The Spanish Crisis.

MADRID, May 16.—Senor Sagasta, this afternoon, visited the Palace and formally handed to the Queen Regent the resignation of the ministry.

The Queen Regent charged Senor Sagasta to form a new cabinet. The Premier this evening is to confer with the presidents of the chambers and with Senor Gamazo.

MADRID, May 16.—Senor Moret, the Minister for the Colonies, this morning confirmed the statement that any changes made in the composition of the cabinet would be wholly in the direction of a more active war policy. He said: 'Recent events have greatly increased the war spirit of the nation and the greatest reliance is placed upon Admiral Cervera's squadron and upon the skill of the Spanish admiral. The latter is not hampered by instructions and the details of his plans are not even known to the ministers.'

LONDON, May 17.—A despatch to the Morning Leader from Madrid says:

"The new ministers will be Senor Romero Giron, minister of foreign affairs; Senor Aunon, minister of marine, and the Duke of Almodovar, minister of public works. The remainder will form a makeshift until the budget has been carried."

Japan Interferes.

LONDON, May 17.—A despatch to the Daily Telegraph from St. Petersburg says:

"Japan intends to protest vigorously against America's seizing the Philippines. She has already sought the assistance of Russia, and conferences are occurring between Count Muravieff, the Russian foreign minister, and the Japanese ambassador. Boran Hayashi Tadasou. It is believed that France and Germany will support Japan."

SAN FRANCISCO, May 16.—It is now said that the 1st Regiment of volunteers will lead the troops going to Manila. On Sunday there arrived for it two hundred thousand pounds of cartridges and twelve hundred new Springfield rifles from the Benecia Arsenal. Today two hundred thousand more cartridges will arrive. The 7th Regiment is scheduled to move from two to four days later than the First, though nothing positive is known as to its time of departure.

WAR SUMMARY

The war progresses very slowly. From day to day little new information is received. It looks as if one party were afraid and the other dared not. Spains fleet is doing a deal of dodging and carefully keeps out of harm's way.

The London Times thinks the war may be indefinitely prolonged.

The troops going to Manila are prepared for a six months stay, and probably left yesterday.

Gladstone is Dying.

HAWARDEN, May 17, 5 p. m.—An official bulletin just issued says: Mr Gladstone has taken a serious turn for the worst. His death may be expected in 24 hours.

HAWARDEN May 17.—Mr. Gladstone physician said this afternoon: "The end is now near. Mr. Gladstone has taken little nourishment. He breathes heavily for a few minutes and then his breathing is hardly perceptible. Mrs. Gladstone is with her dying husband. She and others of the family do not leave the room for more than a few minutes at a time."

Mrs Wilmot Jewett is so low with typhoid fever that her husband who had lately gone to Montana has been sent for. She is staying at the home of her mother Mrs. Matilda Flemming where her sister Miss Elsie, and her two brothers Scott, and Bruce, and her little daughter Lola are also sick with the fever. The cause is attributed to impure drinking water. Dr. Beirsto is attending them with Mrs Charles Nickerson as nurse.

Mrs Howard Adams and her little son Ralph of Waterville, Montana, are visiting relatives and friends here.

Wilson a barn. At one of the "raisings," Howard Nye barely escaped injury from an axe which was carelessly thrown from the top of the building by one of the men. At another, Delbert Carpenter was very much lamed by a fall from the rafters to the floor.

Mrs. Jewett is at Houlton with her daughter Mrs. Victory who is rejoicing over the advent of her first child—a little daughter which is also the first grandchild and first great-grandchild in the family.

Rev. R. A. and Mrs. Colpitts are visiting here, prior to their departure to a new field of labor, at Grand Pond and Bristol Maine. He is to preach here tomorrow evening.

The Carleton County Agricultural Society had a special meeting Saturday afternoon, May 7th.

President in chair. Others present were Messrs. C. P. Bull, R. Brown, S. Peabody, S. Watts, C. W. Connell, J. R. Murphy, J. S. Leighton, and the Secretary.

The President and Secretary reported from the committee to consider the exhibition, that both the Jacksonville and Centreville Societies were favorable to the scheme, but said that they had no funds on hand and unless a special grant could be obtained from government they did not see where the money was to come from. Debec and Hartland had not been heard from. Aberdeen could not be counted on.

On motion of S. Watts, the President and Secretary were instructed to write to the Commissioner for Agriculture and also to the Premier asking for a grant of five hundred dollars, and if successful to again communicate with the other societies. * * *

Care of the Complexion.

It is a well-known fact that a torpid liver produces a sallow hue and a dull yellow complexion. You need not expect a clear beautiful complexion if the blood is rendered impure by a sluggish action of the liver, which cannot properly perform its function of purifying and filtering all impurities from the blood. Ladies, Dr. Chas's Kidney-Liver Pills is an invaluable remedy for by their action on the liver and blood they promote true beauty by rendering the blood pure. This is the secret.

IMAGINARY TROUBLES.

Penalty of a High Endowment—Common Sense To The Rescue.

Most people, when they come to think of it, will be surprised to find out how large a proportion of their troubles are purely imaginary. We keep forecasting all sorts of possibilities, making all sorts of combinations that will work out disaster, and before we know it, we have come to believe that some one of these will conform to the facts, and we worry over imaginary issue as though it had really come to pass. It is not certain that anything but experience will relieve people from the pains of these imaginary troubles. They have to learn that they cannot forecast the future, and that as a rule it is the unexpected that happens. By and by, after a sufficient number of experiences of this kind, common sense comes to the rescue, and they learn the futility worrying about anything that has not come to pass. It is not your stolid and rather stupid man who is the victim of the agonies. Bless you, he has not imagination to project himself a day ahead, or to believe anything that he cannot see or touch or eat; but it is the one-grained, sensitive, intuitive spirit that is subject to these tortures. It is the penalty of a high endowment; but that is no reason why common sense should come to the rescue, and deliver these choice spirits from the defects of their own qualities.—Boston Watchman.

A Newsy Exchange.

The Railway News, New Glasgow, N. S., E. Lawrence, manager, comes to us each week with fresh news. From the last issue we make the following extracts:

The HARTLAND ADVERTISER is now a tri-weekly paper. Brother Fred H. Stevens the editor deserves success: Carleton County merchants and others should patronize him freely, as it is a bright and newsy sheet.

The additions to the Commercial Hotel, Hartland, N. B., are nearly completed. Mr. Rideout, the proprietor says he intends making his house one of the best in the province.

The idea of building the new station at McAdam this year has been abandoned.

New steel rails and sleepers are being laid as fast as possible between Welsford and Harvey, N. B., on the C. P. R.

Mr. Colin Campbell has only been installed at the Railway Restaurant at McAdam a short time. Since he has been there, however, he has given universal satisfaction to the travelling public. Mr. Campbell's reputation when at Newburg Junction was of the highest as a caterer to the public.

The Steamer Aberdeen is carrying large amounts of freight between Fredericton and Woodstock.

Sloperian Philosophy.

Home is where the cat is.

A fickle woman may be at times a trouble, but a thorn in the flesh is she who is constant to inconstance.

After 30, one loves; before 20, one falls in love.

The man who has been engaged six times is quite as likely to marry a shrew as the novice, on the principle that causes the most expert swimmers to drown.

Man expects to be judged by his actions, but woman feels hurt when she is not judged by her intentions.

All the love of after years cannot equal the blind adoration felt by a lad of 18 for a girl older and taller than himself.

Truth is more often than otherwise that which appears to be not so.

Men marry when they will, and woman when others will.

When a man tells a woman, "I am willing to die for you," it is only a poetical way of saying, "I am willing you should live with me and mend my socks."

We judge women by their accomplishments and men by that which they have accomplished.

The woman of hard character is sometimes such because she once had a soft heart.

The child of today is the critic of tomorrow.

When the selfish man and the egotistical woman meet, the woman laughs.—Ally Sloper.

Question of Antopy.

"Surely this is an anatomical puzzle," he said as he looked up from his novel.

"What?" she asked.

"Speaking of the heroine," he replied, "this book says that she threw herself at his feet and he caught her in his arms."

"What of it?" she demanded.

"What of it!" he exclaimed. "Just you go over that statement carefully and then tell me what kind of a dime museum freak he must have been."—New York World.

Riches of the Michipicoten.

SAULT STE, MARIE, Mich., May 14.—The steamer 'Telegram' brings news from Michipicoten, of two new finds, exceeding in value anything before discovered in the michipicoten gold district. Assays from one of the locations gives more than a thousand dollars to the ton in gold, and the other more than six hundred dollars to the ton. Numerous claims are being opened up and are giving much better results than expected. There are between three hundred and four hundred persons there now.

Rejected Recruits.

WASHINGTON, May 13.—The large number of rejections of volunteers has caused much comment in the army medical corps. However, the physicians who have conducted the examinations say that outside the ranks of cigarette smokers there are even fewer rejections than there were in the days of the civil war. Among habitual users of cigarettes the rejection are about 90 per cent.
