Mems of the Merry War.

The Prosperity wagon is on the road. No smokeless chimneys now. No Tupper rule. Laurier is a worker, Tupper a talker. Leave the first in power, the latter in opposition.

REGISTER TOMORROW!

Thursday, next, Oct. 13, is Thanksgiving Day. Canada has much to be thankful for.

Somebody says the present Dominion Government is the Jersey cow that gives the ice cream.

Do not be of those who talk politics loudly on the street cars, but forget to register and find themselves voteless.

In the last four years Canadian trade has grown more than it did in the previous eighteen years. Who wants a change back to the dull times of 1895 and 1897?

In nine industrial establishments in London an increase of 44 1/2 per cent in employees, as compared with 1895. Whose interest is it to replace Laurier with Tupper?

At both the London and South Middlesex nominations, Opposition reporters were not debarred. At the East Middlesex Conservative convention, the door was carefully tied against Liberal reporters.

The duty of the hour is to register at once.

A contemporary says Sir Charles Tupper might write another manifesto like this: "Should you return my party to power I will either abolish the duty on agricultural implements or double it. I am not sure which."

The first duty of every friend of the Government in this city is to see that his name is on the voters' list, and if not to have it registered. Better send your name to the Liberal headquarters anyway if you have any doubts.

This is what Mr. Tarte said at Laval: "I am a French-Canadian from the sole of my foot to the crown of my head, yet I desire with all my heart the continuance of our present condition under the British crown." Now, Major, why do you not work that into your eloquence?

This, from the Globe, hits the mark: "Mr. Foster would exclude the farm implements now imported, Hugh John Macdonald would let them all come in free, and The World would have Parliament regulate the price. Evidently it is not farm implements but office that is worrying Conservative politicians."

The young man who fails to see that his name is on the voters' list will be without a vote on election day.

The Free Press says: "The cold fact remains that no Conservative has ever been unseated or disqualified in London for corrupt practices." We admit this is a "cold fact." It ought to make honorable Conservatives shiver, and we believe it does, when they think of it. There are worse facts than this.

For Dandruff And All Scalp Troubles

There is no remedy so effective as Oriental Rum and Quinine Hair Tonic. It restores the hair-producing organs to their natural vigor, and strengthens and beautifies the hair. This tonic prevents the hair from falling out-gives it new life, and makes the hair soft, silky and luxuriant. It keeps the scalp clean and healthy, and is a positive cure for dandruff. Ladies who want beautiful hair should use this matchless tonic. Only 50 cents bottle. CAIRNCROSS & LAWRENCE, Chemists and Druggists, 216 Dundas street, London.

dieton dragged her anchors at Hastings, and is ashore at Auld's Cove. The schooner John Halliday, with coal, is ashore and full of water between Canoe and Hastings. The schooner P. Walsh dragged and is ashore at Cape Porcupine. The schooner Onora is stranded at Bayfield. It had positive reports that the schooner E. D. Myra and Mabou, for Halifax and Avon, are ashore in the straits. The schooner Glenora is reported cut down in a collision. At Canoe the storm did a great deal of damage to shipping, fishing boats, houses and barns. The wind on Thursday afternoon became a hurricane. The American schooner Wetherell, was driven over the shoal in Canoe harbor and had a narrow escape. The Canoe schooner Acadia went ashore on White's Point, but managed to get off, leaving badly. The schooner Ocean Belle is sunk in Glasgow harbor. The American schooner Mystery arrived from the Banks, reporting one man lost. The schooner Senator Salsbury also came in, having lost everything from her deck. St. Johns, Nfld., Oct. 15.-The steamer Kate, which has just visited Cumberland Inlet with supplies for the American whaling station there, reports that nothing has been heard from the steamer Windward. Hope of her return this fall is now practically abandoned.

MR. KRUGER'S INTENTIONS

He is Likely to Leave South Africa for Good.

Lord Roberts Hopes the Orange River Colonials Will Stay Till the War is Ended.

London, Oct. 15.-The Telegraph's correspondent in Lorenzo Marquez cables an interview had between him and ex-President Kruger's grandson, Eloff, who accompanies his grandfather to Europe. He said he did not think Kruger intended to return to South Africa. He did not suppose the British would allow him to land, if he did return. He denied his grandfather had gone on board the Dutch cruiser Gelderland, which does not sail before next Thursday. When the Dutch embassy he would do so openly, under the auspices of the governor of Lorenzo Marquez.

THE COLONIAL VOLUNTEERS.

Cape Town, Oct. 15.-The mayor has received a telegram from Gen. Roberts announcing that the colonial volunteers who have been on active service north of the Orange River may return home as soon as possible after the war. Gen. Roberts expresses the hope, however, that many of the volunteers will remain in the field until the termination of the war, and says that their leaving now will have the worst possible effect.

BUSHMEN DEFEAT BOERS.

A dispatch from Mafeking yesterday states that the Australian bushmen had an engagement on Friday at Letpoort, two miles from Malmalm, with a force of Boers, who for a considerable time had been strongly entrenched in the kopjes northeast of Malmalm. The British loss was two wounded. The Boers lost seven dead on the field.

SLEW TWENTY TAGALOGS.

Manila, Oct. 15.-Advices received here from Iloilo, Island of Panay, under date of Friday, Oct. 12, say that Company D, of the 26th United States Volunteer Infantry, was attacked on the previous day by a force of Tagalogs in Northern Panay. The enemy lost 20 men killed and 40 wounded, while the Americans had two men wounded. Twenty-two prisoners and 12 rifles and a quantity of ammunition were captured. The Tagalogs were from the island of Luzon.

Talk is rather cheap, but some people have a mania for trying to monopolize it.

WORST HAVOC IN 25 YEARS

Fearful Damage Wrought by Thursday's Storm in Nova Scotia-Three Schooners Ashore.

Halifax, N.S., Oct. 15.-The storm that swept over the eastern coast of Nova Scotia on Thursday afternoon and night is reported the worst in 25 years. Capt. Scott, of the steamer Harlow, which arrived from Cape Breton, with her mainmast gone, says the gale was very severe, and he reports that thirteen schooners went ashore at North Sydney. The Norwegian bark Plough is a total wreck at Point Aconit. The bark Bahama, with hard pine, from Savannah for Quebec, was driven aground at Mulgrave on soft bottom. The American schooner Eliza J. Guerillas

Are Active in Kroonstadt District.

The West Kents Surprise a Boer Laager Near Frankfort.

Butler's Return to England a Great Surprise to London's Military Men.

London, Oct. 14.—The war office has received the following from Lord Roberts, dated Pretoria, Saturday, Oct. 12: "A satisfactory little affair occurred near Frankfort Thursday. Col. Grove, with the West Kents, surprised a Boer laager at dawn, killed seven, wounded nine and captured eighteen."

GUERRILLA FIGHTING.
A Cape Town dispatch says: "The Boers are very active in the Kroonstadt district. Gen. Dewet has proclaimed that burghers who refuse to fight will be made prisoners of war, British mounted infantry, scouting from Lindley, had Capt. Wiltshire killed, through mistaking a party of 40 Boers in kaffir for friends. Boer commandos continually harassed the British column while marching from Lindley to Kroonstadt. The Boers captured a detachment of the Cheshire regiment which was escorting an empty wagon near Frankfort. They released the driver, but kept the wagon."

KRUGER'S DEPARTURE.
Brussels, Oct. 13.—It is reported here that ex-President Kruger sailed from Antwerp on Thursday, before Chief Justice Falconbridge, the suit of Steinacker vs. Ort was tried. The plaintiff, Miss Mary Steinacker, of Fullerton, brought action against the defendant, Mr. John Ort, of Blenheim, for breach of promise of marriage. Defendant is alleged to have proposed marriage to plaintiff in the fall of 1908, when she was working for her aunt in Blenheim. Plaintiff says that the understanding was that they were to be married in the spring if a suitable farm could be got. Miss Steinacker went back to her home in Fullerton, and considerable correspondence passed between the two lovers, extracts from which were read aloud in court. In these defendant is alleged to have stated that a farm could not be got.

In the spring of the next year the plaintiff went back to Blenheim, but defendant's love had grown cold, and he became engaged to another young lady, whom he married last January. For this alleged breach of promise of marriage Miss Steinacker asks damages. The plaintiff's evidence was very clear and precise. She promised to marry Ort on being asked the second time. No date for the wedding had been set, nor did Ort give her a ring.

Defendant in the witness stand swore that he had never promised to marry the girl, but the jury accepted her story and responded to Mr. Ort's request for \$2,000 damages by awarding her \$1,200.

A motion was made to stay proceedings, but was refused, and judgment was entered for \$1,200 and costs.

The action for damages against Rev. Henry Irvine, of Lisbowl, for slander, was dismissed, and a 25-cent verdict was given in Stanley vs. Lift.

BULLER'S RETURN.
Sir Redvers Buller's return to England is a great surprise to military men in London, who had expected that he would succeed Lord Roberts. It is interpreted as a sign that Lord Kitchener will be left in command in South Africa. The result causes satisfaction in two quarters. The Aldershot garrison is relieved, because it dreads the transfer of Lord Kitchener to London, where he might turn the military service upside down as allowed by Lord Salisbury to have a free hand. The South African community here is also pleased, because it is weary of what it describes as Lord Roberts' "soft-hearted leniency," and regards Lord Kitchener as a rough and resolute soldier, who will not be swayed by military considerations, but will restore order in two new colonies by drastic methods.

This feeling is shared, without doubt, by a large section of the public, which reads with impatience the accounts of raiding operations by Gen. Dewet's burghers and the Transvaal train-wreckers.

CHANGES LIKELY.
As Sir Frederick W. E. Sir Forester-Walker, Lord Methuen, Sir Francis Clery, Gen. Wm. G. Tucker, and possibly other generals outrank Lord Kitchener, other changes will be necessary. Lord Kitchener's promotion may be a short way out of the difficulty. The army of occupation has not yet been materially weakened. The Natal and Cape Colony Volunteers are disbanded, the colonial forces are returning to Canada and Australia, and the London Volunteers are recruiting their numbers at sea for the tremendous welcome that awaits them here; but the regulars still remain in overwhelming strength for police work.

Gen. Buller is expected to leave Cape Town for England at the end of the month.

Some 400 refugees, principally miners, will return to the Transvaal next Wednesday. They will comprise the first consignment of refugees to return from Cape Town.

THE NAVAL BRIGADE.
The Naval Brigade, under the command of Captain Bearcroft, arrived at Simonstown today from the front. The men were enthusiastically received by the people. The town was decorated, and all the business houses were closed. There was a great crowd at the railway station when the train arrived, and the mayor made an address of welcome, in which he referred in a complimentary manner to the conspicuous part the Naval Brigade had taken in the arduous campaign. The sailors were banqueted tonight by the citizens. The majority of them will sail for England on Monday.

Cape Colony Parliament was prorogued today. The premier, Sir James Gordon Spragg, expressed the hope that when parliament reassembled all terms will have passed away, and at peace and good-will will prevail in such Africa.

The Canadians.
MORE INVALIDS REACH QUEBEC.
Quebec, Oct. 14.—The Dominion Line steamer Vancouver arrived at the Grand Trunk wharf, Lewis, at 11 o'clock this morning. There were some 40 Canadian heroes on board, returning from the battlefield in South Africa. They were brought by a tender to the Queen's wharf and disembarked about 2 o'clock. They were met by Lieut. Col. Wilson, commander of the fort, and accompanied by Major Fagge, Capt. Duplessis, other officers belonging to the militia, and some of the members of the citizens' permanent

reception committee. Hundreds of spectators were on the embankment, and our brave boys were enthusiastically received. They were escorted afterwards to their temporary quarters at the citadel by a detachment from the R. C. R. I. and R. C. A., accompanied by the state band. Among the party are the following members of B company, first contingent: Sergt. R. B. Bowen, 21st (Essex) Fusiliers, B company. Pte. A. Jell, 21st (Essex) Fusiliers, B company. Pte. A. Marshall, 22nd (Oxford) Rifles, B company.

The full list has already been published in these columns. Lieut. H. Z. C. Cockburn, of A squadron, Canadian Mounted Rifles, formerly a captain in the Governor-General's Body Guards, of Toronto, returned to duty with his regiments on the 7th, after being ill in hospital. BREACH OF PROMISE.
Verdict for \$1,200 and Costs Against John Ort, of Blenheim.

Stratford, Oct. 15.—At the Perth assizes here on Thursday, before Chief Justice Falconbridge, the suit of Steinacker vs. Ort was tried. The plaintiff, Miss Mary Steinacker, of Fullerton, brought action against the defendant, Mr. John Ort, of Blenheim, for breach of promise of marriage. Defendant is alleged to have proposed marriage to plaintiff in the fall of 1908, when she was working for her aunt in Blenheim. Plaintiff says that the understanding was that they were to be married in the spring if a suitable farm could be got. Miss Steinacker went back to her home in Fullerton, and considerable correspondence passed between the two lovers, extracts from which were read aloud in court. In these defendant is alleged to have stated that a farm could not be got.

In the spring of the next year the plaintiff went back to Blenheim, but defendant's love had grown cold, and he became engaged to another young lady, whom he married last January. For this alleged breach of promise of marriage Miss Steinacker asks damages. The plaintiff's evidence was very clear and precise. She promised to marry Ort on being asked the second time. No date for the wedding had been set, nor did Ort give her a ring.

Defendant in the witness stand swore that he had never promised to marry the girl, but the jury accepted her story and responded to Mr. Ort's request for \$2,000 damages by awarding her \$1,200.

A motion was made to stay proceedings, but was refused, and judgment was entered for \$1,200 and costs.

The action for damages against Rev. Henry Irvine, of Lisbowl, for slander, was dismissed, and a 25-cent verdict was given in Stanley vs. Lift.

FATAL MISTAKE.
Young Man Taken for a Rabbit and Shot Dead.

Chicago, Oct. 15.—A special to the Record from Denver, Col., says: Arthur W. Green was shot and instantly killed in mistake by C. W. Johnson, a rabbit hunter.

Green was out with his sweetheart, Miss Katie Mockridge, taking pictures in the foothills near Golden. He had donned Katie's hat, and she was just about to take his picture when Johnson came over a hill. Seeing a moving gray object he mistook it for a rabbit and sent a charge of shot into Green's head.

Strikers Decide to Accept the Increase Offered.
Providing It Is Paid Until Next April—Operators Must Abolish the Sliding Scale—Arbitration the Alternative.

Scranton, Pa., Oct. 15.—The anthracite coal miners now on strike, after a two days' convention, late Saturday afternoon decided to accept the 10 per cent increase in wages, offered by the mine owners, providing they will continue the payment of the advance until next April, and will abolish the sliding scale. If the operators consider the proposition unacceptable, the miners are willing to arbitrate the question at issue. They also decided to continue the strike until the operators agree to the convention's proposition. The resolution is:

"Whereas, the anthracite coal operators have posted notices offering an advance of 10 per cent over wages formerly paid, and have insisted that the miners should accept the same, and have refused to adjust other grievances of their employees, and

"Whereas, they have failed to specify the length of time this advance would remain in force, and have also failed to abolish the sliding scale method of determining wages; we would recommend:

ADVANCE ACCEPTED.
"That this convention accept an advance of 10 per cent, providing the operators will continue its payment until April 1, 1901, and will abolish the sliding scale in the Lehigh and Schuylkill regions; the scale of wages in the two last districts to remain stationary at 10 per cent above the present basis; and that the companies will agree to adjust other grievances complained of with committees of their own choice."

"We would further recommend that under no circumstances whatever should the operators be allowed to work at any of the collieries until the operators signify their acceptance of this proposition, and you are notified officially that the strike is ended, and all return to work in a body on the same day."

LONG STRUGGLE POSSIBLE.
Judging by the unity of the miners in accepting the above resolution and by the determined stand by the operators, it is generally believed a long contest between the strikers and the mine owners is not unlikely. There was great enthusiasm in the convention when the operator's proposition to the operators was carried, and these cheers were given for President Mitchell. The resolutions were drafted by a committee of thirteen, appointed at the morning session, of which the national president, Sir Charles Tupper, was one of the members.

PRESIDENT MITCHELL'S VIEWS.
Mr. Mitchell, in an interview with a representative of the Associated Press, on the outcome of the convention, said: "The action of the delegates in convention today, in accepting an advance of 10 per cent, providing they receive assurances the advance will continue in force until April 1st, next year, demonstrates that the miners are considerably of the public interest involved and are disposed to be conciliatory; and yet the mine owners refuse to join hands with the miners in bringing the strike to a close. The responsibility for the continuation of the strike will rest entirely with the operators. The operators have now an opportunity to prove that the proposition offered by the public interest in good faith. If they are willing to pay 10 per cent advance they certainly ought to continue to pay for six months. The mine workers will accept the strike until they are officially notified by the officers of the union that the strike is declared at an end. There will be no exception to this rule."

SATISFIED WITH RESULTS.
"I cannot understand any good reason why the operators should not accept the conditions named by the miners' resolution. It is, of course, hoped there will be a speedy termination of this contest, and I believe that in the future the operators will be disposed to treat with more consideration their employees than they have in the past. I am entirely satisfied with the action taken by the miners. They did not make a mistake in their view of pleasing me, but took the steps because it satisfied them. It was in their hands and they showed an extraordinary spirit of fairness."

When Mr. Mitchell was asked in what manner the operators would be notified in view of the fact that they do not recognize the United Mine workers, he said the employees would probably find a way for it and through the newspapers.

"We gathered most of our information of what the operators are doing," he said, "from the newspapers, and I suppose they are doing the same."

Keep Politics Clean.

A more pernicious saying was never uttered than "fighting the devil with fire," which involves the idea that if you do not use every possible means of winning an election, fair or unfair, your opponent will do so, and so put you at a disadvantage. It is needless to say that, even if this were true, fraud and corruption on one side would not justify fraud and corruption on the other. But it is quite conceivable that the enemy is adopting the same line of reasoning and excusing himself in the same way, making a scapegoat of you as you make a scapegoat of him. The majority of men on both sides would prefer clean methods. But there is no use in postponing reform to the millennium. The only way is for each man to begin the reform at home, taking care that his own campaign is conducted fairly, and leaving the general result to take care of itself. There is an old and true saying, that the street would be clean if every man swept in front of his own door. That is the only way to keep the political highway in a condition that will not be public scandal.

OPEN SWITCH.
Caused Death of Two Men and Injury of Three Others.

Chicago, Oct. 15.—An open switch on Eighty-fifth street, South Chicago, believed to have been purposely misplaced, caused the death of two men and the injury of three others, and made wreckage of the engine and forward part of the New York and Boston express train on the Lake Shore and Michigan Southern road last night.

The killed are: H. J. Jorough, fireman of the train, and a tramp who was stealing a ride. Lewis Reynolds, engineer of the express, was probably fatally hurt.

KEEP TUPPER OFF THE MEETING AT BRANDON

Farmers Do Not Care to Have Him Handle Their Produce.

"When the system of cold storage was being discussed in the House of Commons over a year ago Sir Charles Tupper undertook to tell me what should be done, and—very singularly—what he then told me ought to be done had been done by me two years before, was in progress, and had proved a complete and universally recognized success."

There is one part of the programme which Sir Charles advocates which I have not adopted, and do not intend to adopt. For the sale of our produce, he proposes to establish government depots in England; to take it out of the ordinary channels of trade and employ government agencies for the purpose of handling our produce there. I know well, and the producers know well, that through the ordinary legitimate channels of trade their produce is reaching the English market to better advantage and realizing better prices than they could possibly get if it was manipulated by the appointees of Sir Charles Tupper. Judging by what we know of Sir Charles Tupper's management of public affairs on previous occasions we know that the farmers of Canada do not want their products handled by such men. The system on which the Liberal Government has acted has been that of giving information and instruction to the people, and trying to supply the requisite facilities for transportation in cold storage, leaving it to them to work it out in their own way. I venture to say that this is a more statesmanlike and successful policy than for the government to undertake to do the work which the people are much better qualified to do for themselves.

MR. HOUSE, OF BERLIN.
Cured of Lumbago by Dodd's Kidney Pills.

Berlin, Oct. 15.—Everyone in Berlin knows Andrew House. He is a respectable and prosperous resident, who numbers his friends by hundreds.

For over a year past Mr. House was tormented by severe pains in his back, which increased in severity in spite of doctors and their medicines.

He was advised to try Dodd's Kidney Pills. He did so. That night he felt less pain. Daily the pains abated, and in less than two weeks Dodd's Kidney Pills had cured him thoroughly.

There is only one sure and unfailing cure for Backache. That cure is Dodd's Kidney Pills. Experience has proved this thousands of times.

Henry L. Underwood, a colored student of Cincinnati, denounces Senator Ben Tillman as a coward, and challenges him to debate the question of southern disfranchisement of the negro.

Hon. Mr. Sifton Answers Sir H. Tupper's Charges.

The Audience Was With the Minister—Results of Saturday's Nominating Conventions.

Brandon, Oct. 14.—The joint political meeting held here last night, addressed by Hon. Clifford Sifton, minister of the interior, and Sir Hibbert Tupper, resulted in a complete victory for the Liberals.

The audience present was the largest ever assembled in the Wheat City, fully 3,000 listening electors and friends occupying the spacious interior. It was an expectant gathering, comprising ladies and gentlemen, who had assembled to hear the chief instigator of the Yukon charges make his statements before Mr. Sifton in the heart of the minister's constituency.

The day had been devoted to politics. It was felt by Liberals that Mr. Sifton would take advantage of the opportunity to tell some interesting facts which would be appreciated not only by the audience but by Sir Hibbert Tupper as well, and in this respect they were not disappointed. By 8 o'clock there was not a vacant seat in the place. A special from Brandon and other points had brought in over 100 electors; from the west many had arrived by the Imperial Limited, while from Carberry and McGregor and southern towns about 250 came in on the Winnipeg special. Besides, goodly numbers had driven in from country points, taking advantage of the fine weather. It was an ideal audience for the direct object of the Liberal campaign in Brandon. Not only were the towns and villages represented, but also the countryside for miles around.

THE SPEAKERS.
Sir Hibbert Tupper, with Mr. Andrew Kelly and several leaders of the party, were warmly received by their friends. At 8:15 Mr. Sifton, accompanied by his brother, Mr. J. W. Sifton, entered the rink. His appearance was the signal for a spontaneous outburst of cheering, which lasted several minutes. It continued until the minister had taken his seat, and he smilingly acknowledged the expression of popularity and confidence. Mr. Andrew Kelly occupied the chair. On his right was seated Sir Hibbert Tupper, and on his left Hon. Clifford Sifton and Mr. J. W. Sifton. To the rear were two rows of Conservative leaders, gathered to meet the ex-minister of justice. On invitation of the chairman three of Mr. Sifton's friends were invited to the platform—Capt. Ramsay, chairman of the Liberals' central committee; Mayor McDiarmid, president of the Liberal association for the local constituency of Brandon; and Mr. Robert Fall, president of the Brandon Liberal Association.

EFFECT OF THE SPEECHES.
Sir Hibbert Tupper's address was well received, although the mention of Senator Kirchhoff's name as an au-

thority for certain statements met with strong disapproval. Impartial observers remarked that the ex-minister's speech was rather mild in its charges. In this it materially differed from those delivered in the House of Commons the last two sessions, and even the one made last week at Calgary. The reception to the minister at his entrance and the warmth of his welcome, perhaps even the presence of Mr. Sifton himself, may have had a tempering effect; but those present will never forget the speech of the minister, not only for its value as a vindication of his Yukon administration, but for the scenes that were witnessed in the rink as point after point was scored.

AN INSPIRING SIGHT.
Hundreds rose in different parts of the building, cheering the minister to the echo, while flags and handkerchiefs were waving in all parts of the hall. It was an inspiring sight, and one that plainly told the visitor from the coast on his way to the sea that he was in the enemy's stronghold, and that his effort to capture the electors for Sir Macdonald had failed.

When Sir Hibbert Tupper closed his half-hour's reply at midnight three cheers were proposed for Hon. Clifford Sifton. It was responded to with a will by the majority present, and the cheering, with accompanying demonstrations, continued until the greater part of the audience had left the rink.

Hon. Hugh John Macdonald was not present. According to arrangement, the meeting having been called by the Conservatives, Sir Hibbert Tupper spoke first for one and a half hours. Sir Sifton followed for the same period, and Sir Hibbert closed the meeting.

LIBERAL CONVENTIONS.
The following Liberal conventions have been summoned to nominate candidates:

SIR WILFRID IN ONTARIO.
On Wednesday, Oct. 17, Sir Wilfrid Laurier and Sir Richard Cartwright will speak at Stratford; on the 18th the premier will speak at Wallaceburg, and on the 19th at Windsor. Sir Wilfrid will also be accompanied by Hon. David Mills.

FOOTBALL.

TIGERS TRIMMED.
The Tigers of Hamilton journeyed to London on Saturday morning with the confidence, the expectancy, of victory written upon their smiling faces. When they returned in the evening they had been beaten good and plenty, and if they made merry on their trip to the city on the bay, it was only with the merriment that was needed to buoy their last-coming courage. Apparently their excuse for existence at all was to show Londoners how excellent as their team, and to show the local players that hard work and good condition are mighty factors in success. They served that purpose, and incidentally provided some good sport for the five or six hundred people who cheered the Londoners along the road to the championship. A score of 27-0 is decidedly expressive. Short of all verbiage particulars a description of the game simmers down to the statement that the good condition that is at all times essential was a quality possessed by the wearers of the red, white and black, and was lacking in their opponents.

London had six points to the Hamiltons' eight at the end of the first half. The try was gained by a series of bunched scrimmage and vigorous line-bucking. Labatt gave Hobbs an opportunity to make one of his racking snipe-fence runs through the Tigers; he got behind the line and Taylor converted. The visitors' attempts to tally failed, but they prevented London doing any scoring until half-time sounded.

Another point was scored after an exchange of punts, by Peel, who sent the pig-skin over the Hamilton's line. Very soon after, Peel again caught the ball and passed to Hobbs, who rushed the line for a try. Taylor's kick made the score 12-0.

To describe all the dodging and punching, the meteoric rushes, the line-bucking and quick kicks that increased the local lead might be wearisome. Suffice it to say that Hobbs made a smashing side-stepping run of over 30 yards through the weakening Tigers, and Taylor, in spectacular fashion, kicked the oval through the posts from the 40-yard line, both facts helping materially to boost the London end of the score to 27.

The teams lined up as follows:

ARGONAUTS VS. ST. MARYS.
Toronto, Ont., Oct. 13.—Before a fair crowd on the Varsity athletic grounds this afternoon Argonauts H. and St. Marys played a good game of Rugby. PROOF POSITIVE CANCER IS CURABLE.

Evidence of an Incontrovertible Nature.

Cancer has so long been considered an incurable disease that people will hardly believe that there is really a cure. Yet abundant evidence can be produced to prove that in some of the very worst cases of cancer, our Vegetable Cancer Cure removed permanently every trace of the disease. One case we might cite is that of a lady who suffered from cancer of the breast, endured the tortures of the plaster, which only aggravated the disease since, and who was cured completely by our remedy. Another instance—that of a gentleman who had cancer of the tongue. It was removed by the knife, but soon came back again. Our remedy cured him eight years ago, and he has never had any recurrence of the disease since. If you desire the names and full particulars of these cases, you will find them in our new book, "Cancer: Its Cause and Cure," which you may have on receipt of 50 stamps. BIG MEET AT TORONTO.
Toronto, Oct. 13.—The Ontario bicycle championship meet under the auspices of the Royal Canadian Bicycle Club and the Toronto Lacrosse and Athletic Association took place at Rosedale this afternoon, and was fairly successful. The gathering was run under the sanction of the Canada Cycling Association before a thousand spectators, who were greatly pleased at the results of the racing served up. The only mishaps were to Murray, of Hamilton, and Campbell, a colored rider, of Toronto, who had spills in a heat of the five-mile provincial championship. The surprise of the day was the winning of the three-mile W. G. & R. trophy team race, and the five-mile pursuit race by Q. B. C. riders. Vennels won the five-mile championship race from Moore after a desperate sprint in the stretch. Summary:

One mile, R. C. B. C. members' championship—G. C. Abbott 1, W. J. Vennels 2, B. Elliott 3. Time, 2:48½.

One mile, Q. B. C. C. members' championship—F. Moore 1, J. Smith 2, W. M. Morton 3. Time, 2:15.

A RECORD-BREAKER.

Toledo, Oct. 13.—Crescent broke two track records here today on the exposition half-mile track. He made the record to sulky in 2:09½, and to wagon in 2:13½. The sulky record in quarters was 1:03½, 1:27½, 2:09½. The wagon time by quarters was 1:35½, 1:08, 1:40½, 2:13½. Over ten thousand people were present.

JOE PATCHEN MADE FAST TIME.
New York, Oct. 13.—Joe Patchen in his mile against time at the Parkway race track this afternoon, went the quarter in 30½, the half in 1:02, the three-quarters in 1:34½, and the mile in 2:06½, breaking the track record, but failing to lower his own record for the distance.

IMP BEATEN BY ETHELBERT.
New York, Oct. 13.—Ethelbert, the gallant son of Ethen—Maori, won the Municipal handicap at Morris Park today, a head before Imp, in the record time of 2:58½. The race was at 1½ miles over the Tying Hill course, and five horses faced the starter. Ethelbert was favorite at 7 to 5, with Jack Beaton second and choice. Imp was held at 4 to 1, with Pink Coat and Maid of Harlem the outsiders. They were sent off on the first break to a good start, with Jack Beaton in front, but he quickly took Imp out in his favorite place, and led past the grand stand the first time, with Jack Point, Pink Coat, Ethelbert and Maid of Harlem following in the order named, and well bunched. Imp drew away in the second turn, and showed the way up the back stretch by a length and a half. She ran the 6 furlongs in 1:15½, and the mile in 1:42. At this latter point Pink Coat dropped back beaten, and Ethelbert moved into second place, a length before Jack Point. Rounding the far turn Imp drew even further away, and led into the stretch by two lengths. Odor sent Ethelbert after her, however, and it was a duel between the two. The last furlong pole Ethelbert had moved up on even terms with the black whirlwind, and heads only separated them to the wire. Imp responded gamely under Burns' vigorous ride, but Ethelbert had the lead, and won handsily without the use of whip or spur. Maid of Harlem closed strong and was third, 5 lengths behind Imp, and 6 lengths before Jack Point, while Pink Coat was beaten 12 lengths.

After the race Ethelbert was moved into second place, a length before Jack Point, after a pretty race in which there were no accidents. Garry Hermann took the Champagne stakes for 2-year-olds, but had to be ridden out to beat Smile, an added starter, a neck. Conroy and Smile made the running, with Garry Hermann always well up; the last two fought out all through the stretch. Water Color was a distant third. The second race went to Sweet Tooth at long odds. Unmasked won the third handsily in fast time, and Annoy took the last easily. Three favorites were successful, two second choices and one outsider. The weather was dull and cloudy, the track fast and a big half-holiday crowd was in attendance.

THE LIBERALS MAKE GAINS

But Salisbury Has a Large Following.

Improvement in Dowager Empress Frederick's Condition.

Leopold Will Use His Title During One Day Only in Paris—Netherlands Will Not Allow Export of Powder.

Kronberg, Oct. 14.—The condition of Dowager Empress Frederick today is satisfactory.

London, Oct. 14.—The following announcement appears today in the Court Circular: "The Queen has been in some anxiety for a week owing to the unsatisfactory accounts of the health of Empress Frederick. Reports now, however, are favorable."

Prof. Renvers, who is the best German authority on kidney complaints, after weeks of attendance upon the Dowager Empress Frederick, has returned to Berlin. The professor took a representative of the Associated Press that there is no immediate danger of his patient's life. "The acute symptoms having disappeared."

LIBERALS MAKE GAINS.
London, Oct. 15.—The only elections received Saturday night are those from the Liberal party. The Liberal party have thus far elected 395 of their candidates, while the opposition have elected 258. The gains and losses now exactly balance, making the respective strength of the Liberal and Conservative parties the same. The result is not likely to be materially changed by the returns from the baker's dozen of constituencies still unknown.

New regulations are now in force in London. The most interesting result Saturday was at Newmarket, where Col. Harry Macdonald (the well-known sportsman and former owner of the fine steam yacht Grindal), who is fighting in South Africa, defeated Mr. Chas. Day Rose, who was at one time a prospective challenger for the America's cup with a yacht to be named the Disappointment. Mr. Rose, who is in South Africa, killed during the war.

ELECTIONS VIRTUALLY COMPLETE.
The elections are virtually completed. Seven took place Saturday, and as many occur this week. The government is in a position to retain the immense majority which it had at the time of dissolution. The most that the Liberals can say is that "khaki enthusiasm" has not increased materially the majority, and that it falls short of the majority at the last general elections. Ireland has gone strong Nationalist, and Welsh Liberalism has gained ground, but England and Scotland have demonstrated by increased Conservative majorities their sympathy with the Imperialist policies. The United Kingdom, at the close of the most important campaign since Waterloo, has taken a broad rather than a narrow view of national obligations.

A good deal of fresh blood in the new parliament. Mr. Winston Spencer Churchill is the only young man with promise of potency of a great career, and he is in a fair way to be spoiled by flattery.

LEOPOLD INCOG.
Paris, Oct. 15.—King Leopold of Belgium has arrived in Paris to visit the exposition; but, to the disappointment of the Parisians, he will remain incognito during his 10 days' stay, except on one day, when he will officially visit President Loubet, and will attend a reception to be given at the Elysee Palace in his honor the same evening.

The king is living at the hotel instead of taking up quarters in the sumptuous mansion in the Bois de Boulogne, which was specially fitted out, at a great expense, for the accommodation of royal visitors to the exposition, and which has been practically empty ever since.

CABLE NOTES.
The Chilean cabinet has resigned, and the crisis is now regarded as serious. One hundred and thirteen new cases of yellow fever have been officially reported in Havana, since Oct. 1.

Key regulations are now in force in London. The most interesting result Saturday was at Newmarket, where Col. INDEMNITY FOR MURDERED MEN.
Washington, Oct. 15.—The president will recommend to congress the payment of an indemnity to the families of the four Italians killed by a mob at Taliahu, about two years ago. No body was brought to justice, and the United States government found itself bound to make some sort of reparation in answer to the Italian government's representations.

Official statistics show a further decrease in the Berlin death rate, which is now but 29 per 1,000, and that the number of children is 50,000, which, if there had been a normal birth rate for Prussia, would be 700,000. The papers draw parallels with the French conditions in this respect.

TWINS WED SISTERS

Double Marriage of a Very Unusual Kind.

Chicago, Oct. 15.—Down in the little town of Carlinville, in the southern part of Illinois, there is mourning in the ranks of the marriageable young women, and the villagers are all agog over the wedding in Chicago of two of the youngest young men of the town, the Paul twins.

Albert and Fred Paul pleaded business as a reason, and hurried to this city a few days ago, but wedding bells were linked with buying of fall stock for their stores. Albert took for his bride Miss Adelaide M. Link, and Fred married Miss Helena Link. The wives are sisters, aged 24 and 21 years respectively, and the double union marks the culmination link in a pretty romance of few months' duration.

Linked with the marriage of Albert comes the rumor from his home town that he had been picked out by go-sips as the future husband of a beautiful daughter of Carlinville, and the breaking of ground for a handsome residence this fall added fuel to the rumor. But the go-sips reckoned without their host, for Albert had quite another person in view as the bride of his heart. The two couples are on a short honeymoon, and will return soon to make their home in Carlinville.

Division court sittings will be held at the following places on the dates named: Harrow, Monday, Oct. 15; Kingsville, Tuesday, 16th; Leamington, Wednesday, 17th; Comber, Thursday, 18th; Belle River, Monday, 22nd; Essex, Tuesday, 23rd; Amherstburg, Wednesday, 24th; Windsor, Thursday 25th; Sandwich, Friday, 26th.

Sam Gee, a Chinaman, who has arrived in Windsor and started work at Charlie Louie's laundry, claims to have been shut up in the British legation in Peking during the recent siege. He exhibits a scar on the right arm, which he says is the result of a wound received during a sortie, but it may have been caused by a hot flatiron.

John Kendall, who died on Thursday night, was a pioneer of Dunwich. The deceased was born in Northamptonshire, England, 65 years ago. He came to this country about 44 years ago, and first settled in Southwold, where the village of Shelden now stands. He married Miss Sarah Randall, of a daughter of Squire Frederick Randall, of Southwold, and they settled on lot A, in concession A, in the township of Dunwich, where he resided continuously till his death. He leaves a widow and eight children, four sons and four daughters. The sons are W. F. Kendall, Dutton; J. L. Kendall, farmer, Dunwich; Charles and George, at home. The daughters are Mrs. W. A. Galbraith, of Dunwich, and Clara Alice and Winnifred at home. Mr. Kendall was a member of the Congregational Church.

The Liberal Leader.

The Liberal party in England facing a general election, was at considerable disadvantage because of the uncertainty as to the leadership; but in Canada, as we go into battle, we have no doubt on that head. The party is loyal to its leader, and cherishes for the name of Laurier an honest pride. The Prime Minister has had four years of managing his party under the responsibility of office, and has come well through the ordeal. The members of the Opposition acknowledge his ability, honorableness and courtesy. Those of them that deal in slander and vituperation have persistently turned their guns on Messrs. Sifton and Tarte, and in that mean business they have overshot the mark. Sir Wilfrid Laurier stands in the view of the world today as the foremost Canadian, a man who receives the sincere homage of the great body of citizens, both English and French. During his reign of office it has been a critical time for the empire—in peace the great jubilee, and in war the South African strife; and in both events he has acquitted himself with skill and tact as a loyal subject of the empire and a prominent servant of the crown.

When it is charged against him in Quebec that he is "too English," and in Ontario that he is "too French," we have a twofold tribute to his impartiality. He at any rate does not speak with two voices in the two provinces. In Quebec, as well as Ontario, he declares that he accepts all the obligations of British citizenship, and that his aim is to promote peace, friendship and brotherhood. This is a worthy object, and one to which an able man, either English or French, might well devote his life, and we feel sure that the people at large would not have the highest position occupied by one who stirs up strife and seeks to set one class against another.

We do not advocate the claims of Sir Wilfrid Laurier because he is of French origin, but because he has entered fully into the life of both English and French, and endeavored in office and in opposition to advance the general interest of the country. Seeing that for years the premiership was held by one of our own race, it seems to us an advantage rather than otherwise, that a French-Canadian should be forthcoming able to occupy that high position, and to exemplify before the world the equality of the two races in the world of politics. Sir Wilfrid Laurier holds this position on his merits, because he is the leader freely chosen and fully accepted by the great Liberal party. Once more, then, we insist, upon the point, that as we go into battle with a good leader, the rank and file should bestir themselves and do their duty, each in his own place.

A Reduction All Round.

Extract from Montreal Gazette reproduced in editorial of Toronto Mail and Empire, Sept. 14, 1900:

"Mr. Fielding announced a reduction in duties of 3½ per cent on the goods of British manufacturers, which, so far as protecting home industries is concerned, is equivalent to a reduction all round."

Now, for the purposes of the campaign, they are saying it is no reduction at all!

"Voting by Mail."

One of the latest proposals is a scheme for "voting by mail." This is advocated by Mr. Edward Stanwood in the current number of the Atlantic Monthly. We agree entirely with his opening statement, but are not quite sure that his proposal is of the nature of a remedy. He says: "Almost all the evils of our political system, almost all the abuses of municipal, state and national governments, are traceable to the neglect of civic duties by those whom—paradoxically, if this assertion be true—we term good citizens." This may not be as true in Canada as it is among our neighbors, but there is a large measure of truth in it. What we need more and more in a free community is that men of good character and good business ability should be willing to devote a portion of their time and strength to the public service, in fact it is here that real patriotism shows itself, and not in mere outward demonstrations of loyalty. We have not as much voting as there is on the other side of the line, seeing that we do not elect judges, governors and senators, and there is not as much room for the action of "bosses." Still all good citizens need to lay to heart these lessons of civic duty. A scheme for making it possible for men to vote without losing much time or exerting much strength has been presented by the writer of the article referred to, not only to the readers of magazines, but also to the Massachusetts general court. It is in brief that there should be the privilege of voting by mail. He points out that there are numerous societies which hold their annual election of officers wholly by mail vote, and without the safeguards which would be added to a legal scheme, he would still keep the right to vote in

person on the polling day for those who preferred that way, but every registered voter would receive a ballot a few days before the polling day which he must return by mail, by messenger or in person. There are some serious objections to this scheme, which the proposer himself recognizes. Here is one, if a man wishes to keep his vote he must still go to the poll in person. Farther, he admits, "there is no doubt that any scheme of voting by mail would augment somewhat the power of bosses and the danger of bribery." Well that is another pretty big objection. It is well, however, to have these things discussed, and measures taken to make the way to the poll as simple and easy as possible, but after all the great thing is the quickening in men of what we may call the civic conscience, that the feeling may be spread more widely which leads men to realize that for good government something more than taxes must be paid; even a little of that earnest intelligent thought and strenuous action which men give their private affairs.

Putting a Stop to the Exodus of Our Young Men—Better Opportunities for Marriage.

For a number of years past it has been the custom for young men, as soon as their education was completed and they had learned their business or trade, to go to the United States to seek their fortunes or better their condition. Very many of Canada's best young men were in this way naturally drawn into the neighboring republic, and many prospered and secured for themselves good positions and happy homes.

There is no doubt that the larger opportunity for success heretofore offered there than at home had much to do with this result, and Canada suffered the loss of some of her best sons, while the United States gained them. While this is true of our young men, it is not so of our young women, and the number of years during which the exodus of young men only has continued has produced the result that we have in Canada more marriageable young women than men.

The happiest and best country to live in is that which has the greatest number of happy homes, that in which there are the largest number of women who feel "his very step has music in it as he comes up the stair." And there can be no doubt of the truth of Peggy's answer to Jenny in "The Gentle Shepherd," when Jenny says, "I never thought a single life a crime," and Peggy replies:

"Nor I. But love, in whispers, lets us ken
That men were made for us, an' we for men."

Prosperity is changing the condition of affairs that has so long existed. Our young men can find as profitable employment at home as in the United States. Their prospects in Canada are now as good, if not better, and Canada is likely to remain so for many years to come. So long as its population is increasing and its resources developing there will be ample scope for the talent of our young men. The benefit is not theirs alone, but that of their wives and children, as Peggy, in the poem quoted, says:

"But we'll grow auld together, and
ne'er find
The loss of youth, when love grows on the mind.
Bairns and their bairns make sure a
firmer tie
Than aught in love the like of us can
say.
See you two elms that grow up side
by side,
Suppose them, some years syne, bride-
groom and bride,
Nearer and nearer like year they've
prest,
Till wide their spreading branches are
increased,
And in their mixture now are fully
blest:
This shields the other from the east-
lin's blast,
That, in return, defends it free the
west.
So as stand single (a state sae liked
by you),
Beneath ilk storm frae every air main
bow."

Canada is to be congratulated upon the turn of the tide. It will keep our best citizens at home. The increased number of marriages that are taking place, and that will more and more take place, are happy events, not only for the present, but an increasing happiness for the future. Not the least among the many benefits, therefore, conferred on Canada by the Laurier Administration, will be the equalizing of our marriageable population of young men and young

women. Nowhere will the name of Laurier be more revered than in those homes made possible by the success of his Administration in bringing to Canada their full share of prosperity which enables its young men to remain at home, and to induce those who left us again to find a home beneath the British flag.

The Two Tariffs.

The Conservatives frequently claim that the Reformers stole the tariff of the National Policy.

Sir Wilfrid Laurier has shown that the Reformers never claimed that they could get on without a tariff, and that while he was a free trader in principle, it might take fifty years in Canada to reach an ideal tariff, if it could ever be done.

As soon as the Reform party came into power it was necessary to readjust the tariff. The tariff, as the Conservatives left it, had to be considered. They had to

"Take it up tenderly,
Lift it with care."

but it was fashioned so slenderly, loose and unfair, that it would not meet the requirements of the country. All the experience and judgment of those charged with its amendment, all the suggestions they could obtain from every source, were used; and their best judgment applied, not with the object of protection in view, but on the lines of stability and prosperity along those lines likely to need the fewest alterations, so that there would be safety for the investment of capital and an opportunity to expand as the country's needs required.

How well they succeeded, both manufacturers and workmen can testify at the polls. If they vote as they feel, the majority must be decisive.

Have Rendered Magnificent Service.

"While not subscribing to their policy in its entirety, I believe the Laurier Government have rendered the country magnificent service, and should undoubtedly be returned; and I have confidence that, with the experience gained during the present term, they will be prepared to administer the affairs of state in a thoroughly satisfactory manner. I shall, therefore, support the Government.—Mr. W. E. H. Massey, Toronto.

There were only 712 men employed in the piano-making trade in Toronto in 1895; today there are 1,201, an increase of 68 per cent. This is another evidence of the country's prosperity under the new order of things.

Their Justice Is Late.

[Toronto Star.]

There is a great deal of praise for Alexander Mackenzie appearing in some of the Conservative papers at the present time, and some of it is in connection with the contest in East York, the constituency represented at the time of his death by the Liberal leader. The men who fought him in his last campaign and the newspapers that used all their influence vainly to defeat him, are now praising him. It may not be inappropriate to compare their course with that of a lady in a story told by Ambrose Bierce in another connection.

A medieval princess went in tears to the village notary (who has mastered the mystery of writing) and asked him to compose a tender and passionate eulogium on her dead lover, the noblest of men.

"Certainly, madam," assented the scrivener, pocketing his fee. "Of what did his excellency die?"

"I stabbed him fifty times," she said.

Mackenzie and the Tariff.

[Hamilton Times.]

When Hon. Alexander Mackenzie was in office the duty on implements was 17½ per cent, and the principal materials, such as iron and coal, used in the manufacture of implements, were on the free list. The net protection enjoyed by the implement industry was greater than that it is today, with the duty on implements at 20 per cent, and taxes on coal, iron, etc. But Mr. Mackenzie was not called a protectionist. On the other hand, he was denounced by the Tories as a free trader. The singling out of a particular industry for unfair discrimination, because the principal men engaged in that industry happen to be Liberals, betrays the presence of a spirit of vindictive Toryism in "the man with the nose" which will not add to his own popularity nor to the popularity of the Tupper-Macdonald party of opportunists.

TUPPER, HAGGART, CARON, MONTAGUE, BOWELL, CANNOT BE GOT RID OF.

[Montreal Star, July 21, 1897.]

There are some gentlemen prominent in the Conservative party who can do the party and the country a great service—by retiring into private life. Never did a political party so much need, never did a political party so much need, a beating as the Conservative party deserved and needed one at the time of the last Federal election. The Conservatives were distrustful of each other, disloyal to their leaders, and among them were men who were quite right to distrust each other. Before long there must be a great reconstruction of the Conservative party, and the exigencies of the situation may as well be recognized at once. Some of the old leaders can never be leaders again, and now is the time to get rid of them. If the Conservative party is to command the respect and confidence of the country it must have leaders worthy of respect and confidence. The Conservative party need be in no hurry for office, the cold shades of Opposition are having an excellent tonic effect; but some day, and perhaps when least expected, the country will need the old party's services, and need them badly, and it is important that by that time the party should be purified and reorganized. The reconstruction may involve not only the getting rid of some of the old leaders, but the selection of new ones, and it must be borne in mind that there are no Conservative provincial premiers available, so that there is no danger of Sir Wilfrid's blunder being repeated by Sir Charles. There are, however, plenty of men of character, principle and ability available, and the sooner their leadership is recognized the better for the party and for the country.

At Peking

Dr. Morrison Tells of Events That Led Up to the Siege.

German Government Satisfied With the Relations Between Its Forces and Those of Russia in China.

London, Oct. 13.—The Times publishes today Dr. Morrison's mail accounts of the events that led up to the siege of Peking. He says that the Boxers only became important after the German occupation of Kiao Chou. The Chinese were ascribing the disastrous drought and famine, with other troubles, to the judgment of heaven, for the usurpation of the empress dowager. She seized upon the Boxer movements, according to Dr. Morrison, as a means of diverting popular wrath from herself to the foreigners, and appointed Yu Hsien, founder of the Boxer sect, to be governor of Shan Tung, in March, 1899. Thus, under imperial protection, the Boxers preached the doctrine that it was the foreigners and not the empress dowager who had aroused the wrath of the gods.

"As if in answer to the Boxers came the anti-foreign outrages," continues the correspondent, "culminating in the destruction of the railway station at Feng Tai. The long-awaited rains came on May 28, and were regarded as a sign of the direct sanction of higher powers to the work of the Boxers.

FROM BAD TO WORSE.

"Three days later extra foreign guards for the legations arrived. The Boxers became increasingly audacious; and things went from bad to worse, until the legations were ordered to quit Peking, and Baron Von Ketteler was killed. There is not the shadow of doubt that his murder was deliberate-

ly planned by the authorities, and executed by an officer repentant in the uniform of the imperial troops."

Dr. Morrison highly praises the fearless courage of Dr. Ament, the American missionary, who, when Mr. Conger was obliged to decline the request for an escort for the Tung Chow missionaries, undertook the journey alone.

HEROISM.

"It was an act of courage and devotion," he says, "that seemed to us who knew the country, a deed of heroism."

"On the arrival of the Tung Chow missionaries at Peking they held a conference, and sent an appeal by cable to President McKinley on June 8, over the head of Mr. Conger.

"It would be interesting to know," says Dr. Morrison, "whether this ever reached Washington."

SUITS GERMAN.

New York, Oct. 13.—A Herald dispatch from Berlin says: The German Government is very well satisfied with the excellent relations between the German and Russian forces in China. On the other hand, the English reports of a rebellion in South China are discredited at Berlin as merely for the object of provoking English occupation.

Paris, Oct. 13.—A trustworthy cable dispatch from Shanghai says that Gen. Liu, the chief of the Black Flags, has left Canton at the head of a considerable force, and that he will traverse the Province of Hu Nan, try to cross the Yangtze at Oua, and then, traversing the Province of Hu Nan, join the empress at Sian Fu, capital of the Province of Shou Si, for the purpose of acting as her bodyguard. The dispatch adds, it is believed, that the dowager empress will arrive at Sian Fu about Oct. 20.

DOINGS OF THE DIPLOMATS.

Berlin, Oct. 13.—A dispatch received here from Tien Tsin, dated Oct. 12, says:

"At a conference of the diplomatists at Peking, Oct. 8, the German note of Oct. 1 was discussed. In regard to the first point whether the list of ringleaders and accomplices of the Boxers are contained in the Chinese Emper-

or's edict was completed, the conference declared that the name of the chief culprit, Yung Fuh Sian and Yu Hsien, had been omitted.

"On point two, it was decided that the punishment was inadequate."

"On point three, it was concluded that the penalties must be carried into effect by delegates of the legations."
