REPORT

OF THE

POSTMASTER GENERAL,

FOR THE

YEAR ENDING 30TH SEPTEMBER, 1863.

.....
PRINTED BY ORDER OF THE LEGISLATIVE ASSEMBLY.

QUEBEC:
PRINTED BY HUNTER, ROSE & CO., ST. URSULE STREET.
1864.

REPORT

OF THE

POSTMASTER GENERAL OF CANADA.

To His Excellency the Right Honorable CHARLES STANLEY, Viscount MONCK, Governor General of British North America, etc., etc., etc.

MAY IT PLEASE YOUR EXCELLENCY :

In accordance with the Statute, I have the honor to submit to Your Excellency the accompanying Returns and Statements numbered from 1 to 16, for the Post Office year ending 30 September, 1863, to be laid before the Legislature at the approaching Session.

These Returns and Statements shew the operations of the Department during the past year, and constitute the Twelfth Annual Report on the Canadian Post Office; and I proceed to offer, as is customary, some observations which the results shewn by these statements appear to call for, and to add some items of information and of Postal Statistics not embraced in the Returns required by the Post Office Act.

PRESENT EXTENT AND INCREASE DURING THE YEAR OF POST OFFICE SERVICE.

132 new offices were opened during the year, and 16 offices were closed.

The number of Post Offices in operation on the 30th September, 1863, was 1,974, being an increase of 116 upon the establishment of 1862.

400 miles of new post route and 118,472 miles of annual mail travel were added to the service during the year.

COMPARATIVE TABLE, shewing the extent of Mail Service, Number of Letters, and amount of Postal Revenue and Expenditure in Canada, from 1851 inclusive :

Year.	Number of Offices.	Number of Miles of Post Route.	Number of Miles of Annual Mail Travel.	No. of Letters by Post per annum.	Postal	Total Expenditure, exclusive of Railway Payments and of Payments in connexion with the Ocean Mail Service.

The increase for 1863 upon the Return of last year, in the number of letters passing by Post, and in the amount of Postal Revenue, appears to have been the result of a very general addition to all classes of correspondence.

It will be observed that the column of expenditure omits the expenditure incident to the Ocean Mail Service, and omits the payments to railways. The subsidy to the Ocean Steamers had in view commercial and general, as well as postal, objects, and it would, therefore, have been improper to charge the whole subsidy and other incidental expenses to the Post Office, but it is proper to consider the Post Office as chargeable with such portion of these as the service produces to the department in net postage and as forms part of the sums given in the revenue column. The following is an estimate of the amount so produced in each year, after deducting the cost of collection in Canada, which is, assumed to be about one-sixth of the gross amount so collected :

In the year 1853.....	\$ 2,500 00
In the year 1854.....	2,500 00
In the year 1855.....	No Service this year.
In the year 1856.....	5,000 00
In the year 1857.....	8,334 00
In the year 1858.....	10,000 00
In the year 1859.....	30,000 00
In the year 1860.....	41,666 67
In the year 1861.....	50,000 00
In the year 1862.....	55,000 00
In the year 1863.....	59,750 00

These sums do not include the sea-postage for the conveyance of mails between the United States and Europe, as the amount was never reckoned in the accounts of this Department as part of the Post Office revenue, and is not included in any of the sums given in the table.

The following statement shows, as nearly as has been found practicable, the railway payments for each year, and which are in addition to the expenditure of which the table gives the figures :

For the year 1854.....	\$ 16,000 00
For the year 1855.....	62,000 00
For the year 1856.....	76,000 00
For the year 1857.....	121,000 00
For the year 1858.....	124,000 00
For the year 1859.....	98,000 00
For the year 1860.....	116,000 00
For the year 1861.....	108,923 90
For the year 1862.....	109,929 99
For the year 1863.....	121,874 73

Adding to the general expenditure of each year, the sums given in these two estimates for the Ocean Mail Service and for railway payments, the table, as far as relates to revenue and expenditure, will stand thus :—

	Revenue.	Expenditure.
For the year 1852.....	\$230,629 00	\$276,191 78
For the year 1853.....	278,587 00	301,228 56
For the year 1854.....	320,000 00	379,947 97
For the year 1855.....	368,166 00	511,726 16
For the year 1856.....	374,295 00	567,886 62
For the year 1857.....	462,163 00	651,904 80
For the year 1858.....	541,153 00	680,374 49
For the year 1859.....	578,426 00	657,290 88
For the year 1860.....	658,451 00	692,347 92
For the year 1861.....	683,034 00	719,056 37
For the year 1862.....	723,052 00	750,514 16
For the year 1863.....	759,475 00	753,057 06

In November 1863, provision was made for the transmission by Post in Canada, and to and from the United States, at a postage rate of one cent per ounce, of packages of seeds, cuttings, bulbs, roots, scions or grafts; and also for the transmission at the same rate, of book manuscript, printers' proof sheets, maps, prints, drawings, engravings, and other matter of a like character, all guarded by such conditions as seemed to be requisite to secure these privileges from abuse.

From January 1864, the Imperial Post Office extended to the mails between the United Kingdom and Canada, a regulation conceding to patterns of merchandize and trade samples, the advantage of passing at the low rate of postage applicable to books and printed matter.

After public advertisements calling for tenders according to law, a contract has been entered into by responsible persons, for the regular conveyance of mails on Lakes Huron and Superior, by well appointed steamboats, during four years, commencing with 1854. The trips will be performed on Lake Huron, between Collingwood and Sault Ste. Marie, weekly, and on Lake Superior, between Sault Ste. Marie and Fort William, fortnightly, and mails will be exchanged as may be required at the several ports and stopping places by the way, on both lakes. The service is to be performed by a good and sufficient side-wheel upper-cabin steamboat, of not less than 400 tons burthen, and of a speed of not less than twelve miles per hour. The price to be paid is \$400 for each full trip from Collingwood to Fort William and back, and \$85 for each of the intermediate trips from Collingwood to Sault Ste. Marie and back.

NEW OCEAN MAIL CONTRACT.

It having been decided that the existing contract for the conveyance of the Ocean Mails, which contract commenced in April 1860, should be annulled from the 1st April next, a new contract from the ocean service has been entered into with Mr. Hugh Allan, subject to the sanction of Parliament, the new contract to take effect from the 1st April 1864, and continue for five years, until the 1st April 1869, embracing conditions for ensuring a more efficient and safe performance of the service than heretofore, and at the same time reducing the rate of payment to the contractor from \$416,000 to \$218,000, per annum.

REVENUE.

		In the year 1862 the same items were:
The Postal Revenue for the year 1863 has been as follows:		
Net Revenue collected.....	\$759,475 55	\$723,052 97
The chief sources of Postal Revenue were:		
On letters, &c., prepaid by postage stamps.....	\$315,000 00	\$271,000 00
Do. prepaid in money or sent unpaid.....	353,000 00	368,000 00
On Canadian newspapers, including sale of newspaper stamps	65,000 00	61,000 00
On United States newspapers delivered in Canada (estimate)	20,000 00	18,000 00
Miscellaneous—(Letter boxes, rents, &c.)	6,000 00	5,000 00
	<u>\$759,000 00</u>	<u>\$723,000 00</u>

Of the net Letter Postage Receipts the proportion collected by prepayment in stamps was:

In 1860.....	34 per cent.
1861.....	38 do.

The charge for Mail Service, exclusive of Ocean Mail Service, shows an increased payment of \$13,421, as compared with 1862, for Mail Service by the Grand Trunk Railway, and a diminution of the charges for Steamboat and other branches of mail conveyance, so that the comparative augmentation in the total disbursements for Mail Service, including Railway payments, was \$6,238.09, while on the other hand the augmentation of Postal revenue was \$36,422.58.

Upon the items of General Printing, Advertising and Stationery, the charge is less than in 1862, by \$12,081.95.

Upon Salaries there is a comparative reduction of \$4,000, whilst upon Commissions there is an increase of \$7,000 consequent upon the large amount of postage collected at offices paid by a commission allowance, and upon an augmentation in the amount of Postage Stamps sold by stamp vendors who are also remunerated by a commission.

In other items the variations are small.

Notwithstanding the increase in the number of Post offices, of post routes, and in the annual mail travel, and in correspondence as well as in Railway payments, the general total of Expenditure for 1863 is less than that for 1862 by \$2,207.10.

RAILWAY MAIL SERVICE.

Under date of 12th Aug., 1863, an Order in Council was passed respecting Mail Service by the Grand Trunk Railway, which regulated the relative conditions of mail conveyance and rate of payment from that date, in the following terms :—

1. That the Grand Trunk Railway Company be allowed a rate of sixty dollars per mile of railway per annum, for the following Service, viz. :—

One Daily Mail Service each way between Toronto and Quebec, by the Company's ordinary Express Passenger Trains, running continuously, and without any break of connection at any intermediate point.

One Daily Mail Service each way between Toronto and Sarnia, and St. Marys and London, by the Company's ordinary Express Passenger Trains.

One Daily Mail Service each way between Quebec and Rivière du Loup, by the Company's ordinary Passenger Trains, and

One Daily Mail Service each way between Richmond and the Boundary Line, by the Company's ordinary Passenger Trains.

Such trains respectively being supplied, as hitherto, with travelling Post Offices, properly warmed and lighted, and comprising, as nearly as may be, one third of a car, and exchanging Mails at the Way Stations at which the said trains ordinarily stop.

2. In case the Company runs a second Passenger Train (express, accommodation or mixed), between Sarnia and Quebec, between London and St. Marys, or between Richmond and the Boundary Line, there be allowed to the said Company forty dollars per mile of Railway per annum, for each mile of Railway covered by such second daily train, for the like use of the same.

The above allowances to include free passage for such officers of the Post Office Department as the Postmaster General may from time to time require to accompany the Mails, or to travel on the railway on the business of the Post Office.

This Order in Council applies to the rate of payment for Mails carried over the Grand Trunk Railway in traveling Post Office cars, and the Order in Council of September, 1858, remains in force as respects the rate of payment for Mail bags sent over the railway as Baggage or Freight, in charge of the Company's servants or a Post Office guard without a Travelling Post Office, such rate of payment being two cents per single train mile for any weight of Mail bags not exceeding two cwt., or in that proportion for any greater weight.

CORRESPONDENCE WITH EUROPE.

The following is a Statement of correspondence transmitted by the Canadian Mail Steamers from 13th Nov., 1862, to the 21st Nov., 1863, including 52 weekly voyages each way :

	Letters.	Newspapers.	Books.
From Europe for Canada.....	447,000	604,000	16,000
From Canada for Europe.....	430,000	387,000	5,400

From United States for Europe.....	103,000	101,000	
Total to and from United States ..	<u>311,000</u>	<u>330,000</u>	

The gross amount of sea-postage accruing to Canada on the Canadian correspondence sent and received during the year by the Canadian Ocean Steamships, is computed to have been..... \$70,000

The revenue to Canada from Sea Postage on books by the Canadian Mails for the year, probably amounts to 1,700

The amount of postage due to Canada for the sea conveyance of Mails between the United States and Europe was, for the year ending 30th September, 1863, as follows :

For Quarter ended 30th Dec., 1862.....	\$17,481 15
Ditto 31st March, 1863.....	23,039 01
Ditto 30th June, 1863.....	17,911 04
Ditto 30th Sept., 1863.....	15,440 12
	<u>73,571 32</u>

This is the sum for which the United States is accountable to Canada as the postage of this period. There is a further sum due for sea postage on French closed mails to and from the United States, which is not included in the above figures, the amount being accounted for to Canada through the British Post Office, and which is estimated at... 4,500 00

\$149,771 32

The total gross revenue now arising from our Ocean Mails is thus about \$150,000.

The Canadian Inland Postage on this correspondence probably amounts to \$17,500 more. The customary Return of the passages made, and freight and passengers carried by the Canadian Mail Steamships for the season of 1863, is appended.

CORRESPONDENCE WITH UNITED STATES.

There has been a very notable increase in the amount of correspondence exchanged with the United States during the year 1863.

In 1862 the amount of postage on this correspondence was \$190,713.97, and in 1863 it has been \$223,115.46, equal to an advance of 17 per cent.

These amounts represent the charges on letters only, for newspapers do not enter into the account, as each country collects its own postal rates on all printed matter sent to or received from the other.

The increase has taken place at all the principal points of exchange, on the Detroit and Niagara Frontiers at the rate of 15 per cent., at Toronto at the rate of 25 per cent., and at Montreal at the rate of 24 per cent., as compared with 1862.

In 1852 the total correspondence exchanged was.....	\$	85,636	97

The exchange of correspondence in 1863 took place at the undermentioned offices and frontier points. It will be observed that this account is kept for statistical purposes only.

REGISTRATION.

About the same number of registered letters passed through the mails in 1863 as in 1862, namely, 520,000.

The cases of alleged loss or abstraction of contents or portions of contents of registered letters during the year, were 43.

Of these 43 cases there were :

Registered letters in mail packages stated not to have reached the post offices for which the packages were destined; cause of miscarriage not ascertained.....	9
Registered letters of which contents or portions of contents were stated to be missing on the receipt of the letters.....	16
Registered letters lost or miscarried, owing apparently to careless treatment in post offices, and of which the contents were consequently made good by the officer in fault.....	11
Registered letters proved to have been stolen from post offices or mails <i>en route</i>	1
Registered letters accidentally consumed by fire whilst under conveyance by railway..	1
Registered letters delivered from a post office to a wrong person..	5

43

It will be observed that sixteen, or more than one-third, of the above cases arose upon differences between the senders and receivers of remittances by registered letters, as to the exact amount of the enclosure. It occasionally happens with complaints of this class, that enquiry elicits proof that a mistake in counting has been committed by one party or the other; but, for the most part, no evidence can be had beyond the mere assertions of sender and receiver as to the accuracy of their respective statements.

In eleven cases a neglect of duty as regards the registration duties was proved against officers of the post office, post masters, railway clerks, &c., and, in conformity to the general regulation of the Department, the sums lost in consequence of such negligence were made good by the officers in fault.

Of the remaining 16 cases, five were thefts, including three by a courier who was tried and convicted of the offence; nine registered letters were in mail packages which were miscarried during the year, and were not recovered; one registered letter was destroyed by the accidental burning of a car upon the Great Western Railway; and one letter was delivered from a city post office to a claimant who falsely personated the individual addressed.

This analysis shows that every one of the 520,000 registered letters of the year 1863 has been accounted for.

Registration will not preclude disputes as to the number of the bank notes in a remittance, nor shut out all risk of a mail package or letter being lost from carelessness or dis-

honesty; But it is satisfactory to observe that no registered letter has been lost during the year from any cause against which any practicable system of registration could have guarded it.

MONEY ORDER EXPENDITURE.

The total Expenditure for Superintendence, Printing and all contingencies is shewn by the Return to have been..... \$10,720 87

In 1862 the net Money Order Revenue was stated at \$8,857 10
 Less error in difference of conversion, sterling and currency..... \$ 970 05
 \$ 7,887 05

In the same year the Expenditure was..... \$13,674 68

The Expenditure of 1863 has been less than that of 1862 by \$2,953 76, but the Revenue has not been so large as was anticipated in last year's Report.

Forty-nine new Money Order Offices were authorised from the 1st April 1863, and two on the 30th Sept. '63. The number now in operation in Canada is 276.

In the month of March last a notice was issued by the Department, stating that whereas the commission charge to the public on Money Orders issued and payable within the Province had, in 1858, been increased from one-half to three quarters per cent., the then Postmaster General had, after a careful reconsideration of the subject, come to the conclusion that a return to the half per cent. rate could be made with equal advantage to the public and to the revenue. From the 1st April 1863, therefore, the following scale of charges was adopted and remains in force:

An Order up to \$10.....	5 cents.
Over \$10 and up to \$20.....	10 do.
Over \$20 do. \$40.....	20 do.
Over \$40 do. \$60.....	30 do.
Over \$60 do. \$80.....	40 do.
Over \$80 do. \$100.....	50 do.

Since the establishment of the additional Money Order Offices, and the reduction of the rate of commission, the amount of the transactions has considerably increased.

For the six months ending 30th Sept. 1862, the issues were. \$277,998 78
 For ditto do. 30th Sept. 1863, do. 400,949 20

Increase..... \$122,950 42

There has been no loss sustained during the year by fraud or otherwise with respect to Money Orders.

An arrangement for the exchange of Money Orders between the Post Offices of Canada and Nova Scotia, came into effect on the 1st January, 1864, upon the following basis, namely:

That, to avoid difficulties of exchange between the two Provinces, the Orders should be drawn in sterling money, and balances due from one Province to the other, on account of these transactions, should be adjusted in the same medium.

That the limit of an Order should be £10 sterling, and that the charge to the public for commission should be

For Orders under and up to £5 stg..... 25 cents.
 For Orders over £5 and up to £10 stg..... 50 cents.

A similar arrangement has been proposed to New Brunswick.

O. MOWAT,
 Postmaster General.

* By an accidental error of calculation, the Net Money Order Revenue for the year 1862 was stated in the Report of that year at \$8,857.10—it should have been as above, \$7,887.05.

† This decrease in expenditure is chiefly owing to the abolition of the Money Order Inspectorship.

PUBLIC ACCOUNTS

OF THE

PROVINCE OF CANADA,

FOR THE YEAR

1863.

LAI D BEFORE THE LEGISLATIVE ASSEMBLY, FEBRUARY, 1864.

QUEBEC:

PRINTED FOR THE CONTRACTORS, BY HUNTER, ROSE & LEMIEUX,
ST. URSULE STREET.
1864.

*To His Excellency The Right Honorable CHARLES STANLEY, Vis-
count MONCK, Governor General of British North America,
etc., etc., etc.*

MAY IT PLEASE YOUR EXCELLENCY :

The undersigned has the honor to present to Your Excellency the Public Accounts for the year 1863, together with the Report of the Board of Audit thereon.

All which is respectfully submitted.

L. H. HOLTON,
Minister of Finance.

Quebec, 20th February, 1864.

AUDIT OFFICE,
Quebec, Feb. 13, 1864.

SIR,—The public accounts for the year 1863, which we have the honor to submit to you, exhibit a more favorable balance than has been the case for several years past. The five great sources of revenue, the Customs, Excise, Public Works, Post Office and Territorial Revenue, have together produced \$7,662,490.98, which exceed the receipts from the same sources in 1862 by \$1,104,961.00; the minor revenues of the Consolidated Fund have realized \$914,821.02, being an increase upon 1862 of \$119,835.10; and the receipts of the Trust Funds and other open accounts have been \$1,183,004.34, which is an increase of \$127,575.76. Whilst the revenue has thus increased in the aggregate \$1,351,871.86, there has been a diminution of expenditure to the extent of \$228,873.47, making a total of \$1,580,745.33; but in spite of this great improvement upon 1862, there is still a serious deficiency, although very much less than was estimated.

Expenditure, less Redemption of Debt.....	\$10,742,807.41
Receipts, less sale of Debentures and Sinking Fund.....	9,760,316.34

Deficiency..... \$ 982,491.07

We have made one change in the form in which the accounts are exhibited. When the Public Accounts of the year 1858 first gave a statement of the receipts and payments of the year from all sources, instead of those only belonging to the Consolidated Fund, as had been the previous practice, it was thought desirable, for the purposes of comparison, still to show the receipts and payments of the Consolidated Fund separately, and to classify the others according as they were on account of Trust Funds, Guaranteed Accounts, &c., and the Statement No. 3, in which this abstract was given, became thus complicated with 6 columns. It does not appear to us that any useful purpose is served by continuing this cumbersome form any longer, and we think that it will be sufficient to make a simpler division, placing in one column the expenditure charged, or which will ultimately be charged against the Consolidated Fund, and in another that which is carried to open accounts in the ledger, a characteristic which is common to all those accounts which were formerly subdivided into three classes, the limits of which were not very clearly defined.

For the same reason, we have thought it unnecessary to retain the column of Unprovided Items, a detailed statement of which is given elsewhere in the volume. The receipts are classified upon the same principle.

By great exertion, the Public Accounts are ready to submit to Parliament more than a month earlier than was ever the case before; but this has only been possible by having a large part of them printed off, before the receipt of the accounts from the London agents, and from many of the sub-accountants in Canada, had enabled the ledger for the year to be finally closed and balanced. This has been the source of much additional labour and anxiety, of greatly increased liability to error, and we desire to renew the suggestion made last year, that, if an early meeting of Parliament is desired, some change should be made in the termination of the financial year.

All which is respectfully submitted.

JOHN LANGTON,
Auditor.
WM. DICKINSON,
Deputy Inspector General.
R. S. M. BOUCHETTE,
Commissioner of Customs.

To the Honorable
LUTHER H. HOLTON,
Minister of Finance.
