Karensky Off To Front Again

Breach in Galician Line is Eight Miles Wide

SOLDIERS WANT STRONG MAN

Demand That All Authority Be Turned Over to Karensky—Why Lvoif Resigned—Stolen Arms are Being Recovered

London, July 22.—(Delayed)—Premier Kerevsky has again started for the front at the instance of the central committee of soldiers' and workmen's delegates, according to a Reuters despatch from Petrograd.

Despatches from Galicia state that the breach in the Russian line is eight miles wide and ten miles deep.

The Bourgeois Gazette says that at a meeting of delegates from regiments at the front it was resolved that it had become imperative to turn all the authority over to M. Kerevsky.

Why Premier Resigned

Petrograd, July 22.—An authorized statement announces that a partial solution of the ministerial crisis was reached at a ministerial council held on Sunday morning.

Prince Lvoif resigned as premier because he was unable to agree with the decision of the provisional government immediately to realize the entire programme of the socialist party. He was opposed to an immediate proclamation of a republic on the ground that it would be a usurpation of the supreme rights of the constituent assembly.

Moreover he declared that he was unable to concur in the ruling of the cabinet that the policy of the government must be decided by the decision of the allied congress of workmen's and soldiers' delegates.

Recovering Stolen Arms

Petrograd, July 22.—The disarming of workmen, including the so-called Red Guards, is proceeding systematically in the Vassily Islands and Viborg quarters.

More than 1,200 rifles and revolvers and some machine guns have been recovered. The majority of revolvers were obtained at the fortress of St. Peter and St. Paul where cases just arrived from America had been broken open.

According to the Russia Volla, about a third of the arms stolen since the outbreak have been accounted for. Several hundred shells were stopped on the banks of the Neva. The military authorities knew nothing of the stolen arms. Drivers were arrested and the cars taken to the arsenal.

Mutiny of Regiment

Petrograd, July 22.—A despatch to the Bourgeois Gazette from Viktor Novgorod reports that on July 17 a regiment of troops ordered disbanded for insubordination, mutinied and took possession of the town. Cadets sent from Moscow to subdue them battled with revolvers resulting in casualties to both sides and the surrender of the mutineers, who at last accounts were held prisoners. A parley with the commander of the Moscow garrison after order had been restored resulted in an agreement to surrender control.

SERIOUS TROUBLE IN VALENCIA, SPAIN

Paris, July 22.—A state of siege has been placed in Valencia, according to official announcement. It was a dispatch from the Spanish capital. The action was taken because of clashes between strikers and gendarmes in which many persons were wounded. The announcement said the troops were cheered by the population of the city.

GREAT IMPROVEMENT IN WHEAT CROP IN FRANCE

Paris, July 22.—The crop report published in the official journal today says there has been great improvement in the wheat crop since the last report, made on June 1.

KAISER SENDS A BIT TO THE SOCIALISTS

London, July 22.—According to the Berlin Vorwaerts, socialists who attended a conference between the emperor and members of the Reichstag on Friday evening were Friedrich Ebert, Philipp Scheidemann, Dr. Edward David and Dr. Albert O. W. Sundeum.

The Vossische Zeitung says this was the first time that the emperor ever met socialist deputies as representatives of the socialist party.

BOY INJURED

A small boy named Lunney met with a painful accident a few days ago while playing in front of his home in Millidge avenue. He was wheeled a hoop and as it ran off the sidewalk he stepped into the road to pick it up and at that moment an automobile came swiftly around the corner, knocking him down and passing over his body. He sustained a long gash on the top of his head and in addition was painfully injured about the body.

Dr. J. T. Dalton dressed the wound. The boy is still under Dr. Dalton's care and is getting along well.

UNLIMITED POWERS TO GOVERNMENT, LED BY KARENSKY, TO RESTORE ORDER

Petrograd, July 22.—The council of soldiers and workmen's delegates and peasants of all Russia voted today, after an all-night session, to grant the government of Premier Kerevsky "unlimited powers" under the title "Government of National Safety" for the re-establishment of public order, both at the front and at home.

Germans in Violent Attacks on the Asine Front

GET INTO THE FRONT LINE

French Dialogue Them in Part Near Craonne and Stand Firm at Calonne Plateau—Germans Won Trench in Recent Fighting Only to be Caught in a Trap

Paris, July 22.—Continuing their violent attacks on the Asine front, the Germans last night stormed French trenches on the Casemates Plateau. On the Corbion Plateau, the French maintained their supporting trenches. The statement follows:

"German attacks, accompanied by violent bombardments continued last night on the plateau in front of Craonne and the Casemates plateau, and in new efforts of extreme violence, succeeded in penetrating our first line. On the Calonne Plateau the fighting was not ended until late at night. In spite of all our efforts the Germans were unable to dislodge us from the plateau. Our troops repulsed all attacks directed upon our supporting trench, which we occupy in its entirety.

There was intermittent cannonading at various points on the front.

New Plans to Solve Food Problem Here

Controller, Federal and Provincial Governments and Public Organizations to Co-operate

OTTAWA, July 18.—The collective food experience of the dominion is to be employed to solve the food problem and secure essential food supplies for Great Britain and the allied armies and nations, according to official announcement today. There is to be the closest possible co-operation among the food controller's office, the federal and provincial governments, and national and local organizations of a public character. The basis of organization of the food controller's office provides for the creation of six departments to deal with various phases of the food problem.

There will be a central advisory committee composed of representatives of the government, the churches, labor organizations, educational departments and institutions, urban interests, farmers, rural municipalities and men's and women's organizations. The central body will advise the departments through the food controller.

Provincial machinery is to be established through the creation of special provincial committees to advise upon plans prepared by the departments and approved by the food controller. Each provincial committee will include in its personal representatives of the government, the churches, schools, farmers, laborers, urban and rural districts, and men and women's associations. In addition, special committees representing producers, manufacturers, handlers and consumers of food products will be appointed to investigate and formulate plans for action on individual problems dealt with by the departments. Action already has been taken in this regard by the creation of the food consumption control committee and the fish committee.

The interior organizations of the food controller's office will include: Food saving department, food industries department, food distribution department, information and statistics department, business and office department, educational department.

The local detective department were exceptionally busy over the week-end, rounding up petty juvenile offenders. This morning in the juvenile court, with Magistrate Ritchie presiding, seven boys ranging in age from fourteen to seventeen years were charged with thefts and also with breaking and entering.

These boys answered the charge of not giving a satisfactory account of themselves to Detectives Duncan and Biddiscombe and Police Constable Gibb. They were charged with breaking and entering the restaurant in Charlotte. They said that they were in the building and stayed there all Saturday night but that they had not broken in as they found the door open and that they did not do so.

Four other younger lads pleaded guilty to theft of several boxes of strawberries from the shop door of Walter Logan in Main street and from the rear of Bond's restaurant in Charlotte. They said that they were all implicated.

Three of the boys were represented by their parents. Pointing to one of the boys as his mother stood behind him the magistrate said to the mother: "You are standing behind one of the worst boys in the city of St. John and the mother is to blame. If I can find any evidence to connect the mother I will send her to Dorchester. This boy has been here again and again and I am determined to punish the parents."

The magistrate fined the parents \$20 and ordered the lads to be taken to the cells until the money was paid.

Defences Against Air Raiders Prove Better

THEY SEEK TO DISCOURAGE THE SOLDIERS

Revolutionary Elements in France are at Work

DISCUSSION IN SENATE

M. Clemenceau Criticizes Minister for Not Taking Proper Measures—Premier Ribot Closes Debate With Staring Speech

Paris, July 22.—Revolutionary elements have been engaged in propaganda in France to discourage soldiers, and develop a demand for premature peace, according to Senator Clemenceau, who at a meeting of the upper house of parliament yesterday vigorously attacked M. Ribot, minister of the interior, accusing him of neglecting to take necessary measures against these persons.

M. Clemenceau asserted that these revolutionists had preached the organization, in France, of a soldiers' and workmen's committee similar to that in Russia. He attributed rare manifestations of discontent to that propaganda and asked why measures had not been taken to suppress it.

M. Ribot replied that he had followed the policy of maintaining the so-called sacred union since the beginning of the war and held that if that policy did not offer more leads of culpability it was nevertheless effective. He said the police were ordered to pursue every illicit criminal enterprise, but he did not think the senate wanted him to take a hostile attitude toward the working class.

Premier Ribot closed the debate with an ardent defense of M. Ribot. He said the organization of workmen could not be held responsible for the action of anti-patriots who slipped in among them.

"We are in the presence of a campaign of perjury which must not be misunderstood," cried M. Ribot. "Germany has need of peace and she wants to obtain it by no matter what means. She has the hypocrisy to say that she will make every effort to obtain an accord between all nations through an inquiry, of which the while on the eve of the war she refused all arbitration."

The entire senate applauded and M. Ribot of course was convinced that the organization of workmen could not be founded on militarism. It would be a perpetual menace and the league of nations would be made to make this menace disappear will not be dissolved unless Germany abandons the ideas of anti-patriotism and servitude imposed on other nations."

FIX PRICES FOR CEREAL CROPS IN ENGLAND FOR SOME YEARS

Government Attaches Importance to Bill and is Calling Supporters For Divisions

London, July 22.—The importance that the government attaches to the debate on the corn production bill, which proposed to pay fixed prices to farmers for cereal crops for some years after the war, is shown in a statement by the government, wherein the requisit of supporters to attend is trebly underlined and a division on the minimum wage of \$6.25 a week it is proposed to pay farm laborers, is declared vital.

Supporters and opponents of the measure both profess to believe that the dangers will be averted.

GERMANY HAS TROUBLE NOW WITH HER SHIPBUILDERS

Copenhagen, July 22.—A strike agitation has begun among workmen in the shipbuilding industry, particularly metal workers at Hamburg. They demand a reduction of working hours to fifty-two weekly and an increase of fifty per cent in wages. Women workers also have formulated demands.

The movement is due largely to the increased cost of necessities, but radical socialist agitators also are playing a part.

Believe Another German Raider Out

An Atlantic Port, July 22.—The presence of a strange vessel believed to be a German raider, due west from the Spanish coast and two-thirds of the way across the Atlantic from Europe, was reported by a British freight steamship which escaped from the unidentified craft and arrived here yesterday.

Officers of the British vessel described the stranger as burg rigged, with four masts, and a smokestack rising between the main and mizen masts. She was steering northwest at seven knots when sighted early on July 14. She bore down on the freighter, but the latter outdistanced the supposed raider after a brief chase.

SWEDEN SEIZES CROPS

Stockholm, July 22.—The Swedish government has expropriated growing crops of all cereals, legumes and sugar beets. It has also ordered expropriated all stocks of these which may be on hand on September 1 from the 1916 crops with the exception of limited quantities in private households.

HEIRS GET UNEXPECTED CASH

Chicago, July 22.—Two million and fifty thousand dollars distributed in six Chicago banks have been added to the known fortune of the late John K. Stearns, manufacturer of automobile accessories.

Existence of this money was unknown to the heirs, daughters, 5 and 15 years old, respectively, or their guardian until it was revealed in the probate court.

LOANS FOR AUSTRALIANS

Government Will Protect Its Soldiers. Australia will lend \$10,000,000 to soldiers returned from the war, under the repatriation plan announced by Senator Edward D. Millen, minister in charge of repatriation.

The national government accepts the full responsibility of securing to every returned soldier the opportunity of livelihood by providing avenues of civil employment. Soldier settlers on land may secure advance for improvements up to \$2,000 each. Repatriation work in connection with returned men will be undertaken upon arrival and not, as present, upon discharge from the military forces.

(The work of repatriation will be controlled by the government, but administered by a board of trustees of whom a minister of the crown shall be chairman. Local committees will be established for the encouragement of local soldiers. A special branch will deal with the provision of artificial limbs.)

Permanently maimed soldiers will be afforded every opportunity to supplement their pensions by establishment of specially equipped workshops. Some form of "reserve" employment will be found to tide over the period between military discharge and the obtaining of the particular employment desired by individual soldiers.

BOTH TRACKS UP

In order to renew the stop-cock on the Prince William street water main, which is now being replaced by a larger pipe, it was necessary to take up the second track in that street on Saturday afternoon. Until the tracks were replaced on Sunday evening the street car service, which has been carried over one line while the other was torn up, was interrupted and passengers had to make the transfer around the excavation.

In King street, the New Brunswick Power Company is rushing the repairs to paving which they had taken up to renew their rails. The granite pavers have been working night and day and expect to have the work completed by Tuesday evening.

MR. SCAMMELL HERE

E. H. Scammell, secretary of the Military Hospitals Commission, arrived in the city this morning. He was in Halifax to meet his son, who returned from England. Mr. Scammell will leave this evening for Ottawa. When asked in regard to the armory, he said that when he left Ottawa the understanding was that the commission intended holding it. The new government house at Fredericton was to be renovated immediately for the occupation of about 125 patients.

A JOINT LUNCHEON

President Garter of the Rotary Club and President Skinner of the Retail Merchants' Association looked down the tables upon more than a hundred members of the two organizations at lunch together today. The speaker was Mr. Beaudry, treasurer of the Dominion Association, who delivered a very able address on production, transportation and distribution, dwelling especially upon the last named and the present warfare between the rival theories of central distribution and that through the medium of wholesale and retail houses.

FATHER O'NEIL THANKS HIS PEOPLE

In St. Patrick's church, Golden Grove, yesterday morning, Rev. A. J. O'Neill took occasion to return his hearty thanks to the parishioners for their part in so kindly remembering him on the twenty-fifth anniversary of his ordination to the priesthood. Father O'Neill spoke feelingly to the large congregation and said that the greatest gift and consolation that he today cherished was the knowledge that he possessed in so small

A. G. McIntyre, formerly manager of the Bathurst Pulp & Paper Company, is in the city. He is now conducting a campaign on behalf of the American Newspaper Publishers' Association to fight the alleged paper trust.

It has been arranged that the Cathedral Sunday school picnic will be held at Torriburn as usual this year, except that it will be later than usual, being on August 15.

In St. John the Baptist church at both masses yesterday the pastor, Rev. F. J. McMurray, made feeling references to the deaths of Private Fred Breen, who died as the result of wounds in France and of Pilot Robert Doherty who, it is believed, was drowned in the harbor. He also asked the prayers of the congregation.

While playing baseball at St. Peter's grounds Saturday afternoon, Thomas Gonnell, aged 15, collided with another player and fractured his right leg at the ankle. Dr. J. T. Dalton was summoned and ordered that the boy be removed to the St. John Infirmary. Dr. W. W. White and Dr. Broderick were summoned in consultation, and Dr. Broderick is now in attendance. The injured lad is a son of James Gonnell, 104 Harrison street.

Rev. A. D. Archibald, M.A., of Picton (N. S.), who is visiting in the city, preached at both services at St. David's church yesterday. St. Andrew's church yesterday. Rev. Neil Leckie, of Galt (Ont.), again preached at both the morning and evening services. Rev. A. D. McKenzie, M.A., of Montreal, preached at both the morning and evening services at Knox church yesterday. Rev. George R. Baker, of Worcester (Mass.), preached at both services at Central Baptist church.

RECENT DEATHS

Dr. T. D. Walker

Thomas Dyon Walker, M.D., one of the leading physicians and surgeons of the city, passed away on Sunday afternoon at the Massachusetts General Hospital where he had gone only last Tuesday for treatment. The news was received with profound regret throughout the city. In his profession he had won an enviable reputation and as a citizen he had shown a public spirited interest in the welfare of the community. Notwithstanding the calls of a large practice, he gave freely of his time in attendance at the hospital and in the service of the needy and his death will be sincerely mourned by friends in every walk of life. A man of high character and of engaging personality, he was held in the highest esteem throughout the city and in his death the community suffers a great loss.

Although Dr. Walker has been ailing for several years few knew that his condition was immediately serious and the news came as a great shock to the members of his family. He was fifty years of age.

He was the son of Doctor and Mrs. Thomas Walker of this city. He received his early education at the Royal College and completed his studies at U. N. B. in 1887. Early in life he evinced a strong desire to follow the profession of his father and when in 1891 he graduated in medicine from Edinburgh University he was counted among the most brilliant students of that well known institution. He also took his post-graduate course at Edinburgh and attended many clinics at American hospitals and in Montreal.

In his profession he was among the

most eager to keep abreast of the times in his work and to follow closely and studiously every important advance in medicine and surgery.

On completing his course at Edinburgh he practiced for a few months in the north of England. He began his practice in the city of St. John in 1895.

A member of the visiting staff of the General Public Hospital for some time, many persons who were patients there, learned of his skill and his kindly manner. He has also held office on several occasions in the New Brunswick Medical Association. He is a past president of the St. John Canadian Club and a prominent member of the F. and A. M. Lodge.

When the 8th Field Ambulance Corps was first organized in St. John a considerable number of years ago, Dr. Walker took a deep interest in the work of the unit and became a member of the staff, continuing his connection with the corps until he attained the rank of lieutenant-colonel. It had been a great disappointment to him that ill-health prevented his taking a more active role when war was declared but last year he served as consultant in the hospital at the Aldershot training camp.

A member of a family first in its profession for the public good, Dr. Walker was no exception to the rule and in matters of public health he was always in the van using every effort to advance the cause. For several years he has spent his winters in Cuba, California and the Southern States.

He is survived by his parents, three sisters and three brothers: Miss Alice Walker at home, Lieutenant Francis Walker of No. 9 Overseas Heavy Siege Battery here, Mrs. Samuel Lord of Milton (Mass.), Mrs. Calvin Lord of Christchurch (N. Z.), Dr. William Dacre Walker of Andover (Mass.), and Edward Blake Walker, of Canadian Bank of Commerce, Shelburne (N.S.).

The body will be brought to St. John for interment and the funeral will take place on Tuesday afternoon at 3 o'clock from St. Paul's (Valley) church.

Mrs. Edward Burrell.

Friends in St. John as well as in Kings County and at the St. Croix border will be sorry to learn of the death of Mrs. Elizabeth Burrell, widow of Edward Burrell, which occurred on Saturday in Bangor, where she had made her home for some years. She had been an invalid for a long time, but always patient under her affliction. Mrs. Burrell was a native of Kings county and for some time lived in St. John. She is survived by three sons, William, Frank, and Roy, all living in Bangor, and by two brothers, Norman Sedgewick, of Melrose, and J. Ross Sedgewick, of St. Stephen. The body was to be taken to Calais today and buried in the Calais cemetery and the Maine Central depot. Venerable Archdeacon Newnam was to officiate.

his nephew, Homer Cummings, aged thirteen years, had been drowned at Chedoke, Alta. The lad was a son of John B. Cummings, formerly of Lewisville.

A pleasant evening was spent in the lodge room of No. 29, L. O. L., at Lewisville on Saturday night, the occasion being a presentation to John Ferguson, who has enlisted with the Forestry Battalion at Sussex, Wallace Galtbraith, W. M. of the lodge, presided. A programme, consisting of songs and recitations was carried out, after which refreshments were served.

A doctor attended an old lady from Scotland who had caught a severe cold. "Did you tooth chatter when you felt the chill coming over you?" asked the doctor.

"I didn't know, doctor; they were lying on the table!" was the pleasant reply.

Inflamed Eyelids

H EAT and fullness of the lids, feelings as though there were sand in the eyes—these are the symptoms of inflammation and granulation of the eyelids. Besides the discomfort and suffering there is danger of the sight being permanently injured by the scraping of the granules across the surface of the eye.

By its soothing influence Dr. Chase's Ointment allays the inflammation, and by its lubricating effects keeps the lids soft, and thereby removes the friction which causes irritation. Relief is obtained at once, and with a little patient use of this ointment complete cure is effected.

REAL PATRIOTISM

He will be the truest Canadian who in this crisis in national affairs recognizes that there are diverse elements in the national life, causing inevitable differences of opinion; and that the future welfare of the country calls for a harmonizing rather than an accentuation of those differences. It would be very easy to influence passions that would not easily be subdued. Whoever attempts to do that for political purposes is guilty of a crime against Canada. The real patriot in Quebec who tells the French-Canadian they should assert their independence of the rest of Canada is no whit more dangerous than the English-speaking nationalist who declares that Quebec must be crushed. We are English and French in Canada, and English and French we shall remain, with such gradual variation as may be brought about by immigration from other countries. We are Protestant and Catholic in Canada, and Protestant and Catholic we shall remain, though religious evolution will tone down the old appetites and remove the old prejudices. The true patriot will recognize these facts and seek to avoid and prevent such a course as would bring strife where harmony should prevail. Nothing is easier than to arouse passion by playing upon prejudice, and there has been quite too much of that sort of thing in past political campaigns. Consideration of the possibilities of such a course at present should give pause to the partisan. The country is about to enter upon a political contest of unusual significance. It should not be complicated by appeals to race and religion, by setting east against west, or by charges of disloyalty. Having regard to the future, the campaign, however keen, should be conducted on broad lines, for the people are to go on living together after it is over. It may be necessary before we are well out of our present trouble to suppress some noisy gentlemen whose sinister designs are only too apparent; but they should be dealt with individually, and no class or party held responsible for their conduct; for they have no large following. It was feared when the United States went into the war that certain large elements in the population of the country would give a great deal of trouble; but nothing of the kind happened. The government took a firm grip of the situation, but a few people here and there behind the bars, and now the hostile element is so extremely circumspect that we hear very little about it. The like will be true in Canada when we have a government big enough for its task. In the meantime patriotic militant who have strong convictions should give them firm but moderate expression, realizing that Canada is bigger than any party or any class, and that the aim of all should be to bring the country through this critical period with a legacy of bitterness and strife for those who come after us. There is a great temptation in political campaigns to regard any club as good enough, but that is the German way, and we in Canada should avoid it altogether. There are people who believe the Borden government is a good government. There are others who regard it as hopelessly incompetent, or worse. There are people who believe in conscription, and others who do not. There is a very small but noisy group which asserts that Canada has sent enough men to the front. Let the issues be fought out fairly, with a full sense of responsibility toward the Canada of the future as well as of the present. The great mass of the people desire that the full strength of Canada be thrown into the war, but there are differences of opinion as to how this can best be accomplished. Those who are really disloyal are so few as to make it a political crime to bandy charges of disloyalty in the struggle of parties for supremacy. There are so many Canadian graves in France, representing different political parties in this country, that the politician who flings the charge of disloyalty at his opponents on the public platform will run some personal risk. He will, moreover, be open to the suspicion that he is subordinating patriotism to the meanest and most dangerous kind of partisanship.

DR. T. DYSON WALKER.

Not only the medical profession but the city and province have sustained a loss in the passing of Dr. T. Dyson Walker. He will be deeply mourned by those who have been among his patients in years past, but his fine public spirit brought other friendships and esteem. For several years he has himself fought a stern battle against ill-health, which compelled him to seek in winter a climate less severe. When his health permitted, though his profession was always his first consideration, he took a notably intelligent and active interest in public affairs, as his honored father has done through a long life. Few men have taken so much pains to keep abreast of new discoveries and modes of treatment in the medical profession as Dr. T. Dyson Walker, and whenever he visited one of the great centres he sought and gained some fresh knowledge of advantage to patients in his own province.

He has always been an earnest advocate of better hospital accommodation in St. John, contending that in the interests of the public health a large expenditure was fully justified. A man who greatly enjoyed life, of keen intellectual power, travelled and well-read, an always interesting conversationalist, a man of the most charitable instincts, and a true and valued friend to many people, he has gone to his rest sincerely mourned. Behind a certain brusqueness of exterior there lay a heart of gold.

IS THIS CORRECT?

According to Saturday Night, of Toronto, the conscription act will bear heavily on the maritime provinces as well as Quebec. Referring to the need of one hundred thousand men to be trained and ready for service within seven months, in order to keep the existing Canadian divisions in the field, it says:—

"Obviously we will not look to the western provinces to give very many. In British Columbia, for instance, it is calculated that one-fourth of the male population, eliminating the ten per cent of Orientals, is already in the field. That is, one quarter of the males of all ages have gone overseas. It is evident that nothing more should be asked of them. In Manitoba, Saskatchewan and Alberta the proportion of men at the front, while not so high, is still over the quota asked on the basis of half a million men. In Ontario a few will be picked up here and there, but this providing given well over its quota. It would appear, therefore, that it is up to the maritime provinces and Quebec to dig up their slackers and fill the ranks."

That is to say, these provinces and Quebec would be the first to feel the effects of conscription, and only in the event of a second hundred thousand men being needed would Ontario contribute. Does this explain the eagerness of some western men for conscription? And is Saturday Night correct in its summary of the situation as between the provinces?

The ringing answer of Premier Lloyd-George to the speech of the new German Chancellor once more emphasizes the firm determination of the Allies to free the world from the curse of Prussian militarism, no matter how long the struggle may endure. Dealing with the submarine warfare he points out that "gradually but surely we are increasing our production and diminishing our losses at sea." The prime minister made this other significant announcement:—"So far from our starving, owing to the exertions made by the food controller and the shipping controller during the last few months our food supply for 1917-18 has already been secured, subject, of course, to reasonable economy."

The news from Russia is disquieting, but we cannot believe that the Germans will be permitted to drive back the Russian armies over an extended area. The integrity as well as the honor of Russia is at stake. On the western front, at all events, the situation remains favorable for the Allies.

The new German Chancellor is whistling to keep up the courage of the people. There is nothing in the military situation anywhere to justify German hopes of victory, and the submarine cannot starve the Allies into a frame of mind that would bring about peace on German terms.

By seeking to get a coalition Sir Robert Borden confesses that his government is utterly inefficient. He should have made that confession nearly three years ago. It would not have been disputed then, as it is not disputed now.

Controller Hanna suggests two meatless days each week. Because of the high cost of living there are already more than two meatless days in many homes.

Another German air-raid has brought the British people nearer to a decision to make reprisals. In what other way can a tiger-nation be impressed than by reprisals?

The hay season practically opens this week, and the farmers are hoping for better weather than has prevailed for weeks past.

This ought to be a fairly interesting week at Ottawa.

WAITING FOR HER.

(From the Atlanta Constitution.) I know why the mockingbird is singing at his best. And why the south wind whispers. And the roses cannot rest. "Some one's coming!" All the violets know. All the world is sweeter. And her smile has made it so!

Down a rosy pathway Where woodland voices call; Through a lane of blossoms, The brightest bloom of all. "Some one's coming!" The groves—the gardens know. All the world is brighter, For her smile has made it so.

LIGHTER VEIN.

"You don't dissipate, do you?" asked the physician, as he made ready for the tests. "Not a fast liver, or anything of that sort?" The little bespectacled man hesitated a moment, looked a bit frightened, then replied in a small piping voice: "I sometimes throw a little gum."

A small meek country negro, who had always lived on one place near Frankfort, Kentucky, married a big domineering woman, and very soon afterwards moved into town, where the keeper of the local bar met him in the street.

"Hello, Gabe," he said, "what made you move to town? I thought you liked country life?" "Well, Missus Franklin," explained Gabe, "I ust lak de country. But mah wife she didn't lak it—and I've done got so now dat when she don't lak a thing I jest natchally hater it."

Perhaps the briefest funeral oration ever delivered was that of an old negro of Mississippi over the body of another of his race who had borne a very bad reputation. Lifting his hat and looking down upon the coffin, the old fellow said in solemn, funeral tones: "Sam Vaser, yo' is gone. We hopes yo' is gone whar we expects yo' hain't."

Picnic In Aid Of The Veterans At Grand Bay

Fully 2,000 people attended the Picnic, which was held on the Crescent Grove picnic grounds at Grand Bay on Saturday afternoon and evening. The circus was in aid of the war veterans and the returned men were out in full force. The trains for the affair left St. John at 1:10, 3:10 and 6:10 and each train was filled to its full capacity. Automobiles at the fair were very much in evidence and it is doubtful whether or not ever before were there so many cars lined up at a picnic in New Brunswick. The attractions included the wheel of fortune, the shooting gallery, the babies on the blocks, and in all the pile was one of the finest ever seen in St. John or the vicinity.

Although the complete returns are not yet in, it is thought that the gross receipts of the circus will amount to about \$2,500, \$500 of which will go towards expenses. The announcement of the winners of the grand lottery will be made later, after the drawings have been held. The picnic was promoted and organized by Louis Leclachur and Robert Anderson, two of the returned men, and in carrying out the plans they were assisted by R. H. L. Skinner, Harry Trifits and G. B. Cronwell, who managed affairs at the grounds. The men of the locality came forward in the afternoon and evening, and were placed in charge of booths and the ladies of Grand Bay and Pansenville followed to the refreshments and made preparations for supper, of which no less than 1,400 partook.

The books were in charge of the following persons: Whoopla, Herman Thorne; chocolate wheel, Arthur Dinmore; doll wheel, Roy Crawford; soft

London, July 22—A British advance near Monchy-Le-Preux is announced by the war office.

Russians Retreat

Petrograd, July 21—A further retreat has been made by the Russians in East Galicia, the war office announces, because the troops did not show the neces-

sary stability and at points did not full commands. Towards evening the Russians paused on the line Renov-Hlatki-Pokrupna-Vybudow. Fighting was begun yesterday on the Roumanian front. Austro-German troops made an attack which was met by a Roumanian counter attack. The Roumanians drove back the enemy and restored the situation.

The Navy's Brand of Efficiency

Covers everything afloat, from manoeuvring battle-cruisers, training great guns, and spotting "subs" to keeping brass-work "bright", decks spotless and faces clean-shaven. The naval life, with its training and traditions, develops men who are never satisfied with equipment that "will do", but only with that which will do best.

In this atmosphere the Gillette Safety Razor most emphatically "makes good". Always keen—always ready for instant action—swift and workmanlike—the Gillette commands the respect of the most exacting naval man, and the affection which every real man feels for a good tool.

The man ashore who shares the clean-cut efficiency of the Navy is equally enthusiastic over the Gillette Safety Razor—or will be the morning he tries it first. He will realize then what comfort and genuine satisfaction a man can get out of a three-minute Gillette shave!

These are days when no man should waste unnecessary time or money over shaving, particularly when so quick, so clean and so smooth a shave waits at home for every owner of a Gillette. If you are not already one of them, join their ranks to-day!

OPERA HOUSE BILL A MERITORIOUS ONE

Large Audiences Enjoy New Programme of Bright Vaudeville and Picture Feature

The vaudeville bill in the Opera House this week is as usual, both catchy and entertaining, although perhaps not quite as much diversified as in some weeks. There is an abundance of dancing, and those who care for this style of vaudeville will enjoy some of the most difficult and graceful steps ever attempted on a local stage. The singing by the various participants is good and tuneful and was greatly appreciated at the four performances on Saturday.

Norton and Earle, singers and dancers are unusually good. They have a wide range of steps, both old and new, which are graceful and pleasing and their act is bright and has a good swing from start to finish. The female member of the act wears beautiful costumes which evoked much favorable comment from the ladies in attendance.

Douglas and Frazer in "Just Girls," were pleasing and made quite a hit. The rendition of Joan D'Arc by one of the girls was good and she received hearty applause. Their singing was also good and the act is both bright and pleasing.

Cecile and Francois in a miniature dance review did well. Their imitation of the spiral and the fly was new and was well received by an appreciative audience. The continuing in this act was also pretty and attractive.

J. Forrest Thompson, in a singing and instrumental novelty, made a decided hit. The way he tickled the ivories was a revelation. He played one tune with his right hand, another with his left and to make a regular trio he sang a different song. His performance on the flute was equally good.

Horton and Johnson were the two stars of the performance. Their work on the mat and spring evoked well merited applause and also afforded considerable amusement. The title of the act is "Fun in a Chinese Laundry," and it proved to be an appropriate one.

The episode of Giotto's Romance this week is really good, being both gripping and interesting. Billie Burke is featured in this. On the whole, the programme is good and worthy of the usual large patronage.

CANADIAN SOLDIER'S LETTER

Says Dr. Cassell's Tablets Have Kept Him Fit Through Two Wars.

Sapper A. Hartley, of the A Company, Canadian Engineers, whose home address is 906 Trafalgar street, London, Ontario, is one of many who have written in praise of Dr. Cassell's Tablets. He says: "As a constant user of Dr. Cassell's Tablets, I would like to add my testimony to their value. I used them when I was in the South African War, and, finding the benefit of them there, have taken them since whenever I felt run down. I always recommend them, for I know that they do all that is claimed for them. In my opinion they are the best tonic anyone can take for loss of appetite, poorness of the blood, or general weakness of the system."

A free sample of Dr. Cassell's Tablets will be sent to you on receipt of 5 cents for mailing and packing. Address: Harold F. Ritchie & Co., Ltd., McGill St., Toronto.

Dr. Cassell's Tablets are the surest home remedy for Dyspepsia, Kidney trouble, Sleeplessness, Anemia, Nervousness, Nerve Paralysis, Fatigues, and Weakness in Children. Specially valuable for nursing mothers and during the critical periods of life. Sold by druggists and storekeepers throughout Canada. Prices: One tube, 50 cents; six tubes for the price of five. Beware of imitations said to contain hypophosphites. The composition of Dr. Cassell's Tablets is known only to the proprietors, and no imitation can ever be the same.

Apologies of the recent decision of the French authorities to increase the pay of the French soldier serving in the trenches from twenty-five centimes to one franc a day, a story is recalled. In October, 1915, the French soldiers' pay was raised from five centimes a day to twenty-five, and a poll, on being asked how he liked his raise, replied simply: "I don't like it much, people will now call us mercenaries."—Argonaut.

BROKEN DOWN IN HEALTH

Woman Tells How \$5 Worth of Pinkham's Compound Made Her Well.

"Lima, Ohio. — 'I was all broken down in health from a displacement. One of my lady friends came to see me and she advised me to commence taking Lydia E. Pinkham's Vegetable Compound and to use Lydia E. Pinkham's Sanative Wash. I began taking your remedies and took \$5.00 worth and in two months was a well woman after three doctors said I never would stand up straight again. I was a midwife for seven years and I recommended the Vegetable Compound to every woman to take before birth and afterwards, and they all got along so nicely that it surely is a godsend to suffering women. If women wish to write to me I will be delighted to answer them.' — Mrs. Josephine Morris, 342 E. North St., Lima, Ohio.

Women who suffer from displacements, weakness, irregularities, nervousness, backache, or bearing-down pains, need the tonic properties of the roots and herbs contained in Lydia E. Pinkham's Vegetable Compound.

Gibson's Comeback Almost as Striking As Wagner's Was

New York, July 20.—"They never come back," is a phrase that applies only with reverse English to the performance of George Gibson and Hans Wagner, two surviving members of one of the National League's most famous pennant winners. Both, after having been voted out of the game, are back there, and are back there with such a vengeance that they have rooted youngsters out of the lineup. Gibson's comeback has delayed somewhat more than Wagner's. Hans was playing regularly for the Pirates, while Gibson was still doing bench work for the Giants. The need of a catcher to help Bill Hardan and the unwillingness of McGraw to use Ernie Kreiger, a youngster, in the important games the Giants were then playing brought Gibson back to the box score.

Gibson was turned out of the Pirates fold almost a year ago by Jimmy Callahan. Under the rules of baseball he was entitled to an unconditional release, but McGraw refused to waive and Gibson was sent to New York. For a time he refused to report, but differences were patched up last spring. Gibson is 37 years old now—an old man as baseball players are rated. He began playing baseball in 1903 with the Kingston Club of the famous old Hudson River League—an organization that took in towns along the river, and where the players were supposed to make the league as best they could.

Then Gibson got into the old Eastern League, now the International League, and did service with Buffalo. He played only twelve games and amassed a batting average of .287. He was dropped by Buffalo, however, and Montreal took him on. He took part in eighty games in 1904 and batted .204. Two years later he was in Montreal and then he was purchased by Pittsburgh, where he stayed until last summer.

Gibson was a regular almost to the last day of his engagement with the Pirates. One year he caught 150 games and that was the Pirates' big year of 1909, when they defeated Detroit in the world's series.

Chilcoat May Not Start In M. & M.
Wrenched His Hind Leg When Forced Over a Harrow

It is doubtful if Chilcoat, a fast trotter owned by C. A. Burns of Toronto will be a starter in the M. & M. stake at Detroit this week. Chilcoat met with an accident at North Randall on July 6. He reared at Cleveland since and made a very creditable showing despite the fact that he was lame. In the first heat he led until within ten feet of the wire, and finished second in 2:08½, but on account of swelling in the stretch was put back to third position. The time of the heat was 2:06½. The accident that happened to Chilcoat was similar to the one that put the veteran Ed Geers in the hospital last year at the same track. On this day Nat Ray had worked Chilcoat a mile in 2:07½, with the last half in 1:02 and the last quarter in 30½ seconds. He was working out another heat when the harrows were on the track. He turned out to avoid them, but other horses working the wrong way of the track came along, and Nat was forced to drive right over the harrows. The result was that Chilcoat gave his hind leg a bad wrench, while the spectators say it is a wonder that both the driver and horse were not killed. Since that time until this week Nat has not worked him, as he was anxious to give the horse all the rest possible. It is understood that his owner is thinking seriously of scratching him out of the M. & M. until he rounds to. Before the accident Mr. Burns was asked to put a price on Chilcoat by sev-

SAFETY FIRST!
This is the safe store to get your ammunition before you start. Preparedness makes success.
The whole pleasure and advantages of your trip may hinge on such a little thing as your personal appearance. For the journey, nothing so good as our gray tweed (\$20), because it fails to show the dust. And how about a rain-coat at \$12.50?

real horsemen, one of them being Tom-
my Murphy, the great driver. The local
man, who always likes to, and has win-
ners, refused to part with the horse, and
it is rather hard luck on his part that
misfortune should set in so early in the
season.
According to the veteran Ed Geers,
who has been at North Randall all
spring, Chilcoat is the fastest son that
the great sire San Francisco ever had,
while he was thought so highly of at
Cleveland this week, despite the ac-
cident, that he sold favorite in the pools
at \$200 to \$80.

AMPLIFIER FOR TELEPHONE
IS USEFUL ACCESSORY
For the telephone user in a noisy of-
fice, a sound amplifier of compact and
convenient form has been introduced, as
illustrated in the August Popular Me-
chanics Magazine. It is particularly
suited for the person who receives many
important toll calls, since in addition to
magnifying the vibrations, it excludes
foreign noises. The device consists of
a small resonator to which an adjust-
able branched ear tube, such as is em-
ployed with a stethoscope, is attached.
In use, the receiver is placed on top of
the amplifier.

SUMMER CLEAN-UP SALE

Here's the Great Shoe opportunity of the season. Tomorrow we will start our "Summer Clean-Up Sale." If you have ever bought Shoes at any of our previous Sales, you certainly have been waiting for this announcement—the chance to save your Shoe money by spending it.

IT'S OUR SUMMER CLEARANCE SALE

You don't need any explanation—you know what to expect. You know that you can buy a pair of the Best Shoes made for less than they are worth. These days, when shoe prices are soaring, it will be a splendid investment to buy several pairs.

PRICES ARE CUT TO THE LIMIT

The profit and, in many instances, a large portion of the cost of the Shoes is sacrificed. Better come early when the lines of sizes are full. Just note these inducements.

Wounded Men And Soldiers' Wives

Large Party Passes Through the
City—Local Men Return From
the Battlefields of France

In view of the recent order that all wives and children of Canadians who are in England should return to Canada, a liner docked at Halifax last week bearing 800 women and children and about 700 men. Three special trains from Halifax passed through the city for the west, one Saturday night and two yesterday at noon. These were, for the most part, loaded with women and children and men home on furlough. The wounded men awaiting discharge are up before a medical board today and will come through as soon as they pass.

It is understood another steamer closely followed Saturday's arrival with more New Brunswick men aboard.

Reprisals For Air Raids

LONDON, JULY 21.—SAMUEL SAMUELS, M. P., ANNOUNCED IN A SPEECH TODAY THAT THE BRITISH GOVERNMENT INTENDS TO ADOPT A POLICY OF REPRISALS FOR GERMAN AIR RAIDS.

Private 09781, George O'Brien, returned yesterday and agreeably surprised his wife by stepping in at their home, 208 Metcalf street, West St. John, since she did not know that he was returning. Before the war he was attached with the 3rd C. G. A. at Partridge Island and went overseas with the original 26th. He was formerly employed with the I. C. R. as brakeman and is well known in St. John. He has three months' leave of absence.

Private O'Brien, of 12 Erin street, also returned on furlough yesterday. He went to France with the first contingent in Major Magee's Divisional Ammunition Column.

Mrs. Fred Bailey, 21 Richmond street, was at the train to meet her husband's brother, Arthur Bailey, of the 90th battalion band. Private Bailey tried four

times to get to France but was finally rejected and returned. He did not arrive on yesterday's train, however, but is expected today or tomorrow. Mrs. Bailey's brother, William Grey, who was killed at Vimy Ridge, had sent her an interesting souvenir from the trenches. It is the end of a shell, decorated with buttons, strap and badge to represent in a remarkable manner a Canadian uniform cap.

Private Hennessey returned to Moncton yesterday on three months' leave. He was with the Canadian Artillery.

Sergeant Charles Moore left for France last night on the Montreal train. A large party of the war veterans were at the station to see him off and amid cheers and expressions of general good-

Pledge to Belgium Renewed;

Sham in Chancellor's Speech

"The determination of the Allies is that Belgium must be restored as a free, independent people; that Belgium must be a people, not a protectorate. We must not have merely a Belgium shattered by the Prussian sword. The sceptre must be Belgian, the sword must be Belgian, the scabbard must be Belgian, and the soul must be Belgian.

"I have read that speech (the chancellor's), as it was my duty to read it—once, twice, thrice—to seek anything in it from which we could hope for the end of this bloody struggle, and I see in it a sham independence for Belgium, a sham democracy for Germany, and a sham peace for Europe.

"And I say that Europe has not sacrificed millions of her gallant souls to get up a soil consecrated by their blood as a mere sanctuary for sham.

"He (the chancellor) tries to stimulate and encourage his people by doping them with illusions. And Germany will find that her new hopes are just as much illusions as others which have been dispelled in the 'harrowing six weeks' that have just gone."—DAVID LLOYD GEORGE.

Two Meatless Days for Canada

Toronto, July 22.—Hon. W. J. Hanna, food controller, has issued a statement, the most important item of which is the suggestion that no meat be served in hotels or restaurants on Tuesdays or Fridays and that at every meal there shall be supplied some substitute for white bread and that no more than two courses may be served for breakfast and luncheon, or three courses for dinner, the courses to be defined.

Printed cards will be distributed, setting forth the necessities of the situation, and asking every citizen to sign a form of pledge to reduce considerably consumption of bread, beef and bacon.

will the train bore him away on his long journey back to his comrades fighting in the trenches. About fifty or sixty veterans were in attendance and practically all his old comrades of the 26th who were in town were with the party. Sergeant Moore won the Military Medal for bravery on the field and will, no doubt, distinguish himself again upon his return to the front.

Soldiers on Board.

A telegram has been received by Charles Robinson, secretary of the Returned Soldiers' Aid Commission, to the effect that the following New Brunswickers are waiting examination at Halifax before returning to their homes: C. M. Bennett, E. E. Blair, J. G. Christie, A. Davidson, A. Forgue, A. Fraser, Privates Garland and Hatt, H. Little, A. Muscarell, H. McParries, C. Mason, S. M. Olive, A. W. Totten, J. Walsh, F. Wilkinson, H. Wilson, all of St. John. Privates Day, Gould, Pollard, Pendleton and Quirk, for Fredericton; Private Demau, for Robinsville, Donovan for Dalhousie, Drake for Harlow, Harris for Matheson for Campbellton, Morrison for Newcastle, Pearson for Pearsonton, Stewart for Hillsboro, and Verrill for Brookville.

Colonel McAvity in Town.

Lieutenant-Colonel J. L. McAvity returned to the city Saturday from Massachusetts, where he, his company and several other 26th officers, has been helping the United States military authorities in training officers for the U. S. army.

Private J. B. Coholan.

Word has been received by Michael Coholan, 112 Brunswick street, that his son, Private John Bernard Coholan, No. 742076, had been wounded on July 4 while fighting in France. Private Coholan, though wounded, was plucky enough to stick to the trenches, his wound not being very dangerous. He joined with the 115th Battalion and was transferred on reaching France.

Corporal C. J. Stone.

Word has been received from Ottawa that Corporal C. J. Stone, son of Pilot T. J. Stone of the west side, has been wounded and gassed and is in a dangerous condition. Corporal Stone went over in the very first batch of men from the first contingent to France and has been there twenty-nine months without a scratch. The news of his wound will be received with anxiety by his many friends in the city where he was well known. He was a veteran of the South African war.

More Local Casualties.

Mrs. George Innis, 118 Somerset street, has heard of the death of her eldest son, Sergeant James Innis, of the 1st Kings Own Royal Lancasters. He was thirty-one years old and unmarried. His father, George Innis, enlisted in St. John two years ago last May. He is now on his way home. Besides his father and mother, Sergeant Innis leaves five sisters and three brothers.

Lieutenant E. A. P. Plunkett. J. McD. Cooke, Moncton, has received a telegram from S. J. Plunkett, stating that Mr. Plunkett's son, Lieutenant E. A. P. Plunkett, had been killed in action. Died in France.

Word has been received in Chatham that Ernest Bernard died in France. He formerly belonged to Chatham, but moved to the states eight years ago. He joined one of the regiments of the Irish Guards and crossed to France. He was severely wounded May 28, and died June 8. He was thirty-four years of age.

Winter Arrangements. According to information received in Ottawa recently, the number of returned soldiers arriving in St. John this winter will be about the same as in preceding winters. It is also understood that the army here, which is at present under the control of the Military Hospital Commission, again will be put to the purpose for which it was originally erected.

Ringing Appeal

For Horse Racing

Professor of Agriculture Says Public Competition is Essential to Progress in Breeding

Robert Wallace, professor of agriculture in the University of Edinburgh, went to the rescue of the racing men in England with a ringing appeal for the resumption of turf sport when the war council put a stop to it on the eve of the New Derby. Among other things he said:

"Only on the race course can the inner worth, the intrinsic value of thoroughbred, be established, and to give confidence the trial must be in full public view and under the exciting influences which, at the same time test the nerves and temper of the horse. No one would accept a private test, even if it could be made, and the value given by successful competition would never accrue. A horse which from his looks and breeding might realise 250 pounds may, after being raced, like Rock Sand, fetch 25,000 pounds. It would be as unreasonable to anticipate public approval for awarding the Victoria Cross for performance on the parade ground as to expect either home breeders or foreign buyers to pay tens of thousands for the best horses without the animals having sold under the supreme test of quality by the one reliable ordeal of public competition on the race course."

Struck By Lightning.

In a heavy electric storm which passed over Hampton yesterday, a bolt struck the large barn of H. V. Dickson, M. P., at Hammond River, splintering the roof and badly damaging it. Mr. Dickson's son was in the barn and one of his arms was disabled for a time.

Sandy, a Scotsman that the Windsor Magazine tells about, had returned to his native village after a visit to London. When some one asked him what he thought of the great city, he said: "It is a grand place, but the folks there are not honest."

"How is that?" asked his friend. "Well, I bought a box of pins labeled 'a thousand for a penny,' and coming home in the train I counted them, and I found they were seventeen short."—Youth's Companion.

"Does better all things a tube is meant to do"

A tube is meant to hold air—well—as long as possible; to resist air leakage.

The fulfilment of this purpose lies in the word "laminated." Lamination is a quality-giving process that marks the line between the best tubes and substitutes.

For we take the best rubber and roll it out tissue-thin for inspection eliminating all sand holes and air bubbles. Then we build up, layer on layer, an extra thick, extra good tube. To finish with we vulcanize in the valve patch, instead of sticking it on.

A costly process—yes. A cost that we pay. But we pay it gladly for it but follows our fixed policy to put the name Goodyear only on quality products.

When tubes are suggested, for your tires' sake, say "Goodyears."

THE GIRLS' CLUB

A group of working girls who are not residents of the city took tea last evening in the Girls' Club. This is a regular feature of the Girls' Club work. These girls were not all members of the club, but members were there to look after their comfort and pleasure. Miss Perry played the piano, and there was singing after tea. Mrs. W. C. Good was present during the evening and took part in the musical programme. The aim is to make the club a social centre for working girls. Several games for week evenings have been contributed.

FERRY DEFICIT WOULD PAY FOR HARBOR BRIDGE

Equal to Interest on Expenditure of \$1,400,000

\$25,309 FOR CURRENT YEAR

Council Voted Balance Today, in Addition to \$10,000 Appropriation at First of Year—Cannot Find Hall for Soldiers' Banquet

The need of a harbor bridge, not only to improve communication with West St. John but also to enable the city to avoid larger ferry deficits was urged on the common council at the committee meeting this morning by Commissioner McLellan. The suggestion arose from the fact that it was found necessary to vote \$15,809, in addition to the \$10,000 appropriated at the first of the year, to meet the ferry deficit for the current year. Commissioner McLellan said that the deficits were likely to become greater rather than less and that the amount now paid would go a long way toward paying the cost of a harbor bridge. With the co-operation of the provincial and dominion government and the railways interested the city's share would be less. The discussion of the war anniversary and it was reported that it would be difficult to find a hall suitable for a banquet. This feature may be abandoned and it was suggested by Commissioner McLellan that, instead, the city might give the veterans' association a check towards their building fund.

Mayor Hayes presided at the meeting and Commissioners Fisher, McLellan and Russell and the common clerk were present.

A communication was presented from James Wilkes, owner of a property in White street, which is being expropriated for the use of the hospital. He explained that when he acquired his deed from the city nine years ago, the description was given incorrectly and the deed appears to be for lot 29 instead of lot 16, the former being the property of Miss Julia Murray. He wished to secure a corrected deed so he could collect his award. The matter was referred to the city solicitor to report back.

Commissioner Russell presented a statement of the ferry finances, showing the prospect for a large deficit by the end of the year, despite the fact that the falling off in revenue was only \$275 less for the first six months than for the corresponding period last year. The deficit was due to increased cost of fuel, a matter of \$2,500, increased wages, \$84,000 for Laidlaw repairs and other increased costs of operation.

Commissioner Russell's statement of estimated expenses and income for the balance of the year is as follows: Insurance, \$1,500; fortnightly wages, \$2,000; salaries, \$11,400; steam coal, \$35,900; monthly accounts, \$10,000; east side piling, \$500; west side piling, \$1,000; total \$82,800. Estimated earnings for balance of year, \$15,000. Estimated deficit, \$15,809.

Would Pay For Bridge.

Commissioner McLellan remarked that the annual deficit on the ferry now represents the interest on capital of \$1,400,000 and said that the sooner the city sought the co-operation of the government and the railways in building a new bridge, the better. The city might even effect a saving through such an arrangement.

In reply to a question regarding the advisability of issuing bonds at present, Commissioner McLellan said that with the city's per capita debt at \$11, as compared with \$70, which is the lowest of any other city in Canada, there should be little trouble in selling bonds.

Commissioner Russell moved that the commissioner of finance should provide \$15,809 additional to meet the expenses until the end of the year. Commissioner McLellan seconded the motion and it was carried.

The mayor then asked for the estimates for harbor expenditures and Commissioner Russell explained that they would be ready soon, the engineer having been delayed by the collapse of the west side warehouse. It was his intention, he added, to call for tenders for the reconstruction of the warehouse.

The amendment to the sidewalk occupation act were again laid before the meeting but the matter was laid over until all the members would be present.

A letter from the Maritime Mail Co., Ltd., asking for repairs to Camden and Portland streets was presented by Commissioner Fisher. He reported that he was making some repairs out of his appropriation.

The War Celebration

Commissioner McLellan, referring to the plans for the observation of August 4, pointed out the difficulty in arranging a satisfactory banquet for the men and their families. He suggested, as an alternative, that a theatre be hired for an entertainment for which each soldier would be given several tickets for his friends and that, during the evening the mayor should hand to the representatives of the Veterans' Association a check for \$2,500 towards their building fund.

Commissioner Russell said that the committee had found it impossible to secure a hall suitable for the purpose. The high school assembly hall was the best available.

Mayor Hayes said his original idea did not include banquet and, if a suitable hall could not be secured, they could do little else than abandon the plan. He did not think the men would want to erect a permanent building until all the soldiers had returned; the city had no money to spare at present and he thought it would be better to defer the grant until the money was required.

Commissioner McLellan said that the men wanted the building as soon as they could get it, to have quarters in which to receive the others as they came back. The matter was laid over until after the committee and sub-committee had reported.

The mayor reported that a delegation of labor leaders had waited on him to protest against the continued imprisonment of striking plumbers and also the way in which the coroner's inquest had been conducted. He had informed them that the matter was in the hands of the police and he could not interfere.

HIS WOUNDS SEVERE

Sergeant Edgar G. McEachern Seriously Injured in Back, Both Arms and Left Leg

John D. McEachern of 549 Main street has received official word from a hospital in France, telling of his son, Sgt. Edgar G. McEachern.

Sgt. Edgar G. McEachern, being seriously wounded in the back, both arms and left leg.

Before enlisting he was employed in the office of the George McKean & Co. Ltd., lumber dealers, and was a very popular employee. He was later transferred to the same company's office in Amherst, where he enlisted with the 108th Battalion N. S. Highlanders. After landing in England he was employed as an instructor and was promoted to be a sergeant. After serving as instructor for several months he crossed over to France where he received his wounds. Before leaving for Amherst he was an active member of the Y.M.C.A. here.

Mr. McEachern has another son, Robert, who enlisted with a Winnipeg battalion and was invalided home.

Many friends will be sorry to hear of the young soldier's wounds and hope for a speedy recovery. He passed his 20th birthday in last March.

ALONG THE RIVER

Three week-end pictures of river life were not taken because the observer was without a camera. One was a bevy of maidens at the wharf at Carter's Point, waiting for the Ocoee, and so prettily posed that a photographer could suggest no improvement. The second was two maidens swimming around a motor boat at Watters' Landing. The third was three boys asleep on a veranda at six o'clock in the morning, wrapped in blankets laid on the floor, with a dog at the head and the family cat curled up between two of the boys. Indeed a camera man would probably have snapped a group of girls at Bely's Point, and many another interesting feature along shore.

He could not, however, nor could an artist paint the glories of last night's sunset at Public Landing. It had been a day of variable weather. In the morning rain was falling, but by noon the sun was shining. During the afternoon thunder showers swept around the horizon, but did not visit that part of the Reach. As the sun went down great mountain ranges of clouds were piled high in the east and bathed in wonderful colors, partially reflected on the surface of the river. But the clouds passed with the twilight and when darkness fell the stars shone from a cloudless sky.

The first bay will be cut at the Landing next week if the weather is favorable. The crop is heavy. All crops are flourishing. The potato bugs are in evidence, but they are not at all plentiful as yet, and the farmers are eating potatoes of this year's crop.

The first dance of the season for patriotic purposes will be held at the pavilion at the Landing next week-end. There has been a dance each Saturday night at a private house, and quite a number of young people from the city have attended.

"I miss the young men," said one man this morning. "We used to see them in their yachting flannels, and they made things lively; but now it is only the older men, the women and children. The young men are at the front or engaged in war work."

TOMPKINS ADMITS HE KILLED THREE

Johnstown, Penn., July 23.—George C. Tompkins, held for the murder on Sunday of E. I. Humphries and the latter's wife and son, has confessed his guilt. He told jail Warden E. H. Kneel that he "killed those three persons."

"They hounded me," Tompkins said. "I was in trouble financially, but they would not let up, and insisted on the payment of obligations that I could not meet."

Five hours after making his voluntary confession Tompkins was trying to butter his brains out in the cell which he has occupied in the county jail here. The remarkable fortitude of the prisoner gave away almost immediately after he confessed, and he is like a raving maniac.

Tompkins' father, his wife and little boy were admitted to the jail to see the prisoner. They sat in the warden's office for fully an hour conversing about various matters. Tompkins showed great agitation. He kept watching his wife and son. Finally the boy went from the room to get a drink of water. As he had passed through the doorway of the office into the corridor outside, Tompkins turned to Warden E. H. Kneel and said:

"I have been crucified for three nights. I can't stand this any longer. I killed the Humphries family."

Later, Tompkins repeated his brief confession to Rev. Brainerd F. Harney, pastor of the First Presbyterian church, Eldersburg, and Edgar Evans of the law firm of Evans & Evans, retained as counsel by Tompkins. While he did not go much into details of the crime he told voluntarily that he had cheated the elder Humphries through a counterfeit of a check, and that he had finally killed him at the fence near the woods.

"The bullet that struck Humphries when I fired at him in the car," he said, "must have killed Mrs. Humphries, too."
