## Capt. Midford Advises Londoners Against Going in for Filtration

Board of Education Will Be Says There Is Plenty of Spring nature of Canadian soil, and the opinion of such men was of infinitely more Water in This Vicinity for All Purposes.

The fall term is the beginning of Capt. A. G. Midford, an expert enginthe school year and many changes in tion, who for many years was in the personnel of the teaching staffs charge of the Havana, Cuba, waterworks, is an out-and-out advocate of There will be many transfers and spring water. He, moreover, declares applications to be received and considered, and the board of education on a filtration plant when there is will have considerable work to do at enough of the very best spring water at Springbank to supply London and a There are many vacancies to fill, half dozen cities of the same size for with plenty of the best water every-

value than the so-called American ex-

"There is enough of the finest spring water at Springbank to last this city and a half-dozen like it for many years," he said. "Why London is situated in one of the finest watersheds in this country if the people only knew it. I could sink a well right in the center of Richmond street and get water. It is all about you. Anybody who has been at Springbank, and studied the question closely will come Many People Compelled to Hand on by their eyebrows," one railroad studied the question closely will come to the same opinion.

Give Canadians a Chance

"But you Canadians run after Yankee engineers, and what they tell you many, many years to come. London is taken for gospel. Why don't you is in the midst of a natural watershed, give some Canadian a chance. There are just as many clever engineers in for calling in American specialists adian engineers are the best, if one is when there were in Canada many en- to believe the history of engineering in gineers who had given the water America. Gov't. of the Dominion of Canada

TERMS OF COMPETITION: 1. It is intended that the Memorial shall take the form of portrait statues of Sir Louis H. Lafontaine and the Hon. Robert Baldwin. These may be designed as sep-

Baldwin. These may be designed as separate statues or in a group, as each competitor may decide. Competitors may submit more than one model.

2. The Memorial, whether in a group or in separate statues, is not, when c\_mpleted and in position, to cost more than twenty thousand dollars, including pedes tal from the level of the ground. FOR SALE OR RENT—143 ACRES IN EAST Wilkiams, Middlesex County. For particulars address James M. Waters, Fernhill. Ont.

26a

430 RIDOUT STREET—THREE-STORY solid brick house, slate roof, ten rooms: five minutes' walk from postoffice or market. Price reasonable.

26n

TWENTY-FIVE ACRES OR MORE GOOD land; good buildings: near city. 428 Dufferin.

26n

Wenty thousand dollars, including pedes tal from the level of the ground.

3. The competition is open only to artists resident in Canada, and artists of Canadian birth residing elsewhere.

4. The site will be at a point in the grounds of the Parliament buildings at Ottawa, to be hereafter dec'ded.

5. Designs shall be in the form of sketchmodels, in plaster, made at a uniform scale of one and one-half inches to the foot. A description of the design shall accompany each model. No name, motto or other distinctive device is to be attached to the models or description. The competitor shall send his name in a sealed envelope without distinctive mark there-

6. The models and all communications regarding this matter shall be addressed

Advisory Art Council.

Care Department of Public Works

## SUICIDE AT BLYTH

in a Cooper Shop.

Blyth, Aug. 23.-Wm. King committed suicide today by hanging. Arch. Tunney, when he went to the

The coroner was notified and decided that no inquest was necessary. King left here on Tuesday for Goderich and came back on Wednesday. On Thursday he went to Guelph and on returning in the evening went to Livingstone's electric light plant, where he stayed with Mr. John Nivins the engineer, till the lights were put out. They parted at the road, King stating that he was going home. Instead he evidently went to the cooper shop and took his life. No reason can

be given for the deed. He leaves a wife and two daughters

CONDON, SATURDAY AUGUST 24 THROWING UP THE TARIFF

### SPONGE.

The most significant item in Mr. Borden's programme is a negative one-that dealing with the tariff. It has abandoned the agitation for fiscal policy on the lines of the United States tariff. It means, too, that the tariff has been virtually taken out of politics.

The first Fielding tariff was received by the Opposition with lugubrious prophecies. Sir Charles Tupper, in a memorable speech, predicted the collapse of the whole range of Canadian mechanical industry. The access of prosperity so completely stultified the prophets of evil, and the British preference proved so popular, that the fiscal issue was not raised in the election of 1900, the Opposition finding its campaign materfal in Mr. Tarte, and the Boer war. In the general election of 1904 the overshadowing issue was the Grand Trunk Pacific contract, and the tariff was again almost ignored by the Conservative party. Soon afterwards the fiscal question was forced upon public attention, not by parliament or any party, but by a non-political organization, the Canadian Manufac turers' Association. The executive of that very powerful body set on foot a well-organized movement to inthe contemplated revision of the tariff. The propaganda was vigorously use the sentiment in favor of imperial preferential trade as a makeweight.

effect of stirring up the forces opposed to a high tariff, and these made themselves felt. The Liberal press declared almost unanimously against Canadian Dingleyism, and many representatives of the farming commun-1ty laid similar views before the tariff commission. Then came Mr. Fielding's budget in the autumn of the Liberals. 1906, which proved to be a defeat for the high-tariff movement. The duties were changed, but on the who', there was no upward tendency. No general tariff revision was ever accomplished with so little criticism, and scarcely a syllable of protest is now heard, even from the high turers' Association has apparently abandoned the agitation, for the present at least, and Mr. Borden has of the Conservative programme.

#### SOLVING THE ICE PROBLEM.

The question of the city's ice supply threatens to become a serious one for the citizens of London. The local health authorities have condemned the greater part of the river, river filtration advocates call a series of springs, as a source of ice for domestic use, and icemen have been put to their wits' end to procure In the winter what they require to store for their customers' use in the

The individual in question, who of night?" Is head chemist for a paper company at Rhineland, Wis., has invented a compound called di-nitro-cellulose, which he says reads the end of the ice trouble of every householder. So con-Adent are the promoters of the compound of its success that arrangements are being made to erect in Milwaukee, In the near future, a large ice machine, while ice bricks, coated with the preparation, which will keep an indefinite length of time, will be distributed at the State Fair next month. It is from the waste product of "blow off" from the paper mill that the compound is nade, and the cost of manufacture is blaced at about 47 cents per 100 galons. The compound, it is said, has he quality of preserving ice indefintely in any ordinary temperature. By passing through a chamber containng lime, pieces of ice of any shape size are dehydrated or rendered free om moisture. They are then dipped into the solution of di-nitro-cellulose. and take on a coating which will prevent melting until the consumer removes the covering.

The claim is made that the compound affected by neither heat, water nor giving lessons on the dog, and electricity. One man is said to have preserved ice piled up in his backyard preserved ice piled up in his backyard ed every prospect of the class distinand on his pantry shelves at home in guishing itself on brilliant essays Canadian club would catch him and or farms in Ecuador, with a total of 4: Watson, 5:20; Rosemount, Hamilsey match at the Toronto rifle ranges, or farms in Ecuador, with a total of 4: Watson, 5:20; Rosemount, Hamilsey match at the Toronto rifle ranges, or farms in Ecuador, with a total of 4: Watson, 5:20; Rosemount, Hamilsey match at the Toronto rifle ranges, or farms in Ecuador, with a total of 4: Watson, 5:20; Rosemount, Hamilsey match at the Toronto rifle ranges, or farms in Ecuador, with a total of 4: Watson, 5:20; Rosemount, Hamilsey match at the Toronto rifle ranges, or farms in Ecuador, with a total of 5.20 control or farms in Ecuador, with a total of 5.20 control or farms in Ecuador, with a total of 5.20 control or farms in Ecuador, with a total of 5.20 control or farms in Ecuador, with a total of 5.20 control or farms in Ecuador, with a total of 5.20 control or farms in Ecuador, with a total of 5.20 control or farms in Ecuador, with a total of 5.20 control or farms in Ecuador, with a total of 5.20 control or farms in Ecuador, with a total of 5.20 control or farms in Ecuador, with a total of 5.20 control or farms in Ecuador or farms in Ecua the form of bricks, while an enter- about our canine friends.

which town is said to be considering the question of a municipal ice plant, the promoters guaranteeing to save ice consumers 66% per cent—is selling tenpound bricks for two cents each as a novelty. LOBO.

Lobo, Aug. 23.-The Chosen Friends Tennis League of this town, held their And met a mayde who prynked about first annual outing to Springbank Wednesday afternoon. A score or more of this enthusiastic club made merry at the club's initial picnic. Several lively and interesting sets of singles and doubles were played off during the afternoon. After a sumptuous luncheon, provided by the fair ones, the party enjoyed an hour's rowing and then adjourned to the theater. Among those who will leave for the west from this vicinity are Messrs, R. Vennor, Harry and Roy McIntyre, J.

Webb and Walter Campbell. Miss Annie McIntyre, who has been spending her vacation on "the dear old farm," will soon return to her duties in London. Miss Mabel Caverhill, of the Helena

Costume Company, is spending her vacation at her home on the fifth concession. Threshing is in full swing and

crop returns are splendid. Wheat is especially good. WATFORD.

#### Watford, Aug. 23 .- Miss Ethel Gib-

#### THE DANGERS OF COW'S MILK

The whole country is awakened to the grave danger lurking in the Milk Supply of our large cities. Wherever milk is used that has not been properly safeguarded from cow to the consumer, the infant mortality will always be high. After five years' investigation, the British Royal Commission on Tuberculosis confirms the theory of von Behring, that the tuberculosis of cows is a constant menace to the human race, and that consumption developed in later life has often been contracted in infancy, from tuberculous milk.

require the addition of milk in preparing it for use, as it is a complete diet in itself. The basis of Nestle's Food is cow's milk, so treated and modified that it will be easily digested, and will resemble mother's milk in its composition, as closely as possible. The milk supplied to the Nestle's Factories is collected under the most rigid precautions, from cows that are under the constant supervision of the Company's Veterinarians. Furthermore, the process of manufacture completely sterilizes the milk. This is fully set forth in our pamphlet, "Recent Work in Infant Feeding." A copy of this, with samples of "Nestle's Food," we will be glad to

Today I have a fine zest for as "haunting"; I should hear nothing, I felt quite guilty, as if I too had done my meals. I feel as strong and healthy as the night went on, because there my meals. I feel as strong and nealthy as the night went on, because there as a young boy. Because they are so cleansing and so tonic in their effect on the behave like a foolish, frightened think Dr. Hamilton's Pills should be nothing to hear, and I must not behave like a foolish, frightened child—I, who had serious troubles, and should have passed by yound such sickly superstition.

ental injunctions I repeated over and over, with more or less enover and over, with more or less en-couraging results. Still, I did not lock the door of my sitting-room, which led into the bassage; nor did I think that, later, I should lock the door of the bedroom beyond. Though I had decided that there would be nothing supernatural to hear, should there be, I must certainly die a most dreadful death of sheer terror if I had to stop and fumble with keys and bolts before escaping into the passage to call for

I disliked Mrs. Walsh, but was not had men sorry to remember that she tioned occupying a room in the same wing with me. She would be awful to look upon in night attire without the red false front; but she would be beautiful indeed compared to a ghostv visitant.

Leaving the door at last merely latched, I busied myself in putting away the few poor little possessions which Mr. Thomas Nye had carried in my bag from the cottage to the hall. Later I found a few novels placed for my benefit, perhaps, on the shelves of a glass-fronted bookcase in the sitting-room. I was in no mood for light reading, but it was better to read than to think, and I did read until very late.

I am ashamed to say that the gas burned dimly in my bedroom during all that night, and I was thankful, through troubled wakings and snatches of fitful slumber, that it was gas, and not candle to flicker out while darkness still curtained the world.

But morning stole under my window blinds at length, and there had been no sound in the rooms save those of my own restless tossing and turning, no horrors save those conjured up by my imagination. I rose before eight, feeling weary and fagged, with a wiry A headache that picked at the nerves in my temples like fingers at the strings of a banjo. After my bath I grew more alive however, and pride kent me from complaining to Mrs. Walsh ple modeled upon lines at once so simwhen she brought me a boiled egg. with tea and toast.

One ounce Fluid Extract Dandelion; One ounce Compound Salatone; Four ounces Compound Syrup Sarsaparilla;

Mixed and taken in teaspoonful doses after each meal and at bedtime, is pronounced by a prominent physician to be the best mixture for the cure of the kidney, bladder, and all urinary troubles.

This says the doctor, is the most simple though remarkable prescription ever written to cleanse the system of impurities and waste matter. It acts as a powerful tonic to the kidneys, forcing them to filter out the acids and poisons, overcom-ing rheumatism, lame back, sciatica and other afflictions arising from sour, impure blood.

The ingredients can be procured at any good drug store, and being purely vegetable and entirely harmless, can casily be mixed at home.

If you have a suffering friend show this to him, as he will undoubtedly be pleased to learn of so simple and highly recommended a remedy.

Made to order any size or shape, from \$2 up. Colored sketches submitted.

74 Fullarton Street. ST. GEORGE.

# U. S. TREASURY TO THE RESCUE TO OLD MAIL THIEF

Government Deposits Help to George Bell, Arrested Three Public Opinion Undergoes Re-Tide Over Stringency During Crop Movement.

New York, Aug. 23.—Secretary of the United States Treasury Cortelyou announced today a new plan of depositing Government funds in New York, Boston and other cities, to afford relief to the money market in the approaching crop-moving period. Secretary Cortelyou will, commencing next the Chicago, Burlington and Quincy Rail. rested on a charge of blackmail in conweek, place each week at such points road, between Denver and Oxford, Neb., nection with a letter he is alleged to in the country as he shall designate Government funds to such amount as he deems sufficient to prevent an acute office inspectors of Kansas City, Omaha ed at Mannheim this morning with monetary stringency and possible panic, when the demand for money is greatest at the height of the cropmoving period.

The plan of the secretary for monetary relief is new to the financial world and one which he believes will prove more efficacious than the o'd method of the treasury department in waiting until the country was severely shaken financially and then coming to the relief at the last moment by placing a large deposit of Government funds in New York banks.

Secretary Cortelyou did not state how much money he would deposit each week, though he indicated that the amount would equal the situation. The plan for financial relief was made known today in the following offi. cial statement to the Associated

"Secretary Cortelyou announced today that, beginning with next week, the treasury department will make each week for a period of not less than five weeks deposits in National banks at New York, Boston and other points, the security required to be approved state, municipal and railroad bonds acceptable under the existing requirements of the department, with the understanding that if called for such deposits shall be returned after Jan. 1 next. Installments to be fixed by

the secretary of the treasury. This action is taken to meet commercial needs of the country at this season, and is believed to be preferable to waiting until a time of acute stringency, when the only alternative would be a large general deposit. The latter policy the secretary desires to supersede by one which shall have as its ultimate object the adjustment of the operations of the treasury department as rapidly as may be practicable under existing law, in such manner as shall preclude there being in any sense had been referred to the postoffice inspec-

# U. S. TREASURY

Government Deposits Help to Tide Over Stringency During Crop Movement.

New York, Aug. 23.-Secretary of the United States Treasury Cortelyou announced today a new plan of depositing Government funds in New York, Boston and other cities, to afford retief to the money market in the approaching crop-moving period. Secretary Cortelyou will, commencing next week, place each week at such points in the country as he shall designate Government funds to such amount as he deems sufficient to prevent an acute monetary stringency and possible panic, when the demand for money is greatest at the height of the cropmoving period.

The plan of the secretary for monetary relief is new to the financial world and one which he believes will prove more efficacious than the o'd method of the treasury department in waiting until the country was severely shaken financially and then coming to the relief at the last moment by placing a large deposit of Government funds in New York banks.

Secretary Cortelyou did not state how much money he would deposit each week, though he indicated that the amount would equal the situation. The plan for financial relief was made known today in the following offl. cial statement to the Associated

"Secretary Cortelyou announced today that, beginning with next week, the treasury department will make each week for a period of not less than five weeks deposits in National banks at New York, Boston and other points, the security required to be approved state, municipal and railroad bonds acceptable under the existing requirements of the department, with the understanding that if called for such deposits shall be returned after Jan. 1 next. Installments to be fixed by

the secretary of the treasury. This action is taken to meet commercial needs of the country at this season, and is believed to be preferable to waiting until a time of acute officials during the day confirm the report that there was nearly \$250,000 in the two would be a large general deposit. The latter policy the secretary desires to supersede by one which shall have as and Chicago banks. its ultimate object the adjustment of the operations of the treasury depart- the sixth division of the railway mail ser- sometimes too filthy for use. ment as rapidly as may be practicable under existing law, in such manner as shall preclude there being in any sense a disturbing factor in the business

# NEW CRIME LAID TO THE RESCUE TO OLD MAIL THIEF

George Bell, Arrested Three Public Opinion Undergoes Re-Years Ago, Suspected of C., B. and Q. Robbery.

Chicago, Aug. 23.—George Bell, who was arrested three years ago for the theft of a registered mail pouch at Denver, Col., and escaped on two occasions from the postoffice inspectors, is credited by the government secret service agents with being the man who engineered the theft of the mail pouches said to contain \$250,000 on the Chicago, Burlington and Quincy Railroad, between Denver and Oxford, Neb., last Friday night.

Scores of secret service agents and postoffice inspectors of Kansas City, Omaha ed at Mannheim this morning with and Denver are on the hunt for Bell, who Fraulein Molitor, who emphatically dewas last seen in Omaha some time ago. He is reputed to be the cleverest mail pouch robber that ever had a bout with the government officers. The inspectors on the case are acting on the theory that Bell through the Omaha office is being exam-

The possibility that the mail thief has confederates in Chicago, to whom he ship-ped the money last Saturday from Akron, Col., was raised during the day. The postoffice department in Chicago, however, has not received any advices concerning the he western agents.

The report that a certain Chicago gambler and crook had received a package from the west on Monday, and that the officers were waiting only for more evidence to arrest the man, was denied positively. All that is known is that a package wrapped in a newspaper, tied with strong twine, and larger than a shoe box, was put in the mails a short distance east ginning. of Denver, and addressed either to Chicago

Chief Postoffice Inspector Thompson, in Omaha, expressed the belief that Bell was the thief, and said he expected to have him under arrest before many days passed. Bell's escape from the inspectors after the Denver robbery was sensational and daring. He was being taken to Philadelphia. As the train was entering the Philadelphia yards Bell went into the toilet room and

jumped from the window. was followed to Seattle, was recan tured, but escaped again. After this he ence to the water question. Having was traced to Omaha. His wife, who lived lived beside the upper part of the away from the city, and neither she nor her husband has been seen since.

Additional advices received by the local mail pouches taken, and that a large part

vice, with headquarters in Chicago, said "We know that two pouches were remov-

LUCKY SHIFT OF WIND

Conflagration.

Cincinnati, Aug. 23.-A shift of the wind aided the firemen in their heroic of fifty years, six or twelve months efforts to overcome the fire that started in the Eagle White Lead Company's plant last night. Five hours after the flames were discovered the from their homes, and leaving waste the Kabyles of Northern Africa the everything on the irregular block SUFFER NO MORE.—There are thousands who live miserable lives because dyspensia dulls the faculties and shadows existence with the cloud of depression. One way to dispel the vapors that beset the victims of this disorder is to order them a course of Parmelee's Vegetable Pills, which are among the best vegetable pills known, being easy to take and are most efficacious in their action. A trial of them will prove this bounded by Broadway, East Court service, and adding to the loss by the

# MURDERER MAY GET NEW TRIAL

vulsion in Favor of Dr. Hau.

Berlin, Aug. 23.—Public opinion in Baden-Baden has undergone a revulsion in favor of Er. Hau, sentenced to death for the murder of his motherin-law, Frau Molitor, who was lured from her villa by a telephone call.

Baron Lindenau, who has been arrested on a charge of blackmail in connection with a letter he is alleged to have written saying that Fraulein Oiga Molitor shot her mother, was confrontnied ever having seen him. The baron stood to his statement that she fired the shot, which she as firmly denied.

The crown counsel absolutely refuse will try to send the money east through to believe that she was in any way im-the mails, and every package that comes plicated, and insist that Baron Lindenau was not in Baden-Baden on the day of the murder. Three witnesses, on the other hand, affirm that they saw him there that day, and almost at the spot where the murder took place.

His word as a witness is considered to carry little weight Although a robbery beyond the bare report, and no nobleman, he now earns a precarious request for aid in this city has come from existence by means of a licensed marriage bureau at Mannheim. He became bankrupt some years ago as the result of house speculation. Although 64 years old, in his letter he proclaimed his attachment to Fraulein

His trial, it seems, will undoubtedly reopen the Hau case from the be-

## Advertiser Correspondence

Spring Water - or River Water which?

To the Editor of The Advertiser: In conversation with a ratepayer of your city a few days since I was requested to write your paper in referhere at that time, was shadowed by the Thames for several years, the friend colice for two months, but she finally got said that information of the Thames said that information of the Thames

would be valued by the ratepayers. The Thames rises between Monkton and Bornholme; about six miles above Mitchell, and one mile east of Bornholme. The river is from six to nine of it was in money consigned to Omaha feet wide in the summer and the cattle walk up and down the stream at their Assistant Superintendent Vandervoort, of will. The water is almost stagnate and

that his department had received news of Mitchell there are several large spring the robbery, but that the work on the case had been referred to the postoffice inspectors in Denver, and that no help had been in these six miles, yet, for several sked of the Chicago department so far. | months in the summer a half mile below Mitchell, the people walk over the Emboldened by the announcement of ed from the train," said Mr. Vandervoort river on a few stones. Most of the One was addressed to the Chicago post- spring streams have been absorbed by

tacked the market in the late session today and prices receded all through the active list.

Torwarding. The postoince pouch is supposed to contain a large amount of currency and cash remittances to Chicago banks, but of this we know nothing positive list. The principal points of weakness tive yet. It is merely guesswork to say distance. Yet at Fullarton it is difficult anything about the contents of the pack-Acting Postoffice Inspector Kimball, who at the village, I could not tell that the Last week as I drove over the bridge has charge of the office in the absence of water was running. Most of the spring the Chief Inspector Stuart, said that the de-water had passed into the gravel as water had passed into the gravel as

that at present there did not appear to be anything for the Chicago inspectors to do.

NO WARRANTS ISSUED

If we followed the river down to Motherwell, four miles, there are several more large creeks running all the year into the Thames, yet it is difficult to call it a river at Motherwell in dry seasons

Still following the stream down to St. Marys, there are many large streams with the River Avon flowing into the Thames, yet after following thirty Portland, Ore., Aug. 23.—Outspoken miles, you wonder where all the spring indignation among many of the 14,000 water has gone. There is but one andepositors of the Oregon Trust and swer-most of it has been absorbed

> If a half dozen businessmen of Lonsummer seasons.

Komoka water-There is a gravel the preparation of complaints by the bed running through a greater part of district attorney. A mass meeting of depositors has been called to devise most likely for fifty miles north, and after twenty miles runs from east to west. Under the gravel there is a clay bed. The water from springs and rivers north of London is filtered and is equal to any water in the province

This gravel bed is cut by the River Thames as it flows west from London, especially between Kilworth and Komoka and the springs are formed by the depth of the river. But for this deep cutting the water would flow on south through the gravel bed. The sources of the springs are the same as ard will continue to be the same.

If an earthquake should come and break up the clay bed for twenty miles north of Lobo then the water would be diverted from its present course and the springs would be disturbed or changed. London might be disturbed if such an event should come to pass. If there should be in the future periods constant rain, the springs might be affected. But such events are not very likely to come and need not be antici-

pated. Let me say I have no springs to sell. and my taxes will not be affected by whichever way the vote shall go. I am writing purely to lead others to investigate for themselves. R. M.

KILLS WIFE AND SELF.

New York, Aug. 23. - Taking aim over the sleeping form of his daughter Margaret, 4 years old, Bernard Delaney last night shot and mortally wounded his wife as she lay asleep in bed. He then shot and killed himself. The screams of little Margaret awakened Timothy Delaney, a brother of the dead man, who slept in a room near by. He called an ambulance from the Flower Hospital and Mrs. Delaney janitor at the Sixty-ninth Regiment armory. He had been drinking heavily since the 4th of July and had acted queerly of late.

## First Twilight Meet Brings Out Good Men

Y. M. C. A. Games at Queen's Park Are Highly Useful

That athletics could be boomed in this city if the proper encouragement were given was amply evinced last evening when perhaps twenty athletes and over a hundred spectators turned out to the first of the twilight meets inaugurated by the local Y. M. C. A. to encourage sports in this city.

Many of the boys who were on hand were novices and although the handicaps were not adjusted as evenly as they will be later the sport was very

F. D. McLachlan in the shot-put was the dark horse of the evening and won The sterling Y. M. C. A. athlete, who the event handily with an actual put

senith, the scarcity of fast trotting swiftly and effectively such a situation. stallions becomes more marked. Among In a democracy improvements of the Evans. is not a single entire horse, the majority being mares, as usual. The usual explanation for the dearth of fast stallions is their greater difficulty to train. and of course the supposition that many were gelded when too young for crowd viewed today's matinee. The ly. their later class to be detected. It is four events brought forth some good better for the interests of the industry racing. It took six heats to decide the to have a scarcity of low-record stal- first race. Esther Green and Laundry lions than to have the country flooded with poor entire animals whose proper sphere is the grocery wagon. It is interesting to note that while on the trotting turf the supremacy of the mares is complete, on the running turf stallions have the call. It is likely that the explanation of this apparent paradox lies in the essential difference of the two gaits, one being natural, and the greater determination and fire of stallions being given free play, and the other being artificial and requiring for its perfect development more docility and subjection to discipline.

The London Times deplores the absence of gentleman riders on the flat, and finds the cause in the present scale of weights which make it impossible for anyo' but a pigmy or a child to ride. Across-country, where the going is heavier and the journey longer the horses are let carry greater weight with the result that the average horseman has a chance. It is a great pity that the situation should be as at present. The type of thoroughbred has altered for the worse in consequence and is growing more weedy year by Green Bird (Tracey) ..... year. Look at the improvement in the trotter in the past fifty years, and give due credit to such men as Doble, Marvin, Mace, Geers, all of them men past middle age when in their prime as Joseph Pana (Moore) ...... horsemen. Compare them with the product of the thoroughbred turf:

## **SENATORS FORCE** TIGERS BACK

Hugh Jennings' Boys Once More Drop Into Third Place.

Detroit, Aug. 24.—Detroit lost because the Tigers played bad ball, and because of Mr. Falkenberg, the rangy Washington pitcher. "Falkey" held them to four scattered hits shutting them out, 3 to 1. Washington owed its victory chiefly to Tiger errors.

They played a game of ball entirely lacking in ginger. Eddie Siever pitched ball that might have won with any kind of support. The Tigers are again in third place.

In four innings they got but one scratch hit off Siever. Then Altizer doubled to center. Smith bunted to One of the old guard of local foot Siever, who threw to third to catch Altizer. Connolly called him out, but when he saw that Coughlin had dropped the ball he reversed his decision. Then Block hit through the box. The ball hit Downs on the foot and bounded back of short for a scratch Chicago .... 9 13 McLachlan (scratch) 1; Brock (5 lin, but Milan walked, filling the bases, Ganley sent a fly to center field and Smith scored.

They got another in the seventh, when Smith grounded to Coughlin and Rossman dropped his perfect throw to Richie and Jacklitsch. Umpires, Emsfirst. Singles by Block, Falkenberg lie and Klem. and Milan scored him.

commercial agencies, which reported marked recessions in general trade or confidence in various parts of the coun-try. The only adverse influences were advices from the leading industrial centers which indicated a further reduction in the demand for metal products. There was also a mirked falling off in bank clearings all over the country, compared with this week last year. Following the opening movement the market grew dull, with general

recessions of about a point,

H. C. Becher, stockbroker, received the following by private wire from Bartlett. Frazier & Carrington, today: New York, Aug. 24.—Non.—Wall street is more to manage its own affairs, and try and make a very bad money situation acomfortable as posisble. Mr. Cortelyou has comfortable as posisble. Mr. Cortelyou has announced a plan that should work out satisfactorily, though we know none of the details as the amount of money that may come to this center, where our bank loans are still some forty million in excess of deposits, against about eighten million in 1906. The reducing of Southern Railroad preferred dividend did not yesterday have a bad effect, but today some rumors were affoat as to the attitude of some large banking interests. They were rumors and nothing else, but New York Central and Fries took fright and developed some liquidation, also Southern Railway going down. The decrease in cash in the bank statement was only about half what was looked for according to the currency movement. To sum up the situation in brief, the investson of Mr. J. F. Sherlock of the Sherlock-Manning Organ Company, and Miss Marie Elizabeth McKernan, daughter of Mrs. Annie McKernan, both of South London, were united in marriage this morning.

The ceremony was performed at the home of the bride, Rev. A. K. Birks officiating. Only immediate

### Now Is The Time To Learn Telegraphy

The present strike of the telegraph operators reveals to the public the excellent opportunities and high wages the profession offers.

The country has been growing so fast, new railroads being built, etc., that it is impossible to supply the demand, and the railroads and commercial companies all over America are crying for operators.

We are therefore able and prepared to place each and every GRADUATE in a position, and GUARANTEE to do so, or refund their money.

During the past six months the following young men have secured their diplomas and have been placed in good salaried positions. HAROLD SNELL, formerly of the McClary Manufacturing Company, enrolled in January and placed with the P. M. Railway in April at \$45 per

GORDON FRANCIS, of the M. C. R. city ticket office, enrolled in January and placed with the G. T. R. in April at \$45 per month.

A. BUTLER and JOHN BUTLER, from England, enrolled in February,

and placed with the C. P. R. in May at \$65 per month.

C. SAMPSON, Hyde Park, enrolled in April, and placed with the G. T. R. at Hyde Park in July at \$45 per month. W. W. DOWNES, Dorchester, enrolled in February, and placed with G.

MISS A. McKEE, MISS AMY HARPER, MR. VERN CAVANAGH, R. N. YATES, G. A. SAUL AND CHARLES FESSENDEN are expected to

graduate Sept. 1. While our terms and time limit is SIX MONTHS, still it is plainly seen that we are able to graduate and place our students in positions in much less time. This fact should appeal to all energetic young men or ladies who are at all desirous of securing a profession for themselves, and avoid the

drudgery of factory or hard laborious work. REMEMBER, we GURANTEE you a position, and our terms of payment are EASY.

The College is open the year round. We can help you. Call, write or

#### LOCAL MARKET.

Saturday, Aug. 24. It was expected by the grocers and other large buyers that the market today would be a slow one on account of the fact that four trainloads of citizens had left on the G. T. R. excursion. Notwithstanding this drawback there was a lively demand for all of the farm produce that was offered. In fact, it was one of the best markets for some time back. Prices as a rule were

Grain—There was a rush for the half-dozen loads of oats marketer. Sales were brisk at \$1 50 and \$1 51 per cwt. One load of new oats sold at the same price as the old oats.

Defraction

Detroit, Aug. 23.—Bean—spot, \$1 55 id; October, \$1 55 nominal; November, \$1 55 nominal.

Hay and Straw—Hay sold at \$14 50 to \$15 50 per ton. There will be a good demand for hay on Monday. Straw sod at

Butter and Eggs—Butter was about 1c a pound higher, as the crocks sold at 20c to 22c per pound, and pound rolls at 22c by the basket lot. Eggs are dull at 16c for cate and 16½ for basket lots.

Vegetables and Roots — Potatees were quite electiful and there was a good decrease.

NEW YORK.

Vegetables and Roots — Potatoes were quite plentiful and there was a good demand at 80c to 90c per bushel. Green corn sold ouick at 10c per dozen wholesale and 12c retail. Peas. 10c to 13c quart. Tematoes, 40c to 50c basket. Cauliflowers, 5c to 15c each or about \$1 per dozen. Onions sold at 20c to 25c per peek. Pickling onions, 10c quart. Cucumbers, 10c to 15c dozen. Small cucumbers, 10c to 15c dozen. Small cucumbers, for pickling, 25c per 100. Cabbages sold at 40c dozen. Elettuce and carrots, 20c dozen.

Fruits—Apples sold at 80c rer bushel for common and \$1 25 to 01 50 for choice Red Astrachans. Crabapples sold at 60c to 80c per bushel. Peaches, 90c to \$1 rer 11-quart basket. Plums, 90c to \$1 rer 11-quart basket. Plums, 90c to \$1 rer 11-quart basket. Plums, 90c to \$1 per pair, dressed: by the pound 10c alive or 12c dressed. Old fowl is in good demand at 8c per pound.

Perth, Aug. 23.—Butter firmer; receipts, 6,328 packages; creamery, 55c; thirds to firsts, 20c to 24c. Cheese hoard unchanged; receipts, 3,496 lookes.

Napanee, Aug. 23.—At the cheese boarded; 11½c received on board for 60 boxes; rest sold on the curb at the same price.

PERTH.

Perth, Aug. 23.—There were 1,500 lookes of cheese boarded here today. 1,200 white and 3.0 colored; all were sold subject to Brockville ruling prices. The usual buyers were present.

Dressed Hogs—Prices for Morday's shipment cheese board today there were 22.

slow at \$5 to \$7 per pair.

Butchers' Meat—Trade was quite brisk at prices that were unchanged.

PRODUCE MARKET.

Toronto, Aug. 24. — Local traders were quoting No. 1 northern, Manitoba, at 98% to 99c, but were not doing any business preferring to wait until the market steadied a little. The advance was somewhat of a puzzle as reasons given for it seemed hardly sufficient to cause such a difference in values. The market is expected to continue very firm, the fear of frost, irrespective of any actual damage, being calculated upon to hold wheat at present level. There was very little trading done either.

Missouri, K. and T. 33% 32% 32% the demands are made by the agents as a body instead of as individuals. The practice of allowing brokers in the cities almost a free hand in invading outside territory is characterized in a Pacific Mail 2 Pacific Mail 32 Pacific Mai There was very little trading done either in wheat or coarser grains. New oats were very firm, but only offered in small quanvery firm, but only offered in small quantities. Prices ranged from 40c to 41c, outside points. Prices are: Ontario wheat, No 2 white, 83c, nominal; new wheat, 81c to 82c outside, and 79c to 80c f. o. b. for export. Manitoba wheat, No. 1 northern, 98½c to 99c; No. 2, 96c to 96½c, lake ports.

Corn—No. 3 yellow, 64½c to 65c; No. 3 mixed, 62½c to 63c.

Rarley—No. 2 nominal at 52c to 53c; No. 3 extra. 51c to 52c.

extra, 51c to 52c.

Oats—No. 2 white, 44½c to 45c outside.

New oats—40c to 41c, Chatham freights:
Manitoba No. 2white, 45c on track at elevator; No. 2 mixed or No. 3 white, 43%c.

Peas—Nominal at 75c for No. 2.

BUSH FIRES ON Toronto, Aug. 2. Morning, Altermont Ask. Bid. Ask. Bid.

> Immense Damage Being Done to Private and Government Limits.

insula and doing great damage to timber limits Thompson Bros near Wingfield Basin, have been heavy losers, their mills, stables and supplies being destroyed. Fires are also raging on the islands between Parry Sound and Midland and several summer residences have been destroyed. The fire rangers are doing their best to halt the flames but the task is a herculean one. Careless campers are responsible for the destruction.

Wiarton, Aug. 23.—Bush fires are raging in the northern part of the pen-

# TORONTO MEN ARE BARRED OUT

The Fire Agents in Ontario Form a Protective Association.

[Special to The Advertiser.] Toronto, Aug. 23.-Another of thos hole-and-corner organizations created for the purpose of "bucking" big centers like Toronto. Hamilton and Ottawa, was given birth today at the King Edward Hotel, when the Ontario Local Fire Agents' Association was perfected, with D. C. Young, of Fort William, as president; O. L. Steel, of Port Colborne, as first-vice president; W. B. Stephens, of Owen Sound, as second vice-president, and Neil Campbell of Arnprior, as secretary-treasurer. The purpose of the association New York, Aug. 23. | urer. The purpose of the association Open. High. Low. Close. | is to better the condition of the agent 67% in the small places and circumscribe the business possibilities of the insurance brokers and agencies in the big centers. A dead set is made on over-112/4 112/4 927/4 93 433/4 433/4 84 84 881/4 885/4 403/4 403/4 1633/4 1633/4 2221/5 2221/5 313/4 313/5 95/6 95/6 18 18

head writing as well as reducing by outside brokers to obtain control of large lines in other agents' territory. The latter practice is alleged by the promoters of the organization, Messrs. MacNab and Campbell, of Arnprior, to

was organized for, intimated that it was partly to knock Toronto agents, increase the rate of commission, which must mean additional charges to the present rates paid, and an effort to dictate to the companies how the business in outside sections should be

#### CARELESSNESS, Dr. Seath Says No Others Will Get SAYS THE JURY

Ontario's schools this fall, Dr. Seath, Places Blame for the Essex Explosion on Railroad Company.

> Essex, Aug. 23 .- It took the jury in Coroner Brien's court just twenty minutes by the village clock this evening to fix on the Michigan Cen tral Railroad the responsibility for the explosion that killed Brakeman Mc-Nary and Conlin and wrecked this town on the morning of Aug. 10.

Despite the mass of evidence, ranging from chemical formulas and expert testimony as to the manufacture and caprices of nitro-glycerin to the intricacies of railroad regulations regarding shipments of high explosives, the jurors reached their conclusion almost unanimously on the first

Verdict Was Expected.

That the verdict would sting the railroad was expected by those who Building Company's pond this afternoted the attitude of the jurors durnoon and was drowned. The boy went ing today's closing session of the inout on a small raft on the pond, which 62% is about five feet deep. He lost his quiry conducted by Attorney Rodd on balance and sank before any assistbehalf of the crown. Whenever juror asked a question, it was plain in his words and manner that he thought the Michigan Central had no blew up.

> handed over to the jury also helped nearest neighbor is nearly a mile out in bringing their decision quickly. away, it was some time before help The bells chimed six just before arrived. Crown Attorney Rodd announced that the crown's evidence was all submit-

On receipt of the verdict for which he had worked during the inquisition, the crown attorney was visibly elated. Yet he declined to say whether prosecutions would follow. Asked about the probability of criminal cases consequent on the opinion delivered by the after the accident. The body of Bur- Mary McCallum, Smith's Falls; Gerjurors, he said:

"I have not had time to decide on that as yet. At this stage I would not care to say whether there would or would not be any action along the line of criminal prosecution."

# UPHOLSTERED GOODS SALE

Upholstered Furniture of every conceivable style and shape will be greatly reduced all next week. We are crowded to the doors and must have room for the fall furniture that will soon be here.

Rockers, Chairs, Divans, Couches, Davenports and Parlor Suites, all characteristic of the extreme care, construction and finish observed by our buyers, must go.

We haven't room to quote prices, but if you are in need of any of the above-mentioned articles we will give you the greatest bargains ever offered anywhere.

Before a single piece of Upholstered Furniture can be displayed on our floors it must be proven.

-The best of silk or leather.

-Especially tempered steel springs.

-Tailored like milady's suit.

-Built on honor.

RESULT: Years and years of satisfactory service to buyers, no matter how great the reduction offered.

# Three Children Drowned, All From Same Family

Were Capsized in Deep Water through Hastings County, having been at Wadsworth Lake.

Madoc, Aug. 23 .- Three children, Willie Green, aged 9 years; Burnett Green, aged 7 years, and Helen Green, aged 6 years, were drowned at Gilmour, 30 miles north of here, on Wednesday afternoon. They were children of Norman A. Green, agent for the Anglo-American Iron Company for North Hastings. Wadsworth Lake, C. P. R. in the West Had Trouble where the family reside in the summer, was the scene of the fatality. It is about 21/2 miles long, and 3 miles

Mrs. Green and one of the older Winnipeg and Vancouver were out on boys, Percy, had gone out picking berries. Another boy, Roscoe, was in the house putting the baby to sleep. On the shore of the lake, close to the house, was a new skiff which Mr. Green purchased this summer.

It is thought that the children got the boat into the water, climbed in, and pushed out from shore. When pany to agree to the petition of the about 45 or 50 feet out, they in some manner capsized the skiff, which was very light, and as the shore is rocky and slopes away rapidly, they were thrown at once into deep water.

Roscoe was the first to discover the accident. Having succeeded in putting the baby to sleep, he had gone out to join the others in their play, business piling sheet steel, bar iron, when he was horrified to see the skiff hardware, hawsers and package floating bottom upwards, and the freight in with boxes of dynamite in children nowhere to be seen. He imno way secured in the box car that mediately gave the alarm, but as there are no other cottagers on the lake, The time at which the case was which is in a lonely spot, and the

Swearing and coarse language, too, have gone out of fashion. Neither lord nor commoner deems it necessary In Persia, for instance, a full face to preface every remark with an oath,

Then, too. Edward has done much to maintain the respect of the English people for religion, although he has never posed as a saint. Regular attendance at church is certain to exercise an influence more beneficial than injurious, and the moral tone of the nation which has been brought by its social autocrat to look upon it as a sine qua non of respectability cannot be considered otherwise than healthy in the extreme. The King makes it a We all know the prescribed lines for example in the matter, and so, too.

#### APPLES BY THE DOZEN.

Buying apples by the dozen, \$1 or more European ideas, although they are for twelve of them, is a commonplace torightly slow to follow our willowy (?) day. Twenty years ago it was a proceeding seldom heard of, and even ten years ago it was considered a transaction in finance so high that only those who found demand, there are plenty of buyers to take

# School for Housewives

Ceylon Tilting Tespot

B THE adjective "soft" as used in this connection slang or not? I must confess that it is comparatively novel to me, and I thirst quenchers.

Perhaps the other sort of bever- tea made in Russian fashion. ages are reserved for hard drinkers. To some of us it is good enough I here and now own my allegiance to the class of drinks whose name heads this article. I have "sampled" "hard drinks," and for hot weather I commend unreservedly the "soft" kind, not on the ground of teetotalism, temperate woman though I am, but because I do not believe it is possible to prepare a drink containing alcohol which does not produce heat in those who partake of it.

On the passage down, the "punch" or "bowl," or whatever you choose to call it, may be cooling and seem refreshing, but by the time it has been in the stomach fifteen minutes or less it announces its presence by a rise of temperature and a profuse outbreak of perspiration which are as hard to bear as the original heat and thirst one has sought to quell.

#### NO LACK OF VARIETY

Of soft drinks there are many. and the total abstainer need not fear limitations in variety or in \*tempting qualities.

If I cannot quite promise that the summer will go through before the stock is exhausted, I am yet pretty safe in saying that the hot weather will be at an end before one wearies of the assortment which can be mixed by the woman who has a little knack in this line, and who will take the trouble to cultivate it.

Leading the van, to my mind, and keeping a good distance ahead of all the rest, comes iced tea. Those who have never tasted it at its best may cavil at this statement. But those who have drunk it when it has been freshly made and poured while boiling hot on ice, chilled until almost "frappe," and served from tall glasses misted with coolness, will bear me out in saying that it is a fair equivalent for the nectar of the

Thus made, it is an altogether different compound from the drainings of the teapot, after these have stood on the leaves until cold. That is an extract of tannin, astringent alike to the tongue and the stomach.

#### TO MAKE ICED TEA

For iced tea the water should be freshly boiled, the good old allowance made of a teaspoonful of tea for each person and one for the pot, unless the strong Ceylon tea is used, in which case the share of the pot nay be withheld

The tea should not steep more han three minutes before the pot s filled up from the kettle, and in minutes more the tea should be

For the benefit of those who cannot be spendthrifts in ice, I will say that if the tea is made and poured from the leaves as soon as well ad to ask of a condescending man drawn, and set aside to become cool its meaning in connection with before serving, it will, when iced, have no inferiority in flavor to the

Whatever the origin of the term for poor mortals without trimmings, but most drinkers prefer it with the addition of lemon and sugar. Every one to his taste, and the housekeeper may cater to the preferences of every class.

> Iced coffee is a good second to iced tea as a summer drink. This may be made fresh, and either poured on ice or turned from the grounds and set aside to cool

Cream, plain and whipped, is a delicious addition to this, and it may be drunk with sugar or unsweetened, as the individual taste may demand. A cognate to iced tea, but rather more elaborate, is:

Russian Tea Punch. For this make a quart of tea, using four teaspoonfuls of Ceylon or India tea to a quart of freshly boiling water, two cupfuls of granulated sugar, two tablespoonfuls of orange juice (tart oranges are to be preferred), five tablespoonfuls of lemon juice and a quart bottle of

Apollinaris or other good charged water. Put tea, sugar and fruit juice together in a punch bowl with a big block of ice and pour in the Apollinaris just before the punch is to be served. The attractiveness of the drink is

heightened if cherries or strawberries or raspberries, or, failing these, dice of bowl.

About half a cupful of any of them will be sufficient

#### Fruit Punch.

Make a strong lemonade, allowing four or five lemons to a quart of water and a tablespoonful of sugar to each lemon. Roll and squeeze the lemons and let the juice stand on the sugar for a few minutes before adding the water. To this add three oranges, sliced and

Dainty China for Iced Tea

peeled; one grapefruit, peeled, seeded and separated into lobes; a sliced banana, half a pineapple, shredded, and let stand together on ice for half an

Just before serving add a quart of charged water. Should the punch seem too tart, add more sugar. Tastes differ very much on this point.

#### Ginger Ale Punch.

Squeeze the juice from six lemons and mix with a cupful of granulated sugar. Put it on the ice for an hour. Crack a good-sized lump of ice and lay in a punch bowl; over this pour the lemon juice and sugar and turn over all three bottles of ginger ale.

Add to the punch long-stemmed bunches of mint, pinching the stems a little before putting them into the

#### Grapefruit Sherbet.

Peel four large grapefruit carefully, removing the seeds and all of the bitter white skin. Squeeze from the fruit all the juice you can get out, and add to it a cupful of granulated sugar and a half cupful of dice of pineapple.

Let it stand in a cold place a quarter of an hour, pour it into a punch oowl on a block of ice, and just before serving add a quart of charged water.

#### Raspberry Vinegar.

Allow two quarts of raspberries to a quart of the best cider vinegar, let them stand together for twenty-four hours and then mash the berries well with a wooden spoon or potato beetle.

Strain off the pulp, add two quarts more berries, and after they have stood twenty-four hours longer, mash and

strain as before

Put in two quarts more, and after twenty-four hours have passed, mask and strain once again. To each quart of this allow a pint of water and five pounds of sugar. Put all over the fire and bring to the boiling

surface. Skim carefully, take from the fire, strain and bottle while warm, not hot.

point. This will raise the scum to the

#### Tie down and seal the corks.

Raspberry Shrub Punch. Add a gill of raspberry vinegar ot raspberry shrub to a quart of iced water and stir until well blended. Fil the glasses from which the punch is to be drunk with cracked ice, add a cupful of fresh raspberries, an equal amount of banana dice to the punch in the pitcher or the bowl and pour into

#### THE HOUSEMOTHERS' EXCHANGE

Suffer a delinquent to ease her conscience by a tardy contribution to the Exchange.

It is eagerly read by the feminine adults of our household, although but one of them is a working housekeeper. I, myself, have been on the retired list for some years, but I am still keenly interested in all that makes for good in the house, and find so iffuch that is congenial in your "Talks" that I feel we are friends and almost chums.

Hence my contrition for past silence almost chums.

Hence my contrition for past silence when I might have imparted something helpful to at least one member of the great family.

I herewith inclose a recipe for the "eggless brother" which I have long intended giving him. I take it his idiosyncrasy remains in full force? If he has got the better of it, others may be inclined to try it. Do not despise it because it seems so cheap and common in its component parts. It came to us from an epicurean house-wife, long years ago, and we-being south-erners of the southerners.

erners of the southerners—consider ourselves judges of good eating. Yet we use no other recipe than the eggless formula for molasses or ginger cake.

Should you care to hear again, I have other recipes which I have used for nearly a half-century, and which are still considered unapproachable by my children and grandchildren. M. C. A. (New Orleans). Here is the recipe thus agreeably introduced to our notice:

#### Eggless Ginger Cake.

Put a pint of good syrup into a deep bowl. Stir in sifted flour until the mass begins to break or to crumble. Add two large tablespoontuls of the best lard and a good pinch of salt. (The lard must be melted after it is measured.)

Stir in ginger to your taste, and lastly, one and one-half cupfuls of beiling water, in which are dissolved three teaspoonfuls of baking sods. Bake in a slow even from forty-five minutes to one hour.

We think the cake much ploer when spices and raisins are added, but it is a

good cake without them. I have long ago ceased to cavil at any recipe contributed by a responsible usewife. Modesty in pronouncing

Silver Consters and a Tea Ball Holder

judgment upon what appears at the first reading an incongruous jumble of ingredients becomes even the veteran cook. I have in mind a "roasting" I had from a Missouri editor twenty years ago because I published a recipe for

"When the veriest tyro in dietetics knows that to eat cream or to drink milk at the same meal with fresh fish of whatever kind is unwholesome to the last degree," I was informed, "you peril the lives of the community by recom-

BUNDAY

Our grandmothers believed that fresh fish and oysters must not be eaten and milk drunk at the same meal. Now we bake pickerel in cream, and drench

This reminiscent vein is apropos to the apparently eccentric formula for-warded by our delightful southern correspondent. She admits that it may seem cheap and common. I have said that it is eccentric. Yet I accept without question her assertion that it is

We all hope that it will be followed by the family recipes with which she tempts our imagination. Personally, my faith in family recipes is strong. For fifty years I have made mince pies after a formula bequeathed to me by my mother. It was a hundred years old when she began housekeeping. I have never tasted other mince meat that an opinion that is held by every member

of a wide family connection.

Bananas and Curried Chicken. A woman was talking to me the other day of your recipes and so on. She has your cook books and reads the Exchange, so she could not recollect in which she had read that you advise bananas as an accompaniment of curried chicken.

There were four of us present, and we

all cried out that she must be mistaken, for the combination scemed so unnatural some-how. She persisted that she was right in thinking you had said so—somewhere. At last, I was deputed to write and ask you who was mistaken in the matter, she or we. Will you answer at your early con-venience? Did you ever hear of serving hananas with curry? E. H. J. (Nashville, Tenn.).

We not only hear of it, but we see and eat of them together whenever we have curry in any form. We learned the habit from a dear friend who was born in India, and had lived there several years in later life.

After once trying what was to our notion as queer a combination as it can be to yours, we liked it so well

# Great Convention of Spiritualists

EMINENT SPOOK SPECIALISTS TO GATHER IN OLD LONDON FROM ALL PARTS OF THE WORLD-G HOSTS OF GREAT MEN TO BE EX AMINED-FRAUDULENT MEDIUMS TO BE BARRED.

convention ever held-the first international convention of ghosts, which Is being planned to meet at South Institute, one of the great halls of Lon-

don city, in September. All the ghosts in the world will be Invited to attend and prove to mortals that they exist. The spirits of the departed will be made welcome and invited to materialize during the week. Londoners are not fleeing as yet from the prospect of entertaining a few

billion spooks. There is no use to run, for if every ghost that will be invited attends the international convention there will be thirty or forty ghosts for every bedroom in Great Britain, and the parks and public places will be ich, formerly Universities of Jena and filled Anyone who cannot see a ghost Leipsic; author of many historical during the second week in September In London will have to be psychically blind, according to the committees chosen by research societies which are arranging the convention.

Seriously, the international conven Yion is to be the greatest effort perhaps ever made to investigate thoroughly and openly the question of the existence and possible materialization of spirits.

#### EVERY MEDIUM TO BRING HIS OWN GHOST.

The leading spiritualists and mediums from all parts of the world are life, etc. expected to attend, and each one is to bring his best ghost with him, to show to the convention. Mediums who have College. "controls" of important spirits, who claim to be able to materialize and commune with the spirits of famous historic characters, will be asked to bring them to London and to develop their "ghosts" for the benefit of science. America, India, China, Australia, Egypt, Africa and all the countries of Europe will be invited to supply their best-known mediums and attempt to demonstrate their theories.

Not since the investigations of spir-Itualism by the Siebert commission has science taken such a grave interest In the conquest of spirits. Psychical research societies all over

the world, as well as learned educators Adolph Harnack, D. D., University of and thinkers, are, according to present plans, to participate in the convention, which is expected at least to develop Important knowledge of things psychi-No school of spiritualists will be excluded. The Indian "fakir" and the Oxford college professor will be expected to sit side by side with the American spiritualistic medium and the Tibetan recluse. The spirit doc-French and German schools of spirit-

#### SCIENTISTS TO CROSS-QUESTION SPOOKS.

The test, however, is planned to be deeper than this. Not only will spiritualists and students of spiritualism be invited to attend, but they will be expected to subject their controls to lans, writers, scholars, who have but spirits to prove their authenticity. Instead of the usual medium's "fake" of saying, "I see a tall, blonde woman, who asks if John is in the audience." the spirits will be examined by men who know more about their lives on earth than the mediums do.

For instance, a medium who claims to be able to summon the spirit of foremost authorities on the Napoleonic era, and asked questions concerning the emperor which no one could answer unless deeply versed in the life of Napoleon. The same system, according to the committee, will be used with every historic shost, a special authority being invited to examine each medium after the same manner.

Among the famous spirits invited to attend under the chaperonage of their favorite mediums are the fol-'Aristophanes. Napoleon,

'Aristophanes. 'Aristotle, Darius. Demosthenes. King Arthur, Cleopatra, Caesar, Jeanne d'Arc, Solomon Cromwell, Robert Burns Dante.

Mozart. David. Shakespeare. Washington. Alexander. Socrates, Dickens, Columbus, Brigham Young, Sir Walter Scott, Confucius.

Martin Luther, Henry Ward Becher. SPIRITS OF FAMOUS MEN IN-VITED.

The committee which is arranging the international convention of ghosts In order to prove its sincerity in resorting to the great test of their belief in spiritualism, has planned to invite the following authorities to crossquestion the mediums who claim to control the historic spirits.

David to be examined by William Robertson Smith, editor Encyclopedia Britannica, librarian Cambridge University, authority on Biblical and Hebrew history.

Aristophanes to be examined by Richard Claverhouse Jebb, Lit., LL.D., professor of Greek, University of

Shakespeare to be examined by Henry R. Tedder, librarian Atheneum, London, authority on Shakesearean history and literature, author of works on Shakespeare, the man and the author, and Alexander Stewart MacGregor, Scotch Shakespearman authority.

King Arthur to be examined by the Rev. David Rowlands, the famous Welsh scholar and author, special investigator of the life and legends of the round table and its knights.

Alexander to be examined by Archibald Henry Sayce, M. A., professor of comparative philology, University of Oxford, and writer on ancient history Dante to be examined by Oscar Browning, M. A., fellow of King's College, Cambridge, lecturer on ancient

# Pen-Angle Guaranteed

piritualistic mediums.

Among the committee which is arranging the convention the question of permitting De Mille to bring his spirit octors to the convention was at first frowned upon, but later the committee voted unanimously to include savage as well as civilized ghosts.

The effort of the convention will be to reach the truth if possible, whether or not it is made ridiculous by some of the developments. The committee says it is fully aware that certain frauds may be attempted by daring fakirs who may hope to gain advertising by tricking the convention, but, nevertheless, no efforts will be spared to prevent impositions and, furthermore, that all but known tricksters may attempt to materialize their spirits. Doubters are as welcome as firm believers. The committee announces that the only object is to get nearer the truth.

#### EVERY HONEST GHOST WILL HAVE A CHANCE.

Nevertheless, a special committee has been appointed to look up the records of spiritualistic mediums who announce their intention of being delegates and bringing their ghosts to the convention.

Every honest psychical research worker admits that puertie frauds and clever impositions are practiced daily, and that sleight-of-hand, hypnotism,

#### Pandora Ventilated Oven is a Real Success

That the Pandora oven is ventilated in reality you can prove for your own satisfaction beyond a shadow of a doubt. Just moisten your finger and place it in close proximity to the three small vents between oven and fire-pot doors. You can then feel quite distinctly the current of air being drawn towards and through the vents. Try this little experiment on your neighbor's Pandora.

So scientifically perfect is the Pandora system of ventilation that the air in the oven is constantly being renewed with fresh air and the cooking fumes carried out through another set of vents in back end of oven and from there to smoke pipe.

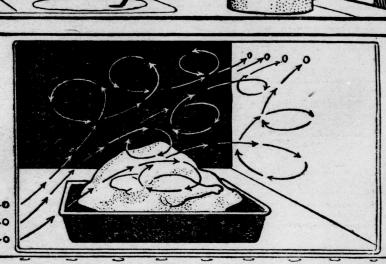

The arrows in illustration show how the fresh air is distributed throughout the oven and the way the odors escape from the oven.

No indiscriminate mixing and re-mixing of cooking odors in the Pandora oven, consequently there is positively no chance for one article to be tainted with the flavor of another. Rather, the delicious natural flavor of every article is retained

to the fullest extent. The Pandora ventilated oven is a real success. When you open the door, the oven never smells close and stuffy, as do the great majority of range

Food cooked in the Pandora is more healthful, as well as more appetizing and satisfying.

If your local dealer cannot give you complete information about the Pandora, write direct for FREE BOOKLET.

Pasha started the rebellion which threw
Egypt into the hands of the English. I

Egypt into the hands of the English. I

The Alexandria of today stands upon the site of the greatest of the commercial centers of antiquity, but its present buildings are as young as those of New York, Chi-Boston. It is one of the boom towns of the old world, and it has all grown up within 100 years. When George Washington was President it was little more than a village. It has now more than 400,000 people, and it will soon reach a half-

Alexandria is a city with all modern improvements. It has wide streets, as well paved as those of Washington. It has public squares which will compare favorably with many in Europe, and buildings which would be an ornament to any town on our continent. It is now a city of street cars and automobiles. Its citizens walk or ride to its theaters by the light of electricity, and its rich men gamb'e by read-ing the ticker in its ctock exchange. It is nammedans, there are more than 100,000 Christian Europeans now living in it, and among them some of the smartest business en of the Mediterranean Sea. The city has become commercial, money-making and fortune-hunting. The rise and fall of modern methods of getting something for nothing are its ch'ef subjects (f e nversation, and the what population is after the Egyptian pound the elusive piastre a merican is chasing as earnestly as the the nickel and the de ir.

ALEXANDRIA'S NEW HARBOR. It is easy to see where Alexandria's ealth comes from. It is growing fat from the trade of the Nile Valley. It is the watergate to Egypt and the Soudan, and every cent's worth of goods that goes in and out has to pay toll. More than four thousand thips enter this port every year, and there are now vessels in the harbor from nearly every part of the world. I came to Egypt from Malta en a ship bound to India and Australia, and I can get a steamer any week which within fifteen days will take me to New York. The German lines are making a specialty of Egyptian passengers and freight, and they are gradually capturing the bulk of the

Mediterranean commerce. Alexandria has one of the best harbors on the Mediterranean. The port has been Improved within the past few years, until Its arrangements for loading and unloading goods are unsurpassed. It has a breakwater two miles in length, and the biggest ocean steamers can come right up to the quay. There are 2,500 acres of water in ships can have a safe anchorage, and many vesse's come here to coal. Tho most of the coal is brought from England. and left until the ships need it. thing like 12,000,000 tons were thus Landled last year, many of the steamers on their into and out from the Suez Canal

stopping at Alexandria for fuel. I do not know how much the harbor has cost, save that it runs high into the mil-Alexandria his capital the place was only willage, with no connection with the Nile. He deg a canal 50 miles long to that great waterway, and there is now a stream of vessels going up and down that canal, carrying goods into the valley and bringing the cotton, sugar, grain and other products out to the sea. The canal was constructed by forced labor. The fellaheen, to the number of a quarter of a million, scooped the sand out with their hands and carried it away in baskets. It took them a year to dig the 50-mile ditch, and they were so overworked that 30,000 died on the job. Mehemet Ali also spent an enormous amount on the harbor, and Ismail Pasha laid out more than \$12,000,000 in the some way. Since the English took hold they have been steadily making other improvements, and they have works now under way which will cost millions more. The commerce of the port is increasing come even greater than it has been in the

of the new Egypt. PARASITE KILLING LOCUSTS.

"Matabele" Thompson is in town communicating with the agricultural department regarding the discovery on his farm near Kimberley of millions of locusts which have been killed by a certain inimical insect. Inquiries show, however, that this parasite is no new discovery, but in consequence of the abnormal quanti-

ties of locusts which have appeared this year the parasites also exist in greater numbers. These insects lay Dysentery or Summer Complaint and has their eggs in the bodies of the locusts a tendency to weaken the whole system. and the larvae hatch out there, with fatal effect upon the locusts. possibility of utilizing this parasite for locust destruction has engaged natural discharge without bringing on the attention of the agricultural department.

It may be added that this year the locust season has extended to an urusually late date, Whereas in ordinary years the pest diminishes toward the end of April, this year it seems ing the past sixty-two years. to be increasing The Kalshari desert is the region from which a large pro. portion of the locust swarms originate, and at the present time practically all districts on the west an 1 stitute on you. south borders of Orangia and the Midlands of the Cape Colony are locust ridden in varying degrees.-Cape Town Argus.,

#### DOG FLAGS TRAIN.

In Muskogee a negro who drives the street sweeper has a fine bird dog, which walks ahead of the sweeper at night and carries a lighted lantern in his mouth. The other night, as he was crossing the railway, he stopped a minute to look back and see if the sweeper was coming. Being a dog of happy disposition, he wagged his tail, and incidentally his head wagged at the same time. The switching crew saw the light moving and stopped their train. It moved again and they started, and this reverse motion was kept up for some time, until the engineer was exhausted in operating his reverse lever. He jumped off and ran back to see what the signals meant, and when he saw the cause of it he said something. It is needless to say that after this he will work only on signals that are given higher than the ground.-Kansas City Journal.

# British Metropolis and Its Changing Ways The Gondolier

ARNOLD BENNETT MAKES SOME INTERESTING REFLECTIONS -PASSING OF THE OLD SUNDAY-A GENERAL AWAKENING OF VITALITY - ACCUSES THE BRITISH OF INTELLECTUAL COW-ARDICE-THE RISING STORM OF LIFE.

England and London, after a long absence. It was a windy, sunshiny day, compete with the restaurants and with and everything in London seemed to be the music halls of the Sunday League. involve sincere thinking and intellecmoving as fast as the wind. There was But what it has to compete with is a vigorous gaiety in the air I could see something quite other than the taste not merely print a sad; true story, but it in the quivering flags that stood cut for pleasure, something that does not will pay the author twopence-halfstraight over high edifices, and in the rely on orchestras and singers and motor omnibuses as they swept past in banners, and that something is the terlong rattling curves like ships with all rific impetus of the sap of human intheir bolts loose, and in the bright, ad- telligence and curiosity; it is the reventurous costumes of the women. When I had climbed to the upper deck of one of these street-steamers I sat at gaze, fighting for my hat with 'ne wind, as the machine, grandly rolling, swirled me across Trafalgar Square, and I said to myself, "Is this London, and Sunday?"

THE PAGAN CROWD. And all around immense buildings accident the sort of thing that is deelegance of many suburbs had assembled to compete for its tables. Consembled to compete for its tables. Consembled to compete for its tables. certs had filled the afternoon; concerts would divert the evening; and a band was even then playing in the Green that those will stand the best chance the stand that those will stand the best chance the stand that those will stand the best chance the stand that those will stand the best chance the stand that the stan Park. This is the city (I said) where the muffin-man used to wander with his mournful tinkles through deserted squares of a Sunday afternoon! This is the city which remembered the Sabbath under storm, or that it will blow over is a mature and utterly un-Chauvinispain of being banished by an anthromorphic god to an eternity of fire in the society of an anthropomorphic drop anchors. devil! This is the city where even railway trains dared not move till the benediction had been pronounced.

#### LUXURY AND PLEASURE.

know that I, and I know that my friends, had just as much desire for luxury and pleasure twenty years ago as we have now. We could not gratify the taste simply because the means for gratifying it did not exist. The wealth of the earth had not been sufficiently extracted; invention had not saved FIGURES OF EXPENDITURE ON SHE IS JOINING THE MINORITY enough labor: ways of communication were still barbaric: co-operative organization had not properly correlated demand and supply; the people had scarcely recovered from their surprise at being able to read, and the popular stop man from plucking the grapes ley was respectable, Laurence Oliphant school, Eton and Oxford: could demand of his world, the Nursery, from 1 to 8, \$625 an-had anything to Nineveh which would not apply with equal force to this Eton, 13 to 18, \$1,500 yearly... what?" It is true that "they" are no Traveling and holiday exlonger sure of another life, but I doubt If it is true that "they" are so upset by their sense of insecurity that they feel the need to drown care in champagne. Their attitude is not that of the mur-

#### A GENERAL QUICKENING.

The fact is that our amazing progless in mechanical invention and in the ed, \$750 not being a large figure. At economic marshaling of industry has 14, when the boy went to Eton, he was occurred simultaneously with far the owner of a pony which cost \$175, for a father and mother to complain of in a crowd of black-shawled Venetian greater advance, and that the effects of the one are apt to be attributed to the annually. He had also received his the lack of education of their daughter." the one are apt to be attributed to the annually. He had also received his the lack of education of their daughter." other. They are both symptoms of a first gun. general quickening of vitality; but the connection between them is not obvious. Indeed, I should question whether father of the boy was only the ordinthere is a genuine connection between the revival of applied science and the revival of philosophy. Of course, the ly is ample for his needs, but small in revival of philosophy is infinitely more Important than the revival of science and equally, of course, its results are less obvious and slower to come. But they are coming. They are coming. And compared with them the results of science are as naught. Herbert Spencer wrote "First Principles" long before Edison hit on the telephone, and not one man in a thousand who uses a telephone has yet read a line of "First Principles." But "First Principles" laughs at the Edisonian toy and the man who plays with it, for while he is playing with it "First Principles" has turned a universe upside down and the man absorbed in the telephone has scarce begun to suspect the revolution. The growth of luxury, the change of manners, are a trifle to what is already close upon us. I was struck, as I passed through a new London, by the extraordinary stridency of the restaurants, nearly all of which were tempting people to indulgence by means of orchestras and singers. But I was far more tras and singers. But I was far more three see its reflection in a mirror. Otherwise the same house. They under three see its reflection in a mirror. Otherwise the superstitutes as soon as the baby comes. "In Spain they won't let a baby under three see its reflection in a mirror. Otherwise the same of the world's mothers. They're the most ludicrous things. Itself in the sum of the world's mothers. They're the most ludicrous things. Listen:

"In Russia they think a baby and a kittle can't thrive in the same house. They who to thank for the things.

"It happened that I knew the woman who bought them she would be up against it—wouldn't know who to thank for the things.

"It hericates it could remember who bought them she would be up against it—wouldn't know who to thank for the things.

"It happened that I knew the woman who bought them she would be up against it—wouldn't know who to thank for the things.

"In Spain they won't let a baby under three see its reflection in a mirror. Otherwise they're the most ludicrous things.

"In Russia they think a baby and a kitten can't thrive in the same house. They while directing her Italian maid. While anything is to be done in the house, who to thank for the things.

"In Russia they think a baby under the wouldn't know who to thank for the things.

"In Spain they won't let a baby under three see its reflection in a mirror. Otherwise the cards or something—and unless I could remember who bought them she would be up against it—wouldn't know who to thank for the things.

"It here lost the cards or something—and unless I could remember who bought them she would be up against it—wouldn't know who to thank for the things.

"In Russia they think a baby under the wouldn't know who to thank for the things.

"In Spain they manners, are a trifle to what is already tempted people to God by the offer of precisely similar attractions. It might have been stretched across the entrance to a penny booth in a fair. It was actually stretched across the portals of St. James' Church, Piccadilly—surely the central fastness of British restraint and correctitude. To such a pass had things come! And only yeshalt of the sale of the sale of the sale of the sale for an hour before the sold the other two things couldn't remember what the people looked like that bought them, and she'll just have to write to the sun steals over the house-front. She leans her elbows comfortably upon a girl baby in red she will turn out bad. "In India it is good luck for a baby to fall out of bad.

"In Hungary they think that if you dress a girl baby in red she will turn out bad. "In India it is good luck for a baby to fall out of bad.

"In Hungary they think that if you dress a girl baby in red she will turn out bad. "In India it is good luck for a baby to fall out of bad.

"In Hungary they think that if you dress a girl baby in red she will turn out bad. "In India it is good luck for a baby to fall out of bad.

"All the World Loves a Lover." In a Message From Mars," which will again be seen here at the Grand this afternoon and evening there are a pair of lovers that rivet the attention of audiences from the time the story of the play begins until it ends-and of course, it ends happily. True love does not seem to run smoothly anywhere and as shown in this play its smoothness is disturbed by that most abominable of crimes, selfishness. That girl throws her sweetheart overboard because he is selfish. When he reforms she takes him back, but in bringing about the reformation is the interesting part of messenger from the planet, Mars.
