CHANCELLOR VISITS UNB

FROSH WEEK RIOT SHORT BUT WILD

A snake dance formed at the conclusion of Sophomore court held on Friday night, September 30, as part of the Freshman Week activities, descended on the city of Fredericton and left a trail of damage from one end of the city to the other. Obstructing traffic, the mob of students swept through the city streets, visited several theatres and a race track, stopping the evening race card for twenty minutes, and finally returning to the central sections of the town to break up in front of the women's residence at 11:00.

NEW STUDENT REGISTRATION HIGHEST EVER

The University of New Brunswick yesterday enrolled a record freshman class of 363 students at the first day of registration in the Lady Beaverbrook Gymnasium. Officials have pointed out that this figure does not represent the total enrolment of new students at the provincial university. This year, an additional 11 new students have registered in the Law Faculty, in Saint John, and some 25 new students will be enrolled in the school for graduate studies.

SPORTS NIGHT

The annual Freshman Sports Night at Lady Beaverbrook Gym drew an attendance of about 200 and was termed a resounding success by officials. Held last Wednesday, the evening's agenda included shuffle board, table tennis, volleyball, bowling and swimming. Winning team was captained by sophomore Bob Staples. Other members included Mike Breaux, Bill Brown, Dick Currie, Harold Davey, Jack Hulme, Dave Mowatt, Brad Rhineland, Warren Robertson, Rafael Sherman and Dick Steeves.

APPLICATIONS CALLED FOR MATH. PRIZE

The deadline for applications for the Dr. C. C. Jones Memorial Scholarship in October 19, 1955. In 1950, the Associated Alumni established the Dr. C. C. Jones Memorial Scholarship in the hope that the name of the alumnus who, as president and chaplain of the University of New Brunswick from 1906 to 1940, demonstrated to a great degree qualities of wisdom and leadership, would be perpetually honoured. The scholarship is of the value of \$250.00. It is awarded annually by the Council of the Associated Alumni during the month of October to a regularly enrolled second year student. The award is based on the record of the student in first year at the University as follows: (1) First division standing in Mathematics 100; (2) General standing in all other subjects of the first year; (3) The worthiness of the student. Students who already hold a scholarship worth more than \$300 are ineligible. Application forms for the Jones Scholarship may be obtained at the Alumni Office in the Memorial Student Centre. J. C. Murray, Alumni Secretary.

SPORTS NIGHT

The annual Freshman Sports Night at Lady Beaverbrook Gym drew an attendance of about 200 and was termed a resounding success by officials. Held last Wednesday, the evening's agenda included shuffle board, table tennis, volleyball, bowling and swimming. Winning team was captained by sophomore Bob Staples. Other members included Mike Breaux, Bill Brown, Dick Currie, Harold Davey, Jack Hulme, Dave Mowatt, Brad Rhineland, Warren Robertson, Rafael Sherman and Dick Steeves.

CHEER LEADERS

The cheerleading squad held its organization meeting on Friday afternoon at the Lady Beaverbrook Gym. There was a rather small turnout. Therefore, we are still looking for girls AND BOYS for the squad. Under the capable direction of Jim Bruce and Jim MacDonald, it is hoped that new and better routines can be devised for this year. Practice sessions are being held every day this week at 5 p.m. at the Gym. If you are interested, come along and be prepared to work hard.

Beaverbrook and Beanie

The University of New Brunswick's chancellor attended his first Freshman banquet Friday evening, and members of this year's Freshman Initiation Committee promptly made him an 'honorary freshman'. After being presented with his 'beanie', Lord Beaverbrook delighted more than 300 freshmen, deans, faculty members and students, by trying it on for size. Enjoying the unique occasion are, left to right, Dr. F. J. Toole, dean of graduate studies, and Jack Ernst, president of the Students' Representative Council.

PRESIDENT ANNOUNCES NEW BUILDING CONSTRUCTION

The provincial government has agreed to finance an addition to the engineering buildings at the University of New Brunswick, Dr. Colin B. Mackay, UNB president said last week. In an address of welcome to upper classmen returning to the provincial university, Dr. Mackay said the additions would provide for an additional 21,000 square feet of floor space. This year, he pointed out, the engineering faculty will have nearly one-half of the student body.

Winter Carnival Meeting

An open meeting will be held tomorrow evening in the Memorial Student Centre at 7:30 for all those interested in setting up a winter carnival on the campus. Representatives of the Students' Representative Council, the university administration, and the athletic department will be attending. The purpose of the meeting will be to ascertain if there is sufficient interest on the campus to warrant research into the possibilities of staging a winter carnival on the campus this winter. If possible a committee will be appointed from the floor to draw up an outline for the management of the carnival and a tentative schedule. All persons interested in the carnival idea and any organization wishing to contribute to it please attend this meeting. There will be no commitment to work on the actual carnival committee by attending. It will be a purely exploratory discussion on the merits of the proposal and the feasibility of promoting it further.

WILL OPEN LADY BEAVERBROOK RINK TO OFFICIATE AT FALL CONVOCATION

Lord Beaverbrook, Honourary Chancellor of the University of New Brunswick, has returned to the province for a lengthy stay. His Lordship, New Brunswick born British publisher and politician, a longtime benefactor of the University will be residing at the President's home on Waterloo Row. Arriving in Fredericton on Thursday last he attended his first University function as the guest of honour at the Freshman banquet on Friday evening, September 30. After speaking briefly to the assembled Freshmen he was presented with a freshman beanie and made an "Honourary Freshman".

30 Scholarships Announced Here

A list of 30 scholarship winners at the University has been released by Dr. Colin B. Mackay, UNB president. Combined value of the scholarships and bursaries listed is \$4,522. Following is the list. Oty L. Barbour Memorial Scholarships, \$125 a year for two years; A. James Unsworth, Saint John; William L. McCrea, Perth. Renewals to Basil Lowery, St. Andrews; Norman Hoyt, Millville. Boyer Scholarships, \$250 for one year; renewal to Wallace Jones, Woodstock. Dr. John Z. and Helen M. Currie Memorial Scholarship, \$50 for one year; Donald Richards, Sussex. Walter V. Donahue Memorial Scholarship, \$60 for one year; Karl B. Porter, Fredericton. Asa Dow Scholarship, \$45 a year for two years; renewal to John Corbett, Gagetown. J. K. Flemming Scholarship, \$80 a year for one year; Gerald D. Stevens, Hartland. Mrs. Agnes S. Foster Bursaries, \$500 a year for women students; Myrna G. Tomlinson, \$160; Janet E. Hornbrook, Bathurst, \$150; Evelyn Cuierson, Hartland, \$100; Constance Treacart, Milltown, \$50; Dorothy Bacon, Hampton Station, \$100. Captain Walter V. V. Foster Scholarship, \$50 a year for one year; David Norman, McAdam. Fredericton University Women's Club Scholarship, \$150 a year for one year; Mary Elizabeth Dayton, Marysville. Thomas E. Hoben Scholarship, \$35 for one year; George L. Bastin, Edmundston. W. A. Perkins Scholarship, \$80 a year, tenable for four years; renewal to Neal Wade, Fredericton. Frances M. Peters Scholarship, \$35 for one year; Gayle Wilson, Moncton. Gertrude Winnetred Smith Scholarship, \$25 a year for four years;

This is his Lordship's first visit to the campus since October of last year when he came to set up the first, and successful, art exhibit of his private collection of paintings. On this trip he is being accompanied by his granddaughter, Lady Jean Campbell. A benefactor of the University for some time Lord Beaverbrook has given many buildings and scholarships to UNB, including: The Lady Beaverbrook Residence, The Lady Beaverbrook Gymnasium, The Maggie Jean Chestnut House, women's residence, The President's Home, Beaverbrook House, Law School, countless scholarships, both undergraduate and graduate, and recently, The Lady Beaverbrook Rink.

renewal to Mary E. J. Elson, St. Andrews. Special bursaries from the President's Fund: John A. Colwell, Lancaster, \$1.00; Laurence Norman, McAdam, \$100. Renewal to Donald Babin, Edmundston, \$75; George F. Street, Perth, \$75. Veterans' Bursaries, \$100 each for one year; James Ian Collins, Rothesay; Gerald D. Stevens, Hartland. Frank McLeod Whelpley Memorial Scholarship, \$27 for one year; W. Huntley Wishart, Tabusintac. L. A. Willmot Scholarship, \$85

STUDENT CENTRE HOURS

Students will note that the Student Centre is open each night until 10:30, excluding Sunday and Saturday. Saturday it closes at noon. This centre may be opened at times not mentioned above, providing there are sufficient requests. Any suggestions should be forwarded to Mr. Jack Murray, Student Centre Director.

Applications Called

Applications for the following are to be submitted to the Applications Committee before noon October 17, 1955.

- Positions**
 - Campus Co-ordinator
 - Editor of 1956 Year Book

VOL. 88 FREDERICTON, N.B. OCTOBER 5, 1955

The Time Has Come . . .

This last week has been one during which we welcomed new students to the campus. We are also happy to welcome back, our chancellor, Lord Beaverbrook. He is a man who has given much of his time and wealth to the university. All of his benefactions have been directed towards the students, for their use and benefit. He is the best friend the students at UNB have ever had, or are ever likely to have. His Lordship should be greeted as a friend, not a visitor. He is as much one of us as the newest freshman or the oldest senior. We are in debt to this man for what he has done for us.

To be in debt is usually an unhappy experience; the benefits are few, if any, and the repayment hard. We at U.N.B. are in a strange paradoxical position. We are in debt, greatly so, our benefits have been great and will continue to be for some years, and the repayment cheap by comparison—gratitude. We, the students, have been the recipient of gifts from Lord Beaverbrook for many years, including the Lady Beaverbrook Residence in 1930, the Lady Beaverbrook Gymnasium in 1940, the Library in 1952, Beaverbrook House Law School in 1953, countless undergraduate and graduate scholarships and lastly, the Lady Beaverbrook Rink, situated on University Avenue.

Our debt to this man is tremendous, and it is not the debt of the University, it is the debt of the students. None of his Lordship's gifts have been to the university, they have been to the students of the university, only we benefit from them. It is high time we began repayment on this debt. Surely the students, through the S.R.C. can at least begin to show our appreciation for these gifts. The time has come to let the students, not the university, welcome and thank his Lordship for a change.

It's Up To You . . .

The Students Representative Council is having its first meeting of the year this evening and it would pay the members of the student body to take an interest in campus politics for a brief period for two very good reasons: the S.R.C. is without a president, and a budget meeting is fast approaching at which several thousands of dollars of your funds will be distributed about the campus. Each of these points deserves some consideration from each student.

With the vacancy in the position of president of the S.R.C. an election is imminent. With the problems which will be coming up during the remainder of the S.R.C. year it is essential that this year we have a man well-suited to the position and who will carry out his duties faithfully. The opening of, and the operation of, the student centre is but one of the problems confronting the president of the S.R.C. for the coming year. The office has grown in importance and responsibility overnight. The man YOU nominate and YOU elect will have to be prepared for a busy year.

With regard to the budget we ask but one question: If you were given a free hand in the spending of your share of the S.R.C. budget do you think you would allocate the funds in the same proportion as you expect them to be in two weeks time? This is our money. If you have any definite ideas on how it should be spent then speak up at the meeting or talk with your S.R.C. representative and have him present your case. If this is done then possibly we may see the budget allocated in line with student preference, giving the students the most value for their money.

What Do You Think?

(EDITOR'S NOTE — This is a new section which will be run every week in an effort to bring controversial topics before the student body for you to mull over, talk over, and possibly fight over. We hope to promote a little student thought and interest in student affairs. If you have any definite ideas on the subjects presented then we will welcome any letters to the editor you might care to write. We would like to know just what you do think.)

The constitution of the Students' Representative Council contains the following section which is still legal but has been ignored for the last few years. Should it be revised? Should it be officially discontinued? Should it just be ignored? WHAT DO YOU THINK?

ARTICLE II, SECTION 5:—The Students' Representative Council shall have jurisdiction to deal with students who conduct themselves in an unbecoming manner at University functions on or beyond the premises of the University during the collegiate term, and may, if it be deemed expedient, recommend to the President or Senate of the University of New Brunswick, a specific punishment for any student found guilty by them of conducting himself in an unbecoming manner as aforesaid. The power is to be vested in a committee of the Students' Representative Council which shall be responsible to the Students' Representative Council.

FOOD FOR THOT

(In the March 9 issue of The Brunswickan last spring a page was printed titled Food For Thot. It consisted of articles suggesting projects and changes which could be inaugurated on the campus by the students. Some of these and others are printed below in the hope that they might take hold and be worked on, or at least discussed.)

With fall weather and football sitting on the door-step a discussion about skiing is slightly out of place. A few words concerning the ski hut should not be. In a state of perpetual construction for a number of years, the U.N.B. ski hut at Royal Road is still without interior wallboards or an adequate heating system. A finished wooden structure on the outside, it has only the crudest of furnishings and two smoking and decrepid wood stoves on the inside.

The time and effort necessary to finish the ski hut up should be little, especially considering the number of rabid shuss boomers that dotted the hill all last winter. A bit of sweat could turn a useless shell into a worthwhile building.

While on the subject, why doesn't someone tackle the S.R.C. for a small sum and construct a brick, stone, concrete or mud fireplace out there so the hut could be used in the fall and winter months without freezing the occupants. If the ski club wanted to, they could rent the building out to campus organizations for smokers and alike.

It's food for thot.

STUDENT CENTRE NOTICE

To begin with the Memorial Student Centre will be open from 8 a.m. to 10:30 p.m. from Monday to Friday inclusive, and until 1 p.m. on Saturdays. These hours can and will be adjusted to meet the needs of the students.

The following students have been engaged to act in a supervisory capacity after office hours in the Memorial Student Centre:

Bill Barwick '55
 Dick Hale '56
 Dale MacMurray '55
 Jack Ernst '57

I urge the students to co-operate with these gentlemen at all times. The Cafeteria will open at 8:15 a.m. and close at 6:30 p.m. except on Saturday when it will close at 1 p.m. The hot dinner will be served from 11:45 a.m. to 1 p.m. and the hot supper will be available from 5 to 6:30 p.m.

For your information and guidance the price of the meat entree includes bread (roll) and butter, beverage (tea, coffee or milk) and a 5c dessert. If soup or juice is taken with the meal there is an extra 5c charge and if a 10c dessert is chosen it will cost another extra 5c more. If neither entree is selected A La Carte prices will prevail.

J. C. Murray,
 Director.

Thank You!

We the editors would like to thank those who have turned out for the staff of The Brunswickan and to publicly announce that, as long as there is a staff of adequate size and quality, as well as sufficient SRC support during the coming year, we expect to publish the best Brunswickan seen on this campus. Any person wishing to join us please contact the head of the department he or she would like to work in. New staffers are always welcome. As we have said: "We will train you."

We would also like to thank the Associated Alumni who have been responsible for the erection of the Student Centre. The facilities which The Brunswickan have received are, we are sure, the finest of any university weekly in the country. The change from the antiquated and inadequate facilities of our old office in H hut has been sudden, extreme, and pleasant. After struggling for years and feeling like a poor relation making the most of what we could get, we now have an excellent office and the finest of equipment. Our sincerest thanks to the Alumni of the University, the building committee, and a special thank-you to Jack Murray, the building director, for all his assistance and advice.

The office of The Brunswickan is a clearing house for campus information. If there is any way we can help you, just call on us. Students are welcome anytime.

JOIN CAMPUS ORGANIZATIONS

(Editor's Note)
 (This list of Student Organizations is published to acquaint Freshmen and new students with the extra-curricular activities on the campus. All the organizations are sponsored by the S.R.C. and all are worthy of your attention.)

Brunswickian
 This weekly publication is now being produced from the new offices in the Student's Centre and requires a large staff to operate efficiently.

University Investment Syndicate
 The University Investment Syndicate was organized in February, 1952.

The aim of the Syndicate is to provide its members with a working knowledge of the Stock Market and business methods. This knowledge is obtained by the actual buying and selling of stocks on the market and the trade of shares among the members. Further knowledge is obtained by films, speakers, and the presentation of reports on Canadian companies and investment topics by the members. The program thus supplements theoretical knowledge with practical experience.

Radio Club
 Formed eight years ago by a group of radio enthusiasts, this club has since been in active operation. Its main function is to foster interest in amateur radio among the students of U.N.B. Regular meetings of the club are held in its club room in the Electrical Building at which films are shown and talks given.

Flying Club
 This is the only university to have a flying club east of the University of Toronto. It is a splendid opportunity to keep up with the times at reasonable rate. The government offers a grant of \$100 to students qualifying for "Private Pilot's License."

Ski Club
 This is a very active club during the winter months. Members are able to get full enjoyment from the Club by making use of the Royal Roads, the jump, and trails. This year it is hoped that there will be larger membership in increased activity.

Swim Club
 One of the larger independent campus social organizations, the Swim Club was organized 5 years ago. Monthly meetings and frequent "splash" parties and get-togethers are its main activities. The only qualification for membership is the purchase of a club crest. Strictly a club for the student's enjoyment.

Pre-Medical Society
 Membership in the Pre-Medical Society is composed of students who are intending to enter the profession of Medicine or Dentistry. Several times a year speakers appear before the Society, and hospitals in Fredericton and Saint John are visited annually.

Year Book
 Working with usually a small staff, the Year Book editor produces the annual record of life "up the hill". Last year's book was judged the best in Canada by N.F.C.U.S.

Film Society
 This organization provides for the showing of exceptional films from time to time for students and others interested. It attempts to provide films that are not on the circuit of local theatres.

The Social Committee
 The Social Committee is that committee which plans and executes all social functions at the University on behalf of the S.R.C. The chairman of the committee has the power to select seven members to serve with him. Any suggestion you have will be welcomed by the chairman and committee members.

The chief functions of the committee are to manage three annual formal dances, set up the social calendar for each term and to generally supervise all social functions on the campus from September to May.

Debating Society
 This society represents the University in the Maritime Intercollegiate Debating League, and sponsors on the campus of particular interest to the students. It also fosters intercollegiate debating among the co-eds.

S.C.M.
 The Student Christian Movement is affiliated with the Canadian S.C.M., which in turn has international affiliations. It meets every Sunday evening in St. Anne's Hall for fellowship in study, worship and recreation. Throughout the week discussion groups are held on topics of particular interest. It co-operates closely with the local churches.

Canterbury Club
 The Canterbury Club is an association of all Anglican students in the campus, meeting every Sunday at Memorial Hall of Christ Church Cathedral. The activities of the club are both social and educational. Through the means of speakers, lectures and discussions, the members try to learn more about the church's teachings and the relation of the student to the church.

Newman Club
 The Newman Club is founded on the principles exemplified by the life of John Henry (Cardinal) Newman. The Club co-ordinates religious, educational and social activities of the students. Every Roman Catholic student is eligible to join the New Club. Meetings are held every other Sunday night throughout the year.

Bailey Geological Society
 The Bailey Geological Society was formed in 1946. Its aim is to initiate and maintain interest in geological matters.

Forestry Association
 The Forestry Association sponsors meetings throughout the year when special lectures are heard, or discussions held on topics of particular interest. The Hammerfest, the traditional social gatherings of the foresters, is organized by this Association.

Chemical Society
 The Chemical Society is open to all those who are interested in any aspect of chemistry. Films as well as lectures by special speakers and discussions are included in the program or regular meetings.

Drama Society
 In several plays presented each year it strives to acquaint the students with stagecraft, acting, directing and construction. Through this society the University is represented in both local and provincial drama festivals.

Upperclassmen, Sept. 29/1955 Memorial Hall

This is the third successive time in which many of you have met me for a few minutes at the beginning of another academic year. I wish to extend a sincere welcome to both new and returning students; it is good to have you on the campus once again as we begin the 168th year of teaching and instruction at the University of New Brunswick.

We had anticipated an increase in enrollment but not the large number of students who have registered. It is the largest entering class in the history of the university, if you except the years of veteran enrollments. In 1953 there were 217 new students, last year they numbered 277 and now we have 388. There will be a total enrollment of approximately 965 and these numbers will literally pack our lecture rooms and laboratories. However, new facilities are on the way.

The summer months have given us the opportunity to do more work on the grounds. You may have noticed that there has been a considerable amount of digging and leveling near the gymnasium. It has been our intention to make this area into a second playing field but the not infrequent situation of insufficient funds prevented us from going forward with such a project.

This summer we turned to a number of construction companies for advice and Mr. W. D. Buchanan of Byers Construction was good enough to organize the plan into a joint venture. His own company has done a good deal of the work, and we have received help from one of our graduates, Mr. Chester Campbell of Tractors and Equipment. Trynor Construction and Diamond Construction have agreed to do a part of the work, the Irving Oil Company has supplied the diesel fuel for the bulldozers, and J. A. Likely has supplied the pipe for the drains. The university's contribution has been limited to the staking out of a field on the hillside. I am sure that we are most grateful for the interest which these companies have shown in the athletic programme of the University of New Brunswick.

The National Federation of Canadian University Students

The National Federation of Canadian University Students is the national organization of Students Councils in over twenty universities. The object of the N.F.C.U.S. is to obtain certain objectives for the Canadian students and is the only representative of Canadian Students abroad. Each year a National Conference is held at which delegates from U.N.B. participate. Every student of U.N.B. is a member of this organization through the S.R.C.

W.U.S.C.
 World University Service of Canada is a national organization of students, and faculty which exists for the aid and the promotion of international understanding of other countries and the Peace Van Sale. As well as being a national organization the W.U.S.C. is as well an international organization. The major project of the past year was the supplying of money for the New Delhi Health Centre.

Campus Co-ordinator
 Appointed each year by the S.R.C. His job is to advise any campus group of the most opportune time to hold a social function or meeting, and avoid date conflicts.

Biology Club
 This club formed three years ago invites all students interested in Biology.

Engineering Society
 The Engineering Society is the oldest society on the campus, was organized in 1902. The society arranges for lectures, debates and open discussions and emphasizes the importance of public speaking for engineering projects and sponsors a technical paper contest among its members. Prizes are awarded annually to the winners. An annual dinner is held for the students and professors. A store for engineering supplies is located in the civil engineering building.

The Lady Beaverbrook Rink is nearly finished and will be opened by the Chancellor during his annual visit to Fredericton. I think you must agree that no university in Canada can boast of such a magnificent structure. It is a tremendous addition to our athletic facilities and one that we feared might never materialize. Now it is a reality and will be put into operation during the present term.

Lord Beaverbrook will arrive in Fredericton before the end of this week. He is most anxious to see his new building, and I would hope that the student body will express to him their appreciation for this latest addition to our athletic plant.

The Memorial Student Centre is finished and ready for use. It has been said that it is too luxurious and that the students will not appreciate such a fine building. I do not agree; and I have maintained that when surroundings are pleasant and the furnishings adequate then there is no difficulty in keeping things in order. I am counting on you to prove that my contention is correct when you begin to make full use of this new addition to the campus. Mr. Jack Murray, the alumni secretary, has been appointed to the position of Director of the Student Centre and the Alumni office is now situated in that building.

The University Senate and our graduates have been advised of your intention to again allocate \$3.00 of each student levy to assist in meeting the cost of this building. They have asked me to convey to you their very sincere thanks for your action. I should add that we expect to have all bills paid by the end of the present year.

Construction of the new Chemistry building has been delayed, but it has not been abandoned. Plans are now being finalized, all of our difficulties appear to have been surmounted and we will commence construction in October.

During the past two years I have been reminded more than once that, while the chemists were planning for a new building, the Engineering faculty has become the largest on the campus. This year it will make up nearly one half of the student body. I have held a number of meetings with the government in an effort to work out a solution to the crowded conditions that now exist in the two Engineering buildings. Happily we have obtained approval for the financing of a new engineering addition. It will provide for an additional 2,000 sq. ft. of floor space and the plans are already well underway. Construction will begin in May of next year.

Again this year we welcome several new members to the university faculty. Professor R. L. Rosenberg has come as the new head of the department of Mathematics. Other new members of this department are professor Louis Ysner, Mr. J. C. Hayes and Dr. E. J. Alexander. All three departments of engineering have new faculty members. In Electrical Eng. there is Mr. Douglas Rogers, Mr. Walter Smolinski and Mr. Robert Burridge. Mr. Fred B. Spitzer has joined the department of Mechanical Eng. and Mr. Eric Garland the department of Civil Engineering.

Other new members of faculty are Dr. W. E. Hale of the Department of Geology, Mr. Dugald C. Blue of the Department of Education, Dr. Walter Baker and Mr. N. R. Isaac of the Department of Physics, Dr. M. C. Davis of the department of German and Mr. Noel S. Jenkin of the Department of Psychology and Sociology.

Both Dr. A. G. Bailey, Dean of Arts, and Prof. James O. Dineen, head of the department of Elect. Eng., are on leave of absence. Dr. Desmond Pacey will act as Dean of Arts and Mr. Robert Collier as head of the Department of Elect. Eng.

I should say a word about placement, not only for jobs upon graduation but also for summer employment and for work during the university year. We have established a central office under the direction of Mr. A. A. Tunis, the university's public relations officer. All inquiries from employers will be sent to him and he will look after the placement of students who wish to avail themselves of his assistance.

Recent reports indicate that the shortage of university graduates continues and that no profession is over-crowded. This is clearly a good time in which to be in university.

Each year I have asked that you get down to serious work early in the first term, and I have cautioned against letting the weeks slip by. Now, I know that in every class there are a few students who can postpone work until February and still do well in May. Their advice is usually the opposite of mine and I do not intend to challenge their ideas. However, I would like to point out that there is little evidence to prove that it works for the majority of students. I would again suggest that you adopt a resolution of hard work and conscientious endeavour, and that you put it into practice during the first term, for it will prove to be little more than an empty promise if brought into operation in April. We may sympathize with your good intentions, but, in the final analysis, we must judge you on the basis of your accomplishments.

In its search for trained personnel, industry is becoming increasingly interested in the educated professional. You will need to be something more than a competent technician if you are to be in demand upon graduation. Industry is searching for liberally educated professionals and a recent survey indicates that companies are now eager to hire liberal arts graduates "because they want men who can deal with people and later become executives."

The need is for educated men and women, and I would like to remind you of the definition of such a person as given by the president of Queen's University, Dr. McIntosh has said:

"A person who bears the mark of education is one who can range freely beyond his parish pump, whether that pump be a great metropolis, the quiet countryside, a busy market place or an ivory tower built of limestone. Man rises, at times, above the animal world not merely because he has a thumb which turns inwards, but because by communication and record he can experience the culture of many lands and be the heir of all the ages."

"With technical competence, honest detachment, mastery of words, freedom in time of space, the educated person finds balance and poise. It is not the inert balance of a pyramid set on a rock. It is the balance of a well-found vessel in swift-moving waters. The test of maturity is the ability to live with uncertainty and to reckon with the risk."

I feel that last year was one of definite progress in the life of the University of New Brunswick. There were few incidents to mar the course of events and only some ancient cannon received a shaking-up. This year, the Jones Boys once more ring out from the Beaverbrook Tower. Those gentlemen were never able to make their saw-mill pay, but then they were not graduates of U.N.B. If we will all work together during the coming year, then this university will continue to move forward, and you will not be faced with the Jones Boy's dilemma when you have left these halls to play your chosen role in the years that lie ahead.

ANYONE FOR THE LINE?

NO DEPTH UP FRONT MAY HINDER BOMBERS' CHANCES TO REPEAT

Though as yet no gray strand has invaded the blond thatch of Mr. Moose Fleming, UNB Red Bombers' football professor, The Brunswickan entertains an inkling that some will manage to creep into prominence before the upcoming varsity grid season grows very old.

The reason is that Moose will probably have to go to the post with a front line of mere paper-thin depth, offsetting somewhat a backfield which looks like the most formidable in Father Fleming's domain. The absence of man-power is most apparent in the middle of the line and as a result it is likely that some 60-minute performances will be needed. Which is not conducive to top efficiency.

Without a strong line even a backfield composed of Lujacks and Krois couldn't guarantee victory. And Moose realizes this as well as anybody. His understanding of the situation is evident at team practices when Moose approaches player after player seeking volunteers for the perilous posts of guard and tackle.

And the search continues on the campus. He may be seen wandering about, mentally computing students' poundage and wistfully hoping some gigantic lad will come to him and spout: "Mr. Fleming, can I try out for your line?"

Among those currently working out to fill the vital front spots, Sonny Clark, Stan Trzop, Stan Williams and Mike Gordon have impressed coach Fleming most. And there are others, too, he hopes will develop in time to help the Bombers capture a second New Brunswick Canadian Rugby Football Union title in succession.

Victims of Unique Amputation

Moose counts in his sleep the names of at least ten first-stringers who have made premature departures from the squad. The loss, which is the basis for weakness in the line as six were linemen, was accomplished without a graduation, a neat feat in any league.

Gone for some reason or another are such 1954 standouts as quarterback Dennis Brophy and Rod Clarke, halfbacks Hugh Auger and Bob Harris, fullback Al Moller, centre Pat Gundry and fellow linemen Bob McLean, John McCoomb, Lindsay Smith and Murph Cain. Another missing member of the lineage, Tom Wilson, may be back but at press time no definite word on him could be learned.

For those who are not awed by this array, we would like to point out that:

- (1)—Gundry and Cain were NBCRFU all-stars the last two years;
- (2)—McCoomb, Auger, Smith and Harris were all-stars last year; and
- (3)—Brophy was all-star quarter in 1953 and was only shaded for that spot a fall ago.

Furthermore, Harris was the best Moose had last year — and that is the coach's opinion. Says Fleming, "He was one of the few guys I have ever seen who could both plunge and run broken field effectively."

But we're still the champs!

But boys and girls, professors and doctors, let us not despair for our Bombers. We have plenty to make it more than interesting for the other three squads who would like to remove the Senator Burchill Trophy from our Memorial Students' Centre.

One great addition is that of Mr. Joey George, the league's most feared backfielder the past few seasons. Formerly a campaigner for those terrible Tommies Vance Toner lets loose, George will be in Red and Black this year before moving on to Dalhousie U. of Halifax for pharmacy. It was this same George who scored four touchdowns for St. T. in '53 when Tommies whipped Bombers 43-25 for the league title.

Others behind our line(?) will be Ian Watson, Guy (All-Star) Doiron, Dave Irvine, John Turnbull, Phil Bird, John Courtice and Butch Bouchard. The last two named are the candidates for the vital QB position and are battling tooth-and-nail for the honor.

And despite the previously mentioned difficulties, the Brunswickan sports department has to pick the Bombers to repeat as champs — but only after much torrid action in the most even NBCRFU race in the league's young history.

Looking For Eighth Straight Trophy Win

UNB Soccer Squad Meets Mount Allison In Two Tilts

With the 1955 soccer season for UNB set to open Oct. 15 against Mount Allison University at Sackville, our 11, under coach Bob Spurway, is fully confident of snaring the Canon Clarke Trophy for the campus for the eighth straight time.

The game in Sackville will be the opener of a two-tilt, total-goal set to determine the New Brunswick representative against the Nova Scotia champs in a sudden-death contest for the tri-province crown.

The return game against Mount A is slated Oct. 22 and the Maritime championship effort will be on the campus of the N.S. Kings, probably Oct. 23.

UNB's domination of the Clarke competition is a story in itself. With the revival of soccer, UNB watched Mount A capture the Clarke cup the first season and then inaugurated its tremendous sweep string.

Coach Bob Spurway, who is freshman tutor, is a former SRC

president and now a member of the staff at the provincial Forest Rangers' School. He likes the chances of the team he has on paper and is pleased with what he has witnessed in workouts to date.

Our club will be very strong offensively, the coach continues, adding, of course, that the Clarke Trophy is in no danger of being suddenly evicted from its spot up the hill.

Captain of the 1954 team, Dick Fitzmaurice, and another star,

Willard Morrell, have not been out for team sessions but it is hoped they will join the squad later.

Players who have been working out include Lorne Baker, Joe Baxter, Fred Clark, Mark Connell, Dave Cooke, Art Cowie, Stephen Fay, Hanz Foerstel, Paulo Garcia, Rocky Knight, Eric McAlary, Jim MacKenzie, Bob McKinnon, Stuart Mills, Dick Norrad, Theophilus Okonkwo, Andy Patterson, Bill Russell, Jim Scammell and goalie Leon Taylor.

Looks Like Tight Race

If the NBCRFU opener is any indication of what is to be offered by the four Union components this season, football fans hereabouts certainly are in for a frantic fall.

In the 11-tilt, Coverdale Navy-Trojans were pressed all the way before downing Saint John Wanderers 17-17 at St. Peter's Park in Saint John. Navy-Trojans will be UNB's first opposition, this Saturday at the Hub, and Saint John will be here Oct. 15 for Red Bombers' only home game of the regular season.

The brief regulation slate sees each team play three tilts. It ends Oct. 22 and will be followed by semi-finals and final.

Here is the schedule:

- Oct. 2—Navy - Trojans 18, at Saint John 17.
- Oct. 8—UNB at Navy-Trojans.
- Oct. 8—UNB at Navy-Trojans.
- Oct. 10—St. Thomas at Saint John.
- Oct. 15—Saint John at UNB.
- Oct. 16—Navy - Trojans at St. Thomas.
- Oct. 22—UNB at St. Thomas.
- Oct. 29—Semi-finals at UNB and Coverdale.
- Nov. 5—Finals.

Amby Alarmed At Aquatic Accidents

The high rate of non-swimmers among students at UNB this school year is a dangerous sign. Amby Legere, assistant athletic director, told a Brunswickan reporter this week.

As a result, an increase in the number of classes on the fundamentals of water safety will be made. Amby adds that there are at least 75 Joes and Jills up the hill who should take part in the program.

Amby points out that "this is one of the most vital points on the varied list of activities available through our department." About one-third of summertime accidents result from drownings and furthermore, there is an exceptionally high fatality rate among engineers on the job, he emphasizes.

Both rates could be cut drastically if people would only spend enough time to acquire an education on self-preservation in the water, he contends. This will be available on the campus this year as in the past and a schedule of classes for novices will be announced shortly.

Intramural Interest Is Increasing

A boom year for intramural athletics on the UNB campus is in the offing, athletic department officials headed by P. C. Kelly, told The Brunswickan after fighting their way through the huge volume of athletic questionnaires completed by registering students last week.

No total of participants in the program is available at present. However, officials do not hesitate to state that the current year looks like it will be the busiest and best in many a moon.

Some sports are already under way and most others falling into the fall category are in the advanced stages of organization. If students really go all out this year, about 25 different sports would be contested before next May.

A meeting is slated at 1.30 this afternoon at Lady Beaverbrook Gym for all interested in softball. Yesterday, a meeting for intramural soccer was on the agenda. Athletic department officials have announced that any additional teams wishing to take part in either of these two sports should register with them immediately.

Schedules for all intramural sports are to be posted on campus bulletin boards and, of course, will appear in The Brunswickan as soon as they are available.

Top Tennis-ites' Team Testing Time

Fifteen students are entered in intramural tennis play, the purpose of which is to select a six-member varsity team to represent UNB in the Maritime Intercollegiate Tournament here October 15.

The Red and Black squad will be composed of three men and three ladies. Each sex will be represented by a singles player and a doubles team. That is the maximum allowed each school in the tri-province meet.

Burt Simpson of Fredericton, a leading tennis personality in the province, has been named UNB coach.

Here are the candidates for varsity positions:

Men—Les Blight, Doug Ferguson, John Gorman, Ron Manzer, Andy Patterson, Bill Ross, Mike Schofield, Jeff Starr, Bill Stothart.

Ladies—Iris Bliss, Barb Evans, Jane Hickman, Diana Johnstone, Pam McCready, Jane Neil.

SEARS SINKS DOUGHERTY

John Sears is king of the campus golfers.

He claimed the crown in a special playoff against Keith Dougherty by seven strokes, 80-73 Sunday at Fredericton Golf Club. The pair had tied for first place with 80's in the annual intramural golf tourney Friday on the same links.

Sunday's playoff was conducted in conjunction with the annual faculty-students meet, won 23½-12½ by the students. For the first time, female golfers competed in the faculty-students activity, co-eds deaousing lady faculty members and faculty wives, 4-11.

Here are the individual gross scores in the intramural tourney:

Men	Men
Keith Dougherty	80
John Sears	80
Andy Patterson	88
John Burns	93
Bob Ross	94
Bill Paterson	97
John Gorman	98
Sam Fields	103
Dave McCoomb	107
Bill Sargent	108
Co-eds	
Pam McCready	57
Iris Bliss	72
Diana Johnstone	79
Lois Lange	89

President's Office, Oct. 5 (Francis Miller)—There are four ways of spelling to, I mean too, I mean two, no I mean 2, it was announced by Dr. Colin B. Mackay, president of the University of New Brunswick today.

He declined to elaborate further, too.
