"My Heart Would Palpitate, I Had Weak Spells"

Mrs. L. Whiting, 202 King St. West, Brockville, Ont., writes:

"I took very sick with my nerves and stomach, and seemed to be all run down. At times my heart would flutter and palpitate so and I would take such weak spells in the pit of my stomach that I sometimes thought I would never get better. I had almost given up hope when a friend advised the use of Dr. Chase's Nerve Food. I had not sleep since I had taken twenty-five boxes. It has done wonders for me and I want to recommend it to everyone."

STORY OF LOVE, INTRIGUE AND REVENGE

CHAPTER VII

"I will," he said bravely. He knew how that she loved him, but it mattered little, since the knowledge came too late. His eyes lingered on her face. It had never appeared so beautiful to him; the secret she had locked in her heart was all told there; the look was on her face that only one man ever brings to the face of a woman, and that is the man she loves. She might try to hide it, but he could read her secret.

"I think," she said, gently, "that I must go back. My father will wonder at my long absence."

"Dolores," he said—"forgive me if I still use the name you will never again be Dolores to me—this is our farewell. True, I shall drive you home, and perhaps spend an hour with you there; but, standing face to face, soul open to soul, as will never happen again, this is our farewell. Will you kiss me once before we part?"

She drew back from him with shy, sweet grace, remembering her words when Lord Rhyeworth had kissed her. "I will never give even one thought to any other man."

"Do not be angry with me," she said—"I cannot. My word is plighted, my kisses are no longer mine to give. He bowed, respecting the decision of her pure heart.

"Any man may safely place his honor in her hands," he thought. Then she held out her hand to him. "Good-by, Sir Karl." There were tears in her eyes and in her voice.

"Must it be good-by?" he asked, a feeling of despair stealing over him. "Must it be farewell?"

"Yes, while we are both strong and have nothing to regret," she answered. He took her hand in his and held it.

"I pray," he said solemnly, "that I may meet you in a happy hereafter." Then he kissed her hand, and they went back to the house together without speaking another word.

In silence he drove her home, and in silence he left her again. Both their hearts were too full for words. The present was full of misery, and the future all dark.

WOMAN SUFFERED FOR MONTHS

Weak and Nervous. Made Well by Lydia E. Pinkham's Vegetable Compound

It was the evening before his journey, and Sir Karl sat alone in his library. He would not go to Beaulieu. He could not forget his irritation and annoyance at what Dolores had told him of the manner in which his choice of the red rose had been taken; it was an incident so trivial that he had not thought it worth remembering. That the happiness or misery of two lives, his own and Dolores', should have depended upon such a trifle was almost incredible to him. While occupied with his sad thoughts he heard the sound of wheels. It was quite late in the afternoon, and he marvelled much who could be calling at that hour. He was still more surprised when the servant came to say that Miss de Ferras would be glad to see him for a few minutes; she had been shown into the morning-room.

"You have forgotten these books," Sir Karl said. Lola, as the baronet entered the room. "Mamma thought, as I was driving past, that I might leave them here—she meant at the lodge; but I thought that I might take the opportunity of saying good-bye."

She spoke in a careless tone; but as he took the books from her hand, he saw that the usual brilliant bloom had left her face and that it was very pale; there was even a quiver of pain on it.

"I have something to say to you," she went on presently, then paused, and added impetuously, "You are not angry? If I had thought you would be angry, I would not have come."

"Why should I be?" He was touched by her emotion. "You would not seek me, I am sure, unless you have something very particular to say."

But she seemed to be in no hurry to speak. Her lips parted once or twice, but the words died on them. He looked at her in wonder. Why should she ask to speak to him, and then stand silent, as though she had nothing to say? At last, in a low voice, she resumed—

"You said, when you were at Beaulieu, that you would come over to say good-bye to us, that you would see me again before you started on your journey. Yesterday you wrote to mamma, saying that you would not have time to call. Why did you change your mind? What was the reason? Why are you leaving without coming near us?"

"I had a reason," he answered, his face flushing; "besides which, I wrote the simple truth. I had no time. I am leaving England sooner than I intended."

"What was the reason?" she asked.

"I cannot explain," he said, proudly.

"Do you think any reason would justify your going away without saying farewell to old and true friends like mamma and myself?"

"My farewell was none the less genuine for being written instead of spoken, Miss de Ferras."

Plants Coughs Like Man

GROWS IN THE TROPICS. Cranky Member of Vegetable Kingdom Shows Great Dislike for Dust. Human habit in plant life is that of coughing. However, only one plant is known to cough. This is a certain bean that grows in the tropical regions. The coughing plant is a very cranky member of the vegetable kingdom and has a great dislike for dust. As soon as a few grains of it gather on its leaves, the air chambers that cover the face of the leaves and are the breathing organs of the plant become filled with gas and swell until with a slight explosion and a sound that resembles a human cough, the gas is expelled and blows away the troublesome dust.

Exiled Duke of Brunswick

RETURN TO HIS ESTATES. BRUNSWICK, Germany, June 21.—(A.P.)—Ernest August, Duke of Brunswick-Laneburg and son-in-law of the ex-Kaiser, who has been living in Gmund since the revolution waiting for better days, is reported to intend to return to Brunswick and take up his abode in Blankenburg Castle. This announcement gives evidence of the fact that the province of Brunswick is about to arrange for a final settlement of the problem of disposing of the property of the former reigning house. Like the Hohenzollerns in Prussia, the Brunswick grand-ducal family has been engaged in a lawsuit with the state government.

The litigation is so involved and is costing the state so much money, that a bill has been introduced in the provincial assembly by which the whole problem is to be settled by compromise. By the terms of the bill the government renounces all claims to Blankenburg Castle, the forests formerly belonging to the grand-ducal hunting estates, certain estates in Heimburg, Hesse and Lichtenberg, and a valuable stud in Harzburg.

"What am I to answer?" he said, with a forced smile. "I cannot say that it is right, and it seems unkind to say that it is wrong."

"Promise me this, at least, that you will forget what you may think of the imprudence, and remember only the interest in yourself which prompted me to come. Will you promise me that?"

"Yes," he replied. "I may safely promise that, I am sure you meant it kindly."

He seemed to treat the whole matter as a friendly interview, and this did not please Lola.

"Kindly!" she repeated, bitterly. "What a word to use to me! I am not kind to you. In coming to say good-bye to you, I have been kind to myself."

She drew a little nearer to him, her warm, white hand lying still in his.

"How could you, Sir Karl, be so cruel as to do that to me? Tell me honestly, had you no idea of the trouble and sorrow it would give me?"

"I know you are always very good to me," he replied; "but I could not possibly think that the going or coming of a mere acquaintance like myself would be of any moment to you."

He said this purposely; to show her this was no love scene in which she had forced him, as it were, to take a part. She withdrew her hand suddenly from his clasp, and stood before him erect and haughty.

"Do you mean that you look upon yourself as nothing but a mere acquaintance—nothing nearer or dearer? Is that the end of all our happy hours together—a mere acquaintance—while I have been so proud and happy in thinking you my friend?"

He was again somewhat embarrassed. The passion in her face and voice startled him. What was he to do with this impetuous girl? He looked gravely at her.

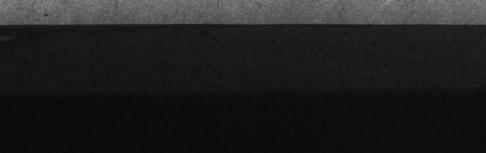

"The word 'friend' is a sacred one," he said; "it implies a great deal—affection, fidelity, forbearance, and loyalty."

"And will you not give those to me?" she asked.

97 men die poor!

Out of every 100 men, only 3 lay up during their productive years sufficient money to enable them to retire to a comfortable, independent old age.

It should not be so when one considers how small a sum invested annually for a few years in an Imperial Endowment Policy will ensure a competence for a man's declining years. Yet we continually see and hear of old folks slaving for a meagre living or depending upon the charity of friends or children for support.

You don't want to come to that do you?

Then write to-day for our interesting booklet "Fennell's Old Men." You will be astonished to learn from it how easily you can provide now for your comfort and independence in your later years.

Invitation to be Extended to U.S.A. to Attend Allied Conference

British Charge D'Affairs in Mexico Assails the Government--Veteran President of Labour Pleads the Workers' Cause--Amundsen's Projected Expedition Foiled by Demands of Airplane Manufacturers.

UNITED STATES TO BE INVITED.
LONDON, June 25.—The United States will be invited to send a representative to the proposed Allied conference in London in July in any capacity the United States Government thinks fit. The British Government is preparing the invitations. Japan will be included among the nations invited. It is hoped Premier Mussolini of Italy will be able to represent his nation in person at the Conference.

THE MEXICAN TROUBLE.
EL PASO, Tex., June 25.—Mexican authorities by their conduct, have defeated all hope of British recognition, H.A. Cummins, British agent, who left Mexico City after having defied expulsion under order of President Obregon, declared yesterday upon his arrival here to visit friends, Mr. Cummins assailed what he characterized as the inexactitudes and exaggerations of the Mexican Government. The British agent was charged with sending discourteous notes to the Mexican Government and ordered deported. He was a prisoner within the legation from June 10th until June 19th, when President Obregon withdrew the deportation order and the announcement was made in London that arrangements for the withdrawal of Mr. Cummins from Mexico had been completed.

AMUNDSEN HELD UP BY ITALIAN FACTORY.
CHRISTIANIA, June 25.—A special despatch to Aftenposten from Pisa, states that the aeroplane for Ronald Amundsen's projected North Pole expedition has refused to deliver ready and tested machines until the balance of \$14,000 on the purchase price is paid. If the explorer is unable to raise the required sum within 10 days the despatch states, Italy will organize a polar air expedition under the Italian flag, using Amundsen's planes, as far as possible, and placing the leadership of the expedition under Lieut. Locatelli, who was to have been chief pilot of the Norwegians air train, Amundsen, according to the despatches, was offered the position of sub-commander, but stated he would refuse to serve in a subordinate capacity to Locatelli. He is still hopeful of raising the money.

BRITISH COLUMBIA ELECTIONS.
VANCOUVER, June 25.—Fort George riding is still in doubt and reports last night made no change in the standing of the parties in the Provincial election: 20 Liberals; 3 Independent Liberals; 1 Independent; 4 Conservatives; 2 Laborites and 17 Absentees. The absentee vote is the chief subject of speculation in political circles, and it is expected to change results in a number of constituencies where majorities are narrow. The votes will be counted about July 12.

COMMUNISTS DEFEY EN VIOLENCE AUTHORITY.
EDMONTON, June 25.—Defying constituted authority, a group of Radicals or Communists in attempt to dominate the country near Valhalla, in Grand Prairie District, have instituted threats of violence against settlers of Anglo-Saxon birth, according to 16 farmers of the neighborhood who arrived here yesterday. According to this information members of the party, which is known as the Lakewood Community League, have openly stated they are a law unto themselves and that their orders and instructions to the rest of the settlement are going to be enforced to their ideals of government.

OIL COMPANIES ATTACKED.
WASHINGTON, June 25.—Fifty or more of the principal oil companies of the United States were attacked in anti-trust proceedings in

stituted by the Government to-day in the Federal Court at Chicago. Attorney General Stone asked an injunction to restrain the companies from further violation of the Sherman Anti-Trust Act which will be charged against them.

VETERAN LABOR CHAMPION PLEADS THEIR CAUSE.
NEW YORK, June 25.—Samuel Gompers, venerable President of the American Federation of Labor, left a sick bed to-day to present Labor's cause to the Platteau Committee of the Democratic National Convention. His face was pale and drawn, and he was assisted to and from the Committee Room by other Federation officials. He was attended by a trained nurse and made frequent use of smelling salts during the twenty minutes he was in the Committee Room. Despite the apparent effort it cost him, Mr. Gompers twice addressed the Committee pleading for justice for the workers and weighing particularly against the use of injunction by the courts in industrial disputes.

J. A. MACLEAN, K.C. DEAD.
BRIDGEWATER, N.S., June 25.—James A. MacLean, K.C., aged 72, one of the best known lawyers of this Province, died at his home here at 11.30 this morning. He was a native of New London, P.E.I., a Mason, Presbyterian and Conservative. He was a candidate in the Provincial elections in 1890 and 1894. His funeral takes place on Sunday afternoon.

CITIZENS SUPPORT STRIKERS.
OTTAWA, June 25.—The District Superintendent of the Post Office Department, at Windsor, Ontario, reporting by telephone to headquarters here, gives his impression that the citizens of this city "seem to be more or less indifferent as regards mail delivery and appear to be considerably concerned in backing up of the strikers." There are 1,500 men out of work at Windsor, he said, and a considerable number have expressed their willingness to go on duty, but they are apparently frightened on account of the militant action of the pickets posted by striking employees. Although he reports that there is some little improvement in the attitude of the police, he is not at all satisfied that they are taking any too much trouble to protect postal employees on duty.

NO CHANGE IN THREE CITIES.
TORONTO, June 25.—There is practically no change in the postal situation in Montreal, Toronto and Windsor, caused by the

strike of employees in those cities, it was reported over night. The Dominion Government remains firm in its refusal to grant concessions to the striking workers, who, according to Dominion Federation officials, are firm in their refusal to return to work until their demands are met.

Just Folks.

By EDGAR A GUEST

DO IT.
If they give a job to you.
Do it.
Stick right there and see it through.
Do it.
If they thought you couldn't do such a job and quickly, too.
They'd not give the work to you.
So do it.
When on you a task is laid.
Jump right in, don't be afraid.
Do it.
Giving never walk about.
Giving work to men they doubt.
So when they have picked you out.
Do it.
Stick right there and play the man.
Do it.
They who ordered think you can.
Do it.
Never doubt yourself, but say:
"They have faith in me or they would not throw this chance my way."
I'll do it.

Difficult or something new,
Do it.
It's a sign men trust in you.
Do it.
If they thought that you'd be weak.
Or possessed a coward's streak.
For another man they'd seek.
So do it.

Wife Gets Hair Bobbed and Hubby Slugs Her

STAMFORD, Conn., May 28.—Adolf Schacht, No. 14 Melrose Avenue, came home from work and found his wife had her hair bobbed in his absence. By way of expressing his displeasure he broke all the dishes in the house and punched his wife and their son, who interfered in behalf of his mother. Schacht was arrested on his wife's complaint. Later Mrs. Schacht withdrew the charge. Schacht is forty-five, his wife thirty.

Needed—Good Parents

"Good parents are a necessity if the child is to grow up into a good citizen," writes a thirteen-year-old girl who evidently finds no difficulty in obeying the injunction, "Honor Thy Father and Thy Mother." Constance Ryan, winner of a prize of \$25 for the best essay on the Biblical text, goes on to say that parents "have had the experience which we must get, and, owing to this, they can make wise decisions when we most need them, and by which we may benefit as long as we live. Make life easier for them and make them as happy as they make us; the true friends, whose love is life enduring—mother and father; Ruth Herold, another thirteen-year-old schoolgirl, and also a prize winner in the same contest, evidently had made some investigating before preparing her competition, for, she writes, "in investigating the prisons and looking over the records of the prisoners, it is found that most of the criminals of to-day were unfortunate in having lost their parents or in having been allowed to treat them disrespectfully." The compositions were read at a Parents' Day celebration in Central Park, New York City, arranged by "Uncle Robert" Spero, a well-known philanthropist who devotes much of his time to work among unfortunate children and to inculcating among all children a sense of filial obligation. The occasion, the first of its kind, was noticed in all the metropolitan newspapers, and supported and encouraged by the public-school authorities. In a radio message broadcast before the park meeting, and published in several papers, Associate Superintendent of Schools Edward W. Stitt offered parents these suggestions:

1. Set proper standards for your children to follow.
 2. Be friends with your children, walk and play with them occasionally. We must not live above our children but with them.
 3. Do not scold too much. Encourage them to do their best. Let us remember what Phillips Brooks said: "Children are white, spotted black; not black, spotted white."
 4. See that they select friends and associates.
 5. Make home as comfortable and happy as your means permit.
 6. Give your children at least a high-school education.
 7. Train them in the habit of regular attendance at church and Sunday School.
 8. See that they avoid all games of chance. A gambler never can be a success in life.
 9. See that your children take plenty of physical training in the open air. It is better exercise to walk than to ride in a "limousine."
 10. Let your children feel that any honor which they win in school, or any may perform, will bring great happiness to father and mother and put the family name on a higher plane of honor. Do not forget that the future of America depends upon how your boys and girls are trained to-day, not on how you were trained when you were children.
- "Let us hope that the proper celebration of 'Parents' Day' may lead to better homes, more regular attendance at religious services, and a finer type of citizenship, all of which will combine to make our nation the best in the world. Let us all work to make our United States a Republic of Homes."

Glass Heart That Beats

DRESDEN, Germany, June 2.—(A.P.)—A heart of glass which beats by the aid of a little electric motor and sends a red fluid coursing through glass arteries, has been placed on exhibition in the Dresden Hygienic Museum. The apparatus is approximately the size of a human heart and was intended to be of special interest for medical students to illustrate the functions of that organ.

Belvedere Committee Meets

ROAD RACE AFTER REGATTA.

The Ladies' Association and Mens' Committee of the Belvedere Garden Party, met on Tuesday in the Recreation Hall, when matters in connection with the recent event, were finalized. The total receipts from the Garden Party were very satisfactory. Votes of thanks were accorded the Press and the many kind friends who gave unstinted help. Mrs. Hiscock, President of the Association, then thanked all present for their untiring efforts, and announced that the Mens' Committee have already begun to provide equipment for next year's event. The Road Race will be run on the College Campus after the Annual Regatta and arrangements for this are in the hands of Mr. J. J. Lacey and his Committee. Lt.-Col. Nangle has kindly donated a magnificent cup, and it is likely there will be a gold medal for second place. All who intend entering are advised to keep in training and at a later date, entries may be made at the store of C. J. Mills.

Dublin Considers Modern Ways

DUBLIN, June 2 (A.P.)—The city-manager plan used in the administration of a number of American cities is advocated by some people for Dublin, now that the Dublin Corporation has been dissolved by President Cosgrave. There is general public approval of the step taken by the government, which has entrusted city affairs to three commissioners.

Diverted Canal

REVEALS OLD CHINESE BURIAL GROUND.
SUCHEN, China.—(A.P.)—Discovery of about a dozen coffins in the bed of the Grand Canal, whose course near here lately was diverted, has

stirred the interest of scholars and has given rise to the belief that the famous waterway in the days of the Ming dynasty, when the coffins were buried, ran east of its present bed. It was with the announced purpose of deepening the waterway and of recovering rich silt at the same time, that a dam was built last February across the stream just north of Cuchen city. The water was turned into an old dry river bed leading toward Hachow and the canal was drained. In digging near here the coffins were brought to light.

Three contained the bodies of the Giang family. Giang himself and his two wives, who had been buried between 400 and 500 years ago. Inscriptions on a stone at the man's head gave Giang's name and a brief account of his family relating that he had died in the 12th year of Djeng Del of the Ming dynasty, about 1514 A.D. It is accepted that it was only by unexpected chance that the final resting places of persons of Giang's rank could come to be under the waters of the Grand Canal, and therefore it is believed that a century or so after

these interments the course of the stream was changed into the channel it has followed in recent generations.

Methodist Conference

WEDNESDAY MORNING.

There is an atmosphere of the caplin school. There is another of Indian Summer. That of a political meeting is another. The lobby of a conference, or we take it, Synod presents a scene of geniality which would melt the most grim ocre. But when the Lord's Supper is reverently observed at a great Church gathering there is a weight of feeling that even a hardened reporter appreciates. The beautiful thing is that the transition from lobby to Lord's Supper does not appear to be noticeable. Debutante always exhibit this perfect mingling of the present and the idealized future.

Retiring President Bennett made a brief address. His style is the staccato crack of a gatling gun. We counted four successive sentences of four words each. The four word key of his theme was "Christ dominates his Church."

"The Conference will proceed to elect a President." The vote ran Darby, Ira Curtis, then twenty with a break for Ezra Broughton, followed by a group of five, for Dr. Fenwick and another "break" of twenty for Broughton. Do the members of Conference know what a break means? If they do not they have missed something.

Speaking to the Conference, Mr. Broughton expressed himself as the most unhappy man in the Conference, but he supposed it was for better or worse. He came to Newfoundland September 13, 24 years ago and had always had the comfortable assurance that he was where God wanted him to be. He hoped that "Englishmen like he would be able to muddle through." If more men were chosen for the ministry on the basis that led to the selection of Rev. Ezra Broughton there would be a sweeter perfume in all ministerial assemblies.

"For Secretary, Bugden, Coppin, Blount, E. C. French, Ira F. Curtis, Mallalieu, Jackson, Pickering. It looks like hard work to pick a Secretary. If it is a hard job. Perhaps on second vote Coppin will cop it. He has been Journal Secretary. Second ballot. They're away. It's close but Coppin against the field. Needed for a choice 20, Coppin has 33. We now have an English platform. E. C. French, Geo. Mercer and C. R. Blount become Assistant Secretary, Statistical and Journal Secretaries.

On the 20th of July he sailed from Rogersport's wharf on the Kenmore. Dr. Peake, of England, supplied medicines. A Mr. Sparkes Green gave fifty dollars worth of tracts. The Bible Society provided Bibles. After five days' voyage they were off Labrador. The first service was held with the congregation packed on herring barrels. The Anna Leslie carried him to Gross Water Bay. It was proven at that service that Mr. Newman "beant a ranter." His always delicate and refined appearance is a sure indication of the same.

Outdoor congregations were the rule for a time. All too soon came winter. They on "Beaver Tails" or by no means than 65 different dog teams he travelled over 1500 miles on a coast line of 250 miles. In a number of cases he biased the first cross-country trails, which, improved, of course, are still used. Another summer passed and the fall storm of '86 wrecked 100 vessels on this coast. Winter closed in and for eleven months he had no letters.

Hon. George Shelton, Dr. Forbes and Dr. White, in successive years did notable medical work. Sandy Hills, Paradise and Sandwich Bay saw revivals. Despite days on the drift ice, a day when the Lady Glover was lifted clear over a reef and the most malicious slander which had sometimes gone into print, the speaker's testimony was that he recalled to a succession of men as had manned Labrador.

Rev. Arminius Young gave the outline of the 42 men who have served Labrador since 1824. In that year, in August at the first Canada Conference held at Hallowell, now Picton, Ont. Henry Ryan was appointed to the Indian work. Rev. Thomas Hickson had already sailed from St. John's and preached his first sermon from "Repent ye for the Kingdom of Heaven is at hand." There was a congregation of 40 whites and 20 Indians. Richard Knight spent part of 1825, George Ellidge spent 1826-27 and gave a gloomy report as did Charles Bate in 1827-28. There is then no record (due to the fire of '92 in St. John's) till 1845.

Then followed for varying terms Charles Comden, Thos. Fox, John Goodison, J. S. Allen, Joseph Todhunter, Thos. Allen, George Forsey, Isaac Howe, Joseph Hale, John C. Currie, George F. Jones, James B. Heal, John P. Bewell, Jeremiah Embree, J. T. Newman, Matthew Stevens, A. A. Holmes (First church built), Jabez Moon, Selby Jefferson, Frank Hollett, J. J. Sparkes, Isaac French, Arminius Young, Ezra Broughton, J. W. Guy, Thos. S. Ally, W. H. Webber, R. F. Mercer, W. S. Mercer, Arthur Brett, A. McK. Rose, Leander, G. Gilhard.

W. S. Mercer was a native of Bay Roberts. The chairman of Wesleyville District, Rev. George Mercer, a native of the same town who knew him best of any of the men in the conference, presented the minute referring to his tragic passing for adoption by the conference. Well, as the conference knew this youthful brother minister there was gladness in every heart to learn more of him from the intimate knowledge of this friend and to learn it in language so beautifully expressed.

"Ye that have faith to look with fearless eyes Upon the tragedy of a world of strife And know that out of dark and night, Shall come the dawn of ampler life. Rejoice, whatever anguish fills your heart, That God has given you a priceless dowry. To live in these great times and bear of your part. In Freedom's crowning hour. Go tell your sons—high in the Heavens— Their heritage to take. I saw the powers of darkness put to flight. I saw the morning break.

The President took a very few minutes. He had been told that he was not in the Apostolic succession, but he was proud he was in the Labrador succession. He was proud of his B.D. (dog driver's) degree. He had been called at the time a fool, but he was to-day happy to have been a fool for Christ's sake. Well was the seven years the late W. S. Mercer spent there called the crown of his life. Labrador was worthy any man's efforts. The way to celebrate the centenary was to keep on sending men of Seelye Mercer's type to preach the unsearchable riches of Christ. It is still the power of God unto Salvation.

"Boys, push on with it," was the cry of a Newfoundlander falling in the July drive. This was his cry to the Newfoundland Conference.

The letter of Mr. Mercer's very aged parents to Dr. Fenwick was read to the Conference and made a profound impression. It was evident that Mr. Mercer's beauty of character was because that from a child he had known the Scriptures.

Dr. Curtis had a difficult task, being called to speak after so profound a stirring of feeling. But with the gift of a natural orator he began in a low key and level manner and traced it

The fact is that the Moravians began work in 1771. The Methodist work began one hundred years ago, i.e. 1824. For a few years there was a break. Then in 1833 Rev. Mr. Newman, but newly out from England, was appointed and went willingly. He is spared to preside at last night's meeting.

American Warships Coming

Three American warships, the Halseid, Brooks, and Lawrence, are due to arrive here in a day or two. The crews will participate in the Haig celebrations.

"Burning Sands"

A BIGGED FEATURE THAN "THE SHEIK"

Mr. Ben Reddin, Tenor, Will Sing At The Majestic To-night. By S.S. Silvia to-day Mr. Ben Reddin, a vocalist well known in the American musical world, is due to arrive to commence a limited engagement at the Majestic Theatre. Mr. Reddin is a tenor highly recommended by the Keith Corporation, who booked him for the Majestic management. He will appear at 9 p.m. The feature to-day is "Burning Sands."

"Burning Sands" is an exciting desert romance written by a popular author who has spent his life among the Arabs. Produced on a magnificent scale by the man who made "The Sheik"

While in "The Sheik" the hero was the aggressor, in this love story a proud English beauty throws conventions to the winds and invades the desert in pursuit of the man she adores.

The picture abounds in spectacular midnight battles of wild galloping Bedouins, in passionate love scenes, in the magic atmosphere of the real Sahara.

The brilliant cast includes, besides the featured stars, Louise Dresser, Winter Hall, Albert Roscoe and other favorites.

A Spectacular and Thrilling Photoplay

PEGGY O'DAY IN RACE TRACK DRAMA AT THE NICKEL.

Realism in pictures is demanded to-day by the public. With this in mind Director Francis Ford when he was ready for the big racing scene in "They're Off" the racing picture to be seen at the Nickel to-day, took his whole company to Mexico and staged the race right on the race track with the proper background and with real jockeys and race horses, as you may see in the picture secured one of the most thrilling and realistic horse-races that has ever been shown on the screen.

Little Peggy O'Day who plays the lead was selected for her part not alone for the fact that she is a great dramatic actress, but for another reason, she is a great horsewoman and can ride a horse as well as any man. Miss O'Day rides the great "Black Diamond," a thoroughbred race horse in this great race and rides him throughout. She does not employ a double at any stage of the picture and every thrilling stunt that is seen on the screen is performed by Miss O'Day herself.

Big Dramatic Photoplay at the Crescent

"THE CHALLENGE" HAS UNUSUAL PLOT AND LOCALE.

One of the very popular leading men appears in "The Challenge." He is Rod La Rocque, whose few years in pictures have advanced him to the top, until now at twenty-three, he is sought after by directors and stars. His role with Miss Cassinelli is one of which he is eminently fitted—that of an extravagant playboy whose popularity with the smart set is easily accounted for.

Third in the list of accomplished players is Warner Richmond, who proves his versatility by playing a part unlike those usually assigned to him. Instead of a villainous trapper or a blot on the underworld, Mr. Warner is suave and sinister as a New York Banker whose heart is not as black as the awful look in his eyes.

Clean Up and Wake Up.

The new time schedule which the Minister of Finance has introduced in his Department will be highly appreciated by the general public, and particularly by visitors from the outports, who in the past have been put to considerable inconvenience because of the time wasted in conducting their business in the Custom House. This applies not only to this Department but to others as well.

We are fully aware of the fact that in the Civil Service are many officials who perform their duties conscientiously, and in a quiet and unostentatious manner have given of their best, despite the scant recognition which they have received in return. On the other hand there are certain persons who have failed to realize their responsibilities. The services which they render are negligible; they look upon their offices as sinecures, and the tending to the needs of the public is only a secondary consideration as compared with the drawing of their cheque. Any morning they may be seen strolling towards their offices, regardless of the fact that the ordinary business clerk has already completed a considerable portion of his day's work, and in the late afternoon it is not an unusual occurrence to be informed in reply to an enquiry that the gentleman has not yet returned from dinner.

The Minister of Finance and Customs has broken down an old and evil tradition, and we trust that the Heads of the other departments will adopt similar measures and awaken the various employees to the fact that time is money provided only that the time is made full use of from a public standpoint.

The Opposition's Vain Attempts

TO CONFUSE THE ISSUE.

Apart from the usual political clap trap and the scare headlines which the Advocate devises whenever an election contest is about to take place, the public generally are wondering what solid food for thought the Opposition candidates have to offer to the Harbour Grace electorate. The cry of "Wolf, wolf!" when there is no wolf deceives no one, nor do the charges of treachery—we misquote—glaring treachery, arouse the slightest concern.

Nothing is more ridiculous than the assumed air of virtuous indignation which the Advocate can adopt on the slightest pretext, unless it is the ponderous phraseology in which the Mail entangles itself in its attempts to classify one candidate or the other as Liberal or Tory, or to impress all and sundry with its claim to be considered the sole exponent of the principles of Liberalism.

Apparently there are some people who can perceive a subtle distinction between one individual and another whereby he can be labelled Tory or Liberal, and there are others who can go even further and divide the latter into Liberal Progressive, Liberal

Labour Reform and so on ad infinitum. The Tories apparently are a bloc which defies dissection. Why? Why not a Tory Reform, a Tory Progressive, or even a Tory Labour Reform?

We confess to a lamentable ignorance in the matter of applying the terms, and we somewhat suspect that our contemporaries, were they but frank, would plead guilty to the same ignorance. On the other hand to define Coakerism is simplicity itself. Even Hickmanism presents no difficulties, but to combine the two in the one definition offers a problem that would baffle the wisest heads, because so far as we can see, they have nothing in common unless it be coal contracts or West Indian steamship schemes.

What we seem to require today in our politics more than anything else is a clearly defined issue, something which everyone can understand and appreciate—or disapprove of, as the case may be. The Monroe Government stands for such an issue, which is CLEAN UP, KEEP CLEAN, and a SQUARE DEAL FOR ALL.

Simple, is it not? But we fear our opponents have little regard for simplicity. They prefer darkness to light, the mendacious ruminator to the truth, and

"The whispered theme, dilated and at large. Proved after all a wind gun's airy charge."

Or possibly Swift's characterization of such individuals may more appropriately describe them:

"Thy formal nods, important sneers, Thy whiskers foisted in all ears, (Which are, whatever you may think, But nonsense wrapped up in a stick.)"

The Naval Reservists Complaint.

In view of the fact that the presence of a Naval Reservist contingent in the Guard of Honour has been found impossible owing to the difficulty of supplying uniforms, would it not be possible to obtain the necessary equipment from one of the visiting British ships for the occasion? Such rehearsals as are necessary could be carried out in mufti without interfering with the arrangements, and everyone would be satisfied.

It certainly seems unfortunate that on such an occasion the Senior Service should not be represented, and we make the suggestion for what it is worth, and in order that there should be no further unpleasantness over the matter.

Queen's College

COMMEMORATION DAY.

Saturday next is being observed at Queen's College for its Commemoration of its deceased Founders, Benefactors and Alumni. The day will begin with a celebration of the Holy Communion at the Cathedral at 8 a. m. The Special Commemoration Service will be held at 10.30 a. m. The Service will be presided by the Rev. T. W. Upward, Incumbent of Catalinas. The Bishop and all the clergy attending the Synod will be present in their robes for the service and will occupy seats in the Sanctuary and the front pews in the nave of the Cathedral. The remaining portion of the Cathedral will be opened to friends of departed members of the College and the general public. The Service will conclude with a solemn Te Deum sung while the Bishop and Clergy stand in front of the Altar. At 1 p. m. the lady friends of the College will serve luncheon to the members of the College.

Magistrate's Court.

An ordinary drunk was discharged. A man, summoned for obstructing a policeman while in the discharge of his duties, was let go upon payment of costs.

A resident of the Higher Levels, charged with being drunk and disorderly in the house of another man, of the same settlement, the complainant, was dismissed for want of prosecution.

A man for having a dangerous dog in his possession was ordered to have the beast destroyed.

A resident of Mundy Ford Road, summoned by the Municipal Council, for depositing garbage in a field, contrary to the rules, was fined \$5 and costs.

An assault case was dismissed for want of further evidence.

To the Electors of the District of Harbour Grace

GENTLEMEN:—

On the second of June last, your District honoured both the undersigned by electing us to represent the District in the Legislature. We were members of the Monroe Party, and that Party was successful at the Polls, and has come into power with a substantial majority, there being elected to the House of Assembly twenty-five members of the Government, ten members of the Opposition, and one Independent. In other words, twenty-five Monroe Government men, against eleven of all others. With this majority, the Monroe Government will hold office for the full period of four years, and they have set their hands to the work of bringing this country from the darkness and ruin in which they found it, to light and prosperity. Mr. Monroe has paid the District of Harbour Grace the very high compliment of making the two representatives which it gave him, heads of Departments, outside of Bonaville, no other District has. Mr. Russell is Minister of Public Works, having charge of all public institutions, and of the local and main roads and ferries throughout the country. Mr. Monroe honoured Mr. Bennett by appointing him to a seat in the Executive Council, and to the position of Colonial Secretary for the Colony, an Executive position second to none. Harbour Grace, therefore, acquires the influence and prestige which will come to it from the fact that its two representatives in the Monroe Administration occupy such advantageous positions.

Having accepted these offices, which of course had to be filled by someone from some District or Districts, it was necessary under the Law, that both should go back to their constituents to ask approval of the fact that their representatives had been placed in these positions. That is the only point to be considered in this Bye-Election, whether Harbour Grace District approves of the Monroe Government giving their representatives such prominence and influence in the administration of affairs. We cannot think that the electors of Harbour Grace will consider it a disadvantage to have their representatives occupy departmental positions, particularly as it will not discount in any way their service to the District. In fact, they will be of greater use to the people, and better able to study their interests and to serve their needs.

There are some few people, however, in the District, who think that Harbour Grace should have no such representation, and that the members in the House of Assembly for the District should sit in the cold shades of Opposition, helpless to serve the people or to look after their important interests. This action on their part will have no effect, for the good sense of the Electorate will return the two Monroe men who are in a position to do so much for their constituents. It is really an action of spite on the part of the Opposition and it will only tend to retard matters. Work was necessary, and such was being entered for the good of the people, but has now been stopped between Nomination Day and Polling Day, and the Legislature cannot now meet until the determination of this Bye-Election has been made. It is not in the interests either of the District, or of the Country that there should be this contest, but as this is a free country with free institutions, these people can exercise their rights, though to the most of us, it would seem that they are not acting in the best interests of the voters of Harbour Grace.

If by any extreme chance the candidates for the Opposition should be elected, they will not take positions held by the present Government representatives, but on the contrary, Harbour Grace will lose entirely all connection with the Government which has so lately received the endorsement of the whole country.

In leaving this issue to you, we have no doubt whatever of the decision that you will make, and we know well the good sense of the people will recognize where their interests lie. After the fight is over, we are confident that the result will be the confirming of Mr. Bennett and Mr. Russell as your representatives, and your approval of the action of Mr. Monroe in placing them in such a position that they can work to greater advantage for the well being of the good old District of Harbour Grace.

JOHN R. BENNETT, C. E. RUSSELL.

Editor Evening Telegram. Dear Sir.—If the person who signed himself "291X" and also "Reservist" (if not one and the same person) will come out over their own names they will be given the reasons why we are unable to have a Naval Guard of Honour.

It is rather interesting to know that the Newfoundland Royal Naval Reserve has no such number as "291X" on its nominal roll of those who served during the war. The letter has therefore been written by someone "on the inside" who is trying to "knock" rather than help. Yours faithfully, T. NANGLE, Dominion President.

Train Derailed Near Topsail

A train with passenger cars to accommodate the Earl Haig spectators which left town at 8 o'clock this morning for Humbermouth, became derailed forty-five minutes later about a mile east of Topsail, and as a result train traffic will be held up for several hours. The accident is attributed to the rear truck of the tender leaving the rails, followed by two second class cars and day coach, one of which turned over in the ditch. Only the train crew were on board at the time, but all escaped uninjured. A portion of the road-bed was badly torn up and to save any unnecessary delay a wrecking train with appliances on board was immediately despatched to the scene to place the road in order. As far as can be understood two of the coaches which derailed in the wreck were recently built locally and sent over the road for the first time, only minor particulars of the accident have been received, and the extent of damages caused the passenger cars is at present unknown. Traffic is expected to be resumed some time this afternoon.

Unightly Dump Near Lake Side

Those who visit the lake side to watch the boats practice for the Haig Regatta complain of an unightly dump which has been situated near the boulevard. This heap of rubbish contains all kinds of vegetables and animal refuse and the odor is anything but invigorating. Dumping there should cease until after the races are in the meantime the heap should be levelled and sprinkled with disinfectant.

London Letter

(By FANTON HOUSE, for the Canadian Press.)

LONDON, May 26.—Empire Day was kept with a wealth of pageantry at the British Empire Exhibition. Someone had the happy idea of making May 24 itself a day of Youth. The Duke of Connaught, representing the King, took the salute while ten columns of boys and girls (Scouts, Guides, and members of various cadet corps), 8,000 in all, marched past the Royal Box at the Stadium. Afterwards we had the Trooping of the Color—the evolution in which the flower of our Army exhibits the perfection of its drill on the King's Birthday—smartly performed by youngsters from two famous naval and military schools. Music was supplied by the largest military band brought together—a thousand instrumentalists, including 300 drums and fifes and 100 pipers. These gave a display of their own marching and counter-marching in the great green arena amid roars of admiration.

There was another pageant before the Empire Thanksgiving Services on Sunday May 25, which was attended by the King and Queen, the Princess of Wales and several other members of the Royal Family, the High Commissioners for all the Dominions and the Agents-General for the Colonies. First the huge massed band was marshaled in the arena. Their majesties arrived, heralded by the State Trumpeters, and a procession began, headed by detachments of the Royal Canadian Mounted Police and the Metropolitan Police of London. Then came a Guardsman with the Union Jack symbolical of Empire, followed by standard-bearers with the Dominion flags. Next marched our old friends the "Beef-eaters," or Yeoman Warders of the Tower of London, in their handsome Tudor uniforms, and after them a body of Chelsea pensioners in long scarlet coats—old warriors representing the Army of Yesterday. There were hearty cheers for the old boys, and warmer greetings still for those who followed—a group of disabled soldiers, some still in hospital blue, some blind.

Another procession entered—first the choirs of many churches, then bishops and clergy of all denominations, among whom were the Bishop of London and the Archbishop of Canterbury. Many who were present on both occasions found the ensuing service even more impressive than the ceremony at the opening of the Exhibition, a month earlier. No such congregation has assembled before in the history of the world; 100,000 people were actually in the Stadium, and if those he counted who listened in wireless, it may be said that millions took part.

ANOTHER ROYAL VISIT.

The King and Queen of Italy, with their son and daughter, the Prince of Piedmont and Princess Mafalda, have spent a crowded four days with our King and Queen. As though a programme were not sufficiently full that included, in this brief space, a State Ball and Banquet, a great charity ball, a hunt day at Wembley, lunch with the Lord Mayor of London, two receptions and a luncheon at the Italian Embassy and visits to the Italian Church and Hospital, our energetic guests contrived to do quite a lot of semi-private sight-seeing. The King of Italy found time for the Tower, the Zoo, the Coin Department of the British Museum, and Westminster Abbey, while the rest of his party were only a shade less enterprising. The weather was extremely fine, and visitors from the dominions had numerous opportunities of seeing the visitors from Italy, both at Wembley and as they drove from function to function about the streets of London. King George and Queen Mary, themselves making their fifth visit to the Exhibition, acted as guides at Wembley to the Italian royals, whose interest was such that the carefully prepared timetable had to go by the Board. The tour began with a round of the Canadian Pavilion and the two railway annexes, where the party took special pleasure in the beautiful and ingenious panoramic views of Canadian scenery. They proceeded to Bermuda, and then to the red-walled West African town, where the Ashanti drummers tapped out a greeting, and great silken umbrellas of green, scarlet and gold were borne over their Majesties' heads. When an African chief visits another village, it is proper for him to bring gifts, the King had duly observed the custom by sending the village a sheep. Black chiefs and princesses, attired in gorgeous native fabrics, were presented, and did the honors of their huts with dignified courtesy.

ENTERTAINING DOMINIONS.

June and July will be filled with entertainments for Overseas visitors. Their Majesties will give garden parties at Buckingham Palace on June 24th and July 5th and 24th. The Government garden party, to which 2,000 guests will be invited, has been fixed for June 27th, and the reception and ball at the Guildhall, at which the Lord Mayor will be host to take place on June 30th. "Domtution Women's Week," organized by the Women's Section of the British Empire Exhibition, will be held from July 21 to 26. Canada's special day being the 23rd. Each day will be marked by a morning conference and an afternoon

concert. Elaborate preparations are being made for the entertainment of the Canadian and American lawyers and their wives, who will be the guests of the Bench and Bar of England from July 19th to 26th. The Inns of Court and the Law Society are giving 10 dinners, five on each of two nights, so that the whole party of 2,300 people may be "officially dined." There will be garden parties in the Temple and Lincoln's Inn, and probably in Gray's Inn also. The Secretary of the Reception Committee states that "counting each visitor as an entertainment" there will be 30,000 entertainments in the week.

THE BRITISH LEGION.
Members of the St. George's Branch of the British Legion, who will be in London this summer for the Exhibition, will be glad to know that nine acres of playing fields for their use have been acquired at Osterley Park, within easy reach of town. The detachment of Royal Canadian Mounted Police, guardians of law and order in Canada's Pavilion at Wembley, have been made honorary members of the Legion of Frontiersmen, with headquarters at 6 Adam Street, off the Strand, in the Adelphi region.

What Next?

(Montreal Gazette, June 18.)
"In a summary of the activities of President Coolidge during the week preceding the 2nd June instant, the following paragraph appears: The President transmitted to the Senate a recommendation of Secretary Hughes that United States sovereignty be extended over Swain's Island, a little speck of land off the Bonavista Bay district of Newfoundland, not far from Greenspond Island. It was discovered by a Briton who deeded it to an American. Great Britain does not contest our sovereignty." Greenspond Island is in Bonavista Bay not far from Fook's Harbor and Westerville, quite close to shore, and no doubt the small island shown on the maps, close to and south of the larger one, is Swain's Island. Both are not far from Cabot Island and were within sight of the first land discovered by that famous navigator. "John Cabot, sailing from Bristol in 1497, appears to have made landfall at Bonavista and claimed the whole country for Henry VII." Since that date there is nothing to indicate a change of "sovereignty" except the President's message.

Questions of this kind fall within the domain of public international law, of which it may broadly be said that apart from contractual obligations established by treaty, the science deals with a theory rather than a condition. The Great War dealt unkindly with this branch of jurisprudence and what was left of it went down with the Lusitania. The principles of the Stone Age revived, briefly summarized as might is right. Then came the Peace Treaty and the Covenant of the League of Nations, which is the code of public international law adopted by the adhering nations. "The United States declines to be bound by the Covenant of the League and is a law unto itself. In this case of Swain's Island the fact that both President Coolidge and Secretary Hughes are, apart from their official emence, lawyers of experience, entitles their action to serious consideration. Had it originated in the Senate, it might be dismissed as pre-election tactics and an attempt to have the American Eagle cross the fence into a neighbor's garden and there conduct itself after the manner of a common barnyard fowl. From Newfoundland's point of view, however, this subject cannot be dismissed so lightly. What the true purpose is cannot be defined without further information.

The proposition that the purchase by an American citizen of territory in a foreign country entitles the United States to claim sovereignty over the property so purchased is one which interests Canada particularly. It can be supported by the Big Brother attitude only, and if questioned by the answer, "Well, what are you going to do about it?" it should be borne in mind when dealing with a nation that does not adhere to the Covenant of the League of Nations.

Must Sell Liquor Apart

UNDER NEW IRISH PLAN.
DUBLIN—(A.P.)—The Free State is about to handle the question of the drink traffic. There 15,000 houses in the Free State licensed to sell drink, and some very small towns have as many as 70 saloons. It is not proposed to diminish the number of these licenses, as it is recognized by the Government that it ought to pay compensation for extinguished licenses.

The government licensing bill will not be drastic enough to satisfy the temperance party. It deals principally with the open hours, which will be from 9 a.m. till 10 p.m., except on Saturdays from the hour of closing will be 9 p.m. All clubs are put on the same footing as public houses.

The most controversial of the proposed reforms is that which compels the sale of drink to be carried on separately from the sale of other articles. It is a universal practice in Ireland to have counters which sell over the same counter drink, groceries, and sometimes clothes and hardware. Under the terms of the government bill the drink traffic and the publican's other business must be conducted in separate compartments, each in a separate portion of the premises with a separate entrance. This is vigorously opposed by the licensed trade, which declares that the necessary reconstruction of premises would cost the trade over \$20,000,000.

Wedding Bells.

BEARNS—JOY.
This morning, at the Oratory of the Mercy Convent, Miss Margaret Bearns, daughter of W. E. and Mrs. Bearns, Gower Street, was united in matrimony to Mr. Aynsley G. Joy, son of Mrs. and the late Capt. J. Joy. The ceremony was performed by the Rev. Fr. P. J. Kennedy, of the Cathedral. The bride, who was given away by her father, was prettily gowned in white satin, veil and orange blossoms and carried a shower bouquet of white roses. She was attended by Miss Eva Warren, who was attired in peach georgette crepe, with hat to match, and carrying a bouquet of carnations. Mr. Ronald Bearns, brother of the bride, assisted as best man. A reception was held at the home of the bride's parents, where luncheon was served. The bride and groom left by the outgoing express for Canada, where the honeymoon will be spent. The bride, who is widely known, and very popular in the city, was the recipient of many useful and costly presents, and numerous telegrams of congratulations.

Hr. Grace Voters, Beware of Catch Cries

MONROE'S CLEAN UP GOVT. NEEDS
MEN OF THE CALIBRE OF
BENNETT AND RUSSELL.

The country hailed with pleasure the election of the Monroe Party, and with the loyal support manifested there cannot be the slightest doubt of the success of the policy outlined by Hon. Walter S. Monroe in his appeal to the electorate in every district. The election of Mr. John R. Bennett and that of Mr. Edward Russell to Executive representation and responsible portfolios were tributes which the voters of Harbor Grace appreciate, and also very favourably endorsed by every right thinking voter in every district, and few if any will question the wisdom of Premier Monroe in his desire to seek the right men for the positions they hold in his Executive and Government when he selected the present heads of the Colonial Secretary and Board of Works Department.

The people of Hr. Grace have already spoken in favour of these men, and no doubt will refuse to be led by unseemly catch cries or the personal prejudices of a few disappointed and disgruntled politicians to seek to delay and destroy the progressive policy already undertaken by the new government. Since his entry into public life in 1904 when he was a candidate for the grand old Liberal chieftain, the late Hon. Sir Robert Bond, Mr. Bennett showed an aptitude for public life few statesmen since or before possessed. His native district, St. John's West, always appreciated his energy and ability by electing him on every occasion he sought their endorsement with record majorities. At the request of the new Premier, Hon. Walter Monroe, he consented to contest the district of Hr. Grace, and be it to his credit he with his colleague, Mr. Russell won a splendid victory, defeating the colleagues of the late Prime Minister, Mr. Hickman, and successfully routed the government from a constituency which they hoped to hold by flouting all kinds of fake promises and alarming appeals to dupe the electorate of the second city. As Colonial Secretary in the Monroe Government Mr. Bennett brings with him all the knowledge and experience which he has gained by his many years activities in the service of the colony, and the people all over the country pray that the voters of Harbor Grace will resent this latest attempt to delay the business of the colony by registering another victory still greater than that of June 3rd for Hon. John R. Bennett and his associate, Mr. Russell, the Minister of Public Works.

Hungry Jelly Fish

DRIVE HERRING FROM NORTH SEA.

BREMENHAVEN, June 1.—(A.P.)—European ichthyologists have become greatly exercised by the diminished numbers of haddock and herring in the North Sea from which England, Holland, Germany and various other countries obtain their principal fish supplies, and several conferences have been held by those interested in the fish industry to consider what steps may be taken to remedy the situation. The herring began to disappear three years ago and the haddock some months later.

Fish experts attribute the diminished numbers of both herring and the haddock to the appearance in the North Sea of incredibly large schools of jelly fish and various forms of sea nettles which were swept in from the Atlantic ocean in 1920, when several changes were reported in the different Atlantic currents.

COMING:—The Picture of a Million—"LET NO MAN PUT ASUNDER." Watch and Wait, But Don't Miss It!

SIDE TALKS.

By Ruth Cameron.

DON'T YOU LOVE STARTS?

Some friends of ours have just gotten back from a pleasure trip, which didn't yield as much pleasure as they anticipated. (Not such an unprecedented occurrence when you stop to think of it?)

They were talking it over and the husband was very much disgruntled. "It rained three out of the five days we were away," he said, "and the beds were hard and the food wasn't anything to write home about; and Mrs. James had a sick headache, and the children were sick. Kind of a frost I called it, altogether."

"Yes, but wasn't it fun the day we started?" said the wife, her eyes shining with a reflection of her joy on the "Uhm," granted her husband, "the start was all right but that doesn't make up for the rest."

"Well, I wouldn't have missed the way I felt that morning for a good deal," said his wife.

Do you know what she meant? I think I do. I love starts. When I look back upon the pleasure trips I have gone upon, it is the starting out that often stands out the most vividly.

While Other People Go To Work. I recall one this minute. A fishing

and Mayflowering trip in May. There were three autos full. We met at the place where the boulevard turns, at 8.30 in the morning. I can see this minute the flowers in the garden of the big house at the corner. I can feel the morning freshness and the brightness of the spring sunshine. How exciting it was to see people going to work and to know we were running away from work! How easily we laughed, what simple jests passed for wit! How kindly we felt toward all the world! How eager, how free, how cheerful! I can feel an afterglow of delight even now by just calling up the memory of that morning.

For myself, I always like to start on any journey in the morning and arrive at night.

There is something a bit unsettling about starting on a journey at night. One has not the same appetite for journeying at that time of day. Home seems more alluring when the shadows fall. I have started on several journeys at night and the memory of those starts is not so pleasant.

As for arriving in the morning, I think I dislike that even more. When you arrive at night you may perhaps be very weary but the worst of this weariness passes as soon as you have bathed and eaten, and leaves you relaxed and with a pleasant appetite for bed. You sink peacefully off to sleep

and awake ready for the new day, the new scenes, the new contacts.

But when you arrive in the morning, or the early part of the day, you have a lost feeling. You are not orientated yet. Also you feel as if something ought to happen and nothing very much does. You are travel weary and yet you do not feel like going to bed. It is not until the next morning that you really get straightened out and properly fitted into your new environment.

Let's Go.

I love starts. One would think that the infinite effort of leaving a household or a business so that it will run smoothly without one, the innumerable details that rise up to harass and annoy at the last minute, would spoil the start completely. But they don't. Up to the very last minute before starting they may make one wish one had not tried to get off. But let the start once be accomplished, let the train start to puff out, or the auto leave familiar territory, or best of all, the call of "All ashore that's going ashore," ring out and a gang plank be hauled up, then the cares of life roll off one's shoulders and for a while at least one is perfectly happy.

What do you say? Shall we start off somewhere? I've written myself into wanting to. Have I done the same for you?

If purity and wholesomeness mean anything in a soap then Ivory soap is the correct soap to use, for no soap is more pure, or more wholesome than the white, floating Ivory.

BANDITARY.

The highwayman of olden times went gaily forth, o'er moor and fell, and pulled the strange romantic crimes of which old writers love to tell; a bogus glamor authors lend to robbers of the moonlit

leas; these robbers, in the bitter end, all died upon the gallows tree. Not all the authors in the land, not all the hardi along the shore, can bring you comfort when you stand at last upon the scaffold's floor; and when you languish in a cell, to tarry there till you expire, in vain the gitted harpers tell of your exploits, in words of fire. We still have heroes of that sort, and of their deeds we daily learn; they follow up the ancient sport of stealing what they will not earn. They ramble forth in speedy cars, with deadly weapons loaded down, and hold up banks and soft drink bars, and shoot the street lights of the town. The land is full of their exploits, a glamor o'er the thieves is thrown; and little school-boys, playing quills, resolve to rob when they are grown. But, little school-boys, ere you reach the age when sideboards may be worn, the warden at the pen will teach these phony heroes how to mourn. For now, as in the often time, the robber-hero's course is brief; the foremost recompense for crime is vain remorse and endless grief.

All the ground so far covered in the fight against the disease would be lost should the appropriations for support of the colony and the treatment of the lepers be cut off.

"The government spends annually about \$800,000 for leprosy work in the Philippines, the per capita cost being about 25 cents to the people of the islands. There are now 5,500 leper patients in Culion, and approximately 300 are cured every year under the new treatments. Of the newly arrived patients in Culion, 20 per cent recover and this proportion may be raised to 90 per cent should the present treatment be continued. The new treatment, the styliator, the Mercado and Indian treatment, are employed according to each individual case."

Outwitting the Safe-Breaker

Impregnable bank-vaults are now built by the use of alloy and special steels impervious to attack by the cutting-torch. Special machine tools and accurate finishing of the work play an important part, we are told by Herbert R. Simonds, writing in The Iron Trade Review (Cleveland). Mr. Simonds tells us that the public has been misled in its judgement of the vulnerability of bank-vaults by reports of burglaries of light safes, designed only for protection against fire. Vaults are much alike in the public mind, but the up-to-date safe-breaker, Mr. Simonds assures us, keeps well away from the modern bank-vault—a virtual admission that his negotiation is beyond his power. In other words, the safe-breaker is now ahead of the safe-maker in their game of attack and defence. Says Mr. Simonds:

"Years ago case-hardened steel vaults were built to prevent the destructive use of drills in the hands of safe-breakers. The development of tool steel-cutters made the protection of bank-vaults by means of safe-breakers next to ineffectual and safe-makers turned to manganese steel and other hard alloys. In an endeavor to find means for rapidly cutting steel, engineers perfected the oxyacetylene torch, and to-day great masses of tangled steel framework resulting from a fire may be removed with these torches in a small fraction of the time required before their introduction. On the other hand, the same engineers who helped in this work unwittingly played into the hands of safe-breakers.

"The modern oxyacetylene torch and equipment is the most efficient tool ever placed in the hands of a bank robber. Some time is required after the torch was in general use in industry for the thiefing profession to discover its usefulness, but once it had been successfully employed in a safe theft, the news travelled rapidly, and almost over-night, safes which had been thought burglar-proof were considered highly pregnable. Safe and vault manufacturers immediately started the work of combating this new enemy.

"Science has again triumphed and the present-day bank-vault provides adequate protection not only against known destructive elements, but also anticipates conjectured destructive elements of the future. The bank-burglar works at disadvantage in his attempts in gaining entrance to any vault. The mechanics who build the vaults have at their command labor saving tools and appliances which facilitate the rapid execution of their work. They work in the open without fear and with no limitations placed on the noise or commotion which they may make.

"Properly built bank-vaults at the present time are burglar-proof. During recent years no door or burglar-proof construction has been attacked, to say nothing of being opened. The absence of attack is the virtual admission by the burglar that the strength of the steel structure is beyond his capacity to destroy.

"Perhaps it is not generally known that there is a well-established profession of vault engineering. Many problems other than protection against burglary are involved. A modern vault is designed to withstand fire, earthquake, and even bombing and, in addition, is made as nearly proof as possible against accident in its daily operation. A vault in a large bank must combine protective features with convenience in its use. The floor should be on the same level as the main bank floor. This means that for the type of door in use, for instance, in the Cleveland Federal Reserve Bank, a section of the floor is removable to permit the opening and closing of the door. When it is desired to open the door in this particular installation, a floor panel in front of the door is lowered much as an elevator door descends, and after the door has been fully opened this panel is raised into position.

"Mechanical means for closing a vault door are considered dangerous, we are told, because of the liability of their operation while attendants are in the vault. For this reason thousands of dollars are spent in reducing the hinge friction so that massive doors may be closed and opened by hand. Recently an entirely new principle in door construction has been brought out by vault engineers. Instead of a door being hinged from the outside of the vault it is built in the form of a large vertical cylinder with a rectangular slot like a keyway

ITCHY ECZEMA ON ARMS

In Pimples, Could Not Sleep, Cuticura Heals.

"My trouble began with eczema which broke out in pimples and spread rapidly. It affected my arms from the elbows to the tips of my fingers. I could not put my hands in water, they itched and burned so, and I could not do my regular work. I could not sleep on account of the irritation.
 The doctor advised me to use Cuticura Soap and Ointment and in two weeks I was completely healed, after using one and a half cakes of Soap and one box of Ointment."
 (Signed) Miss Sylvia E. May, Marshfield, Vt., June 6, 1923.

extending horizontally through its centre. When this cylinder is turned, so that the slot extends from the interior to the exterior of the vault, the slot forms a means of entrance and exit. When the cylinder is turned through 90 degrees, however, the slot is completely concealed and the heavy cylinder walls become a formidable door of double thickness. We read further:

"Vaults are built in a great variety of sizes and their production has led to the development of large manufacturing plants.

"As the door is usually the most vulnerable point of a vault, its construction requires the most attention and is of chief interest. The Cleveland (Federal Reserve Bank) vault door is 48 inches thick and weighs over 200,000 pounds. The door frame is made from the three castings which combined weigh 143,000 pounds and also are filled with plate laminations.

"In order to swing a 200,000-pound door, a massive hinge is required. The main casting for this hinge weighs 40,760 pounds. The complete mechanism as assembled weighs 47 tons and is thought to be the largest hinge ever built. The design of bearings for this hinge and the accurate machining are such that one man can swing the heavy door. The principle of roller bearing is utilized, but in addition large alloy crown washers are used to reduce the contact surface.

"Time is the most important factor making for the success or failure of the safe-breaker when attacking a bank vault. Manufacturers of burglar-proof vaults, which will require a maximum amount of time to destroy. The chief elements of resistance in a modern vault is found in the laminated structure of the door and door-frame and vault walls.

"As has been described, the door and its frame consist of heavy hollow castings which are later filled with plates of steel and special alloys. The casting, which is but a shell of relatively thin walls, serves as a container for the materials which offer the chief resistance to a burglar's efforts at cutting. Details of lamination construction are maintained as trade secrets by their manufacturers. The York Safe & Lock Co. has developed a metal plate which looks much like a steel plate, but which is proof against the action of the oxyacetylene torch and other steel-burning flames. The plates of this material are alternated with steel plates of various physical properties. These, built up into thicknesses varying from one foot to four feet, and snugly inclosed in strong castings, present such a formidable barrier to the burglar that a successful attempt at the theft of the contents of a vault which is so protected is almost beyond all human possibility."

The Govt. as Trader

So much is heard of the dangers inherent in State administration of commercial matters that one is glad to have an opportunity of drawing attention, for once in a way, to the other side of the picture. In a most interesting article recently contributed to The Times, Arthur Goldfinch has outlined the main points in a chain of operations which, by a combination of administrative skill, and not a little sheer good fortune, put something over £70,000,000 into the coffers of the British Government and certain Dominion wool-growers. During the war it became evident that Great Britain would be compelled to assume the role of Quartermaster as well as Paymaster to many of her European Allies, and in order to safeguard her essential supplies of raw wool for clothing and equipping millions of men in the field, that the home clip of wool, and, at the end of 1916, the Australian and New Zealand clips were taken over. Although the Government's requirements were mainly confined to excelsior wool, supplies of merino were also taken over in order to obviate the hardships which would otherwise have arisen in the case of growers of these finer varieties. During the war the manufacture of military clothing was controlled and supervised by the Government through every stage from raw material to finished product, while civilian supplies were released to the trade at what were considered reasonable prices, no control whatever being, of course, exercised over subsequent processes of manufacture. On the whole, the system worked surprisingly well.

Bawra's Activities

With the conclusion of hostilities considerable stocks accumulated in Government ownership. By June, 1920, when State purchases came definitely to an end, it was quite clear that, with prices already at an unremunerative level, it would have very serious results if the large stock of Government wool were thrown upon the market. Disregarding well-meant advice from various quarters to burn part of its stocks, or to present them gratis to impoverished European countries, the Government proceeded to form the British-Australian Wool Realization Association (familiar to Australian readers under its short title B.A.W.R.A.). Those responsible for the affairs of the new body soon came to the conclusion that the depressed conditions of 1920 were only temporary, and would be succeeded by a renewed world-demand which would force up prices to higher levels.

In spite, therefore, of the public expression of contrary views they held back their stocks for gradual but regular sale, and their policy has been handsomely vindicated. Early in May the last "Bawra" bale was sold in Liverpool. The price of wool this year stands at a high level unthought of two years ago. The Association have handled nearly 10,000,000 bales which have realized about £280,000,000 and brought in profits of about £70,000,000. Administrative charges have amounted to about 2d in the £, and exceedingly reasonable figure. Of 10,000,000 bales handled, only 30 to 40 have been unaccounted for. This will probably remain a record for profitable State trading for many years to come, for it would be too much to hope that handling by national or international agreement of the world's supply of a material in common use would take place under such favourable price conditions.—The Economist.

Famous French Aviator

INSTRUCTS JAPANESE ARMY.

TOKIO, May 30 (A.P.)—Georges Barbot, French flying wizard, until recently holder of the world's endurance record for glider flying, has arrived in Japan to demonstrate for the army the most recent advances in aviation. He is to be attached to one of the army's largest airplane production centres to teach Japanese builders the latest principles of airplane construction.
 Barbot brought with him two planes, one the tiny "avionette," carrying a 12-horsepower Salomon engine, with which he flew across the English Channel recently. The other machine is a 300-horsepower Hispano Suiza, which may become a model for new Japanese fighting planes.

A Turkish Blow to America

The closing of all foreign schools in Turkey where religious instruction was given aroused bitter criticism of the Ankara Government. But the closing down of the American Medical College at Constantinople, despite the vigorous protest of the American authorities, seems to some foreign observers the culminating tyranny of what they call derisively, "Europeanized Turkey." The Diplomatic Correspondent of the London Daily Telegraph recalls that only a few months ago about \$250,000 was generously expended by Americans on the technical equipment of the college whose professional reputation "stands very high," and he adds:

"In fact, this would appear to be the Turkish official grievance, the representative of the Turkish Government having gone so far as to declare that the educational standard of the college, whether in regard to physics and surgery, or to midwifery or to dentistry, were too exacting for the present generation of students—presumably Turkish students. The real policy of Ankara is revealed in this complaint. The Turk wants to monopolize the liberal professions, as well as all business in Turkey; yet, as a rule, his education and capacity are not such as to enable him to compete successfully with Greeks, Armenians, and foreigners."

This informant further arraigns the Turks as follows:
 "The Turkish Press is commenting bitterly on the fact that, altho the great mass of Ottoman Greeks and Armenians has now been eliminated, their successors as traders are not Turks, as had been confidently anticipated, but Jews, whose recent immigration, from Russia and other parts, more especially into Constantinople, is stated to be considerable. They are alleged to be buying up at low prices banks, building land, and blocks of dwellings whose former Christian owners have had to leave the country. Does this press campaign foreshadow an early anti-Semitic movement, which would be really the first of its kind in Turkey?"

But to all complaints about Turkey's new way of doing things, the reporter is made by P. Gentizon, Constantinople correspondent of the Gazette de Lausanne, that for more than a century Europe has been insisting on reforms in Turkey, and he adds: "Our nationalist dogmas have stifled all religious feeling in the Turks; our nationalist concepts inspire their minds; and our political maladies torment them."—Literary Digest.

The Memorial Great War Vets crew, stroked by T. Nosenworthy, had a spin over the course last night.

A sturdy crew of Peilidan Amateurs had their first spin in the racer Guard last night. Coach Phil Brown has had the Cadet Amateurs over the course, and with Aubrey W. Wight's Amateur's being rapidly licked into shape this race promises to be a thriller.

The C. L. B. Boat Club launched the Red Cross on Tuesday night. After being thoroughly repaired and painted she is now in first class condition for the Regatta. All her crews rowed her over the course last night.

The French crews from the French warships will start practicing for the international six oared race to-morrow, and on arrival of the British ships the British crew will immediately start practicing. The twelve oared cutters will be on the Harbor to-morrow for a tryout.

BRITISH TENNIS STAR HAS EASY WIN.

WIMBLEDON, June 25.—Miss Kathleen McKane, ranking British woman tennis star, easily defeated Mrs. Molla Mallory, former United States champion, in the tennis singles of the Wimbledon tournament to-day, thus eliminating the United States star. The British player won in straight sets 6-1, 6-0.

GREB KNOCKS OUT MOODY.

WATERBURY, Conn., June 16.—Harry Greb eliminated a formidable contender for his title here to-night when he knocked out Frank Moody, of Wales, in the sixth round of a scheduled 12-round mill. A vicious swinging right to the jaw shortly after the round opened sent the Englishman to the canvas, dazed; he took the count of nine, rose slightly and slipped back as Referee Galvin counted 10, coming to his feet too late. Moody was full of fight, but the bout was ended, the champion demonstrating that he is too fast and clever for the conquerer of Malone and Bagash.

In the fourth round Greb sent Moody to the floor with a left to the heart, and the Englishman was down for the count of nine, barely beating the count of nine, barely beating the him, but Moody, glassy-eyed, clinched Greb broke loose and whipped another hard left to the heart, Moody drooping for the count of three. He came up fast and started swapping hard rights and lefts with the champion, but it was easily seen that he was in bad shape. His right eye was practically closed. In the fifth Moody rallied and Greb, striving for a knockout, got careless, and Moody slipped over some hard rights and lefts that surprised the champion.

MOODY SUSPENDED.

NEW YORK, June 18.—Frank Moody the English middleweight, and a licensed boxer in this State, was suspended indefinitely to-day by the State Commissioner for engaging in a bout with Harry Greb, of Waterbury, Conn., on Monday. Greb is under ban in this State.

Johnny Dundee, world's feather-

weight champion, has accepted Louis "Kid" Caplan's challenge for the 125 pound crown. The challenger was recently selected by the New York State Athletic Commission, as the logical contender for the title. The Commission informed the Managers of the two principals that negotiations for a trial match must be started immediately.

JUNIOR FOOTBALL.

The Cadets and Gaelic teams tried conclusions at St. George's Field last night, the final outcome resulting in a win for the former by two goals to nil. In the first half no scoring resulted, but in the second half the Cadets had the advantage and within a short space of time, Thompson, the inside forward, had found the net twice. The Gaelic lads put up a determined fight to find the net, but the Cadet backs frustrated all attacks. Both teams were inclined to bunch too much last night, with the result that very little combination was in evidence. Mr. J. Brown controlled the game.

The Scouts and B.I.S. will be the contesting teams in the next Junior League game.

CUMMINS' ACCOUNT OF MEXICAN GOVERNMENT.

ELAPASO TEX., June 25.—Mexican authorities by their conduct have defeated all hope of British recognition. H. A. Cummins, British agent who left Mexico City after having defied the expulsion order of President Obregon declared yesterday upon his arrival here to visit friends. M. Cummins assailed what he characterized as the inexactitudes and exaggerations of Mexican Government. The British agent was charged with sending discourteous notes to Mexican Government. Ordered deported, he was prisoner within the Legation from June 10 until 19th when President Obregon withdrew the deportation order and the announcement was made in London that arrangements for withdrawal of Mr. Cummins from Mexico had been completed.

AMUNDSEN HELD UP BY FACTORY.

CHRISTANIA, June 25.—Special despatch to Aftenposten from Pisa, states that the aeroplane factory which constructed planes for Ronald Amundsen's projected North Pole expedition has refused to deliver ready and tested machines until the balance of £14,000 on the purchase price is paid. If the explorer is unable to raise the required sum within 10 days despatch states Italy will organize a polar expedition under the Italian flag, using Amundsen's planes as far as possible and placing the leadership of expedition under Lieut Locatelli. Who was to have been the chief pilot of the Norwegian's Air train. Amundsen, according to despatches, was offered the position of sub commander but stated he would refuse to serve in a subordinate capacity to Locatelli. He is still hopeful of raising the money.

CLEAN UP and KEEP CLEAN

This is what the New Government intends doing. We have been doing this for 25 years, as Cleaning, Pressing and Dyeing is our sole business. We devote entire time to it and therefore we can give you far satisfaction than you can get elsewhere. Owing to growth of our business we have had to remove larger premises on the opposite side of the street to 22 Gower St., A. V. Duffy, which gives us ample room, a new first flat, shop and showroom; second flat, pairing and pressing rooms; third flat, dyeing and novating.

We would like you to see some of our work before sending elsewhere; all prices reduced since the New Year. Cleaning Orders given our first and personal attention. A rush job is our specialty. We call for goods and deliver them in two hours, if necessary. Suits Pressed while you wait; a nice dressing room to change in. We can handle over one hundred pressing orders daily. In addition to Cleaning and Pressing, we clean and shape hats.

Proceedings of the Diocesan Synod

WEDNESDAY, June 26th.
The session opened at 11 o'clock the Lord Bishop presiding. After prayers and Roll Call, the Minutes of the previous session were read and adopted.

On motion of Dr. Blackall seconded by Rev. Canon Bolt it was agreed that the calling of the roll be suspended during the session of the Synod.

Rev. Canon Bolt moved the adoption of the report of the Executive Committee 1922-24 with the Resolutions appended thereto for a scale of assessments of the Parishes and Missions in the Diocese for the Diocesan Budget and assessments for Missions for the Diocesan Mission Society together with an estimate of expenditures in connection with the Church's work. The discussion was continued until the closing hour at 11:30 when the session was adjourned until 8 o'clock.

AFTERNOON.
The session was resumed at 8 o'clock when the discussion on the Executive Committee's Report with its appended resolutions was continued. The Report and Resolutions were adopted.

Rev. Canon Bolt moved the second reading of a bill to create a "Budget Fund." After some discussion this was agreed. Bill was accordingly read.

Rev. Canon Bolt moved the House into Committee of the whole to consider the bill to create a "Budget Fund." Rev. J. Brinton moved and Rev. H. W. Facey seconded that the "Home and Foreign Mission Fund" be not included in the Budget. This amendment was under discussion when the closing hour arrived. It was accordingly moved and seconded that the Committee rise, report progress and ask leave to sit again. This being carried, the committee rose. The House resumed.

On motion put and carried the House adjourned.

EVENING SESSION.
The House resumed at 7:30. Prayers were read by the President and on motion put and carried the House again went into Committee for the continuance of the debate on the creation of a Budget Fund Act. After some discussion the amendment on being put was lost.

Rev. Canon Bolt moved that the House rise and report the bill passed without amendment. Agreed. The Committee arose, and the House resumed.

Rev. Canon Bolt gave notice that he would on to-morrow move that this bill be read a third time and passed.

Rev. Canon Bolt moved the second reading of the bill to amend Chapter XVII (Home and Foreign Mission Fund) of the Constitution and Rules. This being seconded was agreed and the House went into Committee.

After a lengthy discussion it was moved by Sir W. H. Herwood and seconded by the Hon. A. E. Morfin that the bill be referred to a Select Committee to be re-drafted. The Committee agreed.

It was moved, seconded and carried that the Committee rise and report progress and ask leave to sit again. The Committee rose and the House resumed.

Rev. Canon Smart asked leave to present the report of the Board of Missions. Leave was granted. The report being read showed a total collection during the financial period of \$1593.35. This with the balances on hand and in Bank of \$4,170.91 brought the total of the Fund for this period to \$5764.26. The expenditure through the Society for the propagation of the Gospel to our own Missionary, the Rev. Ives Stocker, of the Diocese of Shantung, China, was \$2000.00, other expenses \$133.90, a total expenditure of \$2133.90, leaving a net balance in Bank and on hand of \$3630.36. St. Mary's Sunday School, Heart's Content, has again had the distinction of winning the Bishop's Banner, as the school contributing the largest offering, \$281.00. Grand Falls coming second with an offering of \$261.90.

Rev. Canon Smart moved that the report be received and adopted. This being seconded, it was agreed.

At 11 o'clock the House rose on motion duly seconded and carried to meet again at 11 o'clock this morning.

The session closed with the Bishop's blessing.

B.C. ELECTION RESULTS.
VANCOUVER, B.C., June 25.
Port George riding is still in doubt and reports last night made no change in the standing of the parties in the Provincial election. 24 Liberals, 3 Independent Liberals, 4 Independent, 4 Conservatives, 3 Laborites, and 17 Conservatives. The absentee vote is now the chief subject of speculation in political circles, and it is expected to change the results in a number of constituencies where the majorities are narrow. The vote will be counted about July 12.

Women's Part in Rotary International

TORONTO, Ont., June 18.—(By Can. Press)—Many women will be included among the International Rotary delegates and visitors, 8,000 in all, who will be in Toronto next week for their 15th Annual Convention, from June 16 to 20. While business will occupy a considerable portion of the time of the men, their wives, sisters and daughters, who will accompany them, will have considerable time on their hands, and that this may be spent pleasantly, the Women's Committee of Toronto, who are officially assisting in the entertainment for the influx of visitors, have prepared a programme of entertainment, the setting of which will enable the women from all parts of the Dominion and the United States who will be guests in Toronto to spend their time pleasantly and profitably during the days of their stay.

Beginning with Monday evening, the 4,000 women who are expected, will have opportunity with the Rotarians of witnessing the Grand Pageant especially prepared for the occasion. It will be produced before the Grand Stand of the Exhibition Ground capable of accommodating 16,000. The presentation promises to be most spectacular and will illustrate the history of Rotary. In addition there will be a "tattoo," the picturesque musical ride and a brilliant display of fireworks. On Tuesday afternoon the local Kiwanis Club will play the part of hosts. An early drive will be given to the ladies followed by a reception at the University Grounds; Hart House, the model building for men in connection with the University will be inspected. In the evening Sunnyside Beach with its multifarious amusements will be visited. A space for dancing will be reserved and aquatic sports on the Bay will form another source of entertainment.

Wednesday afternoon will offer a musicale in the Metropolitan Church under the direction of Dr. Fricker who has continental reputation as Conductor of the great Mendelssohn Choir. A feature of the programme will be solos from members of the visiting group. In the evening there will be a Ball in the Transportation Building at the Canadian National Exhibition Grounds. A motor car which forecast announces will be provided by 15 miles of motors, will be the outstanding feature of Thursday afternoon, to be followed by a reception at the headquarters of the Royal Canadian Yacht Club. This will take the visitors across the Bay by ferry.

In addition the meetings of the Rotary members are open, and it is expected that the women will, as they usually do on such occasions, avail themselves of the opportunities offered to learn details of the exceptional philanthropic work done throughout the year and the future plans of Rotary in different parts of the world who will be represented at the big international gathering.

Members of the Women's Auxiliary who will look after the 4,000 women expected are: Mrs. Frank R. Littlefield, chairman; Mrs. John J. Gibson, vice-chairman; Mrs. Norman Sumnerville, Mrs. Harry O. Stanton, Mrs. Morden Neilson, Mrs. Windsor Barker, Mrs. John McMillan, Mrs. Norman W. Towell, Mrs. Howard C. Blatchford, Mrs. Edgar W. Daul and Mrs. Sidney McChesnut.

Laugh and Grow Fat

is an old Axiom.

We advise the use of a Good Tonic and we know of no better than

BRICK'S TASTELESS.

Brick's Tasteless is a wonderful nerve tonic and blood builder that we gladly recommend. If you have no appetite, and feel tired, no energy for anything, try a bottle of BRICK'S and see how quickly it will help and improve your condition.

You can purchase a bottle of this excellent tonic at nearly every store in the country.

Price **\$1.20** per bottle.

(Sole Agents for Newfoundland) Duckworth Street and Theatre Hill.

\$25 Weekly Costs 30 Cents

It may seem strange but this Company has been doing just that thing for a quarter of a century. We pay for all injuries, \$25.00 weekly or \$5,000 for loss of life, at an annual premium of only \$16.00 which is thirty cents per week. At this cost what business man can afford to be without it? You may never need it, but if you play with Fate, you may be caught napping. It costs only five cents a day while you're o.k. to give you \$25.00 a week when that injury happens.

WE HAVE PAID TOTAL CLAIMS OF \$97,000,000.
