**SENATE VIEWS WITH SUSPICION
 THE GOVERNMENT'S DESIRE FOR
 DEPT. OF EXTERNAL AFFAIRS**

Special to The Standard.
 Ottawa, April 27.—On motion for second reading of the Government bill to create a Department of External Affairs, Sir Richard Cartwright said the object was to create a department under the Secretary of State to be presided over by an Under Secretary of State and having a clerical staff. The business of the department would be the collaborating and making a record of the communications exchanged between Canada and foreign countries or other British colonies.

Senator Loughheed declared it looked like the preliminary step for establishing another portfolio, and provide eventually for the appointment of another Minister. There seemed to be no good reason for this bill. The State Department, he thought, had already done enough to undertake the work that it proposed to assign to the new department. Another point to be considered was how much the proposed department would interfere with the functions of the British Foreign Office.

Senator Ferguson saw one possible difficulty and that was that the Government might have in view some politician friendly to them, whom they proposed to place at the head of the new Department of External Affairs. If there was a good man there would be no great objection to the bringing in of such an outsider but it was to be feared that an outsider would not be as efficient as the man who had been trained in the work, such as Mr. Joseph Pope, the present Under Secretary of State, who in diplomatic affairs had been the right hand of all Governments for many years.

He feared the results if the work was taken from Mr. Pope's hands and placed in the hands of an inexperienced man.

Senator Landry suggested that the Government might give an assurance that Mr. Pope would be appointed as the head of the proposed new department.

Marine Instruction.
 Senator G. W. Ross moved a resolution that, "in the opinion of the Senate, liberal provision should be made at once for the instruction of Canadian mariners in seamanship and navigation with a view to the development of the shipping interests of Canada, and, if need be, the protection of Canadian commerce in coastal waters and on the high seas." Senator Ross said he wished to call attention to inadequate education now provided in Canada for seamen.

Senator Ross dealt at length with the decline of ships of Canadian register.

Senator Ferguson thought the resolution should not be pressed without more information.

Senator Ellis was of the opinion that Canada had done a good deal for the development of seamanship.

Senator G. W. Ross withdrew the resolution.

**ST. JOHN STUDENTS AT M'GILL
 DO WELL ON EXAMINATIONS**

Special to The Standard.
 Montreal, April 27.—The prize and pass lists in applied science and lists of the faculties of McGill was announced this afternoon. The following Maritime Province students appear:—

Charles L. Cantley, New Glasgow, N. S., prize for the best paper of the year on the mining section given by the Canadian Society of Mining Engineers;

W. F. McKnight, Douglastown, N. B., honors in engineering, laboratory and thermo dynamics, first prize for a paper read before the undergraduates society of applied science. Fourth year British association prize, L. Stewart, Summerside, P. E. I., honors in mining, Drummond prize for summer essay, Harry H. Yull, Truro, N. S., British Association medal and prize and honor in the chemical laboratory and mining machinery. There also passed Fred

D. Dawson, Truro, N. S., J. A. Delaney, Middleton, N. S., W. M. Dennis, O'Leary, P. E. I., J. S. Nairn, Truro, N. S., W. H. Powell, Little Harbor, N. S., C. A. Robb, Amherst, N. S., Ben Russell, Halifax; Stanley M. Smith, St. John N. B., R. H. Winslow, Fredericton, N. B.

Arts Honors.
 First rank, Florence C. Estabrooks, St. John, N. B., J. T. McNeill, Elm-dale, P. E. I.

Second rank honors, Annie Slattery, Port Morien, C. B.; Bessie B. Wisdom, St. John, N. B.; Passed in arts and applied science, T. Edgar Wilson, Langley, P. E. I.; C. C. Passes in arts and will obtain degree of B. A. on completing medical course, John T. McNeil wins the Shakespeare gold medal for English language and literature, Florence Estabrooks, St. John wins the Chapman gold medal for classics.

WOMAN'S SUFFRAGE BILL LAID OVER FOR THREE MONTHS; VOTE STOOD 24 TO 14 IN FAVOR OF AMENDMENT; ABLER SPEECHES PRO AND CON

Special to The Standard.
 Fredericton, N. B., April 27.—The big card on the programme of the House this afternoon was the woman's suffrage bill which Mr. Hathe-way of St. John introduced and on which the vote was 24 to 14 against.

The House did not decide definitely for or against women suffrage as the amendment offered when the House was in committee was to put the question over for three months. The adoption of this amendment practically meant that the House is opposed to women suffrage at the present time at least. The proceedings were watched with interest by crowded galleries of ladies.

The question was debated with earnestness and the result of the vote was 24 for the amendment to

have the question laid over for three months and 14 against. Mr. Copp announced that he and Mr. Bursbill who was absent had paired on the question.

The St. John delegates from the Canadian Suffrage Association remained over in the city and were present this evening.

After the vote Miss Peters said to The Standard: "We are just where I thought we would be. The bill is defeated but we had the great privilege of having it discussed on the floor of the House and we know our friends are."

"Will we be back again? I should say we will."

Continued on page 2.

**ONE MAN IS THE SUSSEX
 KILLED; TWO SCHOOL GOOD
 BADLY HURT ONE, HE SAYS**

Special to The Standard.
 Woodstock, N. B., April 27.—A bad accident happened in the round house in the yard late this morning and as a result Harry Cox is dead and John McElvaney and H. Allan are terribly injured. They were at work straightening out a piston rod. From the action of the fire when the rod was struck by the hammer the compressed air exploded the cylinder box and it flew to pieces, horribly mangleing Cox, breaking the leg of McElvaney in three places, and severely cutting Allan in the face. Drs. Rankin, Sprague, Griffin, Grant and Kierstead attended the sufferers, who were conveyed to the hospital.

Harry Cox, Sr., however, died at four o'clock this afternoon. He was 40 years of age and a past master of the L. O. L., which society will take charge of the funeral. John McElvaney, the foreman of the works, said it was one of the unaccountable accidents that sometimes happen and that no blame could be attached to anyone.

Dr. Inch, Superintendent of Education, returned from Baltimore somewhat improved in health, and has been visiting his daughter in Sackville. On the way hither Dr. Inch paid a visit to the Sussex school, of which he thinks the town has great reason to be proud. Dr. Inch believes it would be hard to find a better equipped or conducted school than this. He was also greatly pleased with the Hampton Consolidated school. This institution has had its difficulties, as there was at first a difference of opinion about it, but at present supporters and opponents are working loyally together to make the enterprise successful, as it certainly promises to be.

Replying to a question Dr. Inch remarked that the paragraph in his annual report described in the press as a "valedictory" was an acknowledgment he desired to make to the Premiers under whom he had served. He made it then because at his time of life one could not be sure that there would be another similar opportunity.

This is Dr. Inch's birthday. When the Chief Superintendent announced in the report that he had been engaged in educational work sixty years he did not think it necessary to say that he began to keep the district school before he was fifteen.

**MAINE MEN PURCHASE 8,000
 ACRES TIMBER LAND ON ST. CROIX
 RIVER FOR UPWARDS OF \$25,000**

Special to The Standard.
 Fredericton, N. B., April 27.—Ex-senator Lambert and Simon C. Friedman of Houlton, Me., who arrived here tonight closed a deal for the purchase of 8,000 acres of timber land on the St. Croix river near McAdam, York county, from C. F. Keefe, the well-known lumber man of that district.

The deal was closed through Slipp and Hanson and the price paid which is not mentioned is between \$25,000 and \$40,000.

Messrs. Lambert and Friedman will operate the property and Mr. Keefe retains holdings which he will continue to operate.

Ex-Senator Lambert has timber land holdings in the State of Maine amounting to 80,000 acres.

**PAID PENALTY FOR MURDER OF
 YOUNG GIRL APPOINTED
 SHERIFF OF HALIFAX CO.**

Special to The Standard.
 Halifax, N. S., April 27.—James Hall has been appointed sheriff of Halifax county to succeed the late Donald Archibald. Mr. Hall is well known in Halifax business circles, having been for years identified with the steamship business and latterly with the insurance business. He was for many years manager for Furness-Withy & Co.

Mr. Ernest Weldon has returned to St. John after a pleasant vacation at Springfield, N. B.

**BUDGET DEBATE CONCLUDED;
 MANY SPEECHES YESTERDAY**

Special to The Standard.
 Ottawa, April 27.—The budget debate was concluded at an early hour this morning after the delivery of about three dozen speeches.

No amendment was offered by the Opposition. Today's discussion was ranging from the duty on Nova Scotia coal to the land policy of the Manitoba Government. Tomorrow the G. P. P. loan will come up, and Mr. Ferguson's case probably goes over till next week.

Next week the House will begin morning sittings and the Wednesday evening rest will disappear. Mr. E. M. MacDonald, of Pictou, who discussed the coal duty, added his voice to the Nova Scotia protest against any reduction in the duty, and opposing Mr. Ralph Smith's demand for free coal. He declared that his party had never indulged in any free trade fads, and also expressed the hope that the preference will be limited to goods entering through Canadian seaports.

Mr. Wright of Muskoka, dealt largely with expenditures, pointing out by numerous examples drawn from his own riding in how extravagant and un-business-like manner these are arranged. He also complained of the manner in which the edict of retrenchment is being carried out. His own riding, for example, pays a quarter of a million yearly in taxes, and was refused a four thousand dollar expenditure as no important point as Grenvurth.

After a speech by Mr. D. D. McKenzie, of Cape Breton, which included the inevitable opposition to any reduction of the coal duty, Mr. Bradbury, Selkirk, dealt with land questions, defending the Roblin Government from the aspersions cast upon it by Mr. Neilly, and discussing the land policy of the Laurier Government.

**FATHER AND SON DROWNED
 IN THE SURF**

Special to The Standard.
 Yarmouth, N. S., April 27.—James A. Porter, aged about 60, and his son, Hugh, 18 years, were drowned off Pembrooke yesterday hauling lobster traps. They went out in a dory in the morning, passed safely through the surf and were seen at work. Half an hour later the dory was found bottom up with the men missing. The bodies have not yet been found, but Hugh's coat came ashore, leading to the belief that he swam to land, but perished in the surf. The older man leaves a widow and five children.

**AN HONORARY COMMISSION OF
 32 MEMBERS**

Special to The Standard.
 Ottawa, Ont., April 27.—In the House today Mr. Fisher introduced a bill to create a permanent commission on the conservation of the natural resources of Canada. He described the bill as a result of the recent Washington conference. There will be an honorary commission of 32 members as follows: 3 members of the Dominion Government, 1 representative of each Provincial Government, usually the minister in charge of the lands of the province.

20 others are to be appointed by order in council.

An annual meeting will be held in January, and other meetings at the call of the chair. Travelling expenses only will be given to commissioners. A secretary and small staff will be maintained at Ottawa under the rules of the inland civil service.

Mr. Verville dropped his 8 hour day bill, stating his intention of bringing the matter up in another way.

**SUNDAYS AND SATURDAYS
 HELD FREE**

Annapolis Royal, N. S., April 27.—The automobile question came before the Municipal Council at their opening session yesterday. Two resolutions were presented, one asking for the restriction of the running of automobiles, to certain days of the week, the other requesting that no restriction be made.

After a good deal of heated discussion a resolution was passed prohibiting the running of autos on Sunday and Saturday of each week. It is likely that an amendment will be carried allowing for the early hours of Saturday morning and the late hours of Sunday night, in order that a driver may not be too rigidly interfered with in passing from one county to another.

**FERGUSON AND LANGFORD IN
 DRAW FIGHT**

Boston, Mass., April 27.—The superior physical condition of Sandy Ferguson, of Chelsea, enabled him to finish strong in the last two rounds of a twelve round match with Sam Langford of Boston at the Armory A. A. tonight, thereby winning a draw.

Little championship form was shown by either of the heavyweights. Ferguson started off strong with straight arm left and right jabs to Langford's head and kept up the work for three rounds. Langford devoted himself more to the body with an occasional right to the head. From the third to the tenth Langford was the aggressor.

With Langford decidedly tired Ferguson came up with a rush in the last round and had things all his own way to the end.

**D.R.A. WILL PAY
 ONE FOURTH OF
 THE CAR FARE**

Special to The Standard.
 Ottawa, Ont., April 27.—To encourage ride shooting the D. R. A. has decided to pay one-fourth of the railway fare of all competitors who attend the next meeting at Ottawa.

**BOLD ATTEMPT TO ROB KING
 STREET STORE**

Between twelve and one o'clock this morning an attempt to burglarize the jewelry shop of Walter H. Irving, 55 King street, was made. Nothing was stolen from the shop, however. The thief or thieves entered the shop by climbing to the roof by means of a ladder in the rear on South Market street. The skylight was broken and the intruders lowered themselves through it. They were evidently frightened away by something.

Patrolman Ward discovered the break and Mr. Irving was notified. He came to the shop and made an examination. Nothing was missing. Special Officer Lucas and Patrolman Ward worked upon the case but no clue was found.

**PAINFUL EXPERIENCE OF MR. COPP
 IN THE LEGISLATURE LAST NIGHT;
 THE EXCITABLE MEMBER'S TALK**

Special to The Standard.
 Fredericton, April 27.—There have been some trying experiences for the members of the House during the session which is now nearing a close but there has been no more painful experience inflicted upon them than that of this evening. At the close of the routine business Mr. Copp of Westmorland, paid up for the only opportunity he has lost to speak during the session, and delivered what might perhaps be termed his belated speech in the budget debate. Mr. Copp had had prepared a lengthy document which has become known as a want of confidence motion, and upon this the excitable member for Westmorland spoke for about an hour and a quarter. The speech was merely a rehash of the partisan press statements in which the Opposition have dealt during the entire session.

Not an explicit charge did Mr. Copp make against the present administration. He became much excited over the proposal to make the City of Moncton a separate electoral district from Westmorland county and he completely lost control of himself. On one occasion Mr. Copp threw a personal insinuation across the House at Premier Hazen, and the Premier put it up to Mr. Copp to apologize. Mr. Copp let himself down as easy as possible.

His Doctrine.
 Mr. Copp announced as his doctrine that the County Councilors of the province are not to be trusted with the handling of the road moneys as provided under the new Highway Act, he asserted the Councilors would spend the money with political results in view only. He asserted that the parish of Westmorland would elect Liberal Councilors, and they would spend the moneys in

the interest of the Liberal party instead of the interest of the people in the parish.

Unusual Features.
 There were some rather unusual features of Mr. Copp's speech, and perhaps the most unusual was that section in which Hon. John Morrissey, Chief Commissioner of Public Works in the Government was read out of the Liberal party. Whether Mr. Copp was acting under any special commission or not was not announced, but his principal reason for summarily reading Mr. Morrissey out of the once great party seemed to be that the Chief Commissioner had defended Hon. J. V. Ellis against the slanders of Mr. Copp and some of his associates and had pointed out by the number of times his name appears in the Auditor General's report of the Government he is supporting.

Following Mr. Byrne's speech, which consumed until after 12 o'clock Mr. Murray, of Kings, who was greeted with applause or rising moved the adjournment of the debate.

The debate was later made the order of the day for tomorrow.

The House will meet at 11:30 a. m. and will take recess for lunch, resuming in the afternoon. Mr. Murray will continue the debate by moving an amendment expressing confidence in the present administration and pointing out that the pre-selection pledges of the Government have been carried out.

This amendment will probably be seconded by Mr. Pender of York, and as yet it is impossible to prophesy with any degree of accuracy as to how long the debate will draw out.

Mr. Sprout, of Kings presided as Deputy Speaker this evening, while the debate on Mr. Copp's motion was in progress.

REFERENCE IS MISTAKEN FOR WEAKNESS

Cairo, April 27.—For several years past the Nationalist newspapers have attacked Great Britain and incited the Egyptians to outrages. The Home Government has rarely punished the offenders. When this state of affairs merely kept quiet, waiting for the expected punishment. None forthcoming it was reported that the Government was "afraid" of the Nationalists. This announcement had the desired effect, and the Egyptian press printed insulting caricatures and articles. The only move on the part of England was the removal of Englishmen from their posts, which was being done by Mr. Curzon. This gave latter further courage and there were student strikes, while England did not lift her hand even in reproof.

Then the native organs printed an article on the making of bombs, the purpose of which was perfectly understood. Outrage followed outrage, all over the country; bands of robbers were formed who committed wholesale murders; there were fights between villages, and even neighbors, and frequent train wreckings and blood feuds are now common.

However, the British Government pardoned offenders, and if they were punished the punishments have been slight. Now, Hall Caine's story, "The White Flag," has been translated into Arabic and is doing much harm. New development is the Nationalist attacks on the Khedive, who is accused of thinking more of his coffers than his subjects, and is continually being threatened with revolts.

And now that the press law of 1881, which is very necessary to the interests of public order and security, is to be enforced in Egypt, a fresh howl of indignation has gone up. The protests are especially coming from the student and Effendi class of agitators, who have been making their way out of the unrest and butchery. But sedition has a way of evading even the press law. It is considered that the offending newspapers will be transferred to the ownership of foreigners, and in any action brought against them the capitulations would be invoked. El Lewis is now said to be the proprietor of a Syrian newspaper, but there is also a rumor that the Great Government have reached an agreement over the heads of the Consul. In any case, the situation is bad and one and it is high time that Great Britain showed some firmness in dealing with Egyptian "fauls."

BOND ISSUE IS LIMITED TO \$100,000

Fredericton, April 27.—The Corporations Committee has considered the N. B. Cold Storage bill. At Mr. MacLachlan's suggestion with Mr. Baxter's consent, the bond issue was limited to one hundred thousand dollars. The General Oil and Gas Company bill an amendment to the N. B. Aluminium Production Company charter, received from Legislature 5 years ago, is taking over the property of the latter company.

Mr. Wilson thought the Legislature should be careful of legislation of this character. It was intended to invest a large amount of English capital and the investors should be protected as far as possible. Foreign capital had been lost in companies previously incorporated here.

After this the bill was carefully considered and amended. The bill was reported.

Each One His Day. Give us each our little day. Ere the sun sets in the west, Give us each our moment, Lord, On the peak above the horde, Taste of triumph, wine of strife— Each a little day of life!

Give us each our day to feel Victory to our bosoms steal, Hear the loud acclaim of men 'Till around us fall again, Shadows of the dusk and we Wake in Thy eternity!

Give us each our day to know How the cheeks with pride may glow, How the eyes may gleam with cheer When the woven wreaths appear, When the old who pass away Whisper: "Give the young their day!" —Baltimore Sun.

Probate Court. Estate of Eliza J. Fish.—The passing of the accounts of the administrator, the husband of the deceased, was continued. At the time of the death of the deceased a leasehold was in her name. The husband claims that this property was his own, and that he is now entitled thereto. A son disputes this, and claims that he is entitled to a share as one of the next of kin. Further hearing adjourned till Monday, 3rd May next. Mr. R. G. Murray, proctor for the administrator, Mr. Daniel Muffin, K. C., proctor for the son.

Buried Yesterday. The remains of Mrs. Norah Dineen were taken to the church of the Assumption yesterday morning where Requiem High Mass was celebrated by Rev. F. J. O'Donovan, the funeral taking place from her late residence, 137 Rodney street, interment was in the Catholic cemetery at Sand Cove.

The funeral of Mrs. Sarah Devine took place yesterday afternoon from her late residence, 203 Brunswick street, Rev. G. A. Kurling officiated at the funeral services. Interment was in Fernhill cemetery.

Was Recommended. "All I know about him is that Mr. Gotsum recommends him to me." "Who is Mr. Gotsum?" "Mr. Gotsum is one of the stockholders of the life insurance company that is carrying \$50,000 risk on my life." —Chicago Tribune.

Y B STARTLING. "Marin, I'm going to have Dr. Squillips treat me for my heart trouble." "What do you know about Dr. Squillips, John?" "All I know about him is that Mr. Gotsum recommends him to me." "Who is Mr. Gotsum?" "Mr. Gotsum is one of the stockholders of the life insurance company that is carrying \$50,000 risk on my life." —Chicago Tribune.

FURTHER REVELATIONS IN THE METHODS OF TAPPING THE PROVINCIAL TREASURY UNDER THE FORMER ADMINISTRATIONS

Fredericton, April 27.—There were some further revelations as to the management of the Public Works Department under the old Government before the Public Accounts Committee of the Legislature this morning. Perhaps the most striking discoveries were in connection with the accounts of Supt. Robt. Logan, who was in charge of the work on the Henry Bourque bridge in Northumberland county. Dr. Bourque, on an examination of the accounts for this bridge, found that included were items for a pair of boots at \$1.75 and a shirt at \$1. Peavies, axes, and all kinds of tools were charged up to the department by Mr. Logan, and while the amount in this particular instance was not very large the principle was pointed out to be a very vicious one. Mr. Jones said that Mr. Logan also charged up writing tables to the department, and of course received his pay, the bill being sanctioned. Chairman Pinder said that he knew of one case where the department a few years ago paid for an engine for the use of one structural superintendent, but this had never been heard of since.

During the discussion which took place it was pointed out by Mr. Prescott that under the present administration of the Public Works Department these accounts are not allowed, and when sent in are not paid. He told the superintendents who sent in accounts for tools they would find the items deducted before the accounts were paid. Mr. Jones produced a bill of \$23 for horse hire charged by a superintendent in Northumberland county. "That kind of a bill is not paid under the present administration," he said. Mr. Jones also produced an account for \$3,457 that ex-Chief Commissioner Labllois had approved of early in the month of October, but Mr. Labllois had marked on this account "Hold for payment," so that it would be placed in the famous suspense account and carried over to the next fiscal year.

Through the efforts of Mr. Sheridan, of Kent, there has been brought to light a most unusual state of affairs in connection with the Sheridan Mill Pond bridge account for Kent county. To throw some light on this account, Chief Commissioner Morrissy was summoned as well as the acting secretary of the department, Mr. Donald B. Winslow. The account showed that Alfred Haines, of St. Mary's, asked for and was given an advance of \$200 in December, 1907, to do some work on this Sheridan Mill Pond bridge. Mr. Haines on getting the money, apparently bought some lumber, some bolts and other things and had them sent to the site of the bridge. Nothing more was heard of the matter until it was pointed out to Mr. Haines by the department yesterday that there was no account to show anything for this outlay. Accordingly, Mr. Haines came to the Public Works Department today and brought with him an account which showed about \$50 of the \$200 not expended, and this money was refunded to the department after being in Mr. Haines' hands for sixteen months. Mr. Haines' explanation was that he had been sick. The Chief Commissioner pointed out that he and Col. Sheridan had visited the site of the bridge last summer and had found no work had been done on it. They saw at the site about thirty or forty pieces of hemlock and three or four square timbers and a couple of boxes of iron bolts. These pieces of hemlock had been charged for at the rate of \$12, while they could be bought for \$5, and the entire outlay of \$150 showed about \$40 or \$50 worth of material for the bridge, and no work done.

In connection with the accounts that had been turned in by Mr. A. Haines there were some rather remarkable charges. He charged the department up with peavies, peavy handles, etc, and also put in a bill for \$2 for looking for lumber.

Some lumber accounts were taken up while the Chief Commissioner was in the committee room, and it was shown that for the Henry Bourque bridge in Northumberland county, the department under the management of ex-Chief Commissioner Labllois paid no less than \$812.64 for 10,158 feet of cedar logs to D. and J. Buckley, while for the Johnston bridge the same firm received \$203.50 for 407 pieces of flooring. The Somers bridge in Northumberland county cost 100 per cent. more than it was worth, according to Chief Commissioner Morrissy's statement this morning.

When the committee adjourned the accounts of St. John county bridges were under consideration, and it appeared that another member of the Haines family at St. Mary's had been busy. This time it was Benjamin and he was superintendent of the work on the Tynemouth Creek bridge in Oct. 1907, and in the month previous he was in charge of work at Loch Lomond bridge. Ben. Haines beat out Mr. Logan in his ability to buy things. He bought one outfit in September at the Loch Lomond bridge and then moved to Tynemouth Creek bridge the next month and bought another outfit.

FIRST USE OF RADIUM IN DOMINION

Montreal, April 27.—Experiments in the use of radium for medical purposes are being made for the first time in Canada by Dr. George E. Armstrong, who has just returned from Paris, where he has been studying its possibilities at the famous Radium Institute. Dr. Armstrong brought back a small supply of the precious material with him, and is already experimenting with its use, but as yet has not secured any marked results, as he has only been using it a couple of days. He, naturally, did not bring a very large supply of the stuff back with him, as it is worth \$100 a milligram, which is about the size of a pinhead.

Discussing his trip last night, Dr. Armstrong said he found the work at Paris very interesting. He spent some time at the Radium Institute watching experiments with the new material for the cure of various forms of skin diseases, cancerous growths, etc. The use of radium, however, he stated had not yet passed the experimental stage, and while good results had been secured in some cases not enough was as yet known about it to give it a definite place for medical work.

"There is unquestionably something in radium for medical purposes," said Dr. Armstrong last night, "but it is almost too soon yet to give it a definite place. It is being thoroughly investigated at Paris, and it seems to be of use for various superficial skin diseases, cancerous growths, etc. The doctors there have secured very good results in some cases, but enough is not as yet known to compare it with results obtained from other things, so that as yet it is impossible to say just what it will do." Dr. Armstrong brought back several milligrams of the precious stuff in a tiny glass bulb. It is in the form of a grayish powder, very much like ordinary dirt off the street. The radium, however, is practically indestructible, it being calculated that it will keep on giving off radioactivity with only a loss of about half its original energy in 1750 years.

CAST ASHORE ON AN ISLAND UNINHABITED

New York, April 27.—The small fruit steamer Jos. H. Cunee arrived here last night from Port Antonio, having on board Captain Loree, Walters and wife and six seamen comprising the crew of the schooner Adelle and Beatrice, which was blown ashore on Low Cay Reef at the east end of Marigana Island, on the night of April 7.

Captain Walters told of leaving the wrecked schooner in a skiff, and rowing to the mainland, where for ten days they lived a typical Robinson Crusoe existence, the island being uninhabited. The chances of being rescued by a passing vessel appearing all hands in the skiff and rowed to Castle Island, a distance nearly a hundred miles, where the Jos. H. Cunee picked them up.

RETURNING FROM COBALT.

Montreal, April 27.—A party of low-province business men, returning from a tour of investigation in the Cobalt region, is in the city today on their way home. F. C. Armstrong, of New York, representing the Thompson-Earl mining promotion interests, had the party in charge and the purpose was to make the people of the eastern section better acquainted with the silver mining wealth of the Cobalt region. Prof. W. E. Hidden, of Newark, N. J., was one of the party, and the lower province party included H. V. Weir, Walter G. Brookfield, John E. Wood, J. McGregor Mitchell, G. A. Taylor and T. Mitchell. Halifax; Frank Stanfield, Truro; W. B. Tennant, H. J. Dick, J. M. Robinson, F. B. Ellis, St. John; E. G. Lynch, Digby. The party leaves for home tonight well satisfied with their trip.

The Reason.

Nursemaid—'I'm going to leave, mister—' Why, what's the matter? Don't you like the baby? Nursemaid—Yes, but he is that afraid of a policeman that I can't get near one.—London Tatler.

NIAGARA ICE JAM HAS NOW GONE OUT

Niagara Falls, Ont., April 27.—The ice jam in the Niagara river is now a thing of the past. Open places appeared in the stream Saturday and there is now an open channel all the way up to the whirlpool. Above this point the river is free of ice, nothing of the phenomenal pack remains except heavy fringes along the shores of the river. These also are rapidly disappearing. Mr. Nicholas, superintendent of the Niagara Great Railway Company, says he will make no attempt to estimate the amount of damage done the line. He hopes to have at least one track in operation before May 25th. It will be several days before the officials of the Niagara Navigation Company are able to ascertain with any degree of correctness the extent of the damage done the docks at Lewiston, Queenstown and Niagara-on-the-Lake, as the ice is still piled high on the banks and may have to be blasted away. It is thought, however, it will take about \$75,000 to repair the damage wrought the property owned by this company. The International Railway Company will be compelled to expend considerable money to repair the damage done the loop at Queenstown. Many boats have been either demolished or carried away by the ice formation and the fishermen's loss in consequence will be heavy.

Made a Difference.

Near-Sighted Lady.—The boy who is trying to tie that tin can to that poor dog's tail ought to be thrashed within an inch of his life—the horrid little brute. Maid—It's your boy, mum. Near-Sighted Lady—My boy? Maid—Yes, mum. Near-Sighted Lady—Tell him if he'll stop I'll give him some cake.—Christian Advocate.

Second Sight.

"A case of love at first sight, eh?" "No, second sight. The fellow he saw her he didn't know she was an heiress."—Boston Transcript.

CAMPBELLTON BILL AMENDED VICIOUS PRINCIPLE STRUCK OUT; PEOPLE OF THE BOND ISSUE

Special to The Standard. Fredericton, N. B., April 27.—The Committee on Municipalities met at 10 o'clock. The Town of Campbell bill was taken up and considered. Mr. Currie explained the bill, the amendments sought being to change the close of the fiscal year from March to December. Authority to cut off a customer's supply of water or electric light without his having redress for damages and permission for a further bond issue was also asked.

Opposed Bill.

R. B. Hanson opposed the bill on behalf of certain clients he said Mr. C. S. O. Crockett has litigation pending which the bill adversely affected. Mr. Hanson also claimed that the present bond issue was excessive. Mr. Currie said that when the water works were first put in several industrial enterprises were allowed to install water motors, but as the demand for water for domestic purposes increased, it was found necessary to refuse to supply water for what was meant for power. After discussion on the clause giving the Town Council authority to shut off the customer's supply of water or electricity without redress or damage was struck out.

Strong Opposition.

Mr. Crockett, of Campbellton, said that last year the Town Council issued \$25,000 water bonds and the citizens did not know where the money had gone. Later they made some extensions to the water system and

made another issue of \$60,000. Citizens did not believe that all the money had been expended and he believed that ninety-nine in every one hundred citizens were opposed to a further bond issue. Hon. Mr. Maxwell read letters from the taxpayers of Campbellton who objected to the passage of the bill. At the suggestion of the committee, Mr. Currie consented to have a referendum clause added that the issue of \$50,000 additional water bonds be submitted to a vote of the ratepayers.

Delinquent Taxes.

A bill to amend the act relating to rates and taxes was taken up. There were really three bills under discussion, introduced by Mr. Wood, of Queens, one by Mr. Robinson, of York and one brought forward by G. H. F. Welling, of Kings. The object in the three bills was identical and was to make more effective the collection of delinquent taxes.

Mr. Byrne said that the question was discussed at the last meeting of the Gloucester Municipal Council and a resolution was adopted in favor of such legislation as was proposed. Secretary Treasurer Bliss, of York, explained some of the difficulties that that county had in collecting taxes from non-residents and incorporated companies and which Mr. Robinson's bill was intended to obviate.

A bill was drafted satisfactory to all parties and will be recommended to the House.

DEFINES HIS ATTITUDE TO BOOK GENESIS

Kingston, April 27.—At the conclusion of the lecture by Rev. Prof. James Orr of Glasgow University on "The Early History of the Old Testament," the Convocation Hall, Rev. W. G. Jordan, D. D., professor of Old Testament criticism and Hebrew in Queen's University spoke as follows:—

I would like to conclude this course of lectures to offer a few remarks in a kindly spirit. This work of "criticism," as it is called, is a simply a movement of the mind, which has attracted the attention and absorbed the energies of able, scholarly men during many generations so that in relation to it the work of any one man seems comparatively unimportant. Still, it is to be said that Christian men, occupying different standpoints, should sometimes make an effort to understand one another. In the case of Professor Orr I find it difficult to comprehend precisely his position, and so far as it is clear to me I am compelled to dissent from it on several points. I can claim to have given a similar lecture on the subject of the Old Testament, and I have followed as closely as I could the lecture given here, with regard to the history, theology, and religious faith, and I have in my own mind a correct examination of the Bible.

The Destination.

I understand that Dr. Orr admits a distinction of the documents in Genesis, and considers that the work by which such distinction was discovered about one hundred and fifty years ago is "scientific." I cannot say that the further prosecution of this work which led to the later dating of the Priestly Code differs in its nature from a similar work which was done in the use of the idea of "development," it is to be regarded as prejudiced and unbelieving. Why should we be afraid of the idea of development or refuse to allow the thought represented in a document is one of the elements to be used in fixing its date? But in the case of the Priestly Code many other considerations come into play, such as its relation to Ezekiel's Chronicles, and later Judaism. When Professor Orr speaks of "progressive revelations" he must surely mean something similar to what we mean by "historical development," but both these phrases are empty and meaningless unless there was real growth of God and the world. If David uttered the well-known saying, I Samuel, xxvi, 19, he can scarcely be credited with the composition of Psalm 139. Personally I have no difficulty in admitting that David's view of Jehovah was narrower than that of Amos or Isaiah, when I find noble men five or six centuries later wrestling with the problem, "How can Jehovah's song be sung in a foreign land?" If there was a fully developed monotheism and universalism in the time of Abraham, then there was no development, and to many of us the literature becomes unintelligible. Further, if the phrase "essential Mosaic city of the Pentateuch" is correct and has any definite meaning, there is no such thing as "development," but neither is there "progressive revelation." Seeing that Dr. Orr departs from the strict traditional view of the Bible, it is a clear statement of his own position, and this seems to be due from one who attacks "critics" of all shades of opinion. Particularly does this remark apply to such phrases as "revelation," "inspiration," and "the supernatural." We admit that these great realities are difficult to define, but one who declares that the broad development of criticism weaken their significance rather than increase their meaning should state a little more clearly the issue involved.

Book of Genesis.

With regard to the book of Genesis, two or three remarks may be made: (1) To talk of "wiping out a period" is rather misleading, whoever uses the phrase, to be under the new view the period is seen to be full of strenuous life, while the documents involved yield specific teaching regarding the period in which they are placed. When one remembers that the few family stories in Genesis are supposed to fill

up a gap of six or eight centuries it cannot be surprising, on any view, we have much historical material.

(2) When we come to the early narratives of Genesis I fall again to see precisely what Professor Orr's view is, it seems to be uncertain and unstable. As to details there are no doubt many unsolved problems connected with these narratives, but scholars have reached, both on the positive and negative side, a large measure of agreement. It is possible now to estimate the real nature of these narratives in their relation to science, history, theology, and religious faith.

(3) At this stage we meet a point of immense importance. I am quite certain that the men to whom the teaching of the Old Testament is entrusted in the Presbyterian colleges of Canada and Britain would take the position that it is foolish and full of danger to make the essential facts and truths of the Christian religion dependent upon the historicity of the Genesis narratives. These narratives have their spiritual uses, in fact to some of us they are more full of meaning and bear a more living message than before, but to treat them as literal science or history, in the old sense, is quite impossible.

Prof. Orr said that he was glad that Prof. Jordan had expressed his views on the matter. From what he had read of Prof. Jordan's works he did not expect that he would agree with him. However, he wished to tender his thanks to Prof. Jordan for the latter's warm friendship and reception while in the city.

KILLED IN DRUNKEN ROW IN TORONTO

Toronto, April 27.—With his skull terribly fractured as the result of being knocked down at the corner of Duchess and George streets, William Gordon, a middle aged carpenter, who lived at 59 Frederick street, died in St. Michael's Hospital Saturday evening. Two hours later Detective Harry Armstrong arrested Gilbert Oliver, 29 years of age, of Elm street, on a charge of murder. Oliver, who has served terms for theft and assault, was identified at Court street police station by several spectators of the assault.

According to the police, the dead man, the prisoner and another man had been in each other's company for some time previous to the assault. They had been drinking and at the corner of Duchess and George streets an altercation started and Oliver, it is said, struck Gordon in the mouth. The latter fell backwards, the side of his head coming in violent contact with the pavement. He lay as he fell, and Oliver and the other man after vainly attempting to rouse him, dragged the inert form over to the sidewalk and then ran away on George street. He died soon after being taken to the hospital.

BUSINESS STOPS.

Vancouver, April 27.—Because the Dominion Government has not yet signified its intentions with respect to the extensions of a subsidy of the Canadian-Australian steamship line operating steamships between Vancouver and Sydney the business of the line is at a standstill. The present subsidy will expire in June and pending some settlement of the matter the company is unable to advertise sailings or to contract for business from Australia after July. This disadvantage means the loss of many thousands of dollars in freights as well as considerable prestige as a passenger route. Months ago the Union Steamship Company of New Zealand applied to Ottawa for an increase in the subsidy paid for the transportation of mails, undertaking on its part to establish a 21 day service by placing faster steamers on the route. The Federal Government this month informed the company that no increase of subsidy would be granted.

THE LATEST PRODUCE QUOTATIONS

Special to The Standard.

Toronto, April 27.—Local trade in all departments of breadstuffs is very dull. The spectacular performances on the big wheat markets are sufficient to make business here very uncertain.

Will Make Change It is reported that some thirty or forty vessels are waiting the opening of navigation at Port Arthur and Fort William.

Flour Situation Montreal, April 27.—There were no new developments in the local flour situation, business in all grades being quiet, and prices unchanged.

Potatoes Plentiful Potatoes are in fair demand, with market moderately active.

Earnings Decreased New York, April 27.—The General Electric annual report shows 7.37 per cent. earned on the capital stock, as against 10.11 per cent. in the previous year.

CORN, OATS AND LARD. Chicago, Ill., April 27.—Wheat—May 1.21; July 1.08 3/8; Sept. 1.01 5/8 to 3/4; Dec. 1.09 3/8 to 1.01.

INCREASED CORN ACREAGE New York, April 27.—Reports from the interior indicate a large increase in corn acreage.

SPECULATION UNCERTAIN IN WALL STREET

New York, N. Y., April 27.—The halting and irregular price movement in the stock market today argued speculative uncertainty.

Another point selected for measures to support values was in the local traction group and this proved unfavorable, since the news of the reconsideration and passage by the Senate of the five cent Coney Island fare measure came in the advance in those stocks.

LONDON MARKET HEAVY New York, April 27.—The general market in London is heavy and inclined to sell off.

WINNIPEG WHEAT The Ogilvie Flour Mills Co., Ltd., supply the following quotations of the Winnipeg Wheat Market:

Yesterday's Market In the city market there is a scarcity of eggs, and also of potatoes, but butter is plentiful.

Needn't Worry. "Why doesn't some one invent a new puzzle?" is the question of railway timetables is about due.—Buffalo Express.

AL SHRUBB WAS ST. YVES MASTER

Al Shrubbs' decisive victory over St. Yves in New York Saturday night was the master of the "two" Marathoners up the 15-mile route.

Frenchman Could Not Sprint. Shrubbs ran his accustomed mile which was to go off and kill his time in the first part of the journey and then rest up for the finish.

St. Yves' Style Poor. The result of the race proved conclusively that the style of running adopted by St. Yves will not do such a contest as a ten-mile or a mile race.

Shrubbs' method carrying him on the ground at a greater clip than could be imagined for a Marathon runner.

Within The Ropes. Honey Mellody has hiked for what the easy money flows, that dear Paul He will meet his old antagonist, V. Lewis, about May 15.

Freddy Welsh will show the New York sports to what extent he has proved when he encounters John Frayne Friday night.

The match between Sam Langford and Stanley Ketchel, has been arranged for July 12 at Los Angeles, the third necessary being that the match be ratified by Manager Tom McCarthy of the Pacific A. C. of that place.

Joe Woodman, acting for Langford and Willis Brit representing Ketchel Sunday, arranged all the details and signed the articles of agreement.

Under the conditions the men will box ten rounds during the Elks' convention at Los Angeles at cat weights. There will be no decision on a German award is not made known.

Woodman announces that the match with Ian Hague at London on May will go through regardless of reports to the contrary.

Jimmy Clabby who added another to his list last Saturday night in New Orleans, will have a tilt with Jim Moran in Indianapolis.

Howard Cannitz, the Pittsburgh writer, added his name to the list of one hit pitchers in Sunday's contest at Cincinnati.

George Stallings has been beaten by Eastern league managers who want to take on some of his surplus pitchers.

A Philadelphia exchange says that it is not open to man to man in three three-base hits and two singles in one inning without scoring a run.

How about this: First two men hit three baggers and are caught at home trying to stretch the hit, two out, next man triples next man bunts a safe, man on third being held; next man hits and beats it, man still held on third; the next man still hits the ball, but it hits a base runner at goes as a single, three out. Three triples and three singles.

Eddie Walsh still continues to correspond with the White Sox manager. The spit ball artist has received the point where he is "aimed" again.

After all these years in baseball John Anderson has at last shifted in the minors. He goes to Providence and may be depended upon to swing lusty stick for Hugh Duffy's boys.

Speaker bids fair to give Harry Lord a race for the bus stopping here this season. But there are quite a number in that Red Sox outfit who are pretty clever in the base pilfering line.

Johnny Evers is about ready to join the Cubs. He played with the Trojans on Saturday and scored two runs. His accession to Chance's outfit will make it look more like the pennant-winning team.

The Cape Breton Association Football League was formed at Glace Bay April 23. Organization will be complete by May 5. The first match are to be played on Victoria Day.

The pacing mare Marlon W., 2:34, purchased by J. D. Keith, St. John, and a pacing gelding bought by E. A. Murray, 2:56 in St. John's, arrived by the A. W. Perry from Boston in evening. They were landed this morning and taken to the stables of Dr. H. McFairidge, Government Veterinarian Surgeon, to undergo the customary inspection.—Acadian Recorder.

WE WILL GIVE CNE JAPANESE TRAY, 26x21, FOR ONE HUNDRED CARDS. ONE POUND TIGER D. TEA, FOR FIFTY CARDS. ONE 12 INCH CIRCULAR TRAY, FOR 25 CARDS. A 30 Inch Linen Doll FOR THIRTY CARDS. A 16 INCH RED RIDING HOOD DOLL, FOR TWENTY CARDS. A 13 INCH LINEN PUSSY MEOW DOLL, FOR 15 CARDS. Instructions to make up to go with these dolls.

545 PRIZES--\$890. We Offer as Follows: 5 FIRST BEST WRITTEN TIGER TEA LETTERS, \$10 Each, \$50. 10 NEXT BEST WRITTEN TIGER TEA LETTERS, 5 Each, 50. 30 NEXT BEST WRITTEN TIGER TEA LETTERS, 3 Each, 90. 200 NEXT BEST WRITTEN TIGER TEA LETTERS, a Gift Worth \$2, 400. 300 NEXT BEST WRITTEN TIGER TEA LETTERS, a Gift Worth \$1, 300. 545 Prizes of a Cash Value of Total \$890. Conditions of Competition: 1st—Any boy or girl, 8 to 15 years old, can compete by writing us a copy of TIGER TEA letter as below. 2nd—Each letter must enclose 12 of the square cards found inside of the 1-lb. and 1-2-lb. packets of TIGER, MANDARIN or EAGLE TEA. 3rd—Award of Prizes in July, 1909. 4th—Neatness, style of writing, and age of child, considered in awarding prizes. W. F. Hatheway, Co., Ltd., February, 1909. St. John, N. B., Canada.

W. F. HATHEWAY CO., Ltd. Packers of Tiger Indo-Ceylon Teas. Dear Sir:—Our choice at home of Tiger Tea is grade—at—c. per lb. It is true that the tiny dried, whitish buds in Tiger Tea give it that fine delicate flavor? We used to drink China Tea years ago, but prefer the Tiger Tea in 1-lb. packets, as it looks clearer, and because Tiger Teas are prepared and packed by machinery instead of by the nasty, sweaty hand-treatment as in China. The pretty blue and white label is enough to make one wish to taste a cup of Tiger Tea. The tiger paws on the label show how strong the Tiger Tea is. I am very glad to send you this letter about Tiger Tea, and if you wish I will send you a sketch of a tiger which would perhaps be fiercer than the tiger on your label. The rich cherry color of Tiger Tea pleases everyone, and I hope that you will always keep the quality of it as good as it is now. I enclose the 12 cards required, and tell you truly this is my own handwriting. Every Canadian should buy a 1-lb. packet of Tiger Tea, for, besides the good quality we know that the work of blending, labeling, boxing, packing, etc., is all done by Canadians in St. John. My age is my last school teacher was Hoping that this letter will win a Tiger Tea prize. I am, respectfully yours,

DIAMOND DUST. Moxie Manuel the Chicago American pitcher has been sold to the Birmingham club of the Southern league. Birmingham paid \$1000 for the two years. Howard Cannitz, the Pittsburgh writer, added his name to the list of one hit pitchers in Sunday's contest at Cincinnati. Cannitz has already promised to have one of his best sons. George Stallings has been beaten by Eastern league managers who want to take on some of his surplus pitchers. No less than four of the Eastern corps of managers called on Stallings one day last week. A Philadelphia exchange says that it is not open to man to man in three three-base hits and two singles in one inning without scoring a run. How about this: First two men hit three baggers and are caught at home trying to stretch the hit, two out, next man triples next man bunts a safe, man on third being held; next man hits and beats it, man still held on third; the next man still hits the ball, but it hits a base runner at goes as a single, three out. Three triples and three singles. Eddie Walsh still continues to correspond with the White Sox manager. The spit ball artist has received the point where he is "aimed" again. After all these years in baseball John Anderson has at last shifted in the minors. He goes to Providence and may be depended upon to swing lusty stick for Hugh Duffy's boys. Speaker bids fair to give Harry Lord a race for the bus stopping here this season. But there are quite a number in that Red Sox outfit who are pretty clever in the base pilfering line. Johnny Evers is about ready to join the Cubs. He played with the Trojans on Saturday and scored two runs. His accession to Chance's outfit will make it look more like the pennant-winning team. The Cape Breton Association Football League was formed at Glace Bay April 23. Organization will be complete by May 5. The first match are to be played on Victoria Day. The pacing mare Marlon W., 2:34, purchased by J. D. Keith, St. John, and a pacing gelding bought by E. A. Murray, 2:56 in St. John's, arrived by the A. W. Perry from Boston in evening. They were landed this morning and taken to the stables of Dr. H. McFairidge, Government Veterinarian Surgeon, to undergo the customary inspection.—Acadian Recorder. Entries have closed for the Can

W. FRANK HATHEWAY COMPANY, Limited, ST. JOHN, N. B.

WEATHER PROBABILITIES.

Toronto Ont., April 27.—The disturbance which was approaching the Great Lakes last night, having given rain throughout Ontario, has now passed into the province of Quebec. The weather continues cold in the western provinces, and light snow has fallen in many districts.

Min. and Max. temperatures: Winnipeg 12.30; Port Arthur, 18.30; Port Hope 24.42; Toronto, 24.52; Ottawa 25.52; Montreal, 30.54; Quebec 28.56; St. John 26.44; Halifax 32.50. Maritime—Fresh to strong south to west winds showery not much change in temperature.

Washington Forecast. Washington, D. C., April 27.—Forecast for New England: showery Wednesday, cooler in northwest portion; Thursday, fair, moderate southwest to west winds.

Found His Body. On Monday afternoon Thomas Donahoe, an old gentleman of Bartholomew River, was found drowned in three feet of water. His hat had been found on Sunday a mile or so above the spot where his body was located.

The Lowest. At the north end, corner of Main and Bridge streets, is the leading quality store of St. John. The prices. Pidgeon's prices are always the lowest.

An Unknown. Bobby had a companion at the North End police station last night whose identity was unknown, as he professed to be unaware of his own identity or of lodging place, when he was arrested on Main street.

Queens Graduates. Among the graduates of Queens University, Kingston, who took the degree of B. A., this week is Miss Besse Wilson, of this city. The Bachelor of Science include Scott Blenkhorn, of Canning, N. S., who took his degree in the mining branch R. H. Cooper, Springfield, N. S., civil engineering.

Painting Church Building. Extensive repairs are to be put on St. John's Presbyterian church in the near future. The outside of the building will be fixed and painted, a long felt want. The wall in front which cemented and altogether the church will take on a new and fresh appearance.

Went To Sleep Instead. James Farnley has been ill, threatened to shoot himself yesterday. He locked himself in a room which contained a razor and his friends summoned the police. When they arrived however, Farnley had gone to sleep.

Bobby Dixon in Again. Bobby Dixon was the central figure in a mournful procession which wended its way last evening from the Inter-colonial pier to the North End police station.

Had a Close Call. A young man who invited two of his lady friends to drive last evening, evidently did not intend of excitement. The auto started on Mill street about half past seven. At that time the depot crossing gates were down, but the rig was going at a pace which did not admit of considering such a trifle.

Crashing through both gates the team was missed by the shunting engine for which the gates were down by not more than two feet. The horse was beyond control, and good fortune alone prevented a terrible accident. Bystanders describe the escape of the man and women as little short of miraculous.

A further peculiarity of the affair was that although the gates were down at both tracks the rig managed to get through the narrow space between the two boards without breaking them.

OUTSIDE CLUBS ACT FORMALLY RE N.B. LEAGUE

The New Brunswick baseball league has begun to assume definite shape. Until yesterday, it was largely a matter of favorable press comment.

Mr. D. B. Donald, of the Marathons has now however, letters from three teams who express themselves as very favorable to the league, and who ask for further particulars of the plan. All express a desire to see the arrangements completed at an early date.

One communication came from the Amherst Ramblers, and the other two are from Fredericton, which apparently has more than one team which is anxious to become a part of the league.

The Fredericton communication came from Mr. Johnson, secretary of the Victoria club, and from Arthur Finnamore, who asks to be included in any plans which are being made for the Provincial league.

In addition to these teams, Mr. Donald has been writing to the M. A. A. of Moncton, but their only expression of opinion so far has been through the press.

LATE PERSONALS

Mr. John McDonald, Jr. left for Fredericton by last evening's Montreal train.

WHO WILL BE CHAIRMEN OF THE BOARDS?

There are various conjectures as to the boards of the Common Council to which the new aldermen will be assigned. It is extremely unlikely that any will receive chairmanships as that is against precedent. It is said however, that one of the new men is anxious to preside at the meetings of the Ferry Committee. Aid. Elkin is said to be the man who will fill that position. Aid. Scully is also mentioned in connection with that chairmanship.

It is considered likely that Aid. Potts, the only new alderman-at-large will be given a place on the Board of Public Works.

Ald. Kelley for Warden. The Warden of the Municipality of the City and County of St. John will this year be a member of the Common Council. The name of Aid. Kelley has been mentioned in connection with that office.

Ald. Christie May be Deputy Mayor. For the office of Deputy Mayor few aspirants have appeared. It is thought that Aid. Christie may be the map for the office as he is chairman of no board or standing committee.

Caucus This Week. Thursday or Friday will see a caucus of aldermen at which it will be decided to whom the various offices will go. The appointments of revisors of assessment rolls will also be considered. The two senior aldermen usually have the right to make these appointments if they so desire.

HELD MUSICAL AND LITERARY EVENING

Court LaTour, No. 28, of the I. O. P., held a musical and literary entertainment in their hall on Charlotte street, last evening. The hall was brilliantly lighted and decorated with palms. An excellent programme was made and thoroughly enjoyed by the large number present.

Following is the programme for the evening's entertainment: Piano duet by Miss Drake and Miss Todd; solo by Mr. Kingsmill; reading by Mrs. I. E. Willis; autoharp selections by Mr. John Frodsham; duet by Mr. W. J. Banbury; gramophone selections from the Bohemian Girl, by Mr. John Frodsham; solo by Mr. Dickason.

Mr. A. A. Wilson is a charter member of the order. His address dealt with the early history of the order up to the present time.

Mr. J. A. Stephenson, chief ranger, occupied the chair.

PORTLAND Y.M.A. AT HOME LAST EVENING

PORTLAND Y. M. C. A. In point of attendance and for its genuinely enjoyable nature, the A. Home held by the Portland Y. M. A. last evening proved a huge success.

On the conclusion of this portion of the programme, a series of musical numbers and readings was begun which proved very entertaining. Those who took part were:— Reading—Mr. Stangle; Irvine. Reading—Mr. James Robertson. Vocal Solo—Mr. H. H. Cromwell. Vocal solo—Mr. J. Wood. Flute solo—Mr. James Morrison. Selected—String quartette. Selected—Organ Male Quartette.

A toast list followed which was drunk to the accompaniment of much enjoyed speeches.

"The Association" was proposed by Mr. A. W. McInnis and responded to by the president, Dr. C. W. Pratt.

"Our Athletes" was proposed by Mr. T. A. Armour, and responded to by Mr. George Crosby.

"The Ladies" was proposed by Rev. Neil McLaughlin, and responded to by Mr. D. G. Lingley.

Supper was served in the gymnasium. This, as well as the other rooms of the association building was decorated in the colors of the club. Music was furnished during the evening by the Brotherhood Orchestra, of Victoria St. Baptist church.

ALGONQUIN TEAM WILL GO TO YARMOUTH

The Algonquin intermediate basketball team, champions of New Brunswick in their class, leave on Thursday morning by the Digby boat for Yarmouth, where they play the team of that town on Thursday evening. This will be the local team's closing game of a remarkably successful season.

WILL START AGGRESSIVE CAMPAIGN

The New Brunswick Anti-Tuberculosis Association is about to inaugurate an aggressive organization campaign. The end to be attained is the organization of county associations in all the counties of the province. Charlotte county has already organized an association with G. W. Ganong, ex-M.P., as county vice-president.

The organization of the provincial association was perfected at a meeting of the executive held Monday night. It was decided to hold the annual meeting of the association on the third Tuesday of November, and to have the financial year begin November 1.

The New Brunswick Association is to be the parent association to the county associations. Dr. Daniel, M. P., is the county vice-president for St. John and will set about organizing a county association at his earliest opportunity.

HIT ON HEAD WITH BOTTLE; BAD WOUND

"Blood Alley," a district of the city that in the past has occupied a prominent position in police records, was the scene of a lively row yesterday afternoon, or rather was the scene of the beginning of the trouble which continued along the highway between the corner of Queen and Wentworth streets. "Beaver" Boyd, in the course of the running fight, was cracked on the head by his friend named Ferry, who wielded a bottle with considerable effect. Boyd received a severe scalp wound.

Both men will be reported by the police and will be arrested at the first opportunity.

ELAINE GETS HOLE SMASHED IN HER BOW

When the steamer Elaine reached her berth at Indiantown shortly before five o'clock yesterday afternoon, after making the down river trip from Fredericton, she bore evidence of having undergone one of the most trying experiences of the freshest season.

Her starboard side had been smashed close to the bow by a collision with Cameron's wharf. The accident was due to the strong freshet current, which swept the vessel beyond control as she was trying to make the wharf on the downward trip. The blow was a staggering one, the hole being knocked through the steel and wooden fender and the side of the vessel.

Some of the passengers received quite a tossing about. Twenty-five cattle, which formed part of her cargo had rather a rough experience.

THE MAPLE SUGAR OUTPUT IS VERY SMALL

Montreal papers report that the maple sugar output of the Eastern Townships will not be up to the average. From careful inquiries made from the leading sugar-makers in the different sections of the Eastern Townships, the yield this season will be about two pounds to the tree. In many places the farmers have made no sugar, having found that the market for syrup was more certain than the sugar market. The reasons given for the small yield are many, the most general being the extreme drought of last season and the great destruction by forest fires during the past summer.

NEW BOARD OF DIRECTORS ARE ELECTED

The annual meeting of the Thistle Curling Rink Company was held at the rink last evening. Reports were received and a new board of directors was elected.

The board for the ensuing year will consist of the following directors: D. McClelland, A. W. Sharp, A. B. Holly, J. S. Gregory, J. A. Stinchley, J. W. Cameron, and F. F. Burpee. The finances of the company were reported to be in excellent condition. There is now on hand a balance of \$277.

Napoleon at the Nickel. Napoleon's great career, checked at Waterloo, was the subject of a new talking picture, shown at Nickel today.

Twenty-five children have sent old pictures of St. John prior to the great fire to the M. A. A. competition. Cash prizes Saturday.

Miss May Blair, of Truro, was a passenger on last evening's Montreal train. She is on her way to Montreal where she will play an extended visit.

Teller Blake, of the Royal Bank at Charlottetown, passed through the city last evening en route to Guelph to which branch he has been transferred.

Buy a Dependable Suit

Almost every suit looks pretty well in the store. It must look well if it is to sell readily, for nobody wants to buy anything but a stylish suit. But to be REALLY good, a suit's goodness must extend beyond the "store stage" of its existence. It must be dependable. It must STAY elegant. The fit and finish must remain as they were originally. And to do this, they must be made into the garment. Pressing alone will make a suit fit well in the store, and will make it look shapely and elegant. But the first shaver will make it look like an old, mis-shapen garment. Our suits are TAILORED into shape. They are BUILT from foundation to finish. And their fit and elegance are LASTING. YOU need one of these dependable suits. The prices range from \$10 to \$25, and are worth every cent of the price. Fancy Vests—Washable—Look at them. A new line at \$1.00 to \$2.75.

GILMOUR'S, 68 King Street TAILORING AND CLOTHING.

WHITE CROSS BARRED AND STRIPED MUSLINS, from 12c. to 30c. yard. WHITE FIGURED SPOT AND LACE EFFECTS in the mercerized Waistings from 12c. to 30c. yard. LARGE STOCK OF VALENCIENNES LACE AND INSERTIONS for trimmings, in all the makes.

ROBERT STRAIN & CO., 27 and 29 Charlotte Street

SUITS AND OVERCOATS That will Speak for Themselves

It is quite an easy thing to write high sounding advertisements proclaiming the merits of the goods being offered, but it is more convincing argument to produce the garments that prove to be all and more than you claim them to be. Our Spring Stock of Suits and Overcoats will speak for themselves; they will easily prove to you the advantages of buying at these stores. The neat patterns, the splendid fitting garments and the exceptional values are the points we wish you to note.

You'll save from \$3 to \$5 on the price of a suit or overcoat here. Men's Spring Suits, \$5.00 to \$20.00 Men's Spring Overcoats, 7.50 to 18.00 Also Boys' and Youths' Clothing of every description

FULL CONFESSION

THE HEALTHY OUR NATURAL AND PRUDENT

MR. J. A. MURRAY, M. P.

Fredericton, N. B., April 28. Legislature this afternoon Mr. Murray spoke to the resolution for the member for Westmorland (Copp) complimented that gentleman for his great ability as a speaker, but it was unfortunate he brought his stump speech to the Legislature. With great respect he dealt largely in theories on facts. He constituted himself representative of the Liberal Party and other members stood up to be in that party. By what process the Hon. member for Westmorland superior as a Liberal to the Commissioner of Public Works Burchill or Mr. Miscamble?

He also complimented the Hon. member for Westmorland superior as a Liberal to the Commissioner of Public Works Burchill or Mr. Miscamble? He also complimented the Hon. member for Westmorland superior as a Liberal to the Commissioner of Public Works Burchill or Mr. Miscamble?
