INTRODUCTION.

King's College was founded A. D., 1789, by an Act of the Provincial Legislature, chiefly through the exertions of the Right Reverend Charles Inglis, D. D., first Bishop of Nova Scotia. For this foundation funds were granted by the Provincial Legislature, and subsequently by the British Government.

By the Royal Charter granted in 1802, all the privileges of a University were conferred on King's College, which thus became the first University of British origin established in Canada.

A Provincial Act incorporating the Governors of King's College and annulling the Act of 1789, was passed April 4th, 1853. It provides that the Royal Charter of Incorporation shall not be affected by it further than is necessary to give effect to its own enactments.

The Patron of the University is the Archbishop of Canterbury, to whose approval "all Statutes, Rules and Ordinances" of the Board of Governors are subject by resolution of the Board of Governors recorded in the Statutes of the University.

King's College is open to students of all denominations, and imposes no religious test either on entrance or on graduation in any Faculty, excepting that of Divinity.

The University confers degrees in Arts, Divinity, Law, and Engineering. The School of Engineering was added in 1871.

Candidates for matriculation may now be examined at distant centres, under special regulations, which will be found in the Calendar.

The aggregate outlay necessary for the three years' residence and study qualifying for a degree will of course depend much upon the tastes and economy of the student, but may be estimated at about \$150 to \$200 per year. The mere money payment demanded need never, however, exclude a candidate really prepared to benefit by the course of instruction offered, inasmuch as many benefactors of the University possess the right of nomination. Each nominee is exempt from the payment of yearly fees, amounting to \$90 for the three years' course, besides

the fee for a B. A. degree. There being some forty certificates conferring this privilege, it is easy for students to obtain it. If a scholarship is held besides, nearly the whole cost of the education will be covered. The Calendar supplies all necessary information with regard to these nominations.

✓ A general statement of the financial condition of the University is appended.

The Examiners for the past Academical year, outside the Faculty, were as follows: *Classics*, Rev. Canon Partridge, D.D. *English Literature and Political Economy*, Bliss Carman, Esq. *Modern Languages*, Professor Liechti, M.A. *Divinity*, Rev. J. Roy Campbell.

A teacher of vocal and instrumental music has been recently added to the staff of instructors in the Collegiate School. New maps, charts and apparatus for scientific instruction will be added to the equipment before the opening of the School in September, 1889.

The School has been recently refurnished with single folding desks of the most approved pattern.

COURSE OF STUDY.

The object aimed at in the Arts Course is to impart a good general education, while every facility is afforded for the prosecution of special studies. Accordingly every matriculated student, except under peculiar circumstances to be approved of by the College Board, is required to attend the Lectures of all the Professors until he has passed his Responsions. After this he is at liberty to select three or more of the subjects lectured on to form the subject of his B. A. Examination. If the student be desirous of taking Honours at his B. A. Examination he can do so in any one or more of the subjects lectured on after passing the ordinary Examination. The precise regulations will be found under the head of Examinations.

There are at present in the University three Schools open to matriculated students:—

- I. The School of Arts.
- II. " " Divinity.
- III. " " Engineering.

Students who do not intend proceeding to a degree may attend the Lectures of any of the Professors, subject to the usual regulations, and can obtain from the Registrar certificates of examinations passed.

The course in Engineering is framed with a view of giving the student a sound and thorough training in Mathematics, pure and applied; a comprehensive knowledge of Engineering and applied Science, together with such practical experience in work connected with the profession of a Civil Engineer as it is within the scope of the University to afford.

Numerous Scholarships, Prizes, and Honorary Distinctions are open to be competed for by students in the several faculties, the principal of these being the following:—

One Cogswell Scholarship.....	£24 sterling.
Eight Divinity Scholarships.....	£30 sterling each.
One Binney Exhibition.....	\$50.

No Professor will grant such certificate if more than two absences without leave, during the course of the term, are recorded against the applicant, or if his conduct shall have been in any way reprehensible.

Such certificates will then be handed in by the Senior of each class to the President, who shall post in the Commons' Hall a list of eligible candidates, previous to the beginning of the examination, and no Undergraduate shall be allowed to present himself at any Terminal Examination unless he shall have complied with these regulations.

The list of candidates who shall have passed the Terminal Examination shall be published in the hall after the final meeting of the College Board for that term. FOR LISTS OF SCHOLARS, EXHIBITIONS AND PRIZEMEN, (SEE INDEX.)

The William Cogswell Scholarship.

£24 sterling per annum. Open to candidates for Holy Orders, under the direction of the Trustees.

The Divinity Scholarships.

Open to Students for Holy Orders actually requiring assistance, and subject to the control of the Bishop of the Diocese.

Eight in number—Thirty pounds sterling per annum.

Two of these Scholarships are awarded each year, and are tenable for four years. They are awarded to those only who matriculate and take an Arts course. In order to obtain a Scholarship a candidate must make an average of not less than fifty per cent. in the Matriculation Examination. The Scholarships are awarded according to the rank obtained in the Matriculation Examination, without excluding some consideration of the character and circumstances of the candidates. These Scholarships shall be forfeited for serious misconduct, of which the Board of Discipline shall be the judges, (the Board to report to the Bishop for his action) and any student failing to keep his terms, except prevented by illness or other urgent reason, shall *ipso facto* forfeit his Scholarship, and the Scholarship thus forfeited may, upon the recommendation of the President and the Professor of Divinity, be given by the Bishop to a Divinity Student of the same Academical standing as the one who forfeits the Scholarship.

Divinity Scholars are required to reside in the College building.

*No scholarship or prize open to competition shall be awarded unless at least 50 per cent. shall have been made in each paper.

The Binney Exhibition.

(\$50 per annum.)

The design of this Scholarship is to assist students who may require assistance, and who shall have commended themselves by their exemplary conduct, although their abilities and requirements may not qualify them to be successful competitors for an open scholarship.

TERMS.—On or before the first day of May, in every year, the College Board shall nominate two students, in their third term at the least, whom they may deem best qualified, having regard to their straitened means and the excellence of their character; and the President shall forthwith transmit their names, together with a brief statement of their claims, to the Visitor, who shall select one of them to be the Exhibitioner, and to receive the interest accruing for the following year, commencing July 1st. Or, at his discretion, if he consider the claims of the two nominees to be equal, or nearly so, the Visitor may adjudge that the amount be divided between them.

THE UNIVERSITY LIBRARY.

The foundation of the Library is due to the efforts of the first Bishop of Nova Scotia, and may be placed in the year 1790. Several contributions in money had previously been received, but it was not till that year that efforts were made to obtain books.

The original fund at the disposal of the Governors was not more than £250 sterling, and was intrusted to Mr. Inglis (afterwards Bishop), son of the Bishop, and a graduate of the University, who repaired to England in 1800, for the purpose of purchasing books. The names of Dr. Moore, Archbishop of Canterbury, Dr. Porteous, Bishop of Rochester; William Wilberforce, Sir S. Bernard Morland, John Eardly Wilmot, M.P., and others, thus became connected with the early history of the Library.

Munificent gifts from the University of Oxford continued to increase the value of the collection, which was further enriched by gifts from various English gentlemen, and from others settled in Nova Scotia.

The room in the College building set apart for many years for a Library Hall, was completed in 1810 at the expense of Sir Thomas Strange and the Archbishop of Canterbury.

Subsequently valuable works were presented by Drs. Bayard and McCulloch, and by the Society for Promoting Christian Knowledge.

Among later benefactors may be mentioned Dr. Greswell, of Worcester College, Oxford; The Smithsonian Institute; The British and Foreign Bible Society; The Dean and Chapter of Westminster; T. B. Akins, Esq., D.C.L.; The Society of Incorporated Alumni of King's College; E. Binney, Esq.; C. Cogswell, Esq., M.D.; The Dominion Government; The Radical Bay Club; The Haliburton Club; The Secretary of the Interior, United States; American Institute of Mining Engineers; The Royal Society; The Religious Tract Society; The Rev. George

McCawley, D.D.; The late Rev. Canon Hensley, D.D.; General Sir W. F. Williams, K.C.B.; The late Bishop of Nova Scotia; The Right Rev. Dr. Rigaud, late Bishop of Antigua; The Rev. George Morris; The late Rev. G. W. Hodgson, M. A., and Her Majesty the Queen.

This large collection of books, now numbering about 9000 volumes, contained till the year 1870 in a single room in the College Building, was then removed to the new Hall specially built for the purpose and presented to the University by the Incorporated Alumni. It contains a large number of standard works of reference in Theology, which is by far the richest department in the Library, and a fair selection of the great Greek and Latin Classics.

In modern History and Belles-Lettres it is very poorly supplied.

In Science some recent standard works have from time to time been added, and, next to Theology and Classics, this is the largest department. The languages of Modern Europe are not so well represented.

In spite of many blanks, the Library is one of the largest in the Province, and contains all the elements requisite for making it a thoroughly well appointed and efficient Reference Library.

There is no special Library Fund except the fee from students, and the collection can only be increased by grants of money from the Governors, the occasional lapsing of the Welsford prize money, and the benefactions of friends of the University.

THE MUSEUM.

NATURAL HISTORY.

GEOLOGY AND MINERALOGY.

The Geological Specimens, many of which are very fine, illustrate the most prominent features of general Geology, but the majority have been collected in Nova Scotia, and are especially adapted to show the character of the Fossil Flora and Fauna of the Province. There are several collections, which may be discriminated as follows:—

1. The W. B. Almon Collection, presented over forty years ago by Mrs. W. B. Almon, of Halifax, contains, with many minerals and a few shells, a considerable number of rock specimens and a few fossils, chiefly from Scotland, collected by the late W. B. Almon, M. D.
2. The Governors' Collection consists of coal fossils obtained in 1860, at the expense of the Governors of the College; these were collected by Professor How, with the valuable assistance of a party headed by Richard Brown, Sr., Esq., then agent at the Sydney Mines, who from long study was familiar with the district. Many of the specimens are exceedingly fine, and some are of large size.
3. The Alumni Collection consists of Silurian and Devonian Fossils, chiefly from Arisaig, N. S., collected, named and arranged stratigraphically by Dr. Honeyman; purchased and presented in 1861 by the Alumni of King's College.
4. The Australian Collection consists of specimens obtained through Colonel Nelson, in 1863, from Sir William Dennison, then Governor of New South Wales, in exchange for Nova Scotian specimens from the College Cabinet, sent by Professor How. It contains some beautiful fossils, and is arranged stratigraphically; its value is increased by an accompanying large detailed colored section made by the Government Examiner of Coal Fields under instructions from Sir W. Dennison.

5. A collection of British Fossils, chiefly Silurian and Devonian, obtained through Dr. McCawley in exchange for Nova Scotian specimens sent by Professor How from the College Cabinet, in 1860, to Captain, now Sir James, Anderson.

6. A collection from Europe, illustrating chiefly the nature of crystalline and sedimentary rocks, purchased by the Governors.

7. Several collections, some of which are unnamed, and single specimens, given and obtained by exchange at various times; of these it will suffice to name: Reptilian Tracks of great geological interest presented by the widow of their discoverer, the late Dr. Harding; valuable Fossils, chiefly carboniferous, presented by H. Poole, Esq.; Silurian Fossils from Arisaig, presented by H. Hall, Esq., Sheriff of Antigonish; Coal Plants from Cumberland County, presented by Rev. Mr. Townshend, Rector of Amherst; Cretaceous Fossils from England, presented by C. B. Bowman, Esq., and Dr. Honeyman; Silurian and Carboniferous Fossils of Nova Scotia, from Professor How; Rocks and Minerals from the Dominion Government; Devonian Corals of Ontario and Canadian Rocks from Professor Spencer.

The mineralogical specimens represent the most important species of minerals,—some of them are of great beauty. They consist of those in the collection of Zeolites collected at the expense of the Governors, and of various others obtained by gifts and exchange, as mentioned with regard to the geological department. Sir Rupert George; Rev. Dr. Robertson, Rector of Wilmot; H. Brown, Esq., Director of the Geological Survey of Victoria, formerly a distinguished student in science at this College; Rev. J. Ambrose; Rev. J. C. Cochran; C. B. Bowman, Esq.; J. Bowman, Esq.; Rev. D. W. Pickett; Hon. W. Odell, and Professor How, have presented interesting specimens.

ZOOLOGY.

The Willis Collection consists of specimens fully illustrating Nova Scotia Mollusca, named, arranged, and presented by J. R. Willis, Esq.; A collection from the U. S. Government.

The department is further illustrated by a collection of foreign shells, some interesting skulls and skins, and a limited number of preserved animals.

BOTANY.

The Cogswell Herbarium, bound in five Imperial folio volumes contains a fine systematically arranged collection of Phœnogamous and Cryptogamous Plants of Great Britain, presented by Dr. Cogswell.

The Gossip Herbarium consists of a small number of Scottish Plants presented by Dr. Gossip.

The Willis Herbarium consists of Nova Scotia Algæ and Terrestrial Plants, presented by J. R. Willis, Esq.

The Strange Herbarium consists of a considerable number of East India Plants, presented in 1805, by Sir T. Strange.

The Ball Herbarium of Nova Scotia, consisting of about 250 species, presented by Rev. E. H. Ball.

There are also a few woods, barks, leaves, and fruits—from various sources—presented by C. B. Bowman, Esq., Hon. W. J. Almon, M.D., and other benefactors.

THE GENERAL COLLECTION.

The General Collection consists of various curiosities from different parts of the world, and a small but choice cabinet of coins. Other interesting curiosities are the beautiful Indian Pipe from Queen Charlotte's Island, the models of the leaning Tower and the Baptistry at Pisa, and the memorials of Gens. Williams and Inglis, which include the sword worn by the former throughout the siege of Kars, and that used by the latter during the defence of Lucknow. There is also a model of the Cawnpore Memorial Cross, formed of wood from the house in the courtyard of which the women and children were massacred.

The College possesses also a number of autographs of royal and distinguished personages; one of Thomas Moore, the poet, inscribed in a copy of Lucian, presented by him on the occasion of his visit.

The Coins illustrate the Numismatics of Rome, and most of the countries of the modern world.

The different departments of the museum are arranged in twenty-four flat cases, supported by the balustrade surrounding

the gallery, and five large table cases all glazed and provided with lock and key. The large specimens which could not be conveniently placed in cases are arranged on shelves or distributed in different parts of the hall.

The friends of Science in Nova Scotia and elsewhere are respectfully requested to contribute specimens to the Museum of King's College. The steps which have been lately taken by the Governors to provide suitable cases for the arrangement and display of the contents of the Museum in the fine Hall erected at the expense of the Alumni, offer a guarantee that the liberality of donors will be carefully recognized and fully recorded.

A superb collection of Loyalist China, over three hundred pieces, arranged in three cases, was presented by Judge and Mrs. Weldon, on the 79th anniversary of the landing of the Loyalists in New Brunswick.

In the library, in addition to a number of Photographs, there are several large Oil Paintings—including those of the late Drs. McCawley and Cochrán, Rev. Charles Porter, A.M., and of Paul Mascarene. There are also marble busts of General Williams and of Cicero and Demosthenes.

It is particularly requested that donors will send their contributions of Books, Coins and Curiosities addressed to the *Librarian* and of Natural History specimens to the *Natural History Curator*, King's College Museum, Windsor, N. S., in order that the receipt may be duly acknowledged and the donations acknowledged in the yearly Calendars as heretofore.

LATIN PROSE.

From Robertson's America, Book II.

As soon as the sun arose all their boats were manned and armed. They rowed towards the island with their colors displayed, with warlike music and other martial pomp. As they approached the coast, they saw it covered with a multitude of people whom the novelty of the spectacle had drawn together, whose attitude and gestures expressed wonder and astonishment at the strange objects presented

themselves to their view. Columbus was the first European who set foot in the new world which he had discovered. He landed in a rich dress, and with a naked sword in his hand. His men followed, and kneeling down, they all kissed the ground which they had so long desired to see. They next erected a crucifix, and prostrating themselves before it, returned thanks to God for conducting their voyage to such a happy issue.

FRENCH.

- A. I. Translate:—*Mérimée: Colomba*:

Après trois jours de navigation, on se trouva devant les Sanguinaires, et le magnifique panorama du golfe d' Ajaccio se développa aux yeux de nos voyageurs. C'est avec raison qu'on le compare à la baie de Naples; et au moment où la goëlette entra dans le port, un mâquis en feu, couvrant de fumée la Punta di Girato, rappelait le Vésuve et ajoutait à la ressemblance. Pour qu'elle fût complète, il faudrait qu'une armée d'Attila vint s'abattre sur les environs de Naples; car tout est mort et désert autour d' Ajaccio. Au lieu de ces élégantes fabriques qu'on découvre de tous côtés depuis Castellamare jusqu'au cap Misène, on ne voit, autour du golfe d' Ajaccio, que de sombres mâquis, et dernière, des montagnes pelées. Pas une villa, pas une habitation. Seulement, çà et là, sur les hauteurs autour de la ville, quelques constructions blanches se détachent isolées sur un fond de verdure, ce sont des chapelles funéraires, des tombeaux de famille.

- II. "Mon père a été un peu malade, monsieur," disait Miss Nevil, et il est d'ailleurs si paresseux pour écrire, que je suis obligée de lui servir de secrétaire. L'autre jour, vous savez qu'il s'est mouillé les pieds sur le bord de la mer, au lieu d'admirer le paysage

avec nous, et il n'en faut pas davantage pour donner la fièvre dans votre charmante île. Je vois d'ici la mine que vous faites. Vous cherchez sans doute votre stylet, mais j'espère que vous n'en avez plus. Donc, mon père a eu un peu de fièvre, et moi beaucoup de frayeur; le préfet, que je persiste à trouver très-aimable, nous a donné un médecin fort aimable aussi, qui, en deux jours, nous a tirés de peine. L'accès n'a pas reparu, et mon père veut retourner à la chasse; mais je la lui défends encore. Quoique le préfet soit si aimable qu'avec lui on ne manque jamais de sujet de conversation—'by the by,' je me flatte de lui avoir fait tourner la tête— nous avons parlé de votre Seigneurie.

1. Parse, and give principal parts of the following verbs: *courrant, rappelait, faudrait, vint, voit, sont*; (A. I.); *disait, savez, fuites, reparn, veut* (A. II.)
2. *Pour qu'elle fût... s'abattre* (A. I.) Account for the mood of the verbs *fût* and *vint* in this clause. Give a personal form to the clause: *il faudrait qu'une armée vint s'abattre* (i. e. substitute a personal verb for *il faudrait*.) Translate: I shall not be pleased with you, *unless you do your duty*. Explain peculiarities in the construction of clauses of this nature.

4. *Des montagnes pelées*. Translate and explain the agreement of the *past participle* in the following sentences: The letters which he has written have been sent to the office. The tower which we saw building is over five hundred feet high. The lady whom we saw passing in the street is an English-woman. They (fem.) have seen one another, but they have not spoken to each other. They have *run about* (courir) the whole morning. A fine tragedy—have you ever seen it played?

5. Distinguish between: Il faut *plus qu'un* homme pour faire cela; il faut *plus d'un* homme pour faire cela; il faut un homme *de plus* pour faire cela; il faut, *de plus*, un homme pour faire cela.

B. 1. Les fleurs boréales—*La dernière Iroquoise* :

Elle se tait. La voix, comme les cris funèbres
Que poussent dans la nuit les oiseaux des ténèbres,
Va d'échos en échos mourir dans la forêt;
Son oeil sombre, ou s'allume une clarté féroce,
A semblé refléter quelque pensée atroce,
Quelque épouvantable projet !

Un sourire infernal se crispe sur sa bouche :
Son sourcil se contracte, et son regard farouche
Lance au ciel un éclair amer et triomphant ;
La main s'arme soudain d'une lame acérée ;
Et le large manteau dont elle est entourée
S'entr'ouvre et nous montre . . . un enfant !

II. *Le Québec* :

Le couchant luit là bas comme un vaste incendie ;
Le soleil sur les flots sème un rayon mourant ;
Les derniers bruits du jour chantent leur mélodie,
Et, dressant fièrement sa carème hardie,
Le Québec fend au vol les eaux du Saint-Laurent.

Le long panache dont sa tête est couronnée
Déroule dans les airs ses ondoyants réseaux ;
Il tourmente à grand bruit la vague déchainée . .
Il passe, il fuit, laissant une longue trainée
Noire dans le ciel pur et blanche sur les eaux.

Take for examples: The gentleman *whose son* is at College; the gentleman *whose son* I am acquainted with (*connaître*). *Whose* is differently expressed in the clauses: The gentleman *with whose son* I have been travelling abroad. *Whose son* are you? *Whose house* is this? (Translate these sentences).

Eugène Scribe.—“*Bertrand et Raton.*”

Jean.—Je traversai avec lui la rue de Stralsund, quand nous rencontrons deux soldats aux gardes qui nous examinent nous suivent puis s'adressant à votre père: Maître Burkenstaff, lui dit l'un d'eux en ôtant son chapeau, au nom de son excellence le comte Struensée, je vous invite à nous suivre; il désire vous parler.—*Eric.*—Eh bien?
Jean.—Voyant un air si doux et si honnête, votre père répond: Messieurs, je suis prêt à vous accompagner. Et tout cela s'était passé si tranquillement, que personne dans la rue ne s'en était aperçu; mais moi, pas si bête.... je me mets à crier de toutes mes forces: A moi! au secours! on arrête mon maître, Raton Burkenstaff.... à moi les amis!....
Eric.—Imprudent! *Jean.*—Pas du tout; car j'avais aperçu un groupe d'ouvriers qui se rendaient à l'ouvrage; ils accourent à ma voix;

en les voyant courir, les femmes et les enfants font comme eux, on ne peut plus passer, les voitures s'arrêtent, les marchands sont sur les pas de leurs portes, et les bourgeois se mettent aux fenêtres. Pendant ce temps les ouvriers avaient entouré les deux soldats aux gardes, délivré votre père, et l'emmenaient en triomphe suivi de la foule qui grossissait toujours; mais en passant rue d'Altona, où sont nos ateliers, ça a été un bien autre tapage! le bruit s'était déjà répandu qu'on avait voulu assassiner notre bourgeois, qu'il y avait eu un combat acharné avec les troupes; toute la fabrique s'était soulevée et le quartier aussi, et ils marchent au palais en criant: Vive Burkenstaff, qu'on nous le rende!

1. *Je vous invite à nous suivre.* Illustrate with short examples the various cases in which the conjunctive personal pronoun is placed *after* the verb. Turn into French: "I recommend him to you" and "I recommend you to him." The position of the objective pronoun is not the same in these two sentences; state your reasons.
2. Explain the use and agreement of the *French infinitive*, taking for examples:—I have something to tell you. What will you do? The physician has been *sent for* (faire venir). Seeing is believing. He departed without taking leave. *Il faut que je vous conte une historiette*; write this sentence, substituting the *infinitive* for the *subjunctive*. "*conte*." Distinguish between: *Il me faut écrire une lettre* and *Il faut m'écrire une lettre*.
3. *On ne peut plus.* Write down the *positive* of *plus*, and the *comparative* of: *bon bien* and *mal*. Translate: The better the laws are, the happier are the people. The more one studies, the more he learns. The negative particle *ne* and the adv. of negation *pas*, in certain cases, may be omitted in negative clauses; give some short examples. Write the equivalent of: the calamity is far greater than was at first *supposed* (*croire*); more than ten thousand persons are said to have perished.
4. Illustrate the difference between *savoir*, *connaître* and *pouvoir*.

5. Can you state the difference in the meaning between :
Savez-vous qu'il pleut and *savez-vous qu'il pleuve* ?
 Write in idiomatic French : I am afraid he will
 succeed. I am afraid he will not succeed. I am
 not afraid he will succeed.
6. The *English Passive* may be rendered in two ways
 in French. Give examples, and mention when the
one and when the *other* form is to be used.
7. The French often express themselves more logically
 than the English ; prove this assertion by trans-
 lating : How long have you been at College ? I
 have been at College four years.* My friend has
 now been ill several weeks, and there is but little
 improvement in his condition.
8. Distinguish between : *Le bateau à vapeur arrivera d*
un heure—dans une heure—en une heure. Explain
 the idiomatic difference between the French
assister à and the English *to assist*.

* The person addressed is supposed to be still at College.

- I. Traduire en Anglais :—*The learned librarian*.—M. Bautru, a
 distinguished member of the French Academy in the
 seventeenth century, travelling in Spain, was presented
 to the King Philip III., who asked him if he had seen
 the Escorial. Bautru answered affirmatively. "Well,"
 said the king, "what do you think of the library?" "I
 think Sire, that you should appoint your librarian
 Minister of Finances"; answered Bautru. "Why?"
 asked the king. "Because he has never touched the
 treasures entrusted to his care."
 - II. *America*.—On no country have charms of nature been more
 prodigally lavished than on America : immense lakes,
 like oceans of liquid silver ; mountains with their bright
 aerial tints ; valleys teeming with luxuriant fertility ;
 tremendous cataracts thundering in their solitudes ; and
 a sky, kindling with the magic of summer clouds and
 glorious sunshine.
- Turn into idiomatic French* :—There are several circulating
 libraries in this city. Man is apt to build castles in the

air. Do you place any confidence in this report? Do not breathe a word about it. This person is good-(ill)-natured. She can paint from nature.

*Enlarge the following into complete French sentences:—*The sunshine of life. To put on airs. It does not pay. To pay one's addresses to . . . To bow to the will of . . . To fly into a passion.

*Turn into idiomatic English:—*Rire au nez de quelqu'un. Les choses ont changé de face. Il n'y a pas de remède à cela. Vous m'avez joué un tour. Il n'y a pas de quoi. Faire le tour du monde. Je vous veux du bien. On connaît ses amis au besoin. Avoir du monde.

HELD IN THE COLLEGE HALL, WINDSOR,

On Wednesday, June 26th, 1889, at 11 A. M.

Dr. Trenaman, president, in the chair.

Prayers, by the Lord Bishop of N. S.

The minutes of last annual meeting, 27th June, 1888, were read and approved.

Proxies were handed in, examined, and found correct.

The minute book of the board of governors was laid on the table for information.

The secretary of the board of governors submitted a statement of receipts and expenditure on general fund account, for the year (page 113); also a statement of securities held on general fund account (page 113); and the estimate for next year (page 114).

The statements were laid on the table for information.

Dr. J. C. Moody, secretary-treasurer of the restoration fund' submitted a statement showing—

Total receipts to date.....	\$4381.70
Total expenditure to date.....	4336.07
On hand.....	\$45.63

(Funds are still required for interior repairs, &c., and contributions are solicited.)

The statement (page 116, 117) was received and laid on the table for information, and a cordial vote of thanks was accorded to Dr. Moody for the great interest which he has taken in connection with the fund.

Dr. D. H. Muir, of Truro, Dr. H. P. Jones, of Windsor, L. W. Macdonald, of Montreal, S. F. W. Symonds, of Halifax, Joseph A. Whitford, of Bridgetown, and Rev. Dr. Mockridge, of Windsor, were proposed and added to the roll of members.

The annual report of the executive committee (page 123), including the treasurer's account (page 124), was submitted, received and adopted.

The Rev. Jacob Mountain, D.C.L., having made a donation of \$3000 to form the foundation of an endowment for the professorship of modern languages, a very cordial vote of thanks was accorded him, coupled with an expression of a trust that so desirable an example as that set by Dr. Mountain may be speedily and widely followed.

Dr. Trenaman was re-elected president of the alumni.

Hon. S. L. Shannon, Mr. W. Ker Dimock, Rev. J. O. Ruggles, and Mr. J. W. Ouseley were elected to fill vacancies on the executive committee, Mr. Ouseley taking the place of the late Dr. Curren.

Mr. C. S. Wilcox and Rev. C. Bowman, D.D., were elected governors in place of Messrs. J. A. Shaw, and D. P. Allison, term expired under cl. 3, ch. 66, Acts of 1853.

The consideration of the report of the committee, appointed in 1887, to codify the acts, by-laws, and rules (page 123 last calendar) was deferred till next year.

Money votes were passed as follows:—

The governors, towards salary of professor of modern languages, for the ensuing year, the usual amount.....	\$250.00
Do. do. special extra, for ensuing year.....	100.00
The secretary, for past year.....	60.00

The committee, appointed in 1886, to take steps for the celebration of the centennial of the university, was, on motion, discharged; and the executive committee was appointed a committee to co-operate with the governors in preparing a programme for the celebration of the centenary of the college in 1890.

It was, by resolution, suggested to the board of governors,—That any committee appointed to revise the college statutes be requested to associate with themselves, two representatives from the faculty of the college, and two representatives from the executive committee of the alumni.

Hon. Mr. Shannon and Mr. Onseley were appointed to represent the alumni, in case of the adoption of the suggestion.

Votes of thanks were passed to the managers of the I. C. R., the W. & A. R., and the Yarmouth S. S. Co., for reduction in fares to those attending the meeting.

KING'S COLLEGE SCHOOL, WINDSOR, N S.

HEAD MASTER: ARNOLDUS MILLER, ESQ., M. A.,
of Toronto University, and Victoria University, Coburg.

This School is in direct connection with King's College, and is carried on under regulations prescribed by the Board of Governors.

The object of the School is to provide a sound, religious, classical, mathematical, and general education, in conformity with the principles of the Church of England; but it is open to all denominations without restriction.

Pupils belonging to the Church of England attend the Sunday Services in the College Chapel, but those of other denominations may, if required by their parents, attend the Sunday services of the denomination to which they belong. In the latter case certificates of proper attendance will be required from the minister.

While ample provision is made to prepare boys for the University and high Civil Examinations, the utmost attention is devoted to imparting such a training as may fit them for all pursuits and professions and enable them to take that position in society which is conceded only to men of liberal education and refined habits.

The Collegiate School has had another prosperous year. An excellent bath room with hot and cold water has been fitted up in the building, and a Gymnasium has been erected by subscription in celebration of the one hundredth anniversary of the founding of the school.

COURSE OF INSTRUCTION.

The course of instruction includes all the usual branches of a sound education in Classics, Mathematics, German, French, etc.

TERMS.

The School Year is divided into three Terms, viz :

Michaelmas, Lent and Trinity Terms.

Michaelmas Term begins the first Saturday in September.

Lent Term begins the third Saturday in January.

Trinity Term begins the first Saturday in April.

FEES.

Boarders	\$200 per annum.
Day Scholars	40 "

The fees are distributed over the year, as follows :

Boarders—Michaelmas Term	\$80
Lent and Trinity Terms	60 each.
Day Scholars—Michaelmas Term	16
Lent and Trinity Terms	12

Modern Languages—Boarders and Day Scholars—Michaelmas Term, \$5. Lent and Trinity Terms, \$3.50 each.

A half Term's notice must be given in writing or a half Term's fee paid previous to the removal of a pupil.

There are two exhibitions connected with the School, one of \$40 and the other of \$20, and a prize of \$15 for French.

Rules Regulating the Collegiate School Prizes or Exhibitions.

"The exhibitions shall be annually contended for, the first prize to be open to the Senior form alone; the second to all the forms of the School except the Senior."

The exhibition of forty dollars shall be awarded to the pupil of the Senior form who shall stand first on the list of Examiners, and the second exhibition of twenty dollars to the pupil of all the other forms who shall stand first on the list of the Examiners.

No pupil shall be entitled to the highest exhibition unless the examination he has passed shall be such as to qualify him to matriculate at King's College, though it is not compulsory for him so to do.

Several years ago a third prize was added to the number, viz., one of ten dollars for the best Scholar in the French language, open for competition to the whole school.

The Committee in charge of this prize fund offer for the year 1889 a prize of fifteen dollars for the best scholar in French, open to all the school, and five dollars for the best scholar in German, also open to all the school.

FORM OF BEQUEST.

*A Bequest of money, or Shares of Stock, or Debentures for the
University of King's College, Windsor.*
