear to love darkness rather than light. Mr. Blair's management of the Intercolonial may be an object lesson in political purity and business acumen; but he will not get credit for it if he seems,

afraid to have a committee of parliament enquire into any part of it. There should be but one answer to every motion for an enquiry in parliament; and that answer should be "Let

in the light." The people would rather pay for two fruitless fishing expeditions than see the humblest member with the knottiest fish-pole turned away from the

Suspicious people have said things about Mr. Blair's administration before

Mr. Blair's refusal to allow the man agement of the Intercolonial to be looked over with a search light advances

the market value of those suspicions a least fifty per cent.

Mr. Blair should be the first to beg for an enquiry.

### STRANGE MAN.

History of Isaac G. Oulton Shrouded in Mystery.

He Was Twice Married-Was Once Rich-A Pitiful Life Story.

The history of the dead man is as shrouded in mystery as the circum-stances of his death. Everyone in the city knew the miser Holts, as he was generally called. Everyone believe that he was possessed of untold wealth and knew that he lived in surround ings of miserable squalor amid heaps of rubbish accumulated during many years search of the city garbage heaps upon the refuse food of which he was popularly supposed to subsist. The hovel where he passed his miserable existence has long been pointed out as the dwelling of a typical miser, but of the inside of the place, where his bruised body was found on Wednesday night, knowledge was as meagre as the reports concerning it were various In spite of the unenviable notoriety of the man a Sun reporter had the utmos difficulty last night in gleaning reliable details concerning his private

IN CALIFORNIA.

He is reported to have originally come from the North Shore and to have gone from there to California during the gold craze of '49. While there he was for a time employed by a coal dealer and speculator named Fritch, whom he left to try his luck at the mines. His success at gathering gold out of the ground was not marked, but by the habits of thrift which became so much more accentuated in later years, he accumulated a tidy fortune, mostly in petty trading, in which he took advantage of the boundless extravagance of the miners of those days. He returned to St. Jehn about \$20,000. At that time he is said to have been a good looking man of about 40 years of have gone from there to California good looking man of about 40 years of age, of prosperous appearance. He wore good clothes, notably a stylish

Panama hat, with which he

parted. He was even seen to wear it

LOST MOST OF HIS MONEY. The most of his money he invested in houses and property in the north end and in Lancaster, which his legal

Strait Shore, but shortly afterward married a Mrs. Bishop and moved to the house where his mysterious death occurred. This was about 40 years ago, and from that time dated the wretched squalor of his existence which earned him his title. About 10 years after establishing himself there his wife died, and according to people whose memories reach back that far, peculiar circumstances surrounded her death. She was seen alive one morning and about five o'clock in the afternoon Oulton wheeled her dead body in a hand cart to Carleton, where it was buried and funeral expenses saved. No investigation was ever made. After this the miser's mode of living grew even more squalid and solltary. He began to frequent the dumps in search of odd scraps of coal, wood or broken victuals, and was never er seen without a dirty bag of some such garbage on his back. Boys bothered him on the streets, as they have ever since. They broke his windows with stones, so that after vainly offering \$100 reward for the apprehen-

who, according to popular report, came here lavishly and stylishly dressed, and was never seen with decent clothes on afterwards. They were married by a Baptist minister Rev. Mr. Keddy, and lived in the same mean and lonely way until her death

about three years ago.

A year or so ago Isaac Oulton was visited by his brother Edward, who lives somewhere up river. Edward's reception was evidently not cordial, for his visit was brief. Their characters were evidently too similar for peacefu life together. Last summer a woma who was supposed to be his sister visited the city, and driving over in a coach called upon the old man one day, but never repeated the visit. The deceased also has cousins living in Winchester, Mass., one of whom, a man named Dalton, is keeper of the reservoir at that place.

WAS A CIVIC CANDIDATE.

In 1882 Mr. Oulton was a candidate for civic honors, running unsuccessfully against John Chesley in Lorne ward. In his card to the electors at that time he most appropriately stood for a platform of strict economy, stating that in his belief the city manageint at the time tended to the aggrandizement of the councillor at the expense of the citizen. His requi-sition paper found among his effects yesterday bore such distinguished names as Brian Boru, Thomas Bubbles, John L. Sullivan, William III., J. Spoopendyke, etc.

HIS REPUTED WEALTH.

The story of chests full of untold gold hidden in Oulton's house had their origin in over-vivid imaginations.

Not a sign of a coin was found duri the examination yesterday, though the examination yesterday, though on account of the immense amount of variegated rubbish in the house the search was necessarily incomplete. The old man, however, always carried a bag or wallet tied around his neck containing from \$25 to \$100. He was never known to be wilflood this neck. never known to be without this, and always produced it when paying a bill or receiving money. It is significant that the wallet was not found upon his body nor around the prem

#### P. E. ISLAND.

An Interesting Case in the Court of Chancery.

Working for Faster Train Service From Boston-A Largely Attended Puneral.

CHARLOTTETOWN, April 25 .- An interesting case is now being tried in the court of chancery. Mrs. Elizabeth McQuaid has taken action against the Charlottetown Light and Power Co. to restrain them from operating their machinery at the corner of Pownal and Water streets. The plaintiff has Pownal and Water streets. The plaintif has produced a number of witnesses, who swore that the noise and vibration caused in her house were such as to render it unfit for habitation. The trial is being continued. His friends have received word of the death of Duncan Murray, of Thunder Bay, British Columbia, formerly of Clyde River, Lot 31. He was injured in the lumber woods and died in Vancouver, where the remains were interred.

McDonald, was fined \$100 and costs yesterday for a violation of the prohibition act.

J. McKenna and C. B. Foster of the C. P. R., were in Charlottefown this week endeavoring to confer with local lines to the end that the mail express reach Charlottefown about one and a half hours earlier each night. As a result of their conferences, Superintendent Sharpe has gone with Mr. Foster to Portland to endeavor to arrange for the Maine Central to come through on quicker time. This adjusted, the object will be accomplished.

The first thunder storm of the season reached here this season on Monday afternoon.

have ever since. They broke his windows with stones, so that after vainly offering \$100 reward for the apprehension of his annoyers, he boarded his house up, fastened the doors and lived in solitary darkness, admitting nobody.

MARRIED AGAIN.

In spite of his mode of life, about five years after his first wife died he succeeded in obtaining the hand and heart of another woman. This time it was a cousin bearing his own name, who, according to popular report, came here lavishly and stylishly contained to the case of his voice.

dead at Concord, N. H., In the visual stress winder and her swing a husband and two sons to mourn. The steamer Edgar, Capt. Ohsen, has arrived here from Charleston with 1,700,000 feet of southern pine lumber for caisson construction, the largest cargo of lumber ever brought to the city.

A dreadful accident happened at Aliston, Lot 65, the victim being the five-year-old son of John Acorn. His grandfather was cleaning out the stable. The little fellow was romping outside and by way of play glosefully put his head in at the window through which the manure was being pitched, and his grandfather not noticing him, drove one of the tines of the fork into the boy's left temple. The time pieced the brain and the unfortunate child is now paralyzed in the right arm and leg, and has lost the use of his voice.

HEADACHE, BILIOUSNESS, Constipation, Indigestion, Pimples and Sallow Skin all indicate the need of Wheeler's Botanic Bitters. They purify and cleanse the Stomach and Blood of all impurities. At all dealers, 25 cents a bottle.

A WISE JUDGE

Declined to Try to Stop a Woman's Tongue.

BOSTON, April 25 .- At the conclusion of a two days' hearing upon the merits of the case, Judge Riv in the superior court this afternoon, denied the petition of a lecture bureau for an injunction to restrain Miss Ellen M. Stone, the missionary, from delivering a course of lectures under the direction of a rival bureau.

SUN PRINTING COMPANY,

A' FRED MARKHAM

#### THE SEMI-WEEKLY SUN

ST. JOHN, N. B., APRIL 30, 1902.

MR. BLAIR AND THE I. C. R.

The Monteal Gazette is one of the most reliable business newspapers in Canada, and is not, where it is best known, regarded as an extreme partizan. While it is conservative in its rolicy, it treats its opponents with fairness and courtesy. Business men recognize the honesty of its utterances. The other day in the course of an editorial on the Intercolonial, the Gazette

The Intercolonial has many good men in its service-just as good as any railway on country the benefit of their ability. It isn't their fault. They are hampered by the conpolitical machine. If this man would call his general manager and his manager into his office and tell them that it was his desire that the road should be placed upon a paying basis, that he would see that they were not interfered with, that when a rate was made they would be given a chance to enforce it; that when a man was discharged for the good of the service it meant that he was to stay discharged; that supplies were to be purchased in the open market and on a business basis, the men who new where it would be no longer a burden the country, but a source of revenue, things are at present they are powerless and experience. The outside way world knows the conditions connection with the Intercolonial means, that a men is

digging the grave of his own reputation road the fact is rather a point in his favor.

Mr. Burpes's experience is illustrative, He
is charged with keeping the right of way terials. Yet an attempt was made to force thousands of selective ties upon him. When he remonstrated with the men in charge of the inspection of these ties, he was met b an order of the minister of railways instruct ing the subordinate of the engineer of main structed him not to do. Of course the ti-inspector obeyed the order of the milster He knew that if he refused the engineer of ance would be powerless to save

him. Every official on the intersection could furnish similar instances if he de-The minister of railways does not desire an investigation into the operation of the railway. Why should be? As a politica machine it is working quite smoothly.

#### OUR NAVY IN THE MEDITER-RANBAN.

The British war and admiralty authorities are not confining all their attentions to the war in South Africa. The garrisons and fleets in all the important stations are kept up to the full, and wherever it is deemed necessary additions are made from time to time that by their very quietness excite no attention. England is pretty well equipped as far as her navy goes in Bastern waters, and with her recently formed Japanese alliance has no reason to fear any foe in that quarter. In this connection it may be noted that the short waterway to India is also well cared for. The British Mediterranean squadron now comprises no fewer than fourteen battleships, five new vessels of this class having been placed there since last September. The fleet in these waters has never been as powerful as at present. There are also ten cruisers, besides many small craft. While the senior admiral will continue to exercise the battleships another officer will take special charge of the cruisers. It is over forty years since three British admirals flew their flags in the Meditter-

UNCLE SAM'S LATEST TERRI-OUT TORY

The annexation of the Danish West India Islands to the United States may now be regarded as a thing of the pretty near future. Whether the inhabitants of the islands will be better treated than are the inhabitants of the Philippines remains to be seen. They are promised a territorial gov-

St. Thomas, St. John and St. Crolx, the three islands in question, combined have an area of about 130 square miles dist church this morning.

and a population of about 50,000. St. Croix is the largest of the three and nearly the whole island is under cultivation, about one half in sugar cane The blacks predominate, being about 85 per cent. of the population, and have the same rights as the white population, the color line being unknown under Danish rule either in business schools or churches

The United States senate com mittee on foreign relations making a favorable report the purchase of these islands. laid particular stress on the fact that, together with Porto Rico, they are of great importance in both a military and commercial sense. St. Thomas said the report, is the natural port of call for all European trade bound to the West Indies, Central or northern South America. These islands, together with Porto Rico, form the northeastern corner of the Carribean sea and are of great importance in connection with the American isthmus, where a canal will be ere long constructed connecting the Atlantic and

Mr. Van Horne, the present United States consul at St. Thomas, gives the following account of the group:

The principal industry of the islands is oaling steamers. An average of 36 steamers call here every month for coal. Ninety thousand eight hundred and eighteen tons of coal were imported last year, of which 86.571 ons came from the United States, and the emainder from the East.

The bayberry, or Pimenta acris, yields leaf and berry, out of which a superior bay rum is manufactured and exported all over the world. As now understood, no other place in the world yields so fine a berry and leaf for this business as the bay tree of the island of St. John. The provision supply is almost wholly from the United States. The leading article is flour, 13,271 barrels, at a cost of \$48,234, being received from the United States, and 42 barrels, at an expense of \$153, from all other countries. Sugar preats the next largest figure, the West Indies having supplied 1,000,103 pounds, at an expense of \$26.424, and all other countrie 40,228 pounds, at an expense of \$1,416. Coaland provisions are therefore the leading articles imported from the United States. The increase of imports this year (1901) has be \$51,238 from the United States. America become imperative in the ply of this trade, no other shoes giving the ne satisfaction. The value of the trade to the United States this year (1901) is out of the total value of \$28,176,

eaving \$7,647 to all other countries. The climate is purely tropical, the perature in summer varying from 80 to 93 There are periods when the tem grees in 30 days. en and heavy rainfalls, severe thunde lightning are seldom experienced. The tradwinds constantly produce refreshing breezes effects of the heat. Home life and a hig estimate of the family relation with the in luence of the seven churches in the city and two in the country, have crystallized in bringing about the same social condition exist in ordinary Christian communities.

#### NO TRACE OF S. S. HURONIAN.

-Missing Steamer Sailed for This Port February Eleventh.

LONDON, April 27.-The British cruiser Thames has returned to Greenock after having covered 3,300 miles in her search for the missing Allan line steamer Huronian. Her efforts were without results

The Huronian left Glasgow Feb. 11 for St. John, N. B., and has not since been reported.

#### CAMPOBELLO NEWS.

CAMPOBELLO, Char. Co., April 28 George M. Byron has been appointed parish commissioner. Mr. Byron and John F. Calder have been appointed magistrates.

On Wednesday evening last the marriage of Miss Ella Seelye, daughter of Nell Seelye, keeper of the Head Harfor whistle, and Alva Largmaid, son of Henry Langmaid, took place at the home of the groom's parents, Rev. A.

J. Prosser officiating. On Thursday and Friday evenings May 1 and 2, the children of St. Anne's Sabbath school will give an entertain ment consisting of dialogues, recitations, music and the like for the benefit of their school house.

Dominion cruiser Curlew was in the harbor on Saturday distributing the fishermen's bounty checks. Weir building and planting are the

chief industries here at present. On Saturday the death took place of Hazen Alexander, infant son of Mr. and Mrs. Arthur Calder, aged 5 months The grief stricken parents have the sympathy of a host of friends. Violets have made their first appearance here this week.

Two of our young men, Albert Johnson and John Clark, have gone to Halifax to enlist for South Africa.

A pipeful of "Amber" Plug Smoking Tobacco will burn 75 minutes.

"Save the Tags, they are valuable."

#### MONCTON NOTES.

MONCTON, N. B., April 27.-William Alperson, broker, of New York, who was in town last week, left yesterday with William Dryden to inspect various copper and coal mining properties in Albert and St. John counties.

Among applicants for the North Shore judgeship are Stipendiary Mo-Latchey of Campbellton and Marcisse

Landry of Bathurst. Dr. L. H. Price, who recently returned from St. Helena, will resume the practice of his profession here. Moncton oddfellows observed the 83rd anniversary of the order by attending service in the Central Methotion.

#### RECENT DEATHS.

(Frem Morday's Daily Sun. ALFRED M. LONG.

Early Sunday morning the death oc-curred at his mother's house, Rodney street, Carleton, of Alfred M. Long, who was injured while unloading at the Donaldson line steamer on Wednesday last. It appears that some were being discharged and the eased lost his balance, when a loaded tub struck the truck which he was handling. He fell on the wharf, striking his head. Concussion of the brain was caused, and the young man lingered until yesterday morning, suffer

ing a great deal at times. His friends having expressed a de sire to have an inquiry into the circumstances attending the accident. Coroner Berryman visited Carleton yesterday and sought out all the information available in this way. If the usual request is made for an inquest Coroner Berryman will hold one. The funeral will take place from St. George's church tomorrow afternoon. Deep sympathy is felt for his mother, who is a widow.

DEATH OF C. H. WETMORE.

C. H. Wetmore, whose death took place in Boston on Sunday morning, will be remembered by many people of this city, where he formerly and was a prominent contractor and builder. He visited his native prov-ince only last summer, and renewed many old acquaintances and relendships, who will regret to read of his death. Beside a wife and family, who all reside in Boston, Mr. Wetmore leaves four sisters and two brothers, one of whom is G. M. Wetmore of this city.

The remains are expected to arrive here on Tuesday's noon train, accompanied by a son of the deceased and his brother, J. H. Wetmore, both of Bosten. The body will be forwarded to Hatfield's Point, where the funeral will take place on Wednesday

#### CHARLES F. HOBEN.

Hosts of friends all along the St John river district will hear with regret of the death of Charles F. Hoben which took place at his residence Westfield, Kings Co., on Saturday. Mr Hoben came of good old loyalist stock and in his prime was one of the most active residents of the province. He had for years one of the prettiest resi dences in the city of Fredericton, bu during the greater part of his career as a railway mail clerk he fixed in St John. Some time ago he rettred from the service and took up his residence at Westfield. Mr. Hoben was twice married. His first wife was areM Plummer of Gagetown, Queens Co., b whom two children, one son and on laughter, survive. Before moving Westfield, a few years ago, he tool unto himself his second wife. Mr Hoben was a plain going, warm ed man, honest and upright in all his dealings and respected whereve known. He was an adherent of th urch of England, a believer in future of Canada and a stalwart liberal conservative, whom no financia pressure could sever from his alleg

#### SCH FOUNDERED.

And Captain, Wife and Stepson, Al

CLEVELAND, O., April 27.—A special to the Piain Dealer from Sandusky says: The schooner Barklow, from Marine City, foundered it Lake Erie half a mile from Put-in-Bay, late Saturday afternoon and three persons lost their lives in consequence. The dead are: Captain Robert Pardy of Marine City, his wife, and his stepson, aged 16 years. A sailor survived the wreck and was brought to Sandusky today by the life saving crew from that port, who had tried several times during the night to reach the wreck.

According to his story, when the boat seemed hopelessly in the power of the fearful storm, the party got into the rigging, the captain, his wife and stepson on the lee side of the boat. The boat soon filled with water and fell over on the lee side throwing the three persons into the water. The sailor retained his position in the rigging, having fallen asleep from exhaustion and was thus found by the life saving crew today.

#### FIVE CHILDREN BURNED TO DEATH.

WINNIPEG, April 28.—Five children their ages ranging from 3 to 12 years of P. J. Monchamp, butcher at St. Nor bert, were burned to death yesterday Monchamp, his wife and daughter were also badly burned. The wife carried a two year old boy and a three weeks' old baby down the flaming stairway. The parents made heroic efforts to rescue the other children who slept upstairs, but were cut off by the flames.

#### Do You Belch Gas?

If you have uneasy sensations in the stomach, a bad taste in the mouth headache—remember that ten drops of Polson's Nerviline in sweetened water is a quick and certain cure. Nervilin you comfortable and free from distres at once. Nerviline is just splendid for Cramps, Colic, Dysentery, Stomach and Bowel Troubles, and costs only 25c. Better try it.

## DAN GROSVENOR SAYS

"Peruna is an Excellent Spring Catarrh the best remedy I have ever triedling catarrh, and believing it worthy my Remedy--- am as Well as Ever."

HON. DAN. A. GROSVENOR, OF THE FAMOUS OHIO FAMILY.

Hon. Dan. A. Grosvenor, Deputy Auditor for the War Department, in a letter written from Washington, D. C., says:

"Allow me to express my gratitude to you for the benefit derived from one bottle of Peruna. One week has brought wonderful changes and I am now as well as ever. Besides being one of the very best spring tonics it is an excellent catarrh remedy."---

DAN. A. GROSVENOR.

In a recent letter he says:

consider Peruna really more meritorious than I did when I wrote you last. I receive numerous letters from acquaintances all over the country asking me if my certificate is genuine. I invariably answer, wherever it may be located. It cares exyes."---Dan. A. Grosvenor.

A County Commission Hon. John Williams, County Commis

sioner, of 517 West Second street, Duluth, Minn., says the following in regard to

"As a remedy for catarrh I can cheer

#### The men excavating for the founds- A Digby County Salior Drowned-Narrow Escape of His Companion

YARMOUTH, N. S., April 28.-During Saturday afternoon's gale a small fishing boat containing two men, Joseph Melanson and Joseph Saulnier, ran in close to shore at Chegoggin Point and anchored. It was thick at the time and the men did not know they were so close to shore. The vessel struck the bottom and a part of her keel came up. This, frightened the men and they took to the dory and endeavored to row to the shore. dory capsized and Saulnier was drowned, Melanson was saved in an ex-hausted condition and is still in bed. Saulnier belonged to Saulnierville, George, were brought here yesterday Dighy county, and was 28 years old and interred in the Chamcook grave- and single. and single.

#### SUSSEX NEWS. SUSSEX, April 28 .- A. C. McCready

has sold his share in the Sussex steam laundry to his partner, Mel. P. Titus. Fred M. Sproul of Hampton drew the transfer of the property. It is reported that David Aiton of

Lower Cove has sold his farm and stock for \$16,000. The case of the King, on the com-plaint of David Floyd, against Joseph Mercer, for criminal assault, was in

the court of R. Morrison, J. P., today Fred M. Sproul of Hampton appeared for the complainant, David Floyd, and J. M. McIntyre for the accused. After the hearing of several witnesses the case was adjourned till Friday at 2 The funeral of the late Samuel Chap-

nan occurred on Sunday at 2.30 p. m.

from the home of his son-in-law, J. M. McIntyre, and was largely attended. The Sussex Cornet Band led the procession, followed by the members of fire department and Independent Forresters on foot. About 100 teams then followed to the burial ground at Upper Corner. Rev. Scovil Neales, sisted by a choir from all the churches, conducted a very impressive service at the house. The floral decor tions included a boat, with oars and other equipment, with the words "Our Mate," from the Pleasant Lake Fishing Club; a wreath from the fire department, a cross from the Foresters, wreath from the children of deeased, a cross from Mr. and Mrs. Geo. Myers, and a wreath from Mr. and Mrs. J. E. Fawcus. The pall-bearers were: H. H. Dryden, Jas. Lamb, Dr. J. J. Daly, Jas. E. Fawcus, J. H. Morrison and Geo. Myers.

Mrs. Lucretia Palmer, widow of John R. Palmer, died Sunday evening at the residence of her daughter, Mrs. Edward Hatfield, 40 Brook street. Mrs. Palmer was seventy years of age and leaves besides her daughter one son, George Palmer, living at home.

There was a disastrous fire at Grand Bay on Saturday afternoon, resulting in the destruction of the barns of E. Stevens. Four cattle perished. Some of the animals were got out of the burning buildings, but they were so badly injured that it was found necessary to shoot them.

of the system. A revill cure catarrh of the st cure the same condition of the mi catarrh, and believing it worthy my endorsement I gladly accord it .- Mattic L. Guild.

A Congressman's Leiter.

Hon. W. P. Brownlow, Congressman from Tennessee, writes from Washington, D. C., the following:

"I have suffered from catarrh of the stomach for several years, and for the past twelve months was in an exceedingly critical condition. My attention was called to your Peruna, and I began to use it, and my improvement was noticeable after the first three days. I have taken three bottles of the medicine and I feel satisfied that I am now almost, if not permanently, cured. In connection with the Peruna, I have used your Manalin for biliousness and torpid liver. I regard it as the best medicine for this purpose that I have ever used. Having been benefited so much myself, I give you this statement, that others may be likewise benefited."-W. P. Brownlow, M. C., Jonesboro, Tenn.

Mrs. Elmer Fleming, orator of Reservoir Council No. 168, Northwestern Legion of Honor, of Minneapolis, Minne writes from 2535 Polk street, N. E.:

"I have been roubled all my life with catarrh in my head. I took Peruna for about three months, and now think I am permanently cured. I believe that for catarrh in all its forms Peruna is the medicine of the age. It cures

Mrs. Elmer Floming, Minneapolis, Minn.

when all other remedies fail. I can heartily recommend Peruna as a satarra remedy."-Mrs. Elmer Fleming,

Treat Catarrh in Spring.

The spring is the time to treat catarrh. Cold, wet winter weather often retards a cure of catarrh. If a course of Peruna is taken during the early spring months the cure will be prompt and permanent There can be no failures if Peruna is taken intelligently during the favorable weather of spring.

As a systemic catarrh remedy Peruna eradicates catarrh from the system tarrh of the stomach or bowels with the same certainty as catarrh of the head.

If you do not derive prompt and satisimmediate relief. Peruna cured me of a factory results from the use of Peruna, bad case of catarrh and I know it will write at once to Dr. Hartman, giving a cure any other sufferer from that dis-full statement of your case and he will be pleased to give you his valuable ad-

A LEUN MINUTES IN IDAHOALS IN

J. B. Cosman Visiting His Old Friends in New Brunswick. J. B. Cos.nan of Payette, Idaho, is in the city and leaves on Wednesday on his way to his western home. He

has been in the province since March 6, visiting relatives and friends in Kings and St. John counties. Mr. Cosman is a native of Havelock, Kings county, and has a great many relatives in New Brunswick, quite a number living in St. John. He went west sixteen years ago, and has been farming and stock raising in Idaho for ten years. His brother, E. D. Cosman, is in the same business at the same place. They are four miles from the Oregon Short Line railway, and in a well

settled and rich farming region. They are only fifty miles from Boise City, the state capital. Mr. Cosman says the chances for farming are better in that part of Idaho than here in the east. The soil and climate are better. There is not enough winter to make barns necessary and live stock can live in the open all the year round. For six months in summer there is practically perpetual sunshine. Of coursethe absence of rain for so long a period renders irrigation necessary, but this is done at small cost by a co-operative system. They cut three crops of hay each year, getting altogether seven tons from an acre. They raise oats, wheat, barley, vegetables and fruit. They ship watermelons and muskmelons by the car-

to see a dog show

Members of the Natural History Society are taking a warm interest in securing a natural history display at the coming exhibition. It is understood that the exhibition association are willing to do everything possible to encourage a good display in this department and good prizes will be put up. A committee from the Natural History Society is now considering how these prizes should best be placed, and will report in a day or two to the prize list committee.

At the last exhibition the prize money n this department was divided according to the number of points made by each exhibit. This was unsatisfactory to exhibitors, in that it gave no one a chance to get any large amount. This year, at the suggestion of the exhibit-ors themselves, the old system to give first, second, third and fourth prizes will be adopted. The amounts offered will arrange from \$16 down. The butter making competition, which arous ed so much interest in 1900, will be con-tinued. A milking test for dairy cows will also be arranged and \$50 put up in prizes. The Holstein-Friesian Association will add to this amount \$25. A number of special prizes will this year e put up. W. Atlee Burpee & Co., the well known Philadelphia seedsmen, are offering through their agent, Geo. Y. Dibblee of Fredericton, special prizes for vegetables grown from their seeds. Mr. Dibblee is also personally offering prizes for collections of vegetables grown from seeds sold by him.

MORE FOR SOUTH AFRICA.

The last detachment of recruits from St. John for the fourth centingent left last night for Halifax under comamno of Lieut. Walker Bell and were given a hearty send-off by a big crowd at the railway station. Recruiting closed Saturday afternoon at four o'clock. Several who applied after that hour re necessarily rejected. ## Marvelous Growth of Hair.

A Famous Doctor-Chemist Has Dis eovered a Compound That Grows
Hair on a Said Head in a Single Night.

Startling Announcement Ozuces Doc-tors to Marvel and Stand Bumfounded at the Wonderful Oures.

ages Buty Free to All Whe Write. After half a century spent in the labor-atory, crowsed with high honors for his many world-famed discoveries the celebrated

MISS BISHOP, of New Zealand and Her Marvelous Growth of Hair.

MISS BISHOP, of New Zealand and Her Marvelous Growth of Hair. physician-chemist at the head of the great Altenheim Medical Dispensary, has just made the startling announcement that he has produced a compound that grows hair on any hald head. The doctor makes the claim that after experiments, taking years to complete, he has at last reached the goal of his ansultion. To the doctor all heads are alike. There are none which cannot be cured by this remarkable remedy. The record of the cures already made is truly marvelous and were it not for the high standing of the great physician and the convincing testimony of thousands of citizens all over the country it would seem too miraculpus to be true.

There can be no doubt of the doctor's earnestress in making his claims nor can his cures be disputed. He does not ask any man, woman or child to take his or anyone else's word for it but he stands ready and willing to send free trial packages, duty free, of this great hair restorative to any one who writes to him for it, ehclosing a 2 cent stamp to prepay postage. In a single night it has started hair to growing on heads baid for years. It has stopped falling hair in one hour. It never fails no matter what the condition, age or sex. Old men and young men, women and children all have profited by the free use of this great new discovery. If you are baid, if your hair is falling one or if your hair, eyebrows or eyelashes are thin or short write the Altenheim Medical Dispensary, 6,534 Butterfield Building. Cinclinnati, Ohio, enclosing a 2 cent stamp to prepay postage for a free package and in a short time you will be extincly restored.

WABAN, MASS.

WABAN, Mass., April 23.—A very pleasant wedding was given by Miss Elizabeth Smith on the evening of April 9 to Miss Maggie M. Riecker, when she was united in marriage to Charles M. Culver. The ceremony took place at 7.30, and was performed by the Rev George Hazelton Spencer in the Rev. George Hazelton Spencer in the presence of about 50 guests. The large drawing room was tastefully decorated with evergreens and cut flowers. The wedding march was by flute and piano and was sweetly played by Miss Elizabeth Gardiner and her brother, Roger. The bride was gowned in white silk and wore white roses.

breakfast set and tray, Miss Lucy H.

alling from a box.

"Save the Tags, they are valuable." LOST 3114.

Joseph Baxter, the gatekeeper at the ferry is mourning the loss of \$114, which vanished from his possesion in some manner on Sunday. He had the roll of bills in his pocket late in the fter poon and never missed it until le at night, when happening to feel in his pocket he was unable to find it. How the money disappeared is a mystery but the chances are that it was pulled out of his pocket with some other art icles. If such was the case it has prob ably been picked up by one of the many persons crossing the ferry.

One Common Cause of Headache Perhaps the most general cause of adache and pain across the eyes is nasal catarrh. The simplest cure is to inhale the medical vapor of Catarrh ozone, which traverses every cell and air passage of the throat, lungs and nose. It kills myriads of germs at every breath, clears away mucous discharges, preserves and heals the membrane. Catarrhozone is just a splen-did remedy for headache, and its action is certain and unfailing in diseases of the Throat and Lungs, Deafmess, Bronchitis, Asthma and Catarrh A trial will convince the most sceptica that Catarrhozone is all right. Large size, \$1.00; trial size 25c. Druggist or Polson & Co., Kingston, Ont. Dr. Hamilton's Pills cure Constipation.

NEW CANAAN, April 23.-A chees factory is now an assured thing. Bo beman Keith of Lower Ridge, an expert cheese maker, is pushing on work of building rapidly. The covered bridge across the river

near Calvin Clarke's was floated away and carried some three miles down stream during this spring's freshet. It is reported that steps are being taken to rebuild it. The old bridge will be broken up and the material building the new one. Some lumbermen came out of th

New Canaan woods during the recent freshet, and owing to the roads in low es being flooded and some bridges taken out by the flood they were obliged to wait several days before eding on their way.

SPRINGHILL, April 23.—The spe cial services that began some weeks ago still continue. The people seem interested in these services, and a spiritual quickening is manifest. Charles Perry, who is in his 80th year and lives at the mouth of the Springhil road, is seriously ill. Samuel McMackin is still on the sick list.

McADAM JUNCTION, April 25 .- The

embers of Ashar lodge, A. F. and A. M., of McAdam enjoyed a very pleasan evening at the last regular communi They had the pleasure of special visit by R. W. Past Grand Mas ter Thomas Walker and W. Bro. Frank Tufts of St. John, who assisted in conferring the third degree on two can didates. There were also present brothers from Baskehegan and Pleas ant River, Maine. The work done by Bros. Walker and Tufts was greatly appreciated by all present. The ladies of Union church gave

supper and sale of fancy work last evening. The McAdam Cornet band furnished excellent music. C. Moffatt gave a fine programme on his new polyphone. The selections were greatly appreciated and highly applauded The hall was literally filled to over flowing, and the tables reflected great eredit on those who had charge of

Mr. Upham of the Y. M. C. A. is spending a few days at McAdam, holding special services in Union church. This evening the V. A. A. will give a social dance for the amusement of its members and friends.

On Monday evening, 28th, Capt. Bev erly R. Armstrong of St. John will give a lecture on war scenes in South Af-

WOODSTOCK, April 24.-Although

the snow has now been gone a month, and the latter days of March were springlike, the season is backward and vegetation is not as far advanced as it was this time last year. The ground is still cold and the grass only protected spots has begun to take on the green hue of summer. Cold winds have prevailed all through April, with a good deal of dark, cloudy weather and storms of snow and rain.

There is no sign of failing interest in the new hospital idea, although the sentiment of the people of the county has not yet been tested. At the June on of the county council that body will have an opportunity of discussing the project, as they will be approached by a committee already as nted, and invited to make a dona tion. The Miles Moore house on Broad way will probably be leased for five years. It is admirably suited for the purpose for which it is required. Probably by the first of June the necessary

transfer will be effected. Golf promises to be as popular a ever the coming season. Men are a work fixing the grounds, which will not be used before the 24th of May anyway. In the meantime temporary grounds are in use and practice is bing indulged in. Cricket is undergoin a revival at the hands of the junior members of the community. Several clubs have been formed, and by me the season is well under way ontagion may extend to older per-

Dr. Morris of St. John, who taken charge of the Drost sms case under agreement with the town council, has been supplied with room in what is known as the ilding on Queen street.

Kelly, who lies in fail awaiting the result of extradition process still under treatment by Dr. Hand for the wounds which he sustained at the hands of the customs official in the recent fight over the alleged smug-gling. He is getting on well, however, and appears to await the result of the inquiry with the utmost coolness. His story of the affair is certainly the popular story around town, and there are very few who can be made to believe that he began the striking. However, all this will come out befor Stevens, who will hold the inquiry next week. The community received a shock

when it learned on Tuesday afternoon April 22, that Robert C. Mosher had died, after an illness' of only som nours of neuralgia of the stomach in the thirty-ninth year of his age. Although not enjoying very robust health for some years, his early demis was wholly unlooked for, and is a sa blow to his wife and family. Mosher married some five years ago of Mrs. Mosher's first husband, whe died very suddenly. Much symp is expressed for Mrs. Mosher in being thus twice so suddenly bereft. has the care of three fatherless child ren, two of them by her first husband Mr. Mosher's funeral took place of Thursday afternoon from his late residence and was very largely attended. Rev. Mr. Fulton, the Methodist clergy man, officiated. A particularly a feature of the service at the house was the grief of the little son, who, in piteous tones, begged that his father should not be taken away. The inter ment was made in the family burying ground on Mosher hill. Mr. Mos

Rev. Mr. Higgins of Summerville. S., will occupy the pulpit of the Bap-tist Church Sunday, April 27. During his visit to St. Martins he will be the

guest of A. W. Fownes.

Mrs. Dr. Ruddick entertained a number of the friends of her daughter on Friday evening in honor of Miss Nel lie's friend, Miss Bessie Lovell.

BATHURST, April 25.-The funeral of the late Mrs. White took place from her father's residence, St. Patrick street, to the Church of the Sacre Heart on Friday morning at 10 o'clock. A large number of friends and citizen followed the remains to their last rest ing place. Requiem Mass was sung by Father Martin, the funeral service read by His Lordship Bishop Barry assisted by Fathers Varrily and Mar tin. The first solo sung was I Need Thee, Heart of Jesus, by Miss Emmi Burns. Miss R. Wilbur sang Jesus, Lover of My Soul, as the corpse was leaving the church. The choir sang arer, My God, to Thee. The flora remembrances were numerous and very beautiful. The pall beaers were Messrs. J. P. Byrne. John Patton. John Melanson, Charles Ellis, Harry Melanson and Joseph Ellaton.

NORTH ESK, Northumberland Co. April 24.—The steamer Rustler made her first trip to Red Bank this seaso on Wednesday afternoon.

Some of the fishermen are preparing for the summer's work, driving pickets and getting nets and canoes ready Sinclair Gordon and family have moved from Strathadam to Protectionville, where Mr. G. has purchased a farm.

Mrs. Daniel McAllister, who has been ill all winter, has been removed for a few months to her old home in Whitney, in hope that the change may restore her to health and strength. Thomas Lawlor of Red Bank has received a commission as lieutenant in the fourth contingent. Alister Murray of Buctouche, who has been a guest at the manse, Red Bank, has also enlisted

and gone to Halifax. Colin Whitney of Whitneyville has purchased a fine horse. Miss Bessie Whitney of Whitneyville is visiting friends in Newcastle. Villa Allison who has been in Newcastle for some time, is home on a vacation at Allison Settlement. Misses Jesste and Barbara Ramsay have taken rooms at Mr. Curtis' in Whitney.

MECHANICS' SETTLEMENT, K. Co., April 25.-Last night Prof. L. Q. Stockton gave a very interesting entertainment in the hall here, consisting of music, interspersed with sleight of hand work. Mr. Stockton played several musical instruments with great skill. Another amusing feature was the waltzing of a trained dog. Miss Inez McManus entertained number of her friends at her home last

Although the snow went off early, the spring is very backward here and the farmers have not yet begun put ting in their crops.

The stream drivers on the Pollet river returned home today, having put the logs all in at the mill in Fores HOPEWELL HILL, April 25.-Th

fourteen months' old child of Mr. and Mrs. W. J. McAdam of Albert was buried here yesterday, in the new cem A boat of foreign model was picked

up on the shore here at the mouth of Shepody river yesterday. It is thought to have been left by deserters from the ship now loading in the Five Fathoms Rev. A. W. Smithers of Riverside visited St. John this week. Miss Ida Peck has returned from Moncton where she has been visiting her sis ter, Mrs. W. K. Gross. Ward Con returned today from a trip to Port

Elgin. The sch. Glenara is loading deals at the public wharf here.

A GOOD THING, KEEP IT GOING. When you find a good thing, help it along, keep it going. Many users of Kendrick's White Liniment cannot say too much in its favor. Have you tried

ESENTATION TO E. C. JONES. A Splendid Tribute From the Busines

E. C. Jones, manager of the Bank of Montreal, is about to take a year's vacation in the old country, the m pers of the business community invit ed him to meet them in the Board of Trade rooms last evening. W. H. Thorne occupied the char, and, after Thorne occupied the char, and, after a brief speech, in which he referred to the very high esteem in which Mr. Jones has been held since he came here in 1874, presented him with the following address, richly bound in morocco, lined with silk and artistically engrossed upon vellum by David Wil

To. E. C. Jones, Esq., Manager Bank Montreal, St. John, N. B.: Montreal, St. John, N. B.:
Havind learned that after a service in the Bank of Montreal of upwards of forty-seven years, the management have granted you a well deserved holiday, we feel that we cannot allow the occasion to pass without expressing to you the high esteem and regard we hold for you as a citizen as well as manager of the bank for many years in this city. Entering the service of the bank upwards of forty-seven years ago, and occupying for thirty-five years the responsible position of manager, is evidence of your ability and the confidence placed in you by the management.

subscribers desire to record their high regard of your personal as well as your need to your departure for the old co

business qualities, by pesenting to you on the eve of your departure for the old country, the accompanying testimonial as a token of our esteem, trusting that after a pleasant rest on the other side of the water you will be enabled to return to your duties as manager of the bank here, a position you have so worthly filled since the summer of 1874.

St. John, N. B., Canada, April 25th, 1902.
These were the names attached:
W. H. Thorne & Co., Limited, W. Malcolm Mackay, V. S. White & Co., Baird & Peters, T. B. Barker & Sons, Limited, Troop & Son, The James Robertson Co., Limited, Jos. A. Likely, Macaulay Bros & Co., D. C. Clinch, T. S. Simms & Co., Hugh H. McLean, Alfred Markham, M. Nellson, C. H. Peters Sons, Geo. S. deforest & Sons, J. S. Harding, Geo. E. Barbour, H. A. Anstin, C. M. Bostwick & Co., C. N. #### IN "TYPHOID'S" TRAIL

Came violent Rheumatism and more violent Neuralgia—Doctors couldn't stem the disease tide—3 bottles of South American Rheumatic Cure "gave battle" and won gloriously.

Mr. W. W. Brownell, of Avonmore, Ont., says Mr. W. W. Brownell, of Avonmore, Ont., says that a few years ago he had typhoid fever. After recovering was attacked most violently by Rheumatism and Neuralgia, he suffered so he thought he would die. Many a night thought he could not live till morning. Doctors tried to relieve him but could not. After taking three bottles of South American Rheumatic Cure every vestige of sain left him and he was as well as ever. SOLD BY M. V. PADDOCK.

LOBSTER PIRATE IN MAINE.

One Man Who Discovered a Way to Break the Law With Impunity.

PORTLAND, Me., April 23.—The growing scarcity of lobsters and the great demand from New York and the Western States have driven the lobster ishermen of Maine to all kinds of schemes for evading the law against seiling short lobsters. The game wardens have discovered that one man has found a way to violate this law with impunity.

He has fitted out a steam launch with kettles and other facilities for boiling lobsters, and it has cruised along the coast buying th short lobsters at two cents apiece from the 1 shermen as they haul their traps. He at one breaks the claws and tails from the lobsters and boils them in his kettles aboard the launch. If the wardens come upon him there is nothing in his possession which proves that he has broken the law. The ment is picked from the tails and claws, packed in ice and sent to Boston, principally for the hotel and restaurant market. He can handle \$50 pounds of lobster meat a day in his launch and is doing a land office business at a large profit. He has already given an order for four more launches similarly fitted and others are planning to go into the business.

The state lobster wardens view with alarm the growing business of this lobster pirate. There is no way that they can convict him under the present law. In order to suppress this new scheme it will be necessary to supply the wardens with fast steam launches to follow the pirates along the coast and catch them in the act of buying the short lobsters. He has fitted out a steam launch with

#### FARM WORK.

What Canada's Experimental Farms Are Now Doing.

Very Interesting Statement Just Issued by the Dominion Department of Agriculture.

The isolation of the farmer, natural ly resulting from his occupation in the earlier days of settlement in Canada kept him out of touch with those best calculated to assist him in his work; but to a large extent this disability has been removed by which he can ap peal for information when in doubt and for co-operation when in difficulty. The annual report of the Dominion minister of agriculture for 1901, which was recently presented to parliament, shows that fifteen years of steady, practical work, covering all branches of agriculture, horticulture, and arboriculture, have given ample demonstration of the great usefulness of thes dominion institutions to farmers in every part of Canada. Object lessons of the most convincing character have been presented to the many thousand of farmers who have visited these farms in person, and the visitors have carried away with them information which has been put to practical tes on their own farms with the result of increased profits in their business. The many who are unable to visit these centres of agricultural enlightenmen can always obtain the exhaustive reports prepared by the several officer of these institutions, as they are freely distributed; so that the whole of the information collected by the department is at the disposal of all who ask for it. Fifteen years ago both the farmer and farming occupied a much inferior position to that taken today, With advanced information the farmer's material prosperity has augmented and his status dignified.

The experimental farms were among the first agencies established for the improvement of farming, and great strides which have been made along all the lines comprised in this national industry owe much to the officers of these farms and to their constant and consistent demonstration and advocacy of the best methods.

The systematic testing of promising varieties of agricultural crops obtainable in different parts of the world has had an educational effect. Upwards of 30,000 farmers have participated annually in the distribution of seeds. During the past six years about sixty tons of seed have been yearly distributed for this purpose. And thus the hon-orable the minister of agriculture has, to use his own words, "placed Canadian farmers in the van as to know ledge of the best and most productive sorts of agricultural products.

During the past year, at the Central

Experimental Farm, at Ottawa, the work in field agriculture has principally embraced the study of rotations, the testing of methods of cultivation and the determining of the cost of production of digestible dry matter in tuberculin were prepared and forward- tional humus and nitrogen obtained by different forms, valuable data along ed by this division to the government lines have been obtained. In animal husbandry experiments have been, and are still being, conducted to ascertain the value of different feeding stuffs, both coarse and concentrated, for the production of milk, beef, mutton and pork. An effort is being made, also, to gain some information as to the comparative economy of feeding rations of narrow and wide nutritive ratios for the production of milk and to ascertain their influence upon the quality of the milk produced. A series or experiments, having in view the determination of the influence of the time of milking upon the quantity and quality of milk produced by cows, has just been concluded, and the results

are both interesting and conclusive. Comparative economy of feeding steers has been studied, and with sheep work has been done to ascertain the pest conditions for the production of good mutton carcasses by breeding, as well as by feeding, it being well to know that both factors enter materially into the results. In pork production the investigations have been made along the lines of economy of differen feeding stuffs, and their effect upon the quality of the finished product.

The entomologist has had a bus

year in attending to some 3,000 letters concerning his branch, and special atention has been paid to investigation of the life and histories of many injurious and beneficial insects, and the study of the improvement of remedie has been considerably advanced. Am ong the insects which demanded and eceived this special attention during 1901 were the true Rocky Mountain locust, the lesser Migratory locust, the Pellucid locust, and Packard's locust the San Jose scale, variegated cut worms, the Hessian fly, the grain aphis, cutworms, canker-worms, black cherry aphis, the black skeletonizer, and the Buffalo carpet beetle. In horticulture, the principal experi ments with fruits have been to deter mine the hardiness, productiveness quality and freedom from disease of the different varieties; but experi ments in different methods of propo gating, grafting and cultivating also, been conducted. In the investi gation and treatment of diseases of fruits, much progress has been made. At the Central Experimental Farm experiments with cross-breeding seed ling crab apples, which have shown themselves hardy enough to endure the unfavorable climatic conditions of winter in the Northwest country, have ad ded promising varieties which will b propogated for further distribution.

In the division of chemistry, the year's operations have been characterized by important investigations. Ar important series of soils from the re ed marshes bordering on the Bay of Fundy has undergone complete chemical analysis; and as the results demonstrate the character of these tide posited-soils before and after cultivation, and under varying conditions of drainage and tillage, the data obtained will prove of more than ordinary interest to farmers in the marisimilar lands. As the result of a similar examination of a number of soils, both virgin and cultivated, from various parts of Canada, to ascertain their that climate, the nuts were saved and tory

received considerable attention at the Central Experimental Farm, and Experimental Farm, and many fungicides and insecticides have been manifested that the judicious use of lime (or compounds containing it, such as marl or wood ashes), especially in conjunction with organic manures, both of sandy and heavy soils will not only act beneficially in furnishing food, but also in improving tilth.

The relation of cover crops and sur-

face tillage to the moisture content of

soils was the subject of an experiment which included the estimation of the noisture fortnightly throughout the summer and autumn in orehard soils, both under a cover crop of clover and inder cultivation. The data obtained are of particular interest to orchardists and fruit growers, because they furnish evidence of an exceedingly marked character as to the principles and value of this new, and, in many districts, most effective system for maintenance of fertility and the conervation of moisture in orchard soils. In fodders and feeding stuffs, many milling and other by-products upon our markets, including the various meals from the manufacture of cornstarch, as produced in Canada, have been analyzed and their relative feeding value determined. As there has een considerable increase in the price of these concentrated foods lately, it behooves the stock raiser and the dairyman to carefully look into the nature of such materials as he may find it necessary to purchase. Protein and fat are the two most important constituents, and it will be according to percentages in which they exist that these feeds must be valued. These 'concentrates' differ widely in character, and it is only by studying such date as are to be found in the chemist's report on this subject, and using judgment, that economic feeding and milk production can be carried on

The composition of the ordinary farm roots has again been a matter of reearch, but it was found in the examnation of mangels that the portion of the root growing above ground contained considerably less sugar than the portion beneath the soil, indicating the value of "earthing up," as well as the growth of such varieties as possess a natural tendency to keep under-ground, provided, of course, that they give a satisfactory yield.

The work in connection with the soft pork investigation, begun some three years ago, has been brought to a successful conclusion, and, among other deductions, it may be noted that the quality of the pork produced is controlled very largely by the character of the food used, and that, while Indian corn and beans undoubtedly tend to the production of soft pork, this tendency can, in a large measure, be counteracted by the use of skimmilk. It was found that with all classes of rations skim-milk invariably give a firmer pork than the same ration without skim-milk.

During the past year 501 samples were received at the farm laboratories for examination, and comprised soils, feeding stuffs, fertilizers, and so on, and where results of analyses would be of more than personal interest to the senders they have been published. of moisture, it would be better to let During the twelve months ending the clover grow until about the third with the last of October, 8,164 doses of week in May, as there would be addi-

tests have been made as to methods of that it would not be profitable to atfeeding to bring about the largest pro- tempt to renovate them. The best duction of eggs at the time when they command the highest prices. A table showing the relative value of different many orchards where the trees, if sorts of poultry for speedy and profitable fattening was the result of further experiments; and a comparison has been made of different breeds as to their powers of annual egg production.

At the Experimental Farm at Nappan, N. S., the experiments conducted have been planned with the object of rendering them of special utility to the year. farmers of the maritime provinces, and included trials of the most promising varieties of cereals, fodder corn, field roots and potatoes, ascertaining how far the sorts under tests are adapted to the conditions which prevail in these provinces. Experiments have, also, been conducted with mixed grain crops, with sugar beets, with different varieties of buckwheat, and with many other agricultural products. Every year many samples of promising sorts of grain are distributed among farmers for testing purposes, and considerable additional experience has been acquired in reference to the rotation of crops. Tests against farm pests have been characterized by thoroughness,

and much valuable information has been gained thereupon. Thousands visited the Experimental Barm at Brandon last year, seeking inmation on many different subjects, and the same may be stated of the farms at Indian Head and in British Columbia. In Manitoba, the honorable the minister of agriculture reports that last year a larger distribution was made of hardy trees and shrubs, seeds of forest trees, and samples of pota-toes and grasses; and at his request a been grown from seed at Brandon for the use of the forestry branch of the department of the interior. Experiments have likewise been conducted in the feeding of steers, swine, poultry, as well as in bee-keeping.

The good influence of the work of the Experimental Farm at Indian Head on the farmers of the Northwest Territories has been abundantly exemplified in the increased crops produced in that district. The influence which a proper preparation of the soil in that climate has had on the volume of the grain crops has been very especially in regard to sumnarked. mer fallowing, and the demonstrations which have been made on the farm along that particular line of work have been so successful in bringing increased crops that farmers in that vicinity have followed the example set with great profit.

The trials made at the Experimental Farm for British Columbia, during the last twelve months, with a large number of promising varieties of oats, wheat, barley, peas, Indian corn, field roots and potatoes, have given most valuable hints as to those best suited to the climate of the province. In the time provinces engaged in cultivating nut orchards the English, Japanese. American and heart-shaped walnuts all fruited, some of them for the first time. As these trees promise well in

dequacy or deficiency in lime, it has distributed for planting to farmers and others interested in nut growing in British Columbia, where it is satisfactory to learn that plantations of valuable timber, as well as ornamental trees and shrubbery, are making rapid growth.

#### ORCHARD CULTIVATION. By the Department of Agriculture. Ottawa.

It has been only within the last ten years or so that spraying has been regarded as an important part of successful fruit culture. Recognizing the value of anything that would prevent injury to trees and fruit, spraying has been tested to prove their relative merits. While experimenting with a lime mixture sprayed on fruit trees to prevent the swelling of the buds in early spring, W. T. Macoun discovered that the trees thus treated were practically rid of the oyster shell bark louse, an insect which does a great deal of injury to apple trees in the colder parts of Ontario and the province of Quebec. The lime destroys the gelatinous matter which binds the scales to the tree, and the scales are then removed by the action of rain,

frost, or winid. In order to be most effective the spraying should be done in the autumn, and there should be two applications, so that all the scales may be covered. Lime used in the proportion of two pounds to one gallon of water has been found to be the best formula so far, but it is possible that one pound of lime to a gallon will be sufficient if the lime be good. This new remedy for the oyster shell bark louse is simple, cheap, and very effective, and should prove a popular one. There is, in fact, no known remedy so good, economical, and unfailing as this for the oyster shell bark louse.

Kerosene emulsion has been usually used for this purpose, and with good success when the insects are running, but as they only run four or five days in the first week in June it is difficult to kill them all off in this way. By covering the trees with lime you are able to get at the scale, and the lime makes the trees white, so that you can see whether all the scales have been

The advantage of clover growing in an orchard in the fall is that much of the plant food in the soil, which has been liberated and made more easily available by the constant cultivation during the early part of the summer, is prevented from leaching by being used by the growing plants, the clover thus becoming a "catch crop" as well as a cover crop. Where soils suffer from lack of moisture in a dry time, the clover should be ploughed under as early in the spring as the land can be worked, and cultivation should be begun at once. This will conserve much of the moisture which would otherwise be transpired through leaves of the growing plants until they are ploughed under towards the end of May, which is the usual time. If the soil, however, always contains plenty

Many orchards have been neglected In the poultry department successful so long and have reached such an age plan in such cases is to plant young trees. On the other hand, there are cared for, would be in the prime of life, and neglect is the only cause which prevents profitable crops from being grown. It is of orchards such as these that a few suggestions are here offered as to how to bring them back into good condition. But the results desired cannot be got in one

The trees, to begin with, should be pruned, not too heavily at first, but enough limbs should be taken out to open up the top and permit a free circulation of air and the admission of sunlight to it. The trees will, probably, be much moss grown, and both they and the fruit may be affected with various diseases. Injurious insects, too, are almost certain to abound.

Spraying should be begun early in the season, and the trees should be kept covered from top to bottom with Bordeaux mixture and Paris green until the fruit is almost fully grown. Scraping the trunks and large branches of the trees may be done if there is much moss, but as soon as the tree becomes more vigorous, and air and sunlight are admitted, much of the moss will disappear. If the oyster shell bark louse, or other scale insects infest the trees, they should be sprayed with the lime mixture, or other material already mentioned. As the orchard, if neglected, is al-

most certain to be in sod, the 'soil

should be ploughed shallow in the spring, turning under a good dressing quantity of young forest trees have of manure if it can be procured. If the sod is not too thick it might be worked up with the disc or spade harrow. The ground should then be kept thoroughly harrowed until July, working in other fertilizers if the land be poor, and manure is not to be had; and then red clover seed sown at the rate of twelve pounds per acre, and the ground rolled. A good cover crop should then be formed by autumn This would conclude the first season's work. The results would, probably, be a greatly increased vigor in the trees, and the truit, though, perhaps, not plentiful, would be clean The second season, additional, but

less, pruning should be done, the trees kept thoroughly sprayed as before, the clover ploughed under in the spring, and the land kept harrowed or cultivated until July, and then seeded down to clover. The fruit should be better than the year before; but not until the third year should the trees be expected to bear heavily and the orchard be in good condition.

John Charlton's South Africa Interference Resolution

Was Rejected by an Almost Unanimous Vote After Several Hours Debate.

Government Bills Introduced-A Long Discussion on the Census Estimates Proceedings of the Senate-

Notes

OTTAWA, April 23 .- Hon. Mr. Sifton introduced a bill to increase the size of the Rocky Mountain Park. The minister said it had become a popular resort for tourists. It now includes 260 square miles and it is proposed to adopt double that area, Mr. Sifton also introduced a bill providing that the Yukon district shall be represented in the house of commons by one member. The qualification of voters is to be the same as in the Territories. The minister of justice introduced a kill to amend the petition of right act This measure provides that security for costs may be required from pareeding by petition against the

Hon, Mr. Fisher introduced amendments to the fruit marks act. It pro-vides that fruit may be marked stances which imposed upon him the number one, two or three, or with duty of making a statement, but he one, two or three X's to designate qualities, and deals with some other

Resolutions were passed through committee providing a salary of \$4,000 for the police magistrate at White Horse, in the Yukon, and for a salary of \$5,000 to a third judge of the Yukon territorial court. These three judges even the British parliament would not will constitute a court of appeal, and from that bench appeal may be had to the Supreme Court of Canada. Another clause provides that where county court judges are disabled or retired after twenty-five years' service, they may receive an allowance equal to two-thirds of their salary. Where a judge has served for less than five years, his allowance may not exceed one-third of his salary.

Sir Wilfrid Laurier's bill respecting
Mounted Police pensions passed the

Mr. Charlton's resolution respecting peace in South Africa was taken up. The motion was seconded by Mr. Bourassa, and supported by Mr. Monet. It was opposed by Sir Wilfred Laurier, Mr. Monk, Dr. Sproule, Col. Hugles, Mr. Oliver, Mr. Kemp and Mr. Robinson, and was defeated by an almost unanimous vote. NOTES.

Wilson and Lowe, representing the railway trackmen's union, waited on Mr. Blair today and discussed with him the question of increasing the pay of the men engaged in the maintenance of the Intercolonial track.

The Strait of Canso Bridge Co. bill

passed the senate in committee this morning. Senator Ferguson expressed doubt whether it was worse to authorize private ownership of link in Inter-

This afternoon in the senate Senator Ferguson moved for papers respecting the ocean transportation of Canadian perishable products. He discussed the whole question in an able speech, maintaining that-it was the most important question now before the Canadian people.

Lt. Col. Irving, D. O. C. No. 9 military district, of Nova Scotia, has been appointed to the command of the 6th Regiment Canadian Mounted Infantry for South Africa.

The St. George's Society dinner took place here at the Russell House toright. Among the speakers were Sir Mackenzie Bowell, Ralph Smith, M. P. Sir Sandford Fleming, Col. Lord

Alymer and Mayor Cook. On motion to go into supply, Mr. Charlton rose to propose his resolution respecting peace in South Africa. nber for North Norfolk began by withdrawing that portion recommending amnesty. This humble expression of opinion, said Mr. Charlton, may seem to some to be important and one that this house had no right to make. (Hear, hear, on the opposition side.) Mr. Charlton protested that he did not care what members thought of him. That was a matter of indifference as long as he felt he was doing his duty. He went on, however, to justify himself against the suggestion that he was a pro-Boer. Canada had made a great sacrifice in this war and had the right to express opinion on this question, and such expression might offset the demand for vengeance which came from some parts of South Africa. The cause of the war was the desire of the Dutch in the Transvaal, Free ity as other members, and declared State and Cape Colony to create a Dutch empire in South Africa. That issue was about settled, and the prequestion was whether peace would be brought about by clemency and conciliation or by continuing the struggle till the Boer force was ground into fine dust and the seeds of bitterness sown that would long survive. The British government was no doubt hampered by the demands of the Cape Colony loyalists, who made a distinction between hostile Transvaalers and Cape Colony rebels. Mr. Chariton held there should be ho distinction. He cited as a precedent the terms given by England to French-Canadians after the conquest of Canada, and those given by the north to the southern states after the civil war. The resolution was seconded by Mr.

Bourassa. He was not astounded this parliament had a right to deal with this matter. The moment we sent aid for this war we had the right to give an opinion as to the settlement of this war. Mr. Bourassa affirmed that the concessions to the French-Canadians after the war was not an act of magnanimity, but was part of the treaty made by England with France after England had been beaten in Europe in the seven years' war, and was obliged to make such terms as she could. In closing, Mr. Bourassa intimated that discussion in French.

Mr. Charlton had come over to his way of thinking, and that Mr. Chamberlain, who was always quoting col-onial opinion, would welcome the de-

iverance now proposed.
Sir Wilfrid Laurier said the move and seconder were actuated by good motives. He did not regret the debate, but he hoped the resolution would now be dropped and that the debate would close at this point. The premier agreed altogether with the terms of the resolution affirming two principles, that Britain must dominate South Africa and that there should be generous treatment of the vanquished English rule meant freedom to British and Boer alike, and there was no need to ask the British conqueror to be generous. The generosity which cause the Boers to spare the life of Bruce Carruthers, who under the rules of war might have been slain, would lead the British to equal magnanimity. While he had no doubt of the right of this parliament to express an opinion this subject, the premier did not on this subject, the premise think it wise to do so. No doubt terms think it wise to do so. No doubt terms of peace were now under discussion and our interference might awaker false hopes among the Boers and delay the end of the war. The resolution would at once be known in Africa and might make trouble. If the British were offering smaller concessions than Mr. Charlton proposed the Boer lead-ers would conclude that Canada was on their side against England. It

would be better to leave this matter to Kitchener and Botha and others who had charge of the negotiations. (Laurier's speech was cheered on both Mr. Monk, who, in the absence of Mr. Borden, was leading the opposiduty of making a statement, but he found his task easier after the premier's speech. It seemed to him that Mr. Charlton's motion was most inopportune, to use no stronger word. He did not dispute the right of the house to express an opinion on any subject, but the conclusion of treaties belongs to executive authorities, and trivial must appear any views we might express here with our limited knowledge of the details. There were many discrepancies and inaccuracies in Charlton's and Bourassa's speeches but believing as he did that this discussion was unprofitable, he would not deal with them. Amid the perplexities of public life it was pleasant to be able to see that on the duty of parllament in this grave crisis there was general agreement here. Mr. Monk was for himself unwilling to say one word or take any action which would weaken the position of the premier when he should go to the coronation and take part in the conference wherein he would be spokesman of wherein he would be spoke parties. In eloquent closing words Mr. Monk pointed out that the fathers and mothers whose sons fighting in Africa would deprecate this

Dr. Sproule made a short protest against the habit of members of offering in this house resolutions of advice to the British parliament and government. We had too much of that in the

past and it should step.

Mr. Charlton expressed his willingness, on the request of the premier, to withdraw his motion, but Mr. Bouclaimed the floor at six o'clock.

After dinner Mr. Monet resumed the debate on Mr. Charlton's motion. He took practically the same view as Bourassa, and maintained that Canada had the right and duty to advise the home government in this matter.
Col. Hughes held that Charlton's motion was not only inopportune, but was essentially bad. He protested against maudlin sentiment in favor of the Boers, which had done much to prolong the war. Whatever might be said about the Transvaal Boer, there was no more excuse for the rebels in Cape Colony than there would be for an Ottawa bank robber, yet these rebels have been treated better than their loyal neighbors. From the selfish point of view it was infinitely bet ter for Cape Colony to have joined the rebels. Col. Hughes said when he came in the train today and saw the flag at the top of the parliament building torn in pieces by the storm he wondered what was going on within. After he knew that a member of this house had proposed to offer amnesty to rebels still in arms he thought the appearance of the flag was explained. Mr. Oliver, liberal, of Alberta, said he was not afraid to give advice to England, but protested against the advice that Charlton offered and against the motives he believed to be

behind it. Mr. Charlton was asking for amnesty to Cape rebels, who had added treachery to treason and murder to treachery. The advice offered here was beneath contempt and was in itself treasonable, coming with very ill grace from a member of this house He (Oliver) had the same responsibilthat clemency and nothing more was called for. He was himself in favor of mercy, but demanded it for the loyal people in South Africa who had suffered more and were likely to suffer more than the Boers. Some rebels had been hanged, and more of them should have been as punishment for their acts of murder. If the mover and seconder of this resolution were themselves loyal-"I say if they are," said Oliver,

emphasizing the "if." Loud applause interrupted Mr. Oliver, and Speaker Brodeur called him to order for imputing disloyalty. Mr. Oliver said he had done nothing more than suggest his own doubts

but if he was not allowed to do so he would let the house decide it. No disloyal person could have done wors than propose this motion at this time. Mr. Kemp, conservative, Toronto, said he was not willing that a motion like this should now be withdrawn. It should have never been introduced, but when it came here it should be met and emphatically condemned.

Jabel Robinson, independent conservative of West Elgin, Ont., proposed an amendment setting forth that was necessary to offer Britain advice on the question of peace with the

The motion was ruled out of order. Mr. Demers, liberal, continued the

When the speaker asked whether tr. Chariton would have leave to ithdraw his motion Col. Hughes obcted.

The question was then put, and only three or four voices were heard in the affirmative, followed by a thunderous "no" from all parts of the chamber. Col. Hughes wanted the mem alled in and the vote recorded, but the bridges to carry them. The minister matter was allowed to drop.

At ten o'clock the house went into

supply, taking up the census esti-The minister of agriculture was sharply criticized by opposition mempers for increasing by more than one nundred per cent. the cost of enumeration. The debate on this item was not completed when the committee rose and the house adjourned.

OTTAWA, April 24.-On going into supply this afternoon Hon. Mr. Blair introduced the rallway estimate with a general statement of Intercolonial finances. After stating that twelve and a half millions had been expended on capital account in five years, Mr. Blair claimed that the gross earnings had increased from three millions to five millions, and that during the last ten months traffic was nearly half a million more than for the same period last year. This called for a large increase in plant, and Mr. Blair declaimed long and earnestly in favor of providing first class equipment for the government road, reading a long report of former Mechanical Superin-tendent Joughins criticising the Intercolonial cars and locomotives recently employed. This report was made in 1898. Mr. Blair said when he became minister there was not a dining car on the line nor a respectable sleeping car nor even a modern first class car. It was necessary to have heavier engines and cars, and this called for heavier rails and strengthening bridges. Longer trains made sidings necessary, and two millions had been spent for this. One million had been spent for new station and freight houses. He regretted that he had not spent more money

on the Intercolonial, for he was still behind the requirements, but he claimed that the Intercolonial had set an example to the Canadian Pacific and caused that company to improve its own service. It was contended that this expenditure should have been met out of earnings. This argument might be sound addressed to a railway com pany, but it did not apply to a railroad wwned by all the people. Besides, there were no carnings from which this expenditure could be taken. These improvements could never be provided out of earnings. The Intercolonial was not a commercial railway, and it could not be treated as such. The money for these expenditures must be orrowed, and it was a master of no consequence whether the expenditure were charged to public or current ac-count. Mr. Blair admitted that in naking a comparison of his period with Mr. Haggart's it did make a difference how expenditure were charged, but he held it was impossible to apply the same rules to both periods. Haggart was willing to plod along the untimely intereference and be relieved old way though the whole country to have the controversy brought to a raised a row. Ontario protested

> the maritime provinces were carried by the Intercolonial. Mr. Blair went off into a long digression concerning the importation of locomotives, charging Mr. Hagagri with importing one in 1891. Mr. Haggart said Blair's own officer

against this inactivity, for nearly all

nanufactures sent from Ontario to

had recently testified that this engine was bought when no shops were operated in Canada. Mr. Ingram asked Mr. Blair if the manager he recently imported from the United States had not issued a cir-

cular improperly condemning King ston lecomotives as faulty in con tion, and if Mr. Muhlfield had not sworn that Russell was mistaken. Mr. Blair declared that Russell was not imported. He was Canadian born

and was invited to come back and give Canada the benefit of his experience. "But as a Canadian I protes against his injustice to Cana made engines." Mr. Blair then enter ed into an argument to show that he had expended more in maintenance of way and works on current accoun than the late government did. He claimed a precedent for expenditure charged to capital, since the late min istry charged some rolling stock sid ings to capital. He believed the in crease of pay would be justified by the country and it would probably necessary to make a further advance in response to the present demand. A schedule rate had been adopted in the car works at Moncton, which was giving satisfaction, but it involved in-creased outlay. Considering increases

in the cost of coal and additional wants, and expenditure for mainten ance, Mr. Blair said he was not ashamed of his half million of deficit last year. He expected a better result this year, and still better in future. He had always believed the road should be extended to Montreal and still farther. It should be a national railway in every sense, and when the time came to extend it to Georgian Bay it would control a large part of the western traffic. It was unfair and unjust to speak with sneers of the Intercolonial. It was not a political road and had not been so under this administration. The road should not be a political machine available for party purposes, as it used to be. had prohibited giving favors to one party which were not given to both,

and no one had ever charged that advantage was given his own party on lection day. Every employe had been allowed to vote with perfect freedom and no influence was exerted over any employe. Mr. Blair closed with the statement that for the eight months ending last February there was a deficit of \$136,000, while at the same time last year the deficit was \$657,000. This was reduced to \$488,000 before last year was out, and on the same basis he hoped for thirty or forty thousand dollars by the end of this

fiscal year. The minister closed his three hour speech at six o'clock.

MR. HAGGART'S REPLY.

After dinner Hon. John Haggart replied to Mr. Blair. He showed that by Mr. Blair's own reports the late government left the Intercolonial in government left the Intercolonial in first-class condition. Mr. Blair had begin operations by taking over the Drummond railway, promistor, to the late of the promistor of the late of the Drummond railway, promising to de-

MORGAN OCEAN TRUST.

Its Very Essence is Antagonistic to British Commerce.

1 15 47 1 1 1

LONDON, April 25.-The Daily Express publishes two flaring columns under the heading, "Splitting the Empire Morgan Trust to Control Can-ada." The article alleges that Canada will be coerced to accept the terms of the new shipping trust. Its rates for immigrants will be fixed by the trust, its emigrants compelled to travel on steamers of the trust, and failing this, commercial war will be declared. The Express anticipates that the trus will secure absolute command of Canadian ports and railways. Other al-armist points are elaborately dealt

Col. Denison, who is here, urges that the British and Canadian governments run a competing line, and tax everythat it would reach the Northwest. He thing the trust vessels bring to Great Britain, letting everything that the (Haggart) wondered if it was through the syndicate of the Dominion Securi-Anglo-Canadian line brings enter fre ties, which was negotiating for the purchase of the Canada Atlantic R. R., LONDON, April 25.-Today Mr. Balfour said no information regarding the arrangements made by the American syndicate to control the Atlantic traffic, including passenger, freight and other charges and the movements of to read the prospectus of the Domin-ion Securities, which set forth large the vessels, largely belonging to Brit subsidies the company was to receive ish companies, had been submitted to from the federal and Nova Scotia gov the board before the arrangements ernments. The prospectus was signed were made. As a step to secure the by Dr. Seward Webb, S. R. Callaway commercial and political interests of the United Kingdom and to prevent Hon. Mr. Blair remarked that the foreign interference with British shipstatements of the prospectus are absolutely false in the main. These peo-

ping, conflicting wth engagements made with the admiralty, the matter had occupied and is occupying the govagement from this government nor ernment's attention. The secretary of the admiralty, Mr. Mr. Haggart again called attention to the terms of the circular and the Arnold-Foster, replying to Henry Norhigh financial standing of the names man (liberal), in the house of common said the attention of the admiralty had Mr. Blair-What is the relevancy of been called to the formation of the Atlantic shipping combination or trust with a capital of £34,000,000 \$170,000,lown in New York, and according to

occ), mostly held in the United States, and with registered offices in America. Dr. Pugsley he had an agent there negotiating the sale of the Intercol-onial. Mr. Haggart had been informed The secretary was informed that 28 British trans-Atlantic steamships were ntrolled by this combination, among m being three subsidized steamers and five others which were held at the admiralty's disposal without subsidy.
The White Star line gave the admiralty notice of its intention to enter the LONDON. April 26.-Lord Strath-

cons and Mount Royal, the Canadian an interview that he was disincline to credit the reports that the shipping bine was attempting to secure con trol of the Canadian Pacific railroad Even if the combine secured a major-ity of the Canadian Pacific railroad and to see no more expenditure of capital account. The present policy seemed to be to get as much as possible out of the people and spend it in influence from going beyond a certain influence from going beyond a certain

A rumor is current in Liverpool shipping circles that the shipping com would pay £10,000 for each thousand pound share of the White Star line.

## COULDN'T SIT UP.

Terrible Predicament of Well-Known Plattsville Gentle man.

Rade This Man's Life a Burden—He Was 76 Years of Age and Had Little Hope, Yet He Was Cured. PLATTSVILLE, Ont., April 25.-

pecial).-Mr. Thomas Lake, a well known citizen of this village, is a living monument to the efficacy of Dodd's Kidney Pills. Some years ago his Kidneys became affected, and he grew worse and worse, until at last his back ached so

he could hardly sit up. He was over seventy years of age, and thought he was too old to recover from the attack, but having seen an advertisement of the wonderful healing virtues of Dodd's Kidney Pills, he determined to make inquiries as to their effect on cases such as his own.

He found that very many aged men nad given strong testimony to the effect that Dodd's Kidney Pills had cured them of troubles very like his own. So after considering the matter carefully, he decided to try a treatment of this medicine. There was almost an immediate im

provement in his condition. The pain in his back became less severe and before he had finished the first box it had entirely gone, and his Kidneys had recovered their normal

He says:-"I have never had a reurrence of the disorder, and am in better health today than I have been for years. I am only too pleased to let everybody know the curative power of Dodd's Kidney Pills, and I will be glad to answer any questions relative to

my case and its cure."

Dodd's Kidney Pills are today making good health and the enjoyment of life possible to thousands of old gentle-

They are above anything else the friend of the aged, and thousands of living men and women of advanced years can testify that Dodd's Kidney Pills have made them well and kept vigorous when everything else had failed.

CLAIMS THE \$1,000.

Some weeks ago Collector of Customs Lockhart received a letter with \$1,000 and a slip of paper bearing the words "Amount due the province of New Brunswick." There was no signature. In course, it went into the regular customs receipts. Now, however, there is likely to be trouble over it as the province of New Brunswick claims the money. The contention is that the money was in some way apprepriated from the provincial funds. Consequently it should have been paid to

the provincial receiver general. While 'in Ottawa the premier called the at-tention of the minister of customs to the claim and that gentleman promised to lay it before his colleagues.

Lasts a Litetime.

That is just what they my of Vapo-Cresolene. The vaporizer is practically indestructible, and the Cresolene is certainly not expensive. This way of treatomical, and is also most effective. Our little picture illustrates how it's sed. You put some Cresolene im the vaporizer, light lamp beneath, and then breathe, in the soothing, healing vapor. For whooping-coug and croup it's a perfect specific.

Vapo-Cresolene is sold by druggists everywhere.

A Vapo-Cresolene outh, including the Vaporizer and

Lamp, which should last a life-time, and a bottleed

Cresolene, complete, \$1,50; extra supplies of Cresolene 25 cents and 50 cents. Illustrated booklet containing physicians' testimonials free upon request. Varephysicians' testimonials free upon request. Vare tsourne Co., 180 Pulton St., New York, U.S.A.

Represents the increase in the attendance at the FREDERICTON BUSINESS COLLEGE, for the facal year ending February 28th over that of the previous year. Good work, splendid results, elegant and well equipped school rooms, and low living expenses are largely accountable for this. Send for free catalogue. Address,

W J. OSBORNE, Principal Fredericton, N. B.

PUL-Mo is for sale by all druggests at \$1.00 per large bottle—25 cents for small size, or it may be ordered direct from THE PULMO CO., TORONTO, ONT.

MIRANICHI WEDDING (Montreal Star, April 24.)

Elmleigh, the home of Mr. and Mrs. W. A. Hickson, Newcastle, was the scene of a pretty wedding yesterds, when Miss Agnes Muirhead Maclenam was quietly married to Cecil Riopel of Montreal, son of the Rev. Dr. Riopel of Valcartier, Que. The Rev. William Aiken of St. James' Church, officiated. The bride, who was unattended, were travelling gown of dark blue hopsacking tailor made, a Gibson coat strapped with bands of white taffeta, and a waist of white Liberty tatin with lace collar, and hat of Neapolitan straw trimmed with silk breasts of blue and Ress of Montreal was best man. The drawing rooms of Ehmleigh were tastefully decorated for the occasion, and refreshments served in the library and drawing room. Mrs. Riopel is the youngest daughter of the late Colin Maclennan of Prince Edward Island, who for years represented his county in parliament. Mr. and Mrs. Riopel have left for a short wedding trip, after which they will reside in Montreal.

EXHIBITION IN MONCTON At a meeting of the directors of the Me ton and Fox Creek Agricultural Society, held read from the minister of agriculture, Hon. L. P. Farris, station to that by the request of the society together with the Hom. C. W. Robinson, M. P. P., and A. B. Copp. M. P. P., and the members of Albert and Kent that the tepertment of agriculture had decided to grant a sum sufficient to hold an exhibition called the Maritime Exhibition. The society passes a resolution to hold an exhibition this fall.

EMMERSON GETS THE PLUM.

It is stated on good authority that Henry R. Emmerson, son of Hen. H. R. Emmerson, has received the single commission granted to New Branswick for the coronation contingent. Mr. Emmerson is now a lieutenant in the 8th Princess Louise Hussars.

There were several applicants for this position, among whom were Capt. Fred C. Jones and Capt. Beverley R. Armstrong of St. John, both of whom had good claims, having been connected with the militia of New Brunswick for years and served in South Africa. But they don't happen to have the same pull.-Star.

NOTICE TO MARINERS.

ROSTON, April 22— The lighthouse officials have decided to establish a gas buoy on Witch Rock, Portland harbor, to mark that dargerous locality. It is also stated that the lighthouse board expect to have the new Portland lightship on its station before the middle of June. The ship is now nearly ready at Petersburg, Va., where she is being built.

NEW YORK, April 22.— Gedney Channel lights have been repaired and are burning tonight.

NEW YORK, April 22.— Gedney Channel lights have been repaired and are burning tonight.

WASHINGTON, D. C., April 22.—Notice is given by the Lighthouse Board that on or about May 1, 1902, a fixed red post lantern light will be established on and about 30 feet from the southerly end at the breakwater recently mpleted on the easterly side of the entrained to Larchmont Harbor, and extending nearly 5-16 mile in a south-southeasterly of rection from Long Beach Point, northerly side of the westerly end of Long Island Sound. The light will be shown about 21 feet at we mean high water, from a shelf at the top of a post with ladder and an oil-bouse at its base; entire structure red. The approximate geographical position of the light will be —Lat, 40.55 3.25 N; lon, 73.43 52.5 W. Execution Rocks lighthouse, S. by W. W. W. Table Rock spindle, WNW. Bearings are magnetic.

BOSTON, Mass., April 22.—Notice is given by the Lighthouse Board that on April 18 there was established in 13 feet of water in Hyannis Harbor, a red and black horizontally striped spar buoy, to be known as Thomas Borden wreck buoy, to mark the wreck of a schooner of that name, on the following approximate bearings:— Hyannis lighthouse, NEWN; Point Gammon old tower, SE by S; south tangent Hyannis Point, W. Mayhers are warned that this wreck is likely to shift its position, the buoy marking its present location.

PHILADELPHIA, Pa., April 22—Notice is given by the Lighthouse Board that Baker Shoal buoy, red, No. 20, marking the westerly side of Baker Shoal, Delaware River, has disappeared from its station. The buoy will be replaced as soon as practicable.

NEW YORK, April 23—The electric light shown from the torch of the Statue of Lib-

NEW YORK, April 23—The electric light shown from the torch of the Statue of Liberty, New York Harbor, which was extinguished early in March by the Lighthouse department, was relighted tonight under supervision of the war department, to which its control has been transferred.

BOSTON, Mass., April 24.—Notice is given by the Lighthouse Board that ou account of dredging operations in main ship channel, Boston Harbor, Mass., the iron spar buoy No. C3 has been moved about 600 feet in a northwesterly direction, and is now in 23 feet of water at mean low water. Upon completion of dredging in former location the buoy will be replaced.

"Save the Tags, they are valuable."

Her Horrors Magnified Under the American Flag.

Stinging Words From the Rector of a Boston Church.

ing the resolution that he will introduce regarding the orders issued to Gen. Smith, Congressman Conry said today:

of since the early atrocities of the North American Indians. It is a stain on our military history which can never be cleansed. Of all the miserable blunders due to our wretched Philippine policy, this order is the most re-

"And ye why should we be surprised" The sight of blood and slaughter develops the ferocious instincts of the soldier, and unconsciously the lawabiding American citizen becomes transformed into a hideous monster.

"Many good citizens of Massachu setts thought it wrong for Funston to violate the rules of civilized warfare as he did with Aguinaldo, yet by his equent coddling he became encouraged to charge our beloved senior senator with having an 'overheated conscience' because the intellect of Massachusetts rebelled at the cruelties inflicted on the natives.

"Now we see an army officer delib erately ordering the murder of children, and we may expect in a few days to hear that some new 'hero' jeers at Massachusetts for protesting against such savagery.

"Whatever difference of opinion may exist among political parties as to the ultimate disposition of the Philippines, I believe the American people are anxious to know the whole truth as to the exact condition of affairs out there at the present time.

"I have always contended we are not fully informed as to the attitude of our civil and military authorities toward the natives.

"This order of Gen. Smith confirms my opinion. We would think of the Filipinos only with contempt if they ever would consider peace proposals after an order of this character had been promulgated. How, then, can we hope for peace by continuing men like Smith in the Philippines? The man who issued this order should be stripped of the uniform of an American sol-dier, but the principal offenders are those in higher station who tacitly approved the doings of men like Smith With these men the American people will deal later in constitutional form and manner."

WHERE DED THE ORDERS COME FROM?

WASHINGTON, April 27.-Representative Conry of Boston wil Itomorw introduce the following resolution "Whereas, it is stated in the public press that a court martial held at Manila, P. I., April 25, 1902, of Gen. Jacob H. Smith, an officer of the U. army, charged with conduct prejudicial, to good order and discipline, counsel for defence admitted that Gen. Smith gave instructions to Gen. Waller to kill and burn and make Samar a howling wilderness, that he wanted everybody killed capable of bearing arms, and that he did specify all over

"Resolved, That the secretary ledge and approval of the war department, and if not, be it.
"Resolved, That the secretary of

war be and is hereby requested to ascertain and report to the house of representatives whether said orders were issued by Gen. Smith acting on his own responsibility or under the direction of any superior officer.'

A BOSTON PASTOR SPEAKS OUT. severest indictment that has yet been made on the military affairs of the Philippines war was that which Rev. Dr. Leighton Parks uttered yesterday in his forenoon sermon at Emmanuel

church on Newbury street. It was a carefully studied indictmen in which the authorities at Washington were strongly criticized, the whole conjunct of the Philippine war deplored as un-Christian and un-American, Sec. Root held up to public condemnation and the unjustifiable cruelty

He said that instead of the United States having conquered Spain the latter country had been the conqueror as she slipped away from the barbarous shackles of her own cruelty and fastened them on the United States. After tracing the growth of the Christian ideal through the centuries up to the crowning moment of Spain's greatest national power and prowess and after pointing out the cruelties practised by that nation during her conquests, he said, bringing matters

"SPAIN HAS CONQUERED US."

"The dew of thy birth is of the womb of the morning."

The new giant had been baptized in liberty in the name of the great idea of freedom, of justice and of mercy. We were almost ashamed of the weakness of the adversary when we saw the young giant come and simply lay his hand upon that withered shoulder, and the poor creature sank down abject and ashamed. We were almost ashamed that we had not a greater adversary.

SPAIN OUTDONE.

WASHINGTON, April 27.—Discuss-

"This is a relic of barbarism unheard

10 years of age; war be and is hereby requested to report to the house of representatives if said orders were issued with the know-

of the entire affair examined in a spirit of exhausted toleration.

down to the recent war with Spain:

"The heart of the people was greatly stir-red when at last the old creature in its dot-age undertook to defy the great young giant of the west—the giant to whom the words of the psalmist in the Messianic psalm might well be applied:

"The dew of thy birth is of the womb of the morning."

ashamed that we had not a greater auver-sary.

"And four years ago we sang our Te-Deums to God in his mercy. We had con-quered Spain in the last vestige of a debased Christianity. The inhuman power had been driven from the western islands.

"And today we mourn our Miserere of humiliation, for Spain has conquered us. It

THE BEST MINING PAPER IN THE WORLD.

ROSSITER W. RAYMOND, Ph. D., M. E., Special Contributor. Subscription Prices, \$5 a Year, \$2.50 for 6 Months; Foreign Countries in the Postal Union, \$7 a Year. THE SCIENTIFIC PUBLISHING COMPANY,

was only a dream; we thought we had conquered, but the wily old enemy in his fall handed to the conqueror the cup of conquest, and he drank it and went mad.

"And the very methods employed by Spain which produced a situation that Mr. McKinleg said was no longer tolerabits have not only deel repreduced, but magnified under the folds of our own flag, and it is well that within the temple of God we should recount what the whole world knows today—that we have forsaken the Lord our God

that we have forsaken the Lord our God and gone after other gods to our hurt.

"There is no need, I think, to rehearse the ghastly story, for it may be read in all the newspapers.

"And let me here, as one who has not failed, I think, in the past, to point out the shortcomings of the press, let me here publicly today, as a minister of the gospel and an appointed teacher of morality, say that this country owes a debt that it can scarcely estimate to the press of the United States, which, without regard to party affiliations, has told this story to be read of all.

"And if you suppose that there has been no pressure put upon me to hold back this story, then I will tell you that you do not know whereof you speak, for I know to the contrary, and were it necessary I could-prove it.

WAR DEPARTMENT ATTACKED.

WAR DEPARTMENT ATTACKED.

WAR DEPARTMENT ATTACKED.

"The question for us is not what were the details of the brutality of the soldiers, nor the amount of the cruelty that has been executed in the Philippines. We first thought that there could be no truth in it, and then we thought that they were only sporadic cases by men inflamed by contact with an enemy that seemed to follow no rules of warfare.

"But now we learn it is not the soldier alone, but the non-commissioned officers, that have stood by and applied the torture; and not only the non-commissioned officers, but upon inquiry they have referred back to their captains, and the captains have referred back to Wailer, and he was acquitted—we can only charitably suppose on the ground that he is acting under the orders of Brig. Gen. Smith, who has now been put upon trial. And who does not hesitate to declare he is guitty?

"On what ground will he be acquitted? It may be because he has acted on the word of Chaffee.

"We hope not, but if it falls out that Chaffee is put on trial, will he be acquitted? Perhaps not.

"He may say, I acted under the direction of the secretary of war. There is, where we ought to fix our attention. Leave the soldiery alone; leave the captains and the majors and the brigadiers and the war department—on the secretary of war—and find out through your own representative in congress how this man has administered the sacred trust committed to his charge.

"When the president inaugurated his cabinet there was no man, I think, drawn to his counsels in whom the country had greater confidence than in Sec. Root. Now, let us look at the facts of the case.

"I preached a sermon—you' will excuse my mentioning the fact, but some of you may remember it—I preached a sermon some Sunday afternoons ago in this church, in which I simply alluded to these stories. It was a sermon on moral courage, and I had a noble example of the serior senator of th

example of the senior senator of this state.

"But I was taken to task within three minutes after this congregation was dismissed, by a man who assured me he knew the facts and that I was wrong. I did not believe I was wrong, because I had taken the greatest care to look into this matter. Nevertheless, he assured me that Mr. Root had assured him the thing was not true. He sent me later the letter which Mr. Root wrote to Senator Lodge, chairman of the investigating committee, in which he claimed that all charges had been satisfactorily investigated.

"You will perceive," says Mr. Root, 'that in substantially every case of torture the report has proved to be either unfounded or grossly exaggerated."

AS TO SEC. ROOT.

"The facts brought out by the investigation of the committee that has been made since he wrote this letter have proved it is not true. It is not necessary to continue the matter. You can yourselves look into it and find whether this charge can be substantiated or not. I assert that there has been no effective pressure brought to bear, and to say that it has been brought to bear is to assert what is contrary to the fact.

"Now, the question I ask is this: When Sec. Root made these positive assertions, did he know the facts or did he not know the facts?"

P. O. Box, 1888, New York, 253 Broadway. Well, assume that he did not know the facts—and his long and honorable career justifies us in assuming that he did not know them.

"On the other hand, should it be shown by an investigation that he knew the facts he should be impeached and degraded. For here is a fact that cannot be denied by any man; The report of Gov. Gardner, which first brought this to light, was kept in the department, and never made public; and I

department, and never made public; and I do not think it is too much to say that it never would have been made public had it not been that pressure from outside was brought to bear upon the war department, and the senate insisted that the truth should be told.

"We are first told that we are not in a position to judge, because these men acted in hot blood, under great provocation, and we have no doubt that is so. And if that were all, it would be sufficient to punish the ringleaders. But it is not so.

"This thing has been done in hot blood; it has been done deliberately. It has been done after an attempt to find out the secrets that these wretched people did not wish to give."

Then in a dramatic manner the preacher said:

"Where were the arms?"

"They were at Lexington.

"They were at Lexington.
"Why did no Boston man tell where they Were?
"Because he was a patriot.
"Why did not the English torture those men and make them tell? They could have done it.

ine it.

"There is not a man of us here, preacher or hearer, who, if he were submitted to hings that the Filipinos have suffered, would not tell anything, truth or lie, to es-

done deliberately and with a settled purpose, which purpose was in every case effected.
"We are told in the second place that it is in retaliation for wrongs done by the Fili-"We are told in the second place that it is in retaliation for wrongs done by the Fillpinos.

"It is possible; certainly they have done great wrongs. The shameless massacre of the troops and of the brother of our own friend and minister, Mr. Bumpus, and of brave and noble soldiers is an awful stain upon those men. But friends, is 'lex tallonis' the law of a Christian nation?

"We are justified in taking the men who are violating the rules of civilized warfare and putting them to death as an example, but we are not justified in maiming the little finger of one of these, for in so doing we sink ourselves beneath it.

"But the last defense and the worst of all is this—that it is inevitable; that you cannot conquer those people any other way, and that if the work is to be done, there is only one thing to do, and that is what has been done, and I could read it to you, namely: Enter a village, surround it, take every house there and set it on fire; let the wretched people escape with what they have upon their backs.

"Are there women in childbed? Send some soldier in—and it has been done—to take them by the beels and drag them out and leave them in the fields, while we sing, 'Nearer, My God, to Thee.'

"It is to close with these wretched creatures and induce them to raise a flag of truce, and as they draw near, to shoot them. It has been done. It is to send out; scouring parties and simply slaughter everything above ten years old.

"It reminds us a little of the story we heard in the early chapters of St. Matthew, only Herod took them a little younger; but Gen. Smith thinks ten years old and upward will do."

HOPEWELL HILL.
