The copy filmed here has been reproduced thanks to the generosity of:

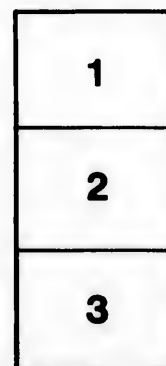

National Library of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Bibliothèque nationale du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

801 CRAIG STREET.

The Wooden Carpeting has proved by its durability that it is the cheapest covering for Kitchens, Offices, Stores, Banks, Halls, Laundries, Schools, Dining and Sitting Rooms, or Border for Drawing Rooms, and where care is taken it can be made to look nice as long as it lasts, which in Private Houses would be as long as an ordinary HARD WOOD FLOOR, or at least ten times as long as the best ENGLISH OIL CLOTH. The great advantage of these Floors is that they are Insect, and Dust-proof, can be laid over any Floor without disturbing the arrangement of the Room materially, such as the Door Sills, Hearth-Stones, or Register, being but $\frac{1}{4}$ inch thick. The wood is glued on Heavy Cotton Drill, and can be shipped to any point, as it is portable and rolls up like Oil Cloth. The Plain Floor laid complete costs \$2.50 per yard. Or with more Elaborate Style with Fancy Borders, Initials, Monograms, Inscriptions, Centre Pieces, and Wainscots for Walls, from $\frac{1}{4}$ inch to 1 inch thick at from 40 cents to \$1.00 per square foot, finished. Designs and Estimates furnished, and floors laid in all styles. Samples may be seen at the

P R E F A C E.

THE PUBLISHERS take pleasure in presenting to the public the **MONTREAL DIRECTORY** for 1875-76.

According to the Municipal Census of 1872, the population of Montreal was 17,865, divided among the following wards :

East.....	3,159
Centre.....	1,412
West.....	1,156
St. Mary.....	14,983
St. Antoine.....	27,506
St. Lawrence.....	14,410
St. Louis.....	16,452
St. James.....	19,146
St. Ann.....	19,641

Total..... 117,865

If, to the above are added a large increase of the population during the past year, and the suburban villages (which are given in the **DIRECTORY**,) and which properly form part of the city, the population is at least 160,000.

To canvass such a large population, (yearly rapidly increasing), arrange the names in alphabetical order, classify the business of each advertiser and subscriber, and collate the vast amount of miscellaneous information appended to the work, is a task that requires the greatest anxiety and care.

The city is canvassed first by a large staff of Agents, and their work is afterwards revised and corrected from door to door.

The **STREET DIRECTORY**, an important and very necessary part of the work, will be found very full and reliable.

The Miscellaneous matter will also be found very complete.

The business of each Advertiser and Subscriber is carefully classified.

The Publishers beg to thank the public for their very generous support, and those who aided in supplying information, and bringing the **DIRECTORY** to a successful issue.

MONTREAL, 20th June, 1875.

THE
ACCIDENT
INSURANCE COMPANY

OF CANADA.

The only CANADIAN COMPANY, solely devoted to Insurance against Accidents, and giving definite Bonus to Policy-holders.

This Company is not mixed up with Life, Fire, or any other class of Insurance. It is for

ACCIDENT INSURANCE

alone, and can therefore transact the business upon the most favourable terms, and a SECURE basis.

It is also the only Company including in its list of stockholders many prominent Merchants and Capitalists in TORONTO and HAMILTON.

PRESIDENT:—SIR A. T. GALT, K.C.M.G.

MANAGER AND SECRETARY:

**EDWARD RAWLINGS, 103 St. Frs. Xavier St.,
 MONTREAL.**

SURETYSHIP.

THE CANADA

GUARANTEE COMPANY

MAKES THE

GRANTING OF BONDS OF SURETYSHIP

ITS SPECIAL BUSINESS.

There is now NO EXCUSE for any Employé to continue to hold his friends under such serious liabilities, as he can at once relieve them and be SURETY FOR HIMSELF by the payment of a trifling annual sum to this Company.

Head Office:—103 St. Francois Xavier Street, Montreal.

PRESIDENT:—SIR ALEXANDER T. GALT.

Manager:—EDWARD RAWLINGS.

From the above Official Returns it will be seen that the ÆTNA LIFE INSURANCE COMPANY has again, for another year, transacted a larger new business in Canada than any other Life Insurance Company. And not only so, but the new business done exceeds that of the WHOLE FOURTEEN old country companies all combined. They issued a total of 1,308 policies for \$2,248,837, while the new business of the ÆTNA alone amounted to..... 1,000 policies for \$2,323,647.

Persons about to insure may well conclude that the foregoing figures afford the best possible proof of the ÆTNA LIFE INSURANCE COMPANY'S superior advantages. The assurance that no money can be lost or forfeited in the ÆTNA, after two, (and on the cheaper plans, THREE) annual payments, induces many to insure and keep insured, in so liberal a Company.

Special and careful attention is directed to the Table on the other side of this leaf, shewing the GAINS FROM INTEREST, and the SAVINGS IN EXPENSES of the ÆTNA, as compared with other companies whose accounts can be had for the purpose.

THE AETNA LIFE INSURANCE COMPANY, compared with other Life Insurance Companies doing business in Canada, in regard to "Expenses of Management," and the "Productiveness of Assets." (Computed from the Official Returns and Accounts of the Companies named.)

COMPANIES.	ASSETS, JAN. 1, 1874.	INTEREST RECEIVED IN 1874.	PERCENT- AGE OF INTEREST RECEIVED ON ASSETS.	AMOUNT OF INTEREST EXCESS OF THAT REALIZED BY OTHER COMPANIES ON AN EQUAL AMOUNT OF ASSETS. Which one of all the Companies in Canada, obtains the largest amount of Interest on its Funds and at the same time, manages its business with the most Economy? Some one Company does this, and the above table shows which one. Assuming that all are equally careful in selection of risks, their ability to afford advantages will depend mainly upon the two elements of saving in Expenses and Improvement of the Funds at compound interest.

Column 9 shows how much less the Aetna would have saved in 1874, had its Interest and Expenses been on the same scale as the Companies whose names are opposite the amounts. If the Aetna had received only 4 1/2 per cent interest, instead of nearly 8 per cent, in 1874, the difference would have been about \$600,000 as shown in column 4. If its expenses had been 40 per cent, for a single year, its funds would have been about \$3,000,000 less than they are.

LIFE INSURANCE AT COST.

The **ÆTNA LIFE INSURANCE COMPANY** gives to its mutual or participating Members, their Life Insurance at *Cost Price*.

It accomplishes this by *1st*, using Mutual Rates which are much lower than the Mutual rates of other Companies—lower even than most Companies charge for their cheapest “without profit” policies; and *2nd*, making those rates still lighter by annual dividends of the profits accruing upon each policy.

The following table, taken from the printed rates of the different companies, illustrates the *1st* point above mentioned. The figures with * attached are without profits, and all the rest entitle the holder to dividends:—

Annual Premiums for \$10,000, Age 40.

Annual Saving in the ÆTNA.....	107.21	62.50	38.20	77.60

The CONTRACT PRICE, therefore, in the ÆTNA, is \$1072.10 less for \$10,000 payable at the end of ten years than in the average of other Companies, and \$38.20 per annum, or a total of \$764.00 less for \$10,000 payable in 20 years.

That the ÆTNA can afford to give these advantages over other companies in the contract, is proved by the fact that it has always been able to reduce these rates by cash dividends to its policy holders at the close of each year, applied in reduction of the second and subsequent premiums.

Some of the above-mentioned companies also make annual dividends, but it is believed none of a similar age can excel this Company in putting the Cost Price at a low figure. The following table gives the money paid to the companies named during the past four years by Mr. H. A. Foote, of Water st., New York, who took a Policy in each Company for \$5000 in the year 1871, on the same age:—

	Ætna Life.	Massachusetts.	North Western.	Equitable.	Washington.	Berkshire.
Amounts Paid..	\$520.67	\$532.96	\$534.50	\$539.55	\$550.55	\$550.93

THE ÆTNA'S premium named in the Policy is \$148.55, but instead of being called on to pay 4 times that, viz: \$594.20, only \$520.67 was called for, so that the dividends were the respectable sum of \$73.53 in three years, notwithstanding the original rate, or contract price, is lower than in any of the other companies.

The following is the case of another ÆTNA policy holder in Saratoga, aged 60, insured for \$3000, on which four premiums have been paid to each Company:—

	Ætna Life.	Connecticut General.	Equitable of N. Y.
Amounts paid	\$766.16	\$907.19	\$834.23

PRESERVE THIS CHART FOR FUTURE REFERENCE.

Column 9 shows how much less the ÆTNA would have saved in 1874, had its Interest and Expenses been on the same scale as the Companies whose names are opposite the amounts. If the ÆTNA had received only 4 per cent interest, instead of nearly 8 per cent, in 1874, the difference would have been about \$600,000 as shown in Expenses had been 4 per cent, for a single year, its funds would have been about \$2,000,000 less than they are.

which one of all the Companies in Canada, obtains the largest amount of Interest on its Funds and at the same time, manages its business with the most Economy? So one Company does this, and the above table shows which one. Assuming that all are equally careful in selection of risks, their ability to afford advantages will depend entirely upon the two elements of saving in Expenses and Improvement of the Funds at compound interest.

Shewing a gain of over 50% in the Dividend Fund upon the previous year.

From the above it will be seen that the great wave of extra mortality, which swept across the continent in 1872-73 has subsided, leaving the AETNA'S gains from mortality, the very large sum of \$343,024.61 in the year 1874, as compared with 1873. Total increase of Surplus for the year, **\$549,561.08.**

The divisible surplus of **\$1,561,810** would have enabled the Company to pay a much larger dividend in 1875 than was finally determined upon. A large surplus being held by the Company will prove of great benefit to continuing policy holders. It will act not only as an additional safeguard, but the additional interest realized upon the surplus becomes a part of the earnings which those policy holders who continue to pay premiums will receive in future dividends.
