What Style of Coat Do You Like?

Every season brings its demand for a prevailing style. This year it's the Do-bie-breasted Sack, nothing smarter looking or more comfortable for a winter suit than we know of, and our showing of this popular style at from \$10.00 to \$20.00 is certainly a good one.

How to Start off the Day

Students of Hygiene Differ on Many Points, but all Agree That the Right Kind of a Breakfast is Essential.

As the years pass, the majority of progressive thinkers give more and more earnest thought as to how to start off each new day so as to put themselves in the best possible physical and mental condition for the work of the day.

Various practices are adopted to revive all the physical and mental activities of the body. Some students of hygiene hold to the cold bath and rough towel immediately upon arising.

KITCHENER'S HOME AT SIMLA

Has Fine Collection of China and Soudanese Banners.

New York Press: They have had

Lord Kitchener engaged to wed that the latest rumour from Simla would be a general marriage. It was not accompanied by a sort of semi-acquiescence on the part of Lord Kitchener himself. He has come to realize that direction. He has a most charming home in Simla and its appeal must be special to any woman of an artistic and romantic temperament. His collection of china is superb, but what attracts the most attention is the drawing of his hall, which is hung with banners taken in the South. They are in bright yellow and green and have the Mahomedan confession of faith embroidered in their centre in letters of pure gold. No other officer in the British service is the owner of such trophies.

LAWSON AND HIS CRITICS.

An Open Letter to John A. McGill, President New York Life Insurance Company.

Sir: It is time your attention was called to the moral sense of the American people. It is time some one dragged you out of the Wall Street conservatory and set you in the plain white light of daily life.

It is time you were shown yourself as you are today seen by the millions of your countrymen who, a month ago, believed you to be a great and honorable man.

In spite of the terrible exposures of the past few weeks, in spite of the pitiless revelation of yourself and your directors as tricksters, in spite of the unrelenting exposure of your juggling, grafting and corruption of your administration of the most sacred trust that can be confided to man, you remain unconvinced of your fall and unrepentant.

By the sympathy of your fellow sinners, you imagine your audacious bluster and your sly evasions before the Investigating Committee of the State of New York represented shrewd generalship and able strategy, forgetting that the enemy against whom your manoeuvres were directed was the American people and that, in this inquisition, your character and reputation were as absolutely before the bar as the you had been indicted for sequestration of the funds of some dead friend's wife.

Through this broad country of ours are good Americans who have been enslaved and toiled to gather up the hundreds of dollars which you have exacted from them yearly as the price of their future livelihood.

You have made yourself the custodian of these funds under sacred trusts, and you have exacted from them yearly as the price of their future livelihood.

And it is with the money that might at this time have been claimed by these widows and orphans that you have been rigging syndicates, debauching legislatures, manipulating stock markets and doing other things which will be proven later. Instead of employing the vast power and the immense wealth entrusted to you to conserve the interests of your policy-holders, you have made yourself a part of the American people machine which the "System" has created to deprive the honest of their savings.

Under the pretence of seeking profitable investment, you have filled the high places in your corporation with your own children and relatives, and their relatives, and conferred on them great salaries and out of which they have grown rich. You have paid out to friends and associates, on various pretexts, enormous sums that rightly belonged to your policy-holders. You have done all these things habitually, yet today you describe the investigation being conducted into your operations as an impertinence, and secretly you regard this inquisition and all that pertains to it as a waste of time and energy. You are unrepentant, unashamed and defiant.

I shall take this opportunity, sir, of reviewing our own relations during the past year and contrasting your position to-day with that you boasted twelve months ago.

One year ago, in Everybody's Magazine, I said: "The officers, trustees and officials of the 'Big Three' Life Insurance companies have been and are now squandering their policy-holders' money. They are grafters—mean, contemptible grafters."

I gave specific instances of their thievery, and by your reply, not by billing me to court, but by circulating through the world documents by the millions, disparaging my reputation, you advertised and "news" and "editorial" statements from your subsidized insurance press, denying my charges and attacking my character, all at the expense of your policy-holders and without their knowledge or approval.

You libeled me in thousands of private letters to policy-holders, many of which came back to me.

You employed James M. Beck, ex-assistant attorney-general of the United States, then and now chief attorney for Henry H. Rogers, the Standard Oil Company, the "System" and the Mutual Life Insurance Company, to ridicule my utterances and asperse my honor in addresses in the cities of Philadelphia and Boston.

You employed James H. Eckels, ex-comptroller of the currency of the United States, now president of the Commercial Bank and representative of the "System" in the west, to attack my arguments and distort my motives in Philadelphia and Boston.

You ordered the Vice-President Perkins of the New York Life Insurance Company to perform similar service in Philadelphia.

The burden of all these documents, advertisements and disguised advertisements and addresses was: "Lawson is an unmitigated liar and scoundrel, whose sole reason for attacking the insurance companies is that we refused him insurance."

I replied by printing your letter to me, wherein you impudently demanded to accept insurance in your company.

Again you gave me the lie and pronounced your letter spurious. In it you returned my charges and instanced cases of perjury, bribery and false statements.

I stated that your claim that your company did not own, nor loan upon, stocks was false and that it was made for the purpose of misleading and imposing upon your policy-holders, banks, trust companies, government officials and investors.

You answered me by writing a letter to one of the great churchmen of America, and in it you said: "I pledge you my word of honor this company has never, since 1899, had a dollar's interest, directly or indirectly, in any stock. Lawson knows this, and deliberately, for his own base purposes, makes charges to the contrary which he knows to be false."

To-day you and your fellow plunderers stand convicted in the eyes of the world not only of juggling the moneys of the widow and the orphan in the stock-market, but of manipulating these trust funds for the benefit of your own pockets. To-day the world is aghast at your perfidy and amazed at your temerity.

Notwithstanding the turpitude already exposed to the people, you still imagine you can so conduct yourself as to prevent the investigators from fastening on you and your associates the more desperate crimes that have been committed in the past—the 150 to 200 millions stolen and diverted. You know, as I do, that only the very edges of this national cesspool have been uncovered. You know that other states corrupted the federal ballot-box and the legislature at Albany were tampered with, but the law-governed and certain of the judiciary of America "educated."

You believe you can keep the evidence of these crimes from the American people by the same kind of bluff and effrontery with which you met my first charges. But you have mistaken the temper of your countrymen.

I have been authorized in writing by over 16,000 policy-holders, carrying over fifty-four millions of insurance, to act for them.

I had intended to await the finish of the New York investigation before proceeding, but as I have had placed in my hands during the past few days evidences of the determination of yourself and your accomplices and fellow conspirators to face it out regardless of consequences, and as I believe men capable of committing the acts that have been testified to during the past few days fully capable of taking the transportable part of the billion and a quarter funds to foreign countries, and of using them to keep themselves from their justly deserved punishments, I have decided to act now.

In sending you this open letter, I am only actuated by a desire to bring you and your associates to such a sense of the seriousness of your position that you will see it is useless longer to attempt to defy the American people.

Yours, for the Exposure of Corporation Sneak Thieves, THOMAS W. LAWSON.

TO LIFE INSURANCE POLICY HOLDERS.

At the beginning of my story nearly a year and a half ago, I made certain accusations against the management of the three big life insurance companies.

I knew, when I began my story, that the big life insurance companies were in the hands of grafters and thieves, just as are the great banks, trust companies, railroad companies and big corporations and trusts.

I knew, in plain language, and I told it, that the big life insurance companies, thru their officers and trustees, repudiated by declaring: "He is an unmitigated liar."

I kept at my knitting, for I knew the crimes of these insurance grafters were such that, sooner or later, the world would have an opportunity to judge fairly who were the unmitigated liars and thieves.

The opportunity is at hand.

To-day the press of the world is devoting its space, news and editorial, to a review of the contemptible and heinous crime of the New York Life and the Mutual Life Insurance companies—not as I relate them, but as their own officers and trustees publicly confess them.

In the July installment of my story I called upon policy-holders to sign a coupon blank inserted in this magazine, and send same to me that I might speak for them in a plan to further their interests.

In response to my call I have received up to today, October 4, 16,307 answers, representing \$55,165,810.

I think my readers, when they analyze the following list and take into consideration the character of the senders, many of whom are men of the highest standing—bishops, ministers, governors, mayors, judges,

DON'T MISS IT.

The fifth anniversary of the opening of the Eaton's store on Saturday, Oct. 28. This great store will bring to you a wide open to the public on this memorable occasion.

The fifth anniversary will be a bigger, brighter and more interesting than any of its predecessors. The matchless showing of this season's newest and most brilliant styles, manufactured right on the premises, from the finest selected materials, imported direct from the mills of England and Scotland, cannot be equaled anywhere throughout the vast Dominion.

A competent orchestra and male quartet has been engaged by the management of the store and will render all the latest popular songs for the entertainment of the throng of delighted purchasers. The store will be decorated with all the trimmings of the season, the best of autumn products and shaves of golden hair, the most beautiful and fragrant bower of beauty and fragrance during the continuance of the great sale. The Eaton's store in Toronto has never seen.

As soon as I received a number of signatures sufficiently large to warrant it, I quietly began operations.

The first direct result is the investigation now being held. This investigation has proceeded far enough to put before the public absolute proof of all the crimes I have charged, and three to thirty times as many more.

It is now evident to all that: 1st. The policy-holders in the great companies have yearly paid into their company scores of millions more than necessary.

2nd. The policy-holders have been robbed scores of millions.

3rd. The vast funds now on hand have been habitually used by the grafters now in control of them in the rankest kind of stock-gambling.

These funds have been used to corrupt the ballot-box and the law-makers of the country.

I repeat, absolute proof of all this has been made public.

The funds now on hand are in actual jeopardy, because they are in the absolute control of unprincipled scoundrels.

Unless something is done, and done at once, by the policy-holders, each and every one of the largest companies may become insolvent, because of waste of funds, tremendous fallings off of new business, and the loss of the largest kind of stock-gambling.

This tremendous cost of new business, and the loss of the largest kind of stock-gambling, are the things that are now seeking to insure those who formerly have been refused insurance because of physical infirmities.

It should also be plainly evident that the policy-holders move, and move quickly, they can be absolutely assured that: 1st. The funds as they are to-day will remain intact.

2nd. They will be added to by the restitution of from \$75,000,000 to \$150,000,000.

A score of the thieves who have plundered policy-holders in the past will be sent to prison.

4th. The future payments of policy-holders will be largely cut down.

5th. The present swollen surpluses will be returned in large part to policy-holders.

6th. In the future policy-holders will actually run the company.

All policy-holders can be assured that in the future they will receive the actual worth of their policy at surrender.

All this being so, it is most eminently desirable for policy-holders to act, and at once.

The time will never again be so opportune, for if nothing definite is done now, policy-holders will be discouraged, and the most earnest study, assisted by the subject of the closest and most earnest study, assisted by the suggestions of over 100,000 policy-holders, for in addition to the 16,000 mentioned, I have received over 30,000 letters. I have come to the conclusion that the one thing for policy-holders to do now is:

To authorize someone in whom they have confidence to select a committee to take their proxies and at once seize possession of the two great mutual companies, the New York Life and the Mutual.

I omit the Equitable at this stage, because litigation may be necessary before the Equitable, being a stock company, can come into the policy-holders' hands. But in the other two, no obstacles can be placed in the way of the policy-holders taking control.

To empower this committee to bring action at once to compel full restitution and enforce full punishment, and then to change the present method of conducting the insurance business.

The vital question is: Whom can the policy-holders trust to do this? The "Big Three" are at present presenting vast sums of the policy-holders' money to prevent some such action as this, in the following ways:

First, by moulding public opinion through paid news and editorial items; next, by the collection of proxies; and third, by the inauguration of different moves and dummy suits and investigations.

There are already three of these affairs under way. Almost any way the policy-holders turn for relief they are confronted with traps which, if they fall into them, will make relief almost impossible.

Any man or body of men who go to the great expense necessary to collect proxies must have some hidden scheme for reimbursing themselves, or they must be working in the interests of the thieves now in control.

I therefore make bold to say: I am the natural one to make this move. Just a minute before you pass judgment, let us see if I am:

1st. I have already spent in my work over a million dollars of my own money.

2nd. I am willing to spend, if necessary, two millions more.

3rd. I will absolutely prove if necessary, in return.

4th. I will absolutely prove on the face of my plans that I cannot in any way benefit beyond the satisfaction I shall derive from putting another spike in the "Systems' coffin."

Russian Troubles Are an Influence at British and Continental Exchanges
 --New York Weak.

World Office, Thursday, Oct. 26
 Canadian stock exchanges were closed today. In the larger markets there were distinct signs of weakness. The European exchanges were influenced by the Russian market troubles, and the possibility had some influence in lowering the New York market. The Bank of England discount rate was unchanged today, but the possibility of a reduction in the rate was mentioned in the Wall Street day was marked by considerable irregularity with a definite downward tendency to prices throughout the day. Sterling exchange rates were again firm and there is an indication abroad that exports of gold from the U.S. will be maintained within a very few days. Canadian issues will be influenced by outside markets to a certain extent, but a steady rise in prices is expected in the near future.

President Eaton of American Car and Freightways, suggested that the company should be reorganized. The company is now owned by the American Car and Freightways Co. Ltd. and the American Car and Freightways Co. Ltd. is now owned by the American Car and Freightways Co. Ltd.
