Blue Ribbon Canton Tea

SEVENTY-THIRD YEAR

ALL FAIR RECORDS BROKEN

Estimated That One Hundred Thousand and People Visited the Exhibition During Wednesday.

BIGGEST DAY OF WHOLE YEAR

Came to Early and So Fast That Admission Building Was Deluged With Humanity.

In a blaze of glory the twenty-fourth annual session of Canada's great Fair will close to-morrow evening. President McNaught and the other gentlemen who have given their time and skill toward the success of the undertaking for the past five years are because of the flattering prospects. The success of the Exhibition in a financial way is no longer speculative. As a business proposition its success is assured. The attendance is much in excess of previous years and the Exhibition has proven bigger and stronger in every respect. The patronage the country has bestowed in consequence has been very heavy and out of all proportion to other years.

Every department has been featured, and, as a result, the revenues have been better than in other years. Up to date the receipts of the Fair are very little behind those of 1908, the banner year. The receipts on Wednesday were in excess of \$100,000. It is also a matter of interest that the receipts of the Street Railway Company to date are \$13,000 in excess of the receipts for the Fair period last year.

Highest Day of Year.

Wednesday's attendance surpassed all other days in the entire history of the Exhibition. They came so early and so fast that at noon 29,339 had passed thru the turnstiles, and at that hour the admission building was a struggling mass of humanity. This constant stream continued until dark and it is variously estimated that from ninety to one hundred thousand people passed into the grounds during the day and night. In addition the prosperity of the enterprise with which the crowd patronized all concessions. Everybody was busy and the speaker of the Midway with his stentorian cry was drowned in the babble of the mob that besieged every tent.

The crowd was so dense that it was necessary to spread out thru the various tents and educational exhibits. It was a critical, too good-to-lose day for the honey display, the growing sugar beet contest, the making contests, the agricultural exhibits, the machinery hall—all were carefully examined, and many questions asked.

Real lively time was experienced by the vast crowd in the afternoon at the Farmers' Institute and Live Stock Association tent. During the sheep-shearing contest, the big temporary stand in front of the tent, crowded with people, gave way, crashing down with the crowd. It was a lucky accident, and no one was hurt seriously. One young woman received a badly twisted limb. The sheep shears did rapid work. Joseph Linden took the first prize, standing his sheep completely shorn in his feet in nine minutes. F. W. Stuerdies of Uxbridge was second, with a twelve minute record, and T. Butt of King, third, and W. Forks, fourth. The Farmers' Institute tent was the scene of three interesting meetings during the day. In the afternoon, the Canadian Association of Fairs and Exhibits met. Mr. J. Thomas Murphy of Simcoe is president; W. B. Saunders of Stayner, vice-president; G. C. Creelman, Toronto, secretary. There was a full meeting of the board. It was determined that the next annual meeting should be held in Toronto, in February. The secretary reported that a circuit of 58 fairs had been arranged in Ontario this year, with the Department of Agriculture sending to each expert judges of live stock.

Among the Fruit Growers.

At noon, the Executive Committee of the Ontario Fruit Growers' Association convened in the tent. It was decided that the next annual meeting should be held at Walkerton, Dec. 23-24. There will be special sessions for the horticulturists in attendance. The experimental stations will, at this meeting, report on the results of their investigations covering the past five years.

One of the most interesting meetings

of all the greater educational value held on the grounds during the Exhibition was that of the Experimental Union, at 4 o'clock. This organization is composed of 3000 graduates of the Agricultural College at Guelph. The scope of this organization is far reaching. Each of these 3000 members makes separate research into agricultural propositions, records accurately the results of his experiments with grains under different conditions, then these results are carefully tabulated and sent to the college. There these results are investigated in the usual way, and, after experiments covering a period of five years, the results are made known, and it is then determined which methods are the most productive for farmers of Ontario. This work has been going on with this organization for 25 years.

Increased Grain Yield.

Among the practical results developed is the increased yield of grain, about two bushels to the acre, in wheat. This means a saving of five million dollars annually to the farmers of this Province. The results of the Ontario Agricultural College, and the work of other officials, President Mills of the Ontario Agricultural College, and the Experimental Union; C. A. Zavitz, experimentalist; G. C. Creelman, superintendent of Experiments; L. S. Thacker, Thomas Mason, Staffordville, past president; Nelson Monteth, St. Catharines; Prof. W. L. Hays, Kitchener; E. C. Deury, Berry; L. S. King, Guelph.

The next annual meeting of the Union

was scheduled for Dec. 8 and 9, at the Agricultural College. Over 3000 members will be present. The meeting will be divided into two parts—first, the consideration of crops, and, second, forestry. Prof. Fenwick of Cornell University, the great American expert on forestry, will deliver an address.

SENATE READING ROOM

Francis J. McLaughlin, \$44,000.
Gold Taken by Person Having Access to Cash Vault.

Paris, Sept. 10.—Several of the morning newspapers to-day mentioned a rumor that the Bank of France had been robbed of an important sum, intimating that it was the work of burglars. The Patrie, this afternoon, published an interview with an official of the bank, who said: "The robbery amounted to \$44,000 in gold. It was discovered yesterday, but was kept quiet, on the advice of the police. It was not the work of burglars. The gold was taken in the daytime, evidently by a person or persons having access to the cash vault, but suspicion yet rests on nobody."

ABANDONED PLACE A BONANZA.

All Gold Creek 50 Miles From Dawson Yielding Paying Values.

Dawson, Sept. 10.—The abandoned place for years, All Gold Creek, 50 miles up the Klondike River from Dawson, has suddenly become a bonanza. The stream is already paying wages, and better on numerous claims, and has the advantage of being comparatively shallow. It was stated during the grand rush of 1898, that Charles Fischer, one of the lucky discoverers of the richness of All Gold Creek, has 50 men at work, gold sluicing.

START FIRES TO SEE ENGINES

Kansas City Negro Youth Admits Blame for 14 Bombs.

Kansas City, Sept. 10.—Four negro boys under arrest at Central Police Station today, confessed to having started 14 incendiary fires since last June in the wholesale district. Eleven of the fires were started in manufacturing establishments. Some of the prisoners deny belonging to the gang, but each tries to shift the blame to the others. The fires were started because the boys liked to see the engines run, and watch the firemen combat the flames. The youngest is 15, and the oldest is 17. They will probably be sent to the Reformatory School.

NEW COLONIAL POLICY.

Newfoundland Critics on Voyage to Stop Smuggling.

St. John's, Nfld., Sept. 10.—E. M. Jackson, Colonial Minister of Finance, will start to-morrow in the colonial cruiser Plover to visit the French shore and arrange for the establishment of customs posts at various points. The minister is expected to return to-morrow in the colonial cruiser Plover to visit the French shore and arrange for the establishment of customs posts at various points. The minister is expected to return to-morrow in the colonial cruiser Plover to visit the French shore and arrange for the establishment of customs posts at various points.

THEATRES WITH CHURCHES.

Hon. Joseph Chamberlain Agrees With Vicar of Goringham.

London, Sept. 10.—The vicar of Goringham today, in a sermon, declared that the theatres in conjunction with churches through the villages of the United Kingdom, should be supported of no less an authority than Mr. Chamberlain, the Colonial Secretary. Mr. Chamberlain has sympathized with this project and says he is always pleased to hear of anything being done to bring light and happiness into the lives of the people.

DAMAGE TO APPLE CROP.

Kingston, Sept. 10.—Tuesday's wind storm played havoc with the apple, pear and plum crops. A Glenora farmer stated to-day that the loss to farmers in the county was estimated at \$100,000. Many trees were broken and badly damaged. Windmills were blown down, and the trees were almost wholly denuded of their leaves.

WIDOW SUES FOR DAMAGES.

St. Thomas, Sept. 10.—The Journal says Selma Small, widow of W. H. Small, who died Aug. 5, is suing her brother-in-law, N. J. Small, of Yarmouth, for slander, and the wants \$100 damages. The complaint is that a report was circulated to the effect that the late Mr. Small died from slow poisoning and not from natural causes. A witness juror said that the death was natural.

VISITED THE BOERS.

The Hague, Sept. 10.—The Premier, Dr. Kuyper, paid a long visit to our general secretary, Mr. A. J. van der Stoep, after their arrival here this morning.

NEW WILLIAMS SEWING MACHINE OFFICE.

Agincourt, Sept. 9.—During a heavy thunderstorm this morning the steeple of the school house at No. 1, Scarborough, was demolished by lightning. The lightning struck down the edge of the roof and escaped thru the eave pipes.

TONS OF POWDER BURNT

Sixty Thousand German Infantry and Two Hundred Cannon Engaged in Mimic War.

KAISER TIRES HIS GUESTS OUT

Frankfort-on-the-Oder, Germany, Sept. 10.—Emperor William's military guests were tired and rather haggard last this morning. Prince Albert, the Emperor's representative, entertained all of them at dinner last evening, and it was toward 12 o'clock when the party broke up. The Emperor, having directed that the battle begin at 7 o'clock, and the field of the manoeuvres being quite a distance from Frankfort, the Emperor and his guests had to assemble at the railroad station at 4:30 a.m. to catch the special train. Even then the Emperor was tired before then. Tons of gunpowder were burnt to-day. Sixty thousand German infantry and two hundred pieces of artillery were in action. Emperor William, Major-General von Holz, Lord Roberts, Major-General Wood, Lord Roberts, General French and the other members of the numerous staff, in all 100 persons, looked on from a hillside midway between a portion of the hostile lines. On a plain of 1000 acres, the Emperor's guests were engaged in a series of military manoeuvres. The Emperor, who was especially of the seemingly limitless number of troops, said that he was tired of the sight of them. He said that he was tired of the sight of them. He said that he was tired of the sight of them.

Manager Hill Will Resign

Ill-Health Is Only Cause

After Twenty-Four Years of Untiring Energy the Father of the Industrial Exposition Lays Down Reins of Control.

Exhibition have had their names associated with the new management. O. B. Sheppard's exceptional business abilities have been mentioned as giving him a claim to the new position. But it is thought that he has no desire to add to his present responsibilities. The man most talked about on the grounds is Dr. Bell, who is at present assistant secretary of the Exhibition. Dr. Bell is understood that the Board of Directors have practically appointed him as manager, but that he will not assume his new duties until this Fair is over.

WOODSTOCK MYSTERY SOLVED.

Woodstock, Sept. 10.—At last the whereabouts of Joseph Hutchison, the Blandford farmer who disappeared some two weeks ago, has been ascertained. A Woodstock man, who was in Hamilton on business, chanced to see Hutchison seated in a city street. He was dressed in a city suit and was conversing with a man. He was seen by the man who had been working for a relative who is conducting a fruit business in Hamilton. He gave no reason for his sudden departure from Woodstock.

MAY MARRY DIVORCED PEASONS.

Montreal, Sept. 10.—Dr. Davidson's motion prohibiting the clergy from marrying divorced persons was discussed this afternoon in the Synod. It failed to carry, for, although the clerical delegates voted for the motion, the lay delegates voted strongly against it.

FENDER FOR BAGGAGE.

He was a well dressed, sleek looking chap, from somewhere along the third concession, and city life had no terrors for him. He knew what the street cars were for, and as one of them bowed along Front-street to the corner of Yonge he halted it with confidence. The car came to a standstill and our friend confidently placed his big valise on the fender and then stepped inside the car. The motorman gave no reason for leaving, but corrected him on the general principle that the fender is not supposed to be used for carrying baggage. The man was removed to the rear platform of the car, where it could be in the way of everyone entering or leaving.

TOOK HIS BREATH AWAY.

"Who does the poor man gasp, papa. He's dead, papa, he's dead!" "He's dead of a gas for which a public job would have been better."

ENGLISHMAN THROWN OUT.

Rosaling, Sept. 10.—High S. Spender of the London Daily Express, who was thrown from the driver's seat of the chemical apparatus of the fire department today, and badly shaken up.

MARRIAGES.

STUART—STILL—On the 8th inst., by the Rev. Mr. Cody, rector of St. Paul's Church, John Foranec Stuart to Dorothy Still.

ASSESSMENT AT FACE VALUE

Would Have Personal Property of Companies Assessed Like That of Individuals.

ONTARIO MUNICIPAL ASSOCIATION

In Session at Brockville—Some Very Much Needed Reforms Are Being Advocated.

Brockville, Sept. 10.—The annual session of the Ontario Municipal Association opened here to-day. His Honor Judge Reynolds presided, and S. H. Kent acted as secretary. The program is as follows: Review of the assessment committee with illustrations of its practical workings. Repeal of provision in Assessment Act relating to assessment of farm lands in cities. All property to be assessed at its face value. No exemption for debts due on personal property. Personal property of incorporated companies to be assessed in the same manner as that of individuals. Sales of lands for taxes in cities or towns not to be invalid because there are no goods which might have been distrained. Power to issue, at option of treasurer instead of selling improved property in areas for taxes. Legislation regarding the granting of houses. Board of Registrars to define polling subdivisions for Ontario elections. All voters to be registered and all expenses of such registrations and elections to be borne by the province. Power to appeal from magistrates' decision dismissing complaint for breach of by-laws. Government control over telephone rates. Compulsory arbitration for corporations and employers operating public franchises. Notice was given of a resolution to limit the number of aldermen to be for each 1000 in municipalities of 10,000, where election is by general vote.

DETECTIVE WAS THERE.

Used as a Decoy Among Striking Machinists at Kingston.

CROPS ACROSS THE BORDER.

Uncle Sam's Farmers Have Had a Prosperous Year.

Washington, Sept. 10.—The United States government crop reports are very satisfactory. Excepting in Kansas and South Dakota, the crops are a decided improvement, no material change of condition is reported from the corn states. Most of the wheat states report the condition of winter and spring wheat above their 1907 average, but Pennsylvania, California, Iowa and Kansas it is several points below. The average condition of fall is away below that of 1907. The crop in New York State has a phenomenally good report upon favorably. A bumper crop of potatoes has been reported from Ontario. Apples are very plentiful, and so are grapes.

CAUSE OF THE ATTACK.

La Patrie Sees the Fine Hand of Achille Steen in It.

Montreal, Sept. 10.—Sir Wilfrid Laurier, writing to a friend here, speaks of the attack of La Patrie of Paris on the Canadian Prime Minister. La Patrie of Montreal says: "Ten years ago Mr. Archibald Henderson, an inveterate enemy of the requirements of the municipal system. Mr. Reynolds expressed his regret that his elevation to the bench necessitates his withdrawal from the association. Mr. McKelvey replied to the press that his address in his remarks he dealt at considerable length on the injustice of the present assessments and taxation. He favored taxing every man on his income, compelling him to make oath as to the amount. Mr. Hutton, Hamilton; Dr. Grant, Mayor Henry of Kincardine and the other addresses were made. A resolution was adopted that fair value should be the basis of assessment and all property should be assessed at its fair value, including farm lands in cities and towns. It was decided to hold the next meeting at Guelph, Ontario, in 1911."

BRITISH EMPLOYEES EXPELLED

Russian Order Forecloses in Manchuria to Get Out.

Peking, Sept. 10.—Paul Lassar, the Russian Commander in Manchuria, has declared that the presence of foreigners in Manchuria during the military occupation is objectionable, and he is determined to expel the British. British customs employees who may be sent to Manchuria will resume charge of the postal service.

WOMAN KILLED IN ALPS.

In a Runaway Thrown Over a Precipice on the Juleburg.

St. Moritz, Sept. 9.—Frau Martin Levi was driving to-day with her husband and maid in a carriage, with two horses, from the Hotel Saratz at Fontenay. At the top of the Juleburg, Herr Levi alighted and the position refreshed the horses. Suddenly one horse bolted, dragging the carriage over the precipice. The woman was killed and her husband and maid were injured.

TO STOP DUELING.

Milan, Sept. 10.—As a result of a duel fought here a few days ago, between two captains of the 60th Regiment, the Milan authorities seem determined to stamp out duelling. The challenger in the duel in question has been expelled from the army and sentenced to imprisonment for 15 days, and two majors have been given 10 days' imprisonment for encouraging the duel. The duel was fought on the 27th of August.

ACCEPTS CARNEGIE'S GIFT.

London, Sept. 10.—After considerable debate the House of Commons today accepted the gift of 175,000 from Andrew Carnegie to build three libraries in the borough, the Council has accepted the gift of 175,000 from Andrew Carnegie to build three libraries in the borough, the Council has accepted the gift of 175,000 from Andrew Carnegie to build three libraries in the borough.

TO HELP MARCONI.

Rome, Sept. 10.—It is announced that the King of Italy has placed the Italian wireless cable in the hands of the inventor of wireless telegraphy, Guglielmo Marconi. The inventor will sail on board the Carlo Alberto with the cable.

DIED OF GRIEF.

Montreal, Sept. 10.—Mr. James Thomas, whose daughter was drowned a few weeks ago, died of grief this morning. He was 60 years of age.

SPOKE IN CINCINNATI.

Cincinnati, Sept. 10.—J. L. Splunk of Toronto addressed the National Association of Master Bakers to-day.

MOSTLY FAIR.

Meteorological Office, Toronto, Sept. 10.—(8 p.m.)—Very heavy rain has fallen today in the Maritime Provinces, and a few showers have occurred from the Northwest Territories to Lake Superior. A fresh gale has prevailed in Manitoba. Fresh to strong breezes are indicated for the lakes, but the force of a moderate gale is hardly likely to be attained.

GOAL STRIKERS MUST YIELD

Operator Calls Mitchell a Demigod Who Prevents Settlement of Difficulties.

MEN MUST FIRST RETURN TO WORK

Then and Then Only Employers Will Take Up Grievances With Them.

New York, Sept. 10.—John Markie, the head of the firm of O. B. Markie & Co., the largest of the industrial coat operators in the anthracite field to-day, made a statement respecting the proposed arbitration between the employees and the employers. "There will be no arbitration," said Mr. Markie, "and no settlement of the coal strike in any way. We have not forgotten our experiences on a former occasion. Mitchell has become a demigod, and should be removed. He is an ordinary and usual means of discipline are practically disregarded."

ONE OF THE BIGGEST COLLECTORS IN PENNSYLVANIA AT WORK.

Seranton, Pa., Sept. 10.—Work was resumed at Seranton, one of the largest collieries belonging to the Delaware, Lackawanna & Western Company. No information was given out at the colliery as to the extent of the operations, but it was said that a sufficient number of men were at work to enable the company to mine and ship coal. No disturbance attended the operations, and the settlement has put a damper on the hopes of those who were confident that the strike would end by the 10th of September.

OUR MUTUAL FRIEND.

London, Sept. 10.—Punch to-day has a well-accepted character, entitled "Our Mutual Friend," which represents Miss Canada, in Indian costume, greeting her guardian, Sir Wilfrid Laurier, on his return from visiting England and France, saying: "So you've seen my two grandmothers, how do you like them?" Sir Wilfrid: "Well, my dear, they are both so charming. I'm surprised they don't know one another better."

MINISTERS HOMEWARD BOUND.

London, Sept. 10.—Among the passengers sailing to-morrow for Tunisian to-morrow are Sir Frederick Borden, Hon. Sydney Fisher and Sir James Grant, with their families. Their return to Canada will not return until October.

THE LARGEST ON RECORD.

Talk about big days, but yesterday knocked away the record for the largest crowd ever seen in the city. Dineen Company again demonstrated to their satisfaction that they are Ontario's—Canada's greatest hat-makers. The Dineen Company's sales of hats and caps during the past week were \$100,000. The Dineen Company are sole Canadian agents for Dunlap, Miller and Melville—three of the greatest hat-makers in the world. Their new fall stock is complete. Call to-day and look around. You're welcome.

PROBABILITIES.

Lower Lakes and Georgian Bay—Fresh to strong southwesterly, shifting to westerly and northwesterly, winds; a few scattered showers, but mostly fair and warm during the day. Ottawa Valley, Upper and Lower St. Lawrence—Fresh to strong southwest to southerly winds; the day mostly fair and scattered showers at night. Gulf of St. Lawrence to south of Bay of Fundy—Fair; stationary or a little higher temperature. Maritime Provinces to southwest winds; stationary or slightly higher temperature. Lake Superior—Strong breezes and moderate gales, shifting to easterly, with a few scattered showers at night. Lake Michigan—Fair to southerly winds; fair; stationary or a little higher temperature. Lake Huron—Fair to southerly winds; fair; stationary or a little higher temperature. Lake Erie—Fair to southerly winds; fair; stationary or a little higher temperature. Lake Ontario—Fair to southerly winds; fair; stationary or a little higher temperature.

ARRESTED FOR THEFT.

A despatch from Winnipeg this morning says that Fred. Robertson, the son of a prominent Toronto citizen, was arrested there for theft.

WANT RATES LOWERED.

Winnipeg, Sept. 10.—The Grain Exchange will take action to have the rates on the C.P.R. lowered, if possible, to meet those of the Canadian Northern, which is in some instances, almost two cents lower.

THE TORONTO WORLD

ONE CENT MORNING PAPER, NO. 83 YONGE STREET, TORONTO

THE FUTURE OF THE CANADIAN PACIFIC.

An official copy of the report of the Canadian Pacific Railway Company for the year ending June 30, 1902, has reached The World office, and a magnificent report it is. Gross earnings of \$37,500,000, net earnings of \$14,000,000, and a clear surplus of nearly \$8,000,000, not including a revenue of \$4,500,000 from land sales, certainly constitute a showing that must cause to water the mouths of all holders of C.P.R. stock.

The company displays it is no wonder the bulls have been able in a few months' time to advance the price of the common shares from below 30 to about 70. No wonder, in short, that the stock has experienced a remarkable boom, and that there appear to be elements of a further boom in it yet.

Great is the Canadian Pacific Railway. The World was one of the first in the country to point out its immense possibilities, and we don't believe that these possibilities are half realized by most people yet.

When we take into consideration the present rapid development of the Dominion we cannot but extend the future of the road beyond the limits that we had previously conceded it—almost unlimited those limits were.

But at this stage of the C.P.R.'s abundant prosperity The World would make bold to make one or two suggestions which we think vital to the continued success of its system.

When the C.P.R. was built and when the contract was made between the government and the syndicate a certain standard for the road was set out in the contract. It was in substance to be a road of the average railway equipment of those days.

That was 25 years ago, and since that time railroading has been enormously developed, and an up-to-standard example of the modern American railroad to-day is the New York Central or the Pennsylvania railroad. Or, to come nearer home, the G.T.R. is the best road we have in Canada as far as standard is concerned, and the Grand Trunk everybody knows has been spending enormous sums of money in late years and at the present time to bring its road and equipment up to what we will call for short, the 20th century standard.

This means that the efficient railroad of to-day is one that has spent in actual cost of its roadbed and equipment a sum of money ranging from \$50,000 to \$100,000 per mile, a road that has the very best ballast, the very best kind of steel rails, the very best kind of steel bridges, has double tracking, and above all has rolling stock of this century.

And when we speak of rolling stock we include engines and cars of all kinds. For instance, on the New York Central the other day one of the modern locomotives on that system drew over 100 loaded cars with ease. As we said before, the Grand Trunk is reconstructing its entire system on the 20th century basis.

It has been spending enormous sums of money in straightening out the curves and cutting down the grades between here and Port Hope. It has double-tracked the entire main line in Ontario, and it has now under construction, we are told, a scheme which will do away with the worst of all the grades on the system, namely, the one between Toronto and Port Union, known as the Scarborough grade.

Everything in the way of railroad equipment has changed in the present century or is about to change, and the progressive railroad must be a 20th century one, not one of the 19th century. The Canadian Pacific Railway is absolutely not a 20th century railroad, and is not up to modern American standards.

The question we propose to ask the Canadian Pacific is, what do they propose doing in the way of modernizing that great railway system? They have received enormous grants from the Canadian people in the way of land and cash subsidies, they have received special privileges, they are in fact in partnership with the government and the people of Canada for the establishment and maintenance of a trans-continental system.

The Canadian Northwest is proving to be possessed of almost unlimited resources from an agricultural standpoint. British Columbia and our possessions on the Pacific coast promise to develop enormous commercial relations with Asia, Australia and all the other side of the Pacific ocean.

The Canadian east is growing in importance, and Canada is certainly becoming a great power on the North American continent, and the Canadian people of world-wide influence. All this being the case the Canadian Pacific must be made a railroad up to the new standard and worthy of the country and of the people, who are practically in partnership with it.

True, the earnings of the road could stand dividends higher than 5 per cent. per annum, and the enormous and growing receipts from the land sales could be easily distributed among the shareholders. But we do not take such a course to be in the true interests of the shareholders, or in the true interests of the country.

What is required is a clear and distinct statement from the directors and the shareholders that they intend to modernize the Canadian Pacific by reconstructing on the lines of the 20th century standard of American railroad, that they intend to devote all the enormous revenue of the road to that end, that they intend to double-track it, to steel-bridge it, to cut out all the curves where possible that can be cut out, and to cut down all the grades at the earliest possible moment, that they intend to have the rolling stock modernized, and especially the motive power made modern, and that they will not rest content until there is at least a double-track line from the Pacific to the Atlantic, connecting all the great Canadian cities and ports and giving an outlet to all the various sections of Canadian industry to the Atlantic or to the Pacific as the moment may call for.

The World trusts that the directors and shareholders will be satisfied with a 5 per cent. dividend until all the reforms in the direction can be carried out, and that the public, who are inclined to invest in this stock, will come to see that the present dividends ought not to be exceeded as long as the necessities of the road demand so much in the way of improvements.

Were the directors of the Canadian Pacific to come out now and make a clear cut declaration on the above lines, a great impetus would be given to everything in Canada. Outside nations and our own people would come to see that we had in this country a high standard of railroad development, that we intended to make our great national highway as good as any other on the continent, and one result of this would be that an enormous impetus would be given to the iron and steel industry in this country, to the steel rail industry in this country, to the car building industry, and the motive power industry.

We would have rolling mills started in this country on a scale not hitherto contemplated, and every other road in the country the G.T.R. included, would have to follow suit, and a new impetus and a new measure of prosperity would come to this country in a way never dreamed of by those who had the courage and who had the enterprise to undertake the construction of the Canadian Pacific under the most discouraging circumstances.

The country will await with great interest some kind of clear-cut declaration on these lines at the earliest possible moment. The railways of Great Britain are to-day on the verge of bankruptcy because of their antiquated methods and equipment; the same thing can happen to the roads of this continent that do not live up to the 20th century standard.

ENGLAND'S FLEET ALWAYS STRONGEST. No matter what the other sea powers undertake in the way of a ship-building program, they find out at the end of it that England is still able to take care of any two of them, and have strength still left.

In a review of the sea power of the great nations, The Naval Annual shows that, in the ten years, from 1892 to 1902, these changes have occurred: First—Russia, Germany and the United States have all become the owners of as many battleships as France, which, ten years ago, was, in that respect, second only to Great Britain.

Second—Japan's navy has been created, and, for all practical purposes, is united with Great Britain's.

Third—The British and Japanese navies, together, number 47 armored vessels of the first class—three more than the combined total of Russian, French and German warships of that class.

THE FARMERS' ASSOCIATION

Thinks It Unjust to Grant Public Money to Private Corporations.

The Farmers' Association met again on Wednesday morning at The Weekly Sun office, when resolutions were passed without dissent to the effect that it is unjust to grant public money to private and corporate interests in the form of bonuses and bounties.

Property of railroads and other public service corporations should be assessed at the same proportion of value as that of private property owners; that there should be the strictest of public regulation of transportation and the non-political tribunal should be appointed to fix rates, and that any increase in the tariff is emphatically protested against.

It was decided to have a committee of five with a committee of five to be appointed to secure co-operation between the two bodies; to have local associations of electoral districts in each county, the organization for which will rest on the Executive Committee.

At a meeting of the Executive Committee it was resolved to prepare for publication a statement of the aims of the association, and the resolutions adopted which regulate its policy; to hold a meeting at St. Catharines to be named later; that meetings of the Central Association should be held for attendance by all members of farmers' associations, at which each county or riding association should be entitled to two representatives with authority to vote and speak, and that the executive have power to make full arrangements for the extension of the organization, even to the extent of employing a regular organizer, if found necessary.

EX-POLICEMAN'S APPEAL. Court Says Metal Workers' Union Can Be Sued.

The appeal of ex-Policeman Robert Armstrong against the decision of Judge Street dismissing his action against the Ontario Police Benefit Fund, was before the Court of Appeal on Wednesday afternoon. Armstrong claims that the committee of the fund had no power to alter the rules in 1894, giving him \$1000, instead of a half-yearly pension.

The Central Ontario Railway, which, under the litigation which has been going on for months, was to have been sold on Wednesday, will not be offered for sale till Oct. 15. Judge MacMahon granted the order of postponement.

The court granted, upon the application of A. R. Bremer & Co. of Chicago an order to wind up the Ontario Police Benefit Fund, which is now being liquidated. The American house has agreed to the appointment of a receiver of the branch here to be provisional liquidator.

The amalgamated Sheet Metal Workers' Union has failed in its application to be stricken out of the Metallic Roofing Company's suit against R. and must pay the company the costs of the unsuccessful motion. The Master, in giving judgment, followed a decision in a similar case of the Massey-Harris Company against the Ontario Sheet Metal Workers' Union here two years ago.

In that case Judge Meredith left the question for the trial judge. "As that case was settled and so never went to a trial judge, we will not be concerned with it," he said Monday, said J. G. O'Donoghue, counsel for the Sheet Metal Workers' Union.

Announcements. Court of Appeal—Peremptory list for to-day at 10 a.m. Armstrong vs. Ontario Police Benefit Fund (continued), First National Bank v. Coleman, Harris v. Stevenson, O'Connor vs. Rye.

Divisional Court: Abbott v. Atlantic Hunter v. Boyd, Hune v. Toronto Milk Co., Kelly v. Exeter, Deane v. Deane, Maclellan v. Hooton, Single Court: Lambert v. Farley, Henderson v. Henderson.

NIGHT SCHOOLS OPEN OCT. 1. Teachers Appointed to Take Charge of the Classes.

The Night School Committee of the Public School Board met on Wednesday and arranged the program of studies for the classes and the location of the teachers. The night classes will open on Oct. 1, and close on March 15. The Christmas vacation will extend from Dec. 19 to Jan. 5. The classes will commence at 7:30 and remain open until 9:30 o'clock.

The committee added practical English to the subjects to be taught. The principal inspector was given permission to act in the government of the classes where necessary, and the senior inspector was appointed. It was also decided to open the night classes in the new Bathurst-street school.

The following teachers were appointed: Bathurst-street School, Principal, A. C. Batten; 1st asst., P. Gillespie; 2nd asst., C. J. McIntosh. Hamilton-street School, Principal, J. G. Batten; 1st asst., P. Gillespie; 2nd asst., C. J. McIntosh.

Elizabeth-street School, Principal, G. H. Deane; class for Romanians, W. M. Martin; Cooking School, Miss E. A. Hepler. Gladstone-avenue School, Principal, K. M. Smith; assistant, G. H. Gray. Hamilton-street School, Principal, P. F. Dowling.

John-street School, Principal, C. E. Bell. Niagara-street School, Principal, E. A. McKenzie. Parliament-street School, Principal, E. A. McKenzie; assistant, D. P. Reese. Working Boys' Home, Principal, C. H. Clarkson.

Division Court Clerks Meet. The seventeenth annual convention of the Division Court clerks for Ontario was held yesterday at the Parliament buildings. W. H. Higgins was in the chair in the absence of the inspector, J. Dickey. Some of those who were present were: C. J. Bard, Bruce-bridge; R. Allan, Owen Sound; C. K. Curvey, Orford; R. Eby, Waterloo; E. T. Wilkes, Galt; R. P. Herbert, Warkworth; J. W. McIntosh, London; E. A. Hepler, Toronto; J. J. Ryan, Sudbury; J. D. Falconer, Dufferin; J. McGuire, Wingham; B. F. Bruce, Brantford; J. E. Duggan, and James McGuire. The special convention committee is as follows: Allan Owen Sound; Duggan, Brantford; Edward, Toronto; McIntosh, London; W. Whelan, Centreville.

Improved Service—No Increase in Fare. The addition of a dining car on evening train from Toronto for New York has materially improved the service, but the fare remains the same, and is no higher than other lines. Ask C.P.R. agents about it.

Monkey Brand Soap makes copper like gold, tin like silver, crockery like marble, and windows like crystal.

Issue of \$300,000 of Stock at 200—\$600,000.

THE METROPOLITAN BANK

Head Office, Toronto. Authorized Capital, \$2,000,000. PROVISIONAL DIRECTORS: A. E. Ames, A. E. Ames & Co., R. H. Warden, D.D., Treasurer Presbyterian Church in Canada, S. J. Moore, President, Wm. A. Rogers, Limited, T. Bradshaw, Vice-President Imperial Life Assurance Co. of Canada, C. D. Massey, President Massey, Harris Co., Limited.

SOLICITORS—Thomson, Henderson & Bell. Applications having been already received for \$700,000 of the Capital Stock at 200 (or \$1,400,000 of par value and premium combined), which will be allotted in full, an opportunity is now afforded to those desiring to join in the inauguration of the Bank for subscribing for an additional \$300,000 at the same rate.

When allotments are made in accordance with the subscriptions, the Bank will be in a position to close its business at the end of the calendar year 1902 with:

Table with 2 columns: Item, Amount. Paid-up Capital \$1,000,000, Reserve Fund 1,000,000.

The room in Canada for additional banking facilities is generally conceded. The Metropolitan Bank will, as soon as a new building can be completed, have its Head Office at the southeast corner of King and Jordan streets, Toronto. Desirable premises have been procured for temporary occupancy at 7 and 9 East King-street. Branches will be opened shortly in one or two other cities.

The stock is issued at 200, so that the Bank may be strong from the start. The protection thus afforded to depositors and note holders is obvious. The extraordinary success of Banks in New York and other large cities in the United States, which commenced business with large Reserve Funds, affords ground for the belief that investments in the shares of this Bank will prove very desirable.

Messrs. A. E. Ames and R. H. Warden have consented to accept the Presidency and Vice-Presidency of the Bank, respectively. The appointment of a General Manager is under consideration, and will be made at an early date, and it is intended that the permanent Board of Directors shall consist of seven.

The shares are of the par value of \$100 each, and are issued at a premium of 100 per cent, payable as follows:

Table with 2 columns: Percentage, Date. 25 per cent. of par value and of premium upon allotment; 25 per cent. of par value and of premium on October 15th, 1902; 25 per cent. of par value and of premium on November 15th, 1902; 25 per cent. of par value and of premium on December 15th, 1902.

The Bank will start business with absolutely no organization expenses other than the cost of its charter and of advertisements of this prospectus, there being no commission to be paid on stock subscriptions. Applications will be made to have the stock listed on the Toronto and Montreal Stock Exchanges toward the close of next December, when the shares are to be fully paid.

The Directors reserve the right to make allotments of the whole or any part of shares applied for, at their discretion; preference, if any, to be shown in the direction of wide distribution of the shares amongst bona-fide investors.

Subscription Books will be opened at the office of the undersigned, 18 East King-street, Toronto, on Monday morning, September 15th, at 10 o'clock and will be closed at 4 o'clock of the same day. Subscription forms may be had on application.

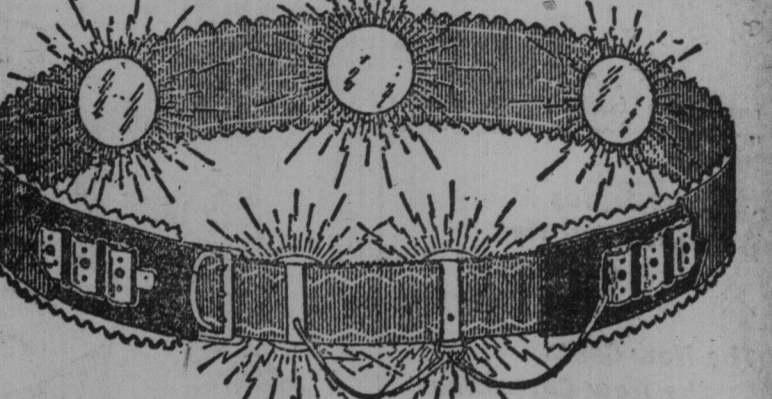

We recommend the shares of the Metropolitan Bank for investment.

ELECTRICITY IS LIFE

Your Chance to obtain a Genuine \$20 Prof. Morse Electric Belt at Our Special Advertising Price of \$5.00

Read Our Special Offer

Genuine MORSE ELECTRIC BELTS

At the heretofore unheard of price of \$5.00 is the greatest Electric Belt value ever offered. The Belt has been for years, and is still sold the world over by Medical Concerns for \$40.00.

We have purchased the entire output of the Morse Laboratory, and hereafter will be the sole distributors. The Morse Belt is made exclusively in one grade—the very highest possible to manufacture, and this fact has been taken advantage of by medical men to rob the public of exorbitant prices. The Genuine Morse Alternating Current Electric Belt demonstrates the grand power of Electricity to weak, worn-out, debilitated men and women.

An Unfailing Cure for all disorders of the Nervous, Muscular, Seminal and Digestive systems. Instantly relieves Rheumatism, Neuralgia, Headache, Lumbago, Fever and Ague, Asthma, Kidney Troubles, Dyspepsia, Liver Disorders, Throat Troubles, Catarrh, Constipation, Sciatica, Pains in the Back, Sleeplessness, Nervous Debility or Exhaustion. For Paralysis and Constitutional Weakness it has no equal. For the quick and positive cure of all diseases that arise from a diminution or lessening of the vital power, which Electricity alone can restore and increase, the Morse Electric Belt is absolutely guaranteed. For a Weak and Drained Nervous System the Electric Belt gives splendid results. It stops losses, repairs waste, strengthens every tissue and muscle, and the whole body feels the good effect.

Weak Men, Sufferers from Lost Manhood, Lost Vigor, Lack of Development, Variocoele, etc., are delighted with the prompt cure and restoration derived by the use of the Morse Belt, which we sell under our positive Guarantee to impart more Vigor, Strength, Energy and Soothing Effect in all physical ailments than any Electric Belt on the market. Every Belt is furnished with Electric Suspensory (not shown in cut).

SPECIAL ADVERTISING OFFER

We are enabled to offer these Belts for a limited time at the actual cost to manufacture by reason of the fact that once introduced in any locality they will continue to sell themselves. We will forward but one Belt to each person at this figure.

AN HONEST OFFER—We don't ask you to send us any money in advance. If you want one of these belts sent to your nearest express office so that you can see and examine it, free of cost, just the same as if you came into our office, or into any store, write us and we will send it, and if after examination you are satisfied that it is our regular \$30.00 Electric Belt, and exactly as represented, pay the express agent the special price and express charges and take it, otherwise it will be returned to us. Can any fairer offer be made than this? We are the only manufacturers of electric belts who send belts C.O.D. without asking one cent in advance. If you prefer, you can send cash with order, in which case we prepay postage or express charges, and guarantee the belt to be exactly as represented, or cheerfully return your money. Send your Order to-day.

THE MASSEY-HARRIS BINDER

did its work in every way superior to that of the McCormick

So said five prominent farmers who were present at the Binder trial on Mr. David Smellie's farm on July 28th last.

Their written testimonial is one of many received by MASSEY-HARRIS COMPANY this harvest.

The MASSEY-HARRIS Binders and Mowers have plainly demonstrated their superiority in the harvest just passed.

TOBACCO AND LIQUOR HABITS. Dr. McTaggart's Tobacco Remedy removes all desire for the weed in a very short time and requires touching the weed with it occasionally. Price \$2.

Simply marvellous are the results from taking his remedy for the liquor habit. It is a safe and inexpensive home treatment; no hypodermic injections; no publicity; no loss of time from business, and a certainty of cure.

Address or consult Dr. McTaggart, 75 Yonge-street, Toronto.

ONE WOMAN

With two faces; one face bright with health, the other face pinched and drawn by illness. Many a woman can take the portrait of herself made but a few years ago, and holding it up by her face in the mirror realize a similar change.

Behind this change in form and feature is always disease, and generally disease which affects the womanly organism. The backache and bearing-down pains put a heavy strain on the nervous system. There is loss of sleep, lack of appetite, and, as a natural result, loss of strength and flesh.

Doctor Pierce's Favorite Prescription cures diseases of the womanly organs. It establishes regularity, dries inflaming drains, heals inflammation and ulceration and cures female weakness.

"Words cannot tell what I suffered for thirteen years with womb trouble and dragging-down pains through my hips and back," writes Mrs. John Dickson, of Grenville, Antiochia, Ont., N. Y. "I can't describe the misery it was to be on my feet long at a time. I could not eat nor sleep. Often I wished to die. Then I saw Dr. Pierce's medicine advertised and thought I would try them. Had not taken one bottle till I was feeling well. After I had taken five bottles of 'Favorite Prescription' and one of 'Golden Medical Discovery' I was like a new woman. Could eat and sleep and do all my own work. I would entreat of any lady suffering from female weakness to give Dr. Pierce's Favorite Prescription a fair trial, for I know the benefit she will receive."

Dr. Pierce's Pleasant Pellets cure biliousness and sick headache.
