38th SHIP AWAY WITH POTATO CARGO

Co-operative Marketing Scheme in
Maine is Reported Successful

(Telegraph-Journal)
The steamer Ada Gorthnor left No. 14 berth, Sand Point, Tuesday evening about 6.30 o'clock on a voyage to Havana, Cuba, with a cargo of potatoes. This sailing is worthy of special mention, as the Gorthnor makes the 38th sailing from the port of St. John since last fall of steamships loaded with potatoes. It is reported that there are still four or five steamships chartered to come to St. John to carry like cargoes before the season comes to a close in the course of a few weeks.

The export of potatoes has been rather large for several years past, but this season has surpassed all others. The new addition to No. 14 warehouse at West St. John has greatly assisted the exporters, as previously the accommodation was much too small.

The potato business between New Brunswick and Cuba is growing, and it is understood that the market price for the famous provincial "spuds" is keeping up and proving profitable to the exporters.

The number of arrivals and sailings of ocean liners from the port of St. John, from the opening of the winter port season last fall until the close which was the latter part of April, proved to be 39 less than during the season of 1922-23. When it is taken into consideration that ships carrying potatoes from St. John to Cuba are counted in last season's number, it can be readily understood that this greatly increased traffic has had a lot to do with keeping up a good record for last season.

"Of course," said a local shipping broker to The Telegraph-Journal representative, "the great amount of potatoes shipped from St. John to Cuba does not all come from New Brunswick farms, as a large part of the consignment comes from Maine, and is handled by New Brunswick exporters."

A man well up in the potato export business, who was in the city a few days ago, and whose activities are mostly in Maine, remarked that the co-operative selling of potatoes in Maine had attracted widespread attention. This is carried out by the Maine Potato Growers' Exchange. The ease with which 3,100 potato growers had adapted themselves to this new method of selling their products was very significant and indicative of still greater developments in the marketing of Maine potatoes co-operatively, he said.

The members co-operated loyally in supporting all policies formulated by the executive of their exchange, and this loyal co-operation has made possible the execution of the policies outlined.

The exchange was incorporated April 30, 1923. The immediate problem confronting them was the development of an organization which in three months time or on September 1 would be prepared to commence storing, shipping, grading and selling 3,000,000 barrels of potatoes. The rules and regulations were drastic but up to date had been observed and the results were reported as being good.

The problem of securing warehouse equipment was only one situation confronting the warehousing department. Warehouse were absolutely essential, yet they would be of little use without labor. Sacks also are a necessary adjunct in shipping potatoes. Cars are of little service during long winter months without proper linings.

Six hundred men were employed during the height of the shipping season, in order to facilitate a regular movement of the crop. The total cost of sacks from Sept. 1 to April 7, amounted to \$251,650. Six hundred and fifteen lined cars were required to move the crop during the busy portion of the season. The investment in car linings and bulk heads amounted to \$55,620. All of these costs were financed from sales.

The 1923-24 season of shipments of potatoes from St. John to Cuba means sailing of about 45 steamships.

BETTER STAY IN NEW BRUNSWICK

Reports From U. S. Indicate Employment Conditions Not Promising

Reports from the United States would indicate that all has not been a bed of roses for New Brunswickers who have been leaving their own province to seek employment there. In a letter from one point in the New England States a former resident of Carleton Co. announces that the concern with which he has been employed has closed down, throwing 17,000 men out of work. Not only has he lost his job, but several other men from Carleton met with similar mishap and are now seeking employment elsewhere. Up to the present they have been unsuccessful and the probabilities are that they will return to New Brunswick. In fact they are writing here for positions.

From another city in the eastern United States comes the intelligence that Canadians joining the building unions are being charged an initiation fee of \$75 with dues amounting to one dollar per week. This is rather an excessive charge, but those taking engagements there are compelled to subscribe to the union usages or forego employment. Indications are that the labor market in at least some parts of the United States is oversupplied.

It might be well for those who contemplate leaving for the United States to assure themselves that there is a reasonable possibility of securing work before they leave here. This is particularly true in the cases of men who are already engaged in some occupation in this country.

MARRIED 45 YEARS

Last evening the house of Mr. and Mrs. J. T. G. Carr was the scene of a very pleasant social event, the occasion being a party given by Miss Mary Carr in honor of her parents' 45th wedding anniversary. The party was given as a surprise and the worthy bride and groom of 45 years did not suspect anything out of the ordinary even when the guests began to arrive and not until a bunch came in together with congratulations and presenting a beautiful bouquet of red roses and white carnations were they aware something was doing in their honor. A very pleasant evening was spent in speech-making, music, readings and reminiscence. The invited guests included only the oldest and most intimate friends and associates of Mr. and Mrs. Carr. They were, Mr. and Mrs. C. H. Taylor, Mr. and Mrs. A. Plummer, Mr. and Mrs. A. E. Plummer, Mr. and Mrs. Murdoch, Mayor and Mrs. McFarland, Rev. and Mrs. Thos. Pierce, Mr. and Mrs. S. S. Miller, Mr. and Mrs. J. E. McCollom, Rev. J. K. King, Mr. and Mrs. S. Tompkins, Mr. and Mrs. D. H. Underhill and Mr. and Mrs. T. J. Hurley.

At 11.30 luncheon was served, Miss Clara Hagerman, Beatrice Tompkins and Marion W. Stevens assisting Miss Carr.

Mrs. Cora R. Franz of Jacksonville, Fla. Most Worthy Grand Matron O. E. S., will visit Friendship Chapter, Hartland, tomorrow (Thursday) evening.

THE ROAD OF REMEMBRANCE

A Suggestion for the Practical Celebration of Empire Day

One of the town's most progressive citizens and one whose modesty impels him to request that his name be not mentioned in the matter, has written for The Observer an article suggesting that Empire Day, at least this afternoon, on Friday, May 23, be proclaimed a holiday and that everybody in the town goes to the new school grounds and plant on either side of the road leading to the new building a row of maple trees for perpetual remembrance of those who lie in Flanders Fields.

The Observer can not improve upon the communication which is handed to the editor and which was intended through The Observer to be addressed to His Worship, Mayor McFarland, the town council, the G. W. V. A. and the citizens of Hartland in general. We here give the writer's own words.

"Our New school house is nearing completion and would it not be a very fitting and patriotic duty on the part of every citizen to commemorate this event in a very tangible way. And what better way than by planting a row of maple trees, 'The Road of Remembrance,' on either side of the new street leading from Hillcrest Avenue (west end) to the school grounds, and by a public demonstration dedicate our new school building to the young and rising generation and the maples to the immortal dead who lie in 'Flanders Field.' Let these trees planted we will say on Empire Day, May 23, will under normal conditions grow to maturity and let their heads to the sunlight years after all those present at the ceremony have passed away. They will stand as a memorial for generations yet unborn and the citizens of the future—a future, let us hope, which will have found the way to permanent world-peace—will walk beneath their shade and still find time to think with gratitude of the sacrifice made by those in whose name they were first planted, that the freedom which is the world's birthright might not perish from the earth.

"But it is not enough to plant trees, make speeches over them and then walk home. They should not be forgotten. A small permanent fund, contributed by, we will say, the town or the G. W. V. A., from which the necessary amount could be taken to cover the cost of proper supervision of the seedlings until they come to maturity. Eventually a small bronze plate with a suitable inscription 'This tree planted by the citizens of Hartland, N. B., May 23, 1924, in memory of Private John Canuck who gave his life for his country in the World War.'

"It would be an irony indeed if the 'Road of Remembrance' for the dead were ever in danger of suffering from the forgetfulness of the living. Such a remote possibility should be guarded against completely. If that is done, then in the years to be there will stand an avenue of Maples that will be not only a delight to the eye, but a memorial founded by man and maintained by nature every stirring leaf of whose trees will, unless imagination itself shall die, whisper of a sacrifice that was worth while and of a duty nobly done."

IN MEMORIAM

In loving memory of Samuel Ritchie who died May 10, 1923:

When the evening shades are falling
And we're sitting all alone,
In our hearts there comes a longing—
If he only could come home.

Friends may think we soon forget him
And our wounded hearts are healed;
But little do they know the sorrow
That's within our hearts concealed.

Do not ask us if we miss him;
Oh! there's such a vacant place;
Can we ever forget his footsteps,
Or his bright and smiling face.

He will never be forgotten,
Never shall his memory fade;
Sweetest thoughts will ever linger
Around the grave where he is laid.

AROOSTOOK JURY FINDS SHAW AN DLEWIN GUILTY

(Star-Herald)
The intense public excitement which followed the trial of Sheriff Grant and Willard S. Lewin, when arraigned in the District Court in Bangor some weeks since when the charge of conspiracy to defeat the enforcement of the prohibitory law, which resulted in the conviction of both parties so charged, was much intensified when former County Attorney Herschel Shaw and Lewin were brought before the bar of justice in the state court at Houlton on a similar charge.

On Friday last at 8:25 p.m., after a trial which had been in progress two days, the jury after a deliberation of nearly three hours brought in a verdict of guilty.

When this verdict was rendered, the news report says "no surprise was manifested when the verdict was announced. Lewin dropped his head while Shaw threw back his shoulders as if to steady himself, and then asked if he could give bail. Earl Lewin stood by his father and patted him on the shoulder.

Haggard and worn Lewin stood up knowing that bail of \$5000 was needed before he could leave the court room.

Lewellyn Powers, president of the Farmers' National Bank, and Paul Powers, sons of the late Frederick A. Powers, gave bail for Shaw, while friends endeavored to find bondsmen for him.

Justice Philbrook ordered bail to be given from day to day. Sentence will not be imposed until the end of the jury trial.

No more sensational and exciting trial has taken place in Aroostook since the celebrated Dr. Dudley trial. Each session was followed by a crowded court room where all the spectators hung upon the testimony given with intense interest. This was largely due to the prominence of the parties both socially and professionally. Mr. Shaw being one of the rising young lawyers of the county, a former county attorney, and the son of Attorney General Hanford W. Shaw. Willard S. Lewin is also prominent as a local attorney. He was convicted in the U. S. District Court at Bangor last December and is now under sentence to serve two years at Atlanta, pending the decision of the United States court of appeals which has his appeal now under consideration.

Lewin was defended in the trial by A. S. Crawford, Esq., of Caribou, while Shaw conducted his own case.

The case of the state was based mainly on the evidence of Geo. Ritchie, a druggist at Caribou, and Lewis Higgins and his wife Sarah of Fort Kent. All three were straight forward witnesses, giving their testimony in a clear, convincing manner, which was not shaken by cross examination. The closing argument for Lewin was made by Attorney Crawford, and was a masterly and scholarly one, showing the great strain under which he labored. Lewin was deeply affected and tears came to the eyes of many spectators.

Herschel Shaw made an impressive appeal, declaring his innocence, his effort being the most able of the many appeals he has made in this court.

The county attorney in his opening explained how hard the task was for him but the law compelled him to follow his oath of office and he was doing his duty.

Judge Philbrook gave his closing charge and the case reached the jury at 5:45 p.m.

At 9:30 Lewin was released on \$5000 bail, his sureties being Eldorado Chambers and Geo. W. Richards, both of Houlton.

CARLETON COUNTY NEWS FROM BOSTON

Many of the people from Carleton county now living in Massachusetts, look forward to the visits of the Observer. Perhaps it would also enjoy a call from them.

Miss Ella Giberson of Lowell spent a few days at the home of Mrs. George Meisner, Somerville.

Mr. and Mrs. J. C. Hayes of Weymouth enjoyed a call recently from Mr. and Mrs. Harold Kearney and little son, Mrs. G. Meisner and Miss Ella Giberson, all former Bathites. Mrs. Hayes is rapidly improving after her recent illness.

Mrs. A. W. Harmon has returned to her home in Woodstock after spending the winter in Boston and Toronto.

H. H. Hatfield of Hartland was a recent caller at J. W. Harmon's, Dorchester.

Peter Sullivan of Weymouth has purchased a new Essex Sedan.

Mrs. E. A. Caldwell and daughter Beryl of Bath are visiting relatives and friends in Dorchester.

Friends of Mrs. C. W. Parlee will be pleased to hear that she is recovering from her recent illness.

Mrs. Gordon Tweedie has been visiting friends in Dorchester and Malden.

Many friends of Miss Gladys Gee and Miss Beatrice Hayes attended their graduation from the Framingham Hospital on May 5.

Mr. and Mrs. Jonas Crain, Mrs. G. Meisner of Somerville and Miss Giberson of Lowell spent an evening at the home of H. S. Kearney, Dorchester.

Mr. and Mrs. F. W. Blackman of Arlington called on Mr. and Mrs. Parlee on Saturday evening.

Mr. T. Rodgers of Bristol will spend the summer with his daughter, Mrs. Merritt Stokoe, Weymouth.

An outing at Franklin Park is planned for May 30 by a number of Carleton county friends. Come and join us.

"Child's Eyelids Inflamed Stuck Together and Bled"

Mr. E. P. Kimball, Entwistle, Alta., writes:
"Our little girl from birth was troubled with inflamed eyelids and in spite of several remedies, grew worse until at the age of sixteen months her eyes could not be opened after sleep without bleeding, a waxy discharge sticking the lids together and adhering with great tenacity. The child's grandmothers were consulted by mail, and both responded with a little sample box of Dr. Chase's Ointment. These were used as directed, and lasted until we could obtain a further supply from Edmonton. Improvement was very marked from the first application. The waxy discharge was easier removed and did not reappear. Inflammation subsided and has not returned."

NEW BRUNSWICK'S RAILWAY PROBLEM

For six weeks The Observer has hammered the subject of New Brunswick's railway problem, but it has yet to hear opinions of the readers of the paper. The editor would welcome brief comment on this series of editorials, restricting the writer to not more than one letter sheet. Possibly no one cares to express an opinion, and yet there may be many who will, so the paper can only agree to publish some of the comments that may be made. The editor will be absolutely fair and if more communications are received than can be printed, he will take care to see that the "pros and cons" have equal opportunity.

The Observer believes that in its series of editorials it has quite fully demonstrated the futility of the idea of extending the Valley railway to a connection with the C. N. R. at Grand Falls or at any other point.

It has been shown that the route would be longer than the connection already existing by way of McGivney Junction. It has been shown that the N. E. R. between Quebec and Moncton is operated at tremendous loss. It has been shown that all the traffic that passes over the N. E. R. can more economically be handled over the old I. C. R.

The Observer has interviewed the highest railway authorities in the land, to whom it has put point blank the question if there was a likelihood of the Valley railway being extended to Grand Falls, and invariably the answer has been "Never in the world."

When the Valley railway project was taken up by Hon. J. K. Flemming and his colleagues, conditions in Canada were different than they are today and railway construction was infinitely cheaper. Even at that, the proposition was never a sound one and it never had at any time whatever support. The Observer might have given it, notwithstanding this journal fully realized that the lower reaches of the St. John needed railway outlets, and Centreville was isolated by five miles distance from a railway station. But who will tell us about the development of Centreville, and of any of the other towns along the Valley railway in the years that it has been in operation?

In another article in this paper we find that the total gross earnings of the Valley railway last year amounted to less than one-seventh of the interest on the cost of construction and the debt of the road that has accrued since. The Observer has not attempted to wet-blanket the idea of extending the railway, but it does endeavor to show the people the true condition and will later endeavor to offer a remedy. As the Valley railway affects politics, every politician, both in Victoria and Carleton county, feels that he is duty-bound to promise to the people the extension to Grand Falls.

If The Observer can do nothing else it will accomplish a great deal if it relieves these politicians from having forever to work this locus-pocus on the credulous people. Some newspapers of the province and some politicians higher up may still endeavor to have the Valley railway extension made with the hope that the Dominion Government may be induced to take the road off the hands of the people of New Brunswick. This expenditure will be but shifting the burden from one shoulder to the other. If the Valley railway cannot be made to pay and is not a national asset, the Dominion government should not take it over. It is true that very great assistance has been given to the building of railways, canals and other great developments in Ontario and the West, but these are of national character and all tend to bring more or less traffic to the Eastern ports. If any Dominion government takes over the Valley railway it will only be the price they will pay for the political support of the province; and Heaven defend us from such exploitation.

In the House of Commons on May 5, Sir Henry Drayton succeeded in getting answers to the following questions and they are here printed:

- SIR HENRY DRAYTON:
1. What was the volume of revenue freight traffic during the year 1923 transferred to the Canadian Pacific Railway Company for furtherance to United States points, which traffic it is now proposed to handle by the new line from Kinrossville, a point on the St. John and Quebec Railway in the province of New Brunswick, to a point on the St. Croix river opposite Vanceboro in the state of Maine?
 2. What was the amount of freight tolls earned on such traffic in the said year, (a) on lines owned by the Canadian National system (including the Transcontinental and the Intercolonial), (b) on the St. John and Quebec line, of which tolls sixty per cent are received by the Canadian National?
 3. What additional gross revenues based on the traffic of 1923 would the Canadian National have received had the new line been built?
 4. What were the operating ratios on the existing lines on which the Canadian National has carried such traffic in 1923?
 5. How is it proposed to make connection with the Maine Central at the

In Answer 2 it is shown that the Canadian National earnings on traffic handed over to the C. P. R. in New Brunswick were \$5,214,606.61. Answer 3 is very ambiguous, when the C. N. R. states that if it had its own line to Vanceboro it would have received an additional revenue of \$2,169,173.33. Answer 3 states that the C. N. R. would have received 100 per cent of the freight on the tonnage handed to the C. P. R.

Are we to believe that the Maine Central, the Boston & Maine, the New York Central, the N. Y. N. H. and H. and all the other connecting lines carried the freight to destination for nothing? Immediately upon receipt of the Answers on May 5, The Observer began to go after facts at other sources and in course of time it will be able to give other figures of the earnings which the C. P. R. makes on C. N. R. traffic between between St. John and Valley railway points and Vanceboro.

It will be noted that the additional earnings the C. N. R. claims would come to it by the building of a direct line to Vanceboro, would have amounted last year to \$2,169,173.33. It is estimated that the cost of the road would be \$2,100,000. The interest of this money at 5 per cent and 5 per cent for maintenance, would amount to a sum greater than the road could have earned last year and would have left nothing for the far greater cost of operation and equipment.

Providing the C. N. R. could have the whole sum mentioned in the third answer it still would be insufficient to pay the costs of operating their own trains and equipment, provided they were given free running rights over the C. P. R. to Vanceboro.

In the answer to Question 2, it is astounding to find that the earnings of the St. John and Quebec railway last year was the trivial sum of

\$53,255.69. This is the whole revenue for the distance of 175 miles of railway. It is quite probable that the business done at Hartland on the C. P. R. in the same period was greater than the whole gross earnings on the Valley railway.

What is going to be done about this matter? We should like to hear our readers' opinions.

NOTICE TO SUBSCRIBERS

Last week nearly one thousand notices of past due subscriptions were sent to subscribers. Of course every subscriber realizes that their annual \$1.50 or \$2.00, as the case may be, is a very material help towards the tremendous cost of producing The Observer and keeping it up to its high standard of efficiency. If we do not get the \$1.50 promptly we feel the loss. There are on our books between two and three thousand dollars owing to us which should be paid immediately. As the total sum is made up of items of \$1.50 to \$3.00 there is no real reason why we should not get the bulk of this money before the 20th of the month.

Every subscriber is again given an opportunity to pay up at \$1.50 a year providing the money comes in before May 20.

We cannot continue the paper unless we get prompt payment. The money is absolutely essential to the carrying on of our business and we intend to have it. If after May 20 there are still any who owe us for a year or more the amount will immediately be placed for collection and the rate will be \$2 per year with costs of collection added. Should there be some who cannot possibly meet this small obligation at the appointed time they can surely find a three-cent stamp to write us and give us a definite statement as to about when they will be able to pay up and we will grant any reasonable time to any subscriber who asks for it.

The main point is PAY UP BEFORE MAY 20!

West Glassville Notes

A few of the relatives and friends of Mr. and Mrs. J. R. Lamont gathered at their home on Thursday evening last, that being an anniversary of their wedding day. The evening was spent indulging in various kinds of games which were greatly enjoyed by all present.

A number from our community attended the funeral services of the late John Adams which were held at Gordonsville Wednesday afternoon.

A number of the young people enjoyed a party at the home of Mr. and Mrs. R. J. Ronalds on Thursday evening of last week. An excellent time is reported by all who attended it.

Hardy Logue, who is now working in and around Perth spent the weekend at his home here.

Norman Perry spent the weekend at his home here.

Hugh Doherty was to Woodstock on Saturday where he is undergoing treatment at the Fisher Memorial Hospital under the direction of Dr. Rankin.

A number from here attended the funeral of the late Frank McBrine at Glassville on Sunday afternoon.

G. Wilfred Fletcher was visiting in Bath on Saturday afternoon last.

Mr. and Mrs. J. R. Lamont accompanied by Mrs. J. R. Glass and her little son Keith, spent Saturday with Mr. and Mrs. Clifford H. Lamont.

Mr. and Mrs. Harold McDougall and daughter Margaret, Bristol, were visiting with Mr. and Mrs. H. J. Lamont on Sunday afternoon.

Mr. and Mrs. George Nixon, Bath, spent Sunday afternoon with Mr. and Mrs. Gordon Laing.

Miss Gladys Perry, accompanied by Miss Elsie Giberson, a classmate of hers at the Bristol school, spent the weekend at her home here.

On Saturday evening Misses Alice and Gladys Perry, Miss Elsie Giberson, Miss Isabelle Wiley, George Perry and Wilfred Fletcher spent a pleasant time at the home of Mr. and Mrs. George Reeder.

THE LORD'S PRAYER

A Series of Sermons at Hartland Baptist Church

There is no portion of the scripture more familiar to us than the "Lord's Prayer," commonly called the "Lord's Prayer," and yet how few have a clear understanding of the meaning of its several parts. It is quite easy to say the words, but not quite so easy to understand their meaning.

Beginning next Sunday morning, Rev. G. F. Bolster, pastor of the Hartland Baptist church, will give a series of sermons on the "Lord's Prayer," which will continue for seven Sundays. A cordial invitation is extended to all to hear these expositions. It would be good if all our Christian people would make a new and careful study of this wonderful prayer. In the evening the pastor will take for his subject "Me a Christian" and King Agrippa's reply to Paul's argument will be examined. Special music will be provided by the choir.

TWEEDIE-DARKIS

At Young's Hotel, Boston, on Friday, May 9, the marriage took place of Barrie H. Tweedie of Waltham, Mass., formerly of Wicklow, to Miss Annie A. Darkis of Woodstock. Rev. A. A. Rideout, pastor of the First Baptist church, Waltham, performed the ceremony. The bride who formerly lived at Florenceville is a graduate of the Normal School but has recently been employed with the Telephone Company in Woodstock. Mr. Tweedie has the position of office manager with the Elastoria Fibre Company.

During the evening an informal reception was held, and they were greet-

ed by many of their friends. After a short trip they will make their home at 54 Lyman street, Waltham.

So far the season is most backward there having been but one really fine day since Good Friday. Cropping is going on very satisfactorily, however, and there never yet has been a year when the sunshine and rain did not come and bring an abundant harvest in the St. John Valley.

R. W. Cameron returned from Montreal this week and was in Hartland for a brief time before going to his home at Millville. Friends will be glad to know that the condition of his little daughter, Margaret, is considerably improved although she is still in a critical condition.

The summer time table of the C. P. R. will go into effect on Sunday next. The up express will arrive at 1.05 and the down express at 3.24 as at present. The morning train to Woodstock will leave at 9.50 and the evening train from Woodstock will get here at 6.25. The time given is Hartland town time.

Donald W. Matheson, an old Hartland boy, gave his friends a great surprise when he arrived on Friday. With Mrs. Matheson he went to British Columbia fourteen years ago and this is his first visit home. Mr. Matheson is little changed in appearance and seems quite glad to meet his old associates. A few years ago Mrs. Matheson died and he married a second time about a year ago.

Mother's day was fittingly observed in the Hartland churches. The morning service at the United Baptist church was especially devoted to the subject. Seats were reserved for mothers and there were a number of recitations and special singing. The pastor spoke most feelingly and eloquently. At the Methodist Church in the evening the whole theme was "Mother." There was special music, special flowers and Miss Marguerite Palmer and Miss Irene Barter gave two very fine recitations. The day was also observed fittingly by the other churches.

Owing to the fact that most of the old time base-ball players have departed from town, among them being A. W. Kyle, Weldon Ward, Vincent Boyne and others, there is no chance for an establishment of a capable team here this season. The younger lads, however, are organizing and are likely to get up a pretty snappy team. Frank McAdam has consented to act as manager and a bunch of young enthusiasts are going to give us some real sport. The Observer would suggest that two local teams be formed from the younger material, when games can be more frequent between them.

H. H. Hatfield returned on Saturday from a business trip to Boston.

NEW PAIGE

De Luxe Sedan—Completely Appointed—\$4450

MARK the smart lines of the New Paige De Luxe Sedan. Step in! Here's luxury of finish to delight you. Softly cushioned seats—rich velour upholstery. Ample room in both 5 and 7-passenger Sedans.

Every detail for your comfort and pleasure. Silvered fittings. Silk shades. Complete vanity cases. Clock, gasoline gauge and cigar lighter on the walnut instrument board. Locked compartment for safe carriage of packages. A trunk rack. Front and rear bumpers. Spare tire, tube and cover.

Such Riding Comfort!

Rear springs of the New Paige are more than 5 feet long—and the wheelbase is 131 inches. Your ease is well protected. You'll travel in comfort at undiminished speed where many must slow down.

Start the big 70-horsepower Paige motor. How smooth and silent it is! And its silent smoothness is permanent—for high-pressure oiling in the New Paige assures perfect lubrication.

You've never seen the equal of the New Paige in ease of handling with the famously gentle Paige clutch, improved transmission and ball-bearing steering spindles.

Amazing Performance in the New Paige

Press the accelerator. Feel the New Paige answer with abundant power. Paige power is more than sufficient to pass other cars on hills—or crawl slowly up in high when most find need to shift or stall.

Great speed is yours if emergency makes necessary. Or throttle down to 2 miles an hour on high. Whatever the speed—the remarkable smoothness will give you added pleasure. Gear-shifting is rarely needed though gears shift easily and quietly with the improved Paige transmission. You can shift from high to second at 30 miles an hour with barely a sound.

Consider all these points in the New Paige. Here's rarely equalled

performance—comfort—smart appearance—long life. Learn the price of the New Paige. You will be amazed to find that you may now own a Sedan of such high quality at practically the same price that you must pay for Sedan models of ordinary, smaller cars.

Only last year the Paige Sedan—substantially this same car but without the improvements—sold for \$5095. Today, the New Paige Sedan—bettered throughout—sells for only \$4160. The De Luxe model, completely equipped, at \$4450.

The Reason for the New Price

How is this new low price possible? Our plant capacity is increased 300% for this year. With tremendously increased production the saving in purchasing and overhead cost is apparent. You get this saving in improvements and price.

Let us show you the New Paige Sedan. You drive.

Stolen Eggs and the Silk Trade

Above—Reeling silk in the Flowery Kingdom. Below—An Empress inter-loading silk at Yokohama and a Canadian Pacific silk special passing through the Rockies.

Production of silk dates far into antiquity, and for ages the manner of its production was kept secret. Up to the sixth century A.D. all raw silk was imported into Europe from China, but the Byzantine Emperor Justinian induced two monks to travel into China to procure silk worm eggs and though the export of them was punishable by death, these monks succeeded in bringing back a quantity concealed in the hollows of their pilgrim's staves.

From Byzantium, silk cultivation spread into Greece and Syria, thence into Spain, and thence successively into Sicily, Naples, Northern Italy and France, being established in Italy in the sixteenth century.

Various determined attempts have been made, principally between the years 1622 and 1879 to establish the silk industry in America, resulting at one time in a of the labor involved in the rearing of the worms and in the reeling of the raw silk from the cocoons as compared with the trifling cost of such labor in Europe and Asia, has rendered it impossible to produce raw silk at commercial prices on this continent.

Most of the silk imported to America comes from Japan, Italy and China where, also, the humidity of the atmosphere contributes no little to the success of the industry in those countries. The greatest importation is from the Flowery Kingdom, and this mostly in the raw-silk form as it is reeled from the cocoons.

Silk is valuable. In one consignment of a few hundred bales, hundreds of thousands of dollars are tied up, and for this reason, that no time may be lost in packing up the raw material and placing the finished goods upon the market, the product of the little

worm is given transportation facilities which few other commodities enjoy. The bales of silks are stowed carefully in the vessels which transport them across the Pacific, and in such a manner that they can be readily and safely discharged upon arrival at the Canadian or American port. No time is lost. Special trains made up of passenger baggage equipment await the arrival of the vessel if it docks at Vancouver as do the Empress liners of the Canadian Pacific, and once the valuable cargo has been sealed into the cars the train proceeds towards its destination, often making better time than the regular passenger trains.

For the reason that the route is more direct, many silk dealers in New York, where much of the silk is destined, consign their shipments via Canada and during the past few months many interesting time records have been made over Canadian Pacific lines.

On March 22nd, the "Empress of Asia" sailed from Yokohama carrying the largest consignment of silk to New York being 13 days, 3 hours, and 13 minutes, calendar time. This constituted a record run as far as freight traffic is concerned, but passenger traffic is handled as readily by this company, a 21 day Europe to Orient service via St. John, N.B., or the St. Lawrence route being regularly maintained.

The silk was delivered in New York about midnight April 4th, the through time from Yokohama to New York being 13 days, 3 hours, and 13 minutes, calendar time. This constituted a record run as far as freight traffic is concerned, but passenger traffic is handled as readily by this company, a 21 day Europe to Orient service via St. John, N.B., or the St. Lawrence route being regularly maintained.

Edmundston Locals

M. Riddout was a visitor to Moncton last week.

The Hon. J. E. Michaud attended the Hydro Commission meeting held in Grand Falls on Thursday.

Mrs. Merritt and little daughter returned on Saturday from Fredericton where they had been on a visit.

Mrs. A. W. Brebner left for Woodstock yesterday morning to see her sister, Mrs. Mayor, who is in the hospital there.

Engineers Stevens and Lowry who are working on the Grand Falls Power Development Survey were in Edmundston this week.

Police Magistrate J. B. Michaud was a visitor to Quebec over the weekend leaving here on Saturday, and arriving home on Monday.

Mr. and Mrs. L. Landberg, formerly of Edmundston, are rejoicing in the arrival of a son which came to them on Good Friday. Mr. and Mrs. Landberg are now residents in New York City.

We regret to learn the Mrs. Wolverson who was injured last fall is still confined to the house. We trust that she will soon recover her strength from the effects of the accident again.

W. McElroy has been a recent visitor to Millinocket, where he went to see his sister who has been ill. He afterwards visited his old home at Benton, N. B. Mrs. McElroy is at present at Benton.

A Milne Fraser, Typewriter Dealer of Halifax, will be in Edmundston, Monday 12th. Anyone desiring to purchase a new or secondhand typewriter should leave word at the office of his agent, J. B. Michaud, and he will call.

The girls of St. Paul's church organized on Wednesday of this week. The officers elected were as follows: Advisory Committee, Miss Hoyt, Miss Stevens, Miss Brebner and Miss Mayor; President, Miss Ruth Trafton; Secretary, Miss Evelyn McDonald; Vice President, Miss Marion Dunbar; Treasurer, Miss Elizabeth Dunbar; Executive Committee, Miss Evelyn McDonald, Miss Hilda Sergeant, Miss Doris Miller and Miss Georgie Dyer.

The people of Edmundston will be glad to know that the young man, Antoine Berubé, who has been begging meals and lodgings around the town during the winter, has been sent

to 5 years years in the Boys' Home in St. John, by Magistrate Michaud, on the charge of larceny. It is deplorable that this poor boy should be so neglected by his parents, as he is not a criminal, and is guilty of no real offence. He will get in the institution the care which he did not get home.

Miss Roberta Hammond entertained at four tables of bridge on Saturday evening. The first prizes were won by Miss Helen Stevens and R. D. Murphy, the Consolations by Miss Murchie and Eugene Stevenson. Those present were the Misses Della Miller, Helen Hurdie, Audrey Riddout, Dorothy Hall, Frances Myers, Campbellton, Helen and Grace Stevens, and Messrs. R. D. Murphy, E. Stevenson, Cecil Matheson, Stuart Henderson, George Gillis, Martin Hall, Ronald Riddout and Ralph Murchie.

J. W. Hall was a visitor to Moncton on Monday.

Mrs. A. R. Sergeant recently went to St. John, N. B.

Mr. and Mrs. James Dunbar have left for Boston where Mr. Dunbar has secured a position.

Rev. N. and Mrs. Franchetti are attending the Diocesan Synod being held in Fredericton this week.

Mrs. J. W. Hall left this week-end accompanied by Miss Dorothy Hall, for Sackville, N. B., to attend a music recital given by Miss Phyllis Hall.

Miss Grace Stevens and Miss Frances Wyers of Campbellton went to Lennoxville on Monday for a brief visit.

Mr. and Mrs. McCabe have moved from Victoria Street to Canada Road in the house recently vacated by Mr. and Mrs. J. Dunbar.

The boys of St. Paul's church organized on Wednesday of this week. The officers were: Hon. President, R. D. Murphy; President, Alex. Brobner; Secretary, Carl McDonald and Treasurer, Willie Birnie.

Weir Elliott was a visitor last week with his sister, Mrs. (Dr.) Lockhart. On Sunday evening he was the soloist at the service of the Presbyterian church, and as always delighting the congregation.

It will be a matter of interest to the radio fans in Edmundston to know that the piano recital to be given tomorrow night in Sackville under the auspices of Mount Allison College by Miss Phyllis Hall of this town will be broadcasted. Concert will commence at 8 o'clock. Be sure you tune in.

Mrs. W. Morton entertained on

Tuesday at two tables of bridge. Mrs. Merritt captured the first prize and Miss Crocker the consolation. Among those present were Mrs. Merritt, Miss Habin, the Misses Greta and Kay Hayes, Miss Helen Stevens, Miss Roberta Hammond, Miss Pauline Crocker, Miss Annie Young and Miss Bessie Parker.

J. B. Michaud received his new Buick on Wednesday of this week. Mr. Michaud bought a new car last year, but after riding fifteen thousand miles in it one summer to New York, etc., he thought it wise to get a new machine. He believes that by doing this he saves time, saves money in going to garages for repairs, and saves much delay on trips. We all know that he is a very busy man and it would seem that his policy is a wise one.

Cecil Matheson left on Monday for Moncton on a business trip for the Fraser Companies Ltd.

Miss Cyr at the C. N. R. restaurant who has made such a reputation for herself in cooking, is meeting with good success in the Order By Telephone Department. Many people find it is a distinct advantage to be able to phone in an order for desserts, cakes, etc., and to know that they will come in the best possible condition.

PIGS FOR SALE

For Sale—Purebred Yorkshire Pigs. There is no better stock in the province than the dams of these pigs; their sire was imported from Ontario last fall. His sire took first place at the great Toronto Fair last fall. The sire of his dam took first prize at the Toronto Fair in 1922.

These pigs are the correct bacon type, and are stock that I am proud to recommend, of very prolific strain. Considering the small extra first cost you cannot afford to use inferior stock as breeders. Plans are now on foot to ship hogs this fall to be sold on the graded basis, with premium for select. Get the best, we have them.

Necessity the Mother of Invention

The secret of making ends meet, is not infrequently the difference between success and failure. Adaptability to hard circumstances in order to study them with a view to overcoming them, is a mere stepping-stone to the foot of the born inventor. And, however we look at them, inventors are "born" as well as "made".

An inventor has the ability to step off, into space as it were, to "take the plunge" to quote the man in the street, which more timid, or more sophisticated folk, lack.

Most inventions come out of two desires. A desire to save labor, and a desire for better service. But an even more fundamental stage lies back of these. The period in some man's life, of Rock-bottom Necessity. And so there has come down to us from the Ancients, who were fond of putting Truths into adages the pithy statement that "Necessity is the Mother of Invention."

The Age richest in Inventions. The Inventions of a fundamental order, those that saved mankind from extinction, rather than those that spared his strength.

Regarded from this viewpoint what people more rich in Invention than the Indian? What people more capable of "making ends meet"? What people closer in spirit to the Secrets of Nature? What people so able to see possibilities, "a way out" where no way apparently exists, as these simple people of the woods, lakes, rivers, and mountains?

From these Fundamentalists, the Pioneer had at once most to fear and most to learn. It was this antithesis which sharpened desire to take-up the land and hold it against the veritably embodied Spirit of Circumvention. And it was when the early pioneers began to appreciate the cleverness of the Indian and the qualities of life as introduced by the new people, that one began to learn of the other and to prosper by exchange of experiences and by exchange of the inventions for which each stood.

The Indian and the pioneer have this in common. Both were always face to face with Necessity. Danger was clear-cut... everywhere. No getting away from it. And to some extent it is interesting to be able to decipher in most of the primitive inventions of the Indians, whether their habitat was the shores about the Great Lakes, the Prairies from the Lakes of the Woods to the foothills of the Rockies, or the littoral of the Pacific, a certain something, like an Atmosphere, a curious fragrance, suggestive of Danger... a bizarre note.

Here and There

A dispatch from London, England, states that the Sudan Government, through Capt. E. C. Midwinter, general manager of railways and steamers, Sudan, Africa, has accepted a tender from a British Company for 150,000 railway ties of Douglas fir. The contract expressly stipulates that the railway ties shall be of Canadian origin.

British Columbia's shipment of water-borne lumber to overseas markets totalled 521,707,132 board feet last year, against 273,146,800 in 1922, an increase of 91 per cent. This announcement was recently made by the provincial minister of lands and it is a remarkable index of the rapid expansion of the lumber industry in British Columbia.

Under a scheme inaugurated by the Provincial Government it is announced that British Columbia will advance loans up to \$200 a family to settlers from the Hebrides, on condition that the British Government advance a like amount. In view of the present depression in the islands, it is expected that the British Government will co-operate.

Keen interest in all Canadian manufactures and especially in mineral products, wood pulp, textiles, leather and rubber goods, heavy machinery and farm machinery is now manifested by France and Belgium, according to H. E. Tessier, of Montreal, who recently accompanied an exhibit of these manufactures on a tour through every important city in these countries. Mr. Tessier believes that the tour will bring great practical benefit to Canada as soon as French currency becomes more stable.

The exterior of the great Canadian pavilion at Wembley has now been completed, and the interior decorators are busily finishing the building, according to H. E. Tessier, who has just returned to Canada abroad the Canadian Pacific liner Montclare. The exhibits are being rapidly assembled and everything is ready in time for the opening of the British Empire Exhibition.

That Canada's culture has nothing to fear from the promised flow of immigration from continental Europe was the message recently delivered by J. Murray Gibson, Canadian author and litterateur, in an address on "Canadian Literature and the Foreign-born" given in Montreal recently. Of all the Scandinavian races contributing to the Canadian population, Mr. Gibson considers the Icelanders to have the highest literary mentality.

More than 12,000,000 bushels of grain have been received at the Government elevator at Vancouver, B.C., from Canadian Pacific Railway cars since the opening of the crop year, according to a report issued by railway officials. Exported from Vancouver in the same period there have been 20,416,531 bushels, comprising 15,493,318 bushels to the United Kingdom, 1,630,105 to the Orient and 33,183 bushels to South America.

The aggregate value of all field crops in Canada in 1923, was \$891,755,200, according to a report of the Bureau of Statistics, a decrease of \$70,538,000 from 1922, caused mainly by the lower prices of wheat, practically all of the following items: wheat, \$316,606,000; oats, \$177,701,400; barley, \$32,055,700; rye, \$11,246,900; hay and clover \$102,882,000; mixed grains, \$17,654,800; potatoes, \$57,076,800; turnips, etc., \$22,650,100; corn, husking, \$12,465,000.

A golden wedding, celebrated by Mr. and Mrs. R. H. Williams, of Regina, Saskatchewan, was one of the novelties enjoyed by the passengers on board the Canadian Pacific "Empress of Britain" when the ship was at Barbados during the West Indies cruise. "Here Comes the Bride" was played by the ship's orchestra, and a huge wedding cake was baked, adorned with 50 candles and presented to the happy couple at a surprise party, in which even the crew joined.

Earl Bridges, 17-year-old musher, from Le Pas, Manitoba, won the Eastern International Dog Sled Derby at Quebec, receiving the gold cup and \$1000 awarded for the team cup and the winning post. The first past the winning post. The race was run on three successive days, February 21, 22 and 23, in daily laps of 40 miles, under extremely snowy conditions due to the heavy snowfall on February 20, which was the worst Quebec has known for half a century. Bridges, who won the Le Pas Dog Sled Derby, also captured a silver cup awarded for the best-matched team of dogs in the Quebec race. There were 15 starters.

Made for finest laundering, you can use this soap for everything

For finest silks, or coarsest woollens

These snowy, crinkly Palmolive PRINCESS SOAP FLAKES were made for laundering the sheerest, finest fabrics: silks, satins, chiffons, laces—lovely, expensive things.

For the foamy suds contains nothing that can possibly hurt the most fragile fabric, or dim the most delicate coloring. It actually lengthens the life of pretty, dainty things.

But—best of all—it can be used for laundering everything! Because it is economical. Being pure soap—nothing else—it actually goes farther. It saves all clothing. And it cleanses efficiently.

So it is ideal for the washing machine, or for any household purpose.

If only to try, get some today—from your dealer. He has them in handy, one-pound packages.

SATISFACTION

A seemingly low price for an article is always attractive, but unfortunately frequently misleading. How often is heard the remark, "I would rather have paid a little more and got the quality I wanted."

As a matter of fact that "little more" was necessary to obtain the better quality. Good goods require a higher price to be good.

There are cheaper teas than "KING COLE" but would you be satisfied with their quality?

MRS. MARMRE GRANT

Mrs. Marmre Grant, widow of the late Edmund Grant of Charlie Lake, passed peacefully away on May 7. She was ill only a few days. On Tuesday evening she was feeling better and advised the friends who were caring for her to retire and upon going to her bedside at 4 a.m. they found her dead. She was noted for her Christian character and has always been a faithful mother to her family. She was 71 years old and leaves to mourn, three sons and three daughters—Edmund of St. Stephen, Allen of Canterbury and Charles, with whom she died. Mrs. Luther Grant of Banforth, Me., Mrs. William Slaney of Temple and Mrs. Edward Grant of Island Falls, Me.

The funeral services were held on Friday at the Baptist church, Temple, conducted by Walter T. Hatfield, sermon by Rev. P. J. Quigg. Music was furnished by a quartette consisting of P. J. Quigg, Hazen Way, Elsie Fox and Ruth Quigg. Interment in the Temple cemetery.

THEY TELL THEIR NEIGHBORS

Women Tell Each Other How They Were Helped by Lydia E. Pinkham's Vegetable Compound

Woodbridge, Ont.—"I took Lydia E. Pinkham's Vegetable Compound for female troubles. I would have headaches, backaches, pains between my shoulders and under my shoulder-blades and dragging down feelings on each side. I was sometimes unable to do my work and felt very badly. My mother-in-law told me about the Vegetable Compound and I got some right away. It has done me more good than any other medicine I ever took and I recommend it to my neighbors. You are quite welcome to use this letter as a testimonial if you think it will help some poor sufferer."—Mrs. EDGAR SIMMONS, R. R. 2, Woodbridge, Ont.

In nearly every neighborhood in every town and city in this country there are women who have been helped by Lydia E. Pinkham's Vegetable Compound in the treatment of ailments peculiar to their sex, and they take pleasure in passing the good word along to other women. Therefore, if you are troubled in this way, why not give Lydia E. Pinkham's Vegetable Compound a fair trial. This famous remedy, the medicinal ingredients of which are derived from roots and herbs, has for forty years proved its value in such cases. Women everywhere bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Vegetable Compound.

WESTERN CATTLE IN EUROPE

Demand From United Kingdom Constant Since Lifting of Embargo, Says Col. Mullins.

Montreal—Sounding a note of the strongest possible faith in, and optimism for, the future of the agriculturalist in Western Canada, Colonel H. A. Mullins, prominent rancher of Poplar Point, Manitoba, who arrived in Montreal on Sunday, submitted to an interview yesterday. "The situation on the prairies is rapidly improving," the Colonel declared, "and the Westerner is taking courage. Moreover, many of those who in recent years left the farm are returning. I consider the tide in Western Canada is beginning to turn strongly from the city to the farm once more. The three prairie provinces especially have a tremendous future, and if due consideration is given to their particular needs, the realization of that future cannot be long deferred."

Asked to mention some of the influences which, in his opinion, would tend to hasten the Golden Age for Western Canada the Colonel unhesitatingly pleaded first for a better understanding between East and West. "The Western farmer can also do a great deal to help himself," the Colonel added. "I consistently advocate that all farmers out there should go in for raising livestock as well as other stuff, especially for raising high-grade stock, and that those now in that game should stick to it. They should also stop crowding their shipments—and this applies not only to livestock but to other products, such as grain—into three months or so of the year. Then they won't find themselves forced to take low prices because of the rush, and things will be better for the country generally as well."

Despite many recent setbacks, there is, the Colonel is convinced, a world market for good Western cattle. The demand from the United Kingdom, he says, has been constant and heavy since the lifting of the embargo, though it has been affected adversely by the recent closings of Liverpool, Glasgow and some other ports on account of the outbreak of foot and mouth disease.

Colonel Mullins is in an excellent position to speak with authority on the cattle situation, for he has been shipping cattle overseas steadily and intends to continue. Recently he shipped 148 head from Winnipeg to Montreal. The train, supplemented by cars containing 100 additional head from Toronto, left the Western city at 10 p.m. on Wednesday via Canadian Pacific and arrived at the stock-yards here on Sunday morning. The Colonel following them up by a passenger train which left Winnipeg on Thursday night. The shipment is bound for Dundee via St. John, N.B. The Colonel paid a warm tribute to the Company for the manner in which it had handled his consignment. "The shrinkage in weight was unusually light," he stated, "and not only did they make up this loss of weight in a few hours in the Canadian Pacific yards here, but they are already heavier than they were in Winnipeg. This experience, and my inspection of these yards, has convinced me that ranchers may ship their cattle via Canadian Pacific with confidence that they will be splendidly and rapidly handled."

For the Kidneys

Kidney troubles are frequently caused by badly digested food which overtaxes these organs to eliminate their irritant acids. Help your stomach to properly digest the food by taking 15 to 30 drops of Extract of Roots, sold as Mother Seigel's Curative Syrup, and your kidney disorder will promptly disappear. Get the genuine.

the day when we have our annual memorial service in honor of the boys who gave their lives for our country and the returned men are kindly asked to meet at the Armoury at Hartland to prepare for the memorial service. Come to the meeting at 8 p.m. Monday, May 19. Let every returned man feel it his duty to attend the meeting. Belonging to the G. W. V. A. does not matter—it is having been overseas where our heroes now lay that matters, so all please attend.

Per order. E. A. Britton, Pres; S. G. Barter, Sec; G. W. V. A.

RHEUMATISM GONE SAYS MONTREAL HOTEL MAN

F. A. Mongeau Tells How He Recovered Strength After 8 Years of Rheumatism.

F. A. Mongeau, popular night clerk at the Prince of Wales Hotel, 17 and 19 McGill College Ave., Montreal, Canada, lends his name to further the cause of Tanlac, the treatment that has proved of such great benefit to him.

"After all Tanlac has done for me said Mr. Mongeau, 'I just feel like praising it to everybody.' Eight years of muscular rheumatism had just

about made a cripple of me. I got to where I simply had to limp around on a cane. My nerves became affected, my sleep unsteady and I felt completely knocked out.

"Six bottles of Tanlac, taken eight months ago, made a new man of me and I have had no further trouble with rheumatism, or my health, since. My nerves are steady as a die, I sleep fine, and feel the same way. Anyone wanting to know of me what Tanlac will do, just phone me here at the hotel."

Tanlac is for sale by all good druggists. Accept no substitutes. Over 40 Million bottles sold.
