Montreal Stock Market.

**CANADIAN PACIFIC STRONG —
MARKET GENERALLY DULL.**

Montreal, July 5, 1899.

The largest transaction to-day was in Republic Mine, of which stock 3400 shares were bought at prices ranging from $\frac{3}{4}$ to $\frac{1}{2}$ better than the closing price before the holidays. Canadian Pacific came next in quantity with 654 shares, 4 of which registered 450, the same as Friday's close, 1 point above it, the rest at $\frac{1}{2}$ above the minimum to-day. Toronto Ry. was $\frac{1}{4}$ better, and at this advance 25 shares were purchased. What little was done in Bank of Montreal was chiefly at an advance of 1 over last figure. London quotations, phenomenal Dominion Day earnings, and the quiet conclusion of half yearly settlements, which threatened to be critical in European continental markets, disturbed also markets the world over, have all aided in giving this morning's Board revived prices. These prices it is anticipated, will not merely keep steady but rise considerably. London speculators have been of late more influenced towards American securities than to stocks whose political crisis seem unavoidable, and even to British stocks of a certain class with which the London market is glutted. For the setting-in of a full tide of speculation in Canadian stocks, a Montreal market steady and even progressive is wanted, and the tone of the Stock Exchange to-day was true if not of so great volume as might have been desired.

MONTREAL MINING EXCHANGE.

The renewal of business after the four-days holiday was on a tame scale. Prices show a strong disposition to sag, and lower quotations for the next few sessions are more likely than higher ones. Golden Star commanded most attention, but as has been the case lately, buyers had things pretty much their own way in the stock. Republic was on the soft side, and the few shares that changed hands brought 125. As may be seen from the list of sales, transactions, though small, were well distributed over the list.

NEW YORK EXCHANGE.

STOCKS ACTIVE AND STRONG—
GRANGERS FIRM—SUGAR BUOY-
ANT.

New York, July 5.

The local market opened strong this a.m. but there was some irregularity in prices. Good stocks, however, all showed advances as compared with Saturday's close, and in some cases these advances were quite considerable. As might have been expected, the higher prices invited some liquidation on part of people who had got in at lower figures last week, and this selling caused the market to display a slightly halting tendency after the opening and all round the Room there were fractional recessions.

Brooklyn Rapid Transit was one of the strongest stocks. It is said that officials and employees have arrived at an amicable settlement and there is no longer any probability of a strike. Flower & Co. were buyers of it this a.m. and there was also scattered covering.

St. Paul was particularly strong on the excellent earnings for fourth week in June, they showing an increase of \$229,119.

Sugar advanced without any special reason being given. There was some good buying, however, and Keane Brothers are said to have taken a good deal of the stock.

Money market continues to show closeness; loans being made as high as 6 p.c. on call. It seems quite likely that one shall see tight money for balance of the week, but that by Monday the market should have adjusted itself and will be in a normal condition.

Conditions seem to point to a much more active and buoyant business this summer than usually follows a winter of successful speculation in Wall Street. Many of those who made fortunes during the boom of 1898-99 have remained to increase their wealth by judicious speculation while the opportunity still continues to present itself. They are wise enough to see that the harvest is by no means at an end, nor is the grain all threshed. It is true that this element has grown more discreet and discerning, and will not have the wheat with the weevil in it, but in these very traits on the part of a considerable faction among the public market judges base their hope of a substantial movement among the best class of securities.

The event of the week has been the activity and strength of the Vanderbilt properties, especially of New York Central. The acquisition of the Boston & Albany system will greatly strengthen the Central's influence in the East and the terms proposed, while equitable to the stockholders of the absorbed road, will unquestionably add substantially to N. Y. Central's earning capacity. The benefits of the Lake Shore deal are already apparent. That road is now contributing 2 p.c. to the Central's earnings and when the great refunding scheme is completed in 1903 will double its contribution. We look for a steady advance in the price of N.Y. Central's stock, and we think that all of the Vanderbills are good purchases.

NEWS OF THE MINES.

Rossland, B.C., July 1st.

The shipments from Rossland Camp for the first six months of the year total 64,277 tons against 38,877 tons for the same period of 1898, an increase of 25,300 in the six months. During the week just ended the Leroi made no shipment on the 30th, and 31st. The piston of the compressor which broke some weeks ago, and which was then temporarily mended and has been taken out, and replaced by a new one, and this caused the mine to shut down, for two days. No shipments were made over the Columbia, and Western, one day during the week owing to the track being blocked by an ore train, that got off the track three times on the way from the mines to the smelter. The new ore cars, and the want of ballast on the track being responsible for the trouble. Under the circumstances the total of the ore shipped for the week is very good. The following is a detailed list of the ore shipments for the week ending, July 1st and year to date.

CHICAGO MARKET.

MARKET WEAK—BEARS IN CONTROL.

Chicago, July 5.

Openings in wheat lower $\frac{1}{2}$ to $\frac{3}{4}$ than previous close. Corn and oats virtually the same as last quotation. Provisions were very slightly lower also. This decline at Chicago agrees with cable about market on the other side, where a decline is reported owing to lack of support, better news from Russia, Roumania, and Hungary, and an increase in the Liverpool working stocks causing a somewhat easier feeling.

With no exception Chicago market suffered a serious decline in cereals and in provisions. There was movement, but it was a steady downhill movement from opening to closing—the closing prices being considerably lower than the opening. There has been since Saturday $\frac{1}{2}$ million bushels sold in Chicago by one merchant for export. Reports about July prospects are not favorable for average report about wheat Belt is 86.1 against 90.5 a year ago. This is lowest July return in twenty years. It seems to be all right to sell December and buy May corn. Curb 73 $\frac{1}{2}$.

Car lots wheat 277, corn 2364, oats 863. Hogs to-day 39,000, to-morrow 30,000.

England's visible increase $1\frac{1}{2}$ millions stocks of wheat, Antwerp 4,400,000 bu. against 1,208,000 a year ago.
