

GREAT BANQUET FOR MR. BORDEN

Celebrate Anniversary of General Elections. BIG FUNCTION IN MONTREAL HOTEL Premier Flemming will be Among Invited Guests--Aim is to Make Gathering Representative of All Canada.

Montreal, Sept. 10.—A meeting of industrial citizens was held today at the offices of L. T. Marechal, K. C., with the object of organizing a great banquet which the Rt. Hon. R. L. Borden has accepted for the 21st of Sept. T. C. de Chagny, K. C., was elected chairman of the general committee. Four sub-committees were appointed and immediately set to work with enthusiasm.

Invitations are being tendered to Sir Jas. Whitney, Sir R. Roblin, Sir Charles McBride and Premier Flemming. New Brunswick, and Matthewson, premier of Prince Edward Island. It is expected that all the colleagues of the Rt. Hon. R. L. Borden will accompany him on the day in question.

The banquet which is organized to celebrate the first anniversary of the general election of 1911, is also tendered to Mr. Borden as a mark of admiration and confidence after his memorable trip to Great Britain.

Portland, Maine, Sept. 10.—The political overturn in yesterday's Maine state election, in which the Republicans won back the governorship, secured three of the four congressmen and a sufficient majority on a joint ballot in the legislature to assure the election of a Republican United States senator, became more apparent today with revised and additional returns. Wm. T. Haines, of Waterville, Republican, was elected governor by a plurality of 2577 over Governor Frederick W. Plaisted, Democratic candidate, of Augusta. The vote, with 28 small towns missing, was Haines, 66,516. Two years ago the vote for governor was Borden 54,972; F. W. Plaisted, Democrat, 73,425.

The missing 28 towns two years ago cast 751 votes for the Republican candidate and 546 for the Democratic leader. The legislature will stand on a joint ballot: 94 Republicans and 72 Democrats, with ten districts yet to report. The State Senate will be made up of 22 Republicans and 8 Democrats, with one district missing. The house will be composed of 72 Republicans and 70 Democrats, with nine districts missing.

ARE POWERS PREPARING TO WHIP GERMANY?

New Naval Agreements Between Britain, France and Russia. WILL INCREASE THE BRITISH STRENGTH. Despatch from Paris Plainly Intimates that Preparations are Going Forward Against "Contemplated German Attack."

Paris, Sept. 10.—The recently negotiated French-Russian naval convention and the older Anglo-French convention relating to the Mediterranean will be brought into practical operation within a few days when the French fleet which heretofore, has had its headquarters at Brest, will be permanently transferred to Toulon. This naval move will give to France complete control of the Mediterranean possibly in combination with the triple alliance, and will leave to England the defence of the North Sea, while Russia guards the Baltic Sea.

Experts point out that with the Russian fleet in the Baltic, the strength of the British fleet will be materially increased against any contemplated German attack, while the English Channel is considered as being sufficiently defended by the numerous fleets of destroyers and submarines stationed on both the English and French coasts.

Germany to Import Chilled Meat from Argentine Republic. High Cost of Living Forces German Government to Consider Project Which it Formerly Rejected.

Berlin, Sept. 10.—In consequence of the general clamor against the unprecedented high prices of meat the government, the Rundschau bears, is considering the question of facilitating the importation of Argentine chilled meat. This measure is advocated by countless petitions and remonstrances which are being addressed to the government by the municipalities and political organizations.

The importation of Argentine frozen beef is now the cry. The popular feeling to which the government is bending, has taken possession of all classes and parties with the exception of the agrarians.

Wedell Jackson, an American, is said to have arranged the agreement. It is contended in some quarters that the Chinese minister was without the power to sign the agreement.

PREMIER J. K. FLEMMING AND HON. MR. MORRISSEY ENTERTAINED ON COAST

Vancouver Greeted New Brunswick Ministers. PREMIER CONTINUES TO BOOST PROVINCE. Addressing Representative Gatherings Hon. Mr. Flemming Tells of Rapid Development Here and Predicts Greater Future.

Guelph, Ont., Sept. 10.—The cordial relations between the British and Canadian labor organizations was emphasized at the Trades and Labor Congress today by the receipt of a telegram stating that W. Thorne had been elected a delegate from the British Trades and Labor Congress to the Dominion government granting act, and a strongly hostile feeling was being spread on the part of the British congress. One of the speakers stated that British labor news so frequently came through unfriendly channels that a closer bond of communication was necessary to effect a complete understanding.

St. John Wants it. The convention got down to business today. There are 260 delegates present, the largest in the history of the Dominion government granting act. The discussion on the Lemieux Act will be heard by Sir George Askwitt who arrives tomorrow, being in Canada for the purpose of studying the Workingmen's Act.

J. W. Wilkinson, Vancouver, western organizer in British Columbia and Alberta, reported that the chief problem was oriental and foreign labor. Encouraging progress in organizing was being made. James Stevenson, organizer for Ontario, stated that the work was hindered by the influx of European labor.

The election of officers and the choice of the new year place and convention will be held on Thursday, Montreal and St. John, N. B., are working hard to get the convention.

There was a considerable discussion of the efficiency of the Lemieux award of a Lemieux board of arbitration in the western machinists' strike. It was said that the Lemieux act provided for everything but its enforcement. On President Waiters' suggestion, all resolutions dealing with the Lemieux act will be referred to a committee representing the interested union.

THE FIGHT IS BETWEEN MONTREAL AND ST. JOHN

Representatives of These Two Cities Working Hard to Get Dominion Trades and Labor Congress Next Year -- Proceedings at Yesterday's Session. Guelph, Ont., Sept. 10.—The cordial relations between the British and Canadian labor organizations was emphasized at the Trades and Labor Congress today by the receipt of a telegram stating that W. Thorne had been elected a delegate from the British Trades and Labor Congress to the Dominion government granting act, and a strongly hostile feeling was being spread on the part of the British congress. One of the speakers stated that British labor news so frequently came through unfriendly channels that a closer bond of communication was necessary to effect a complete understanding.

GAVE THE LIE TO INSPECTOR OF POLICE

Brother Officers Deny that Police Commissioner Told Them Not to Molest Gotham's Disorderly Houses. New York, Sept. 10.—Four brother inspectors of Cornelius G. Hayes, recently stripped of his badge, and reduced by police commissioner Waldo to the status of plainclothesmen, took the witness stand at police headquarters this afternoon in behalf of the department and swore that Waldo had never instructed them not to molest disorderly houses. Hayes contends that he did receive such instructions and is being threatened out.

Terence Farley, acting counsel for the department, asked all four witnesses practically the same question: "Did Commissioner Waldo instruct you not to molest disorderly houses?" To which all replied in substance: "No, never."

Autopsy Shows That Mrs. Szabo Was Not Drowned. New York, N. Y., Sept. 10.—That Mrs. Rosa Szabo who was believed to have been drowned while boating with her attorney and subsequent executor, Burton W. Gibson, on Greenwood Lake, Orange county, came to her death from other causes, was indicated to the authorities today after an autopsy on the woman's body. Dr. George W. King, of Hudson county, N. J., who performed the autopsy, at Jersey City, assisted by Dr. H. Schultz, of Cornell University, would give tonight no detailed statement, but he declared that vital organs had been turned over to Dr. Schulze for microscopic and chemical analysis. A report will be made at an inquest to be held Sept. 18th.

Wanted Immigrants to Help in Fisheries. Vancouver, Sept. 10.—Sir George Doughty, who has acquired large fish interests in the Queen Charlotte Islands and other northern points before leaving here for England today, declared that the Canadian government should do something toward bringing in a class of immigrants that could be used in the fisheries.

CABLE TOLLS MAY BE STILL LOWER

GAYNOR ON STANBUT SAID LITTLE. New York's Mayor Refuses to be "Pumped" on Situation in Police Force—Admits No Inefficiency. New York, N. Y., Sept. 10.—For about two hours this afternoon William J. Gaynor, mayor of New York, sat in a witness chair at the city hall, and parried with picturesque retort and evasion, the attempts of counsel for an aldermanic committee to learn his views on the police situation brought to a head by the murder of the gambler, Herman Rosenthal. Three times he threatened to leave the stand because he considered the questions irrelevant, twice he denounced the hearing as a scandal mongering excursion, and often through his testimony he repeated that attempts to scandalize him would be in vain, for he had lived in the city too long and had begun his efforts to purify the city government long before Emory R. Buckner, counsel for the committee, was born.

Four things he said he had brought about in the department. First, he had done away with police violence and clubbing; second, he had forbidden the practice of policemen degrading themselves to get evidence against disorderly houses by consorting with immoral women; third, he had insisted on the integrity of the civil service, so that "Murphy or anybody else can't influence appointments"; fourth, he had done away with graft in connection with the enforcement of the liquor laws. This graft, he said, had amounted to \$2,000,000 annually.

Charlotte Co. Fair Opened. Favorable Weather and Large Attendance for the Formal Ceremonies Yesterday—Exhibit Creditable. Special to The Standard. St. Stephen, Sept. 10.—The fifth annual fair of the Charlotte county agricultural society was opened today with favorable weather and a large attendance. The formal opening ceremony this afternoon with speeches by President F. M. Murchie, Mayor W. A. Dinmore, S. L. Peters, of the Dominion department of agriculture and Hon. George J. Clarke.

The display in every department is unusually large and of excellent quality, fruits, vegetables and floriculture exceeding even the exhibition in St. John last week, and the live stock display would be difficult to duplicate even in a much larger centre. In fancy work and domestic arts, no place could excel the St. Stephen exhibition. The whole show is a revelation and a delight to all who attend. Gov. Wood pays a visit to the fair Wednesday afternoon.

West Has the Crops But Needs the Coin for Crop Movement. Winnipeg, Man., Sept. 10.—With the announcement of Manager McWilliams of the Canadian Elevator Company, that the crop yield of the prairie provinces will exceed two hundred million, comes general reports of a bribe demand for money to handle the crop. Mr. McWilliams has completed a tour of the Canadian West. Train loads of wheat are now moving to Fort William and the great rush is on. Vice-president Bury of the C. P. R. is out for a record this fall in the movement of grain. Thousands of bushels of grain are being harvested. This crop is really in excess per acre of the wheat crop of Chicago. W. Roosevelt, George E. Bovis, of South Yarmouth, Mass.

Rose Pitnoff Has Another Long Swim. London, Sept. 10.—Rose Pitnoff, of Boston, who has been waiting for two months to make an attempt to swim the English Channel, today swam the Thames from Richmond to lower bridge a distance of 16 miles. Her time was 4 hours and 35 minutes. She was accompanied by Miss Pitnoff, who was prevented from going further by darkness. She used the breast stroke throughout, and took no nourishment.

Hon. L. P. Pelletier Hopes for Another Reduction FAVORS STATE OWNED CABLES

Sir Henniker Heaton Says Canadian Postmaster General Has Support of Empire in Fighting Cable Rings. Special to The Standard. Ottawa, Sept. 10.—Hon. L. P. Pelletier does not intend to rest satisfied with cable rate reductions so far obtained by him. "Let it be understood," he said today, "that Canada has not accepted these reductions as final. We may agree to them, but we will reserve the right to do as we think best after consultation with the sister dominions of Australia and New Zealand." Discussing Sir J. Henniker Heaton's proposal for a two-cent a word rate throughout the world, Mr. Pelletier said: "It is too big a step and there is no use talking of it right away."

Mr. Pelletier Praised. London, Sept. 10.—Sir Henniker Heaton spoke today in the highest terms in praise of Hon. L. P. Pelletier for the determination with which he fought here for state owned cables in order to break up the cable rings. Mr. Pelletier, he said, had the active support of the Australian and New Zealand governments in his efforts. The British government for some reason or other, does not see its way to adopt the proposal, but instead has joined in making overtures to the companies, in consequence of which the three penny deferred telegram rate has been agreed upon.

Not Up to Capacity. To show the absurdity of the so-called deferred messages, Sir John pointed out that the carrying capacity of cables to America was 325,000,000 words per annum, and only 25,000,000 words were sent. It was there was a great rush of messages during a few hours every day, but only the sixteen lines to the United States and Canada showing placed at the disposal of the non-code or non-urgent sender.

More Than \$72,000 Has Already been Contributed to the Roosevelt and Johnson Campaign Fund. New York, N. Y., Sept. 10.—Total contributions to the Roosevelt and Johnson campaign fund from July 1 to Sept. 1 aggregate \$72,052, of which \$53,572 were received here and \$18,722 at the Chicago headquarters according to a statement issued this afternoon by E. H. Fooker, treasurer of the progressive national committee. The leading contributors were George W. Perkins and Frank A. Munroe, who gave \$15,000 each, George Moore, of New York, \$5,000, and Mrs. Charles B. Wood, of Chicago, \$2,000. The balance of the same amount, George A. Sothen, of Chicago, gave \$2,000. The \$1,000 contributions were William Wright of Chicago, W. Roosevelt, George E. Bovis, of South Yarmouth, Mass.

PILES. You will find relief in Zam-Buk! It eases the burning, stinging pain, stops bleeding and brings ease. Perseverance, with Zam-Buk, means cure. Why not prove this? All Druggists and Stores.

CHAMPIONS ARE TO PLAY STANDARDS

Halifax, N. S., Sept. 10.—It will be the Nova Scotia League leaders against the New Brunswick and Maine League leaders—the Halifax Standards vs. the Fredericton Pats., at the Wanderers' grounds on Friday and Saturday of this week.

The Wanderers' grounds will be available for the dates mentioned, and those who will come in to see the games, regard attendance should be drawn.

As a team the Standards will be better than last year's. Tom Gibbons has gone, but there will be in his place "Jack" Cogan, the late "big noise" of the Stellarton club. Then such men as Triggs and Crockett, of Moncton, would be available if needed. This would give Dural, Bates and Cogan for pitchers, the regular infield, Sweetman, Foley, Mahoney and Howe, and the outfield, Farrell and Grey, with Cogan, Bates and others to fill in at right. A pretty strong team—in fact when hitting, as strong as at any time this season.

FALL EXCURSIONS TO MONTREAL

Montreal is always a city of interest, and especially so in early autumn, when the weather is enjoyable, the many stores crowded with seasonable novelties, and the places of amusement in full swing. A visit there at this time of year cannot be otherwise than enjoyable, and with the very low rate prevailing on the Intercolonial Railway in connection with the annual fall excursions, the round trip can be made more cheaply than at any other time.

Abbey's Effervescent Salt. TAKE A GLASS OF. before retiring. You will feel in fine fettle in the morning. Two Sizes, 25c and 60c.

DIED. LOCKETT—After a short illness, Wm. H. Lockett passed away at his home, 101 First street, South Boston, Mass. He was a native of Manchester, England. He leaves four children, three sons and one daughter by his first wife. His widow, who was Miss Ella C. Rudolf, of Lunenburg, N. S., survives him.

GELDART—Suddenly on Thursday, Sept. 5th, at her home at Elgin, Albert county, in her 75th year, Mary, relict of Alexander Geldart, leaving six sons and three daughters, and a large circle of relatives to mourn their sad loss.

GRITZ. Does not heat the blood like oatmeal. Try a 5 lb. Bag.

House flies and how they spread disease. Dr. C. Gordon Hewett, Dominion Entomologist, will lecture before the Natural History Society of New Brunswick at their rooms, Union street, tomorrow (Thursday) evening, on the above subject. The public are cordially invited.

MAY CHANGE THE DIOCESAN LIMITS OF ENGLISH CHURCH

It is thought in Church of England circles that a change in the location of the eastern diocese will be effected in the near future. This feeling is caused by the fact that the provincial synod has not met for some years, the general synod having to a large extent taken its place but now the general synod has consented to the division of the provincial synod which is now composed of dioceses of Ontario, Quebec and the Maritime Provinces. As this is the case it is now necessary that meeting of the provincial synod be held to make arrangements for the division which will probably be in the following: All the dioceses of Ontario will form a provincial synod to be presided over by Archbishop Charles Hamilton of Ottawa. Bishop Farthing will be in charge of the diocese of Montreal, Bishop Dunn of Quebec and Bishop Richardson of Fredericton, Nova Scotia and Prince Edward Island will be under the charge of Bishop Worsell. This will make practically five dioceses with only four bishops.

LATE SHIPPING.

LYNN TEAM DEFEATED CHAMPIONS

St. Stephen, Sept. 10.—A large crowd of people today witnessed a fine class game of ball between the Lynn, Mass., team of the New England League and the Fredericton team, the champions of N. S. in the league. The game was full of spectacular playing and was a very fast game. Lynn won the game by a score of two to one. Sharkey and Murray was the battery for Fredericton and Walker and Weeden for Lynn.

SHOULD BE A FINE BALL GAME TODAY

After playing such a close fast game of ball on the Marathon grounds yesterday, the Greeks and the Socials in their second game this afternoon should attract a very large crowd of fans. Today's game promises to be even more exciting and harder fought than that of yesterday, as George Winter will be the pitcher for the Greeks and Warwick will do the twirling for the Socials.

The Socials have one of the best teams that has played in St. John this season, and they will put every effort forward this afternoon to win from the local team, while the Marshalls are just as determined that they will beat the men from the sister city.

The game will start at 3.15 o'clock and the fans may expect a fast game from start to finish.

WILL DISBAND HERE. The Halifax Socials after finishing their series with the Marshalls will disband here. They were given a "fare-you-well" at the Arena Riak, Halifax before leaving, and a Halifax paper says: "In leaving Halifax they may do so with the conviction that their efforts have been highly appreciated, as class ball players and good square sports. Socially they have made many friends who will look forward to the pleasure of seeing them in Halifax for another season."

GREATEST DEMONSTRATION EVER ACCORDED TO PUBLIC MAN IN MONTREAL'S HISTORY

Senator Daniel Gives His Impressions of Great Welcome Given to Right Hon. R. L. Borden, in Canada's Commercial Metropolis.

When asked last evening by a reporter of The Standard to say something about his impressions of the demonstration given to Right Hon. R. L. Borden in Montreal, Senator Daniel said: "That is a pretty large order. My chief impression was of the vastness of the crowds, the sustained enthusiasm of the people. I was told by a well known resident of Montreal, a man who is not given to exaggeration, and who is well qualified to judge, that the welcome given to Mr. Borden in Montreal was undoubtedly the greatest demonstration ever accorded a public man in the commercial metropolis of Canada.

BREACH OF CONTRACT NOT PROVEN IN CASE OF MONCTON SIDEWALKS

Special to The Standard. Moncton, Sept. 10.—Charges that the concrete sidewalks laid by De-rost Bros. were not according to specifications were investigated by the city council today, but the bulk of evidence went to show that the contractors had fully kept their obligations. Two weddings that have been anticipated for some time in social circles took place this evening. Grover C. Torrens, formerly of Fredericton,

CHURCH OF ENGLAND S. S. TEACHERS HOLD REGULAR MEETING

The Church of England Sunday school teachers of the Deanery of St. John held their bi-monthly meeting in the Church of St. John the Baptist on Paradise Row, last evening. Rev. Guavaire A. Kohring, president of the Teachers' Association, presided and delivered an interesting Bible reading on the Second Epistle of Paul to the Corinthians. This reading was the second of a series of three and will undoubtedly prove to be a great benefit to those present.

Plans were then discussed for the observance of the two days of intercession for Sunday schools on October 20th and 21st. It was decided to hold a meeting on Monday, the 21st, at Trinity Church at half past ten in the morning for communion and in the evening a meeting will be held in Stone church commencing at eight o'clock. At the close of the business meeting, Rev. Father Conners, rector of the Mission church, delivered an interesting address on the obstacles the Missionaries have to contend with in Africa. This address was listened to with more than ordinary care as Rev. Mr. Conners spoke from personal experience, having spent some time in missionary work in the dark continent.

Marvelous Relief for Corns, Bunions, Sore Foot Lumps

Five corns on five toes for five years. Was he lame? You bet. That man was a chump—sure he was. One quarter spent on Putnam's eses 'em in good style—lifts them out quick—without pain, and never fails. This is why Putnam's is superior to the cheap imitations that afford the dealer more profit. Use only "Putnam's" Extractor. Sold by druggists.

G. C. ANDERSON, Superintendent, Post Office Department, Ottawa, 7th September, 1912.

FLORENCEVILLE FOLK

EXTEND WELCOME TO NEWLY WEDDED PAIR

Florenceville, Sept. 10.—A very pleasant function took place in the Assembly Hall of the Florenceville Consolidated School on Wednesday evening the fourth inst., when a reception was tendered to Principal and Mrs. I. C. Squiers on their arrival to their new home at Florenceville, from their wedding, which took place at Richibucto on Monday last.

A large crowd was present to greet Mr. Squiers and his bride as they entered this city sphere of their labors.

The receiving line was Miss M. Maxwell, Mrs. E. Alward, Mrs. O. N. Miller, Mrs. I. C. Squiers, I. C. Squiers and Rev. Jos. Cahill.

The address of welcome was delivered by Rev. Murray Manuel in happy and well chosen phrases reminiscent of the old days when he and Mr. Squiers were students of the same institution of learning and filled with warm greetings and well wishes for the future.

The presentation of a handsome Morris chair was made to the groom by the school trustees by Mr. Rev. Jos. Cahill in an incisive and witty address of good cheer and to the future.

The gift of a beautiful cut glass sugar bowl and cream pitcher and silver sugar shell was presented to the bride on behalf of the pupils of the advanced department of the school in a graceful and well delivered speech by Rev. E. C. Turner of East Florenceville.

Mr. Squiers replied in a fitting manner to each of the addresses and behalf of the bride and himself, and thanked those present for the heartiness of their welcome and the deep honor conferred upon him.

Several numbers were rendered by the Florenceville quartette which were appreciated by all.

Withdrewn Suburban Service.

After September 14th, all C. P. R. suburban trains running between St. John and Westport will be discontinued on leaving Westford at 6.45 a. m., and train leaving city at 6.10 p. m., will be withdrawn. These two trains to be discontinued after September 21st.

Rustic Curiosity.

"What's the trouble?" asked the policeman in great city.
"Nothing in particular," replied Farmer Cottrell.
"Then what do you mean by standing on the corner and yelling for the police?"
"Well, I've read so much about you fellows in the paper that I jes' wanted to have a good look at one of you!"

Obstructing Navigation.

This drowning dog in New York Bay has caused some sharp remarks. There's always danger, sailors say. Because of sunken bark.

SEATED TENDERS addressed to the undersigned, and endorsed, "Tender for Grain Elevator," will be received at this office until 10 o'clock September 20th, 1912, for the supply and erection of the Steel Superstructure of an addition to Grain Elevator at Port Colborne, Weland Canal, N. B.

Plans and specifications of the work will be on view on and after September 7th, at the office of the Chief Engineer, Department of Railways and Canals, Ottawa; at the office of J. A. Jamieson, Designing Engineer, Board of Trade Building, Montreal; and at the office of the Superintending Engineer of the Weland Canal, St. Catharines, at which places "Forms of Tender" may also be obtained.

Parties tendering will be required to accept the fair wages schedule prepared or to be prepared by the Department of Labor, which schedule will form part of the contract.

Contractors are requested to bear in mind that tenders will not be considered unless made strictly in accordance with the printed forms, and in the case of firms, unless there are attached the actual signatures, the nature of the occupation, and place of residence of each member of the firm.

An accepted bank cheque for the sum of \$25,000 made payable to the order of the Minister of Railways and Canals, must accompany each tender, which sum will be forfeited if the party tendering declines entering into contract for the work at the rates stated in the offer submitted.

The cheque in this offer will be returned to the respective contractors whose tenders are not accepted.

The cheque of the successful tenderer will be held as security or part security for the due fulfillment of the contract to be entered into.

The lowest or any tender not necessarily accepted.

By order, R. C. JONES, Assistant Deputy Minister and Secretary, Department of Railways and Canals, Ottawa, August 31, 1912.

Newspapers inserting this advertisement without authority from the Department will not be paid for it—27860.

SEATED TENDERS addressed to the undersigned, and endorsed, "Tender for Pier Head at Fairhaven, N. B." will be received at this office until 4 p. m. on Tuesday, October 8, 1912, for the construction of a Pier Head to the Public Wharf at Fairhaven, Dear Island, Charlotte County, N. B.

Plans, specification and form of contract can be seen and forms of tender can be obtained at the Department and at the office of F. G. Goodspeed, Esq., District Engineer, St. John, N. B., Geoffrey Stearns, Esq., District Engineer, Chatham, N. B., and on application to the Postmaster at Fairhaven, N. B.

Persons tendering are notified that tenders will not be considered unless made up on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signatures, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honorable the Minister of Public Works, equal to ten per cent. (10 p. c.) of the amount of the tender, which will be forfeited if the person tendering declines to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender is not accepted, the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order, R. C. DESROCHERS, Secretary, Department of Public Works, Ottawa, September 7, 1912.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department—27243.

IMPROVED CABLE COMMUNICATION.

The reduction in the cable rates between Great Britain and Canada, recently announced, will be very generally appreciated by the business community throughout the Dominion. Representations made to the Western Union Telegraph Company by the Postmaster General of Canada, during his visit to England, have brought about this desirable result. The reduction is not yet in force as some time must necessarily elapse before the 25,000 telegraph offices operated by the company in Canada and the United States, to which the reductions also apply, can be officially notified. The Great North Western has also about 4,000 offices and these have to be notified. To secure uniformity the change in rates will go into effect simultaneously in both countries.

The new rates call for marked reductions in the transmission of what telegraph operators call "deferred business," and are rendered possible by the past experience of the company that it is profitable to use the cables at reduced rates at hours when otherwise they would be idle. The regular message rate of 25 cents a word is maintained. It applies to the busiest parts of the day, and messages at this rate still have priority in transmission over all others. An important reduction, however, from 12 cents to 9 cents is made in the rate on deferred messages and quicker delivery is assured. The new rate of 9 cents a word is established for messages to be sent at such times of the day or night as the company finds convenient. They must be written in English and no code words are to be allowed except in the addresses. In messages to or from Canada they can be written in French if the sender prefers.

Another important change applies to night letters, which can be sent at 75 cents for twelve words with 5 cents for each additional word. This is a welcome innovation and has no counterpart in the present cable schedules of the company. Code words are barred in these messages also except in the address. They may be filed at any time up to midnight and are to be delivered on the morning of the day following that on which they are handled or within twenty-four hours of the time of filing.

The minimum rate for "week-end letters" is reduced from \$1.50 for thirty words to \$1.15 for twenty-four words. The charge for additional words under the old tariff was 25 cents for each group of five words. Under the new schedule the rate is 5 cents for each extra word. These messages must be filed before midnight on Saturday and will be delivered on Monday morning. This is a gain of twenty-four hours in delivery, as under the old arrangement delivery was deferred until Tuesday. The old "cable letters," which went at the rate of \$1.50 for 20 words are superseded by the new classifications.

Press rates are also subject to some further and much needed reductions. The rate was recently reduced from 20 cents to 7 cents with a restriction deferring delivery for nine hours. This deferral is now abolished. At certain hours which coincide nearly with the time of publication for morning and afternoon papers the rate is further reduced to 5 cents a word.

All the new rates will apply to messages between Great Britain and Canada and between Great Britain and the United States. They call for free delivery in all parts of the Old Country and in such parts of the United States and Canada as are already in the so-called 25 cent zone—that is, in the region reached now by regular cable messages at 25 cents a word. Messages to places outside that zone will be subject to additional tolls. The zone referred to, as far as Canada is concerned, includes the Maritime Provinces and the Provinces of Quebec and Ontario. Further West there will be the usual small additional charge for transmission, but all the Provinces in the Dominion will benefit by the reductions in the rates.

These changes, which embody quicker delivery and reduced rates, should certainly tend to make the cable message more popular. Mr. Pelletier is entitled to his full share of the credit in securing these concessions for the Dominion during his visit to the Old Country. Sir John Henniker Heaton, who is recognized the world over as an authority on postage and telegraph matters, pays the Postmaster General a warm tribute for the energy and perseverance he has shown not only in securing the concessions referred to but in his advocacy of State-owned cables. He intimates that Mr. Pelletier has the active support of the Australian and New Zealand Governments and is hopeful that this measure, which would revolutionize cable rates, will eventually be adopted. Sir J. Henniker Heaton has a reputation for being a thorn in the side of British Postmasters General for many years and has instituted many notable reforms. He secured Imperial Penny Postage in 1898, Anglo-American Penny Postage nine years later, introduced telegraph money orders and a parcel post between France and Great Britain. He is now bending his energies to establish telegrams at two cents a word, with a minimum of twelve words for 25 cents, throughout the world. He believes with the active support of the British Empire League his dream will be realized in less than ten years.

AN EXPERT OPINION.

In the opinion of Mr. Robert S. Lovett, head of the Harriman railway system, given in a recent interview, the Panama Canal will not be of much material benefit to any section of the United States except the Pacific Coast. He does not believe it will revolutionize freight rates. In fact he does not expect the rates to be disturbed to any great extent. He is strongly opposed to the provision which prevents the railroads from operating steamship lines through the canal. Mr. Lovett is a recognized authority on transportation and his conclusions are instructive.

His opinion that only the Pacific Coast States will benefit is based on the fact that the canal will mean a heavy immigration movement into that part of the country; it will result in the bringing of a great volume of labor which is needed; it will bring new farmers and new settlers, who will help to develop and build up the country.

Freight rates will not be affected to any extent because, while the railways may lose some of the long haul business, he believes that the following fundamental principle will remain true after the canal is open: "Whatever is of advantage and benefit to the country at large will be of benefit to the railroads. As the communities are built up by new population flowing in through the canal the railroads will have more local business to handle, for each

new settler will be a producer and will furnish business for the railroad."

The exclusion of railroad owned vessels from the canal, he believes, will mean a serious set back to American shipping in the Pacific. "It will take a long time for the passenger business to develop to any big proportions," he says, "for it will cost somebody not less than \$20,000,000 to build the class of steamships that we were preparing to operate over the route. The Pacific Mail has a fine line of steamships already, and was prepared to build additional ones, giving a fleet that would cost, as I said, not less than \$20,000,000 to duplicate, and I don't believe anybody is going to rush in and spend that sum of money in that way, at least not right away." This opinion by Mr. Lovett may fairly be taken as the view of the transportation interests. There is a growing sentiment, as expressed in the United States press, that after the Presidential election the act will have to be revised in several important particulars.

THE ELECTION IN MAINE.

The Republicans have won the election in the State of Maine, but owing to the absence of Progressive candidates the result is no indication that President Taft will carry the State in November. The outcome is naturally a cause of rejoicing to the party which was defeated two years ago. To the impartial observer, watching the signs of the times, the election is of little interest. The Republicans have won back the Governorship, which now falls to Mr. William T. Haines, and have secured three of the four Congressmen and a sufficient majority on a joint ballot in the Legislature to secure the election of a Republican Senator. Congressman Edwin C. Burleigh is the party's candidate. The Republicans in this State are pledged to Prohibition. As an enthusiastic organ of the party remarked in announcing the victory yesterday, "Demon Rum is out of Maine politics for two years to come at least."

The Bull Moose section of the Republicans was in control of the machinery of the party, having secured the ascendancy in the Presidential primaries earlier in the year when a solid Roosevelt delegation was sent to Chicago. The absence of any Progressive candidate on the State and Congressional tickets met with the approval of Mr. Roosevelt. It is significant that many of the leading State speakers in the campaign have announced that they are no longer in the Republican ranks, but will take the stump immediately for Roosevelt for President and in opposition to Taft. Under these circumstances it is an open question which of the three Presidential candidates, Wilson, Taft and Roosevelt, will carry the State in November.

A RELIGIOUS CONFERENCE IN JAPAN.

To the credit of Japan it must be recorded that in recent years she has opened her gates wide to ministers of the Christian religion. The latest evidence on this point is forthcoming in a recent conference of representatives of the Christian churches and of Buddhism and Shinto held at Tokio upon the invitation of the Minister of Home Affairs. The object of the conference, which was called with the approval of the Japanese Cabinet, was to discuss ways and means which the different religions proposed to adopt for the uplift of the people.

In addition to Mr. Hara, the Minister of Home Affairs, who presided, there were present Mr. Tokonami, the vice-minister, the heads of the various bureaus of the Home Department, and the Ministers of Justice, Communications and the Navy, as well as other prominent officials. The Prime Minister, who was unable to be present, sent his sincere regrets. All the thirteen Shinto sects were represented, as well as twenty or more Buddhist sects. Only one sect of Buddhism declined, on the ground that it objected to having Christianity put upon the same basis in the view of the Government as Shinto and Buddhism. The seven Christians, represented the Baptists, the Congregationalists, Episcopalians, the Greek Church, the Methodists, the Presbyterians and the Reformed churches, and the Roman Catholics.

The Minister of Home Affairs, in welcoming the conference, expressed appreciation of what had been done in the past by the representatives of the different religions to guide the minds of the people and better moral conditions. He hoped for a continuance of such effort in the future and had asked for the conference in order that there might be a better understanding between the Government and religious forces as to the end to be aimed at.

FOR POTATO GROWERS.

There has been issued, by direction of the Minister of Agriculture at Ottawa, a conspicuous poster calling the attention of potato growers to the importance of examining their crop to ascertain whether or not it is infected with "potato canker." The danger shown in natural colors a potato plant the whole yield of which is affected by the disease. It shows the appearance of individual tubers in which the canker has started to work. Growers who discover suspicious symptoms of the disease in their crop are requested to send affected specimens to the Dominion botanist, Experimental Farm, Ottawa. The poster is issued as Farmers' Circular No. 3, of the division of botany, and is being distributed by the publications department of the Department of Agriculture.

Current Comment

A Western Opinion.

Eastern papers show that Sir Wilfrid Laurier's abandonment of his Western trip came with almost dramatic suddenness. In the morning the Globe had a long article in which it is said that the keynote of the tour would be the ex-Premier's recent Montreal speech. In the afternoon came the announcement that there would not be any tour at all. The reason given was that the farmers were too busy. But it would not have been difficult to find out some months ago that this would be the case at this time of year. The explanation undoubtedly is after the recent Liberal conference in Ottawa, it became quite apparent that Sir Wilfrid's speeches in the West would not be in line with those which the Scott supporters delivered during the Saskatchewan campaign. The men in control of the party's policy had decreed otherwise.

The Dominant Dollar.

If we could blot out the mental impression that money necessarily brings happiness, how much better a place this great wealthy country might be to live in; how much happier many lives would be! But almost everything, health, peace of mind, beautiful surroundings, all that makes life enjoyable, is but second to the eternal struggle for the almighty dollar.

Be Patient!

Men in prison for Rosenthal murder complain of lack of fruit on prison menu. Ought to be some electric currents along shortly.

Still a Problem.

Self-government must still be somewhat of a problem when a city like Detroit nominates eight of her eighteen aldermen who are under indictment for bribery,

We have been talking a whole lot about

MEN'S \$4.00 BOOTS

LEAGUE PLAYERS AVERAGES

(Frederickton Gleaner.)
Bob Ganley, captain of the champion Frederickton team, is the batting leader of the New Brunswick and Maine League for 1912 just closed. While Joe Lynch and Frank Harrington, two of the Pets' pitchers, both have larger averages than Ganley's figures, nevertheless the Pets' captain is the real leader, having the highest standing of any of the regular players who were in the game every day.

Ganley's figures for the season are 353, while he made 78 hits, which is the largest number made by any individual player, and a record equaled only by Larry Conley, another of the Pets, but who played in seven more games than the league leader. The final figures show seventeen players in the select 300 class, and of that number no less than seven are members of the Frederickton club, while another was with the Pets part of the time.

To High Pinkerton, the St. John infielder, goes the honor of having played the largest number of games during the season. He started with the Marathons from the first of the season and was the only member of that club to weather the entire season. The Frederickton club only played 69 games, and Larry and Bob Conley and "Hannah" Hort are the only ones among the Pets who participated in every game.

The best hitting team of the league is selected from the figures herewith, as follows: the players being chosen from those participating in ten games or more and being chosen for the position in which they played the majority of their games.

The team of sluggers follows: Pitcher—Harrington, 374. Catcher—Watt, 306. 1st Base—Lott, 305. 2nd Base—Ramey, 316. 3rd Base—E. Conley, 352. Shortstop—Neptune, 279. Left Field—L. Conley, 322. Right Field—Black, 242. Right Field—Ganley, 355.

The following are the averages made up to the close of the season and exclusive only of the game which Woodstock played at Houlton on July 5th, the box score of which is not available. It is believed that this box score will soon be secured and then the averages will be published complete for the season. The figures:

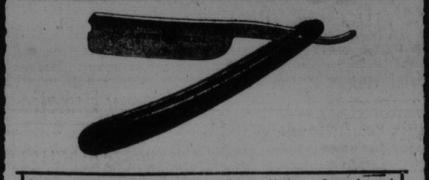

Lynch (P)	6	13	6	385

More Facts About McClary's "Sunshine" Furnace

The Understudy of the Sun—
There's no dust nuisance about the "Sunshine"—when you rock down the ashes the dust is drawn up dust-free then directly across to smoke-pipe where it belongs. Look at the illustration and remember to open both "Dust" and "Direct Draft" dampers—these simple devices make the "Sunshine" the cleanest furnace for the home.

See the famous "exp-joints" here—the frame of the ash pit—the two sections of the fire-pot and the dome all jointed together by our "cup joint."
There's a layer of asbestos cement in each joint—this unites all sections in a permanent way, yet leaves room for the expansion and contraction of the metal.
No wonder that this "Understudy of the Sun" is called the "Sunshine" furnace—since it diffuses pure warm June air throughout the house.
You don't have to wear overalls when attending to the "Sunshine" furnace—it has a big roomy ash-pan. All the ashes are guided directly into the pan by asbestos. A minute or two performs the job. Yes, the "Sunshine" is the clean furnace.
The "Sunshine" Furnace burns either wood or coal. Coke, too, if you prefer it. The "Sunshine" distributes a greater percentage of heat units—the Baffle plates (a new McClary device) decidedly increase the heating efficiency of the furnace.
But—see the McClary agent of your locality. Ask him to show you all the features and exclusive devices which make the "Sunshine" Furnace worthy of the name—The Understudy of the Sun.
If you do not know the McClary Agent, write us at our nearest address and we'll forward you a letter of introduction by return.

HADDOCK FISHERY IN BAY OF FUNDY IS BETTER THAN EVER. Unfavorable Weather, However, Interfered with Fishing on North Shore, and Salmon Fishing was Poor.

According to the latest monthly bulletin of the sea fisheries, issued by the authority of the Minister of Marine and Fisheries, the haddock fishing in the Bay of Fundy this summer was better than in any previous year.

Generally Nova Scotia cod fishermen made good catches and small tinker mackerel were abundant.

The total Canadian fish landed in England and Wales for the six months ending June 30th, 1912, was 4,846,208 cwt., valued at \$18,531,325.

Among recent visitors to St. John was J. H. Walker, of Ansebaux, Mass., a gentleman prominent in Republican politics.

THEY DEBATED THE SUNDAY CONCERTS; INFORMAL BUT HOT. City Commissioner Resented Tone Adopted by Representative of Lord's Day Alliance who Opposed Them.

City hall was the scene of a heated argument yesterday when a representative of the Lord's Day Alliance called and endeavored to show one of the commissioners that it was hereby to even consider the idea of giving the people an opportunity to vote on the question of whether or not they want Sunday band concerts.

MARATHONS DEFEAT SOCIALS IN ONE OF YEAR'S BEST GAMES

The fans who attended the game of ball between the Marathons and the Socials of Halifax on the Marathon grounds yesterday afternoon, were treated to a first class exhibition, and saw the game won by the Marathons in the eighth inning, by a score of 3 to 2.

The Socials who are rated as being the best playing team in the Nova Scotia league this season, are a fast team and they put up first class baseball yesterday afternoon. Their fielding on the whole was clean and there is snap about them that the baseball public like to see.

Yesterday's exhibition was one of the best presented here this season, and should result in a much larger crowd of people turning out today when they play the second of a series of three games.

Jack Copeland, formerly of the Marathons, played short stop for the Socials, and was given a good reception when he came to bat. He had two of the three errors made by his team and one of the errors, made in the eighth inning, had much to do with the winning run being made by the Greeks.

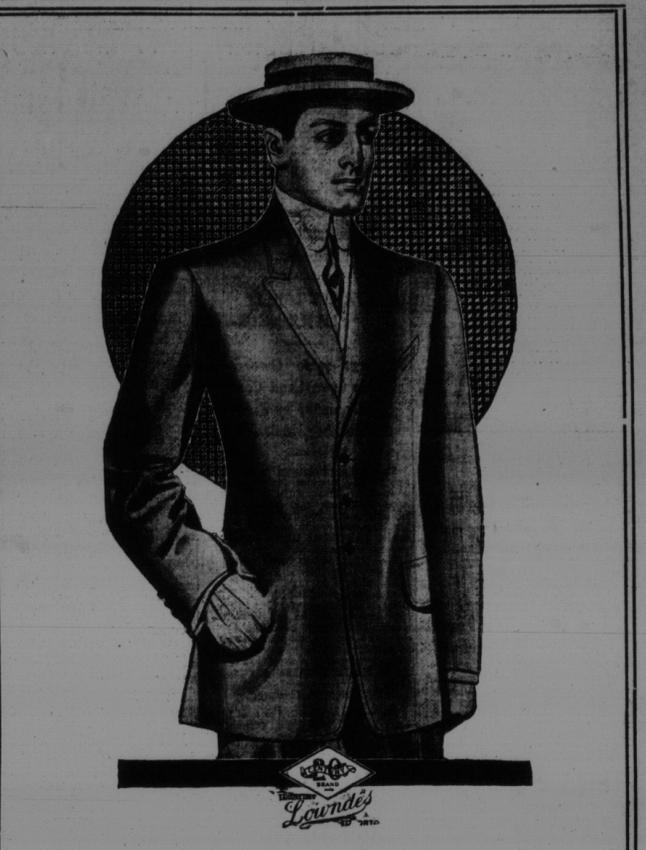

Good timely hitting gave the Socials their first run in the second inning, and the same quality mother in the third inning. These were the only runs they gained in the game.

A base on balls, a wild pitch, an error by Social Base man Sullivan and a sacrifice fly gave the Greeks their first run in the fourth inning.

There was no more scoring until the eighth, when the Marathons got a man across with what proved to be the winning run. With two men on base, Copeland dropped a fly hit by O'Donnell, the runner then stole second and scored on Dutton's hit to left.

There was no more scoring until the eighth, when the Marathons got a man across with what proved to be the winning run. With two men on base, Copeland dropped a fly hit by O'Donnell, the runner then stole second and scored on Dutton's hit to left.

Bates had six strikeouts, and Jordan managed to make eight of the Socials fan the air. The following is an account of the game by innings:

Pictured From Life. This is not an artist's ideal of style--it is a faithful picture drawn from life of one of the smartest of the eighteen 20th Century Brand styles for Fall.

BASEBALL IN THE BIG LEAGUES. NATIONAL LEAGUE. BRITISH FOOTBALL RESULTS. The public's choice for 40 years, and still without a rival.

THE WEATHER

Toronto, Sept. 10.—Fine weather has prevailed today throughout the Western Provinces. Showers and cal thunder storms have occurred from Georgian Bay region to the Maritime Provinces and in Ontario it has been extremely warm, with maximum temperatures above 90 degrees in many localities.

Table with columns: Minimum, Maximum, and locations including Kamloops, Edmonton, Battleford, Prince Albert, Calgary, Moosejaw, Qu'Appelle, Winnipeg, Port Arthur, Parry Sound, London, Toronto, Ottawa, Montreal, Quebec, St. John, and Halifax.

COMMISSIONER OF PUBLIC SAFETY IS STILL HARD AT IT

Secret Investigation of Police Department Continues Nightly—Former Head of Department a Recent Witness.

VIOLATED CITY BY-LAW WHILE COMMISSIONER WAS FEW YARDS AWAY

An ex-alderman called a reporter's attention yesterday afternoon to what he— the ancient alderman—considered a peculiar instance of moral obliquity on the part of the powers-that-be at City Hall.

SLIGHT FIRE NEAR GOLF LINKS

Fire broke out in the summer home of Mrs. McLaren, near the golf links last evening. A still alarm was rung in and answered by No. 4 hose and No. 2 chemical.

THE NORTH WEST FIRE INSURANCE CO.

The above named company have appointed as their agents at St. John, N. B., L. P. D. Tilley and Leonard A. Coulson, who have for that purpose entered into an insurance co-partnership under the name and style of Tilley and Coulson.

HOUSES BURN IN DRURY COVE LOSS IS HEAVY

Blaze of Mysterious Origin Razed Three Summer Houses.

LOSS FAIRLY LARGE; LITTLE INSURANCE

Buildings were Owned by Drury Cove Land Company and Occupied by Z. Alwood and Sterling Hamm.

Fire of an unknown origin broke out in the summer residence of Z. Alwood, at Drury Cove shortly after noon yesterday, and before it was extinguished wiped out in addition to Mr. Alwood's residence the house occupied by Sterling Hamm and another house unoccupied.

Origin A Mystery.

The origin of the fire is a mystery. Fred Parker, who was passing the Alwood residence about half past twelve noticed flames issuing from the building. Both Mr. and Mrs. Alwood were absent at the time, and the first intimation they had of the fire was when they approached the shore at the cove after a sail on the river.

Other Houses Burned.

The fire fanned by a strong breeze which was blowing at the time caught the underbrush in the neighborhood and despite the persistent efforts of about a dozen men from the neighborhood who formed a bucket brigade, the residence of Sterling Hamm took fire and burned to the ground.

TENDERS FOR NEW POST OFFICE ARE EXPECTED SOON

Plans Have Been Completed and Tenders May be Called for Any Time—Change from First Plan.

Although nobody in St. John seems to know when work will be started on the new post office, it is stated that the plans have been completed and that tenders may be called for at any time.

DISTRICT MEETING OF CONFERENCE OF METHODIST CHURCH

A meeting of the St. John district of the New Brunswick and P. E. Island Methodist conference was held yesterday in the school room of the Portland street Methodist church.

CITY HAS HAD NO WORD FROM THE RAILWAY

What Commissioner Agar and H. M. Hopper Say Regarding Street Railway Extension to Kane's Corner.

Commissioner Agar when interviewed last evening, said he has from out of the city during the day and had therefore no opportunity to meet the city commissioners and discuss with them the question of extending the railway tracks to Kane's corner.

What Mr. Agar Says.

Commissioner Agar when interviewed last evening, said he had had a talk with Mr. Hopper on Monday, but had not arrived at any agreement with him. "I remarked to Mr. Hopper," he said, "that they had the right to go ahead and lay a single track, and that I thought a single track would serve the needs of the people at Kane's corner for some time."

THE BOARD OF HEALTH TO ENFORCE LAW ON SLAUGHTER HOUSES

Dr. Melvin Again Urges Need of Better Facilities at Places where City's Meat Supply is Killed.

At the meeting of the board of health yesterday afternoon, Medical Health Officer Dr. G. Melvin, submitted a report urging the need of better facilities at the slaughter houses and the matter was referred to the legal adviser of the board with a view to having him take steps to see that the sanitary regulations were better observed.

THE EARLY CLOSING BY-LAW AND STORES AFFECTED BY IT

A shopkeeper points out that the statement published in The Standard yesterday, that the proposed early closing by-law applied only to stores in which clerks are employed for hire, is not strictly correct.

PERSONAL

Mrs. Horace G. Black (nee Smith) will receive her friends Tuesday and Wednesday, Sept. 18 and 19, at her residence, No. 4 Wentworth street.

UNKNOWN MAN FOUND IN RAIL TERRIBLE HURT

Shocking Tragedy Near Aurora, on the C. P. R. Last Night.

VICTIM IN HOSPITAL; CANNOT RECOVER

Stranger Discovered Lying Across Track by Trainman, and Found to Have Sustained Fearful Injuries.

With one leg almost severed at the hip and the other badly mangled at the knee an unknown man was found last night on the C. P. R. tracks near Aurora, a siding the other side of Fairville station.

There is not the slightest clue as to the victim's identity, as neither papers or any mark on his clothing were found to show who he is, or to where he belongs.

The victim of the terrible accident is a man apparently between thirty and thirty-five years of age; swarthy complexion, smooth shaven, black hair and about five feet eight inches in height. He wore a dark suit.

As the regular C. P. R. freight due to leave here about seven o'clock in the evening stopped at the siding at Aurora to allow the incoming suburban train from Wexford to pass, one of the train hails saw the body of a man lying across the main track.

The man was lying with both legs across the track, with the trunk out side the track. Darkness had already fallen, and only after removing the body was it discovered how seriously injured the victim was.

The sight was a gruesome one. The right leg was almost severed from the trunk, and hung by slender shreds of the man's clothing. The other leg near the knee was terribly mangled.

When picked up and gently placed on the station platform the unfortunate man was found still alive, but in a semi-conscious condition. As the suburban train was due in from Wexford, the man was secured, and the victim placed on this until the arrival of the train to the city.

In no measure was the ambulance and the ambulance was hurried to the depot.

At the hospital it was found that there was very little possibility of him living any length of time. His condition was so weak from the loss of blood that it was found impossible to attempt to amputate the mangled limbs. His condition is most precarious and there was little hope of him living through the night.

Whether the victim was run over by a passing train, or fell from the Boston or Montreal trains, is a mystery. On his clothing there were papers to land a clue in clearing up the mystery of his identity. Nor were there any marks on the clothing to show where he belonged. No one on the train knew the victim, and it is thought that he is a stranger.

LATER. The victim of the Aurora accident died in the hospital at 1:30 o'clock this morning.

Dress Goods for Fall and Winter. Dress goods for fall and winter in sensible and serviceable shades and woven in staple and sturdy materials are being shown by F. A. Dykeman and Co. The three wools "Woven for Retail" are a real treat in quality, well, and give the wearer a neat and snappy appearance.

Piano Recital in Centenary. A recital will be given on the Chickering concert grand pianoforte in Centenary hall, on Thursday, 19th instant, by George Wilson. Mr. Wilson's musical preparation included five years' study in Leipzig and Berlin, and his professional career embraced several years as director of music in the Sackville institutions, as instructor in the Toronto conservatory, and lately in one of the high class colleges of the United States. He has recently given so much attention to solo work, and has attained such mastery of the finest musical creations, that he will probably be compelled to devote all his time to pianoforte recitals. His playing is certainly of very high grade, and his many friends in St. John will be glad of the opportunity of hearing him, and all the musical four hundred will make no mistake in attending.

"Detachage," or Taking Out Stains. When a garment has become stained do not discard it. Our dry cleaning process removes these stains without injuring the fabric or leaving a mark. Try Ungar's, 28 Waterloo street.
