Montreal Stock Market.

MARKET STRONG IN SOME SPOTS AND WEAK IN OTHERS—VIRTUE HAS CROSSED REPUBLIC—BROAD BUT LIGHT TRADING.—PAYNE STRONG AT 129.

Montreal, March 5th, 1900.

There appeared in some of the stocks some slight indications of strength and in others some unimportant symptoms of weakness, and these so offset one another that value remained at former levels. It was a broad market, there being sixteen stocks traded in, but it was not average sized trading except in Virtue, Payne, Street, Duluth, Dominion Coal and Molson's Bank. Offerings in other stocks were by no means heavy. Virtue, which, by the way, had crossed the price of Republic on Saturday, and has in this way won for a certain broker the bet made on December 12, as recorded in the Exchange News issue of that day, nearly reached the high price on Saturday in one transaction to-day, but at 92, the price of closing sale, it was 3 points lower than the Saturday's closing. As opposed to this, Payne on the last sale of 11,000 shares at 125, gained 2 points on the high of last week. No sale to-day was below 124 and demand and bid prices bespoke great strength. There was decline of 1½ in Montreal Street Trading in this stock was not very heavy, the demand for it, even in hope of new privileges, having for the time slakened off considerably. Activity and advances in Duluth were noticeable, preferred on 200 shares advancing ½, and common on 825 shares gaining also ½ closing at 6. The price 110½ at which Dominion Coal Bonds sold was ½ lower than the previous value; the face value of the block sold was \$5,000. Not a large transaction the changing hands of 68 shares of Molson's Bank was larger than

bank transactions generally are. The price was unchanged. Pacific was ¼ higher and other stocks were about their former levels.

STRAWS.

Virtue in the course of its upward flight on Saturday passed Republic.

In mining stocks the good things to buy are Virtue, Payne and North Star. All splendid properties and controlled by good people.

At the meeting of Directors of American Sugar Refinery today, a quarterly dividend of 1½ p.c. was declared.

C.F.R. Co. realized in February by the sale of lands \$75,771.59.

Surplus of Twin City earnings available for dividends on common stock was equal to nearly 3½ per cent. on the capital. Two dividends were paid—one of one per cent. for the first six months, and the other of one and a half per cent for the last six months, leaving balance carried to surplus account of \$174,775.26.

Per cent. total earnings to total operating for the year was 45.86.

C. P. Railway Co. has not signed the non commission agreement and is threatened by the Northern Pacific and Great Northern with their renewal of payment of commissions unless the agreement is signed next week.

Mr. C. E. Gault left this morning for Baker City, Ore., to attend the annual meeting of the "Virtue Co."

MONTREAL MINING EXCHANGE.

PRICES HOLD THIS LATE BOOM SATISFACTORILY—PAYNE ENJOYS BETTER DEMAND—DECCA EASIER—VIRTUE STEADY.

Montreal, March 5th.

The boom during all last week culminating in the rapid advance last Saturday was less violent during the opening hours of this week. This rapid advance was created by a legitimate demand. To-day the stock to enjoy the most popularity was Payne, which advanced several points on good buying, the demand being of the best. Other stocks remain dull with little change. The week generally starts in a listless sort of a way and to-day was no great exception to the rule.

Virtue after selling Saturday at 95c. reacted somewhat to-day. No doubt the meeting of to-morrow is one of the causes which creates hesitancy. This is only natural after the rapid advance which the stock has experienced. Stock holders prefer awaiting results before making any further aggressive buying. The stock sold to-day at 94 and 93½.

Decca was a little off. The pressure to sell being more than the market could readily digest. 70000 shares changed hands at 6 cents. Late development work on the Manhattan proves conclusively that the Decca vein runs deeper and wider than at first expected, the ore is said to well maintain its value.

On the 600 foot level of the Iron Colt the shaft is now being sunk. The station lately cut out is complete. The quotations were only nominal to-day. There being no buyers in the market.

Montreal-London showed signs of revival although trading was only accomplished in broken lots. The quotations for the stock being 28½—28.

On the Evening Star, development work is exposing some good sized bodies of ore of a pay grade.

Reports from the North Star are of an encouraging nature. Buyers were bidding \$1.10.

Payne sold as high as \$1.25, closing at that figure. This is at an advantage of five points from the sales of last week. 7,500 shares sold all the way for 1.23, which was the opening price to 1.25.

NEW YORK EXCHANGE.

ATCHISON PREFERRED — L.N. & B.O. ADVANCE ON LONDON MARKET — WALL STREET SAID TO BE OVERSOLD — DEFECTIVE BOOK-KEEPING IN THIRD AVENUE — SUGAR DIVIDEND MEETING TO-DAY.

New York, March 5.

The tendency of the market in London seems to be towards improvement.

Americans opened steady and at about our parity, but have recently advanced somewhat under lead of Atchison preferred, L. N. and B. O. However, there is not much doing; consequently arbitrage transactions in our market are likely to be light. It was said yesterday that on Saturday one or two Bull pools had been formed by men who are convinced that the market is over-bold and that the passage of the Finance Bill will be marked by a revival of speculation.

It is said that the two most important pools are in Atchison and Norfolk and Western. Norfolk makes an excellent statement for January, showing net earnings amounting to \$510,421, as against \$310,014 for same time in 1899. The increase in surplus for the first seven months of the fiscal year amounts to \$889,329. It is the belief that at the end of the fiscal year at least 4 per cent. will be shown to have been earned on common.

The papers continue to have long accounts of the affairs of the 3rd Ave. It is said that Receiver Grant has discovered that the books have been improperly kept, some of them are missing; that copies of important contracts are unobtainable; and that consequently it is extremely difficult to arrive at an accurate conclusion as to the financial status of the company.

There is a good deal of Bearish talk on P. O. Partly on account of fears that the Chicago politicians meditate an attack on the company, and partly on account of rumors that the dividends have not been paid wholly out of earnings; and that a reduction of the dividend is consequently likely. This latter rumor, however, seems to come mainly from speculators for a fall. Friends state that it is a 6 p.c. dividend payer; and will continue to be so for some time.

The event of the week which will be looked forward to with the most interest is the Sugar dividend. The directors are supposed to meet Wednesday, but they do not always meet when expected. The consensus of the opinion is that the dividend will be at the rate of 6 per cent. per annum. Should it be no less a sharp rally will probably take place. The bank statement failed to intensify the bearish feeling which now exists.

MINING NEWS.

ROSSLAND SHIPMENTS.

Rossland, B.C., March 3.—The week has been an unusually quiet one, with but little change in the mining situation. The arrival of some twenty-seven Slavonians early in the week caused a good deal of excitement among the miners. All but two of the party have since left the camp. The mine managers disclaim any connection with bringing the men here. They appear to have been promised employment in the Payne mine at Sandon.

The ore shipments for the week just closed only totalled 351 tons. Appended are the figures for the week ending March 3 and year to date:

	Week.	To date.

Totals	351	32,002

The following table of partially corrected figures shows the shipments for January and February. The tonnage for Le Roi, Evening Star, I. X. L. and the Giant are taken from the smelter returns. Those from the War Eagle, Centre Star, Iron Mask and Monte Christo are approximations:

ROCK FROM SUMPTER.

Rossland, February 24th.

Mr. D. R. Young, of the Kooteney Mining Standard, has returned from a two-

weeks' stay in Sumpter and adjoining camps. Mr. Young reports that Sumpter is one of the liveliest mining camps that he ever visited. The country is fairly swarming with mining men from all over the world, and the situation there reminds him of Rossland in its early days, although the conditions are very different. The ore of the Rossland camp is of the smelting type, while those of the Sumpter camp are free milling, the values being principally in gold. The productive zone is very large, and at present there are some 14 mining companies operating there that are now paying handsome dividends. There are 150 stamps falling on ore in the district, besides several cyaniding plants and concentrating mills. The cost of operating the properties there is very cheap, as the ground is soft and the ore bodies very large. The cost of mining and milling runs from \$3 to \$5 per ton. The average gross value of the ore is \$15, some of the ore running higher and some lower. The country is comparatively open and the mountains are not very steep, and as a consequence it is easy to build roads and to open up the country.

A peculiarity of this section is that the values are not high on the surface, and the deeper the workings the higher grade the ore seems to be.

"I found that the people of this section are largely interested there," said Mr. Young. "Among these are Colonel E. S. Topping, Hon. C. H. Mackintosh, Mr. Michael Shea, Mr. E. O. Finch and Mr. T. C. Gray and several other prominent men of this district.

"There is considerable placer ground there that is yielding well. It is being operated by large hydraulic plants. I believe it is a better place for a poor man to go to than the Klondike or Cape Nome. It offers an especially alluring field for the prospector, as there is a large area that has not yet been prospected, and I look for a number of new finds in the spring and summer. The display of ore which was sent to the Spokane fruit fair from Cape Nome had a great deal to do with advertising that country.

"While I was there I made several investments on behalf of friends, and I am so pleased with them that I have advised them to not sell, but to operate them, as they will yield good returns, I think with a very small outlay."

ORE IN ORO DENORO.

Rossland, February 24th.

Mr. Neill Cochrane, manager of the Oro Denoro, which is being operated by the King Mining company, is in the city. Mr. Cochrane reports that the development of the property is going on rapidly with 22 men at work. No. 3 tunnel is now in for 175 feet, and will tap the vein at a depth of 260 feet. It is expected that the ledge will be met when the tunnel has been extended 50 feet further. In No. 2 tunnel the ore body was crosscut for a distance of 66 feet. No. 2 tunnel was driven a dis-

tance of 150 feet when it met the drift from the shaft. The first 66 feet made on No. 2 tunnel was in ore. The ore body was crosscut here and drifted on for 100 feet. As soon as the No. 3 tunnel strikes the ore shoot the intention is to have a spur constructed from the Canadian Pacific railway here to the dump and to commence shipping ore at the rate of 50 tons per day as the 66 feet to pay ore from wall to wall, and it is like quarrying to take it out. It will probably average \$20 to the ton from wall to wall. Mr. Cochrane feels satisfied when the ore body has been found on No. 3 level that there will be 80,000 tons of 220 ore in sight and even then only a very small fraction of the ore in the mine will have been shown up.

CITY OF PARIS ORE.

A contract was let on Phoenix the other day for the handling of 100 tons of ore daily from the City of Paris mine to the Granby smelter at Grand Forks, and the contractor has already begun work, this being the first Boundary mine to ship to the new smelter.
