Newspaper Enterprise.

The Success of the "Montreal Daily Star" — The Introduction of the Great Prestonian Web Feeder Perfecting Press—Its Powers and Capacity and Successful Operation.

(From the "Montreal Gazette" of 18th March, 1875.)

Successful journalism is something so rarely met with in modern times that when a case presents itself to observation, and especially in the city of Montreal, an opportunity should not be thrown away for congratulating the successful journalist. In the present instance we have much pleasure in congratulating the proprietors of the Montreal *Evening Star* upon the successful result of their labour and perseverance.

The *Star* first made its appearance in the afternoon of the 16th January, 1869, under the management of the firm of Marshall & Co., and from the first made its mark as a local newspaper. The difficulties and obstacles in the way of achieving a successful issue of what was then looked on by many as a hazardous undertaking were fully realized by the enterprising young firm, but with all their foresight emergencies arose, which taxed to the utmost the perseverance, energy and fertility of resource of the members of the firm. The type for the paper at the time of which we speak was in a small room in St. Thérèse street, and the paper was printed sometimes on the steam-press of Sénécal & Co., St. Vincent street, at times on an Adams press or a Hoe press belonging to Beauchemin, St. Gabriel street. To make matters more inconvenient the office where orders were taken and at which the paper was sold was located in St. James street in a small building which was situated on the site now occupied by Barron's block. The papers had thus to be carried more than a mile from the press which printed them in order to be given to the newsboys for sale. These and many other difficulties of a still more insurmountable character presented themselves to the firm, but by indomitable energy and perseverance they were met and conquered in detail, until now, after six years of hard work, the firm, which has been changed to Graham & Co., find their efforts crowned with such signal success as rarely falls to the lot of newspaper men in any part of the world, and take their place among the foremost journalists in Canada. They are established firmly on a sound commercial basis, their business has increased in such a degree as to require the introduction of the most improved machinery and the best and most efficient means of printing their papers. The *Star* has subscribers, in lists varying in number from five to fifty, at 1,407 post offices in Ontario, 523 in Quebec, 428 in Nova Scotia, and 445 in New Brunswick, besides a number of scattered post offices in the United States. The circulation of the Daily is in the neighborhood of ten thousand, and that of the Weekly has reached the enormous number of eighteen thousand. By the advance payment which the *Star* has been instrumental in establishing in Canada, the circulation is established on a sound commercial basis, whereby dead-head subscribers are excluded. The daily edition of the *Star* in a continuous sheet measures seven miles in length and that of the weekly nearly fifteen miles. The mail when ready for post of the *Weekly Star* weighs 1 ton 1 cwt. and 90 lbs. For the publication of both weekly and daily, besides the new press, a very fast Taylor double cylinder press and four folding machines are used.

In accordance with an invitation of Messrs. Graham & Co., yesterday afternoon a large number of representatives of the city press assembled at the office of the *Star* to witness the working of the new Prestonian Web-Feeder Perfecting Press lately imported from England for the purpose of supplying the increasing demand of the public for the evening editions of the paper. The press in question is, we believe, the only press which is a self-feeder and at the same time prints directly from the type. Most of the power presses in use, such as the Bullock, Walter and others print from stereotyped plates, and involve a large outlay in the erection of machinery; and worse still, a loss of time in the process of stereotyping, which can ill be spared by a paper which publishes several editions to give the reader the very latest possible news. Hence is apparent the immense advantage of a press which feeds itself, cuts its own paper, and even counts the number of papers printed on its cylinders. The following description of the great press will show the various points in which it excels:—

About half-past four the press was started, and was run at an ordinary rate of speed, printing on both sides, at the rate of about 8,500 perfect papers an hour. The papers were "fired" off one after the other with great regularity; the printing, judged by the most critical newspaper men, being pronounced wonderfully clear, and the impression regular and even in its working. The press runs very smoothly, having none of the jar which is peculiar to the old-fashioned Hoe one cylinder—which was a few years ago looked upon with wonder and admiration. The immense cylinders and cogwheels seem to move with as much regularity and precision as the works of a fine patent lever watch. Taken altogether the press is the finest piece of machinery to be found in Canada, and probably on this continent, and with this and other facilities for carrying on business the *Star* is destined to achieve still greater success. The proprietors are gentlemen who appreciate the fact that they owe their success to the good taste and judgment of the public, and will spare no effort to make their paper a household treasure which can be had for one cent, and which can be read with interest and profit both by father and son in every family in the Dominion. The farmer will find useful information, the artisan will find news to think about, the professional man can, at all times, find the current topics of the day discussed, and the merchant, in the commercial columns, will find his particular branch discussed with unbiased candor and intelligence. In fact, as a local newspaper the *Star* will be the *ne plus ultra* of journalism, and its proprietors have our hearty good wishes on the successful issue of an enterprise which promises a long career of usefulness to Montreal and profit to themselves.

McGill University Montreal.

The Forty-third session of this University, being the twenty-third under the amended charter, will commence in the autumn of 1875.

By virtue of the Royal Charter, granted in 1821 and amended in 1852, the Governors, Principal and Fellows of McGill College constitute the Corporation of the University; and under the statutes framed by the Board of Governors, with the approval of the Visitor, have the power of granting decrees in all the Arts and Faculties, in McGill College, and Colleges affiliated thereto.

The Statutes and Regulations of the University have been framed on the most liberal principles, with a view of affording to all classes of persons the greatest possible facilities for the attainment of mental culture and professional training. In its religious character the University is Protestant, but not denominational; and while all possible attention will be given to the character and conduct of students, no interference with their peculiar religious views will be sanctioned.

THE FACULTY OF ARTS.

The complete course of study for the Degree of B. A. extends over four Sessions, of eight months each; and includes Classics and Mathematics, Experimental Physics, English Literature, Logic, Mental and Moral Science, Natural Science, and one Modern Language, or Hebrew; all of which subjects are imperative in the first two years of the Course; but in the third and fourth years options are allowed in favour of the Honour Courses in Classics, Mathematics, Mental and Moral Science, Natural Science, and English Literature. Certain exemptions are also allowed to Professional Students. The next Session will open on Wednesday, September 15th, 1875.

THE DEPARTMENT OF APPLIED SCIENCE IN THE FACULTY OF ARTS

Provides professional instruction in Civil Engineering, Mining Engineering and Assaying, and Practical Chemistry, leading to the Degree of Bachelor of Applied Science. The next Session will open on September 15th, 1875.

THE FACULTY OF MEDICINE.

The complete course of study in Medicine extends over four Sessions, of six months each, and leads to the Degree of M. D., C. M. The next Session will open on Friday, October 1st, 1875.

THE FACULTY OF LAW.

The complete course in Law extends over three Sessions of six months each, and leads to the Degrees of B. C. L. and D. C. L. The next Session will open on Friday, October 1st, 1875.

THE MCGILL NORMAL SCHOOL,

This Institution provides the requisite training for Teachers of Elementary and Model Schools and Academies. Teachers trained in this School are entitled to Provincial Diplomas. THE MODEL SCHOOLS OF THE MCGILL NORMAL SCHOOL are Elementary Schools, divided into a Boys' Department, Girls' Department and Primary School.

THE CALENDAR OF THE UNIVERSITY, containing Lists of Officers, Graduates and Students, and all necessary information, can be obtained on application, post paid, to the undersigned.

*** TANNERY WEST.**

A village forming part of the municipality of Montreal, between Montreal and Lachine on the north side of the canal, containing Hochelaga. It contains two large yards, and an extensive manufactory of boots and shoes. The council for the municipality hold their meetings here on the first Monday of each month. It is one of the principal junctions and signal stations of the Grand Trunk railway, roads branching off from here east and west, and Montreal and Lachine. Distant from Bellevue depot 2 miles, from Lachine 10 miles. Mail daily. Population about 3,000.

In each of the above stations there are three fire guardians, permanently in the east and west fire district, viz., 3, 4, 7, 8 & 9, and four in each of the others, viz., 1, 2, 5 & 6 who are called out in three separate sections, according to the three fire district divisions of the city; but also when required, act as one body. This is done by calling one section by the first alarm, two sections by a second alarm, the remaining one by a third; and if not required, one single blow is given on the Church bells signifying the immediate danger is over and therefore not wanted.

The second-class shall include all carts, waggons
 or other vehicles used by merchants, traders,
 manufacturers, contractors, for the conveyance
 or delivery of the articles or effects dealt in,
 manufactured, or made use of by them, for
 each of which there shall be paid, in addition
 to the rates charged for in the first-class—Two
 Dollars and fifty cents..... 2.50

The third-class shall include all carts, waggons,
 or vehicles used by expressmen, bakers,
 brewers, distillers, farmers or gardeners, for
 each of which there shall be paid, in addition
 to the rates charged for in the first-class—Five
 Dollars..... 5.00
 Parties obtaining licenses, as aforesaid, shall more-
 over pay the annual assessment on all working horses,
 employed in drawing the above mentioned vehicles or
 carriages at the rate of two dollars and fifty cents
 (\$2.50) each, and also twenty-five cents for each
 number granted by the Chief of Police.

ST MARY'S COLLEGE.

Henry st.
 Conducted by the Jesuit Fathers—opened on the 26th of September, 1848, and chartered on the 10th November, 1862.—rev. F. Fleck, S.J., rector; rev. P. Hamel, S.J., prefect; rev. S. Robert, S.J., treasurer; rev. A. Traud, S.J., rev. M. A. Noble, S.J., professors of theology; rev. F. Durante, S.J., professor of philosophy; rev. C. Desjardins, S.J., professor of physic; rev. J. B. Guéner, S.J., C. O'Connor, S.J., F. Sautere, S.J., R. Dewey, S.J.

The course of studies, in which religious instruction holds the first rank, is divided into two sections—the classical and the commercial.

The classical course, principally taught in French, is designed to impart a thorough knowledge of the Greek, Latin, French and English languages and literature, pure and mixed mathematics, history and geography, philosophy and natural sciences, and whatever is necessary as a preparation for a professional career.

It comprises eight classes—Latin Elements, Syntax, Method, Versification, Belle-lettres, Rhetoric, 1st and 2nd year of Philosophy.

The commercial course, principally taught in English, embraces the English and French languages and literature, mathematics and the other branches named above, moreover bookkeeping, and whatever else may fit a young man for commercial and industrial pursuits.

It comprises four classes—Grammar, Literature, Rhetoric and Philosophy.

There are, moreover, elementary and preparatory classes for younger students.

The system of education is paternal—The teachers endeavour to unite kindness with firmness, and make use of the means of persuasion in preference to those of severity.

To be admitted into the college, applicants must present a certificate of good character.

Monthly reports of behaviour, application and progress are sent to parents or guardians.

None but relations or those who represent them, are allowed to visit the boarders.

Half-boarders and day scholars must not absent themselves without the previous leave from the College authorities.

The collegiate year is of ten months, beginning in the first week of September, and ending in the first week of July.

Terms per year.—Board and tuition, \$150.00; washing, \$20.00; bed and bedding, \$10.00; music lessons, \$25.00; use of the piano, \$5.00; drawing lessons, \$20.00. Half boarders, \$80.00; day scholars, \$30.00.

Payments, which are required in gold, or its equivalent, and strictly in advance, are made in two instalments, 1st in the beginning of September, 2nd on the 1st of February.

The college will not take charge of providing a student with clothing or other necessaries, unless a sufficient sum be deposited in the hands of the treasurer.

No reduction in the above mentioned terms will be granted for absence of less than one month.
