LABRADOR: Its Discovery, Exploration and Development.

By W. G. GOSLING. With numerous Illustrations and Maps. A new chapter in the history of our Colonial Empire, embodying the results of much laborious research in an exceedingly readable narrative. The work has been undertaken at the suggestion of Dr. Wilfred Grenfell, C.M.G., whose missionary and humanitarian labours on the Labrador coast are well known. For points of special interest, where all is interesting, the reader may be referred to the question of American Fishery Rights which has been pending for 100 years and will be shortly submitted to the Hague Tribunal, to the proof of discovery by the early Norse mariners, the tale of the romantic devotion of Moravian missionaries, and the adventures of Captain Cartwright, settler, sportsman, and merchant. fruit trees that produce more fruit than they themselves can make use of.

One gives generous baskets to his friends and neighbours, most of whom have fruit trees of their own, or if they have not, can afford to buy all the fruit they want—uses what he wants himself, and either lets the rest rot on the trees or in his cellar.

From the other neighbor at least a dozen people in the town who have no orchards of their own and cannot well afford to buy all the fruit they would like, are treated to huge baskets. He does not stint himself at all to do this, but he does not let a pear or an apple go to waste.

The picking and sorting and distributing of the fruit means much time and labour, of course, but he says that he considers that as owner of these trees it becomes his duty to see that their product blesses as many as possible, and those to whom it would mean the most.

Have YOU any spare blessings that you are not passing on?

Don't think apples and pears are the only ones, and think yourself exempt if you have none of them.

What are you doing with your magazines when you finish reading them?

By the efforts of my little mother our magazines when we have read them pass through half a dozen fami-

lies before they are finally sold for old paper.

Do yours? Are there any old clothes hanging in your wardrobes or closets which you will not use again.

If there are, I think they belong to other people who do need them, and that in keeping them you make yourself a mortal thief.

Is there in your chests any old linen that you could spare? A hundred—a thousand—hospitals need it. Will you be wicked enough to keep it from them?

And then there are other besides material blessings that one has no right to let go to waste—an ability to read aloud acceptably, a musical talent, a sunny disposition—these are other things that you ought to share with those who need them, and that in this case doesn't always mean the poor—at least, not the financially poor.

I found this passage the other day in one of my favourite books:

"I had often occasion to notice the use that was made of fragments and small opportunities, in Cranford, the rose leaves that were gathered ere they fell to make a pot-pourri for some one who had no garden; the little bundles of lavender flowers sent to strew the drawer of some town dweller or to burn in the chamber of some invalid, the apples stuck full of cloves to be heated and smell pleasantly in poor Miss Brown's room. Things which many would despise and actions which it seemed scarcely worth while to perform, were all attended to in Cranford."

It seems to me that if only "fragments and small opportunities" might be made use of all over the world as they were in that dear old town it would be a good deal better world.

Stomach Blood and Liver Troubles

Much sickness starts with weak stomach, and consequent poor, impoverished blood. Nervous and pale-people lack food, rich, red blood. Their stomachs need invigorating for, after all, a man can be no stronger than his stomach. A remedy that makes the stomach strong and the liver active, makes rich red blood and overcomes and drives out disease-producing bacteria and cures a whole multitude of diseases.

Get rid of your Stomach Weakness and Liver Lassitude by taking a course of Dr. Pierce's Golden Medical Discovery—the great Stomach Restorative, Liver Invigorator and Blood Cleanser.

You can't afford to accept any medicine of unknown composition as a substitute for "Golden Medical Discovery," which is a medicine of known composition, having a complete list of ingredients in plain English on its bottle-wrapper, same being attested as correct under oath.

Dr. Pierce's Pleasant Pellets regulate and invigorate Stomach, Liver and Bowels.

HOUSEHOLD NOTES.

To clean white ribbons so that they will not turn yellow, wash them in gasoline.

Carbolic soap should be freely used about the house to keep down vermin.

It is easier to scale fish if they are first dipped for an instant into boiling water.

Honey should be stored in a dark place, for if it is kept in the light it will soon granulate.

If a wooden chopping bowl is turned upside down after use there will be no danger of it splitting.

To clean white paint dip a clean cloth in hot water, then in brine and rub it. Rinse with clear water.

Wooden tubs should be used for washing glass and delicate china, as there is far less danger of breakage.

Never buy meat that is palish pink, for it is diseased. Good meat is red, with the fat clear white and firm.

Bacon fat may be saved and used to fry fish. It gives a good flavor and keeps the fish from falling apart.

To mend a glove, turn it wrong side out and sew the rent over and over with cotton thread. Silk thread will tear out.

Good proportions for French dressing are one teaspoonful of vinegar,

three of oil and salt and pepper to taste.

To scour brass, dip half a lemon in table salt, rub briskly over the surface, wash off with clear water and dry.

To keep clothes from running where the colours are not fast, use a cupful of salt to each gallon of washing water.

The creaking of a door can be stopped at once by rubbing the hinge with a piece of soap or with the lead of a black pencil.

To blanch almonds, pour boiling water over them and leave them till the water is cold, when the skins will be quite loose.

To make a heavy sewing table cushion, fill a stout cover with rice. This makes a very heavy cushion that can be used as a weight.

Tell the children in making soap bubbles to put a few drops of glycerine into the water, and the bubbles will be more lasting.

To clean paint use powdered whitening on a damp cloth and rub evenly with the grain of the wood. This will not spoil the paint.

It is a wise thing to raise some okra and dry the pods. They will keep indefinitely, and there is no better flavor for soups and bouillions.

NEIL FERGUSON.

In the Old Bailey Court, London, Frederick Horner was convicted of having forged a telegram sent to the Daily Mail during the recent campaign, and was sentenced to six weeks imprisonment. The despatch received by the Mail, over the name of its Falmouth correspondent, told of a hostile demonstration against David Lloyd George. The latter impugned the accuracy of the report. Inquiry showed that it had been sent by Horner, who had formerly brought a libel suit against the Mail.

The Short Line Route

FROM IRELAND TO NEWFOUNDLAND BY AIRSHIP.

A recent issue of the American Examiner has a story of a project to cross the ocean by airship which has some interest to Newfoundland and should show experiments ever result in working schemes, there can be no doubt that Newfoundland and Ireland will become the stepping stones of the Atlantic Ocean. The American Examiner states that Aviator Leps was in America and has selected a site to drop on in New York. He is working under the order of the German Government in having the airship built at Hamburg. He expects to make his experiment in April from Valentia, Ireland, to St. John's N. F., with eight men in the airship, and by next December, he says, there will be an airship carrying seventy passengers flying across the ocean at an average speed of fifty miles an hour.

"Zeppelin's airship has 300 horse power and Gross's airship has the same amount, but mine has 866 horse power," with eight motors," said he. "The airship will rest easily on the water when necessary, but I expect to make the trip across from Ireland to Newfoundland in April, 1909 miles without a stop."

The airship is an odd looking structure, somewhat like the famous Zeppelin model. It has two enormous long chambers which, in their turn, are filled with smaller balloons. The interior of these containing cylinders is equipped with rope ladders and passage ways that make speedy repairs possible. The small balloons have a capacity of 5,000 cubic feet. Eight motors provide the energy to carry the ship.

In describing his airship Mr. Leps said that it measured 7,800 cubic metres, and the basket where the aviators sat had fifty cubic feet of space for passengers. In his opinion the Atlantic steamships are doomed. What next?

Residing at Krugersdorp

For years past Mr. William Lewis, pilot, of Wood Street, had lost track of his son, William, who located in South Africa and who went through the Boer War. Will is a carpenter and left here for the "Dark Continent" about 12 years ago. Having heard he was at Krugersdorp, His Excellency Governor Williams was appealed to, as he is well acquainted with this part of South Africa. His Excellency lent his services in the task of discovering the young man, and wrote to a friend there who located Mr. Lewis and told him of the anxiety of his friends at home about him. The outcome was that by last mail Mr. and Mrs. Lewis, their daughters, Mrs. J. Moore and Miss G. Lewis, had letters from the son and brother, from whom they had not heard for so long a time. He has had plenty of adventure since leaving home with many narrow escapes from death, but is now settled down, having a young couple of years ago married a young lady, a native of Surrey. He made a deal of money both before and after the war and in unfortunate speculation lost several thousand pounds. Since settling down in Krugersdorp he has secured the position of Inspector of Public Works, for which he receives the excellent salary of 40 pounds sterling per month. Mr. Lewis is in good health and next year with his wife intends coming here to visit his parents.

His Clothing on Fire.

Thos. Hudson, of Fouch Cove, with James Moulton, C. Moulton and C. Knight, went to Small Point Cove Friday night to await the dawn of Saturday to go bird shooting. While asleep near the camp fire Hudson's overcoat and overalls became ignited and he narrowly escaped serious injury. When the fire reached his legs it awoke him, and his friends, whom he aroused, quenched the burning garments with water brought from a stream. The clothing was rendered useless and his legs were seared by the fire.

Cleared up £12,000. The Tariff Trouble Between Canada and America.

To-morrow, 49 years ago, the schr. Alder Davis, owned and commanded by the present Hon. Jas. McLoughlin, arrived here with a full cargo of seals. She left here on the 4th March and her crew made £15 per man. Michael Stratton, now watchman at the Poor Asylum, is the only survivor of her crew. Mr. McLoughlin cleared up, it is said, £12,000 on the venture. That spring Rogerson's had four vessels at the icefields. All were loaded, but instead of selling the fat it was sent to England and bonded. The prices of seals took a slump and the firm lost so heavily that it never properly recovered this financial setback.

At The R. C. Cathedral.

Yesterday being Palm Sunday Rev. Monsignor Roche officiated in Blessing of the Palms and the procession to the church door. His Grace the Archbishop being slightly indisposed was not present. Low Mass was celebrated by Rev. Father Fyrm, who read the Gospel of the Passion according to St. Matthew. At Vespers Rev. Fr. Fyrm preached an excellent sermon on the sacrifice on Calvary and the sacrifice of the Mass.

LEGISLATURE CLOSES TO-MORROW.—The Legislature meets to-day to finish up business. To-morrow His Excellency the Governor will close the Second Session of the Twenty-Second General Assembly at three o'clock in the Legislative Council Chamber.

Many in the city believe that the Argentine will be the first arrival from the seal fishery this season. The Montreal reports her with 10,000 seals on board. If the seals are large, which is highly probable, she can at most take only 20,000, and her 100 men of a crew should load her up in say three days time. Another feature is that in clear water she is one of the smartest ships of the wooden fleet, and after once leaving the ice she would make the quickest run home of any of the wooden ships, especially if smooth water with a light N. W. prevails.

The Tariff Trouble Between Canada and America.

Special to Evening Telegram.
ALBANY, N. Y., March 20.
President Taft and Mr. Fielding were in conference on the Tariff today for several hours. No conclusion was reached but the situation remains the same. Eleven days remains for friendly negotiations before the maximum rates of Payne Tariff Law is arbitrary as duly discriminatory against the United States. The law is arbitrary as to its application but the President is given judicial powers in reaching a conclusion as to what constitutes undue discrimination. Up to this time Canada has been regarded by the President's Tariff advisers as unduly discriminatory and unless concessions are granted by the Dominion Government to place the United States on an equal footing with France and thirteen other countries who have been given preferential rates under the Canadian Tariff it seems inevitable that Canada will be the one important country in the world, against which the twenty-five per cent of the maximum American rates will be applied. It was not expected that a definite conclusion would be reached at the conference between the President and Minister Fielding to-day. The fact, however, that President Taft, to-night summoned James MacDonald, of Toronto, to the Governor's mansion and thanked him for his part in helping to bring about to-day's meeting indicates that progress was made and that the outlook is not quite so dark as it appeared to be a few days ago. In his speech last night at which Earl Grey, Governor General of Canada and Mr. Fielding were present, Mr. Taft referred to the fact that he had invited Mr. Fielding to meet him to see if some means might not be devised to avert the creation of a tariff wall between the two countries. With three thousand miles of border between us he said we must study to prevent conflict of trade or otherwise, and we must be as good friends as possible for the mutual benefit of both. It is to our great advantage to be just to Canada, and it is to Canada's great advantage to be just to us. In view of the fact that so short a term remains for the adjustment of the Tariff differences with Canada, President Taft before leaving Washington consulted with his advisers as to whether or not after the maximum rates had automatically been applied, it would be within the power of the executive by proclamation subsequently to grant a reduction. Secretary of State Knox, without definitely committing himself said the United States Executive might warrant the President in reducing the Maximum Tariff and he believed that the discretionary power vested in him by the law gave ample authority for such action.

When Hayward Pays the Men.

'Tis good when on the breezes borne
The scaler's horn we hear,
To watch the faces of the boys
And join them in a cheer
As outward bound the steamers go,
And from the highest crag
We watch, while in the offing dips
The barrel, smoke and flag.

'Tis good to hear it on the street,
'Twelve steamers in the fat!
And every one a likely load
Rail under, boys, at that."
'Tis good to hear the cheer that rings
From hillside, pier and ship,
When slowly up the harbour comes
The first full bumper trip.

'Tis good a berth to capture, when
You thought all chance was gone,
'Tis good to hold the winner
In the biggest sweepstake on,
'Tis good to know your captain is
The bravest "jowler" out,
'Tis good to hear the barrel-man
A-down the rigging shout—

'The seals are thick and plenty
To the windward, Nor-Nor'd East,
There's not another ship in sight—
An hour's sail at least
Will bring us slap amongst 'em, boys,
Make ready for the fray,
And Thirty Thousand harps shall fall
Before your bats to-day.

Small Pox at St. John's.

Michael, the little son of Sir E. P. Morris, has been ill since Saturday, and yesterday his physician, Dr. Fraser, diagnosed his ailment as small pox of the usual light type now prevalent in different parts of the country. The residence of Sir Edward has been quarantined in the usual way. The patient is not very ill and we hope that he will have a speedy recovery. Dr. Brehm arrived from Harbor Grace by to-day's train. Speaking to the Telegram he said that a man named Wm. Bray, aged 21 years, is suffering from the disease in that town. It is not true as reported that Rev. Canon Noel has the disease, though his residence is quarantined. This is because a servant in the house and a relative of Bray's had visited the stricken man's house, and the clergyman's house was quarantined as a matter of precaution.

The Sealing Liar.

The sealing liar has started to go in some of his best work, and to-day there were all kinds of rumors along Water Street. One report had it that a schooner had arrived at Channel reporting the Southern Cross loaded. Another rumor was that a message had been received in the city saying that two ships were coming out of the Gulf looking deep. Another report had it that the Diana, Erik, Neptune and Aurora had been reported by the Florizel looking very well fished. Needless to say there was no truth in any of these stories.

The Oldest Settlement.

Mr. Gosling Replies to Mr. Munn

Editor Evening Telegram.

Dear Sir,—I really do not see why I should follow Mr. Munn along the bye-path into which he wishes to drag the Early Settlement controversy. I have proved incontrovertibly by contemporary documentary evidence that John Guy and his little band were the first permanent Christian settlers in Newfoundland. Mr. J. P. Howley and Judge Prowse years ago pointed out that this settlement was at Cupids and not at Mosquito or at Harbor Grace, as some of our early historians had stated, and I again quoted some of the contemporary evidence in the case. I thought that everybody was convinced upon that point. But apparently Mr. Munn still clings to the Harbor Grace theory. All I have to say is, that if he likes to hold that opinion he is quite welcome to it. I shall not try to convince him. I think it is up to the Judge to take up this phase of the discussion.

Mr. Munn takes me to task for suppressing the Abbe Baudouin. But I cannot see why I should bring him in. I confined my attention to contemporary evidence—to the statements of the principal actors, or those who immediately followed them. I have no intention of quoting what everybody has since said on the matter. The date of my latest authority was in 1627, and the Abbe Baudouin made his statements on Jan. 28th, 1697. Mr. Munn seems to value it very highly and is at great pains to prove that the Abbe could not have misunderstood what was told him. Perhaps he did not, but knowing what we do, with the documents before us, it is perfectly evident that the Abbe was misinformed.

Judge Prowse used as an argument in favour of pre-Guy settlements Abbe Baudouin's story of an old man born in the place who had died three years before at the age of 83 years, and I suggested that this was the lugby boy born at Cupids on March 27, 1613. The dates and the place are near enough to make it likely, but as

a matter of fact this may not have been the first child to be born at Cupids, as Guy's settlers had been living there since July 1610. In 1612 it is stated that there were 6 women and 2 children. There is nothing in the evidence of this old man to prove any settlement prior to Guy's. The Judge had already proved that Guy had settled at Cupids and not at Mosquito or Harbor Grace. Mr. Munn says that tradition records the fact that the first white child was born at Mosquito, and Abbe Baudouin's old man was born at Harbor Grace. How the Judge and Mr. Munn and Abbe Baudouin are going to clear up this tangle I don't know. I again call in evidence Guy's journal of his voyage in the fall of 1612 from Cupids to the north side of Trinity Bay. He called at numerous harbors, many of them bearing the same names they do today, but while he recorded everything else of importance, he does not mention seeing any people but Beothicks.

I have not seen it stated anywhere when the settlement at Harbor Grace was begun. It is only certain that it was some years after that of Cupids. The first actual reference to it is in Mason's tract published in 1620, probably written in 1619. He speaks of two settlements sixteen miles apart, and on his map he names them in their proper relative places, "Cupert's Cove" and "Bristol's Hope." Mosquito seems to be squeezed out altogether.

Abbe Baudouin says that Harbor Grace was the oldest settlement, which Mr. Munn receives as gospel. His Grace the Archbishop says it was St. John's. Judge Prowse says the oldest settlement was anywhere and everywhere. I personally prefer to believe the statements of those who really knew—Guy, Vaughan, Alexander, Mason and Whitbourne.

I may say also that I am expecting to get other contemporary evidence, and if it is material I will make it public.

W. G. GOSLING.

OBITUARIES.

JOHN MAUNDER, JR.

We regret to record the death of Mr. John Maunder, Jr., which occurred at the General Hospital this morning. He was taken to the institution from his residence, Freshwater Road, in the ambulance yesterday in order to have an operation performed for peritonitis. Deceased was an estimable young man and a general favorite. He was married last summer, his wife being a Miss Bradbury.

He had been suffering for a week from peritonitis following appendicitis, and his physicians had him conveyed to the General Hospital last evening, but it was found when he arrived there that he was in a dying condition. An operation, however, was attempted, but owing to his feeble state of health nothing could be done and he died during the night. To his relatives we tender our deepest sympathy.

JOHN A. BUTLER.

There passed peacefully away yesterday at his home, 28 Mullock St., Mr. John A. Butler, eldest son of the late Charles Butler, of Port de Grave, who for thirty years of his life was engaged in the coasting and trading business and was well and favorably known to the commercial men both of St. John's and Harbor Grace. Since then he has been connected with the Customs Department for fifteen years acting as supernumerary and afterwards being appointed permanently. Two years ago he received a chill, but owing to his advanced years he was unable to fight it off. He leaves a son in the employ of Hon. George Knowling, and a daughter, Mrs. J. Brenton, of Breckton, Mass.

MRS. WILLIAMS.

The death took place at Cape Broyle on Tuesday last of Margaret E., beloved wife of Capt. John C. Williams, of that place. Mrs. Williams came from the good old stock of Carews of Shore's Cove. She was well and favorably known for her hospitality, kindness and charity, was whole-hearted, genial and very popular. She was ever a model wife and mother, was kind to her neighbors and esteemed by them in the very highest degree. She was a devout Roman Catholic and died with Christian resignation. Besides her husband she leaves one brother, John T. Carew, of H. M. Customs, and a large number of relatives, to whom we extend sincere sympathy.

CHARTERED LOUISE.—Mr. Geo. Neal has chartered the s.s. Louise, which will arrive from Harbor Grace to-day. She will make several trips to and from Bell Island.

Unrecognized Disease

Of the Appendix is the Latest Discovery.

New York, March 9.—London cable despatches received here to-day say that a fresh series of indictments has been brought against the appendix as a cause of human suffering by the Royal Society of Medicine there.

Twenty-four operation cases in which the chief symptoms were stomach pains due to an unrecognized disease of the appendix—were described. In fifteen cases the operation was undertaken for a supposed ulcer in the stomach or in the adjoining intestines, only to find that these parts were normal, while the appendix was diseased.

Dr. Herbert J. Paterson, who read a paper on the subject, suggested the name appendicular gastralgia for the new disease, on account of its most prominent symptom, a stomach pain due to a disease of the appendix.

BILLIARDS AT STAR HALL.—All the contests in the billiard tournament at the Star Hall will likely be concluded this week. J. Whelan beat T. Podd by 25 after an exciting game Saturday night. T. Hickey (plain) also beat W. Goss (spot) by 79. W. Nolan (spot) defeated J. Perks (plain) by 63 points.

Itching Piles For 27 Yrs.

Despaired of ever getting relief until cure came 3 years ago with use of DR. CHASE'S OINTMENT.

Mr. John Johnson, Cawley, Alta., writes: "Three years ago I was cured of blind, itching piles of twenty-seven years' standing by using Dr. Chase's Ointment. I used to think that death would be the only relief I could ever get from the terrible misery of piles. Dr. Chase's Ointment is worth six dollars a box instead of sixty cents. I am a different man since using it. I am farming all the time now and never miss a day. Words fail to express my gratitude for the cure this Ointment made for me. I cannot tell half as much about it as it deserves. Any one doubting this can write direct to me."

Do not accept an imitation or substitute in place of Dr. Chase's Ointment, for there has yet to be discovered a treatment which so promptly gives relief from itching and so thoroughly cures every form of piles. 60 cents a box, at all dealers, or Edmondson, Bates & Co., Toronto. Write for a free copy of Dr. Chase's Recipes.

Placentia Notes.

We should have an Agricultural Society here. If we had, many people would take to working the ground, and endeavour to capture the First Prize. We have as good farmers here as there are in the island and what we want is an Agricultural Society.

The members of the S. S. A. held a meeting at their rooms on Sunday. The election of the members of the L. & A. Committee took place and resulted in the old committee being sustained by the small majority of three votes. The members of the old committee were: Messrs. James Biddon, M. E. Mulleney, J. Fitzgibbon, J. Collins, and W. P. Walsh; while the new members were: Messrs. J. Murphy, H. Verran, A. Collins, P. Phippard, J. Rose, W. Delaney and E. V. Greene. I must congratulate the winners upon their success and know that these men will do all in their power for the advancement of the society.

During the past week good news have gladdened many young hearts, and that news was received last mail from England is the passing of the pupils of the S. D. Shortland for accuracy. All that sat at this centre

passed and took diplomas. Those that sat are:—Master Joseph Cummins, Misses Annie Barron, Tess Croke and Lizzie Ryan and took a diploma in reporting style; while Misses M. Mooney and A. O'Reilly took diplomas in the learners' style. I will ask all to accept my heartiest congratulations.

Mr. Robinson's Lecture

Instead of the regular meeting of Cochrane Street Athletic Association to-morrow evening a lecture will be given by Hon. J. A. Robinson on "Memories." His reputation as a lecturer in this city is well known and no doubt many will avail of the opportunity to hear him again to-morrow night. The lecture will take place in Cochrane St. basement at 8 p.m. Tickets can be had from C.A.A. members or at the door for ten cents.

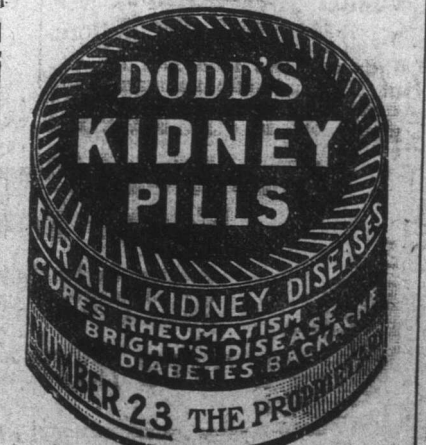

Placentia's New Ferry.

The new ferry boat for the Gut at Placentia, which will be launched Easter Monday, was built by Messrs. T. Palfrey and P. Croke, and is a very pretty model. She is 35 feet over all, and a 12 horse power gasoline engine will drive her. She will carry 50 passengers, and later an awning will be put over the craft to protect travellers from the elements. Though it is reported that the boat will be called the St. Patrick, this is not certain, as the name will be kept secret until the launching. The members for the district and a number of citizens will be present at the launching.

Legislative Council.

The Council met on Saturday and disposed of the bills which remained. These included the Revenue Bill, the Board of Trade Bill, the Petroleum Bill, the Magistrate's Jurisdiction Bill and the Fisheries Department Bill. Only one amendment was made, and in this the House of Assembly is expected to concur to-day.

Notes From Harbor Grace.

Rev. C. M. Hannay, who delivered his interesting lecture in Victoria Hall on Monday night, left for St. John's by yesterday evening's train.

The wind sprang up with great suddenness yesterday morning and for a time a regular wind storm raged. The flag staff of St. Patrick's Hall was blown down, and a chimney of a house on Water Street was noticed to be dangerous and was partly removed. Towards evening the wind dropped and the night was an ideal one.

The Academy Hall was crowded last night and all who attended were well pleased with the way the different actors performed their parts. The play was well rendered. Proceeds amounted to \$110.00.

The alarming news was hurried around town yesterday that a case of small pox had developed in the West End. The report proved only too true. William Bray, who lately returned from Marjie Mountains, C.B., was the sufferer. Dr. Parsons, together with Dr. Strapp, after a consultation pronounced the trouble small pox. The machinery of the law was soon set in motion—Judge, policeman, Board of Health, doctors and no doubt our citizens generally vying with each other in a noble attempt to give the unwelcome visitor a very short life in our midst. The hospital has been prepared for the sufferer and the Police Barracks nearby has been fitted up for doubtful cases or for those on quarantine. Nothing is left undone. Eleven houses have been placed under quarantine, and no money or trouble is spared. The Board is determined to run no risk, and to err, if at all, on the right side. The promptness on the part of the authorities is a source of gratification to our citizens. There is no immediate cause for alarm. The disease is of a mild type, was quickly discovered, and prompt action taken, so there is little or no need for our citizens to worry over the affair. At the same time it would be wise for every citizen to use all possible precaution.

McMurdo's Store News

MONDAY, March 21.

We have Sutton's Seeds open to-day and intending buyers should think about their wants early. There is certain to be a brisk demand for these famous seeds, and our supply, though large, is not unlimited. A word to the wise is sufficient.

Besides all the usual vegetable and flower seeds, we have a good selection of Grass Seeds for Putting Greens, Lawns, etc. Sutton's grass seeds did exceptionally well last year, and we recommend them to all who have lawns or plots to be repaired.

Business at the new Branch Store is in full swing, but some fittings have to be put in place before it can be considered fully furnished, these we expect to have in a week or two.

"Capt. Grip the Outlaw"

This famous play, which was recently staged at the Broadway Theatre, New York, with wonderful success, will be produced at the Star Theatre, this city, by the Avalon Dramatic Company. It is a Western drama, full of thrilling situations from start to finish. We would advise those who like good drama with startling situations not to lose this opportunity, especially when the admission fee is only 40 and 30 cents. Tickets are for sale at the Aaltinic Bookstore, except general admission tickets, 20 cents, which are for sale at the door.

Interesting Debate.

The students of Bishop Field College held the fourth of their series of debates at the College Saturday night. Mr. R. Wood, the Principal, acted as Chairman. The subject was, "That the development of the mines of Newfoundland would be a greater benefit than the development of agriculture." The leaders were Messrs. H. Payne and J. Pittman, who advocated mining and agriculture respectively. At the close a vote having been taken, 42 were in favor of mining and 28 agriculture.

Address Presented to Archbishop McNeil

On St. Patrick's Day at the Sacred Heart Church, Bay of Islands, His Grace Archbishop McNeil, who celebrated Mass there on that occasion, was at the conclusion of the Holy Sacrifice waited upon by the residents and presented with a warm-hearted address and a purse of gold. Mr. J. A. McEneaney read the address, to which the Archbishop replied in touching terms and gave the congregation his blessing and farewell.

Starting To Run Ore.

The Dominion Co. of Bell Island started to-day to run out ore to the pier in preparation for the arrival of the ships. Foremen and laborers were sent for to come from Portugal Cove and other places. The Regulus, which left this morning for Bell Island, takes the first cargo this season for Philadelphia.

Rev. Dr. O'Reilly.

Bishop Casey, of St. John, has appointed Rev. Dr. O'Reilly, formerly of this city to look after the welfare of the immigrants landing at St. John. Special facilities have been given him by the owners of the Empress Line of steamers and facilities for saying Mass on board the steamers are being supplied.

"Is amalgamation desirable or feasible?" will be discussed at the M. C. L. I. meeting on Wednesday night. The leaders will be Messrs. I. C. Morris, S. Whiteway and Rev. M. Fenwick. There will be a general discussion afterwards. A cordial invitation is extended to all members of the Wesley Y.M.A., George Street Y.M.A. and the C.A.A.

Minister's Family Overcome by Gas.

Defective Furnace Nearly Wiped Out Rev. Dr. Robertson, Wife and Children.

Toronto, March 14—Rev. Dr. Andrew Robertson, pastor of St. James Square Presbyterian Church, and his family, had a narrow escape from asphyxiation by coal gas yesterday in their residence at 194 Carlton street, into which they have only lately moved. As the result of the effects of the gas, Dr. Robertson was unable to attend service in his church, but it is expected he will be around as usual in a day or two.

During the night the furnace, which was defective, began to leak, and by morning it had filled the house with coal gas. Mrs. Robertson, who was the least affected, was the first to notice the gas, and she roused the rest of the household. The three children had become so far under the influence of the gas that on rising they fainted. Windows and doors were, however, soon thrown open and the house cleared of the poisonous fumes.

Dr. R. T. Noble, who was summoned to attend them, said that had the gas remained undiscovered for fifteen minutes longer, some of them might have succumbed to its effects.

Cheering Sealing News.

Florizel 30,000, Eagle 12,000, Algerine 10,000, Bellaventure, Bonaventure and Beothic in the Fat.

Late though it was Saturday night (10.55) when Mr. J. S. Munn, of Bowring Bros., received a marconigram from Mr. Eric Bowring on board the Florizel, the report quickly spread through the city that good news had been received from the ships now at the seal fishery. Yesterday the story was ringing all over the city and people were eager to obtain all the news possible. The wireless which Mr. Munn received via Cape Race, read as follows:—

"Florizel struck patch on Thursday (St. Patrick's Day). Have 10,000 on board, and 20,000 on ice. Bellaventure came in with us; Eagle has 12,000; Algerine, 10,000. Bonaventure and Beothic steaming towards us."

The message did not reach the Cape directly from the Florizel but was transmitted through an ocean boat which she picked up Saturday evening. The operator at the Cape could hear the liner conversing with the Florizel but could not catch the latter's reply. It is a matter of self-protection that no mention was made in the message as to where the ship struck the seals. The same omission occurred last year when on March 18th Capt. Kean sent a wireless reporting for 29,000. This occasioned doubt among the pessimists but this season perfect credence is given the news, which it is to be hoped will be supplemented later with information of the whole fleet doing well. Most old timers about the city believe that the Florizel took the "outside cut" on her way north, with the Eagle on the inside run, and that both communicated results daily. It is evident from the large catch which the Florizel reports that she was in the "fat" first, for if not the Eagle, with a similar number of men, should report for more seals killed. It is not at all unlikely that the Florizel and the ships in company with her have struck the southern end of the main patch and that good reports may soon be had from the other ships. If the ships reported, however, are alone and in the main patch they will have big "surges" of fat this spring. It is almost certain that the Bellaventure also has a large catch and it is not improbable that she was one of the first, if not the first in the seals as she was the leading ship going North. The Bonaventure and Beothic were late in coming into the patch, evidently, but no doubt the seals being plentiful they will give a good account of themselves. Killing would be suspended yesterday, Sunday, but it is allowable to hoist the seals panned on board the ships on the Sabbath. If good weather prevails to-day great execution should be done amongst the harps, and it would not be surprising if we had an arrival by the latter end of the week. The seals must be well matured this year, as the 17th is the latest they have been struck for many years past. The Adventure, Newfoundland, Diana, Neptune, Iceland, Ringer, Aurora, Bloodhound and Erik have not been reported. The fact that these ships have not been reported does not necessarily mean that they have missed the seals, for if oftentimes occurs that ships may be doing good work in the same vicinity and yet not be visible to each other. This would particularly refer to the present spring when the ice is not pinned with the land and may be wheeled in different directions in a few hours by wind and tide. Even though this be a good spring we never again expect to see the record up to where it was 53 years ago in the good old days of the sailing vessels.

In the Spring of 1857 the total catch was 530,733. Of this number St. John's vessels accounted for 379,533.

FOOD FOR A YEAR

Meat	300 lbs.
Milk	240 qts.
Butter	100 lbs.
Eggs	27 doz.
Vegetables	500 lbs.

This represents a fair ration for a man for a year. But some people eat and eat and grow thinner. This means a defective digestion and unsuitable food. A large size bottle of

equals in nourishing properties ten pounds of meat. Your Physician can tell you how it does it.

Deathly Cramps, Stomach was Bloating A Bad Case That Proves Cramps and Stomach Disorders are Cured Fast by Nerviline.

"The distress I suffered from cramps last summer was so severe I thought it meant death," writes P. R. Emerson, of Guys Hill, P. O. "I was doubled up with pain and in such bad shape I couldn't walk a hundred feet. I remembered having Nerviline on hand and took half a teaspoonful in sweetened water. In five minutes I was well and my stomach derangements disappeared entirely."

For cramps, flatulence, diarrhoea and disorders of the stomach and bowels, Nerviline knows no equal—one million bottles used every year—fifty years on the market, that's proof enough of its merit. Large 25c. bottles, five for \$1.00. All dealers or the Cataract Company, Kingston, Ont.

It will be seen by the publication that the services on Holy Saturday will take place at 9 a.m. instead of at 8 a.m. heretofore. All who want to follow the services of Holy Week at the R. C. Cathedral without having to ask others about the hours, etc., would do well to cut the above out and put it in their prayer books.

Fined \$50.

A young man, a resident of this city, was tried before Magistrate Murray, at Holyrood, Saturday, for obtaining money under false pretences. The trial occasioned much interest and the court room was crowded. Several witnesses were examined. The man was committed and fined \$50 and costs. Mr. Squibbs appeared for the Crown, and Mr. Higgins, for the defence.

Mr. Frank English, son of Capt. English, who left here by the last trip of the Rosalind has secured an excellent position in New York.

The Frozen Pans.

Stern winter o'er the ocean reigns supreme;
The rugged icefloe stretches far and near;
All nature glistens 'neath the sun's bright gleam,
No sound of sighing waves we now can hear.
For all is still and quiet as the grave,
The sea, the lone dark sea, is now concealed;
Imprisoned is the dull and treacherous wave,
And nought of ocean's depths is here revealed.

A peaceful grandeur dwells o'er all the scene
As evening o'er the frozen ocean steals;
Who hath not felt its rapture, who hath seen
The splendour of the icy hills and dales.

For now's the time when many a sealer bold
Upon this rugged mass will venture forth.
The fight to wage with storms and wintry cold,
And wrestle for the treasures of the North.

His lot with many perils is o'er-cast.
He meets the terrors of the winter storms;
Mayhap his good stout ship lies firmly fast,
Half-hidden 'neath the icy rugged forms.

And he, all eager for his perilous toil,
Perchance from his good ship may chance to stray
Along the frozen pans for many a mile,
Unable then to find his homeward way.

Through all the hidden dangers of the deep,
Good Lord protect and guide them safely home;
May no fond wife or child have cause to weep,
But all be joy when they returning come.

Madman Tries Murder.

Attacks Wife and Kills Self 24 Hours After Discharge from Asylum as Cured.

Released from the Ward's Island Insane Asylum as cured, Michael Bungo attempted to kill his wife with an icepick and then cut his own throat. He died a few minutes later. Bungo had been out of the Asylum less than twenty-four hours.

When he returned to his home at 333 West Twenty-sixth street, Manhattan, after four months' treatment at the hospital for the insane, he was declared fully recovered. He had been in the house but a few minutes however, when he began to abuse his wife. She became so frightened that she asked permission of friends on an upper floor of the same apartment house to sleep there. Early in the morning Bungo knocked at the apartment and asked his wife to come downstairs and make coffee. She did so and again the husband began his abuse, finally attacking her with the icepick. He beat her to the floor and then secured a razor with which he took his own life. The woman will recover.—Brooklyn Times.

Had Hard Time With Drunken Man.

Saturday night at 10.30 Officers Lee and Humber had a hard time of it arresting a West Ender who was only liberated on the 11th inst. after doing six months for assaulting the police. The man, crazed from liquor, Saturday night entered the shop of Mrs. McVey, on New Gower Street, and before he could be ejected smashed out two panes of glass in the window. Getting to the sidewalk he threw off his coat and vest and beat in three more panes of glass with his hands which were terribly cut and from which the blood flowed in streams. Each pane of glass was worth \$1. Going to the shop of Mr. H. Simms he also beat in a pane there and then started to assault passers by who gave him a wide berth. Consts. Lee and Humber now arrived and after a fierce struggle adjusted the handcuffs on the man's gory wrists. He fought like a tiger all the way to the lock-up.

Three Fire Alarms.

At 8.05 Saturday night an alarm of fire was turned in from Box 24, bringing the Central and Eastern firemen to the residence of Mr. Wm. Fraser, Gower Street. Soot in the chimney igniting caused a deal of smoke and the blaze was quenched quickly without the aid of the firemen. While the Central and Eastern men were attending to this alarm, the men of the Western Station at 8.10 received a telephone message that the residence of Mr. John Syme, on Waterford Bridge Road, was on fire. Capt. Kean and his company with a steam engine and hose wagon hastened quickly to the scene, and their promptness saved the cottage from destruction. When they arrived at the scene they found the southwestern gable of the structure blazing, the seat of the fire being under the eave and in a kind of turret which adorned that part of the house. Finding that the ladders available were not long enough they lashed a couple together, a bucket brigade was formed, water provided from the house was passed up to the men on the ladders and after about an hour's fight the blaze was flooded out. Inside some of the firemen mounted to the attic and also used water passed up in buckets to good advantage. The roof is slate covered and the men used their axes unsparingly to get at the blaze. The turret or tower alluded to above had to be cut down before the fire was quenched. Inspector General Sullivan with Supt. Grimes and Inspector Collins drove to the scene quickly and did good work in quenching the blast. Several policemen were also present and a large number of people from Riverhead also rendered valuable assistance. Considerable damage by fire, water and smoke was done, but we understand it was covered by insurance.

While a gale of S. W. wind blew, an alarm of fire was sent in from Box 37 at 12.20 p.m. yesterday. The Western and Central men responded with their apparatus and found the chimney of Mr. John Fitzpatrick's residence, head of Pleasant Street blazing. A few buckets of water extinguished it quickly. A fire occurring at such a place and under such conditions would give much trouble to our fire-fighters.

Away Goes all Stomach Trouble.

No Indigestion, Heartburn, Gas or Dyspepsia five minutes later.
If you had some Diapiesin handy and would take a little now your stomach distress or indigestion would vanish in five minutes and you would feel fine. This harmless preparation will digest anything you eat and overcome a sour, out-of-order stomach before you realize it.

If your meals don't tempt you, or what little you eat seems to fill you, or lays like a lump of lead in your stomach, or if you have heartburn, that is a sign of indigestion.

Ask your Pharmacist for a 50-cent case of Pape's Diapiesin and take a little just as soon as you can. There will be no sour risings, no belching of undigested food mixed with acid, no stomach gas or heartburn, fullness or heavy feeling in the stomach, Nausea, Debilitating Headaches, Dizziness or intestinal griping. This will all go, and, besides, there will be no undigested food left over in the stomach to poison your breath with nauseous odors.

Pape's Diapiesin is a certain cure for out-of-order stomachs, because it prevents fermentation and takes hold of your food and digests it just the same as if your stomach wasn't there.

Relief in five minutes from all stomach misery is at any drugstore waiting for you. These large 50-cent cases contain more than sufficient to thoroughly cure almost any case of Dyspepsia, Indigestion or any other stomach disturbance.

HOW CAN WE COUNTER-ACT

THE INCREASED COST OF LIVING?

A second's reasoning will supply the answer. Beef and pork are dear and getting dearer all the time, and the cost is out of proportion with their food-value.

EAT MORE BREAD.

There is more nourishment in a shilling's worth of bread than a shilling's worth of beef or pork. But the problem is not done with yet. The shilling's worth of bread is not always the same value. Breadmade from

ROYAL HOUSEHOLD FLOUR

contains more nourishment than any other, because it contains the greatest amount of gluten, the health-giving nutriment of wheat.
