#### THURSDAY, 11th February, 1830.

MESSAGE from His Honor the President, by Mr. Deputy-Secretary Hill : Mr. Speaker.

His Honor the President commands this House to attend His Honor, immediately, in the Council Chamber,

Accordingly, Mr. Speaker, with the House, went up to attend His Honor in the Council Chamber.

And being returned,

Mr. Speaker reported, that the House had attended His Honor the President in the Council Chamber, where His Honor had been pleased to make a Speech, of which Mr. Speaker said he had, to prevent mistakes, obtained a Copy, which he read to the House, and is as follows :

Mr. President, and Gentlemen of His Majesty's Council. Mr. Speaker, and Gentlemen of the House of Assembly,

15 Excellency Sir PEREGRINE MAITLAND's state of health requiring a change of climate during our winter Months, and the Administration of the Government His Honor's having, in consequence, devolved on me during his absence, in conformity to His Ma- Speech at the openjesty's Instructions, I have convened you as early as the increase of the public busi- ing of the Session. ness would admit of.

#### Mr. Speaker, and Gentlemen of the Assembly.

I have directed the Public Accounts to be prepared, and they will be laid before you for inspection, without delay.

You will perceive in them, that the extensive appropriations of the last Session have been applied to the purposes for which they were granted.

The Revenues derived from the Customs, under the Imperial Acts, have been more productive in the past year than the preceding one, and regularly paid over to the Treasury; there has been little variation in the receipts of the Excise.

The usual Estimates will be presented to you, and I rely on your continued attention and liberality, in making suitable provision for the support of His Majesty's Government.

#### Mr. President, and Gentlemen of His Majesty's Council, Mr. Speaker, and Gentlemen of the House of Assembly,

I have nothing at present to lay before you from His Majesty's Colonial Secretary, but if any Despatches should arrive, or other circumstances which may require it, I shall communicate with you by Message, in the course of the Session.

1 regret to observe, that, notwithstanding the encouragement afforded by the Legislature to our Fisheries, it has not produced the general benefit that was anticipated; those concerned in that branch of our Commerce have not met with that return. which their enterprize, and exertions, reasonably entitled them to expect ; from which it may be presumed, that the supply is too abundant for the consumption of the markets to which our Fish are sent.

I am not sufficiently informed, to state to you the improvement that has taken place, under the late Act for establishing and regulating English Schools, but from the calls that have been made for the Provincial aid, they must have increased, and it is to be hoped with beneficial effects.

I have much satisfaction in acquainting you, that the liberal Grants of the Legislature, towards carrying on the Works of the. Shubenacadie Canal, have enabled that Company to increase their exertions during the last season, and has likewise been a means to induce His Majesty's Government to recommend a Loan from His Treasury of Twenty Thousand Pounds, in aid of the exertions made here to accomplish this important Work ; and the Company's Agents, in London, are actively engaged in procuring private subscriptions for the same purpose, in which they have sanguine ex pectations of succeeding.

With undiminished inclination to promote the prosperity of the Province, in all its interests, I shall cordially afford my aid in such measures as have those objects in view: to attain which, I recommend harmony in your proceedings, and as much expedition, as the nature of the business that will come under your consideration will admit of.

Ordered, That Mr Uniacke, Mr. Lawson, Mr. Young, Mr Stewart, and Mr. Dickson, be a Committee to prepare an Address in answer to His Honor's Speech.

Ordered, That Mr. Lawson, Mr. G. Smith, Mr. Stewart, Mr. J. R. Dewolf, and Mr. B. Dewolf, be a Committee of this House, for the purpose of examining the Public Accounts, jointly, with a Committee of His Majesty's Council, and that the Clerk do acquaint the Council therewith.

Ordered, That Mr. Murdoch, Mr. Morse and Mr. Dickson, be a Committee to examine into, and report on, the Expiring Laws.

Resolved. That no Petition of a private nature be received after Monday, the first day of March next.

John Alexander Barry, Esquire, returned duly elected a Member for the Township of Shelburne, took his Seat, having previously taken the Oaths, prescribed by Law, and subscribed the usual declaration in the presence of the Honorable Brenton Halliburton, one of the Commissioners appointed by His Excellency the Lieutenant-Governor.

John Johnstone, Esquire, returned duly elected a Member for the County of Annapolis, took his Seat, having previously taken the Oaths prescribed by Law, and subturned Member for scribed the usual Declaration in the presence of the Honorable Brenton-Halliburton, one Annapolis County, of the Commissioners appointed by His Excellency the Lieutenant-Governor.

A Message from the Council by Mr. Halliburton:

Mr. Speaker.

The Council have appointed Mr. Collins, and Mr. Prescott, a Committee to join the. Committee of Committee of the House of Assembly, to examine the Public Accounts.

And then the Messenger withdrew.

Mr. Unlacke reported from the Committee appointed to prepare an Address in an-Report of Address swer to His Honor's Speech ; that the Committee had drawn up an Address accord- in answer to Preingly, and he afterwards delivered it in at the Clerk's Table, where it was read, and sident's Speech is as follows.

TO HIS HONOR

# MICHAEL WALLACE,

President and Commander in Chief in und over His Majesty's Province of Nova-Scolia, and its Dependencies. &c. &c. &c.

THE HUMSLE ADDRESS OF THE HOUSE OF REPRESENTATIVES IN GENERAL ASSEMBLY.

#### May it please your Honor,

7 E, His Majesty's dutiful Subjects, the Representatives of His Loyal People of Address in answer Nova Scotia most responsibility thank your Honor for your Scotia at the solar to President's Nova-Scotia, most respectfully thank your Honor for your Speech at the open- Speech ing of the present Session of the General Assembly.

We regret to learn that the health of His Excellency Sir PEREGRINE MAITLAND required his removal to a milder Climate, and, looking forward with hope to its re-establishment, and his resuming the Administration of the Government, we confidently rely upon a continuance of that zeal and assiduity which have ever characterized your Honor's long and laborious Public life, for the faithful Administration of the Government during his absence.

It is with much gratification we hear from your Honor that the Public Revenue has increased, and that the appropriations so liberally made in the last Session, for the improvement of the Country and the welfare of the Inhabitants, have been beneficially applied.-That the deliberations of the Representative Body in their last Session have been attended with such advantage to the Province, and that the numerous expenditures have been met by prompt and regular payments from the respective Officers into the Treasury, are bighly pleasing.

We thank you for directing the Public Accounts to be laid before us without delay ; they will receive our immediate attention ; and when the usual Estimates are presented to us, we shall suitably provide for the support of His Majesty's Government.

The encouragement of the Fisheries of the Province has always been an important subject upon which the deliberations of former Legislatures have been bestowed, we had hoped that the liberal and general provisions of the present Assembly, aided by their being made to a certain extent permanent, would have accomplished all that could have been wished. And it is with regret we are informed, that branch of our Commercial Industry has not been attended with the returns which we had every reason to anticipate.

We have ample ground to hope that the system for establishing and regulating English Schools throughout the Province has been attended with great success; and we shall be glad to receive from your Honor any information upon this interesting subject.

We look forward to the progress of the Shubenaccadie Canal, as an object of much public importance, and we feel grateful at being informed that the liberal aid and encouragement given by the Province are likely to obtain such assistance in England as may lead to the speedy completion of a work which will open some valuable resources of the Province; and advance the Agricultural Interest.

#### MONDAY, 22d FEBRUARY, 1830.

Ordered, That the said Report, Account and Abstracts, do lie on the Table, to be perused by the Members of the House.

Mr. Murdoch moved, that the Message received on Thursday, the 1Sth instant, from His Honor the President, relative to the proposed alterations around Fort George, upon Citadel Hill, together with the Papers and Plan accompanying the same, be published in the Royal Gazette, which being seconded and put, and the House dividing thereon, there appeared for the motion, nine; against it, twenty-two.

So it passed in the negative.

Mr. Stewart moved that the House do come to the following Resolution, viz:

Resolved, That Public Notice be given in the Royal Gazette of the application of Resolution for the Commanding Engineer, for the grant of a piece of Land, lying near the Citadel Hill, that all persons concerned therein may govern themselves accordingly; and further, that a plan of the proposed alterations, and other documents connected therewith, may be seen on application to the Clerk of this House, which being seconded and put, and the House dividing thereon, there appeared for the motion, twenty-six ; against it. :five.

So it passed in the affirmative.

Mr. Deputy-Secretary Hill acquainted the House, that he had two Messages from His Honor the President to this House, signed by His Honor, and he delivered the Mossages from said Messages to the House, and the same were read by Mr. Speaker, all the Members being uncovered, and are as follow, v i:

#### MICHAEL WALLACE,

MESSAGE.

THE President lays before the House of Assembly, the Copy of a Despatch from Copy of Despatch His Majesty's Principal Secretary of State for the Colonies, enclosing the Copy relating to Roman Catholics of an Act of the Imperial Parliament for the relief of His Majesty's Roman Catholic Subjects, from all civil and military disabilities, with certain exceptions, and the President recommends that an Act of the Provincial Legislature should be passed, declaring that the Provisions of the Imperial Act extend to this Province.

Government-House,

22d February, 1830.

#### MESSAGE.

THE President informs the House of Assembly, that there has not been for several Regarding Agency years, any authorised Agent to represent this Province in England, and the want of Province in London of such a Person has been felt on several occasions, particularly of late, when various subjects have come under the consideration of His Majesty's Government in which the interests of this Province are deeply concerned. The President therefore recommends to the House to take this subject into consideration, and he trusts the House will see the propriety of making provision for the payment of a suitable Person, to be appointed during the present Session.

Government-House,

MICHAEL WALLACE,

22d February, 1830.

Mr. Deputy Secretary Hill also delivered to the House, the Copy of the Act of Act of Parliament of the Imperial Parliament referred to in the first Message, together with the relating to Copy of the Despatch from His Majesty's Principal Secretary of State, also therein Catholice mentioned, and the said Copy of Despatch was read by the Clerk.

Ordered, That the said Messages, and other Papers, do lie on the Table, to be perused by the Members of this House.

#### TO THE KING'S MOST EXCELLENT MAJESTY.

The Joint Address of Your Majesty's Council and House of Assembly of your Province of Nova-Scotia, now in Legislative Session assembled.

#### May it please Your Majesty;

THE Council and House of Assembly of Your Loyal Province of Nova-Scotia, beg leave most humbly to approach Your Majesty, to represent the great alarm which has been excited throughout British America, on learning that the Government of the United States are endeavouring to induce Your Majesty to permit a direct Trade between the Ports of that Country and Your Majesty's Possessions in the West-Indies.

#### TUESDAY, 23d FEBRUARY, 1830.

The Council and Assembly of Nova-Scotia, desire most humbly to express their gratitude for the benefits which this Province has derived from the Acts passed by the Imperial Parliament, during Your Majesty's Reign, for extending the Trade of Your Majesty's Colonies.

Fully aware of Your Majesty's paternal solicitude for the happiness and welfare of your Subjects, in every part of your extensive Dominions, they are convinced that it will be gratifying to Your Majesty to learn that the benefits expected to have been derived from those Acts, have been realized in British America; and, they think they may add, in Your Majesty's Trans-Atlantic Dominions in general.

It has been long noticed by all who have paid attention to the principles which actuate the Government of the United States, that, in their domestic policy, they avail themselves of the vast variety of Soil and Climate which their extensive Territorics embrace and strive to cement the Union of the Confederate States, by encouraging an interchange of their respective productions.

That, by the adoption of this wise policy, which is more deserving of imitation than of censure, the Inhabitants of the States, the most remote from each other, are made to feel how beneficial this interchange is, and how independent it may ultimately render them upon Foreign Countries:

Upon this principle they are now encouraging to the utmost of their power the Manufacture of Sugar, Spirits, and Molasses, and it may be confidently asserted that those articles which compose the Staple of the West-India Trade, are already produced in the Floridas and Louisiana, to an extent nearly equal to the supply of the United States.

The Inhabitants of British America feel, with proud exultation, that they are the Subjects of a Monarch, whose dominions extend to every quarter of the Globe, and they know that if an interchange of the various productions of the several portions of the British Empire is encouraged, such wise policy would enable Your Majesty to confer Commercial Privileges upon your Colonial Subjects, infinitely more important than any that the Government of the United States can bestow upon its Citizens.

That the distance which separates the several portions of Your Majesty's Dominions from each other, enhances the benefits which the Empire would derive from their intercourse, as the interchange of their respective productions would be carried on in British Ships, navigated by British Seamen, and thus increase the resources of that Naval Power which has made Great-Britain the Mistress of the Seas, and to which she is mainly indebted for the proud station she holds among the Nations of the Earth.

That Your Majesty's Loyal Subjects in North America have no desire to advance their local interests at the expence of those of the Empire in general, but humbly conceiving that in the present case, the general interest is identified with theirs, they trust, that the Citizens of the United States will not be allowed to participate in a Trade which would render them dangerous rivals to Your Majesty's Subjects in these Northern Colonies, and prove most injurious to their interests, without producing corresponding benefits to the West-India Islands.

Those Islands now receive through these Colonies a regular supply of the Articles which they require from the Continent of America, for the greater part of which they pay with their own produce. This not only creates a most beneficial Barter Trade between the Northern Colonies, and the British West-Indies, but increases the Intercourse between the Northern Colonies themselves. Nova-Scotia and New-Brunswick, in consequence of their situation on the Atlantic, become the Carriers between the Canadas and the West-Indies. The Fish caught on the Coast of British America, is carried in the Vessels of the Atlantic Colonies to the Islands, and there disposed of for Rum, Sugar and Molasses, with which those Vessels return to supply the wants not only of the Atlantic Colonies, but of the Canadas also. The Canadians pay for these supplies in Flour, Pork, and other Articles of Agricultural Produce which are required for the Fishermen on the Sea-board, and all the Colonies are thus made to feel how beneficial they are to each other.

The demand for West-India Produce, in British America, must increase with the rapid augmentation of the Population in these healthy Countries; and the Wealth which the Inhabitants will derive from this Trade, if it is preserved to them, will enable them to become better Customers every year to the British Manufacturer.

That no burthens, in the shape of protecting Duties, can ever be imposed upon British Manufactured Goods in the North American Colonies, and, by fostering their Trade and encouraging their prosperity, Great-Britain ensures to herself a valuable Market for her domestic productions.

The Council and Assembly of Nova-Scotia, beg leave humbly to state to Your Majesty, that, if the Vessels of the United States are permitted to carry the Produce of that Country directly to Your Majesty's Possessions in the West-Indies, it will destroy the beneficial Trade now carried on by Your Majesty's Subjects.

That the West-India Proprietor will not ultimately derive any benefit from their admission, for although, it will at times occasion a glut of those articles consumed in the Islands, the consequent reduction of Prices, which that glut will produce, will drive many from the Trade, and the occasional scarcity, which will follow, may more than counterbalance any advantage which the Islanders might have derived from the previous over-supply—thus, instead of cherishing a Trade in which sound calculation and steady industry would generally meet its reward, the West-Indies will present a Market to which none but wild Speculators will resort.

That the Duties which the American Congress has imposed upon West-India Produce, in order to encourage their own Planters and Distillers, nearly amount to a total prohibition of the Import of those Articles into the United States, which, added to the decrease in the demand from abroad, in consequence of the Domestic Supply, would prevent the Americans from taking payment, in Produce, for any Cargoes they might carry to the Islands.

Their admission, therefore, would drain the British Islands of Specie—nor would the evil be confined to this—they would probably proceed to the Foreign Islands, and, with that Specie, purchase the clayed Sugars, which are in demand in Europe, and carry them thither; from whence they would return with such Foreign European Goods as are suited to the American Market.

By this impolitic measure then, Great-Britain would provide a Country, which appears destined to become her Rival, with the means of procuring full Freights upon three several Voyages, and thus add to their commercial wealth and their maritime power, at the expence of her own.

The Council and Assembly of Nova-Scotia, most humbly state to Your Majesty, that, when the American Government, in adherence to the system of lostering their own Trade, forebore to avail itself of the offers held out to the Foreign Powers, by the Acts of the Imperial Parliament, and declined to place the Commerce of Great-Britain upon the footing of the most favored Nations, your loyal subjects in British America were induced to believe that Your Majesty's Government would persevere in the measures it then thought proper to adopt, and would not renew any negociation relative to the intercourse between the United States and Your Majesty's Colonies.

That the declaration of Your Majesty's Secretary of State for Foreign Affairs, to the American Minister then in London, confirmed them in this opinion, and encouraged them to invest a large Capital in the Commercial and Agricultural pursuits, which an adherence to such a line of policy is calculated to foster and increase in these Colonies.

That the alarm which the mere report of an intention of departing from this julicious system has occasioned, has, in some measure, paralized the efforts of those engaged in such pursuits, and, if that intention is acted upon, it will involve all, who have thus embatked their Capital, in inevitable ruin.

The Council and Assembly of Nova-Scotia, humbly venture to annex to this Memorial certain Schedules, by which it will appear that Your Majesty's Subjects in the

West

599

West-Indies have received their supplies since the exclusion of American Vessels, at average prices, not exceeding, but below, those which they paid prior to that exclusion.

The Council and Assembly of Nova-Scotia humbly conceive that the adoption of the measure now pressed upon Your Majesty's Government by the Minister of the United States, would prove injurious to British Ship-Owners throughout Your Majesty's Dominions; would encourage dangerous Rivals to British Merchants in the Foreigu Ports of Europe; would increase the carrying Trade of America at the expence of that of Great Britain; would diminish, if not destroy, the intercourse between the several portions of Your Majesty's Dominions, which must ultimately prove so beneficial to the whole Empire; and would, in a more especial manner, prove ruinous to the North-American Colonies.

The Council and Assembly of Nova-Scotia, therefore, humbly trust that Your Majesty will be graciously pleased to adhere to that wise and enlightened policy which has distinguished Your Majesty's Reign, and preserve to your faithful and loyal subjects in North-America a Trade so essential to their prosperity—and, as in duty bound, they will ever pray.

Mr. Young reported from the Committee, to whom was referred the Petition of the Report on Petition Western Stage Coach Company; and he read the Report in his place, and alterwards of Western Stage Company delivered it in at the Clerk's Table, where it was read, and is as follows, viz :

The Committee, on the Petition of the Western Stage Coach Company, report that

they

they have taken the various subject matters into consideration, and examined and compared the papers and accounts laid before them by two of the Partners, with a view to exhibit a state of their affairs; and the Committee are of opinion, that the Company, according to the just construction of the resolution of the House in 1828, are entitled to receive annually forty-six pounds, thirteen shillings and four-pence for carrying the Mail to Annapolis, being the real third of the sum allowed formerly to the Deputy Post-Master, and not six pounds thirteen and fourpence as inserted in the accounts; the sum of forty pounds is therefore due them for the last year.

The Committee are also of opinion, that no inconvenience would arise from paying the Provincial aid quarterly, in place of annually, and would suggest therefore that the hounty of L300 be paid from the Treasury, in future, at the end of each quarter, by Instalments of L.75.

The Committee have also looked into the balance sheet of last year, into the Inventory and value of the Company's Stock, and into their receipts and disbursements, and report, that an expence of L.966 12s. has been incurred for Agents, Coachmen, and Grooms alone ; that losses, by the destruction of Horses, and a Fire at Kentville, have been sustained to the extent of L464 10s. and that these misfortunes, joined to the heavy current expenditures, have impared, their capital about L.560, the original investment being L.1,600, and thus somewhat more than a third of each share has been sunk. The information, however, furnished to the Committee, leads to the reasonable hope that, by a more rigid economy, and some projected plans of retrenchment, their affairs may be retrieved without calling on the Legislature to make good the whole of this deficiency. But as this line of Coaches is certainly of most essential benefit to the Province, and as it was undertaken from public spirit rather than the hope of private gain, the Committee are of opinion, that the House should not suffer their affairs to fall into irretrievable confusion, and would submit, for mature consideration, the expediency of giving a temporary relief, at least for next year, by voting the Company the remain. ing two thirds of the sum allowed for carrying the Mail to Annapolis, and which will be equal to L.93 6s. Sd. currency.

Should this be adopted, the conveyance of the Mail from hence to Digby, will cost the Province the former and usual sum of L.200, of which the Courier from Annapolis to Digby will receive L.60, and the Stage Coach Company the balance of L.140, in aid of their undertaking.-In reference to this subject, the Committee have to state, that the Deputy-Post-Master continues to pay the Company from the general Funds of the Post-Office the usual sum of L.14S annually, contributed by him for this Section of the Post Communication, and that without any abatement whatever.

The Committee refrain from saying any thing upon the loss of L.210, occasioned by the Fire at Kentville, but must leave it to be decided by the wisdom of the House, on those general principles which govern their conduct in such cases.

JOHN YOUNG, JAMES R. DEWOLF, GEORGE SMITH.

Message relative to Dalhousie College

#### SATURDAY, 27th FEBRUARY, 1830.

# MICHAEL WALLACE.

MESSAGE.

THE President feels it his duty to state to the House of Assembly, the present situation of the Building and Ground denominated the Dalhousie College,

That part of the ground to the southward of the Building is now used as the Parade for the Garrison doing duty at Halifax, and the apartments which have been finished in the House, are leased, at the best rents, which could be obtained, to Jifferent tenants, among whom the Rev. Mr. Aitken occupies the two principal rooms on the castern side, for a respectable. Grammar School of more than fifty-five boys ; and the rooms on the western side are leased to Mr. Jones, who keeps therein a School for Painting, an Institution much wanted at Halifax.

This disposition of the Building has been adopted from the necessity the Trustees were under to comply, as far as practicable, with the sudden and unexpected Resolution of the Assembly, that the sum of Five Thousand Pounds, advanced to the Trustees of Dalhousie College, should be collected, and paid into the Treasury of the Province.

With reference to the sum of L.5,289 9s. 6d. it was placed, by the Earl of Dalhousie, in the British Funds, in his own name, and in the names of the Chief-Justice and Treasurer of the Province, and is not under the control of the Trustees of the College, who are authorised to receive the dividends thereof only for the use of the Institution.

It is probable, that, by a sale of the Building and Parade Ground adjoining, the L.5,000 might be obtained; but the President cannot bring himself to believe that the Assembly could be disposed thus to annihilate the plan adopted by Lord Dalhousie for the promotion of useful learning in the Town of Halifax, which he fondly hoped might like the principal, High School of Edinburgh, in time, become the Seat of Science, and polite Literature in the Capital of the Province.

The President submits therefore to the House, the propriety of allowing the Trustees of the College, a postponement of the payment of the loan for such time as may enable them to provide for the discharge thereof, with less inconvenience than it can now be done.

A Gentleman, eminently qualified to take charge of the Institution, has been for some time engaged, and is n ow waiting for orders to come out for that purpose.

Government-House,

27th February, 1830.

Ordered, That the Message do lie on the Table, to be perused by the Members of 'the House.

Ordered, That the said Letters do lie on the Table, to be perused by the Members of this House.

Mr. Speaker also communicated to the House, another letter received by him from Mr. Deputy-Secretary Hill, dated this day, transmitting, with reference to the information required by a Resolution of the House of Assembly, of the 25th of the present Month, touching the Officers of the Customs.

#### SATURDAY, 27th FEBRUARY, 1830.

A Letter addressed to His Honor by the Principal Officers of the Customs at this Port ; which last mentioned Letter was read by the Clerk, and is as follows, viz :

Letter from Officers of Customs

# Custom-House Halifax, 27th February, 1830.

N reply to your Note of yesterday enclosing a Resolution of the House of Assembly, dated the 25th inst. we have the honor to report for the information of His Honor the President, that the Principal Officers of this Department, have received the commands of the Honorable Board of Customs, signifying to their Servants in this Colony, that they consider their absenting themselves from their Port in the manner which John M.Kinnon, the sub-Collector at Argyle, has thought fit to exercise, in consequence of his. being a Member of the House of Assembly, as incompatible with the duties of an Officer of the Revenue placed under their management by the Imperial Acts.

All which is respectfully submitted.

We-have the honor to be, Sir.

Your most obedient Humble Servants, THOMAS N. JEFFERY, Collector. (Signed) JOHN WALLACE, Comptroller.

#### TO THE KING'S MOST EXCELLENT MAJESTY :

The Joint Address of Your Majesty's Council and the House of Assembly of Nova-Scotia, in their Legislative capacity, now sitting at Halifax.

#### May it please Your Majesty,

THE Council and Assembly of Nova-Scotia, being sensible of the many important services rendered to this Province by the Honorable Michael Wallace, the present Administrator of this Your Majesty's Government, as well in various other Offices of Trust and Confidence, as more especially in His office of Treasurer, the duties of which he has faithfully discharged for many years, beg leave to approach your sacred Person, to offer this Testimonial, as a just Tribute to the character of one of the oldest Public Servants of the Colony.

On many occasions Mr. Wallace has been called upon to discharge the important duties of Administrator of this Government, and it is with feelings of pleasure your Council and Assembly acknowledge the uniform, consistent and impartial manner, in which those Trusts have been received and executed.

The lamented indisposition of His Excellency Sir Peregrine Maitland, has again placed the Government in the hands of Mr. Wallace, and Your Majesty's Council and Assembly in accordance with his wishes, consider it would be desirable for the repose and comfort of that Officer, at his advanced age of upwards of Eighty Years, that he should not be again called upon to resume the laborious buties of Treasurer.

Under these impressions, your Majesty's Council and faithful Commons approach your Throne, to pray, that you will be pleased to confer on the Son of the present Treasurer, Charles Wentworth Wallace, Esquire, the situation of Treasurer of this Province, the duties of which Office he now performs. This favor is humbly asked from Your Majesty, as the remuneration to a Public Servant, whose life has been characterized more by disinterested attention to the Public good, than by consideration for his numerous family.

Should Your Majesty be pleased to attend to the wishes of your Council and Assembly, as thus expressed, it will be received by your Loyal Subjects in thisColony as another instance of Royal Favour, by which they have, been so long, and so often distinguished.

On motion, resolved, that the said Address be received and adopted by this House. Ordered, That the Address be engrossed.

# **Provincial Secretary's Office**,

#### Halijax, 1st March, 1330.

I am commanded by His Honor the President to acknowledge the receipt of the Resolution of the House of Assembly, requesting him to furnish the House with an Account of the Annual Income arising from His Majesty's Coal Mines in Nova-Scotia, and how the same is disposed of.

The President is convinced that there is no wish entertained by His Majesty's Government, to conceal either the amount or the appropriation of the Revenue, which the Crown derives from the Coal Mines, or any other sources of Revenue in the Province; but, situated as the President is, in the temporary Administration of the Government, in the absence of the Lieutenant-Governor, he does not wish to assume the responsibility of adopting a new measure, for which there is no precedent, until be can receive Instructions on the subject from His Majesty's Government at Home.

The President will forward the Resolution of the House to the Right Honorable the Secretary for the Colonies, without delay, who, he has no doubt, will bring the subject under His Majesty's consideration, in time to make the House acquainted with the Royal Pleasure therein, at the next Session of the General Assembly.

I have the honor to be, Sir.

Your most obedient

Humble Servant, WILLIAM HILL.

The Honorable.

Quebec and Halifax; and he read the Report in his place, and afterwards delivered it in at the Clerk's Table, where it was read, and is as follows, viz :

The Committee to whom was referred the subject of encouraging the proposed Line Report of Commit-tes on Quebec of Steam-Boats between Halifax and Quebec, have had the subject under their consi- Steam Navigation deration, and being desirous to obtain all the information which they possibly could for the guidance of the House upon so very important a public measure, proceeded to the examination of many respectable Persons; and, in order that their opinions should not be formed or governed by clashing interests, the Committee examined many Persons not concerned in any Trade with Canada, and others who were not interested, and who gave their opinions as formed on observations made to them by Travellers, and on their own remarks and information on passing through the United States and the Canadas; and the Committee feel it their duty thus to lay before the House the following recommendation-the result of their enquiries and attention.

First. The Committee most strongly recommend to the House the encouragement of Steam-Boat Navigation, as most likely to promote the general prosperity of the North American Colonies.

In calling the attention of the House to this subject, the Committee beg leave to press upon them the following benefits to this Province, and many others of a minor consideration upon which their report is founded.

First. From the navigation of the St. Lawrence being closed for many months in the year, all pursuits of commerce are at an end; a depot would be formed by Canada Houses in Halifax and Pictou of their Produce, such as beef, pork, flour, pot and pearl ashes, & c. & c. commercial capital would thus be increased, trade extended, and an impetus given to the commerce of Nova-Scotia by the carrying trade being thrown within our own -controul, on Canada capital, to the West-Indies, Europe and elsewhere.

Second. The Committee find, no interference will follow to our Coasting Trade on this head : they have been particular in their enquiries to gain information, and have come to the following conclusion: That, in Nova-Scotia, Steam-Boat Navigation will operate, as in all other Countries, and has now become, and is daily extending its influence in all parts of the world, as the general channel of commerce and intercourse, and -from its facilities, and defined and certain results, always supports itself by the additional trade and certain intercourse produced. In no part of the United States, where Steam Boat Navigation is so extensive, do the Committee find, in the smallest degree, that the Coasting Trade is diminished, but, on the contrary, the enlargement of trade which this navigation naturally produces, extends its beneficial influence to all classes of Coasters, from the highest to the lowest.

Third. Another great advantage which we should derive, is, that a great proportion of the Carrying Trade, now confined to Americans, would be thrown among our vessels : It is notorious, that the article of Flour is supplied this Province by Americans, who not only receive cash in payment but likewise make advantageous freights; by the description of intercourse which the Committee recommend, vast quantities of American Flour would be brought to this market, through the Canals of the Canadas, at a cheaper rate than from the United States, whereby our own trade would have the freight, and the Revenue would still receive the payment of the duties on the arrival and consumption of the article.

There is another feature in this trade, the encouragement of which, in its beneficial results, will be felt by the Province at large: It is notorious that, in the summer season, all the wealthy Planters to the South-west of New-York travel North, they, with Foreign Travellers, all naturally go to the Falls of Niagara, as one of the most splendid works of nature in the old or new world, thence visit Montreal and Quebec, and are compelled to return home by the same route they came, regretting that there are not Steam Boats to land them in three or four days at Pictor, and enable them to return home by Halifax to Boston, or by Windsor or Annapolis to St. John's: thus the introduction

# 534 SATURDAY, 6th MARCH, 1830.

### troduction of this Steam Line of Communication, forcibly convinces your Committee, that it will produce Boats from Windsor and Annapolis to St. John's, and give the most effective encouragement that could be offered to the Lines of Stages running through the Province.—This information is received from Gentlemen who travelled through the Canadas and States, and who have invariably had these observations made to them in both Countries, and from Letters which they have seen from distinguished Individuals in Quebec. All of which is submitted.

The said Resolutions were then, upon the question. put thereupon, agreed to by the received House, with the exception of so much as related to the Petition of the Overseers of the Poor for Antigonishe.

On motion, resolved, that the Petitions of the Commissioners of the Poor for the Town of Halifax, and of the Overseers of the Poor for Antigonishe, be referred to Mr. Stewart, Overseers of Poor, Mr. Chipman, Mr. J. Mr. Stewart reported from the Committee appointed to consider of the expediency of Report from Comerecting a Bridge over Cornwallis River, and the best method of aiding the undertaking, mittee on Cornwaland he read the report in his place, and afterwards delivered it in at the Clerk's Table,

where it was read, and is as follows, viz. THE COMMITTEE appointed to examine into the expediency of erecting a Bridge over Cornwallis River, and the best method of aiding the Inhabitants therein. Report-That an Act of the Assembly was passed in the year and the best method of alding the inhabitants therein, keport- I hat an Act of the assembly was passed in the year 1825, to authorise the Incorporation of a Company for erecting a Bridge over that River, and granting such Com-pany the sole use of, and property in it for Fifty Years, provided it were etected in Fire Years thereafter. That, in the year 1827, the sum of £750 was granted by the Legislature to assist in the building of the same, which remains yet unexpended in the Treasury. From the enquiries of the Committee they have ascertained that there are two Points, at either of which a Bridge may be thrown over the River, the one on the seite of the former Bridge, the they have ascertained that There are the action of the the the the the the the there are two they have a scentained that there are two other lower down, opposite the Town Plot of Cornwallis : that the former will cost not more than Two Thousand Five Hundred Pounds, while the other will cost at least Five Thousand Pounds. A List of Subscriptions for the Five Hundred Pounds, while the other will cost at least Five Thousand Pounds. A List of Subscriptions for the rebuilding a Bridge over this River has been exhibited to the Committee, by which it appears that the greater number of the Inhabitants of the County of King's prefer the scite opposite the Town Plot, the Subscriptions for one at this place amounting to £410, while those for one at the other place, amount to but £141. A number of them are desirous of building a toll Bridge, and Shares to the amount of £1075 nave already been taken; these propose to avail themselves of the privileges conferred by the Act referred to, and desire an additional Grant of £1750, in sid of their undertaking from the Provincial Funds. It appears to the Committee that the Inhabitants of those Townships sacrificed about £1000, (subscribed by them) by the destruction of the former Bridge, which was occasioned by the negligence of the Commissioners nominated by the Government, to superintend its erection; in the selection of whom the Subscribers were not called upon to concur. and over whose operations they had no course of the selection of the Subscriber were not called upon to concur. selection of whom the Subscribers were not called upon to concur, and over, whose operations they had no con-trol. Your Committee do not doubt, but that a Bridge at either of the points reforred to, will be extremely useful to the Inhabitants of those Townships in particular, and to those of the adjacent Country in General; but they to the innounts of those fownships in particular, and to those of the adjacent Country in General; but they are also well satisfied, that the proper place to creet it, is near the Town Plot of Cornwallis-because, while the intercourse between that Town and the Capital would be greatly facilitated, it is not improbable that at no very distant day, a Bridge built there, may form part of the Main Road, from the Western parts of the Province to Halifax. But no such result can be locked for, from the erection of the Bridge upon the scite of that destroyed a few years since. The public utility of the measure, therefore being undoubted, the Committee think: that the prayer of the Petitioners is entitled to the favourable consideration of the House, and the Committee conceive their claim for Provincial aid is strengthened by the loss the Inhabitants of King's County, sustained from the injudicious exponditure of their Money, by the Agent of the Provincial Government. All which is humble, subinjudicious expenditure of their Money, by the Agent of the Provincial Government. All which is humbly submitted.

Ordered, That the Report do lie on the Table.

Mr. Unlacke reported from the Committee to whom were referred the Bills and Peti- Report from Comtions relative to the Court-Houses in Cumberland, and he read the Report in his place, mittee on Cumberand afterwards delivered it in at the Clerk's Table, where it was read, and is as follows : land Court House

THE COMMITTEE to whom was referred the Patitions which were presented to the House, the one from the Grand Inquest of the County of Cumberland, asigning reasons for the removal of the Sittings of the Supreme Court to Amherst from the River Philip-the others from many Freeholders in said County, requesting that the Inferior Court should be held at the River Philip-have had the same under their consideration, and, with a view to bring under notice the most disinterested information which could be obtained as to the facts detailed in the Petition. and as to the mode in which the Interests of the Inhabitants would be best served, either in the adoption of the recommendation of the Grand Jury or in the adoption of the prayer of the Petitioners. The Committee first turned their attention to the situation of the Population of the County of Cumberland, and

find, that it is so nearly balanced that it will not be seriously affected in the one mode or the other. As, on the Amherst side the Population consists of 2940 Persons, and on the Wallace side of \$476. Thus, the general convenience of the Population will be as much considered in the one way as the other. But if any claim can be urged decidedly, it rests in favour of Amhenst, as the excess of Population is 464, consequently, on this principle, the Committee report in favour of Amheist.

From other information which the Committee have gained, they find the Court-House and Jail at River Philip are contained in one Building, and the Jail is not even finished—the result is, that when Criminals are placed on trial at the River Philip before the Supreme Court, they are obliged to travel a distance of nineteen or twenty miles under an escort, attended with risk, and expense to the County ; and when the Criminal is sentenced, he is then returned over the same ground for confinement to Amherst. There is another subject to which the Committee call the at-iention of the House, that the Records of the County are very much exposed to risk in consequence of their semoval upon all Civil Trials from Amherst to the River Philip, independent of the inconvenience which naturally follows. The Court-House at Amherst, the Committee find, is in a state of ruin, so much so that it will be necessary to incur-a heavy expence either in the repairing of the present one, or in building another, consequently, the Committee cannot recommend the keeping up the present establishment of two Court-Houses in a small County like Cumberland,

whereby double expense is thrown upon the whole Population, without any advantage being gained thereby; and the same arguments are equally applicable to the upholding of two Jails, when it appears to your Committee that a new Jail has been lately built at Amberst at an expense of Five or Six Hundred Pounds. Independent of the above considerations, the Committee notice that Amberst is the Shire-Town of the County

where all the Public Officers reside, and where all the Records are kept for the general convenience of the whole population.

Ordered, That the Report do lie on the Table.

Mr. Hartshorne reported from the Committee on the Petition of Edward Hudson, Report of Commiton Petition of Ed. and he read the report in his place, and afterwards delivered it in at the Clerk's Table, where it was read, and is as follows:

THE COMMITTEE to whom was referred the Petition of Edward Hudson, Superintendant of the Provincial Establishment at Sable Island, Report-That they have carefully enquired into the past conduct, and present (situation, of the Petitioner, and, from the best information they can obtain from the Commissioner, and Perrons who have visited Sable Island, your Committee are satisfied that the statements made in the Petition referred to them are substantially correct and true. It appears that, during twenty-eight years in which the Petitioner has been in the Provincial Service, his conduct has been conspicuous for sobriety, and zealous attention to the discharge of the daties assigned to him; and whenever he has been called on to relieve and assist those who have been thrown by shipwreck on the Island, he has manifested a noble disregard for his personal safety, and the greatest humanity and attention to the wants and comforts of the Sufferers. Your Committee also find, that the Petitioner has arrived at an advanced period of life, with severe bodily injuries received in the course of his services, and a shattered ron-stitution, and is consequently totally unfitlonger to discharge the arduous duties assigned to him;— They, therefore, recommend to the House to authorise the Commissioner to pay to the said Edward Hudson annually, from the Funds appropriated for the support of the Establishment in Sable Island (which, the Committee have ascertained, from the Commissioner, will hear such a charge) such sum as they think proper, towards his future maintenance and support.

Ordered, That the Report do lie on the Table.

The Clerk having stated to the House, that he had discovered that in Printing the Journal of the 5th March last, the entry of a Report of a Select Committee, made on that day, relative to the proposed alteration of the Main Post Road between Kentville and Annapolis, with the order thereon, had been omitted ; and thereupon,

Ordered, That the Clerk do cause the said entry to be inserted upon the Printed Journal, at as early a day as the Printing will admit of, and the same is inserted accordingly, and is as follows :

Mr. Chipman reported from the Committee to whom Mr. Elder's report and plan of Road between Kentville and Annapolis, were referred, and he read the same in his place, and afterwards delivered it in at the Clerk's Table, were it was read, and is as tollows :

THE COMMITTEE to whom Mr. Elder's Report and Plan of road between Kentville and Annapolis was referred, beg leave to report as follows:

I hat the alterations on the road in King's County, marked severally on the Fian Nos. 1, 2 and 3, are, in the opinis on of your Committee, of public benefit, and ought to be adopted. That the Committee are of opinion, that the alteration of the Road in the County of Annapolis, marked No. 6, trom Henry Messenger, Junior's, until it intersects the road near Bruce's Mill, is necessary: and although there ap-pears to be a difference of opinion as to the distance the new road should be carried from the old, yet, with your Committee, the Report of Mr. Elder has much weight, and the line recommended by him, in the opinion of your Committee, should be adopted, being attended with least injury to Individuals, and that the Stone Bridge, recom-mended by Mr. Elder is highly necessary. mended by Mr. Elder, is highly necessary.

That your Committee have not considered the other alterations in the County of Annapolis, as they believe that there are objections to all or some of them, on the part of the Inhabitants; and they therefore recommend, that this House should delay coming to any decision in the present Sessions, and which will enable the Members from that County to obtain better information during the recess.

Ordered, That the Report do lie on the Table.

### SATURDAY, 13th MARCH, 1830.

The Chairman reported from the Committee that they had gone through the Bill in addition to, and in amendment of, the Act to authorize the Incorporation of a Company Bill reported in for working certain Mines of Iron in the County of Annapolis, and that the Committee napolis Iron Mining had directed him to report the said Bill to the House without any amendment; and he Company Act afterwards delivered the Bill in at the Clerk's Table.

The Chairman also acquainted the House, that he was directed by the Committee to move for leave to sit again, on the consideration of the Bills to them referred, which the House agreed to.

Ordered, That the Bill be engrossed.

Mr. Deputy-Secretary Hill acquainted the House, that he had a Message from His Message from Pre-Honor the President, signed by His Honor, and he presented the said Message to the sident, with Copy House; and the same was read by Mr. Speaker, all the Members being uncovered, and of Dispatch relative to Quit Rents is as follows, viz:

#### MESSAGE.

MICHAEL WALLACE.

THE President lays before the Assembly, a Copy of Dispatch received from Sir, George Murray, His Wajesty's Principal Secretary of State for the Colonies on the subject of His Majesty's Quit Rents, which the President considers it his duty to recommend to the serious consideration of the House, as a measure extremely desirable to continue that tranquillity and content which happily prevails throughout the Province.

### Government-House,

13th March, 1830.

Mr. Deputy-Secretary Hill also delivered to the House, the copy of a Dispatch referred to in the said Message, and the same was read by the Clerk, and is as follows, viz: DOWNING-STREET, ·(Copy) 24th Dec. 1829.

SIR,

I stated in my former Dispatch, that His Majesty's Government would be very ready to receive any reasonable [Commutation in lieu of the Quit Rents, yet, as no sum was specified, I think it desirable to inform you, that, in order to meet as far as possible, the general wish which prevails in the Province, that some composition should be entered into on this subject, His Majestył will accept the sum of Two Thousand Pounds per annum, in lieu of any further demand of Quit Rents, and this sum will be appropriated in aid of such Colonial Expences as may receive His Majesty's sanction.

I therefore trust, that it will be unnecessary for me, to convey to you, any Instruction for the collection of the Quit Rents, in consequence of the acceptance by the Legislature of the terms which I have proposed.

I have the Honor to be, Sir,

## Your most obedient Servant,

## G. MURRAY.

Ordered, That the said Message and Copy of Dispatch, do lie on the Table, to be perused by the Members of this House.

[Signed]

On motion, resolved, that this House will on Thursday next, the 18th instant, proceed to the consideration of the said Message, on the subject of the Quit Rents.

A Message from the Council, by Mr. Halliburton:

Mr. Speaker,

PRAYERS,

An engrossed Bill in addition to, and amendment of, the Act to authorise the Incorporation of a Company for working certain Mines of Iron in the County of Annapolis, was read a third time.

Resolved, That-the Bill do pass, and that the title be, An Act in addition to, and amendment of, the Act to authorize the Incorporation of a Company for working certain Mines of Iron in the County of Annapolis.

Ordered, That the Clerk do carry the Bill to the Council and desire their concurrence.

Mr. G. Smith reported from the Committee to whom the Petitions on the subject of disuniting l'arrsborough from King's County were referred, and he read the same in his place, and afterwards delivered it in at the Clerk's Table, where it was read, and is

as follows, viZ: THE COMMITTEE appointed to consider and report on the Petation of James Retchford and others, and the Petition of Alexander Fullerton and others, of Parraborough, have considered the subject matter of the prayer of these Petitions, and have examined Gentlemen resident in that Township respecting the same, and are unanimous-ly of opinion that the disjunction of Parraborough from King's County, and allotting a part of it to Cumberland County, and a part to the District of Colchester, as prayed for by the Petition of Alexander Fullerton, and others, ought to take place, and it appears to the Committee, not only to be the desire of a large portion of the People, but also that such innexation will relieve them from many inconveniences, which necessarily result from their present connection with King's County.

The Committee, therefore, recommend the Bill, introduced last Session, to be passed into a Law the present Ses-sion, excepting that Section of it which requires the transfer of the Registry of Deeds from Parisborough to Am-herst, and they have directed the Assistant-Clerk to prepare such Bill, which is herewith submitted to the House.

All which is humbly submitted. Ordered, That the Report do lie on the Table.

A Petition of Joseph Le Rlanc was presented by Mr. Uniacke, and read, praying a Grant of the Amount of a Fish Bounty, not received by him in consequence of a neglect in not complying in with one of the requisitions of the Act.

On motion, resolved, That the Petition be referred to Mr. Unlacke, Mr. Lawson, and Mr. Morse, to examine and report thereon to this House.

Mr. Speaker communicated to the House, a Letter received by him from His Excellency Lieutenant-General Sir James Kempt, late Lieutenant-Governor of this Province, in answer to the Address of this House to him during the last Session, and he read the same to the House, and it is as follows, viz.

### CASTLE OF ST. LEWIS, Quebcc, 1st February, 1830.

SIR,

I have had the Honor to receive the Address of the Representatives of Nova-Scotia in General Asembly, which you, as their Speaker, have been pleased to transmit to me.

It having been my anxious endeavour, during the eight years that I had the happiness of Administering the Government of Nova-Scotia, to promote the general welfare of the People committed to my charge, by diligently discharging the duties of my station, and observing the strictest Justice and impartiality towards all classes of His Majesty's Subjects, you will have the goodness to assure the House of Assembly, that nothing could afford me higher satisfaction than the possession of so very gratifying an expression of their approbation of my public services in Nova-Scotia, as that which is conveyed to me in their Address. Some of the happiest years of my life were passed in that Province, and the House of Assembly may be assured that I shall never cease to take a lively interest in the welfare and happiness of a People, to whom I feel sincerely attached.

I have the Honor to be, Sir,

(Signed)

Your most Obedient, Humble Servant, JAMES KEMPT.

The Honorable the Speaker of the House of Assembly.

of Nova-Scotia, &c. &c. &c.

Ordered, That the Letter do lie on the Table.

Mr. Young, pursuant to leave given, presented a Bill for founding and assisting Grammar Schools throughout the Province, and the same was read a first time.

Resolved, That the Bill be read a second time.

On motion, the House proceeded to the further consideration of Private Petitions.

The Petition of George Hewson was, read and was, by leave of the House, withdrawn by Mr. Murdoch.

The Petition of the Commissioners of Sewers, and others, interested in the Marsh on the East River of Lawrence Town, was read, and thereupon,

Mr. Lawson moved, that the Petition be referred to the Committee of Supply, which being seconded and put, and the House dividing thereon, there appeared for the motion, twelve; against it, eighteen.

So it passed in the negative.

And the Petition was by leave of the House withdrawn by Mr. Lawson.

The Petition of James Gates, and others, was read, and thereupon,

Mr. Roach moved, that the Fetition be referred to the Committee of Supply, which being seconded and put, passed in the negative.

On motion of Mr. D imock, resolved, that the Petition be dismissed.

The Petition of Abraham Patterson and others was read, and thereupon,

On motion, resolved, That the Petition be referred to Mr. Uniacke, Mr. Lawson, Mr. J. E. Morton, Mr. Homer, Mr. G Smith, Mr, Rudolf, and Mr. Freeman, to examine and report thereon to this House,

The Petition of William Robertson, on behalf of Richard Hitchins and Edward Crowell was read, and thereupon,

On motion, resolved, That the Petition be referred to the Committee of Supply.

Mr. Stewart moved for leave to present a Petition of Charles Baker, Esq. which, being seconded and put, passed in the negative.

Mr. Unlacke reported from the Committee, appointed to consider the Petition of the Mr. Untacke reported from the Committee, and afterwards delivered it in at the Report from Com-mittee on Petition Clerk's Table, where it was read, and is as follows, viz.

THE COMMITTEE to whom was referred the Petition of the High Sheriffs of the several Counties and Districts in the Province, in which they solucit the interference of the House to provide for the respectability of their Offices, by enabling them to uphold their importance, dignity and respectability, have considered that Petition. The Committee find, upon inquiry from the Sheriffs, that, from the change in the Commerce of the Country, and from various other causes, the Office of Sheriff has tallen off in the rates from one half to two thirds—the result is,

that those situations which formerly afforded that respectable support to those Officers for themselves and Families, do now, with every prudence and economy on their part, place them under embarrassments, and leave the Officers. in comparative poverty when contrasted with their former emolument.

The Committee having been convinced, in the first instance, of these changes, from information derived from the Sheriffs, turned their attention to see in what mode he Sheriffs could be benefitted without placing them as a bure then on the Civil List, or without increasing that Scale of Fees by which the poorer class of People would be affected

The Committee find, that, in all Criminal Proceedings, and in all Police Regulations, the Sheriff receives no kind of remuneration; he is, in the first instance, compelled to take charge of Criminals; he is answerable for his Custody ; he attends his Trial ; Summons Juries ; has all the detail of duty, the responsibility after conviction ; all which services are imposed without any remuneration, either from the Province, or the Counties, and the same services are performed in the Sessions, as well as the Supreme Court.

They are also called upon to Summon Jurers and Constables upon all business, Criminal and Civil, for which they receive no remuneration whatever, and from the extended limits of the Counties and Districts, and, in many the detached situations of the population, they are called on to discharge duties which necessarily are accompanied with fatigue and labour.

They are also called upon to attend all Trials by Jury, for which they receive but Two Shillings and Sixpence, They are also called upon to altern all trials by sury, for which they receive but a wo Summing and Surpence, for their attendance. Summoning Juries, &c. and all the official duty connected with the Court, the Committee suggest whether it would not be but common justice to the Sheriff to allow him this Fee, on the Cause being placed on the Docket, whether it be tried, referred, confessed, or otherwise settled, because, if the Sheriff is an-swerable to have a Jury, Constable, &c. it seems but justonable he should be compensated by this Fee.

There is another subject which the Committee thinks bears with injustice on the Sheriffi, according to their statement : in most of the Counties, it appears, Jailers are to be provided, and the Jails taken charge of : in many statement: in most of the Counties, it appears, Jailers are to be provided, and the Jails taken charge of : in many instances, it appears the Counties make no assessment, and the consequence is, the Sheriff is obliged to pay the Jailor himself, and be held responsible for the building, without receiving any thing for it. This, in addition with his having upon an average to pay to his Deputy £50 annually, and to support him, and to provide Horses for the service of process, leaves little or nothing for the support of the High Sheriff. These form, in a general degree, the difficulties the Sheriffs labour under ; many others might be offered, but as

the Committee are fully sensible, that these important offices are much changed, and do not in general afford a decent competency to the office

The Committee recommend, with a view to assist them, First, That a Bill should be introduced under which: the respective Counties, if they think proper, should, under the directions of the Supreme Court or Sessions, be as seesed in a moderate, but certain sum, to pay them for all public business which they are called upon to discharge, for which it is notorious they do not receive one six-pence compensation,

The Committee also annex a statement of Fees received now under the existing Law; also, some proposed

amondments, which may be made without being burthensome. Among these suggestions of the Committee, there is one which may, in its operation, have a two-fold effect, which, when it assists the Sheriffon the one hand, may, by an act of humanity, benefit the unfortunate debtor. who is too often placed within his custody by a heartless creditor, with nothing to offer, but his body, his porerty and character, for the payment of the debt. A man may now for a few Shillings, when the debt is under £20, obtain a Judgment against his Debtor, and,

for a for pounds, when above that sum, aware that no additional expense attends his confining him under Execution, when he knows that he has nothing to pay, in the hope that an escape may be made, and thus place the liability on the Sheriff, or if not, he cherishes, that the debt may be drawn forth from a friend. The Committee would therefore recommend, for these reasons, that, on all Executions, the Creditor should be

liable to the Sheriff for Poundage, and all expences on the Writ of Execution, whether the Debtor be discharged hisble to the Sherin for rounage, and all expenses on the write or Execution, washer the become discharges under the Laws of the Poor Debtor, as they now stand, or otherwise. First, Because it would serve the Sheriff, without placing any burthen upon any one but the Creditor. Second, That it would induce Creditors to be caucious not to confine. many a good man; who has nothing but his body, when he knows, by so doing, he is liable for poundage and expenses on the Execution:

Mr. J. Morton reported from the Committee appointed in pursuance of that part of the report upon Agriculture, which relates to the inspection of Beef and Pork, and he read the report in his place, and alterwards delivered it in at the Clerk's Table, where it was read, and is as follows, viz :---

THE COMMUTTEE appointed to report upon that part of the Report upon Agriculture, which relates to the is-spection of Beef and Pork, have performed that duty, and prepared a Bill for this purpose, which is herewith. The Committee have examined several competent Persons, as to the expediency of passing such Bill into a Law. and And that, it would be a very beneficial measure to the Agriculturist, as well as to the Merchant. The number of Barrels of Pork exported from Halifax during the past year, has been considerable, and is increasing ; it therefore bids fair to become a valuable article of Export ; and the Committee are informed, and believe, that Pork has been packed and sent from this Port, in an equal, if not a superior, manner to that which has gained for the Irish Pork its deserved celebrity.- The Committee therefore recommend the passing such Bill into a Law. All which is humbly submitted,

Committee Room, 15th March, 1830,

JOHN MORTON, Chairman.

Ordered, That the Report do lie on the Table,

The Council have agreed to the Bill, entitled, An Act in addition to, and amend" ment of, the Act to authorise the Incorporation of a Company for working certain Mines Mining Com. Sill of Iron, in the County of Annapolis; also to the Bill, entitled, An Act in further addition to, and in amendment of, the several Acts for appointing Firewards, ascertaining their duty, and punishing Thefts and Disorders at the time Fire; also to the Bill, entitled, An Act to authorise the Supreme Court in the County of Cumberland, to be held at the Court House at Amherst in the said County, and also to empower certain Persons therein named, to sell and dispose of the Court-House, at River Philip, in said County, and the Lands upon which the same stands; also the Bill to regulate the Public Landing at Windsor, severally, without amendment.

The Council have also agreed to a resolution of this House, authorising the payment of L.31 8, as a Fish Bounty to William and Robert Brown; and to a Resolution of this House, authorising the Bounty, granted in 1828, to the Western Stage Coach Company, to be paid Quarterly.

The Council have not agreed to the Bill, entitled, An Act for the relief of Thomas M'Kenzie Abell, an Insolvent Debtor; nor to a Bill, entitled, An Act to alter and amend the Act in further addition to, and in amendment of the Act for the Choice of Town Officers, and regulating of Townships.

And then the Messenger withdrew.

Mr. Stewart reported from the Committee, to whom were referred the Petition of the Commissioners of the Poor for the Town of Halifax, and the Petition of the Overseers of Report from Com. the Poor for Antigonish, and he read the Report in his place, and afterwards delivered on Petition of Com. the Poor for Antigonish, and he read the Report in his place, and afterwards delivered it in at the Clerk's Table, where it was read, and is as follows:

THE COMMITTEE to whom was referred the Petition of the Overseers of the Poor for Dorchester, in the County of Sydney, praying remuneration for expences by them incurred in removing Ezra Kelly, a transient Intane Pauper, from Dorchester to the Asylum for the relief of the Poor in Halifax; and also the Petition of the Com-missioners of the Poor for the said Town of Halifax, have attended to that duty, and agreed to report thereon as fullows-

First, as regards the Petition of the said Overseers of the Poor, that as there is no Law under which the expence of removing Transient Paupers can be assessed upon Inhabitants of Townships or Counties ; and as it appears to the Committee, that the Petitioners have expended the sum claimed by them, in the removal of Kelly to tialifax ; The Committee are of opinion, that they should be reimbursed out of the Provincial Tressury, and recommend to the House to grant them that sum. With regard to the general question, as to the proper mode of providing for such expences hereafter, the Committee are of opinion, that this may be done either by passing a Law to authorize the General Sessions and Grand Jury to assess the Townships whence the Paupers are removed, or by annually placing at the disposal of the Commissioners of the Poor of this Town a small sum, to be by them applied in the liquidation of such charges, of the application of which to this purpose an account should be yearly rendered to the Assembly. Of these, the Commissioners prefer the latter, because the supervision of the Commissioners would afford an efficient check upon improper demands-the charge, would, as it should, be borne by the Province generally, and

the necessity of a direct tax, which always operates severely upon the poorer classes of the people, be avoided. The Commissioners of the Poor for the Town of Halifax, having prayed for so large a Sum as Six Hundred and Twenty-Four Pounds Five Shillings and Ten pence half-penny, to discharge the Debt due on account of the Asylum, in addition to the Annual Grant of Six Hundred Pounds, the Committee deemed it proper to submit their Accounts to as thorough an investigation as was in their power, desirous, on the one hand, that the Town should not be burthened with the maintenance of Transient Paupers, and, on the other, that the inhabitants of Halifax should not be exempted from the burthen of supporting their own Poor.

From the Documents exhibited to your Committee, and other information obtained by them, they are of opinion, that of the Four I housand and Fifty-eight Paupers maintained in the Asylum, during the Five Years, ending on the stat December last, One Thousaud Five Hundred and Eight may be considered Town Paupers, and I'wo Thousand Five Hundred and Forty Transient,

The whole expense of the Establishment for the same period has been, in round numbers, Twelve Thousand Pounds.

Of which, without entering into a very minute calculation, Halifar may be charged with Four Thousand Five Hundred Pounds, and the Province with Seven Thousand Five Hundred

The Funds by which the Establisment is supported, may be claused under four heads, viz.-lst. Assessments on the Feople of the Town. 2d. A duty of ten per cent on certain articles imported into Halifax, and by the Act spe-sifically appropriated to the support of the Poor in the several Townships of the Province. 3d. Grants from the Treasury; and 4thly, the produce of the Labour of the Paupers, payments on account of illegiumate Children, &c. As a Bill is before the House to alter the Law relative to Assessments in the Town of Halifax, the Committee do not more particularly advert to the difference between the Amounts assessed and those collected, a circumstance to be attributed to the defective state of the Law, but also referable to other causes. The Committee also notice that the sum assessed for the relief of the Poor upon Halifax, as compared with the amounts collected in the less populous Townships of the Province, appears to them to be but small-thus, in Cornwallis, the assessment for the relief of the Poor has amounted in one year to Five Hundred Pounds, and averages about Three Hundred Pounds in Windsor to Two Hundred and Fifty Pounds, in Liverpool to Two Hundred and Fifty Pounds, and in Picton to Three Hundred Pounds.

Some of the persons supported by the Establishment, appear to be healthy, and able to obtain a livelihood by their own exertions-although the Committee doubt not that sufficient cause has been exhibited to the Commission. the own exercicity and the Committee doubt not that sufficient cause has been exhibited to the Commission, ers for their reception into the Asylum, yet the Committee would earnestly recommend increased vigilance, in preventing the benevolence of the public from being bestowed on objects not contemplated by the design of the institution; the annual charge to the Public of its maintenance being very great and increasing. It is matter, how-ever, of some surprize, that, as appears from the statements furnished to the Committee, although the number of Pau-pers received into the Institution in the year 1829, is forty-two less than in 1823, the expence is about Two Hundred Founds additional, and Three Hundred and Fitty Pounds more in the year 1820, than in the year 1826, notwithstand-ing in this year, the number of Paupers exceeded that in 1829, by eleven, and in the year 1827, when an unusual me flux of Emigrants sy elied the numbers in the Asylum to four hundred and seventy three more than in 1829, the add flux of Emigrants swelled the numbers in the Asylum to four hundred and seventy three more than in 1829 ; the additional charge in the year 1827, as compared with the last, is but One Hundred and Ninety.three Pounds. But

the Committee have examined the items of several of the Accounts, and find nothing unreasonable in the charges, or extravagant in the expenditures of the Establishment. Reverting to the sum annually assessed upon the Town of Halitax, as compared with that paid in other Towns ships, the Committee are of opinion, that the sum paid by the people of the Town towards the support of the Poor. does not bear an equitable proportion to that paid by the Inhabitants of other Townships, and are therefore of opini. on, that a larger sum should be contributed in future, and on the same principle that they should discharge part of the debi now due. The Committee therefore recommend, that one half only of the said debt be paid out of the Provincial Treasury, the sum to be placed at the disposal of the Commissioners of the Poor for the present year, will therefore be-

There are in the Asylum at present, 307 Souls, viz-169 Transient, and 158 Town Paupers, that is to say, 137 men. 30 women, and 90 children, among them are 37 lame; 3 blind, and 38 in state of mental deprivation. The annual Expence of the Establishment, on an average of the last five years, is about £2400. The greatest number of Paus pers which at one time has been supported within the Asylum, is \$50.-It cannot, however, accommodate more

than 280, with a proper regard to their health and comfort. In compliance with the wishes of the House, the Committee visited the Establishment, and minutely examined the several apartments of it, and its state and condition. In the performance of this duty, the Committee were pulitely. aided by the Commissioners of the Poor, who attended at the Asylum, and evinced the utmost readiness to afford them every information in their power, turnishing the Committee with such Statements as they required, and pro-ducing their Books and Accounts for the inspection of the Committee.

Divine Service is performed every Lord's Day in the Asylum, by a Clergyman of the Church of England ; but no restratut is exercised upon any of the Paupers, they are permitted on Sundays to go without the bounds of it,

to their respective places of Worship, and on all occasions the services of the Ministers of their choice, are renders ed when required. The School, connected with the Institution, afforded to the Committee an object of deep interest. The cleanly and bealthy appearance of the children, 59 in number, and their progress in learning, are creditable to the establishment. The Medical Department of it is under the charge of a professional Gentleman ef acknowledged ability, and the Committee believe that those under his care receive his best attention. The roof of the principal Building is in a very bad state, and a new one is necessary, not only for the comfort, but for the health of these poor people.

of these puor people. Connected with the Poor House, is a small building, used at present as a Lunatic Asylum, in which there are now thirty_eight in a state of Madness, Lunacy and Ideotcy. This is crected on the ground, and it appears desirable that a cellar should be excavated under it; the damp and noxious effluvia arising from the Earth being imjurious to health.

"The Committee recommend, that a new roof should be put upon the principal Building, and a cellar excavated under the Lunatic Asylum mendiately; and that the House grant such sum as will pay one-half of the expence of the same, in addition to the sums already recommended to be paid by the Province. The Committee are persuaded that the necessity of a separate establishment for Lunatics, will soon press inself

The Committee are persuaded that the necessity of a separate establishment for Lunatics, will soon press itself upon the consideration of the Legislature : but the lateness of the Session prevents them from now submitting the propriety of adopting measures to procure the necessary plans and information to enable the House to enter into the consideration of this important subject.

Institutions, whose object (as that of this Asylum, and of the Provincial Establishment of Sable faland) is to alleviate the miseries of old sge, of poverty and distress, must ever excite the kindest sympathies of British Subjects. Their Parent State, known throughout the workly as she is, by her deeds of glory, is still more distinguished among the Nations of the Earth, by her Philanthrophic Institutions. It is therefore with the liveliest gratification the Committee witness the kindness and humanity with which the unfortunate Inmates of this Establishment are regarded. From personal and particular enquiries of the Paupers themselves, the Committee ascertained that they were satisfied with the food and clothing, and the regulations of the Institution. In no instance did they, heat a single complaint. Indeed the Committee cannot pass too high an eulogium upon the cleanliness, order, sobriety and comfort, spparent in every part of the Asylum; and they would be wanting in the duty they owe to the House, if they failed to notice how much of these has resulted from the gratiness ervices of the Gentiemen who superintend this Establishment, so noble in its design, so benevolent in its operation, and so honorable to the Province. All which is humbly submitted.

Report referred to Supply

On motion, resolved, That the Report be referred to the Committee of Supply.

Mr. Uniacke reported from the Committee appointed in relation to the Provincial Report from Com-Stud, and he read the report in his place, and alterwards delivered it in at the Clerk's sl Stud Table, where it was read, and is as follows, viz :--

THE COMMITTEE to whom was referred the accounts of the Provincial Stud, have had the same under their consideration, and, upon an examination, they report them as correct and vouched. It appears that during the last season the Horse Raudolf produced to the Province, £40 0s. 8d. after paying all expences, in Amount £35 19s. 4d. : Stag produced £18 2s. 2d. after paying the expences, £48 17s. 10d. ; Impetial produced £28 1s. 5d. after paying his expences £41 19s. 7d. The Cleaveland produced £19 8s. 4d, after payment of all expences, £30 Ss. 2d. The Horses have been kept during the winter months at an expence of £94 5s. 5d. and there is now a Balance due Mr. James Unjacke of £68 19s. to be provided for, which closes the Accounts up to the 20th February, 1850. The Ecommittee have also had under consideration the propriety of selling the Horses, and report as follows—

Committee have also had under consideration the propriety of selling the Horses, and report as follows— As the Province now, for the last Three Seasons, have had the use of them, the Committee recommend they should be immediately sold, as the season is advancing, under certain, restrictions, that they should not be sent out of the Province. The Committee also recommend that the proceeds should be applied for the purpose of introducing another determinion of Horse, which perhaps with less Blood may be more destable.

ing another description of Horse, which perhaps with less Blood may be more desirable. There is another suggestion which has been offered to the Committee, which they would recommend to the House.

It appears that the improvement in the Breed of Horses is much retarded by the operation of the Statute imposing a duty on Mares imported in the Province, as those we have are of the most inferior description, and never can produce Cattle fit for the West-Indies, where an extensive demand for Horses now offer, the Americans being excluded; indeed, American Citizens, it appears, shipped Horses during the last Summer to Halifax, and then transhipped them hence for the West-Indies, assigning as a reason for submitting to so much additional expence and risk, that they cannot be procured in this Country.

The Committes therefore submit whether a suspension of the Dety on Mares for a few years, or entirely, would not cause them to be brought from the United States, and greatly benefit the Agriculturist, who can raise a good Horse for less than a bad one.

Ordered, That the Report do lie on the Table.

Mr. Uniacke also reported from the Committee appointed to obtain information on the Bill relating to the Bridewell and Police at Halifax, and thereupon presented to the House a Statement, which was read by the Clerk, and is as follows:

Report from Come Mr. G. Smith reported from the Committee on the Petition of the Eastern Stage Coach Company; and he read the Report in his place, and afterwards delivered it in at the Clerk's Table, where it was read, and is as follows :

THE COMMITTEE to whom the Petition of the Eastern Stage Coach Company was referred, having taken into consideration the subject to them referred, report as follows -

That in the month of May last, the Petitioners formed themselves into an Association, styled the Eastern Stage Coach Company, for the purpose of running a line of Stages between Halifax, Tsuro and Piclou, with a Juint Stock of One Thousand Pounds, to be held by Subscribers in Shares of Five Pounds each, out of which it appears One Hundred and Fifty-five Shares have been sold, amounting to Seven Hundred and Seventy-five Pounds. That the Coach commenced running in May last, and was continued three times a week, until the middle of November, since which it has continued to run once a week. The Petitioner's advances have been very great, and it appears by the Statement laid before the Committee, that in the purchase of Horses, Carriages, Harness, &c. there will be a loss at the end of the year, to the Company, of about Three Hundred and Fifty Pounds.

The Committee also find that the Proprietors of the Stage give general satisfaction, and have offered a safe, easy, and expeditious mode of conveyance to Travellers, and the Association intend, if Legislative aid is given, to sun the Stage from Halifax to Pictou during the Summer Months, in Sixteen hours, provided any arrangement can be made with the Post_Office Department for the carriage of the Mail at one-third the expence it is now carried for. The Committee, under these circumstances, beg leave to recommend the Petitioners to the favorable consideration

of the House.

On motion, resolved, That the Report be referred to the Committee of Supply.

On motion the House resolved itself into a Committee of the whole House, on the fur ther consideration of the Message of His Honor the President, relative to the Quit Rents.

Mr. Speaker left the Chair,

Mr. Ruggles took the Chair,

Mr. Speaker resumed the Chair,

The Chairman reported from the Committee that they had considered the business to them referred, and had come to several Resolutions thereupon, which they had directed him to report to the House; and he read the same in his place, and after wards delivered them in at the Clerk's Table, where they were read, and are as follow :

Resolved, That, in the present circumstances of this Province, this House cannot consider it expedient, that a permanent grant of L.2,000 per annum should be made for the commutation or purchase of the Quit Rents due to His Majesty, from the Owners of Land in this Country.

Resolved, That if such a sum were granted for the foregoing purpose, it would lessen, to the same amount, the Funds annually disposable by this Legislature for objects of general utility in the improvement of the Country.

Resolved, That it does not appear to be the general wish of the Inhabitants of this Country, that any such commutation or purchase should take place, or that the said Quit Rents should be collected and enforced; but on the contrary, this House is induced to believe, that the relinquishment of the Claim to such Quit Rents, would give general satisfaction to the People of Nova-Scotia, as their long suspension had produced a belief among the Inhabitants in general, that they would never be insisted upper, and the transfers of Land have been, with scarcely an exception, made under that ingle contains

Resolved, That the collection of the Quit Rents would be a grievance to many poor Persons owning Land, without producing a Revenue of any, or of very insignificant, value to the Crown, while the commutation, now proposed, would be a serious addition to the permanent appropriations of the Province, already very large, compared with its resources.

Resolved, That a Committee be appointed to frame an Address to His Majesty, grounded on the foregoing Resolutions; and thereupon,

Mr. Unlacke moved that the House do come to a Resolution as followeth:

Resolved, That the Report made on the Provincial Stud, be adopted by this House. and that the Council be requested to concur in authorising the sale of the Horses as recommended in said Report : which, being seconded and put, passed in the negative.

On motion, resolved, that such part of the Report of the Provincial Stud as relates to the Sale of the Horses, be adopted by this House, and that the Council be requested to concur in authorising such Sale, as recommended in such report.

Ordered, That the Clerk do carry the Resolution to the Council.

On motion, resolved, that such part of the said Report or the Provincial Stud, as relates to the expense incurred on account of the same, be referred to the Committee of Supply.

Mr. Young reported from the Committee appointed yesterday to wait on His Honor the President, in relation to the Common Schools, that the Committee had complied with the order of the House, and that His Honor was pleased to reply to the application of the Committee, that he would immediately direct the information and Returns on that subject to be laid before the House.

On motion the House resolved itself into a Committee of the whole House on the further consideration of the several Bills which stood committed.

Mr. Speaker left the Chair,

Mr. Ruggles took the Chair,

Mr. Speaker resumed the Chair.

The Chairman reported from the Committee that they had gone through the Bill in addition to, and amendment of, the Acts relating to Wills, Legacies and Executors, and for the settlement and distribution of the Estates of Intestates. ### MONDAY, and TUESDAY, 22d and 23d MARCH, 1830.

Committee have been informed, by about onc-halt of the Freeholder; among other things which the Petitioners urge, they state, that the distance from Lunenburg exposes the Inhabitants of the Chester District to great expense in giving their attendance as Grand and Petit Jurors, Suitors, Witnesses, &c. &c. and that it would be advisable that they should have a separate District; upon a subject of so much importance to the County of Lunenburg, the Committee could not take upon themselves to recommend the Petition without the Inhabitants of Lunenburg and New Dublin being first heard in answer to the Petition of the people of Chester—the facts would all then be before the House, and they could come to a favorable and correct conclusion upon the subject. But as yet a large part of the County have not been heard. Therefore, the Committee think it would bebetter to retain the Petition, and when the other parts of the County have had the opportunity of being heard—the question could be fairly considered. There isnother part of the Petition on which the Committee report, viz : that the Petitioners do not express their wish to provide a Court-House and Jail, having already contributed to the new Court-House tention should be turned to the subject, before any conclusion is come to : all of which is offered to the House for their consideration.

They also report another fact of equal importance, which is, if the District beformed as petitioned for, the Sittings of the Sessions and Inferior Courts would have to be altered : Magistrates, Sheriffs, Judges, Prothonotaries, Ulerks of the Peace and other Officers, would require to be appointed.

Ordered, That the report do lie on the Table.

Mr. Uniacke reported from the Committee on the Petition of Joseph LeBlanc, and he read the report in his place, and afterwards delivered it in at the Clerk's Table, where it was read.

Ordered, That the Report do lie on the Table.

A Petition of John Janvin and others was presented by Mr. Uniacke and read, complaining of the operation of Acts relating to the inspection of Pickled Fish, and praying that the same may be repealed or modified, and the situation of Inspector-General of Pickled Fish abolished.

On motion, *resolved*, that the Petition be referred to the Committee on the Petition of Francis Cook and others, relating to the same Laws.

A Petition of Daniel Crichton and others, was presented by Mr. G. Smith, and read, praying that if a subdivision of the County of Halifax should take place, and the District of Pictou be erected into a separate County, that such County should be allowed two County Members, and three Town Members.

A Petition of Thomas Glencross and others, was presented by Mr. Dickson, and read, setting forth the exertions of Petitioners in securing the Cargo of the Ship Nereid, at St. Mary's Bay, and contradicting some of the assertions contained in the Petition of Duncan McColl, lately before the House, and praying aid towards a Road leading to Saint Mary's, in the County of Sydney.

Ordered, That the Petition do lie on the Table.

Mr. Stewart, pursuant to leave given, presented a Bill to abolish Oaths heretofore required as a qualification for Office in this Province, and the same was read a first time.

A Bill, engrossed anew as amended, to alter and continue the Acts now in force to provide for the support of His Majesty's Government in this Province, and for promoting its Agriculture, Commerce and Fisheries, by granting duties of Impost on Wine, Brandy, Gin, Rum, and other distilled Spirituous Liquors, Molasses, Coffee and Brown Sugar, was read a third time.

Resolved, That the Bill do pass, and that the title be, An Act to alter and continue the Acts now in force to provide for the support of His Majesty's Government in this Province, and for promoting its Agriculture, Commerce and Fisheries, by granting Duties of Impost on Wine, Brandy, Gin, Rum, and other distilled Spirituous Liquors, Molasses, Coffee and Brown Sugar.

On motion of Mr. Stewart, resolved, that the following Message be sent to the Council, viz.

The House of Assembly transmits to His Majesty's Council several Resolutions for granting Money for the service of Roads and Bridges the present year, to which the House requests the concurrence of the Council.

The House is not particularly informed of the Roads and Bridges which, the Council are of opinion, are neglected in the original subdivision of the sum of L.13,000 rejected by the Council, but as among the resolutions to which the assent of that Board is now requested, there are two, making an additional provision for the service of the Great Roads and Bridges, it is conceived by the House, that subdivision will now meet the concurrence of the Council, for which, with those resolutions, it is now sent to the Council.

The House informs the Council, that the Members of the Assembly proceeded to apportion that sum among the different Roads and Bridges in the Province, with the most anxious desire to render its expenditure as generally beneficial as possible; that they had the subject under deliberation many days, and although it is probable that in the division of so large a sum defects may be discovered, yet the House is convinced that any other division, even if the lateness of the Session afforded them time to effect one, would be equally liable to objection.

The House of Assembly are of opinion, that the state of the Provincial Funds is such as to authorise the application of the sums voted by the House for this important service, but should this not appear to be the case, the House will not fail to provide means to meet the appropriations of the Session.

Ordered, That the Clerk do carry the Message to the Council.

Mr. Johnston reported from the Committee appointed to examine the papers regarding the Light House on Brier Island, and he read the report in his place, and afterwards delivered it in at the Clerk's Table, where it was read, and is as follows :

wards delivered it in at the Clerk's Table, where it was read, and is as follows: THE COMMITTEE to whom was referred the Message of His Honor the President, relating to the Brier Island Light-House, report, that, from the best information they can obtain on the subject, they are of opinion, that the Light House at Brier Island is now in a very decayed state, and that any expence incurred in its repair would not be of material benefit to the Building, and as it was originally unfit for as large a Lanthorn as is required for the Light, as well as being in other respects insufficient, your Committee are of opinion, that a new Light-House should be built, and that no other expense should be incurred in repairing the present Building than what may be sufficient to keep up the present Light-House, until a new one is erected and fit for use, and your Committee re-commend that H is Honor the President be requested to direct the Commissioners of Light-House, to consider whether the Light-House shall be built at the place where the present Light-House now is, or whether under all circumstances, the site should be allowed. this Province, having been submitted to our consideration, we have been much surprized to find that it was written under an impression that the People of Nova-Scotia, in general, wished a composition to be made for the Quit Rents out of the Provincial Revenue.

That the wishes of the People on this subject are very different, We beg respectfully to assure Your Majesty, as they are aware that such a payment, although it were to be applied to the expences of the Civil List within the Colony, would yet greatly diminish the sums applicable by their Representatives in General Assembly, from year to year, to purposes of local improvement, on which their comfort and prosperity chiefly depend; but on the contrary, the final relinquishment of the claim would give great and general satisfaction to the People of this Country.

Desirous that Your Majesty should be fully informed of the reasons which render Your Subjects in this Country averse to the collection of the Quit Rents, or to a commutation in lieu thereof, and to evince to Your Majesty's satisfaction, that this aversion is not the result of any want of attachment or respect for Your truly paternal Government, under whose protection we enjoy the blessings of competence and freedom : We humbly solicit Your Majesty's favorable attention to the circumstances attendant upon the claim of Quit Rents in Nova-Scotia.

The reservation of Quit Rents in the Grants of Land from the Crown, in this Province, was sometimes made at the rate of a farthing per acre, and latterly at the rate of Two Shillings per hundred Acres, and, in some instances, it was altogether omitted in the Grants. Although it was partially collected in the first few years of the settlement of this Colony, yet, in the year 1772, while the settlement was yet in its infancy, (having only been commenced in 1749) the collection of Quit Rents was entirely suspended by orders from the Government in England, and no claim or demand was ever made for Quit Rent from the occupiers or owners of Land, from that date, until 1812, a period of forty years. In the last mentioned year, an order for their collection was indeed issued, but it was immediately withdrawn on the representation of the then House of Assembly, and from that time, until the year 1827, the claim was again suffered to remain dormant.

The Grantees, and those who have held under them, having thus, for Fifty-Eight Years, been in possession of their lands without ever having to pay Quit Rent, and the sums reserved in each Grant so small, it was supposed to have been inserted in the Grants, rather as a necessary legal form, whereby the sovereignty and paramount seignorial rights of the Crown should be distinctly acknowledged and preserved, than with any intention to produce a Revenue; and as many other conditions contained in the same Grants, and which still continue to be inserted in the more recent Grants, have also fallen into disuse for half a century, owing to their being impracticable; the opinion was almost universally entertained that the Quit Rents would never be insisted upon or collected; and in all transfers and sales of Land, the possibility of such a claim being at any time enforced, was practically lost sight of.

That no lapse of time can derogate from the legal rights of Your Majesty, is an acknowledged principle of Law, but it was the general belief of the Inhabitants, that it was not the intention of the Crown to seek payment of those Rents at any future day, and the long period during which they were totally unclaimed naturally strengthened that supposition.

It would therefore be a hardship on those who invested their capital and industry, in the purchase and improvement of Land, if they were compelled to pay a duty, which they had not any reason to suppose would ever be demanded, when they so laid out their money and labour; and it would be a grievance to many poor persons who own Land, and would create much dissatisfaction throughout the Country, if it was to be enforced.

A consideration of these evils would have induced the Assembly to offer a sum of

money

#### MUNDAY, 29th MARCH, 1850.

money in commutation, at least, of the part due by smaller proprietors, were it not that Address the Revenue, from which the commutation must come, bears most heavily on the middling and poorer classes of Society, and the practical effects of the commutation of the Quit Rents for so large an additional annual charge, would be to compel the poorer classes of the people of this Province, to pay a proportion of the Quit Rents of Tracts of Land, that, at present, and for years will, from various causes, yield no kind of return to the Proprietors, or to the Province.

Besides this reason, they are satisfied that the charges of collection would absorb the greater part of the sum now reckoned as the gross annual amount of the Quit Rents, and that the net revenue could not much exceed Five Hundred Pounds per annum, and this consideration also restrains them from entering into any negociation for their redemption, when so large a sum as Two Thousand Pounds per annum, free of all deduction, is named in commutation.

But they chiefly decline to enter into a composition, because they are persuaded, that Your Majesty, on a review of the facts herein humbly submitted to your notice, will not think it desirable that the claim should be further insisted on.

We beg leave further most respectfully to state to your Majesty, that our means of appropriation are very limited, as the Inhabitants of Nova-Scotia find a heavy burthen in Duties, which, in older and richer countries; would be regarded as insignificant, and that it is only by applying great part of the Provincial Revenue to Roads and Bridges, and other local improvements, and thus spreading in every quarter, a part of the Public Funds, that the People are enabled to bear the weight of those duties. That: out of a small Revenue, this Assembly has appropriated nearly Twenty Thousand Pounds per annum to the Provincial Civil Establishment, and from Twenty-five Thousand to Thirty Thousand Pounds annually for the Road and Bridge Service; that they have also a Public Debt of about Fifty Thousand Pounds, on part of which the Province has to pay an interest of six per cent. and we may, in addition, advert to the recent heavy claims for the Salaries of the Custom-House Officers, which are pavable out of Duties falling on the consumer.

Under such circumstances, and with a multiplicity of demands on the Treasury for Education and other essential objects of Public benefit, and with a very fluctuating and uncertain Revenue, we have the strongest reasons to recommend to us the most scrupulous economy in our public affairs, and of caution in adding to the permanent appropriations which are already very large.

We would state also to Your Majesty, that very large sums of Hevenue, raised in this Province, and paid by its Inhabitants, are not placed under our distribution and controul ; these arise from the Coal Mines ; the sales of Public Lands ; the Post-Office, and the Duties levied at the Custom-Houses under Acts of Parliament, prior to 1778. This of course narrows and abridges the Provincial Revenue at our disposal.

Venturing to remind Your Majesty, with all humility, of the sufferings of our Fathers in contending with a rigorous climate, and with Indian and French War in the first periods of this ancient and faithful Colony, we most earnestly solicit Your gracious attention to this, our humble representation, and pray that Your Majesty will confer a singular favor, and one which will never be crased from our hearts, by directing the claim of Quit Rents to be finally relinquished.

And thereupon, on motion of Mr. Murdoch; resolved; that a Committee be appointed to wait upon His Honor the President with the said Address; and respectfully to acquaint His Honor, that the House have had under consideration the Message of His Quit Rents Honor to this House of the 13th March instant, with the copy of the Despatch from His Majesty's Principal Secretary of State for the Colonies, on the subject of His Majesty's Quit Rents in this Province, accompanying said Message, and that this House, in reference thereto, have agreed upon the said Address to His Majerty; and that the

Andrew Kerr, also, praying an extension of the same to Econ-omy; also on the Account of Messrs. John Howe & Son, for extra Printing done for the Province in the last year; and sho on the Petition of Edmund Ward, on the subject of transmitting Newspapers by Post, having had the several subjects under consideration, report as follows. viz -:

That they have examined the account of the expenditure of the sum granted for the support of the Post Communication, and find it correct and satisfactory; that for this service for the present year, there will be required the sum of £950, agreeable to the estimate hereto annexed.

That the Committee have also examined the account of Messre. John Howe & Son, for extra-printing, which they find correct, and recommend the sum of £122 10s. to be paid them. That on the Petition of Mr. Ward, the Committee have to report, That after hearing the present and late Deputy

Post Masters General in answer thereto, and Mr. Ward, in reply, the Committee had recourse to the Acts of the Imperial Parliament, establishing and regulating one General Post. Office ilroughout Great-Britain and the Colo-nues, and are of opinion, that it is no part of the duty of the Deputy Post-Master General in this Province, to re-ceive or transmit, by Post, Newspapers printed here, or coming from any other place, other than Great-Britain. That the Committee have had also under their notice, a printed report of the Committee of Finance of the Imperial Parliament for the year 1829, in which it appears the Post-Office was made subject of enquiry, and find that the Secretary of the General Post-Office, under this view of the case, had, for a long time made a charge for each Paper sent to the Colonies by Packet ; the proceeds of which he retained to his own use, and as payment for he trouble in that respect.

It was also proved to this Committee, that about sixty years ago, the'then Deputy Post-Master General, residing in Halifax, made a charge of Two Shillings and Sixpence upon each Newspaper forwarded to Country Sub-scribers by Post, which was acquiseced in by all the Editors in the Town at that time; and that such practice has been continued down to the present time—the Editors making that extra charge to their Country Sub-scribers, and paying the same, or commuting for it, to the Deputy Post-Master. The Committee are therefore of opinis on, that the above charge being the thing complained of by Mr. Ward, is justifiable on the part of the Deputy Post-Master General; but the Committee having had their attention drawn to the propriety of making some pro-vision for the Deputy Post-Master, to remunerate him for his trouble, and at the same time, relieve Subscribers for Newspapers residing in remote parts of the Province, from this charge, and thereby enable all Persons to receive their papers on equal terms, beg leave to suggest for the favourable consideration of this House, that a sum be annually granied and paid to the Deputy Post-Master, to remunerate him for his Services, in forwarding by Post to every section offices under his direction; and in order that the House may have some idea of the extent of this er-vice, the Committee have made enquiry; and find that there are circulated by Post weekly, 1700 Papers, printed in this Province, and of Foreign Papers 500, in all 2000. On motion, resolved, that the Report be referred to the Consmittee of Supply. It was also proved to this Committee, that about sixty years ago, the'then Deputy Post-Master General, residing

#### LEGISLATIVE COUNCIL, Friday, 26th March. 1830.

The Bill, entitled, An Act in addition to the Act for founding, establishing, and maintaining, an Academy at Pictou in this Province, was read a second time; and it was moved, that the said Bill be committed to a Committee of the whole Board presently, and the question was put by the President: Whether this Bill shall be com-mitted? Ordered, That the Deputy Clerk do carry back the said Bill to the House of Assembly disagreed to.

Ordered, That the said Extract do lie on the Table, to be perused by the Members of this House.

Mr. Young reported from the Committee of Enquiry, relative to the Common Schools Committee on throughout the Province; and he read the Report in his place, and afterwards delivered it in at the Clerk's Table, where it was read, and is as follows, viz : THE COMMITTEE appointed to examine the Returns made by the Commissioners of Common Schools

The commissioners of Common Schools in the second provide the solution of the

Licences, has been elevated to a higher degree of respectability and usefulness. That during the last year, as compared with the previous six months, the School's have been increasing in num-ber in every one of the Countier, and the Children, thus placed under a course of fullion, have risen from 6,639 at the close of 1828, to nearly double that amount.

These texults have obviously grown out of the great facilities offered by the Law towards the establishment of Schools, and out of an encreasing desire to perficipate in the blastings of Education, which every where are more scelously sought after, and more justly appreciated; but the Committee, while most willing to bestow this de-served prime, have reason to lament that in no County has the influence of the Act been so universally felt as to provide Teachers in all the School Districts laid of by the Committee, and this has been wainly occasioned by subscription, not assessment, being adopted with almost he exception, as the index of founding Schools. In First tou, Colchester and Sydney, the love of Education seems to be more widely diffused, if we be allowed to judge from the freater number of Schools 1 and wat in saveral of their Districts named in the otherine; plan of division, the "from the greater number of Schools ; and yet in several of their Districts, named in the original plan of division, 'the

inhabitants have made no efforts to engage and hirs a Teacher; but, notwithstanding these unfaverable appear, abcs, there is ground to hope these Schoel Districts, awakened to a sense of the importance of the object, or stimulated by the example of their neighbours, will not leng continue in this state of neglect and destitution, but will be brought speedily within the pale of the system. That the Committee have not failed to observe in the distribution of the £4000 smong the Counties according to the second section of the Act, that a very unequal des intribution of the £4000 smong the Counties according to the Teachers. In the scale of division the Legislature gree of maintenance and support has been measured out to the Teachers. In that scale of division, the Legulature contemplated to give from the Trassury either £15 or £30 annually to each School according to the smaller or greater number of Children instructed in it, and yet in the Eastern District of Annapolis, or Pictou, in Colchester, and in Nydney, the yearly allowance from the Province, to each and every meater, has, of measury from the inadequacy of the Grant, been reduced below the above standard, and varied from £3 to £14, exhausting at the same time the respective sums provided for each of them in the Act ; whereas in Hants, King's, Shelburne, Queen's and Luncuburg the Commissioners have been enabled, from the few Schools in operation, to afford to each Teacher, the foll Provincial Salary, either of £16 or £20, and leave besides, in the three last of them, a very considerable blance uncalled for and unexpended : a most decisive proof that the original distribution of the £4000 was not accurate by proportioned to the ways of these several Counties and Districts.

The Committee have further to remark, that the Returns made under the superintendance of the Commissioners are from some places in exact conformity to the provisions of the Law, and to the Printed Instructions of the Lieu. connections of the field in others they are singularly imperted, contused, and inaccurate, either in respect to the periods, when they should have been made, orto the items of information, which they ought to contain. This has been found the more perplexing, because it has added much to the labor of the Committee in collecting and comparing the facts; it hasprecluded them from preparing that full, luminous and comprehensive, abstract of the whole proceedings which they were anxious to present. But further, no Returns have been sent up from the Secretary's Office for King's County, from June 1st to November 50th, nor from Digby, or the Western District of Annapolis, the whole of the whole whole of the whole whole of the whol for the whole of 1829 ; and nevertheless, the whole of the sums granted for the Establishment and support of the Schools therein, have been drawn from the Treasury, and that without any account from these two Bourds of Com. minioners of the manner in which the Monies have been applied. These neglects are directly repugnant to the spirit and meaning of the Law, which enacts that the Warrants are only to be granted on receiving the Report duly certified, and for the precise sums which these Reports represent to be necessary. Nay further, although the eighth section provides that only so much of the sums allowed to each County or District, shall be drawn from the Treasury augually, as the several engagements made between the Trusters and the Teachers may require. Some of the Boards may have signed orders for the full amount allowed to the County without reference to the extent of these engagements, and in one instance appear to have exceeded, in their provision to the master, the sum of £20 peranuum, although the highest allowance sanctioned by the Law.

To remedy these omissions and irregularities, the Committee are of opinion, that in all cases henceforth, the Warrants for payment should be founded on the authentisated Reports, that they should follow, and not precede, the receipt of them, and that the Commissioners be instructed anow to attend more punctually to the Regulations issued by the authority of His Excellency Sir James Kempt, at the commencement of the Act,-June 1, 1828, Ordered, That the Report do lie on the Table.

A Bill to repeal the Act in amendment of an Act, entitled, An Act for encouraging amending Act for the Fisheries of the Province, was read a second time, and thereupon,

Mr. Murdoch moved, that the further consideration of the Bill be deferred to this day three months: which being seconded and put, and the House dividing thereon, there appeared for the motion, Twenty-one ; against it, Seven.

So it passed in the affirmative.

A Bill in addition to, and in amendment of, the Act to regulate the manner of taking Officers, read the Bonds of Sheriffs, Collectors of Impost and Excise, and of the Treasurer of the second time, and Province, was read a second time.

Resolved, That the Bill be committed to a Committee of the whole House.

On motion, the House resolved itself into a Committee of the whole House, on the consideration of the several Bills which stood committed.

Mr. Speaker left the Chair,

Mr. Ruggles took the Chair,

Mr. Speaker resumed the Chair.

The Chairman reported from the Committee, that they had gone through the Bill for School Bill; Oath founding and assisting Grammar Schools throughout the Province ; also, the Bill to Public Officers abolish Oaths heretofore required as a qualification for Office in this Province; also, recurity Bill, withthe Bill in addition to, and in amendment of, the Act to regulate the manner of taking out amendment the Bonds of Sheriffs, Collectors of Impost and Excise, and of the Treasurer of the Province, which they had directed him to report to the House severally without any amendment, and he afterwards delivered the Bills in at the Clerk's Table.

The Chairman also acquainted the House, that he was directed by the Committee to move for leave to sit again on the consideration of the several Bills which stood committed, which the House agreed to.

Ordered, That the Bills be engrossed.

Then the House adjourned until To-Morrow, at Twelve of the Clock.

Saturday, 3d April, 1830.

this House, appointed to search the said Journals on the 1st of April instant, be read by the Clerk.

And the same was read acccordingly : and thereupon,

The Committee appointed, on the 30th March last, to hold a Conference with the Committee of the Council, on the subject of the Bill, entitled, An Act to revive, alter and continue, the Acts now in force to provide for the support of His Majesty's Government in this Province, and for promoting its Agriculture, Commerce and Fisheries, by granting Duties of Impost on Wine, Brandy, Gin, Rum, and other distilled Spirituous Liquors, Molasses, Coffee and Brown Sugar,-were required to state if their Chairman had delivered any Paper containing such Instructions to the Committee of the Council, the Committee of this House having been directed not to deliver the Written Paper containing such Instructions, or a Copy thereof, to the Committee of the Council, whereupon the Committee of this House unanimously affirmed, that the Chairman verbally stated to the Committee of the Council the substance of the said Instructions, but, at the request of the Chairman of that Committee, handed the Written Paper, containing the said Instructions, to him, expressly mentioning, that he merely handed the same to him, as a private memorandum, to enable him accurately to report to the Council the substance of that Communication, and the Chairman of that Committee received it as such private memorandum, and not as a public document :

Therefore, in order that the said entry may not be drawn into a Precedent, injurious to the rights of the House,

On motion, Resolved, That the entry upon the Journals of His Majesty's Council is not authorised by any act of this House.

Mr. Uniacke, pursuant to leave given, presented a Bill for the establishing Courts of Probates of Wills, and granting Letters of Administration, in the Southern and Northern Districts of the Island of Cape-Breton, and the same was read a first time. Resolved, That the Bill be read a second time.

On motion, the House resolved itself into a Committee of the whole House. to consider further of a Supply.

Mr. Speaker left the Chair,

Mr. Bishop took the Chair,

Mr. Speaker resumed the Chair.

A Message from the Council by Mr. Halliburton,

Mr. Speaker,

The Council have commanded me to deliver to the House the following Message from the Council, which is in writing, and is as follows :

IN COUNCIL, 3d April, 1830.

THE House of Astembly having sent the Revenue Bills to the Council only two days before the former Laws expired, and the Council having given to the subject all the consideration the lateness of the period at which the Bills were sent, and the shortness of the time allowed the Council for deliberation, would permit, was of opinion that the burthens imposed upon the Commerce of the Country were too great, and that many of the duties should be lessened. This opinion of His Majesty's Council was communicated in conference to the House of Assembly.

The Committee of the House of Assembly having reported to the House, another conference to the House of Assembly. The Committee of the House of Assembly having reported to the House, another conference was desired by the House of Assembly, at which the Committee of the House informed the Committee of the Council, that the House had framed the scale of appropriation with reference to the Rovenue remaining as it was the last year, and therefore could not now consider the subject of a reduction of the Duties. Upon this being reported to the Council, the Council directed their Committee to inform the Committee of the House, that although their opinion of the Duties being too high was unchanged, yet as the House had made their appropriations with a view to the continuance of the ordinary Revenue, the Council would, for the present, yield their opinion to that of the House, and assent to the same amount of Duties as had been levied the last year, but that the Council could not assent to any further impositions upon Trade, and they therefore hoped that the House of Assembly would make the Revenue Bills correspond with those of the last year. To this communication the Council received for answer, that the House of Assembly could not consider the subject matter of it.

Assembly could not consider the subject matter of it. His Majesty's Council then agreed to all the Revenue Bills except the one containing the additional Duty, and that no further time might be lost, the latter Bill was returned to the House without the assent of the Council. His Majesty's Council, upon reading the Bill sent to them by the Louse of Assembly yesterday, entitled, An Act

His Majesty's Council, upot reading the Bill sent to them by the liouse of Assembly yesterday, entitled, An Act to revive, alter and continue, the Acts to provide for the support of His Majesty's Government in this Province, and for premoting its Agriculture, Commerce, and Fisheries, by granting Duties of Impost on Winer, Brandy, Gin, Rum, and other Distilled Spirituous Liquors, Molasses, Coffee, and Brown Sugar, observed with regret that it was the same Bill upon which the Council had already docided; as the only variation was a slight alteration of the title.

Even if His Majesty's Council could so far depart from Parliamentary usage as again to consider this Bill, they could not give their assent to it.

The experience of all Countries has shewn that the fewer and the less the Taxes upon Commerce are, the mous those Countries and their Commerce flourish, and nothing justifies the laying Taxes upon it but the purposes of **Eevanue** and the necessities of the State. This necessity His Majesty's Council is of opinion does not exist here, and therefore they cannot consent again to consider this Bill, as it would be an useless violation of the Rules of Parhamant.

Resolved unanimously, that the foregoing Message be sent to the House of Assembly.

His Majesty's Council have not agreed to the Bill, entitled, An Act to revive, alter and continue, the Acts now in force to provide for the support of His Majesty's Government in this Province, and for promoting its Agriculture. Commerce and Fisheries, by granting Duties of Impost on Wine, Brandy, Gin, Rum, and other Distilled Spirituous Liquors, Molasses, Coffee and Brown Sugar.

And then the Messenger withdrew.

On motion, resolved, that Mr. Uniacke, Mr. Stewart, and Mr. Young, be a Committee for the purpose of preparing and reporting to the House an Answer to His Honor the President, in reference to such of the Messages and Communications from him to the House, as have been considered this Session.

Then the House adjourned until Monday next, at Twelve of the Clock.

PRAYERS.

Mr. J. R. Dewolf, pursuant to leave given, presented a Bill to alter the Times of the Sittings of the Inferior Court of Common Pleas and General Sessions of the Peace for the County of Queen's County, and the same was read a first time."

Resolved, That the Bill be read a second time.

Mr. Murdoch reported from the Committee on the Petition of Joseph Starr and others, and he read the Report in his place, and afterwards delivered it in at the Clerk's Table, where it was read, and is as follows, viz :

THE COMMITTEE to whom was referred the Petition of Joseph Starr, and others, Inhabitants of Albermarie Street, beg leave to report as follows, viz :

That they have investigated the subject of that Petition, and heard the Petitioners thereon, and have also had before them two of the Commissioners of Roads for the Town of Halifax.

That they find, that Albermarle Street has not received any share of Public Money for many years in the improvement of its condition; and they believe, the inhabitants thereof have just right to complain, as they contribute towards the funds of the Town in the same manner as other inhabitants. That they also find, that the Town has not been divided into Wards, according to the Law of the Province.

respecting Commissioners of Roads .- This irregularity, your Committee conceive to be the cause of the many sub-jects of complaint which have arisen as to unfairness in the distribution of Money in the different parts of the Town; and they think, that if the Law were complied with, in this respect, all difficulties and complaints would coase.

They therefore recommend, that the following Resolutions be adopted by the House, and sent by a Committee to His Honor the President.

Resolved, That it appears to this House, that just cause of complaint exists among the Inhabitan's of the Town of Halifax, on account of the totally neglected state of some populous streets, while others are improved and repaired yearly, at a very great expense.

Resolved, That it is the opinion or this House, that if the Law, whereby the said Town is directed to be divided into Wards, for the management of the Road Commissioners, separately, were carried into effect, that the evily complained of would soon cease to exist.

Resolved. That the foregoing Resolutions be sent to His Honor the President, with a request from this House, that he would be pleased to give such directions to the Road Commissioners, or take such other steps as may remedy the evils complained of.

Ordered, That the Report do lie on the Table.

On motion, resolved, that it appears to this House, that just cause of complaint exists among the Inhabitants of the Town of Halifax, on account of the totally neglected state of some populous streets, while others are improved and repaired yearly, at a very great expense.

and he read the Report in his place, and afterwards delivered it in at the Clerk's where it was read, and is as follows, viz:

THE COMMITTEE to whom was referred the Petition of W. 6. Fairbanks, and Jon. C. Allison, of the Firm of Enos Collins & Co. of Halifaz, Merchanis, beg leave to report that they have investigated the subject matter of that Petition, and find, that although the Firm to which the Petitioners belong, appear to have paid the sum of £42 5 4 more than the Provincial Duty of one shilling currency on Brandy and Gin would have amounted to, owing to the rates at which Doubloons, &c. have been received at the Custom House. Yet, as the intention of the House was to impose one shilling and four pence currency, as Provincial Duty on those Articles, and the intention was de-feated for four years past, in a way which this House has at length fortunately discovered; and the Province dur-ing that period, has received a less Revenue by Two Thousand Seven Hundred Pounder than was contemplated in the settling of the former Revenue Bills. The Committee do not think that any Merchants can have a just claim to make up the difference of rate in the Doubloon, while they have been obtaining the imported Article at four penceless of Duty than was intended by the House ; they therefore cannot recommend the prayer of the Petition.

On motion, resolved, that the Report be received and adopted by the House. Ordered. That the Report do lie on the Table.

The Attorney-General particularly brought under the notice of H. M Council, a paragraph in the Nova-Scotian, in which the Speaker is represented to have accused His Majesty's Council of duplicity in their proceedings with the House, by stating that the Revenue Bill [which His Majesty's Council retained after assenting to the others, until the Board should learn the result of the conference then pending upon that Bill] was not retained for the pur-

pose of awaiting the result of the conference, but merely to give coloar to that pretext. The Attorney-General proceeded to call the attention of the Board to many other unwarrantable expressions relative to His Majesty's Council, in the reports of the said debates in the same paper, and closed his observations, by referring the Board to a most indecent and intemperate attack in the report of the speech of a Mr. Dill, a Member of the House of Assembly, in which corrupt motives were attributed to a Member of this Board in the performance or the mouse or Assembly, in which corrupt mouses were attributed to a Member of this Board in the performance of his Duty as a Legistative Councillor, and the most gross language, was used respecting him, which appears to have passed unpunished and unnoticed by the House of Assembly. Whereupon it is resolved unanimously that the publications in the said Newspaper, purporting to be reports of the

Debates in the House of Assembly, contain gross, scandalous and libellous, charges against this Board and against the Members thereof.

Resolved unanimously, that the uttering or publishing of such gross, scandalous and libellous charges, is a breach of the privileges of His Majesty's Council.

Revolved unanimously, that if these grow, seandalous and libellous, expressions were made use of in the House of Assembly, it was the duty of that House, in accordance with the usage of Parliament, to call to account and pu-

But His Majesty's Council also resolve unanimously, that in the present state of the public business, when the Province would suffer so severely, if the communication between the two Houses was interrupted, they would not at prevent have recourse to a measure, which, under other circumstances, they would deem an imperative duty. Mr. Speaker,

His Honor the President having recommended the increase of Salary to the Council agree to Police Magistrate provided for by the Bill entitled, An Act to amend and continue the Police Bill and Acts concerning the Bridewell and Police in Halifax : His Majesty's Council do send Message re-lative thereto not adhere to their amendments, but agree to the Bill as originally passed the House.

And then the Messenger withdrew.

On motion, the House resolved itself into a Committee of the whole House, on the cunsideration of further consideration of the General State of the Province.

Mr. Speaker left the Chair,

Mr. Ruggles took the Chair,

Mr. Speaker resumed the Chair.

The Chairman reported from the Committee that they had made some progress in the to Council's Metbusiness to them referred, and that the Committee having had under consideration the rage of Sd in in report of the Select Committee of this House made on Tuesday last, in answer to the regard to Revenue Message from the Council to this House received on the 3d April, instant; have agreed Import Acta : that it be recommended to the House to adopt an answer to said Message; which answer he read in his place, and afterwards delivered it in at the Clerk's Table.

The Chairman also acquainted the House, that he was directed by the Committee to move for leave to sit again on the consideration of the business to them referred, which the House agreed to.

The suid answer reported from the Committee was read by the Clerk, and is as fol- from Committee of lows, viz.

AT the commencement of the Session, His Honor the President, on behalf of His Majesty, required the House of Assembly to provide Supplies for the support of His Government in this Province. During the progress of the Session, the House took the subject into consideration, and imposed such burthens upon their constituents as the House were of opinion could be borne by them.

## THURSDAY, 8th APRIL, 1830.

Avoiding direct taxation, always odious and only to be justified by the most pressing necessity,' the House of Assembly reconsidered the usual system of Revenue which has hitherto been found to operate beneficially, and saw no reason to make any material change therein. The results of their deliberations are embodied in the several Revenue Bills which were sout to Him Majesty's Council for the concurrence of that Board.

veveral Revenue Bills which were soul to His Majesty's Council for the concurrence of that Board. Of these Bills, His Majesty's Council retained one, the most important and productive, until a late hour of the day, on which the former Revenue Acts expired, and then sent it to the House of Assembly disagreed to. The others were returned to the House bately in time to receive the Assent of the President, The Acts to provide for the support of His Majesty's Government in this Province, and for promoting its Agricul-

The Acts to provide for the support of His Majesty's Government in this Province, and for promoting its Agriculture, Commerce and Fisheries, by granting Ducies of Impost on Wine, Brandy, Gin, Rum, and other Distilled Spirituous Liquore, Molasses, Coffee and Brown Sugar, and which it was the object of the Bill disagreed to to continue, having expired, the Country was thus deprived of the greater portion of its ordinary Revenue. The owners of duciable articles were not slow to avait themselves of this public misfortune, this was not unknown to the House of Assembly, but they were willing to sacrifice their feelings to the good of the Country, and accordingity they passed another Bill granting supplies to His Majesty's Government. With reference to this Bill His Majesty's Council have informed the House, that parliamentary usage (if no o-

With reference to this Bill His Majesty's Guncil have informed the House, that parliamentary usage (if no other obstacle existed) would have prevented the Council from making it the subject of their deliberations, at intimation which the House received with equal surprise and regret, since it would thence appear that because an aid, amounting in the whole to about seven hundled pounds more than the necessities of the Government (in the opinion of the Council) would require for the present year, had been granted to His Majesty by the House, His May jesty's Council thought it advisable to reject, at a late hour of the day on which the former Revenue Acts expired, a Bill by which upwards of Twentysfive Thousand Pounds would have probably been paid into the Provincial Treasury. The Bill last disagteed to did not contain, as the Council erroneously conceive, only a slight slieration in the title. It contains another one, without which it would not have been comformable to His Majesty's Hoyal Instructions; and this Bill also received the dissent of His Majesty's Council.

But basides, the expiration of the Law under which Daties similar to those imposed by this Bill were collected the introduction into the Market, free of Dury, of the articlos subject to those Duties, and the altered state of circumstances, thereby induced, rendered the Bill of a substantially different nature, and well worthy of consideration by all who were desirous to see the Province in the possession of a Revenue applicable to objects of internal improvement. His Majesty's Council did, in Conference, suggest to the House that the reduction of the Duties generally would increase the amount of the Revenue, yet His Majesty's Council by their Message of the 3d inst. seem to be of opinion, that a necessity does not exist for a lievenue equal in amount to that heretofore possessed by the Province; upon what grounds His Majesty's Council can arrive at the latter conclusion, the House are at a loss even to conjecture. The Province is now subject to a Funded Debt of Twenty six Thousand Pounds, for which it pays interest, and a Floating Debt of Fifty-five Thousand Pounds-to a Civil List, and the necessary charges of Government, amounting annually to more than sisteen thousand pounds, while the Roads and Bridges, and other objects of internal improvement, require an annual expenditure of large sums of Money—The House of Assembly co therefore, sincersly regret that His Majesty's Council should be under such erroneous impressions; and the House are convinced, that if His Majesty's Council had as tull an opportunity as the House of Assembly have of personally observing the beneficial effect of that expenditure, those impressions would cease to have existence.

As little foundation is there for the idea, that a reduction of the Duties upon the articles to the extent proposed by His Majesty's Council, would in the circumstances of the Province, and with reference to the habits of the people, increase the Revenue. Brandy and Wines are both consumed by persons in good circumstances, Rum by the Poor, and the House cannot concur in the opinion, that the consumption of the latter, [if such an object were a legitimate one] will be increased by a reduction of two-pence on the gallon. The House are therefore at a loss to understand, how Commerce would flourish by the reductions suggested, since the Merchant receives, in the increased price of his commodity, the amount of the duty, whatever it may be. In truth, if the House of Assembly bad adopted the suggestion of His Majesty's Council, the Revenue would have been greatly diminished, the Public Debt increased, and at the next Session the House would have been either obliged to double the amount of the Funded Debt or to impose a direct Tax upon their constituents to discharge it.

With reference to the time allowed His Majesty's Council to give their Assent to the Revenue Bills, the House refers the Council to that occupied by the Council in the consideration of Revenue Bills for many years past free quently one, and seldom more than two days

quently one, and seldom more than two days His Majerty's Council state to the House, that it was not " until after the Council had received a communication from the House, that they could not consider the subject of the previous Conference" that His Majesty's Council agreed to all the Revenue Bills except the one containing the additional Duty. Yet, in fact, those Bills had passed into a Law before that communication was transmitted from the House to the Council.

It is not unknown to His Majesty's Council, that a Duty of one shilling and four pence per gallon, was imposed upon all Foreign Brandy, Gin and Cordials, imported into this Province, by an Act of the Colonial Legislature, passed in the year 1826, nor is it now unknown to the House that the Duty of one shilling and four pence was collected in addition to that of one shilling imposed by the Act of the Imperial Parliament, and that subsequently, thur pence per gallon was returned to the Importers, and accident alone, discovered this to the House: That the Provincial Legislature intended to impose a Duty on Foreign Brandy, equal in amount to about two shillings and six pence Currency, in that and the succeeding years of 1827, 1828, and 1929, is obvious not only from the apparent meaning of the Colonial Act referred to, but from the circumstance of the Duty having been scually collected by the Officers of the Revenue. The House of Assembly were therefore much surprized, the present Sessien, to find that two shillings only per gallon had been collected in those years.

On referring, however, to the Colonial Act, the House perceived that this intention had been defeated by the unexpected operation of the proviso, in the third Section of the Act of 1828. Desirous to rectify a mintake by which two thousand seven hundred pounds were stready lost to the Provincial Rovenue, the House, during the present Session, added four pence per gallon to the Duty upon Spirits of British Manufacture, (of which but flittle comes here) for the sole purpose of affecting Foreign Brandy. Gin and Cordials, the Imperial Act diffecting the Officers of the Customs to levy a Duty of one skilling Sterling imposed by that Act upon Roreign Spirits, and also "Whatever "Duty should be imposed by any Act of the Colonial Legislature, upon Spirits of British Manufacture ; though the for the fact therefore, of the addition of four pence per gallon on such Spirits, will be to increase the duty on Fridig Information, Gin, THURSDAY and SATURDAY, 8th and 10th APRIL, 1830.

Gin and Cordisis, to that extent; what the House has done the present Session, is to correct an error which the House but recently discovered. An attentive reference to the communication of the House eive seembly on their second conference on the Revenue Bills, would have enabled His Majesty's Council to percept that the House in declining to adopt the suggestions of His Majesty's Council, were influenced not only by the extent of their appropriations but also by the conviction, that a reduction of the present rate of Duties would be inexpedient, with re-ference to the amount of the Duties; but if in fact the House had increased the burthen of their constituents-the House are not only the most competent but the Sole Judges of the amount of the burthens to be borne by the people whom they represent, and to their Constituents the House are alone answerable for their conduct.

Reverting, however, to the rejection of the Revenue Bill last sent to His Majesty's Council, the House of Assembly have, so far as they could, endeavoured to comply with the request of His Honor the President : they have twice voted the supplies required from them; twice evinced the readiness of their Constituents to contribute to their utmost ability towards the support of His Majesty's Government—and twice have those Supplies been withheld from His Majesty's Government by His Majesty's Council. To freely dispose of the produce of their industry, to grant to the Grown such aids as they deem proper; and to limit and regulate their application, are rights inherent in British Subjects—when they cause to possess them, they are a possible for the produce of the produce of the substrained to be found the found of Assemble held, it to be

cesse to be free. As the Representatives of the free people of Nova-Scotia, the House of Assembly hold it to be their undoubted right, of which nothing has deprived nor can divest them, "in Bills of rates and impositions on Merchandize to fix the matter, the measure and the time; the terms, limitations, conditions and qualifications, without sugmentation, alteration or diminution" by His Majesty's Council.

and

Against the motion. Mr Barry Mr Hartshorne Mr Uniscke

and he read the said Resolutions in his place, and afterwards delivered them in at the Clerk's Table, where they were read, and are as follow, viz.

Resolved, That the many important public services of this Province, which the Legislature have usually been desirous of promoting, and the provision to be made for the payment of the Officers of Government, and the other usual charges which form the Civil List, and likewise the heavy Debt due by this Province, rendered it necessary for the House of Assembly to provide means by raising a Revenue sufficient to meet the Current Expenditure of the present year, and to provide for the payment at least of the interest of the Public Debt.

Resolved, That the monies contemplated to be raised by the Bill, entitled, An Act to alter and continue the acts now in force to provide for the support of His Majesty's Government in this Province, and for promoting its Agriculture, Commerce and Fisheries, by granting Duties of Impost on Wine, Brandy, Gin, Rum, and other distilled Spirituous Liquors, Molasses, Coffee and Brown Sugar, which passed this House on the 29th day of March last, were absolutely necessary, and not more than sufficient, with what might also be produced by the other Revenue Bills which have passed during the present Session, for the above purpose.

Resolved, That this House consider the rejection of the said Bill, by His Majesty's Council, particularly on the day on which the Laws, thereby continued, expired, as highly impolitic and unwise; and it has already produced disorder and confusion in the trade and commerce of the Country, by giving an undue advantage to those who are at present availing themselves of the state of the market, and disposing of large importations of articles, free of duty, to the manifest injury of such as have paid or secured the duties formerly payable upon the same description of articles which remain unsold.

Resolved, That the Bill, entitled, An Act to revive, alter and continue, the Acts to provide for the support of His Majesty's Government in this Province, and for promoting its Agriculture, Commerce and Fisheries, by granting Duties of Impost on Wine, Brandy, Gin, Rum and other Distilled Spirituous Liquors, Molasses, Coffee and Brown Sugar,—which passed this House on the 2d day of April instant, was intended by this House to remedy, as speedily as possible, the evils consequent upon the rejection of the first Bill; and this House framed the same conformably to His Majesty's Instructions, to be in force for a period not less than one whole year, which continued the operation of the Duties thereby imposed to the 6th day of April next; and this House entertained the hope that His Majesty's Council would have given the subject that deliberation which its importance demanded, and that they would not again have rejected so important a Revenue Bill, particularly as the altered circumstances of the Country, owing to the great quantity of articles charged with duty under the said Bill, which had in the meantime been introduced into the market to supply the consumption of the present year, rendered necessary an increase instead of a diminution of such duties.

Resolved, T hat His Majesty's Council having rejected the last mentioned Bill, this House is deprived of the means of raising a Revenue to meet the exigencies of the Government, unless they will consent to frame an Act conformable in all respects with the opinions and dictates of His Majesty's Council.

Resolved, That it is the inherent and undoubted right of this House to impose Duties upon His Majesty's Subjects in this Province, and that His Majesty's Council ought not to interfere in matters of Revenue, either by proposing alterations or amendments to such Bills, or dictating to this House the amount of Duties which they are to impose on their constituents, and that the interference of His Majesty's Council in such a manner is a breach of the privileges of this House.

Resolved, That the rejection of the Revenue by His Majesty's Council, at this time, is particularly unwise and impolitic, when it is considered that in the absence of the Lieutenant-Governor the Administration of the Government has necessarily devolved upon His Honor the President, who is a Member of the Council, and whose request to the

House

House of Assembly to provide the necessary Supplies for carrying on the Government. led the House of Assembly to make the provision which His Majesty's Council have thus rendered unavailing.

Resolved, That, by this very extraordinary proceeding of His Majesty's Council, the Province will be thrown into great confusion, a total suspension of all the beneficial improvements which the Assembly has been so desirous of promoting, will ensue, and a general discontent be excited throughout the Province.

Resolued, That the Revenue Bills of the present Session were framed upon the same principle as those of the last year, with some trifling increase of duty upon articles which the House considered could well bear such increase.

Resolved, That the Revenue of the last year was found to be insufficient to meet the necessary expenditures, and that a large addition was in consequence made to the public debt, and therefore this House considered that it would have been inexpedient to have adopted any measure which would have tended to diminish the Revenue of the present year.

Resolved, That the conduct of His Majesty's Cuoncil, on the present occasion, betrays a want of due consideration for the best interests of His Majesty's Subjects throughout this Province.

Resolved, That the free enjoyment of all those Rights and Privileges which belong to the People of this Province, as subjects of His Majesty, affords the best security for the continuation of that loyalty and attachment to His Majesty's Person and Government, which is so warmly cherished, and which so universally prevail throughout this Colony; and this House, therefore deems it both inexpedient and unwise, for those entrusted with the Executive Government, to interfere with the due and proper exercise of those rights and privileges.

Mr. Barry moved, that the Report be not received by the House, which being seconded and put, and the House dividing thereon, there appeared for the motion, three; sgainst it, thirtone. Against the Motion.

E, the Representatives of His Majesty's Loyal People of Nova-Scotia, humbly express our deep regret, that by, the Act of His Majesty's Council, we have been prevented from providing the Supplies necessary to support His Majesty's Goverament in this Province, during the ensuing year.

It is for His Majesty's Council to satisfy the Country, of which they, with your Honor, and ourselves, ought to be the Guardians, that, on this unfortunate occasion, they have acted judiciously, or with proper regard to the best interests of Nova-Scotia. But we assure yourHonor, that no effort in our power, short of yielding to His Majesty's Council the dearest and most important right of those whom we represent, has been left untried to avert from them and ourselves the manifold evils which will inevitably result from the present state of affairs. It is unnecessary for us to enumerate those evils: Your Honor's experience and knowledge of the wants of the Province will suggest them to you, and the detail would but unnecessarily afflict your Honor. Appropriation Bill to be engrossed

Message from President with letter from Collector of Impost and Excise relative to Draw, backs The Chairman reported from the Committee that they had gone through the business to them referred, and that the Committee had framed a Bill for applying such part of the Supplies granted in this Session of the General Assembly, as are not already appropriated by the Laws or Acts of this Province, which they had directed him to report to the House, and he afterwards delivered the Bill in at the Clerk's Table, and thereupon.

On motion, the Bill was read throughout a first and second time.

Ordered, That the Bill be engrossed.

Mr. Deputy-Secretary Hill acquainted the House, that he had a Message from His Honor the President, signed by His Honor, and he presented the said Message to the House, and the same was read by Mr. Speaker, all the Members being uncovered, and is as follows:

# MESSAGE :

### GOVERNMENT-HOUSE,

MICHAEL WALLACE,

Halifax, 13th April, 1830.

IS Honor the PRESIDENT submits to the House of Assembly, a Letter this day received from the Collector of Impost and Excise for the District of Halifax, and requests the House will take the same into their consideration, and adopt such steps as may be necessary on the occasion.

Mr. Deputy-Secretary Hill also delivered to the House, the Letter referred to in the said Message, and the same was read by the Clerk, and is as follows, viz:

# EXCISE. OFFICE,

Halifax, 12th April, 1830.

A S the Revenue Bill, continuing a Duty on Rum, and other Distilled Spirituous Liquors, Molasses, Coffee and Brown Sugar, has not passed this present Session, I beg to call your attention to the situation of the Merchants in this Town, who have on hand a large quantity of Rum, and other West-India Produce, on which the Provincial Duty has been secured, under the Act that expired on the 31st March last, and which must be exported, as they cannot dispose of it in the Province, without making a great sacrifice, and as I do not feel myself authorized to clear out the same for exportation, the Rules and Regulations for so doing having expired with that Act :

I have to request your Honor will take such steps you may deem necessary (in the event of the Revenue Bill not passing) as will authorise me to clear out all such Rum, or other distilled Spirituous Liquors, Molasses, Coffee and Brown Sugar, for exportation, should the Merchants make application for that purpose.

1 have the Honor to be, with due respect,

Your Humble Servant,

H. N. BINNEY, Collector.

His Honor the PRESIDENT.

SIR,

Ordered, That the said Message and Letter do lie on the Table.

On motion, the House proceeded to the consideration of the said Message and Letter, and thereupon,

Mr. Hartshorne moved, that the House do come to a Resolution, as followeth, viz:

Whereas the Act, entitled, An Act to provide for the support of His Majesty's Government in this Province, and for promoting its Agriculture, Commerce and Fisheries, by granting certain Duties of Impost on Wine, Gin, Brandy, Rum, and other distilled Spirituous Liquors, Molasses, Coffee and Brown Sugar, expired on the 31st last March, and it is not the intention of this House to revive or originate another Bill, and whereas the

Motion upon consideration of Message relative to Drawbacks

# TUESDAY, 13th APRIL, 1830.

the Commissioners of the Revenue, under the Act passed in the third year of George the Fourth, have the power, under Certificates, to allow Drawbacks, yet as the Revenue Law, under which Exporters may be entitled to Drawbacks, expired as aforesaid, and consequently much difficulty may arise to persons who have secured their duties, and from the situation in which they are placed, by the expiration of the Revenue Bill, will, of necessity, be compelled to export those dutiable articles.

Resolved, That the Commissioners of Revenue be authorised under this Resolution to allow the Drawbacks as heretofore on all dutiable articles secured prior to the **31st** March last, the same as if the Revenue Laws were in operation: which being seconded,

Mr. Dickson moved, in amendment, to leave out all the words thereof, except the word " Resolved," and after that word to substitute the following, viz :

That a Committee be appointed to wait on His Honor the President, and that the Committee be instructed to state that this House has had under its consideration, his Honor's Message of this day, with the letter accompanying the same, and that this House are aware the difficulty complained of by the Collector of Impost and Excise, is one of the many evils that must result from the expiring of the Revenue Laws, and that this House are of opinion that the articles referred to may be exported as hitherto, and that this House will, as far as its authority extends, sanction the payment of the drawback on such articles in the manner as heretofore allowed : which being seconded and put, and the House dividing thereon, there 'appeared for the amendment, twentynine; against it, three.

President's Speech

Promation of House

Mr. Lawson moved that the House do come to a Resolution as followeth, viz: Resolved, That a Committee be appointed to correspond during the ensuing summer with His Majesty's Government on the subject of the differences now existing between. His Majesty's Council and this House: which was seconded, and while the House were in debate thereupon,

A Message from His Honor the President, by Mr. Deputy-Secretary Hill: Mr. Speaker,

His Honor the President commands the House to attend His Honor immediately in the Council Chamber;

Accordingly, Mr. Speaker, with the House, attended His Honor in the Council Chamber, where His Honor was pleased to give his Assent to the following Bill, viz:

A Bill, entitled, An Act to amend and continue the Acts concerning the Bridewell and Police in Halifax.

After which His Honor was pleased to make the following SPEECH:

### Mr. President, and Gentlemen of His Majesty's Council, Mr. Speaker, and Gentlemen of the Assembly,

When I had the pleasure to meet you here on the 11th of February, for the despatch of the Public Business, and having nothing of moment to submit for your consideration, I did entertain a sanguine hope that by your united endeavours, and cordial co-operation, the Session would not have detained you long.

But I am sorry to find, that, although more than eight weeks have elapsed, the most important measures, as regards the immediate interests of the Province, remain in a state of abeyance, in consequence of a difference in opinion on points which have long been established and recognised as necessary for the salutary and effectual conducting the affairs of a Government constituted as ours is.

Understanding there is little probability of your accordance in the matters that are pending, under such circumstances, I consider it my duty to relieve you from further continuance in Session, that you may return to your homes, to attend to your private concerns.

Afterwards, the Honorable the Attorney-General, as Acting President of His Majesty's Council, by command of His Honor the President, said,

Gentlemen,

It is His Honor's will and pleasure, that this General Assembly be prorogued to Thursday, the first day of July next, to be then held at the usual place; and this General Assembly is accordingly prorogued to Thursday, the first day of July next.

Clerk of the House of Assembly.
