#### OPENING THE LIBRARY

The Athens Public Library was opened on Thursday evening last and the large number of books that have since entered into circulation testifies to the need that existed for such an institution. The reading room has been very popular, and when properly furnished it will be the resort for a

wery large number of young and old.
The library will be open Tuesday,
Thursday and Saturday evenings from
6.30 to 8.30. Those wishing to be come members are requested to leave their names and fees to Jan. 1st, 1904 (25c) with Mr. J. H. McLaughlin, the librarian. A large number of new books have been placed on the shelves and this number will be doubled in the ourse of a few weeks.

The best daily and weekly papers are open to the public daily from 2 to 9.30 p.m. in the reading room, and when the fyles to keep each number in permanent position arrive, the reader will be saved much trouble in searching for his favorite magazine or paper.

#### ATTACKED BY A BULL

Mrs. Gifford, wife of Mr. Geo. Gifford, a farmer living just out of Portord, a farmer living just out of Porrland village nearly met her death on Thursday last from the ferocious attack of a three year old bull. The animal, although reputed to be "ugly" had up to milking time that evening never shown any disposition to attack any of the family, but for some reason on the evening in question he suddenly rushed on the unfortunate woman and tossed her into the air tearing an ugly wound almost penetrating to the bowels and followed this up by a second onslaught inflicting a gash almost as bad as the first one. Mr. Gifford attacked the animal drawing the brute's attention to himself and i would have fared badly with Mr. Gifford strong and active as he is, had not his dog seized the bull by the nose and hung on until the infuriated beast was thoroughly subdued. During Friday and Saturday Mrs. Gifford suffered severely and it was scarcely hoped she could live but the wounds although very deep did not penetrate the bowels and she is in a fair way to recovery The animal had been sold and was to have been taken away that day .-

Marguerite J. Singleton, daughter of Mrs. John Singieton, of that place, to Mr. Fred Morris, of Forfar. The guests present were the relatives and intimate friends of both parties. The bride was gowned in a costume of white silk and crepe de chene, and carried a bouquet of bridal roses. The bridesmaid, Miss Eva Singleton, was gowned in white taffeta silk with overlace, and carried a bouquet of carnations. The maid of bonor, Miss Jessie Singleton, wore voile with over-lace, while the flower girl, Miss Mildred Singleton, was gowned in white organ-dy and carried daisies. The attendants on the bride were all nieces.

#### NEWBORO RACES

Athens horses figured quite prominently at Newboro Fair last The record is as follows:-

Vina (John Mulvena)2 1	1	1
Mermaid (Jas. Ross) 2	2	2
Billy K (Eber Wiltse) 3 3	0	0

#### LADIES' AID OFFICERS

The Ladies' Aid of the Methodist church met at the home of Mrs. W. F. Earl on Thursday afternoon last and the following officers for the coming

year were elected :—
President—Mrs. I. C. Alguire. 1st Vice—Mrs. T. G. Stevens, 2nd Vice—Mrs. A. Kendrick. Secretary—Mrs. J. H. Ackland. Treasurer—Mrs. E. S. Clow.

#### SATURDAY BASEBALL

In the forenoon of Saturday last the Public School team defeated the Y.B. C.A. team by a score of 17 to 13.

In the afternoon a small crowd gathered at the baseball grounds to witness the match between the Benedicts and the Bachelors and as there were more than enough Benedicts who wanted to play to make up a team, two games were arranged. The first was between the old Ben's and the juvenile players of Athens and resulted in a win for the former by a score of 7 to 4. The later match was between the new-ly-made Benedicts and the Bach's proper and resulted in a victory for the patrons of single blessedness by a score of 5 to 4. In the first match Wiley, of the winners, more than distinguished himself on first base.

#### CLUBBING OFFER

This is the time of year when newspapers arrange for next year's business, and the Reporter makes the following

UNTIL JAN. 1, 1904

Reporter and Mail & Empire. . 25c Reporter and The Sun.....25c

#### UNTIL JAN. 1, 1905

The Athens Reporter, combined with any of the above weekly papers will be sent to new subscribers from ow until the end of 1904 for \$2.00. Present subscribers for the Reporter will be given a special rate for any of hese city papers.

#### A GREAT EXHIBIT

MORRIS-SINGLETON

On Wednesday last, 9th inst., at high noon at St. Luke's Anglican church, Lyndhurst, the rector, Rev. Mr. Metzler, performed the marriage ceremony that united for life Miss exhibit Mr. G. L. Riches, proprietor of the Island City Music Store, Brockville, offers a \$7 yiolin. These very liberal prizes will no doubt bring out an immense display, and every lady in the county should see it. A large number of articles valued at from \$3 to \$6 are offered for competition in other classes, and it is probable that at this fair the Society's fine buildings will contain the largest and best exhibit ever shown in Delta.

#### Be Quick

Not a minute should be lost after child shows symptoms of cholera infantum. The first unusual looseness of the bowels should be sufficient warning. If immediate and proper treatment is given, serious consequences will be averted. Chamberlain's Colic. Cholera and Diarrhoea Remedy is the sole reliance of thousands of mothers and by its aid they have often saved their children's lives. Every household should have a bottle at hand, Get it to-day. It may save a life. For sale by J. P. Lamb & Son.

John W. Russell, Delta, has been appointed bailiff of the 6th division court of Leeds & Grenville, in place of Walter H. Denaut, deceased.

Dysentery causes the death of more people than small pox and yellow fever combined. In an army it is dreaded more than a battle. It requires es two or three weeks after spraining prompt and effective treatment. his ankle, and it is usually two or three months before he has fully reDiarrhoea Remedy has been used in covered. This is an unnecessary loss of time, for in many cases in which Chamberlain's Pain Balm has been has cured the most malignant cases, both of children and adults, and under the most trying conditions. Commentary- I. The true life (vs. 1, 2). 1. Forasmuch — Compare 3, The apostle points us to Christ's sufferings as an example. Arm yourselves.—With a resolution such as animated him to suffer all the evils to which you may be exposed in the body, and particularly to suf-fer death if called by God to do so for your religion. For this will be armor-proof against all of your enemies.—Benson. He that hath suferred, etc.—It is only by a severe conflict in which you must be armed with a readiness to suffer with Christ that the power of sin over you can be made to cease. As long as we are in the flesh, we shall need to dight against sin; but we shall con-tinue to conquer through Christ. 2. No longer should live.—Refer-ring to the preceding clause "arm ring to the preceding clause, "arm yourselves with the same mind that was in Christ, in order to live no longer in the flesh—to the lusts of men, but to the will of God." cannot deliver ourselves from the filth of sin; but when we are renewed, taking on a likeness of Christ, then we are armed against the lusts and defilements of the world. To the will of God.—This will be a new life. The only true way to live is to live in harmony with the will of God. What he wills is best and to

II. The old life (vs. 3, 4). May suffice—A gentle way of saying we have spont too long a time in our sins. Of the Gentiles—The term sins. Of the Genthes—the ter Genthles here means evil ones; i temperate, wicked and wanton; i dulging in every sin forbidden God and man. Excess of wine, etc Intemperance was c curse in apostle's day as well as in our our own. He utters against it condem-ation of no uncertain sound. Ev-ery person and especially every man of God should be outspoken against intemperance. Abominable idolatries wrought into all forms of literature and art was blazoned shamelessly in the decorations of private house and enshrined in the temples of the gods the contrast of a chaste and godly conversation in the Christian community witnessed for the saving

Christian is "good and accept." (Rom. 12, 2.)

and cleansing power of the gospel.

4. Think it strange—It is strange to a carnal man to see the child of God disdain the pleasures of sin: he know; not the higher and purer purer pleasures that the Christian is called to.—Leighton. Excess of riot.

Pattern frameworks and contents to the contents of t Rather, "same-slough of debauchery." Speaking evil of you — The wicked and dissolute always have a

where and dissolute always have a sneer for those who refuse to share in their evil doings.

III. An account to be rendered to God (vs. 5, 6). 5. Shall give account—He hath the day set: and it shall surely come, though they think it far off. Ready to judge—See chap.

1. 6. As the salvation of the godly is fully arranged, so is the believent fully arranged, so is the judgment of their culminators, whether living

or dead.

6. The gospel preached also—They that formerly received the gospel received it upon these terms. And they are now dead. All the pain of dying is over for them. If they had not also to their sins by the gospel they had died in them, and so died eternally. It is therefore a wise prevention to have sin judged and put to death in us before we die. If we will not part with sin, if we die in it and with it we shall perish forever; by with it we shall perish forever; but if it die first, before us, then we live forever.—Butler. Live......to God —A bitter fountain sends forth bitter waters; a sweet fountain waters that are sweet. A soul living in God will show that life by action. If the heart be right in the sight of Jeho

whethe outward man will reflect his image. IV. Various exhortations (vs. 7-11). Z. End.....at hand—"This might have been said at any point of the world's been said at any point of the world's duration. Be sober, and watch unto prayer—Sobriety is the friend of watchfulness, and prayer of both. When the affections are kept quietly under control and care is taken that even in lawful things they follow the world but lightly; when necessary duties of this life are done faithfully, yet with a mind free and disengaged, then the soul can more easily turn to spiritual things and and be ready continually for divine meditation and prayer.

8. Above all things—Paul puts love at the head of the Christian graces, in his matchless chapter on charity (I. Cor. 13). Peter likewise does the same. Paul goes so fan as to say. "Love is the fulfilling of the law." Charity must be as the crown, or the outer garment. Cover.....Sing—It delights not in undue disclosing of brethren's failings, and doth not expose them willingly to the eyes of others.

9-11. Hospitality-As would often be be essary toward the suffering Without grudging — Not murmurant the cost or trouble. The gift —Endowment of any kind, but essary to the cost of the -Endowment of any kind, but especially that conferred by the Holy Spirit — money, ability, influence, or whatever God has given. Good stewards—Wratever we have is to be "ministered" to others as God may direct. We are his stewards. we call our own came from God and belongs to God, and we should, as "good stewards," use it to His glory.

PRACTICAL SURVEY. The ministry of suffering occupies a prominent place and performs an essential and necessary part in the work of human redemption and salvation. In carrying forward to a successful completion God's purposes and show for the redemption of man and plans for the redemption of man there was necessarily entailed on the patriarche and prophets—the types of the Jewish dispensation and on the Son of God—the antitype of the the son of God—the interpret of the control of suffering. The person who would "cease to do evil" and "learn to do well" must pass through an ordeal of suffering so intense as to be compared in the Scriptures to the experience and passion of Jesus Christ, who was preeminently the "man of sorrows" and who "suffered for sins, the just and who "suffered for sins, the fust for the unjust, that He might bring us to God." The term suffer, or its equivalent stands out very conspicuously in this "first epistle general of Peter," as it relates to Ebrist and His followers.

Three things are involved in man

abstaining from evil: 1. The crucifixion of the selfish life. The principle of evil, denominated "our old man" (Rom. vi. 6, Ephl. iv. 22, Col. iii. 9), "the flesh" (Gal. v. 24). This is the source from whence all evil proceeds (Matt. xv, 19); and this is the personality that must suffer and sooner or later die in order 'that the individual may abstain from evil (Matt. xvi. 25, Rom. vi. 5, Gal. ii. 19, 20). 2. The practice of self-denial. The principles of self-denial are capable of a broad and deep applications as they stand reflated to (a) inherent selfishness and its ramifications and relations when we take the initial step in the Christian life (Mark viii. 34, 35, Luke xiv. 26), and also in (b) the destruction of inherited depravity (John xil. 24, 25, Rom. xili. 14, Col. iii. 5). (c) The bodily appetites and passions must be kept, under due restraint, if we would abstain from evil. Paul remarks in regard to his own practice, "I buffet (Greek, bruise) my body, and bring it into bondage; lest by any means, after that I have preached to others, I myself should be rejected" (I. Cor. ix. 27, R. v.) 3. The being fully identified with the Lord Jesus in antagonism to all evil and in earnestly and persistently laboring to promote the principles and purity of His kingdom persistently laboring to promote the principles and purity of His kingdom in the earth. Jesus was aggressively good as well as quiescently good. He was the Lion of the tribe of Judah as well as the Lamb of God. We must "abhor that which is evil" as well as "cleave to that which is good" (Rom. xii. 9). We find that "the doctors don't

agree" in their construction of the agree" in their construction of the two difficult points in the lesson found in verses one and six. We can only do the best we can to construc-them in accordance with the tenor of Scripture. We will give the opinion of two divines on verse six which seem to harmonize with the teach seem to harmonize with the teachings of the Bible. "For this purpose hath the Gospel been preached ever to the dead (i.e., the Gentiles), that although they might be condemned indeed, by men in the flesh (their per indeed, by men in the flesh (their persecutors), yet they might live eternally by God in the spirit." "The word 'dead' here must be taken to mean those who are dead while they live. But even with this alteration, it is difficult to see clearly what the verse means. Now it is said that the construction of the Greek allows of the insertion of the word 'although'; just as in a passage in Rom vi 17. the insertion of the word 'although'; just as in a passage in Rom. vi. 17, which we never read without mentally inserting the word 'although'. If that be so, the meaning is evident: "For to this end was the Gospel preached, even to them who were dead in sins, that falthough! they might be judged, condemned, persecuted, fut to death according to men in the firsh, they might live according to God in the spirit.' Spiritual life is God's end with us, let men do to us what they may. And the spiritual life is often developed by means of what men do to us. Every act of of what men do to us. Every act of persecution is to be followed by a deeper peace, a holier purity, a higher power."

James Craig.

THE TUBERCLES on the skin of scrofulous people produce the bideous disease cate-tupus. Wenver's Cerate will save the skin Cleanse the blood with Weaver's Syrup.

The Charm of Automobile Touring Despite the rainy and disagree weather which has prevalle over a large section of the country uuring the greater part of the past season, there has been a remarkable amount of touring accomplished, much of it under very adverse cir-cumstances, from which the sport should derive great benefit. The amount of touring accomplished, much of it under very adverse circumstances, from which the sport should derive great benefit. The charm of automobiling lies less in the sport itself than in the unusual contact with people and things, and, conversely, the touring automobilist journeying leisurely over country highways and byways, stopping wherever inclination may decide (or circumstances compel), brings the charm of the new pastime and the advantages of the new vehicle most strikingly to the attention of the people with whom he comes in contact, and so does missionary work of a vegy substantial nature. Moreover, the touring automobilist is usually a law-abiding individual, who keeps within reasonable limits of speed, and so does much to counteract the evil effect of the automobile act the evil effect of the autor ber.-H. P. Burchell in Leslie's Weekly.

Miss Agnes Miller, of Chicago, speaks to young women about dangers of the Menstrual Period -how they can avoid pain, suffering and remove the cause.

"I suffering and remove the cause.

"I suffered for six years with dysmenorrhea (paintul periods), so much so that I dreaded every month, as I knew it meant three or four days of intense pain. The doctor said this was due to an inflamed condition of the uterine appendages caused by repeated and neglected colds and feet wetting.

"If young girls only realized how dangerous it is to take cold at this critical time, much suffering would be spared them. Thank God for Lydia E. Pinkham's Vegetable Compound, that was the only medicine which helped me any. Within three weeks after I started to take it, I noticed a marked improvement in my general health, and at the time of my next monthly period the pain had diminished considerably. I kept up the treatment and was cured a month later. I am like another person since I am in perfect health."—Miss A was MILLER, 35 Potomac Ave., Chicago, Ill.—\$6000 forfeit if original of above letter proving generalessee cannot be produced.

"The Inspection and Sale of Weeds" Bill.

DISCUSSION IN PARLIAMENT

Department of Agriculture, Commissioner's Branch.

Ottawa, September. We read in Greek mythology of a Contest between Hercules and the guant Antaeus, son of Mother Earth, and famed for his strength and skill in wrestling. Although Hercules was able to throw his antagonist to the ground, from each fall Anateus would ! vated lands. During the last year and must either be doctored and get or two a great deal has been done by the agricustural departments through the agricultural departments through the medium of newspapers, builtetias, and agricultural meetings to disseminate information on this subject. The process of education, however, is necessarily slow, and it seems to be the general opinion of progressive formers, revealed by the farmers' institute meetings all over the country that the time has come when try, that the time has come when

Hersulean Effort

must be made to lift this giant of weed domination from the earth and destroy it. The investigations showed that in many instances a large proportion of the seed sold would not grow; in other cases som-ples contained a large amount of dirt and other laert matter. This condition of affairs was oad enough, but it was comparatively unimport-ant in view of the fact that many of the samples of grass and clover seeds were found to be foul with the seeds of noxious weeds, which can only be eradicated from the soil by

The proposed bill, which required that goods offered for sale, be tested for purity and vitality, and graded according to quality, was the result of two years' careful study, and he did not think it would interfere with leading to the control of the control of

ation next year.

Before the committee rose to report progress the Minister of Agriculture summed up the result of the debate in the following language: "I think I have accomplished what I had hoped for in the discussion. I have had the advantage of the opinion of the members of the House which I asked for when I first introduced the bill in committee. I amsure that these opinions and the discussion which has arisen here will assist very much in the perfecting of this law. If its passage is delayed assist very much in the perfecting of this law. If its passage is delayed for another year, the discussions which have taken place this session will not be lost by any means."

Then Mr. Bruce, of Hamilton, the well-known seedsman and a member of the Opposition, closed the debate with the following words of tribute to the spirit in which the bill had been handled by the Minister: "I desire to thank the hon. Minister of Agriculture for the painstaking and careful way in which he has listened to every suggestion that has been offered." Yours very truly, W. A. Clemens, Publication Clerk.

Housekeeping on an Ocean Lines Mr. Franklin Matthews contrib-Mr. Franklin Matthews contrib-ntes to Harper's Weekly an article, illustrated from photographs, on the subject of "Housekceping on an Ocean Liner," in which he describes the part of the ship that passen-gers are not allowed to visit, where the "between decks' work is done, and some of the curious and interesting plans for ocean housekeeping."
"A day or two before a great steamship sails," writes Mr. Matthews,
"the general passenger agent sends
an estimate of the probable number of passengers that the vessel will carry, to the port steward. The port steward has already received, usually from three houses, an estimate of prices. He then makes his requisitions, and early on the morning on which the vessel sails the trucks come lumbering down to the pier, and in a few hours the goods are stored on board. The ship has taken on by this time, 3,000 to 3,500 tons of coal, about 500 tons of water, thirty tons of ice, and several of passengers that the vessel will carry, to the port steward. The water, thirty tons of ice, and several thousand tons of cargo. Most of the port stewards of the great lines spend from \$1,000,000 to \$1,-

two-thirds of which consists of beef. There are generally 10.000 pounds of poultry—chickens, ducks, squabs, grees, and other fowl on board. The meat supplies include calves' heads, kidneys of various kinds, sweet-breads, ox-tails, sucking pigs, and indeed, every kind of delicacy that the butcher can furnish. In fresh vegetables, 660 heads of cauliflower, 400 bushels of beets, 15 barrels of onions, 600 barrels of potatoes, locks, cabbages, beans and egg-plants, and other supplies in sea-

rise from Mother Earth stronger than before. Hercules finally killed him by lifting him from the ground and squeezing him to death. The struggle of the farmer to free his fields from the domination of noxious weeds has been appropriately likened to that of the Greek fabie. Everyone who is interested in agriculture weil knows the great extent to which weeds exist in our cultivated lands. During the last year and must either be doctored and get and must either be doctored and get. Leading nurserymen of New York

Plants are subject to all sorts of maladies. The commonest are worms, improper potting, want of washing and too much watering. The lack or excess of watering is the commonest of all causes. Many plants, such as the palm and the fern, when kept in-doors, become as sensitive to changes of temperature as a delicate woman. A cold draught will set them sneezing, as it were, in side of an hour. At best it is difficult for most plants to thrive in living rooms. The air is too. thrive in living rooms. The air is too dry and the light insufficient. This is true in general, yet plants vary—and more than people do—in the conditions that agree with them. For instance, cacti do best in an en-vironment like that of the arid desert, while other tropical things require a warm, moist climate. The effect of sudden changes of temperature on the plant is the loss

of some of the hair roots which are on the smaller rootlets and are an important part of the feeding apparatus. They rot, and the plant is then unable to take enough nourishthat goods offered for sale, be tested for purity and vitality, and graded according to quality, was the result of two years' careful study, and he did not think it would interfere with legitimate trade.

About the only objections to the principle of the bill were raised by one or two members who seemed to have no practical knowledge of agriculture, and who failed to realize the gravity of the subject. It was pointed out by Mr. Ross (Ontario), that, as this year's crop of seed will be harvested, threshed, and in the market for sale at an early date, it would be impossible for the trade to offer seed such as the bill called for by the first of September, the date specified in the bill. The Minister of Agriculture and the Committee general debitity and nervous exhaustion set in. With vigor gone, the plant falls an easy prey to all disages prowling round. Fungi and animal parasites complete its ruin.

Prof. Earle, of the New York botanical garden says: "In the throfty plant there is a constant balance between the activity going on in the leaves that draw sustenance from the soil. Anything that interferes with either soon throws the plant causes are lack of light, smoke and sudden changes of temperature. The leaves are first affected and react upon the root hairs. When the plants begin to drop their leaves, it may be taken as an evidence of illness. All florists have trouble with the begonia in this way.

"The causes of diseases in plants, because They are grouned for obscure. They are grouned for the plant general debility and nervous exhaustions that gravity and nervous exhaustions that gravity and nervous exhaustions that gravity for seven with a seven proving round. Fungi and animal parasites complete its ruin.

Prof. Earle, of the New York botanical garden says: "In the throfty plant there is a constant balance between the activity going on in the leaves that draw sustenance from the soil. Anything that interferes with early of the soil. Anything that interferes with early of the plant gravity of the subject. then unable to take enough nourishment. When a plant gets off its feed

besides being numerous, are often obscure. They are grouped for convenience as environmental. obscure. They are grouped for convenience as environmental, functional and parasitic. Uncongenfunctional and parasitic. Uncongenial surroundings, such as improper soil conditions, too much or too little water, the absence or overabundance of some of the food elements, the pollution of the air with smoke or gases, or unfavorable position as to sunlight, often cause a slow and feeble growth that is not disease. Instead of sickness it is starvation or semistarvation. The 'scalding' of plants after heavy and long-continued rains, and the 'tip-burn' of lettuce due to a burning sun after wet. due to a burning sun after wet, cloudy weather, illustrate this

due to a surming sun inter wet, cloudy weather, illustrate this condition.

"Functional diseases spring from derangements within the plant itself. It may secrete too much or too little acid, and its organs of nutrition get deranged. The 'mosaic disease' of tobacco and the 'yellow disease' of the china aster are examples of too little acid or ferment. When a plant gets this way it may be said to have a bad attack of indigestion. The acid is insufficient to convert the starch of the green leaves into soluble sugar sthat can be taken up by the sap and used in forming new tissues.

sues.

"Vast numbers of parasites infest plants. Scarcely any plant is wholly free from them. They invade every part of the plant, roots, stems, leaves, flowers and fruits. They attack the surface and burrow into the tissues. They produce smut on the wheat or oats, galls and knots upon plum trees, and sum bunches on the cherry galls and knots upon plum trees and gum bunches on the cherry tree. They cause the death of pear and apple tree branches and timber rots in forest trees. The annual loss from plant diseases reaches millions of dollars in New York State every year. Hence the question of how to prevent plant diseases is one of great practical importance. The science of vegetable pathology is one of the newest. It had its beginning only thirty years ago.

ears ago.
"With disease of environment the water, thirty tons of ice, and several thousand tons of cargo. Most of the port stewards of the great lines spend from \$1,000,000 to \$1,500,000 a year for supples in New York alone. Here are some of the thems of what the supples include; Fully 50,000 grands if fresh meat, marked "New York Press."

### The Markets.

Toronto Farmers' Market. The receipts of grain on the street to-day were fair, with prices generally strong. Wheat is firm, with sales of 100 bushels of white at 82 to 83%, 100 bushes of red winter at 50%; 100 bushels of goose at 79 to 80%. Barley also firm,, 200 bushels sealing at 50 to 52%;. Oats are higher, with sales of 300 bushels of old at 36% to 38c, and of 400 bushels of new at 34 to 35c. Dairy produce and vegetables in good supply; firm, with butter and eggs higher.

Hay in limited supply, with sales

of 12 loads at \$9.50 to \$10.50 a ton Straw is nominal at \$10 a ton.
Dressed hogs are unchanged, light selling at \$8 to \$8.25 and heavy at

\$7.50 to \$7.75. \$7.50 to \$7.75.

Wheat, white, bush., \$2 to \$3\(\frac{1}{2}\); do., goose, bush.

79 to \$0\(\frac{1}{2}\). Peas, bush., 75 to 79c.

Oats, bush., \$36\(\frac{1}{2}\) to 35c. Barley, bush., 50 bush., 34 to 35c. Barley, bush., 50 to 52½c. Hay, new, per ton, \$9± to \$10.50. Straw, per ton, \$9± to \$10.50. Straw, per ton, \$9.50. to \$10. Seeds, alsike, bush., \$4.75 to \$5.50. Apples, per bush., 75c to \$1.25. Dressed hogs, \$7.50 to \$8.25. Eggs, fresh, dozen, 18 to 22c. Butter, dairy, 16 to 20c; do., creamery, 19 to 22c. Chickens, per pair, 65c to 85c. Ducks, per pair, 70c to \$1. Turkeys, per pair, 12c to 14c. Potatoes, bag, 50c to 60c. Cabbage, per dozen., 40 to 50c. Celery, dozen, ntoes, bag, 50c to 60c. Canonage, dozen. 40 to 50c. Celery, dozen, to 40c. Cauliflower, dozen. 75c \$1. Beef, forequarters, \$4.50 to 50. Beef, hindquarters, \$8 to 60 Beef, medium, carcase, \$6 to \$5.00 Beef, choice, carcase, \$6 to \$7.50 Lamb, yearling, \$7.50 to \$8: do. spring, per cwt., \$8 to \$8.50. Mutton, per cwt., \$5 to \$7. Veal, per cwt., \$7.50 to \$9.

Toronto Fruit Markets.

Business was active to-day, with receipts large and demand good Peaches, Crawfords, basket, 50 to 65c; do., good. 25 to 35c; pears, basset, 15 to 30c; do., Bartletts, 30 to 40c; plums, 17 1-2 to 30c; grapes, small baskets, 15 to 25c; do., large basket; 40 to 60c; apples, basket, 15 to 22c.

Oranges—California, late Valencias.

Oranges—California, late Valencias, extra, \$4.50 to \$5; lemons, case, \$2.50 to \$3.75; watermelons, each, 20 to 25c; bananas, bunch, \$1.40 to \$2; canteloupes, case, 25 to 50c.

Vegetables—Potatoes, 35c bushel; tomatoes, 15 to 20; per basket; ghirkins, 25 to 30c; green corn, 7 to 8c per dozen; celery, 35 to 40c; egg plant, 25 to 30c per basket.

The Cheese Markets. Irogno's-There were 985 chees, incuming 40 whate, boarded here to-day. About half sold on the board at 11c; balance on curb at board

Belleville-At our cheese board to-Gay 27 factories offered 2200 white, 50 colored Buyers were: Magrath 50 at 113-8c; Alexander, 90 at 115-16c; Hodgson 100; Watkan, 70 113-16c; Hodgson 100; Watsh, 70 at 111-4c; balance refused at 113-16c to 111-4c. London—There were 600 boxes of-ferred at to-day's market; sales, at 111-8c to 113-16c.

Leading Wheat Markets.

Duluth, No. 2 N. ... 81 3-4 817-8 80 1-2 Bradstreet's on Trade.

The damand for fail staples a Montreal continues to develop in-creased activity. The mills are still very firm on staple cottons and woollens. Labor is well employed. Local manufacturers are busy and in a number of cases cannot guaran-tee prompt delivery. Money is in good

There have been more country buy ers in Toronto this week than in any previous season. This was the result of the low Exhibition passenger rates. The buying has been of the best sort, not only larger parcels being taken and the orders well dis-tributed, but the sort of goods bought has, as a rule, been of the better or more costly class.

General trade at Quebec continues

General trade at Quebec continues active and indications predict a continuance of the same. Failures have been few and unimportant.

Pacific Coast advices to Bradstreet's are encouraging. The conditions of trade are healthy and all business is more active. Orders for the Klondike filled the past few weeks, have been heavy. The demand from provincial mining districts is active. In Winnipeg there is a more active demand for fall staples in every department of trade. Prices are firmly held. Labor is scarce in al-

most every department of industry The grain movement has begun and in a week or two will attain large proportions.

Hamilton wholesale trade is, in common with other distributing cencommon with other distributing centres, enjoying an increased demand for staple goods. Orders are numerous, and large shipments are being made. The outlook for business for the balance of the fall season is en-

the balance of the fall season is encouraging. Pricles are firmly held.
London wholesale trade is getting more active. Values are firmly held. The good class of buying by the retailers, row reported, is in anticipation of this. Money is in abundant supply and rates are steady.
Trade at Ottawa is expanding. The demand from the west and from various trade cantres in Oniario is large. ious trade centres in Ontario is large coming Exhibition is expected to

Wages, Impacy and Crime. Dr. R. S. Stewart, Glamorgan Asylum, contributed to the Psychology Section a paper on the relationship of wages, lunacy and crime. It seemed impossible, he said, to get away from the conclusion that the spending power and leisure of the working classes were powerful factors in the production of insanity. Generally speaking, in South Wales, a fall in

### LOVE A MATTER OF BUSINESS

low the Tender Passion is Viewed in Indian Territory.

ment, perhaps it was only an individual tendency that shocked a grave magistrate in Custer county in the Indian territory recently, but the facts seem to bear out the assertion that love is not as disinterested out there as it is in some other parts of the country. An old lady and her daughter, Mary Am, called on the judge, seeking advice relative to a breach of promise case in which Mary Ann was plaintiff. The

in which Mary Ann was paintin. The judge, with his suavity, asked: "What ovidence have you got?"
"Mary Ann, produce the letters," commanded the mother, and the girl took the cover off a willow basket and remarked that she thought 927 letters would do to begin on. The other 651 would be produced as soon as the case was fairly before the

"And outside of these letters?"

"Mary Ann, produce your diary," said the mother. "Now turn to the heading of promises and tell how many times this marriage business has been talked over."

"The footing is 214 times," answered the give

wered the girl. "Now turn to the heading of "darling' and give us the number of times he has applied this term to you."
"If I have figured it right the total is 9.254 times."

"I guess you counted pretty near straight, for you are good in fig-ures. Now turn to the heading of ures. Now turn to the heading of Woodbine Cottage' and tell us how, many times he has talked of such a home for you after marriage."

"The footing is 1,395." "Very well, this lawyer wants to be sure that we have got a case. How many times has Charles Henry, said he would die for you?" "Three hundred and fifty," answered the girl as she turned over a

leaf.
"How many times has he called you an angel?

"Over 11,000, mamma." "How about squeezing hands?"
"Over 384,000 squeezes." 'And kisses?

"Nearly 417,000." "There is our case, sir," said the mother, and she deposited basket and diary on the lawyer's table. Look over the documents and if you want anything further I can bring in a dozen neighbors to swear to facts. We sue for \$10,000 damages and we won't settle for less than an 80-acre farm with buildings in good re-pair. We will call again next week."

Gems From Famous Authors As you do not sweeten your mouth by saying honey, so you do not grow virtuous by merely talking of virtuo.—Ivan Panin.

Men do not go to paradise in coaches.—Longfellow,

I venerate the man whose heart is warm, Whose hands are pure, whose doc-trine and whose life Coincident, exhibt lucid proof,

Owe no man anything save to love

Hear no ill of a friend and speak as little as possible of an enemy; be-lieve not all you hear, nor speak all that you believe.—William de Brit-aire.

1111 The hours are viewless angels
That still go gliding by,
And bear each moment's record up
To Him that sits on high.
—C. P. Cranch.

The unrighteous penny corrupts the righteous pound.—German Prothe verb.

In human hearts what bolder thought can rise
Than man's presumption on to-morrow's dawn? Where is to-morrow? In another world.

An Admonition to the Rich.

The eternal law of compensation will not fail. Everywhere humanity suffers for the things that money will not fail. Everywhere humanity suffers for the things that money alone can supply, for food, clothing, shelter, for aid in wasting disease, for help in feeble and friendless old age. A hundred deserving charities and humane movements appeal for larger funds and more generous support, and they may extend their noble and beneficent work among the poor, the orphaned, the weak, and the perishing, even in our most favored land and time, opportunities unlimited in their scope lie on every hand wherein those who have wealth, time, and influence to give can do hand wherein those who have weath, time, and influence to give can do much to help the world along to a better, brighter and happier day. They who in the midst of their lux-uries and gilded pleasures remain deal and blind to these calls of duty will find sooner or later that hey have missed the best chance of their lives for a paying investment.—Leslives for a paying investment.—Les-lie's Weekly.

#### Fatal Fogs.

London fogs always Increase the leath rate. One of the worst on death rate. One of the worst on record, both for density and prorecerd, both for density and pro-tractedness, lasted from the begin-ning of November, 1879, to the fol-lowing February. The deaths for the six weeks ended Feb. 21 were 1,730, 1,900, 2,200, 3,376; 2,495 and 2,016, the deaths in the fourth week 2,016, the deaths in the fourth week being thus nearly double those in the first. The deaths from asthma were most affected by the log. The death rate for bronchitts rose to 331 per cent, and for whooping cough to 231 per cent, above the average. Again in 1882, in the week ending Feb. 13, the death rate, owing to the dense fog, rose from 27.1 in the previous week to 53.3, diseases of the respiratory organs being 394, as compared with an average of 480. speaking, in South Wales, a fall in the wage rate, and a consequent expenditure of energy and less icisure, were associated with a decrease of crime and drunkenness and with diminished labor and increased leture were associated with an increased leture drunkennes, crime and lunacy. The lorned cattle at the lington cattle show exhibited symptoms of sufficiation. Some actually died, and others were slunghtered to save the value of the meat. save the value of the meat

# The Rose and Lily Dagger

A TALB OF WOMAN'S LOVE AND WOMAN'S PERFIDY & & &

"Most dreadful case, Mr. Locke," he said gloomily. "I can't believe yet that it's true—I mean, sir, that anything of the kind has happened."
"It is hard to believe, yes," assented Gerald, looking at the ground that the man might not see his despondency.

ency.
"It is, indeed, Mr. Locke. To think "It is, indeed, Mr. Locke. To think that the marquis—one of the highest in the land, sir—should be lying in prison charged with murder! Of course I know he is innocent, but it's the disgrace of being suspected of such a crime, to say nothing of being in prison, that knocks me over. Just think of such a noble, warm-hearted man being accused of such a dreadful deed. Why, look at his friendship for deed. Why, look at his friendship for deed. Why, look at his friendship for the signor! Do you think that a man who would saddle himself for life with a poor blind man—and you know how attentive, and gentle, and thoughtful he is with him—is the kind of man to stab a fellow creature in the back? Oh!"—and Mr. Ingram burst out with a passionate oath— "it drives me mad to hear people talk about it. But it will all come right, Mr. Locke!" And he looked at Gerald anyiously erald anxiously. Gerald looked down.

'Yes-we hope so," he said. "Yes,

certainly."

"Hope so! exclaimed Ingram.
"Well! and he swore again, "if anything happens to the marquis, Mr.
Locke, there will be two murders instead of one!

stead of one!"
"Hush!" said Gerald, glancing at
the windows warningly, for Ingram's voice had grown terribly distinct in his indignation.

"Oh, you needn't be afraid of any one hearing me, sir," he said bitterly "Lady Scott is lying ill-quite prostrated—in her rooms in the south wing, and otherwise the house is nearly empty. There was no use in keeping a pack of servants wailing and creeping about the place, declaring they saw ghosts, and the rest of it, and I packed them off. Not, mind, that any of them believed his lordship guilty! No, every one of 'em thinks as I think. It's my belief that means of them, and the lief that many of them would have taken his place if that had been pos-sible, for," bitterly, "with all his wildness and evil temper, his lord-ship had a knack of winning the heart of everybody in the household. You never heard him bully and blus-You never heard him bully and bluster as some of your goody-goody men do! No! It was always a smile, and a kind word, however sad he might be, and until Miss Elaine came he was nearly always sad and absent-minded."

Gerald Locke looked up.

"Why?" he asked.
Ingram shook his head.
It can't say, sir. No one knows.
There was something in his past
life—up there in London most like ter him. Haunted him, one might

Gerald Locke pricked up his ears. Everything, the smallest detail of the life of the man he had under-

taken to save from a shameful death, was of moment to him.

"You know nothing of it?" he asked, earnestly. "If so—but I need not tell you how important it is that I should know of anything, however apparently trivial, which it was a light on the derk might throw a light on the dark

"I don't know. No one knows' said Ingram, "Not even the valet. I've gone so far as to ask him if he had ever heard of anything happening to the marquis that might have made him so quiet and gloomy

"Well?"
"Well, be doesn't. He's been with him for years. No one leaves his lordship's service unless he's obliged. Strange that, for a man who's given to stabbing in the back, isn't it?" be put in, sarcastically. "The only thing he remembers is that at one time some years back—the one time some years back — the marquis gave him a long holiday, and said he was going to travel. The valet thinks his lordship went abroad, but he might have gone to Glengowrie, the place in Scotland,

#### MAKE BABY FEEL GOOD.

A baby's temper depends upon how he feels. If aling he will be cross, worry the mother and annoy everyworry the mother and annoy everybody in the house: if feeling well he
will be bright, active and happy. It
is easy to keep your baby feeling
good by profiting by the experience
in mothers who give their little ones
Baby's Own Tablets. One of these
mothers, Mrs. C. W. Shore, Castleton, Ont., says: "Our child, eight
months old, has always been troubled with indigestion. We had medieline from two aloctors and tried cine from two alectors and tried other remedies without benefit. I cline from two alectors and tried other remedies "without benefit. I then sent for a box of Baby's Own Tablets and found them just what was required. The child is now all right and is doing well."

Indigestion, colic, constipation, diarrhoea, simple fevers, in fact all the miner allments of little ones are

the minor ailments of little ones are cured by Baby's Own Tablets. They always do good and cannot possibly do harm, and may be given to the youngest infant with perfect safety. Sold by druggists or direct by mail, box, by addressing the Dr. Medicine Co., Brockville,

"I know. Well?"

"I know. Well?"

"His lordship was away, wherever he was, for nearly two years; and all that time this man never heard from him. His wages were paid by the solicitors in London, and they told the valet to let them have his address. But not one word came from the marquis, though he was not in the habit of keeping his whereabouts secret, and had always taken the man with him."

"Yes!" said Gerald, seating, him.

"Yes!" said Gerald, seating him-self on the stone rail of the steps, and listening intently. "Well?" "Well, sir, the marquis came back

"Well, sir, the marquis came uses at last from wherever he was, and telegraphed to the valet; and the man went up to London to him. He found the marquis a changed man."

found the marquis a changed man."
"How?"
"Well, to use the valet's own
words—he was telling me this
last night in his room; the poor fellow is as cut up as if the marquis
were his own brother—the change
consisted in this: Before he went
away, his lordship was gay and
light-hearted in all his wildness; but
now after he had come head all the

away, his lordship was gay and light-hearted in all his wildness; but now, after he had come back, all the light-heartedness had gone, and he seemed ten years older. He still went about town, even played a bit—all the Nairnes were fond of cards, Mr. Locke—but he seemed to take no interest in anything. And the restlessness, the Wandering Jew business which the people talk so much about, began. The valet tells me that it was not at all an unusual thing for his lordship to start for the Continent, or Norway, or anywhere, at a moment's notice. He'd come down here sometimes quite as if he meant to stay, and after a few hours, or a day or two at most, it, would be, 'Field, pack the portmanteau; I am going to-night.'"
Gerald Locke nodded.

"I know; I nave heard of his rest-lessness,' I nave heard of his rest-lessness,' I nave heard of his rest-

"I know; I have heard of his rest-

lessness,"
"Yes, and that wasn't all. Before this time the marquis was fond of the society of ladies; quite the ladies' man, Field says, and a great favorite with them. And no wonder. You'd find it hard to match his lordship for make and face, Mr. Locke."

Gerald nodded again.

Gerald nodded again,
"Go on. All this is important, and
may help me, Mr. Ingram."
"Weil, sir, I hope to God it may!
Field assured me that after he had
come back the marquis shunned
ladies' society. If he went to one
of their soires or receptions or
balls, or whatever you call them,
of their soirees or receptions or
two, and go to the club and stay
there playing cards or billiards.
And he wouldn't visit at country
places as he used to do. A complete
change seemed to have come over places as he used to do. A complete change seemed to have come over him. He was quite altered. Field says that sometimes when he's come into the room he'd find his lordship

sitting with his head upon his hands like a man who dbec: ruined, or lost—"
"Lost?" said Gerald.
"Well, lost the only woman he'd ever cared for. Yes, Mr. Locke, I—and

you—can guess that a woman was at the bottom of it. It's always a woman. Don't the French say when ever anything goes wrong, 'Find the woman'? I'm not a French scholar.'

Gerald nodded.
"Well, sir, that went on till he camdown to the Castle and saw Miss Elaine. And then—well, we know what happened. And for my part 1 Elaine. what happened. And for my part I can only say that I was not surprised. There isn't a lovelier or a sweeter lady in the world than Miss Elaine. No, Mr. Locke, I wasn't surprised when I heard of their engagement, but I was surprised when I heard that the engagement was broken off, and that Miss Elaine had run away. That worries me more run away. That worries me more than anything. Why, sir, from what I know and have seen of her, I should have said that she was the last woman in the world to have deserted her sweetheart in the hour of his ad-versity."

versity!"

Gerald Locke hung his head.

Gerald Locke hung his head,

"Miss Delaine was called away be
fore—before the discovery of the
murder," he said, lamely.
Ingram shook his head.

"That's the mystery to me, sir,"
he said. "Not this murder; that will
be cleared up, no doubt. It must
be cleared up. But that Miss Elaine,
the birder that winst.

be cleared up? But that Miss Elaine, the kindest, the nicest lady we know, should leave him just at the beginning of this trouble?" Gerald Locke was silent for a moment and then he said:

"And Lady Scott is ill, you say?"

"Yeas sir, quite knocked over, She's a proud Lady, Mr. Locke, and this carting the margais off to prison has just knocked her over."

"And Signor Zanti?"

Ingram shook his head.

"I'm as sorry for him as for any

Ingra'n shook his head.
"I'm as sorry for him as for any one, excepting the marquis. Hethe signor—is just heartbroken. It's dreadfai 'to see him. They talk about a man's hair turning grey in a single night; well, Mr. Locke, if his hair hasn't turned grey, the signor has grown old in a single night."
"I am going to the beller."

fools expected to see I can't imagine. They just came and stared at the bridge and the stream as if they expected to have the whole murder played out for them, or the dead man's ghost. Fd go with you, but I'm waiting for the head keeper, Dayle. Everything seems at sixes and sevens. Two of the under keepers gave notice this morning. There is nothing I can do for the marquis, I suppose, Mr. Locke?"

Gerald said no, that there was nothing Mr. Ingram could do, and as he walked on he reflected bitterly how little he himself could do.

He passed through the shrubbery and into the little glade or opening before the bridge, and then on to the bridge itself, and stood looking down at the stream, which was bubbling along as giddily and light-heartedly as ever, singing bittely as it had sung white the deed of blood was being done. I.

Gerald looked round him, though of course there was nothing to be gleaned by inspecting the seene. As Ingramed by inspecting the seene. As Ingramed by inspecting the seene.

course there was nothing to be gleaned by inspecting the scene. As Ingram had said, there had apparently been no struggle, no conflict. Charles Sherwin had been killed at once by that sharp, swiftly dealt blow of the grottesque dagger.

The rail of the bridge was a low one little worst then

one little more than two feet high. The murdered man had evidently staggered back against it as the dagger struck him, and had either overbalanced or been pushed over by the hand that had dealt the stab.

nand that had dealt the stab.

There again! Gerald could not bring himself to imagine the marquis guilty of thrusting his victim into the stream, or even leaving him there. He was far more likely to call for assistance, and ex-claim, "I have killed this man! Take him up. see to him!"

It seemed impossible to Gerald that such a man as Lord Nairne should come back to the house and

eave the dead man lying out in the silent night. The marquis might be passionate, vengeful, utterly unable to control his temper; but no one who knew him, however slightly, could deem him capable of cowardice and mean-

by the walk.

It was Luigi Zanti, and he was sitting with his head leaning on his hands, his whole attitude eloquent of melancholy brooding.

He raised his head as Gerald's

step reached his ears, and Geralds step reached his ears, and Gerald was startled by the change wrought in the blind man's face. It was, as Ingram had sald, as if the Italian had grown old since his master and friend had been taken from him. from him.

from him.

"Signor Zanti," he said.

Luigi half rose, then sank back.

"It is you," Mr. Locke," he said. "I
thought I knew the step, but my
hearing seems confused. I——" He
broke off with an earnest entreaty.

"You have seen him? Has he sent

"You have seen him? Has he sent me any message? Surely he has sent one word to me?"
Gerald sat down beside him.
"Yes," I have just left him," he replied. "He did not send you a message, Luigi, but you will not think he has forgotten you, because he has not stoken of you. He speaks he has not spoken of you. He speaks of no one, indeed, he says very little

al out anything."
"The strong suffer in silence," murmured Luigi, his hands clasped
lightly, "and he is strong. I know "The strong suiter in blence, instructed Luigi, his hands clasped tightly, "and he is strong. I know him. There is no one who knows him better—so well—as I do. He will not speak—" He stopped, as if he suddenly remembered that he was not alone.

Gerald tookel at him thoughtfully. "You do not ask me how I am getting on with the case, Luigi," he said.

he said.

Luigi Zanti shook his head.

"No," he said. "You will do all that can be done."

"I-shall try," assented Gerald, gloomily. "But it is hard, uphill work, when one has so little to go more, and when one's own client denotes and when one's own client denotes one's own client denotes."

work, when one has so little to go upon, and when one's own client declines to help."

Lulgi did not look startled or alarmed, but his head sank still lower.

"He will say nothing?" he said, after a pause.

"Nothing," repeated Gerald, "and that is the very worst course for a man in the marquis' situation to adont toward his leavens.

adopt toward his lawyer."

"Yes, yes, yes!" breathed Luigi, as if a heavy weight were pressing down upon his chest and making it difficult for nim to speak. "You must do it all alone, without aid, without—" He stopped, and Gerald, who could not resist the temptation, sprang the question upon him suddenly:
"Luigi, do you know where Miss Elaine is?"

He saw the blind man start and vince as he shook his head.
"Yo. Why—why do you ask?"

"Isn't it a natural question? She was engaged to the marquis-his promised wife-"She is so no longer," Luighbroke in abruptly. "They parted — there was no blame on either side, remember that! She is blameless, faultless. The night—"

"The night of the murder," pur gerald, distinctly. Luigi winced again, then turned its face to Gerald's keen eyes with dogged kind of stubbornne

On the night of the murder, yes at what has that to do with it with the—the case?"
"I don't know. Do you?" he added, saddenly.
Luigi, his (ace still set and hard,

shook his head.

"No. She has nothing to do with it. Let her alone. Do you want to drag her innocence and purity into the shameful glare of a court of justice. Let her alone, I say!" His voice grew stern and angry.

voice grew stern and angry has suffered enough. Besides, This voice grew stern and angry.

"She has suffered enough. Besides."
and he seemed to control himself with a great effort, "she could do no good. She could not help him if you were to find her and drag her into the witness box. Remember that—"

"How do you know that?" said Gerald, in a low voice.

Luigi let his head fall again.
"How do I know?" he repeated.

BOYS OF TO-DAY

Will be the Men of the **Future** 

They Should be Rugged and Sturdy Full of Life and Ready for Work.

Growing boys should always be calthy and rugged. Ready for play, reacy for study, and ready at any time for a hearty meal. This condition denotes good health, but there are entirely too many who do not come up to this standard. They take no part in the maniy games all healthy boys inculge in ; they are stoop-

thy boys indulge in; they are stoopshouldered, duil and listless; they
complian of frequent headaches, and
their appetite is variable. Sometimes parents say, "Oh, they'll outgrow it." But tney won't-it's the
blood that's out of condition, and
instead of getting better they get
worse, What boys of this class require to make them bright, active
and strong is a tonic, something
that will build up the blood and make
the nerves strong. There is no medithat will build up the blood and make the nerves strong. There is no medi-cine that can'do this as quicky and as effectively as Dr. Will.ams Pink Pills. Mrs. Mary Compton, of Merrit-ton, Ont. tells what these pills did for her sixteen-year-old son. She suys: "About two years ago my son Samuel began to decline in health. He grew very pale and thin, and at times experience! serious weak spells, could with a tired, worn-out feel-ign, and as the weeks went by he could de with a tired, worn-out feel-ign, and as the weeks went by he grew worse. This alarmed me, for my husband had died of what the doctors called pernicious anaemia, and I feared my son was going the same way. I had often read that Dr. Williams' Pink Pills would cure anaeway. I mad often read that Dr. Williams Pink Fills would cure anaeming, and decided that he should try them. A couple of boxes made a decided improvement in his condition, and by the time he had taken a half dozen boxes his health was better than it had been found; then he went up again, and slowly made his way back toward the house, feeling just as helpless as when he had entered the grounds, and he was rather startled at seeing a man seated on the rustic bench which stood in a little leafy recess by the walk.

It was Lucic Zonti control deem Williams Pink Fills would chre anaeming, and decided that he should try them. A couple of boxes made a decided improvement in his condition, and by the time he had taken a half dozen boxes his health was better than it had been for some years previous. His weight had increased, his listlessness hed disappeared, and he was blessed with a good appetite. I may add that other members of my family have been benefited by the use of Dr. Williams' Pink Pills, and I is condition.

Poor and watery blood is the cause of nearly all diseases, and it is be-cause Dr. Williams' Pink Pills act cause Dr. Williams' Pink Pills act directly upon the blood, both enriching it and increasing the quantity, that they cure such troubles as anaemia, rheumatism, indigestion, neuralgia, heart troubles, incipient consumption and the various aliments that affilet so many women. These pills may be had from any dealer in medicine, or will be sent postpaid at 50c. a box, or six boxes for \$2.50, by writing to the Dr. Williams' Medicine Co., Brockville, Ont. If you value Co., Brockville, Ont. If you value your health never allow a dealer to persuade you to take something else.

on his white face, which was not

on his white lace, which was not lost on Gerald.

"No, I have not sent for her, for the hest of all reasons," he replied.

"I do not know where she is. No one knows. Nothing has been heard of, or from, her since she left, the morning of the the morning of the state.

or from, her since she left, the morning after the murder."

Luigi drew a long breath of relief as it seemed to Gerald.

"But of course, I could find her," he went on moedlly. "I intended doing so. I had made out an advertisement for the papers.—"

Luigi raised his head and listened breathlessly."

breathlessly. "But the marquis has foroidden Luigi sighed heavily and let his head fall again with an expression

head fall again with an expression of resignation.

"He is right," he said at last; "he is right, II-if Elalae were your sister, Gerald Locke, would you wish her to appear in this? Would you not do all, risk all, rather than her purity should be sullied by contact with all this shame?"

said Gerald "I don't know." watching the white, haggard face. It depends. If I thought she could throw any light upon it, help to clear up the mystery, and save an then Luigi said in a low voice:

"And if she could not save him ! Gerald was silent. Was it possible Luigi Zanti knew comething of the truth, and he, too, desired Elaine

repeated Luigi with melancholy ear-"Then she is better away," said

Gerald, with a sigh that was almost a groan. "Luigi, I see—I should be blind—oh, forgive me!"

"Go on."
"I cannot help seeing that you remething. Can know-You know you not tell me?" Luigi shook his head doggedly.
Gerald Locke Jaid his hand upon
the blind man's thin arm.

"Consider, for God's sake, consider!" he said solemnly. "This is not a light thing. It is a matter of life or death! You know

or death! Of life or death! You know the evidence that has been brought against him."

"I know 17—yes," responded Luigi with a stifled moan.

"It is—damning! As it stands, with nothing further to strengthen it, it may be sufficient to—to condemn him. You understand?"

"My God! Yes, I understand," moaned Luigi, the great drops of sweat standing on his white brow. "And neither he, who knows all, nor you, who know something, will

nor you, who know something, will speak. Do you intend to remain si! speak. Do you mean to remain signat? Do you mean to say nothing till the verdict —guilty."—has been pronounced? For Heaven's sake, Luigi, if you can say one word that may help me save your friend he was your friend?"
"A brother could not be dearer to e!" fell from Luigi's white
"Well, then!" urged Gerald.

(To be Continued.)

his hair hasn't turned grey, the signor has grown old in a single night."

"I are going to the bridge," said Gerald.

"Yes, sir? It's pretty quiet there in hed. Gerald Locks, you have not now, but after the news spread the piace as thronged. What the look of terror with a look of terror in with us."

Luigh let his head fall again.
"How do I know?" he repeated slowly, cautiously, his hands trembling. "How could she help him? She knows nothing of it. She was in hed. Gerald Locks, you have not now, but after the news spread the piace as thronged. What the

WHY INDIANS LOVE THUNDER. 

Among some tribes of Indians the

Among some tribes of indians the thunder is held in great reverence; they sing songs to it, and have dances in its honor.

As a reason for doing this they tell the following story:
Once upon a time threee young men were on the war path from their homes, when the youngest of them had the misfortune to break his leg. By Indian law it became the duty By Indian law it became the duty of the other two warriors to carry the youth safely to his home. So

the youth safely to his home. so they made a rude litter and carried him on it until they became tired. Finally they came to a range of mountains and, as the trail was toon and it was hard work to corn. steep and it was hard work to carry the youth any further, they laid the litter down and went to one side, where they held council together. "Lot us leave our wounded com-panion where he is," said one. "It is too much work to carry him far-

"Agreed," said the other. "We will say that he was killed by the enemy and no one will ever be the wiser, for he will certainly die, if

we leave him here."

so the wicked men threw the youth went on their way home to the vil-lage. When they had come there they reported that the boy had died from wounds received in a fight with the enemy.

Great was the grief of the boy's widowed mother, who wept and grouned at the loss of her son.
But the youth was not dead. As

But the youth was not dead. As he lay in the cleft in the rocks where the wicked warriors had thrown him, he saw, sitting a little way off, a strange looking old man, who said to him, "Ah, my son, what have your friends done to you?"
"They have left me here to die," I suppose," replied 'the youth with calmness, for he was ashamed to show that he was afraid.
"Oh, you will not die if you will agree to do as I require," said the man, "I will make you well again, but in turn you must be my slave, and hunt for me all the rest of your life."

To this the youth agreed, as he saw no other way out of his predicament; and the old man (who was not an old man at all, but a porcuping who had assumed the shape of an old man) cured him of the hurts and soon had him hunting for him and bringing home the game he killed to the cleft in the rocks.

"Whenever you kill anything which is too heavy for you to carry, call me and I will come and help you," said the old man.

All winter the youth hunted for his master. One day when the spring had come the youth killed a big bear which was too heavy for him to carry to the cleft in the rocks alone. "Now I will go and call the old

Now I will go and call the old man," he said.

But, just as he was stooping down to feel of the bear and see how fet he was, he heard a murmur of voices behind him, and, turning in surprise.

to ree of the pear and see how let he was, he heard a murmur of voices behind him, and, turning in surprise, beheld three men, or figures in the shape of men, who wore cloud-like garments with wings.

"Who are you and what are you doing in this wilderness where no man ever comes?" cried the youth. Then they tood him that they were the Thunderers, whose mission it was to go about over the earth doing good, and destroying things which harmed mankind. Just now they were after the old man who lived in the cleft in the rocks, who was no old man at all, but a wicked porcupine, as they would presently prove to him.

Run hack," they said, "and tell

man came out and went with him to where the carcass of the big bear was lying. Then they cut up the bear, the old man constantly urging the youth to make haste, and the meat was placed on the old man's shoulders as he directed, the youth all the time being greatly astonished at the strength he showed.

Loaded with the bear meat the old man began to run toward the cleft in the rocks as fast as he could, but clouds began to gather rapidly in the sky and the thunder rumbled in the distance.

The old man threw down his load

and ran faster and faster, but the and ran faster and faster, but the hunder rumbled nearer and nearer. Then the old man assumed his proper shape of a huge porcupine, and went scampering away, shooting his quills out behind him as he ran. But the thunder followed him with peal after peal until, finally, a bolt of lightning struck him and destroyed him.

Then the three Thunderers appeared again and said to the youth: "Now that our work here is done we will carry you home to your mother, who has been grieving for you all the time."

who has been grieving for you all the time?'
So they gave him a cloud suit with wings like their own, and the four swept away through the air to the Indian village where the youth's widowed mother dwelt.

It was night when he found himself in his mother's confield, and, going to the compine of the ledge he

going to the opening of the lodge, he drew back the curtain which covered it and stood there in the moonlight.

light.
The widow started up and gazed at him with terror, but he said:
"Do not be frightened, mother; it is no ghost, but your long-lost son, who has come back to take care of

who has come back you."

Then the widow wept tears of joy, while he told her all his adventures, and they lived happly ever after. And that is why the Indians dance and sing to the thunder.

Linguistic Laziness.

The laziest of all laziness, Herbert W. Horwill in the Critic, is the practice of coining unnecessary words. It might have been supposed, that, when there is already in existence a word which exactly denotes the idea to be expressed, it would be easier to fall back upon this word than to invent another. In fact, however, it often requires less effort to construct a linguistic monstrosity than to find the term that has been consecrated by good usage. Take, for instance, such words as extinguishment, revealment, withdrawment, devotement, denotement and startlement. It is not difficult to trace the mental process. The word, extinguish, was in the speaker's mind. He wanted a noun, and to stick "ment" on to the very restrict of the startle of t er's mind. He wanted a noun, and to stick "ment" on to the verb was an expedient nearer to hand than the search for "extinction." Occasionally the quick change is from the noun to the verb. When a man says, "to ad-ministrate," we may be sure that he first thought of "administration," and that he was then in too great a hurry to notice that the analogy, with such pairs as celebrate and celebration, would mislead him. I one were making a collection of linguistic curios, one might add to it such exhibits as propellation, affirmance, exhibits as propellation, affirmance, clientage, reminniscential, moveless, traditionary, leisuristic, unsympathy, and bishoply. In the mind of the offender there seems almost to be lurking a kind of predatory, false analogy, which grabs at his expression and distorts them before he can help himself.

Is it too late to purify our speech from these mischevous tendencies or

from these mischievous tendencies, or nust we be content to see a great language turned into shoddy? Cer-tainly the effectiveness of English as an organ of thought is weakened by the careless use off its vocabulary. The creation of redundant words really adds nothing to the resources of a tongue, and the overworking of some words, combined with the underworking of others, means actual derworking of others, means actual impoverishment. Only a pedant would object to the gradual expansion of the dictionary by means of the adoption of new kiloms and terms. When our ancient metaphors have when our accient metaphors have lost their edge, we may be pardoned if we turn even to colloquialisms for pointed expressions to take their place. But there is no prothrough confusion.—Chicago Post.

'Run back," they be with the come and help you with bear."

So the youth went and told the cld man that he must come and help carry the bear home. But the old man said he could not go out if there was any sign of a cloud in the shops are shut, and, if you want to buy anything, you have to ring or knock before you can attract attention. Even then you will very likely are also closed

# Another Cure of Chronic Disease

Of the Kidneys and Bowels-Well-known Steamboat Man Endorses Dr. Chase's Kidney-Liver Pills-Statement Vouched for by Minister.

Mr. James A. Buchner, Port Robinson, Ont., was for years a steamboat man, and is favorably known in every port from Cieveland to Montreal. Until a few months ago he was for years a great safferer from kidney disease, rheumatism and constipation, Dr. Chase's Kidney-Liver Pills have made him well, and for the benefit of others he has made the statement below:

M. Dadhar writch: "For many real was the unha; py victim of kidney trouble, rheumatism and constipation, which became to severe as to make life a burden! I was a constant sufferer, entirely unfit for work; appetite was fickle; I became machated; could not sleep, but arose in the morning tired and enfeebled. I lingered on in this condition, gradually growing worse, and became despondent and discouraged because I could obtain no relief from the many medicines used.

"Friends advised Dr. Chase's Kidney-Liver Pills have be come so well known as a medicine of exceptional merit. Their direct and complicated cases as this that Dr. Chase's Kidney-Liver Pills have become so well known as a medicine of exceptional merit. Their direct and complicated cases as this that Dr. Chase's Kidney-Liver Pills have become so well known as a medicine of exceptional merit. Their direct and complined action on kidneys, liver and bowels makes them successful where ordinery medicines fail. One pill a 20se; 25 cents a box, at all calers, or Elmanson, hates & Co.. Toronto. To protreit you against imitations the portrait and tignature of Fr. A. W. Chase's the

ful that this medicine came to my bands when I was in such a miserable condition. The first box gave relief, and, filled with joy at the

WOMAN'S PERFIDY # # # #

"Most dreadful case, Mr. Locke," he aid gloomily. "I can't believe yet said gloomily. "I can't believe yet that it's true—I mean, sir, that anything of the kind has happened."
"It is hard to believe, yes," assented Gerald, looking at the ground that the man might be the state desired.

ency.
"It is, indeed, Mr. Locke. To think "It is, indeed, Mr. Locke. To think that the marquis—one of the highest in the land, sir—should be lying in prison charged with murder! Of course I know he is innocent, but it's the disgrace of being suspected of such a crime, to say nothing of being in prison, that knocks me over. Just think of such a noble, warm-hearted man being accused of such a dreadful deed. Why, look at his friendship for the signor! Do you think, that a man who would saddle himself for life with a poor blind man—and you know how attentive, and gentle, and with a poor blind man—and you know how attentive, and gentle, and thoughtful he is with him—is the kind of man to stab a fellow creature in the back? Oh!"—and Mr. Ingram burst out with a passionate oath—"it drives me mad to hear people talk about it. But it will all come right, Mr. Locke!" And he looked at Gerald anxiously.

Gerald looked down.

"Yes—we hope so," he said. "Yes, certainly."

ertainly."

"Hope so! exclaimed Ingram.
"Well! and he swore again, "if anything happens to the marquis, Mr.
Locke, there will be two murders instead of one!"

"Hush!" said Gerald, glancing at
the windows warningty for In-

the windows warningty, for Ingram's voice had grown terribly distinct in his indignation.

"Oh, you needn't be afraid of any one hearing me, sir," he said bitterly "Lady Scott is lying ill—quite prostrated—in her rooms in the south wing, and otherwise the house is nearly empty. There was no use in keeping a pack of servants wailing and creeping about the place, declaring tney saw ghosts, and the rest of it, and I packed them off. Not, mind, that any of them believed his lordship emitty! No. avery one Not, mind, that any of them believed his lordship guilty! No, every one of 'em thinks as I think. It's my belief that many of them would have taken his place if that had been possible, for," bitterly, "with all his wildness and evil temper, his lordship had a knack of winning the heart of everybody in the household. You never heard him bully and bluster as some of your goody-goody men do! No! It was always a smile. ter as some of your goody-goody men do! No! It was always a smile, and a kind word, however, sad he might be, and until Miss Elaine came he was nearly always sad and absent-minded."

Gerald Locke looked up. "Why?" he asked. Ingram shook his head.

Ingram shook his head,
"I can't say, sir. No one knows,
There was something in his past
life-up there in London most like
-which seemed to change and alter him. Haunted him, one might

say."

Gerald Locke pricked up his ears.

Everything, the smallest detail of the life of the man he had undertaken to save from a shameful death, was of moment to him.

"You know nothing of it?" he wisted convective "If we had a proceed."

asked, earnestly. "If so—but I need not tell you how important it is that I should know of anything, however apparently trivial, which might throw a light on the dark

"I don't know. No one knows" said Ingram, "Not even the valet. I've gone so far as to ask him if he had ever heard of anything happening to the marquis that might have made him so quiet and gloomy

"Well, he doesn't. He's been with him for years. No one leaves his lordship's service unless he's oblig-ed. Strange that, for a man who's given to stabbing in the back, isn't it?" he put in, sarcastically. "The it?" be put in, sarcastically. "The only thing he remembers is that at one time some years back — the marquis gave him a long holiday, and said he was going to travel. The valet thinks his lordship went abroad, but he might have gone to Glengowrie, the place in Scotland,

#### MAKE BABY FEEL GOOD.

A baby's temper depends upon how he feels. If ailing he will be cross, worry the mother and annoy every-body in the house; if feeling well he will be bright, active and happy. It is easy to keep your baby feeling good by profiting by the experience of mothers who give their little ones Baby's Own Tablets. One of these mothers, Mrs. C. W. Shore, Castleton Out. ton, Ont., says: "Our child, eight months old, has always been trou-bled with indigestion. We had medibled with indigestion. We had medi-elne from two ploctors and tried other remedies without benefit. I then sent for a box of Baby's Own Tablets and found them just what was required. The child is now all

and is doing well.' Indigestion, colic, constipation, diarrhoea, simple fevers, in fact all the minor ailments of little ones are cured by Baby's Own Tablets. They nlways do good and cannot possibly do harm, and may be given to the youngest infant with perfect safety. Sold by druggists or direct by mail. a box, by addressing the Dr. Medicine Co., Brockville,

you know—"
"I know. Well?"
"His lordship was away, wherever he was, for nearly two years; and all that time this man never heard from him. His wages were paid by the solicitors in London, and they told the valet to let them have his

told the valet to let them have his address. But not one word came from the marquis, though he was not in the habit of keeping his whereabouts secret, and had always taken the man with him."

"Yes!" said Gerald, seating himself on the stone rail of the steps, and listening intently. "Well?"

"Well, sir, the marquis came back at last from wherever he was, and telegraphed to the valet; and the man went up to London to him. He found the marquis a changed man." found the marquis a changed man.

"How?"
"Well, to use the valet's own words—he was telling me this last night in his room; the poor fellow is as cut up as if the marquis were his own brother—the change consisted in this: Before he went away, his lordship was gay and light-hearted in all his wildness; but now, after he had come back all the light-hearted in all his wildness; but now, after he had come back, all the light-heartedness had gone, and he seemed ten years older. He still went about town, even played a bit—all the Nairnes were fond of cards, Mr. Locke—but he seemed to take no interest in anything. And the restlessness, the Wandering Jew business which the people talk so much about, began. The valet tells me that it was not at all an unusual thing for his lord-

all an unusual thing for his lord-ship to start for the Continent, or Norway, or anywhere, at a moment's notice. He'd come down here sometimes quite as if he meant to stay, and after a few hours, or a day or two at most, it would be, 'Field, pack the portmanteau; am going to-night,'" Gerald Locke nodded.

"I know; I have heard of his rest-

lessness,"
"Yes, and that wasn't all. Before
this time the marquis was fond of
the society of ladies; quite the ladies' man, Field says, and a great
favorite with them. And no wonder.
You'd find it hard to match his
lordship for make and face, Mr.
Locke." essness.'

Gerald nodded again.

Gerald nodded again.

"Go on. All this is important, and may help me, Mr. Ingram."

"Well, sir, I hope to God it may!
Field assured me that after he had come back the marquis shunned ladies' society. If he went to one of their soires or receptions or balls, or whatever you call them, of their soirees or receptions or two, and go to the club and stay there playing cards or billiards. And he wouldn't visit at country places as he used to do. A complete places as he used to do. A complete change seemed to have con him. He was quite altered. Field says that sometimes when he's come into the room he'd find his lordship sifting. sitting with his head upon his hands like a man who'd bee:: ruin-

ed, or lost-"Lost ?" said Gerald. "Well, lost the only woman he'd ever cared for. Yes, Mr. Locke, I—and you—can guess that a woman was at the bottom of it. It's always a woman. Don't the French say when-ever anything goes wrong, 'Find the woman'? I'm not a French scholar.'' Gerald nodded,

Gerald nodded.
"Well, sir, that went on till he cam-"Well, sir, that went on till he came down to the Castle and saw Miss Elaine. And then—well, we know what happened. And for my part I can only say that I was not surprised. There isn't a lovelier or a sweeter lady in the world than Miss Elaine. No, Mr. Locke, I wasn't surprised when I heard of their engagement, but I was surprised when I heard that the engagement was broken off, and that Miss Elaine had run away. That worries me more than anything. Why, sir, from what I know and have seen of her, I should know and have seen of her, I should have said that she was the last woman in the world to have deserted her sweetheart in the hour of his ad

Gerald Locke hung his head.

"Miss Delaine was called away be fore—before the discovery of the murder," he said, lamely

Ingram shook his head. "That's the mystery to me, sir," he said. "Not this murder; that will be cleared up, no doubt. It mast be cleared up! But that Miss Elaine, the kindest, the nicest lady we know should leave him just at the

the kindest, the nicest lady we know, should leave him just at the beginning of this trouble?"

Gerald Locke was silent for a moment and then he said:

"And Lady Scott is ill, you say?"

"Yes sir, quite knocked over. She's a proud Lady, Mr. Locke, and this carting the marquis off to prison has just knocked her over."

"And Signor Zanti?"

Ingran shook his head.

"I'm as sorry for him as for any one, excepting the marquis. Hethe signor—is just heartbroken. It's dreadfui to see him. They talk about a man's hair turning grey in a single night; well, Mr. Locke, if his hair hasn't turned grey, the signor has grown old in a single night."

"I am going to the bridge," said Geenld.

**Future** 

fools expected to see I can't imagine. They just came and stared at the bridge and the stream as if they expected to have the whole murder played out for them, or the dead man's ghost. Fd go with yoa, but I'm waiting for the head keeper, Davie. Everything seems at sixes and sevens. Two of the under keepers gave notice this morning. There is nothing I can do for the marquis, I suppose, Mr. Locke?"

Gerald said no, that there was nothing Mr. Ingram could do, and as he walked on he reflected bitterly how little he himself could do.

He passed through the shrubbery and into the little glade or opening before the bridge, and then on to the bridge itself, and stood looking down at the stream, which was bubbling along as giddly and light-heartedly as ever, singing bitthely as it had sung while the deed of blood was being done.

Gerald looked round him, though of course there was nothing to be glean-course there was nothing to be glean-course there had apparently been had said, there had apparently been no struggle, no conflict. Charles Sher-win had been killed at once by that sharp, swiftly dealt blow of the gro-tesque dagger.

The rail of the bridge was a low

one little more than two feet high. The murdered man had evidently

The murdered man had evidently staggered back against it as the dagger struck him, and had either overbalanced or been pushed over by the hand that had dealt the stab.

There again! Gerald could not bring himself to imagine the marquis guilty of thrusting his victim into the stream, or even leaving him there. He was far more likely to call for assistance, and exclaim, "I have killed this man! Take him up. see to him!"

him up. see to him!"
It seemed impossible to Gerald
that such a man as Lord Nairne
should come back to the house and leave the dead man lying out in th stient night.

shient night.

The marquis might be passionate, vengeful, utterly unable to control his temper; but no one who knew him, however slightly, could deem him capable of cowardice and mean-

ness.

Grand stepped off the bridge and went down the bank, standing looking for a minute or two at the spot where the body had been found; then he went up again, and slowly made his way back toward the house, feeling that he helplace as when he feeling just as helpless as when he had entered the grounds, and he was rather startled at seeing a man seated on the rustic beach which stood in a little leafy recess

by the walk.

It was Luigi Zanti, and he was sitting with his head leaning on his hands, his whole attitude eloquent of melancholy brooding.

He raised his head as Gerald's the racehod his head as Gerald's He raised his head as Gerald's step reached his ears, and Gerald was startled by the change wrought in the blind man's face. It was, as Ingram had said, as if the Italian had grown old since his master and friend had been taken from him.

"Signor Zanti," he said.

Luigi half rose, then sank back.

"It is you," Mr. Locke," he said. "It hought I knew the sten, but my

"It is you," Mr. Locke," he said. "I thought I knew the step, but my hearing seems confused. I——" He broke off with an earnest entreaty. "You have seen him? Has he sent me any message? Surely he has sent

one word to me?" one word to me?".

Gerald sat down beside him.

"Yes," I have just left him," he
replied. "He did not send you a
message, Luigi, but you will not
think he has forgotten you, because he has not spoken of you. He speaks of no one, indeed, he says very little

al out anything."

"The strong suffer in silence," murmured Luigi, his hands clasped
tightly, "and he is strong. I know
him." There is no one who knows
him better—so well—as I do. He
will not speak—" He stopped, as if
he suddenly remembered that he was not alone Gerald looked at him thoughtfully.

"No," he said. "You will do al"

can be said. "You will do all shall I shall try. assented Gerald

gloomily. "But it is hard, uphill work, when one has so little to go upon, and when one's own client declines to help."

Lulgi did not look startled or almed but his beed gash still leven. "He will say nothing?" he said,

after a pause

after a pause.

"Nothing," repeated Gerald, "and that is the very worst course for a man in the marquis' situation to adopt toward his lawyer.'

"Yes, yes, yes!" breathed Luigi, as if a heavy weight were pressing down upon his chest and making it sufficult for nim to speak.

"You must do it all alone, without aid, without—" He stopped, and Gerald, who could not resist the Gerald, who could not resist the temptation, sprang the question upon him suddenly:
"Luigi, do you know where Miss Elaine is?"

He saw the blind man start and

wince as he shook his head.

"No. Why—why do you ask?"

"isn't it a natural question? She was engaged to the marquis—his promised wife——" promised wife--"She is so no longer," Luigi broke in abruptly. "They parted — there was no blame on either side, remember that! She is blameless, faultless. The night—"

"The night of the murder," on n Gerald, distinctly.

dogged kind of stubbornness.
On the night of the murder, yes, it what has that to do with it, "I don't know. Do you?" he added,

Luigi, his face still set and hard shook his head.
"No. She has nothing to do with
it. Let her alone. Do you want
to drag her innocence and purity
into the shameful glare of a court into the shameful glare of a court of juities. Let her alone, I say!" His voice grew stern and angry. "She has suffered enough Besides." and he seemed to control himself with a great effort, "she could do no good. She could not help him, if you were to find her and drag her into the witness box. Remember that—"

ber that-"How do you know that?" said Gerald, in a low voice. Luigi let his head fall again.

his hair hasn't turned grey, the signor has grown old in a single night."

"I are going to the bridge," said Gerald.

"Yes, sir? It's pretty quiet there in hed. Gerald Locke, you have not now, but after the news spread the piace as thronged. What the head swifty, with a look of terror in with us."

Luigi let his head sail again.

"How do I know?" he repeated slowly, cautiously, his hands trembling. "How could she help him? She knows nothing of it. She was green and fresh on the farm.?" of the lift am "Gosh, yes! Specially them an city jays wat's board-in," with us."

Will be the Men of the

they Should be Rugged and Sturdy, Full of Life and Ready for Work, Play or Study-Keep Them Healthy

Growing boys should always be calthy and rugged. Ready for play, ready for study, and ready at any time for a hearty meal. This condition denotes good health, but there are entirely too many who do not come up to this standard. They take no part in the maniy games all healthy boys indulga in; they are stoopshouldered, dull and listless; they complain of frequent headaches, and

their appetite is variable. Some-times parents say, "Oh, they'll out-grow it." But they won't-it's the blood that's out of condition, and blood that's out of condition, and instead of getting better they get worse. What boys of this class require to make them bright, active and strong is a tonic, something that will build up the blood and make the nerves strong. There is no medicine that can do this as quick'y and as effectively as Dr. Will.ams Pink Pills. Mrs. Mary Compton, of Merritton, Ont., tells what these pills did for her sixteen-year-old son. She easys: "About two years ago my son Samul began to decline in health. Suys: "About two years ago my son Samu: I began to decline in health. He grew very pale and thin, and at times experience! serious welk spells, couled with a tired, worn-out feelign, and as the weeks went by he grew worse. This alarmed me, for my husband had died of what the doctors called pernicious anaemia, and I feared my son was going the same way. I had often read that Dr. Williams' Pink Pill's would cure anaemia, and decided that he should try

mia, and decided that he should try mia, and decided that he should try trem. A couple of boxes made a decided improvement in his condition, and by the time he had taken a half cozen boxes his health was better than it had been for some years previous. His weight had increased, his listlessness hed disappeared, and he was blessed with a good appetite. I may add that other members of my family have been benefited by the use of Dr. Williams' Pink Pills, and I consider these fills the best of all medicines."

"an, who said to him,
"Ah, my son, what have your friends done to you?"

"They have left me here to die," I suppose," replied the youth with camment to show that he was afraid.
"Oh, you will not die if you will agree to do as I require," said the man, "I will make you well again, but in turn you must be my slave, and hunt for me all the rest of your life."

To this the youth agreed as he

Poor and watery blood is the cause of nearly all diseases, and it is be-cause Dr. Williams' Pink Pills act of hearry all classases, and it is because Dr. Williams' Pink Pills act directly upon the blood, both enriching it and increasing the quantity, that they cure such troubles as anaemia, rheumatism, indigestion, neuraligia, heart troubles, incipient consumption and the various ailments that affilet so many women. These pills may be had from any dealer in medicine, or will be sent nostrail at medicine, or will be sent postpaid at 50c. a box, or six boxes for \$2.50, by writing to the Dr. Williams' Medicine Co., Brockville, Ont. If you value your health never allow a dealer to constant of the postpaid when the control of persuade you to take something else

medicines."

on his white face, which was not lost on Gerald.

on his winter lace, which was not lost on Gerald.

"No, I have not sent for her, for the hest of all reasons," he replied.
"I do not know where she is. No one knows. Nothing has been heard of, or from, her since she left, the morning after the murder."

Luigi drew a long breath of relief as it seemed to Gerald.

"But of course, I could find her," he went on moedily. "I intended doing so. I had made out an advertisement for the papers,—"

Luigi raised his head and listened breathlessly. breathlessly.

"But the marquis has foroidden Luigi sighed heavily and let his read fall again with an expre

head fall again with an expression of resignation.

"He is right," he said at last;
"he is right. II—If Elaine were your sister, Gerald Locke, would you wish her to appear in this? Would you not do all, risk all, rather than her purity should be sullied by contact with all this shame?"

"I don't know," said Gerald, watching the white, haggard face. It deends. If I thought she could

It depends. If I thought she could throw any light upon it, help to clear up the mystery, and save an innocent man, even though she were my sister, I should expect her and desire her to come forward'

There was silence for a moment then Luigi said in a low voice: "And if she could not save him?' Gerald was silent. Was it possible Luigi Zanti knew comething of the truth, and he, too, desired Elaine

"And if she could not save him?" repeated Luigi with melancholy earestness. "Then she is better away." said

Gerald, with a sigh that was almost a groan. "Luigi, I see—I should be blind—oh, forgive me!" "Go on."
"I cannot help seeing that you cannot help seeing that you

know-You know ou not tell me?" Luigi shook his head doggedly. Gerald Locke laid his hand upon the blind man's thin arm.

the blind man's thin arm.
"Consider, for God's sake, consider!" he said solemnly. "This is not a light thing. It is a matter of life or death! Of life or death! You know the evidence that has been brought against him."
"I know it—yes," responded Luigi

"I know it—yes," responded Luigi with a stifled moan:
"It is—damning! As it stands, with nothing further to strengthen it, it may be sufficient to—to condemn him. You understand?"
"My God! Yes, I understand," moaned Luigi, the great drops of sweat standing on his white brow.
"And neither he, who knows/mill nor you, who know something, will nor you, who know something, will nor you, who know something, will speak. Do you intend to remain sil-

ent? Do you mean to say nothing till the verdict - guilty? - has been pronounced? For Heaven's sak Heaven's sake Luigi, if you can say one word that may help me saye your friend-"A brother could not be dearer to e!" fell from Luigi's white lips.
"Well, then!" urged Gerald.
(To be Continued.)

As Other See Us.

WHY INDIANS LOVE THUNDER.

Among some tribes of Indians the thunder is held in great reverence;

they sing songs to it, and have dances in its honor.

As a reason for doing this they tell the following story:

Once upon a time three young men Once upon a time threee young men were on the war path from their homes, when the youngest of them had the misfortune to break his leg. By Indian law it became the duty of the other two warriors to carry the youth safely to his home. So they made a rude litter and carried him on it until they became tired. Finally they came to a range of mountains and, as the trail was steep and it was hard work to carry the youth any further, they lake the

the youth any further, they laid the litter down and went to one side, where they held council together. "Lot us leave our wounded com-pasion where he is," said one. "It is too much work to carry him far-

ther."
"Agreed," said the other. "We will say that he was killed by the cnemy and no one will ever be the wiser, for he will certainly die, if we leave him here."
"So the wicked men threw the youth into a deep cleft in the rocks and went on their way home to the village. When they had come there they reported that the boy had died from wounds received in a fight with the enemy.
Great was the grief of the boy's

Great was the grief of the boy's Great was the grief of the boy's widowed mother, who wept and groaned at the loss of her son.

But the youth was not dead. As he lay in the cleft in the rocks where the wicked warriors had thrown him, he saw, sitting a little way off, a strange looking old man, who said to him.

To this the youth agreed, as he saw no other way out of his predicament; and the old man (who was not an old man at all, but a porcupine who had assumed the shape of an old man) cured him of the hurts and soon had him hunting to him the same of the same soon had him hunting the hurts and

soon had him hunting for him and bringing home the game he killed to the cleft in the rocks.

to the cleft in the rocks.

"Whenever you kill anything which is too heavy for you to carry, call me and I will come and help you," said the old man.

All winter the youth hunted for his master. One day when the spring had come the youth killed a big bear which was too heavy for him to carry to the cleft in the rocks alone.

"Now I will go and call the old man," he said.

nan," he said. But, just as he was stooping down

But, just as he was stooping down to feel of the bear and see how fet he was, he heard a murmur of voices behind him, and, turning in surprise, beheld three men, or figures in the shape of men, who wore cloud-like garments with wings.

"Who are you and what are you doing in this wilderness where no man ever comes?" cried the youth. Then they told him that they were the Thunderers, whose mission it was to go about over the earth doing good, and destroying things which harmed mankind. Just now they were after the old man who lived were after the old man who lived in the cleft in the rocks, who was no old man at all, but a wicked porcupine, as they would presently prove to him.

'Run back," they said, "and tell him to come and help you with the bear."

him to come and help you with the bear."

So the youth went and told the cld man that he must come and help carry the bear home. But the old man said he could not go out if there was any sign of a cloud in the sky.

The youth looked around and said that the sky was clear. So the old man came out and went with him to where the carcass of the big bear was lying. Then they cut up the bear, the old man constantly urging the youth to make haste, and the meat was placed on the old man's shoulders as he directed, the youth all the time being greatly astonished at the strength he showed.

Loaded with the bear meat the old man began to run toward the cleft woman to dance. There are no for-

in the rocks as fast as he could, but clouds began to gather rapidly in the sky and the thunder rumbled in

and ran faster and faster, but the thunder rumbled nearer and nearer. Then the old man assumed his proper shape of a huge porcupine, and went scampering away, shooting his quilts cut behind him as he ran. But the thunder followed him with peal after peal until, finally, a bolt of lightning struck him and descripted him.

stroyed him.
Then the three Thunderers appeared again and said to the youth: "Now that our work here is done we will carry you home to your mother, who has been grieving for you all the time?"

So they gave him a cloud suit with wings like their own, and the four swept away through the air to the Indian village where the youth's

widowed mother dwelt.

It was night when he found himself in his mother's confield, and, going to the opening of the lodge, he drew back the curtain which covered it and stood there in the moon-light

light.

The widow started up and gazed at him with terror, but he said:
"Do not be frightened, mother; it is no ghost, but your long-lost son, who has come back to take care of

you."
Then the widow wept tears of joy, while he told her all his adventures, while he told her all his adventures, and they lived happliy ever after. And that is why the Indians dance and sing to the thunder.

The laziest of all laziness, Herbert W. Horwill in the Critic, is the practice of coining unnecessary words. It might have been supposed, that, when there is already in existence a word which exactly denotes the idea to be expressed, it would be easier to fall back upon this word than to invent another. In fact, however, it often requires less effort to construct a linguistic monstrosity than to find the term that has been consecrated by good usage. Take, for instance, such words as Take, for instance, such words as extinguishment, revealment, withdrawment, devotement, denotement and startlement. It is not difficult to trace the mental process. The word, extinguish, was in the speaker's mind. He wanted a noun, and to stick "ment" on to the verb was an expedient nearer to hand then the expedient nearer to hand than the search for "extinction." Occasionally the quick change is from the noun to the verb. When a man says, "to adthe verb. When a man says, "to administrate," we may be sure that he first thought of "administration," and that he was then in too great a hurry to notice that the analogy with such pairs as celebrate and celebration, would mislead him. I one were making a collection of linguistic curios, one might add to it such exhibits as propellation, affirmance, clientage, reminniscential, moveexhibits as propellation, affirmance, clientage, reminniscential, moveless, traditionary, leisuristic, unsympathy, and bishoply. In the mind of the offender there seems almost to be lurking a kind of predatory; false analogy, which grabs at his expression and distorts them before he can help himself.

Is it too late to purify our speech from these mischlevous tendencies, or

from these mischlevous tendencies, or must we be content to see a great language turned into shoddy? Certainly the effectiveness of English as an organ of thought is weakened by the careless use off its vocabulary. The creation of redundant words really adds nothing to the resources of a tongue, and the overworking of some words, combined with the underworking of others, means actual Impoverishment. Only a pedant would object to the gradual expansion of the dictionary by means of the adoption of new kiloms and terms. When our ancient metaphors

when our ancient metaphors have lost their edge, we may be pardoned if we turn even to colloquialisms for pointed expressions to take their place. But there is no prothrough confusion.—Chicago Post.

all the time being greatly astonished at the strength he showed.

Loaded with the bear meat the old man began to run toward the cleft in the rocks as fast as he could, but should began to gather rapidly in the sky and the thunder rumbled in the sky and the thunder rumbled in the old man threw down his load

down the narrow streets.

At night the Heligolanders gather in the public halls, the men to drink beer, smoke and play cards, and the woman to dance. There are no formalities, as all the islanders have known each other from infancy.—

From "Queer Little Heligoland," by Arthur Inkersley, in Four-Track News for September.

# Another Cure of Chronic Disease

Of the Kidneys and Bowels-Well-known Steamboat Man Endorses Dr. Chase's Kidney-Liver Pills-Statement Vouched for by Minister.

Mr. James A. Buchner, Port Robincon, Ont., was for years a steamboat man, and is favorably known in
cvery port from Cieveland to Montreal. Until a few months ago he
was for years a great safferer from
kidney disease, rheumatism and contipation, Dr. Chass's Kilney-Liver
Pills have made him well, and for
the henefit of others he has made
the statement below:

thought of again recovering health, I
continued the use of these pills until
had used six or eight boxes and
was again enjoying my former health
and vigor, I shall always recommend
ideal 'medicine.''
Rev. W. D. Masson, Methodist minister, Port Robinson, Ont., writes;
Being personally acquainted with
Mr. J. A. Buchner, who was cured

was for years a great siferer from kidney disease, rheumatism and constipation. Dr. Chase's Kilney-Liver Pills have made him well, and foothe benefit of others he has made the statement below:

M. Fincher writte: "For many rest I was the unhappy victim of kidney trouble, rheumatism and constipation, which became is severe as to make life a burden! I was a constant sufferer, entirely unfit for work; appetite was fickle; I became machated; could not sleep, but arcsen the morning tired and enfeebled. I lingered on in this condition, gradually growing worse, and became despondent and discouraged because I could obtain no relief from the many medicines used.

"Friends advised Dr. Chase's Kidney-Liver Pills, and I now feel thankful that this medicine came to my land; when I was in such a missing it to be in any way misleading of untrue."

"It is by curing just such chronic and complicated cases as this that come so well known as a medicine of excaptional merit. Their direct and complicad ection on kidneys, liver and howels makes them successful where ordinary medicines fail. One pill a 20se; 25 cents a box, at all Galers, or Edmanson, bates & Co... Toronto. To protect you against imitations the portrait and complicated cases as this that this medicine came to my

farm?"

yes! Specially when I was in such a miseration when I

Mr. James A. Buchner, Port Robin- | thought of again recovering health, I

# BY-LAW NO.-

To raise \$3,000.00 by Debentures for the completion of a Town Hall in the Village of Athens.

WHEREAS the Municipal Corporation of the Village of Athens under By-Law No. Straised \$6.000 by the issue of debentures to purchase a site in the Village of Athens aforesaid and for the erection thereon of a suitable Town Hall Building.

AND WHEREAS it has been found that the said \$6,000 will be insufficient for the purposes mentioned in said By-Law.

AND WHEREAS to complete said Town Hall Building the Council require to raise the further sum of \$3,000, three thousand dollars, and, to do so, intend by this By-Law to create a debt upon the said Corporation of Three thousand dollars, with interest thereon at four per cent per annum payable in twenty equal annual instalments, by the issue of Debentures to the amount of four thousand four hundred and fifteen dollars, payable as hereinafter provided;

AND WHEREAS the Municipal Council of

provided;
AND WHEREAS the Municipal Council of
the said Village have determined that the
said Debentures shall be payable in annual
twenty years from the said Depentures snall be payable in annual instalments within twenty years from the day on which this by-law takes effect, such instalments to be of such amount sthat the aggregate amount payable for principal and interest shall be the same in each of

and interest such the said twenty years;

AND WHEREAS the whole rateable prop AND WHEREAS the whole rateable property of the Village of Athens according to the last revised assessment roll of the said Village is the sum of one hundred and seventy-eight thousand six hundred and twenty-five dollars (\$178,625.00);

LORD AVEBURY ALARMED. Pears Bargaining With Colonies Will Con erate Scalousy, Suspicion and Ant-

mosty-Canada and America's Cup. London, Sept. 4.—Lord Avebury, in The Nineteenth Century, concedes that it would be unwise and ungracious to throw cold water on any real proposal for closer connection with the colonies, but is somewhat alarmed at the prespect of bargaining with them. He says: "We may seem to favor one colony and one interest, and may find instead of closer union that we have aroused jealeusy, suspicion and animostics."

stead of closer union that we have aroused jealeusy, suspicion and animatities."

The Freeman's Journal, in commenting on the prospect of Canada challenging for the America's Cup. says; "Professional yachtsmen shrug their shoulders at the idea of the srew, as proposed, being composed of centlemen yachtsmen. In order that emateur yachtsmen might work such a yacht as Shamreck III.. It wells no quire that they should sail a similar vessel for 18 months. Perhaps Chaldian yachtsmen are prepared to like one of the Shamrecks said so thru a tremendous diseignine. It not especies on this side prophesy that they will have the same fate as Lapton."

The same journal says that the amouncement that the Morgon Chips Trust intends to begin operations of Canada on a large scale may well make manufacturers in Great Britash look to their trade with some concern, for in ingenuity the Americans can excel the world. That is one reacon why the steres in Montreal, Tordise and Ottawa are more largely stedied with American goods than with British. The annual report of the Gattle Markets Committee of the City Corporation says trade from Canada is increasing very considerably. From 1893 to 1902 there were delivered at the market 229.043 beasts and 193,440 sheep from Canada.

Lloyd's Times' correspondent says that a survey of the interior of the steamer Manchester Trader, at Quebec,

Lioyd's Times' correspondent says that a survey of the interior of the steamer Manchester Trader, at Quebec, reveals extensive damage. The cost of repairs in Canadian ports is so high that the vessel may be temporarily repaired, and brought home to the British yard.

PRIDAY NIGHT'S STORM.

Barns Were Burned and Streets M White With Half. White With Mail.

Torento, Sept. 5.—Thunderstorms were prevalent over Ontarie and Quebec yesterday. In Toronto there was thunder and lightning, but no rain. Thursday night Manitoba and the Northwast Territories were visited by a slight frest. The frost was not sufficiently severe to cause any damage. however.

Sometimes the hair is not properly nourished. It suffers for food, starves. Then it falls out, turns prematurely gray. Ayer's Hair Vigor is a

all matter. A small quantity of it in the possession of M. Currle has caused

smoking, novel reading

cigarette

You, gentlemen, have often watched the royal progress of James down the avenue, as he sat, spick and span, with squared arms and ramrod pose, beside the liveried driver, atop of a gorgeous wagon, purple, with silver trimmings, beside a smart, glossily harnessed white team. You, fair ladies, have watched flutteringly from your windows the imposing approach of James, his dignified descent, his soldierly dealings with the maid, and have thrilled with the correctness, the discipline, the chastened giory of it all, as you tore off the tissue paper and exclaimed, sniffing. "Oh, aren't they dear!"

rectness, the discipline, the chast-ened giory of it all, as you tore off the tissue paper and exclaimed, snif-fing, "Oh, aren't they dear!" Such qualities are the very founda-tions of James' house—not shop. To James they came as painfully reared tinnacles. When he first reported for duty, a baggy-kneed novice with cheerful grin, nicotined fingers and defiant tufts of tow hair, he gave his name as Jamesey. Wilames," corrected the manager, coldly. He unfolded the inflexible traditions of the house-uniform shees.

citions of the house—uniform, shoes and hair irreproachably brushed, linen immaculate, spine stiff, arms squared, cyes front, and unfailing respect to patrons, not customers.

James hearkened, abashed. He tried too but leaved with a particular and the street to be a specific too but leaved with a specific too

spect to patrons, not customers.

James hearkened, abashed. He tried, too, but laundrying counts up, especially when your little brothers and sisters cannot be reckoned on both hands, and your weekly salary can be reckoned easily on one. Also, James had not been born with a perked nose and winkable eye for nothing. He persisted in mouthy stares, entertained patrons with appalling levity, and snickored upon the faintest provocation. On route he scandalized the driver by alighting with cake walk steps and whistling sentimentai ballads through his teeth. Reformation was as tedious a process as would have been the extraction of his wink or the depression of the perk in his nose.

The manager believed that James meant well. Yet is was distinctly, bundlating one day when a con-

meant well. Yet is was distinctly humilating, one day, when a popeyed, pig-tailed young person entered, staring awedly about the great, green, electric lit bower, and faltered that when Jamesey Quinn went out to dinner, now, would he ask him to step around to Heinrich's-glove

The manager raised James' consolutionsly plastered hair. Some one never called again, but Joseph and William jealously observed that James' dinner hour was more often a dinner hour and a quarter. They a dinner hour and a quarter. They gloated privily upon the end of evil

gloated privily upon the end of evil ways, perceiving a Damoclean blade suspended over James' plastered hair, One Monday morning, James, instead of recounting the delights of Coney and balladizing through his teeth, ascended the wagon with a heavy sigh. All day he sat dumb, his sprightliness wilted, his assurance crushed, his stolid face, squared arms and stiff spine but empty mummeries. and stiff spine but empty mummeries. Hickey, at the reins, observed that the Boss mast have been combing James' hair, but urged him not to take it too hard, as he did need ton-

ing down, as you might say. James only sighed, staring distantly, as though discerning, far off, unhappy For a week consolations were vain.

For a week consolations were vain, then he began to mend. His dress and deportment were beyond suspic-tion; he was soberly cheerful, but his wink had fled and even the perk in his nose seemed subdued. His sole his nose seemed subdued. His sole lapse was on the morning of Heinrich Brothers' fire, when he ran out to watch the ambulances pass and forgot to return for an hour. Hickey, budged, that the Bear the Brothers' for the seemed and the seemed subdued that the Brothers' for the seemed subdued that the seemed subdued subd that the Boss must have combed James' hair afresh, for he made the afternoon trip very wan and nerveless, and for the rest of the was the face of one who realizes that he has done, left undone, and there is no health in him

One morning the wagon started half an hour earlier than usual. James was obliged to spend most of his dinner hour at work in the packing room, and that afternoon he was given a new route on an unusually full wagon. There was also unusual indecorum on the part of young ladies; many rushed down stairs before the maid had fairly opened the door, and some opened the door themselves. James questioned his driven listlessly. driver listlessly.

Kelly, a bachelor, had not deli-

vered flowers for twenty years with-out becoming a trifle cynical.

"Oh," he sniffed, "it's what-you-call-it Day—Valentine's, an' every feller who's scrapped with his girl gets a chance to try a feeler. You see, he don't have to put his paste board in the box. She knows where it comes from, all right, an' if it don't come, she knows it's all off. Say, a wagonful o' vylets, which stands fer love, an' nine-tenths of 'em standin' fer red hot scraps! Funny, ain't it?"

James said it was, and sighed. To cheer him Kelly got out his tally sheet and explained the raison quantity of it in a state of anything like purity would probably not live to tell the tale. The particles which fly from it are charged with electricity, and at night it shines forth with a phosphorescence which has been shining since the beginning of all things, and which will go on shining until the final extinction of derro of every bunch. This one was a regular weekly, and represented, he guessed, a would be engagement. Here was a monthly, and a newly-married couple, to whose wedding Kelly had carried the flecorations. All those there used to be weeklies, and represented the decorations. All those there used to be weeklies, and represented the making up of scraps as sure as James was a foot high.

A bit further on, he concluded, James was to get out and deliver Haigh's roses, while he, Kelly, would make two stops down a side street and overtake him. Haight was No. 812, right near St. Catherine's.

James glanced up. "St. Catherine's.

James glanced up. "St. Catherine's."

One More Solendid Cure Credited to Dodd's Kidney Pills.

Said Nicholas Ecker had Gravel or Bright's Disease, or Some thing Else\_Dodd's Kidney Pills Gave Him the Vigor of Early Manhood.

Him the Vigor of Early Manhood.

St. Catharines, Ont., Sept. 14.—
(Special)—Nicholas Ecker, the wellknown farmer living near St. John's
P. O., on the dividing line of Pelham
and Thorold townships, who has
been restored to health after 29
ryears of suffering from Kidney Disease has given a statement for pubfication. It reads:

"I had been a sufferer from Kidney Complaint for 29 years. I had
the most distressing Backache, Irriit ation of the Spine and Headaches,
coupled at times with an excruclatring circular pain about the lower
part of the body. What I suffered
no pen can describe. Insomnia, too,
added its terrors, and I was greatity reduced in flesh.

"Three different doctors attended
me. One said I had gravel, another
called it Bright's disease, while the
third sailit I was in a dangerous condition. None of them gave me any
permanent help and my friends
thought I could not live much
longer.

"At this stage I gave up other the staircase with dignity.

He advanced, apologizing that her violets should have been forgotten.

The boy must have overlooked them when loading the wagon.

She crushed his assurance of a special messenger with a haughty
"I shall see it is reported," and
swept past lato the street.
The third blunder that month.
Such carelessness! And, of all days,

longer. This stage I gave up other treatment and started using Dodd's Kidney Pills, After taking two boxes I found they were helping me and I continued till I had taken sixteen boxes, when I was again enjoying the splendid vigor of earlier manhood."

Cork Becoming More Valuable. So much cork is now used in the manufacture of linoleum and in manufacture of linoleum and in shipbuilding that the protection of cork trees has become a matter of prime impirtance. Italy is taking steps to this end in Sicily and Sardinia, where there are large cork forests, those of Calabra having been nearly destroyed in the making of charcoal. It is said that Spain is showing a like interest in protecting these trees, as the manufacture of corks is a large industry there. Only a fea years ago the exportation of wine bottle corks from that country amounted to about \$5,000,000 annually.

### Catarrh is not a Luxury OR A NECESSITY.

She had explored seyeral wards, and was pausing irresolutely near the screened corner of another when a pasteboard cover on the floor met her eye. She stooped then straightening, with an angry flush, marched menacingly up to the screen and—drew back.

By a cot stood the gray uniform, head hung, fumbling his cap and shuffling his feet. Pillow propped sat a pop-eyed, pig-tailed little girl. She was grinning to the gums. One arm was bandaged; the other hugged to her nightgown a huge bunch of violets.

"An", say," 'she was confiding. Catarrh makes a man ridiculous— it makes him an offensive nuisance and it makes him dangerously sick. It is pretty sure to bring on consumption, pneumonia or at least a throat affection. You can not afof violets.

"An', say," she was confiding, prodigious sniffs, "I wasn't relee mad at you—not a bit!".

Outside Miss Dainton met the purple wagon. Its driver approached, grovelling.

"The matter is settled," she interrupted, loftly. "I have no complaint," and stalked on. ford either, but you can afford the cure for it. It is Dr. Agnew's Ca-tarrhal Powder. It relieves a cold or catarrh, or cures headache in 10 minutes. Don't hawk and spit and disgust your friends, but cure yourself by the use of this remedy. Dr. Agnew's Ointment relieves Eczema in a day. 35

Origin of a Name."

It is a sad work when one reflects that if all the peoples of the great Eastern peninsula would but hold to-There is a popular legend that the surname of Kara, which means "black" in the Turkish language, was given to the founder of the Karageorgevitch dynasty because his skin was unusually dark.

Gorgees Petrovitch, grandfather of King Peter L. was one of the wealth. gether and federalize their armies, they might found a nation which even Russia and Germany could hard-ly crush. They possess, perhaps the most fertile division of Europe, they sit upon three seas, and if they could but enforce a conscription on the

King Peter I., was one of the wealth-lest agriculturists in Servia, and when his sister married he sent her cerman model, they would organize an army seven hundred and fifty, thousand strong. They could defend themselves far more easily than the Swiss, and they are not more divided by creed, race and largers them for herself.

When Petrovitch heard this he became furious with passion, and, seizing a hive he ran to his mother and unceremoniously put it over her and unceremoniously put it over her head. Thereupon the old lady burst out into loud reproaches, calling her son "Kara Georges!" which means "Black George, or "George, you the obstacles are greater than those which Cavour and Garibaldi overcam: whilee the motive for overcoming them, the horror of Europeans for

#### "AS WAK AS A CAT."

Another Adage Found on the Mistal of a Fact. Of all the animal adages founded on the mistake of a fact, "as weak as a cat" is the most absurd. Realas a cat" is the most absurd. Really, the cat is a most muscular animal. The lion, the tiger, and other co-called "big cats," as you already know, are of the same family with our common house pussy; we shall not speak of them further. "As weak as a cat" is applied to the house pussy; but to say "as weak as a kitten" is truer. One may then mean the new-born kitten which comes into the world blind, softer and more

to the world blind, softer and more to the world blind, softer and more helpless looking than even the blind puppy; but which, however, is not so helplessly weak as the puppy, the kitten having sharp claws which the purpy has not. You know so much of cats, do you not, young people.

The cat's muscles are extraording property in property.

narily large and powerful in proportion to the animal's size. Then, again, those muscles are attached to bones. Fitted together at such angles as to make "the finest system of springs and levers," says Dr. Huidekoper, "known in the whole group; the claws are sharper and are curved into stronger hooks than in any other animal, and by the action of special muscles are withdrawn under the protection of sheath-like pads, that they may escape wear and injury when not in use." The slender, supple form of the cat makes it capable of the highest activity. The heavy boy, you may have noticed, is not always the strongest; the thin, active boy is the fastest runner and again, those muscles are attached to active boy is the fastest runner and the quicker at games which need both strong and limber musces. The shoulder-blade, the arm and the forearm, the thigh, the leg and the foot of the oat lie at what the the foot of the cat he at what the veterinary surgeons call "closed angles." That peculiar conformation shows that the enormous jumps which the cat can make to the envy of any athletic boy are due to the great power-ard the closed angles of the least; but the conformation of the legs makes the cat's stride at a walk, a trot or a run, remarkably limited. The cat moves therefore, with wonderful quickness, but with no great speed. The boy who says in feels "as weak as a cat,"—If he is at all like the cat—should be splendidly muscular. The truth is that, in proportion to the size of his body, he can never liope to be as strong as a cat. — Our Animal Friends. great power-and the closed angles of

Friends. The Ever Faithful Dog. There is not a more pathetic story than one Mr. Hare tells, and which had to do with the sad fate of a dog belonging to Hogg, the Ettrick shepherd.

Ettrick shepherd.

One winter's day, when a snow storm was gathering, Hogg was much concerned about his flocks. He called his dog and explained all the matter to him, that he was going round one side of the moors himself to drive in the sheep, and that the dog was to go the other way and collect. The dog understood perfectly. When late in the evening the shepherd returned with way and conect. The log understood perfectly. When late in the evening the shepherd returned with his part of the flock, the dog had not come back. Hour after hour passed, but still the dog did not appear. At last whining and scratching were heard at the door. Then it was found that the dog had come back with all his sheep safe, but also with a little puppy in its mouth, which it laid at its master's feet and darted off through the snow to seek and bring in another. The poor thing had littered in the snow, but would not on that account neglect one lota of its duty. It brought in its second puppy, laid it in its master's lap, looked up wistfully in his face, as if beseeching him to take care of it, and—died. — Rochester Post-Express.

Origin of Names of Carriages Omaibuses were first seen in Paris 1827, and the name is nothing more than the Latin word signifying "for all." "Cab" is an abbreviation of the Italian word cabriola, which was changed to cabriolet in French. Both words have
a common derivative—cabriole signifying a goat's leap. The ex-act reason for giving it this strange name is not known at pre-sent. In some instances names of sent. In some instances names of special form of carriages are derived from the titles of persons who introduced them. The brougham was first used by the famous Lord Brougham, and the popular hansome also derives its name from the introcucer, Mr. Hansom, Landau, a city in Germany, was the locality in which was first made the style of vehicle bearing that name.

SSUE NO. 38, 1903

Population of Europe.

During the last seventy years the population of Europe has risen in round numbers from 216,000,000 to 400,000,000; that of Asia and Africa has probably increased little more than three and a half times as great as it was in 1830. Altogether the world's population is now about 1,600,000,000 and was 847,000 in 1833.

"Thought it meant death sure." Mrs. James McKim, of Dunny ville, Ont., says of her almost miraulous cure from heart disease by Dr. Agnew's Cure for the Heart; "Until I began taking this remedy I despaired of my life. I had heart fall-upe and extreme myostration. One ure and extreme prostration. One dose gave me quick relief and one bottle cured. me. The sufferings of years were dispelled like magic."

Profitable Roses.

The best roses in the world come from Roumelia and Bulgaria. The rosa crop of Roumelia alone is worth £200,000 a year, and the famous attar de rose is made from this harvest; 250,000 pounds of rose leaves are used to make a single ounce of the essence.

the essence.
A ton of orange blossoms yields only 40 ounces of the scent of the same name, and 56 pounds of lavender will give exactly a pound.

Last night the darkest of the three watched the 8 o'clock train on the G. T. R. come in, and sat on the baggage truck with Fred Shepherd, who had taken the express wagon over. He entered into conversation with Mr. Shepherd and showed him the handcuffs which he had sawn. Whiist talking to Mr. Shepherd, Constable Hays appeared in the distance, and the man by his side recognized the uniform immediately. "I see my finish," said the burglar in a low whisper, but he did not jump up and run. He continued to sit on the truck and crouched his neck into his truck and crouched his neck into his cont collar, giving the policeman a side look as he sat in the shade of Mr. Shepherd. "Just watch that cop," said the burglar. "If he makes a move towards me you'll see the biggest scrap you ever saw. in your life." But there was no scrap.

The policeman walked past, and then the burglar said, "I must be off, for I am to meet my pals at Daven-port Station to-night." The broken handcuffs were shown to others, and the escaped prisoner placed confidence in those whom he met that they would not inform on him. The police, however, were communicated with, but the escaped men have not yet been located. The waterman at the Gurney Foundry and the G T. R. station agent both state that of two persons loitering on the platform up to a late hour last night, one was a tall, broad-shoul-

#### dered man in woman's attire. A SUDDEN DISAPPEARANCE.

London Lady Doctor Leaves Hospital and is Not Seen Again.

Dublin, Sept. 14.—Reports from the force of England is on the alert, en-deavoring to solve the mystery sur-rounding the disappearance from the Royal Free Hospital of a lady doctor named Miss Hickman. The missing woman left the hospital on the afternoon of Aug. 15, carrying a waterproof, and has not since been heard of. Many clues have been investigations. gated, many reports have come from various towns of Miss Hickman hav-Mr. Haves surprised the congress by making a statement that the effect of the court decision in the case of the Taff Vale Railway, where it was decided that a labor union should be fined for ordering a boycott, had been felt by trades unions in the United States, and 22 State-endowed in the stated that whenever the English law, authorities laid down a precedent that was adverse to organized labor the lawyers of the United States are the conditions and wales put to gether. These are the conditions power in the United States, and 22 State-endowed in the United States, and 22 Stat chinists' Union, and more than "In depending in our country upon dozen similar bas for damamong the lower classes. I' we take the searther showed a photograph of twelve English university co-leges, the foreumers of universities, we find that private effort curing sixty years has found less than \$5.0000,000, and less than \$5.0000,000, and it was at once regonized. It was also ascertained that several Italians had been overland the Navy Bill of 1883-89, \$120,000,000, and devoting the name and the increase of Great Britains arain power.

President Lockyer concluded with advocating the establishment of a Scientific National Council, to act as an advisory committee to the Government.

#### SMUGULED FROM CANADA,

Tailor-made Goods From Britain Taken Across Border.

Montreal, Sept. 14.—Sensational demontreat, sept. 14.—Sensation with the cassing of English tailor-made goods from canada into the United States without payment of duty, are expected shortly. Large consenments of these goods have lately been brought out from England and shipped on in trunks to New York, marked as having hear expensed by the Customs. ing been examined by the Customs, There is a duty of 90 per cent. on such goods brought from England into the United States, but the duty from Canada is 33 per cent, less a third from the preference given by Canada to English goods.
It is claimed that large quantities of such goods have been smuggled through to New York with the conjugate of some Customs officials.

nivance of some Customs officials, and an investigation will shortly be held. Seizures of some of the goods have already been made at New Yor by order of the United States Cu

# HAILED AS VICTORY.

Irish Land Bill the Most Substantia

Dublin, Sept. 14 .- The National Diheld a meeting at Dublin to-day, under the presidency of William Redmond, M. P. A resolution was adopted welcoming the Irish land bill as the most substantial victory gained by the Irish people for centuries, and ascribing this result to the loyalty of the Chief Secretary for Ireland, Mr. Wyndham, the high public spirit of the Liberal party and the good-will of the landlords. Other resolutions urged the tenants to negotiate the pur-chase of their holdings in a spirit

## LEADS AS WHEAT CENTRE

Winnipeg's Receipts Exceed Those of Chicago or Duluth

GRAIN AVERAGES INCHEASE,

Winnipeg, Man., Sept. 14.-C. N. Bell, Secretary of the Winnipeg Grain and Produce Exchange, said vesterday:

"I think that but few of our own people fully realize the volume of grain that is exported from Manitoba and the Northwest Territories.

and was called to the Bar in 1862.

The data of the grain inspected in He was counsel for the Sulpician Society during the grain fiscal year. this city during the grain fiscal year, ending August 30. 1903, have been computed, and a reference to it reveals the fact that Winnipeg receipts of wheat for the past year greatly exceeded those of Chicago or Duluth-Superior. Following are the fig-

Winnipeg wheat ...... 51,833,000 relates to the grain arrivals at least to abandon the trite saying that Winnipeg will some day be a second Chicago,' for Chicago makes but a poor showing as compared with this great wheat-handling cen

"As the harvesting approaches yield become more accurate, grain averages per acre for Canadian Northwest are gradually increasing. To-day's Canadian Norsections along that grain-handling railway will produce from twenty-five and even thirty bushels of wheat per acre. Oats will go from forty to sixty.

"The agent at Eli, on the Daughin section, wires that a piece of land in his district has yielded thirty bushels to the acre of No. Northern. Threshing is now in full clatter, and though the weather at times has been unfavorable, these reports say that no damage from the recent touch of frost has been experienced."

#### BRITISH WAR MOVEMENTS.

Magnitude of the Army Manoeuvres Now Going on in England.

London, Sept. 14 .- The army manoeuvres began on Monday. Nearly 1,600 square miles of territory comprise the fighting area, including the whole of Wiltshire, Buckinghamshire and western Berkshire. This district is the fighting zone proper, although skirmishes occur anywhere with a square of territory with corners at Offord, tory with corners at Of Staines, Christchurch and Bai Sir John French commands it vading forces and Sir Ev Wood directs the movements the defeaders. Lord Roberts, director of manoeuvres, is at Marl-borough, as is also the umpire

sir John French has his base at Aldershot, and his line of retreat is ta Winchester. Sir Evelyn Wood's advanced base is Westbury. The hyaders hold the London and Southwestern, and the defenders the

invaders hold the London and South-western, and the defenders the Great Western lines.

It is probable that King Edward will visit the scene of combat. All the powers are represented by their military attaches,

# WANT EIGHT-HOUR DAY. JAIL FOR BRUTAL OFFICERS.

### **Emperor William to Protect the Private** Soldier From Abuse.

Leicester, Eng., Sept. 14. - The them. Trades Union Congress at its session here to-day adopted, by a large majority, a resolution declaring for an eight-hour day in the United Kingdom, and urging the subject to be made a test question at the next Parliamentary, London county council and all municipal elections. The parliamentary commission is instructed to introduce a bill into the House of Commons making the eight-hour day a law of the country.

Abuse of Soldiers.

Berlin, Sept. 14.—Paragraphs sim-lar to the following appear almost Berlin, Sept. 14.—Paragraphs similar to the following appear almost daily in the provincial press: Cologne—The court-martial of the 15th division has sentenced Sergt. Schott to a year in prison and degradation for flogging privates and horsewhipping and kicking server punishment of those guilty of such ill-treatment. ogne—The court-martial of the 15th division has sentenced Sergt. Schott to a year in prison and de-gradation for flogging privates and horsewhipping and kicking

them. Twelve artillerymen were sentenced to short terms for as-sisting him." There have been 80 sisting him." There have been 80 convictions of sergeants for abuse of privates during the past three months and about two hundred courts are pending. The administration of the army is making the most determined efforts to stop these brutalities, which socialist leader detailed in a three hours' speech in the Reichstag in the spring. The weak reply of General von Gossler on the following day probably cost him his place as Minister of war. It has long been the theory of military men that a littheory of military men that a lit-tle rough treatment was good for privates and cultivated manhood in them. The Emperor never shar-

## SKETCHES OF LORD ALVERSTONE

### rectory of the United Irish League And Members of the Joint Tribunal Who are Hearing Boundary Case.

Baron Alverstone, is better known to the people of the British Empire as Sir Richard Webster, he having been raised to the peerage only in 1900. Porc on December 22nd, 1842, the con of Mr. Thomas Webster, Q. C., and Elizabeth, daughter of Mr. Richand Caithorp, of Swineshead Abbey, Lincolnshire, he was educated at King's College, at Charterhouse, and at Trinity College, Cambridge. He was 25th wrangler and third-class in classic. He was called to the bar in 1868, when he joined the south-eastern circuit. He was appointed Tubman and conrequently Postman of the Court of Exchanger, and was of the Court of Exchequer, and was created a Queen's Counsel in 1878. He first entered Parliament as M. P. for Launcestan in 1885, and was Attorney General of England from 1845 to 1886, again from 1896 to 1894, and from 1895 to 1900. He 1900 and Lord Chief Justice a few months afterwards upon the death of Lord Russell of Klinowen. In his younger days Lord Alverstone was younger days Lord Alverstone was a very famous athlete.

The Lieutenant-Governor. Sir Louis Jette was born at L'Assemption, Quebec, in 1836, and educated in the college at that place, where he was a fellow student with Wilfrid Laurier. He studied law bord case, and was treasurer of the Bar Association, and corresponding member of the Society de Legislative Comparative de Paris. Then for a time he turged his attention to po-litical writing, and was editor of L'Odre, a Liberal Nationalist paper. He was elected President of the Re-form Association and Parti National, and at the general elections of 1872 was returned to the House of Com-mons for Montreal East. bord case, and was treasurer of the

mons for Montreal East.

He was appointed Lieutenant-Governor of the Province of Quebec in February, 1898 and re-appointed in

Mr. Allen B. Aylesworth. Mr. Allen Bristol Aylesworth, K.C., vas born at Newburgh, Ont., Nov. His education was received at Newburgh High School, and

The Lord Chief Justice of England, at Toronto University, where he Baron Alverstone, is better known to the people of the British Empire as Sir Richard Webster, he having been raised to the peerage only in 1900. Born on December 22nd, 1842, the Aylesworth is a Bencher of the Law Scenter of Huran Q. C., in 1899 he stowed on him in 1890 by the Earl of Derby. Mr. Aylesworth is a Bencher of the Law Scenter of Huran Q. Society of Upper Canada, and a Senator of Toronto University. Politically, he is a Reformer, and in religion a Methodist. He was ap-pointed to the Alaska tribunal July 20, 1903, to succeed the late Mr. Justice Armour, who died in Lon-

Hon. Elihu Root U. S. A. The Hon. Elihu Root, of New York City, was born in 1845. He graduated in 1864, from Hamilton College, at Clinton, N. Y., where his father, Oren Root, was for many years pro fessor of mathematics. He taugh fessor of mathematics. He taught school at the Rome, N. Y., Academy, in 1865. He graduated in law from the University Law School of the City of New York, in 1867, when he was admitted to the Bar. Since that time he has been in active practice as an attorney in the City of New. York. He was appointed Secretary of War, August 1, 1899, and resign ed a few weeks ago

Hon. Henry Cabot Lodge

The Hon. Henry Cabot Lodge, of Nahant, Mass., was born in Boston in 1850. He graduated from Harvard in 1875, receiving the degree of LL. B. His profession is that of literature. He has published sev-eral important works and is a member of several historical and other societies. He was a perman-ent chairman of the Republican National Convention, which met in Philadelphia in 1900.

Senator George Turner.

The Hon. Geo. Turner, of Spokane, Wash. was born in 1850. He was educated in the common schools and is a lawyer. He was originally a Republican in politics, but in 1896 he supported Bryan for President in the fusion of Silver Republicans. Democrats and Populists. The fusionists secured a majority of the representatives in the Legislature of Washington and elected Mr. Turner as United States Senator.

#### Baltimore Manufacturer Flees to Toronto.

HIS APPREHENSION SOUGHT.

Washington, Sept. V - The Federal grand jury returned seven indictments to-day against officials and others concerned in the postal frauds, but the names of those indicted were withheld. The reason for the refusal of the officials to tell who was in-dicted, developed later in the day, when it was learned that efforts are being made to apprehend Leopold J. Stern, a Baltimore manufacturer, who was indicted some time ago, but on learning of his indictment on learning of his indictment Hea the country, and was only to-day located in Toronto. It was not in-tended that the knowledge of Stern's whereabouts should be published, and Gen. Bristow urged that Stern and Gen. Bristow urged that Stern might be able to disappear from Toronto and put the department to considerable trouble to secure him. Stern was indicted, July 31st, for complicity in a contract for shoulter-straps for letter carriers' sacks. He was indicted on a charge of conspiracy to defraud the Government, and therein the difficulty arises of securing his extradition, as the extradition treaty be-

to get around this difficulty by having a warrant issued for Stern's arrest, naming one of the extraditable offences, such as one done in the case offences, such as one done in the case of Greene and Gaynor, and after his apprehension, seeme another indict-ment based on the new complaint. The State Department has alrendy been communicated with by the Po-Office Department with a view to curing the extradition of Stern, de-

it is thought his arrest may take

Stern Will Fight. The Toronto police stated last night that Stern was not exactly in the city, but they understood he had been in this vicinity for over a month. When he came here he retained Mr. T. C. Robinette, K. C., as his counsel. Last night Mr. Robinette said: "We are ready to appear before an extradition index and Mr. stern is prepared to prove his in-nocense. We have nothing to con-cent, and Mr. Stern is ready and willing to surrender as soon as the extradition warrant is issued."

extradition warrant is issued."

The charge was conspiracy to defraud, the charge growing out of a contract awarded to Stern to supply satchels with leather straps for mall carriers. It is alleged that Stern left off the straps, they being furnished out of some Machen had on hand, but charged the same price, and the "rakeoff," amounting it is alleged, to about \$22,000, was divided between them.

"Mr. Stern maintains there was no such arrangement, but that he per-

such arrangement, but that he per-formed his full contract," said Mr. formed his full contract," said Mr. Robinette. "Secondly, I believe that Stern is simply wanted as a witness against Machen and the others, and, thirdly, under the extradition treaty conspiracy of this kind is not an extraditable offence. Besides politics is so intermingled that no foreign government would be willing to hand over a fugitive."

The Brussels Patriote says the Congo State Administration has orsecuring his extradition, as the extradition treaty between the United States and Canada does not recognize the charge as an extraditable one. It is purposed here desputched to the Congo.

A test case in which nearly every railroad corporation in the United States, is interested will be started in the Circuit Court in Detroit next Tuesday, when the Michigan Central the set will seek to recover from the United States Internal Revenue Department moneys alleged to have been unlawfully collected from the ompany for war revenue stamps on

duplicante bills of lading.
