## CHEESE

There has been a very sharp advance in Eastern markets during the past few days, caused by short selling in England and a heavy demand for late August goods for Fall and Winter trade. We have just closed a contract with nearly all the leading factories in Manitoba for their August make, and are now offering late August's, equal to September's in quality, at close prices to the trade. We look for September and October Cheese from best factories to sell much higher than present prices, and we think our customers will do well to purchase their requirements for Fall and early Winter trade before higher prices prevail. We will book orders for shipment from now until 1st October at present prices.

Fruit Inspection.

Fruit Inspection.

To the Editor of the Commercial:—
Referring to my promise to write a few words to the apple dealers at this end of the line. I wish to say that first of all I would urge a close study of clauses 4, 5, 6 and 7 of the Fruit Marks Act, which reads as follows:

. Every person who, by himself or 4. Every person who, by himself of through the agency of another person, packs fruit in a closed package, in-tended for sale, shall cause the pack-age to be marked in a plain and in-

delible manner, before it is taken from the premises where it is packed,— (a) with the initials of his Christian names, and his full surname and ad-

(b) with the name of the variety or

(b) with the name of the variety or varieties; and (c) with a designation of the grade of fruit, which shall include one of the of the control of the grade of the control of the second quality, No. 1, or XXX; for fruit of the second quality, No. 2, or XX, and for fruit of the third quality, No. 3, or X, but the said mark may be accorded to the control of the contr

said package.

5. No person shall sell, or offer, expose or have in his possession for sale any fruit packed in a closed package and intended for sale, unless such package is marked as required by the

package is marked as required by the next preceding section.

6. No person shall sell, or offer, ex-pose or have in his possession for sale any fruit packed in a closed package, upon which package is marked any designation which represents such fruit as of No. 1 or XXX, finest, best fruit as of No. 1 or XXX, finest, best or extra good quality; unless such fruit consist of well-grown specimens of one variety, sound, of nearly uniform size, of good color for the variety, of normal shape, and not less than ninety per cent. free from scab, worm holes, bruisses and other defects, and properly packed.

properly packed.

7. No person shall sell, or offer, expose or have in his possession for sale, any fruit packed in any package in which the faced or shown surface gives a false representation of the contents of such package; and it shall be considered a false representation when more than fifteen per cent of such fruit free per cent of such fruit. is substantially smaller in size than, or inferior in grade to, or different in variety from, the faced or shown sur-

variety from, the faced or shown surface of such package.

As to the inspection of fruit at country points, if at any point within say that the apples he has purchased are turning out badly, if the quantity is worth while, say 10 barrels and unwards, I will try to run out and input on any frivolous pretence. Examine carefully, for yourselves, your apples in the following manner: Take a barrel from the lot suspected and face apples out carefully and place on top of another barrel; weight two boxs. top of another barrel; weigh two boxes or barrels and carefully sort over in or barrefs and carefully sort over in an honest and straightforward manner the apples in the barrel from which the face apples have been removed. Separate those fit to go with the face apples—which you have in view for the purpose of comparison—and put into one of the empty bosen or barrels. the purpose of comparison—and put into one of the empty boxes or barrels. Into one of the empty boxes or barrels. Other receptacle. After finishing, weigh the two lots, of course including the face apples with the good ones, and if you have less than 10 per cent of the country of the countr

should be at once reported.

To those so far away that it will be impossible for me to reach them, I would say, carefully follow the directions given above, have reliable witnesses see the operation and results,

and then have affidavits or deposition and then have amgavits or depositions made and forwarded to me and I will send them to the proper authorities for the purpose of prosecuting the delinquent right where he lives.

delinquent right where he lives.

For reasons that I cannot enlarge on here I am satisfied that this is going to be a matter requiring time, patience and good judgment in order to bring and good judgment in order to bring about the results aimed at by the originators of the Act. Thanking you for your courtesy in so freely allowing me to intrude on your space.

J. J. PHILP.

Dominion Fruit Inspector.

#### A Farm Laborer's Grievance.

Moss Jaw, N.W.T., Sent. 10, 1902.
To the Editor of Winnipes Commercial.
Dear Sir,—May I ask through the
columns of your paper, what the C. P.
R. Co. means by their treatment of the
"Farm Laborers," and their bagsages.
By their plausible advertisements they "Farm Laborers," and their baggage. By their plausible advertisements they to Manitoba and the Northwest to work for the farmers. First, they save us cattle cars with bare slats to sit on for a ride of nearly 2,000 miles; and the result of the ride of nearly 2,000 miles; and the result of the ride of the result of the resu

of us came to Mones Jaw and here we are on expense waiting for our bagThe company compels us to work 30 days, from Aug. 20 to Nov. 30, in order to get the reduced rate back to September. We have not been able to work an hour for we have only our best clothes with us. Our work clothes to the work with us. Our work clothes to the work of th

with them.

Situations here are all being filled Situations here are all being lines and by the time our baggage gets here there will be nothing to do. It is anything but a pleasant outlook. Mr. Editor, please publish this, and may other papers republish the same.
AN EXCURSIONIST.

The Traders' Freight Tariff.

The Traders' Freight Tariff,
The Canadian Northern Railway
Comnany has withdrawn the freight
tariff out of Winnipeg put into effect in
August, to which so much objection
has been raised. The tariff showed advances in the rates which
The Canadian Pacific Railway Company has not yet withdrawn the tariff
which it put into effect at the same
time embodying the same advances.

### President Bair and Right.

President Bair and Right.

President George N. Baer of the
Philadelphia & Reading railroad has
written a letter whigh has thrown the
yellow journalists, and haif-hearted
socialists of the country into a fit.
of the Christian spirit in every word
and in every phrase. A man by the
name of Clarks, of Wilkesbarre, wrote
to, President Baer, asking him to settle
new of the country of the country of the
less to do this. Probably he would do
so if he could, but he cannot, and so
he wrote a letter to this correspondent
in which he said:

10 you are I see
that you are a religious man, but you

evidently biased in favor of are evidently mased in favor of the right of the workman to control a business in which he has no other in-terest than to secure fair wages for the work he does.

'I beg you not to be discouraged, as the rights and interests of the the rights and interests of the labor-ing man will be protected and cared for, not by labor agitators, but by the Christian men to whom Zod in his in-finite wisdom has giver the control of the property interests of the country, and upon the successful management of which so much depends. "Do not be discouraged. Fray earn-

estly that right may triumph, alwa remembering that the Lord God On nipotent still reigns that His reign

one of law and order, and not of vio-lence and crime."

No defense of this letter is neces-sary. Neither is it in the province of The Black Diamond to raise the ques-The Black Diamond to raise the ques-tion of morality or of religion in its columns. And yet this breathes so much of the spirit of Christian manil-ness and of profound faith in the Creator of all things that a word or two of comment will not be out of

That President Baer is confronted That President Baer is confronted by duties which are not apparent at first glance is evident upon reading the statement made by Abram S. Hewitt, in his Bar Harbor, Me., in-terview. Mr. Hewitt takes the broad

terview. Mr. Hewitt takes the broad ground that the executive head of any coal company must regard the rights of his stockholders as well as the rights of labor. He is the man in-trusted with the care o, property by others, and if he neglects their in-terests he is not doing his duty. Mr. Hewitt puts this very aptly when he

says:
"There is one phase of this strike
to which the public as a whole has not
had its attention drawn. It is a mistake to suppose that the mines are
in the hands of seven or eight individuals, who alone reap the reward of
victory or suffer the disadvantages of
victory or suffer the disadvantages of
reap the many thousands of stockholders and mine owners, who outnumber
ers and mine owners, who outnumber long to many thousands of stockholders and mine owners, who outnumber the men that are employed. It is a vast field, divided up among all signs of investors. Speaking of the earnings of investors. Speaking of the earnings are immensely productive and valuable industries, their earnings are not what they are commonly supposed to be. In the case of one of the oldest what they are commonly supposed to be. In the case of one of the oldest vania, the earnings for the past sixty years have averaged approximately six per cent."

years and we were aged approximately the property of the property of the property of the benefit of a coal company reasoning honestly with himself and for the benefit of those whose interests he has under his charge, must conclude himself, the has under his charge, must conclude the has under his charge, must conclude the has under his charge, and had been wage workers. Many of these investors may have been wage carners who had workers have been wage carners who had who are dependent on it while they live. If this is true, to do some set which would deprive then of their which would deprive then of their which would deprive then of their code of morals, must be dishorted. est. And no Christian man at the head of any large corporation which represents thousands of investors can

look at this matter in any other light. Concerning the latter part of Presi dent Baer's letter, too much bravery cannot be ascribed to any man who sincerely believes and is willing to say in public that the control of vast in-terests comes to him through God. This is an admission which common in public that the control of vast in-terests comes to him through God. This is an admission which common at the control of the control of the through Control of the control of the success to ourselves and failure to any other convenient cause, Providence in-cluded. From the time of Solomon to great and has given them the ability to manage great interests. The Bible, the church and every other Christica institution teaches us this. President in the control of the control of the control to his own conscience was a truth. If

Baer in simple failthe was stating what in the stating what in the stating was a truth. In doine so he deserves the warm comprehation of every Christian man and woman in the world.

And who can doubt that this grave crisis in one of the most important industries of this country will be settled right and through the interposition of God. President Baer shows his fails in God and in the sound of the state o

Agriculture in British Columbia.

Agriculture was the principal subject discussed at a recent meeting of the Victoria Voters' League. To the meetwere submitted a report on the arable land on Vancouver Island and a interesting statement by Frank erly, dealing with the whole pro-

Moberly, dealing with the whole pro-vines. The former, which was read by "There are lands available for col-onization on both the eastern and western coasts of the north end of Cape Scott there is a considerable area of meadow land, part of which has been set apart for a Danish settle-ment. Along Campbell river there is mon river valley there are about 1,000 acres to the mile of river valley, this land being of the finest quality and will situated mile of river valley this land being of the finest quality and will situated a set of the set of seces available at 162,709. Allowing 10e hundred acres for a farm, there innot. He then read the report from Frank Moberly as follows: "The Voter's League is moving along "The Voter's League is moving along "The Voter's League is moving along "The Voter's League is moving along."

10 enti

would be 1.627 farms, besides grazing land. He then read the report from Frank Moberly as follows:

The Voter's League of the report from Frank Moberly as follows:

The Voter's League of the report from the The Voter's League of the report from the grazing of the report of agriculture. There is nothing as materially important to a country as its agricultural interest, and there is culture seems to be carried on in such a disjointed sort of way as in British Columbia, very little attempt being home market, as we import from the United States about a million dollars' worth of farm produce in addition to which the report of the report from the United States about a million dollars' worth of farm produce in addition to which the report of the supplies of the report of the same of the report of pally of the Mainland, as I know little of the Island, and will leave that for others to deal with who are more included to the property of th

long to go into details, I was also ribe it more minutely, should be fully examined and reported on by government, giving the position amount of any arable land availator settlement, what market and le for settlement, what market and hat mode of communication there is, d whether or not irrigation would be a with the settlement of the s province, every acre should be ivated and none of it allowed to waste or to be used for cattle

nmediately after making a prelim armenuacy arter making a prelim-ary examination of the country, sps should be taken to survey those nois fit for farming in blocks of from to 100 acres, and confining owner-ip as much as possible to blocks of at size. Every assistance and ensize. Every assistance and en-

E O

ders taking up those lands to go into mixed farming and dairying. Large individual land holdings are

mixed farming and dairying.

Large individual land hold disastrously wherever tried in Canada, as, on account of the scarcity of agricultural labor, the land is poorly cultivathural labor, the labor l

ways will be as long as the mining in-dustry lasts.

After the examination I have spok-en of has been made, it will be found that different classes of settlers will be required for different localities. For one, those who understand irrigation: on exhapted or university observables for for another, those who understand the clearing of land, and handling of heavy limber, etc. Then, steps should be taken to reach out for exactly the class of settlers required for each locality, and extensive settlers required for each locality, and question of settling Vancouver island, that I would recommend them to try to induce some settlers to come here from the counties of Glengarry and Bruce, in the province of Ontario, and would not allow any arable land to be monopolized for cattle ranging pur-

Sooses, is another article which would by to raise, the imports from the States alone in bacon and ham being 3089,008 pounds for 13004. Now, in Ontario (from which we also get a great quantity of these articles) the farmers found they were unless that the states of th Pork is another article which would

I will just touch on the fruit ques-tion. Fruit does well in the Upper Kootenay valley, in the Fort Steele district, along Kootenay lake wherever there is any soil; in the Kettle river valley, the Okanagan, the Similka-tricts, the trees are most prolific bear-ers and require the minimum of atten-tion. Yet, outside of the Okanagan and Chilliwack districts, little has been done in that line, although we im-port from the States apples, cherries, port from the States apples, cherries, plums, peaches and small fruit to the tune of \$90,000 per year, besides what comes from Eastern Canada in the shape of fresh fruits and the vast quantities of canned fruit. We should quantities of canned fruit. We should be able to supply our own market

and the total is \$958,826.64. Deducting and the total is \$958,826.64. Deducting Rixed charges accrued during the year, in 'sding interest on land bonds, \$7,-334, '5.59 and the surplus for the year was \$7,709,913.95; deducting the amount applied against the cost of steamships, \$150,000. She amount carried forward to the state of t

was \$7,559,13.96.

From this there has been paid and declared dividends of \$4,496,840. The declared dividends of \$4,496,840. The surplus earnings account now amounts to \$14,185,634. The working expenses for the year amounted to 62.4 per for the year amounted to 62.4 per earnings to \$7.56 per cent., as compared with 60.75 and 39.25 per cent. respectively in 1901. The earnings per passenger per mile were 1.75 cents, and per ton of freight per mile 0.75 cents, as against 1.95 and 0.79 cents respectively.

as against 1.93 and 0.79 cents respectively in 1901.
The sales of the company's lands were 1.002.82 ares, for 84.422.30, as were 1.002.82 ares, for 84.422.30, as with 82.08 per acre in 1901. Four hundred and eighty miles of 80-pound rails are being laid on the main line that the same of the sa keep pace with the growth of the trai-fic. Contracts were made, however, for all that could be delivered during the current year. On completion of the large locomotives and shops at Montreal now in course of construc-

MANITOBA FARM HOMES-Residence of Jas. Duncan, Glenboro.

from the province of New Brunswick. They understand bush clearing thoroughly, and the climate here would compensate them for a great many of

compensate them for a great many of the drawbacians industry that special attention should be paid to. Every-province to the coast, timothy and red and white clover and all root crops will grow to the greatest advantage; the climate is all that can be desired, and even where the climate is most severe, the houling of cattle is a small and sven where the climate is most severe, the housing of cattle is a small matter, as any severe weather never lasts more than a week or two at the last smore than a veek or two at the the drawbacks suffered by the farmers of Ontario, Quebec, Manitoba and the Northwest, who have on an average of their cattle; and yet those farmers sell their products at a profit in British Columbia, where the same articles could be a supported to the cost and exertion. Last year in the Similkameen country, where nature has done everything possible to was purchasing butter at 50 cents a pound, made in Western Ontario, and drinking milk canned in Nova Scotia. Is there not? And does not the very same state of affairs exist everywhere else in British Columbia? And yet in Carlong to the Trade and Navigation Report for 1990, the last I have seen, we import 536,913 pounds of butter from the States, and I magnite that amount is exceeding to the Trade and Navigation Report for 1990, the last I have seen, we import 536,913 pounds of butter from the States, and I magnite that amount is exceeding to the provinces.

In the matter of beef, by the farmer

from the eastern provinces.

In the matter of beef, by the farmer raising small herds and farm-feeding them, we would have a great improve-ment in the quality of beef. We now pay first class prices for a very infer-ior article, and, as I said before, I with fruit, as also that of the Yukon and the Northwest, which are our natural markets.

natural markets.

Poultry and eggs are also required in large quantities to supply our own markets of the province and of the Yukon. The import of eggs for these two markets is about 700,000 dozen per annum from the States, besides those supplied by Manitoba and the eastern provinces. The same holds those supplied by Manicola and the eastern provinces. The same holds good with poultry, as we import about \$17,000 from the States, and our own market is largely supplied with turkeys from Ontario. Poultry can be hers from Augusto. Poultry can be raised anywhere, and to advantage, in British Columbia, and certainly if it pays the Ontario and Manitoba farm-ers to raise them, pay freight out here, and to contend with all the difficulties of their rigorous climate, it should surely pay the farmer here with every-

thing in his favor.

For the raising of geese, ducks and turkeys there is an ideal region round turkeys there is an ideal region round the shores of Kamloops lake, where the climate and all other conditions are perfect for the purpose. It is situated on the main line of the Canadian Pa-cific railway, and is centrally situated as regards the markets of the province and there are, no doubt, many other localities autiable for the purpose.

I will close my remarks by saying that the question of agriculture goes hand in hand with that of transport.

## Annual Report C. P. R. Directors.

Montreal, Sept. 5.—The twenty-first annual report of the C. P. R. directors for the year ending June 30, 1902, was issued to-day. The financial statement a summary of which has already apshows that the gross earnings were \$37,503,053.78: the working expenses were \$23,417,141.37 and the net earnings were \$14,085,912.41. Adding interest and bonds, loans and deposits tion the company will be able to pro-vide these facilities more rapidly and vide these fa economically.

vide these facilities more rapidly and economically.

The earnings of the Duluth. South Shore and Atlantic Railway company for the source of the Minneapolis, St. Paul and Sault Ste. Marie Railway company is very striking, the charges for the year, being \$1.284, 501.

A conservative and prudent policy on the part of the directors of the latter company will beyond doubt with this large income it is reasonable to expect that dividends on the shares in that company, held in the shares in that company, held in the shares in that company, held in the Them of the shares in the shares in the company of the shares in the decimal of directors. The conclusion results of each year hereafter, instead of the whole board, as was the practice here-tofore. The directors, in conclusion re-tofore.

whose soard, as was the practice ner-tofore. The directors, in conclusion re-ferred with regret to the death of a fellow director, Mr. John W. Mackay. The expenditure for improvements ou main lines and branches during the year amounted to \$1,917,273, including \$353,004 on Montreal terminals. There was further spent on the Ontario and Quebec lines \$285,803, of which \$64,-207 was for real estate in Montreal and

Evidence that the moon's attraction has an indusence upon voicende eruphas an indusence upon voicende eruphas and industrial to the period of between eight and nine years is traced in the second with the period of the moon's perige. Further investigation indicates that the great-investigation indicates that the great the perigee occurs at the maximum northern declination.

A straight, bona fide weekly cash salary of BLO pidlo by check each Wednesday, with all expenses, direct from headquarters. Money advanced for expenses. Manager, 380 Caxton Bidg., Chicago.

#### THE BUSINESS SITUATION

Saturday Sept 19 · Business has responded to the improved weather conditions and has ing trade is now opening in some lines and travellers are booking a fair amount of supplementary business.

Another two or three weeks should give reasonable assurance as to the results of the horsest and husbans will then settle down to its regular fall basis. Values in a wholesale way are fairly steady and there are no striking changes to note. Bank clearings at Winnipeg indicate a much larger business movement than in other years. Interest rates hold steady. Pullding operations are very active and there is scarcity of material. Railway traffic is heavy and will become much more so as the grain movement has now fairly commenced. Labor 's well employed in all branches and the difficully is to get men. Farm help both male and female is particularly scarce.

#### WINNIPEG MARKETS

#### GRAIN AND PRODUCE.

Wheat: The wheat market during the past week has been firm but not active. There is just that kind of un-certainty about the situation that precertainty about the situation that pre-vents any decided action as to prices one way or the other. There is no doubt but the crop in Europe this year is a good one, but there is no evidence that it is so very large as to call for lower prices. The crop in America is not so large as last year, America is not so large as last year, but the reports circulated as to the increased yield per acre of the spring wheat crop in the three northwestern States, and in Manitoba and the increased yleat per acre to the second wheat crop in the three northwestern Btates, and in Manitoba and the Canadian northwest, have caused processed and the Canadian northwest, have caused product of the control of enough of high temperature. The re-sult in wheat will be a good yield per acre, and the early fields will be ex-cellent quality, but a good deal in the northern portion of the field will show frost damage, and in the southern por-tion much of it has been damaged by wet weather, hence the grading will show a lower average than last year. ton much of it has been damaged by wet weather, hence the grading will well with the state of th but the drought has been rather severe before relief came. There is nothing new from Australia or India and these countries are not expected to export much next year. The American visible supply increased 455,000 bus. last week against an increase of 277,000 bus. the previous week and an increase of 666,000 bus. last year. The increase of 656,000 bus, last year. The world's shipments were 11,276,000 bus, against 9,336,000 bus, the previous week and 7,072,000 bus, last year. The world's visible supply, according to Bradstreet's, increased 3.813,000 bus. against an increase of 2.908,000 bus. the previous week and an increase of 2.594,000 bus. last year.

The trade in Manitoba wheat The trade in Manitoba wheat is on a small scale. Threshing durin week has been much hindereshowers and high winds and equently the movement of whight. Inspections at Winnipeg averaged about 35 cars daily who last year at same time 250 to ingit. Inspections at Winnipes inversed about 35 cars daily who is severaged about 35 cars daily who is severaged about 35 cars dependent of the week for September delivered of the week of the week

The 15th annual report of the Van-couver board of trade is now being circulated in printed form. This pub-lication is well printed and bound and contains in addition to the board re-ports for 18/91-2, a number of finely executed half-tone engravings of scenes in and about Vancouver.

scenes in and about Vancouver.

The steamer Cottage City which
plies between Skagway and coast
points, ran on the rocks about 20
miles south of Wrangel on Sunday
night last. The passengers were all
safely landed and were picked up later
by another steamer. The vessel is securely lodged on the rocks and her
cargo will be saved.

A Victoria advice of the 11th said: Anchored in the bay this afternoon is the sealing schooner Geneva, Capt. Burns. The Geneva comes home the top liner of the Asiatic sealing fleet, with the very fair catch of 891 skins. Of these all but 58 skins, taken on this Or these all but 58 skins, taken of this coast, were secured in the Japan Sea. Other schooners arriving to-day were the Director, with 725 skins, and Florence M. Smith, 781 skins, and the steamer Victoria, leaving here this vening for Oriental ports, carries 310

The Fraser River fishermen find that, according to the pack returns made by the canners, they caught just 2,418 cases of fish too many to entitle them to 18 cents per fish under the

sliding cale of prices agreed upon at the commercement of the fishing sea-son. The veturns submitted to the fishermen showed that the total pack of the canneries amounted to 282,509 cases. The pack of trapped fish was number deducted from the total left 252,418 cases of fish, upon which the canners stated they were prepared to m Ve payment. Had the season's pack amounted to 249,590 cases the mvke payment. Had the season's pack smounted to 248,999 cases the fishermen would have been entitled to 18 cents per fish, but as the pack returns made show that the quarter million mark had been slightly exceeded, the sliding scale agreed upon calls for settlement at 16½ cents per fish. The fishermen, however, are not satisfied with the counterfield as a consideration of the company of the co arrangements have accordingly and arrangements have accordingly been made for representatives of the men to visit the canneries and check the pack.—Vancouver Province.

#### Crop Bulletin in December

Crop. Bulletin in December
The officials of the department of agriculture for the Province of Manitoba, state that the next crop bulletin that the next crop bulletin that the consideration of the crop, but this is considered unnecessary this year, as the Free Press work in a manner which is eminently satisfactory not only to the general public, but to the government officials, bankers and railway men.

bankers and railway men.

The difficulty between the Dominion public works department and the employees of the Yukon telegraph service has been settled, the men retaining the position at the reduced rates fixed by the minister.

The movement of what has been The movement of what has been of this week had reached about 15 or more cars per day. Much of this is old wheat, but the proportion of new is rapidly gaining, and with a few weeks of fine weather there will be a big rush of new grain. The inspection returns, of the weather there will be a big rush of the grain. The inspection returns, the proposition of the grain of the grain of the weather there will be a big rush of the grain. The inspection returns, and the proposition of the grain of the gra showing up very good.

WHY ARE

## EASTLAKE SHINGLES

POPULAR ?

Because they can't leak; won't burn; prevent lightning striking the building; don't cost much, and are wonderfully durable.

Either Galvanized or Painted. The best shingles made for all farm buildings.

If you haven't them in stock send for our Price List, there's good business in these reliable goods.

Full stock at Winnipeg warehouse, so that orders are promptly filled. Tribune Building, P. O. Box 542, Winnipeg.

## Montreal Live Stock.

Special to The Commercial.

Montreal, Sept. 9.

At the East End abattoir on Monday receipts were 800 cattle and 400 sheep and lambs.

The demand for cattle for local consumption was good; in consequence, an active trade was done and al-though the supply was fairly large, a though the supply was fairly large, a clearance was mde. The best steers sold at 4c to 4½c; fairly good stock at 3c to 3¾c, and common at 2c to 2¾c to 3%c, and common at 2c to 2 per lb. Å fair trade was done in sheep and lambs, and prices "ruled steady, Sheep sold at 3c to 3½, and lambs at 3½c to 4c per lb. Supply of calves was small, consequently trade in this line was quiet at prices ranging from \$2 to \$10 each. At the Grand Trunk stock yards there were 200 live hogs offered for which the demand was good at prices ruling from 3½c to 7c per lb. THURSDAY'S MARKETS

Montreal, Sept. 12.
Receipts at the East End abattoir
yesterday included 500 cattle, and 700
sheep and lambs.

sheep and lambs.
Choice cattle were in good demand.
Common slow. Best, 4½c to 4½c;
common, 2½c up. Calves, \$2.50 to \$10.
Sheep, 3c to 3½c. Lambs, 3½c to 4c.
Fat hogs, 7c to 7½c.

### Toronto Live Stock Market.

Special to The Commercial.

Special to The Commercial.

Toronto, Sept. 10.

Receipts at the stock market yesterday included 110 loads, comprising i. S78 cattle, 2253 sheep and lambs, and 550 hogs.

Export Cattle—Market was steady

Export Cattle—Market was steady to firm, with large offerings and a good demand. The call was chiefly for the top grades, but these were scarce, One but few of the shipments approached that quality. Quotations are unchanged at 85 to 85.75 for the best and 84.50 to 85 for mediums, Cows sell rather than 184.50 to 85 for mediums.

ed at \$5 to \$5.75 for the best and \$4.50 to \$5 for mediums. Cows sell rather freely at \$3.50 to \$4. Butchers Cattle—Picked lots would have soid readily at \$4.50 to \$5 per cwt., but they were not to be had. Fair to choice were offered in large quantitation of the companion of th

ties.

Export Bulls—Heavy bulls for export are quoted at \$4.25 to \$4.75 per ewt. and light at \$3.50 to \$4.25.

Stockers—Common are plentiful, and are quoted steady at \$2.50 to \$3 per

wt. Sheep and Lambs—Heavy offerings

Sheep and Lambs—Heavy offerings strained the market. Prices showed some improvement as compared with last week. Bucks are quoted at 82.50 to 82.75 per cwt., and lambs at \$4 to \$4.25 per cwt. Hogs—Prices declined 12½c per cwt. and selects are now quoted at \$7.12½; lights and fats are selling at \$6.87½. The run was rather light.

### FRIDAY'S MARKETS

FRIDAY'S MARKETS.
Toronto, Sept. 13.
Receipts at the stock yards yesterday were 49 cars, including 1,300 sheep and lambs, and 500 hogs.
Including the stock of the stock yards yesterday light. Best lots sold at 55 to 55.00 and 86 was bid for picked lots. Four cars of Northwest cattle brought \$4.00. Offerings of choice butchers' cattle were light. Best brought \$4.00. to \$5. Stockholm. ers and feeders were unchanged. Export ewes were easier, at \$3.40 to \$3.65. Hogs were unchanged.

#### British I ive Stock Markets

London, Sept. 8.—The trade in cattle was firmer, but prices show very little change as compared with a week ago. Canadian cattle are to be killed on arrival. Choice American cattle sold at 14½c, and Canadian sheep at 12½c. Liverpool, Sept. 8.—A firmer trade was done, but prices for Canadian cattle were unchanged at 12½c, and sheep at 12c.

#### FRIDAY'S CABLE.

London, Sept. 12. Cattle sold at 12½c to 14c per pound, estimated dressed weight.

SCRIBBLERS

We beg to draw your attention to our stock of Scribblers this year.
We have gone to a considerable expense and put on the market 196,000 for
western trade, where the covers specially lithographed for us by Bulman Bros,
nnipeg, and they are certainly a triumph in this line.
This is, we believe, the first to of Scribblers specially lithographed and made

We have not the variety of variety of
