(4). USEFUL KNOWLEDGE.—A paper containing questions on useful knowledge as embraced in the Common School Course. The Health Readers No. I and II, and Chemistry and Physics Primers give an idea of work required. Analysis of a few common plants as in Gray's Botany. There will be an imperative question on Tonic-sol-fa notation.

(6). DRAWING, WRITING AND SIMPLE ACCOUNTS.—Construction of angles and simple mathematical figures to scale and their measurement. Drawing as in Manual Training No. 2 and Public School Drawing Course Nos. 5 and 6. A simple set of Book-keeping.

This examination shall be held, beginning on the first Monday of July, 1901. To make a pass candidates must make

115621

at least an average of 50, with no paper below 25. Successful candidates shall receive a certificate of having passed the High School Entrance Examination. The papers for this examination are prepared by the Superintendent of Education.

SUPPLEMENTARY EXAMINATIONS.—Candidates who are unable to be present at the regular examination, may, at the discretion of the Principal or Faculty, be admitted to a supplementary examination at the opening of the School Year. This examination, if such be found necessary, shall be held immediately after the opening of Academy.

SPECIAL STUDENTS.—Students may be admitted to a special course on the recommendation of the Principal or Faculty, provided they do not encroach upon the privileges of the regular students.

The work of Academy is divided into six classes as follows:

FIRST YEAR—Grade D, Junior and Senior. *D₁*

SECOND YEAR—Grade C, *C₁*

THIRD YEAR—Grade B, *B₁*

FOURTH YEAR—Grade A, Scientific and Classical.

CLASSIFICATION.—For the better classification of students the D and C classes are divided into two sections, a Junior and a Senior. Students who get in advance of their classes will be promoted during the year.

The A class is divided into two sections, A Classical and A Scientific. Each section devotes full time to the course selected, taking in common such subjects as are common to both courses. By this means, students in each course have equal opportunities, avoid broken time and are engaged in class work the full number of hours each day.

Students who wish for a fewer number of subjects than the regular course, may select from either course as far as the time-table will allow.

PROMOTIONS.—Students are promoted either on their Provincial High School Certificate or on the record of their class work and examinations held during the year.

Students from beyond the County as well as those from the County are admitted free. Good board can be obtained at prices ranging at from two to three dollars per week.
