GERMANS SUSPEND OFFENSIVE OPERATIONS AGAINST FRENCH British Army Takes Over Trenches at Arras and at Souchez From French RUSSIANS PIERCE GERMAN LINE IN FIGHT SOUTH OF JACOBSTADT

GRAND TRUNK TRAIN WRECKED ENGINEERS AND FIREMAN KILLED

International Limited "Side-swiped" a Freight Near Port Credit, Resulting in a Bad Smash-up, Death of Railroad Employees and Injury of Several Passengers.

Thirty minutes late, No. 16 Grand trunk train from Detroit to Toronto, travelling 50 miles an hour, crashed into an engine and two freight cars at the Long Branch rife ranges about 10 o'clock last night, killing the fireman and brakeman of the freight train and the engineer of the passenger train.

KILLED.
Harry Overend, engineer of passenger train, age 65, 674 Bathurst street, had been on the same run for 15 years and was in charge of the engine which drew the royal train thru Canada when the present King and Queen paid a visit to this country in 1901. W. O. Anderson, engineer of freight train, killed instantly.

Edward Kerahan, fireman on freight train, who was terribly injured and died almost immediately.

INJURED.
Edward Heenan, fireman on passenger train, jumped from his engine, and one of his hips and several ribs broken, suffering also from shock. In Grace Hospital. Will recover.

MISSING.
Ward brassman on freight train. Not seen since wreck occurred.

The brakeman of the freight train was moving the switch to allow the freight cars to pass from the east-bound track, making way for the Detroit train, when he was killed. The engine and two cars of the freight train were telescoped by the impact and turned completely over into a ditch.

The fireman and engineer were thrown out and pinned beneath the wreckage, being instantly killed. Dr. Forbes Godfrey, M.L.A., was summoned and went to the scene of the accident in a special car. The fireman of the passenger train, Edward Heenan, 22 Triller avenue, was not seriously hurt, and after receiving medical attention from Dr. Lemieux, was removed in the ambulance to Grace Hospital.

At an early hour this morning the victims of the accident were still beneath the wreckage. Edward Heenan said that the engineer noticed the freight cars on the track about 30 yards away. He did the only thing possible, by applying the air brakes. It was shot thru the window of the engine on the north side of the tracks, and the engineer was thrown ahead of the engine and under the wheels of the freight car. He must have met instant death.

Prominent among the passengers on the Detroit Express was Hon. Rodolphe Lemieux and his brother, Dr. Lemieux of Montreal, both traveling from Chicago. Neither was hurt; nor, in fact, was any of the passengers. The marvelous escape of the passengers is attributed to the steel cars of the express.

Conductor's Story.
Conductor Edward Higgins of Detroit stated on arrival at the Union Station that there were six coaches on

Some Doubt of Safety Of Cruiser Cumberland

British Warship Known to Have Been Near Atlantic Coast, But Log Books Found Were Probably Discarded.

WASHINGTON, March 23.—The British Embassy shows little alarm over the report from Norfolk, Va., of the finding of big logs of the British cruiser Cumberland. It is suggested that the logs probably were some discarded records that had been thrown overboard.

The Cumberland, which has been cruising on this side of the Atlantic, is a protected cruiser of 9500 tons displacement and has a main battery of fourteen 6-inch guns.

NEWS FROM MEXICO IS LESS DISTURBING

Doubt is Thrown Upon Report That Gen. Herrera Has Revolted.

WASHINGTON RELIEVED
Advices Are, However, Still Conflicting and Actual Situation in Doubt.

WASHINGTON, March 23.—Tension in administration quarters over the Mexican situation relaxed today in the absence of official confirmation of the report that 2000 Carranza troops at Chihuahua, under Luis Herrera, had joined Villa. Conflicting unofficial advices from the border, however, caused the state department to telegraph American consuls at Chihuahua and Durango for immediate reports as to the situation in the Torreón region, where Herrera was last reported. Slow wire communication south of the border may delay the replies.

Officials were perplexed by despatches from the border saying Gen. Bell had notified Gen. Funston that the report of Herrera's revolt was confirmed. When the war department closed for the night at 11 o'clock Secretary Baker stated that Gen. Funston had not advised the department of Gen. Bell's report and that all information reaching him indicated that Herrera was loyal to Carranza. Major-Gen. Scott, chief of staff, declared emphatically he did not believe the report.

Some officials, however, were prepared to believe that Herrera had deserted Carranza, tho they doubted that he had joined Villa. Secretary Baker's reports on the day's events on the border were before President Wilson when the latter reported tonight from a day's trip to Philadelphia. They were of a reassuring nature, altho they contained nothing positive as to the reported revolt.

WAR SUMMARY THE DAY'S EVENTS REVIEWED

WHAT seems to be the most important success in the eastern theatre of war since last September has just been won by the Russians in the sector of Jacobstadt, a few miles southeast of Riga, where they have pierced the German line by following up their previous day's exploits in carrying several woods and villages in the teeth of the fierce resistance of the enemy. The Russian general headquarters laconically reported this fact in a few words yesterday, and it gave no further details, the advance apparently having only realized this result in time for mention of it to appear in yesterday's official communique. The Russians also gained additional ground in the fighting southwest of Lake Narocz. The Germans, however, in a heavy counter-attack were able to retake part of the trenches which they had lost to the Russians on the previous day near Lake Dreswitz, but the fighting here is being continued with great energy.

The piercing of an enemy's line can be turned into an important success if it is accomplished on a front of five or six miles, and if sufficient reserves are on hand to take immediate advantage of the exploit. This was what the Germans tried to do on the lines north of Verdun, and in this attempt they signally failed. When once a line has been broken, the assailant throws in men against the sides of the gap which he has made, and immediately strives to enlarge it. An army corps at a time is required for this purpose. Rapid following up of the initial success brings about the retreat of the enemy, and the pursuit, if properly managed, should cut off large numbers of hostile troops. If the Russians mean serious business in this new offensive, and do not aim simply at taking the pressure off the French

(Continued on Page 2, Columns 1 and 2.)

OVER FORTY THOUSAND WIDOWS OF SOLDIERS

War's Terrible Toll in British Homes Partly Revealed by Figures.

LONDON, March 23.—The number of widows of British soldiers who have thus far been reported to the army council is 41,500, according to William Hayes Fisher, parliamentary secretary of the local government board, in a speech to the house of commons committee on the war pensions bill today. The widows of sailors, Mr. Fisher added, aggregated about 8000.

RUSSIANS ROUT GERMANS WITH BAYONET ONSET

Not Clear That Fighting South of Dvinsk Signifies General Advance.

MAY BE TO AID FRENCH

Viciousness of Attacks Already Makes Impression on German General Staff.

PETROGRAD, March 23, via London.—While admitting that it is not clear whether the fighting which is in progress south of Dvinsk signifies a general advance of the Russian troops in that sector, or whether it is intended as a demonstration to attract German forces from the Franco-German front, the military critics lay emphasis upon what they allude to as the universal success of the attacks during the last few days, the viciousness of which is pointed to as being sufficient to have made an impression upon the German general staff.

The Russian troops are operating in three groups, covering a front of 70 miles, but the severest fighting is reported to have occurred in the vicinity of Lake Narocz, where the Russians' drive carried them thru three lines of German trenches heavily protected by wire entanglements. The Russians resorted to their favorite method, bayonet fighting, routing the Germans in spite of desperate resistance, and capturing more than 1000 men, including 17 officers, a dozen machine guns and other booty.

The Germans are invariably countering the Russian attacks by advancing at other sections of the line, but from all appearances, according to the military observers, the Teutonic efforts lack co-ordination, and it is evident that in spite of the recent concentration of additional troops in this region, the Russians anticipated any plans their adversaries may have had for a concentrated offensive here.

The German strength was estimated last autumn to be eight corps of infantry and several cavalry divisions in the region, but these have since been considerably augmented. An important success is reported on the Galicia front where the Russians captured the crossing of the Dniester at Mikhatche. The Austrian official statement is cited in reference to this victory, as it admitted that the Russians were obliged to abandon the post, following the six months' defence after the fortifications had been reduced by the Russian artillery.

WILL TRY CAWTHORPE ON CHARGE OF BRIBERY

Member of Saskatchewan Legislature is Released on Substantial Bonds.

REGINA, March 23.—C. H. Cawthorpe, member of the legislature for Biggar, was sent up for trial at the next session of the supreme court on a charge of bribery by Magistrate Hoffmann in the city police court this morning. Bail was fixed in two sureties of \$500 each and the accused's own recognizance of \$500.

Mr. Cawthorpe is accused of having corruptly accepted \$200 for his vote and influence in December, 1913, to defeat the banish the bar bill, introduced in the legislature at that time, and later withdrawn. The only witness heard at the preliminary trial this morning was Frank Brunner, who told the story which he has repeated several times against other members of the assembly.

RUSSIANS PIERCE FOE LINE IN FIGHT NEAR JACOBSTADT

British Cabinet Crisis Over Enlistment Issue

Lloyd George Said to Be Demanding Compulsion for All Men of Military Age, While Asquith Opposes

LONDON, Friday, March 24.—Rumor in the lobby of the house of commons last night was busy with the discussion of a possible cabinet crisis over the question of the enlistment of married men. According to some reports David Lloyd George desires compulsion for all men of military age, while Premier Asquith is opposed to any such measure.

The London morning papers all discuss the recruiting difficulties at great length. The Times takes the leading place as the advocate of universal compulsion; The Chronicle, on the other side, supports the government's present position.

ANOTHER LIBEL ACTION LOST BY W. T. R. PRESTON

London Jury Returns Verdict in Favor of F. A. MacKenzie, Correspondent.

Canadian Associated Press Cable.
LONDON, March 23.—The jury, without hearing the evidence of the defendant, returned a verdict in the defendant's favor when W. T. R. Preston, author of the Life and Times of Lord Strathcona, again brought an action for libel against F. A. MacKenzie, journalist, on account of his cable to several Canadian newspapers criticizing the book. The jury at a previous hearing, after a three days' trial, disagreed after Mr. Preston urged today that he wished to call a witness, Sir Clifford Sifton, who, however, was not in court at the moment. This book of Preston's has now been three times before a jury and once before the court of appeals.

BRITISH OCCUPY LINES BY ARRAS AND SOUCHEZ

Fresh Section of Front Taken Over, Involving Big Extension of Line.

FROM SOMME TO YSER

Three Dugouts Filled With Germans Bombed and Blown Up.

Canadian Associated Press Cable.
LONDON, March 23.—From items in the official communique of the British war office recording the springing of a mine by the Germans in the north of Arras and artillery to the north of Souchez, it is believed here that this is the portion of the front which the British army has taken over from the French troops under Gen. Foch to enable the French army to increase its reserves. It was reported at the time the Germans began their offensive against Verdun that the British would take over additional miles of trenches over the French, and it is believed that by now the extension of the British front has been completed. As the British have been holding the line south of the Somme since last autumn, with a French force only switched in between in the heights north of Arras, it is now believed that the British are holding a continuous line from south of the Somme and Soissons to Ypres. The French still retain a section of the Belgian front.

ROUMANIAN TRADE PACT WITH CENTRAL POWERS

Berlin Says Goods Will Be Exchanged for Roumania's Grain.

BERLIN, March 23, via London.—It is semi-officially announced that contracts have been executed according to the announcement whereby Roumania is to receive certain goods from the central powers. An effort will be made to make commerce mutually as near normal as possible. It is added.

SILESIA COLLIERY DISASTER.

LONDON, March 24, 1.55 a.m.—Twenty persons have been killed in an explosion in the Proussen colliery, near Mirkowitz, Silesia, says a despatch to the Central News from Amsterdam.

Important Success Won in Engagement Near Baltic Sea, and Advance Made By Czar's Men Southeast of Lemberg in Galicia.

Special Cable to The Toronto World.

LONDON, March 23.—The Russians are forcing the fighting at both ends of their long front and were able to report gains in the south as well as the north. They have pierced the German lines in the sector of Jacobstadt, they have made further gains southwest of Lake Narocz and they have captured a village on the Dniester and made an advance at a point southeast of Lemberg.

The Russian general headquarters tonight reported that Russian troops have pierced the German line in the Jacobstadt region after following up the success gained on the previous day when they captured several villages and woods. Details are not given as to the width of front which has been broken thru. This portion of the line forms the centre of Von Hindenburg's forces, and it is pointed out that the penetration of the lines here on a considerable front would be sufficient to compel the Germans to retreat unless they are able to recover their positions by counter attacks. It is on this part of their front that the Russians concentrated the heaviest artillery fire.

Germans Regained Trenches.
Heavy counter attacks of the Germans launched during the night enabled them to retake part of their trenches which the Russians had captured in the sector of Mintziny-Lake Solky and south of Lake Dreswitz, while in the centre of this sector the artillery and rifle fire has been violent.

Gains Near Lake Narocz.
Heavy fighting is being continued on the Villieta-Mojelka front, northwest of Postawy and in the region of Lakes Miazdki and Narocz. The Germans, who launched a counter attack to the south of Lake Narocz, were repulsed, and the Russians again advanced in this region under cover of a violent bombardment. The Germans fired apocalyptic gas shells on the southern shore of this lake. A lively cannonade has extended to the south as far as Polestia region.

The Russians also report that a battle is developing in the Riga region. The Russians have also won successes on the Dniester, where they occupied the Villages of Latchka and Melevka after a fight. They also advanced a little and consolidated their gains at a point southeast of Kosloff and southeast of Lemberg, and they reported an attack on the line in the region of the Strpa and south-east of Kosloff, inflicting heavy losses on the enemy.

CHINESE REBELS WILL FORCE YUAN TO QUIT?

Man Who Would Be Emperor Has Repented Too Late, Apparently.

SHANGHAI, March 23.—Advices from Hongkong today indicate that the state department mandate announcing abandonment of the plan to resume the monarchical form of government in China has met with a mixed reception in south China.

Of the two equally strong and forceful factions there the supporters of Yuan Shi Kai are said to believe there will be a peaceful settlement of the existing differences as a result of the decision reached. Those opposed to Yuan Shi Kai, according to the advices, declare the mandate has come too late, and that the people are too deeply stirred against Kai's faithlessness to his presidential oath to be appeased with anything less than his elimination as head of the government.

SPRING STYLES IN MEN'S HATS.

Hats for men from the world famous makers in England, France, Italy and the United States, are now assembled in the Dineen spring stock. New shipments arriving daily. Exclusive agents in Toronto for the Henry Heath English fish hat and the Dunlap, hat for the American gentleman. Dineen's, 140 Yonge street.

HAMILTON NEWS

THE ROYAL TEMPLARS COMPLETED BUSINESS

Will Pay Insurance Claims on Men Who Had Policies Before Enlisting.

OFFICERS WERE ELECTED

Decided to Raise Soldiers' Fund to Meet Liabilities if Necessary.

HAMILTON, Friday, March 24.—The Dominion Council of the Royal Templars, which has been meeting in session since Tuesday, completed its business yesterday.

At the evening session the election of officers was held for the ensuing two years, and resulted as follows: James Heles, Toronto, P.D.C.; J. A. Austin, Toronto, D.C.; Controller, Thos. S. Morris, Hamilton, D.T.C.; Rev. George H. Cropp, Carleton Place, chaplain; Dr. C. V. Emory, Hamilton, district secretary; Lyman Lee, Hamilton, solicitor; Dr. Kenneth McKeen, Toronto, medical referee; George H. Lees, Hamilton; Rev. Wm. Kettiewill, W. J. Armstrong, W. A. Halliday, B. F. Harvey, Toronto, and Rev. F. Fletcher, Keswick, board of directors.

YOUNG MAN OF GALT COMMITTED SUICIDE

Body of George A. Allen Found in Driving Shed—No Inquest Will Be Held.

GALT, March 23.—Geo. A. Allen, a young man, committed suicide by hanging, his body being found in a driving shed at 23 George street this morning.

WAR SUMMARY THE DAY'S EVENTS REVIEWED

(Continued From Page 1.)

and British armies by forcing the Germans to recall men from the west to support their wavering ranks in the east, it is practically certain that they will at once seize their opportunity and crumple up the lines of General von Hindenburg.

Judging this Russian business from this distance and from the dim light thrown on the operations by the over-terse official communiques from Petrograd, which, however, would appear that the Russians intend the undertaking of a serious offensive in the north and also probably one in the south, where they made further gains in the fighting on the Dnieper and to the southeast of Lemberg. The only difficulty in the way of launching such an operation at the present time is that of launching such an operation at the present time.

Whether it was because the German high command is being greatly impressed by the offensive of the Russians in the region of Dvinsk, or whether it was because the Germans have had enough of the infantry fighting reasons, these war lords did not launch further infantry attacks on the front of the Somme yesterday, although a rather heavy bombardment was maintained on both banks of the Meuse. As for the continuance of the bombardment, it is probable that the French have caught the German troops bringing up supplies and reinforcements with great difficulty owing to the retrograde movement from their uncomfortable positions would promptly bring the French on top of their backs. The fighting for Verdun has now lasted practically five weeks. As the Germans three times changed their venue of their attacks, it may be taken as proof that they have sustained three separate defeats.

As the report of Sir Douglas Haig on the operations along the British front of yesterday contains for the first time information recording the repulse of a German attack and the springing of a German mine "north of Arras," the British army has finally taken over these celebrated battle grounds from the French army under General Foch. As the British held a stretch of front south of the Somme since last summer, they probably now present an unbreakable front against the enemy near Soissons to north of Ypres. It is not improbable that large reinforcements have lately been sent to France by Earl Kitchener.

A brilliant little military affair was carried out by British troops about Commeacourt and the Bethune-La Bassée road, in two raids on German trenches, in which three dugouts filled with Germans were bombed and blown in on top of the foemen. One prisoner was taken back to the British lines.

In a dash of remarkable daring, a British rescue expedition in nine armored motor cars, 26 other cars and ten motor ambulances, liberated 91 prisoners, who were in the hands of the Senussi tribesmen on the Egyptian border. The cars set out from Sollum at 3 o'clock in the morning of March 17 and they traveled a distance of 121 miles to the prison camp of the tribesmen. The guards fled on the approach of the British, but they were pursued and all killed and the prisoners were freed and brought back safely. They are now being cared for in the hospital. Two other prisoners remain in the hands of the Senussi and there is some hope that they may be rescued.

LT.-COL. A. H. MOORE DIES IN HAMILTON

Full Military Honors Will Be Accorded Late Officer Who Was Prominent Citizen.

HAMILTON, Friday, March 24.—The death occurred here yesterday of Lieut.-Col. A. H. Moore, aged 72, at his late residence, 340 South Hess st. The late Col. Moore was a member of the city council from 1884 to 1892. He served as chairman of the finance committee in 1888 and 1889 and as chairman of the hospital and House of Refuge committee in 1884.

THREE MEN ARE KILLED IN GRAND TRUNK WRECK

Express Traveling at High Speed Struck Freight East of Port Credit.

(Continued From Page 1.) The passenger train and the train was traveling at full speed. A mile and a quarter east of Port Credit a west-bound freight train was coming from the station on the main line. It was here that the collision occurred. Engineer Overend applied the brakes and told Fireman Heenan to jump, said Mr. Higgins. "Heenan did so and sustained injuries to his hip, several broken ribs and a scalp wound. None of the passengers were hurt and only the engine and tender of the express train left the track. The first three cars of the freight train were totally destroyed.

YORK COUNTY ASK FOR INJUNCTION TO STOP PROCEEDINGS

Reported That Ratepayers Would Prevent Issue of Debentures to Build a School.

A representative body of the ratepayers of school section 15, York Township, will, it is reported, apply through the York County Council to the Ontario Council for an injunction to prevent the issue of debentures for a school site on the present site, where a school site was recently decided upon at a meeting at which 20 ratepayers only were present out of a total of 700.

DISTINCTLY FAVORABLE REPORTS ARE RECEIVED

At the weekly meeting of the headquarters staff of the 220th York Rangers Overseas Battalion last night reports submitted from all parts of the county were regarded as distinctly favorable. Capt. Davis announced that a party of 200 men had begun in Newmarket as soon as the 220th York Rangers Overseas Battalion had taken the Weston Lacrosse Club would shortly give a concert in the town hall at the residence of Mr. Peck.

HIGHWAY COMMISSION OF YORK COUNTY MET

The York County Highway Commission met yesterday, the county being represented by Messrs. H. Cousley and William Keith, while Controller Foster and David Spence appeared in person. Mr. Keith, highway engineer, was instructed to at once prepare an outline of all the work proposed to be undertaken this year, and this will be submitted at the next meeting of the commission in two weeks' time.

PRaised THE WORK OF CANADIAN WOMEN

HAMILTON, Friday, March 24.—The Rev. Major Williams, recruiting officer for this military district, addressed a large audience at the Women's Liberal Club meeting, held in the Y.W.C.A. last night. His address, which was chiefly of a patriotic nature, extolled the splendid work of the Canadian women in the war up to the present, and urged them to still make greater efforts, as it was all for the one end, that of a victory for the allies.

FEARS FOR SAFETY OF BRITISH CRUISER

Six Log Books of Cumberland Found on North Carolina Coast.

NORFOLK, Va., March 23.—Six log books of the British cruiser Cumberland drifted ashore at the light station of the North Carolina coast, leading to the belief that the Cumberland is in distress or has met disaster. Life-savers at the station found the books on the shore. It is believed that the books would have been thrown overboard by the Cumberland's crew, except in case of imminent disaster.

BRITISH DARINGLY RESCUED PRISONERS FROM SENUSSIS

Ninety-one Captives Freed by Dash of Armored Cars and Ambulances From Sollum on Egyptian Border Across Desert.

LONDON, March 23.—(10.27 p.m.)—The war office tonight made public the following official communication: "A further report has been received from Egypt regarding the liberation of 91 prisoners who were in the hands of the Senussi tribesmen. The rescue expedition, which was entirely separate from the action of March 14 (when the British captured Sollum), took place March 17. "Nine armored cars, 26 other cars, and 10 motor ambulances left Sollum at 3 o'clock in the morning, guided by Capt. Royle and two natives. The prisoners were said to be at Bir Hakim, 70 miles from Sollum, but the actual distance traveled was about 121 miles.

FRENCH TO USE LIQUID FIRE IN RETALIATION ON ENEMY

Means for Protection of Troops Against Such Attacks Also Made Subject of Enquiry By Military Board.

PARIS, March 23.—Liquid fire has been the means by which the Germans gained the portions of trenches mentioned in recent official communications, says The Journal Des Debats, and the military committee of the chamber of deputies is inquiring into methods for the protection of the French troops against such fire attacks and the use of a similar weapon in reprisal. "One can easily understand," says the newspaper, "the superiority of this terrible arm over the bayonet. Even tho it may expose the man who carries it to the danger of death in case a fragment of shell should strike it, on the other hand, it gives to an attack the power and cruelty that your communications are bearing witness."

YORK COUNTY AND SUBURBS

YORK TOWNSHIP MAY GET HYDRO POWER

Conference of Council and Commissioners Was Held Yesterday. At a conference of the York Township Council and the Hydro Power Commission yesterday afternoon the whole matter of rates, together with the best means by which to obtain and distribute electric power to the township and later turning over the whole business to the Toronto Hydro-Electric Co. was discussed. The Hydro-Electric Co. is desirous of signing up the township and later turning over the whole business to the Toronto Hydro-Electric Co. There is a rapidly increasing demand for electric power in the township and the council is anxious to meet this demand by the installation of a power plant with the city that there will be no unnecessary delay to those asking for it.

SON-IN-LAW ACCUSED OF MURDER OF PECK

Millionaire and Wife Died Within Six Weeks—Daughter Also Ill.

NEW YORK, March 23.—In a stupor from self-administered drugs, Dr. Arthur Warren Waite, a dentist, was in the hospital before a coroner's inquest into the death of a millionaire and his wife, who died within six weeks of their marriage. By the will of Mr. Peck his estate was valued at \$1,500,000, and his wife, died within six weeks, while visiting their daughter and their husband at their Riverside Drive apartments here. Mr. Peck's estate was equally divided between Mrs. Waite and Percy E. Peck, a millionaire, who is reported to have left an estate valued at \$1,500,000, and his wife, died within six weeks, while visiting their daughter and their husband at their Riverside Drive apartments here. Mr. Peck's estate was equally divided between Mrs. Waite and Percy E. Peck, a millionaire, who is reported to have left an estate valued at \$1,500,000, and his wife, died within six weeks, while visiting their daughter and their husband at their Riverside Drive apartments here.

NEW MACE TO BE MADE ON MODEL OF OLD ONE

Lord Mayor and Sheriffs of London to Take Pains With Gift.

Canadian Associated Press Cable. LONDON, March 23.—The lord mayor and the sheriffs who undertook to replace the mace destroyed by the Ottawa fire, are awaiting the arrival of the remains of the original mace in England before asking the manufacturer to tender for a new mace. Photographs of the destroyed mace have already been supplied, but it is felt better to have every possible assurance of the exact appearance of the original mace, not only in appearance but in weight and other features. This gift is absolutely unique in history. It is a personal one from the lord mayor, Sir Charles Wakefield and his colleagues, who are intimately acquainted with Canada and have at different times seen the mace which they now intend replacing.

LLOYD GEORGE OPPOSES GRAVEURE IS CHARMING AND DELIGHTFUL ARTIST

But He Admits Trade Conditions Must Change After the War.

MUST MOVE SLOWLY

Fiscal Questions in Background While Great Struggle is Progressing.

LONDON, March 23, 11.52 p.m.—"Our first object must be the successful conclusion of the war, to which everything must be subordinated," said David Lloyd George, minister of munitions, in a vigorous speech in the house of commons tonight, when Sir Henry Dalglish demanded a declaration of the British policy at the forthcoming economic conference of the allies at Paris. Sir Henry asked that the delegates should be empowered to say there that never henceforth could British trade relations with Germany be the same as before the war.

CANADIAN CASUALTIES

First Battalion. Died of wounds: Charles W. Thorne, London, Ont. Shell shock: Henry B. Hammond, Montreal. Fourth Battalion. Wounded: Lance-Serjt. Bingham, 41 Dundas street, Brampton; Robt. D. Gokite, Glenora, Ont. Seventh Battalion. Dangerously wounded: Lieut. Hugh J. Jones, 1111 St. James street, Toronto. Seriously wounded: Richard G. Holmes, Glenora P.O., Saak. Died: Wm. T. Pape, avenue, Toronto. Wounded: Richard Wilkinson, Christiania P.O., B.C. Killed in action: Francis H. W. Ingram, Edmonton, Alb. Fifteenth Battalion. Gas poisoning, returned to duty: Jno. H. Anderson, Toronto. Killed in action: David Johnson, Creighton, Ont. Died of wounds: Edward Cooper, England. Eighteenth Battalion. Wounded: Lance-Corp. Albert H. Jones, Stirling, Ont. Killed in action: Ivan Smith, Stirling, Ont. Accidentally wounded: Ernest J. Goldworthy, 195 Conolly street, Toronto. Twenty-Second Battalion. Wounded: Eugene Dagonais, Montreal. Twenty-Fifth Battalion. Wounded: Major Duncan S. Baill, Hamilton, Ont. Killed in action: N.S.; Cyril Hatchard, Trenton, Ont. Wounded: Major Wm. Bates, England. Twenty-Sixth Battalion. Forty-Ninth Battalion. Suffering from concussion: Jerry McLeod, Maple Grove, Wis. Seriously ill: Wm. C. Rogers, Lachute, Que. Third Brigade Canadian Field Artillery. Killed in action: Driver John S. Hampson, 34 Fullerton avenue, Hamilton. CAPT. LEWIS WOUNDED. OTTAWA, March 23.—Capt. Jack Lewis of the Canadian Engineers has been severely wounded in the leg, according to cable advice received by his mother, Mrs. Travers Lewis, tonight from Brig.-Gen. Renne, Capt. Lewis received a despatch as having been captured with a companion two German soldiers who were forced to descend behind the Canadian lines. The Canadians were unharmed at the time, but brought in their men to headquarters.

APHASIA VICTIM RETURNS.

ST. THOMAS, March 23.—After being in bed for two years ago, and during which time he had been under a complete lapse of memory, Malcolm P. Johnson of the shoe firm of Johnson & McCormick, and one of the city's best known business men, returned to the city tonight. Johnson disappeared suddenly and mysteriously two years ago, and for some time foul play was suspected. He was finally located in the State of Oklahoma, where he had been working on odd jobs. He has now fully recovered his memory and will resume his former business.

OPINIONS ARE VARIED ON PROHIBITION STEP

Liquor Interests Consider Bill a Joke and Class Legislation.

OTHERS ARE SATISFIED

Temperance Representatives Express Satisfaction With Measure Brought Down.

Hotel and liquor men of Toronto who were interviewed yesterday were very much incensed at the proposed prohibition measure of the legislature. They maintained that they were not getting a fair deal especially since they are not to be compensated for their heavy losses. The Dominion Alliance officials were very joyful over the bill as brought down. The druggists took the issue as a matter of course for them, and G. A. Warburton, chairman of the Committee of One Hundred, referred to the bill as a statesman-like measure, which if passed would place both parties in a huge joke. It will certainly not accomplish its desired purpose, nor will it accomplish the Premier Hearst and his cabinet would have a keystone of liquor taken to the streets and a prescription from the doctor and take it to the druggist and pay ten times as much as the man with money but to pay, by getting it from other provinces. Druggists Prepared. G. E. Gibbard, ex-president of the Ontario College of Pharmacy, now secretary of the Canadian Pharmaceutical Association, and editor of the Pharmaceutical Journal, the official organ of the Druggists' Association, said: "The opinion of the druggists of the province is officially expressed in the Ontario College of Pharmacy, which is a body of men who were unalterably opposed to being made vendors of liquor in the event of prohibition being enacted. But the new act does not provide for the prohibition, in fact it makes this absolutely prohibitive. Under those conditions we are prepared to meet the legitimate requirements of the public for liquor for medicinal and sacramental purposes and the penalties provided for violation of the act are a sufficient guarantee against abuse in carrying out the provisions of the act. Rev. Ben Spence, secretary of the Dominion Alliance, said that the bill was a splendid one and fully worthy of his own party. "It is a sincere desire on the part of the government to put into force an effective measure of provincial prohibition. Congratulates Premier. "A constructive measure like this must be criticized so much for what it does not contain, but for what it does. Mr. Hearst should be highly congratulated for his work, and the draft is just what could be expected from such a man. The main satisfactory point in the whole affair is that the government showed a real intention of giving prohibition to the province of Ontario on a fair basis," he concluded. George A. Warburton, chairman of the Ontario College of Pharmacy, said: "It seems to me the way in which the prohibition issue has been met by the government is indicative of a sincere desire to treat the prohibition question in a statesman-like manner. "Mr. Hearst's independence in the matter has been tempered by a personal sympathy that has taken of the rough edges, but his firmness has never wavered. He and his associates have treated us with uniform courtesy and have kept with us at every step of the way. Both parties will be helped in public esteem as a result of what has been done."

SUPERINTENDENT WAS VICTIM OF LIVE WIRE

WINDSOR, March 23.—Wm. V. Chisholm, aged 43, electrical superintendent of the Wallaceburg, Essex & Lake Shore Railway, was electrocuted near Essex today when he came in contact with a live wire while endeavoring to get a derailed trolley car back onto the track.

TO REACH NORTH POLE

Discoverer of South Pole to Start
North Early Next
Year.

LONDON, March 23.—Capt. Roald
Amundsen, according to a Central
news despatch from Christiania, will
start on a north pole expedition in the
spring of 1917. As money conditions
are now more favorable, he has de-
cided to accept the subsidy of 200,000
 kroner granted by the Norwegian gov-
ernment for the expedition.

SHEPPARD IS ACCUSED

Money Was Slipped Thru Crack
in Door, Says Winni-
pegger.

REGINA, March 23.—Little was
eluctant today in the investigation
of the charges against S. R. Moore, mem-
ber of legislature for Pincher Creek,
of accepting \$1500 from Nagi Haddad,
an applicant for an hotel license.

The case was dropped, but left open.
Charge Against Sheppard.
Charged with the case against
Hon. A. Sheppard, of accepting a
sum of money from Anthony Bern-
hardt of Winnipeg, formerly of Moose
Jaw, in May, 1914, as an applicant for a
liquor license. Counsel Bigelow said
the sum involved was \$1000, but he did
not think Sheppard got all of it. Bern-
hardt said he came to Moose Jaw when
his brother Anthony had difficulty in
getting the transfer of his license. He
saw Mr. Turgeon, who told him to see
Sheppard. Bernhardt saw Sheppard,
and was met by S. J. D. Simpson, of
Moose Jaw. We were upstairs in the
hotel," said the witness, "and talked
for a time. Simpson said to me, 'You
have considerable money invested here
and it will not be of use without a li-
cense.'

Stylish Spring Overcoats for Men \$11.50
They're the Well-Tailored Smart-Fitting \$15.00 and \$16.50 Kinds

There are forty men who'll be as pleased as Punch to walk out with these splendid overcoats tomorrow at \$11.50 each. The item is one that serves in a striking way to hammer home the fact that this store's Men's Wear Section is actively engaged in the featuring of good merchandise at prices that mean big savings to the man who likes to dress well at a moderate cost.

Men's Spring Overcoats, only 40 in the lot. Materials are dark Oxford twill and herringbone tweeds, few in gray and fawn, mixed diagonals with belted back, fly front and to button through. Splendidly tailored. Values \$15.00 and \$16.50. On sale Saturday, each \$11.50

A Few Men's Suits Tomorrow, \$12.50
Only 25 Suits in the lot. Material navy and black cheviot. Stylish three-button single-breasted style. Smartly tailored. Sizes 36 to 42. On sale Saturday, special \$12.50

Crepe de Chine Blouses at \$4.95
By actual comparison these waists are worth today \$6.75. They're made of beautiful quality crepe de chine, secured for by many months ago for making up into blouses of this season's styles; six lovely models to choose from, in white and colors. Special at \$4.95

New Dinnerware \$7-piece set at \$16.50
We would like you to see this new line of Dinnerware. It is an open stock pattern of fine semi-porcelain, well finished with a pattern which adds to the decoration a dainty wild rose in pink with conventional border of soft greens. The pieces are particularly pretty as to shape, the vegetable dishes being of charming design, 97-piece Dinner Set, worth \$18.50. On sale at \$16.50

Rubberized Silk Raincoats, \$18.50
If we said \$25 you'd call them extremely low priced for the quality, made in lovely lustrous silk coverings, plaids and novelty stripes, rubberized and guaranteed for service, showing new loose-fitting models, actually the smartest garments of the kind we've ever seen on sale. Special at \$18.50

You'll Want to Share in This Sale of French Kid Gloves
Dent's Make, Value \$1.75 a Pair, Special Saturday \$1.50 a Pair

This is a glove that we feature at \$1.50 a pair with the full realization that we are offering our customers exceptionally good value. It is made in France, in one of the many factories of the Dent glove manufacturers. Only the finest selected skins are used by these makers, and fit and finish accord with the perfection of the kid.

WOMEN'S FRENCH KID GLOVES, pique sewn seams, silk cord stitching, to be had in all white, or white with black stitching; the value \$1.75 a pair. Special, per pair, Saturday \$1.50

Boys' Paramatta Raincoats Special Value at \$6.50 Each

OUR OF TRADE PLANS TOUCHING IMMIGRATION
The Dominion Government will petition the Government to give the Matter Serious Consideration at Once.

At a meeting of the Toronto Board of Trade yesterday afternoon a resolution was passed to the effect that, as reports from Great Britain and the allied countries indicated conditions favorable to immigration after the war, it was necessary that the Dominion Government should have a comprehensive plan for the securing of immigrants of the agricultural class. It was resolved that the government be petitioned to give the matter of immigration its earnest consideration, and that copies of this resolution be forwarded to the British Board of Trade through Canada with a request for concerted action.

MATTER STILL PENDING.
The World of yesterday, in its obituary notice of the late Robt. Davies, made reference to "an unsuccessful law suit" brought by Mrs. I. Taylor against the late Mr. Davies. W. T. Taylor of Todmorden informs us that this suit is not unsuccessful, as the matter is still pending in the courts and the fight will go on.

RECOMMEND NO MORE REGIMENTS AT PRESENT

Units Now in Recruiting Field Must Be Filled First, Says General Logie.

ATTACHED TO FUSILIERS

Lieut. Thomas Leonard Won His Commission by Gallantry on Firing Line.

No more battalions will be recommended for formation by Gen. Logie, divisional commander, until the ones already in the field have reached the point of being well filled. This official statement, made at military headquarters last night, dispenses of the recent rumor that a new batch of overseas battalions were about to be announced.

Announcement was made last night that Lieut. Thos. D. Leonard is one of the officers that will come back from the front for appointment with the 20th Irish Fusiliers Overseas Battalion. Lieut. Leonard won his commission while at the firing line by being one of a party to capture a German trench. On his return to Toronto on furlough, for he was wounded, he will be given a captaincy in one of the battalion companies with rank of major. Lieut. Leonard is a graduate of Toronto University and a former member of the C.O.C.

Given Presentation. Lt. Col. Boyd Magee, commander of the 11th Irish Regiment, was presented with a very handsome sterling silver cabinet of silverware last night by the officers of the regiment in view of his approaching marriage. Major E. G. Switzer of the Irish Fusiliers made the presentation on behalf of the officers of the 11th. In expressing his appreciation of the gift, Col. Magee said: "I am proud record already made by the regiment was due to the loyal co-operation of the officers and men."

Earlier in the evening the 11th Regiment and the 20th Fusiliers held a combined parade, 700 strong, of the downtown streets. Lieut. J. F. Coventry (Q.O.R.), who was assistant to Major W. Ford Howland, has been recommended for the position of divisional intelligence officer. He was previously a member of the Oxford University Officers' Training Corps. When the war broke out he was a lecturer at Toronto University.

Died in Camp Hospital. Sergt. Hunt of the Pioneer Battalion, who had returned from Quebec just before his unit went overseas, died yesterday in the hospital at Exhibition camp. One hundred and twenty-two volunteers came forward for enlistment in Toronto yesterday, but only 100 were accepted as being up to the military standard. The accepted men were credited as follows:

- 16th Batt. (Q.O.R.) 100
17th Batt. (2nd M.H.) 59
18th Batt. (Sportmen's) 112

100th Batt. (Parker's) 155

No More Applications. Militia headquarters at Ottawa has had, it is said, over 1200 applications for appointments as paymasters, quartermasters and chaplains of the C.E.F. On this account the militia notices have been received at Exhibition camp headquarters.

The number of applications for appointments as paymasters, quartermasters and chaplains of the Canadian Expeditionary Force is so large as to render it unnecessary that further applications should be made for these appointments.

Applications for these appointments are not to be made direct to militia headquarters, nor will such applications be considered. Only recommendations from officers commanding divisions, districts or such appointments are to be sent to militia headquarters, and are the only ones which will be considered.

In Westley Hospital. Lieut. Col. H. D. A. Giffen, 15th Battalion, is in Westley Hospital. Lieut. Col. Leonard Reed, commander of the 17th Mississauga Battalion, owing to poor health, is in Bermuda on a short stay. Col. Reed, after organizing the recruiting depot, took an advanced course at the school of infantry, and then began the task of organizing an overseas regiment, which is now up to half strength. His health suffered thru the strain.

Promoted Lieut.-Col. Lieut.-Col. C. Warren Darling has just been promoted to lieutenant-colonel. He succeeded Lieut.-Col. Duncan Donald as commander of the 48th Highlanders. The 48th will resume weekly drills at the armories sometime during April.

Inspected the 27th Battalion (American Legion) at Exhibition camp yesterday. As it was the second inspection within a month or so some members hoped it was a preliminary to an early departure overseas. The school of instruction (infantry) will be inspected by General Logie at 10 o'clock this morning. The 32nd Highland Battalion will be inspected on the Don Flats this morning, by Lieut.-Col. J. S. Campbell.

Quick Recruiting. The Foresters' Battalion, only authorized a few days ago, is already organized. The 17th Battalion will open its exhibition of war relics at the tomorrow morning. A 15-inch shell will be one of the feature exhibits. In the race for recruits for the 24th Battalion, Col. Price, commander, Ward six now leads. Its platoon being 64 men strong. Ward One with 48 east ends had led up yesterday. On Wednesday of next week a special musketry course will commence at Victoria College. This course will be attended by 175 lieutenants, N.C.O.s and men, representing 35 overseas battalions of this military district. The course, E. Ferguson, A.M.C., will be medical officer to the troops attending the course and also to the soldiers quartered at Burwash Hall. Capt. J. Hyde Bennett of the 51st Battalion will be transferred to the 201st Light Infantry to act as senior major. Ambulance Association. St. John Ambulance Association instructors are allotted to the following battalions for one month from April 3:

THERE'S A DELIGHTFUL 'SOMETHING' about the flavour of...

that can only be produced by the skilful blending of really fine 'high-grown' teas. This peculiar charm of flavour makes it unique among teas and is the secret of its 23 years of increasing popularity.

Official War Statements

British. The British official statement, issued last night on the campaign in France and Belgium, reads: "Our troops carried out two successful raids against the enemy trenches about Gommecourt and the Bethune-La Bassée road. One prisoner was captured and three dugouts filled with Germans were bombed and blown in."

Russian. The official communication from Russian general headquarters, issued yesterday, reads: "The contest is developing in the Riga region. In the Jacobstadt sector we followed up yesterday's success, piercing the enemy's line."

French. The following French official statement was issued by the staff office last night: "To the north of the Aisne we directed destructive fires on the German works on the plateau of Valenciennes."

German. Yesterday's German official communication says: "Eastern theatre: The Russians yesterday showed a decided aggressiveness, and there was great activity throughout the evening and night. They advanced with strong forces against the German positions at the Jacobstadt bridgehead, and on both sides of the Mittau-Jacobstadt Railway."

Italian. The following Italian official communication was issued yesterday: "In the Suggna valley Wednesday night the enemy, supported by artillery, repeatedly attacked but was repulsed with heavy losses, leaving some prisoners and arms and ammunition in our hands."

HORSE CAUGHT IN TRACKS WAS KILLED BY TRAIN. George Baird, a Reachfield Township farmer, returning to his home from Uxbridge Wednesday with a team and sleigh, decided to take a short-cut by the railway tracks. Crossing a small bridge one of the horses got its foot caught between the railway ties. Baird unhitched the other animal and tied it to a post and was running across the field to obtain assistance when a Grand Trunk train came along, killing the animal, a valuable one, and smashing the sleigh.

LAUNCH CAMPAIGN FOR THRIFT AND PRODUCTION. Dominion Government is to begin Advertising Propaganda in Newspapers.

N. WEST LANDMARK IS BEING REMOVED. To make way for four modern high-class stores and six apartment houses, the landmark of the old west end, formerly the residence of John R. Bull, situated at the corner of West St. Clair Avenue and the gardens, is at present in the hands of the wreckers. The house had been a landmark in the district for the past twenty-five years and was built on the Bull estate when St. Clair Avenue was a cattle path. Dr. J. K. Gibson, whose office is temporarily in the Bank of Commerce Building, is the owner of the property, and he intends to make the block of property the finest in the northwest section of the city.

WESTMINSTER CHAPTER, I.O.E. The Westminster Chapter, I.O.E., held their regular monthly meeting on Monday, March 20. After the regular business had been transacted, an instructive talk was given by Mrs. W. R. Lang, her subject being the "Women of Europe and the War."

Dr. Chase's Nerve Food. Headaches, sleeplessness and tired, draggy feelings soon disappear when you restore your nerves by using Dr. Chase's Nerve Food.

ROQUES' WARM FRIEND OF CREOLE BATTALIONS. New French War Minister Resents Charge Made Against Colonials.

PARIS, March 23.—Gen. Pierre Auguste Roques, the new minister of war, made his first speech in the chamber of deputies today since his entry into the cabinet. He spoke in connection with the medical treatment of French colonial troops from Guadeloupe and the Antilles.

LONDON, March 24. 2.05 a.m.—While there has been no official announcement to justify the reports that the military age limit is to be extended to men of 45 years, the first step in this direction is indicated in instructions issued to recruiting depots for hold artillery, garrison artillery and army veterinary corps. These instructions state that the recruiting officers may "use their discretion hereafter in enlisting men between the ages of 41 and 45 years."

CATCH-MY-PAL SCHEME. GODERICH, Ont., March 23.—The "catch-my-pal" scheme along recruiting lines has been favorable again today and several eligible men have availed themselves of the opportunity of becoming members of the 161st Hurons here.

170th BATTALION, C. E. F.

Want You as Their Guest FRIDAY at 8 p.m. SATURDAY at 10 p.m. Willard vs. Moran. Fight returns called off by Alf. Palmer, Ed. Simmonds, 170th Batt.; "Dutchy" Phillips, 170th Batt.; Ted Price, 170th Batt.; Corp. Lovgrove, 170th Batt.

LABOR TEMPLE. Get tickets from men of the 170th Battalion at Headquarters, 53 Adelaide Street West. FREE! FREE! FREE!

EACH SECTION SHOULD MAKE UP THE DEFICIT. Opinion of Earls Court Residents Regarding Civic Car Lines.

with the other civic lines a deficit may be shown. Nevertheless we certainly do not feel that our section should be called upon to help meet the shortage by increased fares.

FOE RUSHES MEN TO VILNA. LONDON, March 23.—A Central News despatch from Petrograd states that the Germans are rushing reinforcements to the Vilna front, in the eastern theatre of war.

ENTERS Only One Day More— and Then— TOMORROW a last Good-Bye to the Startling Distribution of this Complete History of the World by

We can only hope that none of our readers will be disappointed tomorrow; that the few copies left will be ample to supply what is bound to be one of the biggest days of our campaign--which has already gone into history as the most marvelous enterprise ever undertaken by a newspaper.

The Toronto World Toronto - Hamilton

NEARLY 2,000 PAGES Over 150 gorgeous illustrations in color and half-tones.

Never Again after the present distribution by this paper, can you get a Big Set of the greatest History of the World ever written, for only \$1.98

By the same author as the world-famous "History for Ready Reference."

Tomorrow is Positively the Last Day

History without the human figure would be as lonely as a treeless landscape, and Larned gives color and life to his wonderful world history by his vivid portrayments of the great men of each of his six historic epochs. His character sketches clothe the dry bones with flesh and blood—and life itself pulsates in his pages.

IT IS A RARE BARGAIN. Bound in a beautiful de luxe binding; gold lettering; fleur de lis and tracery design, rich, half-calf effect. Marbled covers with gold and colors. Full size of volumes 5 1/2 x 8 inches.

NEWS FROM THE CITY HALL

RECRUITING BATTALIONS MUCH IN NEED OF CASH

Applications for Grants to Be Considered by Board of Control Today.

Applications for grants to help them in recruiting campaigns were made by officers representing several of the battalions now organizing in the city...

In the opinion of Controller Foster the federal government should make an assessment of the whole Dominion and hand out the grants to the battalions as they were required.

Representing the Sportsmen's Battalion, Capt. Tom Flanagan asked for the money, stating that it was the general opinion that the Sportsmen were a wealthy organization this was by no means true.

Mayor Church pointed out that Col. Hargry was given \$1,000 recently, and it was only fair that the Sportsmen should be treated exactly the same.

ENTHUSIASTIC WELCOME FOR BELGIAN BARITONE

"War One of Honor for Allies," Said M. Graveure at City Hall Yesterday.

An enthusiastic welcome was given Louis Graveure, the Belgian baritone, by Mayor Church yesterday at the city hall. Introducing M. Graveure, he referred to the great stand the little Belgian army had taken on behalf of justice and democracy.

OWNERS OF THEATRES MAY LOSE LICENSES

Mayor Church Takes Firm Stand Against "Sunday Shows" at Play Houses.

That the law is being ignored is the opinion of Mayor Church regarding the programs staged in local theatres at Sunday recruiting meetings. He said there were forty shows going on Sunday and he did not know who gave the people the authority to put on the kind of shows they did.

ACID STOMACHS ARE DANGEROUS

Nine-Tenths of All Stomach Trouble Said to Be Due to Acidity.

A famous physician whose successful researches into the cause and cure of stomach and intestinal diseases have earned for him an international reputation, said in the course of a recent lecture that nearly all intestinal troubles, as well as many diseases of the vital organs, were directly traceable to a deranged condition of the stomach, which in turn was due nine times out of ten to excessive acidity, commonly termed sour stomach or heartburn, which not only irritated and inflamed the delicate lining of the stomach, but also set up gastritis and stomach ulcers.

CITY HALL NOTES

A recommendation has been made by the assessment and works commissioners that Drayton avenue be graded from Danforth avenue to 220 feet south of Hanson street at a cost of \$1410.

The officers commanding the local regiments and the commanding officers of the overseas battalions will wait upon the board of control in a body at 10.30 a.m. today to make formal application for a grant to assist in defraying the cost of recruiting and maintenance charges.

Dr. Gilmour Steele, chairman of the board of management of the board of education, said yesterday that if the city cuts off the allowance of its employees going to the front the school board should do the same thing. "We will wait and see what action the city council takes," he said.

According to a recommendation made by the assessment commissioner the cost of the Brunswick avenue extension will be apportioned between the property owners and the city, the former paying \$10,848 and the city \$9,062. Seventy-five per cent of the cost was to be paid by the property owners under the bylaw application has been made to the court of revision against this.

Mayor Church stated yesterday that owing to the war and the financial situation it was impossible to get the estimates down any sooner than in previous years. He indicated that he wished Thomas Bradshaw, the new city treasurer, to take some part in the work and he would not take up his duties for two weeks yet.

THANKS SIR ADAM BECK FOR FIGHT FOR HYDRO

Mayor Wants to Know Why Sir George Foster Did Not Appear Before Committee.

Yesterday afternoon Mayor Church wired to Sir Adam Beck at Ottawa thanking him for the magnificent fight made before the railway committee for the hydro. "The people are behind you," said the message, "and are watching the action of their representatives at Ottawa."

WILLS PROBATED

Harriet C. Warren, wife of Dorman J. Warren, who died at Lakhurst, N. J., Dec. 27, left an estate of \$429,730. Fred Crosby, 431 Jarvis street; Sarah P. Warren and Carolyn Warren, 95 W. Wesley street, relatives, share very largely in the estate.

AGREEMENT TO SUPPLY TOWNSHIP WITH WATER

Will Be Submitted to Civic Works Committee Today.

A draft agreement to supply the residents of York Township who live adjacent to the city with water will be submitted to the civic works committee by Works Commissioner Harris today. The present charge of water to outsiders is 30 cents a thousand gallons, but under this the new charge will be 20 cents for a thousand gallons. The township is to install the necessary mains and the supply is to be metered at the points of contact between the city and the township.

RECRUITING AT OSHAWA—THE 116TH AND OTHER BATTALIONS.

OSHAWA, March 24.—Three battalions for overseas service are being recruited and drilled here, and the appearance of the men on parade indicates that Oshawa's quota will compare favorably with any in the empire. Part of the 116th Battalion, under Lt. Colonel Stuart Sharpe, M. P., is shown in the Art Section of this week's Toronto Sunday World, as they appear lined up opposite the armories. There are many other views of the troops stationed here, including units from the 132nd, Kent and Lt. W. W. Tennant, and a line-up of the 34th prior to beginning a sharp fight. Through the courtesy of the officers The Toronto Sunday World photographer was enabled to obtain some fine pictures, which are reproduced in this week's issue. Copies may be obtained from any newsdealer, as the Sunday World is for sale everywhere at five cents per copy.

HOMESEEKERS' EXCURSIONS TO THE LAND OF WHEAT.

Homesekers' excursions to western Canada, at low fares, via Canadian Pacific each Tuesday until Oct. 31, inclusive. Particulars from any Canadian Pacific agent, or W. B. Howard, district passenger agent, Toronto.

WILL SOON BE READY FOR THE STEEL WORK

First of April is Date, Say Engineers of Big Viaduct.

PROGRESS BEING MADE

Only Waiting for Don to Settle Down, Then Rush Begins.

Splendid progress is now being made on the eastern or Don section of the big floor street viaduct, and according to Chief Engineer Black of Quinlan and Robertson, the general contractor, a World reporter yesterday when they went over the ground, the first of April will see the steel work on the eastern approach over the C.P.R. completely finished.

This was one of the initial big jobs of the undertaking, as immense masses of rock-like earth had to be gouged out of the side of the east banks of the Don before footings could be found and the steel work started. The two massive derricks handle with ease the long girders and pieces of steel and everything goes like clockwork.

Over Hundred Feet High.

In all there are five spans, and the greatest height is attained about the centre of the valley, where the deck of the bridge will be 130 feet above the ground. The engineer said that the 240-foot span would be finished about the last of June, but did not express an opinion as to when all the steel work would be done. It is generally understood that this will be before another winter sets in. They are well ahead of their contract with the city and have some months to the good already.

GET IN YOUR ORDER EARLY FOR THE NEXT ISSUE OF

THE SUNDAY WORLD

Over a hundred and two thousand copies will be printed and circulated, but if you want to be one of the readers you will have to get in early.

The Eight Pages of

illustrations continue to be a leading feature. The front page is one that nature lovers should not fail to see, as it contains a most interesting series of photographs of

Birds in Angry Mood

There are also photographic stories of military events in many parts of the world, including a full page each of the military activities at

Hamilton and Oshawa

Showing the big parade at the former place. The feature section includes the re-entry of a former celebrated writer for The Sunday World into its columns with "THE CHRONICLES OF THE KHAN."

The other features which have brightened the pages of the feature and magazine sections for some time will all be there.

Your Soldier Boy

likes The Sunday World, so buy it and send it on to him.

A Great National Public Utility

That concerns all merchants and all people

THE original Cash Register rang a bell, indicated and recorded the amount of the purchase. It benefited the merchant only.

In a third of a century this old model has developed into a Cash Register that directly benefits every man, woman, and child who spends money in a store.

This new Cash Register equally concerns every merchant and clerk, every banker and wholesaler in this land.

It furnishes every customer with a receipt or sales-slip.

It prints on this the amount paid or charged.

On this is also printed the date of the sale and who made it.

It forces a duplicate, printed record for the merchant.

It prevents disputes over charges and bills paid.

It saves shoppers' time.

It gives the merchant all his profits. It gives him more money for his family.

It promotes more and quicker sales.

It protects each clerk against making errors and against the mistakes of others.

It rewards the diligent clerk by telling his employer which one makes the largest number of sales and which one gets the greatest amount of business.

It assures the banker additional security for the money he loans the merchant.

It gives the wholesaler additional assurance that the merchant will have money to pay his bills.

It furnishes the banker and the wholesaler mechanical evidence that the merchant's statement of his business is correct.

It is a business necessity.

Merchants!

We have new 1916 models that give this perfect service.

Write us to-day or see our agent in your city and learn how you can secure one of these public service machines.

Liberal allowances will be made for old National Cash Registers that were good in their day, but do not so completely protect you or give the valuable service our 1916 models do.

SEVENTH ANNIVERSARY.

Bishop of Toronto Will Celebrate Consecration.

The Bishop of Toronto will observe the seventh anniversary of his consecration on Saturday, and will, at 10 o'clock that morning, celebrate the holy communion in St. James', where the consecration took place. As in the past, the bishop would be pleased to see as many of the clergy and church people present as can find it convenient to attend.

FOR STEALING HAT.

Stephen Bismarck, 34 Water street, was arrested yesterday afternoon on a charge of stealing a hat from the Robert Simpson Company. Detective Armstrong made the arrest.

SUIT WAS SETTLED.

William F. Bateman paid \$250 to Mrs. Alice Higgins in settlement of a suit brought against him in the county court. Mrs. Higgins was struck by a motor car driven by Bateman last October while she was stepping from a car.

SPEAKERS AT CONVENTION.

Three Canadians will be among the speakers at the international convention of the Baptist Young People's Union. They are: Rev. Dr. O. S. C. Walter, formerly chancellor of McMaster University; Rev. Dr. G. T. Webb and Joseph Weaving of Peterboro. The convention will be held at Chicago and open on July 6.

COMING HOME SOON.

Rev. John Craig, who went from Toronto to Coanada, India, seven years ago, will return to Canada on furlough next month.

BANKERS ARRAIGNED ON THEFT CHARGES

Yesterday Hadji Peroff and his son, Constantine Peroff, of the Hadji Peroff Company, private bankers, Eastern avenue, appeared in the police court to answer three charges of theft from Macedonian depositors. Both men entered a plea of not guilty, and the crown asked for an adjournment till March 30. The company has gone into liquidation, the assignment being made to G. T. Clarkson, who estimates that there is about \$25,000 not yet accounted for.

Hockey Riversides 8 Monarchs 7

GOOD COMBINATION BEAT THE MONARCHS

Speedy Winnipeggers Defeated by One Goal in Return Fixture at the Arena.

In the speediest and cleanest game played in the Arena this season, Riversides defeated the Monarchs of Winnipeg last night by 8 to 7. Only a comparatively few followers of the winter sport turned out and these were treated to a brand of hockey that was somewhat out of the ordinary. It was hard going all the way with the most thrilling plays occurring during the dying moments of the contest, when Monarchs tried for all they were worth to even the score.

Parkes, the clever Argonaut boy, played in place of Appleby, who was on the sick list. He put up the best game of his career. With the exception of Riversides had their complete team. Dick Irvin, who did not figure in the first game, took up his position at rover despite a sore shoulder. He stood the pace for two periods and was then relieved by Chum Irvin.

Riversides at all times checked hard, and served up very aggressive hockey, and their team work was splendid. It was this feature that won the game. Monarchs were much faster individually at all times, the rushes of practically every player bringing the spectators to their feet. Lacking combination play and depending mostly on individual rushes along with poor shooting lost them the game.

Altho Riversides waded in with a vengeance in the first few minutes, Monarchs came along and outplayed them for the rest of the period. Their speed and stick-handling were superb and had it not been for inaccurate shooting they would have piled up a large score. In the second period Riversides showed themselves in a row and then Chum Irvin showed in one just before the game sounded. In the last lap Monarchs were actually on the offensive, but Merrick and Smith did some great blocking.

Monarchs played clean hockey at all times out in centre ice and not bothering against the boards. The Winnipeggers were great favorites with the crowd, their speed, stick-handling and cleanliness being largely responsible.

Table with 2 columns: Player Name, Points. Lists players like Riversides, Monarchs, and their respective scores.

A Montreal despatch says: Manager Savage of the Portland team in the Canadian league says that he does not want the present series to carry over next Wednesday. "If the result of next Tuesday's match should make a tie I want it played off the next night," he said. "I don't want it to last until next week."

NOMINATED FOR OFFICE IN TORONTO AMATEUR B.B.A.

Indications Point to Lively Season Among the Local Leagues and Clubs.

Indications point to a lively season among clubs of the Toronto Amateur Baseball Association. Judging from the gossip around amateur ball camps it looks as if the game will boom despite the hundreds of ball tossers that have joined the clubs. Altho there will not be so many leagues in operation as last summer the game will be carried on. There are over 1500 ball players in the city. No other branch of the game has responded to the call as the ball players. All the champion teams have been wrecked. The secretary of the A.A.B.A. has received a number of notices of motion of amendment to the bylaws and constitution. The following nominations for office have been received: Hon. president, W. J. Smith; president, Bert N. Brown; vice-president, Mr. Seyler; secretary, A. Walsh; treasurer, H. H. Roxborough; councillors, S. H. Armstrong, A. P. Gow, Charles Kenney, J. Bateman and George E. Walker.

The notices of motion are: From Toronto Senior League: "Suspended players who have not received money for their services who are now in khaki, be restored to good standing. From Spaulding League: Introduction of waiver clause which gives the clubs in league first option on services of any released player in their respective leagues. The Queensbury rules of A.A.B.A. with complete list of their officers. From Ontario Baseball commission asking for the elimination of bylaw stating that a member of the commission shall act as the executive. The commission will likely ask that the T. A. B. A. appoint a member on the Ontario board. The executive is also framing a by-law to cover players in manufacturers leagues that the players representing a firm be employed before April 15th of this year and three months before playing season in following years.

MOSS PARK ATHLETICS.

As the gymnasium season draws near its close the weekly athletics held each week at Moss Park for the all-round championship take on more life and enthusiasm. The boys who are near the top of the score are working with might and main to stay there, while the opponents who follow are working with equal determination to overcome this lead.

Yesterday afternoon and evening saw a large field of competitors over and some splendid performances were registered. The events were as follows: 120-Yard Potato Race.—Midget—J. H. Pierson; 2, H. Harrington; 3, J. H. Pierson; 4, J. H. Pierson. Juvenile—J. G. Waller; 2, B. Walker; 3, G. Tait. Junior—J. M. Rozovitch; 2, C. Powell; 3, J. Reynolds. Intermediate—J. S. Nugent; 2, F. Boland; 3, W. Ryan. Standing Broad Jump.—Midget—J. J. Boland; 2, H. Saunders; 3, J. Allen. Juvenile—J. H. McKay; 2, B. Walker; 3, G. Tait. Junior—J. C. Powell; 2, H. Strife; 3, M. Rozovitch. Middle—J. W. Ryan; 2, G. Duckworth; 3, S. Nugent.

CAREW TROPHY.

At Queen City.—City—E. H. Jones. R. Weir. C. R. Barber. T. Dale. Dr. J. Wickett. R. Dillon. sk.—11 R. B. Rice, sk.—20.

GUELPH DRUGGISTS DON'T WANT TO RETAIL LIQUOR

Will Not Accept Business if Offered Them by Government.

Special to The Toronto World. GUELPH, March 23.—Guelph druggists are not in favor of the proposal in the provincial liquor legislation that hands the retail liquor legislation over to them. The majority of them stated that they did not handle liquor at all, and they also stated that they would not accept the business if offered to them by the government. The suggestion of the government taking over one of the shops here and conducting it as a dispensary met with approval as the more desirable way of conducting the business.

INVESTIGATE PECULIAR DEATH OF GUELPH MAN

Special to The Toronto World. GUELPH, March 23.—An inquest has been opened into the death of Ira Pender, the moultier who died under peculiar circumstances at the General Hospital. Pender fell outside a local hotel at 8 o'clock Friday evening, and when picked up was unconscious. He was taken home, but when he did not regain consciousness he was removed to the hospital. An autopsy is being performed. The inquest has been adjourned until Monday afternoon.

ADDRESS IN GODERICH ON RUSSIA AND RUSSIANS

GODERICH, Ont., March 23.—Goderich citizens crowded the auditorium of the local hotel last night to hear J. D. Allan of A. A. Allan & Co. deliver an address on "Russia and the Russians." The address was most interesting and impressive, especially so in that the speaker spoke from personal knowledge, having for some twenty years and made annual trips to the allied nation in connection with the fur trade.

Fight Heavies Are On Edge

T.B.C. Excursion BUFFALO

What Frank Moran Has to Overcome

MIDNIGHT SHOW FOR THE IRISH FUSILIERS

Boxing, Wrestling and Vaudeville Acts Put on at Star Tonight.

Some good boxing, wrestling and vaudeville acts will be put on tonight at the midnight show at the Star Theatre, for the 20th Irish Fusiliers. Cyclone Scott of the 9th Battalion, formerly recognized as the best middleweight at the coast, will meet a worthy opponent in Quartermaster Donovan of the R.C.I., who is looked upon as one of the best boxers in Canada, and who formerly conducted a big boxing school in New York City.

Learned From a Sample Nineteen Years Ago

That He Could Depend on Dr. Chase's Kidney-Liver Pills to Cure Many of the Common Ills of Life.

Living eighteen miles from a drug store Mr. Carr found it necessary to keep in the house some treatment to regulate the action of liver, kidneys and bowels. To the habit of keeping these important organs active by the use of Dr. Chase's Kidney-Liver Pills, when required, he attributes the good health of his large family. Here, surely, is evidence of the value of these pills as a family medicine to protect the members of the family who use it from the common ill so many of which arise from constipation of the bowels and torpid condition of the liver and kidneys. Mr. James Carr, Mayohead, Ont., writes: "About 19 years ago I received an envelope containing two of Dr. Chase's Kidney-Liver Pills. I was doctoring at the time with two doctors, and as they did me no good I used the Pills, and by the time I had finished one box I was cured of the pain in the back and shoulders. 'We have great confidence in Dr. Chase's Medicine. I have a family of ten children and have never had a doctor in the house for any of them. We live eighteen miles from a drug store and find that these Pills cure nearly all the ordinary ill by regulating the liver, kidneys and bowels. That we are all well and sound I attribute to their use and I have recommended them to hundreds and given away many a box because I believe there is no medicine so good.' By awakening the action of liver, kidneys and bowels Dr. Chase's Kidney-Liver Pills cleanse the system of poisons and remove the cause of biliousness, headache, backache, lumberg, kidney disease and rheumatism. One pill a dose, 25 cents a box, all dealers, or Edmondson, Bates & Co., Ltd., Toronto.

LAST BULLETINS FROM FIGHT HEADQUARTERS

Both Men Have Trained Satisfactorily and the Ticket Sale is Above Expectations.

NEW YORK, March 23.—Jess Willard made up his mind to work hard today, altho he was to have done only light work in front of a motion picture camera. He postponed his engagement with the movie men and put in a busy afternoon with his trainers in the club house gymnasium. He went much faster than when he finished his so-called final workout yesterday. He put in a full session with the pulleys and repeated his shadow boxing. He took on a few more rounds with Walter Monahan for two rounds each. There was no playful tapping in any of the rounds, and all three of his sparring partners felt the stings of Willard's jab, jolts and hooks must be frequently taken than they bargained for. The champion never looked in better condition than when he finished this afternoon. Trainer Willie Lewis let Moran go along in a leisurely way today. In the morning he took a short walk and then ate a hearty breakfast. Moran, but he did not seem to be much interested when he went through some light work before the movie camera in the gymnasium. Moran's training partners are well pleased with the challenger's condition. Willie Lewis, who has had charges of Moran in his training for his rights on Monday, said that he was very confident when he trained for his last two bouts and Coffey, and what's more, his hands are in fine shape, which was not the case when he met Coffey last January. "I never saw Frank looking so well or in such splendid condition before any of his previous battles. He is stronger, more vigorous and vastly more confident than when he trained for his last two bouts and Coffey, and what's more, his hands are in fine shape, which was not the case when he met Coffey last January. I look for him to win sure."

Moran's training partners are well pleased with the challenger's condition. Willie Lewis, who has had charges of Moran in his training for his rights on Monday, said that he was very confident when he trained for his last two bouts and Coffey, and what's more, his hands are in fine shape, which was not the case when he met Coffey last January. "I never saw Frank looking so well or in such splendid condition before any of his previous battles. He is stronger, more vigorous and vastly more confident than when he trained for his last two bouts and Coffey, and what's more, his hands are in fine shape, which was not the case when he met Coffey last January. I look for him to win sure."

Some doubt appears to exist in the minds of both Willard and Moran regarding the rules under which the bout will be fought. There has been considerable talk about hitting in the clinches and in the breakaway. A study of the contractive agreement signed with Promoter Rickard shows clearly, however, that the bout is to be conducted under the rules and regulations of the New York State Athletic Commission. The rules of the Commission are as follows: Queensbury rules, which are the standard of both boxing and prizefighting in all countries, shall be observed. The principals must protect themselves at all times, both in clinches and in the breakaways. The rules of the New York State Athletic Commission on the other hand distinctly provide that there shall be no hitting in the breakaway. The regulations covering these points are as follows: The kidney punch or blow shall be forbidden. The use of the head or shoulders, wrestling or clinching or illegal use of elbows shall not be allowed. There shall be no unsportsmanlike conduct on the part of the contestants. This shall include the use of abusive or insulting language. The commission has announced that the referee, Charley White, will be instructed to see that they are obeyed.

Many histories of the world would resemble a patchwork of disjointed events and disconnected descriptions. Not so with Larned's superb history. He has surpassed achieved his most notable success in bringing together the important happenings of history for seventy centuries in such a connected and harmonious manner that the history of each nation in its world-movements reads as smoothly as a continuous, uninterrupted narrative. We trace the story of human progress from the dawn of ancient Egypt to modern Mexico. The style is clear, concise, and vigorous and the facts are not isolated entities but each an integral part of the great scheme of human development. As a means of grasping and understanding the march of mankind from primitive savagery to the ideal of the twentieth century, the work is unequalled. This paper's remarkable content is an integral part of the story of this wonderful world, in five volumes, in the power of each and every one of its readers. As the distribution ends tomorrow, clip the coupon which appears elsewhere today.

History Treated as a Harmonious, Consecutive Narrative in Larned's History of the World

PRICE OF BREAD UP NO REASON IS GIVEN

Grocers Unable to Account for Advance, But Bakers Say Wages Higher.

BRANTFORD, March 23.—The price of bread took a jump today and housekeepers will have to part with 12c for a large loaf in place of 10c. Grocers are unable to account for the increase, as flour has gone down, following recent advances. It is an ancient retailing for from \$3 to \$3.50 per cwt. Bakers claim that never before was labor so scarce as today. Flour is as scarce as necessary; sugar has advanced again.

BRANTFORD MAN THERE.

BRANTFORD, Ont., March 23.—Among the wounded Brantford men at the Granville Hospital, Ramsgate, which was bombed by the Germans in September last, was James J. Emmett of the 4th Battalion, who was severely wounded at Neuve Chapelle last May. He received no less than seven wounds in the head and back and was for some months in a serious condition. He is now very slowly recovering. His home is at 107 Spring street.

EATON'S

EATON'S LIMITED TORONTO CANADA

LIEUT.-COL. S. G. BECKETT WAS GUEST OF TORONTO

Complimentary Dinner to O. C. Seventy-Fifth Battalion and His Staff.

MAYOR AND MOVIE SHOWS

Theatre Owners Had "Better Watch Out"—Sir John Hendrie Was Present.

Some of the people who run "common ordinary vaudeville shows" under the name of recruiting rallies in "movie houses" on Sunday "had better watch out" for the police. The mayor, announced Mayor Church at a complimentary banquet given to Lieut.-Col. S. G. Beckett, O.C., and the officers of the 75th Battalion, C.E.F., by the city in the Carle-Rite Hotel last night. Cash grants should be given by the city to the 74th and the 75th Battalions, for they had done their recruiting without receiving a cent of official assistance, said the mayor. The 75th deserved a great deal of credit for introducing new methods of recruiting. In 30 days from receiving his authority Lieut.-Col. Beckett had organized his battalion 1200 strong.

ARENA SAT. THE BIG NIGHT

Last of Season 3-BIG EVENTS—3 HOCKEY 8.15, Berlin Union Jacks vs. Anna Lee (Champions). 10 to 12 o'clock P.M. PUBLIC SKATING Special view direct from the Willard-Moran battle.

ARENA SAT. THE BIG NIGHT

Last of Season 3-BIG EVENTS—3 HOCKEY 8.15, Berlin Union Jacks vs. Anna Lee (Champions). 10 to 12 o'clock P.M. PUBLIC SKATING Special view direct from the Willard-Moran battle.

Letters of Regret. Letters of regret were read from Premier Hearst and the Bishop of Toronto. The writers congratulated the battalion on the splendid showing it had made, and expressed the conviction that the Brigade-General Logie and members of the headquarters staff also sent their regrets.

BUSINESS MEN'S LEAGUE AVERAGES FOR SEASON

Close Finish for High Average and the Individual Championship.

With the completion last Saturday of the schedule of the Business Men's League almost a record was established in that not a single game in the ninety in the double series was either postponed or defaulted.

Another feature of interest was the close finish for the high average of the league and the individual championship, in a hard drive, heads apart, and the winner succeeded in landing the coveted prize by bumping strikes in the position only of his last game.

A fraction of a pin separates the leader, Walter Williams, of the team and Alie Boy of the R. S. Williams, while the latter's team mate, Charlie York, is close third.

Table with columns: Name, Team, Games, Ave. W. H. Williams, World, 54, 191.13; E. W. Boyd, R. S. Williams, 52, 190.36; C. W. Boyd, R. S. Williams, 51, 190.1; W. Wilson, Boyd Storage, 42, 189.0; A. MARK HARRIS ON MINES and MINING

There is no industry in the world where money can be invested more profitably or safely than in mining. I know this broad statement will be vigorously disputed by hard-headed, conservative "five per centers," but I am prepared to give facts and figures which I am sure will convince any fair-minded reader that I am right.

In using the word mining, I refer to legitimate mining, not the "cat and dog" newspaper advertisement variety of the mining that is synonymous with rigged markets, washed sales, etc. Unfortunately the public is more familiar with the latter than with the real genuine article and this explains why a large proportion of investors look upon mining as akin to a gigantic lottery where chance alone decides the prizes.

This is a great fallacy, for it is far easier to accurately judge the true value of a legitimate mining proposition than almost any other business.

Take for instance the man with a few hundred or a few thousand to invest. He can ask his broker to send him the names of half a dozen good mining stocks together with reports giving the full record of the company. By carefully studying these various reports he can ascertain how much ore was blocked out every year—he can tell the amount mined each year—the cost of mining same—the net profit per ton—and how much the mine is earning on each share of outstanding stock. If the answer to these is quite satisfactory he can then reasonably certain as to the future by dividing the amount of ore in sight, or blocked out, by the amount mined during the past year and the result will show how many years the mine can continue before the ore reserves are exhausted.

This does not give the full life of a mine, because a well managed mine increases its ore reserves every year. It does, however, assure the investor for the next 5, 10 or 20 years, and as he can have his report every year he can always look ahead a decade or so.

Can any industrial or kindred business look ahead for twenty years?

Certainly not.

They may have orders for a year or two in advance, but future orders depend on business conditions, so while a railroad or industrial company may be very prosperous this year it can be quite the reverse twelve or twenty-four months hence.

I will go a step further and ask anyone who is interested to compile a complete list of mining companies that were listed on the Boston and New York Stock Exchange, five, ten, or even twenty years ago. At the same time and from the same records compile a complete list of industrial and railroad stocks. After this is done take any financial paper giving this year's quotations on all stocks listed on both exchanges and compare the record of mining with that of railroad and commerce.

I was surprised at the result and you will be astonished, for mining stocks, with few exceptions, are still paying dividends and the average values of these stocks are higher today than a decade ago.

How about the record of industrial and railroad securities for the same period?

I would like to print the complete record, but as the space at my disposal is limited I could not cover 20 per cent. of the companies that have been afflicted with receiverships, reorganizations, liquidations, complete failure and other minor financial diseases, most of which were invented by high priced lawyers to legally separate the public from their money.

In a few weeks I intend publishing an article on the record of railroads and industrials for the past decade just for the benefit of the conservative "old fellow" that always tells you "mining is risky" and you should be satisfied with 4 or 5 per cent. in some good "safe and sane" railroad stock.

The truth of the matter is that mining is "safer and saner" than either railroading, banking or commerce and the records published on authority of the United States Government prove it.

According to The Mining World, published in Chicago, the following are United States Government statistics, giving the annual return on capital invested in various industries:

Railroads 3 per cent.
National Banks 3 1/2 per cent.
Insurance 11 per cent.
Lumbering 14 per cent.
Manufacturing 3 to 20 per cent.
Mining 182 per cent.

These figures are too eloquent for discussion and if they won't convince you nothing will.

I have given the best years of my life to the mining industry and can truthfully say I do not regret it as I have been well repaid financially and otherwise.

I firmly believe that mining today offers greater opportunities than it ever did and that Northern Ontario stands first on the list of future possibilities.

There is a vast amount of virgin ground in Northern Ontario that sooner or later will hear the sound of the prospectors' pick and shovel and unless I am mistaken this will bring many new mining camps with great riches for the investors who assist in development.

I have often been asked what is the best kind of a mining proposition to invest money in and I always make the same reply: "It all depends on circumstances—your circumstances—and on what you really want."

Mining offers an investment to suit every pocket. You can have a wild speculation or an absolutely safe investment. I consider a mine in the development stage the best all-round investment, for it is comparatively safe and at the same time offers great possibilities for profit.

The only pitfalls in an investment of this character are caused by inefficient management or lack of capital and these can be avoided by purchasing stock sponsored by high-class brokerage houses who value their reputation more than customers' commissions.

I mentioned a stock of this character six weeks ago when it was selling at 35 cents and again two weeks ago when it was selling at 49 cents. I also recommended it again last week when the price had advanced to 59 cents. Today it closed at 88 cents.

The stock is the Boston & Montana Development Co., listed on the Boston and New York Markets and I consider it one of the best investment stocks I know of.

The management is excellent, the president of the company, ex-Lieutenant-Governor Allen of Montana, thoroughly understands mining and devotes his time to his property rather than to the stock market.

The property is now being aggressively developed and it is only a question of time until it is one of the big producing copper mines of the world.

I have no personal interest in the company, but, having watched its progress for two years, I have no hesitation in recommending the purchase of the stock at any figure under two dollars per share.

I have a very complete report in my office on this company and will gladly post a copy free of charge to all who are interested.

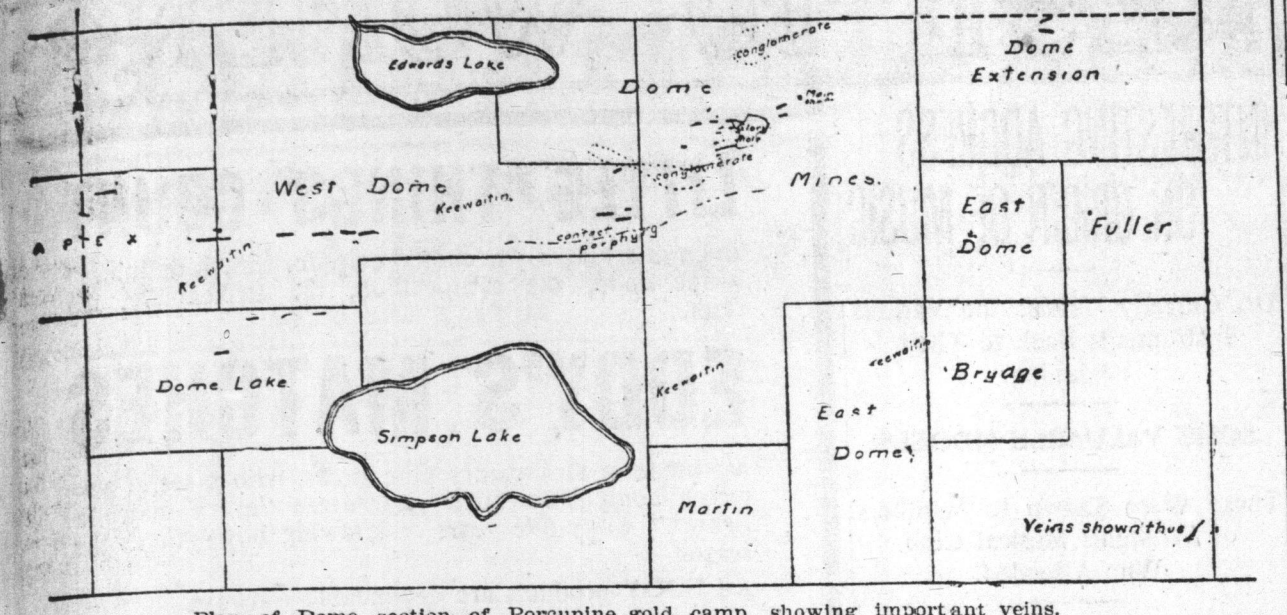

In the meantime take my advice and buy a few shares of the stock, either as a permanent investment or for stock market profits.

I have persistently urged the purchase of this stock because I believe to convince you that mining was safe and profitable than all the articles I could write in a lifetime.

There is, and always will be, men who decry mining, but if you tax or nothing about the subject.

Well he is right as far as industrial, bank or railroad stocks, but I can name several mining stocks that can be purchased, whose ore reserves positively guarantee such a dividend for the next 10 or 20 years.

Mark Harris

Plan of Dome section of Porcupine gold camp, showing important veins.

The Dome area of Porcupine is important but not so well developed as around the Hollinger and Pearl Lake. Outside the Dome mines the area may be said to be almost undeveloped. Those mines are at present the only producers in the area, although sufficient work has been done at several other neighboring properties to warrant the attention of the capital.

The deep workings are at the Dome mines, the Dome Lake is now developing its several promising veins on the 400-foot level. At the Dome mines the largest vein, the not the richest, have been found in the Porcupine area. One vein in party that did not make its appearance on surface was encountered on the third level. On the fourth level it is 330 feet long and 120 feet wide but on the fifth level it decreased in size to 160 feet long and 40 feet wide. This vein has also been found on the sixth level and contains an enormous tonnage.

Some important veins have been located recently along the contact with the porphyry at the 700-foot level, and now the new central shaft has disclosed an entirely new ore zone in what was thought to be barren ground. When it is considered that practically all the Dome workings are in a zone about 1000 feet wide and 500 feet long, it is not likely that the future of the mine when the likely parts of its big holdings are explored.

The Dome is now becoming a question of mill capacity. The mine is several years ahead of the mill, and it is at the latter end that the greatest improvements must be made. A big plan is now being carried out through which it is expected that the mill capacity will be increased to approximately 100,000 tons a month. For the immediate it has been announced that by the addition of two more tube mills the capacity will be brought up close to 55,000 tons a month. At present one tube mill is in operation and the other is being put up in the property. It is proposed to remove some stamps as the tube mills are installed.

Last year the Dome produced approximately \$1,225,000 in gold. With a greater mill capacity and higher average values the production in 1916 will show a substantial increase. Dome Extension.

It is thought by the Dome Extension management that a part of the Dome Extension property at a depth of 1200 feet. Whether diamond drilling will be resorted to in the future existence of the veins or a permanent shaft sunk has not been determined. In the meantime the surface plant has been put into good shape and the exploration of an ore zone found on the 200-foot level shortly before the mine was closed down some time ago is being carried on. It is not known yet whether this ore zone, the large will prove paying mill ore.

The Dome Lake mine is steadily going ahead. Several veins of importance have been found in the property recently, and it is likely an appreciable amount of ore will be blocked out this year.

While the cyanide plant is being installed, which necessitates the closing down of the mill for two weeks underground work is going ahead as usual. The cyanide plant is guaranteed to increase the recovery from about 80 per cent to 95 per cent.

The new developments underground of the last ten weeks have been very encouraging.

Starting West Dome. The West Dome has partially developed a system of veins near the Dome mines. It is thought that the better results may be obtained by exploring the porphyry contact in the south half of the property.

The surface plant is now being overhauled and development work underground will be started shortly.

Several Veins on Apex. There are several veins on the Apex that give promise. The company has been considering reopening, but nothing has been done so far.

The Timiskaming Company of Cobalt worked up until recently on the North Dome. Considerable diamond drilling was done, but no announcement of the result has been made.

BANK CLEARINGS. MONTREAL, March 23.—Bank clearings for the week ended today \$86,135,955 compared with \$86,737,779 the previous week, \$13,929,801 the corresponding week a year ago, and \$45,913,211 two years ago.

SILVER JUMPS UP TO NEW HIGH POINT

Highest Figure Touched in Over Two Years.

The price of commercial silver has done some tall climbing in the last two weeks, and the real jump came yesterday and the day before. Yesterday an advance of 1 1/4 cents per ounce was made, bringing the price, which is a new high record since 1913, up to 59 3/4.

HOLLINGER VEINS PERSIST AT DEPTH

Have Reached the Twelve Hundred and Fifty Foot Level.

TIMMINS, March 23.—Considerable attention is being given to developments of the 1250-foot level of the Hollinger. This depth was attained a few days ago. The station is being cut and drifting has been started on No. 3 vein. At a depth of 1240 feet a body of ore appeared and is being explored. As the Hollinger and other Porcupine mines carry their development at the present level, it is proposed to remove some stamps as the tube mills are installed.

TWO NEW BODIES ON SCHUMACHER

Diamond Drilling Located Veins East of Present Ore Shoots.

SCHUMACHER, March 23.—Diamond drilling from the 600-foot level of the Schumacher has located two new ore bodies near the quartz porphyry contact, east of the present ore shoots. The new ore bodies are each about five feet wide and are in the same ore zone as the McIntyre. Stopping is being done on the first and second levels. No ore from the dump is being put thru the mill now, all ore coming direct from the mine. This will raise the value of rock treated in the mill.

CURB BRITISH INVESTMENTS.

Division of Money to Foreign Countries is Frowned Upon.

LONDON, March 23.—In the house of commons today the chancellor of the exchequer, Reginald McKenna, was asked whether the government intended to take any measures to prevent investment of British money in the United States and other foreign countries. Mr. McKenna said such investments were contrary to the national interests, and that he deprecated them strongly, but did not indicate that any measures were contemplated by the government.

LONDON METAL MARKET.

LONDON, March 23.—Copper, spot, £113, off 5s. Futures, £110, off 5s. Electrolytic, £108, unchanged. Lead, spot £23 2s 6d, off 1 1/2d. Futures, £25 7s 6d, off 1/2d. Spelter, £24, unchanged. Futures, £24, unchanged.

LONDON STOCK EXCHANGE.

LONDON, March 23.—Heavy purchases of treasury bills reduced the supply of money today, although the government is releasing funds as quickly as possible. Discounting was steady. The continued Russian successes maintained a cheerful tone on the stock exchange, but the declines were comparatively quiet. Rubber and oil shares were in demand, and Home Ralls were active. Gilt-edged securities and American shares were dull, and railway steady on a light volume of business.

CEMENT AND STEAMSHIPS.

Heron and Co. had the following at the close: MONTREAL, March 23.—Canadian Cement was again the most active stock showing a decline of 1/2 cent to 5 1/2 cents and later sold off to 5 1/2, recovering a point at the close. Reports that the electric furnaces will soon be in full operation, accompanied by the fact that the Canadian Steamships was a strong feature all day. The earnings for the first three months of 1916 are reported to exceed the most sanguine expectations.

TWIN CITY EARNINGS.

For the second week of March the earnings of the Twin City Rapid Transit Company were \$189,234, an increase over the corresponding period last year of \$18,267, or 7.54 per cent.

COBALT ISSUES ACTIVE AND STRONG

Further Jump in Silver Helped Silver Stocks—West Dome Cons. Strong.

The further advance in the price of bar silver to 59 3/4 served to transfer much of the interest from the Porcupine stocks to the Cobalts yesterday at the Standard Stock Exchange, and trading in the silver stocks was more active than has been the case for some time past. The gold issues, although yielding somewhat in matter of interest, were active, too, and two or three shares advanced considerably. West Dome and West Dome Consolidated, were selling at advances. Pretty well all the active issues in the Cobalt section were higher in price.

The brokers reported more participation on the part of the general public and American business in the Cobalt section. They were responsible for the activity in West Dome Consolidated. Apex sold from 6 to 1-2 on quiet trading. Dominion Extension has said, with place as market leader for the time being and the volume of business, although fairly large, still has not opened up considerably in the last two days. The stock was also easier in tendency, opening at 38, which constituted the high point for the day, and selling off to 37 1/2-3/4 on the close. Both Dome Lake and East Dome were very quiet. The latter was offered at 26, with 24 3/4 bid. Poley for a block of 100 shares sold at 50 and Hollinger, also quiet, was strong at 26 1/2.

Some active buying of Juniper started on an advance of one point from the opening at 21. McIntyre was inclined to ease off, selling between 10 and 11-1/2 and 12, as against 9 1/2 to 9 3/4 the previous day. Porcupine Vipond was quiet at 57.

The strength of West Dome Consolidated and West Dome was the real feature of the Porcupines. The former tender advanced to 80, and the latter 25-1/2 to 26 and closed slightly lower at 25 3/4. There is said to be a pool of American interests operating in this issue. Sales yesterday were over 20,000 shares. West Dome opened 3-4 higher at 17, sold up to 17 1/2, but closed off again to the opening figure.

In the Cobalts, Timiskaming was active and stronger, opening at 54, selling up to 55 1/2-3/4, and closing at 54 1/2. The sentiment toward the stock has improved considerably since the advance in the price of silver, as the quantity is known to have a large supply of the white metal in store, which is enhancing in value at every advance in silver. Timiskaming also stronger, selling up from 23 1/2 to 40.

Chambers-Forland had a jump in price, selling from 23-1/2 to 25, but selling back on profit-taking to 23 1/2 on the close. Nipissing was stronger, selling at 47, and the Stearns rose from 18 1/2 to 20. McKimley-Darragh was up a point, at 41.

Peterson Lake was active and stronger, selling from 25 1/2 to 26 1/2, closing at the top price. Seneca Superior sold from \$4 1/2 to 60. Contags changed hands at \$4.15.

MONTREAL EXCHANGE TURNED IRREGULAR

Some Issues Showed Fair Gains While Others Suffered Moderate Losses.

MONTREAL, March 23.—Prices on the Montreal exchange today were some issues showing fair gains, while others, including Steel and Power, were down. The market was irregular, with some issues showing fair gains, while others, including Steel and Power, were down. The market was irregular, with some issues showing fair gains, while others, including Steel and Power, were down.

LONDON STOCK EXCHANGE.

LONDON, March 23.—Heavy purchases of treasury bills reduced the supply of money today, although the government is releasing funds as quickly as possible. Discounting was steady. The continued Russian successes maintained a cheerful tone on the stock exchange, but the declines were comparatively quiet. Rubber and oil shares were in demand, and Home Ralls were active. Gilt-edged securities and American shares were dull, and railway steady on a light volume of business.

NEWS OF SPECIAL INTEREST TO WOMEN

AMPLE OPPORTUNITY WITH CROCHET HOOK

Girl Who is Clever May Ornament Costumes and Outfitting Hats.

BRIGHT COLORS USED

Smart Effect is Secured by Pretty Embroideries in Silk and Wool.

For the girl who is clever with a crochet hook there is ample opportunity of having a good selection of up-to-the-minute hat and costume trimmings. Wool motifs and colored worked embroideries are to be very much in vogue for street costumes and more especially, sports hats and suits. On models of this type, made from either silk or rough finished cotton fabrics, this wool or silk crochet embroidery work is quite generously used.

Frogs and ornamental fasteners take the place of button-holes, belts are made more modish by bands of straight trimming in "die-giving" colors, and novel "arcs," square blocks and odd medallions are frequently applied on the full sections and hem portions of skirts. Cuffs and collars, too, are brightened with these silk and wool threads, which are practical as well as pretty, for they launder most successfully, and the sports' suit must certainly visit the tub, perhaps more often than any other costume.

In Gay Colors. These trimmings may be worked in quite gay colors, oriental and Norwegian effects being very much in vogue at present, with one-toned designs in blue, orange or green close in the running.

The uses of these embroideries on sports' hats, and even models for tailored wear, are numerous. The "cobweb" is a popular and very effective design. Over a plain straw, linen, or stretched silk hat, boasting a substantial but stylish brim, is stretched a great silky cobweb in gold, bronze, purple, red, or in fact any color which features in the modes this spring. The web usually extends all over the crown and right to the outer edge of the brim, from which points drop tiny silken tassels, to add that touch of novelty so much desired.

THE BEAST MAN. Anyone who wants to see what the Kaiser's men would do in Canada should see "The Battle Cry of Peace," at the Strand.

JUMPED FROM WINDOW FOLLOWING EXPLOSION

C. Doyle Had Ankle Broken Escaping From Fire at Shaw Street Factory.

C. Doyle, 7 North Markham street, had his ankle broken and \$1500 damage done by fire when a break in the feed-pipe of an oil tank caused an explosion at McGregor and McIntyre's structural iron works, 1139 Shaw st., about 10 o'clock yesterday morning. The accident occurred on the second floor. The breaking of the pipe caused the oil to run into the furnace to which it was attached, causing a small explosion and fire. In their hurry to escape, Doyle and a number of employes jumped from the windows. The firemen soon extinguished the blaze. Doyle was taken to the General Hospital.

THEFT IS CHARGED.

Mrs. Annie Gourlay, 286 Weston rd., was arrested by Detective Croome yesterday afternoon on a charge of stealing a silk blouse and other articles of wear from the Robert Simpson Co.

Rich Indian teas blended with flavory Ceylons.

NOTHING NEW IN THE LATEST HAIR FASHIONS

Grandmother Sported the Little Knot in Mid-Victorian Days.

DEPENDS ON THE DRESS

Demure Coiffures Are Worn With Garments of Crinoline Effect.

The newest way to "do" one's hair is really not a new way at all. Grandmother looked very sweet with her hair twisted up in a smooth little knot high on her head, ornamented with a bow of little side curls framing her fresh young face! That was early Victorian. Now it is the approved style for the dance enthusiast of 1916—and, strange to say, it becomes her guest as well as it did the little lady of the past generation, for her frocks are made to match, and, in fact, everything harmonizes. That is the secret! One can't wear quaint curls and dress one's hair in a demure little mode unless she full skirt of the crinoline is plainly suggested and the mid-Victorian shoulder line observed. High coiffures are not the only accepted styles, however, for when the close hat is worn or the demure has features to

"suit" the low coil is often preferred. The hair is brushed smoothly back in a boyish manner off the forehead, the sides are pulled low over the tops of the ears, the long strands are swirled into a simple knot and then given a good pull before the pins are thrust into place—and, lo, the trick is done!

BRANCH ORGANIZED.

Saint Ste. Marie has organized a branch of the Women's Emergency Corps, who will make a house to house canvass for the purpose of registration. They will also communicate with Women's institutes and patriotic societies of the district, with a view to co-operation.

OFFICERS OF AUXILIARY.

The officers of the newly-formed auxiliary of the 198th Battalion, Canadian Buffs, which was formed at the home of Mrs. J. A. Cooper, 18 Glen road, are: President, Mrs. Cooper; vice-president, Mrs. V. E. Henderson; secretary, Miss Jean Blair, 255 Grenadier road; treasurer, Miss Elsie Hocken, 340 Palmerston boulevard.

CELEBRATE ROSE DAY.

Alexandra Rose Day will be celebrated by the Municipal Chapter, I. O. D. E., on Thursday, June 15. Permission for this has been given by the police commissioners, and arrangements are already under way.

INTERESTING ADDRESS ON ORIGIN OF MUSIC

Dr. Currelly Traces the Various Instruments Back to Their Beginning.

SOME VALUABLE MODELS

These Were Shown to Members of Women's Musical Club Who Attended.

Most interesting and instructive was the address given by Dr. Currelly of the Royal Ontario Museum, to the members of the Women's Musical Club, who, on invitation of Mrs. H. D. Warren and Miss Warren, turned out in full strength to visit the wonderful objects of art to be found in the institution, and to carry away with them "know edge not to be found in books," and which, in one instance, spoke through the medium of an old musical instrument picked up three thousand years ago in the tomb of an ancient Egyptian.

The lecture was illustrated by a number of old models once used by primitive man. Music, the lecturer explained, had arisen from the discovery that certain things, when pulled out or pushed in, make a noise. The hunter of bygone ages learned that when he pulled the string of his bow a certain sound was produced. He learned also that the string of his father's bow, which was larger, produced another sound, and that of his son, which was shorter than either, still another. By and by he borrowed several boxes of different lengths, and tying them together, evolved a variety of sounds. From this came the harp now so highly prized, but difficult to account of the fingering of execution. Dr. Currelly stated that he knew of no single Englishman who plays the harp. The principle of the lyre gave the harp a sounding board and the upright form. Modifications of the principles of the harp gave the dulcimer, which came in early, and the piano, the differences consisting for the most part in the manner of treating the strings. Instruments of the horn variety came directly from the horn of the goat or from the ram, and, in fact, of which, when blown into, produces a musical note.

Flute is Very Old.

The flute or whistle, is over 100,000 years old. Its origin is the reed, which found its counterpart in certain bones of the leg of the tortoise, which formed its first case. In the production of the flute it had been discovered that certain sounds came when something was drawn across the string and other sounds from picking the string—hence the guitar. An ancient Greek reed, the only one of its kind in the world today, now a thousand years old, was shown during the lecture. From a collection of reeds—Pan's pipes—largely used today, comes the pipe organ. The drum, largely used in the east, and the bell, were also treated.

The lecture was added to by interesting reminiscences of incidents met by D. Currelly in the east and in Africa. Mrs. George Dickson, president of the Women's Musical Club, expressed the thanks of her organization to the lecturer and to Mrs. and Miss Warren. Tea was served in one of the rooms of the museum, the delightful environment adding zest to the delicacies.

CHAMBERLAIN CHAPTER, I.O.D.E.

Col. Mulqueen, president of the United Empire Loyalists' Association, was the speaker at this week's meeting of the Chamberlain Chapter, I. O. D. E. The subject of the address was the "Progress of the War." Mrs. A. E. Kemp was in the chair.

APPLE BLOSSOM TEA.

Receipts of the patriotic Apple Blossom tea, given by the Misses Helen Murray, Bessie Trotter and Vera Trotter, at the home of Mrs. James Murray, 612 St. Clair avenue, amounted to \$80. Proceeds for Admiral Hood Chapter, I.O.D.E.

INJURIES ARE CLAIMED.

John Hunt is suing the Consumers' Box and Lumber Company in the county court before Judge Denton for \$500 damages and \$388, alleged to be due for wages. Hunt claims that owing to the defective door over which he had to push a truck he sustained severe injuries to his back and legs. The defendants deny any negligence on their part and claim they have paid Hunt all that was due him.

LITTLE THINGS COUNT

Even in a match you should consider the "little things"—the wood, the composition, the strikeability, the flame.

EDDY'S MATCHES

are made of strong, dry pine stems, with a secret perfected composition that guarantees "every match a lighter." Sixty-five years of knowing how—that's the reason. All EDDY products are dependable—always.

DELIGHTFUL PROGRAM AT WOMEN'S ASSOCIATION

Many Well-Known Canadian Writers Attended at Annesley Hall.

Canadian women authors, writers and readers present at the meeting of Victoria Women's Association, in Annesley Hall, made the occasion a delightful one. Mrs. J. W. F. Harrison (Seranus) was introduced by Mrs. Graham, who was in the chair, and selections from the poems of Seranus were read by Mrs. J. W. Garvin. A sketch by Mrs. Sheard, entitled "Shadows," was read by Miss Jean Graham, and songs in French and English by Canadian authors were sung by Mrs. Garvin. Mrs. Blewett read "The Gold of Friendship" from her own writings. A short address was given by the president and votes of thanks by Mrs. W. H. B. Atkins and Miss Skinner.

PROCEEDS OF TEA.

The young women of the Toronto Conservatory of Music residence netted \$70 by their patriotic tea, which is being forwarded to the Red Cross fund.

Does it Pay to Keep Household Accounts?

By ISOBEL BRANDS

TIME and again I hear householders ask, "Does it really pay to keep accounts? You must spend so much on this and that every penny, and it's such a trouble when your accounts are not balanced. What good is it? It can't increase your income."

The business man's husband is the one best qualified to answer. Would he not be able to run his business without keeping accurate records of his expenditures and of course not? He could only guess as to how he spent his money, and if it should happen that his expenses for a month outstripped his income, he would not know where to begin to cut down. Moreover, he would have no guide to further buying, and his experience in buying for the month would be of no value to him.

There are several unquestionable values in keeping accounts. In the first place, it develops habits of careful buying. You watch market prices more carefully, and you compare values of different methods. You are more likely to keep a record of your expenses, and you are more likely to keep a record of your income.

I have before me now a letter from a housewife who is discouraged because she has "spent the entire month's allowance more than a week before the next month is due and she does not know how to take care of the rest of the family for the remainder of the month. She has no record of where the money went, but is sure she has not been extravagant. It is a household account book, especially if its columns are marked by the housewife, with the sums allotted to food, clothing, shelter, light, heat, laundry, etc., is worth the time spent on it, if only for one reason. It keeps before

you a constant check on expenditures, so that you are not suddenly confronted with the disarming fact that you have overstepped your allowance.

And accounts are not difficult to keep, by any means. There is a small book, with columns ruled, so that there is space to enter each day the amount spent for groceries, vegetables, light, laundry, etc., and it costs but 25 cents. In fact, you can take an ordinary ledger notebook and rule it yourself, with columns across, and enter expenses each day on the lines running down the page.

Some prefer the "card system," whereby a separate card is used for each heading, like food, rent and other items. What is a proper sum to be spent on each division depends on the size of income, standards of living, size of family, etc. But a guide to such expenses is furnished by the approved division. (Assuming that the family consists of two adults and two children, and the income is \$1000 a year (approximately \$20 per week), the division should be as follows: Rent, 20 per cent., or \$16 per month; Food, 25 per cent., or \$21 per month; Clothing, 20 per cent., or \$16 per month; Operating expenses (heat, best service, etc.), 15 per cent., or \$12 per month; Advancement (amusement, books, education, charity), 10 per cent., or \$8 per month; Savings, 10 per cent., or \$8 per month.

Of course, where the income is smaller, the percentage to be allotted to food, for example, must be higher, and expenses on other items must be cut. Similarly, where the income is larger, a smaller percentage will be necessary for some items and a larger percentage can be saved.

But the first aid and the great incentive to businesslike management and better saving is—the family account book.

Sturdy Roses Everyone Can Grow

SUCCESS with roses depends on the gardener. If he wants to succeed with them, he can. Most persons, however, who want to grow roses are not willing to pay the price of success. They either make the wrong preparation in the beginning that is essential, nor continue subsequently with the cultivation that roses demand. Both, obviously, are important—one payment to be omitted, the other, for the preparation in the beginning, it is hardly enough to say that it ought to be there. It is more to the point to say that it cannot be too thorough.

When the roses are in the best condition, they are to be excavated to a depth of two feet, spade up the bottom of this excavation, and then return a six-inch layer of the excavated soil, adding to this at least half its bulk in well-rotted manure. On this place a second layer, six inches deep, which has been worked manure in quantity. Fill in the remainder with fresh, rich, heavy loam, bringing the level finally about two inches above the surrounding surface. It will settle in a week or two, and its surrounding surface be slightly below the surrounding surface.

son Rambler, in dwarf form. It attains a height of twenty inches. Anne Mueller is a pink variety, a cross between Crisp Rambler and George Pernet; Catherine Zeinet is a pure white variety, blooming profusely and bearing small clusters of flowers that have the feature, bare of foliage, wanting in bloom, unhealthy, diseased and altogether undesirable. Baby Rambler, the planter does not turn his attention to these splendid roses, ten inches apart, in rich, stiff soil, there is nothing that produces a good size and shape of rose.

The Ramonas or Rugosa roses, too, should find a place in the garden, either if it is businesslike management and better saving is—the family account book.

What to Order

In ordering roses, choice will lie between dormant or potted plants. The former are cheaper, but the latter are more certain results. Another reason for the potted roses lies in the fact that it can be set out at a later date. Then, another choice out of their own roots and those grown on Manetti or briar stock. The roses grafted on Manetti or briar stock are preferred, for, with these, the plants will not be bothered by suckers, and they will be more vigorous. If he has below the ground, however, set out the budded plants, but set the plants so that the surface—neither more nor less.

Choice Sauce for Boiled Cod

Mix two tablespoons of butter with two tablespoons of flour to a smooth paste, add two cups of cold water and cook until thick and smooth; then add a half cup of grated cheese, pepper and salt, and one hard-boiled egg cut in small pieces. Serve in a hot tureen with boiled codfish, or, if desired, the fish and the meat may be placed in the centre of a hot platter, with the sauce may be turned over. Garnish whole garnished with parsley, and sent to the table.

CAT MOTHERS CHICKENS.

ANGOLA, Del.—A cat mothering a flock of young chickens is the curious sight on the farm of Walter Musgrave. Fussy watches over her charges all day and spurs any attempts made by the other chickens to molest them. The chickens were hatched in an incubator. The cat lies down in a sheltered corner, where the chicks hover close to her warm coat.

THE TORONTO WORLD'S GIFT TO Baby Hough

BORN FEB 29th 1916
Leap Year

Produced and Engraved by Kents, Limited, Silversmiths
NOW ON VIEW AT 144 YONGE STREET, TORONTO.

Leap Year Birthday Mug Coupon.

For Mug awarded by The Toronto World for babies born on Feb. 29, 1916.

Address of parents

Name and sex of baby

Date and hour of birth

I hereby declare the above facts are correct.

..... attending physician.

Address

I estimate that babies will be awarded The Toronto World's Birthday Mug.

All coupons must reach The World office by March 21, 1916.

THE CARE OF THE WOUNDED

By Will Nies

"War Fever" the Newest Disease of the Trenches

By DR. L. K. HIRSBERG, A.B., M.A., M.D. (Johns Hopkins)

POOR little chap, he did his best. 'Twas not his fault that the one who sought him so eagerly at first turned on him at last and tried to drive him out. But he did not go. The one who strove to cast him out was the one who went. HE was the one who was not wanted. And so he departed, leaving behind him love and the girl.

He had only succeeded in destroying her love for HIM. He could not vanquish the POWER of love, nor her power TO love. So love remained with her—wounded, 'tis true—but she got out her first-aid-to-the-injured kit, donned her uniform with the HEART on the sleeve, and set to work to make everything right again.

WHEN the nations of Europe fell out and began to make faces at each other and mar with powder and steel one another's beauty, there was a conviction that the only diseases that might lay more men on their backs than bullets were typhoid, typhus, paratyphoid, lockjaw, dysentery, cholera, tuberculosis, tonsillitis, and other infections.

However, a mysterious fever is now striking over the battlefields and its secret and hidden tentacles have gripped the soldiers in the trenches. Insects that carry the germs of typhoid, malaria and typhus fever are in no way the cause of this strange fever of obscure origin, as eminent physicians of the Royal Medical Corps of England call it. Seventy-five per cent. of the victims of this strange fever suffer sharp attacks, accompanied by shivering, dizziness and headaches. Pains in the legs and backaches are nearly always present. There are no "green apple" pains in the abdomen. Nausea and vomiting are also conspicuous by their absence.

Altho the methods employed in the diagnosis of other fevers, such as typhoid, were made by taking blood from the elbow veins and breeding out the causative germs, all the various efforts of bacteriologists have so far been in vain, and the mystery remains unsolved.

It is thought that this new disease is of microbial origin, but the little demons of the dark so far have eluded the most assiduous search of scientists. The fever leaps skyward and then collapses to normal. This jumping-back effect takes place several times before convalescence is established.

This newest or war scourge was first mistaken for "chills," a gripe and similar troubles because of headaches, backaches and leg aches that accompany it. Luckily, however, the disease is uncomplicated by the dangerous complications of influenza and analogous contagions. The heart, lungs, kidneys and other structures, despite the fact that this new fever may last several weeks, usually escape unharmed. There is no skin rash or other conspicuous sign to serve as an indication of its presence. It can, nevertheless, be distinguished after the first few days by the very fact that there is no rash of dengue fever, enlarged spleen of typhoid, sore throat or tonsillitis of diphtheria, or running nose and cough of the grip.

Victims of this strange fever are given a liberal diet, gentle massage, and gentle but particularly to relieve the pain, which treatment, so far, has been very successful.

Daily Care the Real Secret of a Beautiful Complexion

By LUCREZIA BORI

THE WOMAN who is at all observant cannot help noticing how very few of her sex can boast of a perfect complexion. Fifty per cent. have blotches, freckles, mottled skins, a large percentage of the remainder have complexion whose gray, colorless pallor speak of ill-health and lack of fresh air, while others strive to cover their complexion with a coating of artistically applied cosmetics. The latter cases are most pathetic, for each time the abused skin becomes less attractive, the pores will continue to increase in size and the texture of the skin grow more like yellowed parchment. Fussy watches over her charges all day and spurs any attempts made by the other chickens to molest them. The chickens were hatched in an incubator. The cat lies down in a sheltered corner, where the chicks hover close to her warm coat.

pill" today. Only the unvarnished truth will make you realize that you must take care of your skin—from its very beginning. If you desire to preserve its freshness and beauty.

Much skin trouble is due to the fact that the face is not thoroughly cleansed. It is constantly exposed to the dust and grime of the streets while the balance of the body is protected; therefore it should receive triple attention. With clogged pores it is impossible for the skin to be smooth and healthy-looking. You cannot expect anything but a muddy complexion. It is essential to give your skin the proper attention required to make it clean and beautiful if you wish to deny yourself some social pleasure in order to do it.

A Daily Regimen.

Once a day the face should be thoroughly bathed with hot water and a bland cream are also necessary.

I believe it is best to give the skin the thorough cleansing before retiring. One of the roughest complexion habits is to go to bed at night with the face covered with cosmetics. Only one girl out of ten will take the time to wash her face quite clean after coming home from a party or dance. The other nine pile into bed, leaving the face bath until morning. Cleanse the face with a soft cloth. This will remove the hidden dirt from the pores and make the skin quite clean.

Now bathe the face with hot water, followed by baths that are gradually cooled, until the water is very cold. This will contract the pores which have been expanded by the hot water.

If your skin seems to need nourishment apply a coating of skin-food and allow it to remain on all night. Cleanse the skin in the morning to remove any trace of the grease.

Some Special Treatments.

In case that the pores of your skin are enlarged I suggest that you use the following astringent lotion, applying it to the face several times a day with a piece of antiseptic gauze: Rosewater, 2 ounces; elderflower water, 1 ounce; simple tincture of benzoin, ¼ ounce; tannic acid, 5 grains. Discontinue using this lotion for awhile when dryness results.

In case of blackheads, the face should be steamed and treated twice a week. Rub the face with a cleanser cream and wipe it off thoroughly before steaming. The blackheads should be removed immediately after steaming, the face massaged with massage cream for 10 minutes. Remove the grease and bathe the face, rinsing it several times with water that is gradually cooled.

When the skin is brown and requires bleaching apply this preparation: Lactic acid, 2 ounces glycerine, 1 ounce; rose water, ¼ ounce. This bleach acts slowly but well and should be applied with a bit of linen or gauze.

In conjunction with this treatment you must pay strict attention to your diet, refraining from eating rich pastries, gravies, sweets and highly seasoned foods. Also drink plenty of water, and exercise, for a beautiful complexion depends largely upon the condition of the system.

A smooth, clear skin, glowing with health, is one of the finest possessions a woman can have. From now on, exert every effort to preserve and improve its beauty.

Today's Fashion GARDENS BIG and LITTLE

By ALICE LUCILE PECK

IF YOU wish to grow something of use, why not have herbs in the kitchen window? If the kitchen windows are not sunny, or too small, use the dining room for boxes of parsley, peppercorns, chervil and other herbs that do not need a lot of light. At a moment's notice and used to garnish, for a salad, or as seasoning in soups, some garden herbs are particularly adaptable to pot or window box culture; others would fare poorly. Winter or pot marjoram, winter savory, caraway and some others are not particularly practicable. Basil is a very tender annual and does not like to be moved into different conditions, but instead of the garden, it is better to start the plants in the case of sage, tarragon and thyme. Purchase one plant of each—thyme, sage and thyme are evergreen, and thyme has a dwarf and compact growth which makes it very attractive in window boxes. The leaf of tarragon is hot and may be bruised and added to the vinegar for salad dressing.

To have a complete herb garden in the kitchen during the winter you should begin in the early fall, or even spring. But you may start right now. Instead of the house, it is better to start the plants in the case of sage, tarragon and thyme. Purchase one plant of each—thyme, sage and thyme are evergreen, and thyme has a dwarf and compact growth which makes it very attractive in window boxes. The leaf of tarragon is hot and may be bruised and added to the vinegar for salad dressing.

Parsley can be sown at any time in the box where it is to grow, but as the seeds are slow in germinating it is more satisfactory to dig fair-sized plants from the garden in the fall. Then you can pick from them all winter long.

Mint may be dug from the garden in the same way, or a single plant may be purchased. For seasoning get spearmint, not peppermint.

Sweet or summer savory should be started in the fall to make good plants for winter; but they may be started now and still be used in spring.

Peppercorns are a real joy in the kitchen window; it grows quickly and demands a little care as to the soil, possibly covered but do not transplant, it makes a good addition to the winter salad.

None of these plants require special treatment; all will grow in a good garden soil, and have few enemies.

Hints for Poultry Keepers

IT IS advisable to let the "cluck" set on dummy eggs for a few days before putting the good eggs under her. While she is on the dummy eggs watch her habits closely. Remember, every hen is not a good setter.

Dust the setting hen with some good face powder before putting her on the job. A little prevention along this line will save lots of trouble later. If hens are set in a dry place it is well to put some fresh earth in the bottom of the nest.

Do not attempt to put too many eggs under a hen. There are small hens and large ones, and the poultryman must use judgment as to the number of eggs the various hens can cover properly. There is always a temptation to add a few more.

Remember the setting hens need grit same as the other fowls.

Do not overcrowd the brooders. Some manufacturers overestimate the capacity of such devices. A little common sense used in this direction will save many a chick.

Do not put the eggs into the incubator until you are sure the machine is properly regulated.

Buy the best commercial chick feed for the babies. Cheap feed is the dearest in the long run. Many chicks die for want of the proper feeding.

French Veal Souffle

Mix two tablespoons of butter with two tablespoons of flour to a smooth paste; allow one cup of milk to heat, then thicken it with the paste, season it and add to it one cup of minced veal, a teaspoon of chopped parsley and the beaten yolks of two eggs. Mix thoroughly, then remove from the fire and let the mixture cool. When cold, add the stiffly beaten whites of two eggs and fill well-buttered ramekins with the mixture. Bake 15 to 20 minutes.

Net Capes

The newest capes for summer evening wear are made of net. They are shirred about the neck and shoulders, gathered into a fulness which, at the bottom of the cape, measures five yards. The white net capes are edged all around with a fringe of white ostrich feather trimming, headed by a narrow silver galloon, a standing feather collar finishing the neck. The black net capes are made in the same way, trimmed with black feather fringe, headed with gold galloon.

Biennial Bloom

Biennial bloom the second year from seed, then die; the many, if sown early in the spring, will flower the first year.
