Miners' Strike Ends; General Resumption Of Work on Monday

Government to Ask Parliament to Authorize Ten Million Pound Subsidy—Some Assurances that Are Requested—Other Labor Troubles.

London, June 28.—The British coal mine strike, which has been in progress since April 1, has been settled, so it was officially announced this afternoon.

It is understood that Lloyd George will ask parliament this afternoon to authorize the granting of a ten million pounds subsidy to the mining industry.

The miners will resume work generally next Monday if the subsidy is granted.

The government offered this subsidy several weeks ago, but withdrew after the recent proposition by the owners for a settlement had been voted down by the miners.

The provincial agreement, which is conditional upon the government offering of ten million pounds being renewed, provides that the minimum wage for a seven hour day shall not be less than twenty per cent above the previous standard for an eight hour day, with a division of income between wages and profits both for standard wages and surplus income on the basis of one hundred pounds wages of seventeen pounds profits.

During the coal dispute 1,120,000 tons of coal have been imported into England, mostly from France and Belgium, though America contributed 325,000 tons.

In several other industries, including the engineering trade, wage disputes continue, and ballots are being taken by a large number of men on proposals to accept wage reductions. There is little doubt that the votes will be against accepting the proposed reductions but it is probable that negotiations will be resumed.

Mr. Greer was a member of the 140th Battalion, C. E. F., and served overseas for three years. He was about thirty years of age, and is survived by his wife, Mrs. Burden, daughter of Mr. W. J. Burden, his father, James Greer of Grand Manan and Milly of this city.

THE IRISH CASE IN BRITISH CABINET

Reported Resignations if Any Further Oscillation.

London Times Airs Rumors of Inside Happenings — Mrs. Skeffington Said to Have Been an Intermediary in Negotiations Matter.

London, June 28.—The parliamentary correspondent of the London Times, discussing Premier Lloyd George's invitation to Sir James Craig and Eamon De Valera, declares that in judging the situation it is important to bear in mind that although the letter was signed by Lloyd George, it represents the policy of the cabinet.

The correspondent says that after the king's visit to Belfast, the scene quickly changed and the invitation was issued. "A guarantee of stability in this later period," says the correspondent, "is believed to lie in the determination of some of the important ministers to resign rather than assent to any further extension, tactical or otherwise."

Believe He Will Accept. Dublin, June 28.—In both official and private circles De Valera's acceptance of Lloyd George's intervention is regarded as probable.

The Irish Bulletin, the Daily Eireann's official organ, answering intimations in the British press of a division between De Valera and the extremists, says no such division ever existed. Mr. De Valera himself, it asserts, repeatedly has said publicly that the national army is under control of the national civil government, and that the ministry of the Dail Eireann is responsible for both policy and executive action.

MRS. SKEFFINGTON AS INTERMEDIARY. London, June 28.—Mrs. F. Sheehy Skeffington, widow of an Irish nationalist leader, who was executed following the Easter Monday riots in 1916, has played a prominent part in bringing about recent developments relative to peace in Ireland, so it is said in London.

It has been impossible hitherto to obtain from Dublin definite news as to the prospects of the acceptance of the premier's invitation to the Irish leaders to meet under government auspices. This has been due to the reticence of De Valera and other Sinn Fein leaders who have been in jail.

Mr. De Valera's consultations with his colleagues are understood to have progressed on Monday night. It is said that if he desires access to imprisoned Sinn Feiners for further discussions permission will be given.

It is further reported that if a full meeting of the Sinn Fein parliament should be required to obtain sanction of any decision taken, this also would be allowed, and safe conduct to the chosen members would be granted imprisoned members of that body.

Southern Parliament. Dublin, June 28.—The ceremony of opening the southern parliament will be held today. A partial attendance on the part of senators is anticipated, but the lower house is expected to be virtually unrepresented. The Lord Mayor of Dublin has received notification to attend.

CONSERVATIVE LOSSES DEPOSIT

Col. Spencer is Overwhelmed in Medicine Hat.

Newspaper Opinion on the Result—An Index to What a General Election Will Bring.

Medicine Hat, June 28.—Col. Nelson Spencer, government candidate last his deposit in the by-election held here yesterday. It is expected the majority of Robert Gardiner, the farmer candidate, will exceed 6,000. In the 8 polls heard from Gardiner has a majority upwards of 5,000 and there are sixty polls still to come in, all rural polls that will swell the farmer candidate's majority. The final vote will not be known for a day or two.

Medicine Hat, June 28.—Col. Nelson Spencer, government candidate last his deposit in the by-election held here yesterday. It is expected the majority of Robert Gardiner, the farmer candidate, will exceed 6,000.

Robert Gardiner of Excel is described as a veteran in the farmers' movement. He was born in Aberdeenshire, Scotland, and came to Canada in 1902 and homesteaded in North Battleford. In 1911 he bought land at Excel, Saskatchewan, and has since then made three-quarters of a section. He has been a member of the United Farmers of Alberta for ten years, has been vice-president of the municipal districts association of Alberta and a member of the Alberta Municipal Hall Insurance Board.

Medicine Hat, June 28.—The result speaks for itself. "The overwhelming victory which has been won is a vindication of the plan of constructive action for which the organized farmers stand," said Robert Gardiner, the successful candidate in yesterday's election. Gardiner, he said:

"It is a victory for the principles of our organization which have been enshrined in all our statutes. It was not only by our members but also by other organized democratic groups and many detached voters who are in close sympathy with our policy and programme. The contest has been fought out in so far as we are concerned, upon clearly defined issues of principle. If he realized the dignity of his position, a representative and truly democratic government. It demonstrates the possibility of progressive groups co-operating efficiently."

Press Comment. Le Canada, Montreal: "Another defeat has just been added to those of Elgin East, Peterboro, Yamaska, Temiscaming and others where Mr. Meighen and his candidates have been repudiated by the electorate. The Medicine Hat decision shows the sentiment is general among the population of Canada and that everywhere people have, as it were, joined hands to make Mr. Meighen understand that he does not represent the people and that he has usurped power. If he realized the dignity of his position, he would immediately appeal to the people." The Toronto Globe in a front page editorial captioned "The Vote of the West," says: "There are no safe seats for the Meighen government in the by-election in Medicine Hat is caused by the death of the Hon. A. L. Sifton, is an indication of how the people of the prairie provinces vote when a general election can no longer be deferred. The voice of Medicine Hat is the voice of Alberta for the Meighen government. The west will have none of it."

Calgary, Alberta: The voice of western Canada spoke at the polls in Medicine Hat condemning the Meighen government in language which no one can fail to interpret. What Medicine Hat did yesterday every other riding on the prairies with any considerable rural vote can do and will do at the first opportunity.

LURE, MIND READER & MENTAL MARVEL, AT OPERA HOUSE

Tonight, at the Opera House, those who believe in mental telepathy and those who are inclined to scoff at the idea that any one mortal person can read the future are going to be astounded and surprised, when Lore, the wonderful mental marvel, appears for the first time in this city and readily and rapidly answers all questions that may be in the minds of those in the audience, not only of past events but in regard to things that are to happen later. If you are in doubt of any business venture, lost any articles, wish to be guided right in moves to come later—anything you wish to know, ask Lore, she will tell you truly and with wisdom. Reports for other cities say she is almost unanny and bewilderers and mystifies with her weird powers. There will be plenty of opportunity for all who wish to ask questions during her appearance and at some afternoon later in the week she will give every lady in the audience a chance for a private confidential question. Lore will appear at every performance tonight, tomorrow and Thursday.

Jack and Beanstock
Imperial Novelty

Those Wonderful Kiddies
Have Another Fairy Fantasy Ready for This Thursday, After Schools Close.

An added joy for the children of St. John when the schools close Thursday will be the grand matinee opening at 4 o'clock the same day of the third offering of Mrs. Jack Bosley's Imperial Miniatures in that time-honored and first-tel tradition concerning Jack and The Beanstalk, or the angry mother who split the beans and made a hero of her boy by accident. The author of this tale will present in his grave from sheer delight when he hears of the gratification his fiction receives at the hands of the juvenile troupe.

Last Christmas the Imperial's Miniatures presented "Red Wings, an Indian legend, at Easter they covered themselves with credit in "Beauty and The Beast." Now it is "Jack and The Beanstalk," otherwise known as "Jack The Giant Killer." There will be a real eight-foot giant, Mrs. Giant, the indispensible love-lorn Princess, the necessary Demon, Sprites, Fairies, village n'rythms, songs, dances, choruses, drills, marches, funny lines and thrilling plot. Artist Stringer has built a stage of 200 feet long and tall to tell about here.

Oh yes, the show will be for the grown-ups too. At night time, eight o'clock in addition to the film bills. Yes, indeed, the Imperial was severely reprimanded last time for trying to keep this troupe for the kiddies alone. So to keep out of trouble the show will be put on for everybody. Prices 15c and 25c at the matinee; 25c and 50c at night.

ALBERTA CROP REPORT NOT SO GOOD AS IT WAS

Winnipeg, June 28—(Canadian Press)—With the exception of a large area in Southern Alberta the Canadian west continues to give promise of a splendid grain crop, according to the weekly report of the C. P. R. issued here today.

Winnipeg, June 28—Taking the west as a whole, conditions are not so rosy as they were on June 8, when the last report was issued. It says the third crop reported today. It says the weather has been somewhat too hot and dry.

"Manitoba has suffered the least from any drawback, but conditions are serious in Alberta. The change in Alberta conditions has come so suddenly that one correspondent writes: "We had scarcely adjusted ourselves to the fact that we are facing the possibilities of another crop failure." In addition to drought and hot winds, Alberta has had considerable loss from cutworm.

Saskatchewan is holding its own well, the report says, and a feature of the report from all the provinces is the small amount of damage so far from grasshoppers.

PERRY CASE IS GIVEN INTO CARE OF GRAND JURY

Yarmouth, N. S., June 28.—The case of Mrs. Clara Elizabeth Perry, charged with the murder of her husband, Capt. George H. Perry, on or about February 26 last, was presented to the grand jury this morning by Justice Humphrey McElish, presiding over the supreme court. The grand jury has heard the evidence and it was not to be indicted upon mere suspicion, but they were to consider the evidence as a whole. The evidence was largely circumstantial, he said, and when it was sought to establish a case on such evidence, it was usual and proper to look for motives.

He reviewed the evidence, tending to show disaffection between Captain and Mrs. Perry, and their subsequent reconciliation. Since then, he said, there was no evidence to show that there had been any serious disagreement between husband and wife, but on the other hand there was evidence to show that Mrs. Perry had been very attentive to her husband during an illness.

The Yarmouth Curling Rink, transformed into a hall of justice was crowded at this morning's hearing. Fifty per cent. of the jury retired at 11.15 a. m.

PLAN TO USE OLD SEMINARY IN ST. MARTINS

Purchase Expected Today—Headquarters of the Bethel Bible School.

Fredrickton, N. B., June 28.—The old Baptist seminary at St. Martin's, St. John county, now owned by three St. John men, is about to be put into use again, this time as the headquarters of the Bethel Bible School, an educational institution now conducted at Spencer, Maine, by Rev. E. W. Kenyon, evangelist.

Frank D. Swin, ex-M. L. A., of Doakstown, and Havelock Sumson of Campbellton, who has lately been actively identified with Mr. Kenyon's work, have gone to St. John, where they expect to conclude arrangements today for the purchase of the property. It is said that \$100,000 will be necessary to establish the new institution.

Mr. Sumson said that he had found opposition to students being recruited for Mr. Kenyon's school upon the ground that it meant sending the young people out of Canada, and inasmuch as his evangelistic activities had been confined largely to the maritime provinces in recent years, it has been decided to establish his school here. It will be an industrial school, where students attending will have an opportunity to work at various kinds of employment to provide for their tuition and board.

A DELIGHTFUL COMEDY IS AT THE UNIQUE THEATRE

An audience that packed the theatre from floor to roof, hugely enjoyed "The Hookie's Return," Douglas MacLean's latest Paramount starring vehicle, which was displayed at the Unique Theatre yesterday. That the fans enjoyed the comedy almost as much as "Twenty-three and a Half Hours' Leave" was amply evidenced throughout the showing. Mr. MacLean is rapidly coming into his own as a screen star. He has personality and magnetism and both are conspicuous in his portrayal of the dough-boy who on his return home, seeks to adjust himself to the exigencies of civilian life with more or less success. The story of "The Hookie's Return" is an interesting one and the love romance, which is strong, coupled with the humor of the situations, makes this one of the most enjoyable comedies of the MacLean repertoire. As usual, Mr. MacLean is capably supported, his leading woman being Doris Day. This is an unusually good picture and well worth seeing.

MORNING NEWS OVER THE WIRES

A jury was empaneled yesterday morning to inquire into the death of Mrs. G. W. Green, who died on Sunday evening from the effects of having been struck by an automobile at Somerville. The jury viewed the body and the scene of the accident and gave permission for the burial of the body. Adjournment was made until 10 o'clock on Thursday. Mrs. Green, who was the mother of a family of seven small children, was struck by a car, driven by Byron Ross of Fredericton. She sustained a broken leg, a fractured hip, a broken arm and nose, and it was thought at the time that her neck was broken. She was taken to the office of Dr. L. L. McIntosh, Hartland, where she died about eight p. m. Byron Ross, who continued his journey home after taking Mrs. Green to the doctor, will be present at the inquest without being summoned. The international schooner racer, Esperanto, has been raised from the mud bank on which she foundered off Sable Island. It is feared that she may sink again if a wind rises. The strike of the Quebec police and firemen continued yesterday in spite of the appeals made by Cardinal Begin for conciliation. Five firemen were arrested at their homes by the city detectives under the municipal strike and lockout act. It was announced by R. B. Maxwell, president of the G. W. V. A., yesterday, that the Dominion convention of the association would be postponed from July 4 until the fall. The convention will be held at Port Arthur, Ont. The steamer Camerlian docked at Halifax last night, where she landed 190 passengers and sailed for New York this morning. Frank Duncan, one of the stewards, died suddenly yesterday morning and was buried at sea. MAN KILLED NEAR MONCTON. William Wallace Craig of Sackville, formerly of Chatham, was struck by the west bound Ocean Limited express yesterday afternoon, between Sunny Brae and Moncton and died on the way to the hospital in Moncton. The fireman of the train observed the man on the tracks but before the train could be stopped it had hit Craig. The unfortunate man was placed on the train and pushed to Moncton, but he expired in the ambulance on the way to the hospital. Mr. Craig held the office of sergeant-major in the Salvation Army and was deeply interested in religious work. He leaves a wife residing in Sackville. An inquest was held in Moncton yesterday afternoon, Dr. R. L. Boltford, the coroner. Fireman Yelly, Engineer Colpitta and John Lloyd, C. N. R. detective, testified. The jury found that Craig came to his death by being struck on the railroad tracks between Sunny Brae and Moncton.

There are Good Woollens and many not so good. Men's clothing demands close scrutiny this season. Quantities of very inferior cloth were made up during the war period and have been shuffled back and forth from mill to dealer and from dealer to dealer. Clothing made from these inferior cloths you can get at practically any figure you want to pay. But if you've had experience with clothes made of cloths of doubtful character you know they are dear at any price. Therefore we advise "Caution" in making your purchases. If you want to be absolutely SURE, buy where you have confidence in your clothier—don't take chances, they are often costly. Men's and Young Men's Suits of a Quality, Type and Character are modestly priced here at \$25 and upward. Especial values at \$30, \$35 and \$40.

The east end of the city will be experiencing a building boom of about twenty-five dwelling houses shortly if the plans of a resident of another province can be realized. This man owns a considerable stock of lumber, stored in this city and, it is understood, has been unable to find a market for it. He is now negotiating for purchase of a lot of land in the east end, and if the price asked is reasonable he will commence building operations in the near future on this lot.

LOST HIS DEPOSIT.

Mr. Gratton O'Leary, staff correspondent of the Canadian Press, cabled from London two days ago that Premier Meighen, "although up to his ears in the international morass, is keeping one eye open for the result of the by-election in far-away Medicine Hat."

Medicine Hat spoke yesterday, and it is discovered that Mr. Meighen's candidature was also in a morass, and that he was unable to reach the high ground of political safety.

There are five more by-elections to be held, in West York, St. Antoine, Leeds, Maple Creek and Durham. These are widely scattered constituencies and the result of the contests, which it is assumed will be held during the fall, will be awaited with very keen interest.

If now peace in Ireland may be restored the United Kingdom will enter upon a brighter era and the Empire will rejoice.

A CAUSTIC SPEECH.

The British attorney-general, Sir Gordon Hewart, in a recent address before a conference of coalition Liberals of the city and county of Leicester, said some very sharp things about the Asquith Liberals and their attitude toward those who stood for coalition.

DISARMAMENT.

Mr. Lloyd George told the conference of Dominion premiers that Britain was ready to discuss with the United States any proposal for the limitation of armaments. Mr. Chamberlain, leader of the House, said on June 17 that it was desirable to have such an understanding.

Then the Senate tackled a further \$98,000,000. The two bodies next had to confer, and finally lapped off \$90,000,000. And there the matter rests for the moment.

As the compromise leaves things, the abandonment of the increases made in the Senate is sorer of adoption than is the Borah resolution.

The American Federation of Labor will call on the United States government to bring about recognition of the Irish republic. President Harding and his advisers will politely inform the Federation that a cardinal principle in good statesmanship is to mind one's own business.

Unhappy times that mingle the curfew's clang with the peaceful tones of shandon bells.

Schools of physics, chemistry, microbiology, and Jewish literature and language have been opened at the Jewish University in Palestine. Arabs are to be admitted as well as Jews.

DAWN OF BRIGHTER DAYS.

The end of the miners' strike in Great Britain is the great news of the day. The loss incurred during the strike has been enormous, and nothing has been gained that could not have been as well gained while the work in the mines went on.

The demands of the men were too radical, and alienated public sympathy. The attempt to bring on a general strike failed because other workmen could not see eye to eye with the miners.

The upholder of the memory training system was lauding its merits. "Why not take a course in efficiency training?" said he.

LAST RESOURCE.

Wife—John, the doctor says I need a little change.

Husband—Ask him to give it to you. He's got the last of mine.

SABLE ISLAND.

Halifax, N. S., June 28.—(By Canadian Press.)—The wreck of the Gloucester fishing schooner Esperanto on a bar to the south of Sable Island, some hundreds of miles off the Nova Scotia coast, has directed the attention of the shipping and sporting world to that sinister little strip of sand.

When shipping became more accustomed to the waters about Sable Island, the wreck followed them to their own ruin, and the place was the abode of wild characters who preyed on unfortunate vessels that came within reach of their treacherous sand bars.

In modern days the British government established life-saving stations on all its coasts in view of the fact that the place was such a menace to shipping, and when the wireless proved itself to be an important centre in the Marconi system.

WARNS AGAINST FORCES THAT MIGHT CAUSE WAR AGAIN.

Ottawa, June 29.—(Canadian Press.)—Warning that forces were at work which unless checked in a very decided manner would lead to another world catastrophe and forecasting a determined drive for the amalgamation of all the soldier organizations of Canada as a contribution toward the maintenance of the British Empire.

NEARLY SWINDLED.

English armies were at Falais, France, bombing the Rhine cities of Germany. Corporal Mills one night saw a number of excited people standing at a farm gate. He learned that a woman of 19 had fallen into the well 50 feet deep, and no attempt was being made to rescue her. Single-handed, he brought the victim to the surface, though he had been told it meant death to go into the shaft, and that she was undoubtedly dead before he had arrived. The rescue was brought to the attention of the French authorities, and the medal and a letter of congratulation arrived here.

WILL DISPOSES OF LOCK OF MARY STUART'S HAIR

Washington Woman Makes Request of a Strand That the Queen's Executioner Spared.
Washington, June 28.—A lock of hair said to have once adorned the head of Mary Stuart, Queen of Scotland, is bequeathed by Mrs. Henrietta B. Heiskell, widow of Henry Lee Heiskell, to her cousin, Carol B. Chilton, according to the will filed for probate.
Mary, the daughter of Henry VIII and Catherine of Aragon, was suspected by Elizabeth, the daughter of Henry and Ann Boleyn, of designs against the English throne and was executed. The headman, it is related, was so impressed with the silky locks of his victim that he directed his attendants to throw the hair back over her head so that he might not have to spoil it with his axe.
Mrs. Heiskell makes bequests to various charitable institutions in this city and numerous cash bequests to friends and relatives.

ROPE BREAKS, WOMAN SAVED, Husband Dying After Lowering Himself From Roof to Attack Her.

New York, June 28.—The breaking of a rope was believed to have prevented an attack on the life of Mrs. Irene Lippman of 216 East Eighty-third street, when her husband, Jack Lippman, twenty-seven years old, of 240 West Fourteenth street, attempted to lower himself to the

window of her bedroom. Armed with a pistol and a butcher knife, he had almost reached the window ledge when the frayed rope snapped and plunged him three stories to a cement extension roof. He suffered internal injuries that probably will result in death.
Lippman had repeatedly threatened to kill his wife and himself since their separation two years ago because of his cruelty, according to Mrs. Lippman. He tied a rope around the chimney of the house and lowered himself to the fourth floor, where he believed his wife's room to be. He found that her room was one floor below and tried to descend, but dropped when the rope broke.
Tenants were aroused by the fall and found the man groaning. The pistol was in his pocket, the knife lay beside him. Lippman was taken to Bellevue Hospital. In the presence of a number of persons, according to the police, Lippman said that he had intended to cut his wife's throat and then shoot himself.

THE EVENING TIMES AND STAR, ST. JOHN, N. B., TUESDAY, JUNE 28, 1921

On To Calgary and The Women's Council

We arrived at Winnipeg at 7.30 p. m., and, our party considerably augmented by other National women, we hurriedly thrust our bags into the enveloping arms of a diminutive Japanese red cap, sought the check room, and passing through innumerable by-ways and highways of railway confusion rejoined some of our own party at the big entrance, for our mecca was the famous Fort Garry Hotel. We were informed that we had missed our scheduled C. N. R. train, and Mrs. Thorburn informed us that the delightful official had inquired of her for the St. John ladies, whom she laughingly said "were being royally treated, and that it was a pity they could not all be St. John women." This bright woman, one of the big stars, I learned during sessions of the National, is one of the cleverest raconteurs of stories, and an encircling band of women always brings the emphasis that "she has a new story," followed by merry peals of laughter, that ripple and re-echo until the whole atmosphere is re-saturated with the gay untrammelled spirit of the camaraderie of splendid womanhood.

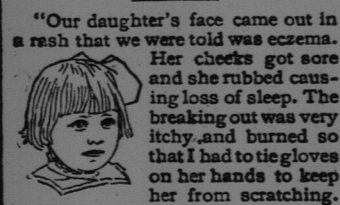

Her friends met Mrs. Thorburn and into her hands thrust great, almost overwhelming bunches of lilacs, inviting her to dine, etc., but she stated that she was staying with the delegates. Then we gathered round her, where confetti from some recent wedding party was lavishly strewn, and asked her when it happened, and softly hummed "Here Comes the Bride!"

"At the Fort Garry Hotel, where we registered, so passing friends might mark we had passed that way, Mrs. Muldrew was solemnly and in learned language giving our names, nationalities, and destination, and this is the "Women's Parliament of Canada," Calgary, etc., and broken phrases in reply was his smiling, courteous welcome, "I love these women conventions." Now could hospitality to greet dust stained travelers bring sight but smiles of free masonry?

A waiting bell boy possessed himself of our wraps, and we entered the beautiful, artistic dining room on right of entrance, to the soft, delightful strains of music from an orchestra on a raised platform at end of this large room. At adjoining tables the delegates from Ontario and New Brunswick scanned the

Very Itchy and Burned. Troubled Six Weeks.

"Our daughter's face came out in a rash that was very itchy and burned. Her cheeks got sore and she rubbed causing loss of sleep. The breaking out was very itchy and burned so that I had to tie gloves on her hands to keep her from scratching. This trouble lasted about six weeks before I used Cuticura. I used one large box of Cuticura Ointment with two cakes of Cuticura Soap when she was healed." (Signed) Mrs. H. Sares, Bleheim Rd., Oak, Ont.

Ladies! Here Is the Secret of True Beauty

LET WOMEN realize that paint and powder cannot take the place of healthy organs that function properly every day. The basis of good health is regular daily elimination. Then the skin is clear, the eyes bright.

ment. "First place I have seen out of New York," enthused one member. We learned that the majority of the waiters and members of the orchestra were returned boys from France, who had faithfully served their king and country in the 27th Winnipeg Battalion. We ordered our dinner lavishly for we were hungry, and then there was the zest and happiness of being served by those boys. Their interest in us was manifest in the smiles and bowdyes, following our exit from the room. We were escorted on a hotel sight seeing tour, to the mezzanine floor, to the Royal suite where our prince had rested while in that busy, bustling, western metropolis; saw the Rose room, the Palm room, the private dining room and the ball room, etc.; then a hurried call and a hasty gathering of wraps from smiling Japanese boys, and back to the station, where our Japanese with gay little red cap and charming smile awaited our return. How he conveyed so many bags and travelled so swiftly through the hurrying throngs of passengers puzzled us considerably; and easy means of locomotion became an undignified Marathon for us all to catch up to those flying feet. Everything intact we found in our room on the waiting train, and in a few seconds this room was invaded by a new party of Nationals from Ontario, among these the National corresponding secretary, Mrs. Horace Parson, whose alert mind and extensive work proved her force and caliber. We were eagerly questioned as to our whereabouts since leaving St. John.

WOMAN, NATIVE OF YORK COUNTY, 107 YESTERDAY

(Canadian Press Dispatch) Vancouver, B.C., June 27—Mrs. George Debeck of Marpole, near here, today is celebrating her 107th birthday. She is the oldest woman in British Columbia and possibly in Canada. Mrs. Debeck was born in Canterbury (N.B.) on June 27, 1814, and came to British Columbia fifty-five children, five are still living, the eldest surviving child being eighty years old. Mrs. Debeck still enjoys good health and it is in possession of all her faculties.

That Corn ends tonight

Make that resolve and watch what Blue-jay does. Apply it with a touch—the liquid or the plaster. The corn pain will cease at once. In a little while the whole corn will loosen and come out.

This is the scientific method and is right. A famous chemist perfected it. This world-famed laboratory stakes its reputation on it.

It is gentle, yet sure. The old, harsh methods are not in favor now.

Over 100 million corns Blue-jay has ended at least a hundred million corns. Now it is ending, probably, 20 million corns a year.

It has brought to multitudes freedom from corn aches.

Such a relief—easy, quick and simple—deserves your test. Try it on one corn tonight.

Ottawa, June 27—Salaries of ministers in the provincial governments and the members of the provincial legislatures, are liable for income tax. This is the judgment of Hon. Mr. Justice Audette says that he fails to see any ground on which

GIRLS! LEMONS BLEACH THE SKIN

Squeeze the juice of two lemons into a bottle containing three ounces of Orchar White, which any drug store will supply for a few cents, shake well, and you have a quart of pink and whiter skin. The little, diffident untraveled St. John girl, under the western skies of Canada, had found her place in life's great plan, and is developing into a splendid type of western womanhood. She has learned to run her car, to ride a western horse, and to even sleep out on the prairie with undisturbed equanimity and in the radiance of her smile and the quiet content of her husband's presence we realized she had come into her woman's kingdom.

Science Proves the Danger of Bleeding Gums

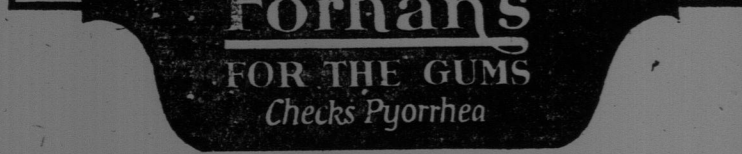

Medical science proves that unhealthy gums cause serious ailments. People suffering from Pyorrhea (a disease of the gums) often suffer from other ills, such as rheumatism, anemia, nervous disorders, or weak vital organs. These ills have been traced in many cases to the Pyorrhea germs which breed in pockets about the teeth.

Four out of five people over forty have Pyorrhea. It begins with tender and bleeding gums. Then the gums recede, the teeth decay, loosen and fall out, or must be extracted to rid the system of the infecting Pyorrhea germs.

Guard your health and your teeth. Keep Pyorrhea away. Visit your dentist often for tooth and gum inspection, and make daily use of Forhan's For the Gums.

Forhan's For the Gums will prevent Pyorrhea—or check its progress—if used in time and used consistently. Ordinary dentists cannot do this. Forhan's will keep the gums firm and healthy, the teeth white and clean.

REDUCTION IN FREIGHT RATES, BUT GRADUAL

Winnipeg, June 27.—Judgment was reserved yesterday by Hon. F. B. Carvell, chairman of the board of railway commissioners, in the application of representatives of livestock interests of the west and middle west for a fifty per cent reduction in freight rates. Application was made on the contention that the livestock industry was almost completely ruined through high freight rates. Mr. Carvell said the board wanted to be fair with the railways and general public. "However, I think I can see a little light in the near future. While there can be a reduction in rates, it will not all come at once. But with a little patience and some persistence I believe we can see some immediate results."

GUN COTTON BLAST HEARD FOR 15 MILES

Explosion Supposed to Have Been Caused by Sun's Heat Damages Nixon Nitration Works.

New Brunswick, N. J., June 28.—An explosion, followed by a series of fires occurring shortly after two o'clock Friday afternoon in the plant used during the war by the Nixon Nitration Works at Nixon, N. J., five miles from here, sent hundreds of employees and residents scurrying in the belief that it was centered in a powder storeroom on the grounds. The detonation was heard in Perth Amboy, fifteen miles away, as well as in this city. No one was injured but the explosion, which was believed to have been caused by the rays of the sun shining on a quantity of gun cotton. The force of the explosion hurled bits of blazing lumber as far distant as a half mile. Some of the burning material came down on a group of warehouses at one end of the 200-acre plant where peric acid and explosives were stored. Employees, working under Stanhope Nixon, son of former Public Service Commissioner Lewis Nixon of New York, owner of the grounds, centred their activities on this section while fire companies from Baritan, Piscataway town, Metuchen and this city were hurrying to the scene.

Mr. Nixon, who was in his office at the time of the explosion, said that his office employees and himself were showered with glass. The pile of waste in a cotton, which ignited, was located in a depression about a thousand feet away, close by a half-torn down building. It is the custom of the company to play this material off at regular intervals and it was believed that the heat of the past few days had dried the pile up. The damage caused by the explosion was not large, according to Mr. Nixon.

SKIRTS VEX OFFICE MORALE.

Chicago Rail Concern Sets Rules for Modest Phoebe Skirts.

Chicago, June 28.—Short skirts, rouged pecked-boob waists and rolled stockings have been placed under the ban in the offices of a large railroad company here. Officers of the road insisted that the styles of dress worn by young women in the road's employ were becoming embarrassing to the working morale of the office, it was said. "The new rule said, was 'preferred hot weather fabric.' Another rule stated that the general appearance of the girls should be such as is becoming to office service."

IMPROVED TRAIN SERVICE WOODSTOCK-AROOSTOOK

Effective after June 26th Canadian Pacific trains 158 and 154, now operating St. Stephen to Woodstock and return, will be extended to run as far north as Aroostook. Train 154 will leave Aroostook at 4:10 a.m. Eastern Standard and run through to McAdam, making connections at that point with all trains east and southbound. Returning train 158, connecting at McAdam with all evening trains will leave Woodstock at 9:00 p.m. and arrive Aroostook at 11:20 p.m.

This service will be of great benefit to the traveling public generally, and more particularly to those located at points north of Woodstock up to and including Aroostook and they will now be able to make trip to St. John, Fredericton, St. Stephen, St. Andrews or other points in province and return the same day. Mixed trains 155 and 156, which carry passengers between Woodstock and Aroostook have been cancelled.

OSAGE ARE RICHEST PEOPLE.

Greatest Per Capita Wealth in World Results From Oil Deal.

Washington, June 28.—Sale at auction of 30,000 acres of Osage Indian reservation oil lands near Tulsa, Okla., for \$4,500,000 plus a bonus of one-sixth of the oil products from the land, was approved by the Interior Department. The land went to oil operators and approximately 2,000 members of the Osage tribe participate in the proceeds of the sale. It was estimated each would receive an annual income of \$10,000 and the Osage Indians became the richest people in the world per capita.

LISBON THE PICTURE CITY OF PORTUGAL

Port Has an Appeal for Seeker of Quaint and Individual Places.

Lisbon which newspapers dispatches report in civil upheaval, has an appeal for the seeker of quaint and individual places, according to a bulletin from the Washington, D. C., headquarters of the National Geographical Society. The bulletin says:

"This port of Portugal, which has very aptly been called the kernel of the country, saw the commercial pride of the Phoenicians and heard the fervent prayers of Vasco da Gama before he set out on his perilous voyage in search of India, the land which had lured navigators for centuries. Lisbon's ancient name was Ulisipo which caused many creek scholars to try to connect it with the wanderings of Ulysses, but the same probably originated from two Phoenician words meaning Pleasant Bay, which is made doubly plausible because the mouth of the Tagus just beyond the city widens into one of the best harbors in the whole of Europe.

A Mosaic of Conquests.

"The Romans knew Lisbon as Felicitas Julia, and it grew to be the second city of Lusitania, that famous district of Hispania in the time of the Caesars. Its temple and theatre ruins attest its occupation. Successively it has been

And then---It's Always Good Alike.

seized by the Alans, the Visigoths, the Moors, and the Crusaders. The fact that inhabitants of Lisbon were tolerant of the coloring of the crowds in the Lisbon streets today. The kindly influence of the English Crusaders who mingled with the Portuguese masses left its mark too, and has shown itself in the friendly relation that have, practically ever since, existed between the two nations.

"Men of letters have sought out the city for its individuality and beauty which caused the ecstatic Byron upon first beholding from the bay its terraced seven hills to exclaim: 'What a paradise doth Lisbon first unfold!'

Her image floating on that noble tide Which poets vainly pave with sands of gold."

"Commercially the city has natural advantages in its harbor which can accommodate the largest vessels, and an advantageous position on the Atlantic. At present its trade is confined chiefly to exporting cork, wine, olive oil and tropical fruits to and importing coal, wood, corn, rice and manufactured articles from England, Brazil and its own African colonies.

A Misdemeanor.

"Along the Tagus vegetables, fruits and flowers are piled in high heaps to tempt the eager marketeers, boats of every description from the dingy little fishing smack to the ladylike Atlantic liner are loading and unloading their cargoes, and the fish peddlers who are to be seen everywhere in the Lisbon streets are raucously bargaining for their stock in trade with the fishermen along the wharves.

"Then house above house in every-ascending terraces the city proper rises above the water front, its white buildings gleaming in the sunlight. In the hills near the city there is a limestone as white and soft as chalk which becomes hard upon exposure and this has largely been used as building material. Many of the buildings are faced with colored tiles, and others are washed pink or blue, but there is a softness in the general impression nevertheless which is very pleasing. The old tiled roofs, which are wrapped and curving with the grass-grown furrows are delightful.

"The houses and streets in the greater part of the city present a spick and span appearance, but some of the older portions of the city are not only rustic in appearance, but are dirty. Morning and evening the milkman drives his cows through the streets and satisfies the housewife's mind that his wares are fresh by milking her pail full while she waits. One ardent civic improvement enthusiast as late as 1888 put up a plea that the inhabitant be forbidden to break their horses to kill or singe their pigs in the streets or to tie them to their doorsteps, as such things rather annoyed the inhabitants. King Dines as City Riots.

"The government houses are in the Praça do Comercio around Black Horse Square, nicknamed from the equestrian statue of King Joseph which opens out toward the water. Rolling Motion Square, so called from the wavy mosaic of its pavement, is the business district. West from the centre of the city stands the Palace of the Necessaries, where on a night in October, 1910 King Manoel II. entertained a gay party of Brazilians at his last meal in his realm. While the dinner was at its height, word was brought to him that revolution had broken out. He went calmly on with the dinner, scribbling on a menu card that the courses of the meal were to be served as expeditiously as possible, and not until the shells struck the palace walls did he rise from the table.

"Lisbon has one possession of which any city could be proud. It is the monastery of San Jeronimo which, in the beauty of its marbles, porphyry, jasper, jade, lapis lazuli, its mosaics, and its inlays, is said to be unexcelled except by the Sistine Chapel in Rome. On the site there originally stood a hospice and chapel built by Henry the Navigator for sailors. Here on the night of July 6, 1497, Vasco da Gama retired to pray earnestly for the success of the voyage on which he would embark on the next day. Here, too, the King made a vow that if he were successful a noble temple should be built, and when the famous adventurer returned, the first stone of the present building was laid."

Curiosity Is Rewarded. A brilliant private car in King street, Manchester, was the centre of much interest yesterday morning. A large blue question mark on the bonnet replaced the badge of the makers. A considerable crowd had collected, and when several members of it had asked in vain for the make of the car one persistent old gentleman called to a boy standing near a wheel to look at the hub-cap for the name. The boy supplied the information with glee, for distinctly stamped on the hub-cap was "Nosey Parker." Manchester Guardian.

That South End Game.
In regard to the failure of the St. Peter's and Royals to play on the South End diamond last evening, Roy Cameron, chairman of the grounds committee, explains that the five teams in the league had each agreed to name fifteen players and did so. The list was placed in his hands. Last evening the captain of St. Peter's, on the ground that he could not get two of his players and was entitled to fifteen, asked to be permitted to put a new man in the box. The Royals protested, taking the ground that only the fifteen first named were eligible as players. This was endorsed by the captain and other teams in the league, as the matter had been up for discussion last week. As a result of the deadlock St. Peter's left the field and the Royals played a scratch game with another team of colored players. It was a roaring game, and the large crowd present had no end of amusement.

Beaconsfield Wins.
A fast game of baseball was played last evening on the Beaconsfield diamond, when the Beaconsfield School team disposed of the Carleton Indians, 15 to 9. The effective pitching of Whittaker, who struck out eight Indians, assisted by three snappy double plays, turned the tide for Beaconsfield. The batteries were: Winners, Whittaker and Cairns; losers, Williamson, Hargrave Campbell and Tippitt.

A Challenge.
The Young Athletics wish to challenge the St. David Lions to a game of ball to be played on Canterbury street diamond on Wednesday evening at seven o'clock. They desire an answer through these columns.

Nashwaak Indians defeated the St. Peter's Cutler Beavers when they piled up ten runs to the Beavers' two in seven innings. The Beavers crossed the plate on two runs in the seventh, saving themselves from a shutout as the score was 7 to 0 at the end of the sixth. Corcoran for the Indians, pitched a fine game and well supported. The Indians touched Corcoran for eleven hits. The score of the game was a smashing 10 to 2 in favor of Corcoran in the second inning when he drove out a liner over field that netted two runs, McCrossin scoring ahead of Corcoran.

Y. M. C. I. Team Wins.
The Y. M. C. I. team defeated the tons by a score of 5 to 1 in an exhibition game played on Queen Square last evening. The game was good to stop at 3-3, but at that time it was decided to continue as there was time to complete nine innings. The score at the end of the nine innings was 5 to 1 in favor of the west enders, the official score reverted back to the period agreed on.

Rovers Win Another.
The East End Rovers defeated the River seniors by a score of 12 to 0 in the East St. John diamond last evening. Stirling and Gibbs formed the try for the winners, and Howard Train for the losers.

Play Tie Game.

NEW SCHEME TO CHECK BATTERS
Philadelphia Scientist Has Invented Substance to Rub on Ball, and Umpires Say it is O. K.

New York, June 28.—Chemistry has been enlisted to aid pitchers in their efforts to stop the avalanche of heavy hitting in the big leagues.

A Philadelphia scientist has invented a moist chalklike substance which, rubbed on a brand-new ball, roughens the glossy surface and gives the twirler a first grip.

The umpires, not the pitchers, rub this unnamed substance on the horsehide. The experiment was first tried at Shibe Park, Philadelphia, a few days ago. It was tried again at the Yankee-Washington game, and Carl Mays, the New York pitcher, said:

"It's fine. It gives a pitcher a chance to throw a curve ball. I would have won five more games this year if we'd had it all along."

Walter Johnson of Washington also likes it. Umpires Nallin, Chill and Owens, who have coated the balls, said they would recommend its approval to the heads of the major leagues.

BIG FIGHT CAN BE SEEN BY EXACTLY 91,613 PERSONS

If the arena in Jersey City is sold out, exactly 91,613 persons will see the light between Dempsey and Carpenter. According to Tex Rickard, the promoter, this is the largest arena in the world, and he quotes Carpenter, who has inspected it, as saying that it is the largest he has ever seen.

Originally it was planned to build this octagon-shaped grandstand to hold 50,000. Then it was enlarged to 70,000 and now more than 90,000 fight fans will have parking space for the big bout. Rickard anticipates gate receipts close to \$1,000,000.

WILLARD, TOO BUSY TO ATTEND FIGHT. WILL NOT PICK WINNER
Kansas City, Mo., June 28.—Jess Wil- lard, former heavyweight champion, told friends he was too busy to be in Jersey City, N. J., on July 2 to witness the championship bout between Jack Dempsey and Georges Carpentier. He added that he had stopped over here while enroute to old fields in Montana. Asked what chance he thought Car- pentier would have with the champion, Willard said: "I haven't seen Dempsey for a long time."
In response to a question as to whether he planned to fight Carpentier should the latter defeat Dempsey, Wil- lard declared:
"I am too busy to think of fighting anybody just now."

Cutton, president of Acadia University, of which both bride and groom are graduates, will perform the ceremony. The groom was this morning admitted to the bar of Nova Scotia.

A pretty wedding was solemnized in the Cathedral of the Immaculate Conception on Monday June 27, at 2:30 o'clock, when Rev. After the ceremony, a dainty breakfast was served at the home of the bride's mother in Waterloo street, after which Mr. and Mrs. Arseneau left on a trip through the provinces. The bride's travelling suit was of navy blue gabardine with small black hat. The presents received were numerous and beautiful, including a check from W. J. Magee, with whom the groom is employed. The out of town guests at the wedding were Mr. and Mrs. W. P. Whalen and children of Sussex, and Mrs. H. C. Brown of Moncton.

Hanrahan-Bowes.
A wedding of much interest to a large circle of relatives and friends in St. John took place in the Cathedral of the Holy Cross, Boston, on Monday morning June 20, when, with nuptial mass, Rev. Father Dacey united in marriage with the double ring service, Marie Alice Bowes, R. N., daughter of Mrs. Mary J. and the late Thomas J. Bowes, of this city, and John Hanrahan, son of Mrs. Ellen and the late Mathias Hanrahan of Antigonish, N. S. She was attended by her youngest sister, Bertha Marion. Frank J. Hay, of Brookline, Mass., supported the groom. After the ceremony luncheon was partaken of and Mr. and Mrs. Hanrahan left on a honeymoon trip to New York and other cities in the U. S.

POLICE COURT

In the police court this morning one man charged with drunkenness was fined \$8.

Carl Kelly, charged with assaulting Helen Bricau Sunday night at nine o'clock, was before the magistrate. Detective Saunders made the arrest. Miss Bricau gave evidence that he struck her on the face and head. She said they had been friendly until about two weeks ago. Kelly said that two weeks ago they had some words and that she followed him in the street, calling him names. He said that on Sunday night he saw her in Waterloo street, called her and caught her by the arm, whereupon she ran out in the middle of the street and called for the police. He said he walked away and was arrested about 1:30 Monday morning. The case was postponed. It was said the acquaintance began in a cafe where the girl worked.

The case concerning the ownership of a dog, between George Brown and Fred Haines, was resumed. Evidence was given by the two parties and also by Thomas Zed, who worked with Haines. The case was dismissed.

CIRCUIT COURT IN SESSION TODAY

A Matter for Reference to the Attorney General—Some of the Taxes.

With His Honor Mr. Justice Chandler presiding, the June sitting of the Circuit Court opened this morning. There was rather a small docket. No cases were dealt with this morning but hearings were arranged for and certain non-jury cases set down for trial in chambers later. An application in the case of Albert Sullivan, charged with an offence against a girl, to have a grand jury, was made by J. A. Barry, but his honor said that he would have to refer the matter to the attorney-general before he could grant this request. There were no criminal matters on the docket. Among the civil cases is an action by the government at Ottawa for recovery of a large sum against Ready's Breweries and as a contrast a claim for about \$40 in another case on a doctor's bill.

The petit jurors summoned are: Claude Richardson, Victor F. Crosby, E. J. Todd, F. R. Holden, J. S. Gray, M. W. Galley, J. A. Gregory, G. H. Johnston, Thos. Nagle, T. D. Kane, J. G. Armstrong, I. D. Scott, E. A. Titus, F. H. Crawford, A. D. Hopkins, G. S. Springer, J. W. Foster, W. E. Ward, J. F. Driscoll and G. H. Nixon.

The docket follows:

Non-Jury.
Walsh vs. Walsh, D. Mullin, K.C.
Atty-Gen. of Canada vs. Ready's Breweries, G. E. Logan.
Baxter vs. Langton, H. W. Robertson.
Burns vs. McPartland, H. W. Robertson.
Nagle vs. Spencer, J. B. M. Baxter, K.C.

Jury.
Fraser vs. Jarvis, F. R. Taylor, K.C.
Adam Hope & Co. vs. Henry J. Garson, F. R. Taylor, K.C.
Dalton vs. Geary, H. W. Robinson.

Again Postponed.
The case of O'Keefe vs. O'Keefe was further postponed in Chambers this morning until August 2. One of the main witnesses in the matter was reported ill.

FIRST ATTEND TO BAPTIST NEEDS

Matter of Co-operation in Church Work.

Discussion at Southern Association Meeting in West End This Morning—Some Committees Appointed.

This morning's session of the convention of the Southern Association of the United Baptist church in New Brunswick was held in Ludlow street Baptist church with Rev. D. C. Clarke in the chair. Upon the conclusion of a devotional period conducted by Rev. L. H. Crandall, the enrollment of delegates took place. The constitution and by-laws of the association was adopted as this is the first convention since the re-organization. A report of the Sunday school and Young People's Work was submitted by Rev. C. T. Clarke and various committees were appointed. In connection with the Sunday school and young people's work, there was considerable discussion about the co-operative work of the churches in this regard, and the general opinion appeared to be in favor of attending first to the Baptist schools and then when these were properly looked after, contributions could be made to co-operative organization. A plan along these lines was suggested by C. T. Clarke, but no definite action was taken.

In his report on the Sunday schools and Young People's Work, Rev. Mr. Clarke said that sixty-five schools had reported showing that 6,200 pupils were enrolled. There were 632 teachers and officers; 817 pupils in the cradle roll and 196 in the home department; and thirty-eight were taking teachers' courses. He reported that \$1,226.31 had been contributed to missions; \$301.45 to the Sunday school board; and \$4,640.45 for school purposes.

The report was considered very satisfactory and was accepted but in connection with it Rev. Dr. DeWolfe, DeWolfe, referred to the large amounts which were contributed to the co-operative work and expressed the opinion that more should be given to the support of the Baptist schools.

Rev. S. S. Poole, the secretary of the convention, thought there was too much emphasis placed on the co-operative end while their own schools were allowed to suffer. He thought the association should take a decided stand to support their own work first. Rev. J. H. Jenner, expressed his agreement with these opinions and Rev. C. T. Clarke suggested that the Sunday school boards should look after the amounts collected and after attending to the local wants, give the rest to the co-operative board. No definite action was taken and the matter was laid over for further discussion.

The secretary read a letter from the Historical Records Committee, which requested that look after the various churches be placed in a fire-proof vault at Acadia University. This was referred to the executive for further information. The secretary reported that the total increase of receipts for denominational work over the amount received last year was \$967.47 and he was of the opinion that this showed a healthy growth, especially in the present difficult times.

The nominating committee was chosen as follows: Rev. Dr. W. C. Groucher, Rev. L. H. Crandall, and Rev. David Thompson. The following committee on temperance was elected: Rev. Dr. David Hutchinson and Rev. A. L. Tedford. Committee on resolutions: Rev. W. H. Johnson, Rev. A. Perry, and Rev. Henry King.

The convention adjourned at noon until 2:30 o'clock this afternoon when an address of welcome was to be read and the election of officers take place.
