Illness of Charles Bradlaugh—Fastest Train in the World to Run on an Electric Railway.

THE BEHRING'S SEA QUESTION. LONDON, Jan. 17.—United States Minister Lincoln is being cordially received, officially and privately, on his return to England.

TRADE RELATIONS WITH JAMAICA. Advice from Jamaica state that active negotiations are in progress between the colony and Canada for reciprocal commercial arrangements that will exclude the United States, and secure the British West Indies for a market for Canadian produce.

MORE TROUBLE IN BUENOS AYRES. A cable from Buenos Ayres states that the city is actually in a condition of siege, troops being kept ready to repress any outbreak against the government, and a close surveillance is maintained upon suspected persons.

THE EMPEROR TO VISIT FRANCE. A good deal has been said about the Emperor's purpose to visit France. That he has entertained such an intention there is no doubt, but so far, the arguments presented by his family and advisers against it have prevailed.

THE EMPEROR TO VISIT FRANCE. A good deal has been said about the Emperor's purpose to visit France. That he has entertained such an intention there is no doubt, but so far, the arguments presented by his family and advisers against it have prevailed.

FASTEST TRAIN IN THE WORLD. The Hungarian minister of commerce has under consideration a plan for the fastest train in the world, to be run on an electric railway, and to carry passengers from Vienna to Buda Pesth, 156 miles in two hours and a half.

ROUND TOWERS IN TURKEY. According to a Vienna despatch, people who have wondered at the ancient round towers of Ireland, can now see their counterparts on the Turkish-Montenegrin frontier, where the Turkish government has completed the erection of a chain of similar towers to help in the defence of the empire.

ILLNESS OF CHARLES BRADLAUGH. The illness of Charles Bradlaugh, the noted orator and free thinker, is serious, and gives rise to much anxiety among the numerous friends of the sufferer. Mr. Bradlaugh's treatment is, however, complicated with heart affection.

WOMAN'S RIGHTS AGITATORS SUPPRESSED. Advice from Prague state that certain women's rights agitators have recently made themselves obnoxious to the authorities by the disorderly and scandalous conduct of a meeting held by them, and as a consequence the Bohemian diet has ordered that no meetings for the advocacy of female suffrage or kindred doctrines shall henceforth be held in that country.

HUNGARIAN EXPOSITION. Hungary is arranging for a grand international exposition to be held at Pesth, in 1893, to celebrate the thousandth year of the Hungarian constitution.

DISASTROUS CONFLAGRATION. A disastrous conflagration occurred, today, in the Prussian town of Schloppoe. A number of corn starch factories and saw-mills were destroyed, the total loss being two million marks.

"THAT MOST DISTRESSFUL COUNTRY." LONDON, Jan. 17.—The Irish contest loses nothing of its bitterness with the lapse of time. The plan of Timothy Healy to form a national federation to be composed of anti-Parnellites, gains but little headway, partly on account of the sponsorship of Mr. Healy, who has made many enemies by his scurrilous course, and is disliked by many, even in his faction, but also because those who hope for peace look to Messrs O'Brien and Dillon for confidence and will not act till they have been decisively assured from them.

THE ARGENTINE TROUBLES. South American affairs are causing renewed anxiety in Great Britain, and has important trade relations with Chile, and British sympathies are with the government there, which has always been conciliatory to British interests. Confidence is felt that President Balmaceda will succeed in subduing the rebellion. More anxiety is aroused by the situation in Buenos Ayres, where the government is taking a course calculated to drive foreign bankers and capitalists from the republic by levying a tax of two per cent. on the deposits in private banks, from which tax the state banks are

considerably better, and asking that the press contradict the report that the army was to blame for the tragedy at the Wounded Knee. Those reports, he says, do grave injustice to the soldiers, and are investigated by those adverse to an honorable settlement of the present trouble, and hostile to the desire of every true friend of the Indians, that they be permanently transferred from the Indian reservation to the department. It is only by such transfer that the Indians can expect just treatment. He says the trouble at the Wounded Knee originated through interested whites, who had some secret and industriously misrepresented the army and its intentions. The Indians were led to believe that the true aim of the soldiers was their extermination.

THE END NOT YET. The Hoped-For Termination of the Indian Outbreak Has a Very Unfavorable Appearance. The Little Town of Buffalo in Danger of Attack—Mysterious Signal Fires.

The Colonist. FRIDAY, JANUARY 23, 1891. THE GOVERNOR'S SPEECH.

The Governor's speech has one great merit—it is short. It is not burdened or mystified with unnecessary clauses. It means business from the first paragraph to the last.

The measures promised by the Government are not numerous, but they are of great importance. It seems to us that reforms which will spread over a wide field and be most beneficial in their results, are shadowed forth in a few short sentences.

We trust that the measure for amending the Act regulating the sale of intoxicating liquors will effect the reforms which are so much needed and which are so loudly demanded by the advocates of temperance as well as those who are not teetotalers.

THE AMENITIES OF MEETINGS. We like to see people lively at a political meeting, or for the matter of that, at any meeting convened for a secular purpose.

Mr. A. J. McLellan was not elected. He would, we are satisfied, have made an excellent councillor. The fates, however, were against him.

Self-respect should keep a man quiet even when he cannot agree with what is said. The man who howls and hisses and stamps takes a good deal of trouble to advertise himself.

UNFAITHFUL. There is a clergyman in Jersey City who seems to have mistaken his vocation. He held a series of evening meetings lately that were attended by a number of young people of both sexes.

THE CIVIC ELECTIONS. The elections for Mayor and City Council have turned out pretty much as most people expected.

Victoria, B. C., is not the only city in the Dominion that wants a drill shed badly and is not able to get it.

less, up to the scratch. It would act in something like the same way that physical force does in the case of nations.

OCEAN CATTLE TRADE. Mr. Plimsoil has given great offence to merchants and others interested in the cattle trade of the Dominion.

BREACH OF PROMISE. Ought actions of breach of promise of marriage to be abolished? is a question which was lately discussed in the English newspapers.

THE MORAL REFORM MOVEMENT. To the Editor:—In your reference to Mr. Wilson's meeting, on Wednesday evening, you are good enough to mention my name in connection with the unseemly disturbance that was kept up throughout the entire evening.

IN THE SAME FIX. Victoria, B. C., is not the only city in the Dominion that wants a drill shed badly and is not able to get it.

a privilege of speech or action, that is the inalienable right of each and all, for me to be the judge in so serious a matter.

It has been charged that ministers have come down from their high position to interfere with politics.
