DEFECTIVE TIMBER CAUSE OF ACCIDENT

Jury's Verdict Regarding Death of Four Riveters at Cooksville.

WOOD CROSS-GRAINED Find Steel Company Liable for Failing to Provide Proper Material.

COOKSVILLE, Dec. 14.—The inquest into the death of the four riveters who were killed by the collapse of a scaffold here on Saturday, was concluded this evening before Coroner Dr. Sutton. The jury found that a defective piece of timber was responsible for the accident. The verdict was as follows: "That Andrew Webster, John Bowler, George Warner and Hugh McKenna came to their death from a defective piece of timber on the scaffolding on which they were working, which broke and caused the men to fall to the ground. We find the company in charge of the work, the Toronto Structural Steel Company, liable for failing to furnish a proper plan and suitable material for the scaffolding." C. Whitman, foreman of the gang of the Toronto Structural Steel Company, when examined by Crown Attorney W. H. Weir, would neither admit nor deny that there had been some conversation between himself and Andrew Webster regarding the safety of the scaffold around the new water tank of the Ontario National Brick Company.

Giving expert evidence regarding the safety of the structure, Mr. Fuller of the city architect's department produced a piece of wood to prove that some of the timber used was cross-grained, and therefore unsuitable for the purpose. Consequently he did not believe that the scaffold had been safe. Superintendent Percy Fleming of the Ontario Brick Company was present.

A. D. Armour of the firm of Armour & McKee, who was in charge of the work of the firm of Andrew Webster, one of the men killed.

FIVE CANDIDATES TO CONTEST WARD ONE

Ex-Ald. Yeomans Latest Arrival in the Field—Interesting Contest.

Now that ex-alderman Yeomans has announced his intention of running in ward one as an aldermanic candidate, there are five in the field. Alderman W. H. Hiltz, A. E. Walton, W. D. Robinson, W. E. Orr and Mr. Yeomans. Great interest is being taken in the general election of aldermen, and the candidature of Mr. Orr who was endorsed by the Beaches Association, the East Toronto Ratepayers' Association, the East End Ratepayers' Association. They claim they are entitled to have a man from their district in council and are working hard to make his election a certainty.

TO OPEN SOUP KITCHEN IN CEDARVALE DISTRICT

Organization Work Completed at Meeting of Committee Yesterday.

At a meeting held at the office of R. McMillan, the president of the Cedarvale Relief Committee, it was decided to open a soup kitchen in the basement of the church of the Resurrection, Woodbine Avenue, on Thursday, December 17th. First deputy reeve T. Griffiths and third deputy reeve R. Barker from the township council were present and after discussing the question thoroughly, intimated that the council would help them to alleviate the distress in the locality.

Donations have already been received from some public spirited residents but the committee hope that gifts of other money will be sent in, such as articles of clothing or groceries. Tickets will be issued by any of the following, after a thro' investigation of the case reported has been made: R. McMillan, 1312 Danforth Avenue; Rev. J. W. Storey of the Church of the Resurrection, 28 Meagher Avenue; A. G. Jennings, 45 Coleridge Avenue; A. E. Smith, 94 Gledhill Avenue; W. Prior, 35 Coleridge Avenue; P. Rowe, 124 Farrington Avenue; R. J. Green, 124 Gledhill Avenue; and the secretary-treasurer A. Blms, 50 Amrith Avenue. Bread and potatoes will be served with enough soup for each member of the family in distress.

The district looked after will be from the town line on the east to Greenwood Avenue, and from the railway tracks on the north to the city limits on the south.

WARD SEVEN ALDERMEN WILL SEEK RE-ELECTION

W. H. Weir, Who Made Good Showing Last Year, Will Also Be a Candidate.

The Young People's Association of St. John's Church entertained the branch of the A.Y.P.A. at St. Paul's, Runnymede, in the parish house, Dunlop Street, last night. After an excellent musical program the young people enjoyed a social evening with games and refreshments.

The early closing trail among West Toronto merchants is temporarily suspended until after the Christmas season, and the stores will remain open each evening until Christmas. The Wednesday afternoon closing is also discontinued until the new year.

TODMORDEN

The Todmorden Conservative Association will hold a euchre party and social in St. Andrew's Hall, Pope Avenue, tomorrow night. Two fine big turkeys are the first prizes in the euchre contest.

WASHINGTON IS IN A QUANDARY

Col. Goethal's Request for Destroyers Has Created Delicate Problem.

Canadian Press Despatch. WASHINGTON, Dec. 14.—Col. Goethal's reiterated request for destroyers for enforcing neutrality laws in the Panama Canal zone was the subject of conferences today between Secretary of War Garrison, Counselor for Lansing of the state department and Rear Admiral Fiske, chief of the navy's bureau of operations. No decision was reached, and it was indicated tonight that the result of the delicacy of the questions involved and the scant information furnished by Col. Goethal has been several days before any action was taken.

Secretary Garrison received a cablegram from Col. Goethal. Mr. Garrison said in Col. Goethal's judgment misuse of the radio communication within canal waters and the necessity of preventing in case of the zone as a base of supply by belligerents, required the presence of swift moving war vessels.

Use of Radio Outfits. At present the officials appear to believe that the Governor of the Panama Canal already has at his command ample power to enforce the neutrality laws and all of the regulations for the use of the canal.

Regarding the alleged use of radio outfits by British collars within the canal waters, the officials are trying to ascertain the extent to which this has been done. So far only one instance is said to have occurred and it is suggested that a warning against the repetition of the offence will be sufficient, without invoking a display of force.

DEFECTIVE GRATE CAUSED FIRE

Fire damaged a house at 88 Coleridge Avenue, owned and occupied by William Thom, to the extent of \$400 last night. The damage, the contents amounted to about \$30. The cause of the fire is said to have been a defective grate.

PRESENTATION TO REEVE GEO. SYME

Oakwood Associations Pay Tribute to Good Work Accomplished.

ILLUMINATED ADDRESS

Is Retiring From Council, But Still Interested in Public Affairs.

Oakwood Ratepayers' Association held Oakwood Hall last evening. The building was packed to the doors, and amongst those present were J. Lee, Warren, Reeve George Syme and members of the York Township Council, J. M. Warren, Cecil Roy, James Syme, Mount Dennis, George Syme, Sr., and others. An excellent program was presented by J. Lee, Victor and Stanley Butt, Fred Chaplin and W. Prior, 35 Coleridge Avenue. Reeve George Syme presented with a handsome memento by the members of the Oakwood Ratepayers' Association, President William Jarvis making the presentation.

William Jarwell, president of the Oakwood Liberal-Conservative Association, presented an illuminated address to the reeve on behalf of the association, referring to his long connection with township affairs and the good work he had accomplished.

Did His Best. Reeve Syme, in expressing his appreciation of the gifts, said he had performed his duties to the best of his ability during the five years he was a member of the York Township Council, and paid a tribute to the members who had worked with him for the good of the community.

Reviewing his work during the past five years, he said he was of the opinion that there was little use for small municipalities growing up around the City of Toronto. "I spend money in that way," he said, "and I am not sure that it is the best use of the money." He stated that the mayor was willing to supply water to the township, and it was now just a question of details. The council having submitted a plan to the city, if the water mains are large enough the city will supply water at cost price. If the water mains are required to be put in, the township will have to pay the extra cost. The ultimate end of the matter, however, said the reeve, "is to be annexed to the city."

Regarding street lights, the speaker advised the people to use the hydro, as the lighting of the streets could be done by the lighting question in the township is a bigger proposition than we thought.

In conclusion, Mr. Syme said that it was his intention to retire from public life and devote more time to his private affairs, although his interest in public affairs would be of a more advisory nature. He was accorded an ovation by the audience, who said "Shine on, you heroes, shine on, you heroes."

The other members of the council also delivered short addresses.

MOTORISTS WORRY TAXES MAY GO UP

Government Must Soon Decide Whether to Adopt Horsepower System.

TIME GETTING SHORT

If Authorities Decide on New System, Must Say by New Year's.

Motorists throughout the province are becoming a little anxious concerning the likely size of their fees for the year 1915. It is uncertain yet whether the government will follow the recommendation of the highway commission and institute a horsepower system, or whether the matter will stand over for a year allowing the license department to pursue the ordinary course. Premier Hearst was not in a position last evening to state what would be done but the proximity of the new year on which all licenses are renewed will call for an early decision.

Officials Don't Know. The Ontario Motor League officials do not expect that the change will be affected this week and point to the fact that the old forms are being issued. It is recognized however that the government way wet see fit to adopt the horsepower rating according to suggestion. This plan was presented by the commission as a possible source of nearly \$400,000 in revenue, the idea being that it be turned to the account of good roads. No objection was raised to the system by car-owners, although they thought the suggested scale excessive. The plan proposed the taxing of all low-power cars to below 20 h.p. at \$10 per car, and the figures were then scaled up to charge a maximum of \$100 per h.p. on powerful machines. The present rate is \$4 per car. It is understood that returns for next year are already coming in.

SEARCH FOR CLUES OF WHITBY SLAYER

Police Still Baffled in Investigations Into Shooting of William Stone.

LABORERS SUSPECTED

Italians to Be Questioned by Michael Basso—Victim's Funeral Held.

Several clues were investigated by the provincial and county police at Whitby yesterday in an attempt to trace the murderer of William Stone, the Grand Trunk night telegraph operator at Whitby station, who was shot early Saturday morning. So far the officers of the law have been baffled in securing any tangible evidence of the assassin. Several Italian laborers employed on the government farm and town sewer received the attention of the authorities, and Michael Basso, official interpreter, went to Whitby from Toronto yesterday to commence enquiries into the truth of the report that one laborer had a revolver the day before the crime with a calibre corresponding to the calibre of the revolver that shot William Stone.

Search For Plances. The police are also endeavoring to trace the Port Union young woman to whom, it is reported, the murdered man was engaged to be married. Stories of an unsuccessful rival to the girl's affections have been floating around, and the police desire to ascertain his identity. A search of some summer cottages near the bay was conducted yesterday without result. Signs of occupation by tramps were found, but nothing that threw light on the mystery.

Shot Fired From Window. It has been definitely established by a further investigation of the clothes worn by Stone on the night of the murder that the shot must have been fired from the ticket window, as there would have been powder marks on the cloth around the hole made by the bullet had the shot been fired at close range, which would have entailed the assassin being inside the ticket office. There are no traces of burns or powder marks on Stone's clothing.

The funeral took place yesterday afternoon from the home of the parents in Whitby. His brother, Edward Stone, of Washington, D.C., was present. The remains were removed from the house to St. John's Anglican Church, at the bay, where a public service which was attended by a large number of sorrowing friends was conducted by the Rev. Frederick Green of Whitby College, Toronto. Interment took place in the cemetery adjoining the church.

The Toronto World

Nothing like "Heart Throbs" has ever appeared before in any language. It was a genuine inspiration that seized Mitchell Chapple and led him to think of getting the real heart favorites in literature of 50,000 people and then putting those that had the majority vote into book-form. Others have selected those things that appealed to their own individual taste and published them in a volume. But their personal idiosyncrasies might or might not interest another living soul. "Heart Throbs," however is a collection made by thousands upon thousands of people, each sending in some favorite bit of verse or prose, and when more than 50,000 had been received, selecting those that proved the most popular, in other words, that had appealed to the greatest number of people of our common country. This measured popular taste by an infallible method. The result speaks for itself. These two handsome volumes will go down in history, as, next to the Bible, the greatest books ever published. They furnish more pleasure, more instruction, more mirth and laughter, more genuine heart interest than can be found elsewhere in the world today.

Two beautiful volumes, richly bound in seal grain limp binding, superb cardinal covers, stamped in gold. Red edges, round corners, an edition de luxe for this paper's readers.

\$10,000 were awarded the winners. Admiral Dewey and U. S. Senator W. B. Allison made the awards.

piece of work. The viaduct is undoubtedly the largest civic undertaking to be completed. The work is being done in real, involving \$4,000,000. A third of the huge work will be immediately done from Broadview to two other sections of the viaduct, and from the span from Castlement street, and from the viaduct to Bloor. The whole estimated to cost about \$1,000,000.

Unemployed. Material in its construction is being imported in large quantities from the United States. It is estimated that many of the unemployed are working on the viaduct which is the first improvement.

COMPANY PAYS DAMAGES Judgment at Osgoode Hall Favors New Ontario Farmer's Rights.

At Osgoode Hall yesterday, the appeal of the Ontario Colonization Company against the judgment of the chancery court awarding \$794 damages to L. A. Clement was dismissed with costs. Clement was a laborer employed by the defendant company upon his property at Jacksonburg until June 30, 1813, and had extra at the time of the colonization company built a house. On June 29th, 1813, it was alleged a fire was started for the purpose of clearing the land, and Clement's house, chaise and horses were destroyed. He himself sustained personal injuries. He entered an action against the company claiming \$2,750 damages, but at the trial was only awarded \$794 and costs. The case of King vs. Tedmarsh will come up for hearing in the appellate divisional court today.

A HISTORY FOR THE HOME IN FIVE HANDSOME VOLUMES.

Business Men, Students and Professional Men Unite in Enthusiastic Praise. In these days of the telegraph, telephone and rapid transit, time has become a desideratum more important than ever before. The historian, Larned, was the first to see the need in the acquisition of a knowledge of history, and he has supplied it to a degree of perfection never before attained. As a work of constant use in the home, for the business man, and his household, as well as the student, his "History of the World" is the best comparison the best ever written. We are in daily receipt of the praises of this character almost as a gift. We know when we undertook the distribution that it was affording a very unusual service to place in the homes of the people a work conceded to be the best of its kind. But the enthusiasm of our office far surpasses our anticipations. The only fear we now have is that the supply we were fortunate enough to contract for will not hold out. Every reader of today's paper is earnestly urged to lose no time in clipping these coupons that appear daily in these columns.

SNOW AND MISERY COME HAND IN HAND

Bite of Winter Makes Need for the Goodfellow's Help Acute.

CHILDREN NEED MITTS

And Many Need a Great Deal More to Face Cold In.

Now that the winter weather has come in earnest, and earth's white blanket has spread itself, there are many little boys and girls, fathers and mothers too, that are wishing it was summer time again, and that Old Sol were shining forth his comfortable rays. Shoes and stockings, warm and derelict, and comfortable outside garments are lacking in many homes, and in plenty of other homes there are lots of clothes that have been grown out of, or cast aside for some reason or other. It is these things Good Fellows are bringing out of hiding. Of course many of the Good Fellows will do more than that. They will provide baskets filled with all kinds of good things, but the vital thing just now is that all of the needy children throughout the city should be warmly clad and reasonably well cared for in the way of food.

A Chance to Use It.

That old thing of your own little folks or dress that you have put aside gives you an opportunity to become a Good Fellow forthwith, and you may be able to add to these baskets now and then in this way bring happiness and comfort to some worthy but unfortunate folk. This year the task of caring for Toronto's needy citizens is greater than it has been, and everything in the way of clothing, shoes, hats, and other conditions may be evened up. So that is a Good Fellow, take a look thru the list of things that you have on hand, and if you haven't got enough stuff to make another family more comfortable thru the winter months, a little knowledge goes a long way. You can't give your own to yourself the more.

Misunderstanding as to Ownership of Theatre Fittings Ended.

David Finkelshtein was found not guilty by Judge Coatsworth yesterday on a charge of obtaining \$988 from Jessy Weiner by false pretences. It was alleged, that he sold 400 chairs, a desk, and a typewriter, and a cinematograph machine, the property of the Weiner household, and represented that the pictures, being the contents of a picture property. His honor held that his own not make this representation, but only had a half interest in the lease and sale. As the sale had not been properly effected by either purchaser or vendor, a serious wrong was made and he would have to find Finkelshtein not guilty.

SNOW PLEASED KIDDIES AND BIG STOREKEEPERS

It Cost City Almost Four Thousand Dollars to Clear Four Inches.

Toronto had a real Canadian snow-storm yesterday, and especially in order to bless the storekeepers and the children whose sleds have been fairly clamping at the bit for a little coating, ever since father brought them (the sleds) up out of the cellar. Four inches fell, in twelve hours, yesterday, not hastily, but like one of these ram-bunctious wild west blizzards, or not sneaking down like the usual phantasmagoric Toronto drizzle—but a real, straightforward and gentlemanly snow-storm that did its work with care and pains, and then quit shortly before five.

Calls will be made in both directions, at San Diego, Los Angeles, and Honolulu.

PUBLIC MEN ENDORSE "Made In Canada" Idea

Men who have the welfare of the Dominion at heart realize what "Made in Canada" will do for it.

"I have given with great interest the campaign being so capably conducted in favor of the 'Made in Canada' idea and hope it will be as successful in results as the able and ingenious way in which its object has been placed before the country entitles it to be.

"I am viewing the matter, of course, entirely from the point of view of unemployment and the remedy which is to be applied therefor, and cannot rid myself of the conviction that one of the best remedies possible is that we who buy in Canada—and all of us buy more or less—shall make it a point wherever possible, and in most cases it will prove possible, to purchase for our needs what has been made by Canadian hands and of Canadian material. In this way we would considerably assist in the quick reduction of unemployment and the quick re-activating of production and trade."

SIR GEORGE E. FOSTER, Minister of Trade and Commerce.

"The movement is an especially patriotic one just now when so many of our people are unemployed, but, apart from this, it is quite obvious that the essential fabric of our own country, and

TUESDAY MORNING, DECEMBER 15

Lending Government Money

At the war session last August parliament gave its sanction to the principle of government rediscount thru an issue of national currency against the rediscounted securities as collateral. That is to say, the government was authorized to lend money to the banks upon collateral approved by the treasury board, and the money was to be found by an additional issue of Dominion notes. The act was referred to, among other things, provides:

In case of war, invasion, riot or insurrection, real or apprehended, and in case of any fuel or apprehended financial crisis, the governor-in-council may, by proclamation published in The Canada Gazette:

(a) Authorize the making of advances to the chartered banks and to the savings banks to which the Quebec Savings Banks Act, 1913, applies, by the issue of Dominion notes upon the pledge of securities, deposits with the minister of such kind and amount as may be approved by the treasury board; such advances to be repayable at such times as the board may determine with interest at a rate likewise determined by the board of not less than five per cent. per annum.

Under the Dominion Notes Act the government may issue Dominion notes to the amount of \$50,000,000 against a 25 per cent. gold reserve and any additional amount it sees fit against a 100 per cent. gold reserve. Under the act above quoted there may also be issued Dominion notes against approved securities deposited by the chartered banks, and our Ottawa correspondent wires that this national currency issued by way of loans to the chartered banks against collateral other than gold, now amounts to \$22,937,500.

We have not been favored with the November financial statement of the government, but it appears from The Canada Gazette that on Oct. 31 there were Dominion notes outstanding to the amount of \$146,792,222, of which there was available for redemption in the hands of the receiver-general only \$89,354,392 in gold. It is therefore a fair surmise that on that day national currency had been issued to the chartered banks by way of loan against commercial paper, or other rediscounted securities, amounting to \$57,437,830.

The government is to be commended for making the national credit available for the relief of business thru an additional issue of national currency, and we can only surmise why so little increase is to be noted since Oct. 31. The World would like to see the credit of the country freely loaned to the banks for the relief of business thru a larger issue of national currency against prime commercial paper and other good collateral. But we still believe that the principle will be best vindicated and satisfactorily worked out by a government bank of issue and rediscount.

The whole question may well engage the attention of parliament at the coming session, but in the meantime we are glad to see that the banks are rediscounting their securities and availing themselves of the national currency. We can only hope that the manufacturers, farmers, merchants and business men generally, whose paper is self-liquidating, are sharing in the accommodation which the government is extending to the banks.

Letting the Germans Out

It is better to be sure than sorry, and Judge Coatsworth was quite right to avoid any possibility of mistake in dealing with the case of Dr. Kohlmann, who, as a German citizen, had attempted to leave the country. It was Judge Coatsworth's business to stop just such departures, and he took some chances. Dr. Kohlmann had himself somewhat confused the situation by giving different accounts of his destination. He was to Spain, and next to Italy, with a prospect of Germany in view. However, the government has considered his case and

ANOTHER "SCRAP OF PAPER"

allows him to leave, perhaps having Dr. Kohlmann's counsel in mind.

Dr. Kohlmann should not be classed with the Germans who hang on to their jobs when public opinion is clearly against their going so. He resigned from his city hall position as soon as public opinion expressed itself. Similarly Mr. Tapper was the first at the university to show his sensitiveness and appreciation of a difficult situation, altho, as we have already said, we do not think Mr. Tapper should have been included with the anti-British and avowedly pro-German professors against whom public feeling was leveled. He has admitted his intention of settling in the United States, and is not on a par with the other three men mentioned at all.

For them there does not seem to be any active demand in the United States such as their alleged indispensableness here might have led the public to expect. As they are beyond the age for active military service, there will probably be no difficulty about passing them across the border on this side at all events.

No Single Tax in Canada

Controller McCarthy struck a long, loud, clear sounding note when he declared that the unearned increment should pay some share of the long term debts of the city. He was talking about car lines, and he considered that in spending \$1,250,000 the city had added \$5,000,000 to the value of the property thru which the lines ran. The first assessment reform, he concluded, would be when the province agreed to pay some of the debts out of the values which those debts created. There has been a great deal said about tax reform in recent years in Toronto. Much of it has been said in alleged discussion of single tax. Single tax has been ragged and bullied by thousands of people who do not know what single tax is, and it has been commended by almost as many more who do not seem to be any better informed.

No single tax measure has ever been proposed by anyone in Toronto, and perhaps by no one in Canada. Paying out of work is the kind of man that is determined to make into a busy producer. This is a problem for practical people. Now that winter is near, we can't afford to leave this problem to the charitable organizations. Canada is a poor land for organized charity. This is no country of slums. It is a land of self-helpers. Suppose that for every man, woman and child in Canada a hundred dollars were spent every year in buying Canadian goods. Total, \$800,000,000. This is more than the total amount of goods turned out of Canadian factories. That eight hundred millions of goods made means wages. Add that \$150,000,000 paid out in gross amount of money spent for Canadian goods and you add enough to keep the machine going as near as possible to a peak load. Bear in mind that every dollar spent for Canadian goods adds about 30 cents to the amount of money paid in wages for goods made in Canada. The man who gets the wages comes a partner with the man who buys the goods, to keep up the grand total of goods made by the workers of Canada, for Canada.

This is the practical side of self-help. It's the wages paid to the workers that represents the business done in the factories and the prosperity that affects everybody's pocket. BROKE THEIR PAROLE BUT WERE SENT BACK Two German Officers Ordered to Return to Bergen After Making Their Escape.

Special Direct Copyrighted Cable to AMSTERDAM, Dec. 14.—Two German officers who had been interned at Bergen, in the Dutch Province of North Brabant, and who made their escape from the country, despite the fact that they had given their parole, have arrived back from Germany, saying that they were ordered to return by the German authorities.

as he sees the need of many business-like moves that must be made in the near future, and his reference, while it has nothing to do with immediate issues, is timely, and indicates an active and far-reaching mind.

Big Things in a Big Way

At St. John, N.B., on Friday last, the new docks on Courtenay Bay were formally opened for shipping by Hon. Robert Rogers, minister of public works, who announced that he would immediately begin the construction of a new drydock, 1500 feet long. The city seems to have been on feet and Vice-President Bosworth of the Canadian Pacific announced that twenty steamer loads of hay and oats, purchased by the British and French Governments, would be shipped almost immediately from the port. The St. John harbor improvements, which made little headway, even under the friendly direction of Mr. Pugsley as minister of public works, have been completed on a big scale, in record time by his successor.

We may seem less appreciative, but the truth is that few of us realize the great transformation going on at the port of Toronto. Before long we ought to have a minimum depth of 35 feet of water in Toronto Bay. A basket bridge for street cars at the new western gap, great pleasure parks for the people reclaimed upon the west and manufacturing sites of great value upon the east. Today a thousand men are employed, and that number will be increased three and fourfold as the work progresses. The most powerful drive in the world (made in Toronto) is excavating 1000 cubic yards an hour, and discharging it for reclamation work 4000 feet away.

We do not in any way intend to minimize the credit that is due the city council, the harbor commissioners, the board of trade and many other people, but one fact stands out here, as it does at St. John, namely, the big work has been done in a big way since the present minister of public works came to the helm.

A NATION OF SELF-HELPERS.

The man that's able to work and is out of work is the kind of man that is determined to make into a busy producer. This is a problem for practical people. Now that winter is near, we can't afford to leave this problem to the charitable organizations. Canada is a poor land for organized charity. This is no country of slums. It is a land of self-helpers. The Civic Campaign

A new element, or rather an old one revived, will probably enter the civic campaign within a few days. The Municipal Improvement Association, which for some months past has been a moribund body, is at work again, and a few of the members who have been the life of the organization since its inception a few years ago, have again come to the front and are preparing to take an active interest in the present campaign. It is understood that interests behind the association are the prime movers in the effort to induce Hon. Thomas Crayford to change his mind and run for Ald. Smith finally decides to run again in ward six, it will be due him by the name gentlemen. It was the pressure brought to bear upon the M. I. P. that first got Mr. Smith in the field, and he is now vacillating between his desire to return to pre-empt his farm at Oakville and his loyalty to his friends in the association.

Curlers Are Playing on Keen Ice At Granite, Queen City and Lakeview

High Park and Parkdale Have Amalgamated— Annual Games on Christmas Day— Opening Friendly Contests.

The Granites broke into the curling column last night, their first of the year.

Queen City and Lakeview started last week with the Toronto and High Park, yet to hear from.

Eight rinks of Granite curlers enjoyed four good sheets in the centre of the floor.

At Queen City curling is a common occurrence, even this early.

At the Victoria Club, in Huron street, the Toronto curlers are still playing bridge.

Little Lakeview has the thickest ice of the lot, two inches in some places, and

Ontario—10 to 11.

Varsity—11 to 12.

St. Andrew's—4 to 5.30.

De La Salle—4.30 to 6.

St. Michael's College—4 to 5.30.

Ana Lee—5.30 to 8.

Victoria—10 to 11.30.

Bridewell—4.30 to 7.

Jack Brown, who played for the champion Toronto outfit last season, turned out with the Ontario yesterday morning and looked good.

London Free Press: Western University Hockey Club has been well grouped in the three associations.

Western University, Woodstock, Paris, Ingersoll, Brantford.

Canadian Soldiers Lose Playing English Rugby

Price Close to Half a Million Dollars—Gilmore Was Just a Trifle Too Late.

LONDON, Dec. 14.—Canadian soldiers from the first contingent suffered defeat in two Rugby games on Saturday, one being played at Richmond against the Public Schools' team, and the second against the 5th Gloucester Regiment at Queen's Club, near London.

The Richmond game, which attracted 4000 spectators, including many military men, who were in the city for the Christmas holidays, started off with a dash.

Grant, half-back, dropping a clever goal within five minutes of the kick-off. Hearty, the full-back, showed strong capabilities, playing a difficult goal from the touch-line near the finish of the game.

The Canadians were all out on the ball and tackled strongly. At half-time the score was 10 to 0 in favour of the Public Schools.

The second game, which was played at Queen's Club, near London, was also a hard-fought one. The Canadians were all out on the ball and tackled strongly.

UNION STOCK YARDS, Toronto

SUPPLY TOO BIG DEMAND FELL OFF

Prices at Union Stocks Yards Slacked Accordingly Yesterday.

REACTION ON LAST WEEK

Despite Large Numbers There Was Lack of Good Choice Cattle.

Receipts of live stock at the Union Stock Yards yesterday were 190 carloads, 4000 cattle, 180 sheep, 100 pigs, 1000 lambs and 320 calves. After the heavy receipts of last week the large number of cattle offered yesterday was more than double what was required.

There were not so many good to choice cattle as might have been expected, due to so large a number on sale, the bulk, as usual, being common and medium, as well as canners and cutters.

Trade was slow all day as the sellers were asking prices that were higher than what was reported that there were about 1800 still unsold.

Prices were certainly lower, but not much lower than they were on the 11th, and sellers' reports did not tally, but all agreed that prices were certainly lower.

Nearly all of the commission salesmen reported that there was a drop of 25 to 50 cents per carload for good to choice cattle, and 20 cents for canners and cutters; while on the other hand the buyers reported from 10 to 20 cents for good to choice, and about 15c lower on the canners and cutters.

Stockers and feeders, as well as milkers and springers, sold at about steady prices. Sheep, lambs and hogs were unchanged.

Butcher's Cattle. Choice steers sold at \$23 to \$24.45, but one load at the latter price; good to \$21 to \$22; medium, \$19.75 to \$21.25; common to medium, \$18.50 to \$19.75; common butcher's steers and heifers, \$18 to \$19; choice cows, \$18.50 to \$19; good cows, \$17 to \$18.50; medium, \$16.50 to \$17; butts, \$15 to \$17.

Wolfe's Aromatic Schiedam Schnapps

the most healthful spirit obtainable, and the very best stimulant for general use.

As a pick-me-up tonic and digestive Wolfe's Schnapps is always opportune, exercising the most beneficial effect on the liver, kidneys and other organs.

Distributors: H. HOWARD & CO. 49 Front Street East, Toronto.

Wheat and Corn Prices Suffer After Early Firmness.

Unexpectedly, an enlargement of the visible supply of wheat and corn in the market after a steady decline.

Higher quotations at Liverpool had given the wheat market a decided lift at the outset. Besides, it was disclosed that breadstuffs were going to Great Britain from Montreal much more liberally than had been reported.

Other wheat news showed that Northern American shipments to Italy were also being reported.

Corn was affected. An increase of the visible supply. At first, there was sympathy for prices was up, but in sympathy with grain.
