MOMENTOUS SESSION OF THE IMPERIAL PARLIAMENT OPENS

Has Had Longest Career in Modern Times—General Election Will Follow—Rumors That Government Will Face Severe Criticism—His Majesty Calls for Full Use of Country's Energies and Resources

London, Feb. 12.—Members of both houses of parliament assembled early today for the opening of the eighth session of the longest parliament in modern times—a session which is virtually certain to be the last and which will be followed by a general election upon largely extended franchise with women voting for the first time in the country's history.

King George, accompanied by the queen and the Prince of Wales, who is on leave from the Italian front, performed the opening ceremony at noon in the absence of some of the customary spectacular features. It was decided that, in view of the war, the peers and princesses will not wear their gorgeous titular robes and coronets, while the naval and military members of both houses will wear the service dress instead of the flashy gold-laced dress uniforms.

The proceedings in both houses on this occasion probably will be full of interest and importance, and may cover the whole field of war effort. Political circles have been buzzing the past few days with various rumors, showing that severe criticism of the government is to be expected in the debate. One rumor is to the effect that a hostile amendment condemning the government may be moved from the front opposition bench.

Complaints that ministers have interfered with the military chiefs have been restated recently and voiced outspokenly in a section of the press. This subject will be brought to debate in association with an explanation of the enlargement of the powers of the supreme war council at the recent meeting of Versailles. In this connection it will be recalled that former Premier Asquith last week propounded a question concerning the supreme war council, and it is understood that he will bring up this topic again. It is assumed Premier Lloyd George will reply with an important statement.

ENFORCING THE SERVICE ACT

Press Gang of Dominion Police at Work in Montreal—Gathering in All Men of Military Age Who Cannot Prove Exemption

Montreal, Feb. 12.—Press gangs for the enforcement of the Military Service Act were operating in this city Saturday and Monday, under instructions from Ottawa that the time had come when a strict enforcement of the act must be made without delay. The press gang is composed of dominion police officers from Inspector Belanger's department, and every man whom the police came across on the street who appeared to be of military age was stopped. If he could not produce satisfactory proof that he was exempt he was apprehended and taken to the dominion police offices.

It is said that between forty and fifty men were gathered in on Saturday, when they were enjoying the heaviest holiday, and those who had been exempted or were married or beyond the military age were held until they could produce their proofs. Monday the trick was repeated, but it is not known how many men were taken. Railway stations and public places were popular hunting grounds for the dominion police.

CHARGES AGAINST POLICE OFFICER

Captain Savard Accused of Protecting Gambling and Other Forms of Vice—A Notable Luncheon

Montreal, Feb. 12.—By direction of the city council, Captain Savard of the police force was ordered suspended yesterday. This was done on the recommendation of a majority report of the board of control, upon charges submitted by Controller Villeneuve. The controller will investigate the charges which are of a serious import.

THE STOCK MARKET.

London, Feb. 12.—The stock market was only moderately active today with irregularity in prices, due to profit-taking. The death of business was attributed to the increased sale of war bonds and yesterday's heavy demand for treasury bond bills on rumors that the cessation of their issue was contemplated. Grand Trunk and Argentine rails were flat while industrial, armament and tin shares were the only firm features.

PEACE TREATY IS NOT TAKEN SO SERIOUSLY

French Official Circles Treat It As Unimportant

BUT INSTRUCTIVE

Shows What A German Peace May Mean—No Equality Of Nations In Settlement With The Ukraine

Paris, Feb. 11.—The peace treaty between the Central Powers and Ukraine is not taken seriously in French official or semi-official circles, first because no one knows whether it will ever become effective, and, second, because whether effective or not, the people of Ukraine have not been able under the present circumstances to have their say.

The treaty, however, is regarded as very instructive as to what a German peace may mean in this connection. It is pointed out that the people of neither contracting party have been consulted; that the damages resulting from the war are not to be indemnified; that the Germans have carefully avoided fixing the date for the cessation of hostilities; that the Central Powers have reserved means for furthering their imperial ambitions in Asia; that they have virtually suppressed liberty of exchange, and that by excluding the rights of the Ukraine from the advantages guaranteed by any one of the coalition of the Central Powers to another.

At Petrograd. Amsterdam, Feb. 12.—German and Russian delegates at Petrograd, according to a dispatch from Berlin, have signed an agreement calling for the earliest possible repatriation of prisoners of war units for military service. Owing to the transportation difficulties in Russia, considerable delays are expected.

Only New From Germany. London, Feb. 11.—All news concerning the peace negotiations between Germany and the Russian factions still come solely from Germany, Petrograd remaining completely silent. It is not yet known here whether the Ukraine Rada actually exercises the power implied in the terms of the Ukraine agreement.

Advantageous to Enemy. The general tendency of the moment is to regard it as having created a situation exceedingly advantageous to Germany. While the recognized interest of disorganization of Russia must substantially hinder Germany's full realization of the benefits to be derived from the situation, it will know how to exploit Russia's resources of food, minerals and other commodities at the earliest practicable moment. The political advantages she can reap from the new situation are regarded as quite equally important.

Imperial War Cabinet. "I have summoned representatives of my dominions and my Indian empire to a further session of the imperial war cabinet in order that I may again receive their advice on questions of moment affecting the common interests of our national finance."

"Gentlemen of the house of commons: You will be asked to make suitable provisions for the requirements of the combat services and for the stability of our national finance."

"My Lords and Gentlemen: The struggle in which we are engaged has reached a critical stage, which demands more than ever our united energies and resources. I confidently commend to your patriotism the measures which will be submitted to you, and I pray that the Almighty may bestow His blessing on your labors."

London, Feb. 12.—Confirmation of the German report that Russia has withdrawn from the war is contained in an official Russian statement received here today.

The statement says Russia declares the war with Germany, Austria-Hungary, Turkey and Bulgaria to have ended. Russian troops simultaneously receiving an order for complete demobilization on the front.

For the defence of the frontier detachments of younger soldiers will be left.

Although this announcement was made yesterday in several despatches from German sources, this is the first word from Russia regarding her withdrawal from the war.

COMING FROM THE WRONG MAN.

Austrians Launch Another Attack Against The Italians

Italian Headquarters in Northern Italy, Feb. 11.—(By the Associated Press)—The Austrians have launched another attack against the Italian positions west of the Fretta river, along the same Frossenda Valley leading to the plain where the Italians recently defeated them with heavy loss. Their artillery opened fire early yesterday, continuing throughout the day, first on the west side of the valley, then on the east.

Evidently the purpose was to regain some strategic heights on Monte Val Bella and the Col from which the Sassari brigade and the Bersaglieri drove them back a fortnight ago.

An intense cannonade was followed by an infantry advance, which was first centered against Monte Val Bella and Col Del Rosso, but reconcentration of the Italian batteries checked and finally stopped the advance.

Another drive was made at Massaso Rosso, further east, where the enemy tried to break into the old trenches lying ahead of the Italian lines, but here, too, the powerful concentration of the Italian batteries checked his progress at the first advanced posts.

PRESS COMMENT ON WILSON'S SPEECH

New York, Feb. 12.—Newspaper editorialists from various centers of the nation praise President Wilson's address to congress yesterday on the international situation, and see in it an approach to public discussion and statement of terms that may lead to a just peace without compromising the United States' determination to continue the war until such peace is obtained.

London, Feb. 12.—President Wilson's address is given the same prominence as the address of the president in the morning newspapers, but the text of the communication reached the newspapers too late for more than perfunctory comment on a few outstanding sentences.

The president's attitude toward the German minister promises to forward the main attention, and in this the president is regarded as having gone to the art of the matter.

Nearly seventy members of the Boys' Club had a particularly interesting time at the front in the present war. Then Sergeant Nighthale and the work of women at the front in the present war. Then Sergeant Nighthale and his assistant veterans threw on the screen a series of remarkable photographs taken in France and Belgium, showing the havoc made by German guns at Ypres, Arras, and other places, with pictures also of St. John soldiers on the firing line. Sergeant Puddy gave a most interesting brief description as the pictures were shown. Just as he finished there arrived a messenger from Bond's, with coffee and sandwiches provided through the generosity of Mr. Bond, and the boys regaled themselves before going home. Mrs. J. E. Secord, Mrs. Harry Scott, Mr. and Mrs. A. M. Belding and George Guilford served the refreshments, and the boys gave hearty cheers for all their entertainers.

POISED LIKE DUELLISTS, RIVAL ARMIES AWAIT WAR'S MOST SAUGUINARY PERIOD

More Favorable Weather Finds Forces On Alert

Air of Expectancy On The Western Front While Opposing Leaders Feverishly Finish Preparations For What May Be Deciding Campaign Of The Great War

With the British Army in France, Feb. 11.—(By the Associated Press)—The tension along the British-German front is tightening. As the extraordinarily bright, mild weather has continued to dry out the sodden fields, the two great armies have become more alert. The crisis of the days when the western theatre was held in the grip of snow and impassable mud has disappeared, and the contending forces are poised, watching each other, like duellists, for the first move, which will mean that the most sanguinary period of the war has begun.

Something seems bound to happen before another month has passed, if the present weather holds. Indeed, even now the ground in some sections is quite fit for fighting.

BRINGING UP REINFORCEMENTS. The enemy continues to make intense preparations for what has been advertised as the "great offensive." German troops and guns keep pouring into the western front and there are indications that a few Austrian units are in Flanders.

Certain areas back of the German front have been cleared for action and daily bodies of troops have been practising attacks under the tutelage of experts. Prisoners say that leave for the soldiers was stopped on Jan. 20.

So far as actual fighting is concerned, it is still confined to identification raids, air activity and occasional bursts of artillery.

QUIET SEEMS OMINOUS. Along many miles of the front which the correspondent visited in the past two days there is an ominous quiet. One may sit for hours on a vantage point so close to the German lines that the enemy can be seen working about; yet there are few sounds of strife.

The enemy is playing possum or ignoring the military movements behind the British lines, and the British themselves are sitting tight, saying little. The silence is uneasy, and it is portentous.

Naturally the Allied preparations cannot be discussed, but it may be said that everywhere there is the spirit of optimism. Every soldier in the long line knows what is coming and smiles with assurance, for he knows what his supports are. The Allies still have a preponderance of men and guns along this front and they have an inclination to use this advantage. The Germans will find that their opponents have not wasted the winter months.

Australians Take Prisoners. London, Feb. 12.—The official communication issued by the war office last evening says: "Thirty-seven prisoners were captured in the raid of the Australians last night south of Messines. Three German machine guns and a trench mortar also were captured. Heavy casualties were inflicted on the enemy. In addition to the losses caused by our preliminary bombardment, it is estimated by the Germans that 100 Germans were killed by our raiding party. "An enemy counter-attack was successfully repulsed. We had some twenty casualties."

"The hostile artillery showed intermittent activity today southwest and west of Cambrai. In this area a number of German working parties were engaged in the construction of a new line of communication on page 2, seventh column." (Continued on page 2, seventh column.)

RIOTS IN STREETS OF COPENHAGEN

Copenhagen, Feb. 11.—Great crowds of syndicalists, numbering between 60,000 and 80,000, participated in the riots in Copenhagen today. Attempts were made to plunder shops in the fashionable streets and to storm the treasury. One crowd attempted to enter the royal palace at Amalienborg. All efforts were put down by the police.

All public buildings and the office of the newspaper Social Demokrat, which represents the Conservative Socialists, are being guarded by the police.

RETURNED SOLDIERS D.MAND FAIR DEAL

Montreal, Feb. 12.—The Montreal branch of the Great War Veterans' Association, at its annual meeting here last night, expressed regret that in this city the business men had not given the returned soldiers a fair deal in the matter of providing them with employment.

Truoper V. Brown, secretary of the association, stated that able-bodied men, who were fit to go overseas, were being held in the city, and he said that in some cases alien enemies enjoyed good positions, while returned men still were looking for work. The secretary admitted that in some instances returned men had not given the services they should have given to their employers.

KAISER TO TAKE CURE

London, Feb. 12.—Emperor William's personal headquarters are to be transferred to Spa, the Belgian watering place near the Prussian frontier, according to statements in the German press, says the Exchange Telegraph Company's correspondent at Amsterdam. The emperor expects to take the cure there for a short time, it is said.

DISASTER DUE TO INCOMPETENCE
Experts Think Cadorna Could Have Surrounded Teutons TO INVESTIGATE
Line Only Broke at One Point—Rest Could Have Swung Forward Instead of Backward

(Special Cable to The Gazette.)
London, Feb. 7.—Marconi, who returned a few days ago from Italy, in an interview given to your correspondent today, said: "Since the misfortune of the autumn, the danger of socialism in Italy is much less at long as our territory is intact. The reason of the war was not understood clearly by everybody, but now that Italian soil is in the occupation of the enemy, the nation is united."
Marconi thought the only thing that could save Italian resolution was the lack of food and coal. He admitted some of the poorer classes were without sufficient bread and that the coal situation was very serious.
"The train service," he said, "has been reduced to a third of its former standard. Ordinary industrial factories cannot get coal to keep running, but munition works manage to secure sufficient supplies. In the Italian winter, which is much colder than the English, a coal shortage causes many privations. The people are burning wood, but the price has increased greatly."
Asked about the attitude of the church, Marconi thought there was little complaint about. Some priests had preached against the war and the blessings of peace, but they were dealing with the subject in a general situation, and had no intention of aiding the Germans. "As for the Vatican," he said, "it has been neutral and just as President Wilson's attitude during the days of American neutrality was misinterpreted by some people, so has been the Pope's. Pope had to preserve his neutrality," was Marconi's reply.
Referring to Italy's war aims, Marconi said there had been some uncertainty in Italy because Lloyd George had been less explicit concerning England's support of them than he had been on other points such as Alsace. He denied, however, that there was any real feeling of distrust of the Allies among the Italian population.
"Of course," he said, "the Treaty of London should be published with the Allied agreement on Italy, perhaps some disappointment felt if this didn't cover it, but it would be better to have it out in the open than to keep it secret. Of course Italy wants territory in the Trentino, so as to straighten out the head in the Alpine region, but she is not a permanent strategic ally, but she certainly has some of the lands of the Adriatic to make her east coast more secure."
Marconi was not quite certain what settlement of the Albanian question Italy would put forward. He was quite sure of the actual military situation, and said the Italian troops looked forward to an offensive as soon as the weather improved. An Adriatic attack had been anticipated for some time, and was delayed only by the severity of the winter. He did not think the Austrian winter attack, as there would be little object in it unless they thought they could fight their way clear across to take France in the rear. "And," he said with a smile, "I don't think they contemplate any such big business as that."
In Austria, he said, there were unobtainable difficulties but they were being judged by the prisoners he had seen, seemed in pretty good shape, though they lacked boots badly, as every soldier in this war, and thirty thousand prisoners have been taken, but there was always a line behind which they could be held. "This was not the case in Italy then. As one army gave way others were withdrawn. It may have been necessary, but some Italian experts say General Cadorna could have used forces to surround and trap the invading force. This is under investigation now, and the charges may be made." "If it was a case of incompetence," he said, "nothing else, Marconi was asked, "Merely incompetence" was his reply.
Asked if there was anything he could say about his own specialty, Marconi said he had been accomplished in aviation because you see bombs falling about you, but you can't tell what is being done in other branches of science."

KRYLENKO WAS NOTED AGITATOR
Suddenly Jumped to Head of Russian Armies
NOW A PRISONER
Known Only in Revolutionary Circles Until Revolution Brought Him to the Top With Other Froth

In recognition of his merits as a soldier in the Russian armies, Mr. Krylenko was made ensign, a post which roughly corresponds to that of assistant platoon-leader, as a reward for his genius. It is not on record that he was to be a prisoner of the Poles. Without his leadership the fate of the Russian armies is painful to contemplate, except that portion of them—if any—has not become addicted to listening to long speeches by their friends. Nor is it the command of Euzin Krylenko the Russian armies ever did any fighting except against their friends. Nor is it likely that under the Bolshevik rule they will change their programme even in the absence of Euzin and Commander-in-Chief Krylenko. Otherwise the Allies might rejoice in his disappearance. As it is, however, that there was any real feeling of distrust of the Allies among the Italian population.
"Of course," he said, "the Treaty of London should be published with the Allied agreement on Italy, perhaps some disappointment felt if this didn't cover it, but it would be better to have it out in the open than to keep it secret. Of course Italy wants territory in the Trentino, so as to straighten out the head in the Alpine region, but she is not a permanent strategic ally, but she certainly has some of the lands of the Adriatic to make her east coast more secure."

BOLO'S ACTIVITIES IN GREAT BRITAIN
London, Feb. 12.—The Times carries a long dispatch from Paris concerning Bolo's activities in England, which he came in February, 1915, to see a Mr. Robertson, hitherto unidentified. Who ever Robertson was, Bolo was turned down and apparently lost interest in England thereafter, as he said later in the court, Barthou developed in England. It appears that his first scheme was "to form an international Catholic league which would supply under the cover of religious propaganda the funds obtained by the Khrivde from Germany to fund the revolution in France." This scheme fell through. He then developed a later scheme for buying French newspapers.
Commenting on this testimony the dispatch reads: "The former premier Barthou explained that he has had more or less vague relations with Bolo, and in July 1917 one of his friends, Count de Bolo, in dealing with the matter which naturally caused him to be very suspicious of Bolo. He explained to me in what circumstances Bolo had been introduced to him. He added that he had given him no mission and that the name of Hertz had aroused his suspicions during the only conversation that he had with Bolo. I said to him: "The public believes you favor him." "The president of the republic said with a laugh that with the greatest of foresight he had suspected the origin of Bolo's American funds and had drawn the attention of the prime minister to the matter with the greatest energy."
Frederick, Feb. 11.—(Special)—Lieutenant Burnett W. Harmon and Miss Hattie Alleyne Hansparker were married Saturday at the home of Mrs. William Kingdom, of this city, aunt of the bride. Rev. P. R. Hayward, of Fairville, brother-in-law of the groom, was the officiating clergyman. The bride and groom will spend their honeymoon in New York. They were both classmates at the University of New Brunswick, being graduated in 1912. Lieutenant Harmon belongs to Woodstock. He recently returned from England on three months' leave. He was with the Canadian Engineers in the 1st Division, C. E. F., and won the Distinguished Conduct Medal, afterwards being commissioned as a lieutenant in the infantry. He won the Military Cross and a Russian decoration. Recently he joined the Royal Flying Corps.

SAYS SUBMARINE WAR IS FAILURE
Member of German Reichstag Attacks Admiral Von Tirpitz and New Fatherland Party
London, Feb. 12.—An article attacking the submarine warfare, which was suppressed by the German censor last October, has now been published, "with the sanction of War Minister Von Seeckt" by the Kiel Zeitung. The article was written by Dr. Struve, a progressive member of the Reichstag, who declares that the submarine war is a failure, and discusses at considerable length "who was responsible for the unrestricted submarine warfare agitation and for the statement that England could be forced to her knees within six months."
Dr. Struve asserts, after quoting a variety of witnesses, that the agitation was conducted and engineered by Admiral Von Tirpitz after the latter's retirement. The article develops into an attack on Von Tirpitz and the new fatherland party for "getting Germany into this difficulty," who adds the assertion that the submarine warfare might have been a success except for the fact that Von Tirpitz, while in office, had neglected to build submarines in sufficient numbers to insure success.

RECENT DEATHS
Robert Henry Gillert.
There passed away on Sunday last one of the old school of New Brunswick millwrights in the person of Robert Henry Gillert, of Great Salmon River, who for years had been a valued employee of the Pelepost Paper Company at that place. He was sixty-eight years of age and is survived by his widow, five sons and three daughters: Mrs. John Lennox, Mrs. Robert Crossin, Paul Gillert and Robert Gillert, all of Great Salmon River; Thomas, of Chester (Mass.); Allan and Stanley, of Boston, and Mrs. Noonan, also of Boston. The funeral will be held on Wednesday afternoon, interment at Greer's settlement.
Daniel Joshua, colored, well known about town, passed away yesterday afternoon about 4 o'clock at the General Public Hospital, where at his own request he had been admitted on Sunday afternoon. He had been discharged from the hospital a day or two previous, but returned on Sunday, asking for admission. He was again taken in, and died on Monday afternoon.
Here Too.
"Prosperity has ruined many a man," said the miller.
"Well," retorted the reprobate, "if I was going to be ruined, I'd prefer prosperity to do it!"
Hereafter:
"Let's see, Mary, are these your overalls or mine?"

CRITICISM OF A "FAT" STORY
We were criticized for telling fat people to "tender" seventy-five cents to their druggists for a large case of Marmola Tablets. Several wrote in saying the use of the word "tender" was incorrect, that "tender" in such a connection raised the impression the druggist might refuse seventy-five cents as insufficient.
Now, isn't that odd? A few weeks ago seventy-five cents was "tendered" to a Broadway druggist and he did refuse it. That is, he said he had no Marmola Tablets, whereas he did have seven cases. But the wholesale house was closed, it being on a Saturday, and he had to prostrate to protect his regular customers, who absorbed those seven cases later in the day.
This elegant pharmaceutical adaptation of that famous, fashionable fat reducer, the Marmola Prescription, 40c, 7c, 2c, Marmola, 8-4 oz. Fl. Ex. Cascara Aromatic, 48-4 oz. Peppermint Tonic, is certainly having a remarkable vogue. Millions of cases of tablets are sold yearly and their fame grows. This is doubtless because of their harmlessness (guaranteed by the Marmola Co., 864 Woodward Ave., Detroit, Mich.), and sure ability to remove ten to sixteen ounces of fat (not flesh) a day without inconvenience, neither need for exercising or interference with the taker's appetite for things.

THE WAR SITUATION.

The French press is not disposed to take the peace proclaimed between the Ukraine and the Central Powers as a settlement likely to last for any length of time.

SKINNING THE PEOPLE.

One of the most illuminating portions of Auditor MacIntyre's report deals with the increased interest charge (which of course the people who use the street cars or purchase gas, electric light or power must pay to the company) that was levied as soon as the New Brunswick Power Company assumed control.

A STATEMENT BY PREMIER FOSTER

(Daily Telegraph) The Telegraph yesterday directed the attention of Premier Foster to a letter published in the Standard and signed by Commissioner McLellan, in the course of which the commissioner attributed certain statements to Hon. Mr. Foster.

O'CONNOR'S REPLY TO HIS CRITICS

Still Believes Price of Eggs is Unjustifiable—Has Nothing to Extenuate Ottawa, Feb. 12.—W. F. O'Connor, cost of living commissioner, discussing his recent report on the quantity of eggs in cold storage on January 1 last, declared today that he has nothing to extenuate his statement.

NEW REGULATIONS FOR THE FISHERY LOT

Legislation to create new regulations for the leasing of fishing lots in the harbor of St. John will no doubt be introduced at the coming session of the local legislature. For some time it has been felt that the present regulations, calling as they do for the leasing of lots anew each year, do not work out satisfactorily, particularly that clause which provides that all lots must be disposed of on Jan. 2 and not before.

USE OF THE HAMMER

A British gunner who had successfully passed a blacksmith's course was home on furlough, wearing the hammer and pliers on his arm, when he was asked by a civilian, who asked what the decoration was for.

NO WARNING OF SHIFTED BUOYS

Halifax, Feb. 11.—The commission appointed by the federal government to enquire into pilotage affairs was astounded this afternoon near the close of the second session, by an announcement by Captain Lyster of the harbor pilot boat "Sambro" that he had discovered that the buoy which had been placed in the fog channel without warning and that, vessel coming up in the fog narrowly escaped collision with the "Sambro" Ledges.

QUEBEC ELECTIONS

Quebec, Feb. 11.—Nominations were held today for the majority and Aldermanic elections which will take place next Monday. The forthcoming elections will be held under the new redistribution through which the number of wards is reduced from thirteen to six and the number of aldermen from twenty-five to twelve.

The Allies have been unfortunate in their eastern relations. It becomes necessary for Britain, the United States, France and Italy to rely upon their own resources and disregard any possible assistance from other quarters.

The Allies have been unfortunate in their eastern relations. It becomes necessary for Britain, the United States, France and Italy to rely upon their own resources and disregard any possible assistance from other quarters.

There is, however, nothing of a depressing nature in today's news from the British headquarters in France. We are told that the great offensive will go on, and that the initiative is taken by the British or the Germans, and that a very confident feeling prevails on the side of the Allies.

THE PATRONAGE EVIL

The government at Ottawa has taken an important step in the direction of the promised reform which will abate the patronage evil. The civil service regulations published today will go far, if properly carried out, to prevent the appointment of incompetent persons to the service.

PERTINENT QUESTIONS.

Toucing the matter of the New Brunswick Power Company's coming application for legislation to enable it to get more money from the public, the Globe asks the citizens of St. John these questions—

"The legislature is called to meet in less than a month. The power company has given notice of its purpose, and we have its case ready. What about your case?"

"Can you afford to leave the decision to the legislature without taking steps to see that the facts are presented in their true light?"

"Can you trust the city council to make the fight for you?"

"Can you trust the city solicitor, alone and unaided, to prepare the case and speak for you in this emergency?"

The citizens of St. John have been "gassed," and now they are awaiting an electric shock.

AN ENTENTE ALLIES FRATERNAL ALLIANCE

London, Jan. 7.—(Correspondence of the Associated Press)—The "British-American and Entente Allies Fraternal Alliance" is the name of a new patriotic association which was inaugurated at a luncheon attended recently by the Lord Mayor, the Greek minister, the Roumanian minister, H. H. Buckler, representing the American ambassador, Prince Borghese, representing the Italian ambassador, and other prominent city men.

The chairman said the object of the alliance was to associate the men and women of all nations comprised in the Entente in a common bond of mutual interest and that its immediate purposes were:

To pledge themselves to a steadfast support of the government in the prosecution of the war to a righteous victory, to overthrow Prussian militarism and render it incapable of further evil.

To advocate the formation of a league of nations to help in winning that victory and afterwards to ensure for the world an abiding peace.

TWO MILLION JEWS REPORTED STARVING

New York, Feb. 12.—War relief funds raised by the Jews of America are now being distributed among the people of their race in Poland and Lithuania, it was announced by a commission sent to Europe by the joint distribution com-

mittee of the American fund for Jewish war sufferers, which returned here recently. More than 2,000,000 Jews in Poland and Lithuania are starving, the commission reported. There is no work and the conditions in which the people are living have caused epidemics of typhus in many sections. In Warsaw the newspapers carry regularly advertisements, which appear the deaths of Jews from starvation.

LOAN OFFICE CLOSES IT DOORS

The Dominion Permanent Loan Company, a large banking firm with an authorized capital of \$10,000,000, head office at King St. W., Toronto, closed its doors on Friday.

The directors of the company, after having made a thorough examination of the company's assets, find they are of such a nature that they cannot be realized upon at present, without serious loss, and as there are obligations of the company maturing this month which it cannot meet, it was felt advisable under the circumstances to make an assignment to G. T. Clarkson, who is now making an investigation and preparing a statement of affairs.

Mr. Clarkson will at the earliest possible moment submit a statement to the shareholders and creditors.

ROUMANIA MAY BE FORCED TO MAKE A SEPARATE PEACE

Almost simultaneously with the announcement by the Bolshevik government that Russia is out of the war and that general demobilization along the entire Russian front is to be carried out, the Teutonic allies to withdraw all their forces for use on other battle fronts, President Wilson has returned to a joint session of congress the fact that the United States is in the war to stay until those principles which the people regard as fundamental to a permanent peace are obtained.

WOMEN SILENTLY SUFFER

There are sufferings which only a woman knows and about one woman in every four goes about her household duties while suffering actual pain. If a man had to endure as much pain he would stay at home and let his wife take care of him. But there is nobody to do the work of a wife and mother. Her household work cannot be done by accident and so she works on and silently suffers.

THE EVENING TIMES AND STAR, ST. JOHN, N. B., TUESDAY, FEBRUARY 12, 1918

TELLS THE STORY OF HALIFAX DISASTER

Thrilling Lecture By Mrs. E. A. Smith, Illustrated With Views, in German Street Institute

The tragic story of the great Halifax disaster and the intense suffering that it caused a great percentage of the inhabitants with the loss of their loved ones, their homes, their businesses, and the terrible and painful injuries that they sustained, was the subject upon which Mrs. E. A. Smith addressed a large and sympathetic audience in German Street Institute last evening. After the lecture a large number of views of the stricken city before and after the tragedy were shown and they supplemented the story which the lecturer told.

The lecture was given under the auspices of the Royal Standard Chapter of the I. O. O. F. The Institute was filled, there being more than 300 people present. His Worship Mayor Hayes introduced the speaker, Mrs. Smith, after making a few introductory remarks, during which he outlined the purpose of the lecture, namely that of arousing the sympathy of the people of the city in the sufferers in the explosion and particularly in those who have been deprived of their sight.

The story of the disaster was followed by a large number of views. These showed the city both before and after the explosion, and they bore out in every respect the words of the speaker regarding the devastation which prevailed and still prevails in the stricken city. Some of these views were found in a camera beside the body of a man who was killed while taking them.

During the evening solos were given by Mrs. Crockett, and were enjoyed greatly. After the views had been shown, Mrs. Smith made an appeal for the blind of the Maritime Provinces who are educated at the Maritime School for the Blind in Halifax.

John Weir, who is the assistant of Sir Frederick Fraser, the superintendent in the above institution, addressed the meeting on the subject of helping in the education of the blind of the Maritime provinces. He spoke along the same lines as he did in the Imperial Theatre a short time ago. He described what the institution does to fit the blind to take up some line of occupation and he told of the position in which the school is financially. To carry on this great work, funds are needed and it is upon donations that the school looks for support. Cards and a circular letter from Sir Frederick Fraser were distributed throughout the room.

A vote of thanks to the speaker was moved by Rev. Dr. Jenner of Charlotte street Baptist church, West St. John, and was seconded by the applause of the whole audience.

NEW DIRECTORS FOR CEDAR HILL CEMETERY

The adjourned meeting of the Cedar Hill Cemetery Company, Limited, was held last night in the Temperance Hall, Fairville, Andrew G. FOUR SONS IN KHAKI

Friends of S. D. Scott, of Vancouver, formerly editor of the St. John Sun, will be interested to know that all four of his sons are fighting overseas. Sydney and Cecil are in France. Gordon, who has been on the firing line nearly three years, has received the military medal for locating a German machine gun section under heavy fire at Vimy Ridge. He was wounded there and is now in England. His medal has been sent to his

proper form. And this, after they had in some cases been going on for months without getting benefit from anything. If you are not strong or well you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of nuxated iron three times per day after meals for two weeks. Then test your strength again and see for yourself how much you have gained. There is nothing like good old iron to help put color in your cheeks and sound, healthy flesh on your bones. But you must take iron in a form that can be easily absorbed and assimilated like nuxated iron if you want it to do you any good, otherwise it may prove worse than useless.

NOTE—Nuxated Iron recommended above by Dr. E. Sauer, is one of the newer organic iron compounds. Unlike the older inorganic iron products, it is easily assimilated, does not injure the teeth, make them black, nor upset the stomach. The manufacturers guarantee successful and entirely satisfactory results to every purchaser or they will refund your money. It is dispensed in this city by Watson's Drug Store and all other druggists.

USE THE WANT AD WAY

You Can Tell the People Who Have Iron in Their Blood - Strong, Healthy, Vigorous Folks!

Doctor Says Ordinary Nuxated Iron Will Increase the Strength of Nerveless, Run-down People in Two Weeks' Time in Many Cases.

"One glance is enough to tell which people have iron in their blood," said Dr. E. Sauer, a Boston physician who has studied widely both in this country and in great European medical institutions. They are the ones that do and are. The others are in the weakling class. Sleepless nights spent worrying over supposed ailments, constant dosing with habit-forming drugs, and useless attempts to brace up with strong coffee or other stimulants are what keep them suffering and vainly longing to be strong. Their real trouble is lack of iron in the blood. Without iron the blood has no power to change food into living tissue and therefore, nothing you eat does you good; you don't get the strength out of it. When iron is supplied it enriches the impoverished blood and gives the body greater resistance to ward off disease. I have seen dozens of nervous, run-down people who were alling all the time increase their strength and endurance in from ten to fourteen days' time while taking iron in the

Only Way to Prevent Russian Soldiers From Looting Cars - Peasants Hoarding Food

Petrograd, Feb. 6.—The search for food conducted by the Bolshevik authorities in Petrograd disclosed nearly 100,000 pounds of butter which had been hoarded by speculators. The authorities also found 150 carloads of matches, 150,000 gallons of kerosene, and large quantities of meat, potatoes, peas, fats and soap. One speculator had 8,000 pairs of children's shoes.

The prices of foodstuffs in Petrograd have fallen temporarily, but owing to the failure of transportation higher prices are expected.

M. Nevski, the new minister of communication, addressing the food congress, gave a black picture of the situation, and threatened to resign unless trains were given machine-guns and armed guards to protect them against soldiers who, he declared, were running unrestrained, attacking, robbing and killing. The minister said passenger traffic must be definitely.

The situation is all the more serious because the peasants refuse to exchange food for the depreciated money. Consequently, manufactured articles must be supplied to obtain foodstuffs. The railways are running short of wood, and soon will be without coal because they are unable to haul it.

Madame Smith Falkner, a member of the Food Control Board, told the Associated Press today that the bread situation in Petrograd was improving, and that the allowance would be increased. In the first part of January, she said, the food board received only six carloads of grain daily, while requiring sixteen carloads. The board was now getting from sixteen to twenty carloads of grain a day. Meat imports also were in greater quantity, most of the meat coming from Siberia.

CHICKENS' LIVES TO BE SAFEGUARDED

Trading in Live or Freshly Killed Hens and Pullets Forbidden—To Stimulate Egg Production

Washington, Feb. 12.—Trading in live or freshly killed hens and pullets anywhere in the United States is forbidden in an order announced today by the United States food administration. February 28 is fixed as the date when fresh stock must be disposed of and adds that additional stocks may not be purchased. By restricting the killing of chickens which should be heavy layers, the food administration hopes to increase the production of eggs and allow them to be put in storage at a reasonable price.

ANOTHER PHASE OF THE HENNING CASE

Expert Says "Gyro" Parts Are Perfect - Intimates Henning Was Victim of Plot.

New York, Feb. 12.—The contention of the government in the trial of Paul C. H. Henning, on a charge of treason, that the partial mutilation of gyroscope parts crippled the operation of a torpedo, was disputed by Hugo E. Pausin, superintendent of the gyroscope department of the E. W. Bliss Company, torpedo manufacturers, when he took the witness stand for the defence at the resumption of Henning's trial in the Brooklyn federal court yesterday. Pausin also asserted that the parts in question were twice inspected after they left Henning's department, first by the company's inspectors and finally by the government inspectors, headed by Lieut. Sims, U.S.N.

The witness declared that had feeling which had developed between Henning and Sims preceded the dismissal of Henning and that the latter, after his dismissal had threatened to take the matter up with the proper authorities at Washington and had promised to fix "Sims" whom he held responsible for his dismissal.

There was a stir in court when the witness, after examining the many alleged defective "gyro" parts introduced in evidence by the government, declared that three of those parts were faulty and one was only "one thousandth part of an inch imperfect." The latter he declared would have no effect on the gyroscope if properly adjusted.

FOOD SUPPLIES FOR THE NETHERLANDS

The Hague, Feb. 10.—A foreign office communication of the proposed economic agreements with the Entente and the United States is being considered by the government and worked out with a view to placing the matter before the American and British governments as a definite agreement. The possibility is proposed for Holland to insure supplies, which, although based on the country's needs, are limited by the world's shortage of raw materials. These supplies, as well as Dutch East Indian products will be transported on Dutch ships; another portion of Dutch shipping will be placed in the service of the Belgian relief commission, and the remaining tonnage will be at the disposal of America and Great Britain for use outside the danger zone.

WISH TO CONTROL OWN RESOURCES

Representatives of Western Provinces to Discuss Question With Cabinet - Want Subsidy as Well

Ottawa, Feb. 12.—Provincial control of the natural resources in Manitoba, Saskatchewan, Alberta and the railway belt in British Columbia will be one of the subjects discussed at the conference with provincial premiers here next week. The old government was committed to this policy, and the new western ministers have been advocates of provincial control for some years.

At present the three prairie provinces receive a cash subsidy in lieu of the public domain. As they wish to retain this subsidy as well as securing control of the lands, the other provinces are concerned. The adoption of a policy of provincial control of western lands must necessarily be followed by a readjustment of subsidies to all the provinces. Before the public domain in the western provinces is transferred to the control of

CONVALESCENTS WERE GUESTS OF THE POWER CLUB

Returned convalescent soldiers were guests of honor of the St. John Power Boat Club members last evening.

Returned convalescent soldiers were guests of honor of the St. John Power Boat Club members last evening. The entertainment provided was one which reflected credit on the club, and will not soon be forgotten by those who had the pleasure of being present. The programme was one of the best ever held under the club's auspices and included songs, recitations and other features. The generous and hearty applause tendered the participants was testimony of appreciation on the part of the large gathering. The rooms were bedecked with flags of the Allies and the colors of the

Power Boat Club and presented a gala appearance.

Commander J. C. Chesley delivered the opening address and with his good-natured smile welcomed all to the club rooms. During the course of his remarks he spoke feelingly of the loss they had sustained in the death of one of their members, Cadet Joseph Brozman, who was killed last Saturday at the Canadian aviation training camp in Texas. He told of the keen interest Cadet Brozman had always manifested in the club, and how by his many acts of kindness had endeared himself to the hearts of all. The commodore said that the body would be brought home for burial and urged all members to be present at the funeral and thereby give testimony to the esteem in which he was held.

BOYS! \$10.00 cash to you if you solve the contents of the Soldier's Kit Bag and mail your answer.

What has this soldier in his kit bag? There are seven things he takes away to war. If you can figure them out and prove that you are the intelligent boy we want to do a little easy work for school and on Saturdays, you may win a \$10.00 Special Cash Prize. We will also give you the opportunity of winning a clever little Shestard Pony or \$100.00 cash.

USE THE WANT AD WAY

At the conclusion of the programme a flashlight picture was taken of the gathering after which all adjourned to the dining room where a tempting repast was served. After doing justice to the many good things the gathering assembled in the main auditorium, where dancing was enjoyed. Music was furnished by the Gem orchestra, which was greatly enjoyed. The gathering dissolved at an early hour, after singing God Save the King and Old Lang Syne. John Kierrin was in charge of the entertainment committee and R. A. Jamieson of the reception committee.

THE CAKE WE BAKED. We followed exactly the recipe in using FIVE ROSES and the new "War Flour." The cake from the new FIVE ROSES was equal to that from the old flour in lightness and texture; the flavour was excellent, the colour rich and creamy. There should be no fear of cake waste, as we do not doubt its keeping qualities.

THE PIE WE MADE. The uniform flakiness so characteristic of the old FIVE ROSES flour is certainly not lost in the pie crust made with the new "War Flour." The crust we made was quite as tender and digestible as that baked from the pre-regulation flour. In flavour and general eating qualities, there was no perceptible loss.

MIX your next cake batter without misgivings! The new flour regulation does not endanger your pride of product. The occasional cake, or pie, or pudding you may wish to make is safe with FIVE ROSES "Government Grade" Flour.

Good Cakes and Pastries from War Flour

In making Pie Crust and Puff Paste, we obtained the best results by using slightly less water than with the old FIVE ROSES. In fact, just enough cold water to hold the paste together. As the new FIVE ROSES flour is rich in gluten, it is advisable in making baking-powder biscuit and pastry generally not to work or handle the dough unnecessarily, as this would make the texture less tender and flaky. For Cakes, Puddings and other bake things made with the new FIVE ROSES, users of FIVE ROSES Cook Book recipes will find that practically no change is required in their present methods.

Users of "FIVE ROSES Government Grade" Flour are assured of the best available flour under all conditions.

IMPERIAL'S NEW SERIAL

COMMENCES THIS FRIDAY

Tommy Leach, who recently announced his retirement from the game, is well fixed. He is the owner of a large orange grove in Florida.

The Braves will take six outfielders south this spring. They are Rich, Powell, Kelley, Wickland, Mangel and Bailey.

Harry Myers of the Robins was the star all around player in the National League last season. He secured records in four different positions, the outfield, first, second and third base.

Fred Snodgrass, the former Giant, has announced his retirement from baseball. Last summer he was with the Vernon club of the Pacific Coast League.

Ben Johnson is so displeased at a news leak which told prematurely the opening dates of the American League that he may cause the schedule to be re-written. There will be some difficulty, however, in finding any one who is worried over Ben Johnson's displeasure over a news leak.

Artie Fletcher of the Giants is nursing a lame back. He told western scribes recently that while it was nothing serious it prevented him from moving about as freely as he wished.

"Dutch" Schmidt, who played first base for the champion Boston Braves of 1914, may get back into harness this season. George Stallings has a line on Schmidt and probably will call him in to fill the position of first baseman.

She was in her eighty-first year and had been in fairly good health and her death was quite unexpected. She is the widow of Captain James Thompson and, besides her son, is survived by one daughter, Mrs. J. M. Perry of San Francisco. Many friends will regret to hear of her death.

TRAINS AND PASSENGERS.
John Collins, who for more than thirty-four years has been constable in the C. G. R. station, having been on the job when the first train pulled into the Union station, speaking this morning of the condition of the trains this winter, said that he had never known a winter during his time of service when the weather had effected the trains as it has this winter. In comparing the winter done this winter with winters past, he thought that it compared very favorably. Mr. Collins said that it is marvelous the change that has taken place during recent years in the knowledge of the traveling public. Some fifteen or twenty years ago, said Mr. Collins, the traveling public in general had but very little idea as to the movement of trains. Today he said it is quite the contrary. They know as much in many cases as the officials. It used to be, said Mr. Collins, "What time does a certain train arrive or leave?" as might be the case. Today it is, "Is the train on time?" This question answered, is all that is required; the rest they know.

LOCAL SOCIALISTS HEAR BOLSHEVSKI

A Russian vessel has been in port for a few days. She is in the service of the Allied governments. The crew are Russians and some of them are of the Bolsheviki. During the week-end part of the crew got in touch with the local Socialists with the result of a meeting being held at Oddfellows' hall on Sunday evening. There were fifty-five present, twenty-three being from the Russian vessel. Speeches were delivered in both Russian and English and translated by an interpreter.

The Russian orator dealt with Russian from the Czar's regime down to the present administration of the Bolsheviki. The proletariat, he said, joined with the bourgeoisie to oust out the Czar but Kerensky and his colleagues kept the freedom that the proletarians fought for in their pockets and fed the masses on promises that were not fulfilled. Lenin and Trotsky gave the proletarians their freedom and adjusted the food situation so as to relieve the distress of the masses. He said that Lenin and Trotsky were only two and could accomplish very little alone and it is up to the proletariat of the world to back them up and help usher in a new society based on the production of wealth for use instead of production of wealth for profit as exists under the capitalist system. Then the workers will enjoy the full measure of what they produce, he said. It has been some time since St. John had such an unique gathering of an international character.

Dr. Carter, chief superintendent of education for New Brunswick, has accepted the invitation of the commissioner of education to attend the conference and to address the School Masters' Club, consisting of 300 representative leaders of the state, at a dinner at the Bellevue Hotel, Feb. 16, upon Education in Canada as Affected by the War and Reconstruction.

F. R. TAYLOR WEDS MISS DORIS SAYRE

Interesting Ceremony in St. John's Church This Afternoon—Bridegroom is Prominent Barrister

A wedding of much interest in local society was solemnized in St. John's (Stone) church this afternoon at 3.30 o'clock, when Miss Doris Kathleen Chapman Sayre, daughter of Mr. and Mrs. Frederick E. Sayre of 19 Queen square, was united in marriage to Frederick Richard Taylor, B. C. The ceremony, which was simple and quiet out of respect to the times, was performed by Rev. (Captain) G. A. Kuhling.

The bride was dressed in a gown of white satin with a Brussels lace veil which has been worn in the family on similar occasions for several generations. Miss Eleanor Johnson of Los Angeles, who acted as maid of honor, was charmingly attired in Nile green silk. The bridesmaids, Miss Isabel Jack and Miss Edith Miller, were dressed in costumes of pale pink satin with black net hats. Isaac W. Killam of Montreal was best man and John E. Sayre, Campbell McKay, Harold Peters and Lieutenant G. Short acted as ushers. The bride was given away by her father, Frederick E. Sayre.

The only guests were the immediate relatives and friends of the bride and groom. During the service D. Arnold Fox, organist, rendered the Lobengrin and Mendelssohn wedding marches and the choir sang O Perfect Love. Immediately after the ceremony the bridal party repaired to the home of the bride's parents, 19 Queen square, where afternoon tea was served. The bride received many beautiful presents from relatives and friends.

After an extended wedding trip to Montreal, New York and other American cities Mr. and Mrs. Taylor will reside at 299 Princess street.

Mr. Taylor is a K. C. and one of New Brunswick's most prominent corporation lawyers. He is a graduate of Harvard University in law, and for several years has been a member of the faculty of the College Law School in this city. Both bride and bridegroom are very well known in local society and the wedding has created much interest.
