Edwards Wrathy.

This was the preliminary to a storm which broke when Dr. Edwards atinterrupt Dr. Neely, the tempted to interrupt Dr. Neely, young member for Humbolt, young member for Humbolt, of cleverest speeches of the debate. senting Dr. Neely's reference to unfortunate speech, which was in-terpreted by all who heard it as a re-flection upon the loyalty of Quebec, Dr. Edwards appealed for a hearing, and amid considerable uproar denied that he had imputed disloyalty to any section of the people, and demanded a withdrawal. Dr. Neely insisted that Dr. Edwards' speech could bear no other interpretation than that put upon it, and with the members on leath of the sides relied to a state of both sides raised to a state of excitement, the Speaker had to appeal several times for order.

This not likely that the council will obtawa over his head, and some plain facts were stated by the colonel at the information of the sides raised to a state of excitement, the Speaker had to appeal several times for order. Dr. Edwards continued to demand a retraction, and eventually, in response to the ruling of the chair. Dr. Neely accepted the statement of the member for Frontenac with the qualification that the latter had not been fortunate in his use

There was another lively exchange later when Mr. Gladu, of Yamaska, rose to speak. Criticising Mr. Foster, he declared that the member for North Toronto had never cleared himself from the accusation made against him in the House two years ago by the minister of justice. Mr. Glen Campbell at once jumped to his feet with an indignant protest, and he was followed by Mr. Lennox, who, raising his voice almost to a nox, who, raising his voice almost to a shriek in order to be heard above the din which prevailed, claimed that Mr. Ayles-worth's accusations against Mr. Foster had been refuted by Judge Magee.

A distinct element of comedy was added to a varied day's proceedings by Major Beattie (London), who expressed the fear that the officers of Canada's navy would have nothing more to do than eat three meals a day and give pink teas eat three meals a day and give pink teas. Major Beattle regretted that the question of loyalty had been introduced into the debate, and proceeded to recall some of the military services that had been rendered by Britain to Canada. He argued that it would be better to give eighteen or twenty millions for a couple of Dread-noughts and be done with it than to go on spending millions every year on a navy, the officers of which would have nothing more to do than to eat three meals a day and give pink teas. He hoped Canada would always remain true to the Union Jack.

Doesn't Like "Nation." Doesn't Like "Nation."

During the debate he had heard Canada described as a nation. He preferred the phrase "Dominion within the empire."

The word nation tingled of separation, and he trusted that Canada would continue to live under the good old Union look him. It was finally gleaned that he was slightly demented, and the police, took him to the cells. The magistrate

ALBERTA ATTY.-GENERAL RESIGNS PORTFOLIO

The Return of Mr. Cushing to the Cabinet Said to Have Forced Him Out.

[Special to The Advertiser.] Edmonton, March 9.—Hon. Mr. Cross, attorney-general of Alberta, has resigned his portfolio. This was the statement which emanated from statement which emanated from authoritative sources at midnight. It is reported that Mr. Cushing's re-

turn to the cabinet forced Mr. Cross to take the drastic step he did. Both parties, when interviewed, refused to give out any information, and would neither deny nor affirm the story. It is known, however, that the attorney-general's resignation is now in the nands of the lieutenant-governor. This leaves Messrs. Rutherford and Lessard not having any. Hon. Mr. Rutherford, therefore, is Premier, minister of education and minister of railways, while Mr. Marshall will fill of the rows on the line.

The crisis in the Alberta Government was due to charges made last week by Mr. Cushing, in connection with the loan guaranteed to the Canadian Northern Railway, Mr. Cushing at that time resigning his position.

90 pounds. Alleged Trickery. "There has been altogether too much trickery going on in regard to the selling of potatoes," a member of the association told The Advertiser today, London people have probably suffered pretty heavily, but the situation is much the same all over the province. It is time something was done." The grocers will warmly support the R. E. O. A. in an effort to obtain a standard bag of potatoes.

Full Measure Wanted. "Hundreds of citizens every week are buying bags that they believe contain full measure, when in reality there are not more than 75 or 80 pounds in them. Of course, the farmer has the excuse that he does not sell them for 90-pound bags, but nevertheless many citizens buy them for that." The Real Estate Owners warmly criticized Hon. Adam Beck's attitude in the House yesterday, when he supported the bakers.

The Government was looking into the matter, and either this year or next would bring in a bill to amend the Ontario railway and muicipal board. Col. HENRY GEORGEISM

Calls It a Nostrum and Has Fripp's Bill Withdrawn.

THE ASSESSMENT ACT

Amendments Propose an Increase of Exemption From \$1,000 to \$1,200.

[Special to The Advertiser.] Toronto, March 9.-The amendmen the assessment act, introduced by Ir. Fripp, of Ottawa, and embodying very mild and inoffensive modificaon of the doctrines of the late Henry eorge, received short shrift at the ands of Sir James Whitney in the Legislature yesterday. The proposal of Mr. Fripp's bill was that municipalities, instead of imposing the same rate of taxation on lands, improve-ments, income and business, as at present, should have the option, while retaining the present plan of valuation. of imposing a higher percentage of tax on land than on the other three items of taxable wealth. Sir James delivered fatal stroke with kind words for the Ottawa member, but for the basic idea of the bill he had only words of scorn. "Nostrum," "panacea," "univer-sal cure for a non-existent disease," were among the terms he used. The bill was withdrawn.

The Assessment Act. Hon. Mr. Hanna then moved the second reading of the assessment act This is the act which was passed by the special committee appointed last session, which met during the recess. Since that time the bill had been carefully considered by the statute law revision committee. The first clause of the bill provided for taxes on colleges and similar institutions conducted for gain. The second provided for an increase in the exemption on wages to \$1,200 for married, and \$900 for single men. Strong representations were made to the committee, said Mr. Hanna, especially by railroad men, to makes the exemption \$1,500, but he called the attention of the House to the fact that the assessment commissioners of Toronto, Hamilton, Ottawa and London had stated that when making assessments they took into onsideration the fact that railroad men were forced to live at greater ex-pense than others, and allowed about 300 on their salaries, in addition to referred to the assessment of express companies, and made clubs liable to a business assessment. Others were of minor importance. One clause referred to taxation of vacant lands in cities, owns and villages, and made a substantial change with regard to the quantity of vacant land which would taxed. It would be found that under the act there would be no farm, garden, or vacant land assessment. that is, no vacant lands in cities or towns would be assessed as farm

Mr. Fripp's Proposal.

In supporting his bill, Mr. Fripp said that its principle had been favored by some 270 municipalities, while leading inspector, was raised \$50.

The salary inspector, was raised \$50.

The estimates for other expenditures cal, and if it was the thin end of the good step to take. Under the opertion of the amendment, the officers of the municipality adopting it would proceed as heretofore with the assessng of lands and improvements, and the striking of the tax rate. Then would ome the divergence. In the case of a 20-mill tax rate, 10, 12 or 15 mills would be imposed upon the land, the remainder of the 20 mills being placed on the other three items of improve ments, business and income. No exist ing legislation in Ontario was so unsatisfactory as the present assessment act, but this bill would put the responsibility upon the municipality. No one denied that land values were cre ated by the community, and not by the individual owner, yet the value created went to the owner without any effort upon his part. If the land was taxed, the owner must in order to get his money out of it, either improve it or sell to one who would improve it, but the taxing of improvements was simply taking away the fruits of a man's industry and progressiveness. The business tax was paid by the consumer. while the income tax was evaded by the rich man, but weighed heavily upon those ill able to pay it. Mr. Fripp pro- against the C. P. R. in connection with pointed out that similar systems were trial. Saskatchewan and British Columbia, and that to the latter fact a prominent The claim for damages against the financial authority in the United C. P. R. in connection with the death States had attributed the American inrasion of Canada's West.

The city of Ottawa felt strongly on the question, said Mr. Fripp, and had in the city of Ottawa bill sought power to adopt the system. The subject was of great importance, and Mr. Fripp urged that Ottawa be given power next session to try the experiment. The bill would affect only those holding lands for speculation in order to benefit from the increase of population.

Mr. Studholme heartily supported the measure, he said. It was a good thing, and should be adopted. He said governments of other countries had adopted the proposal with great

Hon. A. G. MacKay stated that several years ago, under the old Government, he had introduced a measure providing that buildings and improve-ments should not be assessed higher than 50 per cent of their value, but the resolution had never been seconded. He did not think the question should be made one over which there would be annual contests at elections, though the giving of discretion to rural tax collectors not to tax improvements too high had worked out well in most

Mr. Fripp withdrew his bill, while that of the Hon. Mr. Hanna went to

To Prevent Disease.

Hon. Mr. Duff introduced a bill which is an extension of the old act with respect to San Jose scale. It provides that machinery which for so many years has been used to combat the San Jose scale shall henceforth be used to combat the following diseases as well: Codling moth, yellows, little peach, black knot, pear psylla and

pear bight. It is made an offence for any person to import or sell any plant suf-fering from any of these diseases. Provision is made that the inspection shall cover any of these diseases.

A change is made in the manner in inspectors shall be appointed.

NEW QUEBEC MINISTER.
Quebec, Que., March 8. — At a cabinet meeting this morning the Hon. Mr. Perodeau was appointed minister without portfolio. Mr. Joseph Ahern has been appointed secretary of the

commission on public utilities.

Women Cannot be Strong and Healthy Unless the

Kidneys are Well. Weak, lame or aching backs are the first sign of Kidney Trouble.
Under ordinary conditions they ought

to be strong and ready to bear the burdens of life. It is hard to do housework with a weak and aching back. Backaches come from sick kidneys, and what a lot of trouble

sick kidneys cause.

But they can't help it. If more work is put on them than they can stand it is not to be wondered that they get out of order. Weak back is sim, y a warning from the kidneys and should be attended to immediately so as to avoid years of terrible suffering from kidney troubles.

Doan's Kidney Pills will cure you in the

same way as they have cured thousands

Miss Alberta B. Clarke, Stoney Creek, Ont., writes:-"I was troubled with kidney trouble for several years; my back was weak, I had such terrible headaches, and was so restless I could not sleep at night and tried everything without any benefit. Meantime a friend advised me to try Doan's Kidney Pills, so I got four boxes and they completely cured me. I now feel as well as I ever did and would advise everyone suffering from Kidney

Disease to try them." Price 50 cents per box, or 3 for \$1.25, at all dealers or The T. Milburn Co., Limited, In ordering specify "Doan's."

New York, March 9. - What is considered to be one of the biggest deals in the automobile world and one that foreshadows an immense development of the industry in Detroit, was completed yesterday, when J. P. Morgan & Co., after several weeks of negotiations, succeeded in purchasing the holdings of the Detroit and Port Huron stockholders in Everitt-Metzger-Flanders com-

pany.

The price paid is said to be slightly

six to one, which indicates how eager THE E.-M.-F. COMPANY the house of Morgan has been to cure the property. The transaction is a strictly cash one, no stock exchange entering into the deal.

> nel of the company remains the same as it has been, with Walter E. Flanders as general manager. He also remains as a member of the board of directors, and retains a block of stock in the new company. Messrs. It is claimed that this winter more than ever before agents representing all sorts of lines have made a thorough canvass of the town and vicinity. Businessmen contend that these men should at least pay a license fee, as they do not belong in any way to the neighborhood, and take the money they get out of the town. Merchants owning stores or paying rent, and having permanent places in the town they consider are

Every White On the Snowplough KING STREET CHURCH Gang Amongst the Dead at Rogers Pass.

Vancouver, B. C., March 8. - The 56 men who went down before the sweep of the terrible snow and rock avalanche at Rogers' Pass last Friday night. Every white man who lost his life has been placed on the roll, and the only unfortunates still to be named

are five Japanese. Up to the time the rescue gangs, numbering almost a thousand, quit work yesterday afternoon, 21 bodies were recovered, including 13 white men and 8 Japanese. The weather has turned colder in the pass, but the effects of the terrible blizzard are over, and last night the gangs were at work

until a late hour. The rear of the avalanche was heard several miles away, and that was the reason that the news of the accident was out so soon, as when they heard the sounds of the glacier officials knew at once that something serious had happened, and made a quick trip to the scene, to find the whole work train and its scores of laborers

When the Japanese and Slavs at Glacier heard that their countrymen had been overwhelmed in the pass, it is said that there was immediately a small riot, and only for the prompt action of the officials there would have peen bodily harm done to a road boss whom they blamed for setting the aborers at work during the night.

Three Men and a Girl Wounded by Gun Play in Philadelphia Last Night.

[Associated Press.]
Philadelphia, March 9. — Despite the excitement created by the "shootingup" of Frankford avenue, one of the principal thoroughfares in the northeastern section of the city, late last night by a trolley carload of alleged strike-breakers, there were no serious

demonstrations against the trolley

cars in operation early today.
C. O. Pratt, the organizer of the carmen, this morning denounced the affair in Frankford, where three men and a 14-year-old girl are in the hospital suffering from slight bullet wounds received when the crowd of trolley men shot from a swiftly moving car into the crowd. He said it was the usual last resort of the desperate strike-breakers, who, finding everything quiet, shoot up a town to create trouble.

Bradford Williams, of New York, held two meetings yesterday in this city. To hear Mr. Williams recite whole chapters of the Bible, giving them life and action, such as is seldom seen or heard, is in itself a treat. His stage training stands him in good stead here, and his audiences sit listening with new and intense interest while he reads to them passages and verses which they have been hearing since childhood. Each afternoon he gives a monologue reading at 3:30 in the Auditorium, and a reading and address at night in the Colborne Street
