Blackwood Was Struck By Torpedo During Snowstorm and Sank in Ten Minutes---Two Submarines Seen by Officer.

Canadian Press Despatch.

NEW HAVEN, Eng., via London. March 10, 1:30 a.m.—The captain and crew of the steamer Blackwood, which was sunk off Hastings at 6 o'clock Tuesday morning, were landed here Tuesday night. They say that their vessel, laden with coal and bound from Blyth for Havre, was torpedoed during a snowstorm early in the morning eighty miles south of Dungeness, without warning. Fortunately in view of the submarine sea zone menace, the men say they had their boats swung out ready for launching and that therefore all of them were saved. Nobody on board the steamer was injured. The vessel sank within ten minutes after she was struck.

AGINCOURT, March 2.—The annual seed fair of the Agincourt Branch of the Farmers' Institute, in the skating rink here this afternoon, was among the best ever held by the association. The exhibits of all kinds of seed grain, potatoes and other farm products were large and of especially good quality. Scatboro farmers are proverbially careful in the selection of seed grain, and to this end the excellent system of agriculture followed may be attributed much of the success attending their exhibits in the local and provincial fairs. new bridge there, the inquest last night at the morgue under Coroner G. W. Graham, into the circumstances surrounding the death of George A Rollings, of St. Thomas, was adjourned until next Tuesday night. Rollings, who was 26 years of age, was found dead beside the north G. T. R. tracks at the foot of Strachan avenue on the night of March 1.

Fireman Weaver, when on the witness stand at the inquiry, told of finding the body while he, with his engineer, was bringing a light engine from Mimico to Bathurst street, about 10.23 at night. Yard Master George German testified that the body was found about two car lengths east of the Strachan avenue bridge, and had been dragged for six car lengths in a westerly direction. He also stated there was a train along the north track at 7.45 p.m.. The engine attached to this train was examined at Minico after the accident, but no sign of anything that would indicate that an accident of this nature had taken place was found.

Defeated on Pilitza.

In separate, sharp battles on both sides of the Pilitza River in central Poland, the Germans on Saturday, Sunday and Monday were decisively beaten off. They probably engaged in this battle with the aim of making their retreat from the Niemen more honorable and also of feeling whether it would be possible to develop a new line of attack in Poland below the exhausted entrenchments along the Bzura and Rawka Rivers. With this will be coupled the withdrawal of the main striking force from East Prussia.

Austrians Badly Failed.

Altogether the Germans have much more reason to deplore the Austrian failures in eastern Galicia than the emptiness of their own campaign from East Prussia. The Austrians have failed to establish even the beginning of a spring campaign, which could affect the general disposition of the Russian armies. Their surrenders during the present retreat southward have profoundly influenced the social feeling

### **CANADIANS SPREAD ALONG BATTLE LINE**

Newspapers Are in Great Demand—French Dictionaries Also Wanted.

Canadian Associated Press Cable. LONDON, March 9.-From letters received here from Canadians at the front it is learned that it is impossible to send them too many Canadian newspapers.' Canucks are all over the 300-mile battle line, which makes it impossible for one newspaper to serve so many men as was the case when

Canadian force papers arrived at the front only two days after the troops themselves.

on the other hand, the "submerged tenth" at home are in straits and likely to suffer this win er-perhaps fully as much as the Belgian refugees. Thousands have already been evicted because of inability to pay their rent, and, with their few belongings in the street, are certainly nearly as much to be pitted as Anothe rthing desired is French dictionaries. This morning a letter came to the Canadian Associated Press from Pte. own . he is worse than an infidel."—

1 Timothy 5:8.

The people at our doors are our responsibility. In many respects the war is more injurious here than in the warring coun ries. There government contracts for army rations, clothing, military apparatus, shipbuilding, etc., are causing great business prosperity, especially in Germany and Great Britain. Here, on the contrary, the avenues of business are dislocated. The foreign absorption of gold causes financial embarrassment and stringency, discharge of clerks, mechanics, laborers, etc.

Few of the awakening ones realize that the present war is permitted for the weakening of the nations, preparatory to the utter collapse of the Present Order of things and the ushering in of the New Order—the Reign of Righteousness, under Messiah's Kingdom. The aroused sleeper should face about to the Sun of Righteousness rising with healing in His learns and blessings for all nations. (Malachi 4:2.) Were this recognized there would be less of the war spirit here at home, less of a fear of what could be accomplished by enemies across the deeps, more of a confidence in the Lord and an endeavor to please and obey Him. But the maddening wine still intoxicates many Américans, and will yet probably embroil our nation in strife.

Religionists Also Awakening

ALL ABOUT ANTICHRIST.

As for religion, those awakened reject the major part of the creeds of the past, yet carefully cling to any rights or privileges which those false doctrines conferred. Thus, the Divine rights of kings, nobles, princes, and governments, and rites and ceremonies, civil and ecclesiastical, are firmly clutched and held high above the people in the interests of the rulers. This is the secret of the willingness of earthly kings, financial princes and subservient religionists to ongage in the present horrible strife. The argument with all is that the end justifies the means. The ends sought are commercial supremacy, political supremacy; and, incidentally the religious systems are praying for the various contestants, whom hey have long taught to believe that they are God's kingdoms, guided by Divine Wisdom.

WAR TAX PROPOSED FOR NOVA SCOTIANS

One Mill on Dollar on All Assessable Property.

HALIFAX. N.S., March 9.—The first direct provincial taxation in the history of Nova Scotla since confedhistory of Nova Scotia since confederation is now proposed by Premier Murray, who introduced a bill in the house of assembly called the Provincial War Tax Act. Luder its provisions it is proposed to levy a tax of one mill on the dollar on all assessable property in the municipalities, towns and cittes of Nova Scotia. The tax, it is estimated, will produce \$117,000 additional revenue. The provincial deficit at the end of the fiscal year was \$113,000.

ence to produce in the "48"-Six, a car which will combine power and speed with comfort, safety and economy of operation. Strength and durability have not been sacrificed to secure extreme lightness, for we know that in the last analysis the car which wins the approval of the motoring public must have not only speed, but endurance. It must be a car that will stand hard driving over indifferent roads; it must do as good work after two or three years of use as when new—and it must be able to take rough roads at a good speed without discomfort

roads at a good speed without discomfort It is such a car as this that we have in the Jackson "48"-Six. Four full elliptic The six-cylinder motor, of the same silent type which has helped to build the Jackson reputation, has full forty-five horsepower, with the perfect balance which makes it run smoothly and evenly at high speeds. It can be throttled down to a slow walking speed on the high gear, and can be accelerated to fifty miles an hour within a few hundred feet. It is of latest European design, which combines speed and flexibility with the greatest fuel economy.

Both the "48"-Six and the Olympic "46" are driven from the left, and the control levers are in the centre. The driver may enter the car from either side—both doors can be opened and both running boards are clear.

With its mechanical excellence backed by our thirteen years of experience, we can re-commend this new six as a car which will satisfy the most critical driver,

springs guarantee tire economy, and with the luxurious upholstery assure the owner of perfect riding comfort. The Olympic Forty-Six With More Power---

Simplicity is the keynote of 1915 design, and the Olympic "46," from its stream-line body to the last detail of chassis construction, has been refined and improved.

The motor, of the same silent type which The motor, of the same silent type which has so long been a feature of Jackson design, has been made slightly larger, and the five horsepower which we have added provides a reserve for the hardest road conditions. "No Hill Too Steep, No Sand Too Deep" has for many years been the Jackson slogan, and the surplus power of the Olympic "46" enables it to make good under any circumstances.

The Jackson engineers have made many experiments with various types of springs, with a view to securing the greatest possible riding comfort and reducing tire wear to the lowest point. They have proved beyond doubt that the full elliptic spring has from 33 1-3 to 100 per cent. more flexibility than other types, and that this flexibility relieves

Simplified Construction and a Lower Price

the tires from many shocks which they would otherwise sustain. Further endorsement of this construction comes constantly from Jackson owners, who tell us of having exceeded by from 50 to 75 per cent. the mileage guaranteed by the tire manufacturers.

It is conceded by all who have used Jackson cars that their extreme ease of riding permits them to be driven faster over rough roads than other cars with less flexible springs. The effective speed of the Olympio "46"—the speed at which passengers can ride with comfort—is far above the average.

The improved type of carbureter used on the Olympic "46" has reduced the gasoline consumption, so that this model will travel further to the gallon than many smaller, but less efficient cars.

The Olympic "46" will run reliably and economically, its motor is slient, and the car throughout, with reasonable care, will run just as reliably and silently the third and fourth years as the first.

Sir Adam Back's speech at Dutto in Detrait over the hydrothem, reported Sir Adam as having dd that the Detroit City Council could be bought up for \$120,000 any time. What Sir Adam said, as he declares. was that various corporations in the United States boasted that they could fix councils, even if they had to spend \$100,000 a year to do so If it be any satisfaction to Detroit similar boasts have been made by both the immediate parties to a discorporations in Canada, the the ngure tioned was not so complimentary

#### German Threats and Performance

If the latest reports are accurate, Germany's declaration of a submarine blockade against shipping entering or Spencer. leaving British ports has ended much more ignominiously than did Napoleen's Berlin decree to much the same effect. This particular German menace appears to have been taken much more seriously abroad than it was in Britain. except in lay circles. Lloyds, the great maritime barometer, sized German prophecies of woe at their real value and remained quite unmoved unless to the extent that underwriters took advantage of the scare to advance premiums. British experts recognized that German threats were only theatrical and designed mainly to stimulate German sentiment in favor of the government.

#### Germany's Self-Deception

Britain is accused by the German mperial Chancellor of responsibility for the wan because Sir Edward Grey did not intimate to France and Ruscount take part in a European war On the other hand the British foreign secretary also incurs censure because he did not make it known plainly to Germany that Britain would join France and Russia as their ally against German aggression. It was a beautiful end to end rush, he closing in fast from the side and going right up to the net to poke it in.

Saunders evened it up shortly after Varsity pressed, and Saunders got a pass from behind the net and shot thru the hunch for a 'tally. Saunders broke a skate, and retired for a spell taking Krug off with him. Both sides had chances, and Smythe just missed after getting a pass from the corner. The next counter was of the easiest kind. Kiug shot, from near centre on the boards, and it dribbled right into the net. This made Varsity come back with another effort, but Schnarr secured it and set sail for the other end. He shot from the side and again the rubber hit the post and the new unpire allowed a tally. He was also removed. Gamey Straton get the next, and shortly after scored the final goal of the period on an individual effort. He went from end to end and carried it right up to the net to score.

Games in the Toronto League tonight at Ravina; 7, midget final, Capitals v. Century Rovers; 9.45, Juvenile, Weston v. Emeralds.

Kew Beach and Danforths will meet for the senior championship of the Beaches Hockey League at the Arena tonight, immediately after the St. Michaels-All-Star game, and this fixture should be a fitting climax to the most successfuse as a fitting climax to the most successfuse its organization, as both teams play clean, fast nockey, and are equally confident of the final result. Kew Beach are slight favorites on account of winning the championship last year, but Danforths went thru their group in comparatively easy fashion this year, while Kew Beach had a hard time winning theirs, and this fact, the Danforths' supporters think should give their team the edge in the final. No matter which team whis, a good fast game is sure to result before the winner is finally declared. The teams will line-up as follows:

Kew Beach—Goal, McCrudden; defence, Riddel and Bartlett; rover, Smith; centre, Washburn; left. Randall; right, Brown, Danforths—Goal, Corbridge; defence, Elliot and Eennett on Patton; rover, Willis; centre, Dowie; loft, Laird; right, Goldsmith or Benness.

Canadian Press Despatch.

WASHINGTON, March 9.—As proof that the commerce f Great Britain is not being interfered with by the German submarine blockade, the British embassy today made public an admiralty report stating that during the week ending March 4, 1574 boats passed to and from British ports and not one was lost.

The report said: "Admiralty announces that during the week of Feb. 25 to March 4, aggregate arrivals and sailings to and from British ports were 1574. This is considerably above the average. No ships were lost during this period, altho several attempts were made by the enemy, including one against a hospital ship.

"The state department announce today that the German foreign office, in order to remove any doubt as to the extent of the German area declaration, had informed Ambassador Gerard, at Berlin, that the waters surrounding the Orkney and Shetland Islands belong to the area, and that the navigation on both sides of the Faroe Isles is not endangered."

EL PASO, Texas, March 8.—Clear and warm weather prevailed at Juarez this afternoon, but the track was in well nigh impossible racing condition following the snowstorm of Monday, when six inches of snow fell. Under these conditions, Col. Winn deemed it best to postpone the resumption of racing until Wednesday.

GRAND CHALLENGE CUP TO REMAIN AT HARVARD

accordance with the deed of gift which made the Grand Challenge Cup a perpe ual prize. This trophy, the oldest and most famous of the six Henley awards, was awarded in 1839, the initial year of the regards. It antedates all other trophies, and has been raced for each year since the first contest, more than seventy-five years ago. Al.ho won by Belgian and Australian crews in past years, it is a strange coincidence that the first break in the annual regards should come the season following the triumph of the Yankee eight.

Extra Fine Flavor

Cosgraves (Chill-Proof) Pale Ale

We say Cosgraves (Chill-Proof) Pale Ale has "extra fine flavor in its favor"-and that is precisely what we prove in every bottle, but to produce this extra fine flavor we use only firstgrade hops and select barley and malt. The increase in the daily demand

tells a story that you can only imagine until you have tasted the beer--then you will know.

On sale at all dealers and hotels.

All Banks Denuded of Gold Except Reichsbank, and People Have None.

Special Cable to The Toronto World.

BERNE, March 9.—Careful investigation among the German banks proves that they are cleared of gold, but a comparison between the amount of gold held by the Reichsbank and the amount which should be in the country shows that two billion marks in gold have been withdrawn from circulation. An appeal has been made to every patriotic German to put his last gold piece in circulation, and the appeal concludes with the assertion that the patriotic German cannot do better than exchange his gold for the second war loan stock. I am credibly informed that except the Reichsbank, no bank possesses any gold reserve thruout Germany. The income tax imposed by municipalities is being raised on an average by about 50 per cent.

#### STATE CONTROL FOR ENGINEERING TRADE

British Government Given Authority to Take Over All Factories.

FOR WAR SUPPLIES

Workers in This Industry Will Now Become Servants of Empire.

Genadian Press Despatch. LONDON, March 9.—The house of mmons today gave the government thority to take over the control of entire engineering trade of the country and to place it under a combined management for the purpose of increasing the output of munitions of

The Defence of the Realm Act, pass-The Defence of the Realm Act, passed at the outbre k of the war, gave the government power to take and exercise control over works where war materials were being actually made. David Lloyd George, the chancellor of the exchequer, on behalf of the government, today asked that the control of manufactories be extended to works which were capable of being used for hich were capable of being used for

This power was unanimously granted, altho Andrew Bonar Law; leader of the opposition, described the measure as "probably the most drastic ever laid before parliament."

This step on the part of the government came as "complete and the step.

This step on the part of the government came as a complete surprise, altho David Lloyd George, in a speech at Bangor last week, emphasized the importance of increasing the output of war munitions which labor disputes at that time threatened to diminish.

Now the workers in the engineering trade will be in the position of public servants, and the government hopes that this fact will impress them with the importance of keeping up the supplies for which the armies and navies of the allied powers largely depend upon this country.

A business man will be given charge of the organization.

With the war area extending and the size of the army and navy constantly increasing, the government found that something must be done to been the fighting branches supplied with arms and ammunition. The fleet

DULUTH GRAIN MARKET.

THE CANADA NORTH-WEST LAND COMPANY

Very Few Good to Choice Cattle Were on Sale Yesterday.

STOCKERS AND FEEDERS

Equal to Demand Former Not Being Very Heavy.

At the Union Stock Yards on Tuesday there were 45 carloads, comprising 673 cattle, 952 hogs, 73 sheep and lambs and

cattle, 952 hogs, 75 sheep and lambs and 45 calves.

Very few good to choice cattle were on sale, the bulk being of the common and medium grades.

There was a good, active market, and, altho the run was light, prices were not any higher than on Monday.

The World heard of two loads of good to choice cattle selling at \$7.75, which was the highest value quoted for loads.

Canners and cutter, a as usual, were in demand at steady to firm prices.

The demand for stockers and feeders was no greater than the supply, which was light, and as a rule of common and medium quality. Feeders, 700 to 890 his. Were principally the class locked for.

Mikers and springers, with youth, or their side, as well as a promise of extra good milking qualities, were the class of cows that nearly every dealer was looking for, and they were scarce at firm prices. The bulk offered were of the common, medium, scraggy kind, that feedealers care to handle, but they all set at a price, and in many instances the are a source of loss to those dealing it them.

The number of calves on sale was

at a price, and in many instances they are a source of loss to those dealing in them.

The number of calves on sale was scarcely enough to make a market, and they sold at steady values.

The betwixt-and-between season for sheep and lambs is here once more and both are scarce and of high value. Only a limited number of hogs was on sale, and drovers were asking accordingly, which was more than the packets were prepared to pay in many instances: but, as will be seen by sales quoted below, values were very firm.

Butchers' Cattle.

Choice loads heavy steers, \$7.50 to \$7.75; good to choice, \$7.25 to \$7.50; good, \$7 to \$7.25; medium, \$6.60 to \$6.85; common, \$6.25 to \$6.50; choice cows at \$6.50 to \$6.75; medium buils at \$5.25 to \$5.75.

Steers, 750 to \$00 lbs., sold at \$6 to \$6.25; medium steers, same weights, \$6.75 to \$6; stockers for \$6.75.

Milkers and Springers.

Moderate receipts of milkers and springers met a fair demand at steady prices ranging from \$50 to \$80, and an odd one now and again at \$85 and \$90, the buils of sales being made between \$60 and \$75.

Véal Caives.

Choice yeal caives sold at \$6 to \$6.50; choice yeal caives sold at \$6.50; choice constants and \$6.50; choice constants and \$6.50; choice choice sales being made between \$60 and \$75.

Oats Advance in Winnipeg Market—Futures Five Cents Higher.

Cents Higher.

Winnipeg, March 9—Another substantial advance took place in the twieat market today. Opening prices were 15-80 to 41-26 higher and May advanced a further 17-8c, while July and Cotober opening figures were the high points previous to noon. All the months eased off considerably at noon: May was 51-50 1-2, July \$1.50 1-8 and October \$1.15 1-2.

While the amount of business in futures was not so heavy as on Monday there was a good clase of buying. Sentiment became less bullish about midday, a reaction being expected in the fact of the very rapid advance of the past few days, but this did not materialize.

Export business was active, so far as enquiries go, but no new transactions were recorded the rapid advance being a deterrent. The demand for cash wheat was excellent and quite a heavy business was carried thru in No. 2 northern wheat both for spot and for opening of navigation delivery. The spreads were again narrown in sight today were 400 cars.

Also for the server wheat, and in sight today were 400 cars.

The spreads were again narrown in sight today, and 15-8c higher for May and July, and 15-8c higher for October.
