CREDIT RATES OF PREMIUM.

THE great and decided success which has attended this Institution, has induced the Directors to REBUCE the RATES originally required in British North America, to the ordinary European Rates. The result of such Reduction is to enable parties to avail thersleves of the important benefits to Life Assurance at much loser Rates of Premium than those of any other danarame Company & unsecting business in Canada.

The Directors have also resolved to extend to British North America the advantages afforded by the HALF CREDIT RATES of PREMIUM which have been so highly approved, and are so generally adopted by Policy Holders in the United Kingdom. The most libraria conditions are likewise offered to the Assured in the limits to which they may proceed by sea or land, to other parts of North America without affecting their Interest in their respective Policies.

Mr. J. Morrison denied that the Inspector-General could have been ignorant of the Bill up to that moment, as he had said, since that gentleman had actually lakes part in the debate. The parties were called appendions, but they would not put their names to wint they were not ready be earry out, and their names would carry as much veight as that of the hose member for Oxford. Now was the trude insensitienthie in any year 7010 to us of goods had massed up Lake Superior, and the cost of freight from that Lake is Introft was a great as thence to England. It was too had that the Government should prevent other passons from making this canal while they dured not retake it themselves, meanly because persons from was spect in Upper Canada. The Government was a part in Upper Canada. The Government of the participant would be only the the work, and the patitioner would all be satisfiedly for that was all hey wanted. He ought it next unfair too, to allow a bill 'like this jans through all its stages, at great trouble to the pittiners, and then to stop it at the initial meding.

Gol, Prince supported the bill, and complained of the little favour accorded to private assertion.
