**Exhibition Projected.**

The Mechanics' Society held its regular meeting last night. After general routine business was gone through, considerable discussion took place in regard to the repairs to the hall and the heavy cost incurred thereby. It was decided to hold a mechanical exhibition and sale of work during the first week of November next to help defray the expenses incurred in renewing the roof and otherwise renovating the building. It was also agreed upon at the meeting that every member is to do some article relating to his own trade, which article can be sold at the exhibition for the benefit of the Society. It is to be hoped that the efforts of the members of this old institution will be attended with much success.

**Patriotic Movement.**

At the public meeting of the Regatta Committee to be held the latter part of this month for the purpose of deciding about the abandonment of the regatta for this year, there will also be considered the feasibility of holding a Garden Party in the vicinity of the Mill Lake on the first Wednesday in August, in aid of the Patriotic fund. The idea is considered good and no doubt will meet with the approval of the Regatta Committee. It may be pointed out that the first Wednesday in August is set down as a general holiday and there is no doubt already booked for that day.

**GORGEOUS PANTOMIME AT ROSSLEYS.**

Last night Rossley's was crowded to the doors, and its safe to say that the pantomime will be town talk for the positively beautiful. Mr. Ballard Brown, the villain of the play, sang an Italian song in great style; Miss M. Lorde made a delightful Boy Blue, and was loudly applauded, as she deserved to be; Mr. Deakin, as the Old Man, was also very good; Bonnie Dinsley, as Bo Peep, was charming in her quaint costume, also in her magnificent wedding costume. The Sunshinette Girls excelled themselves. The transformation scene was one of the most beautiful sights ever seen and must have cost money, time and wonderful patience. The dances of Spring, Summer, Autumn and Winter were delightful. Jack Rossley, as the Simon, who bought a watch and had the works fell out, had the crowd's house in roars of laughter. There was a special matinee on Wednesday under the distinguished patronage of the Excellency the Governor, Lady Davidson and the Misses Davidson.

**AT THE CRESCENT.**

A large number of ladies and gentlemen, young and old, attended the Crescent Picture Palace last night and were charmed with the big show and little money. The headliner "The Passing of Diana," is a great 2-reel special feature by the Vitagraph Co., beside two splendid dramas and two comedies. Mrs. Hannaford sings one of Irving Berlin's fine ballads and the music furnished by the talented pianist, Mrs. Nurse, is appropriate and pleasing. The same show will be repeated to-day and the admission fee for the summer months is five cents. To-morrow another big 2-reeler "The Right of Way" will be the headliner.

**BRITISH THEATRE.**

A splendid entertainment was projected at the above house last night. The consensus of opinion being that it was undoubtedly a "bill" of exceptional merit. The two reel photo-play "Gwendolyn" adapted from one of the late George Eliot's famous works, be-

Brings Home the Key of 1915 Seal-fishery.  
Though not a unique occurrence, it is certainly very unusual for any sealing steamer to return home on June 15th, as was the case this morning, when the s.s. Bloodhound, Capt. Alpheus Barbour, quietly crept into port shortly before eight o'clock, accompanied by the s.s. Fogota, with 4,845 seal pelts stowed below. As previously noted, the Bloodhound got a severe squeeze in the ice on the northern sealing grounds during the latter part of April and had her tail shaft carried away, being rendered helpless, until taken in tow by the s.s. Eagle and brought to Pool's Island where she remained for a month and a half. Her crew went home with the exception of the captain, two engineers and bosun. The Fogota took the Bloodhound in tow at Pool's Island last evening. The Bloodhound's catch brings the total number of seals for 1915 up to 61,641. Her seals are fed in and in good condition and will be discharged to-morrow at the South-side.

**The Passing of Judge Knight.**

With profound regret we record to-day the passing of Judge Knight, whose death occurred at his late residence, Military Road, shortly before 8 o'clock last evening. Though the deceased had been ailing for some considerable time past, and it has been apparent that death was near, the end came rather suddenly. Only four weeks ago he returned from Montreal whither he had gone to consult specialists, only to find that his malady was beyond medical skill. With many courage and Christian fortitude, he waited for the inevitable summons, shielding his little ones from the knowledge that their much cherished father was soon to embark on his last long voyage. Arthur W. Knight, K.C., was the youngest son of the late Capt. William Knight, and was born in this city in 1862. After a successful career at the Methodist College he entered the legal firm of McNelly & McNelly. In due course he became Barrister and started practice. Later he entered into partnership with the Hon. S. D. Blandford, and subsequently with the Hon. Donald Morrison. He was appointed Clerk of the District Court and acting Judge in December, 1909. During the absence and illness of the late Judge Conroy, he filled the position with marked ability. Being versed in the law, sound in judgment and at the same time humane and considerate, he won the admiration of all; and when Judge Conroy died away there was but one opinion as to his successor. His commission as Judge of the District Court, was issued only recently, and at appointment he was never privileged to fulfill Judge Knight leaves many relatives and friends to mourn, the immediate family being a widow, formerly Miss Dicks, and three children, two girls and a boy; two sisters, Mrs. Fannie Pratt and Miss Sophie Knight, and three brothers, Mr. Allan Knight, of Regina, Sask., Mr. Arch. H. Knight, Contractor of this city, and Mr. Edwin Knight, of Smallwood's. To these and the other relatives and friends of the deceased the Telegram extends sincere sympathy. Judge Knight was in his 53rd year. He was a member of St. John's and White-way Lodges, A.F. & M. Having joined the former Lodge over 30 years ago. The funeral will take place from his late residence No. 5, Military Road, to-morrow afternoon.

**Was Worth \$43,000.**

The deceased Robert J. Power, broker for many years of H. M. Customs, died intestate. His estate is said to be worth forty-three thousand dollars (\$43,000), which is to be divided between two surviving sisters, one here in the city and the other in the United States. No successor to the late Mr. Power has been appointed yet. We hear there are 70 applicants in for the job.  
Never attempt finer housekeeping than you can afford.

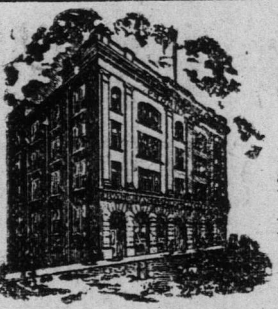

**BREACH OF PROMISE.**

In the breach of promise case between Miss Margaret Snow and Capt. Enoch Falk, which was up for hearing before the Supreme Court yesterday, and which was satisfactorily settled between the parties as already referred to in the Telegram, the defendant agreed to pay the plaintiff the sum of \$500 and costs. P. A. Higgins represented the plaintiff, and W. J. Higgins, the defendant.

**POLICE COURT.**

A furler, drunk and disorderly, was ordered to give bonds for his future good behaviour. Two men for loose and disorderly conduct were fined \$2 or 5 days. Another disorderly conduct case was postponed till Saturday next. A 38 year old carpenter for drunk and disorderly conduct and violently resisting arrest was ordered to give \$50 bonds.

Seventh Centenary of Magna Charta.

This week is one of important historic memories. Yesterday was the anniversary of the battle of Naseby, in which the forces of the English Commons inflicted a decisive defeat on the Royalists in the fight for Parliamentary power in 1645. It also marks the triumph of the French over the Austrians at Marengo in 1800.

To-day is the greatest anniversary of all in the history of the fight for English liberty. It is no mere anniversary or even a mere centenary, but the Seventh Centenary of the signing of Magna Charta, which the Barons in arms forced upon King John on the field of Runnymede on June 15th, 1215. Hallam calls it "the keystone of English liberty."

Police Court.

(F. J. Morris, K.C., J.P.)

After the business on the docket of the Court had been gone through Mr. Morris said: It is my sad duty to announce officially here to-day that since this Court last sat the Judge of the Central District Court has passed away.

Judge Knight's death terminating a very short illness was not unexpected by his friends as the malignant character of the disease from which he suffered gave no hope of recovery. The problems surrounding human life, although oft-times probed, have never yet been solved even by the deepest thinking philosophers.

ROME, To-day. A despatch from Sofia says, M. PEACEFUL OUTCOME LIKELY.

WASHINGTON, To-day. President Wilson feels encouraged by the reports that pending negotiations between Germany and the States most likely will have a peaceful outcome. SIR EDWARD GREY AS A FISHERMAN. NEW YORK, To-day. A despatch from a staff correspondent in London to the American, says Sir Edward Grey, who according to an official announcement is taking a vacation to rest his eyes, is not likely to get much rest, if reports current in diplomatic circles here, are based upon truth. It is said Sir Edward has gone to Bucharest to bring about the

intervention of Roumania in war on the side of the Allies, in the same way he went to Rome about Easter time to bring Italy, although it was then announced he had gone fishing. He landed a big fish on that visit and is expected to be equally successful in his present venture. It is a safe prediction that in a week or so something will be heard from Roumania that will be pleasant news to the Allies.

The declaration of Prince George of Greece in a statement discussing the internal situation in his country, issued before his departure from Bari and Piraeus. We are on the eve of an understanding between M. Venizelos and M. Gournaris, he continued, which will settle the future attitude of Greece. Everyone in our country realizes this is no time for internal struggles.

THE HOLLAND BLOCKADE.

LONDON, To-day. The Times Hague correspondent says that from midnight, June 15, the blockade of German and Austrian goods passing through Holland for the United States becomes absolute.

DESTROYED ZEPPELIN AND PARASEVAL AIRSHIP.

LONDON, To-day. The Allies' airmen who raided the Zeppelin sheds in Brussels, June 7, not only destroyed one Zeppelin but one Paraseval airship, declaring it is impossible to accept a Balkan understanding on such terms. M. Radoslavoff and his Cabinet, will use pressure on Serbia and Greece because the end and conception of the Quadruple Entente was passed on right and just consideration and the national aspirations of the Balkans must prevail.

BISURATED MAGNESIA

A well-known medical writer says: "I always first prescribe Bisurated Magnesia in every case of hyperacidity (sour acid stomach) that comes to me."

Zeppelins Overestimated.

German Aircraft Cannot Do Serious Harm, Says Hudson Maxim.

Hudson Maxim, the famous war expert, inventor and author, has the following to say about the Zeppelin air raid on England:

The German air raid on England fully demonstrates the impracticability of the Zeppelin as an engine of war. Germany has been threatening to blow up the British Isles with the bombs that her great gas bags might drop out of the heavens, and I dare say many thousands of timid Anglo-Saxons have prayed against the coming of that fatal day.

Now at last the much vaunted and long-anticipated Zeppelin invasion has come, and what is the result? Four or five peaceful citizens killed and a few thousand pounds of property damaged. Indeed, I believe this sort of fighting which Germany thought would throw the British into a state of terror and perhaps hasten the day of Teuton victory, will do England more good than harm.

It will arouse the British to the still greater need of being armed to the teeth. It will encourage enlistment. England has had so much peace talk during the last few years that it needs just such a spur to rouse it to the practical needs of the time—to the necessity of mustering all its martial strength for the overthrow of the enemy.

I was asked not long ago what would happen if a German dirigible should drop bombs on the Houses of Parliament or Westminster Abbey. My questioner was a man who had great faith in aerial attacks and believed the future wars would be settled by raids of fire out of the skies.

I laughed at him. I said that even if a Zeppelin should drop the most powerful explosive that could be carried by such aircraft into the very middle of the Houses of Parliament it would simply break some glass and perhaps blow a hole in the floor.

Even if Germany could send 100 Zeppelins a day to London and each one blew up a house—which of course they could not do—this would wreck only 36,500 buildings during a whole year. As 60,000 buildings are erected in London every year, the Zeppelins would only cut down the normal growth of the city a little more than half.

There are four reasons why an aerial attack is inconsequential and not really to be regarded seriously.

First—The explosion of the aerial bomb is like an inverted cone. Its force rebounds and escapes upward. Only a small point of force is thrust downward. Not unless the bomb can be hurled so as to penetrate an object before exploding can it effect much destruction.

Second—The airship cannot aim accurately. It is moving forward perhaps thirty-five miles an hour. Consequently the bomb is carried forward as well as downward by the force of gravitation. Unless the marksman is exceptionally fortunate he cannot hit what he aims at. He strikes therefore in haphazard fashion.

Third—Nearly always these aerial raids are conducted at night, which adds still further to the likelihood of failure.

Fourth—The Zeppelin is a slow, unwieldy craft and is therefore exposed to counter-attack from the more agile aeroplane or the fire of high angle guns from the earth.

I believe that the Germans must have realized that their aerial warships could not really work much material harm and so planned these raids more for their moral effect upon the British. In this I believe Germany has made a great blunder. She has miscalculated the nature and temper of the Anglo-Saxon lion. Most times the great beast appears more or less stolid and does not show stealth. But twist his tail and you find a roaring monster. The Zeppelin raid will do just this.
