New York papers of bunday last, received this morning, contain nothing new. There was no Upper Canada mail, and the Mont, ead papers of Wednesday were received yesterday, by steamer.

United States papers of the last date and lled with accounts of the sayings and doing of our republican weighbours, on their great national holiday, the fourth of July. The fol-lowing account of part of the ceremoirs at New York and Albany, is copied from the Montreal Herald of Wednesday:--at

The principal roveluy and attraction on the 4th instant, at New York, was the celebra-tion of the Sabbath Schools at Staten Island, at which there probably was never such an immense assemblage of children and you'bs, who conducted themselves with the most per-fect order, decoum, and promist, during the immense assemblage of children and you'bs, who conducted themselves with the most per-fect order, decorum, and propriety during the day. The number of children and spectators was variously estimated at from filtenet to thir-ty thousand, and the best and most observant judges estimated the number at twenty thou-and. The scholars were addressed by His Excellency the Governor, by Chancellor Kent, Dr. Cox, and several other distinguished per-sons. Mr. Van Buren was present for a short time, but had to leave in consequence of a prior engagement. The militia turn out was considered spurth, but from what we nave witnessed of such displays in New York, it could not be avery great affair. In the evening there was a splendid display of fireworks at the Park and the various squares of the city, and a "considerable number" of street fights and riots. The Whig states that the constabulary force seemed to have been withdrawn, or to have acted under orders to give all the 'largest liberty" that could and desired, as every one acted as seemed good to himself; and many, who, on ordinary occasions were prompt to obey and en-force all wholesome regulations, decreed a temporary oblivion to every statute that could interfere with the most perfect "indepen-dence." and the fullets the constabuted could interfere with the most perfect "indepen-dence." and the fullets enjoyment of "ma-

Shortly after eleven o'clock, the different military corps and fire companies, along with the St. Patrick's St. Andrew's and the Hibernian President and Mechanics' Benefit Societies, formed a pro-cession to one of the churches, where, after an impressive prayer, the Declaration of In-demendence was read, and an oration was pendence was read, and an oration wa livered, suitable to the day. The Alban Daily Advertiser contains several poetical ef fusions under the denomination of Odes, writ petical ef ten for the occasion.

THE BRITSH QUERN-A letter has been received in town, from a source of unquestion-able authority, stating that the British Queen, steam-ship, which was advertised to start from Portsmouth on the 1st July, would not be able to leave on that day, as she would not be ready to leave Greenock, where she was tak-ing in her engines &c., until the 25th. The letter does not say whether the "26th." alludes to Jane or July ; the former is consider-ed the most probable.

By the Halifax Mc²l, which arrived yes-terday evening, we have received Nova Scotia and New Brunswick papers, from which we nake the following extraots:-

The New York Express of the 6th instant states that liberal offers have been made to the Hon. Mr. Cunard, of Halifax, to run his go-vernment line of steamers to New York instead of to Boston, and that he has declined them.

The steam -hip Liverpool sailed from New-York for Liverpool on Saturday last. Among the names of her passengers, which amount to seventy, we observe those of Messars. Andrew H. Armour and H. Furniss, of Mon. eal; Mr. Neville, 1st Royals; and Mr. H. Kirkland, of Hamilton, U. C.

The bark Navarino, Cleverly, of Plymouth, which ran ashore on the 15th May, on her inward voyage, arrived in port this morning, with her lower masts standing, and without the aid of the standing of the stan the aid of a steamer, having apparently suffer-ed no material damage. The subscription list for purses, &c. at the Quebec Races, to come off in September next, is, we are glad to find, "progressing" rapidly, Upwards of £175 is already subscribed, and Upwatos cf 2173 is already subscribed, and there is no doubt, from the praiseworthy ac-tivity of one of the stewards, that this sum will very speedily be increased. We under-stand that much sport is anticipated at the meeting. The subscription list lies on the Exchange Reading-Room table.

The steamer Patriot, is advertised at Mont real to commence her regular trips between that city and Quebec, this day. The Patriot is to be a passenger boat only, and will be under the command of Mr. Luckin.

The Canadien mentions that a considerable uantity of alcohol is produced, at the Beau-ort distillery, from maple sugar; and we un-requard that a considerable increase in the rice of maple sa, or is likely to be caused by extension marchases being and by the the extensive purchases being nade by the proprietors of that establishment.

Mackenzie says he is going to issue 25,000 political almanacks, and and address to young men from Ireland, Scot-land, England and Canada, on the policy of the United states towards naturalized citi-zens. His feelings towards the American government seem very bitter, and with the prison to "reform," and the Union to "tre-geneate," the little pation has his hands full enough. What a very different fate might his have been, had he regulated his conduct by the maxims of virtue and ge-nuine patiotism !
