PASSED AS A BOY FOR 2 MONTHS IN TORONTO

Seventeen Year Old Girl Reported as Missing From Montreal, Detained by Police While Masquerading in Boy's Clothes and Working in a Boy's Position.

After having successfully passed as a boy in Toronto for two months and a half, during which time she associated wholly with young men, held a man's position, and even appeared as a male singer in a local theatre, Ben-Helene Wiseman, a 17-year-old girl, of 81 St. Andre street, Montreal, was recognized by Constable Burton on Yonge street last night as masquerading in the Toronto police as missing from Montreal, and placed her under arrest on the double charge of vagrancy and impersonation.

With hair close cropped, a coat of blue serge, striped trousers, and gray socks, her make-up was good enough to take her anywhere. Her voice, however, was her main asset; a beautiful stinger, she possessed a rare quality of a double voice, with which she can speak in the musical tones of a girl or the deeper man's voice. Her talent as a singer she will likely display to the assembled detectives and sergeant in the detective office.

She Had a Job.

To Sergeant McKinney the girl at first indignantly denied her sex, exclaiming she was a boy, and that she had a job. On further questioning, however, she admitted the fact that she was a girl in boy's clothing, justifying her masquerade by claiming that a girl had no chance to get on in the world. Boys got better pay and were not tied to their mother's apron strings, she decided to be a boy.

Where she held the boy's position, she absolutely refused to state, but that she was in reality holding down a boy's job she emphatically asserted as a denial to the vagrancy charge. Nonchalantly she told the sergeant that Thursday night she had appeared on the stage of a local theatre, and in a singing competition with a dozen young men, carried off the first prize of \$20 in cash.

Doing No Harm.

"Why I've almost forgotten that I am a girl," she stated to the officers last night. "I don't see why I can't go on being a boy. I'm earning good money and doing no person any harm." But Sergeant McKinney assured her that she was breaking a law by impersonating a boy.

Altho she wears no wedding ring, she claims to have been married in Montreal to James Corneille. Where her husband was and why she left him she refused to say.

Mentioned as License Inspector for Toronto

Wm. J. Wilson May Be Slated to Succeed "Bob" Burrows, Who Will Be Chief Inspector.

A persistent rumor was current in Toronto yesterday that William J. Wilson, foreman of the composing-room of The News, had been chosen as one of the license inspectors in the city. It also was said that Robert Burrows, acting chief inspector since the death of Joseph Johnston, had been appointed permanently to the position. This, however, was denied by Sir James Whitney, who said that no appointment, either formal or informal, had been made.

Mr. Wilson is one of the oldest and best-known printers in Ontario. He set the first advertisement which appeared in The World. For fifteen years he was a compositor and foreman in the World's composing-room. For the past 21 years he has been connected with The News, and was their first advertising agent.

After serving his apprenticeship of seven years in Cobourg, where he was born, Mr. Wilson joined the Typographical Union in 1889, and has been actively connected with it ever since. At the time of the printers' strike in Toronto in 1872, he went back to Cobourg, where he published The Cobourg Star. In 1877, however, he returned to Toronto.

There are 12 children in Mr. Wilson's family. Four of his sons are working printers, one on The Mail and Empire, one on The Telegram and two on The News.

FOUR ARE HELD ON MURDER CHARGE

Three Men and a Woman Suspected of Complicity in Killing of Bookmaker's Clerk—Connection With Becker Case is Thought to Be Possible.

OTTAWA, Sept. 12.—(Can. Press).—Nathan Shapiro, Charles Dreyfuss, Loring Brangan and Bessie Sims, charged with being implicated in the murder of Abe Rubenstein, a bookmaker's clerk, here, were brought to Ottawa from Montreal tonight. With them came Robert H. Dirno, who is held as a material witness. They will be arraigned in the morning.

Shapiro has retained A. E. Frupp, K. C., M. P., as leading counsel. Dirno was arrested at the Blue Bonnets race track at Montreal this afternoon and is said to be the real agent who had the key to the house where the body of Rubenstein was found. The police are still searching at Montreal for the man who obtained the key from Dirno on the night the mysterious trunk was placed in the basement of the building.

Echo of Rosenthal Murder?

It is rumored here, but not verified, that there is a direct connection between the murder of Abe Rubenstein, the race track sheet writer, and the Becker case in New York. It is stated that Nathan Shapiro, Rubenstein's employer, who was arrested in Montreal this morning, is a brother of Shapiro, the driver of the murder car that figured in the Becker case, and that Rubenstein gave some information at the time for which he was threatened by the New York gangsters.

NO CONFERENCE ON HOME RULE

Earl Loreburn's Suggestion of Compromise Awakens Interest, But is Unlikely to Sway Parties.

LONDON, Sept. 12.—The recent appeal of Earl Loreburn, formerly lord high chancellor, that both the great political parties confer with a view to a settlement of the Irish question by consent on the ground that the present home rule bill cannot provide a permanent solution, has excited tremendous interest throughout the country, and may have considerable influence in future discussions of the Liberal bill in parliament. As a practical suggestion, however, it is believed that it will prove unavailing.

The attitude of the Liberals is that the proposal, coming now when the home rule bill is nearing a successful issue in its stormy career, is altogether too late. On the other hand, the Unionists would only be inclined to enter such a conference as Earl Loreburn suggests if the government first of all consented to drop their bill which is altogether impossible from the Liberal point of view. John Dillon, on behalf of the Nationalists, says a conference would be utterly useless unless the Unionists first admitted the principle of home rule.

The victims are: Motorman Pascoe, Conductor C. Wentworth, Mrs. Stephenson, Mrs. Curley, Mrs. G. S. Batt.

Guelph Will Be There

GUELPH, Sept. 12.—Notwithstanding statements to the contrary, Guelph will be represented by a strong team in the Canadian League next year. The management are taking no notice of the reports emanating from London and Hamilton, that Berlin and Guelph will be dropped, and are going ahead with their plans to put a strong team in the field. A first-class playing manager will be secured and the weak spots in the team strengthened.

BUBONIC PLAGUE IN CALIFORNIA

Victim Contracted Disease from Squirrel-Infested Ground in Statement of Officials.

SACRAMENTO, Cal., Sept. 12.—(Can. Press).—A death from bubonic plague occurred yesterday at Martinez, Cal., according to reports received today by the state board of health from Dr. J. D. Long of the United States Marine Hospital Service in San Francisco. At the same time a message was received by the board from its secretary, Dr. W. F. Snow, now in Washington, D.C., stating that the federal government had decided to appropriate \$40,000 additional to fight the disease.

The body of the Martinez victim, whose name has been withheld, was examined by Dr. D. H. Curry of the federal laboratory, services in San Francisco. Dr. Long personally passed upon the examination before pronouncing the case one of plague.

INFECTION FROM SQUIRRELS

SAN FRANCISCO, Sept. 12.—(Can. Press).—There is no epidemic of bubonic plague at Martinez," said Dr. J. D. Long today. "The disease there was purely sporadic. We had another case like it this year in San Benito County, where a Japanese woman, a strawberry picker, died.

"Ever since bubonic plague first gained a foothold on this continent, it has continued prevalent among rats and ground squirrels.

"The laborer at Martinez and the Japanese strawberry picker in San Benito were working in neighborhoods known to be infested with diseased squirrels. No doubt they became infected themselves from working in ground infested by squirrels.

"The campaign of exterminating the squirrels is a tremendous task, and the \$40,000 additional appropriation from Washington, which I understand to have been made, the I have not yet received official notification of it, is a result of increased interest in our task. Such cases as these show its necessity, but the appropriation is nothing whatever to do with this special manifestation of a chronic condition, which can be cured only slowly. The appropriation was asked for long before the Martinez case was discovered."

DUTY ON WHEAT IS NOT SETTLED

But Otherwise Democratic Conferees on Tariff Are Making Excellent Progress.

WASHINGTON, Sept. 12.—(Can. Press).—Democratic conferees of the senate and the house yesterday approved today on the tariff bill, approving the earthenware and glass schedules, with slight changes, the sugar schedule and the date for the new rates extended to March 1, 1914, the tobacco schedule, the wool schedule and all the agricultural schedules with the exception of the proposed banana tax and the countervailing duty on wheat. In the metal schedule the conferees struck the first snag and after several hours' discussion the entire matter was passed over to be taken up later. The majority leader Underwood and the other house conferees were insistent that the senate action placing ferro-manganese, pig iron, steel ingots, slabs and blooms on the free list should be deferred from. They contended that too much revenue is sacrificed and there is a growing opinion that the senate conferees eventually will agree to small revenue duties on these articles.

Agreed on Free Cattle.

Contrary to the general expectation little difficulty was encountered in the agricultural schedule, the house conferees agreeing quickly to free cattle. However, the dispute on the countervailing duty on wheat is yet to be settled. As to the banana tax, it is generally known that the president thinks it should be stricken out. This would mean a loss in revenue of approximately \$2,500,000.

In all the schedules some slight changes were made, the senate conferees from amendments, where decreases in rates were made. This policy, it is said, will be maintained throughout the conference. Mr. Underwood insisting that too much revenue has been cut out by the bill.

In the liquor schedules the general rates were approved, but action on the proposal to put the full internal revenue tax on brandies used in fortifying sweet wines was deferred. In the earthenware schedule the senate receded from some of its amendments, increasing the rates on higher grades of mica.

FIVE INJURED IN EDMONTON WRECK

Freight Train Crashed Into Street Car—Victims Badly Hurt.

EDMONTON, Alta., Sept. 12.—(Can. Press).—Shortly before 5 o'clock tonight a G.T.R. freight train crashed into an Edmonton Street Railway car at the junction of Albert and Railway avenues. Five people, including the motorman and conductor of the street car, are seriously injured. It is believed one or two received internal injuries.

The victims are: Motorman Pascoe, Conductor C. Wentworth, Mrs. Stephenson, Mrs. Curley, Mrs. G. S. Batt.

NO FALL SESSION, SAYS PELLETIER

SASKATOON, Sept. 12.—(Can. Press).—That the Dominion Parliament will not meet until Jan. 1 is the opinion of Hon. L. P. Pelletier. He said that the matter had not been definitely decided when he left Ottawa, but it was believed a fall session would not be necessary.

DRUNKEN DRIVER WRECKS 2 CARS

Owen Pope Arrested After Driving His Motor Into Another Standing on College St.

Driving car No. 20620 at a fast clip eastward on College street, Owen Pope, of 28 Balmuto street, chauffeur for Hon. W. J. Hanna, provincial secretary, crashed into the rear of an automobile belonging to Dr. C. J. Currie, of 115 College street, which was standing outside Ferrier's drug store, at 12:30 this morning. In the car Pope was driving was a man and a woman, neither of whom was injured, and who took the first opportunity of slipping away from the scene. Pope was placed under arrest and lodged in number two police station on a charge of being drunk while in charge of a car.

So fearful was the impact of the two cars, that a cement hydro pole alongside Dr. Currie's car was broken off at the base, where the cars bumped. The rear of Dr. Currie's car is badly smashed, while the radiator and front mudguards of Hon. Mr. Hanna's car were crushed into the body of this car.

MILLIONAIRES TO PAY FOR YACHT

Wealthy Members of New York Yacht Club to Pay for America's Cup Defender.

NEWPORT, R.I., Sept. 12.—(Can. Press).—The members of the New York Yacht Club which has placed with Nat Hershoff the order for a yacht which is to be a candidate for defender of the America's Cup became definitely known tonight for the first time. The men who have agreed to subscribe the funds towards the yacht's construction are Cornelius Vanderbilt, Frederick G. Bourne, J. P. Morgan, Henry Walters, Arthur Curtiss James and George F. Baker. All are members of the New York Yacht Club.

The name of the managing director of the new yacht came as a surprise in Narragansett Bay yachting circles. It is Robert W. Emmons, Jr., of Boston. He is a member of the New York Yacht Club, altho up to this season he has been connected more prominently with the Eastern Yacht Club.

Who Ever Suggested Such a Thing? Emmons' hat store, 140 Yonge street, will be open until 10 o'clock Saturday night, but for all that a hat that is bought in the night time is not a night cap.

JAPAN PLANS TO EXTEND POWER

Dictatorial Attitude Toward China in Pursuance of Deep Design for Expansion of Territory.

LONDON, Sept. 12.—(Can. Press).—The Daily Telegraph's Tokyo correspondent says he believes the secret of the anti-Chinese agitation in Japan is due to the determination of the Japanese people that China shall be taught that Japan is not a negligible power. It is the opinion of the correspondent that the China will, therefore, accept all the Japanese demands, which include a fifty years' extension of the lease of Port Arthur, some incident will occur which will afford a pretext for Japan's expansionist program and the military occupation of Peking and, among other things, the gradual adoption in large zones of the so-called Manchurian policy. The correspondent adds that it is generally believed in Tokyo that a crisis will occur in China's financial situation before the end of the year which will provoke risings and foreign intervention.

TO EMPLOY GERMAN OFFICERS.

PEKING, Sept. 12.—(Can. Press).—It is persistently reported here that an agreement has been partly reached whereby China will employ one German lieutenant-general, with a staff of six officers and an interpreter, at Peking, and also 200 German officers, who are to be distributed throughout the country. The cost of the scheme will be \$1,000,000, of which it is said the Krupp Co., the German ordnance manufacturers, will provide \$250,000.

While the report cannot be confirmed, it is generally accepted as correct. The foreign legations here consider the matter of the greatest importance and strong opposition to it is expected.

NEW CONVENTION IN SOUTH LANARK

Col. Balderson and Dr. Hanna to Battle for Conservative Nomination.

OTTAWA, Sept. 12.—(Special).—Col. James Balderson, ex-mayor of Perth, and former law partner of the late Col. Metherson, was here today, accompanied by Dr. Preston, M.L.A. for South Lanark. It is definitely announced that there will be a contest between Col. Balderson and Dr. Hanna, as it is acknowledged that the recent convention was irregular.

The date of the by-elections has not been definitely settled, but the last week of October is considered favorable by the government.

Mr. Wilfrid Laurier will speak in the Adelaide and South Bruce.

FIREMAN SAVES GIRLS FROM FLAMES

William Culling Penetrates Burning Building to Rescue Two Girls Trapped in Room.

Rescue work on the part of Fireman William Culling of the Berkeley street fire hall prevented a fire which broke out at 80 Berkeley street yesterday morning from spreading to the rest of the block. Culling, who is a member of the fire hall, was the first to arrive at the scene. He found a fire in a room on the second floor, and immediately penetrated the burning building to rescue two girls trapped in the room. The girls were rescued safely and the fire was extinguished.

BODY OF GAYNOR LAY IN STATE AT LIVERPOOL

City Paid Unprecedented Honor to Dead Executive of New York—Great Crowd of Citizens Met Baltic on Arrival and Watched Cortege Pass Thru Streets.

LIVERPOOL, Sept. 12.—(Can. Press).—The body of William J. Gaynor lay in state tonight at the foot of the grand staircase of the town hall of Liverpool.

It was an unprecedented honor that Liverpool paid the dead executive of the American metropolis, for never before had anyone lain in state in the historic edifice. Covered with the British Union Jack and draped over its foot, the casket rested on a catafalque brought here from Westminster Abbey, London, and on which have reposed the bodies of many of England's most famous men. It was last used at the funeral of Field Marshal Lord Wolseley in St. Paul's Cathedral last March.

Candles in the great golden chandeliers from Westminster Abbey cast a subdued light up the wide staircase and over the detail of picked men from the Liverpool police force, who stood guard all night about the catafalque. John Sutherland Harwood-Banner, lord mayor of the city, who is absent on vacation, had telegraphed the city officials to do everything in their power in honor of the dead mayor of New York, and they carried out their instructions in minute detail.

Expressed Condolence.

When the steamer Baltic on board which Mayor Gaynor died, left last Wednesday, docked at 8:30 o'clock this evening, the landing stage was cleared of all persons except the holders of tickets. A good crowd had assembled outside the dock gates. As soon as the gang plank was run out Horace J. Washington, the "United States consul, accompanied by a delegation from the White Star line, went aboard the ship. In the saloon Mr. Washington met Rufus Gaynor, son of Mayor Gaynor, and expressed condolence on behalf of himself and the lord mayor of Liverpool.

Mr. Gaynor readily assented to the plans of the Liverpool civic authorities for the lying-in-state of his father. Acting on the request of Mr. Washington, the port authorities waived the formalities usual in the landing of the dead from vessels and the body of Mayor Gaynor, in a plain deal coffin, which was covered by an American flag, was brought ashore as soon as the first-class passengers had left the Baltic. The coffin was placed in a hearse drawn by four horses, which was followed by the lord mayor's carriage, occupied by Rufus Gaynor and Consul Washington.

Crowd Showed Respect.

The funeral cortege, escorted by a squad of mounted police, made its way thru a dense crowd of quiet people, who uncovered as the hearse passed to the town hall. The hearse was followed on foot by a woman in deep black, who had at her side a little girl. The woman declined to give her name, but said she was a friend of Mayor Gaynor's from New York.

The lord mayor of Liverpool's secretary, assisted by a delegation of civic dignitaries, received the body at the town hall. When the coffin was placed on the catafalque one end of it was covered by a beautiful wreath of lilies of the valley, bearing the inscription: "Deepest sympathy from the lord mayor and citizens of Liverpool." Shortly afterwards another wreath, composed of Easter lilies, was placed on the coffin. On the card attached to it was inscribed: "The condolences of Mr. and Mrs. Horace Lee Washington."

The hall where the body lay was then cleared and Rufus Gaynor was left alone for a few minutes with his dead father. He was then accompanied to a hotel by Mr. Washington.

NITHDALE DAM RESTORED.

GALT, Sept. 12.—(Special).—Nithdale dam, on the River Nith, which went out a few years ago during floods it had successfully withstood for a generation, has been restored by W. A. O'Connell, who recently purchased the property from C. Alexander, Galt, who intends utilizing it for manufacturing purposes. The material used in building the dam is Portland cement. The enterprise means a decided boost to the industries of Ayr Village.

TWO MEN KILLED WHILE AT WORK

Scaffold Fell Sixty Feet and Workmen Died a Few Minutes After Accident.

QUEBEC, Sept. 12.—(Can. Press).—Two men lost their lives and one was seriously injured today by falling 60 feet off a scaffold on the new cathedral at Chloisville.

Joseph Berrette, a mason of Chloisville, and Ferns Levesque of Roberville were both terribly injured and died a few minutes after the accident. The third man, Joseph Bouchard of Chloisville, had a leg broken and suffered grave internal injuries. All the victims were married and fathers of families.

"The Lady of Ostend"

The last local appearance of Mr. Lawrence Brown and his London company in "The Lady of Ostend" will take place today at the Princess Theatre, afternoon and evening. This farce comedy is highly amusing.

CHINESE CITIZENS WILL BE RECORDED

Dominion Immigration Department Will Secure Complete Record of Celestials in Canada.

Re-registration for all the Chinese in Canada has been decreed by the Dominion immigration department. No matter how long resident in Canada, each Chinaman is required by the new regulation to present himself at an immigration office in order that duplicate certificates may be made out giving an outline of his life history. One of these certificates will be sent to Ottawa, together with a photograph of the Chinaman, and he will keep the other as an immigration certificate.

A great many of the 2000 Chinese in Toronto are turning up each day at the immigration office to obtain the new documents, and some bring photographs along. The rest are photographed on the spot.

CHURCH CLAIMS CREDIT FOR IDEA

Had Mentioned Metropolitan Area Scheme Last Spring, He Informs Board of Control.

VOTES AGAINST SCHEME

Will Not Assist Board in Effort to Have Idea Carried Into Effect.

"The metropolitan area plan framed by the transportation committee is Utopian," Controller Church declared in the board of control yesterday.

"The transportation committee has asked authority to call a conference, and if we do not grant the request it will be a slap in the face for Aid. Wickett," Mayor Hocken said.

"To have the wide area proposed by Aid. Wickett is to help carry out the hydro radial policy of the provincial government," Controller McCarthy stated.

"A metropolitan area was my proposition," Controller Church said. "I had it well under way and now Aid. Wickett is getting all the credit for it."

"What action have you taken since last spring to get in touch with the municipalities concerned?" Controller McCarthy asked Controller Church.

"It is a legal matter," Controller Church replied.

The request for a conference was adopted, Controllers Church and Foster voting against it, and Mayor Hocken and Controllers O'Neill and McCarthy for it.

Mayor Hocken announced that the city was co-operating with the provincial board of health in procuring the abattoirs in West Toronto for the small nuisance there.

Controller Church put through a resolution that a referendum be taken on the appointment of a parks commission.

Wide Open Parks. A wide open judicial investigation of the fire department was recommended. It will be up to the city council next Monday to take the final action.

Aid. Burgess pressed the board to recommend the widest possible investigation of reasons for inefficient fire protection, and that the investigation be before Judge Denton.

"I consider so far-reaching an investigation would involve large and unnecessary expense," Controller O'Neill said. "An enquiry by the board of control would be sufficient."

"In the interests of the fire department the investigation should be as wide as possible," said Mayor Hocken.

Aid. Hubbard advocated a permanent staff at the fire hall in West Toronto and a good water service, but no firemen, said the alderman. "In the interests of fire prevention there should be firemen and equipment there the year around."

The board decided to keep the equipment there until after the National Fair Stock Show in November.

Commissioner Forman is to be asked to report progress on the widening of Yonge street north of Bloor street.

A bylaw prohibiting automobiles from passing a street car while it is loading and unloading passengers is to be prepared.

Wilton Avenue Extension. Wilton avenue extension to Coxwell avenue was referred back to the committee on works. The cost would be \$75,000, but the cost would be in part involved. It was felt that the need for the work is not pressing. Duplex avenue extension was approved. Numbering of Moore Park and North Toronto buildings was referred back to the committee on works.

Two separate problems were presented to the board by a large deputation of women and men prominent in social service work. The deputation asked that the old General Hospital buildings be secured for a training school for the meek-minded and for a detention home for women under arrest and awaiting sentence.

Controller McCarthy explained that arrangements are under way to use the old General Hospital buildings as follows: The Burnside for cases of measles, the east wing for a detention home and the balance for lodging house for women.

Mayor Hocken assured the deputation that the board is in sympathy with their appeal.

He asked them to form a small committee that could confer with the board. The committee was formed and the conference is to be held a week from next Thursday.

COMB SAGE TEA IN LIFELESS, GRAY HAIR

If Mixed With Sulphur It Darkens so Naturally Nobody Can Tell.

Somebody kept her hair beautifully darkened, glossy and abundant with a comb of Sage Tea and Sulphur. Whenever her hair fell out or took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Weyth's Sage and Sulphur Hair Remedy" you will get a large bottle of this old-time recipe, ready to use, for about 10c. This simple mixture can be depended upon to restore natural color and beauty to the hair and is splendid for dandruff, dry, itchy scalp and falling hair.

BEST EQUIPPED BRANCH IN CANADA

New Dovercourt Branch of Toronto Public Library Will Be Opened Next Month.

DEER PARK BRANCH IN ARCTIC CIRCLE

Showed the Greatest Increase in Circulation During the Summer Season.

Mr. T. W. Self presided at the meeting of the library board, held last night. Others present were Mr. George Locke, chief librarian, Mr. Justice Kelly and Messrs. E. S. Caswell, T. W. Banton and Lee.

The chief announcement was that the Dovercourt branch will be ready for opening in October. This will be the largest and best equipped branch in Canada, the site of the building together having cost \$75,000.

Mr. Locke reported that the chief increase in circulation during the summer months had been in the Deer Park branch. The accommodation here is very inadequate, and were it not that the people of the district have so many of the books out there would be no room for some five hundred more on their list. The increase in interest here was attributed by the chief librarian to the library of the branch, whose popularity has made the library a social centre for the district.

After investigation it was announced that the Hamilton, manufactured by the Canadian Buffalo Forge Company at Montreal, is the most satisfactory on the market. It was also reported that with the opening of the new Dovercourt branch the Newark system of charging will be adopted and later this will be extended to all the branches.

Improvements and repairs have been made at the Riverdale and Queen and Lisgar branches, and notwithstanding the fact that the city has appropriated for library purposes the lot on the corner of Ascot and Bloor avenues it has been decided that the temporary fire hall adjoining will be removed and the land on which it is situated be available for a park.

In reply to the question asked through one of the papers lately as to why the Beaches were not supplied with libraries, the answer was that this could not be done until the financial situation settled itself a little more than at present.

To accommodate the addition of some three hundred new titles to the J. Ross Robertson collection, five new sections have been ordered and the entire collection has been rearranged. Many out-of-town visitors viewed the collection during the summer.

Miss Jamieson of the cataloguing department has resigned in order to take up the work of teaching in the schools.

SCOUTS IDEA OF STATE CONTROL

Ocean Freight Rates Discussed by Writer in The London Times.

LONDON, Sept. 12.—(C.A.P.)—W. Black Noble, writing to The London Times, on the subject of Canadian freight rates, and with particular reference to the mission of Mr. H. I. Drayton, chairman of the Dominion Railway Board, who has met him, expressed the opinion that the Canadian Government would be adopting a sounder policy if instead of advocating state control of ocean rates, they would consider the question in a more general sense apart from the Canadian millers.

The contention is that the rate on flour is excessive as compared with grain, and that the existing preferential tariff is practically neutralized by the exorbitant rates on reworked goods.

He describes it as incredible that any body of right thinking men could entertain such proposals as are being put forward, namely:

1. That ocean carriers should be nationalized, and if necessary, be nationalized into the position of common carriers.

2. That the Canadian Government should form a fleet of vessels of their own for the conveyance of eastbound produce and westbound merchandise.

3. That powers under the three-mile limit of territorial jurisdiction should be exercised in connection with steamers trading to Canadian ports.

Subsidization Preferable. "It would be much better," concludes Mr. Noble, "if instead of spending money in establishing a state department, a very dilatory and inefficient method of attaining their object, they employed money in forming a fund for subsidizing the restriction of export and import facilities, an eventuality which, for a growing country like Canada, ought not to receive the most prompt consideration on the part of those entrusted with the management of her business."

REYES RESIGNS FROM CABINET

MEXICO CITY, Sept. 12.—(Can. Press).—Rodolfo Reyes, son of the late General Bernardo Reyes, one of the first victims in the revolt against Madero, resigned today from the ministry of justice in the cabinet of Provisional President Huerta.

The reason given by Reyes for his withdrawal was that the "policy of the president demands my separation."

It is said in some political circles that Reyes' name may be substituted for that of Jose Luis Riquelme who recently was named as the running mate of General Felix Diaz in the forthcoming presidential race.

Dr. Aureliano Urueta will probably leave the interior ministry in the near future for that of public instruction.

SWEDEN WILL HAVE ELECTRIC RAILWAYS

Government Engineers Now in Toronto Getting Ideas for Big Project.

UTILIZATION OF WATER POWERS PRESENT UNUSUAL ENGINEERING DIFFICULTIES.

Electrification of the State Railway of Sweden, which is government owned and has 2200 miles of steel, is to be undertaken, according to Carl O. Y. Montelius, assistant chief engineer, and Hugo M. Rahmber, electrical engineer, of Stockholm, of the Swedish State Railway, who have been commissioned by their government to make a tour of the principal countries of the world possessing power transmission plants, and who arrived in Toronto last night.

The first portion of the railway to be electrified will be that connecting the Kiruna Mountain, where the great mines of Sweden are located, to the frontier, a distance of 92 miles, they stated when interviewed by The World at the King Edward Hotel last night. This portion of the railway, situated in latitude 68, is the most northern roadbed in the world.

An Enormous Plan. Power for the electrification of the line is to be obtained from Porjus Falls, which is a third of a mile in width, and which has a fall of 150 feet. In this one of the greatest electrical feats yet attempted is to be undertaken. Owing to the severity of the winters at these falls, the temperature dropping to more than 60 degrees below the zero mark, the power could not be obtained in the usual manner because of the ice blockades. In order to overcome this difficulty an artificial lake is to be made at the top of the fall, which will be entirely closed in by a building. From this six shafts are to be sunk to a distance of 150 feet, at which depth the generators are to be located. After passing through the water when the water is let out through a tunnel to a point in the river below the falls.

It is expected to have this power plant ready for operation by next fall with a 30,000 horsepower capacity, which is afterwards to be increased to 100,000 horsepower. The present locomotives on this line under steam are able to haul a 1600-ton train at the rate of 7 1/2 miles an hour, while the system is electrified the engines will be able to haul at 2250-ton train on a 1 per cent. grade at a speed of 13 1/2 miles per hour with a 200-ton load.

So Contends Geary Regarding Cost of Widening Subway Under Viaduct.

OTTAWA, Sept. 12.—The decision of Mayor Scott's decision regarding the railway commission, that the city of Toronto should pay the additional cost necessary to widen by 12 feet the subway under the proposed Yonge street viaduct and increase its height from 14 to 15 feet, and the expense of leveling the approaches, all as requested by the city was the subject of an appeal to the city council today, when G. R. Geary, corporation counsel, argued that the decision was unjust and distinctly unfair.

This is the first appeal the city has brought before the city council, and Mr. Geary claimed that it was due to the injustice of Mr. Scott's decision. He pointed out that the city of Toronto, and the main thoroughfare of Toronto, and the road leading into that part of Ontario, he argued that the proposed height for width of the viaduct was sufficient, and that it was unfair to saddle upon Toronto the cost of rectifying a mistake. Part of the city's fire department equipment could not pass through the subway as at first agreed upon.

The board had admitted the necessity of the changes, and yet had saddled the entire cost on the city.

Wallace Nesbitt, for the C. P. R., and Judge Pilpen, for the C. N. R., argued that the railway board decision was upheld.

No decision was given by the cabinet.

NEW YORK MYSTERY CLEARS

HAVANA, Sept. 12.—(Can. Press).—Mrs. Lena Janin, who was supposed to have been murdered in New York, but body not up and thrown into the Hudson River, Yachtman, E. H. H. FIVE HUNDRED MILES OF ROAD ALREADY CONSTRUCTED IN NORTH

Minister of Lands Returns From Trip Thru Timiskaming With Enthusiastic Report of Work Accomplished by Road Commissioner Whitson.

THREE-QUARTERS OF A MILLION DOLLARS

Have already gone into the good roads of northern Ontario this year, under the direction of Commissioner J. F. Whitson. As a tangible result the settlers of these districts find 500 miles of splendid highway stretching before them, and a new record for the forwarding of crops everywhere has been set.

The party on tour included: Hon. Frank Cochrane, Senator Gordon G. T. Smith of Halleybury, R. T. Shillington, M.L.A. of Timiskaming; Albert Grigg, M.L.A. of Algoma; T. E. Simpson of Sault Ste. Marie, and other officials of the federal and provincial governments. They traveled 130 miles east on the Transcontinental to O'Brien into Quebec and then west to Winnipeg for 300 miles west of Cochrane lies a stretch of excellent farming country.

The minister became enthusiastic in his description of the scenery lying about the Algoma Central Railway running out of Sault Ste. Marie. The Algoma minister, in company with the others of the party, rode over a portion of the railway with President Chamberlain, and the situation was discussed.

Meadows, an early lead and maintained it pretty well throughout the whole race, gaining for the first quarter of the race a half-mile lead. This race was held, however, was cut down by Meadows in the second half-mile, when the race was nip-and-tuck until the end, when Meadows spurred ahead, winning by two yards.

HOW TO TREAT ALL SKIN TROUBLE

GREASY OINTMENTS NO USE—MUST BE CURED THROUGH THE BLOOD.

It is not a good thing for people with a tendency to have pimples and a blotchy complexion to smear themselves with greasy ointments. In fact they couldn't do anything worse, because the grease clogs the pores of the skin, making the disease worse.

When there is an irritating rash a soothing boric wash may help allay the pain or itching, but, of course, it doesn't cure the trouble. Skin complaints arise from an impure condition of the blood and will persist until the blood is purified. Dr. Williams' Pink Pills have cured many cases of eczema and skin diseases because they make new, rich blood that drives out the impurities, clears the skin and imparts a glow of health. The following proof is offered.

Fred Tremble, Guelph, Ont., says: "For ten years ago, I was afflicted with a severe case of eczema. My hands were so sore that I could not put them in water without the skin cracking open. I tried all sorts of ointments recommended for the trouble, but they did not do me a particle of good. I was told Dr. Williams' Pink Pills would cure the trouble, and began taking them. I took the pills steadily for six or eight weeks and they completely cured the trouble. This was several years ago, and I have never been bothered with it since."

Dr. Williams' Pink Pills are sold by all medicine dealers or by mail. Send for a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

I tried all sorts of ointments recommended for the trouble, but they did not do me a particle of good. I was told Dr. Williams' Pink Pills would cure the trouble, and began taking them. I took the pills steadily for six or eight weeks and they completely cured the trouble. This was several years ago, and I have never been bothered with it since."

Canning Tomatoes. HOW to can whole, ripe tomatoes, so they will keep their lovely color and rich flavor is a mooted question among even efficient housekeepers. Frequently tomatoes that should have come from the jars as fresh and sweet as the day they were canned misbehave shamefully and have a sharp acid taste or are flat, flavorless and dull colored.

Don't Be A Goop! SEIZED 7000 YARDS NET. BELLEVILLE, Sept. 12.—(Special.)—The Ontario Government fishery patrol steamer Navarcho arrived here last evening loaded down with full nets, which Captain Fleming and his crew seized at the gap and Adolphstown. These nets were being used in prohibited waters. The poachers were chased by Captain Fleming on the Navarcho, but their boat proved to be too fast, and after a long chase succeeded in getting away. Some 7000 yards of net was seized.

Rivals Her Daughter In Youthful Beauty. A well-known society matron whose youthful beauty so well preserved that she is regarded as her daughter's rival in this respect—though she does not pose as such—attributes her striking complexion chiefly to two things. She says: "I am convinced the creams, by overloading the skin and pores, tend to age the complexion. Mergolized wax has just the opposite effect. It keeps the pores clean, permitting them to breathe, and removes dead particles of cuticle which are constantly accumulating and give the complexion that faded look. Whenever my skin begins to get the least bit colorless, I go to my drugist's for an ounce of mergolized wax; I apply this lightly, like cold cream, for a week or so, washing off mornings. This is what keeps my complexion so fresh, white and velvety. The absence of wrinkles and flabbiness I owe to the use of a simple face bath prepared by dissolving one ounce of powdered exaltite in a half pint witch hazel. This keeps the skin 'tight' and firm."

Summer Resorts. The Muskoka Lakes season is fast drawing to a close—the fleets of jaunty pleasure boats are hastening to cover—the joyous shouts of bathing parties, the laughter of the tennis courts, the merry lilt of the dance, and the witchery of the nightly bonfire are all creeping away with the ghosts of the past.

But already many a mental part of eyes is being turned towards the joys to come in 1914. For nothing like this season's tourist traffic has ever been known in Muskoka, and greater things are promised for next season.

SATURDAY MORNING, SEPT. 13.

"AMATEUR THEORIZING"

Our neighbor, The News, is pleased to characterize some observations we recently made on the banking and currency situation in Canada as "amateur theorizing."

Now, The News has started over and over again that the additional circulation when the chartered banks are authorized to issue under the central gold reserve provisions of the new Bank Act is to be in form and substance something different from the bank notes now in general circulation.

The News is correct in saying that the United States national bank notes exceed in volume and amount the greenbacks now outstanding.

A national bank deposits United States bonds and receives from the government what are, in form, bank notes of the face value of ninety per cent. of the collateral so deposited.

The News was good enough yesterday to reprint the four propositions which we advanced as reasons for favoring a currency issued by the king or his government.

It is dangerous to invest money with absolute power over the paper money of the country, for they are not unlikely to confuse the monetary functions with the fiscal functions of the government.

All Canada is divided into two classes. One class comprises the people engaged in the banking business. This class, we suppose, does not include everybody who works around the bank but only the top-notchers.

Canadian bankers should die simultaneously we would have to go back to trade and barter like the Indians.

GARDEN CITIES AND SUBURBS. In whatever else Britain may be belated, and the cases are not so numerous as is usually believed on the authority of casual gossip, it has most certainly led the way in the provision of garden cities and garden suburbs.

The rapid increase in the number of garden cities and garden suburbs has been largely due to the activities of the Garden City Association and the sudden flood of enthusiasm over its work has proved somewhat embarrassing.

The Garden City Association was founded fourteen years ago and in 1902 formed the "First Garden City, Limited," with a capital of \$1,500,000.

People who deplore the increase in the price of milk ought to think over the facts before they say too much. When we used to pay five cents a quart for milk years ago, it was not all milk that was paid for.

FAST INTER-CITY LINE TAKES SHAPE

Tentative Agreement is Made for Hamilton-St. Catharines C. P. R. Extension.

ST. CATHARINES, Sept. 12.—(Special.)—A conference between the St. Catharines City Council and Norman M. Todd for the C.P.R. this afternoon resulted in terms being tentatively agreed upon for the beginning of the construction of the proposed fast electric line between Hamilton and St. Catharines by the C.P.R., six months after a bylaw is passed by the ratepayers of this city granting \$100,000 towards the cost of bridging the big gully of the old Welland Canal

at the entrance to St. Catharines. The company is expected to grant a two-cent passenger rate, give a service of four trains each way between the two cities and touch all intervening towns and villages in the fruit belt. The terms will go to the head office of the company at Montreal for consideration and if acceptance a bylaw will be submitted as soon as possible.

The company is very emphatic in announcing that this line will not be extended as far east as the Niagara River, but may later be extended to the neighboring towns of Merrickville and Thorold. A limit of two years is placed upon the time for the beginning of running operations.

TO PLAY LACROSSE TODAY IN CHICAGO ST. CATHARINES, Sept. 12.—The Athletic Lacrosse Club here today to play an exhibition game with the Calumet club in Chicago tomorrow. The Calumets expect to have a big revival of the Canadian national game in the Windy City next year.

WALLPOUR FOR INCOGNITI. PHILADELPHIA, Sept. 12.—When play in the cricket match between the Incongniti Club of London and the All-Philadelphia eleven was stopped by rain late this afternoon, the visitors were all out for 140 runs in their first innings, and the home team was expected to have a big revival of the game. Play will be resumed tomorrow.

RUGBY MEN GETTING DOWN TO CONDITION

Clubs Hold Workouts and Players Show Better Form —Notes and News.

Parkdale had another successful practice at Victoria College Rink last night and several new men put in an appearance. The players are getting down to real work and condition is the main object just now. The paddlers have got a lot of strong material right now and will stand watching. Among those out for the first time this year was Potticary, Duncan, Zimmermann, Smith, a quarterback from Parkdale, Birdall, another P.C.I. man, who weighs 180 pounds, made quite an impression. Platt, a wing man for Varsity II, was also in uniform. They will practice again this afternoon at 2.30.

T.R. & A.A. worked out at Aura Leo again last night, and are getting their boys in shape very rapidly. Ted White was out again. Several new men who displayed signs of prowess were on hand, including Len Grimshaw. They will hold a practice at 2.30 this afternoon.

All Central Y.M.C.A. players are asked to be at the club at 2 p.m. and they will proceed from there to the grounds.

Now M.A.A.A. come out with the statement that they have coaxed Eric Billington, recognized as the best kicking half-back in the Intercollegiate Union last year, to play for them. He had been back to McGill this year, and he would be a great prize for the winged wheelers. Capt. Arthur St. Brophy, who was reported to have decided to go south this year, may change his mind.

Queen's Rugby players are commencing to return. Jack Haaslet, the captain of the team; McLeod and Elliott Ellis are among the late arrivals.

Craig must have had a sudden change of feeling, since the O.R.F.U. meeting. He did the most hoarsest here than any other one of the delegates. His statements as to his loyalty and the loyalty of his brother players were emphatically stated, and he turned tail first.

The Argonauts held another hard practice at Rosedale last night, and Jack O'Connor and Binkley kept the boys at it for over an hour. They certainly have a big bunch of players to work with, and the veterans are expected to be out Monday.

Baird had another large turnout of pigskin chasers at Scarborough Beach last night and put in an hour's good practice, making the boys at it for over an hour. They certainly have a big bunch of players to work with, and the veterans are expected to be out Monday.

SAULT STE. MARIE Ont. Sept. 12.—(Special).—If the tone of the meeting held here last night in the interests of local option is any criterion it is evident that the Saull will soon be given an opportunity to vote upon the question. The meeting, which was well attended, was addressed by the Rev. Ben H. Spence of Toronto, secretary of the Dominion Alliance, and the Rev. W. J. Fady and Rev. H. J. Pritchard, both of whom have taken part in previous campaigns for local option in eastern towns.

When the vote was taken of the meeting it was as to whether a campaign should be put on the entire audience, with the exception of about a dozen people rose to their feet. There seems to be some doubt in the minds of the leaders of the movement as to whether they are going to be able to get a sufficient number of workers who will undertake to get the petition signed with the required number in order to be able to put on the campaign. The fact of the city's having such a large foreign population gives rise to the doubt as to whether or not the campaign would be successful.

BERLIN, Sept. 12.—(Special).—A verdict of accidental death was returned by the coroner's jury in the case of Albert Diekmeyer, who was killed Tuesday night by an automobile. The driver of the motor was exonerated.

WORK COUNTY ...AND... SUBURBS

INDICATION AGAINST TRUCKER IS HELD ON THEFT CHARGE

Alexander Gilmore Arrested for Thefts From G. T. R. in Ward Seven.

Alexander Gilmore 389 Weston road was arrested by Acting Detective Croome last night on a charge of theft from the G. T. R. premises in ward seven. Gilmore was a trucker in the employ of the company and when his vehicle was stopped by detectives they found about \$50 worth of goods, such as soap, perfume, clothing, etc. The company had been receiving complaints from merchants for some days past of frequent shortages in their shipments, and Detective Croome was put in charge of the investigation.

Gilmore is a Scotchman, 36 years old, and is married. He was locked up at No. 3 police station and will appear at the police court tomorrow.

NO WATER FOR A MONTH

Lake Would Take Thirty Days to Fill and Stream Would Dry Up Below the Dam.

A concrete dam which has just been completed across the Don river at Thornhill, to form a 30 acre artificial lake is likely to result in a law suit, G. H. Watson K. C. has secured an injunction from Justice Hodgins to prevent the builders of the dam, who are the Ontario Hydro Electric Power Commission, from proceeding with the dam until the case has been thrashed out in court.

In 1911, Mr. Watson purchased 156 acres and a residence on the east side of Yonge street, which is traversed by the Don river, and the stream in his opinion adds considerably to the attractiveness of the property. According to the engineers, who have been consulted, the flow of the river will be cut off for thirty days to flood the lake to a depth of from ten to eleven feet. They also claim that the flow of the river below the dam will be decreased to such an extent that the absorption of water in the bed of the lake.

At the property on which the proposed artificial lake is situated is right opposite Mr. Watson's place, and formerly belonged to Dr. Langstaff.

W. H. Jackson bought the property with the intention of forming the lake which could be used for pleasure purposes and possibly utilized as a water supply by residents in the neighborhood.

It was also intended that a power house would be built to provide a supply of electricity for the district.

Mr. Watson claims that the construction of the dam is a serious interference with property rights and is determined to fight the case to a finish.

The case is a complicated one by the fact that there was a dam in place thirty years ago, which was swept away, and although an attempt was made to reconstruct it ten years later it was never completed.

The fact that the bed of the proposed lake is very sandy soil would, the engineers believe, result in a large absorption of water as to materially decrease the flow of the river below the dam.

BRAMPTON TRUSTEE RESIGNS HIS SEAT

Board Disagreed Regarding New Public School—Election Next Wednesday.

J. H. Boulter has resigned from the Brampton board because the other members of the board will not agree to his proposal regarding the erection of a new school house to accommodate the children of the town.

STOVE FOUNDRY FOR OAKVILLE

Council Negotiating With New Industries—Langmuir Company Building.

The Langmuir Paint Company will start the erection of a stove foundry early next week, and intend to have it ready for business by Jan. 1.

During the past few weeks the council has been negotiating with various other industries, the most attractive proposition being a stove foundry which would employ from 50 to 60 hands.

A start will be made on the paving of the station road on Monday or Tuesday. There is about a mile of paving to be done from the station to Main street.

The Mayor and Council of Whitby visited Oakville a few days ago to inspect the new sewage disposal system. They were impressed with the work of the Oakville plant, and complete installing a similar improvement in Whitby at an early date.

NEW MARKET TO HAVE A CANADIAN CLUB

A special flower service will be held in St. Paul's Church on Sunday afternoon at 2.30. The scholars of the Sunday school are requested to bring bouquets of flowers.

"A Journey Thru the British Isles" will be the subject of an illustrated lecture to be given at the Christian Church next Tuesday evening.

QUICKSAND CAUSED TUNNEL ACCIDENT

Foreman Exonerated at Investigation—Timber Supports in Tunnel Too Light.

An investigation conducted last night into the accident in the tunnel being constructed by the Quigley Contracting Company at Lambton road when three men were injured by the caving in of the tunnel, has exonerated the foreman of the work, T. Clayton, who was also injured by the caving in.

The investigation was held by the police court, for clamping to kiss a girl against her will.

SIXTY DAYS FOR STEALING A KISS

Frank Vine Sentenced in County Court—May Be Deported.

Sixty days in jail was the sentence meted out to Frank Vine yesterday by Magistrate T. H. Brunton in the county police court, for clamping to kiss a girl against her will.

Mrs. Arthur of Weston, a school teacher in St. No. 6, Etobicoke, was the lady on whom the red and white pine timber was stolen.

Magistrate Brunton expressed the opinion that Vine was insane and repeatedly advised that he be deported when his term in jail expired.

This is not a large subdivision, and already many lots have been sold. These have not been bought for speculation, but by the individual on which to build his own home.

A buyer of this week is a gentleman known for his shrewdness and his intimate knowledge of real estate conditions. He buys to build a home for his own occupation.

Nearly all lots bought in Cliffside will be built on this fall or in the early spring. The district is surrounded with the beautiful homes of well-known citizens, and from every lot practically one may obtain a view of Lake Ontario and its magnificent expanse.

Saturday there will be a special sale of lots in Cliffside. Salesmen will be on the ground all day. Our motors will await you at corner Main and Gerrard Sts.—end of the civic car line. Phone Adelaide 3216 for appointment. Prices low. Terms easy.

This is a property small in size, where sales are brisk and the whole section will be closed out quickly. ACT TO-DAY.

RIVERCOURT

We today announce the crowning effort of our fifteen years of Real Estate Development.

AFTER years of experience and mature thought we have come to the conclusion that the only property that does not stagnate is that property owned and backed by a progressive firm, who are not only interested in the commission earned from the sale, but interested both morally and financially.

We Stay With Our Surveys

HELP develop—secure or install the necessary conveniences—help and encourage the builder—all with a view of improving the property and increasing the value—all going hand in hand to please and satisfy our clients.

-TODAY -- REVIEW DAY-

TODAY we want every public-spirited citizen who is interested and who believes in the great future of Toronto and the great expansion it must undergo to keep pace not only with the influx in population, but with the enormous industrial development, as well as taking her place as the great educational and financial centre of the expanding Dominion.

Rivercourt Harbor Improvement

THE Dominion Government, the City Council of Toronto, together with the Toronto Harbor Commission, are not only committed, but have already commenced work on a scheme which, when full import of its magnitude will be recognized by the average man in Toronto, will fairly startle him.

HOW TO GET THERE

THIS morning automobiles will leave the office, 70 King Street East, every half hour, and this afternoon they will be waiting for you at the end of the Broadview car line, corner of Danforth and Broadview Avenues.

TO prepare for this great development to the south, and for the numerous superintendents, managers, and executive officers who will be employed in the factories located in the industrial section, we are preparing at the head of the thoroughfares which lead directly from this great hive of industry, a residential section of the same character and class as Rosedale, in the centre of the city, and the "Hill District," in the west.

CHEAP LAND FOR WORKINGMEN

\$4 and \$5 PER FOOT Toronto Housing Company Survey

The Toronto Housing Company plan their big development on a property acquired to the west of Dawes road, between St. Clair and Eglinton avenues. The company intend to hold the larger portion of this property for their own use to build workingmen's houses, and the balance of the unsold portion of 65 acres is now being offered to the public on a basis which enables the purchasers to share in the profits accruing from the rise in value which is bound to occur in this section.

LOTS 30 FEET FRONTAGE CAN BE SECURED AT \$4 AND \$5 PER FOOT

Terms, \$5 down, \$5 on allotment, balance payable at \$5 per month

The Canadian Northern Railway are running a train at a rate of 25 cents return, leaving the Don Station, near Queen street, at 2.30 p.m., and returning at 4.30 p.m. today, Saturday, September 13th, giving prospective purchasers or others interested a chance to see the property. Tickets can be secured on the train, and representatives of the company will be on hand.

The above opportunity should be grasped now, as the lots are selling very rapidly, and will probably be sold out in a short time.

EXPANSION!

The Key Note of the Exhibition, and the Key Note of Toronto

Confidence, never dead, but held in restraint by tight money, has returned in greater strength.

Confidence in Toronto's Destiny

is growing into the assurance that TORONTO'S MILLION EXHIBITION is but the precursor of HER MILLION POPULATION.

BIRCHCLIFF HEIGHTS

THIS PROPERTY is being sold at \$10 per foot frontage up, in LOTS 25 feet by 135 to 150 feet on the EASIEST OF PAYMENTS.

That it will become valuable is beyond question. Besides it is ideal for a home, being the highest point around Toronto, 400 feet above the lake, with the most magnificent view of the entire city and surrounding country and Lake Ontario.

SALE OF PLOTS AT PRINCE GEORGE BRITISH COLUMBIA

SITUATED at the confluence of the Fraser and Nechaco Rivers in Central British Columbia, 450 miles north-east of Vancouver, B.C., and 467 miles east of Prince Rupert, B.C., or midway between Prince Rupert and Edmonton, Alta., on the main line of the Grand Trunk Pacific Railway.

By reason of its central location, Prince George will be the natural distributing point for the extensive territory comprised in the Pacific Province of the Dominion, and it has therefore long been the expectation of the general public that upon the completion of the Grand Trunk Pacific Railway, Prince George will early become a large and important centre.

Having purchased what was known as the Fort George Indian Reserve No. 1 for the purpose of locating a townsite thereon, the Grand Trunk Pacific Development Company Limited has caused the same to be surveyed and platted and will offer lots in this townsite for sale by public auction at Vancouver, British Columbia, Wednesday September 17th, 1913, and at Edmonton, Alberta, Wednesday, September 24th, 1913.

The terms of this sale will be one-quarter cash and the balance payable in one, two and three years with six per cent interest. For further particulars and plans apply to: G. U. RYLEY, Land Commissioner, Grand Trunk Pacific Railway Company, Winnipeg, Manitoba.

GIVEN, SUSPENDED SENTENCE. ST. CATHARINES, Sept. 12.—(Special.)—William Puleford, of Hamilton, aged 16 years, was found guilty today of stealing a horse at Grand Junction, Ontario, and was sentenced to three months in the reformatory, suspended for one year.

Eating Up Miles. NO place is far away to the owner of a motorcycle, for a motorcycle eats up distance like some people eat spaghetti—a mile at a mouthful. The owner of a motorcycle never has to worry about a place to go or how to get there. His machine will always open up new pleasures and new scenes for him. Now to enjoy all this you don't need a new machine. You just need a machine that will go. There are used machines in first-class condition being sold in this city every day. These machines still have a whole lot of pleasure and service in them. And, furthermore, you can get them for about half the price of a new machine. Now the place to find these second-hand motorcycles is in the Want Ad columns of this paper, under the heading of Motorcycles. Everybody having a motorcycle for sale advertises it in these columns to get a quick sale. Everybody who wants to buy a machine, reads these columns to get a good bargain. If you want one of these second-hand motorcycles, all you've got to do is turn to these Want Ad columns and look for it there. Just turn to these ads now. Go over them carefully. Pick out some of them and answer them. Investigate these offers. Do this day by day and you'll soon find a machine at a price that you can easily afford. Start today to read and answer these Want Ads, and you'll soon be "eating up the road" on a machine of your own. And every time you answer an Ad, please mention this paper. That's what keeps these columns full of bargains.

TORONTO MARKET IS FEELING GOOD

Spurt in Barcelona and Rise in C. P. R. Have Inspired Enthusiasm.

TRADING WAS ACTIVE

General Favorites Improved Their Position—Another Jump in B. C. Packers.

The inception of dealings in Barcelona and the rise in the C. P. R. have inspired considerable enthusiasm in financial circles. There was another bullish factor in evidence yesterday, namely, the sharp rise in Canadian Pacific in Wall Street and the combination proved considerable stimulus in the Toronto Stock Exchange. Early in the day there was another exhibition of buoyancy, and developed at the close this was not sufficient to detract from the splendid showing which had already been made.

The action of Barcelona, which continued to attract public interest. The shares opened at an over-night advance of better than a point at 28 3/8 and closed 28 3/4 in the early dealings, but the close was slightly below that, the last sale at 28 1/4, leaving a net gain of 1-8-8 points. The rise in London, which inspired the strength here, was set down as due to the operations of a pool which is understood to be operating in the stock.

A three-point rise in C. P. R., which sold up to 227 7/8 in New York and to 227 here, its highest since May, was attributed to the excellent crop reports from the west, which are just now beginning to attract notice across the border. It was said that a short interest had been built up recently and that the rapidity of the spurt was due to an attempt to cover. In the general list moderate firmness was the rule. Brazilian gained 3-8 of a point for the day at 92 3/4, no doubt in response to the rise in Barcelona. For the time being the South American traction issue has taken second place, and it is said that the building up of an interest in Barcelona may be at the expense of Brazilian. Cement was about a point higher at 24 1/2 with more talk of London buying. Dominion Canners rose to 70 3/4, a gain of a large fraction, and Dairymen sold up to 100, a one-point appreciation on news of the increased dividend several of the leading issues were prominent, notably Sawyer-Massey, which moved up to 30. Investment buying was behind the firmness in these securities.

Specialties in Limestone. Two spectacular movements in the specialties attracted attention. B. C. Packers jumped five points to 145 bid, its highest since April, and an advance of 15 points from last month's low record on favorable reports regarding the salmon run. Canada Salt, one of the inactive issues, sold at 125, comparing with 113 about a month ago, when the previous transaction occurred. This was its best price in years.

FARMERS WILL WANT THEIR MONEY EARLY

Crop Will Be on Market Sooner Than Usual in West This Year.

MONTREAL, Sept. 12.—A number of the bank managers in Montreal have admitted that there is a slowly improving tendency in collections. It is admitted that no marked change is looked for until the grain movement is well under way. The opinion prevails among bankers here that the western crop will be turned into money earlier than ever this season. Every effort will be bent to secure cash in exchange for grain. The banks are well prepared for this emergency, and the chances are that money will start a strong circulation earlier than usual. This should have its effects in helping collections to improve.

MANY GAINS IN MONTREAL LIST

C. P. R., Montreal Power and Laurentide in Front With Smart Advances.

STOCK BONUS ON U.P.

Street Evidently Believes Rumors Are Not More Than Airy Fiction.

MONTREAL, Sept. 12.—The encouragement offered by the general strength of the New York list and particularly by a resumption of the forward movement in C. P. R. resulted in a bull market of fairly imposing proportions. C. P. R., Montreal Power and Laurentide were the principal features with advances of three to four points in each case, but the general tone of the market was strong and few stocks failed to finish with substantial gains. The conspicuous laggards were Iron, which moved nervously and finished 1-1-2 lower on the day and Macdonald, which fell 3-4 to 27.

Heavy arbitrage business in C. P. R. between here and New York contributed to the large dealings in that stock, the turnover running over 2600 shares, the most active day in some weeks. With reactions of very small proportions, C. P. R. moved upward thru the day, touching 227 1-2 here and 227 7-8 in New York and finishing only fractionally off from the highest in the local market last sale at 227 1-4, a net gain of 3-1-4 points for the day.

NEW VEIN LOCATED AT "FARMERS' BANK" MINE

English Company, Working Keelley Property, Gets High-Grade Ore.

COBALT, Sept. 12.—The cutting of another high-grade vein, six inches in width, is reported from the Keelley prospect in South Lorrain. This is the same property which is said to have as much as an extended and to contain considerably less extent, underground expenses, much of the cash of the defunct Farmers' Bank.

The prospecting operations so far carried out by the British company, which on Dr. J. M. Bell's technical advice, has been proceeding since the working option this year, have been attended with successful results. Two miles of high-grade vein was cut in a crosscut from the 61 foot level of No. 1 shaft.

EVOLUTION OF THE DOM. CANNERS, LTD.

Interesting Booklet on Industry Building Issued by Toronto Broker.

An interesting booklet covering the history and operations of the Dominion Canners, Limited, is being distributed by John Stark and Co., Toronto, as number three of their series of brochures on "Industry Building." They go into detail concerning the evolution of the firm from the first step of consolidation in 1903, to the modern organization of the Dominion Canners, Limited, which was incorporated in 1910, when thirteen competing companies and Canadian Canners, Limited, were merged. Dominion Canners' financial record over a period of three years is given as follows:

Year	Assets	Liabilities
1910	\$1,235,377.50	\$1,192,262.15
1911	\$1,425,263.82	\$1,325,025.93
1912	\$2,744,747.97	\$2,574,725.22
1913	\$5,259,300.00	\$5,499,300.00

LONDON ANXIOUS OVER NEW LOANS

Public Confidence is Regained Slowly—Winnipeg Issue Held Back.

LONDON, Sept. 11.—Much relief is felt in financial circles at the mayor of Winnipeg's assurance that the Winnipeg \$10,000,000 loan is not intended to be thrown at once on the market, although Winnipeg is a favorite with British municipal investors. The latest borrower is the Australian State of Victoria, which is underwriting an issue \$10,000,000, four, at 98. It is hoped that the approaching close of the holidays and the apparent lessening of demands for money for British industrial requirements will see the penny take a more active interest in the markets. Some observers think they already decay evidences of investors being on the lookout for cheap and safe securities. The growth of public confidence, however, is likely to be gradual.

UNION PACIFIC LEADING SHARPER

New York Stocks Gave Impressive Exhibition of Strength Yesterday.

CHEAPER MONEY IS LIKELY IN ENGLAND

But Rates Will Probably Continue High Elsewhere, Argues The Economist.

NEW YORK, Sept. 12.—Union Pacific, which yesterday kept the stock market on edge for several days, outstripped its recent movement today by leading over five points. The price came within a shade of 140, showing a gain of 10 1/2 points since rumors of a cash distribution to stockholders were first reported. The advance in this stock much exceeded the average movement, the market showing a striking showing of strength. There were numerous gains of 2 to 3 points among the leading shares in the list.

The day's advance in the more impressive by the fact that there had been no bull news on which to base it. The rise apparently was due to the inherent strength of the market in its present position. Traders said that a steady accumulation of orders, much of it buying by small investors, had been going on for some time, reducing the floating supply. Bears who sold on recent developments which were construed unfavorably had built up a considerable short interest. With the market thus in a strong technical position, it required nothing more than the impulse supplied by the buoyant rise in Union Pacific to start the whole list upward. Bears found the advance vain, and there was no weakening throughout the day, save for an unimportant recession, due to realizing in the last half hour.

Forecast of tomorrow's bank statement were conflicting. They indicated that the week's movement of currency had not been important in net results. Primarily, his to the other side, the Dominion's crops, was exceptionally strong. The writer concludes by stating that there is a general feeling that Canada has found finance in London too simple, and that her natural enterprise has been over-encouraged. Argentina is not so popular, but she has been years ago, mainly because her railways have been less prosperous. In Mexico the illusion of a settled government has been shattered since the fall of Diaz, and the rate of interest has suddenly jumped to an almost prohibitive figure.

IDLE RAILWAY CARS ARE INCREASING

Unprecedented Demurrage for This Time of Year Reported by Association.

NEW YORK, Sept. 12.—The fortnightly bulletin of the American Railway Association states that on Sept. 1 there was a net surplus of idle cars on the lines of the United States and Canada of 11,425, an increase of 881 cars. The gross surplus was 24,425, compared with 24,257 on Sept. 14, 1912. The gross surplus of 24,425, an increase of 15,727, in the two weeks in question the net surplus of box cars increased from 30,940 to 35,410. The net surplus increased from 1255 to 8480.

SHORTS IN U. PACIFIC MADE RUN FOR COVER

Erickson Perkins & Co. (J. G. Beatty) wired: Most of the speculative interest today was in Union Pacific, which scored a spectacular advance over five points. A large part of the buying consisted of short covering and many stop orders were reached on the way up. The list in general was inclined to follow the leadership and additional gains being made in the important rails and industrials and also many specialties. The rise in Union Pacific was helped by the news that nothing would be done in regard to an investigation of the dissolution recently effected. The market closed strong and may be forced higher before we get a good reaction.

ANOTHER "WOLF" AT WORK IN WALL STREET

MONTREAL, Sept. 12.—Development work on a small couple of months ago on the Porcupine-Crown property, which gives promise of being a pocket edition de luxe of Crown Reserve, warrants the possibility of the stock being placed on a dividend basis at the end of the year, or very early in 1914.

EXTRA DIVIDEND ON SENECA SUPERIOR

Remarkable Record of Comparative New Cobalt Company—Extensive Ore Shipper.

The directors of the Seneca Superior Mines Limited have declared the usual monthly dividend to stockholders of record October 1, 1913, holders of record October 1, 1913, being the total payments to date up to 2 per cent. of the par value of the stock as follows:

Date	Dividend
Feb. 15	10 47,638
Apr. 15	10 47,638
June 15	10 47,638
Aug. 15	10 47,638
Oct. 15	12 1-2 59,547

CANADIAN PACIFIC HITS THE HIGH SPOTS

The continued strength of Canadian Pacific was the most prominent feature of the stock exchange yesterday. The shares, which had moved up from 222 to 224 1-2 on Thursday, were in strong demand and sold as high as 227 1-2 on Friday. The advance was checked, giving a net advance of nearly six points in two days. The buying was reported to be based on the excellent crops in the west, one despatch reporting a well informed interest as saying that the crop would not begin to move the crop now being harvested and threshed in its territory. The high level of 227 1-2, compared with a low of 219 1/4, for a month 21 1-4 in August and 208 1-4 in July, when 1909 to 1913, inclusive, the rate was two per cent. per annum.

CITY DAIRY DIVIDEND INCREASED ALL RIGHT

The directors of the City Dairy Company have declared a dividend at the rate of two per cent. on the outstanding capital stock, payable Oct. 1 to shareholders of record Sept. 15, in accordance with the announcement made at the time of the first meeting of the common stock, and the new offering of 227 1-2, compared with a low of 219 1/4, for a month 21 1-4 in August and 208 1-4 in July, when 1909 to 1913, inclusive, the rate was two per cent. per annum.

Beaver, Timiskaming and Trethewey All Went Higher—Big Stocks Steady.

That cheaper money is likely in Europe, but that rates will probably continue high elsewhere is the gist of a lengthy article in The London Economist on the extraordinary scale of borrowing by the newer countries of the world, notably Canada, Argentina, Brazil and Mexico.

The Economist argues that the attitude of the English capitalist is changing. "If the taps which supply capital to the new countries were suddenly turned off, the rate of interest, so far as they are concerned, would go up, and their development would be checked. This check would result in a slackening European trade, which has depended for its stimulus partly on their demand. The interest on past loans would have to be paid out of counterbalance export coupons. Thus we should have two causes working to the same end, a check to home trade, and a check to foreign borrowing; the combined effect might be to give us for some time in this country money rates which by the contrast with standard world rates, would be remarkably cheap." Lord Goschen published in 1865 an essay on 7 per cent, designed to show that money was likely to become permanently dear. Three years later he wrote an essay on 4 per cent, explaining why money had become permanently cheap. The two essays are now printed side by side as a warning to all lesser publicists not to pry too far into the future in considering the price of money. We do not overlook that warning, but it does seem as the prima facie case can be made out for the theory of cheaper money at home and dearer money abroad."

The general tone of prices was firm yesterday, and numerous issues improved their position. The movement was particularly interesting in that it embraced certain of the cheaper Cobalts which have been under pressure of late. Thus Timiskaming gained almost 2 points to 24 3-4, Trethewey 1 1/2 to 22 1-2, and Beaver 1 1/2 to 20 1-2, and all three were up a point for the day, and Beaver was in demand at 23, duplicating the recent high level, and comparing with a low of 26 1-2 last month. There was talk of early dividend payments on all these issues and the buying represented short covering inspired by such rumors.

The Porcupine, price changes were too narrow to call for much comment. The Lake hold between 20 1-4 and 20 1-2, being practically unchanged for the session. Swastika was down to 21 1/2, making a new low record in its history and comparing with 23 1-2 at the first of the year. This company has discontinued development work, pending improvement in the financial situation which will permit treasury stock to be sold to provide for the same. The company is working steadily and is giving satisfactory results.

The market was inactive, but the issues were steady to firm but inactive. Crown Reserve was a couple of cents higher, Kerr was up to 43 1/2, and Conlags at 77.8, slight improvement over the previous figures. Hollinger was unchanged at 116 bid.

NO REAL FEATURE IN MINING MARKET

General Tone Was Firm and Some Issues Improved. Their Position.

SPECULATION WAS DULL

Beaver, Timiskaming and Trethewey All Went Higher—Big Stocks Steady.

In so far as material price swings were concerned, the mining exchanges were practically featureless yesterday. Public interest in the dealings was at a low ebb, and even the professional traders were inclined to hold aloof pending the incoming of some new factor to inspire a more definite trend to sentiment. Meanwhile the buying demand and the tendency to sell stocks were both light, so that the market did little more than mark time throughout the session. Trading was quieter than usual.

A mining man who has played a prominent part in the various stock campaigns of recent years stated last night that he believed the odds were about evenly divided in the market. The bears appear to have about exhausted their ammunition, in fact they have pounded securities until there is scarcely one left in a position to feel the effect of their operations. Meanwhile the bulls lack initiative, and without an extensive public interest to back them up they fear to start any upward swing by going into the exchanges and bidding up prices. Financial conditions are gradually improving, and on that account there is a general idea that the next move will be toward higher quotations, but no one is in a position to predict just when it will commence.

Shorts Were Run in. The general tone of prices was firm yesterday, and numerous issues improved their position. The movement was particularly interesting in that it embraced certain of the cheaper Cobalts which have been under pressure of late.
