Sir Wilfrid's Preference Is to Get Session thru And Then Arm For Fray

Premier Not Inclined to Be Hurried Into a Premature Appeal to the Country—Opposition Determined to Obstruct.

OTTAWA, May 29.—(Special.)—The house resumed its sessions to-day, and the situation may be described as one of marking time and likely to be so until a week from Monday, when the provincial elections are over in Ontario and Quebec.

There are indications that the government may decide to break the deadlock by a dissolution and an appeal to the country before the middle of July; it is even said that the Liberal organizers in every one of the provinces are now busy at the work of getting ready for such an eventuality.

But that is not what Sir Wilfrid Laurier desires or seeks; anyone who has watched him closely must know that he has no love for being forced to drop his ministers who have landed him in trouble. He prefers even in their case that his own party should be the public opinion should force them out of political life rather than that he should ask for resignations. And this kind of elimination is slowly but surely going on.

If he can have his own way it is evident now that he would prefer to fight the situation in the house and then to re-arrange his cabinet on rather sweeping lines, to take a number of progressive planks and to appeal to the country at his own time with his new material and his new battle cries. He is credited with having two or three rather striking shafts in his quiver which he will shoot when he thinks the time ripe, and the bow well strung.

Creating Deadlocks. In the meantime the opposition are dugged and determined, and if some kind of a truce or settlement is patched up between the two forces on any one question, say on the proposed election law for Manitoba, and a slice of the estimates are put thru, it will be only a day or two when another issue will be launched by the opposition, another deadlock brought into line, and another situation created.

The opposition is bent on having its way, and it will be easy now for them to keep it going, as the rules of the house are all in their favor. Sir Wilfrid, however, could do this, as the rules now are, and the house would seem to be powerless to change the rules to the detriment of just as it can be held up in the matter of supplies or ordinary legislation.

There are men on the government side, however, who take the view that the government forces could be hard fighting, by the mere strength of their majority and the ruling of the speaker, break any deadlock and force a vote on supply or on anything else. For what is bent on having its way? It might be illegal, but if it is done, it is done and there you are.

Sir Wilfrid, however, is credited with having little sympathy with this suggestion. Nevertheless it is the general opinion that no matter what complexion will be to change the rules so that the majority may control as now, but in most all modern popular assemblies save in Canada.

The results in Ontario and Quebec will be important factors in the final decision, but they will not be decisive, nevertheless another ten days will likely see the direction which the fighting lines are to take.

One indication of the situation is that the governor-general will be here on Sunday morning, but it was his intention to have remained in Toronto until the middle of next week.

In the meantime the house at this writing, after a long discussion over the St. John cold storage scandal with the prospects of the talk keeping up all night long, has not yet been added to the complication.

Prosperity Coming. In the meantime the crops are growing and the water works is running and the hard working Canadians are watching their improved prospect and returning prosperity with patriotic more interest than the fight of the politicians at the capital.

REGULATIONS REVOKED. Change Made in Importation of Live Stock. OTTAWA, May 29.—(Special.)—The regulations established in 1887 respecting animals for the improvement of stock have been revoked by order-in-council, and it is now provided that no animal imported for the improvement of stock shall be admitted free of duty unless the importer is domiciled in Canada or is a British subject, and furnishes a certificate of the record and pedigree in a list of registered descendants from time to time by the minister of customs, showing that the animal is pure-bred and has been admitted to full registry in a book of record established for that breed.

QUEBEC CONSERVATIVES TO CONTEST EVERY SEAT

French Papers Giving Unheard of Prominence to Tory Speeches and Grit Prospect Look Sinister.

MONTREAL, May 29.—(Special.)—As the nomination day in the Province of Quebec approaches it becomes certain that when the leader, the Hon. P. E. LeBlanc, declared at the opening of the campaign that no seats would be uncontested by the opposition, he knew pretty well what he was talking about.

It looks, in fact, as if the gaps in this district, save one perhaps, would be filled up on the eve of the nomination, and as the candidates are all in the field in the Quebec district, the prospect of the campaign that no seats would be uncontested by the opposition, he knew pretty well what he was talking about.

On the other hand, Hon. L. P. Pelletier writes here that not only will he carry his County of Dorchester, and that Sir Wilfrid Laurier is doomed. Here Bourassa's candidature has been received with the greatest enthusiasm and the premier has hastened home from Quebec to enter upon his campaign, which to-day is any man's fight.

During the present contest it can be said that the French press has been the opposition a fair show, inasmuch as all Conservatives speeches have got before the people as they never did before in any other election.

But Finance Minister Says Time Has Not Yet Arrived for the Move. OTTAWA, May 29.—(Special.)—In the house to-day, Mr. Foster drew the attention of the finance minister to a statement in a Montreal paper regarding the failure of the Banque Ville Marie, and asked if the department had done anything to improve the position of the bank.

Mr. Fielding replied that the Bank Act provided in such cases the Bankers' Association takes hold and appoints a liquidator. These two proceedings had been taken, and he was afraid the situation was a grave one, but the moment had not arrived for the government to take action.

MILNER'S VIEWS ON EMPIRE'S FUTURE

Calls for "a Wider Patriotism"—Critiques the Constant Protestations of Loyalty Between Britain and Canada.

MONTREAL, May 29.—Lord Milner has contributed a striking article, of particular interest to Canadians, to the new weekly paper, The Standard of Empire, which will appear in Canada on Monday.

Writing on the text, "The Wider Patriotism," Lord Milner declares that empire is not a thing to be desired, unless this becomes more general than empire is to be desired. He defines "Wider Patriotism" as the point of view of those whose patriotism is not limited to the particular portion of the empire in which they live, to Canada, to Australia, to New Zealand, or even to the United Kingdom, but who recognize that the empire as a whole has the highest claim to their allegiance.

Lord Milner regards the word "Empire" in some respects as unfortunate and a misnomer, especially in regard to the idea which it conveys as to the ascendancy and domination of the mother country over the great dominions. "The unprofitable discussion," he writes, "breaks out from time to time, especially in Canada, over the question of 'loyalty' to the mother country. 'Rightly regarded, there is just as much, or as little, reason for Great Britain to be loyal to Canada as there is for Canada to be loyal to Great Britain. What matters, from the point of view of the wider patriotism, is that they should both be loyal to the larger body of which they are both members.'

He maintains that the future of the whole empire depends upon the willingness of the self-governing dominions to be loyal to Great Britain, and the strongest influence is that of race. Dealing with the future of the empire, he declares that it is no aspersion of the loyalty to the empire of the French in Canada to say that "there are social and political reasons which make it preferable British citizenship to the alternative of absorption into the United States. And even thus, French citizenship in Canada can hardly be regarded as contributing to the growth of imperial sentiment in that Dominion."

UNITE SMALL COLLEGES AS ONE 'UNIVERSITY' Principal Peterson of McGill Outlines a Proposition for the Maritime Provinces. ST. JOHN, N.B., May 29.—(Special.)—Principal Peterson of McGill University, who delivered the alumni address at the University of New Brunswick, Fredericton, gave out a statement in which he said:

What I believe is needed in these maritime provinces is something to bring about a union of colleges so as to bring them together as one great university, with one board to give a final degree. Principal Peterson said one of the changes he thought necessary was a reduction in the length of the course at such small colleges as King's College, Windsor, N.S. Under the plan he had in mind, a board which governed component colleges need not have any particular place of meeting, but could meet at different places each year.

ALL'S FAIR IN MANITOBA. Registration Fails to Reveal Slightest Attempt at Crookedness. OTTAWA, May 29.—(Special.)—Dr. Roche, M.P. for Marquette, to-night received the following telegram from Hon. Robert Rogers of Winnipeg:

THE ONLY MAN. The university of the people, of the masses, is the public library in a community or municipality. The more its influence widespread, make it national. If the people laugh to hear of a library? Are they even taught to use a library? The time has long passed when the chief requirement in a librarian was scholarly knowledge of books and the direction of the cataloguing assistants. The librarian of today must not only know books; he must also be a man who has been active in affecting public opinion, in directing the people by his open utterances in the press or on the platform—a man who is well taught in the use of the public library. To get a man of this calibre may involve a revision of the regulations attaching to the office. But whatever is necessary should be done to secure that the new institution will not only be worthy of the city but in all departments reach the highest ideals of public service.

By such reflections we are able to establish the criterion which should guide Toronto in choosing the best man for the position. No mere custodian of books, however scholarly he may be, will do. We want a citizen—a sane people will demand a citizen—who will "nationalize" the influence of his new and beautiful Carnegie Library. This man, we submit, is Dr. J. S. Willison, secretary of The New York Public Library, a man who has had great influence in directing the minds of his fellow citizens and to point out the very man for the position. DEFER POWER QUESTION TO REGULAR MEETING

Council Daily Again—Southern Gift Is Rejected Earl Grey Visits Stony Creek.

HAMILTON, May 29.—(Special.)—The council this evening decided to defer consideration of the power question until the next regular meeting of the council. The excuse they gave for this action was that there was a suspicion that politics was having some influence on the aldermen. The motion to defer consideration was carried by a division of 13 to 8. All the warm friends of competition in power voted against the motion. They are: Mayor Stewart and Ald. A. Wright, Hennessy, Ulrichs, Jutten, McLaren, Farmer, Bailey and Anderson. The aldermen after authorizing William Southern last year to build a hospital for incurable consumptives on the city hospital grounds turned around to-night after the work of the council had passed a motion that is practically a refusal of the gift of \$15,000. The motion was that Mr. Southern should be permitted to raise funds enough to build such an institution on another site. T. M. Wright and F. F. Dalley were appointed members of the cemetery board.

WRIGHT TO M'PHERSON—'YOU PROVE MY CASE'

Lawyer's Statement Held to Show He Knew Gamey's Whereabouts and Kept Silent.

There were developments yesterday in the Wright-McPherson-Gamey controversy, and Mr. Wright wore the smile last night.

Mr. McPherson, during the morning, wrote a letter addressed to Mr. Wright, but which he gave to the press. In it he said: "Mr. Gamey did not telegraph me from Buffalo, but wrote me a letter, which I have in my possession. I also have the envelope in which the letter was contained. It is postmarked at Buffalo, April 19, 1908, at 6.30 p.m., and at Toronto, April 20, 1908, at 10 a.m."

"On the morning of Monday, April 20, 1908, the commission met at the usual time, and I was present with other counsel, and had no knowledge whatever at that time of Mr. Gamey's whereabouts. Having remained in attendance at the commission until adjournment for the day, I returned to my office and found Mr. Gamey's letter awaiting me. I at once despatched a telegram to him."

"To which Mr. Wright replies: 'You are very positive as to dates, etc. You admit that you had a letter from Mr. Gamey postmarked at Buffalo on April 19 at 6.30 p.m., and at Toronto at 10 a.m. on April 20, and received by you at your office that same day, April 20. I am glad to have your admission. It absolutely proves the charge I have made. For, since the commission did not meet on April 20, as you say, but on April 21, you, by your own confession, had a letter from Mr. Gamey in your possession for a whole day before the commission met. You knew where he was when you heard Mr. Blake say his absence was unaccounted for. You had his letter in your possession when you talked with Dr. Pyne and Mr. Bristol for the night of April 20, and you not only knew that he had left the city by your advice, but that he was at that moment in Buffalo when you sent Mr. Macdonald and Mr. Frye scurrying around Toronto searching for the client you were treacherously betraying."

"In the face of such a damning confession, do you not think that in the name of political decency you should efface yourself from public life? 'Surely you owe it to the Conservative party, that has done so much for you, to relieve it from the humiliation of your candidature. 'I said last night that I did not know how you came into the case as coach, I have been informed since, and shall make the information public on the first suitable occasion. If I am correctly informed, your candidature for the observance of professional etiquette would seem to be something of a joke."

HUNDREDS AT FUNERAL. Remains of Owen Sound Victims Interred at Port Huron.

PORT HURON, Mich., May 29.—The remains of Mrs. James Creighton and her two children—Catherine and Claire Chapman—who were slain by the husband and step-father at Owen Sound, Ont., Tuesday morning, were this afternoon conveyed to their last resting-places.

Twelve representative men of Port Huron acted as pall-bearers. Not in years has such a cortege passed over the streets of Port Huron. Besides a great many friends of the family, hundreds of the morbidly curious were on hand.

"PROF. NAPOLEON." Big Spectacular Extravaganza Is to Be Given.

Preparations have been quietly made during the past month for one of the largest musical productions ever given in Toronto, the famous musical extravaganza of college life, "Professor Napoleon," which will be produced at the Princess Theatre on June 18 and 20, for the benefit of the Toronto Western Hospital.

PORT ARTHUR DAMAGE COMPARATIVELY LIGHT

Mayor Carrick Places It at \$30,000 and Other Conditions Not Serious—How Flood Occurred.

Mayor J. J. Carrick wires The World from Port Arthur as follows: "City's damage not as large as at first supposed; \$25,000 will cover loss to dam. Loss of life was the most serious. Three killed. "Electric railway and light being operated already. Water works connection completed to-night. City stand pipe assures fire protection.

How It Happened. PORT ARTHUR, May 29.—The bursting of the dam at the civic power plant on the Current River was the result of several days' heavy rains, which caused the stream to rise at a rapid rate, but without causing alarm. The dam had been built over the dam further up the river first river gave way, and when their waters broke loose into the already swollen river, and struck the upper civic dam at 11:30 Wednesday night, it gave way with a tremendous roar, precipitating down country side an enormous wall of water fifteen feet high, which spread out for over a mile in width, sweeping everything before it, including buildings, pavilions, bridges, all the fences, trees and other things in its path.

At Black Bay the government bridge was torn away. The next obstruction was the storage dam at Port Arthur. City Engineer Antonin returned this morning from a trip to the Paquette and Onion Lake dams. The former, holding two million cubic feet of water, broke through, the latter held and is undamaged.

The C.P.R. has hundreds of men working on the track, but it must be some time before the regular operation is resumed. At least two hundred feet of the new bridge over the Current River. Passengers and mails are being transferred by boat.

SPLENDID REAL ESTATE PROPOSITION.

The Bedford Park Property to be Sold into Building Lots—Homes at Reasonable Cost.

One of the best real estate properties on the market today is the beautiful Bedford Park, situated as it is in an ideal spot overlooking the city and easily accessible, besides being well watered, with schools and churches, making it an investment of undoubted value, and whether bought for immediate or future use, it is bound to increase in value very rapidly. The property is being handled by William Macdonald, the well-known real estate broker, and from all indications it looks as if the entire property will be taken up within a very short while. The lots are laid out in a regular and orderly way, having had two beautiful avenues, Woburn and Bedford, run through the property. The lots are of good depth, and are surrounded by trees and other desirable features. The property is upon the market on a few days, but it is being sold at a very moderate price, and it is a rare opportunity to invest the opportunity to secure a most desirable lot at a very moderate cost. The owners have given instructions to sell the property at a price which is very reasonable, and the price which is very reasonable, and the price which is very reasonable.

UNITED STATES SLANG.

Critics of American slang will find food for thought in the opinion held by Mrs. Belle de Rivera, prominent in woman's clubs, regarding the characteristic forms of speech in use in the United States.

"Slang is divided into two classes," said Mrs. de Rivera recently. "We have that which is coarse and vulgar and that which seems spontaneous and inevitable to the occasion. It is along with its proper limitations that adds to the impressiveness of our language, and furnishes a means of expressing a thought with a shade of meaning that no other words or phrases supply."

"Take, for example, the expression, 'he doesn't know where he is at,' that is distinctly a form of slang, yet it seems to me to say so many things that it would be difficult to put into other words. I do not believe in actually necessary words so much as in developing too easily into taking liberties with our language—but phrases that fit the speaker's need, even if they are slang, add pliancy and expression to our conversation."

"Much of the criticism against slang is unwarranted. A word expressed here and there that may not be in accordance with the best usage adds force to a statement and defines the meaning intended better perhaps than if a more graceful phrase were resorted to. Under these limitations the tongue of slang is no sign that the English language is degenerating in this country."

To Have White Hands. If the skin is to be as white as a sheet, a good soap is required to preserve it. A good soap, aided by a pinch or two of oatmeal, may be used for a thorough cleansing of the hands twice a day, and if needful to still further cleanse them with warm water—not hot—will do the work.

Once a week they should be rubbed all over with a slice of lemon. If these chips, camphor may be applied at night and white gloves worn to increase the softening effect.

It should always be cut in the palms of the hands to allow ventilation. For distressing red hands equal parts of glycerine, lemon juice and rosewater may be applied nightly under gloves. Daily applications of lemon juice are sure to produce a white effect.

Tight sleeves and tight finger rings are a frequent source of red hands, and the only remedy for this is to remove the irritating cause.

FOSTER AND SIR FRED HAVE ANOTHER BREEZE Member for North Toronto Asks the Minister to Make a Withdrawal.

OTTAWA, May 29.—(Special.)—In the house to-day, Mr. Foster, on a question of privilege, asked The Hon. the Minister of the Interior, Sir Frederick Borden, dealing with his (Foster's) connection with the transactions of the Union Trust Company. This statement, said Mr. Foster, was absolutely and wholly untrue, and he gave the minister opportunity to prove it or to retract it.

Sir Frederick replied that Hansard was inaccurate; in fact, there was litigation in which he was reported to have used. What he intended to say was that the house should consider whether his own position in connection with his cold storage enterprise, which secured a government subsidy, was at its worst to be compared with the position of a man (Foster) who succeeded in placing himself in another position connected with another company, and then engaged in the delightful occupation of buying lands of the company, of which he is manager, and taking a commission and putting it in his own pocket.

Sir Frederick Borden said his authority for making the statement was the proceedings of the royal insurance commission, which he proceeded to read the speech of Mr. Aylesworth when the matter was before the house last year. "That," he said, "is the ground upon which I made that statement."

"In the verbiage and in the intent it is absolutely untrue and unfounded," Mr. Foster retorted. The statement was made by Mr. Aylesworth a year ago, and has never been improved," retorted Sir Frederick. But Mr. Foster maintained there was a difference between the statement and inference.

He repeated his challenge to the minister to make good, "and," he added, "I will challenge him as long as he and I are members of this house."

Mr. Borden again called attention to the use of the government steamer Champlain as a political weapon in placing himself in another position connected with another company, and then engaged in the delightful occupation of buying lands of the company, of which he is manager, and taking a commission and putting it in his own pocket.

HUGHES AND BERGERON SAY 'TIS AND 'TISNT

Colonel Wants to Nail Any Rumor in Circulation Connecting Him With Graft.

OTTAWA, May 29.—(Special.)—After Monday next, morning sessions will be held and the government will also take Wednesday evenings. Mr. Oliver introduced a bill to-day to consolidate and amend the acts respecting the public lands of the Dominion, and Mr. Zeno protested against the introduction of such an important bill at this late season.

Col. Sam Hughes rose to a question of privilege. The Hon. the Minister of the Interior, Sir Frederick Borden, had denied that he had notified Col. Hughes that Col. Worthington had something terrible against him, namely, that grafting in connection with the Ross rifle, against him, repeated the statement, insisting that they had any God's amount of data against me and the minister of militia, and begged him (Hughes) for the sake of himself and the party to pay the money back."

He had assured Mr. Bergeron that there was nothing in it, but Bergeron said that every body believed it. Col. Hughes said he had spoken to Mr. Monk about it and that gentleman had told him it was a complete fiction. Montreal that he was "in it up to the neck."

Then, said Col. Hughes, addressing the house, he (Hughes) gave that as an opinion why he should go into public accounts committee, and make "them" prove it. The colonel proceeded, "they said it was too bad that I and Sir Frederick Borden are in it."

He read a letter from Col. Harrison, who said he had "The boys of the Old Brigade," the voices of the soldiers taking up the chorus. In the enclosure were: Col. D. M. Robertson, Frederick Borden, Alexander, A. A. Allen, T. C. Irving, Lieut.-Col. Gooderham, Lieut.-Col. W. Henderson, and Alexander Fraser.

The regiment was complimented by Col. Henderson upon the success of the boys of the Old Brigade, who had been dismissed after singing "God Save the King."

The regiment was complimented by Col. Henderson upon the success of the boys of the Old Brigade, who had been dismissed after singing "God Save the King."

Mr. Bergeron declared he had nothing to say. The colonel was entirely mistaken, as he had never heard that Col. Hughes had any money in the Ross rifle.

Col. Hughes insisted that Mr. Bergeron had used the language credited to him.

Mr. Bergeron invoked the rules. The colonel must take it back.

Col. Hughes protested that his word was as good as that of the member for Beauharnois.

Col. Worthington also characterized the statement of Col. Hughes as "a silly dream," and the incident closed.

FORWARD CANADA.

Canadian Firms to Exhibit in England—Franco-British Exhibition Will Embrace Some Great Advertisements for Canadian Industries.

The Franco-British Exhibition at Shepherd's Bush, North London, of which the Olympic games are to be a part, is daily receiving consignments of goods of the most typical of various industries in which some of the enterprising firms of the world are interested.

That Canada is not behind in this competition for the foreign export market is another proof of Johnny Canuck's ability for invention and progress.

Of the many notable exhibits at the Franco-British Exposition, that of the Canada Cycle and Motor Co. of Toronto will no doubt attract the attention and interested enquiries of all who see it.

A shipment of Massey Silver Ribbon and Red Bird Bicycles were crated yesterday morning preparatory to the trip to London, where they will be exhibited at the celebration of the celebrated automobile and cycle expositions, together with a sample supply of this firm's wood bicycle. Several of the twelve handsome wheels are equipped with rainy-day mud guards and handle bars of the most highly finished and typical of Canadian fancy woods.

Again the foreign roaster type, built exclusively for export, is being introduced to tropical climates. The cushion-frame bicycle, of which the Sills handle-bar is also a species, is a strict innovation, and will prove a great drawing card to the English cyclist, and to motorists, as well.

The skates looked splendid in a highly polished Canadian oak showcase, lined with navy blue velvet. The automobile skates will open the eyes of many sportsmen, as it is the only new and radical departure from the former standard model of hockey and pleasure skates. The skates, which are made in the minimum alloy top need no comment here, their merits being thoroughly demonstrated during the past winter by all the senior hockey leagues.

The best wishes of every Canadian goes with every Canadian exhibitor in the Franco-British Exposition.

AUTO RACER KILLED.

Famous Italian Driver Meets Instant Death at Pimlico.

BALTIMORE, May 29.—Emanuel Cedrino, the noted Italian automobile driver, was instantly killed on Pimlico race track this evening. He had been preparing for races in which he was to have taken part to-morrow and was making some very fast miles. One had just been finished in 51 seconds and he had passed the grand stand and rounded the first corner of the track when spectators saw his car shoot into the air and turn an irregular somersault, landing on the track upside down.

Those who rushed to the spot found Cedrino on his back, dead, with a horrible gash in the back of his head and portions of his brains scattered about.

FREDERICK WYLD HONORED BY TROOPIES REGIMENT

Presented With Silver Salver in Recognition of His Long and Valuable Friendship.

A presentation of a heavy engraved silver salver was made to Frederick Wyld at the armories last night on behalf of the officers, non-commissioned officers and troops of the 8th Highlanders by Lieut.-Col. D. M. Robertson. Mr. Wyld has been a member of the regiment since its formation in October, 1891.

The regiment was present, and by virtue of it being the last parade of the season, in addition to the speciality of the occasion, the parade state was the largest of the season. The regiment was formed into a square, while Brigadier Davidson made the presentation address from the centre. The brigadier made touching references to the many occasions upon which Mr. Wyld had benefited the parade state was the largest of the season. No More Boiled Water "Slogan" for the City

Opportunity is Given to Hear Explanation of the Benefits of Filtration Scheme.

No one should miss the opportunity of hearing Dr. Charles Sheard, medical health officer, on Monday, at 4 p.m., in Victoria College, on the water filtration and sewage disposal bylaw.

No one is so well qualified to speak on the matter as Dr. Sheard, and all those interested in the question are cordially invited to be present at the meeting, which is under the auspices of the Local Council of Women, the Victoria Women's Educational Association and the University Women's Club.

The Daughters of the Empire are also taking a deep interest in the question, and already a number of property-owners have pledged themselves to support the bylaw.

Controller Harrison, who deserves great credit for the excellent work he has done in bringing these questions to the front, will also address the meeting, and short addresses are expected from R. F. Stupart, Rev. Canon Cody, the chairman of the board of education, and others.

Conservatory Commencement.

The commencement exercises and graduating program of the Toronto Conservatory School of Expression were held on Friday evening.

Miss Pieta Southworth read the theatre party from "Mrs. Wiggs of the Cabbage Patch" and was happy in Mrs. Wiggs' homely phrases and healthy philosophy.

Miss Nellie Jeffers in a short sketch of modern New York life entitled "Glimpse" a most noteworthy dramatic reading was the portrayal of the climactic scene from Wilde's Salome, by Miss Dot Fraleigh.

Inspector James L. Hughes addressed the graduates and presented the diplomas. Addresses were also made by Dr. Edward Fisher and F. H. Kinsman, Ph.D., the principal of the Conservatory School of Expression.

The following young ladies received diplomas: Dot Fraleigh, Nellie Jeffers, Gladys Noxon, Pieta Southworth and Florence Wharton.

Next Week's Amusements

"Altogether-by-the-Bye," which comes to the Princess next week, is a play that appeals to the serious minded as well as it does to those who go to the theatre to be amused and entertained. It is a play with a whole heart interest. It is a play that the ordinary theatregoer cannot see without being benefited. It is a play that will stand the test of time, and in the end be as strong as it is at the present time.

Roselle Knott, as Mrs. Colonel Grey, makes its appearance in the play, is at her best in the title role. As the wife, the mother and the society woman, she presents to her audience a portrayal of everyday life that is true and picturesque. Miss Knott has made an especial study of the Barrie character, and possesses a conception of the part that has been highly commended. She is supported by an exceptional cast, which includes Andrew Robson, the well-known Canadian actor.

At the Grand. It is rare indeed that one sees a play in which every character is true to life and free from the falsties of dramatist's license. When such a play makes its appearance, it strikes the fancy of theatregoers, and it becomes a popular favorite. That is one of the secrets of the marvelous success of "His Hopalong," the most delightful pastoral comedy drama produced in the past two decades. There is nothing false or strained about any of

Ben Greet.

The pasted play was introduced to the United States and to Canada four years ago by Ben Greet with the most marked success. The appreciation of Greet's work by the pastoralists have been presented under the auspices of Toronto University. Greet is making an annual renewal of his visit. Last year Mr. Greet was compelled to omit Canada. This season he is making a special visit to Toronto, and his pastoralists are a prominent feature on the program of commencement week.

At the Alexandra. When the Imperial Opera Company begins its fourth week of summer operations at the Royal Alexandra Theatre next Monday, there will be found a great many principals of this organization in their former parts in "A Runaway Girl," the comedy which opened at Daly's Theatre, New York.

With Miss Elgie Bowen in the title role, Charles Harcourt as Pimper, Halten Moore as Tamarind, George Le Soir, Edward Earle, Miss Laura J. Miller, and Miss Helene Ormond, the principal roles will be interpreted again by players who made the piece a notable success.

At the Star. No burlesque organization can claim better prestige than is possessed by Miss New York, Jr., and when the company appears at the Star next week patrons may be sure of seeing a show that will please. A complete new scenic equipment consisting of eight new and elaborate scenes, a full complement of beautiful new robes, with the latest achievements in the line of electrical and mechanical effects, have been added.

A carload of lovely femininity is arranged in the new wardrobe. The extra feature is Amper, the "King of Electricity," who will perform the most difficult feats with electricity ever witnessed.

Campbell last season staged a march by producing instead of the usual first part and burlesque two act musical comedy. This year the "Prince of Petticoats" will be produced. The company includes the following well-known artists: Woodford's educated animals, the funniest and most laughable act on the American stage; Harry Sauber, making Hebrew comedian; Campbell and Mack, comedians of merit; "The Sculptor," living pictures with 20 models, original burlesque illustrated songs, funny moving pictures, introduced with Campbell and Mack; The United Quartet, favorites and exponents of burlesque, and the chorus is claimed to be the largest ever seen in burlesque.

Hanlan's Point is Popular. This week will break all records at Hanlan's Point since it first became a pleasure resort. The attendance in this popular place's history. The circus acts, which are given free on a mammoth platform, are attracting a great deal of attention, and they are well worth seeing. Johnston, the daredevil bicycle rider, is one of the most popular performers. He is riding the Madam Montague and her trained birds are very pretty as well as a novelty, and are especially well liked by the ladies and children, and George and George on their bounding pug create heaps of laughter by their funny and amusing acrobatic work.

Johnston, the daredevil bicycle rider, is one of the most popular performers. He is riding the Madam Montague and her trained birds are very pretty as well as a novelty, and are especially well liked by the ladies and children, and George and George on their bounding pug create heaps of laughter by their funny and amusing acrobatic work.

Ben Greet. The pasted play was introduced to the United States and to Canada four years ago by Ben Greet with the most marked success. The appreciation of Greet's work by the pastoralists have been presented under the auspices of Toronto University. Greet is making an annual renewal of his visit. Last year Mr. Greet was compelled to omit Canada. This season he is making a special visit to Toronto, and his pastoralists are a prominent feature on the program of commencement week.

At the Alexandra. When the Imperial Opera Company begins its fourth week of summer operations at the Royal Alexandra Theatre next Monday, there will be found a great many principals of this organization in their former parts in "A Runaway Girl," the comedy which opened at Daly's Theatre, New York.

With Miss Elgie Bowen in the title role, Charles Harcourt as Pimper, Halten Moore as Tamarind, George Le Soir, Edward Earle, Miss Laura J. Miller, and Miss Helene Ormond, the principal roles will be interpreted again by players who made the piece a notable success.

At the Star. No burlesque organization can claim better prestige than is possessed by Miss New York, Jr., and when the company appears at the Star next week patrons may be sure of seeing a show that will please. A complete new scenic equipment consisting of eight new and elaborate scenes, a full complement of beautiful new robes, with the latest achievements in the line of electrical and mechanical effects, have been added.

A carload of lovely femininity is arranged in the new wardrobe. The extra feature is Amper, the "King of Electricity," who will perform the most difficult feats with electricity ever witnessed.

At the Gayety. Rose Sydel's London Belles Company is one of the best burlesque

organizations touring this season, and its engagement at the Gayety should prove a most satisfactory one. Manager W. S. Campbell last season staged a march by producing instead of the usual first part and burlesque two act musical comedy. This year the "Prince of Petticoats" will be produced. The company includes the following well-known artists: Woodford's educated animals, the funniest and most laughable act on the American stage; Harry Sauber, making Hebrew comedian; Campbell and Mack, comedians of merit; "The Sculptor," living pictures with 20 models, original burlesque illustrated songs, funny moving pictures, introduced with Campbell and Mack; The United Quartet, favorites and exponents of burlesque, and the chorus is claimed to be the largest ever seen in burlesque.

PURITY, BRILLIANCY AND UNIFORMITY CARLINGS ALE PORTER AND LAGER

A SHAKESPEARE THEATRE.

Memorial Project to Great Poet Takes Form. LONDON, May 29.—The question as to whether the Shakespeare Memorial will take the form of a statue or a national theatre, the latter being advocated strongly at a meeting held at the Lyceum Theatre, which Lord Lytton presided, will likely be settled by compromise.

Representatives of the committees of lords and decided to amalgamate on the basis that a Shakespeare Theatre be substituted for a statue.

Paralysis Permanently Cured. The sufferer paralyzed from waist to feet—Encased in Plaster of Paris for Nine Months—Dr. Williams' Pink Pills Cure After Four Doctors Had Failed—The Cure Vouched for by a Well-Known Clergyman.

Paralysis, no matter how slight, is a terrible affliction, but to be paralyzed from the waist to the feet, to be a helpless cripple, totally dependent upon what others do for you, is a condition as wretched as man could possibly bear. Such was the state of Mr. Allan J. McDonald, of Rice Point, P.E.I. For over a year he was a helpless invalid. He was unable to stand, his waist to his feet and for nine months lay in bed encased in a plaster of Paris cast. Four of the best doctors in Prince Edward Island were unable to help him and he seemed doomed to a life of misery and despair. But hope came to him when he read of what Dr. Williams' Pink Pills had done for other sufferers from paralysis. He procured a supply of the pills and began taking them. Gradually they broke the chains of disease that bound him, and filled his whole body with new blood, life and vigor. Mr. McDonald says: "I am a farmer, and in consequence have a great deal of hard work to do. One day while about my work I injured my back, but at the time I paid little attention to the injury and continued my work. As time went on, the pain became more severe and I soon found myself unable to lift anything no matter how light. It was not long before I had to stop work altogether and consult a doctor. He treated me, but his treatment did not help me and I rapidly grew worse. I had to take to my bed, and in the hope that my spine might receive strength I was encased in a plaster of Paris cast. This did not help me and I could feel the paralysis slowly creeping over me till I was totally paralyzed from my waist to my feet. I lost all control over my bladder and my legs had no more feeling than if they were made of wood. Three other doctors strove to cure me, but they treated me with poultices and for over eleven months I lay in bed unable to move. Dr. Williams' Pink Pills were then advised and I was shown testimonials of others who had been cured of paralysis through them. I bought a supply and

MILES SUGGESTS PLAN TO CREATE PROSPERITY

Enforce Investment of Huge Sums in Government Bonds—Western Liberals Meet

George W. Miles, the Liberal candidate who is contesting West Toronto against Hon. Thos. Crawford, believes he can solve the problem that is troubling all the financial men of the day. In the course of a characteristic address at Brown's Hall, College, and Osgeston, last night, he contended "that if the rich men of the country could be compelled by act of parliament to invest their funds in the bank to \$200,000, and put the balance of their surplus into government bonds, the wheels of industry would be soon going at full swing again and the banks would be forced to open their vaults. That is the system that has made the French the richest people on earth, and it will make Canada as well," he said.

Mr. Miles would like to have law reform made a live issue, but he thinks the present administration has not got the men to do it.

Regarding municipal ownership, he remarked that the Whitney government had thrown away its greatest opportunity when it neglected to take up the offer of the English gentleman who offered the control of the Electrical Development Company.

"It is all right enough to talk about what it is going to cost us in that deal for power, but the scores are going to run into a lot of money, and we will have an auxiliary plant built here to bar against accidents and breakdowns. That will cost \$300,000, and the talk of the mayor and controllers, that we can pump water with the plant is all both. We can't pump one gallon of water until the engines and boilers are changed," he asserted.

J. H. Bowers, a solid for the abolition of the bar, "the bar is the parent of the treating system, and the treating system has fathered and fostered all the evils resulting from the traffic."

"So long as politicians are human, they will work the traffic for the benefit of the party and the pocket."

"The Tories are doing it. The Whitney government before the last election promised the abolition of the bar, and yet when the cabinet was formed the strong temperance forces were shut out and Hon. W. J. Hanna, the shrewdest, keenest and most able man in the cabinet, was given the handling of the traffic. He is handling it, too, as shrewdly as he can."

George Mackenzie presided at the meeting, which was but sparsely attended, and Hugh MacMath, W. Reid, Dr. Bligh, Dr. McConnel and N. Dickenson delivered short addresses.

GOD'S HIDDEN GLORY TO BE REVEALED

And All Mankind to See It Together--Pastor Russell's Discourse.

BEAVER FALLS, May 29.—Pastor C. T. Russell of Pittsburg, Pa., preached twice to large congregations from midnight to dawn.

The language of our text implies that the glory of the Lord has not yet been revealed, and that this revelation belongs to the future.

At the facts as we know them fully corroborate the statement of our text and of its context, that it belongs to a still future day.

Thus we have clearly fixed by the apostle the time of the fulfillment of the prophecy of which our text is a part; that it is still future, that we believe not far distant.

STRENGTH TO MEN

How to Regain It Without Cost Until Cured

As vigorous as ever they were if they would only turn to the right source of electricity cuts new life into the veins and renews the vigor of youth.

DR. A. B. SANDEN 140 Yonge Street, Toronto, Ont. Office Hours: 9 to 6; Saturdays until 9 p.m.

Satan is His own Interpreter, And He will make it plain.

The ways of the Lord are thereby inscrutable to all except those who have inside information, granted only to God's Spirit-begotten children.

Satan is charged as being the great deceiver who, along with their own pride and selfishness, deceived and misled them.

Shortly, at the second coming of our Lord and the establishment of His Kingdom, the longer it will be a night time of ignorance and sin.

Someone may say, yes, the glory of the Lord shall be revealed, but what assurance have we that the blind eyes will see it?

FARMERS' BUSINESS METHODS.

"Businesslike methods in handling the affairs of the association and loyal support of the farmers in lean years as well as fat"—these two factors only are deemed necessary to successful farm co-operation by The Orange Judd Farmer, which has investigated and reported many undertakings in that line. It speaks especially of a Colorado fruit-growers' association with twelve years' satisfactory experience. The association not only markets the fruit at a cost of five per cent. of net returns, but also handles "everything the grower needs in the orchard, such as ladders, tools, fruit-wraps, spraying machines," bought in car lots and sold to members "cheaper than they can buy elsewhere."

There are many other instances of successful co-operation among fruit-growers—pointing the way to greater application of the co-operative method in marketing farm produce. "Hold-your-wheel" spasms, occurring sporadically in low-price years, are not likely to accomplish anything. Nor are denunciations of boards of trade such to the point. If the producer will not organize the market himself he must let somebody else do it for him. Most melancholy error of all is the program of assault and arson which is charged against those exceedingly dark tobacco-growers.

The Farmstead.

This is our growing time! Dryden's sale one week from today. Vote for a live farmer for the legislature. The A. O. C. excursions will soon be on. Belvoir sale of Shorthorns at Delaware, dinner forgoet.

Lots of corn is being planted this year. "I can buy 300 tons of hay in a half-day's drive," says William Peak, livestockman of Pickering. Much old hay has been held past the discretion point.

Potato planting is the order now. Rows three feet apart, with one set in hills 12 inches apart, gave the best results at the O. A. C.

Crops throughout Ontario are looking extra fine. Wheat, which is springing grains are fairly leaping into life.

Spare the bumble bees, boys! Let them rest about the fields. They aid the red clover seed crop.

Rye is heading out. The lowest begins to loom up and everyone hopes for good crops this year. Good crops will turn many an idle factory wheel.

After all, it is well to encourage industries that are failures of crops will bring to standstill? Exotic industries must take such chances.

The farmers want more power on the farm. Everyone is talking about the elections now, but what about that cheap power for the farm?

The folly of holding on to hay when good prices are procurable has been well illustrated this year. Who ever saw it otherwise when a scarcity scare was on?

W. D. Gordon, writing from Manitoba to his Pickering friends, says that the weather there has been good for some time and prospects of crops are excellent. Potato, corn and root-planting is now in full swing.

W. C. Good of Brantford suggests that political meetings be closed with prayer. W. L. Smith of the Sun asks why not? Perhaps because elections are not won by prayers alone.

A sale of Hereford cattle takes place at Hagersville, Norfolk County, tomorrow. See James Main's advertisement in another column. There are some good bulls for sale there.

A great many beef rings will begin operation among the farmers next week. Consequently the suggestions of our correspondent may be in season. Any variations from this plan that would be of use will be gladly received.

GREAT CRUICKSHANK SHORT-HORN SALE OF DRYDEN & SON

It is probably safe to say that in no other herd on this continent to-day will be found more Cruickshank blood than in the Maple Shade herd; while as high-class individuals, the offerings to be sold by auction at the farm at Brooklin, Ont., on Friday, June 5, will, likewise bear comparison with any lot ever before sold by auction in Canada. All told there will be sold 45 head—14 bulls and 31 females. The bulls are Golden Prize, 6574, a roan, 29 months old, got by their grand old stock bull, Prince Gloster, of the famous Cruickshank Duchesse of Gloster tribe; da a Cruickshank Grizelda, by the grandly-bred bull, Revenue, a half-brother to the great champion Nominee. Golden Prize Hero III is a red-roan 7 months old, by Chief Ramsden (a son of Imp. Miss Howie 6th); dam a Cruickshank Village cow, by Imp. Chief of Stars, Choice Merchantman, 6823, is a roan 20 months old, and a thick, happy, show bull, by the Missie bull, Imp. Merchantman; dam Imp. Choice, by Janissary. Attorney is a red 15 months old, by Champion Beauty, 6908; dam a Cruickshank Adeline, by Prince Gloster. Anyone wanting an extra good young bull will not be disappointed in this lot.

The personnel of the female offering is as follows: Cruickshank Belonaa, 1 yearling; Duchesse of Glosters, 1 2-year-old and 1 5-year-old; Roseberry, 3 2-year-olds, 1 4-year-old and 1 6-year-old; Villages, 1 2-year-old and 1 4-year-old; Lavender, 2 yearlings, 2 2-year-olds, 1 5-year-old; Grizeldas, 2 2-year-olds, 2 3-year-olds; Nonpareils, 1 2-year-old; Victoria, 1 yearling, 1 2-year-old, 1 7-year-old; Carmine, 1 2-year-old; Marr Rosebuds, 1 3-year-old, 1 7-year-old; Scotch Thistle, 1 2-year-old; Miss Ramsdens, 1 2-year-old; Northern Belles, 1 yearling, 1 2-year-old; Lady Edens, 1 yearling, 1 2-year-old; 2 3-year-olds, 2 4-year-olds; Lavinas, 1 yearling, 2 2-year-olds, 1 6-year-old; Louisa, 1 2-year-old. On the sire's side, 11 of these are the get of the noted old stock bull, Prince Gloster; one is the get of the C. Clipper bull, Clipper Prince, winner of first at Toronto; one is by the Meadow Flower bull, Bolderwood Lad; one by the Clipper bull, Clipper Champion; one by his breeding sire of show stuff, Proud Gift (Imp.); one by the great show bull, Bertie's Hero; one by the Marr Clara bull, Clarified Prince; one by the C. Cissy bull, Imp. Bapton Chancellor; three by the Rosemary bull, Imp. Scottish Prince; one by the Clipper bull, Imp. Chief of Stars; one by the Myrtle bull, Radium; one by the Imp. parrel bull, Imp. Nonpareil Archer; one by Champion Beauty; one by the C. Secret bull, Secret's Pride; one by the C. Butterfield, 2 Imp. Butterfly King; two that are imported are by the Lady Annie bull, Maxwell, and King Edward's bull, Luxury. The others are by Fower Champion, a Flower Girl; Collynie Archer (Imp.), a Missie, and Imp. Gold Mine. From the above list will be seen that very many of the offerings are doubly infused with Cruickshank blood. Nearly all of the females are show animals of more or less excellent merit. Most of them have been bred, and are safe in calf to the Missie bull, Secret's Pride.

This horse has been bred past the discretion point. It is a very fine specimen of the breed, and is a very good sire. It is a very good sire, and is a very good sire. It is a very good sire, and is a very good sire.

JAMES HAL

A Direct Hal Sire With a Pedigree Hard to Beat.

A DIRECT HAL STALLION.

The accompanying cut is a fair likeness of that celebrated stallion James Hal, owned by J. H. Moore of the Queen's Hotel, Oshawa, Ont. The man, Thomas Maddaford of Whitby, may be seen with his horse. It is talking modestly to say that this horse has breeding, style and merit in the stud, already to stamp him as one of Ontario's best horses. About 60 colts were left by him in the Oshawa-Whitby district last year. James Hal is by the unbeaten champion, Direct Hal, which was sold in 1908 for \$1000. He was mated to a horse, Wellsville, N.Y., at a cash fee of \$150. James Hal, lately brought to Canada by J. H. Moore, proprietor of the Queen's Hotel, Oshawa, is not only a high-class individual, but is a remarkably well bred horse. In color he is a rich dark brown, stands 15 2-4 hands high, but when in action and speeding

DAIRY STOCK FOR SALE.

Four Ayrshire bull calves, three of them six months old and nearly ready for service. One bred by Hillhouse Fitz of St. Anne's, a son of Howie's Pizzavay, one of the most successful bulls imported of late years, whose dam was the deep-milking Bluebell L. of Hillhouse. The other three are bred by Carrick Lad of Montebello, of the famous Glencairn III. (Imp.), and Baron of Maple Grove (Imp.), strains.

The dams of these calves are of the highest producing strains in Canada, being from such bulls as Cross of Knockdown, Prince Henry of Barocheski and Napoleon of Auchenbrack, all imported bulls, noted for the deep-milking qualities of their offspring. Considering the high quality of their breeding and their own individual merit, these calves are decided bargains, as reasonable prices will be quoted you. Write or see A. Letch, Mgt., Donlands, F.O. Donlands Farm.

Invest Now in Land in the Canadian West

Experience has proved that all good land in the Canadian West, located in a good district, and within 20 miles of a railway station, or nearer, is worth at least \$25 per acre for Home-making. 160 acres of such land will return annually in net receipts as much as 100 acres similarly situated in Ontario, which sells for \$4,000 to \$8,000.

We hold the Exclusive Agency for large blocks of rich, specially selected Canadian Pacific Railway lands in Western Canada. Prices from \$8.00 and Upwards per Acre

In 1906-1907 we sold over 300,000 acres. We give SPECIAL TERMS to actual settlers. We allow such to pay for land on the Crop Payment Plan

Industrious, experienced, thrifty men, if they buy from us, are sure to succeed, because we are prepared to assist them in case of emergency, such as loss by fire, frost, loss of stock or sickness.

WHAT IS HAY?

Do Ontario Farmers Cut Their Grasses at the Right Time to Secure the Best Hay? Better Begin Cutting Before Bloom Rather Than Leave it Too Late.

clippings in imitation of pasture 95 pounds of hay; from the same area at a single cutting 284 pounds, or almost exactly four times as much.

As a business proposition, then, a man can scarcely afford to pasture his high-priced lands. Better, by far, allow the grasses to grow to the right size to cut for hay.

When to Cut Hay. On the other hand, over-ripe grasses do not make hay. They make grain and straw. Oats, a true grass, may be cut for hay, or for grain and straw, as the farmer may choose.

Some experiments going forward at the Agricultural College convince one that if all the owner is after the greatest yield of protein per acre he would better cut his oats in the milk and cure them as hay, rather than allow the seed to ripen. Timothy should not be allowed to mature before cutting. Some experiments at other stations do not indicate but demonstrate that the time in the life of the timothy field when it will give the greatest yield or best hay is just as the plants are coming into bloom, not after the seed is formed. Further attention is called to the fact that maturing the seed is the exhausting effort of the timothy, and if it is desired to maintain the meadows, the timothy must be cut much greener than some of our farmers have been in the habit of cutting it. What is said of timothy is also true of clover. You will get a greater yield per acre, weight alone considered, if you will allow one-eighth of the blossoms to turn brown, and it is far better to mow just after the bulk of the plants are in full bloom.

The question of curing and raising the hay is another one and will be dealt with later.

Does it Pay to Pasture. In another field the same experiment was performed with timothy. The "pasture" plot was cut eight times and yielded 15.78 pounds of dried clippings. On the date of the last clipping the equal area was cut for hay, the product being 172 pounds of cured hay. Combining the results of the three trials we have from the frequent

HANNA AT BOWMANVILLE.

Defends His Position on the Three-Fifths Clause.

BOWMANVILLE, May 29.—(Special.)—Hon. W. J. Hanna spoke last night to an attentive but rather small audience than usually attends political meetings in this town, on the record of the Whitney Government.

The local option question is being made much of in West Durham, which is all under the local option except Bowmanville and Newcastle. He took full responsibility for introducing the 60 per cent. clause into the License Act and asserted that he was conscientious and decided in his opinion and position.

The KEMP Manure Spreader

YOU ROB YOURSELF EVERY YEAR YOU DON'T OWN A KEMP MANURE SPREADER.

Growing corn, wheat and oats feed on the soil. If it is not replenished with food elements it will starve. In time it will become exhausted—a worn-out farm. No one wants such a farm, or needs it. The chain and gears are only in motion when spreader is in operation. Also notice the large 24-inch drop-beater, which gets under the manure and lifts it out of the box, instead of shoving it back in. This best makes KEMP run easy.

COBALT--Rich Find Made at Depth on the Nipissing Claim--COBALT ADVANCE IN NIPISSING COMES UNEXPECTED

Development Unearths a Rich Vein and Prices of the Shares Are Advanced.

World Office, Friday Evening, May 29. An unexpected rise of three-quarters of a point in Nipissing today drew great attention to the Cobalt market, and led to the belief that the rally in the premier issue would encourage more speculation in other mining securities. The advance in "Nip" was caused principally by New York purchases. Diamond drilling at the mine has demonstrated that the rich bonanza vein occurs again at depth, and this has entirely changed sentiment in regard to the value of the shares. It is believed that a big short interest exists in the stock, both here and at New York, and any attempt to cover these commitments is expected to bring about another sharp advance. In the minor stocks there were few changes in quotations worth noting. The dealings were moderately large and the general undertone steady to firm. The exchanges for the mining stocks will be closed until Monday, when greater activity is looked for.

New York Curb.
R. B. Murray (Chas. Head & Co.) reports the following transactions in Cobalt stocks on the New York curb:
Nipissing closed 7 1/2, high 7 5/8, low 7; sales 10,000 shares. Buffalo, 1 1/2 to 2; sales 10,000 shares. Cobalt Central, 20 to 25; high 25, low 20; sales 10,000 shares. Green-Moehan, 3 1/2 to 4; sales 10,000 shares. McKinley, 7 to 7 1/2, high 7 1/2, low 7; sales 10,000 shares. Silver Queen, 1 1/2 to 1 3/4; sales 10,000 shares. University, 5 to 5 1/2, high 5 1/2, low 5; sales 10,000 shares. Yulon Gold, 3 1/2 to 4; sales 10,000 shares.

COBALT ORE SHIPMENTS.

Following are the weekly shipments from Cobalt camp, and those from Jan. 1 to date:

Week end.	May 22. Since Jan. 1.	Week end.	May 22. Since Jan. 1.
Buffalo	47,000	610,810	1,240,000
Cobalt Lake	44,500	445,500	1,240,000
Cobalt Central	40,000	400,000	1,240,000
Green-Moehan	15,000	150,000	1,240,000
McKinley	38,500	385,000	1,240,000
University	25,000	250,000	1,240,000
Yulon Gold	22,500	225,000	1,240,000
Total	232,500	2,325,000	7,240,000

The total shipments for the week were 232,500 pounds, or 482 tons. The total shipments from Jan. 1 to date are 2,325,000 pounds, or 465 tons. The total shipments for the year 1907 were 28,000,000 pounds, or 560,000 tons. The total shipments for the year 1908, to date, are 2,325,000 pounds, or 465 tons.

ENDORMOUS VEIN TAPPED ON THE "NIP" PROPERTY

Diamond Drilling at Nipissing Mine Unearths a Rich Find at 180 Foot Depth.

COBALT, May 29.—(From the Man on the Spot.)—The City of Cobalt Mining Company has started to sink a shaft near the old Nipissing mine, and it is believed that a rich vein of silver has been discovered at a depth of 180 feet. The shaft is being sunk on the "Nip" property, and it is believed that a rich vein of silver has been discovered at a depth of 180 feet. The shaft is being sunk on the "Nip" property, and it is believed that a rich vein of silver has been discovered at a depth of 180 feet.

NOT A COBALT RIVAL

But Montreal River Shows Wonderful Results in a Short Period.

C. B. Murray, whose hard trip up the Montreal River the winter before last was chronicled in The World, and whose predictions then as to the value of the newly well-known James Township district at a silver-bearing area have been so amply verified, has just returned from another of many trips made since, and tells us that the silver allowances must be made for the optimism naturally following the magnificent results of such a comparatively small amount of work as has been done in the district, the public are perfectly safe in accepting as a fact that there is no mining camp which will in every way rival the now world-famous Cobalt.

COBALT CENTRAL

The Company's concentrating plant, which has been in operation since the middle of December, is earning an average of about \$3000 a day working half capacity (10 tons a day) on the low-grade ore taken out during development, and a surplus applicable to dividends is being accumulated in the Treasury. As soon as the directors are convinced that there is a sufficient working surplus to insure the permanency of dividends quarterly disbursements will be begun. Only the extreme conservatism of the management has prevented a declaration before this time.—Excerpt from a recent statement by an official of the Company.

strength early. May sold up to \$1.08 1/2, then broke to \$1.06, then broke to \$1.04, and July and September did not respond as expected. The local crowd are bearish, and all the bulls are in the market, and cash demand is poor. There should be a good reaction now the May deal is finished. Then it will be safe to purchase July and September. The majority of the trade think now that May is out of the way, but this wheat is not harvested yet, and it's a question what the outcome will be. Corn—Showed good strength at the start. May sold at 82 1/2; there has been good selling of July by strong parties. We believe there is a chance for a good decline in July and September, still we do not look for any big movement, but there is not much in the country for sale. Oats opened firm, May selling at 59 1/2, then off to 58 1/2. The crop news was of both kinds. The trade is looking for a good setback.

COMMITTEE TO LOOK AROUND

Public Library Board Begins Its Search for a Librarian.

At the meeting of the public library board yesterday afternoon, Chief Justice Falconbridge, H. T. Kelly, A. E. Huestis and Thomas Gash were appointed a committee to make enquiries and to receive applications for the post of librarian.

Until Oct. 1, or until such time as an appointment has been made, C. Egerton Ryerson, at present assistant librarian and secretary-treasurer, will act as chief librarian. A gratuity of four months' salary was voted to the widow of the late Dr. Bain.

H. T. Kelly and A. E. Huestis were appointed delegates to the American Library Association, which meets this year at Minnetonka, Minn.

Bradstreet's Trade Review.

Montreal reports to Bradstreet's say: General business conditions show little change from those of a week ago. Retail trade in all directions has brightened up considerably, owing to the warm weather, but the effect upon wholesale business is not very marked. Fall prospects have considerably improved and fair orders are being booked. Summer lines of drygoods are moving well. Sorting orders are likely to be good as retailers' stocks are light. The demand for groceries is fairly good. Sugars are steady and most lines of canned goods hold firm. Most lines of hardware are meeting with a good enquiry. Metal prices are generally tending lower. Collections are coming forward moderately well. Money is easier, call loans having been reduced to 2 1/2 per cent. Receipts of country produce continue

THAT BLOOR ST. SITE MAY YET BE CHOSEN

Trustees Beginning to Realize That They Have Been Victims of Persuasion.

The present Rosedale Bloor-street site is likely to be retained by the board of education for the technical school.

The special committee decided yesterday to make a personal inspection of all the sites suggested, and from remarks dropped by several, it looks as though they feel that a mistake has been made in attempting to flop from their decision of a year ago, realizing that the city was plunged into a \$62,500 expenditure rather hastily, and they feel that since the selection has been approved as a fairly good one, and the deal closed, it should not be necessary to satisfy their original judgment by altering their minds because of the objections of a few people who were likely to be personally affected, or of organizations that did not concern themselves until the transaction was ended.

It required C. A. B. Brown to wake them up upon his return from an extended trip to the old country. Some of them didn't appear to realize until he told them that many of the enterprises for a change came from people whose property, or business interests, would be affected one way or the other, without regard for the convenience of the students. Mr. Brown has stated that some Rosedale property owners advocated the change in order to get rid of what appeared to be a nuisance, while other people had exhorted the trustees to choose a more westerly site in order that their interests in this section of the city be benefited.

The trustees had simply swallowed the bait, hook and all, and were over their convictions even to the extent of an additional draft of \$100,000 on the city's funds.

It will require a two-thirds vote at the board to get away from the last year's purchase.

The committee that originally recommended the purchase of the late Hon. Frank Smith's residence for \$37,500, and the Mrs. M. Wilks estate at \$25,000, was composed of Trustees Brown, Rawlinson, Dr. Hunter, Kent and Levee, and the recommendation was handed to the board of education on the same night, namely, April 18, last year. There is no record in the minutes of anyone on the board having voted against it, and those who think they can remember say that the board was unanimous in adopting the Bloor-street site. Those present at the board meeting were Messrs. Boland, Brown, Hawke, Hunter, Levee, Parkinson, Rawlinson, Shaw and Simpson, James Simpson and Miss Martin. The motion was signed by H. A. E. Kent, then chairman.

At the special meeting this spring, May 15, when a special committee decided to abandon the present site in favor of one bounded by Brunswick, Borden, Sussex and a long south of Bloor-street, those present were Dr. Ogden, Dr. Hawke, Messrs. Dineen, Houston, Kent and Rawlinson. Mr. Rawlinson preferred the site offered by St. Alban's Cathedral. Trustee Dr. Bryans is also an advocate of a change of location.

It strikes some people as strange that James Simpson, who voted for the Bloor-street site a year ago, should now, while no longer a member, be championing the Labor Council's opposition to the site he endorsed, and which he, and the entire board, were quite willing to have the city purchase for them. Now the idea is to let the city try to dispose of the "elephant on its hands," and the same time, to chase at a still higher price an out-of-the-way site which might necessitate the destruction of three dozen houses of a class which are especially desirable just now.

Chinamen Sue Police.
Justice Teetzel had a merry time yesterday in the hearing of the Ing Kow-Inspector Archibald case at the non-jury assizes.

Ing Kow and Ing John ran a Chinese grocery store at 103 West Queen-street, and incidentally a saloon, in which the police imagined were used as intoxicating beverages by the Celestials.

At a police raid on May 26, 1906, some 780 odd packages of fluids were seized and ordered destroyed by Magistrate Kingsford.

Ing Kow and Ing John, after a high court vindication, have entered suit against Chief Inspector Archibald and Staff-Inspector Stephen. City Council Fullerton is defending the officers.

Dr. Shuttleworth, who analyzed the stuff when it was seized, testified that six of the eight preparations were similar to medicines in the British Pharmacopoeia.

A number of Chinamen were witnesses yesterday.

OBITUARY.

At New York.—Wilbur F. Lunt, member of the United States Board of General Appraisers.

At Troy, N.Y.—Charles R. Ingalls, former supreme court justice.

At Boston.—Rev. Geo. Herbert Patterson, noted Episcopal clergyman, aged 77.

At Wiarion.—D. Dimsmore, postmaster, of heart failure.

At Orangeville.—Robert W. Ritchie, after a lingering illness.

Death came suddenly yesterday to Mrs. C. J. Gallow at her residence, 527 Euclid-avenue. Mrs. Gallow had been sick only a week with scarlet fever, and her condition was not thought to be serious. She was the fourth daughter of the late William Long, Niagara-on-the-Lake, and Mrs. Long, Niagara-on-the-Lake.

At Winnipeg.—A. F. Beaufield, a Winnipeg pioneer, born at Quebec in 1860.

At New York.—Robert B. Powell, aged 74, a native of Brockville, and who was one of the leading contractors and builders of New York, where he lived for 40 years. The body will be brought to Brockville for burial.

Nephew Fights Will.
The will of the late Ebert Franklin Sprague, who lived alone and very economically on Fetter-street, is being attacked by his nephew, Raymond Sprague Squires, of Muskegon, Michigan.

The deceased was worth some \$26,000 and cut his nephew off with a dollar, leaving the most of it to deserving poor people in Toronto and to deserving poor in New York State.

GETTING READY FOR THE BUILDERS

Our Store as it Will Look When Extension is Completed

THE fact of our building a tremendously large and palatial addition to the store is no news to you. For nearly a year hundreds of men have been busy at the work and to-day a good share of the steel is erected, and almost before we know it, the frame-work of the building will be encased in stone and brick. That means rush and excitement from this on. Walls are to come down, stocks must be re-arranged and everything re-organized to adjust themselves to the new conditions. The new store will be so much bigger and better every way, that we want to sell out everything we possibly can in the meantime and begin all over again with new goods and new facilities. For that reason the next few weeks will be crowded full of genuine interest to shoppers. We have planned to turn everything we possibly can into money quickly and make re-organization so much easier. That means

A Half Million Dollars' Worth of Goods Priced Extra Low

While we place much stress on the reduced prices, shoppers will please remember that the quality of the goods is in no way changed, everything being taken out of regular stock. We have striven long and earnestly to lift the business above the mere bargain level, which means that nothing is ever bought by us solely for the sake of a cheap price. The goods advertised here and in the newspapers are well worth your while, and whether offered at regular or special price we vouch for the integrity of everything that bears our name. We must sell and sell quickly in order to carry out our plans, and sales must be doubled to make sure of necessary room. Because of the entire change and re-organization that becomes at once imperative, we shall sell all stocks down to the lowest possible basis. Goods on hand now will be priced extremely low.

ANNOUNCEMENT

The Simpson Housefurnishing Club Opens Monday, June 1 IN CONJUNCTION WITH OUR JUNE SALE

THOUSANDS of Canadians in all parts of the Dominion are, at this moment well pleased ex-members of our former Housefurnishing Clubs. Each and every one, without exception, so far as we know and believe, is ready to whole-heartedly endorse this plan of furnishing homes, from his or her own personal satisfaction and experience. It has proven the most liberal convenience ever offered to home owners in this country. The persistent development of this business and the strengthening of our resources enables us to plan things on a large and liberal scale. These facts will show to exceptional advantage this month in connection with our June Sale, which we are holding in preparation for moving into our new building. The hundreds of new homes going up all over Toronto and throughout Ontario are to share in a plan of housefurnishing that has revolutionized all ideas of liberal methods and discounted the best that you or we have ever known. There is nothing visionary about it and no experiment. We propose to sell an extra \$100,000 worth of Furniture and Carpets during June and to do it in this way. We commence Monday, June 1st, to organize what is so well known as Simpson's Housefurnishing Club, Limited to June, Limited to 500 Members, which will enable responsible persons in Toronto or anywhere in Canada to buy anything they want in Carpets, Curtains, Furniture and Pictures now, and arrange for payment, extended over remainder of the year. It costs nothing to join the club with no extra charge in any way. Any responsible home owner, hotel keeper, church or corporation can get anything wanted in Carpets, Curtains, Furniture and Pictures, if bought and delivered during June, and arrange terms of payment spread over the remainder of the year, to suit convenience. Not one cent of extra charge in any way, shape or form.

Special June values will appear in our Store News, with all prices marked in plain figures—the same to one and all. The Club plan is limited to 500 members and to one month, with the distinct understanding that all goods must be bought and delivered at once. We cannot agree to hold over a single purchase—haven't the room. And in order to make sure of a Club Membership those who are at all interested should make application at once. If not convenient to visit the store within the next day or two, cut out and mail the attached coupon, giving your address. All names will be filed in order as received. The Secretary will be at your service during June in the Housefurnishing Club Office in Curtain Department. Talk it over with him in person, if you can. Write, if more convenient. Join now. Take all the advantage which is yours if you but choose to say the word.
