CAUGHT WITH THE GOODS

By Detective Thomas Nickle in Hour Afterward—Merchants Complain of Gang.

John Anderson, a young man, who says he came here from Chicago, was arrested by Detective Nickle last night on a charge of stealing a watch from H. B. Gray, a young farmer, whose home is in Lobo.

REPULSED WITH LOSS. Paris, Sept. 2.—There has been another encounter between French troops and the Arab tribesmen at Bauden, the former stronghold of Mulai Hazen, on the Algerian frontier, in which the Arabs were repulsed with heavy loss. Two French soldiers were killed. General Bailloud said he anticipated a resumption of the general attack today.

WATER SHORTAGE BROUGHT UP BUT NOTHING WAS DONE

Commissioners Met Yesterday and Chairman Jones Made Remarks About People Who Don't Take Enough Interest in the Matter to Go to the Polls and Vote.

The water question was brought up at the meeting of the water commissioners yesterday afternoon, but it was not discussed at any length. When the business of the board was concluded, Commissioner Darch declared that the situation should be considered.

RESULTS FROM MISUNDERSTANDING

Bicycle Case Which Should Never Have Been Aired in Court.

James Ashton, of Nissouri Township appeared before Squire Chittick today charged with the theft of a bicycle from Joseph Chance, an Italian. The evidence showed that the case arose out of a misunderstanding, and the matter was settled by the accused paying the costs of the case.

Prof. Shortt and M. G. Laroche To Administer New Act.

Ottawa, Sept. 1.—The civil service act came into force today, and members of the inside service are now under the jurisdiction of Professor Shortt, of Queen's University, and Mr. M. G. Laroche, of Montreal, who have been named as the two commissioners to administer the act.

Hugh McGurdy Is Again in Trouble

Hugh McGurdy, perhaps the most familiar figure in London police court, tried to work a smooth story on Acting Magistrate Mayor Stevely this morning, but failed. McGurdy is one of the oldest members of Inspector Galpin's club for freewater, and not long ago went to the evening.

Bryan Heard Nomination Cheering

Mr. W. E. Bell, of Chicago, division superintendent of the American Telegraph and Telephone Company, is in the city visiting his brother, Mr. James S. Bell, assistant city treasurer.

Two Writs Against Street Railway

Two writs for unstated damages were today entered against the London Street Railway Company by Mr. J. F. Faulds.

Mr. Jones replied that he had not. It is probable that at the next regular meeting of the board the whole question will be discussed. The resolution of the public meeting held some time ago asking the commissioners to submit the high pressure scheme to the people, was laid on the table until the whole question comes up for discussion.

No Pressure. The McCormick Manufacturing Company complained of the lack of water pressure in their factories. Some of the departments were working only under serious disadvantage. The firm asked the commission to settle the water question at an early date as possible. The communication was filed for reference.

The matter of insurance on the boilers at Springbank was brought up. At present there is an insurance of \$15,000 on the boilers, but since that time, another boiler had been put in, and it was thought advisable to place an insurance on it. The present policies cost \$250.

The New Commissioners Appointed For the Federal Civil Service

as secretary for many years, and having conducted all of the examinations which have been held annually. The two commissioners will come to Ottawa and will take up the work immediately. Both are regarded as well qualified for the place. Mr. Shortt is known through Great Britain, the United States and Canada through his articles on economic questions. In Canada he has become familiar to the public through his work as chairman of many boards of conciliation under the Lemieux act.

Hugh McGurdy Is Again in Trouble

Galpin had told him he was no longer on the Indian list. Chief Williams and all the officers looked incredulous as McGurdy sprang this story on the court. The chief recovered from his surprise first and asked Mayor Stevely to wait and hear what the inspector had to say about it.

Bryan Heard Nomination Cheering

"We sent out 456 bulletins alone from the Denver convention," said Mr. Bell. "It was an inspiring sight to see 15,000 American flags all waving at the same time. This was the case at the Denver convention. I got Mr. Bryan on the telephone at Lincoln, Neb., just 1,000 miles from the convention, and by the aid of a huge megaphone, he was able to hear distinctly the cheering that followed his nomination. He was quite pleased with it, as you could imagine."

Two Writs Against Street Railway

pany was negligent in placing the blocks where they would be run over. Another Writ. The second complainant is Mrs. Jane Insell, of 908 Waterloo street, who was injured in the street car collision in Richmond street on Aug. 8. Mrs. Insell was badly shaken up, and sustained injuries.

### SCOTCH EXPERTS ON OUR FARMS

#### Pleased With Ontario, But Do Not Think Much of New Brunswick Agriculture.

Toronto, Sept. 1.—The Scottish agricultural commission, composed of practical farmers and others interested in agricultural education and development, arrived in Toronto last night, and will remain in the city until Wednesday evening, when they leave for the west. Consisting of 22 members, the commission, who have already made a comprehensive tour of the eastern provinces and Ontario, hope to follow the lines of inquiry which similarly constituted bodies pursued in Denmark in 1904 and Ireland in 1906. Among the subjects especially engaging their attention are land settlement, agricultural education and research, experimental farms, mixed farming, agricultural co-operation, fruit culture, transit, cold-storage and markets. Judging from the thorough manner in which the commission are carrying out their investigation their report when it is issued should be of incalculable value. Having studied the various branches of agriculture and fruit culture in the east, and visited the experimental farms and colleges, they leave on Wednesday evening for the west, where wheat farming and ranching particularly will receive their attention.

#### No Criticisms Yet.

The fact that the members of the commission intend embodying their views in an official report is a natural bar to the free expression of their views in the meantime, and it was with some difficulty that the visitors were persuaded at the King Edward last night to discuss matters relative to the inquiry. As the chairman of the commission, Dr. Carlav Martin, the editor of the Dundee Advertiser, put it: "There is a strong wish among the members not to indulge in criticism of Canadian agriculture until the whole body have considered their opinions and subjected them to revision if necessary, so that whatever authority the report may ultimately possess will be the authority not of individual members, but of the entire commission." It required little interrogation, however, to make it clear that the visitors have been greatly impressed by what they have seen. Dr. Carlav Martin observed that one of the most impressive things in Canada was the amount of real progress which has been made in something like two generations. "We have visited," he said, "numbers of farms which 50 or 60 years ago were mere forest."

#### Farms Too Large.

The chairman expressed himself as much charmed with Prince Edward Island. "There, as in some other parts of Canada," he added, "the farmer generally feels that a more thorough-going use would be made of the land if the farmers owned less and worked that smaller portion intensively. Some of the farms on Prince Edward Island and elsewhere are not much given to a strenuous life."

#### While chary of expressing his own opinion or of indicating the views of the commission as a whole on the embargo, he explained the difficulties in the way of the removal of the embargo. "There is first," he said, "the British breeder of stock who naturally desires to see prices maintained, and who will not be prevailed upon that he will suffer by the importation of Canadian stock cattle. There is, second, the interest of the Irish breeder, who at the present moment supplies a large number of the cattle required for fattening purposes in England and Scotland. The Irish breeder also has a protectionist interest in the matter which is allied to a political interest, inasmuch as it might become a parliamentary question whether the annuity charges on his farm would be paid if agricultural values were made to fall. Thirdly, there is the legitimate fear of contamination."

#### The British herds, particularly the pedigree herds, are very valuable, and a number of public men who have no sympathy with the attitude of the two other parties believe that as a measure of protection the embargo should be upheld. This class do not necessarily say that there is disease in Canada. In point of fact, it is generally admitted that Canada has a clear bill of health, but the risk of disease is another matter. The British political parties and the cabinet itself are divided upon the question, and there is little hope of early action being taken to open the ports to Canadian cattle, particularly as the removal of the embargo results in the loss of a bill introduced through the House of Commons, with the intensified difficulty of getting the same bill through the House of Lords."

### SAYS PRESS WAS BOUGHT

#### Hardy Declares Montreal Newspapers Are Against the Machinists.

Montreal, Sept. 1.—Seventy more men were taken on at the C. P. R. Angus shops here this morning. The company states that this number includes three of the strikers. They say the shops are running well, and that the men they are taking on now will be retained if their work proves satisfactory, whether the strike is declared off or not.

Mr. Bell Hardy this morning declared that local papers have all been subsidized by the company to print only news which gives their side of the case. He also said that before the strike with a staff the C. P. R. would have difficulty in handling the western crop, and that with the men out they are sure to lose a large part of the business which they would otherwise have obtained. He said that though the company was slow in coming the men would all receive the full amount of money due them. With regard to the statement that a number of those who went out on strike have broken from the union and returned to their places in the shops, he said he knew nothing of any strikers returning.

### VERMONT AGAIN GOES REPUBLICAN

#### State Elections Give Democrats Slight Gain—Hearst's Party Nowhere.

White River Junction, Vt., Sept. 1.—The early returns showed a slight falling off in the Republican vote for governor from that of four years ago, while the Democratic vote remained practically unchanged, despite the fact that in an unusually large number of local contests the Democrats were as a rule successful, and with the Republican majority in the next house, therefore, considerably reduced. The Vermont elections held today will be regarded as bright, say the National Democratic organization, by reason of the fact that the elections in this state coming as they do two months before the Presidential election are taken as an indication of the political sentiment of the country.

#### Republican Win.

The Republicans, however, retained control of both executive and legislative branches of the Government, the voters endorsing the party ticket for state officers headed by Lieutenant Governor George H. Prouty, electing to congress from the first district, J. David Foster, of Burlington, for another term, and from the second district, Frank Plimley, of Northfield, for the first time, and choosing a majority of the state legislature which will select a successor to the late Senator Redfield Proctor.

At 10:45 p.m. Prouty's plurality was estimated at 28,000. The state ticket elected was as follows:  
Governor—George H. Prouty, of Newport.  
Lieutenant-Governor—John A. Mead, of Rutland.  
Secretary of State—Guy W. Bailey, of Essex.  
Treasurer—Edward H. Deavitt, of Montpelier.  
Attorney-General—John G. Sargent, of Ludlow.

#### Hearst Out of It.

At 10:45 returns had been received from 157 towns and three cities, including Burlington, out of the 240 towns and six cities of the state. These returns gave for Governor Prouty (Republican), 30,176; Burke (Democrat), 10,674; Backus (I. L.), 754; Campbell (Prohibition), 620; Dunbar (Socialist), 305.

These figures indicate a Republican loss of 8 per cent, and a Democratic loss of 2 per cent. On this basis Prouty's plurality is estimated at 23,000, compared with Bell's plurality of 31,557 in 1904.

Democrats were anxious regarding the strength of the Independence League movement, a new factor in state politics, but the returns from 90 towns and six cities showed that a comparatively small number of voters supported Quimby Backus, of Brandon, who headed the new party ticket. The Prohibition party ran a close race with the Independence party, while the Socialists were a poor fifth.

### BRITISH BARK GONE WITH MOST OF CREW

Neath, Wales, Sept. 1.—The British bark *Alexander*, for Iquique, from Port Talbot, has been wrecked near the latter port. Only five of her crew, of 23 were saved. Six bodies already have been washed ashore.

### WON'T INTERFERE

Mr. Graham is Said to Have Made the Statement.

Montreal, Sept. 1.—There is no truth whatever in the reports that meetings of conductors, engineers, and other organizations on the Canadian Pacific, have been held here or in Toronto to discuss any action regarding the settlement of the strike. These statements emanate from the source, and are sent broadcast to delude the striking workmen, and those not fully posted on the actual existing conditions.

#### BELL DENIES IT.

Montreal, Que., Sept. 1.—Hardy Bell, chairman of the C. P. R. mechanist strike committee, denied today that the men contemplated an action against the railway management for violation of the alien labor law. He admitted that the men had been collecting evidence along the lines, and declared that they had been successful in establishing many violations of the labor law, out of which they considered an action would be futile.

### COULTER GOES TO AUSTRALIA

Ottawa, Aug. 31.—R. M. Coulter, deputy P.M.G. has been appointed a Canadian envoy to go to Australia in the interests of the All-Red project.

In Pennsylvania alone there are about 1,700 fire bosses, and assistant fire bosses receiving salaries ranging from \$75 to \$100 per month; 2,900 mine foremen and assistant mine foremen receive from \$100 to \$125 per month. There are also 40 inspectors, each receiving a salary of \$3,000 per year.

### Squall Capsizes Pleasure Yacht Seven of Ten Aboard Perish

#### Terrible Yachting Tragedy at Resort on Coast of Maine.

Deer Isle, Me., Sept. 1.—Seven summer visitors out of a party of ten were drowned by the capsizing of a 35-foot sloop in Penobscot Bay, off this island today. The drowned: Miss Alice Torro, Washington, D. C.; Miss Eleanor Torro, Washington, D. C.; Miss Kelllogg, Baltimore, Md.; Lurie Kellogg, Baltimore, Md.; Mrs. Lucy S. Crawley, Philadelphia; Miss Elizabeth G. Evans, of Mount Holyoke Seminary, Massachusetts; Jason C. Hutchins, of Bangor.

The three persons saved were: Captain Haskell, of Deer Isle; Professor Edward Crawley, of Philadelphia. In some instances they had gone down together clasped in each others arms.

### Stabbing Affray at Fenelon Falls Boys Knife One Another in Street

Fenelon Falls, Sept. 1.—A stabbing affair took place in this village about 9 o'clock last evening, in which two boys, residents of the village, were more or less seriously wounded.

A young lad named Nettleton, a former resident of this place, and a companion whom he brought with him to spend a few holidays, were out in the evening promenade with a couple of young ladies, and after having been repeatedly jostled on and off the sidewalk by one John Barry and one Sam Nichols, they decided to stand strongly on the defensive if annoyed again. Soon the quartet met again and a scuffle ensued. The visitors were getting worsted, when Nettleton drew his hunting knife and proceeded to carve Barry, who had him down and was using him roughly, cutting Barry on the shoulder, neck and back.

### A Balloon Landed in a Freight Yard

Niagara Falls, N. Y., Sept. 1.—A balloon, supposed to be one of those which left Columbus, Ohio, passed over the eastern end of this city about 2:30 this afternoon. The gas was escaping, and in passing over the New York Central freight yards, the basket struck a freight car, injuring the occupants, three Frenchmen. One of them has two ribs broken. All three were very much excited and spoke very incoherently. The balloon continued but soon afterwards parted from the basket, which landed in the New York Central cut at Devil's Hole. The balloon dropped in the woods at Devoe College.

### THAW DEMORALIZES COUNTY JAIL

Officials Show Why He Should Be Sent Back to Mattawan Asylum.

Albany, N. Y., Sept. 1.—A protest is made in a report submitted to the state committee of prisons today by Secretary George McLaughlin against the further confinement in the Dutchess County jail at Poughkeepsie of Harry K. Thaw, accused on the charge of murder on the ground of insanity. Mr. McLaughlin's report is on an inspection he made on August 24 last. The report says, among other things, that "Thaw's presence in the jail 'demoralizes the discipline of the institution.'"

After calling attention to the presence of Thaw in the jail, the report says in part: "He has been held in this jail for seventeen months pending the outcome of litigation, which looks now as though it might be interminable. His presence in this jail is embarrassing to the sheriff and objectionable on many accounts. The sheriff has no room for him except in the padded cell; even this he needs for temporary uses, and it would be an entirely unfit place in which to confine a man for months. Having been adjudged insane with homicidal tendencies, the sheriff would not be justified in confining him with the other prisoners. He cannot keep him in the quarters intended for boys. To do so would compel him to keep the boys with the adult prisoners, which the law forbids. He cannot keep him in the hospital room for two reasons; first, it is not sufficiently secure; second, it cannot be spared for the permanent occupancy of Mr. Thaw. The result is that the sheriff has to give him an entire corridor with three cells, adjacent, in the principal jail for men. He consumes a large amount of the time of the jailer in escorting him to Fishkill Landing, White Plains and other places to attend hearings before the court and before referees, time which the jailer needs for his other duties. There is a good deal of public talk that some of these hearings are take suits, instituted by his friends to give him time outings. His presence here demoralizes the discipline of the institution. He sleeps in the corridor, not in the cell. He has all the fixtures and paraphernalia of a business office. "He orders his food from the hotel, which has to be brought to him three times a day. Silly people send him bouquets of flowers. He is allowed the use of a whole corridor, constituting one-quarter of the entire principal

### A NUGGET FOR "BOBS"

Presented by Premier Whitney as a Gift From Ontario.

London, Sept. 1.—Sir James Whitney, Hon. Dr. Pyne and Mrs. Pyne, and Dr. A. R. Pyne, were guests of Earl Roberts at lunch yesterday. Much to his lordship's surprise, the Premier presented him with a silver nugget, set on a base of copper and nickel, and enclosed in a birdseye maple casket, which his sudden departure prevented the veteran from receiving while in Ontario. Earl Roberts expressed extreme pleasure at the gift, and his report that he had not been able to visit Ontario further. The nugget bore the following inscription: "Presented by the Department of Lands, Forests and Mines of Ontario on the occasion of the visit of Field Marshal Lord Roberts, K.G., to Toronto, August, 1908."

### TALKED TOO MUCH

Hamar Greenwood's Remarks Re the Church Rouses Ire of English.

London, Sept. 1.—Hamar Greenwood's remarks addressed to Canadians regarding Englishmen being overfond of their "booze" has aroused the ire of the Yorkshire Post, which devotes a column to the severe castigation of Mr. Greenwood. Greenwood's declaration that the State Church socially ostracizes and damns hereafter those who disagree with it, the Post characterizes as a disgraceful, untrue, unjust and abominable aspersion on the Church of England.

The Post quotes a Toronto correspondent as saying: "Everything here is directed against the Englishman. He is hated because he is an Englishman, and Greenwood is helping to keep up this hatred."

Paris was recently the scene of an endurance march of a peculiar kind. Only drummers attached to the military station at Paris were permitted to take part. The route selected was a "circle around Paris," a distance of 234 miles. The conditions were that along the whole route each participant must beat the drum continuously in march time. Only one of all those who

### A STARTLING STATEMENT

Kingston Druggist Says There Are Too Many of His Profession.

Toronto, Sept. 1.—"We are turning out too many druggists in Canada and it would be better if every corner of pharmacy in the Dominion would close for ten years."

This was the somewhat surprising statement made by Mr. W. C. Polson, of Kingston, at tonight's session of the first annual meeting of the Canadian Pharmaceutical Association. The discussion in the course of which Mr. Polson made his remarks arose on a report by the commercial interest committee which urged that some definite action should be taken with regard to the prevention of cutting in the retail price of patent medicines and "that every retailer should refuse to handle goods, the prices of which are not protected, and then the manufacturers would be brought to their senses."

Mr. J. E. W. Secur, of Montreal, suggested that some system should be adopted in regard to patent medicines similar to that of a company in the photographic goods business. "They definitely fixed the retail prices of their goods and on the handling of which it claimed there was a profit of 25 per cent."

Giants Take Double-Header Tighten Hold on First Place

Boston Bean Eaters Drop Two—Wiltse and Matthewson in Rare Form—Latter Scores a Shut-Out—Relieved by Taylor in the Ninth Inning.

Boston, Sept. 1.—The New York Nationals won both games of a double-header from Boston today, the first 4 to 1 and the second 5 to 0, and thereby tightened their hold on first place. Two left-handers opposed each other in the first game, Wiltse, for New York, and Tuckey for the locals. Both pitched well and Wiltse's headwork in the tight places pulled out the game for the visitors. Devlin's hitting which was a feature of the day, helped greatly to win the first game. His home run in the second inning, his single in the seventh and sacrifice in the ninth scored three runs. Ferguson pitched the last inning and three bases on balls and two singles gave the visitors four more tallies.

Mathewson Right. Mathewson was in splendid form and was only relieved by Taylor in the ninth when the game looked safe for New York. Other changes were made in the visitors' lineup to save their star players. The crowd was the largest seen at the National League grounds this year. The score: First Game.

Tigers Connect for Lone Bingle And Are Trimmed by Napoleons

Ty Cobb Scores the Only Hit—Great 'Slat' Holds Champions Down—Winter Opposing Pitcher in Twirlers' Battle—But One Run Made.

Detroit, Sept. 2.—Addis Joss held the champions to one lone hit in a pitchers' duel with George Winter. Therefore the Tigers dropped their third straight to Cleveland, 1 to 0. The great human slat was at his best for lining after lining. Danger threatened but once and that was in the first inning when he knocked down a terrific drive from Schmidt's bat and retired the third man with the bases full. While Winter was touched up for eight safety runs, he did not lose a run on his delivery. That came in the second when Lajoie singled, Stoval sacrificed, Clarke grounded to Coughlin and Birmingham singled. The rest of the day they were held from the plate. Winter showed the Tiger fans that he is worthy of the confidence Jennings placed in him when he secured him from Boston. He pitched a swell game and did some remarkable fielding. But he could not win without runs and the Tigers could not make that out of the great Joss.

THE RAIN BLOCKED MATINEE FINALS WILL TOUR AMERICA

Dorando, Near Marathon Winner, in Vaudeville.

Rome, Sept. 1.—America will have an opportunity of seeing Pietro Dorando, the near-winner of the Olympic Marathon, if no hitch occurs in the plan to send him on a six months' vaudeville tour of the United States. In order to win the applause of American audiences, Dorando is reported to have learned to 'sing in perfect English.' 'I think Mr. John J. Hayes was fairly entitled to the victory.'

ATTENTION! RUGBY FANS!

London, during the past two years has won exactly one match game of rugby football. Since 1894 London has had one championship rugby team. The winning team was in the intermediate ranks, and in 1900 defeated McGill University 11, 14 to 5.

Keene's Winnings EXCEED \$200,000

With Valuable Stakes to Come Stable Earnings Likely to Reach \$275,000.

New York, Sept. 2.—With the Futurity victory of Maskette added to the many successes of James R. Keene during the present season, the winnings of the vice-chairman of the Jockey Club have crossed the \$200,000 mark.

Thinks McGraw's Giants Have Shot Their Bolt

Dreyfuss Says That the New York Team Has Too Hard a Row to Hoe to Capture the Pennant—Picks Sox to Beat Tigers.

Pittsburg, Pa., Sept. 1.—Before leaving for Cincinnati last night Barney Dreyfuss said: "I think McGraw's men have shot their bolt. They played themselves out against Pittsburg last week. If they had landed one or two games from Chicago I believe they would have had a chance to win the pennant, but as it is I cannot see them as leaders. They have too hard a row to hoe from this out. They have 40 games to dispose of in 29 playing days and have not enough pitchers to pull through such a struggle."

CURRENT SPORTING GOSSIP BY SOUTHPAW

AN INTERESTING debate on "Resolved that London should again be placed upon the Rugby map" will be held at the Tecumseh House tonight. All thirty-third degree gridiron fans, their fathers, brothers, uncles and other relatives, are invited to attend. Let everybody that ever heard of the game turn out and give the boys a lift.

LONDON WAS NEVER better advertised than it was last winter, when it had one of the best intermediate hockey teams that was ever placed on local ice, and a successful Rugby team can be secured, the good work will be continued.

A TORONTO EXCHANGE publishes a windy article on "Oxygen and Victory" in which it is stated that, for athletic purposes the use of oxygen involves great possibilities. Correct. It might also work in newspaper work.

AND SPEAKING about oxygen. It would appear from the following squib that the Spectator has already been visiting the air tank once too often: "From the London International aggregation to the Eastern League's assembly which were under the weather recently, have entirely recovered from their troubles, and are now preparing for coming classics. There are also a few stakes for the two-year-old division, in which Maskette and other Keene youngsters will start, and they will be hard to beat."

HAMILTON HERALD: James E. Sullivan's threats as to what he will do to men who run in Canada are not having much effect on Bob Fowler, the big American distance runner who finished second to Longboat in the Boston Marathon race of 1927. Fowler will come here this fall and attempt to lower the Hamilton to Toronto record for the Mulqueen cup and medal. Fowler is a big, powerful runner with more speed and stamina than likely face the starter in the Flatbush, a seven-furlong dash. Although the felly will meet her Futurity rivals at a disadvantage in weights, the probability is that she will carry off the purse.

Following the Flatbush is the Century, a mile-and-a-half event for 3-year-olds and upward at one mile and a half. Ballot is being pointed for this stake, and there is small doubt that he will capture the coveted prize. These three stakes alone are worth approximately \$33,000.

Canadian Curlers Are Invited to Pay a Visit to Old Country. Toronto, Sept. 2.—A message from the Royal Caledonian Curling Club, of Scotland, received by Secretary James A. Macfadden, of the Ontario Curling Association, extends an invitation to the Ontario curlers to visit the old country this fall.

FIGHT FANS KEYPED TO HIGHEST PITCH. San Francisco, Sept. 1.—Fights followers are keyed to the highest pitch over the two championship battles between the little fellows, which will be fought next week. On Monday next Abe Attell and Owen Moran, the English featherweight, will battle 23 rounds for the championship. Both boys have entered the final stages of their training, and the betting so far favors Attell, odds of 10 to 7 being offered that the Californian will win.

NEW YORK HAS A NEW THREE-MILER. The Gotham Critics Sweet on Driscoll—He Does Three Miles in 15:33 4-5. The New York Herald, in its account of the Celtic Park sports, where John Flanagan set the 16-pound hammer record from a 9-foot circle at 179 feet 6 inches, says of a new three-miler performance: "It is perhaps a good thing that some of the Olympic champions show sense enough to keep out of competitions in the distance runs until they get back into tip-top shape again. Just at present there is a red-headed youngster from Yonkers, 'Mike' Driscoll, who is casting a big shadow over all the other distance runners. He has started hardly once all summer in a three-mile race in which he has not run rings around all the field. All of his victories, too, have been gained in such easy fashion that the enthusiasts are predicting some great battles with him, Bellairs, Elsele, and Bon-hag."

Unexpected Claimant for Oron-

Indian Laws.

Toronto, Sept. 1.—One of the knot-
tiest problems which has ever come
before the Indian Department of Can-
ada for solution has arisen over the
settlement of the estate of the late
Dr. Oronyhatekha. The problem re-
lates to that portion of his estate
which lies on the Mohawk Reserve, in
the Township of Tyendinaga, near
Deseronto. The reserve in question
consists of about 17,000 acres of land,
and the population located there, ac-
cording to the last report to the de-
partment, is 1,227. Residence on the
reserve is not confined strictly to In-
dians, as some sixty odd white people
have leases on the Mohawk lands, and
most of these lessees reside on the re-
serve. None of the members of the
band have absolute title to any portion
of the land, but rights have been ac-
quired, and holdings secured, which
have continued in the possession of
different Indian families for many
years.

of Woodstock, died last night after
illness of several weeks. His illness
resulted, it is said, from being
thrown from a streetcar when it got
out of control of the motorman and re-
bounded a curve violently. Mr. Mar-
tin was 65 years of age and was born
at Beachville. He was a lawyer and
was prominent in local Conservative
ranks. He took prominent part in
Masonic affairs in Canada and was
grand registrar of the grand lodge
for many years. For years he also
was on the committee for general
purposes and was at the time of his
death representative of the Grand

Government seven years ago to
map all of the towns of the country
has just made its report.
The commissioners make the as-
tonishing statement that they dis-
covered 7,679 towns which were not
officially known to exist and which
have heretofore had no federal con-
trol.
Many of these towns are of con-
siderable size, ranging in population
from 5,000 to 15,000 people. Most of
them are situated in the remote re-
cesses of the Sierra Madre, far re-
moved from ordinary courses of

**ITALIANS SAW THEM, TOOK TO TALL TIMBER**  
When Constables Came Up They Ran Off.

Guelph, Sept. 1.—Two of the three Italians who are alleged to have been confederates in a big water main shot Constable Knight, of Byng Inlet, while he was trying to arrest him, were located here by Chief Constable McRae, of Parry Sound.

Constable McRae, in company with Sgt. Kiekley, of the local force, drove to a shanty where over 100 men are employed laying a big water main. The two Italians were in the lane waiting for help when the officers drove up. One had just been paid, and the other had his hand out for the money when they caught sight of the officers. They did not wait an instant, but struck off across the fields on the run, one without his money. The crossed the river and gained the cover of a thick swamp.

Last night, or instructions from Chief Randall, two of the local force made a tour through all the Italian houses in the city. In a shanty on Metcalfe street they located one of the two, named Pezzano. They surprised him while at his tea, giving him no chance to offer resistance. The other, Michael Scott, is still free.

**LIVE STOCK AT WESTERN FAIR**  
Entries Coming Thick and Fast From Well-Known Cattle Men.

"We will be there with twice as much stock as we had last year," were the words of a well-known cattle man yesterday to Secretary Hunt, of the Western Fair, over the phone from Toronto. This is the way it appears at the present time from all sides. Enquiries of all kinds are coming in thick and fast to the general offices, and entries are simply flooding the place. Prospects are very bright for success, if the weather is only favorable. Space is at a premium in many of the buildings. Entries close on Sept. 10, and it is fully expected by that time that the space in every building on the ground will be completely taken. The attractions provided this year are out of the ordinary and are creating great interest. The Wild West Show will undoubtedly be a first performance of itself. The fireworks this year will consist of fifty-eight separate pieces, very many of which are entirely new; one effect being "A Railway Disaster." Two trains of cars are seen approaching from opposite directions. Smoke pours

**Shot His Comrade for a Raccoon**

Toronto, Sept. 1.—Mistaken for a raccoon at a distance of 49½ feet, Daniel Mewhort, aged about 35, of Mount Dennis, two and a half miles northwest of West Toronto, received a full charge of shot in the eye, face and neck from a 12-bore shotgun in the hands of Thomas Armstrong. The accident occurred at 5:15 this morning.

**ITALIANS SAW THEM, TOOK TO TALL TIMBER**  
When Constables Came Up They Ran Off.

Guelph, Sept. 1.—Two of the three Italians who are alleged to have been confederates in a big water main shot Constable Knight, of Byng Inlet, while he was trying to arrest him, were located here by Chief Constable McRae, of Parry Sound.

Constable McRae, in company with Sgt. Kiekley, of the local force, drove to a shanty where over 100 men are employed laying a big water main. The two Italians were in the lane waiting for help when the officers drove up. One had just been paid, and the other had his hand out for the money when they caught sight of the officers. They did not wait an instant, but struck off across the fields on the run, one without his money. The crossed the river and gained the cover of a thick swamp.

Last night, or instructions from Chief Randall, two of the local force made a tour through all the Italian houses in the city. In a shanty on Metcalfe street they located one of the two, named Pezzano. They surprised him while at his tea, giving him no chance to offer resistance. The other, Michael Scott, is still free.
