Labor Is Displeased With Speech Made By Premier  
GERMANS FIGHT BODILY BATTLES

LABORITES ARE SULKY IN COMMONS

Parliamentary Writers Agree That the Speech of Premier Disappoints.  
FRENCH SYMPATHIZE  
London Express Intimates That Labor Leader is Too Broadminded.

(By Canadian Press.)  
London, Feb. 13.—Several of the parliamentary writers agree in saying that the rank and file of the Laborites in the Commons were profoundly disappointed by the speech of Ramsay MacDonald yesterday. They declare that the greater part of the cheers came from the Conservatives, while the Premier's own followers sat glum and unenthused, not attempting to conceal their dissatisfaction.  
The Daily Express correspondent asserts that at the end of the "Clydesiders" and the left wing generally were in a state of sulky anger, and the Daily Mail's parliamentary writer asks: "Is this the writing on the wall? Will Labor's first Premier prove too broadminded and sensible to win the applause of his own more cantankerous followers?"  
In the Lords.  
London, Feb. 13.—In the House of Lords, Viscount Haldane, the Lord Chancellor, covered much the same ground as the Prime Minister in the House of Commons. He admitted that France was entitled to security, but said that the only difference of opinion was regarding methods. If armaments were piled up as before the war, then the same catastrophe was inevitable. Until other peoples reduced armaments Great Britain could not put herself in a weak position, but in these times of some sort of common mind among the European peoples, the chance for the reduction of armaments would come.  
The Government believed in the idea of a large entente or concert of Europe—it might even be called a League of Nations—a practical, organized body, which would result in security. He was not going to suggest any breach in the continuity of policy by which Great Britain had been working for her own defence, but that did not necessarily mean the piling up of armaments.  
Marquis Curzon.  
Marquis Curzon, former Foreign Secretary, who followed Viscount Haldane, admitted that there was a difference of opinion in Haldane's speech, and the apprehension with which he had viewed the formation of a Labor Government had been generally relieved. He admitted also that Lord Haldane had enunciated the soundest principles on the question of disarmament. Lord Curzon, however, declared that the recognition of Russia without guarantees was the greatest mistake in the world.  
The House of Lords presented an unwonted, curious appearance, with only a handful of peers on the Government benches. Lord Birkenhead made an amusing speech, criticizing the Labor peers and the Labor policy.  
Paris Somewhat Skeptical  
Paris, Feb. 13.—Premier MacDonald's speech before the British House of Commons is received with sympathy, tempered with certain skepticism and disappointment, by today's papers. The Matin cannot see that the policy set forth by the Laborites differs greatly from that of any other party in Great Britain.  
Pertinax, political expert of the Echo de Paris, also finds that the speech "does not add much to our knowledge of the designs formed in Downing street."  
He says the British Premier hesitates to commit himself to any definite line of action, and in conclusion remarks that when it comes down to hard facts, he does not believe Premier Poincaré and Mr. MacDonald will succeed in reaching an agreement as easily as is now predicted.  
L'Éclair, supporter of former Premier Briand, accuses Mr. MacDonald of trying to "lull France's patriotic vigilance and to favor the electoral operations of the French left bloc, who are Germanophilous like himself."  
L'Ouvrier, representing the anti-Poincaré, finds it a "speech of a man of sense and good faith, who does not think it necessary to prepare for war when one wishes peace."

Money Will Pile Up For 200 Years

Plymouth, Feb. 13.—In the Probate Court here Judge Lloyd Chamberlain has allowed the will of Hans D. Dick of Bellevue, and the Rockland Trust Company and Eugene M. Taylor of Cohasset were appointed trustees.  
This will has created great interest, as it left the entire estate upon the death of Mrs. Dick, to charitable institutions and Konoahasset Lodge, A. F. & A. M. of Cohasset.  
It further states that the property must be held for 200 years and invested in an re-invested during that time and then be divided among the beneficiaries. The estate will then amount to many millions.  
As Mrs. Dick is dead the trust begins at once. The case was carried to the Supreme Court, which allowed that Dick had a right to dispose of his property in the way he wished.

JAPAN GETS BIG LOAN IN NEW YORK

Negotiates \$150,000,000 With Syndicate Which Meets at J. P. Morgan's Home.  
(British United Press.)  
New York, N. Y., Feb. 13.—A loan of \$150,000,000, one of the greatest in a record peace time international financial issue has just been completed between the Japanese government and a group of American financiers, headed by J. P. Morgan.  
The transaction, completed at the Morgan home, means that Japanese government bonds in this sum will be floated in the United States and certain European continental countries. The money advanced to Japan will, for the most part, return to the United States through direct trade channels, constituting an assured business stimulus during the present year.  
BOSTON HOCKEYISTS WIN.  
Boston, Feb. 13.—The Boston Hockey Club defeated the Maple A. A. in a U. S. A. H. A. game here last night, 6 to 0.

Wire Briefs

London, Feb. 13.—The Japanese Government loan of £25,000,000 at six per cent. has been fully subscribed. It is announced. The lists closed at noon today.  
Merida, Yucatan, Feb. 13.—Adolfo de La Huerta, revolutionary leader of Mexico, has established the headquarters of his government at Frontera, Tabasco. His navy is with him.  
Moscow, Feb. 13.—Norway has given the Russian Soviet Government the right to use the foreign office was informed today in a telegram received from Madame Alexandra Kollantay, Soviet representative in Norway.  
London, Feb. 13.—Former Premier Stanley Baldwin indicated today that the Conservative opposition was unlikely to take any action that would hamper the MacDonald cabinet in negotiating with France.  
London, Feb. 13.—An agency despatch from Copenhagen says it is rumored that Norway is soon to accord de jure recognition to Soviet Russia. The question is said to have been submitted to a secret session of the Storting yesterday by the foreign minister.  
Wetaskiwan, Alta., Feb. 13.—Wilhelm Hason, charged with the murder of Edgar Falkner, a farmer, was found guilty last night and sentenced by Justice Tweddle to be hanged at Fort Saskatchewan on May 1.  
New York, Feb. 13.—(British United Press.)—Frank A. Vanderlip, financier today indirectly demanded an inquiry into the conditions of sale of "a certain Marlon newspaper which sold for \$850,000 when it was well known to everyone that it was not worth that sum."  
Coblenz, Feb. 13.—The inter-alleied commission has sent two companies of infantry to restore order in Pirmasens. A statement of siege has been declared in the city and vicinity. Advice here said German Nationalists attacked the Separatists, later setting fire to the city hall, and that 14 persons were dead, including eight Separatists.  
Washington, Feb. 13.—Diplomatic relations between the U. S. and the Government of Honduras have been severed by the state department. The step was taken because of the failure of three political factions in Honduras to reach an agreement under which constitutional government can be restored by peaceful means.

DR. ALLISON SUCCEUMS AT HALIFAX

Former President of Sackville College is Dead at Halifax Home.  
BRILLIANT SCHOLAR  
Many Prominent Maritime Men Came Under His Principalsip.

(By Canadian Press.)  
Halifax, Feb. 13.—Dr. David Allison, for many years president of Mount Allison University, Sackville, died at his home here today, at the age of 88. He was one of the foremost of Nova Scotia's educationists. He devoted the greater part of his life to the upbuilding of Mount Allison University, the leading Methodist institution of Eastern Canada. Joining the staff of the academy as lecturer in classics, he rapidly forged to the front and finally assumed the principalsip.  
He relinquished this office in 1878 to become Superintendent of Education for Nova Scotia, remaining at Halifax until 1891, when he retired to assume the presidency of Mount Allison University. He finally retired in 1910, returning to Halifax to live.  
Had Prominent Students.  
Among surviving students who attended his classes at Mount Allison are Mr. Justice B. Russell of the Supreme Court of Nova Scotia; Dr. Weldon, former dean of the Dalhousie Law School; Josiah Wood, former Lieutenant-Governor of New Brunswick, and Charles Archibald, former president of the Bank of Nova Scotia.  
Dr. Allison had a brilliant scholastic career, graduating at the head of his class in 1859 from Wesleyan University, Middletown, Conn. He was also a student of the McGill A. A. in Halifax, and previous to his death was the oldest living matriculant.  
Born in Nova Scotia.  
David Allison was born at Newport, Hants County, July 3, 1836, the son of James Allison, member of the Legislative Assembly. He came to Halifax when a lad of 15 years and lived with an uncle, David Allison of the firm of Fairbanks & Allison, merchant.  
Dr. Allison was twice married. His first wife was Elizabeth Powell of Richibucto, N. B., sister of H. A. Powell, K. C. of Halifax, N. B. She died in 1898. His second wife was Nellie Cummings of Chicago, whom he married in 1902, and who survives him. There were five sons by the first marriage. Four of whom survive, H. A. Allison of Calgary. One brother also survives, Wm. H. Allison, ex-M. P. for Hants County, now living in North Dakota. Joseph Allison of the firm of Manchester Robinson Allison, Ltd., St. John, is a cousin.

CANADA'S AUTHORS WILL HAVE PLACE

Literary Productions of Dominion to Be Shown at Empire Exhibition.  
Montreal, Feb. 13.—It is learned here today that R. J. C. Stead, president of the Canadian Authors' Association, has obtained a concession from the Government to provide for the showing of the literary productions of the Dominion at the forthcoming Empire Exhibition.  
It has been arranged that Aegidius Fautoux, in charge of the library of St. Sulpice in this city, shall make the selection of the works of French-Canadian authors, while Dr. George Locke, public librarian of Toronto, will select those of English-speaking Canadian authors.  
It is intended that every phrase of Canadian literature shall be reviewed, from historical to romantic works.

MOST VALUED ONE WILL GET \$1,000

National League Will Make Award at End of Season—Other Bonuses Barred.  
New York, Feb. 13.—The National League has followed its junior associate, the American League, in deciding to select annually the player most valuable in the circuit and to award him \$1,000 and a written estimate of his worth. The magnates rejected a proposal to reward the most valuable player on each team.  
Owners of the National League made the decision yesterday and also agreed to forswear paying bonuses to players for batting, pitching and fielding, though bonus provisions in contracts made up until yesterday will remain active and bonuses for good conduct will continue to prevail.  
National owners quickly approved the work of their schedule committee which presented a layout of 154 games starting April 15 and ending Sept. 29. A movement to limit the number of assistant managers and coaches fell through.

RIVALS KING TUT

Skeleton of Woman Found in Ireland After at Least 3,000 Years  
Dublin, Feb. 13.—Near Headford, in Galway, a skeleton has been discovered in a mound where, according to experts, it had rested for the last 3,000 years. Nearby were ancient Irish bronze ornaments.  
The skeleton is that of a woman, little more than five feet high. The distinguishing features are the remarkable state of preservation of the teeth and the square jaw, of a type quite different from that of today.

Too Much at Radio Set; Wife Leaves Him

Bridgport, Conn., Feb. 13.—Because he cared more for his radio set than for her was the reason given in Superior Court by Mrs. Harold K. Andrews for leaving her husband.  
Andrews asked Judge Isaac Wolfe for a habeas corpus to obtain possession of his two children, whom the mother took with her when she left last August. He accused his wife of leaving him alone nights to seek pleasure.  
Judge Wolfe, in refusing the habeas corpus writ, said: "The husband was wrapped up in his radio set. A husband should remember he owes duties to his wife. Mrs. Andrews naturally had to seek pleasures elsewhere."

DANCER IS ROBBED AT DOOR OF HOME

Gilda Gray Says Chicago Robbers Took Jewelry Worth \$150,000.  
Chicago, Feb. 13.—Gilda Gray, dancer, reported to the police last night that she had been robbed by three men of jewelry valued at \$150,000 and \$2,000 in cash as she entered an apartment building where she lives with her parents, Mr. and Mrs. Max Michesky. Miss Gray, married recently to G. T. Boag, a wealthy New York cabaret owner, had just left the theatre where she danced, and been driven home by her chauffeur, Jos. Connelly, who witnessed the robbery. All the jewelry, most of which she said she used in her dances, was in a small handbag. Some of the articles taken included an engagement ring, wedding ring and gifts from her husband, who left yesterday for New York. A pair of slippers with silver buckles was taken, but a valuable mink coat she was wearing was left by the robbers.  
While one of the robbers threatened her with a pistol, another searched her, and the third covered Theodore Hill, an elevator operator, according to the report to the police. The chauffeur said he could identify the robbers, and accused a squad of detectives on an early morning search of restaurants and cabarets.

WANT MILLIONS FOR VANCOUVER HARBOR

Estimates Approximately \$18,000,000 Are to Be Taken to Ottawa For Approval.  
Vancouver, B. C., Feb. 13.—Estimates approximating \$18,000,000 for harbor improvements commencing this year are to be taken to Ottawa for approval by the federal government. Three or four million dollars are for completing the Ballantyne Pier fittings and the construction and equipment of No. 2 grain elevator.  
There is also proposed a cold storage plant, a fisherman's wharf, a booming ground on Spanish Banks, terminal railway on the north shore, a lumber assembly wharf, car ferry terminals, and there are also aside certain proposed amounts for purchase of property on the water front which will be needed in future plans of the board.

Say Leaving Fish On Ice Inhuman

Owen Sound, Ont., Feb. 13.—The Owen Sound Humane Society, through Miss M. Vail, president, is protesting against the practice of local fishermen in leaving fish, after being caught, lying on the ice. The fishermen contend that the fish are cold blooded, and suffer no more than when caught in nets, or, if this cannot be done, that the law says that the dogs are not overloaded.

Will Cut Mail Service Nine Days

Paris, Feb. 13.—A new airplane service between Toulouse, France, and Dakar, West Africa, is to be started in April. Working in conjunction with the steamship lines it will shorten the time for transmission of mails between Europe, South Africa and South America, by nine days. The service will be carried out by sixty planes, a like number being held in reserve.

Five Buried Under 30 Feet of Snow

Vienna, Feb. 13.—Avalanches yesterday were responsible for several fatalities. A German skiing party, consisting of a woman and four men, undertook a tour from Koehal in the Stillerer Alps, and was buried under a slide of 30 feet of snow. Late last night only the body of the woman had been recovered.

PLANNING TO SEIZE WARSHIPS

Negotiations Made to Take Over Rebel Vessels at Vera Cruz.  
5 DAYS FIGHTING  
Forces of General Sanchez are Decisively Repulsed, is Report.

(By Canadian Press.)  
Vera Cruz, Feb. 13.—Negotiations for the surrender of the rebel warships lying off Vera Cruz harbor are being carried on between the commanders and Gen. Serrano, directing the federal operations, according to official quarters.  
The vessels comprise the gunboat Tamaulipas, and the submarine chaser Covarrubias. The wife of the rebel General Sanchez, is reported aboard the Zafraza.  
Five Days' Fighting.  
After five days of fighting, the forces of the rebel General Sanchez, attacking Santa Lucracia, have been finally and decisively repulsed by the commands of Generals Dominguez and Isquierdo, according to an announcement made by Secretary of War Serrano.  
This latest defeat of Sanchez, the war secretary says, foils his plan of entering the Tehuantepec region. It also leaves Sanchez's army between two fires, since the troops of Gen. Serrano are moving forward against him from the vicinity of Tierra Blanca.  
Instead of the roar of cannon, the bursting of shells, the destruction of homes and loss of life—a tournament of fists, harmless, yet decisive, between the two warring factions!  
This is the suggestion made by the Duchess of Hamilton (above), wife of the premier peer of Scotland, who herself is mother of a young pugilist. She suggests that the nations pick out their 100 best boxers and that these settle the disputes in the ring.  
As far as war, isn't it?

Duchess Suggests Substitute For War

St. John's New Hotel Attracts Attention; Wins Nice Comment Abroad

A leading British periodical devoted to the hotel industry of the world, in a recent issue refers to the Admiral Beatty soon to be erected in this city. It says:—  
"St. John, New Brunswick, the busy transportation centre of the far east of Canada, comes to the front with the announcement that a new United Hotel, the 'Admiral Beatty,' is an assured fact. The Old Dominion Hotel's corporation is solidly behind the scheme. The directorate, aside from the hotel magnates interested, is composed of a group of St. John's most energetic and well-to-do citizens, men with large interests at stake in that community, and who look upon the investment as a necessary adjunct to the city's many other valuable assets. The cost of the hotel, with interior decorations and furnishings, will be in the vicinity of one million dollars. The 'Admiral Beatty'—which, by the way, is a striking name for a new hotel at this gateway seaport, and smack of the best British traditions—is to have frontages of 160 feet on King Square and Charlotte street. It will be of recognized modern standardized fireproof construction. It will include the newest elements of household comfort, community gathering suites, social suites, fraternal assembly quarters, the usual dining and luncheon facilities, tea danstent room and such, as mark all the United Hotels of late construction, and which are nowadays essential to the assured success of a central hotel."  
The same issue of the hotel journal prints an interesting little item about the first birthday of the Mount Royal Hotel, Montreal, big sister of the Admiral Beatty. A huge cake weighing close to 100 pounds, and graced with one candle, centered the main dining hall on the occasion, and every guest that was tendered a tiny slice of it, those in the main dining hall, the grill, cafeteria and room-service departments. Manager Vernon G. Cady of the house reported 400,000 guests in the twelvemonth.

SEPARATISTS CLASH WITH LOYALISTS

Twenty Leaders Burned to Death in German City Hall.  
ATTACK IS RENEWED  
Maddened Mobs of Infuriated Citizens Chase After Separatists—49 Dead.

(By Carl D. Groat (British United Press.)  
Berlin, Feb. 13.—Bloody fighting has broken out between Separatists and Germans loyal to the Reich in Pirmasens, Bavarian Palatinate, according to despatches received here today. Herr Schwab, Separatist leader, was lynched by a mob of infuriated loyal Germans.  
Twenty of Schwab's followers were burned to death in the city hall. The Separatists had taken refuge in the building, which was stormed by the loyal Germans and set on fire.  
Maddened mobs of infuriated citizens continued to hunt down Separatists throughout Pirmasens today.  
Wherever ferreted out, the Separatists were killed or badly beaten. Despatches received here up to noon said a total of 49 were known to be dead at that hour. The Separatists had 28 killed and the citizens 21.  
Start Concerted Attack.  
Trouble began late yesterday, when citizens of Pirmasens, reinforced by the fire department, started a concerted attack on Separatists. Provided with plentiful supplies of ammunition, the Separatists rallied and fired heavy volleys, wounding many of the attackers with city guards, renewed the attack with vicious energy.  
Attack City Hall.  
Firemen flung ladders against the City Hall and climbed up in face of Separatist fighting as they attacked. The attackers could make little progress against the almost impregnable building. They, therefore, set fire to the building. As the dense clouds settled smothering through the building many of the Separatists fled from the death trap, but 20 remaining inside were burned to death.  
While the Separatist funeral pyre that had been a City Hall was still flaming, the mob, now lost to blood lust, launched a city-wide hunt for Separatists, rooting them out of beds and house to meet sharper punishment or death wherever found.  
Dies in Flames.  
Later reports from Pirmasens said Schwab, after being beaten almost to death by the mob, died in the flames. Evidently the Government commissar, who fell into the hands of the mob during the murderous orgy, was manhandled fearfully and then driven back into the furnace-like City Hall, where his comrades had taken shelter and were roasting, there to die himself.

Say Lopping Better Than Slash Burning

Prince Albert, Sask., Feb. 13.—That the lopping process for the disposal of slash is more beneficial to reforestation than burning was the general opinion gained from evidence submitted at the final session of the pulpwood commission here today. The chairman had said the commission had been impressed with the evidence to a realization of the immense timber resources Saskatchewan possessed.

Directory Shows Toronto Growing

Toronto, Feb. 13.—Greater Toronto has a population of 709,069; Toronto proper, 694,228; Toronto suburbs, 74,874. These are the careful estimates of J. Martin Gardner, publisher of the Toronto directory. According to the same source last year, Toronto proper had a population of 627,920, and the suburbs 62,958.

GIVES UP WORK AT TOMB OF KING TUT

Carter Peevish at Egyptian Attitude—Wonderful Sight Disclosed.

Luxor, Feb. 13.—Owing to what he characterized as the "discourtesy" of the Egyptian Public Works Department, Howard Carter, head of the excavation work, closed Tutankhamen tomb today and abandoned operations.

It is understood the crisis was precipitated by the refusal of the Egyptian Government to permit the wives of the excavators to visit the tomb today.

The Lid Is Lifted.

When the lid was raised the mummy case was found to be covered with three thicknesses of linen, browned with age. This linen when rolled up disclosed to the bewildered eyes of the excavators, as one of those present told a correspondent, "a gleaming golden mummy."

Taylor Has Not Seen Its Equal In 75 Years

"I never thought I would give a testimonial for a medicine, but I am going to make an exception in the case of Tanlac, for I have never come across its equal in all the seventy-five years of my life," is the precise statement of James W. (Jim) Taylor, 26 Rock St., St. John, N. B., one of the best known and respected men of this city.

Twenty years ago my kidneys had me just about knocked out. Pains in my back were so severe I could not bend one way or the other or get up from my chair. Between my kidneys and shattered nerves I got very little sleep and as I had gradually grown worse for four years I had become discouraged and blue.

"Five bottles of Tanlac put me on my feet in such good shape that I feel forty years younger than I really am. I never have an ache or a pain and feel fine."

Tanlac is for sale by all good druggists. Accept no substitute. Over 40 million bottles sold.

Take Tanlac Vegetable Pills.

SUGAR PRICES

Adv. of 25 cents a hundred pounds in the United States sugar market was reported this morning, but so far this jump has had no effect on the Canadian prices.

Total 50 cents a hundred have been made in Canadian prices already this month, the last one being a 10-cent rise last Saturday afternoon, bringing the wholesale rate in St. John to \$10.05 a hundred pounds.

The remains were found in a 10-cent box that had already gone into effect in February.

Believe Skeleton That of Abbot

London, Feb. 13.—While digging for the laying of drains in connection with a new school hospital at Battle Abbey, the excavators have found a well-preserved skeleton at a depth of eight feet.

The remains were found in the church of St. Martin, founded by William the Conqueror, and are thought to be those of a former abbot.

FIVE ROOMS AT \$45 GIVE PROFIT

Metropolitan Life Charges That in N. Y. for Apartment Houses.

New York, Feb. 11.—The Metropolitan Life Insurance Company has just spent \$7,600,000 to demonstrate that the high rents asked in apartment houses are purely artificial.

The company has erected in Brooklyn, N. Y., a series of apartment houses containing 2,128 apartments, which are rented, heated, for nine dollars a room a month, with the bathroom thrown in free. Thus, for \$45 a month a five room apartment, containing kitchen, dining room, living room, bedrooms and a bathroom, can be obtained.

Manitoba Liquor Sales \$1,358,407

Winnipeg, Feb. 13.—Through customs duties and sales tax the government in the first four months of business of the Manitoba liquor commission received in excess of \$1,000,000 more than the provincial administration, the net profit shown in the balance sheet amounting to \$1,358,407 against \$664,639.38 paid the federal authorities. A report of the commission tabled in the legislature shows the gross sales at \$1,958,407.69 and that \$24,650.50 was realized from the sale of permits.

For Luxury Tax On Imported Vegetables

Toronto, Feb. 13.—The Ontario Vegetable Growers' Association here yesterday decided to petition the Federal Government to impose a luxury tax of ten per cent. in addition to present tariff levies on vegetables imported into this country.

The growers complained that many of their number were driven out of business by the importation of cheap field-grown products from the U. S.

Asks Vote For Water Power Development

Quebec, Feb. 13.—The Quebec government has introduced measures for the expenditure of additional sums for water power development. An additional \$500,000 is wanted for development of the St. Maurice River, making the total amount for that purpose \$2,000,000. For the further development of the powers of Lake Kenogami an additional \$950,000 is wanted, making the total in that case \$2,750,000.

Irish Population Shows Increase

Dublin, Feb. 13.—An official return puts the estimated population of the Free State at the middle of 1923 at 3,165,000. These figures are approximately 100,000 more than the increase of more than 30,000 in the population in ten years.

When You Say Hello, You Tell The Other Fellow to "Go Chase a Wolf"

Cleveland, Feb. 13.—Telephone company executives have been seeking for a long time to have subscribers stop using the word "Hello" in responding to telephone calls. For reasons of courtesy, time-saving and efficiency, they have been striving to have the recipients of telephone calls merely announce his or her name or firm and then listen to the caller.

Probably they will receive greater co-operation from subscribers by reason of the fact that entomologists have just announced that "Hello" really means "Oh, go chase a wolf."

According to these entomologists the derivation of the word Hello is from the cry "Au loup!" (to the wolf), used by French and French-speaking Norman-English hunters when they sighted a wolf.

The French pronounced it "A loo." The English, using the aspirate "H," made it "Ha loo." The cry has been used by hunters up to date when a fox is sighted, and by Americans, generally, as a personal salutation.

So we get "Hello" which really means "Oh, go chase a wolf," which, it must be admitted, is scarce a polite form of salutation either over the phone or personally.

RED CROSS WORK

At a meeting of the Local Red Cross this morning a donation of \$20 from an unknown donor, through The Times, for a dependent soldier, was reported, and it was decided to leave this money in the hands of the president to expend.

Miss Ethel Jarvis reported that 91 cases of aid needed had been reported from January 1 to February 13, and 66 of these had been assisted by the society. It was announced that Reginald Wright had accepted the office of treasurer.

Mrs. A. Morrissey, Mrs. C. F. Sanford and Mrs. J. D. Maher were appointed visitors for the month. There was a discussion on dues, and the opinion was expressed that an effort should be made to collect these from the members.

The president, Mrs. A. Morrissey, was in the chair, and others present were Mrs. H. Lawrence, Mrs. J. H. Doody, Mrs. J. L. McAvity, Mrs. C. F. Sanford, Mrs. A. Morrison, Mrs. Rietson, Miss Stetson, Mrs. F. S. White, Miss E. H. Jarvis and Miss Alice Walker.

CHIEF JUSTICE REFERS TO LATE JUDGE CHANDLER

Reference to the death of Hon. William B. Chandler, judge of the King's Bench Division of the Supreme Court of New Brunswick was made yesterday in the Supreme Court Chamber by the Chief Justice Sir J. Douglas Hazen at the Court in Fredericton. He said "It is with the deepest regret—a regret which is shared by all the Judges of the Supreme Court of this province—that I refer to the lamented death of an Hon. William B. Chandler, an associate judge of this court, who passed away, after a brief illness, at St. John, on the 28th day of January last. He had been a Judge of the Supreme Court for more than seven years, during which period he discharged the duties of his high office with ability, fidelity and learning. He commanded an unusual degree of the esteem and affection of his colleagues, the respect of the members of the Bar, and the confidence of the public, and by his death the judiciary is deprived of the services of one who was an ornament to his profession, and a learned friend and upright judge, who brought to the discharge of his duties great qualities of heart and mind."

"What I have just said is concurred in by my colleagues, and the registrar is directed to enter this slight appreciation upon the records of the court." Reference in Alumni Bulletin.

Settlement of Bill for Current is Further Postponed.

The proposed settlement with the New Brunswick Electric Power Commission by the city for the bill rendered for current, amounting to \$91,400 to January 31, 1924, was under consideration by the city council yesterday afternoon, and after lengthy discussion was laid over until Thursday morning.

The matter was introduced by Mayor Fisher, who read a letter from Hon. Dr. J. B. M. Baxter, city solicitor, in which he advised that the matter be settled outside of litigation and that the offer made by the Commission was not so unreasonable as to cause the Council to refuse to settle.

The report of the committee of the whole recommended that tenders be called for Wilcox hangers on No. 8 shed; that tenders be called for the rebuilding of the upper part of Indian Point wharf; that a new heating system be installed at McLeod and Pettigill wharves; that bills be prepared and sent to the Legislature providing that the salary of the chief of police be fixed by the Common Council from time to time; that the Assessment Act be amended to provide exemptions of \$800 on incomes up to \$1,200, \$400 on incomes from \$1,200 to \$1,400 and \$200 on incomes of \$1,400 to \$1,600 of married men who have two or more dependent children; that the city guarantee any deficit of the St. John exhibition up to \$2,500; that the Civic Power Commission be authorized to expend the sum of \$12,250 for material and \$1,262 for poles; and that the Mayor and chairman of the Board of Assessors have power to employ a valuator on the Sterling Realty Company property at the corner of Charlotte and Horsfield streets.

The request of the Civic Power Commission that the Council reconsider its action in regard to the building of the water and sewerage system at the sub-station was read. Commissioner Wigmore said he was surprised at this coming back as he had taken the matter up with Barry Wilson, engineer, and Mr. Wilson had agreed that the work was not absolutely necessary. If it was considered necessary he would not oppose it but his own personal opinion was that it was a waste of \$1,000. On motion of Commissioner Thornton a committee was appointed to take up the matter with the Civic Power Commission and the Mayor appointed Commissioners Wigmore and Thornton.

The committee of the whole recommended that tenders be called for Wilcox hangers on No. 8 shed; that tenders be called for the rebuilding of the upper part of Indian Point wharf; that a new heating system be installed at McLeod and Pettigill wharves; that bills be prepared and sent to the Legislature providing that the salary of the chief of police be fixed by the Common Council from time to time; that the Assessment Act be amended to provide exemptions of \$800 on incomes up to \$1,200, \$400 on incomes from \$1,200 to \$1,400 and \$200 on incomes of \$1,400 to \$1,600 of married men who have two or more dependent children; that the city guarantee any deficit of the St. John exhibition up to \$2,500; that the Civic Power Commission be authorized to expend the sum of \$12,250 for material and \$1,262 for poles; and that the Mayor and chairman of the Board of Assessors have power to employ a valuator on the Sterling Realty Company property at the corner of Charlotte and Horsfield streets.

INTERNATIONAL BRIDGES PLANNED

Edmondston, Feb. 12.—Information was received here today from Washington to the effect that the United States Congress has granted consent for the construction of two international bridges, both to connect points in Maine and New Brunswick. One of these proposed bridges is to be constructed over the St. John river between Fort Kent and Clair, Madawaska county. The other is to be built over the St. Croix at Vanceboro.

FRATERNAL NIGHT HELD BY K. OF C.

Catholic Societies of City are Guests—Fine Programme Given.

The doors of the Knights of Columbus Home were thrown open last night and the members of the Catholic societies in the city joined with the Knights in a fraternal evening. The most enjoyable programme had been arranged. The attendance was not so large as it had been hoped, but each society was well represented. Ernest Driscoll, who presided at the piano, accompanied the soloists, opened the programme with a piano selection. James Suruge, grand knight, who presided, welcomed the members of sister societies to the Knights' home. Dr. W. P. Broderick, president of the Y. M. C. I., spoke of the work of the organization to a greater extent than they are doing at present, because it was upon them that the responsibility for the success and enlargement of the numerous activities of the institution depended.

A saxophone solo by W. McAlway was greatly enjoyed, as were also the vocal solos of William Melody, D. B. Griffith, representing the C. M. B. A., Peter Sharkey, the A. O. H., and George McDermott, the Young Men's Society of St. John the Baptist parish, spoke briefly.

AUSTRALIA THEME OF LOCAL LECTURE

A large audience in St. Andrew's hall last night greatly enjoyed the illustrated address on "Australia" given by Rev. R. Moorhead Legate, minister of Knox Presbyterian church, in aid of the schoolroom building fund of his church. The lecture was one of a series which Mr. Legate is to give dealing with various parts of the world he has visited. The slides were beautifully colored and both address and slides were favorably commented upon.

George M. Robertson was the chairman and both Mr. Robertson and Mr. Legate expressed appreciation of the kindness of St. Andrew's congregation in giving the use of the hall for the lecture. Miss Janet Dunachie sang a Scotch song and was heartily applauded.

The architects are now preparing plans for the new school hall of Knox church to replace the one destroyed by fire a short while ago. It is the hope of the congregation that it may be possible to rebuild on a larger site to provide a larger Sunday school. The plans will be considered at a meeting on Friday night when some decision will be made.

BANQUET GIVEN TO ST. PETER'S CHOIR

Members Guests at Delightful Function—C. W. L. Ladies Assist.

The members of St. Peter's church choir sat down last night to the annual banquet given them by the choir directors and served by a committee of the St. John North Sub-division of the Catholic Women's League, under the patronage of Mrs. George D. McCluskey. The feast was a banquet indeed, and was very nicely served. Covers were laid for 30 and the table was most attractively arranged. A silver basket filled with American beauty roses was set upon a reflector and graced the center of the table, while red candles in silver candlesticks and red favors appropriate to St. Valentine's day were also used to enhance the decoration scheme. Those who assisted in serving were Miss M. H. McCluskey, Miss Nellie Dever, Miss Mary Kelly, Mrs. Charles Rush and Mrs. William Harrington.

Rev. George Coffin, C.S.S.R., spiritual director of the choir, was the host of the evening, and was cordially thanked for his hospitality when the toasts were given. W. J. Grannan, president of the choir, was toastmaster. Addresses were made by Father Coffin, Rev. Francis Hill, C.S.S.R., James McCarron, director of the choir, Andrew Moore, Sr., and Leo McLaughlin. Mr. Moore recalled the past work of the choir and praised it. All the speakers were laudatory in their remarks.

Toasts were pledged to the Pope and the King, which was responded to by the singing of the National Anthem. Harry Richard moved the toast to the host of the evening, Leo McLaughlin responded, moving agreement with the thanks and words of praise given to Father Coffin by the mover. The ladies pledged, when Robert Butler, secretary of the choir, moved a toast which was heartily seconded by T. M. McNeil and vigorously applauded by the company. Mr. Grannan urged the choir to secure more members and to co-operate more fully to make the choir bigger and better for the ensuing year. A vote was passed unanimously that the choir will shortly give a concert at the Municipal Home in East St. John.

Father Coffin addressed the choir and expressed appreciation of their services. He also complimented the members of the C. W. L. on the banquet that had been served. A fine musical programme was enjoyed. Among those who sang solos were Michael Howard, Harold Gillis, Harry Richard, Robert Butler, James McCarron and J. Cady. The Moore quartette furnished several pleasing selections. This part of the programme was informal and others who proffered musical entertainment were gladly accepted and applauded. Auld Lang Syne and the National Anthem closed the jolly evening.

LIVING TORCH AT A. N. S. CARNIVAL

Annapolis Royal, N. S., Feb. 12.—Suffering from burns received when a lighted cigarette set fire to his costume while skating at a carnival here tonight, Lawrence Wear, a veteran of the Great War, is in a very critical condition. Detecting fire in his costume, which was made of ravelled rope the unfortunate young man started to run and so doing became a living torch. Seeing his predicament comrades started after him and only after a hard chase were they successful in arresting him and putting out the fire.

FIND AMAZING CASE OF MURDER

French Police Wring Astonishing Confessions From Trio.

Paris, Feb. 12.—The mysterious disappearance of a chauffeur from Rheims more than three months ago has just been solved by the discovery of a most amazing case of murder. The chauffeur Andre Chausinand, numbered among his friends Roger Lamotte, a youth of 18, who some time ago made the acquaintance of Chausinand's 15-year-old daughter and began to frequent her home. Jealousy of mother and daughter on Lamotte's account developed. Lamotte, when father and daughter were together in denials, and Chausinand made a pretense of believing him.

On Oct. 14 the chauffeur invited Lamotte to join him in an excursion about three and a half miles outside of Rheims. From that excursion he never returned; but late at night Lamotte went alone to visit the wife and daughter and tell them what had occurred. He related that during a dispute Chausinand had suddenly turned upon him with a heavy iron bar, and in self-defence he had shot him dead. Lamotte had, in fact, lodged four bullets in the chauffeur's head and hastily buried his body in the garden. The murdered man's wife and daughter then agreed with their lover to maintain secrecy about the affair and to pretend that the chauffeur had left home on a business trip.

The police arrested the girl and interrogated her in "third degree" fashion. A chance shot was so effective that she told the most dreadful story. Her mother and Lamotte were then arrested and confessed.

ANTI-T. B. SOCIETY PLANS A TAG DAY

Additional \$1,500 Required for Work for the Coming Year.

The Society for the Prevention of Tuberculosis will need an additional \$1,500 to finance its work in the coming year and maintain the two nurses required to keep up with the demands of the work here. The financial situation was considered at the meeting of the directors of the society yesterday afternoon and it was decided to hold a tag day at as early date as could be arranged.

The nurses' report showed that the month just closed had been exceptionally busy. Dr. H. A. Ferris expressed his great satisfaction at the advance made in the society's activities during the last six months. It was announced that Dr. Stanley Bridges had consented to take over the Friday afternoon clinic for children which was previously in charge of Dr. Doris Murray, and the members were gratified at this announcement.

INVESTMENT AT HOME

In the Business Review Mr. J. M. Robinson, of the well-known banking firm, makes some timely observations relative to home investment. He admits that some ventures in the home field have turned out badly for the investors, but declares they should never have been started because they did not suit the location. There are local resources to develop, on which industries to yield a fair return may be based, and Mr. Robinson would concentrate attention upon these. For years, he points out, capital has been flowing out of the Maritime Provinces to find investment elsewhere. "In twenty-seven years selling securities," commented Mr. Robinson, "I have found the majority of our investors troubled with long range vision. They see the good things hundreds and even thousands of miles away and entirely overlook opportunities right under their noses."

That is not true, not only have we not been attracting outside capital as we should, but much of our own capital has gone to find investment in distant fields. This is not good business, from the standpoint of local development, which should deeply concern every citizen. It is not true that if less capital had gone abroad there would not have been as large an exodus of people. Do they not follow where capital is work providing employment and wages? Since it is obvious that these provinces must depend upon themselves, a first consideration should be the building up of local industries and enterprises by the use of local capital. What sometimes happens to credulous investors in far off fields is suggested by the following despatch from Houston, Texas: "S. E. J. Cox, oil promoter, was sentenced today to serve five years in the Federal penitentiary and pay a fine of \$15,000 by Federal Judge Hutchison, following his conviction by a jury on a charge of using the mails to defraud. The sentence is to run concurrently with one of eight years recently assessed against him at Fort Worth after his joint trial with Dr. Frederick A. Cook on a charge of using the mails to defraud. The charges were brought in connection with the sale of the mails in the sale of stock in the Blue Bird Oil Corporation. Dishonest promoters of schemes to get other people's money, and especially the money of people far away from the field of operations, are always active, persuasive, and too often successful. We hear about money lost in a local venture, but if the whole story of what has been lost in distant ventures were told it would be a far more serious revelation. The people of the Maritime Provinces should cultivate more largely the habit of careful and prudent home investment, thus keeping their capital at work for the good of their own locality."

THE COUNCIL-MANAGER PLAN

It is interesting to note that while the Ratepayers' Association of Halifax has declared in favor of the council-manager form of city government the Associated Property Owners of Vancouver, representing \$20,000,000, are moving in the same direction. The Star says: "Adoption of a programme for the coming year and discussion of steps to be taken to forward the introduction of the city manager system in Vancouver will be the main items of business at the general meeting of the Associated Property Owners of Vancouver in the board of trade auditorium, Thursday night. Secretary A. E. Craddock suggests that public meetings should be held during the year, when speakers will deal with the city manager plan and other matters affecting civic administration. It is proposed also that a monthly bulletin should be published to keep members in touch with civic affairs." Thus two Canadian cities, one on the Atlantic and one on the Pacific Coast, are giving serious consideration to a new form of government which has already been adopted by a great number of cities on this continent.

THE SCAREMONGERS

It is interesting now to read some of the utterances of the extreme Tory press in England just before the Labor Government assumed power. For example, the Sunday Pictorial said: "On Friday next, the nerve center of the British Empire will have fallen under the control of a group of often pledged to its destruction. The domination of Russia by just fanatics as are about to form the British Government was the death warrant, not for thousands, but for millions of the Russian people. Our plight may prove even worse. Famine is never more than two months from our door. (The Labor Government) can, and undoubtedly will, draw the teeth of the police force, which it instinctively hates and dreads. Next in turn will come the army and navy—particularly the army. They know well that the Air Force and the

Press Comment

A HOPE AND A FEAR

(Woodstock Sentinel-Review.)

The Ottawa Journal expresses the hope that in the outburst of zeal for economy, the indemnities of Senators and members of the House of Commons will not be forgotten. Up to a few years ago, the indemnity stood at \$2,500 a year. Today it is \$4,000 a year. There are 285 members of the Commons and 96 Senators, so that a reduction of \$1,000 in the indemnity would save the country \$331,000 a year. It is always permissible to express a pious hope; but it is much to be feared that the zeal of our rulers and lawmakers for economy will not lead them so far as to begin at home and on themselves. The reason why so many of our remedies fail, is that we insist on trying them on others.

PROGRESS IN ITALY

(Ottawa Journal)

For the first time since the war, Italian savings bank accounts now show an increase over those of the pre-war period. Italy's total net circulation has been reduced by nearly 1,000 million lire since 1922 (the lire is normally equal to 19 cents, and is slowly but steadily climbing back from the depressingly low level it had fallen to). The revenue for the last half of 1923 showed a very substantial increase over the corresponding period in 1922, and the same favorable condition is revealed in the figures of import and export. Italy is building up a substantial trade with Spain, from which she imports mainly raw materials and exports manufactured products. In fact there are signs that Italy is rapidly becoming, within her limited sphere, what England is in a larger sphere, the workshop of the Mediterranean.

CIVIL SERVICE AND PATRONAGE

(Progressive Saskatchewan.)

Every now and then there is a rumbling indication that the Civil Service Commission might disappear and that the good old days of patronage would return. It is fairly well known that Hon. W. R. Motherwell chafes under the restraining hand of the commission. Mr. Motherwell makes no bones about it and is apparently honestly of the opinion that a minister of intelligence can choose better services than permanent commission. He may be right in that particular, but the introduction of the general scheme is opposed to the best interests of the service as a whole. Outside a few weather-beaten partisans there is no desire for a return to the days when men who had passed a lifetime in the civil service were passed over when an opportunity for promotion arose in order to find a place for a man whose sole qualification was his party connection. It is well that these considerations should be brought to the notice of the public at odd times, for the Civil Service Commission is not safe from attack.

WHO IS TO BLAME?

(Brandon Sun)

Travers Sweetman is right in declaring that excessive taxation is the people's own fault. He is right, too, in saying it out in a sparsely attended annual meeting of the local Board of Trade. Those who do not vote or take any interest in government assist spendthrift politicians into power. The majority of the people are voiceless but not tax-less. Only high taxation will waken them up. Representative government is based on the idea of majority rule but our minorities are so numerous that they are able to secure at night's planning raids on the public treasury for class interests and specific groups. They exert active and sustained pressure on weak, inefficient or helpless governments until the "powers" yield to continuous demands. Highly organized minority groups pressure governments and the country, while the majorities are asleep or refuse to take the trouble to vote. Mass indifference is the seed-ground of minority power and the increase of taxation will pay for placing pet delusions on the statute book. Selfish interests and one-way parties are grinding the gears of our society at the same time—and the people have no one to blame but themselves.

NATIONAL FOREST POLICY

(Financial Post)

Hon. James Lyons, Minister of Lands and Forests, of Ontario, in a speech in Montreal the other day, outlined his ideas of a proper forestry policy and the one he intends to initiate in Ontario. Mr. Lyons' policy would make a fine national forestry policy for Canada. He demands: "Better methods of cutting timber to make possible the utilization of all timber. More extensive use of the by-products now wasted. Proper methods of slash burning to prevent forest fires. An end to the slaughter of young trees for shipment to the big Canadian and American cities at Christmas time. An embargo on the export of unmanufactured wood. Mr. Lyons stated that the province of Ontario intended to start at once on a survey of the timber and water-power resources of the province in order that proper steps might be taken to provide for the reproduction of the timber. He said also that re-forestation methods would be studied and that broader efforts would be made towards combating the menace of fire. To that end twelve or fifteen flying boats would be in use next summer and these would patrol the forested areas of Ontario daily. Quick detection of fires is essential to prevent their spread and airplanes would find the fires quickly. Last year, said Mr. Lyons, more than 2,000,000 acres of forest land was burned over. 45 per cent of it new timber or second growth. It cost the province \$1,100,000 to fight forest fires or one-third of the whole provincial revenue from the forests. The need for a national forestry policy for the Dominion of Canada that would protect the capital invested in the lumbering and pulp industries of the country has long been urged. Canada has many millions of dollars invested in her forestry industries and thousands of people find employment in these industries. Yet the entire superstructure of the forestry industry of Canada is in danger—definite, real, present danger. Unless drastic measures are taken to insure a future supply of raw material for these industries they will wane away in the years to come.

VETERANS FEAR MUCH ECONOMY

(Ottawa, Feb. 12)—Declaring that the economy move in connection with the Federal Civil Service will prove particularly detrimental to ex-soldier government employes unless definite steps are taken in their protection, a meeting has been called of all veterans in the civil service and others interested, to be held here on Feb. 15. A circular letter, signed by Captain F. G. Forster, president of the Ottawa branch, G. W. A., has been sent out to more than 1,500 veterans in the civil service in Ottawa.

WOODROW WILSON.

(Frederick George Scott) Into the storms of hideous night He cast one mighty beacon light, To blaze until the end of time, A guide, a messenger sublime.

The engulfing darkness hid the ray Which heralded a nobler day, And men made blind with blood and hate Proclaimed the unyielding laws of fate.

"The hope is vain," they fiercely cried, "For men must die as men have died! The beast which lurks in human blood Alone can bear us through the flood."

"The battle to the strong must be, The weak shall know no victory, The power to drown in human pain Must be a nation's right to reign."

And so the banner he unfurled "Was leered at by a wrangling world, And nations settled down once more To forge the instruments of war."

The fierce suspicion and the hate, The poisoned tongue that sways the State, And passions bitter than flame Closed round his heart and overcame.

Thus at the stake of martyrdom His spirit found his Father's home, And in kind death's eternal peace His broken utterance—release.

Well done, Great Soul, thy work remains, And other hands will break the chains Which bind us to the customs past, And men shall see the light at last.

Well worth the Cross of Calvary, If by that cross mankind is freed, Will worth the anguish of the food, If men from this learn brotherhood!

Obedient Orders.

Walter—"Here, what are you doing with those teapots in your pocket?" Customer—"Doctor's orders." Walter—"What do you mean—doctor's orders?" Customer—"He told me to take two teapots after every meal."

Two Minds with a Single Thought.

"It's a shame," cried the young wife, "not a thing in the house fit to eat. I'm going straight home to mama."

"If you don't mind, dear," said the husband, reaching for his hat, "I'll go with you."

NEWS NOTES ABOUT BAPTISTS OF PROMINENCE

The following items are from the Maritime Baptist: Rev. Geo. McDonald, of the Victoria street church, St. John, goes to the assistance of Rev. L. W. Williamson on going evangelistic services in Carleton County. Later, Mr. Williamson expects to assist Mr. McDonald at Victoria street.

Rev. H. J. Bloss, pastor of Hopewell, who has been laid aside for a short time, resting, is gradually gaining health and vigor to the gratification of his many friends. He hopes soon to take up again the duties of his field.

Rev. B. E. Durkee, pastor of the Penobscot group of churches, and his family have been much afflicted during the last year. The eldest daughter, Merle, must be operated on for appendicitis, making the fourth operation in the family within a year. In this crisis, the people of Portage Vale have come to their assistance with a gift of \$83.

kins and party have postponed their contemplated campaign in Glace Bay. From Feb. 17 to 29 they expect to assist Pastor McGorman at Mahone Bay; from March 2 to 14, they will be at the Tabernacle, Halifax, Rev. E. E. Daley, pastor, and from March 16 to 28, their work will be in Berwick, Rev. P. R. Hayden, pastor.

We are pleased to note the following concerning one of the veterans of the Methodist ministry of the Nova Scotia Conference and his good wife: "On January 21 Rev. William Ryan of Auburn, Kings County, celebrated his 81st birthday. The Ladies' Aid of the Methodist church held a reception at the Methodist parsonage in honor of the aged clergyman and Mrs. Ryan, who is also advanced in years, being her 83rd year. She received a handsome bouquet of flowers, and both honored guests were complimented on their alert mentality and vigorous health. Mr. Ryan is the father of Rev. Mr. Ryan, a former Methodist minister of Windsor.

Rev. L. M. Weeks, formerly well known as a pastor within the bounds of our convention, went to Ontario

many years ago and has there been engaged in pastoral service, continuously, until quite recently, when he retired, settling in Ottawa. The rest resulting from retirement has been very beneficial to Mr. Weeks' health. He supplied the Parkdale church dur-

ing the interim between Dr. J. A. Gordon's retirement and the coming of the new pastor, preaching with much of his old-time vigor. Mr. Weeks is president of the Ottawa Baptist Ministerial Association, where much of his ministry has been performed. After fifty years spent in the ministry, twenty-two of them as professor of Church History and Practical Theology in the Free Church College, Aberdeen, Scotland, Prof. Stalker has resigned. Dr. Stalker is now seventy-five years old. He is recognized as in the front ranks of Biblical scholarship.

## SAYS NORTHERN ATLANTIC ROUTE IS SAFER THAN THAT TO NEW YORK

Dr. H. T. Barnes, Authority on Ice, Lectures in St. John.

A lecture of engrossing interest and of particular applicability to hydraulic engineers was delivered last night in the assembly hall of the N. B. Telephone Co., Ltd.'s building by Dr. Howard T. Barnes, D. Sc., F. R. S., of Montreal, before a number of members of the St. John branch of the Engineering Institute of Canada. H. F. Bennett, A. M. E. I. C., was in the chair.

Many beautiful pictures, all taken by Dr. Barnes in the course of his research work on the St. Lawrence and elsewhere, were projected on a screen. Especially artistic among them were pictures of ice crystals. The ice crystal reflects the rays of the sun in much the same manner as does a prism.

Dr. Barnes' subject was "Ice Formation and Prevention," and it was handled as only one perfectly familiar with the study of ice for many years could deal with it.

Although the lecture was somewhat technical, it held general interest in the fact that it dealt with problems which in their indirect effect have an enormous influence upon the public at large, such for instance as the effect of ice on modern power plants, and ice barriers causing spring and winter floods in rivers.

At the outset the lecturer described his early experiments carried out in 1896 on temperature variation in the water and the relationship between a small variation and the behavior of ice in the St. Lawrence River. The far-reaching result of this work was exemplified, he said, in the design of modern power houses, and ice handling machinery and the development of ice preventive methods.

The lecturer described the three varieties of ice such as frazil, or needle ice, anchor or ground ice and surface ice.

Frazil accumulations under the surface ice caused, he said, the immense dams and ice barriers which formed so rapidly in a river partly open and partly frozen over. Such barriers were called ice bridges, and he said were the cause of many floods during the winter and spring. Anchor ice, he said, grew on the bottom of an open river, and sometimes lifted the river right up, out of its bed and caused floods. This variety, he said, resembled the weeds seen growing on the bottom of a river during the summer.

Effect of Temperature. In dealing with surface ice, the lecturer referred particularly to the fact that air temperature and average water temperature governed the thickness of the ice in any locality. The lecturer described the conditions under which surface ice could be prevented from forming and illustrated how the work of the ice-breakers of the Canadian government were now preventing the serious floods on the St. Lawrence River between Montreal and Quebec. Artificial heating methods for preventing ice and the construction of power canals were considered.

The speaker traced the formation of icebergs from the fjords of Greenland and of their slow movement of 10 to 80 miles a day in their southern trip and occasionally of bergs becoming grounded and taking two years before reaching Newfoundland.

By means of a chart in which the area covered by icebergs became gradually wider to its southern extremity in the Atlantic Ocean below Newfoundland he argued that the northern route, by requiring a shorter distance through the danger zone of bergs, was safer than the route to New York and American ports, which some attempted to prove the safer route.

Further north there were fewer icebergs, and they were larger and easier to see and confined to the narrow narrow path, whereas as the icebergs moved southerly they disintegrated into smaller pieces which were largely below the surface and, scattered over a larger area, were more dangerous to navigation.

He expressed a willingness to debate the advantages of the northern route to Canadian ports as being safer than the southern route used by ships for American ports.

## WEDDINGS

Munroe-Gulliver.

A pretty wedding was solemnized on Wednesday, Jan. 30, at the home of the bride's aunt, Mrs. Elizabeth Wallace, Sussex, when her niece, Miss Hazel Swan Gulliver, daughter of the late Joseph Gulliver, Rockville, was united in marriage to Mr. Clarence James Munroe, of St. John. The ceremony was performed by Rev. A. V. Morash. The house was nicely decorated with cut flowers and plants and presented a pleasing appearance.

The bride, who was given in marriage by her brother, Mr. Harry Gulliver, was charmingly gowned in rose ash Canton crepe and carried a bridal bouquet. After the ceremony a delicious supper was served.

The bride was a popular member of the District Superintendent's office of the C. N. R., Moncton, from which she received a beautiful chest of silver. Mr. and Mrs. Munroe will reside in Los Angeles, Calif.

## DEATHS

Dr. P. H. Warnford.

Dr. Percy H. Warnford died at his home in Hampton Village yesterday afternoon and his death will be sincerely mourned by very many throughout the province. As a doctor he had won a well merited regard and as a highly esteemed member of the community his place will be difficult to fill. He was a son of the late Rev. E. A. Warnford, the beloved Anglican rector of Norton for many years.

After graduation from the Provincial Normal School Dr. Warnford taught in the Hampton Village school for a time and then entered upon his studies at McGill University. He graduated from McGill in 1887 and for some time practiced his profession in Canterbury, York county, before taking up his residence in Hampton, where he entered into partnership with the late Dr. George L. Taylor, M. P. P. After Dr. Taylor's death, Dr. Warnford carried on the practice unaided.

For a number of years he was ship's physician for the R. M. S. P. boats sailing from St. John to the West Indies. A few years ago he gave up his practice because of failing health. His fatal illness was of short duration, however, lasting but five days.

His wife, who was Miss Allison, of Windsor, N. S., died in 1906, and he is survived by two sons, Harry, of Hampton, and Eric, of Kingston, Jamaica, and one brother, Rev. Charles Warnford, of Windsor, England. The funeral will take place on Friday afternoon at 2 o'clock from his late residence at Hampton to the Church of the Ascension in Lower Norton.

Miss Sophia Longmaid. At the age of 91 years Miss Sophia Longmaid died yesterday at Glen Falls after a comparatively short illness. She was a teacher in the primary department of the Central Baptist church for more than 40 years, being a charter member of the old Brussels street church, which later became amalgamated with the Lennox street Baptist, which merged into Central church as it is now constituted.

Miss Longmaid was the daughter of the late John Longmaid, of Her Majesty's Customs, and Mrs. Longmaid. Mr. Longmaid died in the cholera plague on 1848 in this city. He came from England in 1830, just a few years after the Loyalists landed in St. John and might be considered a pioneer. Many of the adult members of the Central Baptist church and at other Baptist churches in the city recall the instruction received from Miss Long-

maid. She is survived by four nephews, F. E. Holman, P. B. Holman, Allan D. Barbour, of this city, and L. A. Holman, of Boston; three nieces, Mrs. J. C. Curry, Mrs. H. B. Spears, of this city, and Mrs. George D. Pope, of Summerside, P. E. I.

Miss Longmaid was the last of seven children. One of her sisters died last year at an advanced age. She was Mrs. Holman, brother of F. E. Holman. R. N. Longmaid, formerly of Her Majesty's Customs, was a brother. Mrs. John R. Calhoun, who died a short time ago, was also a sister.

The funeral service will be held at the residence of her nephew F. E. Holman, 282 St. James street, on Thursday afternoon at 2.30 o'clock.

C. C. Chipman. Winnipeg, Feb. 12.—C. C. Chipman, at one time private secretary to Sir Charles Tupper, Bart, died today at his home in Leamington Spc, England.

Clarence Campbell Chipman was born in Amherst, N. S., on May 24, 1856, the son of John Allan Chipman and Abbie (Brown) Chipman. He was educated in the Amherst schools and in 1867 entered the new Canadian customs service. His ability attracted the attention of Sir Charles Tupper, Bart, also a native of Amherst, long known as "The war horse of Cumberland," and when Sir Charles was appointed Minister of Railways and Canals in the cabinet of Sir John Macdonald, Mr. Chipman became his secretary. When the Cumberland baronet was appointed high commissioner of Canada to England in 1884, Mr. Chipman accompanied him and remained in the Canadian office in London until he was appointed chief commissioner of the Hudson's Bay Company in 1891. He retired in 1911.

Rev. Dr. MacDonald. Antigonish, N. S., Feb. 12.—Rev. Donald MacDonald, D. D., aged 69, died at St. Martha's Hospital here today following a brief illness. Dr. MacDonald, who was a native of North Side, East Bay, Cape Breton, was apparently in his usual health on Sunday when in the morning he celebrated mass and in the evening officiated at Benediction.

He was formerly vice-rector of St. Francis Xavier University, pastor of the parish of Lakerave, Antigonish, pastor of Margaree and of recent years he has been chaplain of Bethany, the mother house of the Sisters of St. Martha at Antigonish.

SECRET OR HIS SUCCESS. One of the most noted, successful and richest men of this country in a recent article said, "Whatever I am and whatever success I have attained in this world I owe it all to my wife."

Simple Application That Dissolves Blackheads. No more squeezing and pinching to get rid of those unsightly blemishes, blackheads. There is one simple, safe and sure way to get them out, and that is to dissolve them. Get about two ounces of peroxide powder from your drugist—sprinkle a little on a hot, wet cloth—rub briskly over the blackheads for a few seconds—wash the parts, and every blackhead will be gone. Pinching and squeezing out blackheads, makes large pores, and you cannot get all of the blackheads out this way—while this simple application of peroxide powder and water dissolves every particle of them and leaves the skin and pores in their natural condition.

From the day I first knew her she has been an inspiration and the greatest helpmate of my life. Health is the first essential of every woman who wants to be a successful wife and to hold the love and admiration of her husband. If a woman finds her energies flagging and dark circles appearing under her eyes, she has lackache, headaches, nervousness and the "blues," she should take Lydia E. Pinkham's Vegetable Compound, the medicine which holds the record of helping 98 out of every 100 women who try it. There is nothing better.

RECEIVE WEDDING GIFTS. Two teachers of the Portland Methodist Sunday School, Mrs. Glenn Cunningham and Mrs. Archibald Luck, who were married last summer were specially honored at last night's quarterly meeting of the board of management of the Sunday school at the parsonage, 111 Paradise Row. Wedding gifts of silver cake baskets were presented to the bride and groom.

William Albertson offered prayer. Fifty officers and teachers were present. A brief outline of the finances was given by Allen Lingley, the treasurer, showing the school to be in a flourishing condition. A short address was given by Rev. H. A. Goodwin, the pastor, and Miss Elsie Spence sang a solo. At the close of the meeting a pleasant social time was enjoyed and refreshments served. Heartly thanks were extended to Mr. and Mrs. Goodwin for their hospitality.

Social Notes Of Interest

The benefit given at the residence of Mrs. T. N. Vincent, 5 Garden street, yesterday afternoon, was a great success. It was under the auspices of the St. John Women's Institute and added many dollars to its treasury. The house was decorated with Valentine emblems and was very attractive. Card tables were arranged upstairs, as well as down and 22 tables were played, an extra one being added. The prize winners were, in the order named: Mrs. John M. Driscoll, Mrs. A. E. Massie, Mrs. G. Fred Fisher, Mrs. George R. Smith, Mrs. D. L. Hutchinson and Mrs. T. J. Phillips. The serving was done by some of the players. Some of those present were Mrs. G. Fred Fisher, Mrs. Margaret Lawrence, Mrs. Frank B. Ellis, Mrs. Frank Rowe, Mrs. A. P. Paterson, Miss Nellie Lynch, Miss Jessie Lawson, Mrs. William H. Shaw, Miss Hilda Shaw, Mrs. George Fleming, Mrs. R. G. Schofield, Mrs. A. Collins, Mrs. Francis A. Almsworth, Mrs. Philip Grandon, Mrs. J. Delbert Seely, Mrs. D. B. Mahoney, Mrs. G. Willford Campbell, Mrs. A. R. Melrose, Mrs. James H. Doidge, Mrs. H. B. Peck, Miss Ella McLaughlin, Mrs. A. J. Mulcahy, Miss Maud Reticall, Mrs. Fred McLean, Mrs. D. L. Hutchinson, Mrs. Duferin W. Harper, Mrs. Charles Macdonald, Mrs. W. E. Rowley, Mrs. Leon Keith, Mrs. E. Stanley Olive, Mrs. C. B. Allan, Miss Clara McGivern, Mrs. A. E. Wilson, Mrs. Ralph Robertson, Mrs. George Murray, Mrs. W. Smith, Mrs. Richard Hooper, Mrs. Otto Nase, Mrs. George Noble, Mrs. Fred B. Schofield, Miss Anne Sharkey, Miss Harriet Vincent, Mrs. Frank Rowe, Mrs. J. W. Y. Lawlor and many others. The prizes were donated by members of the institute and were very desirable. Those who served were the bride and hostess as follows: Miss Hilda Shaw, Mrs. D. W. Harper, Mrs. W. E. Rowley, Mrs. Fred McLean, Mrs. A. P. Paterson, Mrs. Frank Rowe and Mrs. H. B. Peck.

MISS MARY M. MESSER.

"It is a period of transition, things thought impossible now in a state of flux—no wonder superficial observers are alarmed," she says. "But those who study deeper into the causes and effects are more hopeful and more certain of a happier future. "Laws made by men to fit conditions centuries back are still in effect. But women have progressed, while these laws have stood still. They are the bride against which the modern woman strains, resentful even of its presence. Cause for Divorce. "A finer home relationship is demanded by the new woman and, being refused, she wrecks the home altogether by divorce court suit. Or, perhaps, unconsciously, she is alarmed, who finds himself forced to file suit. "The old must pass, is passing, and from its wreck the new woman evolves a world to fit her new independence and her new mentality. "Men will be glad to see women assume leadership in the construction of a new, stable domestic life, declares Miss Messer. "They are weary of present unsatisfactory, insecure domestic conditions, realize the failure they are making in their attempts to construct and are quite willing to give women their opportunity. "The world today searches for a more spiritual love," says Miss Messer. "When this is found everything else—including laws—will shape themselves to conform. "The cause of the present unrest—'rebellion' might be a better term—goes deeper than laws. Love, expressed in terms satisfactory to both parties, is the only indissoluble bond and the only sure foundation for permanency in domestic partnership. Sign of Progress. Increasing ratio of divorce to marriage is no more than a protest being translated into terms of action, says Miss Messer, and considered thus is a most encouraging symptom of a detestation towards upward progression—not by any means to end in total destruction of the home. "Love, marriage and the home are permanent, fundamental realities which cannot be destroyed," she states. "The present rebellion is not indicative of a resolve to attempt their destruction, but, taken collectively, show only a fixed determination that these fundamental truths shall be given a more firm foundation for continuance, and a less risky superstructure. "Neither community life nor any other substitution for home life of the family will ever be successful. The individuality, the charm and repose of the home is essential to happiness. "But a community life outside, the front and handsome flowing lace sleeves. Her rooms were very pretty with daffodils, jonquils and other spring flowers. In the dining room African margolids of a rich golden hue centred the table, which was lighted by deep blue candles in silver candlesticks. Mrs. R. Ernest Smith and Mrs. J. Cecil Mitchell presided over the tea and were assisted in serving by Mrs. W. Grant Smith, Mrs. John MacLean, Mrs. H. P. Bennett, Mrs. Edythe Mitchell, Miss Marion Henderson and Miss Helen Smith. Mrs. W. A. Henderson ushered and Master Gordon Black, son of the hostess, was a gallant little usher at the door. The guests numbered more than 150.

SISTER MARY'S KITCHEN VALENTINE Sister Mary Tells How To Prepare Children's Party

(By Sister Mary.) Valentine Day (Feb. 14) always has a distinct appeal to small people. It affords unusual opportunities for decoration. Sandwiches, cakes, salads, ice creams and candies can be made heart shaped and the favors can be tiny heart-shaped boxes filled with candy. A Jack Horner pie in the shape of a huge heart might be made of pink crepe-paper rose petals and suspended over the dining table. Ribbons should be attached to favors in the "pie," reaching to each plate, and the children should pull at the same time. The menu should be simple and easily digested but quite gala and paraded. Menu. Creamed Salmon in Rice Cups. Bread and Butter Sandwiches. Tomato Jelly Salad. Heart Cakes. Raspberry Sponge. Hot Chocolate. Creamed Salmon in Rice Cups. One quart canned tomatoes, 2 carrots, 4 blades of celery, 3 sprigs parsley, 4 cloves, 1 small onion, 2 teaspoons sugar, 1/2 teaspoon salt, 1-8 teaspoon pepper, 2 tablespoons gelatine. Soften gelatine in one-half cup cold water. Wash and scrape carrots and cut in thin slices. Cut celery in small pieces. Peel and slice onion. Put tomatoes, vegetables and seasonings in stew pan and simmer 20 minutes. Rub through a fine sieve. Reheat to boiling point and add to softened gelatine. Stir until dissolved. Pour into individual heart-shaped molds and put in a cold place to chill and become firm. Serve on hearts of lettuce with a boiled salad dressing. Raspberry Sponge. Prepare package of raspberry gelatine according to directions. When beginning to set beat with a Dover beater until frothy. Add one cup heavy cream whipped until stiff. Fold in one cup candied cherries and one-half cup meats and turn into a mold to chill and become firm. Serve with whipped cream slightly sweetened and flavored with vanilla.

anniversary, for which an ambitious programme has been arranged. The tour of Miss Finley and Mrs. Foster commenced at Quebec and they have already visited Halifax and Moncton. Miss Finley leaves this evening to continue her visitations. Mrs. Foster will remain until the end of the week to aid in solving local problems. In company with Miss Finley, she will afterwards visit Montreal and tour Ontario. The tour of the provinces west, Mrs. Foster will carry through alone. Has Been in Quebec. Mrs. Foster was delighted to be in St. John again as she found friends in every section of the city. Since leaving here she has been taking charge of the Y. W. C. A. at Quebec where there is splendid equipment for the work but where it has been considerably more difficult to get in touch with the girls. She was able to form two girls clubs in Quebec and had the satisfaction of seeing the work forge ahead while in charge there, she said. Miss MacDonald, the field secretary for the western section, is now in charge at Quebec. At each of the centres at which Miss Finley and Mrs. Foster have stopped on their tour they have held splendid meetings but they were particularly pleased with the meeting in Moncton where they found Mrs. W. H. Lugsdin was heading up the work for girls and had organized two enthusiastic girls clubs, numbering more than 60.

Biennial Convention. Miss Finley and Mrs. Foster are visiting the various Y. W. C. A. centres to tell of the coming biennial convention of the Dominion Y. W. C. A. in Preston, Ont., commencing on May 17 and continuing until May 21. As the world convention of the Y. W. C. A. will be held in Washington, D. C., from May 9 to 14 with representatives present from each of the 84 nations in which the Y. W. C. A. has been established, it has been possible to secure as speakers for the Dominion biennial convention many of the world convention delegates, including Miss Niven, and the head of the world's immigration department of the Y. W. C. A., as well as Hon. Mrs. Waldegrade, world's president of the association. Miss Finley will attend the world convention and the Dominion biennial and this year she will also take part in the Montreal Y. W. C. A.'s celebration of its fiftieth anniversary.

Be Safe---Say Robinson's

The secret is out! Noted Parisian perfumer finally discloses the reason why his most popular odors have for years been the favorite of so many women.

To create this kind of a perfume, said the aged creator of Rigaud odors, "we did not trust our own judgment entirely; we investigated most carefully; we distilled nearly 100 new odors and secured dozens of women to give them actual tests in their social contacts with men. "We did not rely upon the opinions alone of the beautiful women of France. We carried our tests into Spain, into Italy, into England, into Russia, and to America. You will find at the better shops a complete line of toilet accessories, fragrant with Parfume Rigaud. Ask to see them.

home is needed, together with labor-saving devices which will prevent the home being a place of drudgery for anyone. Sex Equality Ahead. Realization of the ideal love will bring with it a complete equality between the sexes, believes Miss Messer. There will be an interchange of achievement, encouragement, helpful aid, upon an equal partnership footing. "Women's life will be balanced between home and career. Before marriage she will have her career, gathering experience. From this she will pass to the home, where will be performed her chief work, the giving to the world of two or three healthy children of good character and mentality. But when the children have passed adolescence, she will revert to her career. "For," concludes Miss Messer, "the idea that a woman's intellectual power begins to ebb as she reaches middle age is pure myth."

Y. W. C. A. HEADS ON VISIT HERE

On Tour in Connection With Canadian Biennial Convention Outstanding among workers for women in the Dominion, Miss Greta Finley, president of the Young Women's Christian Association, Montreal, one of the largest and most enterprising in Canada, arrived in the city yesterday. She will address a public meeting in the Y. W. C. A. Recreation Centre this afternoon on her recent trip to the East and the Y. W. C. A. in India.

Miss Finley is accompanied by two friends of the St. John Y. W. C. A., Mrs. Percival Foster, formerly general secretary here, and Mrs. W. H. Lugsdin, former president of the St. John Y. W. C. A. All three were cordially welcomed. Yesterday afternoon they were guests at a tea given by Mrs. John A. McAvity at her residence on Orange street when Miss Finley charmed and delighted everyone. Mrs. Sidney Jones entertained yesterday afternoon at a delightful informal bridge, her guest of honor being Miss Ethel Daniels of Biddeford, Nova Scotia. The function, which was greatly enjoyed, was held at the cozy home of Mrs. Jones, Douglas avenue.

Mrs. Robert C. Cruikshank, King street east, was a charming hostess yesterday afternoon, at her home, the occasion being for Mrs. George Howie, of Manawagonish Road, who has recently come here to live. She is formerly a resident of Fredericton and has many friends in St. John.

Mrs. Daryl Peters entertained yesterday afternoon at a cozy bridge for a few friends at her residence, 15 Leinster street.

Miss Beryl Mullin was hostess for the Younger Set Bridge Club last evening, at the residence of her parents, Dr. and Mrs. Daniel Mullin, Mecklenburg street.

Mrs. J. R. Harrison, of Windsor, N. S., who is visiting her mother, Mrs. J. Morris Robinson, Sr., at Carville Hall, has returned from Montreal. Mrs. Harrison will go home next week. She is being entertained at several informal functions during her stay in the city, among them a small bridge of two tables this afternoon.

Mrs. W. H. Lugsdin, of Moncton, came in on the afternoon train yesterday, accompanying Mrs. Percival Foster, of Toronto, and Miss Greta Finley, of Montreal, on their official visit here. Mrs. John A. McAvity was at the station to meet the visitors. They will immediately to the Sign of the Lantern House, where they will remain during their stay. Mrs. Foster, Miss Finley and Mrs. Lugsdin were tea guests with the officials and members of the board of the Y. W. C. A. in the afternoon and dinner guests with Mrs. McAvity and her family in the evening. Mrs. Lugsdin will be a guest of Mrs. Mariner G. Teed.

SPORT NEWS GLEANED FROM WORLD'S CENTRES

FIRST CANADIAN CITY TO GET MEET

St. John Will See Fastest Skaters in Stirring Contests.

That the greatest speed skaters on the continent will again appear in St. John in another big classic is gratifying news to the thousands of fans in this city. For months they have eagerly awaited some word as to the final allocation of the various meets and now they are assured of a place on the big circuit it is up to them to make it an unequalled success.

This time it will be the International Indoor Championships and St. John is being honored by being the first city in Canada ever to secure this trophy meet. The dates are February 25, 26 and 27. A feather in St. John's cap is more than that! It is an indication that St. John is looked upon by those who control the skating destinies of the United States and is being well worthy of such meeds as have been allotted to the city by the sea for the last three years.

May Get World Meet. It has been not without the idea of giving St. John the honor of the last meet of the season that the St. John Skating Association went after the International Indoor Championships for 1924.

True it is, that such a meet is a novelty for any Canadian city and will provide all the thrills that can be packed into three days of any sport. But the members of the local association saw further ahead. They saw the possibilities of a world championship title being fought for right here in St. John next year and the 1924 events may yet prove to be a stepping stone from the international classic of last year to a world-wide series of skating contests in 1925.

Less than two weeks from today—on February 25, 26 and 27, to be exact—the international indoor meet will be staged in the Arena and already the committees in charge have done a lot towards perfecting their plans. Yesterday they visited the rink and looked over the accommodation, arranged with an engineer to lay out a track, the largest and best on which a meet of this calibre has ever been skated, and made provision for the transportation of the skating axes from the international outdoor championship meet at Lake Placid.

In this feature of the arrangements they are being assisted by Joe Page, the largest skater who has informed the committee that the skaters will arrive in St. John on a special car attached to the Montreal train, due here about noon on Sunday, February 24.

Although it was announced yesterday afternoon that Charles Jewtraw whose sensational finish in the three mile race at Lily Lake last year won for him international honors, had signified his intention of quitting the game for this year, the local committee have not given up hope that the United States finish will be here at the indoor events. Negotiations to that end are now being carried out, and it is the general wish that their efforts will be crowned with success.

Several speakers declared that a tour by the American and African boxing teams would do much toward encouraging amateur sparring in Australia. Jimmie Pruzetti and Irish Kid Burns had been matched, and would box here under the auspices of the Army club on Friday night, Feb. 22. Both of these men are advertised as contenders for the lightweight championship of the New England States. Gordon Paris is also booked up for the exhibition, but has not been matched as yet.

Too Big! Trying to Take George Slaters' Job Proves Rookie's Undoing.

CEDRIC DURRANT

A year ago the most talked of recruit in the major leagues was Cedric Durrant of the St. Louis Browns. Coming to the club as an outfielder, he was touted the best prospect of the year.

Then came the break that probably had much to do with Durrant's failure to deliver. When it was apparent that George Sisler would not be able to play first, Durrant was delegated to fill the shoes of the game's greatest player.

It was too big a task for the recruit. In the first dozen games he made only one hit, a home run.

Now he goes to the minors, being one of the players recently traded to Los Angeles of the Coast League.

SUZANNE VICTOR AGAIN

JOHN O' GAUNT IS DESTROYED IN MEDDLER STUD, NEWMARKET

Horsemen in this country have received news of the death of the stallion John O' Gaunt, which was destroyed at the Meddler Stud, Newmarket, recently, at the age of twenty-three. John O' Gaunt's sire was Inglewood and his dam La Fische. He was bred by the late Sir Tatton Sykes and was sold as a yearling for 3,000 guineas. In his race for the 2,000 Guineas, though he made a bad start, he finished second, four lengths behind St. Amant, and in the Derby that followed he again occupied the same position to St. Amant. Accident prevented him from running in the St. Leger, after which he stood at the stud. He sired Swynford, the champion sire of 1923.

GEORGE SISLER TO PITCH AGAIN

Brown's Pilot Has Decided to Take His Turn in the Box.

St. Louis, Mo., Feb. 13.—George Sisler, manager of the St. Louis Americans, plans to return to the game this season in the capacity of manager, first baseman and pitcher, according to a letter received by Walter Fritch, vice-president of the Browns.

Sisler declares in the letter that even should his eyes prevent him from resuming his old position as first baseman, he intends to take his regular turn on the mound. At present, however, the letter stated, he is confident that he will be able to take his regular turn as pitcher and when not pitching to play first base, in addition to acting as manager of the team.

MANY AMATEUR ATHLETES REGISTER

More Than 1,000 Have Received Their Cards—A New Record.

P. J. Legge, secretary of the M. P. B. A. U. of C., announced last night that so far this year there had been more than 1,000 amateur athletes registered in New Brunswick. This number, he said, established a record which had not been equalled since the re-organization of the Athletic Union in 1919, for this period of the year. He predicts that the total number registered for this year will exceed by far the number registered last year.

MCKENZIE MAKES A GOOD SHOWING

Establishes One New Record and Ties Another in Tuxis Meet.

One Tuxis record was smashed and another was tied by William McKenzie of the Portland Methodist group in the ice sports of the City Tuxis squares held last night on the East St. John rink. McKenzie made a splendid showing and practically all of the 24 boys who took part in the sports gave exhibitions of speed that were remarkable but McKenzie was easily the star.

He secured a total of 90 points. Mowry, also of Portland group, came second with 46 points. Webster, a third member of the group, scored 10 and brought the group total to 140 and giving it a big lead over the next group, Brookville, which secured 20 points. Ludlow street boys scored 10 points and Central Baptist 10. The 100 yards dash and the one mile race are still to be run off and will be raced tonight on the East End ice.

The officials of the races were as follows: Starter, A. R. Cruikshank; judges, Alexander Wilson, F. Withers, F. Myles and K. Lawton; timers, C. W. McCully, R. Tooley; clerk of the course, H. G. Naves and assistant, Murray Sergeant.

The 220 yards was run off first in three heats and in the first heat W. Webster of Portland was first, and Cosman of Exmouth street was second. The time was 24.4-5 seconds. In the second heat McKenzie was first and McKay of Brookville, second, the time being 23.1-5. In the final heat McKenzie equalled the city Tuxis record and skated in 22 seconds flat. McKay was second and Webster third.

The 440 yards also was run off in three heats. In the first heat the time was 47.3-5 seconds. McKenzie was first with McCrae, of Central Baptist, second. In the second heat Mowry was first and Ross, of Central, second. The time was 50.1-5 seconds. In the final heat McKenzie came first, Mowry second and McCrae, third. The time was 46.2-5 seconds.

In the half mile McKenzie clipped 11.3-5 seconds from the former Tuxis record for St. John which was 1.45.2-5. His time last night was 1.34.4-5. Mowry came second and McCavour, of Ludlow street, third.

GOING TO TRY TO LIFT CUP. W. A. Shaw and J. S. Malcolm will skip the rinks for the Thistle Curling Club, when they clash with Amherst this evening for the possession of the McLellan cup. The Thistle rinks left for Amherst on the noon train today.

FRENCH GIRLS GAIN HEALTH IN OUTDOOR SPORT. Paris, Feb. 13.—Medical records show that the general health of French girls is improving, due in large measure to their growing interest in and adoption of outdoor sports. Chlorosis, once prevalent, has almost entirely disappeared.

REES LEADS ENGLISH JOCKEYS FOR 1924 NATIONAL HUNT TITLE

F. B. Rees, who won the jockey championship of the National Hunt in England last year in as close a race with J. Hogan, Jr., as that which prevailed on the flat between Donoghue and Elliott, has taken the lead for 1924. The latest compilations received show that Rees has won second eight times, third four times, and unplaced fourteen, for a percentage of 38.09. A. Scott is second with twelve firsts, six placed 32 times for a percentage of 32.52. Hogan is third with eight victories, five seconds, and one times. His percentage is 22.85. With two victories in one day G. Duller jumped into fourth place, with seven victories, five seconds and the same number of thirds. He was unplaced 12 times and his percentage is 24.13.

FRANK ASH WINS OVER JOHNNY BUFF

Successor to Jimmy Wilde Outpoints Former World Champion.

Jersey City, N. J., Feb. 13.—Frank Ash of England, successor to Jimmy Wilde as European flyweight boxing champion, in his first American fight since last night outpointed Johnny Buff, former world's bantamweight and American flyweight titleholder, in a ten round contest, in the opinion of a majority of newspapermen at the ringside.

The critics gave Ash all but the first round which they declared even. Ash's best weapon was a left jab with which he punched Buff's face throughout.

Cleveland, Feb. 13.—What is said to be a world's record for indoor grand opera attendance was established here last night when 8,889 persons attended the Chicago Civic Opera Co. performance at Public Hall.

MORE ABOUT OWEN MOORE.

Theatre Editor, Times-Star.

Sir,—In an article bearing the heading "Fall in Love With Miss Pickford Here," and which goes on to relate how Owen Moore, her former husband, fell in love with her picture while he was playing as a member of the Talking Picture Company at the old Nickel Theatre here, there is a little inaccuracy regarding Mr. Moore which I would like to correct.

The article mentions Mr. Moore as an "embody" actor. At the time referred to he could hardly be called that, which, as I understand the phrase, means a "huddling" actor, or almost a "beginner," as you will, for Mr. Moore had—previous to his appearance here with the company—already mentioned—appeared here with two companies several years before.

In proof of this I might say that early in June, 1904, I accidentally met him at the corner of Seventh avenue and 34th street, New York, and while we were talking and discussing several local friends our attention was attracted to a negro running past and flashing into a house a couple of doors from the corner, closely followed by a couple of policemen.

TWIN THEATRES UNDER ONE ROOF

New York Interests Plan House for Both Music and Drama.

New York, Feb. 13.—It was learned this week that future productions by Max Reinhardt in New York will probably be presented in a unique theatre to be built for Morris Gest.

The plan is to have two theatres under one roof, the larger one on the ground floor, a smaller one above, with a seating capacity of 800, for chamber music concerts or theatrical productions of intimate type.

The larger theatre will be stageless, permitting the use of such plays as Ibsen's "The Master Builder," in which the spectators participate from the auditorium.

Mr. Kahn, at a luncheon given by the Drama League to those principally concerned in "The Miracle," pointed out that such a production was possible only because Americans were genuinely interested in art, and were not solely concerned, as they were often misrepresented to be, with the chase of the almighty dollar.

DIVING ACTRESS FINDS TREASURE CHEST ON BOTTOM OF ATLANTIC

Nearly \$48,000 in Spanish Doubloons is Taken from Ocean Depths.

Probably the shades of Captain Kidd, Henry Morgan, Blackbeard and the host of swashbuckling pirates who swept the Seven Seas in their black raskish craft, with the skull and crossbones defying the winds from the land yards, are rattling their bones in impotent vexation since the news was announced several days ago that Jean Tolley, Metro player, diving into the waters around Nassau, Bahama Islands, discovered nearly \$48,000 in Spanish gold doubloons, part of their immense hoard of stolen treasure which legend says is secreted up and down the Atlantic coast.

But that's just what happened. The news of Miss Tolley's discovery crammed the cables to all parts of the world and she sprang into international prominence over night!

Several days ago Miss Tolley, having finished her work before the camera in Metro's "The Uninvited Guest"—it was while diving for the camera that she came upon the ancient treasure chest—arrived in New York from the Bahamas. Her good fortune had preceded her, of course, and she was met at the pier by an immense crowd of wildly enthusiastic friends, acquaintances, strangers, speculators who wanted to invest the money for her, and others who knew her when.

They were all greatly disappointed that she did not walk down the gangplank with the treasure chest under her arm. It had to be left at the Royal Bank of Canada at Nassau, where the treasure was appraised and deposited to Miss Tolley's account.

After the British Government has taken its share, a law for all discovered treasure in its vast domains, Miss Tolley will have a comfortable fortune in her own right. Really a delightful prospect for one who was desperately down and out not so long ago.

How She Found It. Miss Tolley found her fortune diving to the bottom of the sea while scenes in "The Uninvited Guest" were being taken. She saw a curious old chest lying exposed on the mud bottom. In a few seconds she was in the water, pulled and lugged to the surface, and when she reached the surface, she found the chest. She was not alone, and she was not alone, and she was not alone.

She was not alone, and she was not alone, and she was not alone. She was not alone, and she was not alone, and she was not alone.

She was not alone, and she was not alone, and she was not alone. She was not alone, and she was not alone, and she was not alone.

She was not alone, and she was not alone, and she was not alone. She was not alone, and she was not alone, and she was not alone.

She was not alone, and she was not alone, and she was not alone. She was not alone, and she was not alone, and she was not alone.

She was not alone, and she was not alone, and she was not alone. She was not alone, and she was not alone, and she was not alone.

She was not alone, and she was not alone, and she was not alone. She was not alone, and she was not alone, and she was not alone.

She was not alone, and she was not alone, and she was not alone. She was not alone, and she was not alone, and she was not alone.

She was not alone, and she was not alone, and she was not alone. She was not alone, and she was not alone, and she was not alone.

She was not alone, and she was not alone, and she was not alone. She was not alone, and she was not alone, and she was not alone.

She was not alone, and she was not alone, and she was not alone. She was not alone, and she was not alone, and she was not alone.
